PRIMUS TELECOMMUNICATIONS GROUP, INCORPORATED

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(UNAUDITED)

1. BASIS OF PRESENTATION

The accompanying unaudited consolidated condensed financial statements of Primus Telecommunications Group, Incorporated and subsidiaries (the Company or Primus or Group) have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial reporting and Securities and Exchange Commission (SEC) regulations. Certain information and footnote disclosures normally included in the financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such principles and regulations. In the opinion of management, the financial statements reflect all adjustments (all of which are of a normal and recurring nature), which are necessary to present fairly the financial position, results of operations, cash flows and comprehensive income (loss) for the interim periods. The results for the Company s three months and nine months ended September 30, 2010 are not necessarily indicative of the results that may be expected for the year ending December 31, 2010.

As of July 1, 2009, the Company adopted fresh-start accounting in accordance with Accounting Standards Codification (ASC) No. 852, Reorganizations. The adoption of fresh-start accounting resulted in the Company becoming a new entity for financial reporting purposes. Accordingly, the financial statements on or prior to July 1, 2009 are not comparable with the financial statements for periods after July 1, 2009. The consolidated condensed statements of operations, cash flows, comprehensive income (loss) and any references to Successor or Successor Company for the three months ended September 30, 2009 and for the three months and nine months ended September 30, 2010, show the operations of the reorganized Company. References to Predecessor or Predecessor Company refer to the operations of the Company prior to July 1, 2009, except for Predecessor s July 1, 2009 statement of operations and comprehensive income (loss), which reflect only the effect of the plan adjustments and fresh-start accounting as of such date and do not reflect any operating results. See Note 3 Fresh Start Accounting in the notes to these Consolidated Condensed Financial Statements for further details.

The results for all periods presented in this quarterly Form 10-Q reflect the activities of certain operations as discontinued operations (see Note 11 Discontinued Operations).

The financial statements should be read in conjunction with the Company s audited consolidated financial statements included in the Company s most recently filed Form 10-K.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation The consolidated financial statements include the Company s accounts, its wholly-owned subsidiaries and all other subsidiaries over which the Company exerts control. The Company owns 45.6% of Globility Communications Corporations (GCC) through direct and indirect ownership structures. The results of GCC and its subsidiary are consolidated with the Company s results based on guidance from ASC 810, Consolidation. All intercompany profits, transactions and balances have been eliminated in consolidation.

7

Effective January 1, 2009, the Company adopted ASC No. 810, Consolidation. This statement changed the presentation of outstanding noncontrolling interests in one or more subsidiaries. Reconciliations at the beginning and the end of the period of the total equity, equity attributable to the Company and equity attributable to the noncontrolling interest for Successor s nine months ended September 30, 2010 and three months ended September 30, 2009 and Predecessor s six months ended July 1, 2009 are as follows (in thousands):

Discontinued Operations During the first quarter 2010, the Company initiated the sale of certain assets of its Spain and European agent serviced retail operations; and, therefore, has reported such operations as discontinued operations. In the second quarter of 2010 the Company completed the sale of certain assets of its Spanish operations. In the third quarter of 2010 the company completed the sale of its Belgian operations and classified its entire European retail segment as discontinued operations.

In October 2010 the Company completed the sale of its Italian and United Kingdom retail operations. See Note 15, Subsequent Events .

In the first quarter 2009, the Company sold certain assets of its Japan retail operations. Therefore, the Company reported Japan retail operations as a discontinued operation. During the second quarter of 2008, the Company intended and had the authority to sell certain assets of its German retail operations, and therefore, reported this unit as a discontinued operation. However, buyers were not found; therefore the Company decided it would cease operations of the German retail business effective the first quarter of 2009.

Reorganization Costs In accordance with ASC No. 852, Reorganizations, for periods including and subsequent to the filing of the Chapter 11 petition through the bankruptcy emergence date of July 1, 2009, all revenues, expenses, realized gains and losses, and provisions for losses that result from the reorganization are reported separately as reorganization items, net, in the Consolidated Statements of Operations. Net cash used for reorganization items is disclosed separately in the Consolidated Statements of Cash Flows.

Presentation of Taxes Collected The Company reports any tax assessed by a governmental authority that is directly imposed on a revenue-producing transaction between the Company and a customer (including sales, use, value-added and some excise taxes) on a net basis (excluded from revenues).

Stock-Based Compensation The Company uses a Black-Scholes option valuation model to determine the fair value of stock-based compensation under ASC No. 718, Compensation Stock Compensation . The Black-Scholes model incorporates various assumptions including the expected term of awards, volatility of stock price, risk-free rates of return and dividend yield. The expected term of an award is no less than the option vesting period and is based on the Company s historical experience. Expected volatility is based upon the historical volatility of the Company s stock price. Because of the short trading history of the Successor Company s common stock, the Company calculates the expected volatility by averaging the historical volatility of the stock price of the Successor Company s common stock and historical volatility of a peer group in the telecommunication industry with similar market capitalization. The risk-free interest rate is approximated using

Table of Contents

rates available on U.S. Treasury securities with a remaining term similar to the option s expected life. The Company uses a dividend yield of zero in the Black-Scholes option valuation model as it does not anticipate paying cash dividends in the foreseeable future.

Use of Estimates The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of net revenue and expenses during the reporting period. Actual results may differ from these estimates. Significant estimates include allowance for doubtful accounts receivable, accrued interconnection cost disputes, the fair value of derivatives, market assumptions used in estimating the fair values of certain assets and liabilities, the calculation used in determining the fair value of the Company s stock options required by ASC No. 718 and various tax contingencies.

Under fresh-start accounting as of July 1, 2009, the Company s asset values were remeasured and allocated in conformity with ASC No. 805, Business Combinations. Deferred taxes are reported in conformity with ASC No. 740, Income Taxes.

Upon emergence from bankruptcy on July 1, 2009, the Company entered into an arrangement for issuing Contingent Value Rights (CVRs) that contained derivative features. The Company accounted for the arrangement in accordance with ASC No. 815, Derivatives and Hedging. The Company determined these CVRs to be derivative instruments to be accounted for as liabilities and marked to fair value at each balance sheet date. Upon issuance, the Company recorded CVRs as a liability in its balance sheet at their estimated fair value. Changes in their estimated fair value are recognized in earnings during the period of change.

Estimates of fair value represent the Company s best estimates developed with the assistance of independent appraisals or various valuation techniques including Black-Scholes and, where the foregoing have not yet been completed or are not available, industry data and trends and by reference to relevant market rates and transactions. The estimates and assumptions are inherently subject to significant uncertainties and contingencies beyond the control of the Company. Accordingly, the Company cannot provide assurance that the estimates, assumptions, and values reflected in the valuations will be realized, and actual results could vary materially. Any adjustments to the recorded fair values of these assets and liabilities may impact the amount of recorded goodwill.

Property, Plant and Equipment Property and equipment is recorded at cost less accumulated depreciation, which was provided on the straight-line method over the estimated useful lives of the assets. Cost includes major expenditures for improvements and replacements which extend useful lives or increase capacity of the assets as well as expenditures necessary to place assets into readiness for use. Expenditures for maintenance and repairs are expensed as incurred. The estimated useful lives of property and equipment are as follows: network equipment 5 to 8 years, fiber optic and submarine cable 8 to 25 years, furniture and equipment 5 years, leasehold improvements and leased equipment shorter of lease or useful life. In accordance with ASC No. 350, Intangible Goodwill and Other, costs for internal use software that were incurred in the preliminary project stage and in the post-implementation stage are expensed as incurred. Costs incurred during the application development stage were capitalized and amortized over the estimated useful life of the software.

New Accounting Pronouncements

From time to time, new accounting pronouncements are issued by FASB and are adopted by the Company as of the specified effective date. Unless otherwise discussed, the Company believes that the impact of recently issued accounting pronouncements that are not discussed will not have a material impact on consolidated financial position, results of operations, and cash flows, or do not apply to our operations.

10

Accounting Standards Update No. 2010-12 Income Taxes (Topic 740): Accounting for Certain Tax effects of the 2010 Health Care Reform Acts (ASU No. 2010-12)

In April 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-12, *Income Taxes (Topic 740): Accounting for Certain Tax Effects of the 2010 Health Care Reform Acts*, which contains an SEC staff announcement addressing a potential accounting issue specific to companies with period ends between March 23 and March 30, 2010. On March 30, 2010, the President signed the Health Care and Education Reconciliation Act of 2010, which is a reconciliation bill that amends the Patient Protection and Affordable Care Act that was signed by the President on March 23, 2010 (collectively the Acts). This guidance is effective for interim and annual reporting periods beginning after December 15, 2009. The adoption of this guidance did not have an impact on the Company s condensed consolidated financial statements.

Accounting Standards Update No. 2010-06 Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements (ASU No. 2010-06)

We adopted certain provisions of ASU No. 2010-06 in the first quarter of 2010. These provisions of ASU No. 2010-06 amended Subtopic 820-10, Fair Value Measurements and Disclosures Overall, by requiring additional disclosures for transfers in and out of Level 1 and Level 2 fair value measurements, as well as requiring fair value measurement disclosures for each class of assets and liabilities, a subset of the captions disclosed in our Consolidated Balance Sheets. The adoption did not have a material impact on our financial statements or our disclosures, as we did not have any transfers between Level 1 and Level 2 fair value measurements and did not have material classes of assets and liabilities that required additional disclosure.

Certain provisions of ASU No. 2010-06 are effective for fiscal years beginning after December 15, 2010, which for us will be our 2011 first quarter. These provisions of ASU No. 2010-06, which amended Subtopic 820-10, will require us to present as separate line items all purchases, sales, issuances, and settlements of financial instruments valued using significant unobservable inputs (Level 3) in the reconciliation for fair value measurements, whereas currently these are presented in aggregate as one line item. Although this may change the appearance of our reconciliation, we do not believe the adoption will have a material impact on our financial statements or disclosures.

Accounting Standards Update No. 2010-09 Subsequent Events (Topic 855): Amendments to Certain Recognition and Disclosure Requirements (ASU No. 2010-09)

We adopted ASU No. 2010-09 in the first quarter of 2010. ASU No. 2010-09 amended Subtopic 855-10, Subsequent Events Overall by removing the requirement for a United States Securities and Exchange Commission (SEC) registrant to disclose a date, in both issued and revised financial statements, through which that filer had evaluated subsequent events. Accordingly, we removed the related disclosure from Footnote No. 1, Basis of Presentation. The adoption did not have a material impact on our financial statements.

Accounting Standards Update No. 2009-17 Consolidations (Topic 810): Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities (ASU No. 2009-17)

We adopted ASU No. 2009-17 in the first quarter of 2010. The provisions of ASU No. 2009-17 replace the quantitative-based risks and rewards calculation for determining which reporting entity, if any, has a controlling financial interest in a variable interest entity (VIE) with an approach focused on identifying which reporting entity has the power to direct the activities of a variable interest entity that most significantly impacts the entity s economic performance and (1) the obligation to absorb losses of the entity or (2) the right to receive benefits from the entity. An approach that is expected to be primarily qualitative will be more effective for identifying which reporting entity has a controlling financial interest in a variable interest entity. In addition, ASU No. 2009-17 amends the Consolidation Topic of the ASC regarding when and how to determine, or re-determine,

11

Table of Contents

whether an entity is a VIE, which could require consolidation. Furthermore, ASU No. 2009-17 requires ongoing assessments of whether an entity is the primary beneficiary of a VIE. The provisions in this update also require additional disclosures about a reporting entity s involvement in variable interest entities, which will enhance the information provided to users of financial statements. The adoption of this standard did not have an impact on the Company s financial position, results of operations, cash flows, or comprehensive income.

Accounting Standards Update No. 2009-13 Revenue Recognition (Topic 605): Multiple-Deliverable Revenue Arrangements (ASU 2009-13)

In October 2009, the FASB issued ASU No. 2009-13, Revenue Recognition (Topic 605) *Multiple-Deliverable Revenue Arrangements*: a consensus of the FASB EITF (ASU 2009-13). ASU 2009-13 establishes a selling-price hierarchy for determining the selling price of each element within a multiple-deliverable arrangement. Specifically, the selling price assigned to each deliverable is to be based on vendor-specific objective evidence (VSOE), if available, third-party evidence, if VSOE is unavailable, and estimated selling price if neither VSOE nor third-party evidence is available. In addition, ASU 2009-13 eliminates the residual method of allocating arrangement consideration and instead requires allocation using the relative selling price method. ASU 2009-13 is effective for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. Early adoption is permitted at the beginning of a company s fiscal year. The Company plans to implement this guidance on January 1, 2011 and is currently evaluating the potential impact of ASU 2009-13 on the Company s financial statements.

3. FRESH START ACCOUNTING

On July 1, 2009, the Company adopted fresh-start accounting in accordance with ASC No. 852, Reorganizations . Fresh-start accounting results in the Company becoming a new entity for financial reporting purposes. Accordingly, the Successor Company s consolidated financial statements are not comparable to consolidated financial statements of the Predecessor Company.

Under ASC No. 852, the Successor Company must determine a value to be assigned to the equity of the emerging company as of the date of adoption of fresh-start accounting. To facilitate this calculation the Company first determined the enterprise value of the Successor Company. The valuation methods included (i) a discounted cash flow analysis, considering a range of the weighted average cost of capital between 14.0% and 16.0% and multiples of projected earnings of between 4.5 and 5.0 times for its terminal value, and (ii) a market multiples analysis. This analysis resulted in an estimated enterprise value of between \$320 million and \$360 million, and with the midpoint of \$340 million chosen for purposes of applying fresh-start accounting.

