ANNUAL MEETING OF STOCKHOLDERS

FRIDAY, JUNE 6, 2008

PROXY STATEMENT

GENERAL PROXY INFORMATION

SOLICITATION OF PROXIES

This Proxy Statement is furnished in connection with the solicitation of proxies by management of **GEOVIC MINING CORP.** (the Company or Geovic) for use at the Annual and Special General Meeting of stockholders (the Meeting) to be held on June 6, 2008 and any adjournment thereof at the time and place and for the purposes set forth in the accompanying Notice of Meeting.

While it is expected that the solicitation will be primarily by mail, proxies may be solicited personally or by telephone by the directors, officers and regular employees of the Company at nominal cost. All costs of solicitation of proxies by management will be borne by the Company. It is anticipated that this Proxy Statement and the enclosed form of proxy will first be sent to stockholders on or about May 7, 2008.

APPOINTMENT OF PROXY

The persons named as proxy in the accompanying instrument of proxy are officers and directors of the Company. **A stockholder wishing to appoint some other person (who need not be a stockholder) to represent him or her at the Meeting has the right to do so, either by inserting such person's name in the blank space provided in the accompanying proxy (the Instrument of Proxy) and striking out the two printed names, or by completing another proxy. If a stockholder appoints one of the persons designated in the accompanying Instrument of Proxy as a nominee and does not direct the said nominee to vote either for or against or withhold from voting on a matter or matters with respect to which an opportunity to specify how the shares registered in the name of such stockholder shall be voted, the proxy shall be voted FOR such matter or matters.**

The Instrument of Proxy must be in writing and signed by the stockholder or by the stockholder's attorney duly authorized in writing or, if the stockholder is a body corporate or association, signed by any individual authorized by a resolution of the directors or governing body of the body corporate or association. An Instrument of Proxy will only be valid if it is duly completed, signed, dated and received at the office of the Company's registrar and transfer agent, Pacific Corporate Trust Company, 510 Burrard Street, 2nd Floor, Vancouver, BC V6C 3B9, not less than 48 hours (excluding Saturdays, Sunday and holidays) before the commencement of the Meeting or any adjournment thereof, unless the Chairman of the Meeting elects to exercise his discretion to accept proxies received subsequently, including any Instrument of Proxy delivered at the Shareholder meeting.

REVOCAION OF PROXY

A stockholder who has given an Instrument of Proxy may revoke it by an instrument in writing signed by the stockholder or by the stockholder's attorney authorized in writing or, if the stockholder is a corporation or association, signed by any individual authorized by a resolution of the directors or governing body of the body corporate or association, and delivered to Pacific Corporate Trust Company at the address listed above at any time up to and including the last business day preceding the day of the Meeting, or any adjournment thereof at which the Instrument of Proxy is to be used, or to the Chairman of the Meeting on the day of the Meeting or any adjournment thereof or in any other manner provided by law. A revocation of an Instrument of Proxy does not affect any matter on which a vote has been taken prior to the revocation.

The Chairman of the Meeting will have the discretion to accept or reject proxies otherwise deposited.

VOTING OF PROXIES

THE PERSONS DESIGNATED IN THE ENCLOSED INSTRUMENT OF PROXY WILL VOTE OR WITHHOLD FROM VOTING THE SHARES IN RESPECT OF WHICH THEY ARE APPOINTED PROXY ON ANY POLL THAT MAY BE CALLED FOR IN ACCORDANCE WITH THE INSTRUCTIONS OF THE STOCKHOLDER AS INDICATED ON THE INSTRUMENT OF PROXY AND, IF THE STOCKHOLDER SPECIFIES A CHOICE WITH RESPECT TO ANY MATTER TO BE ACTED UPON, THE SHARES WILL BE VOTED ACCORDINGLY. WHERE NO CHOICE OR WHERE BOTH CHOICES ARE SPECIFIED IN THE INSTRUMENT OF PROXY, IT IS INTENDED THAT SUCH SHARES WILL BE VOTED FOR THE MATTERS OR PERSONS DESCRIBED THEREIN AND IN THIS PROXY STATEMENT.

The enclosed Instrument of Proxy confers discretionary authority upon the person appointed proxy thereunder to vote with respect to amendments or variations of matters identified in the Notice of Meeting and with respect to other matters that may properly come before the Meeting. In the event that amendments or variations to matters identified in the Notice of Meeting are properly brought before the Meeting or any other business is properly brought before the Meeting, it is the intention of the persons designated in the enclosed Instrument of Proxy to vote in accordance with their best judgment on such matters or business. At the time of the printing of this Proxy Statement, management of the Company knows of no such amendment, variation or other matter which may be presented to the Meeting.

NON-REGISTERED STOCKHOLDERS

Only registered stockholders or their duly appointed proxy holders are permitted to vote at the Meeting. Many stockholders of the Company are non-registered stockholders because the shares they own are not registered in their names but are instead registered in the name of the brokerage firm, bank or trust company through which they purchased their shares. **More particularly, a person is not a registered stockholder in respect of shares which are held on behalf of that person (the Non-Registered Holder) but which are registered either: (a) in the name of an intermediary (an Intermediary) that the Non-Registered Holder deals with in respect of the shares (Intermediaries include, among others, banks, trust companies, securities dealers or brokers and trustees or administrators of self-administered RRSPs, RRIFs, RESPs and similar plans); or (b) in the name of a clearing agency (such as The Canadian Depository for Securities Limited (CDS)) of which the Intermediary is a participant. In accordance with the requirements of National Instrument 54-101 and applicable rules adopted under the Securities Act of 1934, as amended, the Company has distributed copies of the Notice of Meeting, this Proxy Statement and the Instrument of Proxy (collectively, the Meeting Materials) to the clearing agencies and Intermediaries for distribution to Non-Registered Holders.**

Intermediaries are required to forward the Meeting Materials to Non-Registered Holders unless a Non-Registered Holder has waived the right to receive them. Very often, Intermediaries will use service companies to forward the Meeting Materials to Non-Registered Holders. Generally, Non-Registered Holders who have not waived the right to receiving Meeting Materials will either:

- (a) be provided with an Instrument of Proxy which has already been signed by the Intermediary (typically by a facsimile, stamped signature), which is restricted as to the number of shares beneficially owned by the Non-Registered Holder but which is otherwise not completed. Because the Intermediary has already signed the Instrument of Proxy, this form of proxy is not required to be signed by the Non-Registered Holder when submitting the proxy. In this case, the Non-Registered Holder who wishes to submit a proxy should otherwise properly complete the Instrument of Proxy and deposit it with Pacific Corporate Trust Company as provided above, OR

- (b) more typically, be provided with a voting instruction form which is not signed by the Intermediary, and which, when properly completed and signed by the Non-Registered Holder and returned to the Intermediary or its service company, will constitute voting instructions (often called a proxy authorization form) which the Intermediary must follow. Typically, the proxy authorization form will consist of a one page pre-printed form. Sometimes, instead of the one page pre-printed form the proxy authorization form will consist of a regular printed proxy form accompanied by a page of instructions which contains a removable label containing a bar-code and other information. In order for the form of proxy to validly constitute a proxy authorization form, the Non-Registered Holder may be required to remove the label from the instructions and affix it to the form of proxy, and must properly complete and sign the form of proxy and return it to the Intermediary or its service company in accordance with the instructions of the Intermediary or its service company.

