#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

#### 1. The Company and its operations

Telecom Argentina S.A. (Telecom Argentina or Telecom and together with its subsidiaries, the Company or the Telecom Group, indistinctively was created by a decree of the Argentine Government in January 1990 and organized as a *sociedad anónima* under the name Sociedad Licenciataria Norte S.A. in April 1990.

Telecom Argentina commenced operations on November 8, 1990 (the Transfer Date ), upon the transfer to the Company of the telecommunications network of the northern region of Argentina previously owned and operated by the state-owned company, Empresa Nacional de Telecomunicaciones ( ENTel ).

Telecom Argentina s license, as originally granted, was exclusive to provide telephone services in the northern region of Argentina through October 10, 1999. As from such date, the Company began providing telephone services in the southern region of Argentina and competing in the previously exclusive northern region.

The Company provides fixed-line public telecommunication services, international long-distance service, data transmission and Internet services in Argentina. Accordingly, the Company had amended its by-laws in accordance with the prior approval obtained from the Department of Communications (SC, the Regulatory Authority) and the *Comisión Nacional de Valores* (CNV), the National Securities Commission in Argentina.

A description of the subsidiaries with their respective percentage of capital stock owned as of June 30, 2010, is presented as follows:

		Percentage of capital stock owned and voting rights	Indirect control	Date of
Reportable segment	Subsidiaries	(i)	through	acquisition
Voice, data and Internet	Telecom Argentina USA Inc. ( Telecom USA )	100.00%		09.12.00
	Micro Sistemas Sociedad Anónima (Micro Sistemas) (ii)	99.99%		12.31.97
Wireless	Telecom Personal S.A. ( Personal )	99.99%		07.06.94
	Núcleo S.A. ( Núcleo )	67.50%	Personal	02.03.98
	Springville S.A. ( Springville ) (ii)	100.00%	Personal	04.07.09

- (i) Percentage of equity interest owned has been rounded.
- (ii) Dormant entity at June 30, 2010.
- 2. Regulatory framework

### (a) Regulatory bodies and general legal framework

Telecom Argentina and Personal operate in a regulated industry. Regulation not only covers rates and service terms, but also the terms on which various licensing and technical requirements are imposed.

The provision of telecommunication services is regulated by the SC and supervised by the Comisión Nacional de Comunicaciones, the National

The principal features of the regulatory framework in Argentina have been created by:

Communications Commission ( CNC )	. The CNC is in char	ge of general oversig	ht and supervision of te	elecommunications services. The SC ha	as
the power to develop, suggest and imple	ment policies which a	are applicable to tele	communications service	es; to ensure that these policies are	
applied; to review the applicable legal re	gulatory framework;	to act as the enforcir	ig authority with respec	t to the laws governing the relevant	
activities; to approve major technical pla	ins and to resolve adn	ninistrative appeals f	iled against CNC resolu	itions.	
		••			

The Privatization Regulations, including the List of Conditions;
The Transfer Agreement;
The Licenses granted to Telecom Argentina and its subsidiaries;
The Tariff Agreements; and

Various governmental decrees, including Decree No. 764/00, establishing the regulatory framework for licenses, interconnection, universal service and radio spectrum management.

Núcleo, Personal s Paraguayan controlled company, is supervised by the Comisión Nacional de Telecomunicaciones de Paraguay, the National Communications Commission of Paraguay ( CONATEL ). Telecom USA, Telecom s subsidiary, is supervised by the Federal Communications Commission (the FCC ).

framework	(continued)	
	framework	framework (continued)

# (b) Licenses granted as of June 30, 2010

As of June 30, 2010, Telecom Argentina has been granted the following non-expiring licenses to provide the following services in Argentina:

Local fixed telephony;
Public telephony;
Domestic and international long-distance telephony;
Domestic and international point-to-point link services;
Domestic and international telex services;
Value added services, data transmission, videoconferencing and broadcasting signal services; and
Internet access. 30, 2010, the Company s subsidiaries have been granted the following licenses:

Personal has been granted a non-exclusive, non-expiring license to provide mobile telecommunication services in the northern region of Argentina and data transmission and value added services throughout the country. In addition, Personal owns licenses to provide mobile radio communication services in the Federal District and Greater Buenos Aires areas, as well as a non-expiring license to provide PCS services throughout the country and it is registered to provide national and international long-distance telephone services; and

Núcleo has been granted a renewable five-year period license to provide mobile telecommunication services in Paraguay as well as PCS services, data transmission and videoconferences services and Internet access in certain areas of that country.

### (c) Revocation of the license

Felecom Argentina s license is revocable in the case of non-compliance with certain obligations, including but not limited to:
an interruption of all or a substantial portion of service;
a modification of its corporate purpose or change of domicile to a jurisdiction outside Argentina;
a sale or transfer of the license to third parties without prior approval of the Regulatory Bodies;
any sale, encumbrance or transfer of assets which has the effect of reducing services provided, without the prior approval of the Regulatory Bodies;
a reduction of Nortel Inversora S.A. s (Nortel, the parent company of the Company) interest in Telecom Argentina to less than 51%, or the reduction of Nortel s common shareholders interest in Nortel to less than 51%, in either case without prior approval of the Regulatory Bodies;
any transfer of shares resulting in a direct or indirect loss of control in Telecom without prior approval of the Regulatory Bodies;
an assignment or delegation of Telecom Italia S.p.A. s ( the Operator ) functions without the prior approval of the Regulatory Bodies;
the Company s bankruptcy.  Personal s licenses are revocable in the case of non-compliance with certain obligations, including but not limited to:
repeated interruptions of the services;

any transfer of the license and/or the related rights and obligations, without the prior approval of the Regulatory Authority;

any encumbrance of the license;

any voluntary insolvency proceedings or bankruptcy of Personal;

a liquidation or dissolution of Personal, without the prior approval of the Regulatory Authority. Núcleo s licenses are revocable mainly in the case of:

repeated interruptions of the services;

any voluntary insolvency proceedings or bankruptcy of Núcleo;

non-compliance with certain obligations.

7

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

### 2. Regulatory framework (continued)

### (d) Decree No. 764/00

Decree No. 764/00 substantially modified three regulations:

#### **General Regulation of Licenses**

This regulation establishes a single nationwide license for the provision of all telecommunication services to the public, including fixed-line, wireless, national and international, irrespective of whether these services are provided through telecommunications infrastructure owned by the service provider. Under the regulation, a licensee s corporate purpose does not need to be exclusively the provision of telecommunications services. In addition, the regulation does not establish any minimum investment or coverage requirements. Broadcasting service companies may also apply for a license to provide telecommunications services. The regulation further authorizes the resale of telecommunications services subject to the receipt of a license, and there are no restrictions on participation by foreign companies.

### **Argentine Interconnection Regulation**

This regulation provides for an important reduction in the reference interconnection prices in effect at the time. The regulation also increases the number of infrastructure elements and services that the dominant operator is required to provide, including interconnection at the local exchange level, billing services and unbundling of local loops. This regulation also introduces interconnection for number translation services (NTS) such as Internet, audiotext, collect calling and the implementation of number portability, all of which shall be subject to future regulations.

On January 22, 2009, the SC issued Resolution No. 8/09 through which it created a Working Commission composed by members of the SC and the CNC to prepare a draft of the Number Portability Regulation.

### Universal Service ( SU ) Regulation

The SU regulation required entities that receive revenues from telecommunications services to contribute 1% of these revenues (net of taxes) to the Universal Service Fiduciary Fund (the SU fund). The regulation adopted a pay or play mechanism for compliance with the mandatory contribution to the SU fund. The regulation established a formula for calculating the subsidy for the provision of SU which takes into account the cost of providing this service and any foregone revenues. Additionally, the regulation created a committee responsible for the administration of the SU fund and the development of specific SU programs.

The SC issued Resolution No. 80/07 which stipulated that until the SU Fund is effectively implemented, telecommunication service providers, such as Telecom Argentina and Personal, are required to deposit any contributions accrued since the issuance of such Resolution into a special individual account held in their name at the Banco de la Nación Argentina. CNC Resolution No. 2,713/07, issued in August 2007, established how these contributions are to be calculated.

### **New SU Regulation**

Decree No. 558/08, published on April 4, 2008, recently caused certain changes to the SU regime.

The Decree established that the SC will assess the value of service providers direct program contributions in compliance with obligations promulgated by Decree No. 764/00. It will also determine the level of funding required in the SU Fund for programs pending implementation. In the same manner, in order to guarantee the continuity of certain projects, the SC was given the choice to consider as SU contributions certain other undertakings made by telecommunication services providers and compensate providers for these undertakings.

The new regulation established two SU categories: a) areas with uncovered or unsatisfied needs; and b) customer groups with unsatisfied needs. It also determined that the SC would have exclusive responsibility for the issuance of general and specific resolutions regarding the new regulation, as well as for its interpretation and application.

It also established that the SC will review SU programs which were established under the previous regulation, guaranteeing the continuity of those already being administered and implementing those that had been under review.

