Note on Rating Information: Ratings are not a recommendation to purchase, hold or sell notes, inasmuch as the ratings do not comment as to market price or suitability for a particular investor. The ratings are based upon current information furnished to the rating agencies by the issuer and information obtained by the rating agencies from other sources. The ratings are only accurate as of the date thereof and may be changed, superseded or withdrawn as a result of changes in, or unavailability of, such information. Each rating should be evaluated independently of any other rating.

Note on Settlement: It is expected that delivery of the notes will be made against payment therefor on or about the settlement date specified above, which will be the fourth day following the date of the pricing of the notes (such settlement cycle being herein referred to as "T+4"). Trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes prior to the third business day before the delivery of the notes will be required, by virtue of the fact that the notes initially will settle in T+4, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of notes who wish to trade notes on the date of pricing or the next business day should consult their own advisors.

Note on Certain Netherlands Tax Considerations: Certain Netherlands tax considerations that may be relevant to you if you invest in the notes are described in "Taxation-Netherlands Taxation" in the Prospectus to which this term sheet relates, except that you should disregard the second and fourth bullet points under the heading "Gift tax or inheritance tax".