The estimated enterprise value, and corresponding equity value, is highly dependent upon achieving the future financial results set forth in the financial projections included in the Company s Plan, as filed with the Bankruptcy Court. These projections were limited by the information available to the Company as of the date of the preparation of the projections and reflected numerous assumptions concerning anticipated future performance and prevailing and anticipated market and economic conditions that were and continue to be beyond the Company s control and that may not materialize. Projections are inherently subject to uncertainties and to a wide variety of significant business, economic and competitive risks. Therefore variations from the projections may be material.

Fresh-start accounting reflects the value of the Company as determined in the confirmed Plan. Under fresh-start accounting, the Company s asset values are remeasured and allocated in conformity with ASC No. 805, Business Combinations. The excess of reorganization value over the fair value of tangible and identifiable intangible assets is recorded as goodwill in the accompanying consolidated balance sheet. Fresh-start accounting also requires that all liabilities, other than deferred taxes and pension and other postretirement benefit obligations, should be stated at fair value.

Estimates of fair value included in the Successor Company financial statements, in conformity with ASC No. 820, Fair Value Measurements, represent the Company s best estimates and valuations developed with the

12

Table of Contents

assistance of independent appraisers and, where the foregoing have not yet been completed or are not available, represent industry data and trends by reference to relevant market rates and transactions. The foregoing estimates and assumptions are inherently subject to significant uncertainties and contingencies beyond the control of the Company. Accordingly, the Company cannot provide assurance that the estimates, assumptions, and values reflected in the valuations will be realized, and actual results could vary materially. In accordance with ASC No. 805, the allocation of the reorganization value is subject to additional adjustment until the Company has completed its analysis, but not to exceed one year after emergence from bankruptcy. As of March 31, 2010 the Company had completed the valuation of its assets and liabilities and has completed its adoption of fresh-start accounting in accordance with ASC No. 852, Reorganizations.

The following fresh-start Consolidated Condensed Balance Sheet presents the financial effects on the Company of the implementation of the Plan and the adoption of fresh-start accounting.

13

The effects of the Plan and fresh-start reporting on the Company s Consolidated Condensed Balance Sheet are as follows:

Notes to Plan of Reorganization and fresh-start accounting adjustments:

- (a) This adjustment reflects the discharge of \$451.1 million of liabilities subject to compromise (see Liabilities Subject to Compromise below), of which includes \$123.5 million Senior Subordinated Secured Notes reclassed to long-term obligations, in accordance with the terms of the Plan and the issuance of 4.8 million shares of Successor Company common stock to the holders of each of the Senior Subordinated Secured Notes and the Holding Senior Notes.
- (b) To record the issuance of Contingent Value Rights to the holders of the Old Common Stock.
- (c) To record the cancellation of the Old Common Stock.
- (d) To record assets and liabilities at their estimated fair values per fresh-start accounting. These amounts include adjustments to the estimated fair values from what was originally reported in the quarter ending September 30, 2009.
- (e) To reclass Term Loan from current portion of long-term obligations to long-term obligations and record the issuance of the Senior Subordinated Secured Notes.
- (f) To reset additional paid-in capital, accumulated other comprehensive loss and accumulated deficit to zero.
- (g) To reclass long-term portion of the Term Loan to long-term obligations.
- (h) To record the deferred tax attributes related to fresh-start accounting.

 In the first nine months of 2010, the Company made no further fresh-start accounting adjustments to the fair value of its assets or liabilities.

4. GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill reflects the excess of the reorganization value of the Successor over the fair value of tangible and identifiable intangible assets as determined upon the adoption of fresh-start accounting. The Company recorded goodwill of \$61.3 million upon emergence from bankruptcy as well as intangible assets of \$184.8 million, which includes \$81.6 million of indefinite-lived trade names, \$99.2 million of amortizable customer relationships, and \$4.0 million of amortizable trade names.

Generally accepted accounting principles in the United States require the Company to perform a goodwill impairment test, a two-step test, annually and more frequently when negative conditions or a triggering event arise. The Company completes its annual goodwill impairment test using October 1 as the measurement date for each of its reporting units.

In step one, the estimated fair value of each reporting unit is compared to its carrying value. The Company estimates the fair values of each reporting unit by a combination of (i) estimation of the discounted cash flows of each of the reporting units based on projected earnings in the future (the income approach) and (ii) a comparative analysis of revenue and EBITDA multiples of public companies in similar markets (the market approach). If there is a deficiency (the estimated fair value of a reporting unit is less than its carrying value), a step two test is required. In step two, the amount of any goodwill impairment is measured by comparing the implied fair value of the reporting unit is goodwill to the carrying value of goodwill, with the resulting impairment reflected in operations. The implied fair value is determined in the same manner as the amount

of goodwill recognized in a business combination.

Estimating the fair value of a reporting unit requires various assumptions including projections of future cash flows, perpetual growth rates and discount rates. The assumptions about future cash flows and growth rates are based on management s assessment of a number of factors including the reporting unit s recent performance against budget, performance in the market that the reporting unit serves, as well as industry and general

15

Table of Contents

economic data from third party sources. Discount rate assumptions are based on an assessment of the risk inherent in those future cash flows. Changes to the underlying businesses could affect the future cash flows, which in turn could affect the fair value of the reporting unit.

During the three months ended September 30, 2010, the Company and its Board of Directors ratified a plan to proceed with the disposition of its European retail operations; see Note 11, *Discontinued Operations*. This triggering event prompted the Company to perform a goodwill impairment test, a two-step test, for the Europe reporting unit. Based on the results of the step one test, the Company determined that the carrying value of the Europe reporting unit was in excess of its respective fair value and a step two test was required for the reporting unit.

In completing the step two test to determine the implied fair value of goodwill and therefore the amount of impairment, management first estimated the fair value of the tangible and intangible assets and liabilities. Based on the testing performed, the Company determined that the carrying value of goodwill exceeded its implied fair value for the Europe reporting unit and recorded a goodwill impairment charge of \$1.4 million. The impairment charge is included in the line item Loss from Discontinued Operations, net of tax, on the Company s Statement of Operations.

The primary driver for the decline in the estimated fair value of the Europe reporting unit compared to the prior year is the decline in its overall outlook stemming from its poor performance.

In addition, the Company evaluated the European trade name and long-lived assets, which primarily consisted of the network equipment and customer relationships, for impairment. In performing the impairment test for the European trade name and long-lived assets, the Company estimated the fair value less cost to sell for the asset groups based on executed and pending purchase offers and compared that to the carrying value of the asset groups. The company recorded a total of \$4.7 million impairment charges; \$4.2 million related to the European trade name, \$0.4 million related to customer relationships and \$0.1 million related to long-lived assets during the three months ended September 30, 2010. The impairment charge is included in the line item *Loss from Discontinued Operations, net of tax,* on the Company s Statement of Operations.

The intangible assets not subject to amortization consisted of the following (in thousands):

| | September 30 2010 | December 31, 2009 |
|-------------|----------------------|-------------------|
| Trade names | \$ 76,200 | \$ 81,372 |
| Goodwill | \$ 62,740 | \$ 64,220 |

The Company allocated goodwill to all of its reporting units as part of fresh-start accounting, excluding the wholesale reporting unit which had nominal value relative to the total value of the Company. The changes in the carrying amount of trade names and goodwill, for continuing operations and assets held for sale, combined, by reporting unit for the nine months ended September 30, 2010 are as follows (in thousands):

Goodwill

| | Uni | ted States | Canada | Australia | Europe | Brazil | Total |

The Company s other intangible assets consist of trade names and customer relationships; \$5.8 million of the customer relationships were classified as held for sale as of September 30, 2010. Intangible assets subject to amortization, including those classified as held for sale, consisted of the following (in thousands):

| | S | September 30, 2010 | | | | | December 31, 2009 | | | |
|------------------------|-------------------|---------------------------|------------|-----------|-------------------|----------|-------------------|-----------|--|--|
| | Gross Carrying | | cumulated | Net Book | Gross Carrying | | cumulated | Net Book | | |

Amortization expense for trade names and customer relationships for the three months and nine months ended September 30, 2010 was \$5.9 million and \$17.7 million, respectively.

Amortization expense for trade names and customer relationships for Successor s three months ended September 30, 2009 was \$7.0 million.

The Company expects amortization expense for trade names and customer relationships for the remainder of 2010, the years ended December 31, 2011, 2012, 2013, 2014, and thereafter to be approximately \$5.5 million, \$17.5 million, \$12.3 million, \$9.0 million, \$6.7 million and \$23.4 million, respectively. The customer relationships identified above as held for sale will not be amortized while they are classified as such.

5. LONG-TERM OBLIGATIONS

Long-term obligations consisted of the following (in thousands):

| | September 30, 2010 | December 31, 2009 |
|--|-----------------------|----------------------|
| Obligations under capital leases and other | \$ 1,915 | \$ 3,178 |
| Leased fiber capacity | | 2,809 |
| Senior secured notes | 130,000 | 130,000 |
| Senior subordinated secured notes | 114,015 | 123,472 |
| | | |
| Subtotal | 245,930 | 259,459 |

| Original issue discount on senior secured notes | (1,821) | (1,943) |
|---|--------------------|--------------------|
| Subtotal Less: Current portion of long-term obligations | 244,109 (1,162) | 257,516 (4,274) |
| Total long-term obligations | \$ 242,947 | \$ 253,242 |

The following table reflects the contractual payments of principal and interest for the Company s long-term obligations as of September 30, 2010 as follows:

| Year Ending December 31, | tal Leases l Other | % Senior ured Notes | Sub S | 4% Senior ordinated ecured Notes | | Total |
|---|-----------------------|----------------------------|----------|---|----|-----------|
| 2010 (as of September 30, 2010) | \$ 417 | \$ 8,450 | \$ | 8,124 | \$ | 16,991 |
| 2011 | 1,218 | 16,900 | | 16,247 | | 34,365 |
| 2012 | 309 | 16,900 | | 16,247 | | 33,456 |
| 2013 | 87 | 16,900 | | 122,139 | | 139,126 |
| 2014 | 4 | 16,900 | | | | 16,904 |
| Thereafter | | 163,847 | | | | 163,847 |
| Total Minimum Principal & Interest Payments | 2,035 | 239,897 | | 162,757 | | 404,689 |
| Less: Amount Representing Interest | (120) | (109,897) | | (48,742) | (| (158,759) |
| Total Long Term Obligations | \$ 1,915 | \$ 130,000 | \$ | 114,015 | \$ | 245,930 |

The foregoing table assumes that the 14 \(^1/4\)% Senior Subordinated Secured Notes are refinanced before January 21, 2013. In the event the 14 \(^1/4\)% Senior Secured Notes have not been refinanced in accordance with the terms of the 13\% Senior Secured Notes indenture by January 21, 2013, then the Issuers will be required to redeem the full principal of the 13\% Senior Secured Notes at a price equal to the then applicable optional redemption price on such date. In addition, the table assumes that the holders of 13\% Senior Secured Notes do not accept any Excess Cash Flow Offer to purchase 13\% Senior Secured Notes. In this regard, the Company must extend an offer annually to the holders of the 13\% Senior Secured Notes to repurchase an applicable amount, (equal to 50\% of Excess Cash Flow), of the 13\% Senior Secured Notes at par, in the event the Company and certain subsidiaries have excess cash flow for any fiscal year commencing with the fiscal year ending December 31, 2010.

In May 2010, the Company paid \$9.4 million in cash and retired \$9.5 million in principal of its 14 \(^{1}/4\%\) Senior Subordinated Secured Notes. As a result, the Company recognized a \$0.1 million gain from the early extinguishment of debt in its statement of operations for the three months ended June 30, 2010.

6. COMMITMENTS AND CONTINGENCIES

Future minimum lease payments under capital leases and other (Vendor Financing), purchase obligations and non-cancellable operating leases as of September 30, 2010 are as follows (in thousands):

| Year Ending December 31, | Capital Leases and Other | Purchase Obligations | Operating Leases |
|------------------------------------|--------------------------|-------------------------|---------------------|
| 2010 (as of September 30, 2010) | \$ 417 | \$ 8,723 | \$ 4,753 |
| 2011 | 1,218 | 19,903 | 15,151 |
| 2012 | 309 | 6,498 | 13,292 |
| 2013 | 87 | 3,162 | 10,255 |
| 2014 | 4 | 1,162 | 5,440 |
| Thereafter | | 54 | 16,237 |
| Total minimum lease payments | 2,035 | 39,502 | 65,128 |
| Less: Amount representing interest | (120) | | |

\$ 1,915 \$ 39,502 \$ 65,128

The Company has contractual obligations to utilize an external vendor for certain customer support functions and to utilize network facilities from certain carriers with terms greater than one year. Generally, the Company does not purchase or commit to purchase quantities in excess of normal usage or amounts that cannot be used within the contract term or at rates below or above market value.

18

Successor

Purchases made under purchase commitments were \$8.7 million and \$24.1 million, respectively, for the three and nine months ended September 30, 2010.

Purchases made under purchase commitments were \$7.0 for the three months ended September 30, 2009.

Rent expense under operating leases was \$3.8 million and \$11.3 million, respectively, for the three and nine months ended September 30, 2010.

