**Table of Contents****Group Management Report****2007 to 2006 third quarter comparison**

Statutory premiums increased by 4.3% to €10,268 million, and on an internal basis revenues grew by 6.2%. Many of our operating entities worldwide, especially our growth markets of Asia-Pacific and New Europe but also some more mature markets, showed double-digit growth rates. The total revenue volume from Asia-Pacific and New Europe accounted for 14.6% of our Life/Health segment's statutory premiums in the third quarter 2007, compared to 10.6% in the same period last year.

Whereas most of our markets showed a solid performance, statutory premiums in the United States declined by €464 million. Here, the premium development is still challenged by the legal and regulatory environment relating to the sale of indexed-annuity products. However, during the past months we made progress in closing pending litigations. On a local currency basis the decline in statutory premiums amounted to USD 424 million or 15.5%.

The highest absolute growth was achieved in Asia-Pacific, where revenues increased by €435 million in aggregate. Taiwan, with €220 million delivered the biggest portion to the rise, recording increases in new business mainly due to the dynamic sales of unit-linked products and the ongoing good performance of the bancassurance channel. Within South Korea, we saw a further strong increase in single premium income, driving revenues up €107 million. Furthermore, we benefited from organic revenue growth of €78 million in China where we benefited from our strategic partnership with Industrial and Commercial Bank of China Limited (or ICBC).

In Italy, statutory premiums grew by €228 million. This was achieved despite an ongoing poor overall market performance, principally because sales through our bancassurance channel at RAS Group increased and we successfully launched new products.

Within France, we generated revenue growth of €94 million. This positive development was brought about by strong sales within the group life business, and sales of individual life insurance policies also picked up. Growth was achieved both through our tied agents network and the dynamically developing bancassurance channel.

In our German life insurance business, premiums grew by €45 million, mainly coming from growth in our single premium business.

**2007 to 2006 nine months comparison**

Statutory premiums declined by 0.7% to €34,352 million. In most of our markets, revenue developments were consistent with those described for the third quarter. However, in Germany, premiums declined by €344 million due to an overall weak market environment and high interest rates which made some of our short-term savings products less attractive. Based on internal growth, our statutory premiums increased slightly by 1.1%.

**Operating profit****Operating profit**

in €mn

**2007 to 2006 third quarter comparison**

Operating profit was up for the fifth consecutive quarter, growing by 41.5% or €256 million. Our technical margin benefited from an extraordinary reserve release. The higher asset base also increased our current investment income. Interest and similar income grew by €81 million as both payments on debt securities and dividends grew. In contrast net realized gains on investments declined as no major single transaction was executed in the third quarter. The high increase of €251 million in income from financial assets and liabilities carried at fair value through income stemmed predominantly from trading activities.

## Edgar Filing: Harp Donald A Jr - Form 4

Our statutory expense ratio declined by 0.3 percentage points to 11.0%.

## **Table of Contents**

### **Allianz Group Interim Report Third Quarter and First Nine Months of 2007**

Most life insurance markets delivered operating profit growth. The highest contributions came from Asia-Pacific (+ €192 million including a one-off reserve release of €170 million), the United States (+ €72 million), France (+ €47 million) and Italy (+ €33 million).

#### **2007 to 2006 nine months comparison**

Operating profit was up 27.5% to €2,381 million. Unlike in the third quarter comparison this was mostly impacted by an improved technical margin and an improved expense result.

#### **Non-operating items**

##### **2007 to 2006 third quarter comparison**

Non-operating items improved to an aggregate gain of €9 million coming from an aggregate loss in 2006 of almost the same amount, as we recorded higher net realized gains not to be shared with policyholders.

##### **2007 to 2006 nine months comparison**

Significantly lower net realized gains not to be shared with policyholders in the United States led to a decrease in our non-operating result of €6 million.

#### **Net income**

##### **2007 to 2006 third quarter comparison**

Driven by the higher operating profit, net income rose by 95.5% to €563 million. The aggregate of higher income tax expenses of €53 million and lower minority interests in earnings of €55 million contributed little to this development. Our effective tax rate went down from 39.4% to 33.2%.

