PROXY STATEMENT

FOR THE ANNUAL MEETING OF STOCKHOLDERS OF

NETAPP, INC.

To Be Held August 31, 2012

General

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors ("Board" or "Board of Directors") of the Company of proxies to be voted at the Annual Meeting of Stockholders ("Annual Meeting") to be held on August 31, 2012, or at any adjournment or postponement thereof, for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders. Stockholders of record as of the close of business on July 11, 2012 will be entitled to vote at the Annual Meeting. The Annual Meeting will be held at 3:00 p.m. local time at the Company's headquarters at 495 East Java Drive, Sunnyvale, California 94089.

Notice of Internet Availability of Proxy Materials

In accordance with rules and regulations adopted by the Securities and Exchange Commission (the "SEC"), instead of mailing a printed copy of our proxy materials to each of our stockholders, we are now furnishing proxy materials to our stockholders over the Internet. If you received a Notice of Internet Availability of Proxy Materials by mail, you will not receive a printed copy of the proxy materials. Instead, the Notice of Internet Availability of Proxy Materials instructs you as to how you may access and review all of the information contained in the proxy materials. The Notice of Internet Availability of Proxy Materials also instructs you as to how you may submit your proxy over the Internet. If you received a Notice of Internet Availability of Proxy Materials by mail and would like to receive a printed copy of our proxy materials you should follow the instructions for requesting such materials included in the Notice of Internet Availability of Proxy Materials.

It is anticipated that the Notice of Internet Availability of Proxy Materials will be mailed to stockholders on or about July 20, 2012.

Record Date and Shares Outstanding

The close of business on July 11, 2012 was the record date to determine the stockholders who will be entitled to vote at the Annual Meeting and any adjournments or postponements thereof. At the record date, the Company had approximately 367,581,288 shares of its common stock outstanding and entitled to vote at the Annual Meeting and approximately 709 registered stockholders. No shares of the Company's preferred stock were outstanding. Each holder of common stock is entitled to one vote for each share of common stock held by such stockholder on July 11, 2012.

Quorum Requirement

A majority of the shares of common stock issued and outstanding and entitled to vote, in person or by proxy, constitutes a quorum for the transaction of business at the Annual Meeting.

Votes Required for Proposals

For Proposal No. 1, the 10 director nominees receiving the highest number of affirmative Votes Cast (as defined below) will be elected. Approval of each of Proposal Nos. 2, 3, 4, 5 and 6 requires the affirmative vote of a majority of the number of Votes Cast. Votes Cast for Proposal No. 4 will be on an advisory-basis only. Votes

will be tabulated by a representative of Broadridge Financial Solutions, Inc., the independent inspector of elections appointed for the Annual Meeting, who will separately tabulate affirmative and negative votes, abstentions and broker nonvotes. Voting results will be published in a Current Report on Form 8-K, which will be filed with the SEC within 4 business days following the Annual Meeting.

Stockholders of Record versus Beneficial Owners

You are a stockholder of record if, at the close of business on the record date, your shares of common stock were registered directly in your name with Computershare Shareowner Services, our transfer agent. If your shares of common stock are held in a brokerage account or by a bank or other nominee, you are considered to be the beneficial owner of shares held in street name. As the beneficial owner, you have the right to direct your broker or nominee how to vote your shares by following the voting instructions your broker or other nominee provides. If you do not provide your broker or nominee with instructions on how to vote your shares, your broker or nominee may not vote your shares with respect to any non-routine matters, but may, in its discretion, vote your shares with respect to routine matters.

Abstentions and Broker Nonvotes

While there is no definitive statutory or case law authority in Delaware as to the proper treatment of abstentions, the Company believes that abstentions should be counted for purposes of determining both (1) the presence or absence of a quorum for the transaction of business and (2) the total number of shares entitled to vote in person or by proxy at the Annual Meeting (Votes Cast) with respect to a proposal. In the absence of controlling precedent to the contrary, the Company intends to treat abstentions in this manner. Accordingly, abstentions will have the same effect as a vote against the proposal. However, because the outcome of Proposal No. 1 (election of directors) will be determined by a plurality of the Votes Cast, abstentions will have no impact on the outcome of such proposal so long as a quorum exists.

Broker nonvotes (that is, votes from shares held of record by brokers as to which the beneficial owners have given no voting instructions) will be counted for purposes of determining the presence or absence of a quorum for the transaction of business, but will not be counted for purposes of determining the number of Votes Cast with respect to the particular proposal on which the broker has expressly not voted. Accordingly, broker nonvotes will not affect the outcome of the voting on a proposal that requires a majority of the Votes Cast (such as the approval of an amendment to an option plan). Thus, a broker nonvote will make a quorum more readily attainable, but the broker nonvote will not otherwise affect the outcome of the vote on a proposal.

If your shares are held in street name and you do not instruct your broker on how to vote your shares, your brokerage firm, at its discretion, may either leave your shares unvoted or vote your shares on routine matters, but not on non-routine matters. The proposal to ratify the appointment of our independent registered public accounting firm for the current fiscal year (Proposal No. 5) will be treated as a routine matter. To the extent your brokerage firm votes your shares on your behalf on this proposal, such votes will be counted as Votes Cast. Proposal Nos. 1, 2, 3, 4 and 6 are not considered routine matters and, consequently, your brokerage firm cannot vote your shares on such proposals without your voting instructions.

Methods of Voting

Stockholders may vote by proxy. The Company is offering stockholders of record four methods of voting: (1) you may vote by telephone; (2) you may vote over the Internet; (3) you may vote in person at the Annual Meeting; and (4) finally, you may request a proxy card from us and indicate your vote by completing, signing and dating the card where indicated and by mailing or otherwise returning the card in the prepaid envelope that will be provided. Each stockholder is entitled to one vote on all matters presented at the Annual Meeting for each share of common stock held by such stockholder. Stockholders do not have the right to cumulate their votes for the election of directors.

If a proxy card is voted by telephone or Internet or signed and returned by mail without choices specified, in the absence of contrary instructions, subject to the limitations described in Rule 14a-4(d) under the Securities Exchange Act of 1934, as amended (Exchange Act), the shares of common stock represented by such proxy (i) will be voted FOR Proposal Nos. 1, 2, 3, 4 and 5, (ii) will be voted ABSTAIN on Proposal No. 6, and (iii) will be voted in the proxy holder's discretion as to other matters that may properly come before the Annual Meeting.

Revocability of Proxies

Any stockholder of record giving a proxy has the power to revoke it at any time before its exercise. You may revoke or change your proxy by filing with the Secretary of the Company an instrument of revocation or a duly executed proxy bearing a later date or by attending the Annual Meeting and voting in person. If you are the beneficial owner of your shares, you must contact the broker or other nominee holding your shares and follow their instructions to revoke your proxy or change your vote.

Solicitation of Proxies

The Company will bear the cost of soliciting proxies. Copies of solicitation materials will be made available upon request to brokerage houses, fiduciaries, and custodians holding shares in their names that are beneficially owned by others to forward to such beneficial owners. The Company may reimburse such persons for their costs of forwarding the solicitation materials to such beneficial owners. The Company has retained AST Phoenix Advisors, a professional proxy solicitation firm, to assist in the solicitation of proxies from stockholders of the Company. AST Phoenix Advisors may solicit proxies by personal interview, mail, telephone, facsimile, email, or otherwise. The Company expects that it will pay AST Phoenix Advisors its customary fee, estimated to be approximately \$9,500, plus reasonable out-of-pocket expenses incurred in the process of soliciting proxies. In addition, the original solicitation of proxies may be supplemented by solicitation by telephone, electronic communication, or other means by directors, officers, employees, or agents of the Company. No additional compensation will be paid to these individuals for any such services.

Annual Report

The Notice of Annual Meeting of Stockholders, this Proxy Statement and the Annual Report of the Company for the fiscal year ended April 27, 2012 have been made available to all stockholders entitled to vote at the Annual Meeting. The Annual Report is not incorporated into this Proxy Statement and is not considered proxy-soliciting material. The Annual Report is posted at the following website address: <http://investors.netapp.com/governance.cfm>.

Stockholder Proposals

The Company's stockholders may submit proposals that they believe should be voted upon at the Company's 2013 Annual Meeting of Stockholders. Stockholders may also recommend candidates for election to our Board of Directors for such Annual Meeting (See *Corporate Governance* and *Corporate Governance and Nominating Committee*).

Pursuant to Rule 14a-8 under the Exchange Act and subject to the requirements of our bylaws, stockholder proposals may be included in our 2013 Proxy Statement. Any such stockholder proposals must be submitted in writing to the attention of the Corporate Secretary, NetApp, Inc., 495 East Java Drive, Sunnyvale, California 94089, no later than March 22, 2013, which is the date 120 calendar days prior to the anniversary of the mailing date of the proxy statement for the fiscal 2012 Annual Meeting.

Alternatively, under the Company's bylaws, a proposal that a stockholder intends to present for consideration at the meeting but does not seek to include in the Company's proxy materials for the 2013 Annual Meeting (whether or not it relates to nominations to the Company's Board of Directors) must be received by the

Corporate Secretary (at the address specified in the preceding paragraph) not less than 120 calendar days prior to the date of the 2013 Annual Meeting. The stockholder's submission must include the information specified in the bylaws.

Stockholders interested in submitting such a proposal are advised to contact knowledgeable legal counsel with regard to the detailed requirements of applicable securities laws.

If a stockholder gives notice of a proposal or a nomination after the applicable deadline specified above, the notice will not be considered timely, and the stockholder will not be permitted to present the proposal or the nomination to the stockholders for a vote at the 2013 Annual Meeting.

Householding

The SEC has adopted rules that permit companies and intermediaries, such as brokers, to satisfy delivery requirements for proxy materials with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as "householding," potentially provides extra convenience for stockholders and cost savings for companies. The Company and some brokers household proxy materials unless contrary instructions have been received from one or more of the affected stockholders. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement, or if you are receiving multiple copies of the proxy statement and wish to receive only one, please (i) follow the instructions provided when you vote over the Internet, or (ii) contact Broadridge Financial Solutions, Inc., either by calling toll free at (800) 542-1061 or by writing to Broadridge, Householding Department, 51 Mercedes Way, Edgewood, New York 11717.

PROPOSAL NO. 1:**ELECTION OF DIRECTORS**

At the Annual Meeting, 10 directors constituting the entire Board are to be elected to serve until the next Annual Meeting of Stockholders or until successors for such directors are elected and qualified, or until the death, resignation or removal of such directors. It is intended that the proxies will be voted for the 10 nominees named below for election to the Company's Board unless authority to vote for any such nominee is withheld. Each person nominated for election has agreed to serve if elected, and the Board has no reason to believe that any nominee will be unavailable or will decline to serve. In the event, however, that any nominee is unable or declines to serve as a director at the time of the Annual Meeting, the proxies will be voted for any nominee who is designated by the current Board to fill the vacancy. Unless otherwise instructed, the proxy holders will vote the proxies received by them for the nominees named below. The 10 nominees receiving the highest number of affirmative votes of the shares entitled to vote at the Annual Meeting will be elected directors of the Company. The proxies solicited by this Proxy Statement may not be voted for more than 10 nominees.

Mr. Wallace offers a unique perspective and expertise that is relevant to leading and advising a growth company. His experience as a board member of another publicly traded company also provides important value and adds to his unique perspective.

CORPORATE GOVERNANCE

The Company's Board of Directors has adopted policies and procedures that the Board believes are in the best interests of the Company and its stockholders while being compliant with the Sarbanes-Oxley Act of 2002 and the rules and regulations of the SEC and The NASDAQ Stock Market, LLC (NASDAQ).

Board Leadership Structure

The Board of Directors does not currently have a policy on whether the roles of Chief Executive Officer and Chairman of the Board may be filled by one individual. This allows the Board flexibility to better address the leadership needs of the Company from time to time as it deems appropriate. We currently separate the positions of Chief Executive Officer and Chairman of the Board. Mr. Georgens serves in the role of Chief Executive Officer and Mr. Warmenhoven serves as Executive Chairman of the Board and Executive Chairman, a position intended to help the Company build and expand relationships with certain strategic partners around the world. The Board believes that the respective roles of Mr. Georgens and Mr. Warmenhoven best utilize their skills and qualifications in the service of the Company at this time.

The Chief Executive Officer is responsible for setting the strategic direction of the Company, the general management and operation of the business, and guidance and oversight of senior management. The Executive Chairman of the Board presides at all meetings of the Board and of the stockholders, monitors the content, quality and timeliness of information sent to the Board and is available for consultation with the Board regarding the Company's oversight of business affairs.

We have also designated one of our directors as Lead Independent Director because our Chief Executive Officer and Executive Chairman of the Board are both currently employees of the Company, and have deemed such position to be integral to our Board structure. The Lead Independent Director chairs Board meetings when the Executive Chairman of the Board is not present; schedules, sets the agenda for and chairs executive sessions; and chairs matters which are within the purview of the independent directors. The Lead Independent Director also chairs meetings of the Corporate Governance and Nominating Committee. In addition, the Lead Independent Director serves as a liaison between the Executive Chairman of the Board and the independent directors; recommends changes to improve the effectiveness of the Board, the Board committees and the individual directors serving on the Board; and performs such other functions and responsibilities as requested by the Board from time to time.

As described in more detail below, our Board of Directors has four standing committees, each chairman of which is an independent director. Our Board of Directors delegates substantial responsibility to each Board committee, which reports its activities and actions back to the full Board of Directors. We believe that our independent Board committees and their respective chairs are an important aspect of our Board leadership structure.

Corporate Governance Guidelines

The Board of Directors has adopted a formal set of Corporate Governance Guidelines concerning various issues related to Board structure, function and processes; Board committees; leadership development, including succession planning; oversight of risk management; and our ethics helpline. A copy of the Corporate Governance Guidelines is available on our website at <http://investors.netapp.com/governance.cfm>.

Risk Oversight

Our Board of Directors, as a whole and through its committees, has responsibility for the oversight of risk management. With the oversight of our full Board of Directors, our executive officers are responsible for the day-to-day management of the material risks the Company faces. In its oversight role, our Board of Directors has the responsibility to satisfy itself that the risk management processes designed and implemented by our executive officers are adequate and functioning as designed. The involvement of the full Board of Directors in setting our business strategy at least annually is a key part of the Board's oversight of risk management and allows the Board to assess and determine what constitutes an appropriate level of risk for the Company and review and consider management's role in risk management. The full Board of Directors regularly receives updates from management and outside advisors regarding certain risks the Company faces.

Each committee of the Board of Directors oversees specific aspects of risk management. For example, our Audit Committee is responsible for overseeing the management of risks associated with our financial reporting, accounting and auditing matters; our Compensation Committee oversees our management succession planning and the relationship between our compensation policies and programs and our risk management; our Corporate Governance and Nominating Committee oversees the management of risks associated with director independence, conflicts of interest, board composition and organization, and director succession planning; and our Strategy Committee reviews our capital structure, liquidity, balance sheet, geographic distribution of cash, and other data necessary to manage the risks related to our long-term strategic planning and contemplated strategic transactions. Our committees regularly report their findings to the full Board of Directors.

In addition, on an annual basis, each committee performs a comprehensive year-end risk management review, the results of which are reported to the Audit Committee. As part of the annual review, each committee considers a wide range of risks, including, to the extent applicable, risks related to (i) financial matters, including accounting policies, counterparties and liquidity; (ii) legal compliance matters, including competition law, data privacy and antitrust; (iii) strategic matters, including technology and market trends; (iv) operational matters; and (v) human resource matters. If appropriate, the Audit Committee holds follow-up discussions with applicable committee members. The final results of the year-end risk management review are reported to the full Board in the fourth quarter of each fiscal year.

Other than when the Board or a committee of the Board meets in executive session, senior management attends all meetings of the Board of Directors and its committees and is available to address questions raised by directors with respect to risk management and other matters.

Independent Directors

A majority of our Board are independent directors, as defined in the applicable NASDAQ rules.

The independent directors regularly meet in executive session, without management, as part of the normal agenda of our Board meetings.

The Lead Independent Director is a nonemployee director and is independent (as defined by the NASDAQ rules).

Corporate Governance and Nominating Committee

The Board has adopted guidelines for the identification, evaluation and nomination of candidates for director.

To assist with director nominations, the Board has assigned the Corporate Governance and Nominating Committee responsibility for reviewing and recommending nominees to the Board. While there are no specific minimum qualifications for director nominees, the ideal candidate should exhibit qualifications that will increase overall Board effectiveness, including independence, previous experience as an executive or director with other successful companies, and ability to meet other requirements under applicable rules, such as the requirement that Audit Committee members have an appropriate level of financial literacy and expertise. In evaluating the suitability of a particular director nominee, the Board considers a broad range of factors, including, without limitation, the nominee's character, integrity, judgment, independence, diversity (including with respect to race and gender), age, skills, education, expertise, length of service, understanding of the Company's business, and willingness and ability to make the necessary time commitment to diligently perform the duties of a director.

The Corporate Governance and Nominating Committee makes an effort to ensure that the Board's composition reflects a broad diversity of experience, professions, skills, viewpoints, geographic representation, personal traits and backgrounds. However, the Corporate Governance and Nominating Committee does not have a formal policy with respect to diversity, does not assign specific weights to particular criteria, and does not believe that any specific criterion is necessarily applicable to all prospective nominees. When the Corporate Governance and Nominating Committee reviews a potential new candidate, it looks specifically at the candidate's qualifications in light of the needs of the Board of Directors at that time, given the then-current mix of director attributes. With respect to the nomination of continuing directors for re-election, each continuing director's past contributions to the Board of Directors are also considered.

In the case of new director candidates, the Corporate Governance and Nominating Committee also determines whether the nominee must be independent for NASDAQ purposes, which determination is based upon applicable NASDAQ listing standards, applicable SEC rules and regulations and the advice of counsel, if necessary. The Corporate Governance and Nominating Committee generally relies on its network of contacts to compile a list of potential candidates, but it also engages a professional search firm when appropriate. The Corporate Governance and Nominating Committee conducts appropriate and necessary inquiries into the backgrounds and qualifications of possible candidates after considering the function and needs of the Board of Directors. The Corporate Governance and Nominating Committee meets to discuss and consider such candidates' qualifications and then selects a nominee for recommendation to the Board by majority vote.

If the Corporate Governance and Nominating Committee determines that it wants to identify new independent director candidates for Board membership, it is authorized to retain, and to approve the fees of, third-party executive search firms to help determine the skills and qualifications that would best complement the Board and identify prospective director nominees.

The Corporate Governance and Nominating Committee uses the same process for evaluating all nominees, regardless of the source of the nomination, provided that the Company does not consider nominees recommended by stockholders unless such stockholders have continuously held at least 3% of the outstanding shares of the Company's voting securities for at least 3 years prior to the date on which the recommendation is submitted.

A stockholder who desires to recommend a candidate for election to the Board must direct the recommendation in writing to NetApp, Inc., 495 East Java Drive, Sunnyvale, California 94089, Attention: Corporate Secretary and must include the candidate's name; home and business contact information; detailed biographical data and qualifications; information regarding any relationships between the candidate and the Company within the last three years; and evidence of the nominating person's ownership of Company stock.

All of the members of the Corporate Governance and Nominating Committee meet the applicable requirements for independence from Company management.

The Board has adopted a charter for the Corporate Governance and Nominating Committee that meets applicable NASDAQ standards and is available at <http://investors.netapp.com/governance.cfm>. Our nonemployee directors are eligible to receive equity awards under the Automatic Award Program of the 1999 Plan pursuant to an outside director compensation policy adopted by the Board and the Compensation Committee, which may be revised from time to time as the Board or the Compensation Committee deems appropriate. Such equity grants are made automatically upon a director's first election or appointment to the Board and at each Annual Meeting of Stockholders thereafter to directors who are re-elected and continue to serve. Pursuant to the terms of the compensation policy, a nonemployee director may elect to receive his or her automatic equity grants either in the form of all stock options or in a combination of stock options and RSUs, at the nonemployee director's discretion. The initial equity award for new nonemployee directors is represented as a dollar value rather than a fixed number of shares. For these purposes, the value of any awards of restricted stock or restricted stock units will equal the product of the fair market value of one share of common stock on the grant date of such award, and the aggregate number of shares of restricted stock or number of restricted stock units. With respect to stock options, the value is determined by using the Black-Scholes option valuation methodology, or such other methodology the Board or Compensation Committee may determine, on the grant date of the option. See Proposal No. 2 for a more thorough description of the Automatic Award Program.

Each nonemployee director is also eligible to receive an annual cash retainer for his or her board and committee service, pursuant to the terms of the compensation policy. In addition, the Compensation Committee has approved a deferral program for our nonemployee directors, which allows each nonemployee director to elect to defer the receipt of his or her annual cash retainer until a later date in accordance with applicable tax laws. If the nonemployee director does not elect to defer his or her cash compensation, he or she will continue to receive his or her cash compensation as set forth above. Additionally, to the extent a nonemployee director elects to receive a portion of his or her automatic equity grant in the form of RSUs, the director may be permitted to elect in accordance with federal tax laws when he or she will receive the payout from his or her earned RSUs and defer income taxation until the award is paid. An election to defer the payout of the earned RSUs is not intended to increase the value of the payout to the nonemployee director, but rather to give the nonemployee director the flexibility to decide when he or she will be subject to taxation with respect to the award. Any election to defer payment of any earned RSUs will not alter the other terms of the award, including the vesting requirements.

In May 2012, the Company adopted stock ownership guidelines applicable to the Company's nonemployee directors to ensure the directors remain meaningfully invested in Company stock. Under the terms of the

guidelines, each nonemployee director shall hold a minimum number of shares of the Company's common stock equal in value to at least three times the amount of such director's annual cash retainer amount. The Company's nonemployee directors have five years from the adoption date of the stock ownership guidelines to meet these guidelines. For more information about the Company's stock ownership guidelines, see Compensation Discussion and Analysis Stock Ownership Guidelines below.

At the 2011 Annual Stockholders Meeting held on August 31, 2011, each of the individuals reelected as a nonemployee Board member at that meeting received a number of RSUs and/or an option grant for a number of shares as indicated in the table below. In addition, on August 31, 2011, Messrs Allen, Earhart, Moore and Wall received an option grant for service as either the Lead Independent Director or Chair of a Board Committee. All such equity awards were received as compensation for service as a Board member, Lead Independent Director or Committee Chairperson, as applicable, in accordance with our director compensation policy described above.

The 1999 Plan is designed to assist in recruiting, motivating and retaining talented employees who help us achieve the Company's business goals, including creating long-term value for stockholders.

Description of the 1999 Plan

The following paragraphs provide a summary of the principal features of the 1999 Plan and its operation. The 1999 Plan is set forth in its entirety and has been filed as Appendix A to this Proxy Statement with the SEC. The following summary is qualified in its entirety by reference to the complete text of the 1999 Plan. Any stockholder who wants to obtain a copy of the actual plan document may do so by written request to the Corporate Secretary at the Company's principal offices in Sunnyvale, California.

The 1999 Plan is divided into five separate equity programs:

1. *Discretionary Option Grant Program* Under the Discretionary Option Grant Program, the Plan Administrator is able to grant options to purchase shares at an exercise price not less than the fair market value of those shares on the grant date.
2. *Stock Appreciation Rights Program* Under the Stock Appreciation Rights Program, the Plan Administrator is able to grant stock appreciation rights that will allow individuals to receive the appreciation in the shares subject to the award between the date of grant and the exercise date.
3. *Stock Issuance Program* Under the Stock Issuance Program, the Plan Administrator is able to make direct issuances of shares either through the issuance (or promise to issue) or immediate purchase of such shares or as a bonus for services rendered by participants on such terms as the Plan Administrator deems appropriate. In addition, the Plan Administrator is able to make grants of RSUs on such terms as the Plan Administrator deems appropriate.
4. *Performance Share and Performance Unit Program* Under the Performance Share and Performance Unit Program, the Plan Administrator is able to grant performance shares and performance units, which are awards that will result in a payment to a participant only if the performance goals or other vesting criteria established by the Plan Administrator are achieved or the awards otherwise vest.
5. *Automatic Award Program* Under the Automatic Award Program, nonemployee directors automatically receive award grants at periodic intervals to purchase or receive shares.

