(Exact name of registrant as specified in its charter)

Edgar Filing: AZZ INC - Form 10-Q

<b>TEXAS</b> (State or other jurisdiction of incorporation or organization)	<b>75-0948250</b> (I.R.S. Employer Identification No.)
<b>One Museum Place, Suite 500</b> <b>3100 West Seventh Street</b> <b>Fort Worth, Texas</b> (Address of principal executive offices)	<b>76107</b> (Zip Code)
<b>(817) 810-0095</b>	

Registrant's telephone number, including area code:

NONE

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☐

Accelerated filer ☒

Non-accelerated filer ☐

Smaller Reporting Company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Title of each class:
<b><u>Common Stock, \$1.00 par value per share</u></b>

Outstanding at August 31, 2012:
<b><u>25,312,516</u></b>

See Accompanying Notes to Condensed Consolidated Financial Statements.

**Table of Contents****AZZ incorporated****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****1. Basis of Presentation.**

These interim unaudited condensed consolidated financial statements were prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to the SEC rules and regulations referred to above. Accordingly, these financial statements should be read in conjunction with the audited financial statements and related notes for the fiscal year ended February 29, 2012 included in the Company's Annual Report on Form 10-K covering such period. For purposes of the report, "AZZ", the "Company", "we", "our", "us" or similar reference means AZZ incorporated and our consolidated subsidiaries.

Our fiscal year ends on the last day of February and is identified as the fiscal year for the calendar year in which it ends. For example, the fiscal year ended February 29, 2012 is referred to as fiscal 2012.

In the opinion of management of the Company, the accompanying unaudited consolidated financial statements contain all adjustments (consisting only of normal recurring adjustments) necessary to present fairly the financial position of the Company as of August 31, 2012, and the results of its operations and cash flows for the three-month and six-month periods ended August 31, 2012 and 2011.

**2. Earnings per share.**

Earnings per share is based on the weighted average number of shares outstanding during each period, adjusted for the dilutive effect of stock awards. The shares and earnings per share have been adjusted to reflect our two for one stock split, effected in the form of a share dividend approved by the Board of Directors on June 28, 2012. All share data has been retroactively restated.

The following table sets forth the computation of basic and diluted earnings per share:

	Three months ended August 31, 2012		Six months ended August 31, 2011	
	(Unaudited)			
(In thousands except share and per share data)				
Numerator:				
Net income for basic and diluted earnings per common share	\$ 15,873	\$ 9,606	\$ 31,859	\$ 19,071
Denominator:				
Denominator for basic earnings per common share weighted average shares	25,297,220	25,120,350	25,270,585	25,099,166
Effect of dilutive securities:				
Employee and Director stock awards	211,323	233,614	210,602	223,184
Denominator for diluted earnings per common share				
	25,508,543	25,353,964	25,481,187	25,322,350
Earnings per share basic and diluted:				
Basic earnings per common share	\$ 0.63	\$ 0.38	\$ 1.26	\$ 0.76
Diluted earnings per common share	\$ 0.62	\$ 0.38	\$ 1.25	\$ 0.75

**Table of Contents****3. Stock-based Compensation.**

The Company has two share-based compensation plans (the Plan or Plans). The purpose of both Plans is to promote the growth and prosperity of the Company by permitting the Company to grant to its employees, directors and advisors various types of restricted stock unit awards, stock appreciation rights and options to purchase common stock of the Company. The maximum number of shares that may be issued under the Plans is 5,000,000 shares. As of August 31, 2012, the Company has approximately 1,983,454 shares available for future issuance under the Plans.

*Restricted Stock Unit Awards*

Restricted stock unit awards are valued at the market price of our common stock on the grant date. These awards generally have a three year cliff vesting schedule but may vest early in accordance with the applicable Plan's accelerated vesting provisions.

Activity in our non-vested restricted stock unit awards for the six month period ended August 31, 2012 is as follows:

	<b>Restricted Stock Units</b>	<b>Weighted Average Grant Date Fair Value</b>
Non-Vested Balance as of February 29, 2012	122,450	\$ 13.89
Granted	40,792	25.67
Vested	(56,664)	9.06
Forfeited		
Non-Vested Balance for the period ended August 31, 2012	106,578	\$ 20.82

*Stock Appreciation Rights and Option Awards*

Stock appreciation rights and option awards are granted with an exercise price equal to the market value of our common stock on the date of grant. These awards generally have a contractual term of 7 years and vest ratably over a period of three years although some may vest immediately on issuance. These awards are valued using the Black-Scholes option pricing model.

A summary of the Company's stock appreciation rights and option awards activity for the six month period ended August 31, 2012 is as follows:

	<b>Options/SARs</b>	<b>Weighted Average Exercise Price</b>
Outstanding as of February 29, 2012	573,000	\$ 15.46
Granted	116,114	25.67
Exercised	(159,114)	12.15
Forfeited		
Outstanding at end of the period ended August 31, 2012	530,000	\$ 18.68
Exercisable at end of period ended August 31, 2012	207,526	\$ 14.75
Weighted average fair value of options and SARs granted during the period ended August 31, 2012		\$ 8.79

## **Table of Contents**

The average remaining contractual term for those options and stock appreciation rights outstanding at August 31, 2012, is 5.11 years, with an aggregate intrinsic value of \$16.8 million. The average remaining contractual terms for those options and stock appreciation rights that are exercisable as of August 31, 2012 is 4.39 years, with an aggregate intrinsic value of \$6.6 million.