Rent expense under operating leases was \$3.5 million for the three months ended September 30, 2009.

Predecessor

Purchases made under purchase commitments were \$12.8 million for the six months ended July 1, 2009.

Rent expense under operating leases was \$6.4 million for the six months ended July 1, 2009.

Litigation

Group and its subsidiaries are subject to claims, legal proceedings and potential regulatory actions that arise in the ordinary course of its business. Each of these matters is subject to various uncertainties, and it is possible that some of these matters may be decided unfavorably. The Company believes that any aggregate liability that may result from the resolution of these matters will not have a material adverse effect on the Company s consolidated financial position, results of operations or cash flows.

7. SHARE-BASED COMPENSATION

Successor

The Management Compensation Plan provides for the grant of incentive stock options, nonqualified stock options, restricted stock, restricted stock units, and other stock-based or cash-based performance awards (collectively, awards).

Restricted Stock Units (RSU)

For the three months ended September 30, 2010, the Company s stock compensation expense related to the RSU was fully offset by credits related to forfeitures and cancellations of RSU awards due to termination of employees.

For the nine months ended September 30, 2010, the Company recognized \$0.2 million of stock compensation expense related to the RSU.

Stock Options

A summary of the Company s stock option activity during the nine months ended September 30, 2010 is as follows:

| | Nine Months September 3 Shares | 80, 20 We Av Ex | |
|--------------------------------|--------------------------------------|--------------------------|-------|
| Outstanding December 31, 2009 | 478,199 | \$ | 12.22 |
| Granted | 30,000 | \$ | 7.60 |
| Exercised | | \$ | |
| Forfeitures | (205,587) | \$ | 12.22 |
| Outstanding September 30, 2010 | 302,612 | \$ | 11.76 |
| Eligible for exercise | 214,039 | \$ | 12.00 |

The following table summarizes information about the Company s stock options outstanding at September 30, 2010:

| | | Options Out Weighted | standing | | | Options Exe Weighted | ercisable | |
|------------------------|----------------------|-------------------------|---------------------|--------------------|----------------------|-------------------------|---------------------|--------------------|
| | | Average Remaining | Weighted Average | | | Average Remaining | Weighted Average | |
| Range of Option Prices | Total Outstanding | Life in Years | Exercise Price | Intrinsic Value | Total Exercisable | Life in Years | Exercise Price | Intrinsic Value |
| \$7.60 \$12.22 | 302,612 | 8.86 | \$ 11.76 | \$ | 214.039 | 8.80 | \$ 12.00 | \$ |

For Emergence Performance Option and RSU compensation expense calculation, the Company assumed that it will meet the specified Adjusted EBITDA Target in 2010; therefore, according to the Plan, the remaining Performance Option and RSUs will vest in 2010.

As of September 30, 2010, the Company had 0.2 million unvested awards outstanding of which \$0.1 million of compensation expense is expected to be recognized over the weighted average remaining period of 0.8 years.

The number of unvested awards expected to vest is 0.2 million shares, with a weighted average remaining life of 8.9 years, a weighted average exercise price of \$11.79, and an intrinsic value of \$0.

Predecessor

Under the Plan of Reorganization, all stock options granted under the Predecessor s Equity Incentive Plan were cancelled as of July 1, 2009. The Predecessor Company recorded \$64 thousand of stock-based compensation expenses for the six months ended July 1, 2009, due to the accelerated recognition of the cancelled options.

8. INCOME TAXES

The Company conducts business globally, and as a result, the Company or one or more of its subsidiaries files income tax returns in the United States federal jurisdiction and various state and foreign jurisdictions. In the normal course of business we are subject to examination by taxing authorities throughout the world.

The following table summarizes the open tax years for each major jurisdiction:

| Jurisdiction | Open Tax Years | | | | | |
|-----------------------|-----------------|--|--|--|--|--|
| United States Federal | 2000, 2002 2009 | | | | | |
| Australia | 2002 2009 | | | | | |
| Canada | 2003 2009 | | | | | |
| United Kingdom | 2004 2009 | | | | | |
| Netherlands | 2007 2009 | | | | | |

The Company is currently under examination in Canada and certain other non-material foreign tax jurisdictions not listed above, none of which are individually material.

The Company adopted the uncertain tax position related provisions of ASC No. 740, Income Taxes, on January 1, 2007. It is expected that the amount of unrecognized tax benefits, reflected in the Company s financial statements, will change in the next twelve months; however, the Company does not expect the change to have a significant impact on the results of operations or the financial position of the Company. During the three months ended September 30, 2010, the Company recorded \$2.0 million of gross unrecognized tax benefit which includes \$0.1 million of unrecognized tax benefit which impacted the rate including \$0.1 of penalties and interest. As of September 30, 2010, the gross unrecognized tax benefit on the balance sheet was \$91.8 million.

The Company monitors actual results and updated projections of our subsidiaries on a quarterly basis to determine the appropriateness of valuation allowance reserves on deferred tax assets. When and if the Company determines that it is more likely than not that the deferred tax asset balances a subsidiary or a tax consolidated group of subsidiaries would be recoverable, the Company will release the related valuation allowance reserve. During the quarter ending September 30, 2010 the Company determined that Australian consolidated tax group of subsidiaries had enough positive factors that it was more likely than not that the net deferred tax asset would be recoverable and released the valuation allowance on all non capital items in the deferred tax inventory. The company did not release valuation reserves on the capital items as the Company currently does not have sufficient capital gain sources or projected sources of capital gain items to justify a release of this portion of the tax deferred asset. The net benefit of the release during the quarter ending September 30, 2010 was \$3.3 million.

Pursuant to Section 382 of the Internal Revenue Code, the Company believes that it underwent an ownership change for tax purposes (i.e., a more than 50% change in stock ownership) on the July 1, 2009 emergence date. As a result, the use of any of the Company s federal and state net operating loss carryforwards and tax credits generated prior to the ownership change that are not reduced due to attribute reduction will be subject to an annual limitation under IRC Section 382(1)(6). The federal limitation is approximately \$1.7 million.

The Company has reviewed 13-G filings concerning Company common stock, as filed with the United States Securities Exchange Commission, subsequent to emergence from bankruptcy, and the Company believes that a change in ownership has not occurred during this period of July 1, 2009 to September 30, 2010.

21

9. FAIR VALUE OF FINANCIAL INSTRUMENTS AND DERIVATIVES

In 2008 and 2009, the Company adopted the provisions of ASC No. 820, Fair Value Measurements. The valuation techniques required by ASC No. 820 are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. These two types of inputs create the following fair value hierarchy:

Level 1: Quoted prices for identical instruments in active markets.

Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3: Significant inputs to the valuation model are unobservable.

The carrying amounts reported in the consolidated balance sheets for cash and cash equivalents, restricted cash, accounts receivable and accounts payable approximate fair value due to relatively short periods to maturity. The estimated aggregate fair value of the Successor Company s 13% Senior Secured Notes and 14/4% Senior Subordinated Secured Notes, based on quoted market prices, was \$241.4 million and \$244.7 million at September 30, 2010 and December 31, 2009, respectively.

See table below for summary of the Company s financial instruments accounted for at fair value on a recurring basis:

| | September 30, | | Quoted prices in Active Markets for Identical Assets (Level | Signifi | s of September 3 icant Other vable Inputs | 50, 2010, using: Significant Unobservable Inputs | |
|-------------------------------|---------------|-------|---|---------|---|--|--|
| | - | 2010 | 1) | | Level 2) | (Level 3) | |
| Liabilities: | | | | | | | |
| Contingent Value Rights (CVR) | \$ | 7,754 | | \$ | 7,754 | | |
| Total | \$ | 7,754 | | \$ | 7,754 | | |

The CVRs are marked to fair value at each balance sheet date. The change in value is reflected in our Statements of Operations. Estimates of fair value represent the Company s best estimates based on a Black-Scholes pricing model. During the three months and nine months ended September 30, 2010, the Company recognized \$33 thousand and \$2.4 million, respectively, of expense as a result of marking the CVRs to their fair value.

10. OPERATING SEGMENT AND RELATED INFORMATION

The Company has five reportable operating segments based on management s organization of the enterprise into geographic areas United States, Canada, Australia, Brazil and the wholesale business from the United States and Europe managed as a separate global segment. The Company evaluates the performance of its segments and allocates resources to them based upon net revenue and income (loss) from operations. The accounting policies of the segments are the same as those described in the summary of significant accounting policies. Corporate assets, capital expenditures and property and equipment-net are included in the United States segment, while corporate expenses are presented separately in Income (loss) from operations. The wholesale business assets are indistinguishable from the respective geographic segments. Therefore, any reporting related to the wholesale business for assets, capital expenditures or other balance sheet items is impractical.

During the third quarter of 2010 the company discontinued its Europe segment, which is also known as European retail operations and has presented the results of the Europe segment as discontinued operations. Accordingly the Europe segment has been excluded, where appropriate, from segment reporting for all periods presented, see Note 11, *Discontinued Operations*, for further information.

Summary information with respect to the Company s operating segments is as follows (in thousands):

| | | ree Months Ended otember 30, 2010 | | Three Months Ended September 30, 2009 | |
|--|----|--|----|--|--|

11. DISCONTINUED OPERATIONS

In the third quarter 2010, the Company sold its Belgian operations for a sale price of \$1.3 million, as a result, the Company recorded a \$40 thousand gain from sale of these retail operations during the third quarter 2010. Also during the third quarter of 2010 the Company committed to dispose of and is actively soliciting the disposition of its remaining European retail operations. Accordingly, the Company presented these European retail operations as discontinued operations and the related assets and liabilities as held for sale as of September 30, 2010. In October 2010 the Company sold its United Kingdom retail operations customer base and certain of its assets, the sale price was approximately \$6.6 million, and sold its Italian retail operations for approximately \$0.2 million. The Company intends to dispose of and is actively soliciting the disposition of its remaining European retail operations. See Note 15, Subsequent Events, for additional information.

In the second quarter 2010, the Company sold certain assets of its Spain retail operations. The sale price was \$0.3 million. The Company recorded a \$0.2 million gain from sale of these retail operations during the second quarter 2010.

In the first quarter of 2010, the Company initiated the sale of certain assets of its retail operations in Spain, which was completed in the second quarter 2010, and the sale of its European agent serviced retail operations.

In the first quarter 2009, the Company sold certain assets of its Japan retail operations. The sale price was \$0.4 million (40 million Japanese yen), which included \$0.2 million (20 million Japanese yen) in cash and \$0.2 million (20 million Japanese yen) receivable. The Company recorded a \$0.3 million gain from sale of assets.

In the second quarter 2008, the Company determined it would sell its German retail operations. However, buyers were not found; therefore the Company decided to cease operations of the German retail business during the first quarter of 2009.

As a result of these events, the Company s consolidated financial statements for all periods presented reflect the European retail operations which includes operations in the United Kingdom, France, Belgium, Italy and the Netherlands, and European agent serviced retail operations, the Japan retail operations and German retail operations as discontinued operations. Accordingly, revenue, costs, and expenses of the discontinued operations have been excluded from the respective captions in the consolidated statements of operations. The net operating results of the discontinued operations have been reported, net of applicable income taxes as loss from discontinued operations.

Summarized operating results of the discontinued operations are as follows (in thousands):

| | Three Months Ended September 30, 2010 | | ee Months Ended tember 30, 2009 |
|--|--|----|--|
| Net revenue | \$ 11,027 | \$ | 13,001 |

12. BASIC AND DILUTED INCOME (LOSS) PER COMMON SHARE

Basic income (loss) per common share is calculated by dividing income (loss) attributable to common stockholders by the weighted average common shares outstanding during the period. Diluted income per common share adjusts basic income per common share for the effects of potentially dilutive common share equivalents.

Successor

Potentially dilutive common shares for Successor include the dilutive effects of common shares issuable through stock options, restricted stock units, stock warrants and contingent value rights using the treasury stock method.

For Successor s three months and nine months ended September 30, 2010, the following could potentially dilute income per common share in the future but was excluded from the calculation of diluted income per common share due to its antidilutive effect:

0.4 million shares issuable upon exercise of stock options and RSUs,

4.5 million shares issuable upon exercise of stock warrants, and

2.7 million shares issuable upon exercise of CVRs.

For Successor s three months and nine months ended September 30, 2009, the following could potentially dilute income per common share in the future but was excluded from the calculation of diluted income per common share due to its antidilutive effect:

0.9 million shares issuable upon exercise of stock options and RSUs,

4.5 million shares issuable upon exercise of stock warrants, and

2.7 million shares issuable upon exercise of CVRs.

27

Predecessor

Potentially dilutive common shares for Predecessor primarily included the dilutive effects of common shares issuable through stock options computed using the treasury stock method and the dilutive effects of shares issuable upon conversion of its 5% Exchangeable Senior Notes, the Step Up Convertible Subordinated Debentures, the 3 3/4% Convertible Senior Notes and the 2000 Convertible Subordinated Debentures.

For the six months ended July 1, 2009, the following could potentially dilute income per common share in the future but were excluded from the calculation of diluted income per common share due to their antidilutive effect:

7.8 million shares issuable upon exercise of stock options.

