ANNUAL REPORT

Enclosed is our Annual Report to Shareholders for the year ended December 31, 2006, including our audited financial statements. The Annual Report to Shareholders does not form any part of the material for the solicitation of proxies.

OUTSTANDING COMMON STOCK

Only shareholders of record at the close of business on April 12, 2007 are entitled to notice of, and to vote at, the meeting and any adjournment(s) thereof. At April 12, 2007, we had outstanding and entitled to vote 4,745,481 shares of our common stock and 10,198 shares of our preferred stock.

QUORUM; VOTING

The presence, in person or by proxy, of the holders of a majority of the outstanding shares of our common stock is necessary to constitute a quorum at the meeting. Abstentions and broker non-votes (i.e., shares held by brokers or nominees that are represented at the meeting but with respect to which they have no discretionary power to vote on a particular matter and have received no instructions from the beneficial owners thereof or persons entitled to vote thereon) will be counted in determining whether a quorum is present at the meeting. If a quorum is not present or represented at the meeting, the shareholders entitled to vote thereat, present in person or represented by proxy, have the power to adjourn the meeting from time to time, without notice other than an announcement at the meeting, until a quorum is present or represented. At any such adjourned meeting at which a quorum is present or represented, any business may be transacted that might have been transacted at the meeting as originally notified.

On all matters (including election of directors) submitted to a vote of the shareholders at the meeting or any adjournment(s) thereof, each holder of our common stock will be entitled to one vote for each share of our common stock owned of record by such shareholder at the close of business on April 12, 2007. Cumulative voting is not permitted in the election of our directors.

Proxies in the accompanying form that are properly executed and returned and that are not revoked will be voted at the meeting and any adjournment(s) thereof and will be voted in accordance with the instructions thereon. Any proxy upon which no instructions have been indicated with respect to a specified matter will be voted according to the recommendations of our board of directors, which are contained in this proxy statement. Our board of directors knows of no matters, other than those presented in this proxy statement, to be presented for consideration at the meeting. If, however, other matters properly come before the meeting or any adjournment(s) thereof, the persons named in the accompanying proxy will vote such proxy in accordance with their judgment on any such matters. The persons named in the accompanying proxy may also, if they believe it advisable, vote such proxy to adjourn the meeting from time to time.

Each matter submitted to the shareholders requires the affirmative vote of a majority of the shares entitled to vote and present in person or by proxy. Abstentions and broker non-votes shall not be counted as a vote for or against any proposal.

REVOCATION OF PROXY

You have the power to revoke your proxy at any time before the shares it represents are voted. A revocation will be effective upon receipt, at any time before the meeting is called to order, by our Secretary of either (a) an instrument revoking your proxy or (b) a proxy duly executed by you bearing a later date than the preceding proxy. Additionally, you may change or revoke a previously executed proxy by voting in person at the meeting.

Should any nominee for director become unwilling or unable to accept nomination or election, the proxies will be voted for the election, in his or her stead, of such other persons as our board of directors may recommend or our board of directors may reduce the number of directors to be elected. Our board of directors held seven meetings during 2006, and each director attended at least 75% of (a) the total number of our board meetings held during 2006 (or, if shorter, during the period he or she served as a director) and (b) the total number of meetings held by all committees of the board on which he or she served during 2006 (or, if shorter, during the period he or she served as a director). It is the policy of our board of directors to hold an executive session without the presence of management at each board meeting.

BOARD COMMITTEES; CORPORATE GOVERNANCE

General

There are currently eight members of our board of directors, including five directors who the board has determined to be independent under Rule 4200(a)(15) of the Nasdaq listing standards.

Our board of directors has an audit committee, a compensation committee and a nominating committee. Our board of directors has adopted a written charter for each of these committees.

Board Meetings

In regard to directors' attendance at annual shareholders meetings, although we do not have a formal policy regarding such attendance, our board of directors encourages all board members to attend such meetings, but such attendance is not mandatory. All of our board members attended the 2006 annual shareholders' meeting. In addition, our board of directors holds its regular annual meeting immediately following the annual shareholders' meeting.

