QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2014

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 0-4887

UMB FINANCIAL CORPORATION

(Exact name of registrant as specified in its charter)

Edgar Filing: UMB FINANCIAL CORP - Form 10-Q

Missouri
(State or other jurisdiction of
incorporation or organization)

43-0903811
(I.R.S. Employer
Identification Number)

1010 Grand Boulevard, Kansas City, Missouri
(Address of principal executive offices)

64106
(ZIP Code)

(Registrant's telephone number, including area code): (816) 860-7000

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company
Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock as of the latest practicable date.

As of April 25, 2014, UMB Financial Corporation had 45,438,349 shares of common stock outstanding.

Table of Contents**UMB FINANCIAL CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****FOR THE THREE MONTHS ENDED MARCH 31, 2014 (UNAUDITED)****1. Financial Statement Presentation**

The condensed consolidated financial statements include the accounts of UMB Financial Corporation and its subsidiaries (collectively, the Company) after elimination of all intercompany transactions. In the opinion of management of the Company, all adjustments, which were of a normal recurring nature and necessary for a fair presentation of the financial position and results of operations, have been made. The results of operations and cash flows for the interim periods presented may not be indicative of the results of the full year. The financial statements should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations within this Form 10-Q filing and in conjunction with the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

2. Summary of Significant Accounting Policies

The Company is a financial holding company, which offers a wide range of banking and other financial services to its customers through its branches and offices in the states of Missouri, Kansas, Colorado, Illinois, Oklahoma, Texas, Arizona, Nebraska, Pennsylvania, South Dakota, Indiana, Utah, and Wisconsin. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. These estimates and assumptions also impact reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. A summary of the significant accounting policies to assist the reader in understanding the financial presentation is listed in the Notes to Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

Interest-bearing Due From Banks

Amounts due from the Federal Reserve Bank which are interest-bearing for all periods presented, and amounts due from certificates of deposits issued by other financial institutions are included in interest-bearing due from banks. The amounts due from certificates of deposit totaled \$82.9 million and \$22.9 million at March 31, 2014 and March 31, 2013, respectively.

This table provides a summary of cash and cash equivalents as presented on the Consolidated Statement of Cash Flows as of March 31, 2014 and March 31, 2013 (in thousands):

	March 31,	
	2014	2013
Due from the Federal Reserve	\$ 684,947	\$ 1,608,279
Cash and due from banks	593,956	319,535
Cash and cash equivalents at end of period	\$ 1,278,903	\$ 1,927,814

Per Share Data

Basic income per share is computed based on the weighted average number of shares of common stock outstanding during each period. Diluted income per share includes the dilutive effect of 640,622 and 418,210 shares issuable upon the exercise of stock options granted by the Company at March 31, 2014 and 2013, respectively.

Options issued under employee benefit plans to purchase 258,254 and 280,611 shares of common stock were outstanding at March 31, 2014 and 2013, respectively, but were not included in the computation of diluted EPS because the options were anti-dilutive.

UMB FINANCIAL CORPORATION

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

FOR THE THREE MONTHS ENDED MARCH 31, 2014 (UNAUDITED)

3. New Accounting Pronouncements

Investment Companies In June 2013, the FASB issued ASU No. 2013-08, Amendments to the Scope, Measurement, and Disclosure Requirements for investment companies. The amendments changed the assessment of whether an entity is an investment company by requiring an entity to possess certain fundamental characteristics, while allowing judgment in assessing other typical characteristics. The ASU was effective January 1, 2014, and the Company did not change the status of any subsidiary, or the accounting applied to a subsidiary, under the new guidelines.

Accounting for Investments in Qualified Affordable Housing Projects In January 2014, the FASB issued ASU No. 2014-01, Accounting for Investments in Qualified Affordable Housing Projects. The amendments permit reporting entities to make an accounting policy election to account for their investments in qualified affordable housing projects using the proportional amortization method if certain conditions are met. Regardless of whether the reporting entity chooses to elect the proportional amortization method, this ASU introduces new recurring disclosures about all investments in qualified affordable housing projects. The ASU is effective for interim and annual reporting periods beginning after December 15, 2014. The adoption of this accounting pronouncement will not have a significant impact on the Company's financial statements or financial statement disclosures.