8

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

### 2. Regulatory framework (continued)

The Decree requires Telecom and Telefonica de Argentina S.A. (Telefonica ) to extend the coverage of their fixed line networks, within their respective original region of activity, within 60 months from the effective date of publication of the Decree. The SC will determine on a case by case basis if the providers will be compensated with funds from the SU Fund.

The level of financing of SU ongoing programs established under the previous regulation will be determined by the SC, whereas telecommunications providers appointed to participate in future SU Programs will be selected by competitive bidding.

The Decree requires telecommunications service providers to contribute 1% of their revenues (from telecommunication services, net of taxes) to the SU Fund and keeps the pay or play mechanism for compliance with the mandatory monthly contribution to the SU Fund or, to claim the correspondent receivable, as the case may be.

Decree No. 558/08 also mandates the creation of the SU Fund and orders that it must be established within 180 days from the date of publication. Providers of telecommunications services shall act in their capacity as trustors for this fund, and shall rely on the assistance of a Technical Committee made up of seven members (two members shall be appointed by the SC, one member shall be appointed by the CNC, three members shall be appointed by the telecommunication services providers—two of which shall be appointed by Telecom and Telefonica and one by the rest of the providers—and another member will be appointed by independent local operators). This Technical Committee will be informed by the SC of the programs that will be financed and will be responsible for managing and controlling the SU Fund, carrying out technical-economic evaluations of existing projects and supervising the process of competitive bidding and adjudication of new SU programs, with the prior approval by the SC.

At the date of issuance of these consolidated financial statements, the Technical Committee had been created and had begun to analyze the operative procedures associated to the functions derived from its responsibilities. Additionally, telecommunications service providers had already selected the Fiduciary institution and had sent the proposed Fiduciary agreement to the SC. The SC approved it in January 2009 through Resolution No. 7/09, but there is still pending resolution certain administrative and operative matters.

On December 9, 2008, the SC issued Resolution No. 405/08 which requires telecommunication service providers to deposit into special accounts the 1% of their revenues as defined in Decree No. 558/08, without passing on any costs incurred for the provision of their services.

On January 12, 2009, the Company and Personal, filed claims before the SC objecting to the provisions of SC Resolution No. 405/08, based on the illegality of this rule, arguing that it contradicts Decree No. 558/08 because it violates the rights of both licensees to factor their compensation for the provision of the SU programs in the calculation of their investment contribution, in accordance with the pay or play mechanism stated in the Decree No. 558/08.

The management of the Group, with the opinion of its legal counsel, considers it has meritorious legal arguments for the claims filed against Resolution No. 405/08.

At the date of issuance of these consolidated financial statements, the SU programs are still pending approval by the SC.

On April 4, 2009, by means of SC Resolution No. 88/09, the SC created a new program denominated Telephony and Internet for towns without provision of basic Telephone services that will be subsidized with funds from the SU Fund. The new program seeks to provide local telephony, domestic long distance, international long distance and Internet in towns that currently do not provide basic telephone services. SC Resolution No. 88/09 specifies the methodology that licensees will have to follow for proposals to render these services in several of the 1,491 towns and 1,496 schools identified in the Annex of the Resolution. The proposed projects approved by the SC will be sent to the Technical Committee of

the SU Fund so that availability of funds can be evaluated and they can be included in a bidding process provided for in Decree No. 558/08.

9

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

### 2. Regulatory framework (continued)

### In Telecom

By the end of 2002, the SC formed a working group responsible for analyzing the method to be applied for measuring the net costs of SU performance particularly, the application of the Hybrid Cost Proxy Model (the HCPM Model), based on the incremental cost of a theoretical network. The working group was also tasked with defining non-monetary benefits and determining the methodology for its calculation, in order to assess the costs that would be offset due to performance of SU obligations. The working group decided that, given the complexity of this methodology, efforts should be made to continue the initial programs independently from application of the HCPM Model, and that there was a need to carry out a comprehensive review of the present general regulations relating to SU to ensure that these regulations were operative in the near term considering the existing social needs.

Several years after the market s liberalization and the effectiveness of the first SU regulations, these regulations have yet to be implemented. Therefore, service providers affected by these regulations have not received set-offs for providing services as required by the SU regime.

In compliance with SC Resolution No. 80/07 and CNC Resolution No. 2,713 /07, Telecom Argentina has estimated a receivable of \$753 (unaudited) for the period initiated in July 2007 and filed its calculations for review by the regulatory authority. This receivable has not yet been recorded since it is subject to the approval of the SU programs, the review of the SC and the availability of funds in the SU Trust.

### In Personal

Since January 2001, Personal has been recording a provision related to its obligation to make contributions to the SU fund. As of June 30, 2010, this provision amounts to \$178. In addition, since July 2007 and in compliance with SC Resolution No. 80/07 and CNC Resolution No. 2,713/07, Personal has deposited the correspondent contributions on their respective maturity date (amounting to \$87 as of June 30, 2010) into a special individual account held under their name at the Banco de la Nación Argentina; these contributions were recorded as a receivable in the caption Other receivables of the consolidated balance sheets.

As of January 2001, Personal, as well as the other wireless providers, had charged SU fund amounts to customers.

SC Resolution No. 99/05 required entities that derived revenues from telecommunications services to contribute 1% of these revenues to the SU fund, and prohibited billing to customers any SU amounts.

As a result, the CNC, through CNC Note No. 726/05, requested that Personal discontinue billing SU amounts to customers and reimburse all collected SU amounts plus interest (applying the same rate used for overdue invoices from customers).

Although the SC resolutions were appealed, management decided to reimburse the SU amounts which had been billed to post-paid customers from January 1, 2001 through June 28, 2005, the date on which Personal ceased billing SU amounts.

Although Personal reimbursed the SU amounts, it will not surrender its rights to consider the resolutions illegitimate and without merit.

During the first quarter of 2006, Personal fully reimbursed all previously billed SU amounts plus interest to its active post-paid customers (amounting to \$15, calculated using the Banco Nacion Argentina interest rate collected by banks). In addition, as of May 2006, Personal had reimbursed the SU amounts billed to its former customers and former post-paid customers that have changed into prepaid customers (amounting to \$4) and still remains pending an amount of \$6 that is available for collecting.

In December 2006, the CNC issued a preliminary report regarding verification of Personal s SU reimbursement, which indicated that Personal completed the requirement of reimbursement of the SU amounts including interest. However, the report stated that the interest rate applied differed from the rate required by the CNC; finally, on August 7, 2008, the CNC ordered Personal to adjust the reimbursement applying the same rate used for overdue invoices from customers (that is, one and a half of the Banco Nacion Argentina interest rate collected by banks).

In September 2008, Personal has rejected this claim explaining its grounds for justification of the applied interest rate. However, the management of Personal has considered the reimbursement of the interests claimed by the CNC. As a result, Personal had recorded a provision of \$10. During the third quarter of 2009, Personal has begun the reimbursement to its customers (amounting to \$5 as of June 30, 2010).

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

### 2. Regulatory framework (continued)

### (e) Regulation for the call by call selection of the providers of long-distance services

On December 28, 2001, the former Ministry of Infrastructure and Housing issued General Resolution No. 613/01 which approved a system that allows callers to select their preferred long-distance provider for each call. This call by call selection system is referred to as SPM.

Subsequently, as a result of the claims submitted by several carriers objecting to General Resolution No. 613/01, the Ministry of Economy issued General Resolution No. 75/03, which introduced several changes to the regulations providing for SPM. The main changes relate to the following: long-distance carriers—freedom to provide SPM, changes in blockage modality due to delinquency, changes in the service connection modality and greater flexibility of obligations connected with service promotion and advertising. Resolution No. 75/03 also provides that origin providers, both fixed and wireless, must have their equipment and networks available to provide the SPM service on June 6, 2003. As of the date of these consolidated financial statements, this long-distance service modality is not implemented.

#### (f) Public telephony in penal institutions

As stated by Decree No. 690/06, in August 2007, the SC issued Resolution No. 155/07, where it approves the Regulation for Communications that are initiated in Penal Institutions , establishing technical requirements for the system and the telephone lines installed in penal institutions, so that all communications carried out are registered.

Such Regulation shall be in effect in the term of one year, which may be extended to a similar period, counted sixty days from the date in which the technical definitions that the CNC must issue become available.

At the date of issuance of these consolidated financial statements, the Company is developing technical alternatives to implement in order to comply with this new rule.

### (g) Tax Stability principle: impact of variations in Social Security contributions

On March 23, 2007, the SC issued Resolution No. 41/07 relating to the impact of variations in Social Security contributions occurring over the past several years.

Subsequent to November 8, 1990, there were several increases in the rates of Social Security Contributions, which were duly paid by Telecom. At the same time, and under the framework of the argentina@internet.todos Program, the Company paid, mostly during fiscal year 2000, reduced social security contribution rates.

Pursuant to Resolution No. 41/07, Telecom Argentina may offset the impact of costs borne as a result of increases in Social security contribution rates.

