Attached to this report is a copy of the first quarter press release and supplemental data, dated April 24, 2007, pertaining to the financial condition and results of operations at and for the quarter ended March 31, 2007. The consolidated financial information of the registrant included in the press release and the supplemental data were prepared in accordance with International Financial Reporting Standards, which differ in certain important respects from accounting principles generally accepted in the United States. The financial results for the quarter ended March 31, 2007 are unaudited.

This press release contains statements about expected future events and financial results that are forward-looking and subject to risks and uncertainties. Actual results could differ materially from those predicted in such forward-looking statements. Factors which may cause actual results to differ materially from those discussed herein include the impact on Cantv's business that may result from the Government's planned nationalization of Cantv, economic considerations that could affect demand for telecommunications services and the ability of the Company to make collections, inflation, regulatory factors, exchange controls and occurrences in currency markets, competition, labor relations, legal proceedings and the risk factors set forth in the Company's various filings with the Securities and Exchange Commission, including its most recently filed Annual Report on Form 20-F. The Company undertakes no obligation to revise these forward-looking statements to reflect events or circumstances after the date hereof, and claims the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

CANTV ANNOUNCES FIRST QUARTER 2007 RESULTS

Tender offers launched by the Bolivarian Republic of Venezuela are in progress

Growth in our mobile and broadband businesses drove 28.1% revenue increase over first quarter last year. First quarter EBITDA of Bs. 536.0 billion, 29% of total revenues

HIGHLIGHTS

First quarter 2007 results:

- n Continued ABA (ADSL) sales increased our customer base to 510 thousand subscribers, a 56.0% increase over first quarter 2006
- n Mobile subscribers increased 45.5% over first quarter 2006. The Company now provides service to more than 8.1 million mobile customers
- n First quarter 2007 EBITDA of Bs. 536.0 billion, 24.2% higher than the same period in 2006
- n Net income increased 36.9% over first quarter 2006 to Bs. 251.8 billion, primarily driven by higher revenues

Initial Note:

In February 2007, the Company implemented a new billing system for fixed telephony services as part of an ongoing project directed towards the integration and transformation of the Company's information systems. This implementation resulted in delays in the processing of billing data for February and March, with the related collections.

Revenues, traffic, lines and collections for fixed services related to these billing cycles have been partially estimated and represent approximately 30% of total consolidated fixed revenues and 15% of total consolidated operating revenues. Revenue estimates can be considered

Edgar Filing: NATIONAL TELEPHONE CO OF VENEZUELA - Form 6-K

conservative.

Current delays in billing processes may have an impact on taxes and future collections and therefore on the provision for uncollectible.

The Company expects to fully stabilize the system during the second quarter of 2007 and record actual revenues for fixed services related to these estimates.

Accordingly, descriptions regarding performance on fixed revenues, traffic and subscribers excluding broadband are limited.

REVENUE ANALYSIS***Strong mobile and broadband revenues continued to drive top line growth***

Operating revenues totaled Bs. 1,847.1 billion during first quarter 2007, a Bs. 405. billion (28.1%) increase over first quarter 2006.

Quarter-over-quarter revenue growth resulted from increases of 40.7% and 36.2% in mobile and broadband, respectively, combined with an estimate of 11.9% growth in fixed service revenues excluding broadband.

Fixed

As stated in the Initial Note herein, revenues, traffic and line information corresponding to fixed services are estimates. Figures 3 through 8 present the performance estimates used to support our revenue estimates for these services.

Switched Access Lines:

Figure 3 shows a 15.0% increase in lines in service on a year-over-year basis, representing an expansion of our customer base to nearly 3.6 million.

Table of Contents**Local Service Revenue:**

Figure 4 shows first quarter 2007 local service revenue of Bs. 222.9 billion, Bs. 2.8 billion (1.3%) higher than last year's same period revenue.

Figure 4 - Local Service Revenues

	<i>(in millions of Bs.)</i>			
	1Q07	1Q06	Inc./Dec.	%
Monthly recurring charge	139,698	126,785	12,913	10.2%

Broadband revenues increased 36.2%**Broadband:**

Broadband revenues increased 36.2% to Bs. 256.6 billion compared to the same period in 2006, representing 13.9% of the Company's total revenues. The growth was driven by to a Bs. 55.9 billion (60.0%) increase in ABA (ADSL) revenues combined with a Bs. 12.2 billion (12.9%) increase in private circuits revenues (see Figure 9).

