Yes  No

If  Yes is marked, indicate below the file number assigned to the  
registrant in connection with Rule 12g3-2(b): 82-

This Report of Foreign Private Issuer on Form 6-K is deemed filed for all purposes under the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended, including by reference in the Registration Statement on Form F-3 (Registration No. 33-99550) and the Registration Statement on Form F-3 (Registration No. 333-9180).

On June 9, 2008, Korea Electric Power Corporation ( KEPCO ) announced that it plans to launch a Clean Development Mechanism ( CDM ) project. The CDM is an arrangement under the Kyoto Protocol, which allows a country with an emission-reduction or emission-limitation commitment under the Kyoto Protocol to implement an emission-reduction project in developing countries. Such projects can earn saleable certified emission reduction ( CER ) credits, each equivalent to one ton of CO<sub>2</sub>, which can be counted towards meeting Kyoto targets.

KEPCO s CDM project will primarily involve reducing the emission of SF<sub>6</sub>, a gas which has a significantly greater greenhouse effect than CO<sub>2</sub>, from its electricity and transmission facilities. Under the current schedule, KEPCO plans to register this project with the United Nations in 2010, commence reducing the SF<sub>6</sub> emission in 2011, and commence trading the CER credits, subject to obtaining approval from the CDM Executive Board of the United Nations, in 2012. Based on this schedule, the currently estimated cost of the project, which will principally consist of the United Nations registration fee and various consulting fees, is approximately KRW3.9 billion and the currently estimated profit from trading the CER credits is KRW 31 billion per year. Details of this plan may change depending on the results of actual experiments undertaken in connection with the SF<sub>6</sub> emission reduction.

#### SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