Administration of the 1999 Plan

The Compensation Committee of the Board of Directors administers the 1999 Plan (**Plan Administrator**). The members of the Compensation Committee qualify as nonemployee directors under Rule 16b-3 of the Exchange Act and as outside directors under Section 162(m) of the Internal Revenue Code of 1986, as amended (**Section 162(m)**), such that the Company can receive a federal tax deduction for certain compensation paid under the 1999 Plan.

Subject to the terms of the 1999 Plan, the Plan Administrator has the sole discretion to select the employees, consultants, nonemployee directors and other independent advisors who will receive awards, determine the terms and conditions of awards (for example, the exercise price and vesting schedule), and interpret the provisions of the 1999 Plan and outstanding awards, provided, however, that the Company is unable (without the approval of stockholders) to reduce the exercise price of any outstanding stock options or stock appreciation rights granted under the 1999 Plan or cancel any outstanding stock options or stock appreciation rights and immediately replace them with new stock options or stock appreciation rights with a lower exercise price, awards of a different type, and/or cash. Administration of the Automatic Award Program will be self-executing in accordance with the terms of the program, but the Plan Administrator will have discretion to revise the amount or type of award made under the program on a prospective basis. Subject to the terms of our Compensation Committee Charter, the Compensation Committee may delegate any part of its authority and powers under the 1999 Plan to a subcommittee consisting of at least two members, at least one of whom must be a member of the Board and the other of whom may be an officer or the Company's executive vice president of human resources, subject to Section 16(b) of the Exchange Act (such officers are referred to herein as **executive officers**), but only the Compensation Committee itself can make awards to participants who are executive officers of the Company.

Shares Subject to the 1999 Plan

If Proposal No. 2 is approved, a total of 111,380,429 shares will be reserved for issuance under the 1999 Plan. As of June 20, 2012, (i) 31,578,663 shares were subject to outstanding awards granted under the 1999 Plan, of which 20,262,623 shares were subject to option awards and 11,316,040 shares were subject to full value awards, (ii) 12,461,582 shares remained available for any new awards to be granted in the future, of which 5,397,059 shares may be granted as RSUs or other full value awards, and (iii) 59,990,184 shares had been issued pursuant to awards thereunder. The outstanding option awards have a weighted average exercise price of \$30.66 per share and a weighted average remaining term of 4.1 years. The closing price of our common stock was \$30.97 on June 20, 2012.

If an award expires or is cancelled without having been fully exercised or vested, the unvested or cancelled shares generally will be returned to the available pool of shares reserved for issuance under the 1999 Plan. Also, in the event any change is made to our common stock issuable under the 1999 Plan by reason of any stock split, stock dividend, recapitalization, combination of shares, merger, reorganization, consolidation, recapitalization, exchange of shares, or other change in capitalization of the Company affecting the common stock as a class without the Company's receipt of consideration, appropriate adjustments will be made to (1) the maximum number and/or class of securities issuable under the 1999 Plan, (2) the maximum number and/or class of securities for which any one individual may be granted stock options, stock appreciation rights, stock issuances, RSUs or performance shares and performance units under the 1999 Plan per calendar year, (3) the class and/or number of securities and the purchase price per share in effect under each outstanding award, and (4) the class and/or number of securities for which automatic awards are to be subsequently made under the Automatic Award Program. The Plan Administrator will make adjustments to outstanding awards to prevent the dilution or enlargement of benefits intended to be provided thereunder.

Discretionary Option Grant Program

A stock option is the right to acquire shares at a fixed exercise price for a fixed period of time. Under the Discretionary Option Grant Program, the Plan Administrator may grant nonstatutory stock options and/or incentive stock options (which entitle the recipients, but not the Company, to more favorable tax treatment). The

Plan Administrator will determine the number of shares covered by each option, but during any calendar year, no participant may be granted options and/or stock appreciation rights covering more than 3,000,000 shares.

The exercise price of each option is set by the Plan Administrator but cannot be less than 100% of the fair market value of the shares covered by the option on the date of grant. The exercise price of an incentive stock option must be at least 110% of fair market value if on the grant date the participant owns stock possessing more than 10% of the total combined voting power of all classes of stock of the Company or any of its subsidiaries.

An option granted under the Discretionary Option Grant Program cannot be exercised until it becomes vested. The Plan Administrator establishes the vesting schedule of each option at the time of grant. Options become exercisable at the times and on the terms established by the Plan Administrator. To the extent the aggregate fair market value of the shares (determined on the grant date) covered by incentive stock options first becomes exercisable by any participant during any calendar year is greater than \$100,000, the excess above \$100,000 will be treated as a nonstatutory stock option. Options granted under the 1999 Plan expire at the times established by the Plan Administrator, but not later than seven (7) years after the grant date.

Stock Appreciation Rights Program

A stock appreciation right is the right to receive the appreciation in fair market value of the shares subject to the award between the exercise date and the date of grant. We can pay the appreciation in either cash or shares. Stock appreciation rights will become exercisable at the times and on the terms established by the Plan Administrator, subject to the terms of the 1999 Plan. No participant will be granted stock appreciation rights and/or options covering more than 3,000,000 shares during any calendar year. The exercise price of each stock appreciation right is set by the Plan Administrator but cannot be less than 100% of the fair market value of the shares covered by the award on the date of grant. A stock appreciation right granted under the 1999 Plan cannot be exercised until it becomes vested. The Plan Administrator establishes the vesting schedule of each stock appreciation right at the time of grant. Stock appreciation rights granted under the 1999 Plan expire at the times established by the Plan Administrator, but not later than seven (7) years after the grant date.

Stock Issuance Program

Stock issuances are awards where shares are or will be issued to a participant and the participant's right to retain or receive such shares will vest in accordance with the terms and conditions established by the Plan Administrator. RSUs are awards that will result in a payment to a participant only if the performance goals or other vesting criteria established by the Plan Administrator are achieved or the awards otherwise vest. The number of shares covered by a stock issuance award or restricted stock unit awards will be determined by the Plan Administrator, but during any calendar year no participant may be granted an award covering more than 200,000 shares. No more than 8,893,237 shares plus the sum of (i) 50% of the number of shares subject to outstanding awards as of August 17, 2009 that are cancelled and returned to the 1999 Plan pursuant to its terms, and (ii) 50% of the number of shares that are added to the 1999 Plan upon approval of the stockholders after the 2009 Annual Meeting (which includes shares being added to the 1999 Plan pursuant to this proposal), may be issued pursuant to awards under the Stock Issuance and Performance Share and Performance Unit Programs and pursuant to RSUs issued under the Automatic Award Program. In determining whether an award should be made and/or the vesting schedule for any such award, the Plan Administrator may impose whatever conditions to vesting as it determines to be appropriate. For example, the Plan Administrator may determine to make an award only if the participant satisfies performance goals established by the Plan Administrator.

Performance Share and Performance Unit Program

Performance shares and performance units are awards that will result in a payment to a participant only if the performance goals or other vesting criteria established by the Plan Administrator are achieved or the awards otherwise vest. The Plan Administrator will establish organizational, individual performance goals or other vesting criteria at its discretion, which, depending on the extent to which they are met, will determine the number

and/or the value of performance units and performance shares to be paid to participants. No participant will receive performance units with an initial value greater than \$2,000,000, and no participant will receive more than 200,000 performance shares during any calendar year. Performance units will have an initial dollar value established by the Plan Administrator prior to the grant date. Performance shares will have an initial value equal to the fair market value of a share on the grant date. No more than 8,893,237 shares plus the sum of (i) 50% of the number of shares subject to outstanding awards as of August 17, 2009 that are cancelled and returned to the 1999 Plan pursuant to its terms, and (ii) 50% of the number of shares that are added to the 1999 Plan upon approval of the stockholders after the 2009 Annual Meeting (which includes shares being added to the 1999 Plan pursuant to this proposal), may be issued pursuant to awards under the Stock Issuance and Performance Share and Performance Unit Programs and pursuant to RSUs issued under the Automatic Award Program.

Performance Goals

The Plan Administrator (at its discretion) may make performance goals applicable to a participant with respect to an award intended to qualify as performance-based compensation under Section 162(m). At the Plan Administrator's discretion, one or more of the following performance goals will apply: annual revenue, cash position, earnings per share, individual objectives, net income, cash flow from operations, operating profit, return on assets, return on equity, return on sales and total stockholder return. The Plan Administrator may utilize other performance criteria for awards not intended to qualify as performance-based compensation under Section 162(m).

Automatic Award Program

The terms of the 1999 Plan provide that our nonemployee directors will automatically receive equity grants pursuant to a compensation policy adopted by the Board or the Compensation Committee that may be revised from time to time as the Board or the Compensation Committee deems appropriate. The Board has instituted a compensation policy for nonemployee directors whereby a nonemployee director may elect to receive his or her automatic equity grants either in the form of all stock options or in a combination of stock options and RSUs, at the nonemployee director's discretion. Nonemployee directors are also eligible to receive discretionary awards pursuant to the other equity programs under the 1999 Plan. The Board or Compensation Committee, in their respective discretion, may change and otherwise revise the terms of awards granted pursuant to the compensation policy for awards granted on or after the date they make the change.

Pursuant to the terms of the compensation policy, each new individual who is first elected or appointed as a nonemployee director on or after July 14, 2011 will automatically receive, on the date of his or her initial election or appointment to the Board, an award with a value of \$500,000 that will consist of either (i) a nonstatutory stock option, or (ii) if the Plan Administrator permits and the nonemployee director makes a timely election in accordance with the provisions of the 1999 Plan, a nonstatutory stock option and RSUs. For these purposes, the value of any awards of restricted stock or restricted stock units will equal the product of (1) the fair market value of one share of common stock on the grant date of such award, and (2) the aggregate number of shares of restricted stock or number of restricted stock units. With respect to stock options, the value is determined by using the Black-Scholes option valuation methodology, or such other methodology the Board or Compensation Committee may determine prior to the grant of a stock option becoming effective, on the grant date of the option. On the date of each annual stockholder meeting beginning with the 2011 Annual Meeting, each nonemployee director who is to continue to serve as a nonemployee director automatically receives an award of either (i) a nonstatutory stock option to purchase 17,000 shares, or (ii) if the Plan Administrator permits and the nonemployee director makes a timely election in accordance with the provisions of the compensation policy, a nonstatutory stock option to purchase 8,500 shares and 2,883 RSUs. In addition, each nonemployee director who serves as the Lead Independent Director or as chairperson of the Audit Committee, Compensation Committee, Corporate Governance and Nominating Committee, or the Strategy Committee will automatically be granted an option to purchase 3,000 shares.

The exercise price of each option granted to a nonemployee director is equal to 100% of the fair market value of the shares covered by the option on the date of grant. The shares subject to each nonstatutory stock option granted pursuant to an initial award is scheduled to vest over four (4) years, with five-elevenths of such shares vesting upon the nonemployee director's completion of one (1) year of Board service measured from the option grant date and the remaining balance vesting in three (3) equal annual installments over the three (3) year period measured from the first anniversary of the option grant date (assuming that he or she remains a nonemployee director on each scheduled vesting date). The shares subject to each nonstatutory stock option granted pursuant to an annual award shall become 100% vested on the day preceding the next annual stockholders meeting following the grant date, subject to the nonemployee director's continued service on such date. An option granted under the compensation policy is immediately exercisable. However, any shares purchased under the option program are subject to repurchase by the Company if the nonemployee director ceases Board service prior to vesting. If a nonemployee director terminates his or her service on the Board due to death or disability, his or her options would immediately vest.

Options granted to nonemployee directors generally expire no later than seven (7) years after the date of grant. If a nonemployee director terminates his or her service on the Board prior to an option's normal expiration date, the option will remain exercisable for twelve (12) months to the extent it has vested. However, the option may not be exercised later than the original expiration date.

RSUs granted under the compensation policy shall have a value equal to the fair market value of the shares on the grant date. RSUs granted pursuant to an initial award vest over four (4) years, with 5/11ths of the RSUs vesting upon the completion of the nonemployee director's first year of service on the Board measured from the RSU grant date and the remaining balance of RSUs vesting in three (3) equal annual installments over the three (3) year period measured from the first anniversary of the RSU grant date (assuming that he or she remains a nonemployee director on each scheduled vesting date). All RSUs granted pursuant to an annual award become 100% vested on the day preceding the next annual stockholders meeting following the grant date, subject to the nonemployee director's continued service on such date. If a nonemployee director terminates his or her service on the Board due to death or disability, 100% of his or her unvested RSUs would immediately vest. Additionally, the Board (or its authorized designee) may provide that holders of RSUs granted pursuant to the compensation policy be permitted to defer the delivery of the proceeds from vested RSUs to the extent that such deferral satisfies the requirements of the U.S. tax code.

Awards to be Granted to Certain Individuals and Groups

The number of awards that an employee, nonemployee director, or consultant may receive under the 1999 Plan is at the discretion of the Plan Administrator and therefore cannot be determined in advance. The following table sets forth (1) the aggregate number of shares subject to options granted under the 1999 Plan during fiscal 2012, (2) the average per share exercise price of such options, (3) the aggregate number of shares subject to awards of RSUs granted under the 1999 Plan during fiscal 2012, and (4) the dollar value of such shares based on \$30.97 per share, the fair market value of our common stock, on June 20, 2012.

Limited Transferability of Awards

Options granted under the 1999 Plan generally may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated, other than by will or by the applicable laws of descent and distribution. However, participants may, in a manner specified by the Plan Administrator, transfer nonstatutory stock options (1) to a member of the participant's family, (2) to a trust or other entity for the sole benefit of the participant and/or a member of his or her family, or (3) to a former spouse pursuant to a domestic relations order.

Federal Tax Aspects

The following paragraphs are a summary of the general federal income tax consequences to U.S. taxpayers and the Company of awards granted under the 1999 Plan. Tax consequences for any particular individual may be different.

Nonstatutory Stock Options

No taxable income is reportable when a nonstatutory stock option is granted to a participant. Upon exercise, the participant will recognize ordinary income in an amount equal to the excess of the fair market value (on the exercise date) of the shares purchased over the exercise price of the option. Any taxable income recognized in connection with an option exercise by an employee of the Company is subject to tax withholding by the Company. Any additional gain or loss recognized upon any later disposition of the shares would be capital gain or loss.

As a result of Section 409A of the Internal Revenue Code of 1936, as amended (the "Code"), and the Treasury regulations promulgated thereunder ("Section 409A"), nonstatutory stock options granted with an exercise price below the fair market value of the underlying stock or with a deferral feature may be taxable to the recipient in the year of vesting in an amount equal to the difference between the then fair market value of the underlying stock and the exercise price of such awards and may be subject to an additional 20% tax plus penalties and interest. In addition, certain states, such as California, have adopted similar tax provisions.

Incentive Stock Options

No taxable income is reportable when an incentive stock option is granted or exercised (except for purposes of the alternative minimum tax, in which case taxation is the same as for nonstatutory stock options). If the participant exercises the option and then later sells or otherwise disposes of the shares more than two (2) years after the grant date and more than one (1) year after the exercise date, the difference between the sale price and the exercise price will be taxed as capital gain or loss. If the participant exercises the option and then later sells or otherwise disposes of the shares before the end of the two (2) year or one (1) year holding periods described above, he or she generally will have ordinary income at the time of the sale equal to the fair market value of the shares on the exercise date (or the sale price, if less) minus the exercise price of the option.

Stock Appreciation Rights

No taxable income is reportable when a stock appreciation right is granted to a participant. Upon exercise, the participant will recognize ordinary income in an amount equal to the amount of cash received and the fair market value of any shares received. Any additional gain or loss recognized upon any later disposition of the shares would be capital gain or loss.

As a result of Section 409A, however, stock appreciation rights granted with an exercise price below the fair market value of the underlying stock or with a deferral feature may be taxable to the recipient in the year of vesting in an amount equal to the difference between the then fair market value of the underlying stock and the exercise price of such options and may be subject to an additional 20% tax plus penalties and interest. In addition, certain states, such as California, have adopted similar tax provisions.

Stock Issuance, Restricted Stock Units, Performance Units and Performance Shares

A participant generally will not have taxable income at the time an award of stock, RSUs, performance shares or performance units is granted. Instead, he or she will recognize ordinary income in the first taxable year in which his or her interest in the shares underlying the award becomes either (1) freely transferable or (2) no longer subject to substantial risk of forfeiture. However, the recipient of an award of restricted stock may elect to recognize income at the time he or she receives the award in an amount equal to the fair market value of the shares underlying the award (less any cash paid for the shares) on the date the award is granted and the recipient of an RSU granted pursuant to the Annual Award Program may be permitted to elect in accordance with federal tax laws when he or she will receive the payout from his or her earned RSUs and defer income taxation until the award is paid.

Tax Effect for the Company

The Company generally will be entitled to a tax deduction in connection with an award under the 1999 Plan in an amount equal to the ordinary income realized by a participant and at the time the participant recognizes such income (for example, the exercise of a nonstatutory stock option). Special rules limit the deductibility of compensation paid to our Chief Executive Officer and to certain other of our most highly compensated executive officers. Under Section 162(m) of the Code, the annual compensation paid to any of these specified executive officers will be deductible only to the extent that it does not exceed \$1,000,000. However, the Company can preserve the deductibility of certain compensation in excess of \$1,000,000 if the conditions of Section 162(m) are met. These conditions include stockholder approval of the 1999 Plan, setting limits on the number of awards that any individual may receive and for awards other than stock options, establishing performance criteria that must be met before the award actually will vest or be paid. The 1999 Plan has been designed to permit the Plan Administrator to grant awards that qualify as performance-based compensation for purposes of satisfying the conditions of Section 162(m), thereby permitting the Company to continue to receive a federal income tax deduction in connection with such awards.

Amendment and Termination of the Plan

The Board or the Primary Committee (as defined in the 1999 Plan) generally may amend or terminate the 1999 Plan at any time and for any reason, subject to stockholder approval if applicable.

Summary

The 1999 Plan is designed to assist us in recruiting, motivating and retaining talented employees who help us achieve our business goals, including creating long-term value for stockholders. We strongly believe that the amendment to the 1999 Plan to increase the number of shares we can use to grant awards is essential for us to compete for talent in the very competitive labor markets in which we operate.

Vote Required

The affirmative vote by a majority of the Votes Cast is required to approve the amendment to the 1999 Plan described in this Proposal No. 2. The effect of an abstention is the same as that of a vote against the proposal. Unless you indicate otherwise, your proxy will be voted FOR the proposal.

PROPOSAL NO. 3:

AMENDMENT TO THE COMPANY'S EMPLOYEE STOCK PURCHASE PLAN

Introduction

The Company is asking the stockholders to approve an amendment to the Company's Employee Stock Purchase Plan ("Purchase Plan"), which will increase the number of shares authorized for issuance under the Purchase Plan by an additional 5,000,000 shares.

We are asking our stockholders to increase the number of shares authorized for issuance under the Purchase Plan to ensure that the Company will continue to have a sufficient reserve of shares of the Company's common stock available under the Purchase Plan to provide eligible employees of the Company and its participating affiliates (whether now existing or subsequently established) with the opportunity to purchase shares at semiannual intervals through their accumulated periodic payroll deductions.

The Purchase Plan was adopted by the Board on September 26, 1995 and became effective on November 20, 1995, in connection with the Company's initial public offering of its common stock.

The terms and provisions of the Purchase Plan, as most recently amended, are summarized below. This summary, however, does not purport to be a complete description of the Purchase Plan. The Purchase Plan is set forth in its entirety and has been filed with the SEC as Appendix B to this Proxy Statement. The following summary is qualified in its entirety by reference to the complete text of the Purchase Plan. Any stockholder who wants to obtain a copy of the actual plan document may do so by written request to the Corporate Secretary at the Company's principal offices in Sunnyvale, California.

Description of the Purchase Plan

The Purchase Plan is administered by the Compensation Committee of the Board, serving as the plan administrator (the "Plan Administrator"). As Plan Administrator, such committee has full authority to adopt administrative rules and procedures and to interpret the provisions of the Purchase Plan.

Share Reserve

If Proposal No. 3 is approved, the maximum number of shares reserved for issuance over the term of the Purchase Plan will be 43,700,000 shares. As of June 20, 2012, 35,699,698 shares had been issued under the Purchase Plan, and 3,000,302 shares were available for future issuance. The closing price of our common stock was \$30.97 on June 20, 2012.

The shares issuable under the Purchase Plan may be made available from authorized but unissued shares or from shares of common stock reacquired by the Company, including shares purchased on the open market.

In the event that any change is made to the outstanding common stock (whether by reason of any stock split, stock dividend, recapitalization, exchange or combination of shares or other change affecting the outstanding common stock as a class without the Company's receipt of consideration), appropriate adjustments will be made to (1) the maximum number and class of securities issuable under the Purchase Plan, (2) the maximum number and class of securities purchasable per participant on any one semiannual purchase date, (3) the maximum number of shares purchasable in total by all participants on any one purchase date (if applicable), and (4) the number and class of securities subject to each outstanding purchase right and the purchase price per share in effect thereunder. Such adjustments will be designed to preclude any dilution or enlargement of benefits under the Purchase Plan or the outstanding purchase rights thereunder.

Offering Period and Purchase Rights

Shares are offered under the Purchase Plan through a series of overlapping offering periods, each with a maximum duration of twenty-four (24) months. Such offering periods will begin on the first business day of June

and on the first business day of December each year over the term of the Purchase Plan. Accordingly, two (2) separate offering periods will begin in each calendar year.

Each offering period will consist of a series of one or more successive purchase intervals. Purchase intervals will run from the first business day in June to the last business day in November each year and from the first business day in December each year to the last business day in May in the immediately succeeding year. Accordingly, shares will be purchased on the last business day in May and November each year with the payroll deductions collected from the participants for the purchase interval ending with each such semiannual purchase date.

If the fair market value per share of common stock on any semiannual purchase date within a particular offering period is less than the fair market value per share of common stock on the start date of that offering period, then the participants in that offering period will automatically be transferred from that offering period after the semiannual purchase of shares on their behalf and enrolled in the new offering period, which begins on the next business day following such purchase date.

Eligibility and Participation

Any individual who is employed on a basis under which he or she is regularly expected to work for more than twenty (20) hours per week for more than five (5) months per calendar year in the employ of the Company or any participating parent or subsidiary corporation (including any corporation which subsequently becomes such at any time during the term of the Purchase Plan) (or any lesser number of hours per week and/or number of months in any calendar year established by the Plan Administrator in accordance with applicable law and the provisions of the Purchase Plan) is eligible to participate in the Purchase Plan.

An individual who is an eligible employee on the start date of any offering period may join that offering period by properly electing to participate in the offering period pursuant to procedures established by the Plan Administrator in accordance with the terms of the Purchase Plan. However, no employee may participate in more than one offering period at a time.

As of June 20, 2012, approximately 12,216 employees, including all five of our executive officers, were eligible to participate in the Purchase Plan.

Purchase Price

The purchase price of the shares purchased on behalf of each participant on each semiannual purchase date will be equal to 85% of the lower of (1) the fair market value per share on the start date of the offering period in which the participant is enrolled or (2) the fair market value on the semiannual purchase date.