In either case, the purpose of this procedure is to permit Non-Registered holders to direct the voting of the shares which they beneficially own. Should a Non-Registered Holder who receives one of the above forms wish to vote at the Meeting in person, the Non-Registered Holder should strike out the names of the Management proxy holders named in the form and insert the Non-Registered Holder's name in the blank space provided. **In either case, Non-Registered Holders should carefully follow the instructions of their Intermediary, including those regarding when and where the proxy or proxy authorization form is to be delivered.**

QUORUM

In order to carry out the business of the meeting, we must have a quorum of stockholders represented at the meeting, in person or by proxy. This means that holders of one-third of the shares of the Corporation entitled to vote generally in the election of directors must be represented at the meeting.

OUR VOTING RECOMMENDATIONS

The Company's Board of Directors recommends that you vote:

FOR each of our nominees to the Board of Directors;

FOR reappointment of Ernst & Young LLP as the auditor of the Company; and

FOR the proposed amendments to the Company's stock option plan

INTEREST OF CERTAIN PERSONS IN MATTERS TO BE ACTED UPON

No current or nominee director or executive officer at any time since the beginning of the Company's last financial year, or any associate or affiliate of such persons, or any person on behalf of whom this solicitation is made, has any material interest, direct or indirect, in any matter to be acted upon at the Meeting other than the election of directors or the amendments to the stock option plan.

COMPLIANCE WITH SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING

To the knowledge of the Company's directors and executive officers, no person who was at any time during the last fiscal year an officer, director or holder of more than ten percent (10%) of our common stock failed to file on a timely basis, reports required by Section 16(a) to be filed during the fiscal year or prior fiscal years.

As of May 1, 2008 (the Record Date), the Company had 101,980,486 Shares and no Preferred Shares issued and outstanding. The holders of the Shares are entitled to receive notice of and to attend and vote at all meetings of the stockholders of the Company, and each Share confers the right to one vote in person or by proxy at all meetings of the stockholders of the Company.

WHO MAY VOTE

The holders of Shares at the close of business on the Record Date are entitled to vote or to have their Shares voted at the Meeting. On vote by a show of hands, every individual who is present as a stockholder or as an authorized representative of one or more corporate or association stockholders, or who is holding an Instrument of Proxy on behalf of a stockholder who is not present at the Meeting, will have one vote. On a vote by poll, every stockholder present in person or represented by an Instrument of Proxy and every person who is a representative of one or more corporate or association stockholders, will have one vote for each Share registered in the stockholder s name on the list of stockholders, which is available for inspection during normal business hours at Pacific Corporate Trust Company and will be available at the Meeting.

Gregg Sedun, a director of the Company, is a director of Diamond Fields International Ltd (DFI). DFI was unable to file such financial statements on time as a result of a variety of factors, including the move of DFI s head office from Vancouver, British Columbia to Cape Town, South Africa, technical issues relating to currency exchange matters, computer virus problems, a change in DFI s chief financial officer, and other extenuating factors. INFORMATION ABOUT THE BOARD AND COMMITTEES OF THE BOARD

Governance Guidelines and Ethical Business Code

The Board is committed to maintaining high standards of corporate governance and accordingly reviews its corporate governance practices from time to time to assess the effectiveness and appropriateness of such practices. The Board has adopted a Statement on Corporate Governance setting forth guidelines and standards with respect to the role and composition of the Board, the functioning of the Board and its committees, succession planning and management development, the Board's and its committees' access to independent advisers and other matters.

The Board encourages and provides a culture of ethical business conduct within the Company and has adopted a Code of Business Conduct and Ethics (the Code).

Compliance with the Code is based on the cooperation and vigilance of all persons subject to the Code. Each employee is provided with a copy of the Code and is required to certify in writing that they have read, understood and agree to comply with the Code. Primary responsibility for monitoring compliance with the Code rests with the Chief Financial Officer.

Directors who (i) are parties to (ii) are directors or officers of a party to or (iii) have a material interest in any person who is a party to a material contract or proposed material contract with the Company must disclose the conflict in writing to the Company or request to have the nature and extent of such interest entered into the minutes of the meeting. The director shall, if requested by any other director, not be present at a meeting of the Board while the Board is considering any such material contract and shall not vote on such material contract, unless permitted by law.

Stockholders and other interested persons may obtain a written copy of the Statement on Corporate Governance and the Code by contacting the Company, from the Company's website www.geovic.net and on SEDAR at www.sedar.com.

Independence of the Board

The Board currently consists of six individuals and the same six individuals are nominated for election at the Meeting. The Board has determined that two of the directors, Messrs. MacDonald and Nesmith, are independent as defined by applicable Canadian securities laws. The Board has concluded that four directors, Messrs. Sherborne, Buckovic, Mason and Sedun are not independent as defined by applicable Canadian securities laws. Mr. Sherborne is not independent as he is Chief Executive Officer of the Company and Mr. Buckovic is not independent as he is the President of the Company. Mr. Mason is not independent for the reason that he serves as a consultant to the Company and has so served since 2003. Mr. Sedun is not independent as he had a finder's fee agreement with the Company. Although the finder's fee agreement terminated on March 1, 2007, Mr. Sedun received in excess of Cdn\$75,000 in compensation from the Company in a 12-month period pursuant to such agreement. The majority of the directors are not independent. The non-employee directors hold regularly scheduled meetings following each director meeting, at which members of management are not in attendance and during 2007, six such meetings were held. There were no separate meetings of the two independent directors at which the two other non-employee directors were not present. The independent directors plan to meet following each Annual and Special Meeting of Directors.

