SUMMARY

This summary highlights selected information included in or incorporated by reference into this prospectus. The following summary does not contain all of the information that you should consider before deciding whether to invest in the Exchange Notes and is qualified in its entirety by the more detailed information appearing elsewhere in the prospectus and the documents incorporated herein by reference. You should carefully read the entire prospectus, including the information incorporated by reference herein, and particularly the information in the Risk Factors section beginning on page 11 of this prospectus, and in the documents incorporated by reference herein, before making an investment decision. Our company

Founded in 1946, Kaiser Aluminum is a Delaware corporation headquartered in Foothill Ranch, California. Our executive offices are located at 27422 Portola Parkway, Suite 200, Foothill Ranch, California 92610, and our telephone number at that location is (949) 614-1470. Our website address is <http://www.kaiseraluminum.com>. The information on our website is not a part of, or incorporated by reference into, this prospectus.

Our operations

We are a leading North American manufacturer of semi-fabricated specialty aluminum products. We provide highly engineered products for aerospace and high strength applications, general engineering applications, automotive extrusions, and other applications. We also own a 49% interest in Anglesey Aluminium Limited (Anglesey), which owns and operates a secondary aluminum remelt and casting facility in Holyhead, Wales.

We operate 11 focused production facilities in the United States and one in Canada, through which we manufacture high-quality rolled, extruded, and drawn aluminum products. We have focused our business on select end markets and applications where we believe we have a sustainable competitive advantage and opportunities for long-term growth. We believe we differentiate ourselves through a broad product offering, a reputation for Best in Class customer satisfaction, and the ability to provide superior products through our KaiserSelect product line.

Business strengths

We participate in select portions of the markets for flat-rolled and extruded/drawn aluminum products, focusing on highly engineered products for aerospace/high strength, general engineering, automotive and other industrial end-market applications. We have strategically targeted end markets that present opportunities for sales growth and premium pricing of differentiated products. In extruded products, we maintain a competitive advantage by using application engineering and advanced process engineering to distinguish our products. We believe that customer requirements in these market segments will enable us to utilize our core metallurgical capabilities to create value added products for them.

We believe we are well positioned to benefit from a strong aerospace build cycle and auto light-weighting trend. We have made over \$400 million in strategic investments since 2006, and are poised to take full advantage of these trends.

We have long-standing relationships with our customers, which include leading aerospace companies, automotive suppliers and metal distributors. Given the high barriers to entry in several key markets that we serve due to qualification and specialization requirements, we are one of a few suppliers to our customer base. In our served markets, we seek to be the supplier of choice by pursuing Best in Class customer satisfaction and offering a broad product portfolio. We have a culture of continuous improvement that is facilitated by the Kaiser Production System (KPS), an integrated application of tools such as Lean manufacturing, Six Sigma and Total Productive Manufacturing. We believe KPS enables us to continue to reduce our own manufacturing costs, eliminate waste throughout the value chain, and deliver Best in Class customer service through consistent, on-time delivery of superior quality products on short lead times. We strive to tightly integrate the management of our operations across multiple production facilities, product lines and target markets in order to maximize the efficiency of product flow to our customers.

Table of Contents

Business strategy

Over the past five years, we have pursued significant capital spending initiatives to increase capacity and improve product capabilities, product quality, and efficiency. These initiatives include (i) a significant investment to expand our capacity and increase thickness capability to produce aluminum heat treat plate for aerospace/high strength applications at our Spokane, Washington facility and (ii) a major investment in our Kalamazoo, Michigan facility to improve capabilities and efficiencies of our rod and bar operations and to provide capacity for future growth in extrusion applications.

Additionally, we recently completed two strategic acquisitions to provide complementary products to our sheet, plate, cold finish and drawn tube products, primarily for aerospace applications. In August 2010, we acquired the Florence, Alabama manufacturing facility, and related assets, of Nichols Wire, Incorporated (Nichols), which manufactures bare mechanical alloy wire products, nails and aluminum rod and expands our offerings of small diameter rod, bar and wire products to our core end market segments for aerospace, general engineering and automotive applications. In January 2011, we purchased the manufacturing facility in Chandler, Arizona (the Chandler, Arizona (Extrusion) facility), and related assets, of Alexco, L.L.C. (Alexco), which manufactures hard alloy extrusions for the aerospace industry. During 2011, we commenced an expansion of the Chandler, Arizona (Extrusion) facility to provide further capacity to manufacture hard alloy extrusions for the aerospace industry and further strengthen our broad product offerings for aerospace applications.

RISK FACTORS

The terms of the Exchange Notes are identical in all material aspects to those of the Original Notes, except for the transfer restrictions and registration rights and related special interest provisions relating to the Original Notes that do not apply to the Exchange Notes. This section describes some, but not all, of the risks of acquiring the Exchange Notes and participating in the Exchange Offer. Before making an investment decision, you should carefully consider the risk factors described below, the risk factors included in the Company's Annual Report on Form 10-K and in Exhibit 99.2 to the Company's Form 8-K filed with the SEC on May 24, 2012, each of which is incorporated by reference herein, as well as the risks described in our other filings with the SEC that are incorporated by reference herein.

Our substantial indebtedness could adversely affect our financial condition and prevent us from fulfilling our obligations under the Notes.

We have a significant amount of indebtedness. As of July 20, 2012, our total debt was approximately \$400.0 million, and we had borrowing availability of \$265.7 million under our revolving credit facility (after giving effect to \$8.7 million of outstanding letters of credit).

Subject to the limits contained in our revolving credit facility, the indentures governing the cash convertible senior notes and the Notes and our other debt instruments, we may be able to incur substantial additional debt from time to time to finance working capital, capital expenditures, investments or acquisitions, or for other purposes. If we do so, the risks related to our high level of debt could intensify. Specifically, our high level of debt could have important consequences to the holders of the Notes, including the following:

making it more difficult for us to satisfy our obligations with respect to the Notes and our other debt;

limiting our ability to obtain additional financing to fund future working capital, capital expenditures, acquisitions or other general corporate requirements;

requiring a substantial portion of our cash flows to be dedicated to debt service payments instead of other purposes, thereby reducing the amount of cash flows available for working capital, capital expenditures, acquisitions and other general corporate purposes;

increasing our vulnerability to general adverse economic and industry conditions;

exposing us to the risk of increased interest rates as certain of our borrowings, including borrowings under our revolving credit facility, are at variable rates of interest;

limiting our flexibility in planning for and reacting to changes in the industry in which we compete;

placing us at a disadvantage compared to other, less leveraged competitors; and

increasing our cost of borrowing.

In addition, the indentures governing the cash convertible senior notes and the Notes and our revolving credit facility contain restrictive covenants that will limit our ability to engage in activities that may be in our long-term best interest. Our failure to comply with those covenants could result in an event of default which, if not cured or waived, could result in the acceleration of all our debt.

Servicing our debt requires a significant amount of cash, and we may not have sufficient cash flow from our business to pay our debt.

Edgar Filing: KAISER ALUMINUM CORP - Form 424B3

Our ability to make scheduled payments of the principal of, to pay interest on or refinance our debt obligations, including the Notes and our cash convertible senior notes, depends on our financial condition and operating performance, which are subject to prevailing economic and competitive conditions and to certain financial, business, legislative, regulatory and other factors beyond our control. We may be unable to maintain a level of cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness, including the Notes.

Table of Contents

If our cash flows and capital resources are insufficient to fund our debt service obligations, we could face substantial liquidity problems and could be forced to reduce or delay investments and capital expenditures or to dispose of material assets or operations, seek additional debt or equity capital or restructure or refinance our indebtedness, including the Notes. We may not be able to effect any such alternative measures, if necessary, on commercially reasonable terms or at all and, even if successful, those alternative actions may not allow us to meet our scheduled debt service obligations. Our revolving credit facility and the indenture governing the Notes restrict our ability to dispose of assets and use the proceeds from those dispositions and may also restrict our ability to raise debt or equity capital to be used to repay other indebtedness when it becomes due. We may not be able to consummate those dispositions or to obtain proceeds in an amount sufficient to meet any debt service obligations then due.

If we cannot make scheduled payments on our debt, we will be in default and holders of the Notes could declare all outstanding principal and interest to be due and payable, the lenders under our revolving credit facility could terminate their commitments to loan money, the lenders could foreclose against the assets securing their borrowings and we could be forced into bankruptcy or liquidation.

We are a holding company and depend on our subsidiaries for cash to meet our obligations and pay any dividends.

We are a holding company and conduct all of our operations through our subsidiaries, certain of which are not guarantors of our Notes or our other indebtedness. Accordingly, repayment of our indebtedness, including the Notes, is dependent on the generation of cash flow by our subsidiaries and their ability to make such cash available to us, by dividend, debt repayment or otherwise. Unless they are guarantors of the Notes or other indebtedness, our subsidiaries do not have any obligation to pay amounts due on the Notes or other indebtedness or to make funds available for that purpose. Our subsidiaries may not be able to, or may not be permitted to, make distributions to enable us to make payments in respect of our indebtedness, including the Notes. Each of our subsidiaries is a distinct legal entity, and, under certain circumstances, legal and contractual restrictions may limit our ability to obtain cash from our subsidiaries. While our revolving credit facility and the indenture governing the Notes limit the ability of our subsidiaries to incur consensual restrictions on their ability to pay dividends or make other intercompany payments to us, these limitations are subject to qualifications and exceptions. In the event that we do not receive distributions from our subsidiaries, we may be unable to make required principal and interest payments on our indebtedness, including the Notes.

Despite our current level of indebtedness, we and our subsidiaries may still be able to incur substantially more debt. This could further exacerbate the risks to our financial condition described above.

We and our subsidiaries may be able to incur significant additional indebtedness in the future. Although our revolving credit facility and the indenture governing the Notes contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of qualifications and exceptions, and the additional indebtedness incurred in compliance with these restrictions could be substantial. If we incur any additional indebtedness that ranks equally with the Notes, subject to collateral arrangements, the holders of that debt will be entitled to share ratably with you in any proceeds distributed in connection with any insolvency, liquidation, reorganization, dissolution or other winding up of our company. This may have the effect of reducing the amount of proceeds paid to you. These restrictions also will not prevent us from incurring obligations that do not constitute indebtedness. In addition, as of July 20, 2012, our revolving credit facility would have provided for borrowing availability of \$265.7 million (after giving effect to \$8.7 million of outstanding letters of credit), subject to certain conditions. All of those borrowings would be secured indebtedness. If new debt is added to our current debt levels, the related risks that we and the subsidiary guarantors now face could intensify. See [Description of other indebtedness](#) and [Description of Notes](#).

Covenants and events of default in our debt instruments could limit our ability to undertake certain types of transactions and adversely affect our liquidity.

Our revolving credit facility and the indenture governing our Notes contain a number of restrictive covenants that impose significant operating and financial restrictions on us and may limit our ability to engage in acts that may be in our long-term best interest, including restrictions on our ability to:

Table of Contents

incur additional indebtedness and guarantee indebtedness;

pay dividends or make other distributions or repurchase or redeem capital stock;

prepay, redeem or repurchase certain debt;

issue certain preferred stock or similar equity securities;

make loans and investments;

sell assets;

incur liens;

enter into transactions with affiliates;

alter the businesses we conduct;

enter into agreements restricting our subsidiaries' ability to pay dividends; and

consolidate, merge or sell all or substantially all of our assets.

However, while the indenture governing the Notes places limitations on our ability to pay dividends or make other distributions, repurchase or redeem capital stock, and make loans and investments, these limitations are subject to significant qualifications and exceptions. The aggregate amount of payments made in compliance with these limitations could be substantial. In addition, the restrictive covenants in our revolving credit facility require us to maintain specified financial ratios and satisfy other financial condition tests. Our ability to meet those financial ratios and tests can be affected by events beyond our control, and we may be unable to meet them. You should read our more detailed descriptions of our revolving credit facility and the indenture governing our Notes in our filings with the SEC, as well as the documents themselves, for further information about these covenants.

A breach of the covenants or restrictions under the indenture governing the Notes or under our revolving credit facility could result in an event of default under the applicable indebtedness. Such a default may allow the creditors to accelerate the related debt and may result in the acceleration of any other debt to which a cross-acceleration or cross-default provision applies. In addition, an event of default under our revolving credit facility could permit the lenders under our revolving credit facility to terminate all commitments to extend further credit under that facility. Furthermore, if we were unable to repay the amounts due and payable under our revolving credit facility, those lenders could proceed against the collateral granted to them to secure that indebtedness. In the event our lenders or noteholders accelerate the repayment of our borrowings, we and our subsidiaries may not have sufficient assets to repay that indebtedness. As a result of these restrictions, we may be:

limited in how we conduct our business;

Edgar Filing: KAISER ALUMINUM CORP - Form 424B3

unable to raise additional debt or equity financing to operate during general economic or business downturns; or

unable to compete effectively or to take advantage of new business opportunities.

These restrictions may affect our ability to grow in accordance with our strategy. In addition, our financial results, our substantial indebtedness and our credit ratings could adversely affect the availability and terms of our financing.

In addition, a payment default, including an acceleration following an event of default, under our revolving credit facility or under our indentures for our cash convertible senior notes and our Notes, could each trigger an event of default under the other debt instrument, which could result in the principal of and the accrued and unpaid interest on such debt becoming due and payable.

Table of Contents

Our variable rate indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly.

Borrowings under our revolving credit facility are at variable rates of interest and expose us to interest rate risk. If interest rates were to increase, our debt service obligations on the variable rate indebtedness would increase even though the amount borrowed remained the same, and our net income and cash flows, including cash available for servicing our indebtedness, will correspondingly decrease. Assuming all loans are fully drawn, each quarter point change in interest rates would result in a \$0.7 million change in annual interest expense on our indebtedness under our revolving credit facility. In the future, we may enter into interest rate swaps that involve the exchange of floating for fixed rate interest payments in order to reduce interest rate volatility. However, we may not maintain interest rate swaps with respect to all of our variable rate indebtedness, and any swaps we enter into may not fully mitigate our interest rate risk.