##### **2007 to 2006 nine months comparison**

Net income for the first nine months amounted to €1,595 million, up 38.7% from the prior year level. Consistent with the third quarter comparison, this development was predominantly attributable to the improved operating profit. Income tax expenses increased by €179 million, driving our effective tax rate up from 27.5% to 29.0%. Minority interests in earnings declined by €116 million.

Allianz Group Interim Report Third Quarter and First Nine Months of 2007

## Banking Operations

Operating profit of €87 million in the third quarter.

€575 million charges related to the financial markets turbulence.

Net trading loss of €204 million.

All other businesses developed favorably.

## Earnings Summary<sup>1)</sup>

### Operating revenues

#### 2007 to 2006 third quarter comparison

Operating revenues of €1,217 million were down by 24.0%, as the financial markets turbulence had a damaging effect on our trading income (net).

The net trading income declined from €269 million to a loss of €204 million. This decline stemmed predominantly from our investment banking activities.

Conversely, the other two revenue components showed good performance.

Net interest income of €724 million, was up 4.2%. This was driven mainly by strong growth at the Investment Bank and positive developments in the deposit business of the Private & Corporate Clients division. Conversely, loan business in this division is suffering from margin pressure.

Net fee and commission income increased by 9.2% to €689 million. Higher advisory fees of the Investment Bank, principally from mergers & acquisitions and loan advisory activities contributed most to the improvement.

#### 2007 to 2006 nine months comparison

Operating revenues for the first nine months were also affected by the current market situation. Revenues decreased by €103 million to €5,010 million, including a decline of 54.8% in our trading income (net) of €476 million, for the reasons already mentioned.

### Impacts from the financial markets turbulence

Dresdner Bank carries asset backed securities (or ABS) within trading assets of €18 billion on its balance sheet, but due to hedging strategies is economically only exposed by €7.9 billion, comprising CDO/CLO<sup>3)</sup> warehouses of €3.0 billion, other CDO/CLO positions of €1.3 billion and other RMBS<sup>4)</sup>/ABS of €3.6 billion.

### Exposure by rating

Our ABS assets are of high quality but CDO/CLO positions were significantly impacted by discounts due to current market conditions.

---

1) The results of operations of our Banking segment are almost exclusively represented by Dresdner Bank, accounting for 96.0% of our total Banking segment's operating revenues for the first nine months of 2007 (9M 2006: 96.1%). Accordingly, the discussion of our Banking segment's results of operations relates solely to the operations of Dresdner Bank.

In addition, spill-over effects on other credit products negatively impacted the net trading income by €195 million in the third quarter and the first nine months of 2007. We had also entered into leveraged buy-out (or LBO) commitments of €5.0 billion which resulted in write-downs of €30 million in the third quarter.

In summary, the negative profit & loss impact from the financial markets turbulence was €575 million in the third quarter.

**Operating profit****Operating profit (loss)**

in €mn

**2007 to 2006 third quarter comparison**

At €87 million, operating profit was down 77.7%. The €384 million drop in operating revenues, triggered by current market conditions outweighed a €150 million reduction in operating expenses. Net additional loan loss provisions of €70 million make up the balance of the movement.

Operating expenses were down 11.9% to €1,109 million. Personnel expenses decreased by 22.3% to €595 million, driven by reduced performance-related compensation in

Investment Banking and lower personnel costs due to outsourcing. Non-personnel expenses were 8.3% higher at €510 million, due to extended marketing activities and external costs from outsourcing.

Despite the positive effect of lower expenses, the cost-income ratio was driven up by the scale of the revenue shortfall, coming in 12.5 percentage points higher, at 91.1%.

Gross additions to loan loss provisions were €161 million. Gross releases and recoveries amounted to €140 million. Combined, this led to a net charge in the quarter of €21 million, compared to a release of €49 million in the prior period.

**2007 to 2006 nine months comparison**

Despite the difficult market conditions in the third quarter, our operating profit grew by 2.8% to €1,191 million. We achieved significantly lower operating expenses by 7.2% to €3,743 million, due to further efficiency gains, continuous adherence to cost discipline and lower performance-related expenses, which partially offset the revenue decrease. At 74.7%, the cost-income-ratio was 4.2 percentage points lower than last year.

