PROXY STATEMENT

2006 ANNUAL MEETING OF STOCKHOLDERS

Nextest Systems Corporation (the Company) is furnishing this Proxy Statement and the enclosed proxy in connection with the solicitation of proxies by the Board of Directors of the Company for use at the Annual Meeting of Stockholders to be held on October 24, 2006, at 1:00 p.m. local time, at the Company's headquarters located at 1901 Monterey Road, San Jose, California 95112, and at any adjournments thereof (the Annual Meeting). These materials are being mailed to stockholders on or about September 27, 2006.

Only holders of the Company's common stock as of the close of business on September 14, 2006 (the Record Date) are entitled to vote at the Annual Meeting. Stockholders who hold shares of the Company in street name may vote at the Annual Meeting only if they hold a valid proxy from their broker. As of the Record Date, there were 17,513,178 shares of common stock outstanding.

A majority of the outstanding shares of common stock entitled to vote at the Annual Meeting must be present in person or by proxy in order for there to be a quorum at the meeting. Stockholders of record who are present at the meeting in person or by proxy and who abstain from voting, including brokers holding customers' shares of record who cause abstentions to be recorded at the meeting, will be included in the number of stockholders present at the meeting for purposes of determining whether a quorum is present.

Each stockholder of record is entitled to one vote at the Annual Meeting for each share of common stock held by such stockholder on the Record Date. Stockholders do not have cumulative voting rights. Stockholders may vote their shares by using the proxy card enclosed with this Proxy Statement. All proxy cards received by the Company which are properly signed and have not been revoked will be voted in accordance with the instructions contained in the proxy cards. If a signed proxy card is received which does not specify a vote or an abstention, the shares represented by that proxy card will be voted for the nominees to the Board of Directors listed on the proxy card and in this Proxy Statement and for the ratification of the appointment of PricewaterhouseCoopers LLC as the Company's independent registered public accounting firm for the fiscal year ending June 30, 2007. The Company is not aware, as of the date hereof, of any matters to be voted upon at the Annual Meeting other than those stated in this Proxy Statement and the accompanying Notice of Annual Meeting of Stockholders. If any other matters are properly brought before the Annual Meeting, the enclosed proxy card gives discretionary authority to the persons named as proxies to vote the shares represented by the proxy card in their discretion.

Under Delaware law and the Company's Amended and Restated Certificate of Incorporation and Bylaws, if a quorum exists at the meeting, the affirmative vote of a plurality of the votes cast at the meeting is required for the election of directors. A properly executed proxy marked

Withhold authority with respect to the election of one or more directors will not be voted with respect to the director or directors indicated, although it will be counted for purposes of determining whether there is a quorum. For the auditor ratification proposal, the affirmative vote of the holders of a majority of the shares represented in person or by proxy and entitled to vote on the item will be required for approval. A properly executed proxy marked Abstain with respect to the auditor ratification proposal will not be voted, although it will be counted for purposes of determining whether there is a quorum. Accordingly, an abstention will have the effect of a negative vote.

For shares held in street name through a broker or other nominee, the broker or nominee may not be permitted to exercise voting discretion with respect to some of the matters to be acted upon. Thus, if stockholders

do not give their broker or nominee specific instructions, their shares may not be voted on those matters and will not be counted in determining the number of shares necessary for approval. Shares represented by such broker non-votes will, however, be counted in determining whether there is a quorum.

A stockholder of record may revoke a proxy at any time before it is voted at the Annual Meeting by (a) delivering a proxy revocation or another duly executed proxy bearing a later date to the Secretary of the Company at 1901 Monterey Road, San Jose, California 95112 or (b) attending the Annual Meeting and voting in person. Attendance at the Annual Meeting will not revoke a proxy unless the stockholder actually votes in person at the meeting.

The proxy card accompanying this Proxy Statement is solicited by the Board of Directors of the Company. The Company will pay all of the costs of soliciting proxies. In addition to solicitation by mail, officers, directors and employees of the Company may solicit proxies personally, or by telephone, without receiving additional compensation. The Company, if requested, will also pay brokers, banks and other fiduciaries who hold shares of Common Stock for beneficial owners for their reasonable out-of-pocket expenses of forwarding these materials to stockholders.

DIRECTOR NOMINATION

Criteria for Board Membership. In selecting candidates for appointment or re-election to the Board, the nominating/corporate governance committee (the nominating committee) considers the appropriate balance of experience, skills and characteristics required of the Board of Directors, and seeks to insure that at least a majority of the directors are independent under the rules of the Nasdaq Stock Market, and that members of the Company's audit committee meet the financial literacy and sophistication requirements under the rules of the Nasdaq Stock Market and at least one of them qualifies as an audit committee financial expert under the rules of the Securities and Exchange Commission. Nominees for director are selected on the basis of their depth and breadth of experience, integrity, ability to make independent analytical inquiries, understanding of the Company's business environment, and willingness to devote adequate time to Board duties.