### *Employee Stock Purchase Plan*

The Company also has an employee stock purchase plan which allows employees of the Company to purchase common stock of the Company through accumulated payroll deductions. Offerings under this plan have a duration of 24 months. On the first day of an offering period (the enrollment date) the participant is granted the option to purchase shares on each exercise date at the lower of 85% of the market value of a share of our common stock on the enrollment date or the exercise date. The participant's right to purchase common stock under the plan is restricted to no more than \$25,000 per calendar year and the participant may not purchase more than 5,000 shares during any offering period. Participants may terminate their interest in a given offering or a given exercise period by withdrawing all of their accumulated payroll deductions at any time prior to the end of the offering period. The fair value of the estimated number of shares to be issued under each offering is determined using the Black-Scholes option pricing model.

### *Directors Grants*

During the second quarter of fiscal 2013, the Company granted each of its seven independent directors 2,000 shares of the Company's common stock. These common stock grants were valued at \$32.51, which was the market price of our common stock on the grant date. As previously stated all per share data has been adjusted to reflect the two for one stock split.

Share-based compensation expense and related income tax benefits related to all the plans listed above were as follows:

<b>For the period ended August 31,</b>	<b>2012</b>	<b>2011</b>
Compensation Expense	\$ 2,434,487	\$ 2,322,927
Income tax benefits	\$ 852,070	\$ 813,024

Unrecognized compensation cost related to all the above at August 31, 2012 totals \$1,423,591.

The Company's policy is to issue shares required under these Plans from the Company's authorized but unissued shares and treasury.

## Table of Contents

### 4. Segments.

We have two operating segments as defined in our Annual Report on Form 10-K for the year ended February 29, 2012. Information regarding operations and assets by segment is as follows:

	Three Months Ended August 31, 2012	2011 (Unaudited) (In thousands)	Six Months Ended August 31, 2012	2011
<b>Net Sales:</b>				
Electrical and Industrial Products	\$ 66,530	\$ 44,402	\$ 111,212	\$ 92,669
Galvanizing Services	86,855	70,259	169,316	136,325
	153,385	114,661	280,528	228,994
<b>Operating Income (a):</b>				
Electrical and Industrial Products	9,339	5,081	16,135	12,495
Galvanizing Services	23,549	18,755	46,182	35,876
	32,888	23,836	62,317	48,371
General Corporate Expense (b)	5,342	4,883	12,074	11,116
Interest Expense	3,228	3,463	6,568	6,934
Other (Income) Expense, Net (c)	(275)	(131)	(6,008)	(265)
	8,295	8,215	12,634	17,785
<b>Income Before Income Taxes</b>	<b>\$ 24,593</b>	<b>\$ 15,621</b>	<b>\$ 49,683</b>	<b>\$ 30,586</b>
<b>Total Assets:</b>				
Electrical and Industrial Products	\$ 259,125	\$ 137,477	\$ 259,125	\$ 137,477
Galvanizing Services	311,630	281,904	311,630	281,904
Corporate	76,028	163,865	76,028	163,865
	\$ 646,783	\$ 583,246	\$ 646,783	\$ 583,246

- (a) Segment operating income consists of net sales, less cost of sales, specifically identifiable selling, general and administrative expenses, and other income and expense items that are specifically identifiable to a segment.
- (b) General Corporate Expense consists of selling, general and administrative expenses that are not specifically identifiable to a segment.
- (c) Other (income) expense, net includes other (income) expenses not specifically identifiable to a segment.

**Table of Contents****5. Warranty Reserves.**

A reserve has been established to provide for the estimated future cost of warranties on a portion of the Company's delivered products and is classified within accrued liabilities on the consolidated balance sheet. Management periodically reviews the reserves and makes adjustments accordingly. Warranties cover such factors as non-conformance to specifications and defects in material and workmanship. The following table shows changes in the warranty reserves since the end of fiscal 2012:

	Warranty Reserve (unaudited) (in thousands)
Balance at February 29, 2012	\$ 1,670
Warranty costs incurred	(754)
Additions charged to income	355
Balance at May 31, 2012	\$ 1,271
Warranty costs incurred	(368)
Additions charged to income	615
Balance at August 31, 2012	\$ 1,518

**6. Acquisitions**

On June 1, 2012, we completed the acquisition of substantially all of the assets of Nuclear Logistics Incorporated ( NLI ), pursuant to the terms of the Asset Purchase Agreement dated April 27, 2012 between NLI, certain shareholders of NLI identified therein, the Company and an indirect wholly-owned subsidiary of the Company formed for the sole purpose of the acquisition (the Purchase Agreement ). The purchase price paid in connection with the asset purchase was \$77.0 million, net of cash acquired, along with the assumption of certain liabilities and the payoff of \$3.8 million of notes payable at closing. In accordance with the Purchase Agreement, we may be obligated to make an additional payment of up to \$20 million based on the future financial performance of the NLI business. The fair value of the earn out agreement was \$8.5 million, and is reflected as a long-term liability. The fair value was calculated by determining a probability of potential payout which was then discounted by the cost of capital over the life of the agreement. NLI serves the Power Generation, electrical transmission and distribution and Industrial markets. Our stated acquisition strategy has been to participate to a greater degree in each of these markets. Prior to the acquisition of NLI, the majority of AZZ's sales to the Power Generation market were new project driven associated with either the building of replacement for an existing power plant, or a new power generation plant to provide power to expanding economies. This applies to both domestic and international. NLI serves both the project (new power plants) and the existing power plants, and after an extended valuation, we determined that NLI met our strategy. While NLI products and services are associated with the construction of new nuclear power plants, the primary NLI business model is driven by the continual updating and upgrading of the safety equipment of domestic and international nuclear power facilities. This acquisition therefore increased our opportunities for increased sales and operating income for new power projects as well as increased our participation in the revenue opportunities of existing facilities. The pre-acquisition customer base of AZZ is essentially the same customer base utilized by NLI.