The fair market value per share on any particular date under the Purchase Plan will be deemed to be equal to the closing selling price per share on such date reported on the NASDAQ Global Select Market. On June 20, 2012, the closing selling price per share of the Company's common stock on the NASDAQ Global Select Market was \$30.97.

Payroll Deductions and Stock Purchases

Each participant may authorize periodic payroll deductions in any multiple of 1% up to a maximum of 10% of his or her total cash earnings (generally base salary, bonuses, overtime pay and commissions) to be applied to the acquisition of shares at semiannual intervals. Accordingly, on each semiannual purchase date (the last business day in May and November each year), the accumulated payroll deductions of each participant will automatically be applied to the purchase of whole shares at the purchase price in effect for the participant for that purchase date.

Special Limitations

The Purchase Plan imposes certain limitations upon a participant's rights to acquire common stock, including the following limitations:

Purchase rights granted to a participant may not permit such individual to purchase more than \$25,000 worth of shares (valued at the time each purchase right is granted) for each calendar year those purchase rights are outstanding.

Purchase rights may not be granted to any individual if such individual would, immediately after the grant, own or hold outstanding options or other rights to purchase stock possessing 5% or more of the total combined voting power or value of all classes of stock of the Company or any of its affiliates.

No participant may purchase more than 1,500 shares on any one purchase date.

The Plan Administrator will have the discretionary authority to increase, decrease, or implement the per participant and any total participant limitations prior to the start date of any new offering period under the Purchase Plan.

Withdrawal Rights and Termination of Employment

The participant may withdraw from the Purchase Plan at any time (subject to the Plan Administrator's authority to designate a different withdrawal date in accordance with the provisions of the Purchase Plan), and his or her accumulated payroll deductions may either be applied to the purchase of shares on the next semiannual purchase date or refunded.

Upon the participant's cessation of employment or loss of eligible employee status, payroll deductions will automatically cease. Any payroll deductions which the participant may have made for the semiannual period in which such cessation of employment or loss of eligibility occurs will be immediately refunded.

Stockholder Rights

No participant will have any stockholder rights with respect to the shares covered by his or her purchase rights until the shares are actually purchased on the participant's behalf. No adjustment will be made for dividends, distributions or other rights for which the record date is prior to the date of such purchase.

Assignability

Purchase rights are not assignable or transferable by the participant and may be exercised only by the participant.

Change of Control

In the event a change of control occurs, all outstanding purchase rights will automatically be exercised immediately prior to the effective date of such change of control. The purchase price in effect for each participant will be equal to 85% of the lower of (1) the fair market value per share on the start date of the offering period in which the participant is enrolled at the time the change of control occurs or (2) the fair market value per share immediately prior to the effective date of such change of control.

A *change of control* will be deemed to occur if (1) the Company is acquired through a merger or consolidation in which more than 50% of the Company's outstanding voting stock is transferred to a person or persons different from those who held stock immediately prior to such transaction; (2) the Company sells, transfers or disposes of all or substantially all of its assets; or (3) any person or related group of persons acquires ownership of securities possessing more than 50% of the total combined voting power of the Company's outstanding securities pursuant to a tender or exchange offer made directly to the Company's stockholders.

Share Proration

Should the total number of shares to be purchased pursuant to outstanding purchase rights on any particular date exceed either (1) the maximum number of shares purchasable in total by all participants on any one purchase date (if applicable) or (2) the number of shares then available for issuance under the Purchase Plan, then the Plan Administrator will make a pro-rata allocation of the available shares on a uniform and nondiscriminatory basis. In such an event, the Plan Administrator will refund the accumulated payroll deductions of each participant, to the extent in excess of the purchase price payable for the shares prorated to such individual.

Amendment and Termination

The Purchase Plan will terminate upon the earliest of (1) the date on which all shares available for issuance thereunder are sold pursuant to exercised purchase rights or (2) the date on which all purchase rights are exercised in connection with a change of control.

The Board may at any time alter, amend, suspend or discontinue the Purchase Plan and will seek stockholder approval of any changes to the extent necessary to comply with the Internal Revenue Code or other applicable law, regulation or stock exchange rule.

Plan Benefits

The table below shows, as to the named executive officers (NEOs) and specified groups, the number of shares purchased under the Purchase Plan during fiscal 2012, together with the value of those shares as of the date of purchase.

Participation in the Purchase Plan

Participation in the Purchase Plan is voluntary and dependent on each eligible employee's election to participate and his or her determination as to the level of payroll deductions. Accordingly, future purchases under the Purchase Plan are not determinable. Nonemployee directors are not eligible to participate in the Purchase Plan. The following table sets forth certain information regarding shares purchased under the Purchase Plan during the last fiscal year for each of the NEOs, for all current executive officers as a group and for all other employees who participated in the Purchase Plan as a group:

AMENDED PLAN BENEFITS

- (1) Determined based on the fair market value of the shares on date of purchase, minus the purchase price under the Purchase Plan.
- (2) Mr. Noviello assumed this position effective January 1, 2012.
- (3) Mr. Gomo retired effective December 31, 2011.

New Plan Benefits

No purchase rights have been granted, and no shares have been issued, on the basis of the 5,000,000 share increase that is the subject of this Proposal No. 3.

Federal Tax Consequences

The Purchase Plan is intended to be an employee stock purchase plan within the meaning of Section 423 of the Code. Under an employee stock purchase plan, which so qualifies, no taxable income will be recognized by a participant, and no deductions will be allowable to the Company, upon either the grant or the exercise of the purchase rights. Taxable income will not be recognized until there is a sale or other disposition of the shares acquired under the Purchase Plan or in the event the participant should die while still owning the purchased shares.

If the participant sells or otherwise disposes of the purchased shares within two (2) years after the start date of the offering period in which such shares were acquired or within one (1) year after the actual semiannual purchase date of those shares, then the participant will recognize ordinary income in the year of sale or disposition equal to the amount by which the fair market value of the shares on the purchase date exceeded the purchase price paid for those shares, and the Company will be entitled to an income tax deduction, for the taxable year in which such disposition occurs equal in amount to such excess. The participant will also recognize capital gain equal to the amount by which the amount realized upon the sale or disposition exceeds the sum of the aggregate purchase price paid for the shares and the ordinary income recognized in connection with their acquisition.

If the participant sells or disposes of the purchased shares more than two (2) years after the start date of the offering period in which the shares were acquired and more than one (1) year after the actual semiannual purchase date of those shares, then the participant will recognize ordinary income in the year of sale or disposition equal to the lesser of (1) the amount by which the fair market value of the shares on the sale or disposition date exceeded the purchase price paid for those shares or (2) 15% of the fair market value of the shares on the start date of that offering period. Any additional gain upon the disposition will be taxed as a long-term capital gain. The Company will not be entitled to an income tax deduction with respect to such disposition.

If the participant still owns the purchased shares at the time of death, the lesser of (1) the amount by which the fair market value of the shares on the date of death exceeds the purchase price or (2) 15% of the fair market value of the shares on the start date of the offering period in which those shares were acquired will constitute ordinary income in the year of death.

Summary

The Board believes that it is in the best interests of the Company and its stockholders to continue to provide employees with the opportunity to acquire an ownership interest in the Company through their participation in the Purchase Plan and thereby encourage them to remain in the Company's employ and more closely align their interests with those of the stockholders.

Vote Required

The affirmative vote of a majority of the Votes Cast is required for approval of the amendment to the Purchase Plan described in this Proposal No. 3. Should such stockholder approval not be obtained, the 5,000,000 share increase, which is the subject of this Proposal, will not be implemented. Unless you indicate otherwise, your proxy will be voted FOR the proposal.

PROPOSAL NO. 4

ADVISORY VOTE ON NAMED EXECUTIVE OFFICER COMPENSATION

SAY ON PAY

In accordance with Section 14A of the Exchange Act, we are asking stockholders to approve an advisory resolution on the compensation of our Named Executive Officers (NEOs) as reported in this Proxy Statement. As described below in the Compensation Discussion and Analysis section of this Proxy Statement, the Compensation Committee has designed the compensation of our NEOs to align each NEO's compensation with our short-term and long-term performance and to provide the compensation and incentives needed to attract, motivate and retain the NEOs, who are crucial to our long-term success. You are urged to read the Compensation Discussion and Analysis, which describes in more detail our executive compensation policies, as well as the Summary Compensation Table and other related compensation tables and narrative disclosure, which provide detailed information on the compensation of our NEOs.

Our compensation programs reflect our continued commitment to pay-for-performance, with a substantial portion of each NEO's compensation being at-risk and subject to important performance measures aligned with long-term stockholder value. During fiscal 2012, a significant percentage of each NEO's total compensation (as reported in the Summary Compensation Table) was at-risk, being comprised of performance-based cash bonus opportunities, restricted stock units, and stock options, which become valuable to the executive only upon realized share appreciation. The Compensation Committee sets a portion of the compensation of the NEOs based on their ability to achieve annual operational objectives that advance our long-term business objectives and that are designed to create sustainable long-term stockholder value in a cost-effective manner. Our performance-based compensation elements are guided by the Compensation Committee's long-term objectives of maintaining market competitiveness and retention value of our compensation packages. In addition, we continue to be committed to good compensation governance practices. The Compensation Committee believes that the compensation arrangements for NEOs are consistent with market practice and provide for compensation that is reasonable in light of our and each individual NEO's performance. Moreover, the Compensation Committee does not provide for egregious pay practices, such as excessive perquisites or tax gross up payments as elements of our NEOs' compensation. The detailed ways in which we link pay with Company and individual performance and structures the NEO compensation arrangements consistent with good governance practices is described in the Compensation Discussion and Analysis section below.

The resolution to approve the compensation of our NEOs on an advisory basis, commonly known as a say-on-pay proposal, gives stockholders the opportunity to express their views on our NEOs' compensation. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our NEOs and the philosophy, policies and practices described in this Proxy Statement. Accordingly, you are being asked to vote on the following resolution at the Annual Meeting:

RESOLVED, that the Company's stockholders approve, on an advisory basis, the compensation of the NEOs, as disclosed in the Company's Proxy Statement for the 2012 Annual Meeting of Stockholders pursuant to the executive compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the fiscal 2012 Summary Compensation Table and the other related tables and disclosure.

The say-on-pay vote is advisory, and is therefore not binding on us, the Compensation Committee or the Board. However, the Board and Compensation Committee value the opinions of our stockholders, and to the extent there is any significant vote against the NEO compensation disclosed in this Proxy Statement, the Compensation Committee will consider the Company's stockholders' concerns and will evaluate whether any actions are necessary to address those concerns. We currently conduct advisory votes on NEO compensation on an annual basis, and we expect to conduct our next advisory vote at our 2013 Annual Meeting of Stockholders.

Vote Required

The affirmative vote by a majority of the Votes Cast is required to approve this proposal. The effect of an abstention is the same as that of a vote against the proposal. Unless you indicate otherwise, your proxy will be voted FOR the proposal.

PROPOSAL NO. 5

RATIFICATION OF INDEPENDENT AUDITORS

The Company is asking the stockholders to ratify the selection of Deloitte & Touche LLP as the Company's independent auditors for the fiscal year ending April 26, 2013.

In the event the stockholders fail to ratify the appointment, the Audit Committee of the Board of Directors will consider it as a direction to select other auditors for the subsequent year. Even if the selection is ratified, the Audit Committee at its discretion may direct the appointment of a different independent accounting firm at any time during the year if the Board determines that such a change would be in the best interest of the Company and its stockholders.

A representative of Deloitte & Touche LLP is expected to be present at the Annual Meeting, will have the opportunity to make a statement if he or she desires to do so, and will be available to respond to appropriate questions.

Vote Required

The affirmative vote by a majority of the Votes Cast is required to ratify the selection of Deloitte & Touche LLP. The effect of an abstention is the same as that of a vote against the proposal. Unless you indicate otherwise, your proxy will be voted **FOR** the proposal.

PROPOSAL NO. 6

STOCKHOLDER PROPOSAL

John Chevedden, 2115 Nelson Avenue, No. 205, Redondo Beach, CA 90278, beneficial owner of shares of the Company's common stock valued at \$2,000 or greater, has given notice that he intends to present a proposal for action at the Annual Meeting. In accordance with SEC rules, the following is the complete text of the proposal exactly as submitted. The shareholder proposal includes some assertions that we believe are misleading. We have not addressed all of these assertions, and we accept no responsibility for the proposal.

6 Adopt Simple Majority Vote

Shareholders request that our board take the steps necessary so that each shareholder voting requirement in our charter and bylaws that calls for a greater than simple majority vote be changed to require a majority of the votes cast for and against such proposals. If necessary this means the closest standard to a majority of the votes cast for and against such proposals consistent with applicable laws.

Shareowners are willing to pay a premium for shares of corporations that have excellent corporate governance. Supermajority voting requirements have been found to be one of six entrenching mechanisms that are negatively related to company performance. Source: "What Matters in Corporate Governance?" by Lucien Bebchuk, Alma Cohen and Allen Ferrell, Harvard Law School, Discussion Paper No. 491 (September 2004, revised March 2005).

This proposal topic won from 74% to 88% support at Weyerhaeuser, Alcoa, Waste Management, Goldman Sachs, FirstEnergy, McGraw-Hill and Macy's. The proponents of these proposals included Ray T. Chevedden and Kenneth Steiner.

Currently a 1%-minority can frustrate the will of our 66%-shareholder majority. Supermajority requirements are arguably most often used to block initiatives supported by most shareowners but opposed by management.

The merit of this proposal should also be considered in the context of the opportunity for additional improvement in our company's 2012 reported corporate governance in order to make our company more competitive:

The Corporate Library, an independent investment research firm, rated our company "D" with "High Governance Risk" and "High Concern" in Executive Pay.

Our CEO Thomas Georgens was given 300,000 market-priced stock options (\$4 million) in 2011 after receiving 900,000 in 2010. Our CEO also realized \$13 million from the exercise of 675,000 options—a profit of \$19 per share. Mr. Georgens also received restricted stock units that simply vested over time, similar to his options. Furthermore, our CEO was potentially entitled to \$49 million following a change of control. Finally, our company had no clawback policy for the recovery of executive pay in the event of fraud or financial restatements.

Chairman Daniel Warmenhoven and Director Robert Wall had more than 18-years tenure each, an independence concern. Two directors were insiders and another director was inside-related—more independence concerns. Mr. Warmenhoven was reimbursed \$400K for using his private plane for company business. Four directors owned zero-stock.

George Shaheen was designated a "flagged [problem] director" by The Corporate Library due to his Webvan stint, where he resigned after eighteen months and was then entitled to a golden parachute of \$375,000 annually for the rest of his life. Webvan traded at 12 cents when Mr. Shaheen left. And it is a sad irony that Mr. Shaheen was 33% of our executive pay committee.

Please encourage our board to respond positively to this proposal to initiate improved governance and increase our competitiveness: **Adopt Simple Majority Vote Yes on 6.**

NetApp's Response

The Board of Directors has carefully considered this proposal and has determined not to make a recommendation either in favor of or opposed to the proposal.

The Company's certificate of incorporation and bylaws currently provide that most actions to be taken by stockholders require the affirmative vote of a majority of the number of Votes Cast. The principal actions to be taken by stockholders that require more than the affirmative vote of a majority of the number of Votes Cast are:

stockholder amendments to the provisions of the certificate of incorporation in respect of (i) stockholder amendments to the bylaws, (ii) elections of directors and the filling of vacancies on the Board, (iii) the ability of stockholders to act by written consent and certain procedural matters related to stockholder meetings, and (iv) director and officer indemnification and director exculpation; and

stockholder amendments to the bylaws (a similar provision to that included in the certificate of incorporation).

With respect to the foregoing matters, the Company's certificate of incorporation and bylaws require the affirmative vote of the holders of at least 66²/₃% of the outstanding voting stock of the Company in order to repeal or amend any of these provisions. This is commonly known as a supermajority vote provision.

Supermajority vote provisions are included in the certificates of incorporation and bylaws of many publicly-traded Delaware corporations. Supporters of these provisions believe that they provide minority stockholders with some level of protection against self-interested actions by one or more large stockholders and ensure that the consensus of a substantial majority of stockholders exists in favor of certain actions.

The Board is aware that in recent years a number of companies have eliminated supermajority vote provisions under the theory that doing so increases a board's accountability to stockholders and the ability of stockholders to influence corporate governance.

Valid arguments exist on both sides of this issue. Accordingly, rather than make a specific recommendation, the Board wants to understand the Company's stockholders' views on this issue prior to reaching its final viewpoint. The Board is committed to good governance practices and continuously monitors governance issues of interest to stockholders. The Board will consider the level of support that this proposal receives in making a determination regarding the advisability of adopting amendments to the Company's certificate of incorporation and bylaws to eliminate the supermajority voting provisions described above. The Board would only adopt such amendments if, consistent with its fiduciary duty, it believed them to be in the best interests of the Company and all of its stockholders. The Board looks forward to receiving input from stockholders on this important issue.

Vote Required

This proposal is advisory in nature and would constitute a recommendation to the Board if it is approved by stockholders. Approval of the proposal by the affirmative vote of a majority of the number of Votes Cast would not by itself eliminate the Company's supermajority voting provisions described above, and action by the Board would be required to amend the Company's certificate of incorporation and bylaws to eliminate these provisions. The effect of an abstention is the same as that of a vote against the proposal. Unless you indicate otherwise, your proxy will be voted ABSTAIN for the proposal.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires the Company's directors and executive officers and persons who own more than 10% of a registered class of the Company's equity securities to file with the SEC initial reports of ownership and reports of changes in their ownership of common stock and other equity securities of the Company. Executive officers, directors and greater than 10% stockholders are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file.

Based solely on the review of the copies of such reports furnished to the Company and written representations that no other reports were required, the Company believes that during the fiscal year ended April 27, 2012, its executive officers, directors and greater than 10% stockholders complied with all Section 16 filing requirements, other than two late Form 4 filings by Mr. Warmenhoven reporting a total of four transactions of sales of the Company's common stock. The four sales were transacted by the trustee of the Daniel J. Warmenhoven 1991 Children's Trust during fiscal 2010 and fiscal 2011.

COMPENSATION DISCUSSION AND ANALYSIS

The Board has delegated to the Compensation Committee of the Board (Compensation Committee) sole authority and responsibility for establishing and overseeing salaries, incentive compensation programs, and other forms of compensation for our executive officers, general remuneration policies for the balance of our employee population and for administering our equity incentive and benefits plans. As used in this Compensation Discussion and Analysis (CD&A), the term executive refers to an employee of the Company who holds a position at the Senior Vice President level or above, and the term named executive officers (NEOs) refers to the individuals included in the Summary Compensation Table below.

This CD&A explains the material elements of compensation for our NEOs and how our executive compensation program is designed and operated to help us achieve our corporate goals. The Compensation Committee believes strongly in a pay for performance philosophy and administered the executive compensation program during fiscal 2012 with this in mind.

The principal components of compensation that we pay to our NEOs consist of the following:

1. Base salary;
2. Cash incentive compensation tied to the achievement of short-term (generally annual) goals;
3. Equity compensation in the form of grants of stock options and restricted stock units; and
4. Standard employee benefits (including our 401(k) plan, health and life insurance plans, and nonqualified deferred compensation program) and the Executive Retirement Medical Plan (for certain qualifying NEOs).

Our stockholders will have the opportunity once again at this year's Annual Meeting to endorse our executive compensation program through the stockholder advisory vote on executive compensation (commonly known as a say-on-pay vote) included as Proposal 4 in this Proxy Statement. Last year, over 94% of the stockholder votes cast on this proposal were voted in favor of our executive compensation proposal. The Compensation Committee believes that this substantial majority of votes cast affirms stockholders' support for our approach to executive compensation. Last year's stockholder vote on executive compensation occurred in August 2011, while the Compensation Committee's consideration of executive compensation occurred earlier in 2011, with compensation for most elements established by May 2011. As a result of both of these factors, the Compensation Committee did not set or change fiscal 2012 executive compensation directly as a result of last year's stockholder vote. The Compensation Committee expects to continue to consider input from stockholders and the outcome of our annual say-on-pay votes when making future executive compensation decisions. We encourage you to review this CD&A, together with the compensation tables that follow, prior to casting your advisory vote on the say-on-pay proposal.

Executive Summary

Our executive compensation program is designed to hold our NEOs accountable for results over the long term and reward them for consistently strong corporate performance.

Pay for Performance Philosophy

Our Compensation Committee is committed to a philosophy of pay for performance and designs our executive compensation program to ensure that our NEOs' interests are aligned with those of our stockholders. The Compensation Committee links NEOs' compensation to the attainment of challenging goals that will drive us to achieve profitability and revenue growth. The Compensation Committee emphasizes profitability and revenue metrics because it believes that solid performance in these areas will lead to long-term stockholder value.

Equity is a key component of our compensation program. We believe strongly that equity awards serve to align the interests of our NEOs with those of our stockholders, provide incentives for executives to focus on the long-term performance of the company, and strengthen retention. The Compensation Committee considers Company and individual performance in determining the size and form of NEO equity grants.

As part of its diligence around scrutinizing pay and performance, the Compensation Committee, on behalf of the full Board, reviews analyses that are prepared by its independent consultant, Farient Advisors (Farient). These analyses are designed to test the award outcomes of our executive pay programs to ensure that they are aligned with our financial and stockholder performance. Following the close of fiscal 2012, Farient used its proprietary alignment methodology to test whether the Company's Performance-Adjusted CompensationTM (PACTM)¹ was: (1) reasonable in comparison to the Company's revenue size and the Pay Practices Peers (excluding the five companies that are significantly different in size as described in the Competitive Market Data section below) and (2) sensitive to the Company's total stockholder return (TSR) over time.² Farient compared our CEO's Performance-Adjusted Compensation (covering actual salary, actual short-term incentives, and performance-adjusted long-term incentive values) over rolling three-year periods to TSR for the same rolling three-year periods (for three-year rolling periods ending in fiscal 2004 to 2012), and tested the results against those same variables for the Pay Practices Peers.

The chart below shows Farient's Alignment ReportTM for the Company. The Peer Pay Line represents the regression line for the PAC data points of the Pay Practices Peers, and the NetApp Pay Line represents the regression line for NetApp's PAC data points. The Alignment Zone indicates the range of reasonable pay outcomes, as determined by Farient, for the Company's size, the Pay Practices Peers, and the performance delivered.

¹ Performance-Adjusted CompensationTM is a trademark of Farient Advisors LLC developed to measure compensation outcomes after performance has occurred, rather than target compensation, which is measured before performance has occurred.

² Each data point reflects Performance-Adjusted Compensation (adjusted for size and inflation) for a three-year period (ending in the fiscal year noted on the chart for the Company) and TSR for the same period. As TSR is a market-based measure, stock price volatility can result in significant fluctuations from period to period. Farient uses rolling three-year periods which are sensitive enough to reflect changes in performance but long enough to smooth out short-term volatility.

Farient's independent assessment of the Company's pay for performance indicates that NetApp's CEO pay has historically been and continues to be strongly aligned with the Company's performance and stockholder interests. In addition, Farient conducted supplemental analyses commonly used by independent governance organizations to test whether our CEO's pay and performance move in concert with one another. By requesting and reviewing these analyses, the Compensation Committee satisfied itself as to the coherence and integrity of our executive pay system and the relationship between pay and performance.