The Company made the required presentations to the SC of the net receivable under Resolution No. 41/07, which were subject to audits by the Regulatory Authority.

During the third quarter of 2007, the CNC performed the audits on the information given by the Company. The Company had access to documentation of the CNC s audits, which resulted in no significant differences from the net amounts it had determined. Consequently, the Company recorded a receivable from increases in social security contributions and cancelled payables from reduction in social security contribution rates and other fines due by the Company.

At June 30, 2010, the Company has a net receivable of \$67 which, in addition with the receivable of \$23 corresponding to the tax on deposits to and withdrawals from bank accounts ( IDC ), is included in the non-current caption Other receivables .

Since the resolution allows the Company to offset the receivables with existing and/or future regulatory duties and the intention of the Company is to exercise its offsetting rights, the receivable was recorded net of reserves. At June 30, 2010, the reserves corresponding to these regulatory duties amounted to \$90.

Since December 2008, the Company has begun the billing to the customers of the increases in the rates of its social security contributions accrued from October 2008, applying the same mechanism used to bill the IDC.

11

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

### 2. Regulatory framework (continued)

### (h) Rendering of fixed telephony through mobile telephony infrastructure

By SC Resolution No. 151/07, fixed telephony was granted access to particular frequency bands, with the purpose of enabling basic telephone services in rural and suburban areas to be rendered through the wireless infrastructure used for the provision of mobile telephony service. Licensees will provide such service within their respective fixed telephony service original regions. The Company has started to install fixed lines based on this technology in order to satisfy service demand in rural and suburban areas.

### (i) Tariff structure of the national and international regulated fixed line services

### **Rate Rebalancing**

The variation in revenues resulting from the Rate Rebalancing for the two-year period beginning February 1997 was determined to amount to an increase of \$9.5, by means of SC Resolution No. 4,269/99.

In December 2007, the Regulatory Authority notified the Company that it will offset this difference with the Resolution No. 41/07 receivables. As a consequence, during fiscal year 2007, the Company recorded a reserve on this matter on behalf of the CNC final results. In April 2009, the CNC notified the offsetting of the \$9.5 Rate Rebalancing amount with the Resolution No. 41/07 receivables. So, the Company has reduced the receivable with the corresponding reserve.

# Price Cap

The Price Cap was a regulation mechanism applied in order to calculate changes in Telecom tariffs, based on changes in the U.S. Consumer Price Index (U.S. C.P.I.) and an efficiency factor.

In August 2009, the Regulatory Bodies finalized the 1999 Price Cap audit resulting in a payable by the Company of \$3.1 plus interest. The Company has offset this balance with the credit resulting from SC Resolution No. 41/07, described in (g) above.

On April 6, 2000, the Argentine Government, Telefonica and Telecom Argentina signed an agreement ( Price Cap 2000 ) that set the price cap efficiency factor at 6.75% (6% set by the SC and 0.75% set by Telecom Argentina and Telefonica) for the period from November 2000 to November 2001.

The 2000 Price cap audit results are still pending. Should the outcome is a payable by the Company it can be offset with the Resolution No. 41/07 receivables.

In April 2001, the Argentine Government, Telefonica and Telecom Argentina signed an agreement ( 2001 Price Cap ) that set the efficiency factor for reduction of tariffs at 5.6% for the period from November 2001 to October 2002.

However, a preliminary injunction against Telecom Argentina disallowed Telecom to apply tariff increases by reference to the U.S. C.P.I. Telecom Argentina appealed this injunction arguing that if one part of the formula cannot be applied, the Price Cap system should be nullified. Finally, Public Emergency Law No. 25,561 explicitly prohibited tariff adjustments, so, at the date of issuance of these consolidated financial statements, the pesification and the freeze of the regulated tariffs are still in force. Additional information is given in Note 11.d Other claims.

# Tax on deposits to and withdrawals from bank accounts ( IDC ) charged to customers

On February 6, 2003, the Ministry of Economy, through Resolution No. 72/03, defined the mechanism to allow, going forward, tariff increases on basic telephony services reflecting the impact of the IDC. The amount of tax charged must be shown separately in customers bills. The Company has determined the existence of a remaining unrecovered amount of approximately \$23 that arose before the issuance of Resolution No. 72/03, which will be claimed within the tariff renegotiation process (see (j) below).

In April 2007, the Company provided the CNC with supporting documentation on this amount for its audit. The Company had access to documentation of the Regulatory Authority s audits that corroborates the amounts claimed by the Company and the application of a similar offsetting mechanism pursuant to Resolution No. 41/07. Therefore, as of June 30, 2010 and December 31, 2009, the Company recorded as Other receivable a total of \$23.

12

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### **Notes to the Unaudited Consolidated Financial Statements**

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

### 2. Regulatory framework (continued)

# (j) Renegotiation of agreements with the Argentine Government

Telecom Argentina s tariff scheme and procedures are detailed in the Tariff Agreement entered into by Telecom Argentina and the Argentine Government in November 1991, as amended in February 1992. Pursuant to the Tariff Agreement, all tariffs were to be calculated in US dollars and converted into Argentine pesos at the time the customer was billed using the exchange rate prevailing at that time. Under the Convertibility law that was effective until January 2002, the applicable exchange rate was \$1 to US\$1. Tariffs were to be adjusted twice a year in April and October based on the variation of the U.S. C.P.I. These adjustments were not applied since 2000 according to a resolution of the SC.

However, in January 2002, the Argentine Government enacted Law No. 25,561, Ley de Emergencia Pública y Reforma del Régimen Cambiario (the Public Emergency Law ), which provided, among other aspects, for the following:

	The pesification of tariffs;
	The elimination of dollar or other foreign-currency adjustments and indexing provisions for tariffs;
	The establishment of an exchange rate for dollar-denominated prices and rates of \$1 =US\$1; and
	The renegotiation of the conditions of the contractual agreements entered into between privatized companies and the Argentine Government. tine Government is entitled to renegotiate these agreements based on the following criteria:
The elimination of dollar or other foreign-currency adjustments and indexing provisions for tariffs;  The establishment of an exchange rate for dollar-denominated prices and rates of \$1 =US\$1; and  The renegotiation of the conditions of the contractual agreements entered into between privatized companies and the Arg	The overall impact of tariffs for public services on the economy and income levels;
	The security of the systems; and

The profitability of the service providers.

Decree No. 293/02, dated February 12, 2002, entrusted the Ministry of Economy with the renegotiation of the agreements. Initially, the contractual renegotiation proposals were to be submitted to the Argentine Government within 120 days after the effective date of the Decree, although this term was further extended for an additional 180-day period. Telecom Argentina filed all information as required by the Argentine Government, which included information on the impact caused by the economic crisis on the Company s financial position and its revenues, the pre-existing mechanisms for tariff adjustments, operating costs, indebtedness, payment commitments with the Argentine Government and future and on-going investment commitments.

Furthermore, in July 2003, Decree No. 311/03 created the Unidad de Renegociación y Análisis de Contratos de Servicios Públicos (UNIREN), (Division for the Renegotiation and Analysis of Contracts of Public Utilities Services), a special division within the Ministry of Economy and the Ministry of Federal Planning, Public Investments and Services, pursuant to which the contractual relationships between the Argentine Government and the service providers were to be revised and renegotiated. In October 2003, the Argentine Government enacted Law No. 25,790 pursuant to which the original term to renegotiate the contracts was extended through December 31, 2004. As from that date, the Argentine Government enacted subsequent laws pursuant to which this term was extended through December 31, 2011.

In May 2004, the Company signed a Letter of Understanding (LOU) with the Argentine Government pursuant to which the Company committed not to modify the current tariff structure through December 31, 2004 and to continue with the tariff renegotiation process, which the Company expected to have concluded before December 31, 2004. The Company also committed to offer phone services to beneficiaries of governmental welfare programs and to extend internet services in the interior of the country at reduced prices.

Even though the Company fulfilled its commitments under the LOU, the Argentine Government did not make a specific offer related to the renegotiation of the tariffs at the date set in the LOU.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

### 2. Regulatory framework (continued)

### New Letter of Understanding with the UNIREN

On March 6, 2006, Telecom Argentina signed a new LOU (the Letter ) with the UNIREN. Upon the fulfillment of the procedures set forth in the rules and regulations presently in effect, the Letter will provide the framework for the signing of the *Acta Acuerdo de Renegociación del Contrato de Transferencia de Acciones* or Minutes of Agreement of the Renegotiation of the Transfer Agreement (the Minutes of Agreement of the Renegotiation ) approved by Decree No. 2,332/90, as stated in Section 9 of the Public Emergency Law.