## Table of Contents

The following consolidated pro forma information assumes that the acquisition of NLI took place on March 1, 2011 for the income statements for the three month and six month periods ended August 31, 2012 and 2011.

	Three Months Ended August 31, 2012	Three Months Ended August 31, 2011	Six Months Ended August 31, 2012	Six Months Ended August 31, 2011
	(In thousands, except for per share amounts)			
Net Sales	\$ 153,385	\$ 128,233	\$ 293,677	\$ 255,106
Net Income	\$ 15,873	\$ 10,141	\$ 32,005	\$ 20,264
Earnings Per Common Share				
Basic Earnings Per Share	\$ 0.63	\$ 0.40	\$ 1.27	\$ 0.81
Diluted Earnings Per Share	\$ 0.62	\$ 0.40	\$ 1.26	\$ 0.80

Under the acquisition method of accounting, the total purchase price was allocated to NLI's net tangible and identifiable intangible assets based on their estimated fair values as of June 1, 2012, the date on which AZZ acquired control of NLI. The excess of the purchase price over the net tangible and identifiable intangible assets was recorded as goodwill. The goodwill will be deductible for income tax purposes. The earn out provision mentioned above has been classified below as a long term liability. AZZ has made an allocation of the estimated purchase price as follows (in thousands):

### Purchase Price Allocation:

	(\$ in thousands)
Current Assets	\$ 22,901
Property and Equipment	1,416
Intangible Assets	50,900
Goodwill	32,023
Other Assets	58
Total Assets Acquired	107,298
Current Liabilities	(17,866)
Long Term Liabilities	(12,388)
Net Assets Acquired	\$ 77,044

### 7. Subsequent Events

On October 1, 2012, we completed the acquisition of substantially all of the assets of Galvcast Manufacturing Inc. (Galvcast), a Canadian galvanizing company with operations in Ontario, and certain real property owned by an affiliate of Galvcast.

In addition, on October 1, 2012, we and Bank of America amended the Credit Agreement to provide, among other things, for an increase in the revolving credit facility from \$80 million to \$125 million and extended the maturity date to October 1, 2017.

## **Table of Contents**

### **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations** **FORWARD LOOKING STATEMENTS**

Certain statements herein about our expectations of future events or results constitute forward-looking statements for purposes of the safe harbor provisions of The Private Securities Litigation Reform Act of 1995. You can identify forward-looking statements by terminology such as may, should, expects, plans, anticipates, believes, estimates, predicts, potential, continue, or the negative of these terms or other comparable terminology. Such forward-looking statements are based on currently available competitive, financial and economic data and management's views and assumptions regarding future events. Such forward-looking statements are inherently uncertain, and investors must recognize that actual results may differ from those expressed or implied in the forward-looking statements. In addition, certain factors could affect the outcome of the matters described herein. This Quarterly Report on Form 10-Q may contain forward-looking statements that involve risks and uncertainties including, but not limited to, changes in customer demand and response to products and services offered by AZZ, including demand by the power generation markets, electrical transmission and distribution markets, the industrial markets, and the hot dip galvanizing markets; prices and raw material cost, including zinc and natural gas which are used in the hot dip galvanizing process; changes in the economic conditions of the various markets that AZZ serves, foreign and domestic, customer requested delays of shipments, acquisition opportunities, currency exchange rates, adequacy of financing, and availability of experienced management employees to implement AZZ's growth strategy; a downturn in market conditions in any industry relating to the products we inventory or sell or the services that we provide; the continuing economic volatility in the U.S. and other markets in which we operate; and acts of war or terrorism inside the United States or abroad. AZZ has provided additional information regarding risks associated with the business in AZZ's Annual Report on Form 10-K for the fiscal year ended February 29, 2012 and other filings with the SEC, available for viewing on AZZ's website at [www.azz.com](http://www.azz.com) and on the SEC's website at [www.sec.gov](http://www.sec.gov).

You are urged to consider these factors carefully in evaluating the forward-looking statements herein and are cautioned not to place undue reliance on such forward-looking statements, which are qualified in their entirety by this cautionary statement. These statements are based on information as of the date hereof and AZZ assumes no obligation to update any forward-looking statements, whether as a result of new information, future events, or otherwise.

The following discussion should be read in conjunction with management's discussion and analysis contained in our Annual Report on Form 10-K for the year ended February 29, 2012 and with the condensed consolidated financial statements and notes thereto included in this Quarterly Report on Form 10-Q.

### **RESULTS OF OPERATIONS**

We have two operating segments as defined in our Annual Report on Form 10-K for the year ended February 29, 2012. Management believes that the most meaningful analysis of our results of operations is to analyze our performance by segment. We use revenue and operating income by segment to evaluate our segments. Segment operating income consists of net sales less cost of sales, specifically identifiable selling, general and administrative expenses, and other (income) expense items that are specifically identifiable to a segment. The other (income) expense items included in segment operating income are generally insignificant. For a reconciliation of segment operating income to pretax income, see Note 4 to our quarterly consolidated financial statements included in this Quarterly Report on Form 10-Q.

#### *Orders and Backlog*

Our entire backlog relates to our Electrical and Industrial Products Segment. Our backlog was \$213.1 million as of August 31, 2012, an increase of \$74.4 million, or 54%, as compared to \$138.6 million at February 29, 2012. Our backlog was \$123.2 million as of August 31, 2011. We acquired approximately \$78.5 million of this backlog through our acquisition of NLI on June 1, 2012. Our book-to-ship ratio was .99 to 1 for the second quarter ended August 31, 2012, as

**Table of Contents**

compared to 1.07 to 1 for the same period in the prior year. Incoming orders increased 23% for the quarter compared to the same period in fiscal 2012. The acquisition of NLI contributed 17% of the increase in incoming orders for the second quarter of fiscal 2013. Our book to ship ratio decreased as a result of our strategy to maintain price versus accepting orders with minimal or no margins as a result of market conditions.