Company Performance

We experienced strong performance in fiscal 2011 and the Compensation Committee's goal was to incentivize our NEOs to lead us to even stronger performance in fiscal 2012. During fiscal 2012, we continued progress on a number of strategic and operational fronts, which included:

Our strong product growth rate in the storage business resulted in additional market share gain;

Our recent launch of our operating system, Data ONTAP® 8, further strengthened our position as the platform of choice for the next-generation IT infrastructure;

We are now viewed as a clear innovation leader in virtualized environments, producing solutions that are efficient, flexible, automated and secure, all with less complexity and a smaller footprint than those of the competition;

Our channel diversification and channel relationships remain strong, with the related market diversification of our channels being a key driver to our growth strategy;

We achieved revenues of \$6.23 billion, an increase of 22% over fiscal 2011. Through the fourth quarter of fiscal 2012, we had nine consecutive quarters of over 20% year-over-year product revenue growth;

Record net revenue combined with operating expense discipline helped us achieve operating profit above that achieved in fiscal year 2011³;

Our cash flow from operations for fiscal 2012 totaled \$1.462 billion, allowing us to continue to fund our investments in future growth, while increasing returns to stockholders through the repurchase of over \$600 million of our common stock during the year;

We completed the purchase of the Engenio external storage systems business, extending our strategic reach with new OEM business;

We were honored to be named #6 on Fortune Magazine's 2012 list of the 100 Best Companies to Work For, our fourth consecutive year in the top 10. We have always stressed that our culture is a long-term strategic advantage, and this process enables us to measure ourselves against the very best and identify opportunities for improvement;

NetApp was named a Fortune 500 company by Fortune Magazine, the annual ranking of America's largest publicly and privately-held companies, based on the company's fiscal 2011 revenue of \$5.1 billion.

The Compensation Committee believes that our financial performance is best expressed through our operating profit and revenue results for the year. Operating profit encourages our NEOs to deliver strong product offerings for customers that are priced competitively, while effectively managing resources that directly impact the Company's underlying operations and therefore positively or negatively impact operating profit. Metrics relating to increased revenue ensure that we will continue to invest in our product and services portfolio and leverage our channel partners to drive top line growth, and will keep our NEOs from focusing solely on improvements in our cost

structure to drive operating income. We were able to build on our strong fiscal 2011 performance in fiscal 2012 as evidenced by the year over year performance for these key metrics described above.

We feel this level of Company achievement is directly attributable to the results driven by our executive team and the commitment by the Compensation Committee to pay for performance. This performance and supporting philosophy have resulted in significant value to our stockholders as reflected in our total stockholder return as shown in the table below.

Annualized Total Stockholder Return	Year Over Year (%)	3-Year (%)

Alignment of Performance and Compensation

In fiscal 2012, our executive compensation program aligned compensation with our business objectives and performance as follows:

Incentive Compensation Plan Our cash incentive plan aligns executive compensation with our annual performance and motivates our NEOs to enhance the value of the Company. Our NEOs only earn their incentives if we achieve threshold levels of performance for operating profit and revenue. When the annual performance target goals are exceeded, accelerators are triggered (up to capped limits) in order to reward the higher than expected performance, while decelerators are applied (down to the threshold levels) if the actual results are lower than the performance targets. For fiscal 2012, the Company achieved 86.4% of our annual target operating profit goal and 92.1% of our annual target revenue goal, which resulted in payment of cash incentives to our NEOs equal to 50.6% of their target amounts.

Equity Awards We grant our NEOs awards of stock options and restricted stock units (RSUs) to align their incentives with the long-term interests of our stockholders, reward them for their contributions, and provide them an opportunity to share in our positive performance. The size of the awards was based in part on our strong fiscal 2011 performance and their expected future contributions to our long-term success. The value of these awards ultimately depends on the performance of our stock.

Base Salary Our base salary compensation is designed to promote excellence in the day-to-day management and operation of our business. Adjustments to base salary are driven by Company performance and market forces. This is a fixed element of compensation, but represents less than 20% of our NEOs' total target compensation.

The link between Company performance, the performance of our stock, and compensation for our NEOs is illustrated by the following charts, which show the portion of 2012 compensation for our CEO and the other NEOs disclosed in the Summary Compensation Table below.

As these charts illustrate, most of our CEO's and other NEOs' total compensation is performance-based, meaning that the actual value realized is subject to short-term financial performance or long-term stock price performance. By linking more of our NEOs' total compensation to performance, the Company emphasizes variable pay, which is consistent with the Company's pay for performance philosophy.

Other Compensation Considerations

As noted above, the Compensation Committee seeks to ensure that total compensation is weighted to variable, performance-based compensation and that non-performance-based compensation is limited. In addition, we adhere to the following best practices for our executive compensation programs and policies:

No Pension or SERPs. We do not provide our NEOs with a defined benefit pension plan or any supplemental executive retirement plans. Our employees, including NEOs, are able to participate in our 401(k) plan.

No Individual Executive Contracts. We do not have separate employment contracts with our executive officers.

Double Trigger Change of Control Severance Agreements. Our change of control severance agreements provide severance payments and accelerated vesting of equity awards only on a double trigger basis.

No Tax Gross-Ups. Tax gross-ups are not provided to our NEOs on change of control severance payments or any other compensation.

Ownership Guidelines. Equity compensation encourages our directors and executives to have an owner's perspective in managing the Company. To extend and maintain that ownership perspective over time, in May 2012, the Company adopted approved stock ownership guidelines for the Company's directors, Chief Executive Officer, and all Executive Vice Presidents (discussed further below in Policies Regarding Granting of Equity Awards).

Risk Oversight. The Compensation Committee oversees and evaluates the design and implementation of the incentives and risks associated with our compensation policies and practices. In addition, the Audit Committee reviews risks associated with compensation policies and practices as part of its overall corporate risk management assessment.

Independent Compensation Consultant. The Compensation Committee's compensation consultant provides services only for the Compensation Committee and does not provide any other services to the Company.

The Compensation Committee believes that the programs and policies described above demonstrate our commitment to an effective pay-for-performance executive compensation program in 2012. For more information, please see the discussion below.

Principles and Objectives of Compensation

The Compensation Committee has designed our executive compensation program with respect to our NEOs in order to:

Drive long-term positive stock performance by linking a meaningful portion of NEO compensation to the creation of stockholder value;

Reward our NEOs when the Company experiences high levels of Company financial performance;

Recruit and retain experienced and highly qualified executives despite the competitive labor environment in which the Company competes for such talent; and

Motivate our NEOs to perform to the best of their abilities while conducting themselves ethically.

The Compensation Committee believes in a pay-for-performance philosophy. Total compensation generally is higher for our NEOs compared to other executives and employees in recognition of their greater responsibility and ability to influence the Company's performance. As an NEO's position and responsibility increase, we believe that a greater portion of his/her total compensation should be performance-based pay that is contingent on the achievement of specific corporate goals or the increase in Company value for our stockholders. As an NEO's performance-based pay increases with higher levels of responsibility, we also believe that equity-based compensation should comprise a higher portion of total compensation. Therefore, our executive compensation program is structured such that a significant portion of our NEOs' total target compensation is tied to long-term appreciation of our stock price.

We offer each component of compensation outlined below to our NEOs because we believe that in combination they meet the goals that we have set for our Company. Our base salary compensation is designed to promote excellence in the day-to-day management and operation of our business. Our cash incentive compensation program rewards behaviors that support the Company's short-term (typically annual) goals. Our equity award program targets longer term value creation and rewards behavior that leads to a sustained increase in our stock price and is also a key tool for retaining our NEOs.

Administration of Our Compensation Program

The Compensation Committee determines and approves the principal components of compensation for our NEOs on an annual basis, typically prior to or shortly after the beginning of the applicable fiscal year. At the outset of each fiscal year, the Committee establishes a formal planning calendar to ensure a consistent and deliberative approach to its executive compensation decisions, including scheduling its process for evaluating competitive market data, reviewing compensation strategy, approving executive pay actions, administering executive incentive plans, and reporting outcomes to stockholders.

In making its decisions regarding compensation, the Compensation Committee obtains the advice and counsel of Farient. In fiscal 2012, Farient provided information and guidance on our compensation strategy, our peer group, competitive pay levels and pay practices, including dilution, the regulatory environment and investor trends, the alignment between our executive pay and performance, the design of our incentive plans, including the performance measures and goals used in our Incentive Compensation Plan, our pay mix, including the mix of long-term incentive vehicles, disclosures to our stockholders, our annual compensation risk assessment, and Board compensation. Farient also provided advice on key talent development processes, including top management evaluation and succession. Farient did not provide any services to the Company other than those requested and approved by the Compensation Committee.

The Compensation Committee also solicits the input of our CEO regarding the salary, incentive compensation and equity-based compensation to be paid to our NEOs. As part of the annual review process, our CEO provides recommendations for NEOs other than himself consistent with our pay for performance philosophy, and therefore his recommendations are based on our CEO's assessment of the Company's performance and each NEO's performance of his or her duties in helping to achieve that Company performance. With respect to compensation for our CEO, the Chair of the Compensation Committee solicits input from our CEO and the Board of Directors as to their perspectives on the CEO's and the Company's performance, and from Fairient regarding CEO compensation relative to the market and company performance. The Compensation Committee deliberates and makes decisions on our CEO's compensation outside the presence of our CEO.

Factors in Determining Compensation

The primary factors that the Compensation Committee takes into consideration in establishing the principal components of compensation for our NEOs are discussed below. While these are typically the considerations upon which the Compensation Committee bases its compensation decisions for our NEOs, the Compensation Committee may, at its discretion, apply entirely different factors, such as different measures of financial performance, for future fiscal years.

Self-Assessment

After each fiscal year, executives in senior vice president positions and above perform an evaluation of their performance for the prior year. To guide in this assessment, each executive is requested to analyze the Company's performance as a whole and their performance, as well as their respective team's performance, in helping to drive and support that performance. Our CEO uses this self-assessment as one of the factors, along with the others described below, in making his recommendations to the Compensation Committee regarding their compensation. Likewise, our CEO performs a similar self-assessment and communicates this to the Chairman of our Compensation Committee near the end of the fiscal year.

Competitive Market Data

In order to establish the market rate of pay for NEOs, the Compensation Committee reviews data from a targeted peer group of similarly situated technology companies. To determine the appropriate peer group, the Compensation Committee considers companies that are similar in one or more of the following criteria: revenue, number of employees, market capitalization and other comparable business considerations. In addition to focusing on our direct product line competitors, we consider other companies that we compete with for talent in our various markets and for which data is available.

Edgar Filing: NetApp, Inc. - Form DEF 14A

For fiscal 2012, the Compensation Committee reviewed and revised the Company's compensation peer group, used to benchmark compensation of our NEOs, with assistance and guidance from Farient. In particular, the Company focused on a set of technology companies where the median revenue of the group approximates \$4 billion to \$5 billion, consistent with the Company's annual revenue upon conclusion of fiscal 2011. For fiscal 2012, the Compensation Peer Group consisted of:

Adobe Systems Inc.	Hewlett-Packard Company	Pillar Data Systems
Advanced Micro Devices, Inc.	Hitachi Data Systems	Red Hat, Inc.
Apple Inc.	Intel Corporation	Riverbed Technology, Inc.
Applied Materials Inc.	International Business Machines Corp.	Salesforce.com
BMC Software Inc.	Intuit Inc.	SanDisk Corp.
Brocade Communications Systems, Inc.	Juniper Networks, Inc.	SAP AG
CA Technologies	Lexmark International Inc.	Seagate Technology
Cisco Systems, Inc.	Logitech	Silicon Graphics International
Citrix Systems, Inc.	LSI Corporation	Symantec Corporation
CommVault Systems, Inc.	McAfee, Inc.	Teradata Corporation
Dell Inc.	Micron Technology Inc.	VMware, Inc.
eBay Inc.	Microsoft Corporation	Western Digital Corp.
EMC Corporation	NVIDIA Corporation	Yahoo! Inc.
Google Inc.	Oracle Corp.	Xilinx Inc.
Harris Corp.	QLogic Corp.	

In addition, with Farient's assistance and guidance the Compensation Committee identified a more targeted list of fifteen companies in the storage and enterprise solutions markets in order to assess pay practices (for example, the use of equity incentives, performance measures, and goal setting) and to supplement our benchmarking of NEO compensation. These Pay Practices Peers consisted of the following companies:

BMC Software, Inc.	EMC Corporation	Microsoft Corporation*
Brocade Communications Systems, Inc.	Hewlett-Packard Company*	Oracle Corp.*
CA, Inc.	International Business Machines Corp.*	Symantec Corporation
Citrix Systems, Inc.	Juniper Networks, Inc.	Teradata Corporation
CommVault Systems, Inc.*	McAfee, Inc.	VMware, Inc.

* These companies are substantially different in size from us and were therefore excluded from our pay level benchmarking analysis. However, the Compensation Committee includes the programs and policies of these companies in its review of market practices.

Pay Positioning

The Compensation Committee has established a pay positioning philosophy for NEOs which examines the compensation practices of the Compensation Peer Group. The Compensation Committee established this pay positioning given the highly competitive market for talent in which we participate, our rapid growth, and the relatively aggressive incentive goals for our organization. For fiscal 2012, we targeted between

Edgar Filing: NetApp, Inc. - Form DEF 14A

the 50th and 75th percentile for total compensation versus the Compensation Peer Group. As a starting point, the Compensation Committee looked at the ranges of base salary, target cash incentive and equity compensation between the 50th and 75th percentile within the Compensation Peer Group and used its judgment in determining proper levels of each component of compensation for NEOs. The result is intended to be a total compensation package which is on average for NEOs at approximately the 60th percentile versus the Compensation Peer Group for target levels of performance, which the Compensation Committee believes is consistent with the Company's historically high rates of growth and performance goals, which generally have been in excess of competitors.

The Compensation Committee makes decisions regarding individual NEO's compensation based on a wide range of factors, including the specific responsibilities of each NEO, individual and corporate performance, skills

and experience, and overall contribution to the management and strategic development of the Company. These subjective factors are considered by the Compensation Committee in its judgment without any specific weight or measurement. The Compensation Committee also relies on the input and recommendations of our CEO and Farient when making these decisions.

For our NEOs, a majority of their total compensation is performance-based, meaning that the actual value realized is subject to short-term financial performance or long-term stock price performance. By linking more of our NEOs' total compensation to performance, the Company emphasizes variable pay, which is consistent with the Company's pay for performance philosophy.

Components of Compensation

Base Salary

Base salaries are intended to compensate our NEOs on a day-to-day basis for their services to the Company. The Compensation Committee does not target specific percentiles within the Compensation Peer Group when making its base salary decisions for our NEOs. Instead, the Compensation Committee evaluates the base salary amounts of the Compensation Peer Group and refers to the 50th to 75th percentile of such salaries as a reference from which to make decisions regarding NEO salaries. Using this range ensures that the Company's base salaries are competitive with the companies for which we compete for talent, but also permits the Compensation Committee to use its own judgment to ultimately determine NEO salaries. In setting the base salary for each NEO, the Compensation Committee considers the NEO's qualifications and experience, scope of responsibilities, future potential contributions to the Company, the NEO's past performance relative to the goals and objectives of the NEO and the length of the NEO's tenure with the Company. The relative weight given to each factor varies with each individual at the sole discretion of the Compensation Committee.

In fiscal 2012, modest salary increases were implemented for NEOs generally in line with salary increases considered for the general employee population and consistent with the practices being observed by our Pay Practice Peers. The Compensation Committee primarily focused on the market range of the Compensation Peer Group in adjusting base salaries for NEOs with the result that base salaries for NEOs were positioned at approximately the 60th percentile relative to the Compensation Peer Group.

Incentive Compensation Plan

The Compensation Committee believes that a cash incentive compensation plan that is tied to operational performance metrics motivates our NEOs to achieve short-term performance goals that are important drivers of business results and ultimately stock price performance. The Compensation Committee annually develops an incentive compensation plan under our Executive Compensation Plan with payment of incentives, if any, shortly following the end of a particular fiscal year.

Similar to the establishment of base salary amounts, the Compensation Committee does not target specific percentiles within the Compensation Peer Group when making its target incentive decisions for our NEOs. Instead, the Compensation Committee refers to and evaluates the 50th to 75th percentile of the short-term cash incentive compensation of the Compensation Peer Group. Using this range ensures that the Company's short-term cash incentive compensation is competitive with the companies for which we compete for talent. For fiscal 2012, our NEOs' target short-term incentive cash compensation was positioned at approximately the 65th percentile relative to the Compensation Peer Group.

For fiscal 2012, the Compensation Committee maintained the framework for evaluating short-term incentives for our NEOs such that the incentive compensation plan established for fiscal 2012 under our Executive Compensation Plan will include a combination of revenue and operating profit targets (with revenue weighted 1/3rd and operating profit weighted 2/3rds). The Compensation Committee believes that the continued use of revenue as a performance measure for fiscal 2012 encourages our NEOs to expand market share in the

highly competitive markets within which we compete and mitigates the inherent volatility of relying solely on operating profit as the performance measure. The continued use of operating profit encourages the NEOs to manage effectively resources that directly impact the Company's underlying operations and therefore positively or negatively impact operating profit. These measures are intended to reflect the Company's business strategy, which includes making tradeoffs between operating profit margins and revenue growth. Additionally, the use of two corporate metrics encourages executives to make balanced decisions that are intended to benefit the Company as a whole, while mitigating potential risks that might exist for executives to be focused on achieving a single metric which could lead them to taking actions that could be contrary to the Company's overall interests.

Prior to or shortly after the beginning of each fiscal year, including the 2012 fiscal year, the Company develops an annual operating plan (or AOP) that includes a measure of non-GAAP income from operations (or operating profit) (as described below) and revenue. The AOP is derived from results in the prior year as well as the Company's expectations for its performance relative to the Company's competitors and the overall market for the upcoming year and is reviewed and approved by the Board of Directors each year. The target operating profit and revenue goals for the incentive compensation plan for fiscal year 2012 were set at the expected level of achievement of the AOP, which the Compensation Committee believed was an aggressive target that reflected the Company's growth strategy.

The measure of non-GAAP operating profit is derived from the revenues of our products, software entitlement and maintenance, and services and the costs directly related to the generation of those revenues, such as cost of revenue, sales and marketing, research and development, and general and administrative expenses. Non-GAAP operating profit, both on an actual and target basis, excludes items that we believe are not reflective of our short-term operating performance, such as stock-based compensation expenses, acquisition related income and expenses, amortization of intangible assets, restructuring and other charges, significant asset impairments, non-cash interest expense, income tax effects, and litigation settlement payments or awards. We publicly disclose a detailed reconciliation of actual GAAP to non-GAAP net income and operating profit, along with other statement of operations items, on a regular basis with the Company's quarterly earnings announcements.

In establishing our operating income and revenue goals, we set challenging growth targets that we believe exceed growth rates relative to our peers.

The accelerators and decelerators for fiscal 2012 were maintained at the same level as in fiscal 2011. The specific performance range and payouts for each measure are as follows^()

For fiscal 2012, the Company achieved 86.4% of our annual target operating profit goal⁴ and 92.1% of our annual target revenue goal, which resulted in actual cash incentives paid to our NEOs equaling 50.6% of their target amounts.

⁴ This metric was calculated on a non-GAAP basis as discussed in greater detail above.

Long-Term Stock-Based Incentive Compensation

The grant of equity awards to our NEOs is designed to align their interests with those of the stockholders and provide them with a significant incentive to manage the Company from the perspective of an owner with an equity stake in the business.

Equity award guidelines for our NEOs are designed to be competitive with those offered by companies in the Compensation Peer Group. The Company does not target a specific percentile of the Compensation Peer Group when determining the value of equity awards. Instead, the Compensation Committee refers to and evaluates the 50th to 75th percentile of the equity practices of the Compensation Peer Group as a general guideline for the value of equity grants and then considers the Company's own unique situation and goals when determining the value of equity grants. The size of the actual equity grant to each NEO is designed to create a meaningful opportunity for stock ownership and is based on a number of factors, which include the NEO's current position with the Company, external comparability with equity grants made to executive officers of the Compensation Peer Group, internal comparability with equity grants made to other executives within the Company, the number of vested and unvested options and RSUs held by the NEO, the NEO's current level of performance, the NEO's potential for future responsibility and promotion over time, and the remaining share reserve under the Company's equity plan. The Compensation Committee, however, does not place any particular weight on any one individual factor and does not adhere to any specific guidelines in making its determinations.

In fiscal 2012, the Compensation Committee granted both stock options and RSUs to our NEOs. Though many of the companies in the Compensation Peer Group utilize only RSUs to compensate their executives, the Compensation Committee believes that stock options are an important part of the equity package. Stock options allow each NEO to acquire shares of the Company's common stock at a fixed price per share (the market price on the grant date) over a specified period of time (up to seven years), thus providing value to the NEO only if the market price of the shares appreciates over the option term. Accordingly, they better align the NEOs' interests with those of stockholders and drive long-term performance.

RSUs, on the other hand, are full-value grants settled in the Company's stock, which reward NEOs for changes in our stock price, but also provide retention incentive even when our stock price does not increase. We use RSUs to better manage the number of shares needed to deliver a competitive compensation package to our NEOs (as RSUs require fewer shares and are less dilutive over time as compared to stock options) and to include a retention element in our overall compensation package in addition to performance incentives.

For fiscal 2012, the mix of options versus RSUs for NEOs other than our CEO was 50%-50% based on the fair value on the date of grant. The mix for our CEO was 75% options and 25% RSUs. The Compensation Committee weighted our CEO's grant more heavily to stock options because it believes that he has the greatest ability to influence the Company's performance and therefore he should have a greater portion of his award at risk by requiring an increase in the Company's stock price for him to benefit from it. The mix of options versus RSUs is reviewed by the Compensation Committee annually and may fluctuate from year to year.

For fiscal 2012, the Compensation Committee approved grants that were above the Company's competitive grant guidelines for the NEOs. The Compensation Committee chose to approve fiscal 2012 grants at above market levels partly because of the Company's excellent performance in fiscal 2011 relative to the Compensation Peer Group and partly for retention purposes due to the highly competitive market for talent as the economy improved.

Policies Regarding Granting of Equity Awards

The Compensation Committee has established an equity subcommittee to award equity to employees who are Vice President level or below or other service providers, which is currently comprised of our CEO and the Executive Vice President of Human Resources. The exception to this delegation is that the Compensation Committee has retained the authority to grant or amend equity awards to Vice Presidents who report directly to

our CEO. The Compensation Committee establishes equity grant guidelines each year for the equity subcommittee's consideration in approving such grants, and the Compensation Committee is informed on a regular basis of all grants made by the equity subcommittee that are outside of the guidelines.

Except in extraordinary circumstances as approved by the Compensation Committee, we grant stock options and RSUs to all of our employees (including our NEOs) on fixed dates. Grants to new hires in connection with their commencement of employment become effective on the 15th (or the first business day following the 15th in the event that the 15th falls on a weekend or holiday) of the month that immediately follows the month in which the individual first commences employment with us. RSUs commence vesting on the date of grant and stock options commence vesting from the first day of the person's employment. Promotion and retention grants generally become effective on the 15th (or the first business day following the 15th in the event that the 15th falls on a weekend or holiday) of the month that immediately follows the month in which the promotion becomes effective, except that we sometimes grant retention awards to become effective prior to the close of our fiscal year. Vesting for promotion RSUs commences from the date of grant and for stock option grants on the effective date of the promotion. Annual retention and refresh stock option and RSU grants for employees who are Vice President level and above generally become effective on June 1st (or the first business day following June 1st in the event that June 1st falls on a weekend or holiday) and on July 15th (or the first business day following July 15th in the event that July 15th falls on a weekend or holiday) for employees who are below the Vice President level. Annual RSU and stock option grants commence vesting from the date of grant.

We do not have either a policy or practice in place to grant equity awards that are timed to precede or follow the release or withholding of material nonpublic information.