Chairman and Lead Director

The Board has not appointed a Chairman or Lead Director. As a result, until and unless a Chairman is designated or selected, Mr. Sherborne, as Chief Executive Officer assumes such responsibilities as ensuring that the Board works together as a cohesive team with open communication; working together with the Nominating and Corporate Governance Committee to ensure that a process is in place by which the effectiveness of the Board, its committees and its individual directors can be evaluated on a regular basis. The CEO also acts as the primary spokesperson for the Board, ensuring that management is aware of concerns of the Board, stockholders, other stakeholders and the public and, in addition, ensures that management strategies, plans and performance are appropriately represented to the Board. The Board has contemplated appointing an independent Chairman or a Lead Director, and plans to recruit additional independent directors. In the interim, Messrs. MacDonald and Nesmith chair or take leadership roles in the Audit Committee, Compensation Committee and the Nominating and Corporate Governance Committee.

The Board has established a process by which stockholders may send communications to the Board of Directors, which is set forth in the Charter adopted by the Board for the Nomination and Corporate Governance Committee of the Board. The charter is available for review on the Company's website www.geovic.net.

Meetings of the Board and Committees of the Board

The Board meets a minimum of four times per year, usually during every quarter and following the annual meeting of the Company's stockholders. Each committee of the Board meets at least once each year or more frequently as deemed necessary by the applicable committee. The frequency of the meetings and the nature of the meeting agendas are dependent upon the nature of the business and affairs which the Company faces from time to time. During the financial year ended December 31, 2007, the Board met six times, in person or by telephone, the Audit Committee met four times, the Compensation Committee met three times and the Nominating and Corporate Governance Committee met three times. In 2007 all directors attended all Director and committee meetings. The following table provides details regarding director attendance at Board and committee meetings held during each director's tenure on the Board and his respective committees during the financial year ended December 31, 2007.

The Company provides cash compensation to the directors for their services as directors or members of committees of the Board. On October 26, 2007 effective as of October 1, 2007, the Board adopted a compensation program for the non-employee directors. Under that arrangement, all non-employee directors are paid an annual retainer of \$25,000, the Chair of the Audit Committee receives \$15,000 and the Chair of each other Committee receives \$10,000, paid quarterly in advance. In addition, the non-employee directors receive initial and annual, automatic, non-discretionary grants of nonqualified stock options under the Company's Amended and Restated Stock Option Plan (Plan). Upon appointment or election, a new director will be granted 200,000 options upon taking office, or as soon thereafter as the grant may be completed. Annual grants of 100,000 options to directors are to be made before January 10 each year under the Plan, vesting 40 percent upon the date of grant, 30 percent after one year, and the balance after two years, dependent upon continued service as a director of the Company, with a term of ten years from the date of grant.

For the most recently completed financial year, non-employee directors were granted options by the Company as follows: options to purchase 200,000 shares granted to Robert J. (Don) MacDonald; options to purchase 50,000 shares granted to Wade Nesmith, Gregg Sedun and Michael Mason. On January 3, 2008 each of such persons were granted options to purchase 100,000 shares, consistent with the compensation program

Compensation Discussion and Analysis

2007 Executive Compensation

During the fiscal year ended December 31, 2007, the Company's executive officers received the compensation shown in the summary compensation table above. Geovic, Ltd., the Company's subsidiary, is the employer of all the Company's executive officers and other employees totalling 10 persons in 2007. The compensation of the Company's executive officers (other than the CEO) was established by the Compensation Committee upon the recommendation by the Chief Executive Officer and approved by the Board.

Compensation Policies

The Company's compensation policies and objectives were put into effect during 2007, based upon the review and determinations made by the Company's Board, the Compensation Committee, and the Company's Chief Executive Officer and Chief Financial Officer. No changes to annual compensation of the five executive officers named in the Summary Compensation table below were made from early 2006 until mid 2007. Compensation of the Company's executive officers was established after the Compensation Committee reviewed a final report and recommendations from a compensation consultant engaged in August 2007 to advise the Compensation Committee regarding executive compensation, including appropriate increases in 2007 compensation. Compensation for the five Named Executive Officers was increased effective July 1, 2007 to amounts recommended by the Compensation Committee after receipt of reports from the consultant, and review of individual contributions.

Compensation Committee Mandate

The primary purpose of the Compensation Committee is to discharge the responsibilities of the Board relating to the compensation of the Company's executive officers (the Executive Management). The Compensation Committee has overall responsibility for evaluating and making recommendations to the Board regarding equity-based, salary and incentive compensation plans, policies and programs of the Company, and may include recommendations to the Board regarding annual and long-term incentive compensation for the directors. The Compensation Committee has the responsibility to produce an annual report on executive compensation for inclusion in the Company's annual Proxy Statement, in accordance with applicable securities laws. The Compensation Committee will review the Company's compensation programs on an ongoing basis to ensure that they are competitive with industry standards, enable the Company to meet its business objectives, and to attract, motivate and retain qualified employees.

The Compensation Committee reviews on an annual basis the cash compensation, performance and overall compensation package for each executive officer. It then submits to the Board recommendations with respect to the basic salary, bonus and participation in share compensation arrangements for each executive officer.

Compensation Program Objectives

The Company's Board of Directors established the following long-term goals and objectives for the Company's compensation program for executive officers and employees:

Compensation levels of executive officers will be compared to the marketplace in which the Company competes for people, taking into account the size and complexity of the Company while recognizing the potential of the development opportunities in Cameroon and other places where the Company has or acquires mineral properties.

The compensation strategy shall have reference to a comparable group of mining development companies. The strategy is expected to be reasonable, fair and defensible while recognizing the current need to conserve cash.

The strategy should recognize the need to retain existing and future high caliber executive officers and management (provide reasonably competitive salaries), to reward for performance in achieving pre-determined annual objectives (a bonus plan) and motivate them to remain with the Company and enhance stockholder value (using stock options).

Because Geovic is in a critical stage of development operating with expert mine building and financing expertise in a difficult environment (Cameroon), the Company shall follow a higher than average approach to compensation.

Based upon this overall strategic approach and recognizing that retention is important, the following specific compensation strategies shall be followed:

The compensation marketplace for purposes of determining comparable compensation is mining development companies with international operations.

Base salary ranges will generally be established around the 75th percentile of the comparison group of employers.

Payments to executive officers upon a Change of Control of the Company shall be consistent with requirements of any exchange upon which the securities of the Company may be listed and generally require both a change of control of the Company and either a termination of the executive within a year following the control change or a substantial diminution of compensation or duties as a result of the control change.

Annual bonus awards will be based on performance such that, if performance meets pre-determined objectives, total cash compensation for each executive (base salary plus bonus) will be approximately equal to the 75th percentile of such compensation paid for similar positions by the comparison group of employers. Cash compensation and annual bonus objectives and other terms approved by the CEO and consistent with the compensation strategy described herein shall be set forth in a written employment agreement for each executive; employment agreements shall generally have a term of two years, renewable annually.