The Original Notes are, and the Exchange Notes will be, effectively subordinated to our and our subsidiary guarantors' indebtedness under our revolving credit facility and any other secured indebtedness to the extent of the value of the property securing that indebtedness.

The Original Notes are not, and the Exchange Notes will not be, secured by any of our and our subsidiary guarantors' assets. As a result, the Notes and the note guarantees will be effectively subordinated to our and our subsidiary guarantors' indebtedness under our revolving credit facility with respect to the assets that secure that indebtedness. As of July 20, 2012, we had \$8.7 million in letters of credit outstanding under our revolving credit facility, resulting in total unused availability of approximately \$265.7 million. In addition, we may incur additional secured debt in the future. The effect of this subordination is that upon a default in payment on, or the acceleration of, any of our secured indebtedness, or in the event of bankruptcy, insolvency, liquidation, dissolution or reorganization of the issuer or the subsidiary guarantors, the proceeds from the sale of assets securing our secured indebtedness will be available to pay obligations on the Notes only after all indebtedness under our revolving credit facility and that other secured debt has been paid in full. As a result, the holders of the Notes may receive less, ratably, than the holders of secured debt in the event of our and our subsidiary guarantors' bankruptcy, insolvency, liquidation, dissolution or reorganization.

The Original Notes are, and the Exchange Notes will be, structurally subordinated to all obligations of existing and future subsidiaries that are not and do not become guarantors of the Notes.

The Original Notes are, and the Exchange Notes will be, guaranteed by each existing and subsequently acquired or organized subsidiaries that are borrowers under or otherwise guarantee our revolving credit facility or that, in the future, guarantee other indebtedness of the issuer or indebtedness of another subsidiary guarantor. Except for such subsidiary guarantors of the Notes, the issuer's subsidiaries, including all non-domestic subsidiaries, will have no obligation, contingent or otherwise, to pay amounts due under the Notes or to make any funds available to pay those amounts, whether by dividend, distribution, loan or other payment. The Notes and note guarantees will be structurally subordinated to all indebtedness and other obligations of any non-guarantor subsidiary such that in the event of insolvency, liquidation, reorganization, dissolution or other winding up of any subsidiary that is not a guarantor, all of that subsidiary's creditors (including trade creditors) would be entitled to payment in full out of that subsidiary's assets before the issuer would be entitled to any payment.

In addition, the indentures governing the cash convertible senior notes and the Notes will, subject to some limitations, permit these subsidiaries to incur additional indebtedness and will not contain any limitation on the amount of other liabilities, such as trade payables, that may be incurred by these subsidiaries.

As of June 30, 2012, the Company's subsidiaries that are not subsidiary guarantors had consolidated assets (excluding intercompany assets and investments in subsidiaries) of \$27.4 million, which represented 1.6% of our consolidated total assets and consolidated total liabilities (excluding intercompany liabilities) of approximately \$28.1 million, including trade payables, which accounted for approximately 4.1% of our consolidated liabilities. For the six months ended June 30, 2012, subsidiaries that are not subsidiary guarantors generated consolidated total net sales of \$64.7 million, which represented 9.1% of our consolidated total net sales, and consolidated operating income of \$4.6 million, which represented 5.4% of our consolidated operating income.

Table of Contents

In addition, subsidiaries that provide, or will provide, note guarantees will be automatically released from those note guarantees upon the occurrence of certain events, including the following:

the designation of that subsidiary guarantor as an unrestricted subsidiary;

the release or discharge of any guarantee or indebtedness that resulted in the creation of the note guarantee of the Notes by such subsidiary guarantor; or

the sale or other disposition, including the sale of substantially all the assets, of that subsidiary guarantor.

If any note guarantee is released, no holder of the Notes will have a claim as a creditor against that subsidiary, and the indebtedness and other liabilities, including trade payables and preferred stock, if any, whether secured or unsecured, of that subsidiary will be effectively senior to the claim of any holders of the Notes. See [Description of Notes](#) [Subsidiary guarantees](#).

We may not be able to repurchase the Notes upon a change of control.

Upon the occurrence of specific kinds of change of control events, we will be required to offer to repurchase all outstanding Notes at 101% of their principal amount, plus accrued and unpaid interest to the purchase date. Additionally, under our revolving credit facility, a change of control (as defined therein) constitutes an event of default that permits the lenders to accelerate the maturity of borrowings under the credit agreement and the commitments to lend would terminate. The source of funds for any purchase of the Notes and repayment of borrowings under our revolving credit facility would be our available cash or cash generated from operations or other sources, including borrowings, sales of assets or sales of equity. We may not be able to repurchase the Notes upon a change of control because we may not have sufficient financial resources to purchase all of the debt securities that are tendered upon a change of control and repay our other indebtedness that will become due. If we fail to repurchase the Notes in that circumstance, we will be in default under the indenture that governs the Original Notes and will govern the Exchange Notes. We may require additional financing from third parties to fund any such purchases, and we may be unable to obtain financing on satisfactory terms or at all. Further, our ability to repurchase the Notes may be limited by law. In order to avoid the obligations to repurchase the Notes and events of default and potential breaches of our revolving credit facility, we may have to avoid certain change of control transactions that would otherwise be beneficial to us.

In addition, certain important corporate events, such as leveraged recapitalizations, may not, under the indenture that governs the Original Notes and will govern the Exchange Notes, constitute a [change of control](#) that would require us to repurchase the Notes, even though those corporate events could increase the level of our indebtedness or otherwise adversely affect our capital structure, credit ratings or the value of the Notes. See [Description of Notes](#) [Repurchase at the option of holders](#) [Change of control](#).

The exercise by the holders of Notes of their right to require us to repurchase the Notes pursuant to a change of control offer could cause a default under the agreements governing our other indebtedness, including future agreements, even if the change of control itself does not, due to the financial effect of such repurchases on us. In the event a change of control offer is required to be made at a time when we are prohibited from purchasing Notes, we could attempt to refinance the borrowings that contain such prohibitions. If we do not obtain a consent or repay those borrowings, we will remain prohibited from purchasing Notes. In that case, our failure to purchase tendered Notes would constitute an event of default under the indenture which could, in turn, constitute a default under our other indebtedness. Finally, our ability to pay cash to the holders of Notes upon a repurchase may be limited by our then existing financial resources.

Holders of the Notes may not be able to determine when a change of control giving rise to their right to have the Notes repurchased has occurred following a sale of substantially all of our assets.

One of the circumstances under which a change of control may occur is upon the sale or disposition of [all or substantially all](#) of our assets. There is no precise established definition of the phrase [substantially all](#) under applicable law and the interpretation of that phrase will likely depend upon particular facts and circumstances. Accordingly, the ability of a holder of Notes to require us to repurchase its Notes as a result of a sale of less than all our assets to another person may be uncertain.

Table of Contents

Many of the covenants in the indenture that governs the Original Notes and will govern the Exchange Notes will not apply during any period in which the Notes are rated investment grade by both Standard & Poor's and Moody's.

Many of the covenants in the indenture that governs the Original Notes and will govern the Exchange Notes will not apply to us during any period in which the Notes are rated investment grade by both Standard & Poor's and Moody's, provided at such time no default or event of default has occurred and is continuing. These covenants will restrict among other things, our ability to pay distributions, incur debt and to enter into certain other transactions. There can be no assurance that the Notes will ever be rated investment grade, or that if they are rated investment grade, that the Notes will maintain these ratings. However, suspension of these covenants would allow us to incur debt, pay dividends and make other distributions and engage in certain other transactions that would not be permitted while these covenants were in force. To the extent the covenants are subsequently reinstated, any such actions taken while the covenants were suspended would not result in an event of default under the indenture that governs the Original Notes and will govern the Exchange Notes. See Description of Notes Certain covenants Covenant suspension.

Federal and state fraudulent transfer laws may permit a court to void the note guarantees, and if that occurs, you may not receive any payments on the Notes and may be required to return payments received.

Federal and state fraudulent transfer and conveyance statutes may apply to the incurrence of the note guarantees of the Notes. Under federal bankruptcy law and comparable provisions of state fraudulent transfer or conveyance laws, which may vary from state to state, the note guarantees could be voided as a fraudulent transfer or conveyance if any of the subsidiary guarantors (a) incurred the note guarantees with the intent of hindering, delaying or defrauding creditors or (b) received less than reasonably equivalent value or fair consideration in return for incurring the note guarantees and, in the case of (b) only, one of the following is also true at the time thereof:

any of the subsidiary guarantors were insolvent or rendered insolvent by reason of the incurrence of the note guarantees;

the incurrence of the note guarantees left any of the subsidiary guarantors with an unreasonably small amount of capital or assets to carry on the business;

any of the subsidiary guarantors intended to, or believed that such subsidiary guarantor would, incur debts beyond such subsidiary guarantor's ability to pay as they mature; or

any of the subsidiary guarantors were a defendant in an action for money damages, or had a judgment for money damages docketed against the subsidiary guarantor if, in either case, the judgment is unsatisfied after final judgment.

As a general matter, value is given for a transfer or an obligation if, in exchange for the transfer or obligation, property is transferred or a valid antecedent debt is secured or satisfied. A court would likely find that a subsidiary guarantor did not receive reasonably equivalent value or fair consideration for its note guarantee to the extent the subsidiary guarantor did not obtain a reasonably equivalent benefit directly or indirectly from the issuance of the Notes.

We cannot be certain as to the standards a court would use to determine whether or not the subsidiary guarantors were insolvent at the relevant time or, regardless of the standard that a court uses, whether the note guarantees would be subordinated to any other debt. In general, however, a court would deem an entity insolvent if, at the time it incurred indebtedness:

the sum of its debts, including contingent and unliquidated liabilities, was greater than the fair saleable value of all of its assets;

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

Table of Contents

it could not pay its debts as they became due.

If a court were to find that the incurrence of a note guarantee was a fraudulent transfer or conveyance, the court could void the payment obligations under that note guarantee, could subordinate the note guarantee to presently existing and future indebtedness of the related subsidiary guarantor or could require the holders of the Notes to repay any amounts received with respect to that note guarantee. In the event of a finding that a fraudulent transfer or conveyance occurred, you may not receive any repayment on the Notes. Further, the avoidance of the Notes could result in an event of default with respect to other debt that could result in acceleration of that debt.

Finally, as a court of equity, the bankruptcy court may subordinate the claims in respect of the Notes to other claims against us under the principle of equitable subordination if the court determines that (1) the holder of Notes engaged in some type of inequitable conduct, (2) the inequitable conduct resulted in injury to our other creditors or conferred an unfair advantage upon the holders of Notes and (3) equitable subordination is not inconsistent with the provisions of the bankruptcy code.

Although each guarantee entered into by a guarantor subsidiary will contain a provision intended to limit that guarantor's liability to the maximum amount that it could incur without causing the incurrence of obligations under its guarantee to be a fraudulent transfer, this provision may not be effective to protect those guarantees from being voided under fraudulent transfer law, or may reduce that guarantor's obligation to an amount that effectively makes its guarantee worthless. Although overturned on other grounds, in a recent Florida bankruptcy case, this type of provision was found to be ineffective to protect guarantees.

We cannot be sure that a market for the Exchange Notes, if any, will develop or continue.

The Exchange Notes will be new securities for which there is currently no public market. We do not intend to apply for listing of the Exchange Notes on any securities exchange. The liquidity of the trading market in the Exchange Notes and the market price quoted for the Exchange Notes may be adversely affected by changes in the overall market for high yield securities and by changes in our financial performance or prospects or in the financial performance. We cannot assure you that an active trading market will develop or be maintained for the Exchange Notes. If an active market does not develop or is not maintained, the market price of the Exchange Notes may decline and you may not be able to resell the Exchange Notes at the time, or at the prices, you would expect.

A lowering or withdrawal of the ratings assigned to our debt securities by rating agencies may increase our future borrowing costs and reduce our access to capital.

Our debt currently has a non-investment grade rating, and any rating assigned could be lowered or withdrawn entirely by a rating agency if, in that rating agency's judgment, future circumstances relating to the basis of the rating, such as adverse changes, so warrant. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of the Notes. Credit ratings are not recommendations to purchase, hold or sell the Notes. Additionally, credit ratings may not reflect the potential effect of risks relating to the structure or marketing of the Notes. Any downgrade by either Standard & Poor's or Moody's would increase the interest rate on our revolving credit facility, decrease earnings and may result in higher borrowing costs.

Any future lowering of our ratings likely would make it more difficult or more expensive for us to obtain additional debt financing. If any credit rating initially assigned to the Notes is subsequently lowered or withdrawn for any reason, you may not be able to resell your Notes without a substantial discount.

If you fail to exchange your Original Notes, they will continue to be restricted securities and may become less liquid.

Original Notes that you do not tender, or we do not accept, will, following the Exchange Offer, continue to be restricted securities, and you may not offer to sell them except as pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws. We will issue Exchange Notes in exchange for the Original Notes pursuant to the Exchange Offer only following the satisfaction of the procedures and conditions set forth in The Exchange Offer Procedures for Tendering Original Notes and The Exchange Offer Conditions to the Exchange Offer. These procedures and conditions include timely receipt by the exchange agent of such Original Notes (or a confirmation of book-entry transfer) and of a properly completed and duly executed letter of transmittal (or an agent's message from the Depository Trust Company).

Table of Contents

Because we anticipate that all or substantially all holders of Original Notes will elect to exchange their Original Notes in this Exchange Offer, we expect that the market for any Original Notes remaining after the completion of the Exchange Offer will be substantially limited. Any Original Notes tendered and exchanged in the Exchange Offer will reduce the aggregate principal amount of the Original Notes outstanding. Following the Exchange Offer, if you do not tender your Original Notes, you generally will not have any further registration rights, and your Original Notes will continue to be subject to certain transfer restrictions. Accordingly, the liquidity of the market for the Original Notes could be adversely affected.