Audit Committee

Our board of directors has an audit committee that, during 2006, consisted of three directors, Mr. Little, Mr. Majors and Ms. Williams. Dr. Knight was appointed to the committee in April 2007. The chairperson of the committee is Ms. Williams. Our board has determined that the committee members are independent as defined in Rule 4200(a)(15) of the Nasdaq listing standards. In addition, our board has determined that the committee members meet the independence standards set forth in Rule 10A-3(b)(1) of the Exchange Act. Our board has further determined that Ms. Williams is an audit committee financial expert as such term is defined in Item 401(h) of Regulation S-K promulgated by the Securities and Exchange Commission, or the SEC. The audit committee held six meetings during 2006. Members attended all meetings. The audit committee meets with our independent auditors, reviews our financial statements, and selects our independent auditors for each fiscal year.

The audit committee's policy is to pre-approve all audit and permissible non-audit services provided by our independent auditors. Pre-approval is generally provided for up to one year and any pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The audit committee has delegated pre-approval authority to Ms. Williams when expedition of services is necessary.

Compensation Committee

Our board has a compensation committee, which in 2006 consisted of three directors, Mr. Little, Mr. Majors and Ms. Williams, all of whom are independent directors as defined in Rule 4200(a)(15) of the Nasdaq listing

standards. The chairperson of the committee is Mr. Majors. The compensation committee held three meetings during 2006, with all members attending. The compensation committee recommends to the board the compensation of our executive officers and directors.

Nominating Committee

Our board of directors has a nominating committee that assists the board in identifying qualified individuals to become directors. During 2006 the committee consisted of three members, Mr. Little, Mr. Majors and Ms. Williams, all of whom are independent directors as defined in Rule 4200(a)(15) of the Nasdaq listing standards. Dr. Peche was appointed to the committee in April 2007. The chairperson of the committee is Mr. Majors. The nominating committee held one meeting in 2006.

The nominating committee identifies nominees by first evaluating the current members of the board who are willing to continue in service. Current members of the board with skills and experience that are relevant to our business and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by existing members of the board with that of obtaining a new perspective. If any member of the board does not wish to continue in service or if the nominating committee decides not to recommend a member for re-election, the nominating committee will identify the desired skills and experience of a new nominee in light of the criteria below. Research may be performed to identify qualified individuals. To date, the nominating committee has not engaged third parties to identify or evaluate or assist in identifying potential nominees, although it may do so in the future if it considers doing so necessary or desirable.

The consideration of any candidate for service on our board is based on the nominating committee's assessment of the candidate's professional and personal experiences and expertise relevant to our operations and goals. The committee evaluates each candidate on his or her ability to devote sufficient time to board activities to effectively carry out the work of the board. The ability to contribute positively to the existing collaborative culture among board members is also considered by the committee. In addition, the committee considers the composition of the board as a whole, the status of the nominee as independent under the Nasdaq's listing standards and the rules and regulations of the SEC, and the nominee's experience with accounting rules and practices. Other than the foregoing, there are no stated minimum criteria for director nominees, although the nominating committee may also consider such other factors as it may deem are in our and our shareholders' best interests.

After completing its evaluation, the nominating committee makes a recommendation to the full board of directors as to the persons who should be nominated by the board, and the board determines the nominees after considering the recommendation and report of the nominating committee.

The nominating committee will consider director candidates recommended by our shareholders. The nominating committee intends to assess such candidates in the same manner as other nominees, as described above. To recommend a prospective nominee for the nominating committee's consideration, shareholders should submit in writing the candidate's name and qualifications, and otherwise comply with our bylaws requirements for shareholder nominations, which are described under Shareholder Proposals below, to:

American Physicians Service Group, Inc.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Introduction

We compensate our executive officers primarily through a combination of base salary, annual incentive bonuses and long-term and deferred equity awards. The executive compensation is designed to be competitive with that of comparable companies and to align executive performance with the long-term interests of our shareholders.