Long-term awards will be provided in the form of annual issuances of stock options based upon typical market practices of mining development companies. Terms and vesting will be such as to both motivate and retain executive officers and management. Other long-term awards (restricted stock, deferred or restricted share units) will be considered, as appropriate.

We expect that the Company's compensation policies and programs will assist us to be competitive with similar exploration and mining companies, to recognize and reward executive performance consistent with the success of the Company's business and to attract and retain capable and experienced management. The Compensation Committee's philosophy and goal is to ensure that the Company's compensation goals and objectives, as applied to the actual compensation paid to the Company's executive officers, are aligned with the Company's overall business objectives and with stockholder interests, and can be readily understood and described to the Company's stockholders.

The Compensation Committee considered a variety of factors when recommending compensation policies and programs and individual compensation levels, including the stockholder interests, the Company's overall financial and operating performance and the Compensation Committee's assessment of each executive's individual performance and contribution toward meeting the Company's corporate objectives. The Company CEO recommended compensation ranges for the Company's executive officers to the Compensation Committee, and the recommendations considered the experience and demonstrated talent and effectiveness of each executive in his position. The recommendations included references to: (a) the report from the compensation consultant engaged by the Compensation Committee and (b) the total value of all compensation paid to executive officers in similar positions, as demonstrated in public summary compensation disclosures made by other similarly situated public TSX-listed mining and mineral exploration companies, Anatolia Minerals Dev Ltd., Aurizon Mines Ltd., Baja Mining Corp., Banro Corp., Corriente Resources Inc., Etruscan Resources Inc., Far West Mining Ltd., Frontera Copper Corp., Gabriel Resources Ltd., Glencairn Gold Corporation, Global Alumina Corp., Iberian Minerals Corp., Jaguar Mining Inc., Metallica Resources Inc., Minefinders Corporation, Nautilus Minerals, Orezone Resources Inc., Rusoro Mining Ltd., Semafo Inc., Skye Resources Inc., Ur-Energy Inc., among others. The consultant based many of his recommendations on comparisons with a similar group of public mining and exploration companies.

Elements of The Company's Executive Compensation Program

The total compensation plan for the Company's executive officers is comprised of three components: base salary, annual and special performance bonuses and grants of stock options. There is currently no policy or target regarding a percentage allocation between cash and non-cash elements of the Company's proposed compensation program. Any such allocations are determined on an individual basis annually and may be reflected in the employment agreements entered into with the Company's executive officers. Current compensation and long term incentive compensation may be influenced by such factors as level of responsibility, peer group analysis and individual executive performance.

Base Salary

As a general rule for establishing base salaries, the Compensation Committee reviews current compensation levels, and compensation paid in past years along with competitive market information, for each executive officer. The compensation for each is reviewed annually by the Compensation Committee to reflect performance and achievements and other internal consideration, as well as external factors, such as inflation, Company growth, and financial condition. We believe that base salaries paid to the Geovic executive officers in 2005 and 2006 were lower than other employers would have paid these executive officers, because Geovic lacked the cash or other resources to pay higher salaries. The base salary paid to the executive officers named was increased in October 2007, retroactive to July 1, 2007, to levels which reflected the responsibilities and abilities of the individuals, as determined by the Compensation Committee with input from other Directors, and by the executive officers.

Performance Bonuses

The Compensation Committee established the practice in 2007 to pay cash performance bonuses under which the Company's executive officers earn annual incentive payments equal to a percentage of individual base salary, based on what the individuals contributed and the Company achieved during the year, and progress by the Company toward profitable operations and other corporate performance goals. The Committee's objective was to shift the bonus program to a consistent and responsible annual model that is defensible and in the best interest of stockholder value. For 2007, we paid the executive officers and other Company employees a cash bonus equal to thirty percent of each person's salary at the rate being paid at year-end. The Company's Chief Executive Officer was also paid an annual bonus at the same rate, as recommended by the Compensation Committee. The Company's Compensation Committee determined individual executive performance goals, and the weight to be given to each, for the Company's Chief Executive Officer. For other executive officers, the Chief Executive Officer determined individual executive performance goals and the weight to be given to each, subject to the review and approval of the Company's Compensation Committee, and ultimately by the Company's Board of Directors.

In 2007 we also paid the following special cash bonuses to three executive officers:

Mr. Sherborne, Chief Executive Officer, \$125,000 for his success in finalizing the stockholder and other agreements with GeoCam and the minority stockholders of GeoCam and in assisting the Company to complete financing goals for 2007;

Mr. Beling, Chief Operating Officer, \$100,000 for his success with completion of financing objectives during 2007 and the basic Nkamouna Project research, design, and engineering progress; and

Mr. Hill, Chief Financial Officer, who was Acting CFO from August 2006 until October 31, 2007, \$30,000 for assisting in completion of finance objectives during 2007, leading Nkamouna Project funding initiatives, and structuring of future financing programs.

Corporate performance goals, and the elements of these goals, are established annually by the Compensation Committee in consultation with the Company's Chief Executive Officer and the Board. These will be based initially, on progress toward commencement of mining operations on the Nkamouna

Project, including completion of Company equity financing and progress towards project financing for GeoCam. Other factors such as financial operating goals and targets in the areas of safety and environmental matters and similar regulatory compliance, the Company's share price performance, and future changes in the Company's net asset value may also be considered. However, these other factors were not considered in setting 2007 compensation.

Stock Options

We make annual grants of options to purchase the Company's Shares to the Company's executive officers and key employees and to the Company's non-employee directors. Options are intended to emphasize management's commitment to the Company's growth and the enhancement of stockholders' wealth through, for example, improvements in operating results, resource base and share price increments. In 2007 the Board established a policy, commencing in 2008, of making annual grants of options to executive officers and directors during the first ten days of each year. As discussed below under the heading "Amended and Restated Stock Option Plan," we adopted a stock option plan which will govern options granted to directors, employees, officers and consultants of the Company and the Company's subsidiaries. At the Company's annual meeting of stockholders held June 9, 2007, the Company's stockholders approved an increase in the number of shares reserved for issuance under the Company's stock option plan to 18,700,000 shares. The Board recommended this increase so that we would have additional shares available in the Company's option plan to make grants for the Company's executive officers and directors during 2007 and 2008 in amounts determined by the Compensation Committee and approved by the Board.

Chief Executive Officer Compensation

The Compensation Committee:

- (a) periodically reviews the terms of reference for the Company's Chief Executive Officer and recommends any changes to the Board for approval
- (b) reviews corporate goals and objectives relevant to the compensation of the Chief Executive Officer and recommends them to the Board for approval;
- (c) leads the annual Chief Executive Officer review/evaluation process and reports the results of the process to the Board;
- (d) based on the results of the Chief Executive Officer's evaluation, recommends Chief Executive Officer compensation to the Board for approval; and
- (e) reviews, and if appropriate recommends to the Board for approval, any agreements between the Company and the Chief Executive Officer, including those addressing retirement, termination of employment or other special circumstances, as appropriate.