Figure 9 - Broadband Revenues and Subscribers

	Revenues (in millions of Bs.)				Subscribers (thousands)			
	1Q07	1Q06	Inc./Dec.	%	1Q07	1Q06	Inc./Dec.	%

Total	256,563	188,426	68,137	36.2%	529	344	185	53.8%

ABA (ADSL) net additions of more than 60 thousand during 1Q07

Billings delays due to billing system implementation as referred in the Initial Note of this document did not affect ABA (ADSL) financial and operating indicators.

During first quarter 2006 Cantv's ABA product (ADSL) continued its growth trend, with 56.0% quarter-over-quarter growth. More than 60 thousand net additions were generated during first quarter 2007, 36.1% above the previous quarter's net additions. At the end of March, 2007, Cantv's ABA (ADSL) customer base totaled nearly 510 thousand lines, 183 thousand lines more than in March 31, 2006.

ADSL subscribers represent more than 80% of total Cantv Internet subscribers

First quarter blended ABA ARPU was Bs. 102 thousand, 3.3% higher than the same year ago period, mainly driven by residential and non-residential tariff increases implemented in August 2006 partially offset by promotions implemented during first quarter 2007.

Internet subscribers grew 12.3% year-over-year from 565 thousand to 635 thousand mainly driven by 56.0% increase in ADSL (Broadband) subscribers partially offset by an expected 47.5% reduction in Dial-up (Fixed) Internet subscribers.

Mobile

Mobile revenues boosted 40.7% in 1Q07

First quarter mobile revenues increased 40.7% on a quarter-over-quarter basis to Bs. 920.6 billion, increasing its share of the Company's total revenues to 49.8% in first quarter 2007 from 45.4% in first quarter 2006.

Quarter-over-quarter growth in mobile revenues resulted from 56.5% gain in total traffic, and was largely driven by 45.5% increase in the Company's mobile subscriber base and 29.8% increase in equipment sales.

CANTV 1Q07 Earnings Commentary April 24, 2007

NYSE: VNT BVC: TDV.d 4

Table of Contents**Mobile subscriber base over 8.1 million****Subscribers:**

At the end of first quarter 2007, the mobile customer base grew to over 8.1 million subscribers, an increase of 45.5% on a year-over-year basis (see Figure 10). The Company's postpaid and prepaid subscriber bases individually posted increases of 38.9% and 45.9%, respectively, over same period last year.

During first quarter 2007 the Company's subscriber net additions were 213 thousand, a 2.7% sequential increase over fourth quarter 2006 customer base.

The Company continued its commercial strategy towards attracting postpaid customers from competition, adding over 20 thousand new postpaid subscribers during first quarter 2007.

Total usage grew 56.5% compared to 1Q06**Usage and ARPUs:**

A total of 2,164 million minutes of use (outgoing and incoming) were generated during first quarter 2007, a 56.5% increase compared to first quarter 2006 (see Figure 11). The Company's bundled offers continued to drive most growth in outgoing traffic. Overall 58.0% increase in first quarter 2007 outgoing minutes was driven by 74.9% and 36.9% increases in bundled traffic and unbundled minutes, respectively.

Figure 11 - Mobile Minutes

	(in millions)			
	1Q07	1Q06	Inc./Dec.	%
Outgoing*	1,910	1,209	701	58.0%
Incoming	254	174	80	46.0%
Total	2,164	1,383	781	56.5%
Incoming from related parties	281	275	6	2.2%

* Includes bundled and unbundled minutes

During first quarter 2007, blended ARPU declined 7.4% to Bs. 39,915 due to a decrease in prepaid ARPU to Bs. 35,308 (3.0%) partially offset by a 4.8% increase in postpaid ARPU to Bs. 182,685 (see Figure 12).

Figure 12 - Mobile ARPU

	(in Bs.)			
	1Q07	1Q06	Inc./Dec.	%
Prepaid	35,308	36,395	(1,087)	(3.0)%
Postpaid	182,685	174,307	8,378	4.8%
Blended	39,915	43,085	(3,170)	(7.4)%

SMS revenues increased 43.9%

Short Messages Services (SMS) continued to deliver revenue growth. First quarter 2007 SMS revenues totaled Bs. 228.1 billion, representing an increase of 43.9% over first quarter 2006. Nearly 3.0 billion messages were sent by our customers during first quarter, a 23.7% increase over the same period in 2006.