Our total compensation philosophy and objectives are designed to:

Provide competitive total compensation opportunities that will attract, retain and motivate high-performing executives;

Align the compensation plans to our business strategies;

Compensate competitively and equitably;

Motivate high-quality performance; and

Align the financial interests of our executives and shareholders through stock-based incentives and by building executive ownership in us.

Elements of Executive Compensation

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form DEF 14A

Our executive compensation program is designed to reflect the philosophy and objectives we have described above. Our Compensation Committee evaluates individual executive performance with a goal of setting compensation at levels the Committee believes are comparable with executives in other companies of similar size and similar industries while taking into account our relative performance and our own strategic goals. We also consider the pay of each executive officer relative to each other executive officer and relative to other members

of the management team. Generally that means that greater responsibility for overall Company performance will result in greater pay. While specific performances within the segments may occasionally skew the results, we expect the CEO, Mr. Shifrin, to be compensated more than the heads of the two operating divisions, Mr. Magids and Mr. Searles, and we expect these division heads to be compensated more than Mr. Hayes and Mr. Solimine, who head support functions. We have designed the total compensation program to be consistent for our entire executive management team.

The compensation program consists of base salary, annual cash incentive compensation, stock option awards and deferred stock grants. Our base salaries are designed to provide a part of a competitive total compensation package that will attract, retain and motivate high-performing executives. The incentive compensation program is designed to reinforce our pay for performance culture by making a significant portion of an executive's compensation variable and based on company, business unit and individual performance. The incentive compensation program also aligns compensation with our short-term business strategies. Our stock option awards along with our deferred stock grants are designed to reinforce our pay for performance culture, align the financial interests of our executives and shareholders, align compensation with our intermediate and long-term business strategies, and provide a significant equity component as part of the total compensation package.

Our Compensation Committee performs at least annually a review of our executive officers' compensation to determine whether the compensation provides adequate incentives and motivation to our executive officers and whether they adequately compensate our executive officers relative to comparable officers in other companies with which we compete for executives. In addition, on an annual basis, our Compensation Committee reviews and considers the individual performance of executives, the financial and operating performance of the divisions or departments managed by the executives, and our overall performance. During the year, our Compensation Committee may consider compensation awards to executives for extraordinary performance. Historically, our Compensation Committee has performed this annual review in the first quarter of the year following the year reviewed, after audited results have been communicated.

Base Salaries. Base salaries for our executives are established based on the scope of their responsibilities, taking into account competitive market compensation paid by other companies for similar positions. Generally, we believe that executive base salaries should be targeted near the median of the range of salaries for executives in similar positions with similar responsibilities at comparable companies, in line with our compensation philosophy. For each individual executive, we also consider our needs for that officer's skill set, the contribution that the officer has made or we believe will make, whether the executive officer's skill set is easily transferable to other potential employers and other factors. We fix executive base salaries at a level we believe enables us to hire and retain individuals in a competitive environment and to reward satisfactory individual performance and a satisfactory level of contribution to our overall business goals. We also take into account the base compensation that is payable by companies that we believe to be our competitors and by other private and public companies with which we believe we generally compete for executives. To this end, we access a number of executive compensation surveys and other databases and review them when making crucial executive officer hiring decisions and annually when we review executive compensation. Base salaries are then reviewed annually, and adjusted from time to time to realign salaries with market levels after taking into account individual responsibilities, performance and experience.

Annual Management Incentive Compensation. Our management and professional level associates are eligible to participate in our annual incentive compensation program whereby participants may receive a cash bonus each year. We established this annual non-equity incentive compensation program in order to emphasize pay for performance. We believe this program helps focus our executive officers' efforts in driving operating results that create shareholder value. Annual incentive compensation awards are based on the actual achievement of certain company and business division performance goals, including the achievement of certain thresholds of financial performance and certain business initiatives aimed at improving future earnings, which are determined prior to or shortly after the beginning of each year. The goals are communicated to our executive officers and are

set so that the attainment of the targets is not assured and requires significant effort by our executives. All goals are also graduated, so that increasingly difficult effort and attainment above the minimum goal offers increased compensation.