The components of the Chief Executive Officer's compensation are the same as those which apply to the other senior executive officers of the Company, namely base salary, bonus and long-term incentives in the form of stock options. The Compensation Committee presents recommendations of the Compensation Committee to the Board with respect to the Chief Executive Officer's compensation. In setting the Chief Executive Officer's salary, the Compensation Committee reviewed salaries paid to other senior officers in the Company, salaries paid to other chief executive officers in the industry and the Chief Executive Officer's impact on the achievement of the Company's objectives for the previous financial year. The Compensation Committee was satisfied that all such recommendations comply with the Compensation Committee's policy which is both motivational and competitive to put the Company in a position to attract, retain and inspire performance of executive officers of a quality and nature that will lead to and enhance the sustainable profitability and growth of the Company.

See Summary Compensation Table above and Option Grants During the Most Recently Completed Financial Year below for further details regarding compensation for the Company's Chief Executive Officer during the financial year ended December 31, 2007.

Role of Executive Officers in Determining Compensation

The Compensation Committee reviewed and recommended compensation policies and programs to the Board, as well as salary and benefit levels for individual executive officers. Prior to 2007, compensation of the Company's executive officers and compensation policies and programs was set by the Geovic, Ltd. Board of Directors made up of Messrs. Sherborne and Buckovic, the Chief Executive Officer and the President, respectively, and one independent director, Mr. MacDonald. Beginning in 2007, the Compensation Committee recommended compensation levels for all executive officers, subject to approval by the Company's Board. The Company's Chief Executive Officer and President were not present during meetings of the Compensation Committee and Directors in 2007 at which their compensation was discussed and established. The Company's Board of Directors made the final determinations regarding the Company's compensation programs and practices for 2007 and approved all compensation arrangements with the Company's executive officers.

Perquisites and Other Personal Benefits

During the fiscal year ended December 31, 2007, the Company's executive officers received no material perquisites or other personal benefits. The Company's executive officers are generally not entitled to significant perquisites or other personal benefits not typically offered to the Company's employees.

Effects of Regulatory Requirements on Executive Compensation

Various rules under current generally accepted accounting practices impact the manner in which we account for grants of stock options to employees, including executive officers, on the Company's financial statements. The Compensation Committee and the Audit Committee review the effect of these rules (including SFAS 123(R)) when determining the form and timing of grants of stock options to the employees, including executive officers; however, this analysis is not the determining factor in any such decision regarding the form and timing of grants.

REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee has reviewed and discussed the foregoing Compensation Discussion and Analysis with management of the Company. Based on such review and discussion, the Compensation Committee has recommended to the Board of directors that the Compensation Discussion and Analysis be included in the Company's Annual Report on Form 10-K for the Fiscal Year ended December 31, 2007.

Transactions with Related Parties

Geovic has an agreement with MSL, owned by Michael T. Mason, a director of the Company. MSL, acting primarily through Mr. Mason, provided services to Geovic during the last fiscal year. Total fees and reimbursements paid to MSL were \$43,500 during the year ended December 31, 2007.

Mr. Buckovic holds shares representing 0.5% of GeoCam, the Company's 60% owned Cameroon subsidiary, which are subject to an Option Agreement under which the Company has an option to acquire all the GeoCam shares held by Mr. Buckovic at any time until December 31, 2020 in exchange for the issuance by the Company to Mr. Buckovic of 139,000 shares of Geovic common stock. The Company is obligated under the Option Agreement to make all payments required under the GeoCam Shareholders Agreement, or otherwise to maintain Mr. Buckovic's 0.5% ownership interest in GeoCam. In 2007, the Company paid \$68,500 to GeoCam on behalf of Mr. Buckovic in accordance with this obligation.

Procedures for Approval of Transactions with Related Persons

A written policy relating to the approval of transactions with related persons was adopted when the Board established the Nominating and Corporate Governance Committee in 2007. The Company's written policy for the review of material transactions with related persons requires review, approval or ratification of all transactions in which the Company or a subsidiary is a participant and in which a Company director, executive officer, a significant stockholder or an immediate family member of any of the foregoing persons, or a person with a similar relationship with a subsidiary of the Company, has a direct or indirect material interest, subject to certain categories of transactions that are deemed to be pre-approved under the policy. The pre-approved transactions include employment of executive officers, director compensation (in general, where such transactions are required to be reported in the Company's proxy statement pursuant to compensation disclosure requirements of the Securities Exchange Act), as well as transactions in the ordinary course of business where the aggregate amount involved is expected to be less than \$5,000. All related party transactions will have to be reported for review by the Nominating and Corporate Governance Committee of the Board or the Audit Committee. Transactions deemed to be pre-approved are not required to be reported to the Committee, except that material transactions in the ordinary course of business are required to be submitted to the Committee for review at its next following meeting.

Following its review, the Committee determines whether these transactions are in, or not inconsistent with, the best interests of the Company and the Company's stockholders, taking into consideration whether they are on terms no less favourable to the Company than those available with other parties and the related person's interest in the transaction. Ultimately, material transactions require approval of disinterested Directors. If a related party transaction is to be ongoing, the Nominating and Corporate Governance Committee may establish guidelines for the Company's management to follow in its ongoing dealings with the related person.

Amended and Restated Stock Option Plan

The Company's Stock Option Plan was amended and restated at the Annual General Meeting of Stockholders in June 2007. The plan governs options granted to directors, employees, officers and consultants of the Company (the Amended and Restated Stock Option Plan or Plan).

The Plan provides for grants to directors, officers, employees and consultants of the Company, or its subsidiaries, of options to purchase the Company shares. These options may be either incentive stock options within the meaning of Section 422 of the Code, or stock options that are non-qualified for United States federal income tax purposes. The total number of the Company shares for which options may be granted pursuant to Plan is limited to 18,700,000 shares representing approximately 18.3% of the Company's currently outstanding shares, including options to purchase 11,890,286 shares we exchanged for outstanding Geovic, Ltd. options upon completion of the RTO (the Exchanged Options).

As of the Record Date, options to purchase 4,318,600 shares have been granted under the Plan. In 2008 options to purchase an additional 1,540,000 shares were awarded to executive officers and directors under the Plan. As at the date of this Proxy Statement, options to purchase a total of 16,208,886 Shares have been granted, representing approximately 16% of the issued and outstanding Shares and leaving 2,491,114 (2.44%) Shares available for future option grants. A description of the Plan and amendments being proposed at the Annual Meeting are described below under PROPOSAL THREE.