The main terms and conditions of the Letter include:

The CNC and UNIREN have determined that Telecom Argentina satisfactorily complied with most of the requirements contemplated in the Transfer Agreement and by the regulatory framework. Isolated violations were satisfactorily remedied through fines and/or sanctions. Other matters arising in the normal course of business are still pending resolution, which was originally expected by June 30, 2006 (some of these matters are described below). Despite such expectation, the Regulatory Authority continues to analyze such open issues, the outcome of which will be disclosed when the analysis is completed;

Telecom Argentina s commitments to invest in the technological development and updating of its network;

Telecom Argentina s commitment to the achievement of its long-term service quality goals;

The signing parties commitment to comply with and maintain the terms set forth in the Transfer Agreement, and in the regulatory framework in effect:

The Argentine Government s commitment to create an appropriate and standardized regulatory framework for telecommunications services and to give Telecom Argentina fair and equivalent treatment to that given to other telecommunications providers that shall take part in the process;

Telecom Argentina s commitment and the commitment of its indirect shareholders Telecom Italia S.p.A. and W de Argentina - Inversiones S.L., to suspend for a period of 210 working days any and all claims, appeals and petitions already filed or in the process of being filed, in administrative, arbitral or judicial offices, in Argentina or in any other country, that are founded in or related to any act or measure taken after the issuance of the Public Emergency Law with respect to the Transfer Agreement and the License. The suspension will take effect after the 30<sup>th</sup> day from the end of the public hearing convened to deal with the Letter. Once the Minutes of Agreement of the Renegotiation is ratified, any and all claims, appeals and/or proceedings will be disregarded;

An adjustment shall be made to increase the termination charge of international incoming calls to a local area to be equivalent to international values, which are at present strongly depreciated;

Off-peak telephone hours corresponding to reduced tariffs shall be unified with regards to local calls, long distance domestic and international calls.

On May 18, 2006, the Letter was subject to a public hearing procedure, with the purpose of encouraging the participation of the users and the community in general, taking into consideration that the Letter's terms and conditions will provide the framework for the signing of the Minutes of Agreement of the Renegotiation. These Minutes of Agreement of Renegotiation shall be in effect once all the requirements stipulated in the regulatory framework are complied with, which among other things, requires that a Telecom Argentina Stockholders Meeting be held to approve said Minutes. Both Telecom Argentina and its indirect stockholders Telecom Italia S.p.A. and W de Argentina Inversiones S.L. have timely fulfilled the Agreement's commitments.

At the date of issuance of these financial statements, the Company continues to await completion of the administrative steps required for the National Executive to submit to the National Congress a proposed Memorandum of Agreement for Renegotiation.

Although there can be no assurance as to the ultimate outcome of these matters, it is the opinion of the Management of the Company that the renegotiation agreement process will be satisfactorily completed.

14

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

### 2. Regulatory framework (continued)

# (k) Buy Argentine Act

In December 2001, the Argentine Government passed Public Law No. 25,551 (Compre Trabajo Argentino or the Buy Argentine Act) and in August 2002, passed Decree No. 1,600/02 which approved and brought into effect the Compre Trabajo Argentino. The law requires Telecom Argentina to give preference to national goods and services, as defined in Public Laws No. 25,551 and No. 18,875, in any procurement related to the rendering of public telephony services (sect. 1 & 2).

Preference must be given so long as the price of such goods is equal to or lesser than the price of a foreign good (including customs duties, taxes and other expenses that are linked to the nationality of goods) increased by 7% (when the Argentine offeror is a small or medium size company) or 5% (when the Argentine offeror is any other company) (sect.3).

Compre Trabajo Argentino also mandates that Telecom Argentina publish any bid for services in the Official Bulletin in order to provide any and all prospective offerors with the information necessary for them to participate. This mandatory publication requires considerable lead-time prior to the issuance of the purchase order and has had the result of extending the period needed to complete certain purchases. Non-compliance with Compre Trabajo Argentino is subject to criminal sanctions.

Public Law No. 18,875 establishes the obligation to exclusively contract services with local companies and professionals, as defined in such law. Any exception must receive the prior approval of the relevant Ministry.

In August 2004, CNC Resolution No. 2,350/04 enacted the Procedure for the fulfillment of the Buy Argentine Act , including the obligation for the Company to present half-year affidavits addressing the fulfillment of these rules. Non-compliance with this obligation is subject to administrative sanctions.

This regulation, thus, reduces the operating flexibility of the Company due to the time required to request bids for services and/or to obtain an approval of the relevant authority when necessary, and the higher administrative expenses derived from the obligation to present half-year affidavits.

### 3. Preparation of financial statements

### (a) Basis of presentation

The consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles used in Argentina ( Argentine GAAP ), considering the regulations of the CNV, which differ in certain significant respects from generally accepted accounting principles in the United States of America ( US GAAP ). Such differences involve methods of measuring the amounts shown in the financial statements, as well as additional disclosures required by US GAAP and Regulation S-X of the Securities and Exchange Commission ( SEC ).

However, certain reclassifications and accommodations have been made to conform more closely to the form and content required by the SEC.

In March 2009, the Argentine Federation of Professional Boards of Economic Sciences (the FACPCE) approved Technical Resolution (RT) 26 Adoption of International Financial Reporting Standards, which will be fully effective for companies making public offering of securities (such as the Company) as from January 1, 2011. In June 2009, the FACPCE approved RT 27 which provides for amendments to the existing RT for those companies not adopting IFRS. On December 30, 2009, the CNV issued Resolution No. 562/09 adopting RT 26 with a few differences

related to the companies obliged to adopt IFRS and the date of adoption. In July 2010, the CNV issued Resolution No. 576/10, amplifying Resolution No. 562/09. FACPCE is revising RT 26 in order to align RT 26 and CNV Resolution No. 562/09. Additional information is given in Note 15.

# (b) Basis of consolidation

These consolidated financial statements include the accounts of Telecom Argentina and its subsidiaries over which it has effective control (Personal, Núcleo, Springville, Micro Sistemas and Telecom USA).

All significant intercompany accounts and transactions have been eliminated in preparation of the consolidated financial statements.

In accordance with Argentine GAAP, the presentation of the parent company s individual financial statements is mandatory. Consolidated financial statements are to be included as supplementary information to the individual financial statements. For the purpose of these financial statements, individual financial statements have been omitted since they are not required for SEC reporting purposes (see Note 13 for a description of certain condensed unconsolidated information).

15

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

### 3. Preparation of financial statements (continued)

### (c) Presentation of financial statements in constant Argentine Pesos

As required by the Argentine Government Decree No. 1,269/02 and CNV Resolution No. 415/02, the Company s consolidated financial statements have been restated in constant Argentine pesos until February 28, 2003, following the method established by RT 6 of the *Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires* (CPCECABA).

However, on March 25, 2003, the Argentine Government reinstructed the CNV to preclude companies from presenting price-level restated financial statements. Therefore, CNV Resolution No. 441/03 resolved discontinuing inflation accounting as of March 1, 2003. The Company complied with the CNV resolution and accordingly recorded the effects of inflation until February 28, 2003. Comparative figures were also restated until that date.

In October 2003, the CPCECABA resolved to discontinue inflation accounting as of September 30, 2003. Since Argentine GAAP required companies to prepare price-level restated financial statements through September 30, 2003, the application of the CNV resolution represented a departure from Argentine GAAP. Changes in wholesale price indices for the periods indicated were as follows:

Periods		% change
January 2002	February 2003	119.73
Ianuary 2002	September 2003	115.03

As recommended by Argentine GAAP, the following table presents a comparison between certain condensed balance sheet and income statement information for the six-month period ended June 30, 2010, as restated for the effects of inflation through September 30, 2003, and the corresponding reported amounts which included restatement only through February 28, 2003:

		As restated through		
	As reported (*)	September 30, 2003 (**)	Effect	
	<b>(I)</b>	(II)	(II) (I)	
Total assets	10,721	10,682	(39)	
Total liabilities	5,379	5,365	(14)	
Noncontrolling interest	95	95		
Shareholders equity	5,247	5,222	(25)	
Net income	865	867	2	

(\*) As required by CNV resolution.

### (\*\*) As required by Argentine GAAP.

(d) Interim financial information

The accompanying June 30, 2010 consolidated financial statements are unaudited. The interim consolidated financial statements should be read in conjunction with the audited financial statements and related footnotes. The unaudited financial statements include, in the opinion of Management of the Company, all adjustments, consisting only of normal recurring adjustments that are considered necessary for the fair presentation of the information in the financial statements. Operating results for the six-month period ended June 30, 2010 are not necessarily indicative of results that may be expected for any future periods.

### (e) Use of estimates

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### (f) Reclassifications

Certain reclassifications of prior year information have been made to conform to the current year presentation.

16

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

## 3. Preparation of financial statements (continued)

### (g) Statement of cash flows

The Company considers all highly liquid temporary investments with an original maturity of three months or less at the time of purchase to be cash equivalents.

The statement of cash flows has been prepared using the indirect method.

## (h) Concentration of credit risk

The Company s cash equivalents and investments include money market mutual funds placed with various major financial institutions with high credit ratings. The Company s investment policy limits its credit exposure to any one issuer/obligor.