Stock Ownership Guidelines

The Board believes that stock ownership by the Company's directors and executives helps to align the interest of the Company's directors and executives with the interests of the Company's stockholders. To extend and maintain that ownership perspective over time, in May 2012, the Company adopted the following minimum share ownership guidelines for Company's directors, Chief Executive Officer, and Executive Vice Presidents:

Each director shall hold a number of shares of the Company's common stock equal in value to at least three times the amount of such director's annual cash retainer amount;

The Chief Executive Officer shall hold a number of shares of the Company's common stock equal in value to at least five times the amount of the Chief Executive Officer's base salary; and

Each Executive Vice President shall hold a number of shares of the Company's common stock equal in value to at least two times the amount of such Executive Vice President's base salary.

The Company's directors and executives have five years from the adoption date of these stock ownership guidelines to meet these guidelines. Newly appointed directors and executives have five years from the time they are elected, appointed, hired, or promoted, as the case may be, to meet these guidelines. Once achieved, ownership of the guideline amount must be maintained for as long as the individual is subject to these guidelines.

Recovery of Incentive-Based Compensation

The Company and the Compensation Committee each recognize that the compensation program will be subject to the forthcoming rules and regulations to be promulgated by the Securities and Exchange Commission (SEC) as a result of Section 954 of the Dodd-Frank Act, which directs the SEC to issue rules prohibiting the listing on any national securities exchange of companies that do not adopt a policy providing for the recovery from any current or former executive officer of any incentive-based compensation (including stock options) awarded during the three-year period prior to an accounting restatement resulting from material noncompliance of the issuer with financial reporting requirements. We intend to adopt such a "clawback" policy which complies with all applicable standards when such rules become available.

Other Compensation for NEOs

Severance and Change of Control Arrangements

The Compensation Committee has developed change of control severance agreements which we have entered into with our key senior executives so that we can mitigate the risk of not being able to retain key senior executives in the event of an acquisition of the Company. When deciding on the terms of such agreements, the Compensation Committee consulted with its advisor, who provided various suggestions regarding the potential terms of a change of control severance agreement based on competitive market data from our peer group in effect at the time. In considering these potential terms, the Compensation Committee's objectives were to: (1) assure we would have the continued dedication and objectivity of our senior executives, notwithstanding the possibility of a change of control of the Company, thereby aligning the interests of these key senior executives with those of the stockholders in connection with potentially advantageous offers to acquire the Company; and (2) create a total executive compensation plan that was competitive with our peer group. The Compensation Committee from time to time determines which key senior executives will receive a change of control severance agreement. Individuals are selected as needed to support the above outlined objectives.

The terms of the individual Change of Control Severance Agreements are described in further detail in the section below titled "Potential Payments upon Termination or Change in Control." The Compensation Committee believes that these change of control severance agreements satisfy the objectives above and ensure that key executives are focused on the Company's goals and objectives, as well as the interests of our stockholders, rather than any negative personal consequences that may arise as a result of a change of control.

Perquisites

Certain of our NEOs are eligible to participate in the Company's Executive Retirement Medical Plan, which upon retirement provides medical coverage beyond the COBRA maximum benefit period to a defined group of senior executives based on minimum age, service and level of responsibility (that is, Executive Vice President or above) as a fully-insured plan. The plan was adopted by the Company as a method to retain the defined group of executives. Our NEOs are also entitled to a preventative care medical benefit of up to \$2,500 per calendar year not available to nonexecutives.

Other Benefits and Reimbursements

NEOs are eligible to participate in all of our employee benefit plans, such as medical, dental, vision, group life and accidental death and dismemberment insurance and our 401(k) plan. We offer up to \$3,000 in a matching contribution under our 401(k) plan to each employee. Under the Company's nonqualified deferred compensation program (discussed in further detail below), participating employees (including the NEOs) may defer a percentage of their compensation. The program permits contributions on a tax deferred basis in excess of IRS limits imposed on 401(k) plans as permitted and in compliance with Internal Revenue Code Section 409A. The only additional retirement benefits (other than the 401(k) plan) that we offer to certain of our NEOs are those under the Executive Retirement Medical Plan discussed above.

Tax Deductibility of Compensation

Section 162(m) of the Code generally disallows a tax deduction to publicly held companies for compensation paid to certain executive officers, to the extent that compensation exceeds \$1 million per officer in any year. The Company generally seeks to maximize the deductibility for tax purposes of all elements of compensation. Our Amended and Restated 1999 Stock Option Plan is structured so that any compensation recognized by an executive officer in connection with the exercise of his or her outstanding options under the plan will qualify as performance-based compensation and will not be subject to the \$1 million limitation. In addition, our Amended and Restated 1999 Stock Option Plan allows our Compensation Committee to structure equity awards other than stock options as performance based compensation under Section 162(m). In addition,

our Executive Compensation Plan allows us to structure our cash incentives that are paid thereunder to qualify for a deduction under Section 162(m). The Compensation Committee, however, periodically reviews applicable tax provisions, such as Section 162(m), and may revise compensation plans from time to time to comply with their rules and to maximize deductibility.

The information contained in the following Compensation Committee Report shall not be deemed to be soliciting material or to be filed with the Securities and Exchange Commission, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that the Company specifically incorporates it by reference in such filing.

Nonqualified Deferred Compensation

Under the Company's Deferred Compensation Plan, key employees, including the NEOs, may defer from 1% to 100% of the compensation they receive. The Deferred Compensation Plan allows contributions on a tax deferred basis in excess of IRS limits imposed on 401(k) Plans as permitted and in compliance with Internal Revenue Code Section 409A. Eligible employees may defer an elected percentage of eligible earnings that include base salary, sales incentive compensation, and Company incentive compensation. Eligible employees are director level and higher employees who are on the U.S. payroll. Elections made under the Deferred Compensation Plan are irrevocable for the period (plan year) to which they apply, and cannot be changed or terminated. If no new election is made for a subsequent plan year, the election will be 0%. Previous elections do not carry forward.

Interest (earnings) is not calculated by the Company or related to the Company's earnings in the last fiscal year. Instead, deferrals are placed (at the participant's direction) into a variety of publicly traded mutual funds administered through Fidelity Investments. The mutual funds available mirror those in the Company 401(k) Plan. Available mutual funds are selected and monitored by the 401(k) Committee which is comprised of a group of executives (none of whom are NEOs), with input from an outside investment advisor as well as Fidelity Investment Advisors. Participants are permitted to make changes to their investment choices (but not their deferral percentages) at any time, but always within the family of publicly traded mutual funds. Neither Company common stock nor securities of any other issuers are included among the investment choices. However, it is possible that Company common stock may compose a portion of the portfolio of investments held by these mutual funds.

At the time of initial election, the participant must also elect a distribution option. Distribution options include a Separation Account (paid six months after termination of employment) or an In-Service Account (paid at a specified fixed future date). Participants are not permitted to change the timing of a Separation Account. In-Service Account distributions begin on January 15 of the specified year, and deferrals must be at least two years old before distribution can begin. Participants are permitted to delay the timing of an In-Service Account, but any such modification to timing must delay the distribution for at least five years.

The following table represents the executive contributions, earnings and account balances for the NEOs in the Deferred Compensation Plan.

TERMINATION OF EMPLOYMENT AND CHANGE-OF-CONTROL AGREEMENTS

Potential Payments upon Termination or Change of Control

Change of Control Severance Agreements

In June 2008, the Compensation Committee approved the terms of a change of control severance arrangement. Thereafter, we entered into a Change of Control Severance Agreement with certain senior executives, including each of the NEOs on various occasions. In August 2009, the Compensation Committee approved the terms of, and we entered into an Amended and Restated Change of Control Severance Agreement with Mr. Georgens. In July 2012, the Compensation Committee approved the extension of the current Change of Control Severance Agreements with each of the senior executives, including each of the NEOs. The Compensation Committee believes these agreements are necessary for us to retain key senior executives in the event of an acquisition of the Company. In approving the agreements, the Compensation Committee's objectives were to (1) assure we would have the continued dedication and objectivity of our senior executives, notwithstanding the possibility of a change of control of the Company, thereby aligning the interests of these key senior executives with those of the stockholders in connection with potentially advantageous offers to acquire the Company, and (2) create a total executive compensation plan that is competitive with our Compensation Peer Group. Mr. Gomo retired effective December 31, 2011, and his Change of Control Severance Agreement terminated as of such date.

Term of Change of Control Severance Agreement

Each Change of Control Severance Agreement has an initial term of three years. In July 2012, the Compensation Committee amended the Change of Control Severance Agreements to extend the term until June 15, 2015. Thereafter, the Change of Control Severance Agreement will renew automatically for an additional one-year term unless either party provides the other with a notice of nonrenewal at least 60 days prior to the date of automatic renewal. If a Change of Control (as defined below) occurs at any time during the term of the agreement, the term of the Change of Control Severance Agreement will extend automatically for 12 months following the effective date of the Change of Control. If a senior executive becomes entitled to severance benefits pursuant to his or her Change of Control Severance Agreement, the Change of Control Severance Agreement will not terminate until all of obligations of the Change of Control Severance Agreement have been satisfied.

Circumstances Triggering Payment under Change of Control Severance Agreement

Each Change of Control Severance Agreement provides that if the Company terminates a senior executive's employment without Cause (as defined below) or if the senior executive resigns for Good Reason (as defined below), and such termination or resignation occurs on or within 12 months after a Change of Control, the senior executive will receive certain benefits (as described below). The senior executive will not be entitled to any benefits, compensation or other payments or rights upon his or her termination following a Change of Control other than as set forth in his or her Change of Control Severance Agreement.

If the senior executive voluntarily terminates his or her employment with the Company (other than for Good Reason during the period that is on or within 12 months after a Change of Control), or if the Company terminates the senior executive's employment for Cause, then the senior executive will not be entitled to receive severance or benefits except for those (if any) as provided in the Company's existing severance and benefits plans and practices or pursuant to other written agreements with the Company.

If the Company terminates the senior executive's employment as a result of senior executive's disability, or if the senior executive's employment terminates due to his or her death, then the senior executive will not be entitled to receive severance or benefits except for those (if any) as provided in the Company's existing severance and benefits plans and practices or pursuant to other written agreements with the Company.

If the senior executive voluntarily terminates his or her employment and such termination is for Good Reason, or if the Company terminates the senior executive's employment without Cause, and in either event such termination does not occur on or within 12 months after a Change of Control, then the senior executive will not be entitled to receive severance or benefits except for those (if any) as provided in the Company's existing severance and benefits plans and practices or pursuant to other written agreements with the Company.

The Company has a general severance policy applicable to all employees (including the NEOs) providing for additional weeks of pay based on years of service, plus periods of access to a career center and office resources, one-on-one coaching, and access to an online database. However, if the senior executive is eligible to receive any payments under his or her Change of Control Severance Agreement, the senior executive will not be eligible to receive any payments or benefits pursuant to any Company severance plan, policy, or other arrangement.

Timing and Form of Severance Payments under Change of Control Severance Agreement

Unless otherwise required by Section 409A of the Internal Revenue Code, any severance payments to be made pursuant to the Change of Control Severance Agreement will be paid in a lump sum as soon as practicable following the senior executive's termination date. No severance or other benefits will be paid or provided until a separation agreement and release of claims between the senior executive and the Company becomes effective. If the senior executive should die before all of the severance has been paid, any unpaid amounts will be paid in a lump-sum payment to the senior executive's designated beneficiary.

Severance Payments Under Change of Control Severance Agreement

If the Company terminates a senior executive's employment without Cause or if the senior executive resigns for Good Reason and such termination occurs on or within 12 months after a Change of Control, the senior executive will receive the following benefits:

The sum of (1) 200% (250% in the case of Mr. Georgens) of the senior executive's annual base salary as in effect immediately prior to the senior executive's termination date or (if greater) at the level in effect immediately prior to the Change of Control, and (2) 100% of the senior executive's target annual bonus in effect immediately prior to the senior executive's termination date or (if greater) at the level in effect immediately prior to the Change of Control;

All accrued but unpaid vacation, expense reimbursements, wages, and other benefits due to the senior executive under any Company plan or policy (provided, however, that a senior executive will not be eligible to receive any benefits under any Company severance plan, policy or other arrangement);

Accelerated vesting of the senior executive's outstanding equity awards as follows:

The Change of Control Severance Agreement entered into with Mr. Georgens provides that equity awards will vest in full as to 100% of the unvested portion of the award;

The Change of Control Severance Agreements entered into with the remaining senior executives provide that equity awards subject to time-based vesting will vest as to that portion of the award that would have vested through the 24 month period following the senior executive's termination date had the senior executive remained employed through such period. Additionally, the senior executive will be entitled to accelerated vesting as to an additional 50% of the then unvested portion of all of his or her outstanding equity awards that are scheduled to vest pursuant to performance-based criteria, if any.

Each senior executive will have one year following the date of his or her termination in which to exercise any outstanding stock options or other similar rights to acquire Company stock (but such post termination exercise period will not extend beyond the original maximum term of the award);

If the senior executive elects continuation coverage pursuant to COBRA for himself or herself and his or her eligible dependents, the Company will reimburse the senior executive for the COBRA premiums for such coverage until the earlier of (1) 18 months (or 24 months in the case of Mr. Georgens), or (2) the date upon which the senior executive and/or the senior executive's eligible dependents are covered under similar plans.

As noted above, Mr. Gomo retired effective December 31, 2011, and his Change of Control Severance Agreement terminated as of such date.

Conditions to Receipt of Severance under Change of Control Severance Agreement

The senior executive's receipt of any payments or benefits under the Change of Control Severance Agreement will be subject to the senior executive continuing to comply with the terms of any confidential information agreement entered into between the senior executive and the Company and complying with the provisions of the Change of Control Severance Agreement. Additionally, the receipt of any severance payment under the Change of Control Severance Agreement is conditioned on the senior executive signing and not revoking a separation agreement and release of claims with the Company, with such release to be effective no later than March 15 of the year following the year in which the termination occurs.

Excise Tax under Change of Control Severance Agreement

In the event that the severance payments and other benefits payable to the senior executive pursuant to his or her Change of Control Severance Agreement constitute parachute payments under Section 280G of the U.S. tax code and would be subject to the applicable excise tax, then the senior executive's severance benefits will be either (1) delivered in full or (2) delivered to such lesser extent which would result in no portion of such benefits being subject to the excise tax, whichever results in the receipt by the senior executive on an after-tax basis of the greatest amount of benefits.

Definitions Contained in Change of Control Severance Agreement

Each Change of Control Severance Agreement defines Cause as: (1) the senior executive's continued intentional and demonstrable failure to perform his or her duties customarily associated with his or her position (other than any such failure resulting from the senior executive's mental or physical disability) after the senior executive has received a written demand of performance from the Company and the senior executive has failed to cure such nonperformance within 30 days after receiving such notice; (2) the senior executive's conviction of, or plea of nolo contendere to, a felony that the Board of Directors reasonably believes has had or will have a material detrimental effect on the Company's reputation or business; or (3) the senior executive's commission of an act of fraud, embezzlement, misappropriation, willful misconduct, or breach of fiduciary duty against, and causing material harm to, the Company.

Each Change of Control Severance Agreement defines Change of Control as any of the following events: (1) a change in the ownership of the Company which occurs on the date that any one person, or more than one person acting as a group (Person), acquires ownership of the stock of the Company that, together with the stock held by such Person, constitutes more than 50% of the total voting power of the stock of the Company, except that any change in the ownership of the stock of the Company as a result of a private financing of the Company that is approved by the Board of Directors will not be considered a Change of Control; (2) a change in the effective control of the Company which occurs on the date that a majority of members of the Board of Directors is replaced during any 12-month period by directors whose appointment or election is not endorsed by a majority of the members of the Board prior to the date of the appointment or election; or (3) a change in the ownership of

a substantial portion of the Company's assets which occurs on the date that any Person acquires (or has acquired during the 12 month period ending on the date of the most recent acquisition by such person or persons) assets from the Company that have a total gross fair market value equal to or more than 50% of the total gross fair market value of all of the assets of the Company immediately prior to such acquisition or acquisitions. Notwithstanding the foregoing provisions of this definition, a transaction will not be deemed a Change of Control unless the transaction qualifies as a change of control event within the meaning of Section 409A of the Internal Revenue Code.

Mr. Georgens' Change of Control Severance Agreement defines "Good Reason" as his termination of employment within 90 days following the expiration of any cure period following the occurrence of any of the following, without his consent: (1) a material reduction of his authority or responsibilities, provided that a reduction of authority or responsibilities that occurs as a direct consequence of a Change of Control and the Company becoming part of larger entity will not be considered a material reduction of Mr. Georgens' authority or responsibilities; and any change which results in Mr. Georgens ceasing to have the same functional supervisory authority and responsibility following a Change of Control or a change in Mr. Georgens' reporting position so that he no longer reports to the Chief Executive Officer or Board of Directors of the parent entity following a Change of Control will constitute a material reduction of his authority or responsibilities; (2) a material reduction in his base salary or target annual incentive (Base Compensation), unless the Company also similarly reduces the Base Compensation of all other employees of the Company; (3) a material change in the geographic location at which the senior executive must perform services; (4) any purported termination of the senior executive's employment for Cause without first satisfying the procedural protections set forth in his agreement; or (5) the failure of the Company to obtain the assumption of the agreement by a successor and/or acquirer and an agreement that the senior executive will retain the substantially similar responsibilities in the acquirer or the merged or surviving company as he had prior to the transaction.

The Change of Control Severance Agreement for each of the remaining senior executives defines "Good Reason" as the termination of employment within 90 days following the occurrence of any of the following, without the senior executive's consent: (1) a material reduction of the senior executive's authority or responsibilities, or a change in the senior executive's reporting position such that the senior executive no longer reports directly to the officer position or its functional equivalent to which the senior executive was reporting immediately prior to such change in reporting position (unless the senior executive is reporting to the comparable officer position of the parent corporation in a group of controlled corporations following a Change of Control); (2) a material reduction in the senior executive's base salary or target annual incentive (Base Compensation), unless the Company also similarly reduces the Base Compensation of all other employees of the Company with positions, duties and responsibilities comparable to the senior executive's; (3) a material change in the geographic location at which the senior executive must perform services; (4) any purported termination of the senior executive's employment for Cause without first satisfying the procedural protections set forth in his or her agreement; or (5) the failure of the Company to obtain the assumption of the agreement by a successor and/or acquirer and an agreement that the senior executive will retain the substantially similar responsibilities in the acquirer or the merged or surviving company as he or she had prior to the transaction.

Executive Medical Retirement Plan

The Company adopted the Executive Medical Retirement Plan (the "Medical Plan") as a method to retain its senior executives. The Medical Plan provides continued medical benefits for the lifetime of individuals (and their eligible dependents) who retire from the Company and satisfy certain age and service requirements and are otherwise eligible. Currently, in order to be eligible to participate in the Medical Plan, individuals must hold the title of Executive Vice President or above at the time of retirement, must be at least 50 years of age, and must satisfy certain service requirements such that the sum of their age and two times their number of years of service to the Company equals or exceeds 65. The medical benefits are fully insured and are coordinated with Medicare for retirees age 65 and above. Effective December 31, 2011, Mr. Gomo retired from his position of Executive Vice President Finance and Chief Financial Officer. The value of the benefits Mr. Gomo was entitled to receive

as of the date of his retirement was \$734,000. Assuming our other NEOs retired from their employment on April 27, 2012, the last day of our fiscal year, satisfied the age and service requirements, and were otherwise eligible to receive benefits under the Medical Plan, the present value of the benefits the NEOs would have been entitled to receive are as follows: Tom Georgens \$1,195,000, and Rob Salmon \$1,320,000. Messrs. Noviello, Goel, and Fawcett would not have satisfied the eligibility requirements to participate in the Medical Plan and therefore would not have received benefits thereunder. Note that these amounts represent the present value of benefits to be received based on certain actuarial assumptions and it is likely that actual costs will differ from the assumptions utilized and scenarios presented.

Estimated Payments Pursuant to Change of Control Severance Agreements

The following table provides information concerning the estimated payments and benefits that would be provided in the circumstances described above for each of the named executive officers serving as of the end of fiscal year 2012 pursuant to the Change of Control Severance Agreements. Payments and benefits are estimated assuming that the triggering event took place on the last business day of fiscal year 2012 (April 27, 2012), and the price per share of the Company's common stock is the closing price of the NASDAQ Global Select Market as of that date \$39.03. There can be no assurance that a triggering event would produce the same or similar results as those estimated below if such event occurs on any other date or at any other price, or if any other assumption used to estimate potential payments and benefits is not correct. Due to the number of factors that affect the nature and amount of any potential payments of benefits, any actual payments and benefits may be different.

AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

The Company's independent auditors also provided to the Audit Committee the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the Audit Committee discussed with the independent auditors their independence and satisfied itself as to the auditors' independence.

Based upon the Audit Committee's discussion with management and the independent auditors and the Audit Committee's review of the representations of management and the report of the independent auditors to the Audit Committee, the Audit Committee recommended to the Board of Directors that the Company's audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended April 27, 2012, as filed with the SEC on June 19, 2012.

Finally, the Audit Committee believes that each of the members of the Audit Committee is independent as determined by the Board of Directors and in compliance with the rules of the National Association of Securities Dealers, Inc. and the Exchange Act.

AUDIT FEES

The Audit Committee preapproves services performed by the independent auditors and reviews auditor billings in accordance with the Audit Committee charter. All requests for audit, audit-related, tax and other services must be submitted to the Audit Committee for specific preapproval and cannot commence until such approval has been granted. Normally, preapproval is provided at regularly scheduled meetings. However, the authority to grant specific preapproval between meetings, as necessary, has been delegated to the Chairman of the Audit Committee. The Chairman must update the Audit Committee at the next regularly scheduled meeting of any services that were granted specific preapproval.

Aggregate fees to the Company incurred in the fiscal years ended April 27, 2012 and April 29, 2011, respectively, represent fees billed or to be billed by the Company's independent registered accounting firm, Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu, and their respective affiliates (collectively, Deloitte & Touche). During fiscal 2012, all of the services shown in the table below were preapproved by the Audit Committee in accordance with the preapproval policies discussed above.

The Audit Committee has considered whether the provision of the nonaudit services discussed above is compatible with maintaining the principal auditor's independence and believes such services are compatible with maintaining the auditor's independence.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During fiscal 2012, Mr. Wall, Mr. Held, and Mr. Shaheen served on the Compensation Committee. None of these individuals was at any time during the 2012 fiscal year, or at any other time, an officer or employee of the Company. No executive officer of the Company serves as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving as a member of the Company's Board of Directors or Compensation Committee.

CERTAIN TRANSACTIONS WITH RELATED PARTIES

Our Corporate Governance and Nominating Committee is responsible for the review, approval, and ratification of transactions with related persons. Specifically, the Corporate Governance and Nominating Committee has the authority to:

Consider questions of possible conflicts of interest of members of the Board and corporate officers;

Establish policies and procedures for the review and approval of related person transactions, as defined in applicable SEC rules;

Conduct ongoing reviews of potential related person transactions; and

Review and approve all related person transactions.

Pursuant to the SEC's rules and regulations, related persons include, but are not limited to, the Company's directors, executive officers and beneficial owners of more than five (5) percent of the Company's outstanding common stock. If the determination is made that a related person has a material interest in any Company transaction, then the Corporate Governance and Nominating Committee, consisting of all independent directors, is responsible for reviewing, approving or ratifying it, and the transaction would be disclosed in accordance with the SEC rules if required. If the related person at issue is a director of the Company, or a family member of a director, then that director would not participate in those discussions.