*Backlog Table**(in thousands)(unaudited)*

	Period Ended		Period Ended	
Backlog	2/29/12	\$ 138,621	2/28/11	\$ 108,379
Bookings		124,666		120,697
Shipments		127,143		114,333
Backlog	5/31/12	\$ 136,144	5/31/11	\$ 114,743
Book to Ship Ratio		0.98		1.06
Bookings		151,804		123,097
Acquired Backlog		78,491		
Shipments		153,385		114,661
Backlog	8/31/12	\$ 213,054	8/31/11	\$ 123,179
Book to Ship Ratio		0.99		1.07

*Segment Revenues*

The following table reflects the breakdown of revenue by segment:

	Three Months Ended		Six Months Ended	
	8/31/2012	8/31/2011	8/31/2012	8/31/2011
	<i>(In thousands)(unaudited)</i>			
Revenue:				
Electrical and Industrial Products	\$ 66,530	\$ 44,402	\$ 111,212	\$ 92,669
Galvanizing Services	86,855	70,259	169,316	136,325
Total Revenue	\$ 153,385	\$ 114,661	\$ 280,528	\$ 228,994

For the three and six-month periods ended August 31, 2012, consolidated revenues were \$153.4 million and \$280.5 million, respectively, a 34% and 23% increase, respectively, as compared to the same periods in fiscal 2012. The Electrical and Industrial Products Segment contributed 43% and 39%, respectively, and the Galvanizing Services Segment accounted for the remaining 57% and 61%, respectively, of the Company's combined revenues for the three month periods ended August 31, 2012 and 2011. The Electrical and Industrial Products Segment contributed 40% of the Company's revenues, and the Galvanizing Services Segment accounted for the remaining 60%, of the combined revenues for the six month periods ended August 31, 2012 and 2011.

## Edgar Filing: AZZ INC - Form 10-Q

Revenues for the Electrical and Industrial Products Segment increased \$22.1 million, or 50%, for the three-month period ended August 31, 2012, and increased \$18.5 million, or 20%, for the six-month period ended August 31, 2012, as compared to the same periods in fiscal 2012. The increased revenues were the result of increased order intake during the last two quarters of fiscal 2012. In addition, approximately \$11.4 million of the increased revenues were attributable to the acquisition of NLI on June 1, 2012. We expect that revenues attributable to NLI during the third and fourth quarter of fiscal 2013, will be greater (on a pro-rata basis) than the revenues attributable to NLI during the three month period ended August 31, 2012.

Revenues in the Galvanizing Services Segment increased \$16.6 million, or 24%, for the three-month period ended August 31, 2012, as compared to the same period in fiscal 2012 and increased \$33.0 million, or 24%, for the six-month period ended August 31, 2012, as compared to the same period in fiscal 2012. The increased revenues in our

**Table of Contents**

Galvanizing Services Segment resulted from a continued improved demand from the renewable energy, industrial and OEM markets. In addition to the improvements in these markets, our acquisition of Galvan Metal Inc. in the fourth quarter of fiscal 2012, contributed 18% and 19% for the three and six month periods ended August 31, 2012 of the increase in revenue. Historically, revenues for this segment have followed closely the condition of the industrial sector of the general economy.

*Segment Operating Income*

The following table reflects the breakdown of total operating income by segment:

	Three Months Ended		Six Months Ended	
	8/31/2012	8/31/2011	8/31/2012	8/31/2011
	(In thousands)(Unaudited)			
<b>Segment Operating Income:</b>				
Electrical and Industrial Products	\$ 9,339	\$ 5,081	\$ 16,135	\$ 12,495
Galvanizing Services	23,549	18,755	46,182	35,876
<b>Total Segment Operating Income</b>	<b>\$ 32,888</b>	<b>\$ 23,836</b>	<b>\$ 62,317</b>	<b>\$ 48,371</b>

Our total segment operating income increased 38% for the quarter ended August 31, 2012 to \$32.9 million as compared to \$23.8 million for the same period in fiscal 2012. For the six-month period ended August 31, 2012, our total segment operating income increased 29% to \$62.3 million, as compared to \$48.4 million for the same period ended August 31, 2011.

Segment operating income in the Electrical and Industrial Products Segment increased 84% and 29%, respectively, for the three and six-month periods ended August 31, 2012, to \$9.3 million and \$16.1 million, respectively, as compared to \$5.1 million and \$12.5 million, respectively, for the same periods in fiscal 2012. Operating margins were 14% and 15%, respectively, for the three month and six month periods ended August 31, 2012, as compared to 11% and 13%, respectively, for the comparable periods in fiscal 2012. Operating profits and margins increased for the compared periods due to leverage obtained from increased revenues combined with improved pricing as we continue to adhere to our strategy of not accepting orders with margins that fall below our targeted range. Without the amortization of intangibles resulting from the acquisition of NLI, the operating margins would have been 17% and 16% for the three and six month periods ended August 31, 2012. The amortization of intangibles at NLI was \$1.6 million for both the three and six month periods ended August 31, 2012.