Reclassification of Residential Real Estate Loans In January 2014, the FASB issued ASU No. 2014-04, Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans upon Foreclosure. The amendment is intended to reduce diversity in practice by clarifying when an in substance repossession or foreclosure occurs, that is, when a creditor should be considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loans such that the loan receivable should be derecognized and the real stated property recognized. The amendments in this update are effective for interim and annual periods beginning after December 15, 2014. The adoption of this accounting pronouncement will not have a significant impact on the Company's financial statements.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

FOR THE THREE MONTHS ENDED MARCH 31, 2014 (UNAUDITED)

4. Loans and Allowance for Loan Losses

Loan Origination/Risk Management

The Company has certain lending policies and procedures in place that are designed to minimize the level of risk within the loan portfolio. Diversification of the loan portfolio manages the risk associated with fluctuations in economic conditions. The Company maintains an independent loan review department that reviews and validates the risk assessment on a continual basis. Management regularly evaluates the results of the loan reviews. The loan review process complements and reinforces the risk identification and assessment decisions made by lenders and credit personnel, as well as the Company's policies and procedures.

Commercial loans are underwritten after evaluating and understanding the borrower's ability to operate profitably and prudently expand its business. Commercial loans are made based on the identified cash flows of the borrower and on the underlying collateral provided by the borrower. The cash flows of the borrower, however, may not be as expected and the collateral securing these loans may fluctuate in value. Most commercial loans are secured by the assets being financed or other business assets such as accounts receivable or inventory and may incorporate a personal guarantee. In the case of loans secured by accounts receivable, the availability of funds for the repayment of these loans may be substantially dependent on the ability of the borrower to collect amounts from its customers. Commercial credit cards are generally unsecured and are underwritten with criteria similar to commercial loans including an analysis of the borrower's cash flow, available business capital, and overall credit-worthiness of the borrower.

Commercial real estate loans are subject to underwriting standards and processes similar to commercial loans, in addition to those of real estate loans. These loans are viewed primarily as cash flow loans and secondarily as loans secured by real estate. Commercial real estate lending typically involves higher loan principal amounts, and the repayment of these loans is largely dependent on the successful operation of the property securing the loan or the business conducted on the property securing the loan. The Company requires an appraisal of the collateral be made at origination and on an as-needed basis, in conformity with current market conditions and regulatory requirements. The underwriting standards address both owner and non-owner occupied real estate.

Construction loans are underwritten using feasibility studies, independent appraisal reviews, sensitivity analysis or absorption and lease rates and financial analysis of the developers and property owners. Construction loans are based upon estimates of costs and value associated with the complete project. Construction loans often involve the disbursement of substantial funds with repayment substantially dependent on the success of the ultimate project. Sources of repayment for these types of loans may be pre-committed permanent loans from approved long-term borrowers, sales of developed property or an interim loan commitment from the Company until permanent financing is obtained. These loans are closely monitored by on-site inspections and are considered to have higher risks than other real estate loans due to their repayment being sensitive to interest rate changes, governmental regulation of real property, economic conditions, and the availability of long-term financing.

Underwriting standards for residential real estate and home equity loans are based on the borrower's loan-to-value percentage, collection remedies, ability to repay, and overall credit history.

Consumer loans are underwritten based on the borrower's repayment ability. The Company monitors delinquencies on all of its consumer loans and leases and periodically reviews the distribution of FICO scores relative to historical periods to monitor credit risk on its credit card loans. The underwriting and review practices combined with the relatively small loan amounts that are spread across many individual borrowers, minimizes risk. Consumer loans and leases that are 90 days past due or more are considered non-performing.

UMB FINANCIAL CORPORATION

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

FOR THE THREE MONTHS ENDED MARCH 31, 2014 (UNAUDITED)

This table provides a summary of loan classes and an aging of past due loans at March 31, 2014 and December 31, 2013 (*in thousands*):

	March 31, 2014
	30-89 Days Past Due and Accruing
•	"control share" provisions that provide that "control shares" of our company (defined as voting shares that, when aggregated with other shares controlled by the shareholder, entitle the shareholder to exercise one of three increasing ranges of voting power in electing trustees) acquired in a "control share acquisition" (defined as the direct or indirect

acquisition
of ownership
or control of
issued and
outstanding
"control
shares") have
no voting
rights except
to the extent
approved by
our
shareholders
by the
affirmative
vote of at
least
two-thirds of
all the votes
entitled to be
cast on the
matter,
excluding all
interested
shares.