Net additions to loan loss provisions in the first nine months of 2007 were €76 million, further demonstrating adherence to our cautious risk approach and the high quality of the loan portfolio. As of September 30, 2007, our coverage ratio was 66.3% (September 30, 2006: 59.8%).

**Non-operating items**

**2007 to 2006 third quarter comparison**

Non-operating items amounted to an aggregate gain of €48 million, compared to a loss of €8 million a year ago. This is mainly attributable to lower restructuring charges and decreased impairments of investments.

**2007 to 2006 nine months comparison**

Non-operating items declined by 51.3% to €193 million. This is largely due to the significant reduction in realized gains, as reported at the half year. In the first half of 2006

**Table of Contents**

**Allianz Group Interim Report Third Quarter and First Nine Months of 2007**

these included the sale of Dresdner Bank's remaining shareholdings in Munich Re to Allianz SE, and the disposal of our remaining participation in Eurohypo AG. Impairments of investments (net) stood at €35 million compared to €80 million in the previous nine months, and restructuring charges declined by €24 million to €17 million.

**Net income**

**2007 to 2006 third quarter comparison**

Net income declined to €(52) million compared to €278 million a year ago, driven by the lower operating profit. The tax expenses at €173 million rose by 96.6% resulting in an effective tax rate of 128.1% (3Q 2006: 23.0%) significantly influenced by the revaluation of our domestic tax assets due to the German tax reform.

**2007 to 2006 nine months comparison**

Net income declined by 12.0% to €955 million. The higher operating profit was offset by the decline in gains from non-operating items, however the nine months tax expense of €375 million was down 7.6%, leading to an effective tax rate at 27.1%, compared to 26.1% a year earlier.

<sup>1)</sup> Our reporting by division reflects the organizational changes within Dresdner Bank effective starting with 1Q 2007, resulting in two operating divisions, Private & Corporate Clients ( PCC ) and Investment Banking ( IB ). PCC combines all banking activities formerly provided by the Personal Banking and Private & Business Banking (including Private Wealth Management) divisions as well as our activities with medium-sized business clients from our former Corporate Banking division. IB, with Global Banking and Capital Markets, unites the activities formerly provided by the Dresdner Kleinwort (formerly Dresdner Kleinwort Wasserstein) division and the remaining activities of the former Corporate Banking division. Prior year balances have been adjusted accordingly to reflect these reorganization measures and allow for comparability across periods.

<sup>2)</sup> The Corporate Other division contains income and expense items that are not assigned to Dresdner Bank's operating divisions. These items include, in particular, impacts from the accounting treatment for derivative financial instruments which do not qualify for hedge accounting as well as provisioning requirements for country and general risks. For the three and nine months, the impact from the accounting treatment for derivative financial instruments which do not qualify for hedge accounting on Corporate Other's operating revenues amounted to □(24) mn and □(40) mn respectively (2006: □(35) mn and □(49) mn respectively).

Group Management Report

## Asset Management Operations

Internal growth in asset base up 7.1%, on track.

Double digit revenue and operating profit growth.

Cost income ratio at very competitive 58.9% including investments in future growth.

## Third-Party Assets Under Management of the Allianz Group

The vast majority of our assets under management continued to outperform their respective benchmarks. On the fixed income side, our conservative approach over the past year and a half really paid off over the last few months as the macroeconomic outlook we forecast has largely come to fruition.

On an internal basis, growth of our asset base was 7.1% as at September 30, 2007 (total growth amounted to 1.4%) compared to the year end 2006. The net inflows across all regions amounted to €12 billion, driven primarily by the United States, France and Asia-Pacific, and market appreciation amounted to €42 billion. These additions to the asset base were largely offset by negative currency translation effects of €40 billion, resulting primarily from a weaker U.S. Dollar against the Euro.

Our fixed income business contributed €11 billion to the total net inflows, the remainder of €1 billion was generated by our equity business.

**Third-party assets under management Fair values by investment category**

The third quarter was characterized by a challenging market environment which led to a negative market sentiment. Our net outflows in the third quarter were €8 billion, leaving net inflows for the nine months at €12 billion as already mentioned. Thereof, the majority was attributable to the fixed income business.