In the Galvanizing Services Segment, operating income increased 26% and 29% for the three and six-month periods ended August 31, 2012, to \$23.5 million and \$46.2 million, respectively, as compared to \$18.8 million and \$35.9 million, respectively, for the same periods in fiscal 2012. Operating margins were 27% for both the three and six-month periods ended August 31, 2012, as compared to 27% and 26% for comparable periods in fiscal 2012. For the three and six month periods ended August 31, 2012, a loss was recorded in the amount of \$1.1 million and \$1.7 million, respectively, which resulted from the loss of production at our Joliet, Illinois facility due to a fire that resulted in a total loss of the facility. This loss is expected to be offset with insurance proceeds for business interruption in a future quarter, once the claim is settled. Without this loss, operating margins would have been 28% for both the three and six month periods ended August 31, 2012.

*General Corporate Expenses*

General Corporate expenses, (see Note 4 to consolidated financial statements) not specifically identifiable to a segment, for the three-month period ended August 31, 2012, were \$5.3 million compared to \$4.9 million for the same period in fiscal 2012. For the six-month period ended August 31, 2012, general corporate expenses were \$12.1 million as compared to \$11.1 million for the comparable period in the prior year. As a percentage of sales, general corporate expenses were 3% and 4%, respectively, for the three and six-month periods ended August 31, 2012, as compared to 4% and 5%, respectively, for the same periods in fiscal 2011. Due to increased revenues for the compared periods, general corporate expenses as a percentage of sales were lower than those reported in fiscal 2012. For the first half of fiscal 2013, the Company has expensed acquisition costs of \$7.7 million, related to the acquisition of NLI, (see Note 6 to the condensed consolidated financial statements).

## **Table of Contents**

### *Interest*

Net interest expense for the three and six-month periods ended August 31, 2012 was \$3.2 million and \$6.6 million, respectively, as compared to \$3.5 and \$6.9 million, respectively, for the same periods in fiscal 2012. As of August 31, 2012, we had outstanding debt of \$210.7 million, compared to \$225 million at the same date last year. Our long-term debt to equity ratio was .62 to 1 at August 31, 2012, as compared to .78 to 1 at August 31, 2011.

### *Net (Gain) On Insurance Settlement*

For the six-month period ended August 31, 2012, the company received a portion of the insurance recovery in the amount of \$10 million for the fire that occurred on April 29, 2012, at the galvanizing facility in Joliet, Illinois. Based on a preliminary estimate of the damage sustained at the Joliet facility, a pretax asset impairment charge of approximately \$4 million was recorded during the first quarter of fiscal 2013. The net gain on the insurance settlement of property, plant and equipment of \$6 million has been recorded as an item under Net (Gain) Loss On Insurance Settlement or On Sale of Property, Plant and Equipment. During the same period last year the amount reflected was insignificant. We anticipate receiving additional insurance recoveries from these claims in an amount ranging from \$10 million to \$15 million when all claims are settled.

### *Other (Income) Expense*

For the three and six-month periods ended August 31, 2012 and 2011 the amounts in other (income) expense not specifically identifiable with a segment (see Note 4 to consolidated financial statements) were insignificant.

### *Income Taxes*

The provision for income taxes reflects an effective tax rate of 35.5% for the three-month period ended August 31, 2012, as compared to 38.5% for same period in fiscal 2012. For the six month period ended August 31, 2012 the tax rate was 35.9% as compared to 37.6% for the same period in the prior year. The decrease in the effective tax rate for the compared periods relates to the elimination of a valuation allowance that was recorded in the previous year for a Canadian net operating loss carry forward. The valuation allowance was not required in the current fiscal year due to the acquisition of Galvan Metals.

## **LIQUIDITY AND CAPITAL RESOURCES**

We have historically met our cash needs through a combination of cash flows from operating activities, unsecured notes and bank borrowings. Our cash requirements are generally for operating activities, capital improvements, debt repayment, possible future cash dividend payments and possible acquisitions. We believe that working capital, funds available under our Credit Agreement (as defined below), and funds generated from operations should be sufficient to finance anticipated operational activities, capital improvements, payment of debt, and possible future cash dividend payments and possible future acquisitions.

Our operating activities generated cash flows of approximately \$30.2 million for the six month period ended August 31, 2012 compared to \$27.0 million for the same period in the prior fiscal year. Cash flows from operations for the six month period ended August 31, 2012 included net income in the amount of \$31.9 million, depreciation and amortization in the amount of \$13.2 million, and other adjustments to reconcile net income to net cash in the amount of \$(1.5) million. Included in other adjustments were share-based compensation expense in the amount of \$2.4 million, provisions for bad debts in the amount of \$.3 million, deferred income taxes in the amount of \$1.5 million, gain or loss on the sale of assets or insurance settlement in the amount of \$(6.0) million, and other non-cash adjustments in the amount of \$.1 million. Negative cash flow was recognized due to increased accounts receivable, inventories and prepaid expenses in the amount of \$11.4 million, \$2.3 million and \$2.1 million, respectively, and

## **Table of Contents**

decreased other accrued liabilities in the amount of \$2.9 million. Positive cash flows were recognized due to increased accounts payable in the amount of \$.7 million and decreased revenue in excess of billings and other assets in the amount of \$4.6 million and \$.09 million, respectively. Accounts receivable average days outstanding were 48 days for the six month period ended August 31, 2012, as compared to 48 days for the same period in the prior fiscal year.

During the six month period ended August 31, 2012, capital improvements were made in the amount of \$12.6 million.

During the six month period ended August 31, 2012, dividends were paid in the amount of \$6.3 million.

Our working capital declined to \$167.6 million at August 31, 2012, as compared to \$227.9 million at August 31, 2011, due primarily to the acquisition of NLI.

On May 25, 2006, we entered into the Second Amended and Restated Credit Agreement (as subsequently amended, the Credit Agreement) with Bank of America, N.A. (Bank of America). The Credit Agreement provides for an \$80 million unsecured revolving line of credit maturing on May 25, 2014. The Credit Agreement is used to provide for working capital needs, capital improvements, future acquisitions and letter of credit needs.

