Item 4.02. Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review

On July 31, 2008, the Audit Committee of the Board of Directors of Nanogen, Inc. (the "Company") determined that the Company should restate its previously issued condensed consolidated financial statement for the quarter ended March 31, 2008 to correct an error in the fair value calculation of the Series A, Series B and Series C warrants (the "Warrants") issued in connection with the offer and sale of the Company's 6.25% Senior Convertible Note Due 2010 (the "6.25% Notes") on August 27, 2007. The Company's management has discussed this error with Ernst & Young LLP, the Company's independent registered public accounting firm. Accordingly, the financial statements contained in the Company's Form 10-Q for the quarter ended March 31, 2008 filed with the Securities and Exchange Commission on May 12, 2008 (the "Form 10-Q") should no longer be relied upon.

This error occurred in accounting related to the application of the anti-dilution adjustment for the Warrants as a result of the 6.25% Note restructuring at the end of the first quarter of 2008. The financial impact of the error is an understatement of non-cash loss on note conversion of \$3.5 million. The recorded loss of \$23.0 million for the first quarter of 2008 should have been stated as \$26.4 million. The adjustment only affects the first quarter of 2008, and is a non-cash adjustment.

The Company will restate its consolidated financial statements in its Form 10-Q to correct the error and file the restated financial statement in an amendment to the Form 10-Q as soon as possible. The Company will label the first quarter financial information in the Form 10-Q "As Restated" and will provide explanatory disclosure consistent with the requirements of Statement of Financial Accounting Standard No. 154, "Accounting Changes and Error Corrections" a replacement of APB Opinion No. 20 and FASB Statement No. 3. The Company will also provide expanded financial information, at a level consistent Article 10 of Regulation S-X, reconciling the restated consolidated Balance Sheet and Statement of Operations to previously filed financial information. The Company expects to complete the restatement and file the restated financial statements and detailed explanatory information within the next 10 days.