Although performance objectives details vary between our insurance services, investment services and corporate segments, all executive incentive compensation awards for each segment are determined upon some combination of the following performance measures: net earnings growth; earnings per share growth; stock price growth; revenue growth; pre-tax income; and return on capital. Additional individual performance results may be awarded to our management and professional level associates and these are measured by successful completion of major projects, client development, personal development or similar-type goals in which the employee played a major role. While we intend to tie individual performance to clearly articulated and objective measures, it is necessary, and at times prudent, for management to use a certain degree of discretion in evaluating individual results. When establishing our threshold performance incentive targets, the Compensation Committee reviews and discusses with both senior management and the full board of directors our business plan and its key underlying assumptions, expectations under then-existing and anticipated market conditions and the opportunity to generate shareholder value and then establishes the performance thresholds and targets for the year.

Long-Term Incentives. We believe our executives should have an ongoing stake in our success. We also believe that our executives should have a portion of their total compensation tied to stock price performance because stock-related compensation is directly tied to shareholder value. Our long-term incentives are in the form of stock options and deferred stock grants. We use these incentives as a form of long-term compensation because we believe stock options and deferred stock grants more appropriately match the long-term incentive compensation with the creation of shareholder value by allowing the executives, in the case of stock options, to purchase the underlying common stock at the same price as the closing price per share on the date the option was granted.

Stock Options. Our Board of Directors reviews and approves stock option awards to executive officers based upon our Compensation Committee's assessment of individual performance, a review of each executive's existing long-term incentives, and retention considerations. The vesting schedule for recent grants of stock options, determined by the Compensation Committee, traditionally has had options vest in two approximately equal annual installments beginning one year from the date of grant for directors and three approximately equal annual installments beginning one year from the date of grant for non-director employees. Stock options have historically been granted at about the same time that the year's financial results are known. This has usually occurred in conjunction with a board meeting held late in the fourth quarter or early in the first quarter of the following year. Options have also historically been granted to directors upon their initial election to the board and to key employees upon their initial employment. The board considers whether material non-public information exists and adjusts the timing of grant issuances accordingly.

Deferred Stock Grants. Key executives, including the named executives, may receive a portion of their incentive compensation in the form of deferred company stock. These executives, as well as members of the board of directors, may also receive deferred stock grants, with all deferred stock awards being determined by the Committee. Under our Deferred Compensation Plan shares are earned in the year of award. Payout of the shares is subject to a schedule wherein shares become eligible for payout over five years, in equal annual amounts, following the grant. Upon reaching age 60, participants are then entitled to receive the eligible shares and the shares that become eligible each year thereafter. In the event that a participant terminates employment or resigns and signs a non-competition agreement, all of the shares granted become eligible and will be paid out. In the event that a terminating participant does not sign a non-competition agreement or if a participant is terminated for cause, the participant will receive only the eligible shares and shares not yet eligible will be forfeited and allocated pro rata to the remaining participants. All shares granted are to be paid out in the event of the death or disability of the participant.

Perquisites. Executive officers are eligible to participate in all of our employee benefit plans, such as medical, dental, group life, disability and accidental and dismemberment insurance and our 401 (k) plan, in each case on the same basis as other employees. Other perquisites, offered only to executive officers, include club dues and automobile allowances. Specifically, Mr. Shifrin and Mr. Magids are reimbursed for club dues amounting to annual 2006 totals of \$2,300 and \$5,854, respectively. Mr. Shifrin also receives a car allowance of \$350 per month (\$4,200 annually). Finally, executive officers and other employees may seek reimbursement for business related expenses in accordance with our business expense reimbursement policy. We do not view perquisites as a significant element of our comprehensive compensation structure but do believe that they can be used in conjunction with a base salary and incentive compensation to attract, motivate and retain individuals in a competitive environment.