The Credit Agreement provides various financial covenants requiring us, among other things, to a) maintain on a consolidated basis net worth equal to at least the sum of \$182.3 million, plus 50% of future net income, b) maintain on a consolidated basis a Leverage Ratio (as defined in the Credit Agreement) not to exceed 3.25:1.0, c) maintain on a consolidated basis a Fixed Charge Coverage Ratio (as defined in the Credit Agreement) of at least 1.75:1.0 and d) not to make Capital Expenditures (as defined in the Credit Agreement) on a consolidated basis in an amount in excess of \$30 million, e) purchase price of acquisitions in a twelve month period must not exceed the last twelve months EBITDA (as defined in the Credit Agreement).

The Credit Agreement also provides for an applicable margin ranging from 1.00% to 1.75% over the Eurodollar Rate and Commitment Fees ranging from .20% to .30% depending on our Leverage Ratio.

At August 31, 2012, we had no outstanding debt borrowed under the revolving credit agreement; we had letters of credit outstanding at that date in the amount of \$17.4 million, which left approximately \$62.6 million of additional credit available under the revolving credit facility.

On March 31, 2008, the Company entered into a Note Purchase Agreement (the Note Purchase Agreement) pursuant to which the Company issued \$100 million aggregate principal amount of its 6.24% unsecured Senior Notes (the 2008 Notes) due March 31, 2018 through a private placement (the 2008 Note Offering). Pursuant to the Note Purchase Agreement, the Company's payment obligations with respect to the 2008 Notes may be accelerated upon any Event of Default, as defined in the Note Purchase Agreement. In connection with the 2008 Note Offering, the Company obtained the consent of Bank of America to the 2008 Note Offering and the agreement of Bank of America that the 2008 Note Offering will not constitute a default under the Credit Agreement.

The Company entered into an additional Note Purchase Agreement on January 21, 2011 (the 2011 Agreement), pursuant to which the Company issued \$125 million aggregate principal amount of its 5.42% unsecured Senior Notes (the 2011 Notes), due in January of 2021, through a private placement (the 2011 Note Offering). Pursuant to the 2011 Agreement, the Company's payment obligations with respect to the 2011 Notes may be accelerated under certain circumstances. The Company anticipates using the proceeds from the 2011 Note Offering for possible future acquisitions, working capital needs, capital improvements and future cash dividend payments. In connection with the 2011 Note Offering, the Company obtained the consent of Bank of America to the 2011 Note Offering and the agreement of Bank of America that the 2011 Note Offering will not constitute a default under the Credit Agreement.

The 2008 Notes and the 2011 Notes each provide for various financial covenants requiring us, among other things, to a) maintain on a consolidated basis net worth equal to at least the sum of \$116.9 million plus 50% of future net income; b) maintain a ratio of indebtedness to EBITDA (as defined in Note Purchase Agreement) not to exceed

## **Table of Contents**

3.25:1.00; c) maintain on a consolidated basis a Fixed Charge Coverage Ratio (as defined in the Note Purchase Agreement) of at least 2.0:1.0; d) not at any time permit the aggregate amount of all Priority Indebtedness (as defined in the Note Purchase Agreement) to exceed 10% of Consolidated Net Worth (as defined in the Note Purchase Agreement).

As of August 31, 2012, we were in compliance with all of our debt covenants.

Our current ratio (current assets/current liabilities) was 2.8 to 1 at August 31, 2012, as compared to 4.1 to 1 at August 31, 2011. Our ratio of long-term debt to shareholders' equity was .62 to 1 at August 31, 2012.

Historically, we have not experienced a significant impact on our operations from increases in general inflation other than for specific commodities. We have exposure to commodity price increases in both segments of our business, primarily copper, aluminum and steel in the Electrical and Industrial Products Segment, and zinc and natural gas in the Galvanizing Services Segment. When market conditions allow we attempt to minimize these increases through escalation clauses in customer contracts for copper, aluminum and steel and through protective caps and fixed contract purchases on zinc. In addition to these measures, we attempt to recover other cost increases through improvements to our manufacturing process and through increases in prices where competitively feasible. Many economists predict increased inflation in coming years due to U.S. and international monetary policies, and there is no assurance that inflation will not impact our business in the future.

### *Subsequent Events*

On October 1, 2012, we completed the acquisition of substantially all of the assets of Galvcast Manufacturing Inc. ( "Galvcast" ), a Canadian galvanizing company with operations in Ontario, and certain real property owned by an affiliate of Galvcast.

In addition, on October 1, 2012, we and Bank of America amended the Credit Agreement to provide, among other things, for an increase in the revolving credit facility from \$80 million to \$125 million and extended the maturity date to October 1, 2017.

## **OFF BALANCE SHEET TRANSACTIONS AND RELATED MATTERS**

Other than operating leases discussed below, there are no off-balance sheet transactions, arrangements, obligations (including contingent obligations), or other relationships with unconsolidated entities or other persons that have, or may have, a material effect on financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources of the Company.

## **CONTRACTUAL COMMITMENTS**

### *Leases*

We lease various facilities under non-cancelable operating leases with an initial term in excess of one year. The future minimum payments required under these operating leases as of August 31, 2012 are summarized in the table below under "Other."

### *Commodity pricing*

The Company manages its exposures to commodity prices through the use of the following:

In the Electrical and Industrial Products Segment, we have exposure to commodity pricing for copper, aluminum and steel. Because the Electrical and Industrial Products Segment does not commit contractually to minimum volumes,

**Table of Contents**

increases in price for these items are normally managed through escalation clauses in customer contracts, although during difficult market conditions these escalation clauses may not be obtainable. In addition, we look to get firm pricing contracts from our vendors on material at the time we receive orders from our customers to minimize risk.