As permitted by Maryland law, we have elected, by resolution of our board of trustees, to opt out of the business combination provisions of the MGCL and that resolution may not be repealed absent the approval by our shareholders, however, there can be no assurance that the resolution adopted by the board will not be amended or eliminated at some time in the future. Pursuant to a provision in our bylaws, we have elected to exempt any acquisition of our shares from the control share provisions of the MGCL and our bylaws prohibit the repeal, amendment or alteration of this provision without the approval by our shareholders; however, there can be no assurance that this provision will not be amended or eliminated at some time in the future.

Certain provisions of the MGCL applicable to Maryland real estate investment trusts permit our board of trustees, without shareholder approval and regardless of what is currently provided in our declaration of trust or bylaws, to adopt certain mechanisms, some of which (for example, a classified board) we do not have. These provisions may have the effect of limiting or precluding a third party from making an acquisition proposal for us or of delaying, deferring or preventing a change in our control under circumstances that otherwise could provide the holders of our common shares with the opportunity to realize a premium over the then current market price. Our board of trustees has resolved to opt out of these "unsolicited takeover" provisions of Maryland law, and that resolution may not be repealed absent the approval by our shareholders; however, there can be no assurance that the resolution adopted by our board of trustees will not be amended or eliminated at some point in the future.

Certain advance notice provisions of our bylaws inhibit changes in control.

Our bylaws provide that (a) with respect to an annual meeting of shareholders, nominations of individuals for election to our board of trustees and the proposal of other business to be considered by shareholders may be made only (i) pursuant to our notice of the meeting, (ii) by the board of trustees or (iii) by a shareholder who was a shareholder of record at the time of the notice of the meeting and at the time of the annual meeting, who is entitled to vote at the meeting and has complied with the advance notice procedures set forth in the bylaws and (b) with respect to special meetings of shareholders, only the business specified in our notice of meeting may be brought before the meeting of shareholders and nominations of individuals for election to the board of trustees may be made only (A) pursuant to our notice of the meeting, (B) by the board of trustees or (C) provided that the board of trustees has determined that directors shall be elected at such meeting, by a shareholder who was a shareholder of record at the time of the notice

of the meeting and at the time of the special meeting, who is entitled to vote at the meeting and has complied with the advance notice provisions set forth in the bylaws. These advance notice provisions may have the effect of delaying, deferring or preventing a transaction or a change in control of our company that might involve a premium to the market price of our common stock or otherwise be in our shareholders' best interests.

Termination of the employment agreements with our executive officers could be costly and prevent a change in our control.

The employment agreements that we entered into with each of our executive officers provide that, if their employment with us terminates under certain circumstances (including upon a change in our control), we are required to pay them significant amounts of severance compensation, including accelerated vesting of equity awards, thereby making it costly to terminate their employment. Furthermore, these provisions could delay or prevent a transaction or a change in our control that might involve a premium paid for our common shares or otherwise be in the best interests of our shareholders.

Table of Contents

Our declaration of trust contains provisions that make removal of our trustees difficult, which could make it difficult for our shareholders to effect changes to our management.

Our declaration of trust provides that, subject to the rights of holders of one or more classes or series of preferred shares to elect or remove one or more trustees, a trustee may be removed only for cause and only by the affirmative vote of holders of at least two-thirds of the votes entitled to be cast in the election of trustees and that our board of trustees has the exclusive power to fill vacant trusteeships, even if the remaining trustees do not constitute a quorum. These provisions make it more difficult to change our management by removing and replacing trustees and may delay or prevent a change in our control that is in the best interests of our shareholders.

We may change our operational policies, investment guidelines and our investment and growth strategies without shareholder consent, which may subject us to different and more significant risks in the future, which could materially and adversely affect us.

Our board of trustees determines our operational policies, investment guidelines and our investment and growth strategies. Our board of trustees may make changes to, or approve transactions that deviate from, those policies, guidelines and strategies without a vote of, or notice to, our shareholders. This could result in us conducting operational matters, making investments or pursuing different investment or growth strategies than those contemplated in this Annual Report on Form 10-K. Under any of these circumstances, we may expose ourselves to different and more significant risks in the future, which could materially and adversely affect us.