Our major achievements in the first nine months of 2007 included:

Strategic partnership with Xchanging Transaction Bank in investment account administration.

PIMCO was awarded Best Third-Party Provider of Fixed Income Portfolio Management Services in Asia from Euromoney Private Banking Survey 2007.

**Earnings Summary<sup>1)</sup>****Operating revenues****2007 to 2006 third quarter comparison**

On an internal basis, operating revenues were up 15.2%. This considerable increase was subdued by currency-related effects, predominantly the weakening of the U.S. Dollar against the Euro. At stable revenue margins, asset-based management fees increased, driven by the growth of our third party asset base. The development of the performance fees was largely influenced by a performance fee recognition in the third quarter instead of the fourth quarter as a result of a change in German fund contracts. This change affected the majority of those funds.

**2007 to 2006 nine months comparison**

At €2,314 million operating revenues were up 6.8%. At constant exchange rates, operating revenues would have been 13.1% ahead of the prior year period. The rise in management fees was commensurate with the increase in our third party asset base. The decline of loading and exit fees reflected the development of mutual fund sales.

Accordingly, the discussion of our Asset Management segment's results of operations relates solely to the operations of AGI.

### **Allianz Group Interim Report Third Quarter and First Nine Months of 2007**

#### **Operating profit**

#### **Operating profit**

in €mn

#### **2007 to 2006 third quarter comparison**

Operating profit was €322 million, up 10.3%. Internal growth amounted to 17.2%. This sizeable increase was driven by positive business developments across all the regions on a local currency basis.

Administrative expenses, excluding acquisition related expenses, increased by 8.1% to €456 million, containing €290 million compensation-related expenses.

At 58.6%, our cost-income ratio decreased by 0.5 percentage points.

#### **2007 and 2006 nine months comparison**

Operating profit of €940 million was 6.0% higher than the prior year period, resulting from further growth in all regions. Excluding the effects of exchange rate movements, operating profit improved by 12.7%.

Administrative expenses, excluding acquisition-related expenses, were up 7.4%. At €883 million, compensation-related expenses increased by €55 million. Non-compensation related expenses rose by €40 million to €491 million. Both developments were in line with our business expansion plans and investments in future growth.

Our cost-income ratio slightly improved by 0.4 percentage points to 59.4%.

#### **Non-operating items**

#### **2007 to 2006 third quarter comparison**

Acquisition-related expenses significantly dropped from €134 million to €97 million. This decline of 27.6% was predominantly due to a lower number of outstanding PIMCO LLC Class B Units (or Class B Units). As of September 30, 2007, the Allianz Group had acquired 43,917 of the 150,000 units originally outstanding.

#### **2007 to 2006 first nine months comparison**

At €302 million, acquisition-related expenses were 25.2% below last year's period. This development was mainly driven by the effect of a lower number of outstanding Class B Units as previously described.

#### **Net income**

#### **2007 to 2006 third quarter comparison**

Net income increased by 67.1% to €137 million. Internal growth rate amounted to 75.0%. This development was primarily driven by operating profit growth and lower acquisition-related expenses which were partly compensated by higher tax expenses. The effective tax rate was 37.8% (3Q 2006: 42.1%).

**2007 to 2006 nine months comparison**

Net income was up 37.5%, reaching €356 million for the reasons already mentioned in the quarter-to-quarter comparison. At constant exchange rates, net income exceeded 9M 2006 by 45.7%. The effective tax rate increased by 1.4 percentage points to 41.3%.

**Holding Function****Operating profit****2007 to 2006 third quarter comparison**

The operating loss decreased significantly. At €128 million, down €148 million, the main drivers were higher interest and similar income, and positive exchange rate movements. These positive developments were partly offset by a negative operating trading result from our hedge program for Group Equity Incentives.

**2007 to 2006 nine months comparison**

At €306 million the operating loss was 45.5% lower than the previous year figure, stemming from both an increase in operating revenues of 43.7% and reduced operating expenses.