In the Galvanizing Services Segment, we utilize contracts with our zinc suppliers that include protective caps and fixed cost contracts to guard against rising zinc prices. We also secure firm pricing for natural gas supplies with individual utilities when possible. Management believes these agreements ensure adequate supplies and partially offset exposure to commodity price swings.

We have no contracted commitments for any other commodity items including steel, aluminum, natural gas, copper, zinc or any other commodity, except for those entered into under the normal course of business.

*Other*

At August 31, 2012, we had outstanding letters of credit in the amount of \$17.4 million. These letters of credit are issued, in lieu of performance and bid bonds, to some of our customers to cover any potential warranty costs that the customer might incur. In addition, as of August 31, 2012, a warranty reserve in the amount of \$1.5 million has been established to offset any future warranty claims.

The following summarizes our operating leases, and long-term debt and interest expense for the next five years.

	<b>Operating Leases</b>	<b>Long-Term Debt</b>	<b>Interest</b>	<b>Total</b>
	<i>(In thousands)</i>			
2013	\$ 2,282	\$	\$ 6,062	\$ 8,344
2014	4,171	14,286	11,678	30,135
2015	3,987	14,286	10,786	29,059
2016	3,695	14,286	9,895	27,876
2017	3,490	14,286	9,004	26,780
Thereafter	8,779	153,570	28,883	191,232

**CRITICAL ACCOUNTING POLICIES AND ESTIMATES**

The preparation of the consolidated financial statements requires us to make estimates that affect the reported value of assets, liabilities, revenues and expenses. Our estimates are based on historical experience and various other factors that we believe are reasonable under the circumstances and form the basis for our conclusions. We continually evaluate the information used to make these estimates as business and economic conditions change. Accounting policies and estimates considered most critical are allowances for doubtful accounts, accruals for contingent liabilities, revenue recognition, impairment of long-lived assets, identifiable intangible assets and goodwill, and accounting for income taxes and stock options and stock appreciation rights. Actual results may differ from these estimates under different assumptions or conditions. The development and selection of the critical accounting policies and the related disclosures below have been reviewed with the Audit Committee of the Board of Directors. More information regarding significant accounting policies can be found in Note 1 to the Annual Consolidated Financial Statements filed with our Annual Report on Form 10-K for the fiscal year ended February 29, 2012.

Allowance for Doubtful Accounts - The carrying value of our accounts receivable is continually evaluated based on the likelihood of collection. An allowance is maintained for estimated losses resulting from our customers' inability to make required payments. The allowance is determined by historical experience of uncollected accounts, the level of past due accounts, overall level of outstanding accounts receivable, information about specific customers with

## **Table of Contents**

respect to their inability to make payments and future expectations of conditions that might impact the collectability of accounts receivable. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances could be required.

**Accruals for Contingent Liabilities** - The amounts we record for estimated claims, such as self insurance programs, warranty, environmental and other contingent liabilities, requires us to make judgments regarding the amount of expenses that will ultimately be incurred. We use past history and experience and other specific circumstances surrounding these claims in evaluating the amount of liability that should be recorded. Actual results may be different than what we estimate.

**Revenue Recognition** - Revenue is recognized for the Electrical and Industrial Products Segment upon transfer of title and risk to customers, or based upon the percentage of completion method of accounting for electrical products built to customer specifications under long term contracts. We typically recognize revenue for the Galvanizing Service Segment at completion of the service unless we specifically agree with the customer to hold its material for a predetermined period of time after the completion of the galvanizing process and, in that circumstance, we invoice and recognize revenue upon shipment. Customer advanced payments presented in the balance sheets arise from advanced payments received from our customers prior to shipment of the product and are not related to revenue recognized under the percentage of completion method. The extent of progress for revenue recognized using the percentage of completion method is measured by the ratio of contract costs incurred to date to total estimated contract costs at completion. Contract costs include direct labor and material and certain indirect costs. Selling, general and administrative costs are charged to expense as incurred. Provisions for estimated losses, if any, on uncompleted contracts are made in the period in which such losses are able to be determined. The assumptions made in determining the estimated cost could differ from actual performance resulting in a different outcome for profits or losses than anticipated.

**Impairment of Long-Lived Assets, Identifiable Intangible Assets and Goodwill** - We record impairment losses on long-lived assets, including identifiable intangible assets, when events and circumstances indicate that the assets might be impaired and the undiscounted projected cash flows associated with those assets are less than the carrying amounts of those assets. In those situations, impairment losses on long-lived assets are measured based on the excess of the carrying amount over the asset's fair value, generally determined based upon discounted estimates of future cash flows. A significant change in events, circumstances or projected cash flows could result in an impairment of long-lived assets, including identifiable intangible assets. An annual impairment test of goodwill is performed in the fourth quarter of each fiscal year. The test is calculated using the anticipated future cash flows after tax from our operating segments. Based on the present value of the future cash flows, we will determine whether impairment may exist. A significant change in projected cash flows or cost of capital for future years could result in an impairment of goodwill in future years. Variables impacting future cash flows include, but are not limited to, the level of customer demand for and response to products and services we offer to the power generation market, the electrical transmission and distribution markets, the general industrial market and the hot dip galvanizing market, changes in economic conditions of these various markets, raw material and natural gas costs and availability of experienced labor and management to implement our growth strategies. Our testing concludes goodwill is not reasonably likely to be impaired.