The Company had written employment agreements with the executive officers (excluding Mr. Hill, our CFO). Each agreement provided for continued employment through December 31, 2007, with provisions for annual extensions thereafter upon mutual agreement. The agreements with Messrs. Sherborne, Beling and Buckovic provided that within ninety (90) days of completion of a transaction deemed to be a change

in control of the Company under circumstances deemed to be unacceptable to the executive, the executive would be entitled to a severance payment equal to two years base salary plus any accrued bonus or vacation through the date of termination. The public offerings completed in 2007 were not deemed to be change of control events. The employment agreements were not renewed at the end of 2007, and are expected to be revised and amended under the supervision of the Compensation Committee of the Board during 2008.

Certain of the Company's directors and officers are also directors and officers of other natural resource companies. PROPOSAL TWO

APPOINTMENT OF AUDITOR

The auditor of the Company is Ernst & Young LLP. Stockholders will be asked to (a) reappoint Ernst & Young LLP as auditors of the Company to hold office until the close of the next annual general meeting of the Company and to (b) authorize the directors to fix the remuneration of the auditors. Ernst & Young LLP was originally appointed as auditor of the Company on December 1, 2006.

Unless such authority is withheld, the persons named in the accompanying Instrument of Proxy intend to vote for Ernst & Young LLP to serve as auditors of the Company for the fiscal year ending December 31, 2008 at remuneration determined by the directors. Representatives of Ernst & Young may be present at the meeting and will have the opportunity to make a statement if they desire to do so, and are expected to be available to respond to questions if present.

Report of the Audit Committee

The Company's Audit Committee is comprised of three directors, two of whom meet the independence and qualification standards for audit committee membership of the TSX and the Company's corporate governance guidelines, as determined by the Board. The Audit Committee reviews the accounting principles and procedures of the Company and its annual financial reports and statements, recommends to the Board the engagement of the Company's independent registered accounting firm, reviews with the independent registered accounting firm the plans and results of the auditing engagement and considers the independence of the Company's independent registered accounting firm.

A principal function of the Audit Committee is to ensure that effective accounting policies are implemented and that internal controls are put in place in order to deter fraud, anticipate financial risks and promote accurate and timely disclosure of financial and other material information to the public markets, the Board and the stockholders. The Audit Committee also reviews and recommends to the Board the approval of the annual financial statements and provides a forum, independent of management, where the Company's independent registered accounting firm can communicate any issues of concern.

The independent members of the Audit Committee believe that the present composition of the Committee accomplishes all of the necessary goals and functions of an audit committee as recommended by the Blue Ribbon Committee on Improving the Effectiveness of Corporate Audit Committees and adopted by the U.S. stock exchanges and the Securities and Exchange Commission. The Audit Committee operates under a formal, written Charter approved by the Board. The Charter specifies the scope of the Audit Committee's responsibilities and how it should carry out those responsibilities.

During 2007, the Audit Committee met five times. The Committee was advised, as contemplated by the Sarbanes-Oxley Act of 2002, of all critical accounting policies and practices of the Company. In performing its oversight function, the Committee reviewed with the Company's independent registered accounting firm such firm's judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed under the Audit Committee charter and generally accepted auditing standards, including Statement on Auditing Standards Nos. 61 and 90. In addition, the Committee has discussed with the independent registered accounting firm such firm's independence from management and the Company and received the written disclosures from the independent registered accounting firm required by the Independence Standards Board, Standard No. 1.

The Committee discussed with the Company's independent registered accounting firm the overall scope and plans for their audit. The Committee met with the independent registered accounting firm, with and without management present, to discuss the results of such firm's examination and evaluation of the Company's internal controls, and the overall quality of the Company's financial reporting.

The Company's management, the Audit Committee and the Board are fully committed to the review and evaluation of the Company's procedures and policies designed to assure effective internal control over financial reporting. All steps and disclosures relating to this matter have been and will remain subject to the oversight of the Audit Committee.

In reliance on the reviews and discussions referred to above, and subject to the limitations of the role and responsibilities of the committee set forth in its charter, based on the review of the Company's financial statements, accounting system and its accounting policies and procedures and discussions with the Company's independent registered accounting firm for the fiscal year ended December 31, 2007, the Audit Committee recommended to the Board that the consolidated financial statements for the fiscal year ended December 31, 2007 be included in the Company's Annual Report on Form 10-K. The Audit Committee also approved the selection of the Company's independent registered accounting firm for the fiscal year ended December 31, 2007 and approved the compensation arrangements and payments to such firm.

Members of the Audit Committee rely without independent verification on the information provided to them and on the representations made by management and the independent registered accounting firm. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Moreover, the Audit Committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards, that the financial statements are presented in accordance with generally accepted accounting principles or that the Company's independent registered accounting firm is in fact independent.

In January 2007 the Audit Committee authorized the engagement of our independent registered accounting firm and pre-approved all audit and audit-related fees, all tax fees and other fees anticipated for services authorized to be performed by our independent accountants during 2007, including auditing services for the fiscal year ended December 31, 2006. The fees expended were reviewed and the authorizations renewed, as appropriate, at each quarterly meeting of our Audit Committee. No services were performed in 2007 by our independent accountants that had not been pre-approved by our Audit Committee. Before 2007, we did not have an audit committee and such fees and services were pre-approved by the Geovic Ltd. Board of Directors.

PROPOSAL THREE

AMENDMENTS TO THE AMENDED AND RESTATED STOCK OPTION PLAN

Background

The stockholders and directors of the Company have previously approved the Amended and Restated Stock Option Plan (the Plan) under which directors, officers, employees and consultants of the Company may be granted stock options to acquire Shares. The Company adopted and stockholders approved the Plan on September 29, 2006 and approved amendments to the Plan on June 9, 2007. The principal purpose of the Plan is to provide a competitive and effective means to give Company personnel the opportunity to purchase stock in the Company. Granting equity is intended to assist the Company in attracting, retaining and motivating high calibre personnel whose contributions are important to the success of the Company. As stated above, as at the date of this Proxy Statement, options to purchase a total of 16,208,886 Shares have been granted, representing approximately 16% of the issued and outstanding Shares and leaving 2,491,114 Shares (approximately 2.4%) available for future option grants. As of the date of this Proxy Statement, 1,783,218 Shares have been issued pursuant to the exercise of Options and Exchanged Options.