**Non-operating items****2007 to 2006 third quarter comparison**

Total non-operating items amounted to an aggregate loss of €153 million, €95 million lower than in the comparison period. A trading loss of €63 million in the prior year was turned into a trading gain of €83 million this year, mainly resulting from derivative transactions. Conversely, there was an increase in interest expense, €70 million of which derived from external debt in connection with AGF bridge financing.

**2007 to 2006 nine months comparison**

## Edgar Filing: Harp Donald A Jr - Form 4

Non-operating profit turned into an aggregate gain of €298 million coming from an aggregate loss of almost the same amount in the prior year. The trading result turned positive, primarily driven by derivative transactions and increased realized gains (net) which more than doubled due to the sale of shares in the first half of the year.

**Table of Contents**

**Group Management Report**

## Private Equity

### Operating profit

#### 2007 to 2006 third quarter comparison

At €27 million the operating loss was almost halved. Income from fully consolidated private equity investments contributed most on the revenue side. This was partly offset by corresponding costs within the expenses.

#### 2007 to 2006 nine months comparison

On a year-to-date comparison the operating result developed favorably, from a €24 million loss to a profit of €40 million. Whereas higher income from fully consolidated private equity investments was partly compensated by the rise of the corresponding expenses, interest and fee income contributed significantly to the operating profit development.

### Non-operating items

#### 2007 to 2006 third quarter comparison

With an aggregate loss of €13 million non-operating items turned negative coming from a €275 million gain a year earlier. This development is almost exclusively due to one-off gains of almost €300 million from the disposal of investments in 2006.

#### 2007 to 2006 nine months comparison

Non-operating items recorded a loss of €27 million. The €296 million gain from a year earlier resulted from one-off disposals of investments.

## Balance Sheet Review

Slight decrease in shareholders' equity.

## Shareholders' Equity

### Shareholders' equity<sup>1)</sup>

in € mn

<sup>1)</sup> Does not include minority interests of €2.8 bn as of September 30, 2007 and of €6.4 bn as of December 31, 2006. Please see Note 18 to the condensed consolidated financial statements for further information.

<sup>2)</sup> Includes foreign currency translation adjustments.

Shareholders' equity decreased by 2.8% to €49.0 billion. The net income of €7.3 billion earned in the first nine months was offset by the minority buy-out that resulted in various impacts to shareholders' equity, primarily stemming from the accounting treatment of the goodwill and the capital increase. Additionally, the transfer on disposal of unrealized gains and losses to realized of €2.6 billion and the dividend payment of €1.6 billion contributed to this development.

## Total Assets and Total Liabilities

Total assets and liabilities increased by €41.5 billion and €46.6 billion, respectively. In the following sections we analyze important developments within the balance sheets of our Life/Health, Property-Casualty and Banking segments as presented on page 44. Relative to the Allianz Group's total assets and total liabilities, we consider the total assets and total liabilities from our Asset Management segment as immaterial and have, accordingly, excluded these assets and liabilities from the following discussion. Our Asset Management segment's results of operations stem primarily from its business with third-party assets. Please see pages 25 and 26 for further information on the development of our third-party assets.

- 1) Loans and advances to banks and customers, held-to-maturity investments, and real estate held for investment are stated at amortized cost. Investments in associates and joint ventures are stated at either amortized cost or equity, depending upon, among other factors, our ownership percentage.
- 2) Financial assets for unit-linked contracts represent assets owned by, and managed on the behalf of, policyholders of the Allianz Group, with all appreciation and depreciation in these assets accruing to the benefit of policyholders. As a result, the value of financial assets for unit-linked contracts in our balance sheet corresponds with the value of financial liabilities for unit-linked contracts.
- 3) Does not include affiliates at €2.9 bn and €2.8 bn as of September 30, 2007 and December 31, 2006, respectively.
- 4) Includes, in each case as of September 30, 2007 and December 31, 2006, respectively, debt securities at €9.4 bn and €7.3 bn, equity securities at €3.6 bn and €2.9 bn, and derivative financial instruments at €(5.0) bn and €(4.4) bn.