**Accounting for Income Taxes** - We account for income taxes under the asset and liability method. The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in our financial statements or tax returns. Deferred tax assets are reduced by a valuation allowance if it is more likely than not that some portion or all of the deferred tax asset will not be realized. We recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than a 50% likelihood of being realized upon ultimate settlement. Developing our provision for income taxes requires significant judgment and expertise in federal and state income tax laws, regulations and strategies, including the determination of deferred tax assets and liabilities and, if necessary, any valuation allowances that may be required for deferred tax assets. Our judgments and tax strategies are subject to audit by various taxing authorities.

## **Table of Contents**

**Stock Options, Stock Appreciation Rights and Restricted Stock Units** - Our employees and directors are periodically granted restricted stock units, stock options or stock appreciation rights by the Compensation Committee of the Board of Directors. The compensation cost of all employee stock-based compensation awards is measured based on the grant-date fair value of those awards and that cost is recorded as compensation expense over the period during which the employee is required to perform service in exchange for the award (generally over the vesting period of the award).

The valuation of stock based compensation awards, with the exception of restricted stock units, is complex in that there are a number of variables included in the calculation of the value of the award:

Volatility of our stock price

Expected term of the option

Expected dividend yield

Risk-free interest rate over the expected term

Expected forfeitures

We have elected to use a Black-Scholes pricing model in the valuation of our stock options and stock appreciation rights. Restricted stock units are valued at the stock price on the date of grant.

These variables are developed using a combination of our internal data with respect to stock price volatility and exercise behavior of option holders and information from outside sources. The development of each of these variables requires a significant amount of judgment. Changes in the values of the above variables would result in different option valuations and, therefore, different amounts of compensation cost.

### *New Accounting Pronouncements*

In September 2011, the FASB issued new guidance regarding the Testing Goodwill for Impairment. This update is intended to simplify goodwill impairment testing by adding an optional qualitative review step to assess whether the required quantitative impairment analysis that exists under current GAAP is necessary. Under the amended rule, a company will not be required to calculate the fair value of a reporting unit that contains recorded goodwill unless it concludes, based on the qualitative assessment, that it is more likely than not (a likelihood of more than 50 percent) that the fair value of that reporting unit is less than its book value. If such a decline in fair value is deemed more likely than not to have occurred, then the quantitative goodwill impairment test that exists under current GAAP must be completed. If not, goodwill is deemed not impaired and no further testing is required until the next annual test date, unless conditions or events before that date raise concerns of potential impairment. The amended goodwill impairment guidance does not affect the manner in which a company estimates fair value. This guidance is effective for the Company for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. We adopted this guidance for our fiscal year beginning March 1, 2012. The adoption of this standard had no material impact on our consolidated financial statements.

**Table of Contents**

**Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

Market risk affecting our operations results primarily from changes in interest rates and commodity prices. We have only limited involvement with derivative financial instruments and are not a party to any leveraged derivatives.

In the Electrical and Industrial Products Segment, we have exposure to commodity pricing for copper, aluminum, and steel. Increases in price for these items are normally managed through escalation clauses in our customers' contracts, although during difficult market conditions customers may resist these escalation clauses. In addition, we look to get firm pricing contracts from our vendors on material at the time we receive orders from our customers to minimize risk. We manage our exposures to commodity prices, primarily zinc used in our Galvanizing Services Segment, by utilizing agreements with zinc suppliers that include protective caps and fixed contracts to guard against escalating commodity prices. We believe these agreements ensure adequate supplies and partially offset exposure to commodity price swings.

The Company has exposure to foreign currency exchange related to our Canadian operations.

We do not believe that a hypothetical change of 10% of the interest rate currently in effect or a change of 10% of commodity prices would have a significantly adverse effect on our results of operations, financial position, or cash flows as long as we are able to pass along the increases in commodity prices to our customers. However, there can be no assurance that either interest rates or commodity prices will not change in excess of the 10% hypothetical amount, which could have an adverse effect on our results of operations, financial position, and cash flows if we are unable to pass along these increases to our customers.

**Item 4. Controls and Procedures.**

We performed an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15 and 15d-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that our disclosure controls and procedures were effective as of that date to ensure that information required to be disclosed by us in our reports filed or submitted under the Exchange Act is (a) accumulated and communicated to our management, including our principal executive and financial officers, as appropriate to allow timely discussions regarding required disclosure and (b) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

There have been no significant changes in our internal control over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

While we believe that our existing disclosure controls and procedures have been effective to accomplish their objectives, we intend to continue to examine, refine and document our disclosure controls and procedures and to monitor ongoing developments in this area. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected.

**PART II. OTHER INFORMATION**

**Item 1. Legal Proceedings.**

We are involved from time to time in various suits and claims arising in the normal course of business. In management's opinion, the ultimate resolution of these matters will not have a material effect on our financial position or results of operations.

**Item 1A. Risk Factors.**

There have been no material changes in the risk factors disclosed under Part I, Item 1A of our Annual Report on Form 10-K for the year ended February 29, 2012.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

The Company's board of directors has authorized the repurchase of 2,500,000 shares of the Company's outstanding common stock, par value \$0.10 per share. The decision to repurchase shares under this authorization will be based on market conditions and other factors at the time of the purchase. Repurchases under the share repurchase program will be made through open market purchases or private transactions, in accordance with applicable federal securities laws, including Rule 10b-18 under the Securities Exchange Act of 1934, as amended.

As of August 31, 2012, no shares have been repurchased by the Company under this authorization.

**Item 3. Defaults Upon Senior Securities. None.**

**Item 4. Mine Safety Disclosures. None,**

**Item 5. Other Information.**

**Item 6. Exhibits.**

Exhibits Required by Item 601 of Regulation S-K.

A list of the exhibits required by Item 601 of Regulation S-K and filed as part of this report is set forth in the Index to Exhibits on page 26, which immediately precedes such exhibits.