THE EXCHANGE OFFER

Purpose of the Exchange Offer

In connection with the offer and sale of the Original Notes, each of Kaiser Aluminum and the guarantors entered into a registration rights agreement with the initial purchasers of the Original Notes. We are making the Exchange Offer to satisfy our obligations under the registration rights agreement.

Terms of the Exchange Offer

Kaiser Aluminum is offering to exchange, upon the terms and subject to the conditions set forth in this prospectus and in the accompanying letter of transmittal, Exchange Notes for an equal principal amount of Original Notes. The terms of the Exchange Notes are identical in all material respects to those of the Original Notes, except for transfer restrictions, registration rights and special interest provisions relating to the Original Notes that will not apply to the Exchange Notes. The Exchange Notes will be entitled to the benefits of the indenture under which the Original Notes were issued. See Description of Notes.

The Exchange Offer is not conditioned upon any minimum aggregate principal amount of Original Notes being tendered or accepted for exchange. As of the date of this prospectus, \$225.0 million aggregate principal amount of the Original Notes was outstanding. Original Notes tendered in the Exchange Offer must be in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

Based on certain interpretive letters issued by the staff of the SEC to third parties in unrelated transactions, holders of Original Notes, except any holder who is an affiliate of ours within the meaning of Rule 405 under the Securities Act, who exchange their Original Notes for Exchange Notes pursuant to the Exchange Offer generally may offer the Exchange Notes for resale, resell the Exchange Notes and otherwise transfer the Exchange Notes without compliance with the registration and prospectus delivery provisions of the Securities Act, *provided* that the Exchange Notes are acquired in the ordinary course of the holders' business and such holders are not participating in, and have no arrangement or understanding with any person to participate in, a distribution of the Exchange Notes.

Each broker-dealer that receives Exchange Notes for its own account in exchange for Original Notes, where the Original Notes were acquired by the broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of the Exchange Notes as described in Plan of Distribution. In addition, to comply with the securities laws of individual jurisdictions, if applicable, the Exchange Notes may not be offered or sold unless they have been registered or qualified for sale in the jurisdiction or an exemption from registration or qualification is available and complied with. We have agreed, pursuant to the registration rights agreement, to file with the SEC a registration statement (of which this prospectus forms a part) with respect to the Exchange Notes. If you do not exchange Original Notes for Exchange Notes pursuant to the Exchange Offer, your Original Notes will continue to be subject to restrictions on transfer.

If any holder of the Original Notes is an affiliate of ours, is engaged in or intends to engage in or has any arrangement or understanding with any person to participate in the distribution of the Exchange Notes to be acquired in the Exchange Offer, the holder would not be able to rely on the applicable interpretations of the SEC and would be required to comply with the registration requirements of the Securities Act, except for resales made pursuant to an exemption from, or in a transaction not subject to, the registration requirement of the Securities Act and applicable state securities laws.

Expiration Date; Extensions; Termination; Amendments

The Exchange Offer expires on the Expiration Date, which is 5:00 p.m., New York City time, on September 11, 2012 unless we, in our sole discretion, extend the period during which the Exchange Offer is open. We will keep the Exchange Offer open for the period required by applicable law, but in any event for at least twenty business days.

We reserve the right to extend the Exchange Offer at any time and from time to time prior to the Expiration Date by giving written notice to Wells Fargo Bank, National Association, the exchange agent, and by public announcement communicated by no later than 9:00 a.m., New York City time, on the next business day following the previously scheduled expiration date, unless otherwise required by applicable law or regulation, by making a release to PR Newswire or other wire service. During any extension of the Exchange Offer, all Original Notes previously tendered will remain subject to the Exchange Offer and may be accepted for exchange by us.

Table of Contents

The exchange date will be promptly following the Expiration Date. We expressly reserve the right to:

terminate the Exchange Offer and not accept for exchange any Original Notes for any reason, including if any of the events set forth below under "Conditions to the Exchange Offer" shall have occurred and shall not have been waived by us; and

amend the terms of the Exchange Offer in any manner, whether before or after any tender of the Original Notes.

If any termination or material amendment occurs, we will notify the exchange agent in writing and will either issue a press release or give written notice to the holders of the Original Notes as promptly as practicable. Additionally, in the event of a material amendment or change in the Exchange Offer, which would include any waiver of a material condition hereof, we will extend the offer period, if necessary, so that at least five business days remain in the Exchange Offer following notice of the material amendment or change, as applicable.

Unless we terminate the Exchange Offer prior to the Expiration Date, we will exchange the Exchange Notes for the tendered Original Notes promptly after the Expiration Date, and will issue to the exchange agent Exchange Notes for Original Notes validly tendered, not withdrawn and accepted for exchange. Any Original Notes not accepted for exchange for any reason will be returned without expense to the tendering holder promptly after expiration or termination of the Exchange Offer. See "Acceptance of Original Notes for Exchange; Delivery of Exchange Notes."

This prospectus and the accompanying letter of transmittal and other relevant materials will be mailed by us to record holders of Original Notes and will be furnished to brokers, banks and similar persons whose names, or the names of whose nominees, appear on the lists of holders for subsequent transmittal to beneficial owners of Original Notes.

Procedures for Tendering Original Notes

The tender of Original Notes by you pursuant to any one of the procedures set forth below will constitute an agreement between you and us in accordance with the terms and subject to the conditions set forth in this prospectus and in the accompanying letter of transmittal.

General Procedures. For all Original Notes held in book-entry form, the holder must tender its Original Notes by means of the ATOP, subject to the terms and procedures of that system. If delivery is made through ATOP, the holder must transmit an agent's message to the exchange agent's account at DTC. The term "agent's message" means a message, transmitted to DTC and received by the exchange agent and forming a part of a book-entry transfer, that states that DTC has received an express acknowledgement that the holder agrees to be bound by the letter of transmittal and that we may enforce the letter of transmittal against the holder.

For Original Notes held in certificated form, the holder may tender Original Notes by:

properly completing and signing the accompanying letter of transmittal or a facsimile and delivering the letter of transmittal, including all other documents required by the letter of transmittal, together with the Original Notes; or

complying with the guaranteed delivery procedures described below.

If tendered Original Notes in certificated form are registered in the name of the signer of the accompanying letter of transmittal and the Exchange Notes to be issued in exchange for those Original Notes are to be issued, or if a new note representing any untendered Original Notes is to be issued, in the name of the registered holder, the signature of the signer need not be guaranteed. In any other case, the tendered Original Notes in certificated form must be endorsed or accompanied by written instruments of transfer in form satisfactory to us and duly executed by the registered holder and the signature on the endorsement or instrument of transfer must be guaranteed by a commercial bank or trust company located or having an office or correspondent in the United States or by a member

Table of Contents

firm of a national securities exchange or of the National Association of Securities Dealers, Inc. or by a member of a signature medallion program such as STAMP. If the Exchange Notes and/or Original Notes in certificated form not exchanged are to be delivered to an address other than that of the registered holder appearing on the note register for the Original Notes, the signature on the letter of transmittal must be guaranteed by an eligible institution.

Any beneficial owner whose Original Notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee and who wishes to tender Original Notes should contact the registered holder promptly and instruct the registered holder to tender Original Notes on the beneficial owner's behalf. If the beneficial owner wishes to tender the Original Notes itself, the beneficial owner must, prior to completing and executing the accompanying letter of transmittal and delivering the Original Notes, either make appropriate arrangements to register ownership of the Original Notes in the beneficial owner's name or follow the procedures described in the immediately preceding paragraph. The transfer of record ownership may take considerable time.

A tender will be deemed to have been received as of the date when:

in the case of notes held in certificated form, the tendering holder's properly completed and duly signed letter of transmittal accompanied by the holder's Original Notes is received by the exchange agent;

in the case of notes held in book-entry form, the tendering holder's book-entry confirmation along with an agent's message is received by the exchange agent; or

the holder has complied with the guaranteed delivery procedures described below.

Issuances of Exchange Notes in exchange for Original Notes in certificated form tendered pursuant to a notice of guaranteed delivery or letter or facsimile transmission to similar effect by an eligible institution will be made only against deposit of the letter of transmittal and Original Notes and any other required documents.

All questions as to the validity, form, eligibility, time of receipt, acceptance, or withdrawal of tendered Original Notes will be determined by us and will be final and binding. We reserve the absolute right to reject any or all tenders not in proper form or the acceptances for exchange of which may, upon advice of our counsel, be unlawful. We also reserve the absolute right to waive any of the conditions to the Exchange Offer or any defects or irregularities in tenders of any particular holder, whether or not similar defects or irregularities are waived in the case of other holders. Neither we, the exchange agent, the trustee nor any other person will be under any duty to give notification of any defects or irregularities in tenders or will incur any liability for failure to give any such notification. Our interpretation of the terms and conditions of the Exchange Offer, including the letter of transmittal and its instructions, will be final and binding.

The method of delivery of all documents is at the election and risk of the tendering holder, and delivery will be deemed made only when actually received and confirmed by the exchange agent. If the delivery is by mail, it is recommended that registered mail properly insured with return receipt requested be used and that the mailing be made sufficiently in advance of the Expiration Date to permit delivery to the exchange agent prior to 5:00 p.m., New York City time, on the Expiration Date. As an alternative to delivery by mail, holders may wish to consider overnight or hand delivery service. In all cases, sufficient time should be allowed to ensure delivery to the exchange agent prior to 5:00 p.m., New York City time, on the Expiration Date. No letter of transmittal or other document should be sent to us. Beneficial owners may request their respective brokers, dealers, commercial banks, trust companies or nominees to effect the above transactions for them.

Book-Entry Transfer. The exchange agent will make a request to establish an account with respect to the Original Notes at DTC for purposes of the Exchange Offer within two business days after this prospectus is mailed to holders, and any financial institution that is a participant in DTC may make book-entry delivery of Original Notes by causing DTC to transfer the Original Notes into the exchange agent's account at DTC in accordance with DTC's procedures for transfer.

Guaranteed Delivery Procedures. A holder of Original Notes in book-entry form seeking to guarantee delivery of its Original Notes must do so by means of ATOP in accordance with the terms and procedures of that program. If the Original Notes are held in certificated form and are not immediately available, a tender may be effected if the exchange agent has received at its office a letter or facsimile transmission from an eligible institution setting forth

Table of Contents

the name and address of the tendering holder, the names in which the Original Notes are registered, the principal amount of the Original Notes being tendered and stating that the tender is being made thereby and guaranteeing that within three NASDAQ Stock Market trading days after the Expiration Date a properly completed and duly executed letter of transmittal and any other required documents together with the certificates for all physically tendered Original Notes, in proper form for transfer, will be delivered by the eligible institution to the exchange agent in accordance with the procedures outlined above. Unless Original Notes being tendered by the above-described method are deposited with the exchange agent within the time period set forth above and accompanied or preceded by a properly completed letter of transmittal and any other required documents, we may, at our option, reject the tender. Additional copies of a notice of guaranteed delivery which may be used by eligible institutions for the purposes described in this paragraph are available from the exchange agent.

Terms and Conditions Contained in the Letter of Transmittal

The accompanying letter of transmittal contains, among other things, the following terms and conditions, which are part of the Exchange Offer. Holders of Original Notes held in book-entry form should not submit a letter of transmittal. However, all holders who exchange their Original Notes held in book-entry form for Exchange Notes in accordance with the procedures outlined above will be deemed to have acknowledged receipt of, and agreed to be bound by, and to have made all of the representations and warranties contained in the letter of transmittal.

The transferring party tendering Original Notes for exchange will be deemed to have exchanged, assigned and transferred the Original Notes to us and irrevocably constituted and appointed the exchange agent as the transferor's agent and attorney-in-fact to cause the Original Notes to be assigned, transferred and exchanged. The transferor will be required to represent and warrant that it has full power and authority to tender, exchange, assign and transfer the Original Notes and to acquire Exchange Notes issuable upon the exchange of the tendered Original Notes and that, when the same are accepted for exchange, we will acquire good and unencumbered title to the tendered Original Notes, free and clear of all liens, restrictions (other than restrictions on transfer), charges and encumbrances and that the tendered Original Notes are not and will not be subject to any adverse claim. The transferor will be required to also agree that it will, upon request, execute and deliver any additional documents deemed by the exchange agent or us to be necessary or desirable to complete the exchange, assignment and transfer of tendered Original Notes. The transferor will be required to agree that acceptance of any tendered Original Notes by us and the issuance of Exchange Notes in exchange for tendered and accepted Original Notes will constitute performance in full by us of our obligations under the registration rights agreement and that we will have no further obligations or liabilities under the registration rights agreement, except in certain limited circumstances. All authority conferred by the transferor will survive the death, bankruptcy or incapacity of the transferor and every obligation of the transferor will be binding upon the heirs, legal representatives, successors, assigns, executors, administrators and trustees in bankruptcy of the transferor.

By tendering Original Notes and executing the accompanying letter of transmittal, the transferor certifies that:

it is not an affiliate of ours or our subsidiaries or, if the transferor is an affiliate of ours or our subsidiaries, it will comply with the registration and prospectus delivery requirements of the Securities Act to the extent applicable;

the Exchange Notes are being acquired in the ordinary course of business of the person receiving the Exchange Notes, whether or not the person is the registered holder;

the transferor has not engaged in, does not intend to engage in, and has no arrangement or understanding with any person to engage in, a distribution, within the meaning of the Securities Act, of the Exchange Notes;

the transferor is not a broker-dealer who purchased the Original Notes for resale pursuant to an exemption under the Securities Act; and

the transferor is not restricted by any law or policy of the SEC from trading the Exchange Notes acquired in the Exchange Offer.

Table of Contents

Each broker-dealer that receives Exchange Notes for its own account in exchange for Original Notes where such Original Notes were acquired by such broker-dealer as a result of market-making activities or other trading activities must acknowledge that it will deliver a prospectus in connection with any resale of such Exchange Notes. See Plan of Distribution.

Withdrawal Rights

Original Notes tendered pursuant to the Exchange Offer may be withdrawn at any time prior to the Expiration Date.