The Company s customers include numerous corporations. The Company serves a wide range of customers, including residential customers, businesses and governmental agencies. As such, the Company s account receivables are not subject to significant concentration of credit risk. While receivables for sales to these various customers are generally unsecured, the financial condition and creditworthiness of customers are routinely evaluated. Fixed customer lines were 3,975,000 (unaudited) at June 30, 2010 and 3,933,000 (unaudited) at June 30, 2009 and wireless customer lines, excluding prepaid lines and Internet subscribers (Argentina and Paraguay combined) were 4,827,000 (unaudited) at June 30, 2010 and 4,525,000 (unaudited) at June 30, 2009.

The Company provides for losses relating to accounts receivable. The allowance for losses is based on management s evaluation of various factors, including the credit risk of customers and other information. While management uses the information available to make evaluations, future adjustments to the allowance may be necessary if future economic conditions differ substantially from the assumptions used in making the evaluations. Management has considered all significant events and/or transactions that are subject to reasonable and normal methods of estimation, and the accompanying consolidated financial statements reflect that consideration.

## (i) Earnings per share

The Company computes net income per common share by dividing net income for the period by the weighted average number of common shares outstanding.

## 4. Summary of significant accounting policies

The following is a summary of significant accounting policies followed by the Company in the preparation of the financial statements.

## (a) Foreign currency translation

The financial statements of the Company s foreign subsidiaries are translated in accordance with RT 18, Specific Considerations for the Preparation of Financial Statements . RT 18 establishes guidelines to classify foreign investments either as foreign operations or foreign entities . A company is to be regarded as a foreign entity if it is financially, economically and organizationally autonomous. Otherwise, a company is to be regarded as a foreign operation if its operations are integral to those of the Company. The Company s foreign subsidiaries have been classified as foreign entities since they are financially, economically and organizationally autonomous. Accordingly, and pursuant to RT 18, financial statements of foreign entities are translated using period-end exchange rates for assets, liabilities and results of operations. Adjustments resulting from these translations are accumulated and reported as Foreign currency translation adjustments , a separate caption in the equity section.

## (b) Revenue recognition

The Company s principal sources of revenues by reportable segments are:

Voice, data and Internet services

## Fixed telephone services:

Domestic services revenues consist of monthly basic fees, measured service, long-distance calls and monthly fees for additional services, including call forwarding, call waiting, three-way calling, itemized billing and voicemail.

Revenues are recognized when earned. Unbilled revenues from the billing cycle dating to the end of each month are calculated based on traffic and are accrued at the end of the month.

Basic fees are generally billed monthly in advance and are recognized when services are provided. Billed basic fees for which the related service has not yet been provided are deducted from corresponding accounts receivable. Revenues derived from other telecommunications services, principally network access, long distance and airtime usage, are recognized monthly as services are provided.

**17** 

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

## 4. Summary of significant accounting policies (continued)

Revenues from the sale of prepaid calling cards are recognized in the month in which the traffic is used or in which the card expires, whichever happens first. Remaining unused traffic for unexpired calling cards is shown as Deferred revenue in accounts payable.

Revenues from installations consist primarily of amounts charged for the installation of local access lines. Installation fees are recognized at the time of installation or activation. The direct incremental cost related to installations and activations are expensed as incurred. Installation and activation costs exceed installation revenues for all periods presented. Reconnection fees charged to customers when resuming service after suspension are deferred and recognized ratably over the average life for those customers who are assessed a reconnection fee. Associated direct expenses are also deferred over the estimated customer relationship period in an amount equal to or less than the amount of deferred revenues. Reconnection revenues are higher than its associated direct expenses.

Interconnection charges represent amounts received by the Company from other local service providers and long-distance carriers for calls that are originated on their networks and transit and/or terminate on the Company s network. Revenue is recognized as services are provided.

The revenues and related expenses associated with the sale of equipment are recognized when the products are delivered and accepted by the customers.

## International long-distance services:

The Company provides international telecommunications service in Argentina including voice and data services and international point-to-point leased circuits.

Revenues from international long-distance service reflect payments under bilateral agreements between the Company and foreign telecommunications carriers, covering inbound international long-distance calls.

Revenues are recognized as services are provided.

#### Data transmission and Internet services:

Data and Internet revenues mainly consist of fixed monthly fees received from residential and corporate customers for data transmission (including private networks, dedicated lines, broadcasting signal transport and videoconferencing services) and Internet connectivity services (dial-up and broadband). These revenues are recognized as services are rendered.

Revenues from the sale of modems and the related sale expenses (which are generally higher than the connection fees charged to customers) are recognized when the products are delivered and accepted by the customers.

## Wireless telecommunication services

The Company provides wireless telephone service throughout Argentina via cellular and PCS networks. Cellular and PCS fees consist of monthly basic fees, airtime usage charges, roaming, charges for termination of calls coming from other cellular operators ( TLRD ), calling party pays charges ( CPP ) and additional charges for value-added services, including call waiting, call forwarding, three-way calling, voicemail, short

message systems ( SMS ), and for other miscellaneous cellular and PCS services. These revenues are recognized as services are rendered.

Basic fees are generally billed monthly in advance and are recognized when services are provided. Billed basic fees for which the related service has not yet been provided are deducted from corresponding accounts receivable.

Equipment sales consist principally of revenues from the sale of wireless handsets to new and existing customers and to agents and other third-party distributors. The revenues and related expenses associated with the sale of wireless handsets, which are generally higher than the prices paid by the customers, are recognized when the products are delivered and accepted by them.

Revenues from the sale of prepaid calling cards are recognized in the month in which the traffic is used or in which the card expires, whatever happens first. Remaining unused traffic for unexpired calling cards is shown as deferred revenue in current liabilities.

## (c) Foreign currency transaction gains/losses

Foreign currency transaction gains and losses are included in the determination of net income or loss.

18

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

## 4. Summary of significant accounting policies (continued)

However, CNV Resolution No.398 allowed the application of CPCECABA Resolution MD No.3/02, issued in March 2002, which provides that foreign currency transaction gains or losses on or after January 6, 2002, related to foreign-currency denominated debts as of such date must be allocated to the cost of assets acquired or constructed with such financing, as long as a series of conditions and requirements established in such standard are fulfilled. The Company adopted these resolutions and allocated the costs to fixed assets accordingly.

In July 2003, the CPCECABA suspended such accounting treatment and therefore required foreign currency transaction gains and losses to be included in the determination of net income as from July 28, 2003.

The net carrying value of these capitalized costs was \$52 as of June 30, 2010 and \$57 as of December 31, 2009, both in the Voice, data and Internet segment.

#### (d) Cash and banks

Cash and banks are stated at face value.

# (e) Trade accounts, other receivables and payables, in currency, arising from the sale or purchase of goods and services and financial transactions

Certain receivables and payables on the sale or purchase of goods and services, respectively, and those arising from financial transactions, are measured based on the calculation of their discounted value using the internal rate of return of such assets or liabilities at the time of initial measurement. This method is also called the amortized cost method and is equivalent to the face value of the receivables/payables plus the accrued interest less the collections/payments made at period-end.

As mentioned in Note 3.h, the Company provides for losses relating to doubtful accounts based on management s evaluation of various factors.

#### (f) Other receivables and payables in currency not included in (e) and (g)

Other non-current receivables and non-current payables not included in (e) above and (g) below, are measured based on the calculation of their discounted value using the internal rate of return of such assets or liabilities at period-end.

Other current receivables and current payables are stated at face value.

## (g) Deferred tax assets and liabilities and credits on minimum presumed income tax

Deferred tax assets and liabilities and minimum presumed income tax credits are stated at face value.

Since 2002, the Telecom Group, following the guidelines of the FACPCE, has treated the differences between the tax basis and book basis of non-monetary items for deferred income tax calculation purposes as temporary differences.

## (h) Investments

Time deposits are valued at their cost plus accrued interest at period-end.

The Company has investments in certain government bonds. The Company has classified these securities as held-to-maturity as management has the intent and ability to hold those securities to maturity.

Mutual funds are carried at market value. Unrealized gains and losses are included in financial results, net, in the consolidated statements of income.

The 2003 Telecommunications Fund is recorded at the lower of cost or net realizable value.

### (i) Inventories, net

Inventories are stated at replacement cost, which does not exceed the net realizable value. Where necessary, provision is made for obsolete, slow moving or defective inventory.

From time to time, the Management of Personal and Núcleo decide to sell wireless handsets at prices lower than their respective replacement costs. This strategy is aimed at achieving higher market penetration by reducing customer access costs while maintaining the companies overall wireless business profitability. As this policy is the result of management s decision, promotional prices are not used to calculate the net realizable value of such inventories.

19

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

## 4. Summary of significant accounting policies (continued)

## (j) Other assets, net

Fixed assets held for sale are stated at cost, less accumulated depreciation at the time of transfer to the held-for-sale category. All amounts have been restated for inflation as mentioned in Note 3.c. which does not exceed the estimated realizable value of such assets. Where necessary, a provision was made for the adjustment of the restated cost at realizable value.

#### (k) Fixed assets, net

Fixed assets received from ENTel have been valued at their transfer price. Subsequent additions have been valued at cost less accumulated depreciation. All amounts have been restated for inflation as mentioned in Note 3.c.