Our rights and the rights of our shareholders to take action against our trustees and officers are limited, which could limit our shareholders' recourse in the event of actions not in our shareholders' best interests.

Under Maryland law generally, a trustee is required to perform his or her duties in good faith, in a manner he or she reasonably believes to be in our best interest and with the care that an ordinarily prudent person in a like position would use under similar circumstances. Under Maryland law, trustees are presumed to have acted with this standard of care. In addition, our declaration of trust limits the liability of our trustees and officers to us and our shareholders for money damages, except for liability resulting from:

• actual receipt of an improper benefit or profit in money, property or services; or
• active and deliberate dishonesty by the trustee or officer that was established by a final judgment as being material to the cause of action adjudicated.

Our declaration of trust and bylaws obligate us, to the fullest extent permitted by Maryland law in effect from time to time, to indemnify and to pay or reimburse reasonable expenses in advance of final disposition of a proceeding to any present or former trustee or officer who is made or threatened to be made a party to the proceeding by reason of his or her service to us in that capacity. In addition, we may be obligated to advance the defense costs incurred by our trustees and officers. As a result, we and our shareholders may have more limited rights against our trustees and officers than might otherwise exist absent the current provisions in our declaration of trust and bylaws or that might exist with other companies.

If we fail to maintain an effective system of integrated internal controls, we may not be able to accurately report our financial results.

In connection with operating as a public company, we are required to provide reliable financial statements and reports to our shareholders. To monitor the accuracy and reliability of our financial reporting, we have established an internal audit function that oversees our internal controls. In addition, we have developed policies and procedures with respect to company-wide business processes and cycles in order to implement effective internal control over financial reporting. We have established, or caused our third-party hotel management companies to establish, controls and procedures designed to ensure that hotel revenues and expenses are properly recorded at our hotels. While we have undertaken substantial work to comply with Section 404 of the Sarbanes-Oxley Act of 2002, we cannot be certain that we will be successful in maintaining effective internal control over our financial reporting and may determine in the future that our existing internal controls need improvement. If we fail to comply with proper overall controls, we could be materially harmed or we could fail to meet our reporting obligations. In addition, the existence of a material weakness or significant deficiency in our internal controls could result in errors in our financial statements that could

require a restatement, cause us to fail to meet our reporting obligations, result in increased costs to remediate any deficiencies, attract regulatory scrutiny or lawsuits and cause investors to lose confidence in our reported financial information, leading to a substantial decline in the market price of our common shares.

Table of Contents

Risks Related to the Real Estate Industry

The illiquidity of real estate investments could significantly impede our ability to respond to changing economic, financial, and investment conditions or changes in the operating performance of our properties, which could adversely affect our cash flows and results of operations.

Real estate investments, including the focused-service and compact full-service hotels in our portfolio, are relatively illiquid. As a result, we may not be able to sell a hotel or hotels quickly or on favorable terms in response to changing economic, financial and investment conditions or changes in the hotel's operating performance when it otherwise may be prudent to do so. We cannot predict whether we will be able to sell any hotel we desire to sell for the price or on the terms set by us or whether any price or other terms offered by a prospective purchaser would be acceptable to us. We also cannot predict the length of time needed to find a willing purchaser and to close the sale of a hotel. We may be required to expend funds to correct defects or to make improvements before a hotel can be sold, and we cannot provide any assurances that we will have funds available to correct such defects or to make such improvements. Our inability to dispose of assets at opportune times or on favorable terms could adversely affect our cash flows and results of operations.

Moreover, the Code imposes restrictions on a REIT's ability to dispose of properties that are not applicable to other types of real estate companies. In particular, the tax laws applicable to REITs require that we hold our hotels for investment, rather than primarily for sale in the ordinary course of business, which may cause us to forego or defer sales of hotels that otherwise would be in our best interests. Therefore, we may not be able to vary our portfolio promptly in response to economic or other conditions or on favorable terms, which may adversely affect our cash flows, our ability to make distributions to shareholders and the market price of our common shares.