For a withdrawal to be effective, a written letter or facsimile transmission notice of withdrawal must be received by the exchange agent at its address set forth in the accompanying letter of transmittal not later than 5:00 p.m., New York City time, on the Expiration Date. Any notice of withdrawal must specify the person named in the letter of transmittal as having tendered Original Notes to be withdrawn, the principal amount of Original Notes to be withdrawn, that the holder is withdrawing its election to have such Original Notes exchanged and the name of the registered holder of the Original Notes, and must be signed by the holder in the same manner as the original signature on the letter of transmittal, including any required signature guarantees, or be accompanied by evidence satisfactory to us that the person withdrawing the tender has succeeded to the ownership of the Original Notes being withdrawn. Properly withdrawn Original Notes may be re-tendered by following one of the procedures described under Procedures for Tendering Original Notes above at any time on or prior to 5:00 p.m., New York City time, on the Expiration Date. Any notice of withdrawal must specify the name and number of the account at DTC to be credited with the withdrawn Original Notes and otherwise comply with the procedures of DTC. All questions as to the validity of notices of withdrawals, including time of receipt, will be determined by us, and will be final and binding on all parties.

Acceptance of Original Notes for Exchange; Delivery of Exchange Notes

Upon the terms and subject to the conditions of the Exchange Offer, the acceptance for exchange of Original Notes validly tendered and not withdrawn and the issuance of the Exchange Notes will be made on the exchange date. For purposes of the Exchange Offer, we will be deemed to have accepted for exchange validly tendered Original Notes when and if we have given written notice to the exchange agent.

The exchange agent will act as agent for the tendering holders of Original Notes for the purposes of receiving Exchange Notes from us and causing the Original Notes to be assigned, transferred and exchanged. Original Notes tendered by book-entry transfer into the exchange agent's account at DTC pursuant to the procedures described above will be credited to an account maintained by the holder with DTC for the Original Notes, promptly after withdrawal, rejection of tender or termination of the Exchange Offer.

Conditions to the Exchange Offer

Notwithstanding any other provision of the Exchange Offer, or any extension of the Exchange Offer, we will not be required to issue Exchange Notes in exchange for any properly tendered Original Notes not previously accepted and may terminate the Exchange Offer, by oral or written notice to the exchange agent and by timely public announcement communicated, unless otherwise required by applicable law or regulation, to PR Newswire or other wire service, or, at our option, modify or otherwise amend the Exchange Offer, if, in our reasonable determination:

there is threatened, instituted or pending any action or proceeding before, or any injunction, order or decree shall have been issued by, any court or governmental agency or other governmental regulatory or administrative agency or of the SEC:

seeking to restrain or prohibit the making or consummation of the Exchange Offer;

assessing or seeking any damages as a result thereof; or

resulting in a material delay in our ability to accept for exchange or exchange some or all of the Original Notes pursuant to the Exchange Offer; or

the Exchange Offer violates any applicable law or any applicable interpretation of the staff of the SEC.

Table of Contents

These conditions are for our sole benefit and may be asserted by us with respect to all or any portion of the Exchange Offer regardless of the circumstances, including any action or inaction by us, giving rise to the condition or may be waived by us in whole or in part at any time or from time to time in our sole discretion. The failure by us at any time to exercise any of the foregoing rights will not be deemed a waiver of any right, and each right will be deemed an ongoing right that may be asserted at any time or from time to time. We reserve the right, notwithstanding the satisfaction of these conditions, to terminate or amend the Exchange Offer.

Any determination by us concerning the fulfillment or non-fulfillment of any conditions will be final and binding upon all parties.

In addition, we will not accept for exchange any Original Notes tendered, and no Exchange Notes will be issued in exchange for any Original Notes, if at such time, any stop order has been issued or is threatened with respect to the registration statement of which this prospectus is a part, or with respect to the qualification of the indenture under which the Original Notes were issued under the Trust Indenture Act, as amended.

Solicitation of Tenders; Expenses

We have not retained any dealer-manager or similar agent in connection with the Exchange Offer and we will not make any payments to brokers, dealers or others for soliciting acceptances of the Exchange Offer. We will, however, pay the exchange agent reasonable and customary fees for its services and will reimburse it for actual and reasonable out-of-pocket expenses. The expenses to be incurred in connection with the Exchange Offer, including the fees and expenses of the exchange agent and printing, accounting and legal fees, will be paid by us.

Table of Contents

No person has been authorized to give any information or to make any representations in connection with the Exchange Offer other than those contained in this prospectus. If given or made, the information or representations should not be relied upon as having been authorized by us. Neither the delivery of this prospectus nor any exchange made in the Exchange Offer will, under any circumstances, create any implication that there has been no change in our affairs since the date of this prospectus or any earlier date as of which information is given in this prospectus.

The Exchange Offer is not being made to, nor will tenders be accepted from or on behalf of, holders of Original Notes in any jurisdiction in which the making of the Exchange Offer or the acceptance would not be in compliance with the laws of the jurisdiction. However, we may, at our discretion, take any action as we may deem necessary to make the Exchange Offer in any jurisdiction. In any jurisdiction where its securities laws or blue sky laws require the Exchange Offer to be made by a licensed broker or dealer, the Exchange Offer is being made on our behalf by one or more registered brokers or dealers licensed under the laws of the jurisdiction.

Appraisal Rights

You will not have dissenters' rights or appraisal rights in connection with the Exchange Offer.

Accounting Treatment

The Exchange Notes will be recorded at the carrying value of the Original Notes as reflected on our accounting records on the date of the exchange. Accordingly, no gain or loss for accounting purposes will be recognized by us upon the exchange of Exchange Notes for Original Notes. Expenses incurred in connection with the issuance of the Exchange Notes will be amortized over the term of the Exchange Notes.

Transfer Taxes

If you tender your Original Notes, you will not be obligated to pay any transfer taxes in connection with the Exchange Offer unless you instruct us to register Exchange Notes in the name of, or request Original Notes not tendered or not accepted in the Exchange Offer be returned to, a person other than the registered holder, in which case you will be responsible for the payment of any applicable transfer tax.

Income Tax Considerations

We advise you to consult your own tax advisers as to your particular circumstances and the effects of any state, local or foreign tax laws to which you may be subject.

The discussion herein is based upon the provisions of the Internal Revenue Code of 1986, as amended (the "Code"), and regulations, rulings and judicial decisions thereunder, in each case as in effect on the date of this prospectus, all of which are subject to change.

The exchange of an Original Note for an Exchange Note will not constitute a taxable exchange. The exchange will not result in taxable income, gain or loss being recognized by you or by us. Immediately after the exchange, you will have the same adjusted basis and holding period in each Exchange Note received as you had immediately prior to the exchange in the corresponding Original Note surrendered. See "Certain U.S. Federal Income Tax Considerations" for more information.

Consequences of Failure to Exchange

As a consequence of the offer or sale of the Original Notes pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws, holders of Original Notes who do not exchange Original Notes for Exchange Notes in the Exchange Offer will continue to be subject to the restrictions on transfer of the Original Notes. In general, the Original Notes may not be offered or sold unless such offers and sales are registered under the Securities Act, or exempt from, or not subject to, the registration requirements of the Securities Act and applicable state securities laws.

Upon completion of the Exchange Offer, due to the restrictions on transfer of the Original Notes and the absence of similar restrictions applicable to the Exchange Notes, it is highly likely that the market, if any, for Original Notes will be relatively less liquid than the market for Exchange Notes. Consequently, holders of Original Notes who do not participate in the Exchange Offer could experience significant diminution in the value of their Original Notes compared to the value of the Exchange Notes.

Table of Contents

USE OF PROCEEDS

The Exchange Offer is intended to satisfy our obligations under the registration rights agreement relating to the Original Notes. We will not receive any cash proceeds from the issuance of the Exchange Notes. The form and terms of the Exchange Notes are identical in all material respects to the form and terms of the Original Notes, except with respect to the transfer restrictions and registration rights and related special interest provisions relating to the Original Notes. In consideration for issuing the Exchange Notes as contemplated in this prospectus, we will receive, in exchange, an equal principal amount of outstanding Original Notes. The Original Notes surrendered in exchange for the Exchange Notes will be retired and cannot be reissued.

Table of Contents**DESCRIPTION OF OTHER INDEBTEDNESS**

The following is a summary of certain of our indebtedness that we expect will be outstanding following consummation of this exchange offering. In this description, references to the Company, we, us and our refer only to Kaiser Aluminum Corporation, and not to any of its subsidiaries.

Revolving credit facility

The revolving credit facility provides us with a \$300.0 million funding commitment through September 30, 2016. The revolving credit facility is secured by a first priority lien on substantially all of the accounts receivable, inventory and certain other related assets and proceeds of the Company and the subsidiary guarantors as well as certain machinery and equipment. Under the revolving credit facility, we are able to borrow from time to time an aggregate commitment amount equal to the lesser of \$300.0 million and a borrowing base comprised of (i) 85% of eligible accounts receivable, (ii) the lesser of (a) 65% of eligible inventory and (b) 85% of the net orderly liquidation value of eligible inventory as determined in the most recent inventory appraisal ordered by the administrative agent and (iii) 85% of certain eligible machinery and equipment, reduced by certain reserves, all as specified in the revolving credit facility. Up to a maximum of \$60.0 million of availability under the revolving credit facility may be utilized for letters of credit.

Borrowings under the revolving credit facility bear interest at a rate equal to either a base prime rate or the London Interbank Offered Rate, at our option, plus, in each case, a specified variable percentage determined by reference to the then-remaining borrowing availability under the revolving credit facility. The revolving credit facility may, subject to certain conditions and the agreement of lenders thereunder, be increased up to \$350.0 million.

We had \$274.4 million of borrowing availability under the revolving credit facility at July 20, 2012, based on the borrowing base determination then in effect. At July 20, 2012, there were no borrowings under the revolving credit facility and \$8.7 million was being used to support outstanding letters of credit, leaving \$265.7 million of net borrowing availability. The interest rate applicable to any overnight borrowings under the revolving credit facility would have been 4.0% at July 20, 2012.

Amounts owed under the revolving credit facility may be accelerated upon the occurrence of various events of default including, without limitation, the failure to make principal or interest payments when due and breaches of covenants, representations and warranties set forth therein. The revolving credit facility places limitations on our ability and the ability of certain of our subsidiaries to, among other things, grant liens, engage in mergers, sell assets, incur debt, make investments, undertake transactions with affiliates, pay dividends and repurchase shares. In addition, we are required to maintain a fixed charge coverage ratio on a consolidated basis at or above 1.1:1.0 if borrowing availability under the revolving credit facility is less than \$30.0 million. At June 30, 2012, we were in compliance with all covenants contained in the revolving credit facility.

Cash convertible senior notes

In March 2010, we issued \$175.0 million principal amount of 4.5% cash convertible senior notes due April 2015. The cash convertible senior notes are not guaranteed by any of our subsidiaries. We are required to pay interest on the cash convertible senior notes each April 1 and October 1. We account for the cash conversion feature of the cash convertible senior notes as a separate derivative instrument with the fair value on the issuance date equaling the original issue discount (OID) for purposes of accounting for the debt component of the cash convertible senior notes. Additionally, the initial purchasers of the cash convertible senior notes discounts and transaction fees of \$5.9 million were capitalized as deferred financing costs. The effective interest rate of the cash convertible senior notes is approximately 11% per annum, taking into account the amortization of the OID and deferred financing costs.

Holder may convert their cash convertible senior notes at any time on or after January 1, 2015. The conversion rate of the cash convertible senior notes is subject to adjustment based on the occurrence of certain events, including, but not limited to, (i) the payment of quarterly cash dividends on the our common stock in excess of \$0.24 per share, (ii) certain other stock or cash dividends, (iii) the issuance of certain rights, options or warrants, (iv) the effectuation of share splits or combinations, (v) certain distributions of property, and (vi) certain issuer tender or exchange offers. Our quarterly dividends paid or declared in 2012 exceeded \$0.24 per share. Upon the payment of the quarterly dividend in August 2012, the conversion rate will be increased slightly to 20.7076 shares per \$1,000 principal amount of the cash convertible senior notes and the equivalent conversion price will be approximately \$48.29 per share.

Table of Contents

Holders of the cash convertible senior notes can require us to repurchase cash convertible senior notes at a price equal to 100% of the principal amount plus any accrued and unpaid interest following a fundamental change. Fundamental changes include, but are not limited to, (i) certain ownership changes, (ii) certain recapitalizations, mergers and dispositions, (iii) shareholders' approval of any plan or proposal for the liquidation or dissolution of the Company, and (iv) failure of our common stock to be listed on certain stock exchanges. Additionally, holders may convert cash convertible senior notes before January 1, 2015, only in certain limited circumstances determined by (i) the trading price of the cash convertible senior notes, (ii) the occurrence of specified corporate events, or (iii) the market price of our common stock. For example, if the Company's closing stock price exceeds \$62.78 for 20 trading days during a period of 30 consecutive trading days ending on a calendar quarter, the cash convertible senior notes may be converted by one or more holders. We believe in this circumstance, the market value of the cash convertible senior notes will exceed the value of shares into which they can convert, making such an early conversion unlikely. No fundamental changes or circumstances that could allow early conversion existed as of June 30, 2012. The cash convertible senior notes are not convertible into our common stock or any other securities under any circumstances, but instead will be settled in cash.

The indenture relating to the cash convertible senior notes contains customary terms and covenants, including that upon certain events of default occurring and continuing, either the trustee or the holders of at least 25% in aggregate principal amount of the cash convertible senior notes then outstanding may declare the entire principal amount of all the cash convertible senior notes, and the interest accrued on such Notes, to be immediately due and payable.

