Item 8.01. Other Events.

On January 24, 2012, SunGard Capital Corp., SunGard Capital Corp. II and SunGard Data Systems Inc. (collectively, the Company) filed an amendment to the Form 10-Q for the quarter ended September 30, 2011 to correct an error in the tax accounting treatment of a discontinued operation. In that filing, the Company identified a material weakness in internal control over financial reporting related to the execution of a single control in the accounting for income taxes. Since then, the Company has reviewed its controls over the accounting for income taxes more broadly. This review identified other issues in the control environment for the accounting for income taxes that need to be addressed. As a result, the Company has concluded that a material weakness in internal control over financial reporting related to the accounting for income taxes continues to exist at December 31, 2011. The Company will describe the specific nature of the material weakness and management's plans for the remediation thereof in its Form 10-K for the year ended December 31, 2011.

Notwithstanding the material weakness in accounting for income taxes, management believes that the consolidated financial statements which will be included in the Company's Annual Report on Form 10-K will fairly present, in all material respects, the financial position of SunGard Capital Corp., SunGard Capital Corp. II and SunGard Data Systems Inc. at December 31, 2011 and 2010 and their consolidated results of operations and cash flows for each of the three years in the period ended December 31, 2011 in conformity with U.S. generally accepted accounting principles.