Handset sales represented 13.2% of mobile revenue

Revenues from handset sales during first quarter 2007 increased 29.8% on a quarter-over-quarter basis, accounting for 13.2% of total mobile revenues.

EXPENSE AND MARGIN ANALYSIS

Total Operating Expenses

First quarter 2007 total operating expenses increased Bs. 325.6 billion (26.8%) to Bs. 1,539.4 billion, compared to Bs. 1,213.8 billion in first quarter 2006. The increase reflects Bs. 301.3 billion (29.8%) in higher operating expenses, excluding depreciation and amortization, combined with Bs. 24.3 billion (11.9%) increase in depreciation and amortization expense.

Table of Contents

Total operating expenses increase of 26.8% driven by higher handset sales and labor and pension expense

Operations, maintenance, repairs and administrative expenses: Increased Bs. 124.4 billion (21.3%) primarily due to: (i) Bs. 83.8 billion labor and benefit related expenses driven by the higher retirement benefits expense and salary increases; and (ii) Bs. 46.8 billion in contractor expenses supporting customer service and fixed and mobile network maintenance.

Cost of sales of mobile equipment: Increased Bs. 102.8 billion (58.6%) driven by higher handset costs and a 74.3% increase in the numbers of handsets sold.

Interconnection cost: Increased Bs. 40.2 billion (28.1%) mainly due to 30.2% increase in traffic volumes over first quarter 2006.

Concession and other taxes: Increased Bs. 20.5 billion (22.0%).

Provision for uncollectibles: Increased Bs. 6.7 billion (52.8%) due to the first quarter 2006 change in the methodology used to determine the allowance for doubtful accounts which generated a one-time reduction in the reserve for that period. The new methodology is based on a percentage on accounts receivable and aging analysis which yields a result more accurately aligned to our collections experience.

Depreciation and amortization: Increased Bs. 24.3 billion (11.9%) due to our continuing capital investments as well as the reduction in the useful lives for certain assets in 2006 and 2007.

Other expense, net: Increased Bs. 6.7 billion mainly due to the creation of a fund for the promotion of social initiatives of Bs. 5.5 billion in March 2007.

EBITDA and EBITDA Margin

EBITDA of Bs. 536.0 billion, 24.2% higher than 1Q06

First quarter 2007 EBITDA increased 24.2% to Bs. 536.0 billion compared to Bs. 431.6 billion in first quarter 2006. As a percentage of revenue, this reflected a 100 basis points decrease in EBITDA margin.

Please refer to Reconciliation of Non-GAAP financial measures section on page 12 for a reconciliation of EBITDA to GAAP financial measures.

Interest Income and Exchange (Loss) Gain, net and Taxes

Lower interest income and exchange (loss) gain, net and tax expenses almost flat

Interest income and exchange gain, net: Decreased Bs. 10.8 billion (53.1%) to Bs. 9.5 billion in first quarter 2007, compared to Bs. 20.3 billion in first quarter 2006, mainly due to lower temporary investments.

Income tax provision: Increased Bs. 1.4 billion to Bs. 65.5 billion, compared to Bs. 64.1 billion in first quarter 2006. The current tax provision increased Bs. 6.3 billion in first quarter 2006 mainly due to higher Income before Income Tax Provision, which was partially offset by investment tax credits in first quarter 2007. Deferred tax benefit increased Bs. 4.9 billion in first quarter 2006, mainly due to increased property, plant and equipment book and tax basis differentials.

Net Income

Net income of Bs. 251.8 billion in 1Q07 compared to Bs. 183.9 in 1Q06

Net income increased Bs. 67.9 billion (36.9%) to Bs. 251.8 billion in first quarter 2007, compared to Bs. 183.9 billion in first quarter 2006, resulting from Bs. 80.1 billion increase in operating income that was offset by Bs. 10.8 billion decrease in interest and exchange gain, net and Bs. 1.4 billion of higher income tax expense.

Edgar Filing: NATIONAL TELEPHONE CO OF VENEZUELA - Form 6-K

CANTV 1Q07 Earnings Commentary April 24, 2007

Table of Contents

CASH FLOW ANALYSIS

Stronger cash generation allowing for a 69.1% increase in free cash flow

Free cash flow (FCF) for the three-month period ended March 31, 2007 totaled Bs. 318.6 billion, 69.1% higher than the Bs. 188.4 billion reported for the three-month period ended March 31, 2006. The Bs. 130.2 billion year-over-year FCF increase was driven by Bs. 187.1 billion increase in net cash provided by operating activities, which was partially offset by Bs. 56.9 billion increase in CAPEX (see Reconciliation of Non-GAAP financial measures on page 14 for a reconciliation of FCF to GAAP financial measures). The increase in cash from operations was composed of 83.7 billion in cash earnings (net income adjusted for non-cash items) combined with a Bs. 103.4 billion decrease in uses of working capital, which in turn was driven by higher increase in accounts payable due to delayed approvals for the acquisition of foreign currency for imports.