The Plan is administered by the Board of Directors and the Compensation Committee of the Board. After review and recommendation by the Compensation Committee, the Board is empowered by the Plan to determine: (i) the total number of options to acquire shares (Options) to be made available under our Plan, (ii) which of our, or our subsidiaries' directors, officers, employees and consultants are eligible to receive Options under the Plan (Optionees), (iii) the time when and the price at which such Options will be granted, (iv) the time when and the price at which such Options may be exercised, and (v) the conditions and restrictions on the exercise of such Options. The Compensation Committee considers all other compensation arrangements with all Optionees and grants of Options are intended to be consistent with compensation policies of the Compensation Committee for executive officers.

Under the Plan, the exercise price of any Option shall not be less than the closing price of the Company shares on the TSX on the date immediately preceding the date of grant and the term of any such Option shall not exceed ten years from the date of grant; provided that as to grants of incentive stock options, with respect to any participant in the Plan who owns shares representing more than 10% of the voting rights attributable to the outstanding common stock of the Company, the exercise price of an incentive stock option may not be less than 110% of the fair market value of such shares on the date immediately preceding the date of grant and the term of such option may not exceed five years. Incentive stock options may be granted under the Plan only to persons who are employees of the Company or a subsidiary at the time of grant. To the extent that the aggregate fair market value of shares (determined at the time of grant) exceeds \$100,000 on the amount of incentive stock options exercisable for the first time by an Optionee during any calendar year, any excess over that amount shall be considered non-qualified options. Options vest and become exercisable in accordance with the terms of the Option determined at the time of grant by the Board of Directors. All options granted under the Plan are subject to the terms and conditions

of an option agreement with each participant made at the time an Option is granted, and to the terms of the Plan. Options granted under the Plan are non-transferable and non-assignable other than on the death of a participant. An Optionee will have no rights whatsoever as a Company Stockholder in respect of unexercised Options.

The number of Shares underlying Options granted to directors, officers or other insiders of the Company (i) at the time of grant, or (ii) within a one-year period thereafter, is not permitted to exceed 10% of the Shares outstanding at the time of the grant. The number of Shares underlying options granted to any one person within a one-year period shall not exceed 5% of the Shares outstanding at the date of grant.

If an Optionee ceases to be an officer or employee of the Company, or its subsidiaries, as a result of termination for cause, all unexercised options will immediately terminate. If an Optionee ceases to be an employee of the Company, or its subsidiaries, other than as a result of the Optionee's disability or death, the options held may be exercised at any time up to but not after the earlier of 120 days (three months in the case of Incentive Stock Options) from the date of ceasing to be an employee, or the expiry date. In the event of the disability or death of an Optionee, the options may be exercised at any time up to the earlier of twelve (12) months from the date of cessation of employment with the Company or its subsidiary, or the expiry date

Proposed Amendments to the Plan.

The Board of Directors has approved and recommended that the Stockholders approve certain amendments to the Plan, which are indicated in a backline copy of the Amended and Restated Plan attached to this Proxy Statement as Schedule A.

The material proposed changes to the Plan are as follows:

A provision to permit Optionees to effect, subject to the discretion of the Board of Directors, a Net Exercise of vested options (Section 4.2 of Schedule A). Using a Net Exercise, an Optionee may surrender vested Options to the Company and receive a number of shares of Company common stock equal to the number of surrendered options multiplied by the difference between (A) the exercise price of the surrendered options and (B) the fair market value of the Company's common stock on the date of surrender and divided by (C) the per share option exercise price. The ability for a net exercise to occur is determined by the Board upon request by an Optionee. Presently the Plan requires all Options to be exercised by the payment of cash in full.

A provision to allow the number of shares equal to all exercised options to become again available for issuance upon the exercise of Options subsequently granted under the Plan (Section 3.2(d) of Schedule A). Thus upon exercise of an option, or surrender of options upon a Net Exercise as described above, the same number of shares underlying those options would become available for issuance under the Plan. Presently the Plan allows only shares underlying options which expire unexercised or are terminated to again become available for issuance upon the exercise of Options subsequently granted under the Plan. The policies of the TSX permit this provision provided that it is re-approved by Stockholders every three years.

A provision to permit vested Options held by a Director at the time he leaves the Board, other than in the event of the death of such Director, to remain exercisable until expiry of the original option term (Section 3.4(b) of Schedule A). Presently the Plan requires that vested options held by retiring Directors must be exercised within 120 days of leaving the Board. Upon approval of the amendments to the Plan, the options held by any of the four non-employee Directors who leave the board in the future would be adjusted accordingly.

Several changes under which the Compensation Committee of the Board will be authorized to administer and supervise the issuance of Options under the Plan (Section 5.1 of Schedule A).

Presently the Plan provides that the Board, an administrator on the instructions of the Board or a Committee of the Board may administer the Plan; as proposed for revision, the Compensation Committee shall administer and supervise the issuance of Options but the Board will retain ultimate responsibility for final approval of options to be granted and other matters under the Plan.

A provision under which options that would otherwise expire during no trading periods (Blackout Periods) established by the Company will be extended for a reasonable time after the Blackout Period expires (Section 3.4 of Schedule A). The Plan presently has no such extension provisions. This revision is specifically authorized by the TSX, as described below.

Several provisions intended to clarify distinctions between incentive stock options and non-qualified options granted under the Plan (Sections 3.4(d) and 3.10 of Schedule A). These revisions do not modify or amend outstanding options or change the terms under which options may be granted under the Plan.

Several provisions which reflect that the Company is now listed on the TSX, including those to clarify the manner in which amendments to the Plan shall be completed in the future (Section 6.2 of Schedule A), these changes are intended to implement changes permitted by the TSX and do not materially change the existing Plan.

TSX Listing

On November 16, 2007, the securities of Geovic were voluntarily de-listed from the TSX Venture Exchange and listed on the TSX. As a result, Geovic became subject to the policies of the TSX and accordingly, it seeks to amend the Plan to comply with TSX policies, among other matters as described above. In June 2006, the TSX published a Staff Notice in relation to security based compensation arrangements such as the Plan. The Staff Notice provided guidance on the amendment procedures for security based compensation arrangements and the treatment of options that expire during an issuer's self-imposed blackout period. The Company proposes to change the Plan to specify those amendments to the Plan that can be made by the Board without the approval of the Company's stockholders (other than the approval at the Meeting to incorporate this amendment provision into the Plan). Further, the nature of the Company's business gives rise to a number of blackout periods each year during which directors, officers and employees are prohibited from trading in securities of the Company. If an option expiry date occurs during a blackout period, an optionee would be required to exercise that option to avoid its expiry. However, pursuant to applicable securities laws such optionee would be prohibited from trading in those securities until the blackout period ended. The TSX Staff Notice introduced the ability for the Plan to provide that should an option expiry date occur during or soon after a blackout period, the expiry date will become a date that is a reasonable amount of time following the end of a blackout period. The Company proposes to amend the Plan to comply with TSX policies, including inserting a specific amendment provision and providing for the extension of the expiry date of options that expire during a blackout period to a reasonable time thereafter.