Stockholder Nominees. The nominating committee will consider written proposals from stockholders for nominees for director. Any such nominations should be submitted to the nominating committee c/o the Secretary of the Company and should include the following information: (a) all information relating to such nominee that is required to be disclosed pursuant to Regulation 14A under the Securities Exchange Act of 1934 (including such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected); (b) the names and addresses of the stockholders making the nomination and the number of shares of the Company's common stock which are owned beneficially and of record by such stockholders; and (c) appropriate biographical information and a statement as to the qualification of the nominee, and should be submitted in the time frame described in the Bylaws of the Company and under the caption, "Stockholder Proposals for 2007 Annual Meeting" below.

Process for Identifying and Evaluating Nominees. In the ordinary course, absent special circumstances or a material change in the criteria for Board membership, the nominating committee will renominate incumbent directors who continue to be qualified for Board service and are willing to continue as directors. If an incumbent director is not standing for re-election, or if a vacancy on the Board occurs between annual stockholder meetings, the nominating committee will seek out potential candidates for Board appointment who meet the criteria for selection as a nominee and have the specific qualities or skills being sought. Director candidates will be selected based on input from members of the Board, senior management of the company and, if the nominating committee deems appropriate, a third-party search firm. The nominating committee will evaluate each candidate's qualifications and check relevant references; in addition, such candidates will be interviewed by at least one member of the nominating committee. Candidates meriting serious consideration will meet with all

members of the Board. Based on this input, the nominating committee will evaluate which of the prospective candidates is qualified to serve as a director and whether the committee should recommend to the Board that this candidate be appointed to fill a current vacancy on the Board, or presented for the approval of the stockholders, as appropriate.

The Company has never received a proposal from a stockholder to nominate a director. Although the nominating committee has not adopted a formal policy with respect to stockholder nominees, the committee expects that the evaluation process for a stockholder nominee would be similar to the process outlined above.

Board Nominees for the 2006 Annual Meeting. Each of the nominees listed in this Proxy Statement are current directors standing for re-election.

DIRECTOR COMPENSATION

During fiscal 2006, our non-employee directors received a cash director fee for their services as members of the Board in the amount of \$12,000 per year. In addition, the audit committee chairman received a cash fee of \$5,000 per year, the compensation committee chairman received a cash fee of \$2,500 per year, and the nominating and corporate governance committee chairman received a cash fee of \$1,000 per year. Based on a market assessment performed by an independent compensation consultant and effective for our 2007 fiscal year, the Board approved an increase to the cash director fees paid to our non-employee directors to the amount of \$30,000 per year and an increase in the director fees paid to the audit committee chairman to \$10,000, the compensation committee chairman to \$5,000 and the nominating and corporate governance committee chairman to \$2,000. In addition, in September 2005, we granted to each of our non-employee directors a stock option to purchase 1,500 shares at an exercise price of \$5.00 per share that vest in four equal installments over four years beginning on October 1, 2006. To address the impact of these grants arising from the recently enacted IRC Section 409A, in December 2005, the Company modified such options to increase their exercise price to \$5.88, the fair value at the time of grant. Our 2006 Equity Incentive Plan provides that each non-employee director who is elected or appointed to the Board for the first time will be granted an option to purchase 10,000 shares vesting in four equal annual installments, and that commencing with this annual meeting, each non-employee director will receive an annual grant of an option to purchase 5,000 shares vesting on the first anniversary of the date of grant. Each such option granted to a non-employee director will have an exercise price equal to the fair market value of the stock on the date of grant.

Indemnification Agreements

Edgar Filing: NEXTEST SYSTEMS CORP - Form DEF 14A

We have entered into indemnification agreements with our directors and executive officers. Such agreements require us, among other things, to indemnify our officers and directors, other than for liabilities arising from willful misconduct of a culpable nature, and to advance their expenses incurred as a result of any proceedings against them as to which they could be indemnified.

Employment Agreements and Change of Control Arrangements

In October 2002 we granted each of Messrs. Moniz and Moriarty a stock option to purchase 17,500 shares of common stock and Mr. Foster a stock option to purchase 52,500 shares of common stock. In October 2003 we granted each of Messrs. Adler and Marshall a stock option to purchase 80,000 shares of common stock, each of Messrs. Each of these stock options vests subject to continued employment, however the vesting of these stock options accelerates in the event that we are acquired or merged into another corporation and if the individual is not offered an equivalent position with the new company.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The compensation committee operates under a written charter adopted by the Board of Directors. The purpose of the compensation committee is to assist the Board in the discharge of its responsibilities relating to executive and director compensation, and to oversee incentive, equity-based and other compensatory and benefit plans in which executive officers and key employees of the Company participate. The current members of the compensation committee are Juan A. Benitez (chairman), Richard L. Dissly, Stephen G. Newberry and Eugene R. White, each of whom is a non-employee director within the meaning of Section 16 of the Securities and Exchange Act and an outside director within the meaning of Section 162(m) of the Internal Revenue Code. In performing its duties, the compensation committee reviews reports and recommendations presented by management, and from time to time considers information obtained from outside firms or consultants to assist it in the review of compensation levels, structure and design.