The number of and the exercise price for each non-qualified option share (columns b and e, respectively) is determined by the Compensation Committee of the Board of Directors (the Committee). The exercise price of a qualified incentive stock option has to be at least 100% of the fair market value of such shares on the date of grant of the option. Under the Company incentive plans, option grants are limited to a maximum of ten-year terms; however, the Committee has issued all currently outstanding grants with five-year terms. The Committee also determines vesting for each option grant and traditionally has had options vest in two approximately equal annual installments beginning one year from the date of grant for directors and three approximately equal annual installments beginning one year from the date of grant for non-director employees.

Payout of the shares is subject to a schedule wherein shares become eligible for payout over five years, in equal annual amounts, following the grant (the eligible shares). Upon reaching age 60, participants are then entitled to receive the eligible shares and the shares that become eligible each year thereafter. In the event that a participant terminates employment or resigns and signs a non-competition agreement, all of the shares granted become eligible and will be paid out. In the event that a terminating participant does not sign a non-competition agreement or if a participant is terminated for cause, the participant will receive only the eligible shares and shares not yet eligible will be forfeited and allocated pro rata to the remaining participants. All shares granted are to be paid out in the event of the death or disability of the participant.

Employment Agreements

We have entered into employment agreements with Mr. Shifrin, Mr. LaFrey, Mr. Magids and Mr. Hayes. Each of these agreements provides for the payment of a base salary, eligibility for performance bonuses as determined by our board of directors, and such other benefits as are available to our other salaried employees. Mr. Shifrin's agreement provides for a monthly salary, currently \$33,333, and terminates August 1, 2010. Mr. LaFrey's agreement provides for a monthly salary, currently \$31,250, and terminates March 22, 2011. Mr. Magids' agreement provides a monthly salary, currently \$25,000, and terminates March 1, 2008. Mr. Hayes' agreement provides for a monthly salary, currently \$14,167, and terminates August 1, 2008. Mr. Searles has a similar Consulting Agreement, which provides for a monthly fee of \$9,000 and terminates August 1, 2008. The agreements contain confidentiality and nonsolicitation provisions and are cancelable by us for cause, which includes conviction of a felony, material violation of the agreement or Company policies, or failure to carry out the duties of the position. Each of the agreements entitles the employee/director to receive lump-sum payments if the terms of employment are materially changed or in the event the agreements are terminated by us without cause or by the employee/director following a change in control of us, as defined in the agreements. These payments are calculated as the greater of (a) for Mr. Shifrin and Mr. LaFrey, four times and for Mr. Magids, Mr. Hayes and Mr. Searles two times, their respective average annual cash compensation earned for the prior number of years used as the multiplier for each agreement, per above, or (b) the total cash compensation that would otherwise have been payable to them throughout the remainder of the term of their employment/consulting agreements assuming their current compensation, including the amount of any bonuses for the immediately preceding calendar year, would have remained the same throughout the remainder of the term of their employment/consulting agreements.

Indemnity Agreements

We have entered into indemnity agreements with our directors and certain of our officers. The agreements generally provide that, to the extent permitted by law, we must indemnify each such person for judgments, expenses, fines, penalties and amounts paid in settlement of claims that result from the fact that such person was our officer, director or employee. In addition, our articles of incorporation and certain of our subsidiaries' articles of incorporation provide for certain indemnifications and limitations on director liability.

**REPORT OF THE COMPENSATION COMMITTEE
OF THE BOARD OF DIRECTORS**

The Company is engaged in several highly competitive industries. For the Company to succeed, the Company believes that it must be able to attract and retain qualified executives. To achieve this objective, we have structured an executive compensation policy tied to operating performance that we believe has enabled the Company to attract and retain key executives.