A reconciliation of basic income per common share to diluted income per common share is below (in thousands, except per share amounts):

13. REORGANIZATION ITEMS, NET

Reorganization items, net, represents amounts incurred, for both continuing and discontinued operations combined, as a direct result of the bankruptcy filings and is presented separately in the Consolidated Condensed Statements of Operations. The following describes the components of reorganization items, net (in thousands):

| | Three Mo | Three Months Ended | | | | |
|---------------------------|-----------------------|--------------------|-------------------|--|--|--|
| | September 30, 2010 | • | ember 30, 2009 | | | |
| Professional Fees | \$ | \$ | (307) | | | |
| Reorganization Items, net | \$ | \$ | (307) | | | |

| | Successor | | | Predecessor | | |
|--|-------------------------|--------|--------------------------|---------------------|--|--|
| | Nine Months Ended | M I | Three Ionths Ended | Six Months Ended | | |
| | September 30, 2010 | | ember 30, 2009 | July 1, 2009 | | |
| Professional Fees | \$ 1 | \$ | (307) | \$ (12,067) | | |
| Gain on Extinguishment of debt | | | | 243,185 | | |
| Revaluation of assets and liabilities | | | | 188,612 | | |
| Debt Premium, Discount and Deferred Financing Costs Write-off | | | | (91) | | |
| Reversal of Future Interest Payments Recorded as Long Term Obligations | | | | 20,453 | | |
| Interest Income | | | | 2 | | |
| Reorganization Items, net | \$ 1 | \$ | (307) | \$ 440,094 | | |

Professional fees include financial, legal and other services directly associated with the reorganization process.

Successor

Payments for reorganization expense for the three months ended September 30, 2009 were \$6.1 million.

Predecessor

Payments for reorganization expense for the six months ended July 1, 2009 were \$4.6 million. In accordance with ASC No. 852, the Company ceased amortization of debt premiums, discounts and deferred financing costs related to the liabilities subject to compromise on the Petition Date. The \$3.5 million of unamortized debt premiums and discounts has been written off and recorded as a gain, offset by the expensing of \$3.6 million of unamortized deferred financing costs, as an adjustment to the net carrying value of the pre-petition debt. Long term debt was further reduced by \$20.5 million of future interest payable that previously had been recorded as a portion of long-term obligations for the 14 1/4% Senior Subordinated Secured Notes and 5% Exchangeable Senior Notes as the issuance of these notes had been deemed troubled debt restructurings. Upon emergence from bankruptcy, Predecessor debt in the amount of \$439.6 million was written off along with the accrued interest related to this debt in the amount of \$11.5 million.

14. GUARANTOR/NON-GUARANTOR CONDENSED CONSOLIDATED FINANCIAL INFORMATION

Primus Telecommunications IHC, Inc. s 14/4% Senior Subordinated Secured Notes were fully, unconditionally, jointly and severally guaranteed by Group on a senior basis and by Primus Telecommunications Holding, Inc., (Holding), Primus Telecommunications, Inc., TresCom International Inc., Least Cost Routing, Inc., TresCom U.S.A., Inc., iPRIMUS USA, Inc., and iPRIMUS.com, Inc., all 100% indirectly owned subsidiaries of Group (collectively, the Other Guarantors). Group has a 100% ownership in Holding and no direct subsidiaries other than Holding.

On the Effective Date, IHC, each of the Grantors party and U.S. Bank National Association, as collateral agent, entered into a First Amendment to the Collateral Agreement (the Amended Collateral Agreement), to provide that the obligations of both IHC and Primus Telecommunications International, Inc. (PTII), an indirect wholly owned subsidiary of Group, were secured by PTII s assets, including 65% of the voting stock of foreign subsidiaries owned by PTII. In addition, on the Effective Date, Group and Holding entered into an Assumption Agreement in favor of U.S. Bank National Association, as collateral agent, pursuant to which each of Group and Holding became party to the Amended Collateral Agreement. As a result, Group and Holding s existing guarantees of the 14/4% Senior Subordinated Secured Notes are secured by a lien on the property of Group and Holding, respectively.

Table of Contents

Accordingly, the following consolidating condensed financial information for the three months ended September 30, 2010 and 2009 for Successor, for the nine months ended September 30, 2010 for Successor and the three months and six months ended July 1, 2009 for Predecessor are included for (a) Group on a stand-alone basis; (b) Primus Telecommunications IHC, Inc. (IHC) on a stand-alone basis; (c) the Other Guarantor subsidiaries on a combined basis and (e) Group on a consolidated basis. The plan and fresh-start accounting adjustments reflected in Predecessor s Consolidated Condensed Statements of Operations on July 1, 2009 are not presented separately in this presentation.

Investments in subsidiaries are accounted for using the equity method for purposes of the consolidating presentation. The principal elimination entries eliminate investments in subsidiaries, intercompany balances and intercompany transactions.

15. SUBSEQUENT EVENTS

During October 2010, the Company completed the sale of its United Kingdom customer base and certain of its assets and Italian retail operations for sales prices of approximately \$6.6 million and \$0.2 million, respectively. These operations were presented as discontinued operations as of September 30, 2010, see Note 11 Discontinued Operations .

The Company announced on November 11, 2010, that it has entered into a definitive merger agreement to acquire Arbinet Corporation, a leading provider of wholesale telecom exchange services to carriers, in an all-stock transaction. The Boards of Directors of both companies have approved the merger, which is subject to regulatory approvals, the approval of the stockholders of both companies and certain other conditions. One of the Company s and Arbinet s principal stockholders has entered into share support agreements to vote its shares of both the Company and Arbinet in favor of the merger. The transaction is expected to close in the first quarter of 2011.

ITEM 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS Introduction and Overview of Operations

We are a global provider of advanced facilities-based communication solutions, including traditional and internet based voice, Internet broadband, data, mobile, collocation/hosting, and outsourced managed services to business and residential customers in the United States, Canada, Australia, Brazil, the United Kingdom and certain countries in western Europe, and to telecommunications carriers worldwide. During the three months ended September 30, 2010, the Company and its Board of Directors ratified a plan to proceed with the disposition of its European retail operations due to a decline in its outlook which stems from its poor performance; see Note 11, Discontinued Operations. Accordingly, the Company presented these European retail operations as discontinued operations and the related assets and liabilities as held for sale as of September 30, 2010. We own and operate a global network of next generation IP soft switches, media gateways, hosted IP/SIP platforms, broadband infrastructure, fiber capacity, and data centers located in Canada, Australia, Brazil and the United States. Our primary markets are Australia and Canada where we have deployed significant network infrastructure. We classify our services into three categories: Growth Services, Traditional Services and Wholesale Services. Our focus is on expanding our Growth Services, which includes our broadband, IP-based voice, local, wireless, data and data center services, to fulfill the demand for high quality, competitively priced communications services. This demand is being driven, in part, by the globalization of the world s economies, the global trend toward telecommunications deregulation and the migration of communication traffic to the Internet. We manage our Traditional Services, which includes our domestic and international long-distance voice, prepaid cards, dial-up Internet services and Australian off-network local services, for cash flow generation that we reinvest to develop and market our Growth Services, particularly in our primary markets of Australia and Canada. We provide our wholesale voice termination services to other telecommunications carriers and resellers requiring IP or time-division multiplexing access.

Generally, we price our services competitively with the major carriers and service providers operating in our principal service regions. We seek to generate net revenue through sales and marketing efforts focused on customers with significant communications needs, including small and medium enterprises, multinational corporations, residential customers, and other telecommunications carriers and resellers.

Industry trends have shown that the overall market for domestic and international long-distance voice, prepaid phone cards and dial-up Internet services has declined in favor of Internet-based, wireless and broadband communications. Our challenge concerning net revenue in recent years has been to overcome declines in long-distance voice minutes of use per customer as more customers are using wireless devices and the Internet as alternatives to the use of wireline phones. Also, product substitution (*e.g.*, wireless/Internet for fixed line voice) has resulted in revenue declines in our long-distance voice services. Additionally, we believe that because deregulatory influences have begun to affect telecommunications markets outside the United States, the deregulatory trend is resulting in greater competition from the existing wireline and wireless competitors and from more recent entrants, such as cable companies and companies offering voice over Internet protocol (VoIP), which could continue to adversely affect our net revenue per minute, as well as minutes of use. More recently, adverse global economic conditions have resulted in a contraction of spending by business and residential customers generally which, we believe, has had an adverse affect on our net revenues.

In order to manage our network transmission costs, we pursue a flexible approach with respect to our network capacity. In most instances, we (1) optimize the cost of traffic by using the least expensive cost routing, (2) negotiate lower variable usage based costs with domestic and foreign service providers, (3) negotiate new agreements with foreign incumbent carriers and others which provides lower costs, and (4) continue to expand/reduce the capacity of our network when traffic volumes justify such actions.

Our overall margin may fluctuate based on the relative volumes of international versus domestic long-distance services; carrier services versus business and residential long-distance services; prepaid services versus traditional post-paid voice services; Internet, VoIP and data services versus fixed line voice services; the amount

42

of services that are resold; and the proportion of traffic carried on our network versus resale of other carriers services. Our margin is also affected by customer transfer and migration fees. We generally pay a charge to install and transfer a new customer onto our network and to migrate broadband and local customers. However, installing and migrating customers to our network infrastructure, enables us to increase our margin on such services as compared to resale of services using other carriers networks.

Selling, general and administrative expenses are comprised primarily of salaries and benefits, commissions, occupancy costs, sales and marketing expenses, advertising, professional fees, and other administrative costs. All selling, general and administrative expenses are expensed when incurred. Emphasis on cost containment and the shift of expenditures from non-revenue producing expenses to sales and marketing expenses has been heightened since growth in net revenue has been under pressure.

Recent Developments

Primus announced on November 11, 2010, that it has entered into a definitive merger agreement to acquire Arbinet Corporation, a leading provider of wholesale telecom exchange services to carriers, in an all-stock transaction. The Boards of Directors of both companies have approved the merger, which is subject to regulatory approvals, the approval of the stockholders of both companies and certain other conditions. One of Primus and Arbinet s principal stockholders has entered into share support agreements to vote its shares of both Primus and Arbinet in favor of the merger. The transaction is expected to close in the first quarter of 2011.

Foreign Currency

Foreign currency can have a major impact on our financial results. Currently approximately 85% of our net revenue is derived from sales and operations outside the United States. The reporting currency for our consolidated financial statements is the United States dollar (USD). The local currency of each country is the functional currency for each of our respective entities operating in that country. In the future, we expect to continue to derive the majority of our net revenue and incur a significant portion of our operating costs from outside the United States, and therefore changes in exchange rates have had and may continue to have a significant, and potentially adverse, effect on our results of operations. Our primary risk of loss regarding foreign currency exchange rate risk is caused by fluctuations in the following exchange rates: USD/Canadian dollar (CAD), USD/Australian dollar (AUD), USD/British pound (GBP), USD/Euro (EUR), and USD/Brazilian Real (BRL). Due to the large percentage of our revenue derived outside of the United States, changes in the USD relative to one or more of the foregoing currencies could have an adverse impact on our future results of operations. We have agreements with certain subsidiaries for repayment of a portion of the investments and advances made to these subsidiaries. As we anticipate repayment in the foreseeable future, we recognize the unrealized gains and losses in foreign currency transaction gain (loss) on the consolidated statements of operations. The exposure of our income from operations to fluctuations in foreign currency exchange rates is reduced in part because a majority of the costs that we incur in connection with our foreign operations are also denominated in local currencies.

We are exposed to financial statement gains and losses as a result of translating the operating results and financial position of our international subsidiaries. We translate the local currency statements of operations of our foreign subsidiaries into USD using the average exchange rate during the reporting period. Changes in foreign exchange rates affect the reported profits and losses and cash flows and may distort comparisons from year to year. By way of example, when the USD strengthens compared to the EUR, there could be a negative or positive effect on the reported results for Europe, depending upon whether Europe is operating profitably or at a loss. It takes more profits in EUR to generate the same amount of profits in USD and a greater loss in EUR to generate the same amount of loss in USD. The opposite is also true. For instance, when the USD weakens there is a positive effect on reported profits and a negative effect on the reported losses for Europe.

43

In the three months ended September 30, 2010, as compared to the three months ended September 30, 2009, the USD was weaker on average as compared to the CAD, AUD, and BRL and stronger on average as compared to the GBP and Euro. In the nine months ended September 30, 2010, as compared to the nine months ended September 30, 2009, the USD was weaker on average as compared to the CAD, AUD, EUR and BRL and stronger on average as compared to the GBP. The following tables demonstrate the impact of currency fluctuations on our net revenue for the three months and nine months ended September 30, 2010 and 2009 (in thousands, except percentages):

Critical Accounting Policies

See Management s Discussion and Analysis of Financial Condition and Results of Operations in our Form 10-K for the year ended December 31, 2009 for a detailed discussion of our critical accounting policies. These policies include revenue recognition, determining our allowance for doubtful accounts receivable, accounting for cost of revenue, valuation of long-lived assets and goodwill and accounting for income taxes.

After the emergence from bankruptcy on July 1, 2009 (the Effective Date), the amounts reported on our subsequent financial statements materially changed. We adopted the fresh start provisions of ASC No. 852, which requires that all assets and liabilities except deferred taxes be restated to their fair value. Deferred tax balances have been established as a result of the differences in the basis adjustments from fresh-start accounting. Certain of these fair values differ materially from the values recorded on the Predecessor Consolidated Condensed Balance Sheets. Our emergence from reorganization resulted in a new reporting entity that had no retained earnings or accumulated deficit as of the Effective Date. Additionally, we must also adopt any changes in GAAP that it is otherwise required to adopt within twelve months of such date. For these reasons, our Successor s financial statements are not comparable to our Predecessor s.