The Board of Directors has adopted a travel reimbursement policy whereby the Company's Executive Chairman, Mr. Daniel J. Warmenhoven, is permitted to utilize a private airplane for business travel within certain limitations. Subject to the annual cap of \$400,000, Mr. Warmenhoven is reimbursed for expenses incurred in the operation of a private plane when used for Company business, based on a specified discount to commercial charter rates for equivalent travel. The cost reimbursement shall occur on a quarterly basis with the annual cap allocated on a quarterly basis. Any amount unused in a particular quarter may be carried over to the following quarter. Any amount unused at the end of a fiscal year, however, may not carry over to the following fiscal year. During fiscal 2012, the Company recognized a total of \$400,000 in expenses pursuant to this reimbursement policy.

The foregoing transactions were negotiated by the Company on an arms-length basis, and were made on terms no less favorable to the Company than could be obtained from an unaffiliated third party.

The Board of Directors knows of no other business that will be presented for consideration at the Annual Meeting. If other matters are properly brought before the Annual Meeting, however, it is the intention of the persons named in the accompanying proxy to vote the shares represented thereby on such matters in accordance with their best judgment.

1999 STOCK OPTION PLAN

AS AMENDED AND RESTATED THROUGH JULY 18, 2012

ARTICLE ONE

GENERAL PROVISIONS

I. PURPOSE OF THE PLAN

This 1999 Stock Option Plan is intended to promote the interests of NetApp, Inc., a Delaware corporation, by providing eligible persons with the opportunity to acquire a proprietary interest, or otherwise increase their proprietary interest, in the Corporation as an incentive for them to remain in the service of the Corporation.

Capitalized terms shall have the meanings assigned to such terms in the attached Appendix.

All share numbers in this document reflect (i) the 2-for-1 split of the Common Stock effected on December 20, 1999 and (ii) the 2-for-1 split of the Common Stock effected on March 22, 2000.

II. STRUCTURE OF THE PLAN

A. The Plan shall be divided into five separate equity programs:

(i) the Discretionary Option Grant Program under which eligible persons may, at the discretion of the Plan Administrator, be granted options to purchase shares of Common Stock,

(ii) the Stock Appreciation Rights Program under which eligible persons may, at the discretion of the Plan Administrator, be granted stock appreciation rights that will allow individuals to receive the appreciation in Fair Market Value of the Shares subject to the award between the exercise date and the date of grant,

(iii) the Stock Issuance Program under which eligible persons may, at the discretion of the Plan Administrator, be issued shares of Common Stock directly, either through the issuance or immediate purchase of such shares or as a bonus for services rendered the Corporation (or any Parent or Subsidiary) or pursuant to restricted stock units on such terms as the Plan Administrator deems appropriate,

(iv) the Performance Share and Performance Unit Program under which eligible persons may, at the discretion of the Plan Administrator, be granted performance shares and performance units, which are awards that will result in a payment to a Participant only if the performance goals or other vesting criteria the established by the Plan Administrator are achieved or the awards otherwise vest, or

(v) the Automatic Award Program (formerly known as the Automatic Option Grant Program) under which non-employee Board members automatically receive award grants pursuant to a compensation policy as in effect from time to time.

B. The provisions of Articles One and Seven shall apply to all equity programs under the Plan and shall accordingly govern the interests of all persons under the Plan.

III. ADMINISTRATION OF THE PLAN

A. The Primary Committee shall have sole and exclusive authority to administer the Discretionary Option Grant, the Stock Appreciation Rights Program, Stock Issuance Programs and the Performance Share and Performance Unit Program with respect to Section 16 Insiders. Administration of the Discretionary Option Grant, Stock Appreciation Rights, Stock Issuance and Performance Share and Performance Unit Programs with respect

to all other eligible persons may, at the Board's discretion, be vested in the Primary Committee or a Secondary Committee, or the Board may retain the power to administer that program with respect to all such persons.

B. Members of the Primary Committee or any Secondary Committee shall serve for such period of time as the Board may determine and may be removed by the Board at any time. The Board may also at any time terminate the functions of any Secondary Committee and reassume all powers and authority previously delegated to such committee.

C. Each Plan Administrator shall, within the scope of its administrative functions under the Plan, have full power and authority to establish such rules and regulations as it may deem appropriate for proper administration of the Discretionary Option Grant, Stock Appreciation Rights, Stock Issuance and Performance Share and Performance Unit Programs and to make such determinations under, and issue such interpretations of, the provisions of such programs and any outstanding options thereunder as it may deem necessary or advisable. Decisions of the Plan Administrator within the scope of its administrative functions under the Plan shall be final and binding on all parties who have an interest in the Discretionary Option Grant, Stock Appreciation Rights, Stock Issuance or Performance Share and Performance Unit Program under its jurisdiction or any award granted thereunder.

D. Service by Board members on the Primary Committee or the Secondary Committee shall constitute service as a Board member, and Board members of each such committee shall accordingly be entitled to full indemnification and reimbursement as Board members for their service on such committee. No member of the Primary Committee or the Secondary Committee shall be liable for any act or omission made in good faith with respect to the Plan or any option grants under the Plan.

E. Administration of the Automatic Award Program shall be self-executing in accordance with the terms of that program, and no Plan Administrator shall exercise any discretionary functions with respect to award grants made thereunder, except that the Plan Administrator, in its discretion, may change and otherwise revise the terms of any compensation policy relating to non-employee Board members.

IV. ELIGIBILITY

A. The persons eligible to participate in the Discretionary Option Grant, Stock Appreciation Rights, Stock Issuance and Performance Share and Performance Unit Programs are as follows:

- (i) Employees,
- (ii) non-employee Board members, and
- (iii) consultants and other independent advisors who provide services to the Corporation (or any Parent or Subsidiary).

B. Each Plan Administrator shall, within the scope of its administrative jurisdiction under the Plan, have full authority (subject to the provisions of the Plan) to determine (i) with respect to the Discretionary Option Grant and Stock Appreciation Rights Programs, which eligible persons are to receive awards under the Discretionary Option Grant and Stock Appreciation Rights Programs, the time or times when such awards are to be made, the number of shares to be covered by each such grant, the status of an option as either an Incentive Option or a Non-Statutory Option, the time or times when each award is to become exercisable, the vesting schedule (if any) applicable to the award, the maximum term for which the award is to remain outstanding, and whether to modify or amend each award, including the discretionary authority to extend the post-termination exercisability period of awards longer than is otherwise provided for in the Plan, and (ii) with respect to awards granted under the Stock Issuance and Performance Share and Performance Unit Programs, which eligible persons are to receive awards, the time or times when such awards are to be made, the number of shares subject to awards to be issued to each Participant, the vesting schedule (if any) applicable to the awards, the consideration, if any, to be paid for shares

subject to such awards and the form (cash, shares of Common Stock, or a combination thereof) in which the award is to be settled.

C. Only non-employee Board members shall be eligible to participate in the Automatic Award Program.

V. STOCK SUBJECT TO THE PLAN

A. The stock issuable under the Plan shall be shares of authorized but unissued or reacquired Common Stock, including shares repurchased by the Corporation on the open market. The maximum number of shares of Common Stock which may be issued over the term of the Plan shall not exceed 111,380,429 shares. Such authorized share reserve is comprised of (i) the 13,200,000 shares of Common Stock initially authorized for issuance under the Plan, (ii) an additional increase of 15,000,000 shares authorized by the Board on August 17, 2000 and approved by the stockholders at the 2000 Annual Meeting, (iii) an additional increase of 13,400,000 shares authorized by the Board on August 9, 2001 and approved by the stockholders at the 2001 Annual Meeting, (iv) an additional increase of 14,000,000 shares authorized by the Board on July 2, 2002 and approved by the stockholders at the 2002 Annual Meeting, (v) an additional increase of 10,200,000 shares authorized by the Board on July 7, 2004 and approved by the stockholders at the 2004 Annual Meeting, (vi) an additional increase of 10,600,000 shares authorized by the Board on July 1, 2005 and approved by the stockholders at the 2005 Annual Meeting, (vii) an additional increase of 10,900,000 shares authorized by the Board on July 10, 2006 and approved by the stockholders at the 2006 Annual Meeting, (viii) an additional increase of 7,200,000 shares authorized by the Board on July 13, 2007 and approved by the stockholders at the 2007 Annual Meeting, (ix) an additional increase of 6,600,000 shares authorized by the Board on July 11, 2008 and approved by the stockholders at the 2008 Annual Meeting, (x) an additional increase of 7,000,000 shares authorized by the Board on July 13, 2010 and approved by the stockholders at the 2010 Annual Meeting, (xi) an additional increase of 7,700,000 shares authorized by the Board on July 14, 2011 and approved by the stockholders at the 2011 Annual Meeting plus (xii) an additional increase of 7,350,000 shares authorized by the Board on July 18, 2012 and approved by the stockholders at the 2012 Annual Meeting. Pursuant to the one-time stock option exchange program, as described in the proxy statement pursuant to the Special Meeting of Stockholders held on April 21, 2009, all of the shares underlying options surrendered in the option exchange program were returned to the Plan and restricted stock unit grants made in connection with the stock option exchange program were made from such returned shares. After making the restricted stock unit grants in connection with the stock option exchange program, the Plan's share reserve was reduced such that, in effect, only 3,500,000 of the shares underlying the surrendered options were retained as available for future grant under the Plan, thereby reducing the number of shares of Common Stock which may be issued over the term of the Plan from 101,100,000 shares to 89,330,429 shares. In addition, shares issued under the Corporation's 1995 Stock Incentive Plan or the Special Non-Officer Stock Option Plan shall not reduce or otherwise affect the number of shares of Common Stock available for issuance under this Plan.

B. No one person participating in the Plan may receive stock options and/or stock appreciation rights under the Plan for more than 3,000,000 shares of Common Stock in the aggregate per calendar year.

C. Shares of Common Stock subject to outstanding options or stock appreciation rights shall be available for subsequent issuance under the Plan to the extent the options or stock appreciation rights expire or terminate for any reason prior to exercise in full. In addition, any unvested shares issued under the Plan and subsequently repurchased or reacquired by the Corporation pursuant to the Corporation's repurchase rights under the Plan shall be added back to the number of shares of Common Stock reserved for issuance under the Plan and shall accordingly be available for reissuance through one or more subsequent awards under the Plan. Should the exercise price of an award under the Plan be paid with shares of Common Stock or should shares of Common Stock otherwise issuable under the Plan be withheld by the Corporation in satisfaction of the withholding taxes incurred in connection with the exercise of an award or the vesting or disposition of exercised shares or stock issuances under the Plan, then the number of shares of Common Stock available for issuance under the Plan shall be reduced by the gross number of shares for which the award is exercised or the gross number of exercised shares or stock issuances which vest, and not by the net number of shares of Common Stock issued to the holder of such award or exercised shares or stock issuances.

D. Should any change be made to the Common Stock by reason of any stock split, stock dividend, recapitalization, combination of shares, exchange of shares or other change affecting the outstanding Common Stock as a class without the Corporation's receipt of consideration, appropriate adjustments shall be made to (i) the maximum number and/or class of securities issuable under the Plan, (ii) the maximum number and/or class of securities for which any one person may be granted stock options and/or stock appreciation rights or awards under the Stock Issuance and Performance Share and Performance Unit Programs per calendar year, (iii) the number and/or class of securities for which automatic award grants are to be made subsequently under the Automatic Award Program and (iv) the number and/or class of securities and the exercise price per share in effect under each outstanding award in order to prevent the dilution or enlargement of benefits thereunder. The adjustments determined by the Plan Administrator shall be final, binding and conclusive.

ARTICLE TWO

DISCRETIONARY OPTION GRANT PROGRAM

I. OPTION TERMS

Each option shall be evidenced by one or more documents in the form approved by the Plan Administrator; provided, however, that each such document shall comply with the terms specified below. Each document evidencing an Incentive Option shall, in addition, be subject to the provisions of the Plan applicable to such options.

A. Exercise Price.

1. The exercise price per share shall be fixed by the Plan Administrator but shall not be less than one hundred percent (100%) of the Fair Market Value per share of Common Stock on the option grant date.

2. The exercise price shall become immediately due upon exercise of the option and shall be payable in one or more of the forms specified by the Plan Administrator, including without limitation, by one of the following forms of consideration:

(i) cash or check made payable to the Corporation,

(ii) shares of Common Stock held for the requisite period necessary to avoid a charge to the Corporation's earnings for financial reporting purposes and valued at Fair Market Value on the Exercise Date, or

(iii) to the extent the option is exercised for vested shares, through a special sale and remittance procedure pursuant to which the Optionee shall concurrently provide irrevocable instructions to (a) a brokerage firm reasonably satisfactory to the Corporation for purposes of administering such procedure to effect the immediate sale of the purchased shares and remit to the Corporation, out of the sale proceeds available on the settlement date, sufficient funds to cover the aggregate exercise price payable for the purchased shares plus all applicable Federal, state and local income and employment taxes required to be withheld by the Corporation by reason of such exercise and (b) the Corporation to deliver the certificates for the purchased shares directly to such brokerage firm in order to complete the sale transaction.

Except to the extent such sale and remittance procedure is utilized, payment of the exercise price for the purchased shares must be made on the Exercise Date.

B. Exercise and Term of Options. Each option shall be exercisable at such time or times, during such period and for such number of shares as shall be determined by the Plan Administrator and set forth in the documents evidencing the option. However, no option shall have a term in excess of seven (7) years measured from the option grant date.

C. Effect of Termination of Service.

1. The following provisions shall govern the exercise of any options held by the Optionee at the time of cessation of Service or death:

(i) Any option outstanding at the time of the Optionee's cessation of Service for any reason shall remain exercisable for such period of time thereafter as shall be determined by the Plan Administrator and set forth in the documents evidencing the option, but no such option shall be exercisable after the expiration of the option term.

(ii) Any option exercisable in whole or in part by the Optionee at the time of death may be exercised subsequently by the personal representative of the Optionee's estate or by the person or persons to whom the option is transferred pursuant to the Optionee's will or in accordance with the laws of descent and distribution.

(iii) During the applicable post-Service exercise period, the option may not be exercised in the aggregate for more than the number of vested shares for which the option is exercisable on the date of the Optionee's cessation of Service. Upon the expiration of the applicable exercise period or (if earlier) upon the expiration of the option term, the option shall terminate and cease to be outstanding for any vested shares for which the option has not been exercised. However, the option shall, immediately upon the Optionee's cessation of Service, terminate and cease to be outstanding to the extent the option is not otherwise at that time exercisable for vested shares.

(iv) Should the Optionee's Service be terminated for Misconduct, then all outstanding options held by the Optionee shall terminate immediately and cease to be outstanding.

2. The Plan Administrator shall have the discretion, exercisable either at the time an option is granted or at any time while the option remains outstanding, to extend the period of time for which the option is to remain exercisable following the Optionee's cessation of Service from the period otherwise in effect for that option to such greater period of time as the Plan Administrator shall deem appropriate, but in no event beyond the expiration of the option term.

D. **Stockholder Rights**. The holder of an option shall have no stockholder rights with respect to the shares subject to the option until such person shall have exercised the option, paid the exercise price and become a holder of record of the purchased shares.

E. **Repurchase Rights**. The Plan Administrator shall have the discretion to grant options which are exercisable for unvested shares of Common Stock. Should the Optionee cease Service while holding such unvested shares, the Corporation shall have the right to repurchase, at the exercise price paid per share, any or all of those unvested shares. The terms upon which such repurchase right shall be exercisable (including the period and procedure for exercise and the appropriate vesting schedule for the purchased shares) shall be established by the Plan Administrator and set forth in the document evidencing such repurchase right.

F. **Limited Transferability of Options**. During the lifetime of the Optionee, Incentive Options shall be exercisable only by the Optionee and shall not be assignable or transferable other than by will or by the laws of inheritance following the Optionee's death. However, Non-Statutory Options may be assigned in whole or in part during the Optionee's lifetime to one or more members of the Optionee's family or to a trust established exclusively for one or more such family members or the Optionee's former spouse, to the extent such assignment is in connection with the Optionee's estate plan, or to the Optionee's former spouse pursuant to a domestic relations order. The person or persons who acquire a proprietary interest in the option pursuant to the assignment may only exercise the assigned portion. The terms applicable to the assigned portion shall be the same as those in effect for the option immediately prior to such assignment and shall be set forth in such documents issued to the assignee as the Plan Administrator may deem appropriate.

II. INCENTIVE OPTIONS

The terms specified below shall be applicable to all Incentive Options. Except as modified by the provisions of this Section II, all the provisions of Articles One, Two and Seven shall be applicable to Incentive Options. Options which are specifically designated as Non-Statutory Options when issued under the Plan shall not be subject to the terms of this Section II.

A. **Eligibility**. Incentive Options may only be granted to Employees.

B. **Dollar Limitation**. The aggregate Fair Market Value of the shares of Common Stock (determined as of the respective date or dates of grant) for which one or more options granted to any Employee under the Plan (or any other option plan of the Corporation or any Parent or Subsidiary) may for the first time become exercisable as Incentive Options during any one (1) calendar year shall not exceed the sum of One Hundred Thousand

Dollars (\$100,000). To the extent the Employee holds two (2) or more such options which become exercisable for the first time in the same calendar year, the foregoing limitation on the exercisability of such options as Incentive Options shall be applied on the basis of the order in which such options are granted.

C. **10% Stockholder.** If any Employee to whom an Incentive Option is granted is a 10% Stockholder, then the exercise price per share shall not be less than one hundred ten percent (110%) of the Fair Market Value per share of Common Stock on the option grant date, and the option term shall not exceed five (5) years measured from the option grant date.

III. CORPORATE TRANSACTION/CHANGE IN CONTROL

A. Each option, to the extent outstanding under the Plan at the time of a Corporate Transaction but not otherwise exercisable for all the option shares, shall automatically accelerate so that each such option shall, immediately prior to the effective date of the Corporate Transaction, become exercisable for all of the shares of Common Stock at the time subject to such option and may be exercised for any or all of those shares as fully-vested shares of Common Stock. However, an outstanding option shall not become exercisable on such an accelerated basis if and to the extent: (i) such option is, in connection with the Corporate Transaction, to be assumed by the successor corporation (or parent thereof) or replaced with a comparable option to purchase shares of the capital stock of the successor corporation (or parent thereof), (ii) such option is to be replaced with a cash incentive program of the successor corporation which preserves the spread existing on the unvested option shares at the time of the Corporate Transaction and provides for subsequent payout in accordance with the same vesting schedule applicable to those option shares or (iii) the acceleration of such option is subject to other limitations imposed by the Plan Administrator at the time of the option grant. The determination of option comparability under clause (i) above shall be made by the Plan Administrator, and its determination shall be final, binding and conclusive.

B. All outstanding repurchase rights shall also terminate automatically, and the shares of Common Stock subject to those terminated rights shall immediately vest in full, in the event of any Corporate Transaction, except to the extent: (i) those repurchase rights are to be assigned to the successor corporation (or parent thereof) in connection with such Corporate Transaction or (ii) such accelerated vesting is precluded by other limitations imposed by the Plan Administrator at the time the repurchase right is issued.

C. Immediately following the consummation of the Corporate Transaction, all outstanding options shall terminate and cease to be outstanding, except to the extent assumed by the successor corporation (or parent thereof).

D. Each option which is assumed in connection with a Corporate Transaction shall be appropriately adjusted, immediately after such Corporate Transaction, to apply to the number and class of securities which would have been issuable to the Optionee in consummation of such Corporate Transaction had the option been exercised immediately prior to such Corporate Transaction. Appropriate adjustments to reflect such Corporate Transaction shall also be made to (i) the exercise price payable per share under each outstanding option, provided the aggregate exercise price payable for such securities shall remain the same, (ii) the maximum number and/or class of securities available for issuance over the remaining term of the Plan and (iii) the maximum number and/or class of securities for which any one person may be granted stock options under the Plan per calendar year.

E. The Plan Administrator shall have the full power and authority to accelerate the vesting of options granted under the Discretionary Option Grant Program upon a Corporate Transaction or Change in Control or upon an event or events occurring in connection with such transactions. The portion of any Incentive Option accelerated in connection with a Corporate Transaction or Change in Control shall remain exercisable as an Incentive Option only to the extent the applicable One Hundred Thousand Dollar limitation is not exceeded. To the extent such dollar limitation is exceeded, the accelerated portion of such option shall be exercisable as a Non-Qualified Option under the Federal tax laws.

F. The outstanding options shall in no way affect the right of the Corporation to adjust, reclassify, reorganize or otherwise change its capital or business structure or to merge, consolidate, dissolve, liquidate or sell or transfer all or any part of its business or assets.

IV. REPRICING OR CANCELLATION AND REGRANT OF AWARDS

The Plan Administrator may not modify or amend a stock option or stock appreciation right to reduce the exercise price of such stock option or stock appreciation right after it has been granted (except for adjustments made pursuant to Article One Section V.D.), unless approved by the Corporation's stockholders and neither may the Plan Administrator, without the approval of the Corporation's stockholders, cancel any outstanding stock option or stock appreciation right and immediately replace it with a new stock option or stock appreciation right with a lower exercise price, awards of a different type, and/or cash.

ARTICLE THREE

STOCK APPRECIATION RIGHTS PROGRAM

I. STOCK APPRECIATION RIGHT TERMS

Each stock appreciation right shall be evidenced by one or more documents in the form approved by the Plan Administrator; provided, however, that each such document shall comply with the terms specified below.

A. Exercise Price.

1. The exercise price per share shall be fixed by the Plan Administrator but shall not be less than one hundred percent (100%) of the Fair Market Value per share of Common Stock on the option grant date.

B. Payment of SAR Amount. Upon exercise of a stock appreciation right, a Participant will be entitled to receive payment from the Company in an amount determined by multiplying:

1. The difference between the Fair Market Value of a share of Common Stock on the date of exercise over the exercise price; times
2. The number of shares of Common Stock with respect to which the stock appreciation right is exercised.

At the discretion of the Plan Administrator, the payment upon the exercise of a stock appreciation right may be in cash, in shares of Common Stock of equivalent value, or in some combination thereof.

C. Exercise and Term of Stock Appreciation Rights. Each stock appreciation right shall be exercisable at such time or times, during such period and for such number of shares as shall be determined by the Plan Administrator and set forth in the documents evidencing the stock appreciation right. However, no stock appreciation right shall have a term in excess of seven (7) years measured from the stock appreciation right grant date.

D. Effect of Termination of Service. A stock appreciation right granted under the Plan will expire upon the date determined by the Plan Administrator, in its sole discretion, and set forth in the agreement evidencing the award. Notwithstanding the foregoing, the rules of Article Two Section I.C. also will apply to stock appreciation rights.

E. Stockholder Rights. The holder of a stock appreciation right shall have no stockholder rights with respect to the shares subject to the stock appreciation right until such person shall have exercised the stock appreciation right and become a holder of record of shares, if any, issued thereunder.

II. CORPORATE TRANSACTION/CHANGE IN CONTROL

A. Each stock appreciation right, to the extent outstanding under the Plan at the time of a Corporate Transaction but not otherwise exercisable for all the shares subject thereto, shall automatically accelerate so that each such stock appreciation right shall, immediately prior to the effective date of the Corporate Transaction, become exercisable for all of the shares of Common Stock at the time subject to such stock appreciation right and may be exercised for any or all of those shares as fully-vested shares of Common Stock. However, an outstanding stock appreciation right shall not become exercisable on such an accelerated basis if and to the extent: (i) such stock appreciation right is, in connection with the Corporate Transaction, to be assumed by the successor corporation (or parent thereof) or replaced with a comparable award, (ii) such stock appreciation right is to be replaced with a cash incentive program of the successor corporation which preserves the spread existing on the unvested shares subject to the award at the time of the Corporate Transaction and provides for subsequent payout in accordance with the same vesting schedule applicable to the award or (iii) the acceleration of such

stock appreciation right is subject to other limitations imposed by the Plan Administrator at the time of grant. The determination of stock appreciation right comparability under clause (i) above shall be made by the Plan Administrator, and its determination shall be final, binding and conclusive.