DESCRIPTION OF NOTES

General

The Original Notes were issued by the Company, and the Exchange Notes will be issued by the Company, under an indenture (the Indenture), among the Company, Wells Fargo Bank, National Association, as Trustee (including any successor thereto under the Indenture, the Trustee) and the Subsidiary Guarantors. The Indenture has been qualified and is subject to and governed by the Trust Indenture Act of 1939 (the TIA). The following is a summary of the material provisions of the Indenture. It does not include all of the provisions of the Indenture. We urge you to read the Indenture because it defines your rights and our obligations and the Subsidiary Guarantors' obligations. The terms of the Notes include those stated in the Indenture and those made part of the Indenture by reference to the TIA. Copies of the Indenture have been filed with the SEC and are incorporated by reference into the registration statement of which this prospectus forms a part. You can find definitions of certain capitalized terms used in this description under Certain definitions. In this description, references to the Company, we, us and our refer only to Kaiser Aluminum Corporation, and not to any of its Subsidiaries and the defined term Notes refers to the Original Notes and the Exchange Notes.

Any Original Notes that remain outstanding after completion of the Exchange Offer, together with the Exchange Notes issued in the Exchange Offer, will be treated as a single class of securities under the Indenture and will vote together as one class, including for purposes of amending the Indenture.

The terms of the Exchange Notes are identical in all material respects to the Original Notes except that upon completion of the Exchange Offer, the Exchange Notes will be registered under the Securities Act and free of any covenants regarding exchange registration rights.

Principal, maturity and interest

The Company issued the Original Notes initially with a maximum aggregate original principal amount of \$225.0 million. The Company may issue additional Notes under the Indenture from time to time subject to the covenant described below under certain covenants Limitation on incurrence of indebtedness and issuance of disqualified stock and preferred stock (the Additional Notes). The Notes and any Additional Notes subsequently issued under the Indenture will be treated as a single class for all purposes under the Indenture, including waivers, amendments, redemptions and offers to purchase, although if the Additional Notes are not fungible with the Notes for U.S. federal income tax purposes, the Additional Notes will trade under a separate CUSIP number. Unless the context requires otherwise, references to Notes for all purposes of the Indenture and this Description of Notes include any Additional Notes that are actually issued and references to principal amount of the Notes include any Additional Notes.

Interest on the Notes will be payable semi-annually in arrears on each June 1 and December 1, commencing on December 1, 2012. The Company will make each interest payment to the Holders of record of the Notes on the immediately preceding May 15 and November 15. Interest on the Notes will accrue from the most recent date to which interest has been paid with respect to such Notes, or if no interest has been paid with respect to such Notes, from the date of original issuance thereof. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months. The Notes will mature on June 1, 2020. Additional Interest may accrue on the Notes in certain circumstances pursuant to the Registration Rights Agreement as described under Exchange offer; registration rights in the final offering memorandum relating to the issuance of the Original Notes. All references in the Indenture and this Description of Notes, in any context, to any interest or other amount payable on or with respect to the Notes shall be deemed to include any Additional Interest pursuant to the Registration Rights Agreement.

Principal of and premium, if any, and interest on the Notes will be payable at the office or agency of the Company maintained for such purpose within Minneapolis, MN or, at the option of the Company, payments of interest may be made by check mailed to the Holders at their respective addresses set forth in the register of Holders; provided that all payments of principal, premium, if any, and interest with respect to Notes represented by one or more global notes registered in the name of or held by DTC or its nominee will be made by wire transfer of immediately available funds to the accounts specified by the Holder or Holders thereof. The Notes will be issued in denominations of \$2,000 and any integral multiples of \$1,000 in excess thereof.

Subsidiary guarantees

Each direct and indirect Restricted Subsidiary of the Company that is a Domestic Subsidiary and is a borrower or guarantor under the Revolving Credit Facility has jointly and severally irrevocably and unconditionally guaranteed, on a senior unsecured basis, the performance and full and punctual payment when due, whether at maturity, by acceleration or otherwise, of all obligations of the Company under the Indenture and the Notes, whether for payment of principal of, or interest on or Additional Interest in respect of the Notes, expenses, indemnification or otherwise, on the terms set forth in the Indenture by executing the Indenture. At the time of issuance of the Notes, there were not any Restricted Subsidiaries of the Company that were Domestic Subsidiaries, but were not borrowers or guarantors under the Revolving Credit Facility and therefore were not Subsidiary Guarantors. Each Subsidiary Guarantee will be a general unsecured senior obligation of the applicable Subsidiary Guarantor, ranks pari passu in right of payment with all existing and future Senior Indebtedness of such Subsidiary Guarantor, is effectively subordinated to all Secured Indebtedness of such Subsidiary Guarantor, including such Subsidiary Guarantor's guarantee of the Revolving Credit Facility, to the extent of the value of the collateral securing such Secured Indebtedness, and ranks senior in right of payment to all existing and future Subordinated Indebtedness of such Subsidiary Guarantor. The Subsidiary Guarantee of such Subsidiary Guarantor is structurally subordinated to all existing and future claims of creditors (including trade creditors) and holders of Preferred Stock of Subsidiaries of such Subsidiary Guarantor that do not guarantee the Notes. See also Brief description of the Notes and the subsidiary guarantees.

Table of Contents

Each Subsidiary Guarantee contains a provision intended to limit the Subsidiary Guarantor's liability thereunder to the maximum amount that it could incur without causing the incurrence of obligations under its Subsidiary Guarantee to be a fraudulent transfer. This provision may not, however, be effective to protect a Subsidiary Guarantee from being voided under fraudulent transfer law, or may reduce the Subsidiary Guarantor's obligation to an amount that effectively makes its Subsidiary Guarantee worthless. See Risk Factors Federal and state fraudulent transfer laws may permit a court to void the note guarantees, and if that occurs, you may not receive any payments on the Notes and may be required to return payments received.

Each Subsidiary Guarantor may consolidate with or merge into or sell all or substantially all its assets to (A) the Company or another Subsidiary Guarantor without limitation or (B) any other Person upon the terms and conditions set forth in the Indenture. See Certain covenants Merger, consolidation or sale of all or substantially all assets.

The Subsidiary Guarantee of a Subsidiary Guarantor will automatically and unconditionally be released and discharged upon:

- (1) (a) the sale, disposition or other transfer (including through merger or consolidation) of all of the Capital Stock (or any sale, disposition or other transfer of Capital Stock following which such Subsidiary Guarantor is no longer a Restricted Subsidiary), or all or substantially all the assets, of such Subsidiary Guarantor (other than a sale, disposition or other transfer to a Restricted Subsidiary) if such sale, disposition or other transfer is permitted by the applicable provisions of the Indenture; provided that (x) all the obligations of such Subsidiary Guarantor under all other Indebtedness of the Company and its Restricted Subsidiaries terminate upon consummation of such transaction and (y) any Investment of the Company or any other Subsidiary of the Company (other than any Subsidiary of such Subsidiary Guarantor) in such Subsidiary Guarantor or any Subsidiary of such Subsidiary Guarantor in the form of an Obligation or Preferred Stock is repaid, satisfied, released and discharged in full upon such release;
 - (b) the designation by the Company of such Subsidiary Guarantor as an Unrestricted Subsidiary in accordance with the provisions of the Indenture set forth under Certain covenants Limitation on restricted payments and the definition of Unrestricted Subsidiary set forth under Certain definitions ;
 - (c) the release or discharge of such Subsidiary Guarantor from its obligations in respect of Indebtedness under the Revolving Credit Facility or the guarantee that resulted in the obligation of such Subsidiary Guarantor to guarantee the Notes, in each case, if such Subsidiary Guarantor would not then otherwise be required to guarantee the Notes pursuant to the covenant described under Certain covenants Limitation on guarantees of indebtedness or borrowing under the Revolving Credit Facility by restricted subsidiaries (treating any guarantees of such Subsidiary Guarantor that remain outstanding as incurred at least 30 days prior to such release or discharge); or
 - (d) the exercise by the Company of its legal defeasance option or its covenant defeasance option, as described under Legal defeasance and covenant defeasance or if the Company's obligations under the Indenture are discharged in accordance with the terms of the Indenture; and
- (2) such Subsidiary Guarantor delivering to the Trustee an Officers Certificate and an opinion of counsel, each stating that all conditions precedent provided for in the Indenture relating to such transaction and/or release have been complied with.

Table of Contents

Ranking

Senior secured indebtedness versus notes

Payments of principal of, and premium, if any, and interest on the Notes and the payment of any Subsidiary Guarantee will rank pari passu in right of payment with all Senior Indebtedness of the Company and the Subsidiary Guarantors, including the obligations of the Company and, to the extent applicable, the Subsidiary Guarantors under the Revolving Credit Facility and the Convertible Senior Notes. However, the Notes will be effectively subordinated in right of payment to all of the Company's and the Subsidiary Guarantors' existing and future Secured Indebtedness to the extent of the value of the assets securing such Indebtedness.

As of July 20, 2012, the borrowing base under our Revolving Credit Facility supported borrowings of up to \$274.4 million; we had no borrowings, \$8.7 million of outstanding letters of credit and \$265.7 million available for borrowing under our Revolving Credit Facility. All of such borrowings would constitute secured debt. The Company also had outstanding \$175.0 million aggregate principal amount of its Convertible Senior Notes.

In addition, certain of our Hedging Obligations with respect to aluminum, natural gas, electricity and foreign currency may constitute Secured Indebtedness. To the extent prices of these commodities increase, the amount of this Secured Indebtedness could increase significantly. We expect to incur additional secured Hedging Obligations as part of our ongoing commodity risk management activities.

Although the Indenture contains limitations on the amount of additional Senior Indebtedness that the Company and its Restricted Subsidiaries may incur and the amount of additional Secured Indebtedness the Company and the Subsidiary Guarantors may incur, under certain circumstances the amount of such additional Senior Indebtedness and Secured Indebtedness could be substantial. See [Certain covenants](#) [Limitation on incurrence of indebtedness and issuance of disqualified stock and preferred stock](#) and [Certain covenants](#) [Liens](#).

Liabilities of subsidiaries versus notes

The Company conducts a significant portion of its operations through its Subsidiaries. Some of the Company's Subsidiaries are not guaranteeing the Notes, and Subsidiary Guarantees may be released under certain circumstances, as described under [Subsidiary guarantees](#). In addition, the Company's future Subsidiaries may not be required to guarantee the Notes. Claims of creditors of such non-guarantor Subsidiaries, including trade creditors and creditors holding indebtedness or guarantees issued by such non-guarantor Subsidiaries, and claims of holders of Preferred Stock of such non-guarantor Subsidiaries generally will have priority with respect to the assets and earnings of such non-guarantor Subsidiaries over the claims of the Company's creditors, including Holders. Accordingly, the Notes will be structurally subordinated to claims of creditors (including trade creditors) and holders of Preferred Stock, if any, of such non-guarantor Subsidiaries.

As of June 30, 2012, the Company's Subsidiaries that are not Subsidiary Guarantors had consolidated assets (excluding intercompany assets and investments in subsidiaries) of \$27.4 million, which represented 1.6% of the consolidated total assets of the Company and its Subsidiaries and consolidated total liabilities (excluding intercompany liabilities) of approximately \$28.1 million, including trade payables, which accounted for approximately 4.1% of the Company's consolidated liabilities. For the six months ended June 30, 2012, our Subsidiaries that are not Subsidiary Guarantors generated consolidated total net sales of \$64.7 million, which represented 9.1% of the consolidated total revenues of the Company and its Subsidiaries, consolidated operating income of \$4.6 million, which represented 5.4% of the consolidated operating income of the Company and its Subsidiaries.

Although the Indenture limits the incurrence of Indebtedness and Preferred Stock by Restricted Subsidiaries, such limitation is subject to a number of significant qualifications. Moreover, the Indenture does not impose any limitation on the incurrence by Restricted Subsidiaries of liabilities that are not considered Indebtedness or Preferred Stock under the Indenture, such as trade payables. See [Certain covenants](#) [Limitation on incurrence of indebtedness and issuance of disqualified stock and preferred stock](#).

Although the Indenture imposes requirements upon certain sales, conveyances and other transfers of assets by the Company and the Restricted Subsidiaries, such requirements do not prohibit such sales, conveyances or transfers but generally only require that the Company or the Restricted Subsidiary receive fair market value for the asset, that a designated portion of the consideration is received in cash or, in certain cases, Cash Equivalents and that the Company or the Restricted Subsidiary apply the net cash proceeds for specified purposes, including the retirement of certain Indebtedness or an investment in additional assets.

Table of Contents**Mandatory redemption; offer to purchase, open market purchases**

The Company is not required to make any mandatory redemption or sinking fund payments with respect to the Notes. However, under certain circumstances, the Company may be required to offer to purchase Notes as described under Repurchase at the option of holders. The Company or its Affiliates may from time to time acquire Notes by means other than a redemption, whether by tender offer, exchange offer, in open market purchases, through negotiated transactions or otherwise, in accordance with applicable securities laws, upon such terms and at such prices as the Company or its Affiliates may determine, which may be more or less than the consideration for which the Original Notes were sold and may be less than the redemption price then in effect and could be for cash or other consideration.

Optional redemption

Except as described below, the Notes are not redeemable at the Company's option prior to June 1, 2016. From and after June 1, 2016, the Company may redeem the Notes, in whole or in part, upon not less than 30 nor more than 60 days' prior notice to the Holders at the redemption prices (expressed as percentages of principal amount) set forth below, plus accrued and unpaid interest, and Additional Interest, if any, thereon to the applicable redemption date, subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date, if redeemed during the twelve-month period beginning on June 1 of each of the years indicated below:

Year	Percentage
2016	104.125%
2017	102.063%
2018 and thereafter	100.000%

Prior to June 1, 2015, the Company may, at its option, redeem up to 35% of the sum of the original aggregate principal amount of Notes (and the original principal amount of any Additional Notes) issued under the Indenture at a redemption price equal to 108.250% of the aggregate principal amount thereof, plus accrued and unpaid interest, and Additional Interest, if any, thereon to the redemption date, subject to the right of Holders on the relevant record date to receive interest due on the relevant interest payment date, with the net cash proceeds of one or more Equity Offerings of the Company or any direct or indirect parent of the Company to the extent such net proceeds are contributed to the Company, provided that:

at least 65% of the sum of the aggregate principal amount of Notes originally issued under the Indenture and the aggregate principal amount of any Additional Notes issued under the Indenture after the Issue Date remain outstanding immediately after the occurrence of each such redemption; and

each such redemption occurs within 90 days of the date of closing of each such Equity Offering.