No significant changes in our critical accounting policies have occurred since December 31, 2009.

Table includes revenues from discontinued operations which are subject to currency risk.

Financial Presentation Background

July 1, 2009 Emergence From Voluntary Reorganization under Chapter 11 Proceedings. On March 16, 2009, Primus Telecommunications Group, Incorporated (Group) and three of its subsidiaries, Primus Telecommunications Holding, Inc. (Holding), Primus Telecommunications International, Inc. (PTII) and Primus Telecommunications IHC, Inc., (IHC and together with Group, Holding and PTII, collectively, the Debtors) each filed a voluntary petition (the Chapter 11 Cases) in the United States Bankruptcy Court for the District of Delaware (the Bankruptcy Court) for reorganization relief (Reorganization). On April 27, 2009, the Bankruptcy Court approved the Debtors use of a disclosure statement dated April 27, 2009 (the Disclosure Statement) to solicit votes on the Joint Plan of Reorganization of Primus Telecommunications Group, Incorporated and its Affiliate Debtors attached thereto (the Plan). The Plan was confirmed by the Bankruptcy Court on June 12, 2009. On July 1, 2009 (the Effective Date), the Debtors consummated their reorganization under the Bankruptcy Code and the Plan became effective. As a result of this, attention should be given to the Successor and Predecessor presentations and Fresh Start Accounting principles adopted by the Company, as described below.

Successor and Predecessor Presentations. In the following presentations and narratives within this Management s Discussion and Analysis of Financial Condition and Results of Operations, we compare, pursuant to SEC disclosure rules, Successor s results of operations for the three and nine months ended September 30, 2010 to the three months ended September 30, 2009 (the Successor Period) and the three months ended September 30, 2009 plus the Predecessor s results of operations for the six months ended July 1, 2009 (the Predecessor Period).

Fresh Start Accounting. As of July 1, 2009, the Company adopted fresh-start accounting in accordance with ASC No. 852. The adoption of fresh-start accounting resulted in the Company becoming a new entity for financial reporting purposes. Accordingly, the financial statements on or prior to July 1, 2009 are not comparable with the financial statements for periods after July 1, 2009. The consolidated condensed statements of operations, comprehensive income (loss) and any references to Successor or Successor Company for the three months and nine months ended September 30, 2010 and the three months ended September 30, 2009, show the operations of the reorganized Company. References to Predecessor Company refer to the operations of the Company prior to July 1, 2009. See Note 3 Fresh-Start Accounting in the notes to these Consolidated Condensed Financial Statements for further details.

Factors That Could Impact Reported Future Results

In reviewing the results and narratives below, it is important to note that there were significant changes resulting from the adoption of fresh-start accounting that affected our historical presentations and that will impact future results compared to pre-Reorganization results, including significant changes in:

debt balances and associated interest expense;

taxes and the potential adverse cash flow effects of our obligation to pay additional taxes compared to prior periods, given the termination of significant net operating loss carry-forward credits in connection with the Reorganization; and

depreciation and amortization, as triggered by our requirement to institute a new capital structure and fully re-measure our tangible and identifiable intangible assets.

In light of the foregoing, past Predecessor results should not be considered comparable and are not indicative of results for corresponding future Successor periods, and material differences in results of operations and liquidity may arise in the future as a result of these factors, in addition to the factors that could affect our business, as described in Special Note Regarding Forward Looking Statements and in Part II. Item 1A, Risk Factors.

We also present detailed changes in results, excluding currency impacts, since a large portion of our revenues are derived outside of the U.S., and currency changes can influence or mask underlying changes in foreign operating unit performance. For purposes of calculating constant currency rates between periods in

45

connection with presentations that describe changes in values excluding currency effects herein, we have taken results from foreign operations for a given year (that were computed in accordance with GAAP using local currency) and converted such amounts utilizing the same U.S. dollar to applicable local currency exchange rates that were used for purposes of calculating corresponding preceding year GAAP presentations. Future changes in currency exchange rates could have a material effect on our future results of operations and liquidity. See Item 3. Quantitative and Qualitative Disclosure About Market Risk.

Results of Operations

Results of operations for the three months ended September 30, 2010 as compared to the three months ended September 30, 2009

Net revenue: Net revenue, exclusive of the currency effect, decreased \$13.8 million, or 7.1%, to \$181.1 million for the three months ended September 30, 2010 from \$194.9 million for the three months ended September 30, 2009. Inclusive of the currency effect, which accounted for an increase of \$7.1 million, net revenue decreased \$6.7 million to \$188.2 million for the three months ended September 30, 2010 from \$194.9 million for the three months ended September 30, 2009.

Canada: Canada net revenue, exclusive of the currency effect, decreased \$3.6 million, or 6.2%, to \$53.8 million for the three months ended September 30, 2010 from \$57.4 million for the three months ended September 30, 2009. The net revenue decrease is primarily attributable to a decrease of \$3.3 million in retail voice services, a decrease of \$1.5 million in prepaid voice services and a decrease of \$0.2 million in wireless services offset, in part, by an increase of \$0.5 million in local services and an increase of \$0.8 million in Internet, data and hosting services. Inclusive of the currency effect, which accounted for a \$3.1 million increase, net revenue decreased \$0.5 million to \$56.9 million for the three months ended September 30, 2010 from \$57.4 million for the three months ended September 30, 2009.

Australia: Australia net revenue, exclusive of the currency effect, decreased \$0.6 million, or 1.0%, to \$63.1 million for the three months ended September 30, 2010 from \$63.7 million for the three months ended September 30, 2009. The net revenue decrease is primarily attributable to a decrease of \$1.4 million in residential voice and a decrease of \$1.0 million in Internet services offset, in part, by increases of \$1.2 million in business voice services, \$0.4 million in wireless services and an increase of \$0.2 million other services. Inclusive of the currency effect, which accounted for a \$5.3 million increase, net revenue increased \$4.7 million to \$68.4 million for the three months ended September 30, 2010 from \$63.7 million for the three months ended September 30, 2009.

Wholesale: Wholesale net revenue, exclusive of the currency effect, decreased \$9.9 million, or 18.4%, to \$43.7 million for the three months ended September 30, 2010 from \$53.6 million for the three months ended September 30, 2009. The net revenue decrease is due to an effort to target higher margin traffic and avoid high volume, lower margin traffic. Inclusive of the currency effect, which accounted for a \$1.8 million decrease, net revenue decreased \$11.7 million to \$41.9 million for the three months ended September 30, 2010, from \$53.6 million for the three months ended September 30, 2009.

Table of Contents 72

46

United States: United States net revenue decreased \$4.1 million, or 25.7%, to \$12.1 million for the three months ended September 30, 2010 from \$16.2 million for the three months ended September 30, 2009. The decrease is primarily attributable to a decrease of \$2.4 million in retail voice services, a decrease of \$1.5 million in VoIP services and a decrease of \$0.2 million in Internet services.

Brazil: Brazil net revenue, exclusive of the currency effect, increased \$4.3 million, or 105.6%, to \$8.4 million for the three months ended September 30, 2010 from \$4.1 million for the three months ended September 30, 2009. The revenue increase is due primarily to an increase in reseller voice services. Inclusive of the currency effect, which accounted for a \$0.6 million increase, net revenue increased \$4.9 million to \$9.0 million for the three months ended September 30, 2010 from \$4.1 million for the three months ended September 30, 2009.

Cost of revenue: Cost of revenue, exclusive of the currency effect, decreased \$9.5 million to \$117.4 million, or 64.8% of net revenue, for the three months ended September 30, 2010 from \$126.9 million, or 65.1 % of net revenue, for the three months ended September 30, 2009. Inclusive of the currency effect, which accounted for a \$3.4 million increase, cost of revenue decreased \$6.1 million to \$120.8 million for the three months ended September 30, 2010 from \$126.9 million for the three months ended September 30, 2009.

Canada: Canada cost of revenue, exclusive of the currency effect, decreased \$1.2 million to \$24.1 million, or 44.8 % of net revenue, for the three months ended September 30, 2010 from \$25.3 million, or 44.1% of net revenue, for the three months ended September 30, 2009. The decrease is primarily attributable to the decrease in net revenue and product mix shift. Inclusive of the currency effect, which accounted for a \$1.3 million increase, cost of revenue increased \$0.2 million to \$25.5 million for the three months ended September 30, 2010 from \$25.3 million for the three months ended September 30, 2009.

Australia: Australia cost of revenue, exclusive of the currency effect, decreased \$1.0 million to \$38.8 million, or 61.6% of net revenue, for the three months ended September 30, 2010 from \$39.8 million, or 62.5% of net revenue, for the three months ended September 30, 2009. The decrease is primarily attributable to the decrease in net revenue. Inclusive of the currency effect, which accounted for a \$3.3 million increase, cost of revenue increased \$2.3 million to \$42.1 million for the three months ended September 30, 2010 from \$39.8 million for the three months ended September 30, 2009.

Wholesale: Wholesale cost of revenue, exclusive of the currency effect, decreased \$10.0 million to \$41.4 million, or 94.8% of net revenue, for the three months ended September 30, 2010 from \$51.4 million, or 95.9% of net revenue, for the three months ended September 30, 2009. The decrease is primarily attributable to the decrease in net revenues. Inclusive of the currency effect, which accounted for a \$1.7 million decrease, cost of revenues decreased \$11.7 million to \$39.7 million for the three months ended September 30, 2010 from \$51.4 million for the three months ended September 30, 2009.

United States: United States cost of revenue decreased \$1.5 million to \$5.8 million, or 48.0% of net revenue, for the three months ended September 30, 2010 from \$7.3 million, or 45.3% of net revenue, for the three months ended September 30, 2009. The decrease is primarily attributable to a corresponding decrease in net revenue.

Brazil: Brazil cost of revenue, exclusive of the currency effect, increased \$4.2 million to \$7.3 million, or 85.9% of net revenue, for the three months ended September 30, 2010 from \$3.1 million, or 74.9% of net revenue, for the three months ended September 30, 2009. The increase is primarily attributable to the increase in net revenue and a shift in the revenue product mix to lower margin reseller voice products. Inclusive of the currency effect, which accounted for a \$0.5 million increase, cost of revenue increased \$4.7 million to \$7.8 million for the three months ended September 30, 2010 from \$3.1 million for the three months ended September 30, 2009.

47

Selling, general and administrative expenses: Selling, general and administrative expenses, exclusive of the currency effect, increased \$2.3 million to \$49.1 million, or 27.1% of net revenue, for the three months ended September 30, 2010 from \$46.8 million, or 24.0 % of net revenue, for the three months ended September 30, 2009. Inclusive of the currency effect, which accounted for a \$2.5 million increase, selling, general and administrative expenses increased \$4.8 million to \$51.6 million for the three months ended September 30, 2010 from \$46.8 million for the three months ended September 30, 2009.

Canada: Canada selling, general and administrative expense, exclusive of the currency effect, decreased \$1.5 million to \$19.0 million, or 35.2 % of net revenue, for the three months ended September 30, 2010 from \$20.5 million, or 35.7% of net revenue, for the three months ended September 30, 2009. The decrease is attributable to a decrease of \$1.4 million in advertising, a decrease of \$0.9 million in sales and marketing expenses, and a decrease of \$0.5 million in general and administrative expenses offset, in part, by an increase of \$1.2 million in salaries and benefits, an increase of \$0.1 million in all occupancy expenses. Inclusive of the currency effect, which accounted for a \$1.0 million increase, selling, general and administrative expenses increased \$0.5 million to \$20.0 million for the three months ended September 30, 2010 from \$20.5 million for the three months ended September 30, 2009.

Australia: Australia selling, general and administrative expense, exclusive of the currency effect, increased \$0.2 million to \$15.9 million, or 25.2% of net revenue, for the three months ended September 30, 2010 from \$15.7 million, or 24.6% of net revenue, for the three months ended September 30, 2009. The increase is attributable to an increase of \$0.5 million in advertising expense offset, in part, by a decrease of \$0.3 million in sales and marketing expense. Inclusive of the currency effect, which accounted for a \$1.3 million increase, selling, general and administrative expense increased \$1.5 million to \$17.2 million for the three months ended September 30, 2010 from \$15.7 million for the three months ended September 30, 2009.

Wholesale: Wholesale selling, general and administrative expense, exclusive of the currency effect, remained constant at \$1.7 million, or 3.8% of net revenue, for the three months ended September 30, 2010 as compared to \$1.6 million, or 3.0% of net revenue, for the three months ended September 30, 2009. Inclusive of the currency effect, which accounted for a minimal decrease, selling, general and administrative expense remained constant at \$1.7 million for the three months ended September 30, 2010 from \$1.6 million for the three months ended September 30, 2009.

United States: United States selling, general and administrative expense for the three months ended September 30, 2010 decreased \$1.0 million to \$5.4 million, or 44.6% of net revenue, for the three months ended September 30, 2010 from \$6.4 million, or 39.3% of net revenue, for the three months ended September 30, 2009. The decrease is attributable to a decrease of \$0.5 million in salaries and benefits, a decrease of \$0.2 million in sales and marketing expense, a decrease of \$0.2 million in advertising expense, and a decrease of \$0.1 million in general and administrative expense.