B. Immediately following the consummation of the Corporate Transaction, all outstanding stock appreciation rights shall terminate and cease to be outstanding, except to the extent assumed by the successor corporation (or parent thereof).

C. Each stock appreciation right which is assumed in connection with a Corporate Transaction shall be appropriately adjusted, immediately after such Corporate Transaction, to apply to the number and class of securities which would have been issuable to the Participant in consummation of such Corporate Transaction had the stock appreciation right been exercised immediately prior to such Corporate Transaction. Appropriate adjustments to reflect such Corporate Transaction shall also be made to (i) the exercise price payable per share under each outstanding stock appreciation right, provided the aggregate exercise price for such award shall remain the same, (ii) the maximum number and/or class of securities available for issuance over the remaining term of the Plan, and (iii) the maximum number and/or class of securities for which any one person may be granted stock appreciation rights under the Plan per calendar year.

D. The Plan Administrator shall have the full power and authority to accelerate the vesting of stock appreciation rights granted under the Stock Appreciation Rights Program upon a Corporate Transaction or Change in Control or upon an event or events occurring in connection with such transactions.

E. The outstanding stock appreciation rights shall in no way affect the right of the Corporation to adjust, reclassify, reorganize or otherwise change its capital or business structure or to merge, consolidate, dissolve, liquidate or sell or transfer all or any part of its business or assets.

III. REPRICING OR CANCELLATION AND REGRANT OF AWARDS

The Plan Administrator may not modify or amend a stock option or stock appreciation right to reduce the exercise price of such stock option or stock appreciation right after it has been granted (except for adjustments made pursuant to Article One Section V.D.), unless approved by the Corporation's stockholders and neither may the Plan Administrator, without the approval of the Corporation's stockholders, cancel any outstanding stock option or stock appreciation right and immediately replace it with a new stock option or stock appreciation right with a lower exercise price, awards of a different type, and/or cash.

ARTICLE FOUR

STOCK ISSUANCE PROGRAM

I. STOCK ISSUANCE TERMS

Shares of Common Stock may be issued under the Stock Issuance Program through direct and immediate issuances without any intervening option grants. Each such stock issuance shall be evidenced by a Stock Issuance Agreement which complies with the terms specified below. Shares of Common Stock may also be issued under the Stock Issuance Program pursuant to grants of restricted stock and restricted stock units which entitle the recipients to retain or receive, as applicable, the shares underlying the award upon the attainment of designated performance goals or the satisfaction of specified Service requirements. The number of shares of Common Stock that may be issued pursuant to the Stock Issuance and Performance Share or Performance Unit Programs and the number of restricted stock units that may be issued pursuant to the Automatic Award Program equals 8,893,237 plus the sum of: (A) fifty percent (50%) of the number of shares subject to outstanding awards as of August 17, 2009 that actually return to the Plan pursuant to Article One, Section V, Clause C, and (B) fifty percent (50%) of the number of shares of Common Stock that are added to the Plan upon approval of the Corporation's stockholders after the 2009 Annual Meeting. To the extent any shares issued pursuant to awards granted under the Stock Issuance and Performance Share or Performance Unit Programs are forfeited or otherwise return to the Plan, such shares will not count against the foregoing limit and may once again be issued pursuant to awards under the Stock Issuance and Performance Share or Performance Unit Programs as if the original award were never granted. The Plan Administrator, in its sole discretion, shall determine the number of shares of Common Stock and/or restricted stock units to be granted to each Participant, provided that during any calendar year, no Participant shall receive an award under the Stock Issuance Program covering more than 200,000 shares of Common Stock.

A. Purchase Price.

1. The purchase price per share of Common Stock, if any, shall be fixed by the Plan Administrator.
2. Shares of Common Stock may be issued under the Stock Issuance Program for any item of consideration which the Plan Administrator may deem appropriate in each individual instance, including, without limitation, the following:
 - (i) cash or check made payable to the Corporation, or
 - (ii) past services rendered to the Corporation (or any Parent or Subsidiary).

B. Vesting/Issuance Provisions.

1. The Plan Administrator may issue shares of Common Stock under the Stock Issuance Program which are fully and immediately vested upon issuance or which are to vest in one or more installments over the Participant's period of Service or upon attainment of specified performance objectives. Shares of Common Stock may also be issued under the Stock Issuance Program pursuant to restricted stock units which entitle the recipients to receive the shares underlying the restricted stock units and which vest in one or more installments over the Participant's period of Service or upon attainment of specified performance objectives. The elements of the vesting schedule applicable to any awards granted under the Stock Issuance Program, namely:
 - (i) the Service period to be completed by the Participant or the performance objectives to be attained,
 - (ii) the number of installments in which the awards are to vest,
 - (iii) the interval or intervals (if any) which are to lapse between installments, and
 - (iv) the effect which death, Permanent Disability or other event designated by the Plan Administrator is to have upon the vesting schedule,

shall be determined by the Plan Administrator and incorporated into the Stock Issuance Agreement. For purposes of qualifying awards made under the Stock Issuance Program as performance-based compensation under Section 162(m) of the Code, the Plan Administrator, in its discretion, may set restrictions based upon the achievement of Performance Goals, which shall be set by the Plan Administrator on or before the Determination Date. In this connection, the Plan Administrator shall follow any procedures determined by it from time to time to be necessary or appropriate to ensure qualification of awards made under the Stock Issuance Program under Section 162(m) of the Code (e.g., in determining the Performance Goals). To the extent necessary to comply with the performance-based compensation provisions of Section 162(m) of the Code, with respect to any award granted subject to Performance Goals, within the first twenty-five percent (25%) of the Performance Period, but in no event more than ninety (90) days following the commencement of any Performance Period (or such other time as may be required or permitted by Section 162(m) of the Code), the Plan Administrator shall, in writing, (A) designate one or more Participants to whom awards made under the Stock Issuance Program shall be made, (B) select the Performance Goals applicable to the Performance Period, (C) establish the Performance Goals and amounts of such awards made under the Stock Issuance Program, as applicable, which may be earned for such Performance Period, and (D) specify the relationship between the Performance Goals and the amounts of such awards made under the Stock Issuance Program, as applicable, to be earned by each Participant for such Performance Period. Following the completion of each Performance Period, the Plan Administrator shall certify in writing whether the applicable Performance Goals have been achieved for such Performance Period. In determining the amounts earned by a Participant, the Plan Administrator shall have the right to reduce or eliminate (but not to increase) the amount payable at a given level of performance to take into account additional factors that the Plan Administrator may deem relevant to the assessment of individual or corporate performance for the Performance Period. A Participant shall be eligible to receive payment pursuant to an award intended to qualify as performance-based compensation under Section 162(m) of the Code made under the Stock Issuance Program for a Performance Period only if the Performance Goals for such period are achieved. Notwithstanding any other provision of the Plan, any award which is granted to a Participant and is intended to constitute qualified performance-based compensation under Section 162(m) of the Code shall be subject to any additional limitations set forth in the Code (including any amendment to Section 162(m)) or any regulations and ruling issued thereunder that are requirements for qualification as qualified performance-based compensation as described in Section 162(m) of the Code, and the Plan shall be deemed amended to the extent necessary to conform to such requirements.

2. Any new, substituted or additional securities or other property (including money paid other than as a regular cash dividend) which the Participant may have the right to receive with respect to his or her unvested shares of Common Stock by reason of any stock dividend, stock split, recapitalization, combination of shares, exchange of shares or other change affecting the outstanding Common Stock as a class without the Corporation's receipt of consideration shall be issued subject to (i) the same vesting requirements applicable to the Participant's unvested shares of Common Stock and (ii) such escrow arrangements as the Plan Administrator shall deem appropriate.

3. The Participant shall have full stockholder rights with respect to any shares of Common Stock issued to the Participant under the Stock Issuance Program (for these purposes, shares to be issued upon settlement of a restricted stock unit award will not be issued until the award has actually been settled), whether or not the Participant's interest in those shares is vested. Accordingly, the Participant shall have the right to vote such shares and to receive any regular cash dividends paid on such shares.

4. Should the Participant cease to remain in Service while holding one or more unvested shares of Common Stock issued under the Stock Issuance Program or should the performance objectives not be attained with respect to one or more such unvested shares of Common Stock, then those shares shall be immediately surrendered to the Corporation for cancellation, and the Participant shall have no further stockholder rights with respect to those shares. To the extent the surrendered shares were previously issued to the Participant for cash consideration, unless the Plan Administrator provides otherwise, the Corporation shall repay that consideration to the Participant at the time the shares are surrendered.

5. The Plan Administrator may in its discretion waive the surrender and cancellation of one or more unvested shares of Common Stock (or other assets attributable thereto) which would otherwise occur upon the cessation of the Participant's Service or the non-attainment of the performance objectives applicable to those shares. Such waiver shall result in the immediate vesting of the Participant's interest in the shares of Common Stock as to which the waiver applies. Such waiver may be effected at any time, whether before or after the Participant's cessation of Service or the attainment or non-attainment of the applicable performance objectives.

6. Outstanding restricted stock units under the Stock Issuance Program shall automatically terminate, and no shares of Common Stock shall actually be issued in satisfaction of those awards, if the performance goals or Service requirements established for such awards are not attained or satisfied. The Plan Administrator, however, shall have the discretionary authority to issue shares of Common Stock under outstanding awards in satisfaction of one or more outstanding restricted stock unit awards as to which the designated performance goals are not attained or satisfied. On the date set forth in the Stock Issuance Agreement, all unearned restricted stock units shall be forfeited to the Company.

7. Upon meeting the applicable vesting criteria, the Participant shall be entitled to a payout of restricted stock units as specified in the Stock Issuance Agreement. Notwithstanding the foregoing, after the grant of restricted stock units, the Plan Administrator, in its sole discretion, may reduce or waive any performance objectives or other vesting provisions for such restricted stock units. Payment of earned restricted stock units shall be made as soon as practicable after the date(s) set forth in the Stock Issuance Agreement or as otherwise provided in the applicable Stock Issuance Agreement or as required by applicable laws. The Plan Administrator, in its sole discretion, may pay earned restricted stock units in cash, in shares of Common Stock (which have an aggregate Fair Market Value equal to the value of the earned restricted stock units), or a combination thereof.

II. CORPORATE TRANSACTION/CHANGE IN CONTROL

A. All of the Corporation's outstanding repurchase rights under the Stock Issuance Program shall terminate automatically, and all the shares of Common Stock subject to those terminated rights and the awards issued under the Stock Issuance Program shall immediately vest in full (with all performance goals or other vesting criteria deemed achieved at target levels), in the event of any Corporate Transaction, except to the extent (i) the awards as to which those repurchase rights or other vesting criteria pertain are to be assigned to the successor corporation (or parent thereof) in connection with such Corporate Transaction or (ii) such accelerated vesting is precluded by other limitations imposed in the Stock Issuance Agreement.

B. The Plan Administrator shall have the discretionary authority, exercisable either at the time the unvested shares are issued or any time while the Corporation's repurchase rights remain outstanding under the Stock Issuance Program or while the awards under the Stock Issuance Program are unvested, to provide that those rights or awards shall automatically terminate in whole or in part, and the shares of Common Stock subject to those terminated rights or awards shall immediately vest upon a Corporate Transaction or Change in Control or upon an event or events associated with such transactions.

III. SHARE ESCROW/LEGENDS

Unvested shares may, in the Plan Administrator's discretion, be held in escrow by the Corporation until the Participant's interest in such shares vests or may be issued directly to the Participant with restrictive legends on the certificates evidencing those unvested shares.

ARTICLE FIVE

PERFORMANCE SHARE AND PERFORMANCE UNIT PROGRAM

I. PERFORMANCE UNITS AND PERFORMANCE SHARES

Shares of Common Stock or cash may be issued under the Performance Share or Performance Unit Program through awards of performance shares and performance units, which are awards that will result in a payment to a Participant only if the performance goals or other vesting criteria established by the Plan Administrator are achieved or the awards otherwise vest. Each award granted hereunder shall be evidenced by an agreement in such form as the Plan Administrator shall determine which complies with the terms specified below. The number of shares of Common Stock that may be issued pursuant to the Stock Issuance and Performance Share or Performance Unit Programs and the number of restricted stock units that may be issued pursuant to the Automatic Award Program equals 8,893,237 plus the sum of: (A) fifty percent (50%) of the number of shares subject to outstanding awards as of August 17, 2009 that actually return to the Plan pursuant to Article One, Section V, Clause C, and (B) fifty percent (50%) of the number of shares of Common Stock that are added to the Plan upon approval of the Corporation's stockholders after the 2009 Annual Meeting. To the extent any shares issued pursuant to awards granted under the Stock Issuance and Performance Share or Performance Unit Programs are forfeited or otherwise return to the Plan, such shares will not count against the foregoing limit and may once again be issued pursuant to awards under the Stock Issuance and Performance Share or Performance Unit Programs as if the original award were never granted.

A. Grant of Performance Units/Shares. The Plan Administrator will have complete discretion in determining the number of performance units and performance shares granted to each Participant provided that during any calendar year, (a) no Participant will receive performance units having an initial value greater than \$2,000,000, and (b) no Participant will receive more than 200,000 performance shares.

B. Value of Performance Units/Shares. Each performance unit will have an initial value that is established by the Plan Administrator on or before the date of grant. Each performance share will have an initial value equal to the Fair Market Value of a share of Common Stock on the date of grant.

C. Performance Objectives and Other Terms. The Plan Administrator will set performance objectives or other vesting provisions (including, without limitation, continued status as an Employee) in its discretion which, depending on the extent to which they are met, will determine the number or value of performance units/shares that will be paid out to the Participant. Each Award of performance units/shares will be evidenced by an agreement that will specify the Performance Period, and such other terms and conditions as the Plan Administrator, in its sole discretion, will determine.

1. General Performance Objectives. The Plan Administrator may set performance objectives based upon the achievement of Company-wide, divisional, or individual goals, or any other basis determined by the Plan Administrator in its discretion.

2. Section 162(m) Performance Objectives. For purposes of qualifying grants of performance units/shares as performance-based compensation under Section 162(m) of the Code, the Plan Administrator, in its discretion, may determine that the performance objectives applicable to performance units/shares will be based on the achievement of Performance Goals. The Plan Administrator will set the Performance Goals on or before the Determination Date. In granting performance units/shares which are intended to qualify under Section 162(m) of the Code, the Plan Administrator will follow any procedures determined by it from time to time to be necessary or appropriate to ensure qualification of the performance units/shares under Section 162(m) of the Code (e.g., in determining the Performance Goals). To the extent necessary to comply with the performance-based compensation provisions of Section 162(m) of the Code, with respect to any award granted subject to Performance Goals, within the first twenty-five percent (25%) of the Performance Period, but in no event more than ninety (90) days following the commencement of any Performance Period (or such other time as may be required or permitted by Section 162(m) of the Code), the Plan Administrator shall, in writing,

(A) designate one or more Participants to whom awards made under the Performance Share and Performance Unit Program shall be made, (B) select the Performance Goals applicable to the Performance Period, (C) establish the Performance Goals and amounts of such awards made under the Performance Share and Performance Unit Program, as applicable, which may be earned for such Performance Period, and (D) specify the relationship between the Performance Goals and the amounts of such awards made under the Performance Share and Performance Unit Program, as applicable, to be earned by each Participant for such Performance Period. Following the completion of each Performance Period, the Plan Administrator shall certify in writing whether the applicable Performance Goals have been achieved for such Performance Period. In determining the amounts earned by a Participant, the Plan Administrator shall have the right to reduce or eliminate (but not to increase) the amount payable at a given level of performance to take into account additional factors that the Plan Administrator may deem relevant to the assessment of individual or corporate performance for the Performance Period. A Participant shall be eligible to receive payment pursuant to an award intended to qualify as performance-based compensation under Section 162(m) of the Code made under the Performance Share and Performance Unit Program for a Performance Period only if the Performance Goals for such period are achieved. Notwithstanding any other provision of the Plan, any award which is granted to a Participant and is intended to constitute qualified performance-based compensation under Section 162(m) of the Code shall be subject to any additional limitations set forth in the Code (including any amendment to Section 162(m)) or any regulations and ruling issued thereunder that are requirements for qualification as qualified performance-based compensation as described in Section 162(m) of the Code, and the Plan shall be deemed amended to the extent necessary to conform to such requirements.

D. Earning of Performance Units/Shares. After the applicable Performance Period has ended, the holder of performance units/shares will be entitled to receive a payout of the number of performance units/shares earned by the Participant over the Performance Period, to be determined as a function of the extent to which the corresponding performance objectives or other vesting provisions have been achieved. After the grant of a performance unit/share, the Plan Administrator, in its sole discretion, may reduce or waive any performance objectives or other vesting provisions for such performance unit/share.

E. Form and Timing of Payment of Performance Units/Shares. Payment of earned performance units/shares will be made as soon as practicable after the expiration of the applicable Performance Period. The Administrator, in its sole discretion, may pay earned performance units/shares in the form of cash, in shares of Common Stock (which have an aggregate Fair Market Value equal to the value of the earned performance units/shares at the close of the applicable Performance Period) or in a combination thereof.

F. Cancellation of Performance Units/Shares. On the date set forth in the agreement evidencing the award, all unearned or unvested performance units/shares will be forfeited to the Company, and again will be available for grant under the Plan.

II. CORPORATE TRANSACTION/CHANGE IN CONTROL

A. All performance goals or other vesting criteria will be deemed achieved at target levels and all other terms and conditions met with respect to performance shares and performance units in the event of any Corporate Transaction, except to the extent (i) those awards are assumed or an equivalent option or right substituted by the successor corporation (or parent thereof) in connection with such Corporate Transaction or (ii) such accelerated vesting is precluded by other limitations imposed in the award Agreement.

B. The Plan Administrator shall have the discretionary authority, exercisable either at the time the unvested awards are granted or any time while such awards remain unvested and outstanding under the Performance Share or Performance Unit Program, to provide that those awards shall immediately vest upon a Corporate Transaction or Change in Control or upon an event or events associated with such transactions.

On July 13, 2007, the Board approved the following changes to the Automatic Award Program which became effective with stockholder approval at the 2007 Annual Meeting: reduce the term of option grants under the Automatic Award Program from ten (10) years to seven (7) years.

On August 17, 2009, the Board approved the following changes to the Automatic Award Program which became effective with stockholder approval at the 2009 Annual Meeting: amend the Automatic Award Program so that the Plan Administrator may institute a program whereby a non-employee Board member may elect to receive his or her automatic equity grants in the form of all stock options or in a combination of stock options and restricted stock units. With this amendment, the title of this Article Six was changed from Automatic Option Grant Program to Automatic Award Program and references in the Plan to the Automatic Option Grant Program were modified to reference the Automatic Award Program.

On July 14, 2011, the Board approved the following changes to the Automatic Award Program: amend the Automatic Award Program so that non-employee Board members would receive equity grants under the Plan (in any form of award permitted under the Discretionary Option Grant, Stock Appreciation Rights, Stock Issuance and Performance Share and Performance Unit Programs) pursuant to a compensation policy applicable to non-employee Board members as the Board or Primary Committee may determine from time to time.

I. GRANTING OF AWARDS

A. Nonemployee Board Member Compensation Policy. Each individual who is or becomes a non-employee Board member on or after July 14, 2011 shall be granted equity awards pursuant to a compensation policy adopted by the Board or a Primary Committee, as in effect from time to time.

B. Adjustments. The Board or a Primary Committee, in their respective discretion, may change and otherwise revise the terms of awards granted under the compensation policy for non-employee Board members for awards granted on or after the date the Board or the Primary Committee determines to make any such change or revision. For purposes of clarification, the changes or other revisions the Board or the Primary Committee can

make to the compensation policy include, but are not limited to, the number of shares of Common Stock subject to the awards, the type of awards granted, and the vesting and other conditions of the awards.

II. CORPORATE TRANSACTION/CHANGE IN CONTROL

A. The shares of Common Stock subject to each outstanding option granted under the Automatic Award Program at the time of a Corporate Transaction, but not otherwise vested, shall automatically vest in full so that each such option shall, immediately prior to the effective date of that Corporate Transaction, become fully exercisable for all of the shares of Common Stock at the time subject to such option and may be exercised for all or any portion of those shares as fully-vested shares of Common Stock. Immediately following the consummation of the Corporate Transaction, each such option grant shall terminate and cease to be outstanding, except to the extent assumed by the successor corporation (or parent thereof).

B. The shares of Common Stock subject to each outstanding option granted under the Automatic Award Program at the time of a Change in Control, but not otherwise vested, shall automatically vest in full so that each such option shall, immediately prior to the effective date of that Change in Control, become fully exercisable for all of the shares of Common Stock at the time subject to such option and may be exercised for all or any portion of those shares as fully-vested shares of Common Stock. Each such option shall remain exercisable for such fully-vested shares until the expiration or sooner termination of the option's term.

C. All repurchase rights of the Corporation outstanding under the Automatic Award Program at the time of a Corporate Transaction or Change in Control shall automatically terminate at that time, and the shares of Common Stock subject to those terminated rights shall immediately vest.

D. Each option granted under the Automatic Award Program that is assumed in connection with a Corporate Transaction shall be appropriately adjusted, immediately after such Corporate Transaction, to apply to the number and class of securities which would have been issuable to the Optionee in consummation of such Corporate Transaction had such option been exercised immediately prior to such Corporate Transaction. Appropriate adjustments to reflect such Corporate Transaction shall also be made to the exercise price payable per share under each such outstanding option, provided the aggregate exercise price payable for such securities shall remain the same.

E. All vesting criteria relating to any outstanding restricted stock units granted under the Automatic Award Program shall be deemed satisfied and all other terms and conditions met with respect to such awards in the event of any Corporate Transaction or a Change in Control.

F. The grant of awards under the Automatic Award Program shall in no way affect the right of the Corporation to adjust, reclassify, reorganize or otherwise change its capital or business structure or to merge, consolidate, dissolve, liquidate or sell or transfer all or any part of its business or assets.

III. REMAINING TERMS

The remaining terms of each award granted under the Automatic Award Program shall be the same as the terms in effect for same type of awards made under the Discretionary Option Grant, Stock Appreciation Rights, Stock Issuance and Performance Share and Performance Unit Programs.

ARTICLE SEVEN

MISCELLANEOUS

I. TAX WITHHOLDING

A. The Corporation's obligation to deliver shares of Common Stock upon the exercise or issuance of awards or vesting of such shares under the Plan shall be subject to the satisfaction of all applicable Federal, state and local income and employment tax withholding requirements.

B. The Plan Administrator may, in its discretion, provide any or all holders of unexercised or unvested awards under the Plan (other than the options granted or the shares issued under the Automatic Option Grant Program) with the right to use shares of Common Stock in satisfaction of all or part of the minimum Withholding Taxes to which such holders become subject in connection with the exercise of their awards or the vesting or disposition of their shares issued pursuant thereto. Such right may be provided to any such holder in either or both of the following formats:

(i) Stock Withholding: The election to have the Corporation withhold, from the shares of Common Stock otherwise issuable upon the exercise of such award, the vesting or issuance of such shares or upon disposition of the shares, a portion of those shares with an aggregate Fair Market Value equal to the percentage of the Withholding Taxes (not to exceed one hundred percent (100%) of the minimum amount required to be withheld) designated by the holder.

(ii) Stock Delivery: The election to deliver to the Corporation, at the time the award is exercised, the shares vest or are otherwise issued or upon disposition of the shares, one or more shares of Common Stock previously acquired by such holder (other than in connection with the exercise of an award or share vesting triggering the Withholding Taxes) with an aggregate Fair Market Value equal to the percentage of the Withholding Taxes (not to exceed one hundred percent (100%) of the minimum amount required to be withheld) designated by the holder.