As of the date of these financial statements, the Company has received the transfer of title pertaining to substantially all of the fixed assets received from ENTel, other than 14.7% of the total transferred buildings, representing \$10 of net carrying value as of June 30, 2010. Nevertheless, the Company is in complete possession of these fixed assets and operates them normally.

For fixed assets whose operating condition warrants replacement earlier than the end of the useful life assigned by the Company to its fixed asset category, the Company calculates the depreciation charge based on the adjusted remaining useful life assigned in accordance with the related asset replacement.

The cost of maintenance and repairs is charged to expense as incurred. The cost of significant renewals and improvements is added to the carrying amount of the respective assets. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is reflected in the statements of income.

Until the date of cancellation of its financial debt, the Company had capitalized interest on long-term construction projects. Additional information is given in Note 5.n.

Depreciation expense is calculated using the straight-line method over the estimated useful lives of the related assets, based on the rates specified below:

	Estimated useful
Asset	life (years)
Buildings received from ENTel	35
Buildings	50
Tower and pole	15
Transmission equipment	3-20
Wireless network access	5-10
Switching equipment	5-13
Power equipment	7-15
External wiring	10-20
Computer equipment	3-5
Telephony equipment and instruments	5-10

Installations 3-10

The Company is subject to asset retirement obligations ( ARO ) associated with its cell and switch site operating leases. The Company, in most cases, has the right to renew the initial lease term. Accordingly, the Company records a liability for an ARO. When the liability is initially recorded, the entity capitalizes a cost by increasing the carrying amount of the related long-lived asset. The capitalized cost is depreciated over the estimated useful life of the related asset. Subsequent to the initial measurement, an entity should recognize changes in the ARO that result from (1) the passage of time and (2) revisions made to either the timing or amount of estimated cash flows. Changes resulting from revisions in the timing or amount of estimated cash flows should be recognized as increases or decreases in the carrying amount of the ARO and the associated capitalized retirement cost. Increases in the ARO as a result of upward revisions in undiscounted cash flow estimates should be considered new obligations and initially measured using current credit-adjusted risk-free interest rates. Any decreases in the ARO as a result of downward revisions in cash flow estimates should be treated as modifications of an existing ARO, and should be measured at the historical interest rate used to measure the initial ARO.

Fixed assets as a whole does not exceed the estimated realizable value (See 4.m below).

## (l) Intangible assets, net

Intangible assets are stated at cost, less accumulated amortization. All amounts have been restated for inflation as mentioned in Note 3.c.

20

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

## 4. Summary of significant accounting policies (continued)

Intangible assets comprise the following:

## Software obtained or developed for internal use

The Company has capitalized certain costs associated with the development of computer software for internal use. These costs are being amortized on a straight-line basis over a period ranging between 5 years and 7.5 years.

#### Debt issue costs

Expenses incurred in connection with the issuance of debt are deferred and are being amortized under the interest method over the life of the related issuances.

#### PCS license

The Company adopted RT 17, Overall considerations for the preparation of financial statements , on January 1, 2002. This standard prescribes the accounting treatment for both identifiable intangibles and goodwill after initial recognition. Upon adoption of this standard, amortization of indefinite life intangibles ceased. Impairment testing of these assets is now required. The Company identified Personal s PCS licenses as indefinite life intangibles.

## PCS and Band B of Paraguay licenses

Núcleo s PCS and Band B licenses were amortized under the straight-line method over 10 years through fiscal year 2007. Renovation costs are being amortized in 5 years.

#### Rights of use

The Company purchases network capacity under agreements which grant the exclusive right to use a specified amount of capacity for a period of time. Acquisition costs are capitalized and amortized over the terms of the respective capacity agreements, generally 15 years.

#### Exclusivity agreements

Exclusivity agreements were entered into with certain retailers and third parties relating to the promotion of the Company s services and products. Amounts capitalized are being amortized over the life of the agreements, which range up to fiscal year 2028.

### Customer relationships

Acquired in the purchase of shares of Cubecorp, it is amortized over the terms of permanence of the customers which was estimated in 15 years.

Intangible assets as a whole does not exceed the estimated realizable value (See 4.m below).

## (m) Impairment of long-lived assets

The Company periodically evaluates the carrying value of its long-lived assets and certain intangible assets for impairment when events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The carrying value of a long-lived asset is considered impaired by the Company when the expected cash flows, discounted and without interest cost, from such an asset, is less than its carrying value. In that event, a loss would be recognized based on the amount by which the carrying value exceeds the fair market value of the long-lived asset. Fair market value is determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved.

The devaluation of the Argentine peso, which occurred in January 2002, and the pesification of Telecom Argentina s tariffs materially affected the Company s financial position and results of operations, and changed the rules under which the Company operated. However, as indicated in Note 2.j., Law No. 25,561 authorized the Argentine Government to renegotiate the conditions of the contracts with the privatized companies, taking into account their profitability, among other criteria.

In this regard, the Company has made certain assumptions in the determination of its estimated cash flows to evaluate a potential impairment of its long-lived assets in relation to each operating segment. In the preparation of such estimates and in connection with the fixed-line business, the Company has considered different scenarios, some of which contemplate the modification of the current level of Telecom Argentina s regulated tariffs which would enable Telecom Argentina to finance the technological renovation of its fixed-line network in the next years.

Based on the foregoing, the Company considered an impairment charge not to be necessary for its long-lived assets.

## (n) Severance indemnities

Severance payments made to employees are expensed as incurred.

21

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

- 4. Summary of significant accounting policies (continued)
- (o) Taxes payable

#### Income taxes

As per Argentinean Tax Law, the provisions for income taxes have been computed on a separate return basis (i.e., the Company does not prepare a consolidated income tax return). All income tax payments are made by the subsidiaries as required by the tax laws of the countries in which they respectively operate. The Company records income taxes using the method required by RT 17.

Accordingly, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts and their respective tax bases. RT 17 also requires companies to record a valuation allowance for that component of net deferred tax assets which are not recoverable. The statutory income tax rate in Argentina was 35% for all periods presented.

Cash dividends received from a foreign subsidiary are computed on the statutory income tax rate. As per Argentinean Tax Law, income taxes paid abroad may be recognized as tax credits.

The statutory income tax rate in Paraguay was 10% for all periods presented. As per Paraguayan Tax Law, dividends paid are computed with an additional income tax rate of 5% (this is the criterion used by Núcleo for the recording of its deferred tax assets and liabilities, representing an effective tax rate of 14.75%). When dividends are paid to foreign shareholders, there is an additional income tax rate of 15%, which is deducted from the amounts paid to the shareholders.

## Tax on minimum presumed income

The Company is subject to a tax on minimum presumed income. This tax is supplementary to income tax. The tax is calculated by applying the effective tax rate of 1% on the tax basis of certain assets. The Company s tax liabilities will be the higher of income tax or minimum presumed income tax. However, if the tax on minimum presumed income exceeds income tax during any fiscal year, such excess may be computed as a prepayment of any income tax excess over the tax on minimum presumed income that may arise in the next ten fiscal years.

For the six-month period ended June 30, 2010, Telecom has estimated a provision for income taxes.

#### Turnover tax

Under Argentine tax law, the Company is subject to a tax levied on gross revenues. Rates differ depending on the jurisdiction where revenues are earned for tax purposes. Average rates were approximately 4.0% for the six-month periods ended June 30, 2010 and 2009.

## (p) Other liabilities

## **Pension benefits**

Argentine laws provide for pension benefits to be paid to retired employees from government pension plans and/or privately managed fund plans to which employees may elect to contribute. Amounts payable to such plans are accounted for on an accrual basis. The Company does not sponsor any stock option plan.

Retirement liabilities shown under other liabilities represent benefits under collective bargaining agreements for employees who retire upon reaching normal retirement age, or earlier due to disability. Benefits consist of the payment of a single lump sum equal to the salary of one month for each five years of service. There is no vested benefit obligation until the occurrence of those conditions. The collective bargaining agreements do not provide for other post-retirement benefits such as life insurance, health care, and other welfare benefits. The net periodic pension costs are recognized as employees render the services necessary to earn pension benefits. Actuarial assumptions and demographic data, as applicable, were used to measure the benefit obligation as required by RT 23. The Company does not make plan contributions or maintain separate assets to fund the benefits at retirement.

## **Deferred revenue on sale of capacity**

Under certain network capacity purchase agreements, the Company sells excess purchased capacity to other carriers. Revenues are deferred and recognized as services are provided.

## **Court fee**

Under the out-of-court restructuring agreement ( Acuerdo Preventivo Extrajudicial or APE), the Company was subject to a court fee of 0.25% levied on the total amount finally approved as restructured by the court. The fee is paid in up to one hundred and ten monthly installments with an annual interest rate of 6% through September 2014.

22

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

## 4. Summary of significant accounting policies (continued)

#### Legal fee

Pursuant to Law No. 26,476 - Tax Regularization Regime ( Régimen de Regularización Impositiva Ley N° 26,476 ), the Company is subject to a legal fee which shall be paid in twelve monthly consecutive installments without interest as from final judgment.