In addition, our ability to dispose of some of our hotels could be constrained by their tax attributes. Hotels that we own for a significant period of time or that we may acquire in the future through tax deferred contribution transactions in exchange for OP units in our operating partnership may have low tax bases. If we dispose of these hotels outright in taxable transactions, we may be required to distribute the taxable gain to our shareholders under the requirements of the Code applicable to REITs or to pay tax on that gain, either of which, in turn, would impact our cash flow and increase our leverage. In some cases, we may be restricted from disposing of properties contributed to us in the future in exchange for our OP units under tax protection agreements with contributors unless we incur additional costs related to indemnifying those contributors. To dispose of low basis or tax-protected hotels efficiently, we may from time to time use like-kind exchanges, which qualify for non-recognition of taxable gain, but can be difficult to consummate and result in the hotel for which the disposed assets are exchanged inheriting their low tax bases and other tax attributes.

Uninsured and underinsured losses at our hotels could materially and adversely affect us.

We maintain comprehensive insurance on each of our hotels and intend to maintain comprehensive insurance on any hotels that we acquire, including liability, fire and extended coverage, of the type and amount we believe are customarily obtained for or by hotel owners. There are no assurances that coverage will be available at reasonable rates. Various types of catastrophic losses, like windstorms, earthquakes and floods, losses from foreign terrorist activities such as those on September 11, 2001, or losses from domestic terrorist activities such as the Oklahoma City bombing on April 19, 1995, may not be insurable or may not be economically insurable. Even when insurable, these policies may have high deductibles and/or high premiums. Lenders may require such insurance and our failure to obtain such insurance could constitute a default under loan agreements, which could have a material adverse effect on us.

In the event of a substantial loss, our insurance coverage may not be sufficient to cover the full current market value or replacement cost of our lost investment. Should an uninsured loss or a loss in excess of insured limits occur, we could lose all or a portion of the capital we have invested in a hotel, as well as the anticipated future revenue from the hotel. In that event, we might nevertheless remain obligated for any mortgage debt or other financial obligations related to the hotel. Inflation, changes in building codes and ordinances, environmental considerations and other factors might also keep us from using insurance proceeds to replace or renovate a hotel after it has been damaged or destroyed.

Under those circumstances, the insurance proceeds we receive might be inadequate to restore our economic position on the damaged or destroyed hotel, which could have a material adverse effect on us.

In addition, insurance risks associated with potential acts of terrorism could sharply increase the premiums we pay for coverage against property and casualty claims. In many cases, mortgage lenders have begun to insist that commercial property owners purchase coverage against terrorism as a condition of providing mortgage loans. Such insurance policies may not be available at a reasonable cost, which could inhibit our ability to finance or refinance our hotels. In such instances, we may be required to provide other financial support, either through financial assurances or self-insurance, to cover potential losses. We may not have adequate coverage for such losses, which could have a material adverse effect on us.

Table of Contents

Compliance or failure to comply with the ADA and other safety regulations and requirements could result in substantial costs.

Under the ADA, all public accommodations must meet various federal requirements related to access and use by disabled persons. Compliance with the ADA's requirements could require removal of access barriers, and non-compliance could result in the U.S. government imposing fines or in private litigants winning damages. If we are required to make substantial modifications to the hotels that we acquire, whether to comply with the ADA or other changes in governmental rules and regulations, we could be materially and adversely affected.

Our hotels also are subject to various federal, state and local regulatory requirements, such as state and local fire and life safety requirements. If we fail to comply with these requirements, we could incur fines or private damage awards. If we incur substantial costs to comply with the ADA or other safety regulations and requirements, our financial condition, results of operations, the market price of our common shares, cash flows and our ability to satisfy our debt obligations and to make distributions to our shareholders could be adversely affected.

We could incur significant, material costs related to government regulation and litigation with respect to environmental matters, which could have a material adverse effect on us.