Brazil: Brazil selling, general and administrative, exclusive of the currency effect, remained constant at \$0.8 million, or 9.3% of net revenue, for the three months ended September 30, 2010 as compared to \$0.8 million, or 19.5% of net revenue, for the three months ended September 30, 2009. Inclusive of the currency effect, which accounted for a minimal increase, selling, general and administrative expense remained constant at \$0.8 million for the three months ended September 30, 2010 from \$0.8 million for the three months ended September 30, 2009.

Corporate: Corporate selling, general and administrative expense increased \$3.9 million to \$5.9 million for the three months ended September 30, 2010 from \$2.0 million for the three months ended September 30, 2009. The increase is primarily due to a severance accrual recorded as a result of personnel changes occurring within the corporate executive management team.

48

Depreciation and amortization expense: Depreciation and amortization expense decreased \$5.1 million to \$13.6 million for the three months ended September 30, 2010 from \$18.7 million for the three months ended September 30, 2009. The decrease in the third quarter of 2010 was primarily the result of a decline in the value of certain assets which had been revalued at the time of fresh start accounting and assigned and depreciated over a one year life which ended on June 30, 2010.

Interest expense: Interest expense was \$8.6 million and \$8.7 million for the three months ended September 30, 2010 and three months ended September 30, 2009, respectively. The decline is due to the early retirement of \$9.5 million of 14 \(^1/4\%\) Senior Subordinated Secured Notes in the second quarter of 2010.

Gain (loss) from contingent value rights valuation: The fair value of the contingent value rights was \$8.0 million as of September 30, 2010 as compared to \$6.8 million as of September 30, 2009. Gains and losses are recognized due to the change of the fair market value of the contingent value rights. The Company determined these contingent value rights to be derivative instruments to be accounted for as liabilities and were marked to fair value, and in future periods will be marked to fair value, at each balance sheet date.

Foreign currency transaction gain (loss): Foreign currency transaction gain was \$14.0 million for the three months ended September 30, 2010 as compared to a gain of \$13.4 million for the three months ended September 30, 2009. The gains are attributable to the impact of foreign currency exchange rate changes on intercompany debt balances and on receivables and payables denominated in a currency other than the subsidiaries functional currency.

Income tax benefit (expense): Income tax benefit was \$3.2 million for the three months ended September 30, 2010 compared to a \$2.1 million expense for the three months ended September 30, 2009. The benefit includes the release of the valuation allowance on the deferred tax assets of our Australian subsidiary of \$3.3 million. We continue to carry a full valuation allowance on net operating loss carry forwards and other deferred tax assets in jurisdictions in which the Company is in an overall net deferred tax asset position with the exception of Australia which was released the quarter ending September 30, 2010. As it relates to this conclusion, we will monitor actual results and updated projections of our subsidiaries on a quarterly basis. When and if they realize or realistically anticipate sustainable profitability, we will assess the appropriateness of releasing the valuation allowance in whole or in part.

Results of operations for the nine months ended September 30, 2010 as compared to the nine months ended September 30, 2009

Net revenue: Net revenue, exclusive of the currency effect, decreased \$39.0 million, or 7.0%, to \$521.2 million for the nine months ended September 30, 2010 from \$560.2 million for the nine months ended September 30, 2009. Inclusive of the currency effect, which accounted for an increase of \$54.6 million, net revenue increased \$15.6 million to \$575.8 million for the nine months ended September 30, 2010 from \$560.2 million for the nine months ended September 30, 2009.

Canada: Canada net revenue, exclusive of the currency effect, decreased \$12.7 million, or 7.7%, to \$153.0 million for the nine months ended September 30, 2010 from \$165.7 million for the nine months ended September 30, 2009. The net revenue decrease is primarily attributable to a decrease of \$10.5 million in retail voice services, a decrease of \$5.6 million in prepaid voice services and a decrease of \$0.7 million in wireless services offset, in part, by an increase of \$1.5 million in local services, an increase of \$2.2 million in Internet, data and hosting services, and a \$0.4 million increase in VoIP services. Inclusive of the currency effect, which accounted for a \$19.4 million increase, net revenue increased \$6.7 million to \$172.4 million for the nine months ended September 30, 2010 from \$165.7 million for the nine months ended September 30, 2009.

Australia: Australia net revenue, exclusive of the currency effect, decreased \$1.9 million, or 1.1%, to \$172.3 million for the nine months ended September 30, 2010 from \$174.2 million for the nine months ended September 30, 2009. The net revenue decrease is primarily attributable to a decrease of \$4.4 million in residential voice services and a decrease of \$2.3 million in Internet services offset, in part, by increases of \$2.5 million in business voice services, \$0.8 million in wireless services, \$0.6 million in DSL services, and an increase of \$0.1 million all other services. Inclusive of the currency effect, which accounted for a \$33.5 million increase, net revenue increased \$31.5 million to \$205.7 million for the nine months ended September 30, 2010 from \$174.2 million for the nine months ended September 30, 2009.

Wholesale: Wholesale net revenue, exclusive of the currency effect, decreased \$19.6 million, or 12.4%, to \$138.5 million for the nine months ended September 30, 2010 from \$158.1 million for the nine months ended September 30, 2009. The net revenue decrease is a result of our continued focus on profitability rather than revenue, targeting higher margin traffic and avoiding high volume lower margin traffic. Inclusive of the currency effect, which accounted for a \$1.0 million decrease, net revenue decreased \$20.5 million to \$137.6 million for the nine months ended September 30, 2010, from \$158.1 million for the nine months ended September 30, 2009.

United States: United States net revenue decreased \$13.2 million, or 25.4%, to \$38.8 million for the nine months ended September 30, 2010 from \$52.0 million for the nine months ended September 30, 2009. The decrease is primarily attributable to a decrease of \$7.7 million in retail voice services, a decrease of \$4.6 million in VoIP services and a decrease of \$0.9 million in Internet services.

Brazil: Brazil net revenue, exclusive of the currency effect, increased \$8.3 million, or 80.3%, to \$18.6 million for the nine months ended September 30, 2010 from \$10.3 million for the nine months ended September 30, 2009. The revenue increase is due primarily to an increase in reseller voice services. Inclusive of the currency effect, which accounted for a \$2.7 million increase, net revenue increased \$11.0 million to \$21.3 million for the nine months ended September 30, 2010 from \$10.3 million for the nine months ended September 30, 2009.

Cost of revenue: Cost of revenue, exclusive of the currency effect, decreased \$27.3 million to \$336.5 million, or 64.6% of net revenue, for the nine months ended September 30, 2010 from \$363.8 million, or 64.9 % of net revenue, for the nine months ended September 30, 2009. Inclusive of the currency effect, which accounted for a \$30.3 million increase, cost of revenue increased \$3.0 million to \$366.8 million for the nine months ended September 30, 2010 from \$363.8 million for the nine months ended September 30, 2009.

Canada: Canada cost of revenue, exclusive of the currency effect, decreased \$3.6 million to \$68.9 million, or 45.1% of net revenue, for the nine months ended September 30, 2010 from \$72.5 million, or 43.7% of net revenue, for the nine months ended September 30, 2009. The decrease is primarily attributable to a decrease in net revenue, partially offset by product mix where the higher margin retail voice revenue is a smaller percentage of total revenue. Inclusive of the currency effect, which accounted for an \$8.7 million increase, cost of revenue increased \$5.2 million to \$77.7 million for the nine months ended September 30, 2010 from \$72.5 million for the nine months ended September 30, 2009.

Australia: Australia cost of revenue, exclusive of the currency effect, decreased \$4.4 million to \$104.8 million, or 60.9% of net revenue, for the nine months ended September 30, 2010 from \$109.2 million, or 62.7%

50

Table of Contents

of net revenue, for the nine months ended September 30, 2009. The decrease is primarily attributable to the corresponding decrease in net revenue. Inclusive of the currency effect, which accounted for a \$20.2 million increase, cost of revenue increased \$15.8 million to \$125.0 million for the nine months ended September 30, 2010 from \$109.2 million for the nine months ended September 30, 2009.

Wholesale: Wholesale cost of revenue, exclusive of the currency effect, decreased \$20.8 million to \$130.3 million, or 94.1% of net revenue, for the nine months ended September 30, 2010 from \$151.1 million, or 95.6% of net revenue, for the nine months ended September 30, 2009. The decrease is primarily attributable to the corresponding decrease in net revenue and partially offset by improved bad debt experience. Inclusive of the currency effect, which accounted for a \$0.8 million decrease, cost of revenues decreased \$21.6 million to \$129.5 million for the nine months ended September 30, 2010 from \$151.1 million for the nine months ended September 30, 2009.

United States: United States cost of revenue decreased \$6.4 million to \$17.0 million, or 43.7% of net revenue, for the nine months ended September 30, 2010 from \$23.4 million, or 45.1% of net revenue, for the nine months ended September 30, 2009. The decrease is primarily attributable to the corresponding decrease in net revenue.

Brazil: Brazil cost of revenue, exclusive of the currency effect, increased \$7.9 million to \$15.5 million, or 83.0% of net revenue, for the nine months ended September 30, 2010 from \$7.6 million, or 73.1% of net revenue, for the nine months ended September 30, 2009. The increase is primarily attributable to an increase in net revenue of \$8.3 million and a shift in the revenue product mix to reseller voice products. Inclusive of the currency effect, which accounted for a \$2.2 million increase, cost of revenue increased \$10.1 million to \$17.7 million for the nine months ended September 30, 2010 from \$7.6 million for the nine months ended September 30, 2009.

Selling, general and administrative expenses: Selling, general and administrative expenses, exclusive of the currency effect, decreased \$1.3 million to \$134.1 million, or 25.7% of net revenue, for the nine months ended September 30, 2010 from \$135.4 million, or 24.2% of net revenue, for the nine months ended September 30, 2009. Inclusive of the currency effect, which accounted for an \$15.2 million increase, selling, general and administrative expenses increased \$14.0 million to \$149.4 million for the nine months ended September 30, 2010 from \$135.4 million for the nine months ended September 30, 2009.

Canada: Canada selling, general and administrative expense, exclusive of the currency effect, decreased \$4.6 million to \$53.2 million, or 34.8% of net revenue, for the nine months ended September 30, 2010 from \$57.8 million, or 34.9% of net revenue, for the nine months ended September 30, 2009. The decrease is attributable to a decrease of \$2.3 million in sales and marketing expenses, a decrease of \$1.6 million in advertising expense, decrease of \$0.9 million in general and administrative expense, and a decrease of \$0.7 million in professional fees offset, in part, by an increase of \$0.4 million in salaries and benefits, and a \$0.3 million increase in occupancy expenses. Inclusive of the currency effect, which accounted for a \$6.6 million increase, selling, general and administrative expenses increased \$2.0 million to \$59.8 million for the nine months ended September 30, 2010 from \$57.8 million for the nine months ended September 30, 2009.

Australia: Australia selling, general and administrative expense, exclusive of the currency effect, increased \$0.6 million to \$42.7 million, or 24.8% of net revenue, for the nine months ended September 30, 2010 from \$42.1 million, or 24.2% of net revenue, for the nine months ended September 30, 2009. The increase is attributable to an increase of \$1.2 million in advertising expense and a \$0.4 million increase in all other expenses, offset, in part, by a decrease of \$0.8 million in sales and marketing expense, and a decrease of \$0.2 million in general and administrative expense. Inclusive of the currency effect, which accounted for a \$8.2 million increase, selling, general and administrative expense increased \$8.8 million to \$50.9 million for the nine months ended September 30, 2010 from \$42.1 million for the nine months ended September 30, 2009.

51

Wholesale: Wholesale selling, general and administrative expense, exclusive of the currency effect, decreased \$0.1 million to \$4.9 million, or 3.6% of net revenue, for the nine months ended September 30, 2010 as compared to \$5.0 million, or 3.2% of net revenue, for the nine months ended September 30, 2009. Inclusive of the currency effect, which accounted for a minimal increase, selling, general and administrative expense decreased \$0.1 million to \$4.9 million for the nine months ended September 30, 2010 from \$5.0 million for the nine months ended September 30, 2009.

United States: United States selling, general and administrative expense decreased \$2.1 million to \$17.7 million, or 45.7% of net revenue, for the nine months ended September 30, 2010 from \$19.8 million, or 38.1% of net revenue for the nine months ended September 30, 2009. The decrease is attributable to a decrease of \$1.2 million in salaries and benefits, a decrease of \$0.3 million in advertising expense, a decrease of \$0.5 million in sales and marketing expenses, a decrease of \$0.5 million in professional fees, and a decrease of \$0.1 million in travel and entertainment expense offset, in part, by an increase of \$0.5 million in general and administrative expense.

Brazil: Brazil selling, general and administrative, exclusive of the currency effect, decreased \$0.2 million to \$2.1, or 11.1% of net revenue, for the nine months ended September 30, 2010 as compared to \$2.3 million, or 21.8% of net revenue, for the nine months ended September 30, 2009. Inclusive of the currency effect, which accounted for a \$0.3 million increase, selling, general and administrative expense increased \$0.1 million to \$2.4 million for the nine months ended September 30, 2009.

Corporate: Corporate selling, general and administrative expense increased \$3.7 million to \$12.3 million, for the nine months ended September 30, 2010 from \$8.6 million for the nine months ended September 30, 2009. The increase is primarily due to a severance accrual.

Depreciation and amortization expense: Depreciation and amortization expense increased \$19.4 million to \$49.7 million for the nine months ended September 30, 2010 from \$30.3 million for the nine months ended September 30, 2009. The increase was the result of valuing tangible and intangible assets to the fair values per Fresh-Start accounting which was implemented effective July 1, 2009. See Financial Presentation Background.