Cash used in financing activities totaled Bs. 201.3 billion, primarily reflecting the Bs. 197.8 billion portion corresponding to one of the non-ADS foreign investors which was not previously deposited in bolivars with a Venezuelan bank. Of this amount, Bs. 137.5 billion relate to the dividend declared in March 2006, which was paid and approved for conversion by Cadivi on January 2007, and Bs. 60.3 billion from the dividend declared in November 2006 deposited in bolivars with a Venezuelan bank in January 2007 pending for Cadivi approval for conversion into US dollars.

The Company's net cash position totaled Bs. 1,210.6 billion as of March 31, 2007, compared to Bs. 1,093.4 billion as of December 31, 2006.

Capital Expenditures

CAPEX continues to reflect CDMA-1X, ADSL and information systems. GSM deployment will begin during second quarter 2007

Capital expenditures for the three-month period ended March 31, 2007, totaled Bs. 223.7 billion, a Bs. 56.9 billion (34.1%) increase over the same period in 2006. Capital expenditures during first quarter 2007 continued to be focused on: (i) expansion of our CDMA-1X network footprint to support projected mobile and fixed wireless demand; (ii) deployment of backbone and data networks to sustain growth in our ABA (ADSL) and other data product lines; (iii) deployment of Evolution Data Optimized (EvDO) technology for wireless broadband services; (iv) substitution of analog switches with multi-service access nodes to support service enhancements and increase operating efficiency; and, (v) the integration and transformation of the Company's information systems. During the rest of the year, the previously announced deployment of the new GSM network will become a significant portion of the total Company's capital expenditures.

OTHER DEVELOPMENTS

Tender Offer

On April 9, 2007, the Bolivarian Republic of Venezuela commenced concurrent tender offers in Venezuela and the United States to acquire any and all of the issued and outstanding shares of capital stock of Cantv and ADSs representing such shares. The tender offers expire on May 8, 2007 and are subject to a number of conditions.

At a meeting held on April 12, 2007, the Board of Directors considered the tender offer and unanimously determined to remain neutral and to make no recommendation with respect to the tender offers.

Dividends

On February 13, 2007, CADIVI approved the conversion to US dollars for the ordinary dividend of Bs. 700 per share (US\$2.28 per ADS) approved at the 2006 annual shareholders' meeting.

Table of Contents

As of the day of this release, approvals required for the conversion to US dollars for the extraordinary dividend of Bs. 307.14 per share (US\$1 per ADS) approved at the November 2006 extraordinary shareholders meeting and the dividend approved in the annual shareholders meeting at March 30, 2007, of Bs. 922.07 per share (US\$3.003 per ADS) have not yet been obtained from CADIVI.

Since dividends are paid in bolivars, under the exchange control regime implemented in January 2003, the repatriation of dividends for American Depositary Shares (ADS) holders and foreign investors must be requested from CADIVI (the Government's Commission for Administration of Foreign Exchange). The timing for the request and final approval depend on the fulfillment of extensive formalities and documentation with CADIVI.

The portion of the dividend payment in bolivars to ADS holders and foreign investors has been deposited with a Venezuelan bank pending the approval by CADIVI for the conversion of bolivars to US dollars and the payment to corresponding foreign banks and distribution to ADS holders and foreign investors.

With regards to future dividends distributions, the Venezuelan Capital Markets Law stipulates that the Company must distribute annually no less than 50% of its net annual income to its stockholders, after income tax and legal reserve deductions. According to the Comisión Nacional de Valores (the Venezuelan National Securities Commission) standards, unconsolidated net income, excluding the equity participation in subsidiaries, is the basis for dividend distribution.

Pension adjustment decision

On December 13, 2006, the Execution Court issued its decision, based on calculations performed by the appointed experts, regarding the retroactive adjustments to be paid by Cantv to retirees and their heirs.