Shares Authorized for Issuance

The Plan provides that the total number of Shares that may be issued pursuant to the Plan may not exceed 18,700,000 Shares. As at the date of this Proxy Statement, options to purchase a total of 16,208,886 Shares have been granted, representing approximately 16% of the issued and outstanding Shares and leaving 2,491,114 Shares (approximately 2.4%) available for future option grants. As of the date of this Proxy Statement, 1,483,218 Shares have been issued pursuant to the exercise of Options and Exchanged Options. If the amendments to the Plan are approved, the 1,783,218 Options and Exchanged Options that have been exercised will be re-issuable under the Plan, resulting in 4,274,332 (approximately 4.2%) Shares available for future option grants.

United States Federal Income Tax Consequences

The following is a brief description of the material U.S. federal income tax consequences associated with the award of options under the Plan. It is based on existing U.S. laws and regulations and there can be no assurance that those laws or regulations will not change in the future. Tax consequences in other countries where stockholders reside may vary and each stockholder should consult its own tax advisors regarding applicable income tax consequences associated with the award of Options under the Plan.

There are no federal income tax consequences to either the Company or the participant upon the grant of an Option. If the Option is a non-qualified stock option, the Optionee will realize ordinary income at exercise equal to the excess of the fair market value of the stock acquired over the exercise price and the Company will receive a corresponding federal income tax deduction. Any gain or loss realized upon a subsequent disposition of the stock will generally constitute capital gain or loss. If the option is an incentive stock option, there is generally no gain or loss realized by the Optionee upon exercise and no tax deduction for the Company. A disposition of the shares received 12 months or longer after exercise will result in long-term capital gain or loss to the holder; while an earlier disposition will result in ordinary income to the Optionee equal to the excess of the fair market value of the stock acquired over the exercise price and the Company will then receive a corresponding federal income tax deduction.

Plan Benefits

The Options that will be awarded in the future to eligible participants under the Plan will be subject to the discretion of the Compensation Committee of the Board and the Board and are not determinable at this time. As noted above, the approval by stockholders of the amendments to the Plan will effect changes to the Plan from the form approved by stockholders at the 2007 Annual General and Special Meeting of stockholders. The Plan without the proposed amendments was effective in 2007, and summaries of all Options granted in 2007 under the Plan are described elsewhere in this Proxy Statement. Had the proposed amendments to the Plan been in effect in 2007, none of the Options granted in 2007 would have been different.

Recommendation of the Directors

The amendments to the Plan described herein must be approved by a majority of not less than 50% of the votes cast by stockholders who, being entitled to do so, vote in person or by proxy on the resolution.

The full text of the resolutions to be presented to amend the Plan is set out in Schedule B to this Proxy Statement.

The Board has unanimously concluded that the proposed amendments to the Plan are in the best interest of the Company and its Stockholders, and recommends that Stockholders vote **IN FAVOUR** of the resolutions to amend the Plan.

The Company has been advised that the directors and senior officers of the Company intend to vote all Shares held by them in favour of the amendments to the Plan.

4.2 NET EXERCISE

- (a) The Board may permit the net exercise of any Option into Shares by any Option Holder as provided in this section 4.2 (**Net Exercise**) at any time, or from time to time, during the term of such Option. The decision of whether or not to permit Net Exercise for any Option is in the sole discretion of the Board and will be made on a case by case basis. Upon the Net Exercise of Options (the **Converted Options**), the Company shall deliver to the Option Holder (without payment by the Option Holder of any Exercise Price or any cash or other consideration), that number of fully paid and non-assessable Shares (X) equal to the number of

Converted Options (Y) multiplied by the quotient obtained by dividing the result of the Fair Market Value of one Share (B) less the Exercise Price per Share (A) by the Fair Market Value of one Share (B). Expressed as a formula, such conversion shall be computed as follows:

$$X = (Y) \frac{(B - A)}{B}$$

Where: X = The number of Shares that will be issued to the Option Holder.

Y = The number of Converted Options.

A = The Exercise Price per Share.

B = The Fair Market Value of one Share.

No fractional Shares shall be issuable upon the Net Exercise of Options.

The Option Holder agrees to comply with all such laws, rules and regulations and agrees to furnish to the Company any information representation, report and/or undertakings required to comply with and to fully cooperate with the Company in complying with such laws, rules and regulations. In particular in the event the Options or Shares issued under the Plan are not registered under applicable securities laws but an exemption is available which requires an investment representation or other representation, the Option Holder shall represent and agree at the time of grant or exercise, as applicable, that the Options or Shares being acquired are being acquired for investment, and not with a view to the sale or distribution thereof, and shall make such other representations as are deemed necessary or appropriate by the Company and its counsel.

4.5 ~~4.4~~ LEGEND ON CERTIFICATE

The Board may, if the Shares underlying an Option exercised by an Option Holder are not at the time of exercise registered with the Securities and Exchange Commission on Form S8, cause a legend or legends to be put on certificate for Shares purchased upon exercise of the Option to make appropriate reference to restrictions as the Board may deem advisable or as may be required by the rules and regulations and other requirements of securities regulations, any exchange that lists the Shares and any applicable laws. In particular, if required, for Option Holders who reside in the United States, the certificates shall bear the following or similar legend:

If, in the opinion of the Company and its counsel any legend placed on a certificate representing shares sold under this Plan is no longer required, the holder of such certificate shall be entitled to exchange such certificate for a certificate representing the same number of Shares but without a legend.

4.5 ~~MONITORING OF TRADES~~

~~An Option Holder who performs Investor Relations Activities shall provide written notice to the Board of each of his trades of securities of the Company, within five business days of each trade.~~

4.6 SECTION 409A

Notwithstanding the foregoing or any provision of the Plan, if any provision of the Plan contravenes Section 409A or could cause the Option Holder to incur any tax, interest or penalties under Section 409A, the Board may, in its sole discretion and without the Option Holder's consent, modify such provision to (i) comply with, or avoid being subject to, Section 409A, (ii) to avoid the incurrence of taxes, interest and penalties under Section 409A, and/or (iii) to maintain, to the maximum extent practicable, the original intent and economic benefit to the Participant of the applicable provision without materially increasing the cost to the Company or contravening the provisions of Section 409A. Moreover, any discretionary authority of the Board or the Administrator may have pursuant to the Plan shall not be applicable to an Option that is subject to Section 409A, to the extent such discretionary authority will contravene Section 409A.