II. EFFECTIVE DATE AND TERM OF THE PLAN

The Plan became effective on the Plan Effective Date and shall remain in effect until the earliest of (i) August 16, 2019, (ii) the date on which all shares available for issuance under the Plan shall have been issued or (iii) the termination of all outstanding awards in connection with a Corporate Transaction (unless the acquiror assumes the Plan in the transaction). Upon such Plan termination, all outstanding awards and unvested shares issued pursuant to awards shall continue to have force and effect in accordance with the provisions of the documents evidencing such awards.

III. AMENDMENT OF THE PLAN

A. The Board or the Primary Committee shall have complete and exclusive power and authority to amend or modify the Plan in any or all respects, subject to any stockholder approval which may be required pursuant to applicable laws or regulations; provided, however, that the Board or the Primary Committee may not, without stockholder approval, (i) increase the number of shares of Common Stock authorized for issuance under the Plan, or (ii) materially increase the benefits offered to participants under the 1999 Plan. No amendment or modification shall adversely affect any rights and obligations with respect to awards at the time outstanding under the Plan unless the Optionee or Participant consents to such amendment or modification.

B. The Plan was amended on August 17, 2000 to increase the number of shares of Common Stock authorized for issuance under the Plan by an additional 15,000,000 shares. Such amendment was approved by the stockholders at the 2001 Annual Meeting, and no options grants were made on the basis of the 13,400,000-share increase or the amendments to the Automatic Option Grant Program until such stockholder approval was obtained.

D. The Plan was amended on July 2, 2002 to increase the number of shares of Common Stock authorized for issuance under the Plan by an additional 14,000,000 shares. E. The Plan was amended and restated on June 12, 2003 so that awards under the Plan could qualify as performance based compensation under Section 162(m) of the Code. The stockholders approved the amended and restated Plan at the 2003 Annual Meeting.

Such amendment was approved by the stockholders at the 2006 Annual Meeting, and no awards were granted on the basis of the 10,900,000-share increase, until such stockholder approval was obtained.

I. The Plan was amended on July 13, 2007 to (i) increase the number of shares of Common Stock authorized for issuance under the Plan by an additional 7,200,000 shares, (ii) extend the term of the Plan by ten (10) years, (iii) provide that the number of shares subject to awards granted under the Stock Issuance and Performance Share and Performance Unit Programs may not exceed more than thirty percent (30%) of the sum of (1) the number of shares of Common Stock added to the Plan at the 2007 Annual Meeting, (2) the number of shares of Common Stock available to be granted pursuant to awards under the Plan as of May 25, 2007, and (3) the number of shares of Common Stock subject to outstanding awards as of May 25, 2007 that actually return to the Plan upon the repurchase or reacquisition of unvested shares or that were subject to awards that terminated without any shares actually having been issued pursuant thereto, (iv) increase the initial value of performance units that a Participant may receive during any calendar year from \$1,000,000 to \$2,000,000 and (v) decrease the maximum term of options granted under the Discretionary Option Grant Program and Automatic Option Grant Program and of stock appreciation rights granted under the Stock Appreciation Rights Program from ten (10) years to seven (7) years. Such amendments were approved by the stockholders at the 2007 Annual Meeting, and no awards were granted on the basis of the 7,200,000-share increase or the amendments to the Stock Issuance, Performance Share and Performance Unit Programs, Discretionary Option Grant Program, Automatic Option Grant Program and Stock Appreciation Rights Program until such stockholder approval was obtained.

J. The Plan was amended on July 11, 2008 to (i) increase the number of shares of Common Stock authorized for issuance under the Plan by an additional 6,600,000 shares, (ii) permit the Company to grant equity awards to the Company's non-employee Board members under all equity programs under the Plan and (iii) provide that the number of shares subject to awards granted under the Stock Issuance and Performance Share and Performance Unit Programs may not exceed more than thirty percent (30%) of the sum of (1) the number of shares of Common Stock added to the Plan at the 2008 Annual Meeting, (2) the number of shares of Common Stock available to be granted pursuant to awards under the Plan as of May 23, 2008, and (3) the number of shares of Common Stock subject to outstanding awards as of May 23, 2008. Such amendments were approved by the stockholders at the 2008 Annual Meeting, and no awards were granted on the basis of the 6,600,000-share increase or the other amendments to the Plan until such stockholder approval was obtained.

K. Options to purchase shares of Common Stock may be granted under the Discretionary Option Grant Program in excess of the number of shares then available for issuance under the Plan, provided any excess shares actually issued under such program are held in escrow until there is obtained stockholder approval of an amendment sufficiently increasing the number of shares of Common Stock available for issuance under the Plan. If such stockholder approval is not obtained within twelve (12) months after the date the first such excess grants are made, then (i) any unexercised options granted on the basis of such excess shares shall terminate and cease to be outstanding and (ii) the Corporation shall promptly refund to the Optionees the exercise price paid for any excess shares issued under the Plan and held in escrow, together with interest (at the applicable Short Term Federal Rate) for the period the shares were held in escrow, and such shares shall thereupon be automatically cancelled and cease to be outstanding.

L. The Plan was amended on March 6, 2009 to provide for a one-time stock option exchange program, as described in the proxy statement pursuant to the Special Meeting of Stockholders held on April 21, 2009, under which certain outstanding options may be surrendered in exchange for a lesser number of restricted stock units (or cash payment involving exchanges of a small number of surrendered options). Pursuant to the stock option exchange program, all of the shares underlying options surrendered in the option exchange program were returned to the Plan and restricted stock unit grants made in connection with the stock option exchange program were made from such returned shares. After making the restricted stock unit grants in connection with the stock option exchange program, the Plan's share reserve was reduced such that, in effect, only 3,500,000 of the shares underlying the surrendered options were retained as available for future grant under the Plan, thereby reducing the number of shares of Common Stock which may be issued over the term of the Plan from 101,100,000 shares to 89,330,429 shares.

M. The Plan was amended on August 17, 2009 to (i) approve an amendment to the Automatic Award Program (formerly known as the Automatic Option Grant Program) so that the Plan Administrator may implement a program whereby a non-employee Board member may elect to receive his or her automatic equity grants in the form of all stock options or in a combination of stock options and restricted stock units, and (ii) provide that the number of shares of Common Stock that may be issued pursuant to the Stock Issuance and Performance Share or Performance Unit Programs equals 8,893,237 plus the sum of: (A) fifty percent (50%) of the number of shares subject to outstanding awards as of August 17, 2009 that actually return to the Plan pursuant to Article One, Section V, Clause C, and (B) fifty percent (50%) of the number of shares of Common Stock that are added to the Plan upon approval of the Corporation's stockholders after the 2009 Annual Meeting. Such amendments were approved by the stockholders at the 2009 Annual Meeting, and no awards were granted based on the amendments to the Plan until such stockholder approval was obtained.

N. The Plan was amended on July 13, 2010 to increase the number of shares of Common Stock authorized for issuance under the Plan by an additional 7,000,000 shares. The stockholders approved such amendment at the 2010 Annual Meeting, and no awards were granted on the basis of the 7,000,000-share increase until such stockholder approval was obtained.

O. The Plan was amended on July 14, 2011 to (i) amend the Automatic Award Program so that non-employee Board members would receive equity grants under the Plan (in any form of award permitted under

the Discretionary Option Grant, Stock Appreciation Rights, Stock Issuance and Performance Share and Performance Unit Programs) pursuant to a compensation policy applicable to non-employee Board members as the Board or Primary Committee may determine from time to time, and (ii) to increase the number of shares of Common Stock authorized for issuance under the Plan by an additional 7,700,000 shares. The stockholders approved the share increase at the 2011 Annual Meeting, and no awards were granted on the basis of the 7,700,000-share increase until such stockholder approval was obtained.

P. The Plan was amended on July 18, 2012 to increase the number of shares of common stock authorized for issuance under the Plan by an additional 7,350,000 shares. The stockholders will be asked to approve such amendment at the 2012 Annual Meeting, and no awards will be granted on the basis of the 7,350,000-share increase until such stockholder approval is obtained.

B. Should any change be made to the Common Stock by reason of any stock split, stock dividend, recapitalization, combination of shares, exchange of shares or other change affecting the outstanding Common Stock as a class without the Corporation's receipt of consideration, appropriate adjustments shall be made to (i) the maximum number and class of securities issuable under the Plan, (ii) the maximum number and class of securities purchasable per Participant on any one Purchase Date, (iii) the maximum number and class of securities purchasable in total by all Participants on any one Purchase Date under the Plan and (iv) the number and class of securities and the price per share in effect under each outstanding purchase right in order to prevent the dilution or enlargement of benefits thereunder.

IV. OFFERING PERIODS

A. Shares of Common Stock shall be offered for purchase under the Plan through a series of overlapping offering periods until such time as (i) the maximum number of shares of Common Stock available for issuance under the Plan shall have been purchased or (ii) the Plan shall have been sooner terminated.

B. Each offering period shall be of such duration (not to exceed twenty-four (24) months) as determined by the Plan Administrator prior to the start date of such offering period. Offering periods shall commence at semi-annual intervals on the first business day of June and December each year over the remaining term of the Plan. Accordingly, two (2) separate offering periods shall commence in each calendar year the 2001 Restatement remains in existence. However, the initial offering period under the 2001 Restatement shall begin on the first business day in December 2001 and end on the last business day in November 2003.

NOTE: Prior to December 3, 2001, shares of Common Stock were offered for purchase under the Plan through a series of successive offering periods, each with a maximum duration of twenty-four (24) months. The last such offering period began on the first business day in December 1999 and terminated on November 30, 2001.

C. Each offering period shall be comprised of a series of one or more successive Purchase Intervals. Purchase Intervals shall run from the first business day in June each year to the last business day in November of the same year and from the first business day in December each year to the last business day in May of the following year.

D. Should the Fair Market Value per share of Common Stock on any Purchase Date within any offering period beginning on or after December 3, 2001 be less than the Fair Market Value per share of Common Stock on the start date of that offering period, then the individuals participating in such offering period shall, immediately after the purchase of shares of Common Stock on their behalf on such Purchase Date, be transferred from that offering period and automatically enrolled in the next offering period commencing after such Purchase Date.

V. ELIGIBILITY

A. Each individual who is an Eligible Employee on the start date of any offering period under the Plan may enter that offering period on such start date; provided, however, that the Plan Administrator, in its discretion, from time to time may, prior to a start date of any offering period for all purchase rights for future offering periods, establish (on a uniform and nondiscriminatory basis) waiting periods for participation in future offering periods of not more than two (2) years from the participant's date of hire. However, an Eligible Employee may participate in only one offering period at a time. Employees who are citizens or residents of a non-U.S. jurisdiction may be excluded from participation in the Plan or an Offering if the participation of such employees is prohibited under the laws of the applicable jurisdiction or if complying with the laws of the applicable jurisdiction would cause the Plan or an Offering to violate Section 423 of the Code.

B. Except as otherwise provided in Section IV.D, an Eligible Employee must, in order to participate in the Plan for a particular offering period, complete an on-line enrollment process in a uniform and non-discriminatory basis prescribed by the Plan Administrator or complete the enrollment forms prescribed by the Plan Administrator (including a stock purchase agreement and a payroll deduction authorization form) and file such forms with the Plan Administrator (or its designate) on or before the date established by the Plan Administrator on or prior to that offering period in a uniform and non-discriminatory basis.

VI. PAYROLL DEDUCTIONS

A. The payroll deduction authorized by the Participant for purposes of acquiring shares of Common Stock during an offering period may be any multiple of one percent (1%) of the Cash Earnings paid to the Participant during each Purchase Interval within that offering period, up to a maximum of ten percent (10%). The deduction rate so authorized by a Participant shall continue in effect throughout the offering period, except to the extent such rate is changed in accordance with the following guidelines:

(i) The Participant may, at any time during the offering period, reduce his or her rate of payroll deduction to become effective as soon as possible after filing the appropriate form with the Plan Administrator. The Participant may not, however, effect more than one (1) such reduction per Purchase Interval.

(ii) The Participant may, prior to the commencement of any new Purchase Interval within the offering period, increase the rate of his or her payroll deduction by filing the appropriate form with the Plan Administrator. The new rate (which may not exceed the ten percent (10%) maximum) shall become effective as of the start date of the first Purchase Interval following the filing of such form.

B. Payroll deductions on behalf of the Participant shall begin on the first pay day following the start date of the offering period in which he or she is enrolled and shall (unless sooner terminated by the Participant) continue through the pay day ending with or immediately prior to the last day of that offering period. The amounts so collected shall be credited to the Participant's book account under the Plan, but no interest shall be paid on the balance from time to time outstanding in such account, except as may be required by applicable law, as determined by the Corporation, and if so required, will apply to all Participants in the relevant Offering, except to the extent otherwise permitted by U.S. Treasury Regulation Section 1.423-2(f). The amounts collected from the Participant shall not be held in any segregated account or trust fund and may be commingled with the general assets of the Corporation and used for general corporate purposes, except under Offerings in which applicable local law requires that amounts collected from the Participants be segregated from the Corporation's general corporate funds and/or deposited with an independent third party for Participants in non-U.S. jurisdictions.

C. Payroll deductions shall automatically cease upon the Participant's withdrawal from the offering period or the termination of his or her purchase right in accordance with the provisions of the Plan.

D. The Participant's acquisition of Common Stock under the Plan on any Purchase Date shall neither limit nor require the Participant's acquisition of Common Stock on any subsequent Purchase Date, whether within the same or a different offering period.

E. The Plan Administrator shall have the discretion, exercisable prior to the start date of any offering period under the Plan, to determine whether the payroll deductions authorized by Participants during such offering period shall be calculated as a percentage of Base Salary or Cash Earnings.

VII. PURCHASE RIGHTS

A. **Grant of Purchase Right.** A Participant shall be granted a separate purchase right for each offering period in which he or she is enrolled. The purchase right shall be granted on the start date of the offering period and shall provide the Participant with the right to purchase shares of Common Stock, in a series of successive installments during that offering period, upon the terms set forth below. The Participant shall execute a stock purchase agreement embodying such terms and such other provisions (not inconsistent with the Plan) as the Plan Administrator may deem advisable. For purposes of the Plan, the Plan Administrator may designate separate Offerings under the Plan (the terms of which need not be identical) in which Eligible Employees will participate, even if the dates of the applicable offering periods of each such Offering are identical.

Under no circumstances shall purchase rights be granted under the Plan to any Eligible Employee if such individual would, immediately after the grant, own (within the meaning of Code Section 424(d)) or hold outstanding options or other rights to purchase, stock possessing five percent (5%) or more of the total combined voting power or value of all classes of stock of the Corporation or any Corporate Affiliate.

B. **Exercise of the Purchase Right.** Each purchase right shall be automatically exercised in installments on each successive Purchase Date within the offering period, and shares of Common Stock shall accordingly be purchased on behalf of each Participant on each such Purchase Date. The purchase shall be affected by applying the Participant's payroll deductions for the Purchase Interval ending on such Purchase Date to the purchase of whole shares of Common Stock at the purchase price in effect for the Participant for that Purchase Date.

C. **Purchase Price.** The purchase price per share at which Common Stock will be purchased on the Participant's behalf on each Purchase Date within the particular offering period in which he or she is enrolled shall be equal to eighty-five percent (85%) of the lower of (i) the Fair Market Value per share of Common Stock on the start date of that offering period or (ii) the Fair Market Value per share of Common Stock on that Purchase Date.

D. **Number of Purchasable Shares.** The number of shares of Common Stock purchasable by a Participant on each Purchase Date during the particular offering period in which he or she is enrolled shall be the number of whole shares obtained by dividing the amount collected from the Participant through payroll deductions during the Purchase Interval ending with that Purchase Date by the purchase price in effect for the Participant for that Purchase Date. However, the maximum number of shares of Common Stock purchasable per Participant on any one Purchase Date shall not exceed One Thousand Five Hundred (1,500) shares, subject to periodic adjustments in the event of certain changes in the Corporation's capitalization. However, the Plan Administrator shall have the discretionary authority, exercisable prior to the start of any offering period under the Plan, to increase or decrease, or implement, the limitations to be in effect for the number of shares purchasable per Participant and in total by all Participants enrolled in that particular offering period on each Purchase Date which occurs during that offering period.

E. **Excess Payroll Deductions.** Any payroll deductions not applied to the purchase of shares of Common Stock on any Purchase Date because they are not sufficient to purchase a whole share of Common Stock shall be held for the purchase of Common Stock on the next Purchase Date. However, any payroll deductions not applied to the purchase of Common Stock by reason of the limitation on the maximum number of shares purchasable per Participant or in total by all Participants on the Purchase Date shall be promptly refunded.

F. Suspension of Payroll Deductions. In the event that a Participant is, by reason of the accrual limitations in Article VIII, precluded from purchasing additional shares of Common Stock on one or more Purchase Dates during the offering period in which he or she is enrolled, then no further payroll deductions shall be collected from such Participant with respect to those Purchase Dates. The suspension of such deductions shall not terminate the Participant's purchase right for the offering period in which he or she is enrolled, and payroll deductions shall automatically resume on behalf of such Participant once he or she is again able to purchase shares during that offering period in compliance with the accrual limitations of Article VIII.

G. Withdrawal from Offering Period. The following provisions shall govern the Participant's withdrawal from an offering period under the Plan:

(i) A Participant may withdraw from the offering period in which he or she is enrolled by completing an on-line withdrawal process in a uniform and non-discriminatory basis prescribed by the Plan Administrator or by filing the appropriate form with the Plan Administrator (or its designate) at any time prior to the next scheduled Purchase Date in the offering period, and no further payroll deductions shall be collected from the Participant with respect to that offering period; provided, however, that the Plan Administrator, in its discretion, from time to time may, prior to a start date of any offering period for all purchase rights for future offering periods, establish (on a uniform and nondiscriminatory basis) a different date for effective withdrawals from the Plan. Any payroll deductions collected during the Purchase Interval in which such withdrawal occurs shall, at the Participant's election, be immediately refunded or held for the purchase of shares on the next Purchase Date. If no such election is made at the time the Participant withdraws from the offering period, then the payroll deductions collected with respect to the Purchase Interval in which such withdrawal occurs shall be refunded as soon as possible.

(ii) The Participant's withdrawal from the offering period shall be irrevocable, and the Participant may not subsequently rejoin that offering period. In order to resume participation in any subsequent offering period, such individual must re-enroll in the Plan (by completing an on-line enrollment process in a manner prescribed by the Plan Administrator or by making a timely filing of the prescribed enrollment forms) on or before the date determined by the Plan Administrator pursuant to Section V of that offering period.

H. Termination of Eligible Employee Status. Should the Participant cease to remain an Eligible Employee for any reason (including death, disability or change in status) while his or her purchase right remains outstanding, then that purchase right shall immediately terminate, and all of the Participant's payroll deductions for the Purchase Interval in which the purchase right so terminates shall be immediately refunded. However, should the Participant cease to remain in active service by reason of an approved unpaid leave of absence, then the Participant shall have the right, exercisable up until the last business day of the Purchase Interval in which such leave commences, to (a) withdraw all the payroll deductions collected to date on his or her behalf for that Purchase Interval or (b) have such funds held for the purchase of shares on his or her behalf on the next scheduled Purchase Date. In no event, however, shall any further payroll deductions be collected on the Participant's behalf during such leave; provided, however, that payroll deductions on the Participant's behalf may be collected for amounts paid during such leave for services rendered by the Participant prior to his or her leave. Upon the Participant's return to active service (i) within three (3) months following the commencement of such leave or (ii) prior to the expiration of any longer period for which such Participant's right to reemployment with the Corporation is guaranteed by either statute or contract, his or her payroll deductions under the Plan shall automatically resume at the rate in effect at the time the leave began, unless the Participant withdraws from the Plan prior to his or her return. An individual who returns to active employment following a leave of absence which exceeds in duration the applicable time period shall be treated as a new Employee for purposes of subsequent participation in the Plan and must accordingly re-enroll in the Plan (by completing an on-line enrollment process in a manner prescribed by the Plan Administrator or making a timely filing of the prescribed enrollment forms) on or before the date determined by the Plan Administrator pursuant to Section V of any offering period in which he or she wishes to participate.

I. Change in Control. Each outstanding purchase right shall automatically be exercised, immediately prior to the effective date of any Change in Control, by applying the payroll deductions of each Participant for the

Purchase Interval in which such Change in Control occurs to the purchase of whole shares of Common Stock at a purchase price per share equal to eighty-five percent (85%) of the lower of (i) the Fair Market Value per share of Common Stock on the start date of the offering period in which the Participant is enrolled at the time of such Change in Control or (ii) the Fair Market Value per share of Common Stock immediately prior to the effective date of such Change in Control. However, the applicable limitation on the number of shares of Common Stock purchasable per Participant shall continue to apply to any such purchase, but not the limitation applicable to the maximum number of shares of Common Stock purchasable in total by all Participants on any one Purchase Date.

The Corporation shall use its best efforts to provide at least ten (10) days prior written notice of the occurrence of any Change in Control, and Participants shall, following the receipt of such notice, have the right to terminate their outstanding purchase rights prior to the effective date of the Change in Control.

J. Proration of Purchase Rights. Should the total number of shares of Common Stock to be purchased pursuant to outstanding purchase rights on any particular date exceed either (i) the maximum limitation on the number of shares purchasable in total by all Participants on such date or (ii) the number of shares then available for issuance under the Plan, the Plan Administrator shall make a pro-rata allocation of the available shares on a uniform and nondiscriminatory basis, and the payroll deductions of each Participant, to the extent in excess of the aggregate purchase price payable for the Common Stock pro-rated to such individual, shall be refunded.

K. Assignability. The purchase right shall be exercisable only by the Participant and shall not be assignable or transferable by the Participant.

L. Shareholder Rights. A Participant shall have no shareholder rights with respect to the shares subject to his or her outstanding purchase right until the shares are purchased on the Participant's behalf in accordance with the provisions of the Plan and the Participant has become a holder of record of the purchased shares.

VIII. ACCRUAL LIMITATIONS

A. No Participant shall be entitled to accrue rights to acquire Common Stock pursuant to any purchase right outstanding under this Plan if and to the extent such accrual, when aggregated with (i) rights to purchase Common Stock accrued under any other purchase right granted under this Plan and (ii) similar rights accrued under other employee stock purchase plans (within the meaning of Code Section 423) of the Corporation or any Corporate Affiliate, would otherwise permit such Participant to purchase more than Twenty-Five Thousand Dollars (\$25,000) worth of stock of the Corporation or any Corporate Affiliate (determined on the basis of the Fair Market Value per share on the date or dates such rights are granted) for each calendar year such rights are at any time outstanding.

B. For purposes of applying such accrual limitations to the purchase rights granted under the Plan, the following provisions shall be in effect:

(i) The right to acquire Common Stock under each outstanding purchase right shall accrue in a series of installments on each successive Purchase Date during the offering period in which such right remains outstanding.

(ii) No right to acquire Common Stock under any outstanding purchase right shall accrue to the extent the Participant has already accrued in the same calendar year the right to acquire Common Stock under one (1) or more other purchase rights at a rate equal to Twenty-Five Thousand Dollars (\$25,000) worth of Common Stock (determined on the basis of the Fair Market Value per share on the date or dates of grant) for each calendar year such rights were at any time outstanding.

C. If by reason of such accrual limitations, any purchase right of a Participant does not accrue for a particular Purchase Interval, then the payroll deductions which the Participant made during that Purchase Interval with respect to such purchase right shall be promptly refunded.

D. In the event there is any conflict between the provisions of this Article and one or more provisions of the Plan or any instrument issued thereunder, the provisions of this Article shall be controlling.