Interest expense: Interest expense and accretion (amortization) on debt discount/premium, net increased \$4.1 million to \$26.8 million for the nine months ended September 30, 2010 from \$22.7 million for the nine months ended September 30, 2009. The increase was due to the cessation of interest accruals, during the 2009 period, for the liabilities subject to compromise as a result of the Chapter 11 cases instituted on March 16, 2009.

Gain (loss) from contingent value rights valuation: The fair value of the contingent value rights was \$7.8 million as of September 30, 2010 as compared to \$6.8 million as of September 30, 2009. Gains and losses are recognized due to the change of the fair market value of the contingent value rights. The Company determined these contingent value rights to be derivative instruments to be accounted for as liabilities and were marked to fair value, (and in future periods will be marked to fair value), at each balance sheet date.

Foreign currency transaction gain (loss): Foreign currency transaction gain decreased \$23.6 million to a gain of \$10.2 million for the nine months ended September 30, 2010 from a gain of \$33.8 million for the nine months ended September 30, 2009. The gains are attributable to the impact of foreign currency exchange rate changes on intercompany debt balances and on receivables and payables denominated in a currency other than the subsidiaries functional currency.

52

Reorganization items, net: Reorganization items, net were a \$424.5 million gain for the nine months ended September 30, 2009. In accordance with ASC 852, Reorganizations, the Company ceased amortization of debt premiums, discounts and deferred financing costs related to the liabilities subject to compromise on the Petition Date. The \$3.5 million of unamortized debt premiums and discounts has been written off and recorded as a gain, offset by the expensing of \$3.6 million of unamortized deferred financing costs, as an adjustment to the net carrying value of the pre-petition debt, and the incurrence of professional fees regarding the bankruptcy filing. Long term debt was further reduced by \$20.5 million of future interest payable that previously had been recorded as a portion of long-term obligations for the 14 ¹/4% Senior Subordinated Secured Notes and 5% Exchangeable Senior Notes as the issuance of these notes had been deemed troubled debt restructurings. Professional fees and other expenses related to the reorganization were \$12.1 million for the nine months ended September 30, 2009.

Income tax benefit (expense): Income tax benefit was \$7.3 million for the nine months ended September 30, 2010 compared to a \$1.9 million expense for the nine months ended September 30, 2009. The benefit includes the release of deferred tax liabilities related to amortization of certain fresh-start adjustments to fixed and intangible assets, the release of the valuation allowance on the deferred tax assets of our Australia subsidiary, and the release of withholding tax on interest payable on a cross-border intercompany loan. We continue to carry a full valuation allowance on net operating loss carry forwards and other deferred tax assets in jurisdictions in which the Company is in an overall net deferred tax asset position with the exception of Australia which was released the Quarter ending September 30, 2010. As it relates to this conclusion, we will monitor actual results and updated projections of our subsidiaries on a quarterly basis. When and if they realize or realistically anticipate sustainable profitability, we will assess the appropriateness of releasing the valuation allowance in whole or in part.

Liquidity and Capital Resources

Changes in Cash Flows

Our principal liquidity requirements arise from cash used in operating activities, purchases of network equipment including switches, related transmission equipment and capacity, development of back-office systems, expansion of data center facilities, interest and principal payments on outstanding debt and other obligations and taxes. We have financed our historical growth and operations to date through, cash provided by operations, public offerings and private placements of debt and equity securities, vendor financing, capital lease financing and other financing arrangements.

Net cash provided by operating activities was \$37.3 million for the nine months ended September 30, 2010. For the nine months ended September 30, 2010, net income, net of non-cash operating activity, provided \$41.3 million of cash. Net cash provided by operating activities was also impacted by an increase in accrued interest of \$8.5 million as payments of interest on long term debt occur in the second and fourth quarters of each calendar year, net collections of accounts receivable of \$3.8 million and a reduction in other assets of \$0.6 million.

For the nine months ended September 30, 2010, \$6.9 million was used to reduce accounts payable, \$5.8 million was used to reduce accrued interconnection costs, \$2.4 million was used to reduce expenses, deferred revenue and other liabilities, \$1.0 million was used to reduce the Company s accrued income taxes, net, \$0.7 million was to obtain prepaid expenses and other current assets, and the cash used for reorganization items was \$0.1 million.

Net cash used in investing activities was \$16.2 million for the nine months ended September 30, 2010, which included \$17.1 million for capital expenditures and \$0.1 million for restricted cash, partially offset by \$0.7 million of asset dispositions and \$0.3 million, net received for the disposition of the Company s Belgian operations.

Net cash used in financing activities was \$13.6 million for the nine months ended September 30, 2010 and reflects the retirement of \$9.5 million of 14 \(^{1}/4\%\) Senior Subordinated Secured Notes and the \$4.1 million repayment of capital leases.

Short- and Long-Term Liquidity Considerations and Risks

As of September 30, 2010 we had \$49.6 million of unrestricted cash and cash equivalents. We believe that our existing cash and cash equivalents will be sufficient to fund our debt service requirements, other fixed obligations (such as capital leases), and other cash needs for our operations for at least the next twelve months. The Company will evaluate and determine on a continuing basis the most efficient use of the Company s capital and resources, including investment in the Company s network, systems and product initiatives and to strengthen its balance sheet through debt repurchases or other means.

As of September 30, 2010, we have \$39.5 million in future minimum purchase obligations, \$65.1 million in future operating lease payments and \$245.9 million of indebtedness. At September 30, 2010, approximately \$91.8 million of unrecognized tax benefits have been recorded as liabilities in accordance with ASC No. 740; however, we are uncertain as to if or when such amounts may be settled, so we have not included these amounts in the table below. Included in the unrecognized tax benefits not included in the table below, we have recorded a liability for potential penalties and interest of \$0.1 million for the quarter ended September 30, 2010.

The obligations reflected in the table below reflect the contractual payments of principal and interest that existed as of September 30, 2010:

| | | | | | | 14 ¹ /4 % Senior | | | | | | |
|---|-------------------|-------|-----------------------|-----------|-------------------------|--------------------------------|----------|------------|--------|------|----|----------|
| | Capital Leases | | 13% Senior Secured | | Subordinated Secured | | Purchase | | Opera | ting | | |
| Year Ending December 31, | and | Other | | Notes | | Notes | Ob | oligations | Leas | es | | Total |
| 2010 (as of September 30, 2010) | \$ | 417 | \$ | 8,450 | \$ | 8,124 | \$ | 8,723 | \$ 4, | 753 | \$ | 30,467 |
| 2011 | | 1,218 | | 16,900 | | 16,247 | | 19,903 | 15, | 151 | | 69,419 |
| 2012 | | 309 | | 16,900 | | 16,247 | | 6,498 | 13, | 292 | | 53,246 |
| 2013 | | 87 | | 16,900 | | 122,139 | | 3,162 | 10, | 255 | | 152,543 |
| 2014 | | 4 | | 16,900 | | | | 1,162 | 5, | 440 | | 23,506 |
| Thereafter | | | | 163,847 | | | | 54 | 16, | 237 | | 180,138 |
| Total Minimum Principal & Interest Payments | | 2,035 | | 239,897 | | 162,757 | | 39,502 | 65, | 128 | | 509,319 |
| Less: Amount | | | | | | | | | | | | |
| Representing Interest | | (120) | | (109,897) | | (48,742) | | | | | (| 158,759) |
| Total Long-Term Obligations | \$ | 1,915 | \$ | 130,000 | \$ | 114,015 | \$ | 39,502 | \$ 65, | 128 | \$ | 350,560 |

The foregoing table assumes that the 14 \(^1/4\)% Senior Subordinated Secured Notes are refinanced before January 21, 2013. In the event the 14 \(^1/4\)% Senior Subordinated Secured Notes have not been refinanced in accordance with the terms of the 13\% Senior Secured Notes indenture by January 21, 2013, then the Issuers will be required to redeem the full principal of the 13\% Senior Secured Notes at a price equal to the then applicable optional redemption price on such date. In addition, the table assumes that the holders of 13\% Senior Secured Notes do not accept any Excess Cash Flow Offer to purchase 13\% Senior Secured Notes. In this regard, the Company must extend an offer annually to the holders of the 13\% Senior Secured Notes to repurchase an applicable amount, (equal to 50\% of Excess Cash Flow), of the 13\% Senior Secured Notes at par, in the event the Company and certain subsidiaries have excess cash flow for any fiscal year commencing with the fiscal year ending December 31, 2010. See Item 1A. Risks Associated with our Liquidity Needs and Debt Securities, for certain risks and uncertainties related thereto.

We have contractual obligations to utilize network facilities from certain carriers with terms greater than one year. We generally do not purchase or commit to purchase quantities in excess of normal usage or amounts that cannot be used within the contract term.

New Accounting Pronouncements

New Accounting Pronouncements

From time to time, new accounting pronouncements are issued by FASB and are adopted by the Company as of the specified effective date. Unless otherwise discussed, the Company believes that the impact of recently issued accounting pronouncements that are not discussed will not have a material impact on consolidated financial position, results of operations, and cash flows, or do not apply to our operations.

Accounting Standards Update No. 2010-06 Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements (ASU No. 2010-06)

We adopted certain provisions of ASU No. 2010-06 in the first quarter of 2010. These provisions of ASU No. 2010-06 amended Subtopic 820-10, Fair Value Measurements and Disclosures Overall, by requiring additional disclosures for transfers in and out of Level 1 and Level 2 fair value measurements, as well as requiring fair value measurement disclosures for each class of assets and liabilities, a subset of the captions disclosed in our Consolidated Balance Sheets. The adoption did not have a material impact on our financial statements or our disclosures, as we did not have any transfers between Level 1 and Level 2 fair value measurements and did not have material classes of assets and liabilities that required additional disclosure.

Certain provisions of ASU No. 2010-06 are effective for fiscal years beginning after December 15, 2010, which for us will be our 2011 first quarter. These provisions of ASU No. 2010-06, which amended Subtopic 820-10, will require us to present as separate line items all purchases, sales, issuances, and settlements of financial instruments valued using significant unobservable inputs (Level 3) in the reconciliation for fair value measurements, whereas currently these are presented in aggregate as one line item. Although this may change the appearance of our reconciliation, we do not believe the adoption will have a material impact on our financial statements or disclosures.

Accounting Standards Update No. 2009-13 Revenue Recognition (Topic 605): Multiple-Deliverable Revenue Arrangements (ASU 2009-13)

In October 2009, the FASB issued ASU No. 2009-13, Revenue Recognition (Topic 605) *Multiple-Deliverable Revenue Arrangements*: a consensus of the FASB EITF (ASU 2009-13). ASU 2009-13 establishes a selling-price hierarchy for determining the selling price of each element within a multiple-deliverable arrangement. Specifically, the selling price assigned to each deliverable is to be based on vendor-specific objective evidence (VSOE), if available, third-party evidence, if VSOE is unavailable, and estimated selling price if neither VSOE nor third-party evidence is available. In addition, ASU 2009-13 eliminates the residual method of allocating arrangement consideration and instead requires allocation using the relative selling price method. ASU 2009-13 is effective for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. Early adoption is permitted at the beginning of a company s fiscal year. The Company plans to implement this guidance on January 1, 2011 and is currently evaluating the potential impact of ASU 2009-13 on the Company s financial statements.