At any time prior to June 1, 2016, the Company may also redeem all or a part of the Notes, upon not less than 30 nor more than 60 days' prior notice to the Holders, at a redemption price equal to 100% of the principal amount of Notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest and Additional Interest, if any, to the redemption date, subject to the rights of Holders on the relevant record date to receive interest due on the relevant interest payment date.

Selection and notice

If the Company is redeeming less than all of the Notes at any time, the Trustee will select the Notes to be redeemed (a) if the Notes are listed on any national securities exchange, in compliance with the requirements of the principal national securities exchange on which such Notes are listed or (b) if such Notes are not so listed, by lot or in accordance with the applicable procedures of DTC; provided that no Notes of \$2,000 or less shall be redeemed in part.

Notices of redemption shall be mailed by first-class mail, postage prepaid (or in the case of Notes held in book-entry form, by electronic transmission), at least 30 days but not more than 60 days before the redemption date to each Holder at such Holder's registered address, except that notices of redemption may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the Notes or a satisfaction and discharge of the Indenture. If any note is to be redeemed in part only, any notice of redemption that relates to such note shall state the portion of the principal amount thereof to be redeemed.

Table of Contents

A new note in principal amount equal to the unredeemed portion of any note redeemed in part will be issued in the name of the Holder thereof upon cancellation of the original note. Notes called for redemption become due and payable on the date fixed for redemption. On and after the redemption date, unless the Company defaults in the redemption payment, interest shall cease to accrue on the note or portions thereof called for redemption.

In connection with any redemption of Notes (including with the net cash proceeds of an Equity Offering), any such redemption may, at the Company's discretion, be subject to one or more conditions precedent, including any related Equity Offering. In addition, if such redemption or notice is subject to satisfaction of one or more conditions precedent, such notice shall state that, in the Company's discretion, the redemption date may be delayed until such time as any or all such conditions shall be satisfied, or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied by the redemption date, or by the redemption date so delayed.

Repurchase at the option of holders

Change of control

If a Change of Control occurs, the Company will make an offer to purchase all of the Notes pursuant to the offer described below (the "Change of Control Offer") at a price in cash (the "Change of Control Payment") equal to 101% of the aggregate principal amount thereof plus accrued and unpaid interest, and Additional Interest, if any, to the date of purchase, subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date, except to the extent the Company has elected to redeem the Notes as described under "Optional redemption." Within 30 days following any Change of Control or, at the Company's option, prior to the consummation of such change of control but after it is publicly announced, and except to the extent the Company has elected to redeem the Notes as described under "Optional redemption," the Company will send notice of such Change of Control Offer electronically or by first class mail, with a copy to the Trustee, to each Holder to the address of such Holder appearing in the register of Holders with a copy to the Trustee, with the following information:

- (1) a Change of Control Offer is being made pursuant to the covenant entitled "Change of control" and all Notes properly tendered pursuant to such Change of Control Offer will be accepted for payment;
- (2) the purchase price and the purchase date, which will be no earlier than 30 days nor later than 60 days from the date such notice is mailed (the "Change of Control Payment Date");
- (3) any note not properly tendered will remain outstanding and continue to accrue interest;
- (4) unless the Company defaults in the payment of the Change of Control Payment, all Notes accepted for payment pursuant to the Change of Control Offer will cease to accrue interest on the Change of Control Payment Date;
- (5) Holders electing to have any Notes purchased pursuant to a Change of Control Offer will be required to surrender the Notes, with the form entitled "Option of Holder to Elect Purchase" on the reverse of the Notes completed, to the paying agent specified in the notice at the address specified in the notice prior to the close of business on the third Business Day preceding the Change of Control Payment Date;
- (6) Holders will be entitled to withdraw their tendered Notes and their election to require the Company to purchase such Notes; provided that the paying agent receives, not later than the close of business on the last day of the offer period, a telegram, telex, facsimile transmission or letter setting forth the name of the Holder, the principal amount of Notes tendered for purchase, and a statement that such Holder is withdrawing its tendered Notes and its election to have such Notes purchased;

Table of Contents

- (7) Holders whose Notes are being purchased only in part will be issued new Notes equal in principal amount to the unpurchased portion of the Notes surrendered, which unpurchased portion must be equal to \$2,000 or an integral multiple of \$1,000 in excess thereof; and
- (8) if the notice is mailed before a Change of Control, that the Change of Control offer is conditioned on the Change of Control occurring.

While the Notes are in global form and the Company makes a Change of Control Offer, a Holder may exercise its option to elect for the purchase of the Notes through the facilities of DTC, subject to its rules and regulations.

The Company will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of the Notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Company will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

On the Change of Control Payment Date, the Company will, to the extent permitted by law,

- (1) accept for payment all Notes or portions thereof properly tendered pursuant to the Change of Control Offer;
- (2) unless deposited before the Change of Control Payment Date, deposit with the paying agent no later than 10:00 a.m. New York City time an amount equal to the aggregate Change of Control Payment in respect of all Notes or portions thereof so tendered and accepted for payment; and
- (3) deliver, or cause to be delivered, to the Trustee for cancellation the Notes so accepted together with an Officers Certificate stating that such Notes or portions thereof have been tendered to and purchased by the Company.

The paying agent will promptly mail to each Holder the Change of Control Payment for such Notes tendered and accepted for payment, and the Trustee will promptly authenticate and mail to each Holder a new note equal in principal amount to any unpurchased portion of the Notes surrendered, if any, provided that each such new note will be in a principal amount of \$2,000 or an integral multiple of \$1,000 in excess thereof. The Company will publicly announce the results of the Change of Control Offer on or as soon as practicable after the Change of Control Payment Date.

The Revolving Credit Facility provides, and future credit agreements or other agreements to which the Company becomes a party may provide, that certain change of control events with respect to the Company (including a Change of Control under the Indenture) would constitute a default thereunder. If the Company experiences a change of control that triggers a default under the Revolving Credit Facility or cross-defaults under any other Indebtedness, the Company could seek a waiver of such defaults or seek to refinance the Indebtedness outstanding under the Revolving Credit Facility and such other Indebtedness. In the event the Company does not obtain such a waiver or refinance the Indebtedness outstanding under the Revolving Credit Facility and such other Indebtedness, such defaults could result in amounts outstanding under the Revolving Credit Facility and such other Indebtedness being declared due and payable. If the Company does not obtain such consent or repay such borrowings, the Company will remain prohibited from purchasing the Notes. In such case, the Company's failure to purchase tendered Notes would constitute an Event of Default under the Indenture. The Company's ability to pay cash to the Holders following the occurrence of a Change of Control may be limited by its then existing financial resources. Therefore, sufficient funds may not be available when necessary to make any required repurchases.

The Company will not be required to make a Change of Control Offer following a Change of Control if (1) a third party makes the Change of Control Offer in the manner, at the time and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Company and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer or (2) a notice of redemption has been given for all of the Notes pursuant to the indenture as described above under the caption "Optional redemption", unless and until there is a default in payment of the applicable redemption price.

Table of Contents

The Change of Control purchase feature of the Notes may in certain circumstances make more difficult or discourage a sale or takeover of the Company and, thus, the removal of incumbent management. The Change of Control purchase feature is a result of negotiations between the Company and the Initial Purchasers. We have no present intention to engage in a transaction involving a Change of Control, although it is possible that we could decide to do so in the future. Subject to the limitations discussed below, we could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of Indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings. Restrictions on our ability to incur additional Indebtedness are contained in the covenant described under Certain covenants Limitation on incurrence of indebtedness and issuance of disqualified stock and preferred stock. Such restrictions can be waived with the consent of the Holders of a majority in principal amount of the Notes then outstanding. Except for the limitations contained in such covenant, however, the Indenture will not contain any covenants or provisions that may afford Holders protection in the event of a highly leveraged transaction.

The definition of Change of Control, and a number of other provisions described in this Description of Notes, refer to a disposition of all or substantially all of the assets of the Company to any Person. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of all or substantially all of the assets of the Company. As a result, it may be unclear as to whether a Change of Control has occurred and whether a Holder may require the Company to make an offer to repurchase the Notes as described above. In the case of the other provisions using the term all or substantially all, it may be unclear as to whether such other provisions apply to a given transaction. In all cases, for the avoidance of doubt, the term all or substantially all of the assets of the Company shall not be deemed to refer to any assets of the Company as a result of the Company or a Subsidiary being in the zone of insolvency.

The provisions under the Indenture relative to the Company's obligation to make an offer to repurchase the Notes as a result of a Change of Control may be waived or modified with the written consent of the Holders of a majority in principal amount of the Notes.

Asset sales

The Indenture provides that the Company will not, and will not permit any Restricted Subsidiary to, cause, make or suffer to exist an Asset Sale, unless:

- (1) the Company or such Restricted Subsidiary, as the case may be, receives consideration at the time of such Asset Sale at least equal to the fair market value (as determined in good faith by the Company) of the assets sold or otherwise disposed of; and
- (2) except in the case of a Permitted Asset Swap, at least 75% of the consideration therefor received by the Company or such Restricted Subsidiary, as the case may be, is in the form of cash or Cash Equivalents; provided that the amount of
 - (a) any liabilities (as shown on the Company's or such Restricted Subsidiary's most recent balance sheet or in the Notes thereto) of the Company or such Restricted Subsidiary, other than liabilities that are by their terms subordinated to the Notes, that are assumed by the transferee of any such assets (or a third party on behalf of the transferee) and for which the Company or such Restricted Subsidiary has been validly released by all applicable creditors in writing;
 - (b) any securities, Notes or other obligations or assets received by the Company or such Restricted Subsidiary from such transferee that are converted by the Company or such Restricted Subsidiary into cash (to the extent of the cash received) within 90 days following the closing of such Asset Sale; and

Table of Contents

- (c) any Designated Noncash Consideration received by the Company or such Restricted Subsidiary in such Asset Sale having an aggregate fair market value, taken together with all other Designated Noncash Consideration received pursuant to this clause (c) that has not previously been converted to cash, not to exceed the greater of (x) \$35.0 million and (y) 3.0% of Consolidated Total Assets at the time of receipt of such Designated Noncash Consideration, with the fair market value of each item of Designated Noncash Consideration being measured at the time received and without giving effect to subsequent changes in value;

shall be deemed to be cash for purposes of this provision and for no other purpose.

Within 365 days after any of the Company's or any Restricted Subsidiary's receipt of the Net Proceeds of any Asset Sale, the Company or such Restricted Subsidiary may, at its option, apply the Net Proceeds from such Asset Sale:

- (1) to permanently reduce

- (x) Obligations under the Revolving Credit Facility or any other Senior Indebtedness, in each case, of the Company or any Subsidiary Guarantor and, in the case of Obligations under revolving credit facilities or other similar Indebtedness, to correspondingly permanently reduce commitments with respect thereto (other than Obligations owed to the Company or a Restricted Subsidiary); provided that if the Company or any Restricted Subsidiary shall so reduce Obligations under any Senior Indebtedness that is not Secured Indebtedness, the Company or such Subsidiary Guarantor will, equally and ratably, reduce Obligations under the Notes by, at its option, (A) redeeming Notes if the Notes are then redeemable as provided under Optional redemption, (B) making an offer (in accordance with the procedures set forth below for an Asset Sale Offer) to all Holders to purchase their Notes at 100% of the principal amount thereof, plus the amount of accrued and unpaid interest and Additional Interest, if any, on the principal amount of Notes to be repurchased or (C) purchasing Notes through open market purchases (to the extent such purchases are at a price equal to or higher than 100% of the principal amount thereof) in a manner that complies with the Indenture and applicable securities law; or
- (y) Indebtedness of a Restricted Subsidiary that is not a Subsidiary Guarantor, other than Indebtedness owed to the Company or another Restricted Subsidiary; or

- (2) to make an investment in (a) any one or more businesses; provided that such investment in any business is in the form of the acquisition of Capital Stock and results in the Company or any Restricted Subsidiary owning an amount of the Capital Stock of such business such that it constitutes a Restricted Subsidiary, (b) properties, (c) capital expenditures and (d) acquisitions of other assets, that in each of (a), (b), (c) and (d), are used or useful in a Similar Business or replace the businesses, properties and assets that are the subject of such Asset Sale; or

- (3) any combination of the foregoing.

Any Net Proceeds from any Asset Sale that are not invested or applied in accordance with the preceding paragraph within 365 days from the date of the receipt of such Net Proceeds will be deemed to constitute Excess Proceeds; provided that if during such 365-day period the Company or a Restricted Subsidiary enters into a definitive binding agreement committing it to apply such Net Proceeds in accordance with the requirements of clause (2) of the immediately preceding paragraph after such 365th day, such 365th day period will be extended with respect to the amount of Net Proceeds so committed until such Net Proceeds are required to be applied in accordance with such agreement (but such extension will in no event be for a period longer than 180 days) (or, if earlier, the date of termination of such agreement). When the aggregate amount of Excess Proceeds exceeds \$20.0 million, the Company shall make an offer to all Holders and, if required by the terms of any Senior Indebtedness, to the holders of such Senior Indebtedness (other than with respect to Hedging Obligations) (an Asset Sale Offer), to purchase the maximum aggregate principal amount of Notes and such Senior Indebtedness that is an amount equal to at least \$2,000 that may be purchased out of the Excess Proceeds at an offer price in cash in an amount equal to

Table of Contents

100% of the principal amount thereof, plus accrued and unpaid interest and Additional Interest, if any, to the date fixed for the closing of such offer, in accordance with the procedures set forth in the Indenture. The Company will commence an Asset Sale Offer with respect to Excess Proceeds within ten Business Days after the date that Excess Proceeds exceed \$20.0 million by mailing or electronically sending the notice required pursuant to the terms of the Indenture, with a copy to the Trustee. The Company may satisfy the foregoing obligations with respect to any Net Proceeds from an Asset Sale by making an Asset Sale Offer with respect to such Net Proceeds prior to the expiration of the relevant 365 days (or such longer period provided above) or with respect to Excess Proceeds of \$20.0 million or less.