General Compensation Philosophy

Our philosophy in setting compensation policies for our executive officers is to maximize shareholder value over time by aligning the interests of our executive officers with those of our shareholders. To achieve this goal, we attempt to (i) provide competitive compensation opportunities to attract and retain superior executive talent, (ii) directly and substantially link a significant portion of the executive's total compensation to measurable corporate and individual performance, and (iii) fairly reward our executive team for their contributions to our performance and shareholder value creation so that executive pay aligns with company performance to a significant degree. The compensation committee currently uses base salary, annual cash incentives and stock options to meet these goals.

Base Salary and Cash Bonus

Base salaries for new management employees are determined initially by evaluating the responsibilities of the position held and the experience of the individual, and by reference to the competitive marketplace for managerial talent, including a comparison of base salaries for comparable positions at similar companies of comparable industry, size and capitalization. Annual salary adjustments are determined by evaluating the competitive marketplace, the performance of the Company, the performance of the executive and the operational areas of the Company for which the executive is responsible. Based on a market assessment conducted on the compensation committee's behalf by an independent compensation consultant, the compensation committee believes that executive officer base salaries (other than the CEO) were positioned at approximately the market 50th percentile in fiscal 2006.

Cash bonus awards are based on the performance of the executive, and the performance of the Company. Historically, the compensation to be paid to any individual executive has not been based on any particular mathematical formula. Rather, the compensation committee reviews objectives, accomplishments, performance and compensation as a whole for each executive (and all executives), as well as the recommendations of the Chief Executive Officer with respect to other executives, and makes appropriate compensation determinations in the exercise of its business judgment.

Equity Compensation

Historically, the compensation committee has delivered equity-based compensation in the form of stock options to align the interests of executives with the long-term interests of the Company's stockholders by encouraging executive officers to acquire a proprietary interest in the Company. The compensation committee further believes that the use of vesting periods encourages retention of executive officers, and accordingly stock options granted to executive officers generally vest over time. Historically, stock options have been granted to executive officers on a discretionary basis, at varying times and in varying amounts, with an exercise price that is equal to the market price of the Company's common stock at the time of grant. The size and timing of each actual grant is based on a number of factors, including the Company's achievement of specific milestones, the individual's level of responsibility, the amount, exercise price and term of options already held by the individual, the individual's contributions to the achievement of the Company's financial and strategic objectives, and industry practices and norms.

The compensation committee has been carefully studying the impact of Financial Accounting Standard 123R on our equity program, as well as how competitive equity program practices have been evolving. The compensation committee intends to continue monitoring competitive equity compensation practices and may make appropriate future adjustments to our equity program, including formalizing the timing and structure of our equity award grant practices and using full-value share awards.

Other Benefits

In addition to the cash and equity compensation discussed above, we also provide executive officers with the following benefits on the same terms and conditions under which they are made available to non-executive employees:

Health Insurance,

Life Insurance,

Eligibility to participate in our Employee Stock Purchase Plan (if and when implemented), and

Participation in our 401(k) plan.

Chief Executive Officer's Compensation

In fiscal 2006, Robin Adler, the Company's Chief Executive Officer, received a salary increase of approximately 9% over his 2005 salary. The committee believes that Mr. Adler's salary is currently below the mid-range of salaries for chief executive officers of other public technology-based companies of similar size and in the same geographic region as the Company. In 2006, Mr. Adler provided strong leadership to the Company in its achievement of strategic and financial objectives. The committee met in September 2006 and increased the salary of Mr. Adler by 12%.

Effect of Section 162(m) of the Internal Revenue Code

The compensation committee has considered the potential impact of Section 162(m) of the Internal Revenue Code on the compensation paid to our executive officers. Section 162(m) disallows a tax deduction for any publicly held corporation for individual compensation exceeding \$1.0 million in any taxable year for the Chief Executive Officer and any of the four other most highly compensated officers. However, certain performance based compensation is specifically exempt from the deduction limit. We have adopted a policy that, where reasonably practicable and consistent with our business and compensation goals and objectives, we will seek to qualify variable compensation paid to our executive officers for an exemption from the deductibility limitations of Section 162(m) while maintaining a competitive, performance-based compensation program.