Pursuant to this decision, Cantv proceeded with two actions: first, it appealed the decision expressing disagreement with the expert's methodology and benefits calculation in those cases where pension adjustments would result in payments in excess of the minimum wage. Second, Cantv agreed to pay retroactive adjustments in cases where adjusted pension is equal to minimum wage.

The decision resulted in an additional Bs. 23.0 billion retroactive pension obligation which we recorded in December 2006.

On February 26, 2007, a hearing was held at a Higher Court to determine whether the determination of retroactive payments performed by the appointed experts and approved by the Execution Court on December 13, 2006, was consistent with the original July 26, 2005 decision made by the Social Chamber of the Supreme Court.

On April 16, 2007, the Higher Court announced its decision, rejecting the majority of the claims introduced by pension beneficiaries and also declined to consider Cantv's claim regarding the calculations of amounts exceeding the minimum wage benefits. On April 24, 2007 Cantv introduced an appeal of the decision by the Higher Court on calculations of amounts exceeding the minimum wage benefits with the Social Chamber of the Supreme Court.

Delayed Repayments of Financial Debt

At the date of this release, the Company has not received the approval from CADIVI to obtain the foreign currency related to the semi-annual payments of capital and interests pursuant to Cantv's debt agreement with the Japan's Eximbank of ¥ 541.0 that was scheduled for payment on January 28, 2007, and Movilnet's debt agreement with the International Finance Corporation of US\$2.4 million that was scheduled for payment on January 15, 2007.

Table of Contents**COMPANY PROFILE**

Cantv, a Venezuelan corporation, is the leading Venezuelan telecommunications services provider with nearly 3.6 million switched fixed access lines in service, over 8.1 million mobile subscribers and over 528 thousand broadband subscribers as of March 31, 2007. The Company's principal strategic stockholder is a wholly-owned subsidiary of Verizon Communications Inc. with 28.5% of the capital stock. Other major stockholders include the Venezuelan Government with 6.6% of the capital stock (Class B Shares), employees, retirees and employee trusts which own 5.9% (Class C Shares) and the remaining 59.0% of the capital stock is held by public and other stockholders. The Bolivarian Republic of Venezuela commenced on April 9, 2007 concurrent tender offers in Venezuela and the United States to acquire any and all of the issued and outstanding shares of capital stock of the Company and ADSs representing such shares.

SAFE HARBOR FOR FORWARD LOOKING STATEMENTS:

This press release contains statements about expected future events and financial results that are forward-looking and subject to risks and uncertainties. Actual results could differ materially from those predicted in such forward-looking statements. Factors which may cause actual results to differ materially from those discussed herein include the impact on Cantv's business that may result from the Government's planned nationalization of Cantv, economic considerations that could affect demand for telecommunications services and the ability of the Company to make collections, inflation, regulatory factors, exchange controls and occurrences in currency markets, competition, labor relations, legal proceedings and the risk factors set forth in the Company's various filings with the Securities and Exchange Commission, including its most recently filed Annual Report on Form 20-F. The Company undertakes no obligation to revise these forward-looking statements to reflect events or circumstances after the date hereof, and claims the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

GLOSSARY OF KEY TERMS

ADSL:	Asymmetrical Digital Subscriber Lines.
ARPU:	Average monthly revenue per user excluding terminal equipment sales, taxes and late-payment charges net of discounts.
Bundled minutes:	Actual minutes used by the customer within the minutes allowed under variously priced monthly customer tariff plans that include a maximum number of allowed minutes within the monthly tariff.
Capital expenditures (CAPEX):	Net cash used in investing activities, including acquisition of property, plant and equipment and information systems.
Cash earnings:	Net income adjusted for non-cash items or adjustments to reconcile net income to net cash provided by operating activities.
EBITDA:	Earnings before interest, taxes, depreciation and amortization, equivalent to operating income plus depreciation and amortization.
EBITDA margin:	EBITDA as a percent of total operating revenue.
EPADS:	Earnings per ADS. Each ADS represents seven Cantv Class D shares.
Free cash flow (FCF):	Cash flow from operating activities minus cash used in investing activities.
IXC:	Interconnection.
Net cash position:	Cash and temporary investments minus short-term and long-term debt.
SMS:	Short mobile message service.
Switched access lines:	Fixed access lines including residential, non-residential and public telephony.
Total debt:	Short-term plus long-term debt.
Unbundled minutes:	Minutes in excess of the limits set forth in a specific monthly customer tariff plan that are billed to the customer on a per minute basis in addition to the basic monthly tariff plan that the customer has selected.