To the extent that the aggregate amount of Notes and such Senior Indebtedness tendered pursuant to an Asset Sale Offer is less than the Excess Proceeds, the Company may use any remaining Excess Proceeds for general corporate purposes, subject to the other covenants contained in the Indenture. If the aggregate principal amount of Notes or the Senior Indebtedness surrendered by such holders thereof exceeds the amount of Excess Proceeds, the Company shall select or cause to be selected the Notes and such Senior Indebtedness to be purchased on a pro rata basis based on the accreted value or principal amount of the Notes or such Senior Indebtedness tendered. Upon completion of any such Asset Sale Offer, the amount of Excess Proceeds related to such Asset Sale Offer shall be reset at zero.

Pending the final application of any Net Proceeds pursuant to this covenant, the Company or the applicable Restricted Subsidiary may apply such Net Proceeds temporarily to reduce Indebtedness outstanding under a revolving credit facility or otherwise invest such Net Proceeds in any manner not prohibited by the Indenture.

The procedures for an Asset Sale Offer will be substantially the same as for a Change of Control Offer. The Company will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of Notes pursuant to an Asset Sale Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Company will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

The Revolving Credit Facility limits (subject to limited exceptions), and future credit agreements or other agreements to which the Company becomes a party may limit or prohibit, the Company from purchasing any Notes as a result of an Asset Sale Offer. In the event the Company is required to make an Asset Sale Offer at a time when the Company is prohibited from purchasing the Notes, the Company could seek the consent of its lenders to permit the purchase of the Notes or could attempt to refinance the borrowings that contain such prohibition. If the Company does not obtain such consent or repay such borrowings, the Company will remain prohibited from purchasing the Notes. In such case, the Company's failure to purchase tendered Notes would constitute an Event of Default under the Indenture.

The provisions under the Indenture relative to the Company's obligation to make an offer to repurchase the Notes as a result of an Asset Sale may be waived or modified with the written consent of the Holders of a majority in principal amount of the Notes.

Certain covenants

Covenant suspension

Following the first day:

- (1) the Notes have an Investment Grade Rating from both of the Rating Agencies; and
 - (2) no Default or Event of Default shall have occurred and be continuing,
- the Company and its Restricted Subsidiaries will not be subject to the provisions of the Indenture described herein under the following captions:

- (1) Repurchase at the option of holders Asset sales;
- (2) Certain covenants Limitation on restricted payments;

Table of Contents

(3) Certain covenants Limitation on incurrence of indebtedness and issuance of disqualified stock and preferred stock;

(4) Certain covenants Limitation on sale and lease-back transactions;

(5) clause (4) of Certain covenants Merger, consolidation or sale of all or substantially all assets ;

(6) Certain covenants Transactions with affiliates; and

(7) Certain Covenants Dividend and other payment restrictions affecting restricted subsidiaries; (collectively, the Suspended Covenants). If at any time the Notes credit rating is downgraded from an Investment Grade Rating by any Rating Agency or if a Default or Event of Default occurs and is continuing, then the Suspended Covenants will thereafter be reinstated as if such covenants had never been suspended (the Reinstatement Date) and be applicable pursuant to the terms of the Indenture (including in connection with performing any calculation or assessment to determine compliance with the terms of the Indenture), unless and until the Notes subsequently attain an Investment Grade Rating and no Default or Event of Default is in existence (in which event the Suspended Covenants shall no longer be in effect for such time that the Notes maintain an Investment Grade Rating and no Default or Event of Default is in existence); provided, however, that no Default, Event of Default or breach of any kind shall be deemed to exist under the Indenture, the Notes or the Subsidiary Guarantees with respect to the Suspended Covenants based on, and none of the Company or any of its Subsidiaries shall bear any liability for, any actions taken or events occurring during the Suspension Period (as defined below), regardless of whether such actions or events would have been permitted if the applicable Suspended Covenants remained in effect during such period. The period of time between the date of suspension of the covenants and the Reinstatement Date is referred to as the Suspension Period.

On the Reinstatement Date, all Indebtedness Incurred during the Suspension Period will be classified to have been Incurred pursuant to the first paragraph of Limitation on incurrence of indebtedness and issuance of disqualified stock and preferred stock or one of the clauses set forth in the second paragraph of Limitation on incurrence of indebtedness and issuance of disqualified stock and preferred stock (in each case to the extent such Indebtedness would be permitted to be Incurred thereunder as of the Reinstatement Date and after giving effect to Indebtedness Incurred prior to the Suspension Period and outstanding on the Reinstatement Date). To the extent such Indebtedness would not be so permitted to be Incurred pursuant to the first or second paragraph of Limitation on incurrence of indebtedness and issuance of disqualified stock and preferred stock, such Indebtedness will be deemed to have been outstanding on the Issue Date, so that it is classified under clause (c) of the second paragraph of Limitation on incurrence of indebtedness and issuance of disqualified stock and preferred stock. Calculations made after the Reinstatement Date of the amount available to be made as Restricted Payments under Limitation on restricted payments will be made as though the covenant described under Limitation on restricted payments had been in effect since the Issue Date and throughout the Suspension Period. Accordingly, Restricted Payments made during the Suspension Period will reduce the amount available to be made as Restricted Payments under the first paragraph of Limitation on restricted payments.

During any period when the Suspended Covenants are suspended, the Board of Directors of the Company may not designate any of the Company s Subsidiaries as Unrestricted Subsidiaries pursuant to the Indenture.

In determining whether any Restricted Payment is permitted by this covenant, the Company and its Restricted Subsidiaries may allocate all or any portion of such Restricted Payment among the categories described in clauses (1) through (13) of the immediately preceding paragraph or among such categories and the types of Restricted Payments described in the first paragraph of this covenant (including categorization in whole or in part as a Permitted Investment); provided that, at the time of such allocation, all such Restricted Payments, or allocated portions thereof, would be permitted under the various provisions of this covenant.

The Company will not permit any Unrestricted Subsidiary to become a Restricted Subsidiary except pursuant to the penultimate paragraph of the definition of Unrestricted Subsidiary. For purposes of designating any Restricted Subsidiary as an Unrestricted Subsidiary, all outstanding Investments by the Company and the Restricted Subsidiaries (except to the extent repaid) in the Subsidiary so designated will be deemed to be Restricted Payments in an amount determined as set forth in the last sentence of the definition of Investments. Such designation will be permitted only if a Restricted Payment in such amount would be permitted at such time, whether pursuant to the first paragraph or clause (13) of this covenant or pursuant to the definition of Permitted Investments, and if such Subsidiary otherwise meets the definition of an Unrestricted Subsidiary. Unrestricted Subsidiaries will not be subject to any of the restrictive covenants set forth in the Indenture.

- (h) Indebtedness of a Restricted Subsidiary to the Company or another Restricted Subsidiary; provided that if a Subsidiary Guarantor incurs such Indebtedness to a Restricted Subsidiary that is not a Subsidiary Guarantor such Indebtedness is subordinated in right of payment to the Subsidiary Guarantee of such Subsidiary Guarantor; provided, further, that any subsequent issuance or transfer of Capital Stock or any other event that results in any such Restricted Subsidiary ceasing to be a Restricted Subsidiary or any subsequent transfer of any such Indebtedness (except to the Company or another Restricted Subsidiary) shall be deemed, in each case, to be an incurrence of such Indebtedness;

The accrual of interest, the accretion of accreted value and the payment of interest in the form of additional Indebtedness, Disqualified Stock or Preferred Stock will not be deemed to be an incurrence of Indebtedness, Disqualified Stock or Preferred Stock for purposes of this covenant.

For purposes of determining compliance with any U.S. dollar-denominated restriction on the incurrence of Indebtedness, the U.S. dollar-equivalent principal amount of Indebtedness denominated in a foreign currency will be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was incurred, in the case of term debt, or first committed or incurred (as determined by the Company), in the case of revolving credit debt; provided that if such Indebtedness is incurred to extend, replace, refund, refinance, renew or defease other Indebtedness denominated in a foreign currency, and such extension, replacement, refunding, refinancing, renewal or defeasance would cause the applicable U.S. dollar-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such extension, replacement, refunding, refinancing, renewal or defeasance, such U.S. dollar-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such refinancing Indebtedness does not exceed the principal amount of such Indebtedness being extended, replaced, refunded, refinanced, renewed or defeased.

The principal amount of any Indebtedness incurred to extend, replace, refund, refinance, renew or defease other Indebtedness, if incurred in a different currency from the Indebtedness being extended, replaced, refunded, refinanced, renewed or defeased, shall be calculated based on the currency exchange rate applicable to the currencies in which such respective Indebtedness is denominated that is in effect on the date of such extension, replacement, refunding, refinancing, renewal or defeasance.

The Company will not, and will not permit any of the Subsidiary Guarantors to, directly or indirectly, create, incur, assume or suffer to exist any Lien (except Permitted Liens) that secures obligations under any Indebtedness on any asset or property of the Company or any Subsidiary Guarantor now owned or hereafter acquired, or any income or profits therefrom, or assign or convey any right to receive income therefrom, unless:

- (1) in the case of Liens securing Subordinated Indebtedness, the Notes or the applicable Subsidiary Guarantee of a Subsidiary Guarantor, as the case may be, are secured by a Lien on such property or assets that is senior in priority to such Liens; and
- (2) in all other cases, the Notes or the applicable Subsidiary Guarantee of a Subsidiary Guarantor, as the case may be, are equally and ratably secured;

The Company will not permit any of its Wholly Owned Subsidiaries that are Restricted Subsidiaries (and any non-Wholly Owned Subsidiaries if such non-Wholly Owned Subsidiaries become borrowers under the Revolving Credit Facility or guarantee other capital markets debt securities) of the Company or any Subsidiary Guarantor, other than a Subsidiary Guarantor or a Foreign Subsidiary, to become a borrower under the Senior Credit Facility or guarantee the payment of any Indebtedness of the Company or any Subsidiary Guarantor unless:

Notwithstanding the foregoing, such requirements shall be deemed satisfied prior to the commencement of the registered exchange offer (as described under Exchange offer; registration rights in the final offering memorandum relating to the issuance of the Original Notes) or the effectiveness of the shelf registration statement (as described under Exchange offer; registration rights in the final offering memorandum relating to the issuance of the Original Notes) by the filing with the SEC of the exchange offer registration statement (as described under Exchange offer; registration rights in the final offering memorandum relating to the issuance of the Original Notes) or shelf registration statement, and any amendments thereto, with such financial information that satisfies Regulation S-X of the Securities Act.

- (b) the Company may merge with an Affiliate of the Company incorporated solely for the purpose of reincorporating the Company in another state of the United States of America so long as the amount of Indebtedness of the Company and the Restricted Subsidiaries is not increased thereby.

The foregoing covenant shall not apply to any sale, assignment, transfer, lease, conveyance or other disposition of assets between or among the Company and the Subsidiary Guarantors; provided, however, that a Subsidiary Guarantor that is a transferee under this provision may not subsequently release its Subsidiary Guarantee unless such Subsidiary Guarantor has consolidated with or merged into the Company.

- (B) the principal amount of such Indebtedness, together with the principal amount of any other such Indebtedness in default for failure to pay principal at stated final maturity (after giving effect to any applicable grace periods), or the maturity of which has been so accelerated, aggregate \$30.0 million or more at any one time outstanding;

Table of Contents

- (7) failure by the Company or any Significant Subsidiary (or any group of Subsidiaries that together would constitute a Significant Subsidiary) to pay final judgments aggregating in excess of \$30.0 million, which final judgments remain unpaid, undischarged and unstayed for a period of more than 60 days after such judgment becomes final, and in the event such judgment is covered by insurance, an enforcement proceeding has been commenced by any creditor upon such judgment or decree which is not promptly stayed;
- (8) certain events of bankruptcy or insolvency with respect to the Company or any Significant Subsidiary (or any group of Subsidiaries that together would constitute a Significant Subsidiary); or
- (9) the Subsidiary Guarantee of any Significant Subsidiary (or any group of Subsidiaries that together would constitute a Significant Subsidiary) shall for any reason cease to be in full force and effect or be declared null and void or any responsible officer of any Subsidiary Guarantor that is a Significant Subsidiary (or the responsible officers of any group of Subsidiaries that together would constitute a Significant Subsidiary), as the case may be, denies that it has any further liability under its Subsidiary Guarantee or gives notice to such effect, other than by reason of the termination of the Indenture or the release of any such Subsidiary Guarantee in accordance with the Indenture.

If any Event of Default (other than of a type specified in clause (8) above with respect to the Company) occurs and is continuing under the Indenture, the Holders of at least 25% in principal amount of the then outstanding Notes issued under the Indenture may, and the Trustee at the request of such Holders shall, declare the principal, premium, if any, interest and any other monetary obligations on all the then outstanding Notes issued under the Indenture to be due and payable immediately.

Upon the effectiveness of such declaration, such principal of and premium, if any, and interest on the Notes will be due and payable immediately. Notwithstanding the foregoing, in the case of an Event of Default arising under clause (8) of the first paragraph of this section with respect to the Company, all outstanding Notes will become due and payable without further action or notice. The Indenture provides that the Trustee may withhold from Holders notice of any continuing Default, except a Default relating to the payment of principal of and premium, if any, and interest on the Notes if it determines that withholding notice is in their interest. In addition, the Trustee will have no obligation to accelerate the Notes if in the best judgment of the Trustee acceleration is not in the best interest of the Holders.