Special Note Regarding Forward Looking Statements

Certain statements in this Quarterly Report on Form 10-Q and elsewhere concerning our agreement to acquire Arbinet Corporation, strategic objectives, European disposition efforts, prospects, future liquidity, cost savings initiatives and related matters constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such statements are based on current expectations, and are not strictly historical statements. In some cases, you can identify forward-looking statements by terminology such as if, may, should, believe, anticipate, future, forward. potential, estimate. reinstate, opporti exchange, growth, outcome, could, expect, intend, plan, strategy, provide, commitment, pursue, ongoi of such terms or comparable terminology. These forward-looking statements inherently involve certain risks and uncertainties,

although they are based on our current plans or assessments which are believed to be reasonable as of the date of this filing. Forward-looking statements include, without limitation, statements set forth in this document and elsewhere regarding, among other things:

our financial condition, financing requirements, prospects and cash flow;

expectations of future growth, creation of shareholder value, revenue, foreign revenue contributions and net income, as well as income from operations, margins, earnings per share, cash flow and cash sufficiency levels, working capital, network development, customer migration and related costs, spending on and success with growth products, including broadband Internet, VOIP, wireless, local, data and hosting services, traffic development, capital expenditures, selling, general and administrative expenses, income tax and withholding tax expense, fixed asset and goodwill impairment charges, service introductions, cash requirements and potential asset sales;

increased competitive pressures, declining usage patterns, and our growth products, bundled service offerings, the pace and cost of customer migration onto our networks, the effectiveness and profitability of the growth products;

financing, refinancing, debt extension, de-leveraging, restructuring, exchange or tender plans or initiatives, and potential dilution of existing equity holders from such initiatives;

liquidity and debt service forecast;

assumptions regarding currency exchange rates;

timing, extent and effectiveness of cost reduction initiatives and management s ability to moderate or control discretionary spending;

management s plans, goals, expectations, guidance, objectives, strategies, and timing for future operations, acquisitions, asset dispositions, product plans, performance and results;

management s assessment of market factors and competitive developments, including pricing actions and regulatory rulings; and

ability to generate net cash proceeds from the disposition of selective assets without material impairment to profitability. Factors and risks that could cause actual results or circumstances to differ materially from those set forth or contemplated in forward looking statements include those set forth in Risk Factors as well as, without limitation:

the occurrence of a default or event of default under our indentures or other financing agreements;

an inability to fully fund and repurchase holder acceptances of offers to repurchase 13% Notes that we are obligated to make annually, subject to certain limitations, in connection with Excess Cash Flow Offers;

an inability to fully fund and repurchase holder acceptances of offers to repurchase debt securities that we may be obligated to make following certain change in control developments affecting the Company and certain of its subsidiaries;

customer, vendor, carrier and third-party responses to our completed Reorganization;

changes in business conditions causing changes in the business direction and strategy by management;

heightened competitive pricing and bundling pressures in the markets in which we operate;

the ability to service substantial indebtedness;

56

accelerated decrease in minutes of use on wireline phones;

fluctuations in the exchange rates of currencies, particularly of the USD relative to foreign currencies of the countries where we conduct our foreign operations;

difficulty in maintaining or increasing customer revenues and margins through our product initiatives and bundled service offerings, and difficulties in migrating and provisioning broadband and local customers to digital subscriber line (DSL) networks;

inadequate financial resources to promote and to market product initiatives, whether due to acceptance of Excess Cash Flow Offers or otherwise;

fluctuations in prevailing trade credit terms or revenues due to the adverse impact of, among other things, further telecommunications carrier bankruptcies or adverse bankruptcy related developments affecting our large carrier customers;

the possible inability to raise additional capital when needed, on attractive terms, or at all;

possible claims under our existing debt instruments which could impose constraints and limit our flexibility;

the inability to service substantial indebtedness and to reduce, refinance, extend, exchange, tender for or restructure debt significantly, or in amounts sufficient to conduct regular ongoing operations;

further changes in the telecommunications or Internet industry, including rapid technological changes, regulatory and pricing changes in our principal markets and the nature and degree of competitive pressure that we may face;

adverse tax or regulatory rulings from applicable authorities;

enhanced broadband, DSL, Internet, wireless, VOIP, date and hosting and local and long distance voice telecommunications competition;

changes in financial, capital market and economic conditions;

changes in service offerings or business strategies, including the need to modify business models if performance is below expectations;

difficulty in retaining existing long distance wireline and dial-up ISP customers;

difficulty in migrating or retaining customers associated with acquisitions of customer bases, or integrating other assets;

difficulty in selling new services in the marketplace;

difficulty in providing broadband, DSL, local, VOIP, data and hosting or wireless services;

changes in the regulatory schemes or requirements and regulatory enforcement in the markets in which we operate;

restrictions on our ability to execute certain strategies or complete certain transactions as a result of our inexperience with new products, or limitations imposed by available cash resources, our capital structure or debt covenants;

risks associated with our limited DSL, Internet, VOIP, data and hosting and wireless experience and expertise, including effectively utilizing new marketing channels such as interactive marketing employing the Internet;

entry into developing markets;

aggregate margin contribution from the new products is not sufficient in amount or timing to offset the margin decline in our legacy long distance voice and dial-up ISP businesses;

the possible inability to hire and/or retain qualified executive management, sales, technical and other personnel;

57

risks and costs associated with our effort to locate certain activities and functions off-shore:

risks associated with international operations;

dependence on effective information and billing systems;

possible claims for patent infringement on products or processes employed in providing our services;

dependence on third parties for access to their networks to enable us to expand and manage our global network and operations and to offer broadband, DSL, local, VOIP and wireless services, including dependence upon the cooperation of incumbent carriers relating to the migration of customers;

dependence on the performance of our global standard asynchronous transfer mode and Internet-based protocol (ATM+IP) communications network; risks associated with maintaining and upgrading networks; and

adverse regulatory rulings or actions affecting our operations, including the imposition of taxes and fees, the imposition of obligations upon VOIP providers to provide enhanced 911 (E911) services and restricting access to broadband networks owned and operated by others, including the development of a national broadband network in Australia.

As such, actual results or circumstances may vary materially from such forward looking statements or expectations. Readers are also cautioned not to place undue reliance on these forward looking statements which speak only as of the date these statements were made. We are not obligated to update or revise any forward looking statements, whether as a result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our primary market risk exposures relate to changes in foreign currency exchange rates, valuations of derivatives and to changes in interest rates.

Foreign currency can have a major impact on our financial results. Approximately 85% of our net revenue is derived from sales and operations outside the United States. The reporting currency for our consolidated financial statements is the USD. The local currency of each country is the functional currency for each of our respective entities operating in that country. In the future, we expect to continue to derive the majority of our net revenue and incur a significant portion of our operating costs from outside the United States, and therefore changes in exchange rates have had and may continue to have a significant, and potentially adverse, effect on our results of operations. Our primary risk of loss regarding foreign currency exchange rate risk is caused primarily by fluctuations in the following exchange rates: USD/CAD, USD/AUD, USD/GBP, USD/EUR and USD/BRL. Due to the large percentage of our revenue derived outside of the United States, changes in the USD relative to one or more of the foregoing currencies could have an adverse impact on our future results of operations. We have agreements with certain subsidiaries for repayment of a portion of the investments and advances made to these subsidiaries. As we anticipate repayment in the foreseeable future, we recognize the unrealized gains and losses in foreign currency transaction gain (loss) on the consolidated statements of operations. We historically have not engaged in hedging transactions.

We are exposed to financial statement gains and losses as a result of translating the operating results and financial position of our international subsidiaries. We translate the local currency statements of operations of our foreign subsidiaries into USD using the average exchange rate during the reporting period. Changes in foreign exchange rates affect the reported profits and losses and cash flows and may distort comparisons from year to year. By way of example, when the USD strengthens compared to the EUR, there could be a negative or positive effect on the reported results for Europe, depending upon whether Europe is operating profitably or at a loss. It takes more profits in EUR to generate the same amount of profits in USD and a greater loss in EUR to generate the same amount of loss in USD. The opposite is also true. For instance,

when the USD weakens there is a positive effect on reported profits and a negative effect on reported losses for Europe.

58

In the three months ended September 30, 2010, as compared to the three months ended September 30, 2009, the USD was weaker on average as compared to the CAD, AUD, and BRL and stronger on average as compared to the GBP and Euro. In the nine months ended September 30, 2010, as compared to the nine months ended September 30, 2009, the USD was weaker on average as compared to the CAD, AUD, EUR, and BRL and stronger on average as compared to the GBP. As a result, our revenue of the subsidiaries whose local currency is CAD, AUD, GBP, EUR and BRL, increased (decreased) (6.2)%, (0.9) %, 15.2%, (59.8) % and 107.3 % in local currency compared to the three months ended September 30, 2009, but increased (decreased) (0.9) %, 7.4 %, 8.6 %, (84.3) % and 119.8 % in USD, respectively. Our revenue of the subsidiaries whose local currency is CAD, AUD, GBP, EUR and BRL, increased (decreased) (7.7)%, (1.1) %, (1.9)%, (10.0) % and 77.4 % in local currency compared to the nine months ended September 30, 2009, but increased (decreased) 4.0%, 18.1 %, (2.1) %, (0.3) % and 106.2 % in USD, respectively.

Interest rates Our Senior Secured Notes and Senior Subordinated Secured Notes are at a fixed interest rate of 13.00% and 14/4%, respectively. We are exposed to interest rate risk as debt refinancing may be required. Our primary exposure to market risk stems from fluctuations in interest rates.

The interest rate sensitivity table below summarizes our market risks associated with fluctuations in interest rates for the nine months ended September 30, 2010 in USD, which is our reporting currency. The table presents principal cash flows and related weighted average interest rates by year of expected maturity for our 13% Senior Secured Notes, 14 ¹/4% Senior Subordinated Secured Notes, and other long-term obligations in effect at September 30, 2010.

| | | Year of Maturity | | | | | | | | | |
|-----------------------|--------|------------------------------------|--------|------------|------|------------|------------|------------|--|--|--|

ITEM 4. CONTROLS AND PROCEDURES Evaluation of Disclosure Controls and Procedures.

Our management evaluated, with the participation of our Chief Executive Officer and acting Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on this evaluation, as a result of the material weakness described below, our Principal Executive Officer and our acting Principal Financial Officer have concluded that, as of December 31, 2009 and as of the end of the period covered by this report, our disclosure controls and procedures were not effective. Disclosure controls and procedures mean our controls and other procedures that are designed to ensure that information required to be disclosed by us in our reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in our reports that we file or submit under the Securities Exchange Act of 1934 is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

As part of our compliance efforts relative to Section 404 of Sarbanes-Oxley Act of 2002, management assessed the effectiveness of internal control over financial reporting as of December 31, 2009. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework. Based on the assessment, management identified a material weakness in our internal control over accounting for foreign currency transaction gain (loss) on inter-company balances.

In March 2010, the Company determined that an error existed relating to accounting for foreign currency transaction gain (loss) on certain intercompany balances. Specifically, this error related to activity in the third quarter 2009 resulting in the Company amending its form 10-Q for the quarter ended September 30, 2009. As a result of the error described above, management concluded that as of December 31, 2009 and September 30, 2010, a material weakness existed with respect to its determination of the completeness and accuracy and monitoring of foreign currency transaction gain (loss) related to certain intercompany balances and therefore our internal controls over financial reporting were not effective based upon the criteria set forth by COSO. A material weakness is a control deficiency or combination of control deficiencies that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. Additionally, this material weakness could result in a misstatement of net income (loss) that could result in a material misstatement of the interim or annual consolidated financial statements that would not be prevented or detected if not remediated.

Changes in Internal Control.

Our Principal Executive Officer and our acting Principal Financial Officer have concluded that there have been no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2010, that have materially affected or is reasonably likely to affect materially, our internal control over financial reporting, except for the items noted below.

As a result of the Company s determination that the controls in place over the process of translating certain intercompany balances did not operate effectively during the third quarter of 2009, the Company has designed procedures and is implementing new controls to address the control failure that occurred, including: a) performing additional recalculations and analysis of the foreign currency transaction gain (loss) recorded on intercompany balances; b) implementing an improved process for assessing the reasonableness of foreign currency transaction gain (loss) recorded on intercompany balances; and c) confirming settlements related to intercompany balances at a transactional level. Management believes that these corrective actions, taken as a whole, will successfully mitigate the material weakness described above, and the Company will continue to perform the enhanced procedures as part of the normal accounting process.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company and its subsidiaries are subject to claims and legal proceedings that arise in the ordinary course of its business. Each of these matters is subject to various uncertainties, and it is possible that some of these matters may be decided unfavorably. The Company believes that any aggregate liability that may result from the resolution of these matters will not have a material adverse effect on the Company s consolidated financial position, results of operations or cash flows.

ITEM 1A. RISK FACTORS

A wide range of factors could materially affect our performance. In addition to factors affecting specific business operations and the financial results of those operations identified elsewhere in this report, the following factors, among others could adversely affect our operations:

The following is not intended as, and should not be construed as, an exhaustive list of relevant risk factors. There may be other risks that are relevant to its own particular circumstances or generally.

RISKS RELATED TO OUR BUSINESS AND INDUSTRY

Continuing global economic conditions could adversely affect our business.

The global economy and capital and credit markets have been experiencing exceptional turmoil and upheaval. Many major economies worldwide entered significant economic recessions in 2007 and continue to experience economic weakness even though economies have begun to show signs of recovery. Ongoing concerns about the systemic impact of potential long-term and widespread recession and potentially prolonged economic recovery, volatile energy costs, geopolitical issues, the availability, cost and terms of credit, consumer and business confidence, substantially increased and increasing unemployment rates and the crisis in the global housing and mortgage markets have all contributed to increased market volatility and diminished expectations for both established and emerging economies, including those in which we operate. In the second half of 2008, added concerns fueled by government interventions in financial systems led to increased market uncertainty and instability in both U.S. and international capital and credit markets. These conditions have contributed to economic uncertainty of unprecedented levels. The availability, cost and terms of credit also have been and may continue to be adversely affected by illiquid markets and wider credit spreads. Concern about the stability of the markets generally and the strength of counterparties specifically has led many lenders and institutional investors to reduce, and in many cases cease to provide, credit to businesses and consumers. These factors have led to a substantial and continuing decrease in spending by businesses and consumers over the past two years, and a corresponding decrease in global infrastructure spending. Continued turbulence in the U.S. and international markets and economies and prolonged declines in business and consumer spending may adversely affect our liquidity and financial condition, and the liquidity and financial condition of our customers, including our ability to refinance maturing debt instruments and to access the capital markets and obtain capital lease financing to meet liquidity needs. This financial crisis may have an impact on our business and financial condition in the following ways as well as in other ways that we currently cannot predict.

Potential risk in refinancing outstanding debts: Although none of our major debt instruments are scheduled to mature before 2013, at the earliest, if the volatility in the global capital markets were to continue, our ability to refinance our existing indebtedness when due could be severely constrained. See Risks Associated with Our Liquidity Needs and Debt Securities. Any such refinancing could require significantly more expensive interest rates and covenants that restrict our operations to a significantly greater extent.

Negative impacts from increased financial pressures on customers: Uncertainty about current and future global economic conditions and credit markets may cause consumers, business and governments to defer purchases in response to tighter credit, decreased availability of cash and credit, and declining