During 2006, the Compensation Committee was comprised of Mr. Majors, chairman, Mr. Little and Ms. Williams. Mr. Little, Mr. Majors and Ms. Williams are all independent non-employee directors. The Compensation Committee has primary responsibility for determining executive compensation levels, but may seek the advise and approval of the entire board. It also seeks the input of the Chief Executive Officer in evaluating the performance of those reporting directly to him. The Compensation Committee has the authority to engage compensation consultants to assist it, but not frequently utilized this resource. The board of directors as a whole maintains a philosophy that a significant component of both annual and long-term compensation of executive officers, including that of the Chief Executive Officer, should be linked to measurable performance. A portion of the management compensation has been comprised of bonuses, based on operating and stock price performance, with a particular emphasis on the attainment of planned objectives. Accordingly, in years in which performance goals are achieved or exceeded, executive compensation tends to be higher than in years in which performance is below expectations. Stock options are granted from time to time to members of management, based primarily on such person's potential contribution to the Company's long-term growth and profitability. The Committee feels that options are an effective incentive to create value for shareholders since the value of an option bears a direct relationship to our stock price. The Committee further recognizes that long-term performance is becoming an increasingly more important component of overall executive compensation.

On an annual basis, the Compensation Committee approves performance-based compensation for the named executive officers and other officers. The Compensation Committee typically makes these compensation decisions in the first quarter of a particular fiscal year for the prior fiscal year's performance and sets annual targeted performance goals for the current year. The Compensation Committee sets annual targeted goals for one or more of the following measures of the Company's performance: earnings per share growth, stock price growth, revenue growth, operating income growth, and cash flow growth. In determining the amount of performance-based compensation for a particular year, the Compensation Committee will evaluate to what extent the annual targeted goals for such year were achieved. In addition, the Compensation Committee will consider the performance of the officer's unit, division or function for such year and other performance factors the Compensation Committee deems relevant. The amount of the compensation will be determined by the Compensation Committee with an objective portion based on attainment of set operating income goals and a discretionary portion based on performance across the wider range of goals. In addition, the allocation of such compensation between cash, stock options and deferred stock compensation awards will be determined by the Committee.

For 2006, our executive compensation program, including that of the Chief Executive Officer, consisted of base salary, a cash bonus, deferred compensation based on current year performance, and long-term stock option awards, all of which relate to the achievement of specific current and long-term goals. Specifically, the cash bonus and deferred compensation paid to the executives of our subsidiaries was based upon achieving, among other things, a targeted pretax income. The Chief Executive Officer was paid a bonus for 2006 based upon achieving specific operating income, cash flow and stock price thresholds, and implementing short and long-term initiatives for improving the Company's return on investment.

One of the Company's primary objectives is financial performance that achieves several long-term goals, including earnings-per-share growth, revenue growth, stock price growth and a proper diversification of business risks. The Committee believes that its compensation policy promotes those objectives and that compensation levels during 2006 adequately reflect the Company's compensation goals and policies.

The Compensation Committee reviewed and discussed with management the Compensation Discussion and Analysis and recommended its inclusion in this proxy statement.

AUDIT COMMITTEE REPORT

The Audit Committee (the Committee) of the board of directors (the board) was comprised of three directors in 2006 and operates under a written charter adopted by the board. The Committee, among other things,

reviews with the independent auditors and management the adequacy of the Company's accounting and financial reporting controls;

reviews with management and the independent auditors significant accounting and reporting principles, practices and procedures applied in preparing the Company's financial statements;

discusses with the independent auditors their judgment about the quality, not just the acceptability, of the Company's accounting principles used in the Company's financial reporting;

reviews the activities and independence of the independent auditors;

reviews and discusses the audited financial statements with management and the independent auditors and the results of the audit; and

appoints independent auditors.

The Audit Committee is responsible for hiring, terminating and compensating the auditor and approving all related fees. The Audit Committee or a designated member thereof, pre-approves audit and non-audit services rendered by our independent auditors. If pre-approval authority is delegated, the delegate must report back to the Audit Committee at the first Audit Committee meeting following any approval.