The Indenture provides that the Holders of a majority in aggregate principal amount of the then outstanding Notes issued thereunder by written notice to the Trustee may, on behalf of all Holders, waive any existing Default and its consequences under the Indenture, except a continuing Default in the payment of principal of and premium, if any, or interest on any such Notes held by a non-consenting Holder. In the event of any Event of Default specified in clause (6) above, such Event of Default and all consequences thereof (excluding any resulting payment default) shall be annulled, waived and rescinded automatically and without any action by the Trustee or the Holders if, within 20 days after such Event of Default arose,

- (x) the Indebtedness or guarantee that is the basis for such Event of Default has been discharged;
- (y) the holders thereof have rescinded or waived the acceleration, notice or action (as the case may be) giving rise to such Event of Default; or
- (z) the default that is the basis for such Event of Default has been cured.

Except to enforce the right to receive payments of principal of and premium, if any, and interest on the Notes when due, no Holder may pursue any remedy with respect to the Indenture or the Notes unless:

- (1) such Holder has previously given the Trustee written notice that an Event of Default is continuing;

Table of Contents

- (2) Holders of at least 25% in principal amount of the then outstanding Notes have requested the Trustee to pursue the remedy;
- (3) such Holders have offered the Trustee security or indemnity satisfactory to it against any loss, liability or expense;
- (4) the Trustee has not complied with such request within 60 days after the receipt thereof and the offer of security or indemnity; and
- (5) Holders of a majority in principal amount of the outstanding Notes have not given the Trustee a direction inconsistent with such request within such 60-day period.

The Indenture provides that the Company is required to deliver to the Trustee annually a statement regarding compliance with the Indenture, and the Company is required, within five Business Days, upon becoming aware of any Default, to deliver to the Trustee a statement specifying such Default.

No personal liability of directors, officers, employees and stockholders

No director, officer, employee, incorporator or stockholder of the Company or any Subsidiary Guarantor (other than in the case of stockholders of any Subsidiary Guarantor, the Company or another Subsidiary Guarantor) or any of their parent companies shall have any liability for any obligations of the Company or the Subsidiary Guarantors under the Notes, the Subsidiary Guarantees and the Indenture or for any claim based on, in respect of, or by reason of such obligations or their creation. Each Holder by accepting a note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. Such waiver may not be effective to waive liabilities under the Federal securities laws and it is the view of the SEC that such a waiver is against public policy.

Legal defeasance and covenant defeasance

Most of the obligations of the Company and the Subsidiary Guarantors under the Indenture will terminate and will be released upon payment in full of all of the Notes issued under the Indenture. The Company may, at its option and at any time, elect to have all of its obligations discharged with respect to the Notes issued under the Indenture and each Subsidiary Guarantor's obligation discharged with respect to its Subsidiary Guarantee (Legal Defeasance) and cure all then existing Events of Default except for:

- (1) the rights of Holders of Notes issued under the Indenture to receive payments in respect of the principal of, premium, if any, and interest on such Notes when such payments are due solely out of the trust created pursuant to the Indenture;
- (2) the Company's obligations with respect to Notes issued under the Indenture concerning issuing temporary Notes, registration of such Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust;
- (3) the rights, powers, trusts, duties and immunities of the Trustee, and the Company's obligations in connection therewith; and
- (4) the Legal Defeasance provisions of the Indenture.

In addition, the Company may, at its option and at any time, elect to have its obligations and those of each Subsidiary Guarantor released with respect to certain covenants that are described in the Indenture (Covenant Defeasance) and thereafter any omission to comply with such obligations shall not constitute a Default or Event of Default with respect to the Notes. In the event Covenant Defeasance occurs, certain events (not including bankruptcy, receivership, rehabilitation and insolvency events pertaining to the Company) described under Events of default and remedies will no longer constitute an Event of Default with respect to the Notes.

Table of Contents

In order to exercise either Legal Defeasance or Covenant Defeasance with respect to the Notes issued under the Indenture:

- (1) the Company must irrevocably deposit with the Trustee, in trust, for the benefit of the Holders, cash in U.S. dollars, non-callable Government Securities, or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants, to pay the principal of, premium, if any, and interest due on the Notes issued under the Indenture on the stated maturity date or on the redemption date, as the case may be;

- (2) in the case of Legal Defeasance, the Company shall have delivered to the Trustee an opinion of counsel in the United States of America reasonably acceptable to the Trustee confirming that, subject to customary assumptions and exclusions;
 - (A) the Company has received from, or there has been published by, the United States Internal Revenue Service a ruling; or

 - (B) since the original issuance of the Notes, there has been a change in the applicable U.S. Federal income tax law; in either case to the effect that, and based thereon such opinion of counsel in the United States of America shall confirm that, subject to customary assumptions and exclusions, the Holders will not recognize income, gain or loss for U.S. Federal income tax purposes as a result of such Legal Defeasance and will be subject to U.S. Federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;

- (3) in the case of Covenant Defeasance, the Company shall have delivered to the Trustee an opinion of counsel in the United States of America confirming that, subject to customary assumptions and exclusions, the Holders will not recognize income, gain or loss for U.S. Federal income tax purposes as a result of such Covenant Defeasance and will be subject to such tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

- (4) no Default (other than that resulting from borrowing funds to be applied to make such deposit and the granting of Liens in connection therewith) shall have occurred and be continuing on the date of such deposit;

- (5) such Legal Defeasance or Covenant Defeasance shall not result in a breach or violation of, or constitute a default under any Credit Facility, the Convertible Senior Notes or any other material agreement or instrument (other than the Indenture) to which, the Company or any Subsidiary Guarantor is a party or by which the Company or any Subsidiary Guarantor is bound;

- (6) the Company shall have delivered to the Trustee an Officers Certificate stating that the deposit was not made by the Company with the intent of defeating, hindering, delaying or defrauding any creditors of the Company or any Subsidiary Guarantor or others; and

- (7) the Company shall have delivered to the Trustee an Officers Certificate and an opinion of counsel in the United States of America (which opinion of counsel may be subject to customary assumptions and exclusions) each stating that all conditions precedent provided for in the Indenture relating to the Legal Defeasance or the Covenant Defeasance, as the case may be, have been complied with.

Notwithstanding the foregoing, the opinion of counsel required by clause (2) above with respect to Legal Defeasance need not be delivered if all Notes not theretofore delivered to the Trustee for cancellation (A) have become due and payable by reason of the making of a notice of redemption or otherwise, (B) will become due and payable within one year or (C) are to be called for redemption within one year under arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Company.

Satisfaction and discharge

The Indenture will be discharged and will cease to be of further effect as to all Notes issued thereunder, when:

- (a) either
 - (1) all such Notes theretofore authenticated and delivered, except lost, stolen or destroyed Notes which have been replaced or paid and Notes for whose payment money has theretofore been deposited in trust, have been delivered to the Trustee for cancellation; or
 - (2) all such Notes not theretofore delivered to the Trustee for cancellation have become due and payable by reason of the making of a notice of redemption or otherwise, will become due and payable within one year or are to be called for redemption within one year under arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Company and the Company or any Subsidiary Guarantor has irrevocably deposited or caused to be deposited with the Trustee as trust funds in trust solely for the benefit of the Holders, cash in U.S. dollars, non-callable Government Securities, or a combination thereof, in such amounts as will be sufficient without consideration of any reinvestment of interest to pay and discharge the entire indebtedness on such Notes not theretofore delivered to the Trustee for cancellation for principal, premium, if any, and accrued interest to the date of maturity or redemption, as the case may be;
- (b) no Default (other than that resulting from borrowing funds to be applied to make such deposit and the granting of Liens in connection therewith) with respect to the Indenture or the Notes issued thereunder shall have occurred and be continuing on the date of such deposit or shall occur as a result of such deposit and such deposit will not result in a breach or violation of, or constitute a default under, any Credit Facility, the Convertible Senior Notes or any other material agreement or instrument to which the Company or any Subsidiary Guarantor is a party or by which the Company or any Subsidiary Guarantor is bound;
- (c) the Company has paid or caused to be paid all sums payable by it under the Indenture; and
- (d) the Company has delivered irrevocable instructions to the Trustee under the Indenture to apply the deposited money toward the payment of such Notes at maturity or the redemption date, as the case may be.

In addition, the Company must deliver an Officers' Certificate and an opinion of counsel to the Trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

Transfer and exchange

A Holder may transfer or exchange Notes in accordance with the Indenture. The Registrar and the Trustee may require a Holder, among other things, to furnish appropriate endorsements and transfer documents and the Company may require a Holder to pay any taxes and fees required by law or permitted by the Indenture. The Company is not required to transfer or exchange any note selected for redemption. Also, the Company is not required to transfer or exchange any note for a period of 15 days before the mailing of a notice of redemption of Notes to be redeemed.

The registered Holder of a Note will be treated as the owner of the Note for all purposes.

Amendment, supplement and waiver

Except as provided in the next two succeeding paragraphs, the Indenture, any related Subsidiary Guarantee and the Notes issued thereunder may be amended or supplemented with the consent of the Holders of at least a majority in principal amount of the Notes then outstanding and issued under the Indenture, including consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes, and any existing Default or Event of Default or compliance with any provision of the Indenture or the Notes issued thereunder may be waived with the consent of

Edgar Filing: KAISER ALUMINUM CORP - Form 424B3

the Holders of a majority in principal amount of the then outstanding Notes issued under the Indenture, including consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes, in each case other than Notes beneficially owned by the Company or its Affiliates.

Table of Contents

The Indenture provides that, without the consent of each Holder affected, an amendment or waiver may not, with respect to any Notes issued under the Indenture and held by a non-consenting Holder:

- (1) reduce the principal amount of Notes whose Holders must consent to an amendment, supplement or waiver;
- (2) reduce the principal of or change the fixed maturity of any such note or alter or waive the provisions with respect to the redemption of the Notes (other than provisions relating to the covenants described above under Repurchase at the option of holders);
- (3) reduce the rate of or change the time for payment of interest on any note;
- (4) waive a Default or Event of Default in the payment of principal of or premium, if any, or interest on the Notes issued under the Indenture (except a rescission of acceleration of the Notes by the Holders of at least a majority in aggregate principal amount of the then outstanding Notes and a waiver of the payment default that resulted from such acceleration) or in respect of a covenant or provision contained in the Indenture or any Subsidiary Guarantee that cannot be amended or modified without the consent of all Holders;
- (5) make any note payable in money other than that stated in the Notes;
- (6) make any change in the provisions of the Indenture relating to waivers of past Defaults or the rights of Holders to receive payments of principal of or premium, if any, or interest on the Notes;
- (7) make any change in the ranking of the Indenture and the Notes that would adversely affect the Holders;
- (8) except as expressly permitted by the Indenture, modify the Subsidiary Guarantee of any Significant Subsidiary (or any group of Subsidiaries that together would constitute a Significant Subsidiary) in any manner adverse to the Holders;
- (9) make any change in these amendment and waiver provisions; or
- (10) impair the right of any Holder to receive payment of principal of, or interest on, such Holder's Notes on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to such Holder's Notes.

Notwithstanding the foregoing, without the consent of any Holder, the Company, any Subsidiary Guarantor (with respect to a Subsidiary Guarantee or the Indenture to which it is a party) and the Trustee may amend or supplement the Indenture, any Subsidiary Guarantee or the Notes:

- (1) to cure any ambiguity, omission, mistake, defect or inconsistency;
- (2) to provide for uncertificated Notes in addition to or in place of certificated Notes;

Edgar Filing: KAISER ALUMINUM CORP - Form 424B3

- (3) to comply with the covenant relating to mergers, consolidations and sales of assets and to provide for the assumption of the Company's or any Subsidiary Guarantor's obligations to Holders in connection therewith;
- (4) to make any change that would provide any additional rights or benefits to the Holders or that does not adversely affect the legal rights of any such Holder under the Indenture;
- (5) to add covenants for the benefit of the Holders or to surrender any right or power conferred in the Indenture upon the Company or a Subsidiary Guarantor;

Table of Contents

- (6) to comply with requirements of the SEC in order to effect or maintain the qualification of the Indenture under the TIA;
- (7) to evidence and provide for the acceptance and appointment under the Indenture of a successor Trustee pursuant to the requirements thereof;

- (9) to add a Subsidiary Guarantor or any other guarantor under the Indenture;
- (10) to conform the text of the Indenture, the Subsidiary Guarantees or the Notes to any provision of this Description of Notes to the extent that such provision in the Indenture, the Subsidiary Guarantees or the Notes was intended to be a substantially verbatim recitation of a provision of this Description of Notes as set forth in an Officers Certificate;
- (11) to mortgage, pledge, hypothecate or grant any other Lien in favor of the trustee for the benefit of the holders of the Notes, as security for the payment and performance of all or any portion of the Notes, in any property or assets;
- (12) to comply with the rules of any applicable securities depository; or
- (13) to make any amendment to the provisions of the Indenture relating to the transfer and legending of Notes; provided, however, that (a) compliance with the Indenture as so amended would not result in Notes being transferred in violation of the Securities Act or any applicable securities law and (b) such amendment does not materially and adversely affect the rights of Holders to transfer Notes. The consent of the Holders is not necessary under the Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment.

Notices

Notices given by publication will be deemed given on the first date on which publication is made and notices given by first-class mail, postage prepaid, will be deemed given five calendar days after mailing. Notwithstanding any other provision of the Indenture or any Note, where the Indenture or any Note provides for notice of any event (including any notice of redemption) to any Holder of an interest in a global note (whether by mail or otherwise), such notice shall be sufficiently given if given to DTC or any other applicable depository for such Note (or its designee) according to the applicable procedures of DTC or such depository.

Concerning the trustee

The Indenture contains certain limitations on the rights of the Trustee, should it become a creditor of the Company, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee will be permitted to engage in other transactions with the Company; however, if it acquires any conflicting interest it must eliminate such conflict within 90 days, apply to the SEC for permission to continue or resign.

The Indenture provides that the Holders of a majority in principal amount of the outstanding Notes issued thereunder will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee, subject to certain exceptions. The Indenture provides that in case an Event of Default shall occur (which shall not be cured), the Trustee will be required, in the exercise of its power, to use the degree of care of a prudent person in the conduct of his own affairs. Subject to such provisions, the Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any Holder, unless such Holder shall have offered to the Trustee security and indemnity satisfactory to it against any loss, liability or expense.