## (q) Exchange of debt instruments

Argentine GAAP requires that an exchange of debt instruments with substantially different terms be considered a debt extinguishment and that the old debt instrument be derecognized. Argentine GAAP clarifies that from a debtor s perspective, an exchange of debt instruments between, or a modification of a debt instrument by, a debtor and a creditor shall be deemed to have been accomplished with debt instruments that are substantially different if the present value of the cash flows under the terms of the new debt instrument is at least 10 percent different from the present value of the remaining cash flows under the terms of the original instrument. The new debt instrument should be initially recorded at fair value and that amount should be used to determine the debt extinguishment gain or loss to be recognized. Fair value should be determined by the present value of the future cash flows to be paid under the terms of the new debt instrument discounted at a rate commensurate with the risks of the debt instrument and time value of money. This criterion was used by Telecom Argentina to account for its respective debt restructuring which was finished in August 2005 and fully cancelled on October 15, 2009.

## (r) Litigation

The Company, in the ordinary course of business, is subject to various legal proceedings. The reserve for contingencies was established considering the potential outcome of these matters and the legal counsel s opinion.

## (s) Derivatives to hedge the Company s exposure to foreign currency

The Company has adopted the Caption No. 2 of RT 18 issued by the FACPCE, Accounting for Derivative Instruments and Hedging Activities , which requires the recognition of all derivative financial instruments as assets and/or liabilities at their estimated fair value, whether designated in a hedging relationship or not.

Changes in the fair value of effective cash flow hedges are recognized as a separate component of Shareholders equity of the balance sheet (under Foreign currency translation adjustments ) and subsequently reclassified to earnings when the hedged items affect earnings. Gains and losses from fair value hedges are recognized in earnings in the period of any changes in the fair value of the related recognized asset or liability.

Derivatives not designated or qualifying as a hedging instrument or ineffective derivatives are adjusted to fair value through earnings, being recorded in the item line Gain (loss) on derivatives of the statement of income s caption Financial results, net .

These instruments were negotiated with institutions and corporations with significant financial capacity; therefore, the Company considered that the risk of non-compliance with the obligations agreed to by such counterparties to be minimal.

The Company does not enter into derivative contracts for speculative purposes.

The main characteristics of the derivatives at June 30, 2010 are the following:

## a) Non-Deliverable Forward ( NDF ) contracts to purchase foreign currency for Notes

When entering into these NDF contracts, the management objective was to reduce its exposure to foreign currency fluctuations and denominate its Notes in Argentine pesos. At inception, the critical terms of the NDF were substantially similar to the terms of the foreign currency-denominated obligations (amounts and maturity dates). Accordingly, these hedges were designated as cash flow hedges. In accordance with Argentine GAAP, changes in the fair value of these hedges were recognized under Foreign currency translation adjustments and subsequently reclassified to earnings when the hedged items affect earnings.

For the six-month period ended June 30, 2010, the US dollar-denominated Notes (hedged item) have generated foreign currency exchange differences; consequently, a loss of \$29 was reclassified to financial results under Gain (loss) on derivatives .

23

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

## 4. Summary of significant accounting policies (continued)

Personal entered into several contracts to purchase foreign currency which main characteristics at June 30, 2010, are the following:

				Expiring	Book value at June 30,
	Amount	Average exchange			2010
Currency	(in million)	rate	Date	date	(liabilities)
US\$	179.2	4.3122 \$/US\$	September 2009/January 2010	December 2010	(*)(27)

(\*) Included in Current debt, of which \$(5) corresponds to related parties - see Note 7.e -.

## b) NDF contracts to purchase foreign currency for accounts payable

When entering into these NDF contracts, the management objective was to reduce its exposure to foreign currency fluctuations and denominate its accounts payable in Argentine pesos. At June 30, 2010, Personal entered into several NDF contracts amounting to US\$22.7 million (maturing July through December 2010). However, as the terms of the NDF do not perfectly match the terms of the foreign currency-denominated obligations, these hedges were regarded as ineffective.

For the six-month period ended June 30, 2010, the changes in the fair value of these hedges were recognized as a loss in the financial results as Gain (loss) on derivatives in an amount of \$3 with counterpart under Accounts payable .

#### (t) Vacation expenses

Vacation expenses are fully accrued in the period the employee renders services to earn such vacation.

## (u) Advertising costs

Advertising costs are expensed as incurred. Advertising costs for the six-month periods ended June 30, 2010 and 2009 are shown in Note 16.h. under the caption Advertising .

## 5. Breakdown of the main accounts

The Annual General Ordinary and Extraordinary Shareholders Meeting held on April 28, 2010 approved a cash dividend distribution in the amount of \$1,053 payable in two installments: the first was paid on May 5, 2010, amounting to \$689 (equivalent to \$0.70 per share) and the second will be paid on December 20, 2010, for the balance of \$364 (equivalent to \$0.37 per share), of which \$200 corresponds to Nortel (Note 7.e).

### 7 Related party transactions

## (a) Controlling group

As of June 30, 2010, Nortel is the controlling shareholder of Telecom Argentina. Nortel owns all of the outstanding Class A shares and 36,832,408 Class B shares of Telecom Argentina, representing 54.74% of the total common stock of Telecom Argentina.

Nortel s ordinary shares (67.79% of the capital stock) are owned by Sofora Telecomunicaciones S.A. ( Sofora ). As of June 30, 2010, Sofora s shares are owned by the Telecom Italia Group (50%) and by W de Argentina Inversiones S.L. (50%).

In connection with these transactions, a Shareholders Agreement between W de Argentina - Inversiones S.L., Telecom Italia S.p.A. and Telecom Italia International N.V. for the joint management of Sofora, Nortel, Telecom and its subsidiaries was executed.

The Telecom Italia Group is the operator of Telecom Argentina.

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

## 7 Related party transactions (continued)

## (b) Call options acquired by Telecom Italia International N.V.

In September 2003, Telecom Italia International N.V. acquired, for an aggregate purchase price of US\$60 million, two call options on W de Argentina Inversiones S.L. entire interest in Sofora (jointly, the Telecom Italia International N.V. Options). The Telecom Italia International N.V. Options are: (i) a call option for the purchase of 48% of Sofora s share capital, which can be exercised since December 31, 2008, and (ii) a call option on 2% of Sofora s share capital, which can be exercised between December 31, 2008 and December 31, 2013.

According to SC Note No. 1,004/08, dated June 26, 2008 and to SC Note No. 2,573/08, dated December 30, 2008, the exercise of the Telecom Italia International N.V. Options is subject to the prior approval of the SC.

Additionally, the Argentine Antitrust Commission (or the CNDC) Resolution No. 123/08 resolved that until the CNDC issues its decision in the matter of Telecom Italia International N.V. Options, as provided by Law No. 25,156, the Telecom Italia Group companies must refrain from exercising, assigning, transferring or taking any other action with respect to those purchase options.

The Telecom Italia Group filed an appeal against CNDC Resolution No. 123/08. On April 16, 2010, the Argentine Supreme Court ordered the transfer of the matter to the Chamber A of the National Chamber of Economic Criminal Appeals (the CNAPE).

On June 17, 2010, Chamber A of the CNAPE annulled CNDC Resolution No. 123/08, ruling that the CNDC had no authority to issue the measures ordered therein. The Argentine Government filed an extraordinary federal appeal against said ruling. As of the date of issuance of these consolidated financial statements such appeal has not been resolved. In addition, as mentioned below, the validity and full effect of the Telecom Italia International N.V. Options had been discussed at court.

On March 26, 2009, the First National Court of Appeals for Federal Administrative Litigious Matters issued a precautionary measure declaring the suspension of the exercise of Telecom Italia International N.V. s rights set forth in the purchase option contract, upon request of the company Grupo Dracma S.A., presided by Mr. Adrián Werthein, and W de Argentina- Inversiones S.L. This suspension will be effective until the SC renders a final decision regarding the validity of the legal effects in Argentina of the Transaction described in d) below, or, alternatively, when a final decision is rendered regarding the underlying matter for which the precautionary measure was issued, whichever occurs first. Telecom Italia International N.V. filed a special federal appeal against said precautionary measure, and upon its rejection, filed an appeal with Argentina s Supreme Court of Justice. The matter is still pending before Argentina s Supreme Court of Justice.

Telecom Argentina has been informed that W de Argentina Inversiones S.L. filed a complaint against Telecom Italia International N.V., before the National Commercial Court of First Instance N° 8, Secretariat N° 15 of the City of Buenos Aires, with the purpose of obtaining a decree of nullity on the Telecom Italia International N.V. Options. Within this legal proceeding, the court ordered the registration of the information regarding such trial in the stock ledger of Sofora, pursuant to Section 229 of the National Civil and Commercial Procedural Code. Following the court s determination that the rights of the claimant were credible, in a resolution not appealed by Telecom Italia International N.V., the precautionary measure was finished -without prejudice to the continuation of the trial- in response to the claimant s request, which alleged that there was no further practical benefit in maintaining its effects. As of the date of issuance of these consolidated financial statements, resolution of the complaint is still pending.

