**Item 8.01 Other Events**

On March 1, 2010 the Board of Directors of Cathay Bank (the Bank), the wholly owned subsidiary of Cathay General Bancorp (the Company), entered into a memorandum of understanding with the California Department of Financial Institutions (DFI) and the Federal Deposit Insurance Corporation (FDIC) by which the Bank informally agreed to undertake certain steps to strengthen its operations. Among the provisions of the memorandum were: maintenance of management and a board acceptable to the DFI and FDIC and the approval by the DFI and FDIC of new executive management or board members; a plan to reduce commercial real estate concentrations; enhanced stress testing of the Bank's loan portfolio; a strategic plan addressing improved profitability and capital ratios; a restriction on dividends from the Bank to the Company; a plan to improve asset quality, including the methodology for calculating the loss reserve allocation; a plan to reduce dependence on wholesale funding; and restrictions on new branches and business lines without prior approval. The plans will be adopted within specified time frames and must be acceptable to the regulators. The Bank will report its progress to the DFI and FDIC on a quarterly basis. The Company had previously entered into a comparable memorandum with the Federal Reserve Bank of San Francisco and believes that it is in compliance with that memorandum.