In aggregate, our Life/Health asset base grew by €8.5 billion to €349.8 billion, stemming primarily from increased assets for unit-linked contracts (+ €4.4 billion) and higher loans and advances to banks and customers (+ €4.0 billion). This reflected our strong sales performance with unit-linked insurance and investment contracts.

The reserves for insurance and investment contracts were up €3.2 billion amounting to €281.9 billion since December 31, 2006. This development was mainly driven by higher policy reserves especially out of our German Life- and Health business.

## Banking Assets and Liabilities

### Banking loans and advances to banks and customers

in €bn

<sup>1)</sup> Includes loan loss allowance at €(1.0) bn as of both September 30, 2007 and December 31, 2006, respectively.

Loans and advances to banks and customers in our Banking segment amounted to €357.7 billion as of September 30, 2007. This increase of 14.0% compared to December 31, 2006 was particularly driven by an increasing volume of the collateralized refinancing business of Dresdner Bank. Therefore, at €369.7 billion, liabilities to banks and customers also experienced an increase up 5.6% namely in the form of repurchase agreements and collateral received from securities lending transactions.

## Reconciliation of Consolidated Operating Profit and Income before Income Taxes and Minority Interests in Earnings

The previous analysis is based on our condensed consolidated financial statements and should be read in conjunction with those statements. The Allianz Group uses operating profit to evaluate the performance of its business segments and the Group as a whole. The Allianz Group considers the presentation of operating profit to be useful and meaningful to investors because it enhances the understanding of the Allianz Group's underlying operating performance and the comparability of its operating performance over time. Operating profit highlights the portion of income before income taxes and minority interests in earnings attributable to the on-going core operations of the Allianz Group. To better understand the ongoing operations of the business, we exclude the effects of acquisition-related expenses and the amortization of intangible assets, as these relate to business

combinations; and we exclude interest expense from external debt and income from financial assets and liabilities held for trading (relating to exchangeables on external debt) as these relate to our capital structure.

We believe that trends in the underlying profitability of our business can be more clearly identified without the fluctuating effects of the realized capital gains and losses or impairments of investment securities, as these are largely dependent on market cycles or issuer-specific events over which we have little or no control, and can and do vary, sometimes materially, across periods. Further, the timing of sales that would result in such gains or losses is largely at our discretion. Similarly, we exclude restructuring charges because the timing of the restructuring charges are largely within our control, and accordingly their exclusion provides additional insight into the operating trends of the underlying business.

Operating profit should be viewed as complementary to, and not a substitute for, income before income taxes and minority interests in earnings or net income as determined in accordance with IFRS.

The following table reconciles operating profit on a consolidated basis to the Allianz Group's income before income taxes and minority interests in earnings.

We further believe that an understanding of our total revenue performance is enhanced when the effects of foreign currency translation as well as acquisitions and disposals (or changes in scope of consolidation) are excluded. Accordingly, in addition to presenting nominal growth, we also present internal growth,

which excludes the effects of foreign currency translation and changes in scope of consolidation. The following table sets forth the reconciliation of nominal total revenue growth to internal total revenue growth for each of our segments and the Allianz Group as a whole for the three and nine months ended September 30, 2007.

## Notes to the Condensed Consolidated Interim Financial Statements

### 1 Basis of presentation

The condensed consolidated interim financial statements of the Allianz Group comprising the consolidated balance sheet, income statement, condensed cash flow statement, statement of changes in equity and selected explanatory notes are presented in accordance with the requirements of IAS 34, Interim Financial Reporting, and have been prepared in accordance with International Financial Reporting Standards (IFRSs), as published by the International Accounting Standards Board (IASB) and as endorsed by the European Union (EU).

The condensed consolidated interim financial statements comply with all new or amended IFRSs, where application is compulsory for the first time for periods beginning on January 1, 2007. For existing and unchanged IFRSs the accounting policies for recognition, measurement, consolidation and presentation applied in the preparation of the condensed consolidated interim financial statements are consistent with the accounting policies that have been applied in the preparation of the consolidated financial statements for the year ended December 31, 2006.

