Item 7.01. Regulation FD Disclosure

Tempur-Pedic International Inc. (the Company) has recently communicated a product update to its U.S. retail accounts. In the communication, the Company noted it has been experiencing spot shortages of certain mattress models due to strong consumer demand. The Company also noted its Virginia manufacturing facility is running at full capacity and that its new manufacturing facility in New Mexico is operational. The ramp-up to date of the New Mexico facility has been relatively smooth, and the Company has substantially accelerated the New Mexico production schedule to help build inventory and eliminate backorders. The Company currently anticipates continued spot shortages for several weeks.

The information in this report shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liability of that section, and shall not be incorporated by reference into any registration statement or other document filed under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.