It is the responsibility of our executive management to prepare financial statements in accordance with accounting principles generally accepted in the United States of America and of our independent auditors to audit those financial statements.

In this context, the Committee has reviewed and held discussions with management and the independent auditors regarding the Company's 2006 financial statements. Management represented to the Committee that our consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, and the Committee has reviewed and discussed the consolidated financial statements with management and the independent auditors. The Committee discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 (Codification of Statements on Auditing Standards).

In addition, the Committee has discussed with the independent auditors the auditor's independence from the Company and management and has received the written disclosure and the letter from the independent auditors required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees). Further, the Committee has considered whether the provision of non-audit services by the independent auditors is compatible with maintaining the auditor's independence.

The Committee meets with the independent auditors, with and without management present, to discuss the results of their examinations, the evaluations of our internal controls, and the overall quality of our financial reporting.

Based on the reviews and discussions referred to above, the Committee recommended to the board that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006, for filing with the Securities and Exchange Commission. The Audit Committee considered the independent auditors' provision of non-audit services in 2006 and determined that the provision of those services is compatible with and does not impair the auditors' independence.

Audit Committee: Cheryl Williams, Chairperson
Lew N. Little, Jr.

George S. Conwill	President of Investment Services	1%
William A. Searles	Director and Chairman of Investment Services	1%

Other

During 2006, Mr. Searles also served as a director and Chairman of the Board of Investment Services. For his additional director services, Mr. Searles was paid monthly director fees of \$9,000, plus a non-discretionary incentive amount based on Investment Services achieving certain levels of return on capital. His total non-discretionary incentive compensation earned for these additional director duties was \$127,932 in 2006.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors and officers, and persons who own more than 10% of a registered class of our equity securities, to file initial reports of ownership and reports of changes in ownership with the SEC, and the NASDAQ Market. Such persons are required by SEC regulation to furnish us with copies of all Section 16(a) forms they file.

Based solely on review of the copies of such forms received by us with respect to 2006, or written representations from certain reporting persons, we believe that all filing requirements applicable to our directors and officers and persons who own more than 10% of a registered class of our equity securities have been complied with.

A shareholder who otherwise intends to present business, other than for the nomination of a person for election to our board of directors, at our 2008 annual meeting of shareholders must comply with the requirements set forth in our bylaws, which require, among other things, that to bring business before our 2008 annual meeting, a shareholder must give written notice that complies with our bylaws to our Secretary at our principal executive offices. A shareholder's notice shall be timely if received by our Secretary no earlier than January 5, 2008 and no later than February 7, 2008, unless we notify our shareholders otherwise.

A shareholder who intends to nominate a person for election to our board of directors at the 2008 annual meeting must give written notice that complies with our bylaws to our Secretary at our principal executive offices no earlier than January 5, 2008 and no later than February 7, 2008, unless we notify our shareholders otherwise.

As a result, a notice of a shareholder proposal for the 2008 annual meeting, submitted other than pursuant to Rule 14a-8, will be untimely if not received by us within the time deadlines required by our bylaws as described above. As to any such proposals, the proxies named in management's proxy for that meeting will be entitled to exercise their discretionary authority on that proposal unless we receive notice of the matter to be proposed within the time deadlines required by our bylaws as described above. Even if proper notice is received on a timely basis, the proxies named in management's proxy for that meeting may nevertheless exercise their discretionary authority with respect to such matter by advising shareholders of such proposal and how they intend to exercise their discretion to vote on such matter to the extent permitted under Rule 14a-4(c)(2) of the Exchange Act.

OTHER MATTERS

Our board of directors does not intend to bring any other matters before the meeting and does not know of any matters which will be brought before the meeting by others. However, if any other matters properly come before the meeting, the persons named in the accompanying proxy will vote the proxies in accordance with their judgment on such matters.

By Order of our board of directors