IFRSs do not provide specific guidance concerning all aspects of the recognition and measurement of insurance and reinsurance contracts. Therefore, as envisioned

in IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors, the provisions embodied under accounting principles generally accepted in the United States of America (US GAAP) have been applied to those aspects where specific guidance is not provided by IFRS 4, Insurance Contracts.

IFRS 7, Financial Instruments: Disclosures, is applicable for annual periods beginning January 1, 2007. IFRS 7 requires extended disclosures about the significance of financial instruments and the nature and extent of risks arising from financial instruments. Simultaneously with the development of IFRS 7, the IASB amended IAS 1, Presentation of Financial Statements, to add disclosures about capital management and capital requirements. The new requirements of IFRS 7 and IAS 1 will be of significance for the consolidated financial statements for the year ended December 31, 2007.

The condensed consolidated interim financial statements are presented in millions of Euro (€mn).

### 2 Changes in the presentation of the condensed consolidated interim financial statements

#### Reclassifications

Certain immaterial amounts of unearned premiums were previously netted against deferred acquisition costs in the consolidated balance sheets and against the related amortization account in the consolidated income statements. All periods have now been presented on a gross basis.

## Notes to the Consolidated Financial Statements

**37 Earnings per share**

Basic earnings per share is computed by dividing net income by the weighted average number of common shares outstanding for the period.  
Diluted earnings per

share reflects the effect of dilutive securities. Dilutive securities include participation certificates issued by Allianz SE which can potentially be converted to Allianz shares, warrants issued by Allianz SE, share-based compensation plans, and derivatives on own shares.

**Number of employees**

The Allianz Group had a total of 178,727 (2006: 166,505) employees as of September 30, 2007. 73,369 (2006: 76,790) of these were employed in Germany and 105,358 (2006: 89,715) in other countries. The number of employees undergoing training increased by 449 to 4,404.

**41 Subsequent events**

**Financial market turbulence**

After September 30, 2007, the turbulence in financial markets continued. Certain market segments for asset-backed-securities, namely CDOs and CLOs, still lack sufficient liquidity. Transactions occur only rarely. The Allianz Group will follow this development closely. The Allianz Group cannot rule out that this may lead to downward adjustments in the fourth quarter.

**Wildfires in Southern California, USA**

As a result of the severe wildfires in Southern California, USA during October 2007, the Allianz Group estimates claims losses of approximately €60 mn.

**Review report**

To Allianz SE, Munich

We have reviewed the condensed consolidated interim financial statements - comprising the balance sheet, income statement, condensed statement of cash flows, statement of changes in equity and selected explanatory notes - together with the interim group management report of Allianz SE, Munich for the period from January 1 to September 30, 2007 that are part of the quarterly financial report according to § 37x WpHG ( Wertpapierhandelsgesetz : German Securities Trading Act ). The preparation of the condensed consolidated interim financial statements in accordance with those IFRSs applicable to interim financial reporting as adopted by the EU, and of the interim group management report in accordance with the requirements of the WpHG applicable to interim group management reports is the responsibility of the Company s management. Our responsibility is to issue a review report on the condensed consolidated interim financial statements and on the interim group management report based on our review.

We performed our review of the condensed consolidated interim financial statements and the interim group management report in accordance with the German generally accepted standards for the review of financial statements promulgated by the Institut der Wirtschaftsprüfer (IDW). Those standards require that we plan and conduct the review so that we can preclude through critical evaluation, with a certain level of assurance, that the condensed consolidated interim financial statements

have not been prepared, in material aspects, in accordance with the IFRSs applicable to interim financial reporting as adopted by the EU, and that the interim group management report has not been prepared, in material aspects, in accordance with the requirements of the WpHG applicable to interim group management reports. A review is limited primarily to inquiries of company employees and analytical assessments and therefore does not provide the assurance attainable in a financial statement audit. Since, in accordance with our engagement, we have not performed a financial statement audit, we cannot issue an auditor s report.

Based on our review, no matters have come to our attention that cause us to presume that the condensed consolidated interim financial statements have not been prepared, in all material respects, in accordance with the IFRSs applicable to interim financial reporting as adopted by the EU and that the interim group management report has not been prepared, in all material respects, in accordance with the requirements of the WpHG applicable to interim group management reports.