Notwithstanding the above, it is important to mention that the CNDC and the Secretary of Internal Commerce ( the SCI ) resolutions relating to the compulsory divestiture of certain assets of the Telecom Italia Group (SCI No. 483/2009 y No. 3/2010), including the Telecom Italia International N.V. Options, were annulled by Chamber A of the CNAPE. Such annulment was based on formal aspects of the resolutions; the CNAPE did not rule on the substance of the resolutions nor on the SCI conclusion that a change of control had occurred in the Telecom Italia

Group. In compliance with such ruling, SCI Resolutions No. 483/2009 y No. 3/2010 were repealed, it was administratively confirmed that an economic concentration had occurred, a new summary procedure by the CNDC was ordered, and the proceedings are currently in progress.

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

## 7 Related party transactions (continued)

In addition, it is relevant to mention that the precautionary measure issued by Court No. 6 on August 26, 2009, and confirmed by Chamber III of the National Federal Court of Appeals in Contentious Administrative Federal Matters on November 6, 2009, which was enforced following the additional measures adopted by Court No. 6 on March 8, 2010 for that purpose, is currently in full force and effect. The Telecom Italia Group, the Telecom Group and the directors who were suspended by such measure filed various extraordinary appeals against the confirming resolution of the National Federal Court of Appeals in Contentious Administrative Federal Matters, and such appeals were partially granted (without suspending the precautionary measures), and are currently under consideration of the Argentine Supreme Court.

## (c) Related parties

Related parties (as described in FACPCE RT 21) are those legal entities or individuals which are related to the indirect shareholders of the Company.

However, under FACPCE RT 21, Telefónica, S.A. (of Spain) and Telefónica de Argentina S.A. are not considered to be related parties.

## (d) Changes in the equity stocks of the indirect shareholders of Telecom Italia S.p.A.

On October 25, 2007, a consortium made up of Assicurazioni Generali S.p.A., Intesa Sanpaolo S.p.A., Mediobanca S.p.A., Sintonia S.A. (Benetton) and Telefonica, S.A. (of Spain) bought Olimpia S.p.A. s entire stock through the Italian company Telco S.p.A., which held approximately 23.6% of Telecom Italia S.p.A. s voting shares (the Transaction). In accordance with the last public statement available (Telecom Italia S.p.A. s financial statements as of December 31, 2009), Telco S.p.A. currently owns 22.45% of Telecom Italia S.p.A. s voting shares.

After the Transaction, since October 2007, Pirelli & C. S.p.A., its controlled subsidiaries and its related parties have ceased to be related parties of Telecom and its subsidiaries.

The Transaction has generated different opinions with respect to its impact on Argentina s telecommunications market in light of the Law for Defense of the Competition (Ley de Defensa de la Competencia or LDC) and the existing regulatory framework.

Consequently, the Transaction required the intervention of various administrative bodies whose decisions have been subject to various presentations and complaints before administrative and judicial courts. Additionally, several judicial actions have been filed.

Additional information on this matter is given in the 2009 Annual Report, which was approved on March 11, 2010. The relevant events occurred since the issuance of this Annual Report are detailed below.

On March 11, 2010, Chamber II of the Civil and Commercial Federal Court of Appeals issued a resolution denying a precautionary measure requested by Telecom Italia S.p.A. to suspend the March 8, 2010 resolution issued by Court No. 6.

On March 18, 2010, the CNDC issued Resolution No. 38/10, deciding inter alia, to grant the appeals filed against CNDC Resolution No. 30/10, form an ancillary appeal and elevate this case to Chamber A of the CNAPE. On May 6, 2010, Chamber A of the CNAPE resolved that the Ministry of Economy and Public Finance Resolution No. 82/10, the Secretary of Economic Policy Resolution No. 14/10 and CNDC Resolution No. 30/10 are not subject to appeal.

On April 19, 2010, the Commercial Court of First Instance No. 26, Secretariat No. 51 notified Personal that it had sustained a precautionary measure and suspended consideration of items 4, 8, 9 and 10 of the agenda at Annual General Ordinary Shareholders Meeting of Personal scheduled for April 20, 2010.

On April 20, 2010, the Annual General Ordinary Shareholders Meeting of Personal was held and the provisions of the aforementioned precautionary measure were complied.

Therefore, on April 20, 2010, the Commercial Court of First Instance No. 26, also notified Telecom Argentina that it had sustained a precautionary measure and suspended consideration of items 7, 11, 12, 13 and 21 of the agenda at Annual General Ordinary and Extraordinary Shareholders Meeting of Telecom scheduled for April 28, 2010.

31

#### TELECOM ARGENTINA S.A.

Corporation non adhered to the Optional Statutory Regime of Compulsory Public Purchase Offer

#### Notes to the Unaudited Consolidated Financial Statements

(In millions of Argentine pesos, except as otherwise indicated See Note 3.c)

## 7 Related party transactions (continued)

The suspended items from Telecom Argentina s agenda are as follows:

- 7) Consideration of Board of Directors and Supervisory Committee s performance from April 29, 2008 to the date of the Shareholders Meeting.
- 11) Determination of the number of directors and alternate directors for the twenty-second fiscal year ( Fiscal Year 2010 ).
- 12) Election of directors and alternate directors for Fiscal Year 2010
- 13) Determination of the number of members and alternate members of the Supervisory Committee for Fiscal Year 2010 and their election.
- 21) Modification of the disapproval of Gerardo Werthein s performance during the nineteenth fiscal year.

On April 28, 2010, the Annual General Ordinary and Extraordinary Shareholders Meeting of Telecom was held and the provisions of the aforementioned precautionary measure were complied.

Telecom and Personal have appealed the precautionary measures issued by Commercial Court of First Instance No. 26, and have recused the judge in charge of said Court. As a result, the case was transferred to a new Court, but the claimant recused the judge in charge of the latter. The case is currently in charge of Commercial Court of First Instance No. 21, Secretariat No. 42. On July 6, 2010, Chamber A of the National Chamber of Commercial Appeals declared that the above mentioned appeals have become moot.

In May and July 2010, Messrs. Jorge L. Pérez Alati and Jorge A. Firpo initiated two procedures of private mediation as part of legal actions seeking a declaratory judgment nullifying certain decisions adopted by Telecom Argentina and Personal s Boards of Directors from March to June 2010. These decisions refer, among others, to (i) instructions given for the appointment of directors and members of the Supervisory Committee of subsidiaries directly and/or indirectly controlled by Telecom; (ii) amendments to the Internal Authorization Regime of the Telecom Group; (iii) treatment of sensitive information. Both mediation procedures were finished without agreement among the parties. Telecom and Personal were notified of the filing of one of the above mentioned legal actions and requested its rejection.

On June 17, 2010, Chamber A of the National Chamber of Economic Criminal Appeals (the CNAPE) annulled CNDC Resolution No. 44/09, by virtue of which, among other things, the CNDC notified that (i) Telecom Italia S.p.A. and Telecom Italia International N.V., (ii) the attorneys-in-fact, officers and directors of Telecom Italia S.p.A., Telecom Italia International N.V. and their direct and indirect shareholders, and (iii) the directors and members of the Supervisory Committee appointed at the request of Telecom Italia S.p.A. and Telecom Italia International N.V. at Sofora Telecomunicaciones S.A., Nortel Inversora S.A., Telecom Argentina S.A., Telecom Personal S.A., Micro Sistemas S.A. and Cubecorp Argentina S.A. should have refrained and shall refrain from making any decisions which involved or may involve in the future, directly or indirectly, the exercise of political rights exclusively-, or decide or issue instructions for the exercise of political rights, including those arising from shareholders agreements in Sofora Telecomunicaciones S.A., Nortel Inversora S.A., Telecom Argentina S.A., Telecom Personal S.A., Micro Sistemas S.A. and Cubecorp Argentina S.A. . The Argentine Government filed an extraordinary federal appeal against the above mentioned decision . As of the date of issuance of these consolidated financial statements said appeal has not been resolved.

On the same date, the CNAPE also ruled that: (i) the appeals against Section 1 of CNDC Resolution No. 4/09, ordering Pirelli & C. S.p.A. and Sintonia S.A. as Sellers and Telefónica, S.A. (de España), Assicurazioni Generali S.p.A., Intesa Sanpaolo S.p.A., Sintonia S.A. and Mediobanca S.p.A., as Purchasers, to notify to the applicable governmental authorities certain transactions considered to be of economic concentration, had been wrongly admitted; and (ii) CNDC Resolution No. 4/09 was null regarding the order to abstain from exercising certain rights.

Additional information on the Transaction and its consequences can be reviewed at www.cnv.gov.ar (section Autopista de Información Financiera ) and at www.sec.gov.

# (e) Balances and transactions with related parties

The Company has transactions in the normal course of business with certain related parties. For the periods presented, the Company has not conducted any transactions with executive officers and/or persons related to them. Those balances and transactions are less than \$1; therefore they are not shown due to rounding.