Our hotels are subject to various U.S. federal, state and local environmental laws that impose liability for contamination. Under these laws, governmental entities have the authority to require us, as the current owner of a hotel, to perform or pay for the clean-up of contamination (including hazardous substances, asbestos and asbestos-containing materials ("ACM"), waste or petroleum products) at, on, under or emanating from the hotel and to pay for natural resource damages arising from such contamination. Such laws often impose liability without regard to whether the owner or operator or other responsible party knew of, or caused such contamination, and the liability may be joint and several. Because these laws also impose liability on persons who owned or operated a property at the time it became contaminated, it is possible we could incur cleanup costs or other environmental liabilities even after we sell or no longer operate hotels. Contamination at, on, under or emanating from our hotels also may expose us to liability to private parties for costs of remediation and/or personal injury or property damage. In addition, environmental laws may create liens on contaminated sites in favor of the government for damages and costs it incurs to address such contamination. If contamination is discovered on our properties, environmental laws also may impose restrictions on the manner in which the properties may be used or businesses may be operated, and these restrictions may require substantial expenditures. Moreover, environmental contamination can affect the value of a property and, therefore, an owner's ability to borrow funds using the property as collateral or to sell the property on favorable terms or at all. Furthermore, persons who sent waste to a waste disposal facility, such as a landfill or an incinerator, may be liable for costs associated with cleanup of that facility.

In addition, our hotels are subject to various federal, state, and local environmental, health and safety laws and regulations that address a wide variety of issues, including, but not limited to, storage tanks, air emissions from emergency generators, storm water and wastewater discharges, lead-based paint, mold and mildew, and waste management. Some of our hotels routinely handle and use hazardous or regulated substances and wastes as part of their operations, which substances and wastes are subject to regulation (e.g., swimming pool chemicals). Our hotels incur costs to comply with these environmental, health and safety laws and regulations and could be subject to fines and penalties for non-compliance with applicable requirements.

Certain of our hotels contain, and those that we acquire in the future may contain, or may have contained ACM. Federal, state and local environmental, health and safety laws require that ACM be properly managed and maintained, and include requirements to undertake special precautions, such as removal or abatement, if ACM would be disturbed during maintenance, renovation or demolition of a building. Such laws regarding ACM may impose fines and penalties on building owners, employers and operators for failure to comply with these requirements. In addition, third parties may seek recovery from owners or operators for personal injury associated with exposure to asbestos-containing building materials.

When excessive moisture accumulates in buildings or on building materials, mold growth may occur, particularly if the moisture problem remains undiscovered or is not addressed over a period of time. Some molds may produce

airborne toxins or irritants. Indoor air quality issues can also stem from inadequate ventilation, chemical contamination from indoor or outdoor sources, and other biological contaminants such as pollen, viruses and bacteria. Indoor exposure to airborne toxins or irritants above certain levels can be alleged to cause a variety of adverse health effects and symptoms, including allergic or other reactions. As a result, the presence of significant mold or other airborne contaminants at any of our hotels could require us to undertake a costly remediation program to contain or remove the mold or other airborne contaminants from the affected property or increase indoor ventilation. In addition, the presence of significant mold or other airborne contaminants could expose us to liability to third parties if property damage or personal injury occurs.

Table of Contents

Liabilities and costs associated with environmental contamination at, on, under or emanating from our properties, defending against claims related to alleged or actual environmental issues, or complying with environmental, health and safety laws could be material and could materially and adversely affect us. We can make no assurances that changes in current laws or regulations or future laws or regulations will not impose additional or new material environmental liabilities or that the current environmental condition of our hotels will not be affected by our operations, the condition of the properties in the vicinity of our hotels, or by third parties unrelated to us. The discovery of material environmental liabilities at our properties could subject us to unanticipated significant costs, which could significantly reduce or eliminate our profitability and the cash available for distribution to our shareholders.

We face possible risks associated with the physical effects of climate change.

We cannot predict with certainty whether climate change is occurring and, if so, at what rate. However, the physical effects of climate change could have a material adverse effect on us. For example, many of our properties are located along the Gulf and East coasts. To the extent climate change causes changes in weather patterns, our markets could experience increases in storm intensity and rising sea-levels. Over time, these conditions could result in declining hotel demand or our inability to operate the affected hotels at all. Climate change also may have indirect effects on our business by increasing the cost of (or making unavailable) property insurance on terms we find acceptable, increasing the cost of energy and increasing the cost of snow removal at our properties. There can be no assurance that climate change will not have a material adverse effect on us.

We may from time to time be subject to litigation that could expose us to uncertain or uninsured costs.

As owners of hotel properties, we may from time to time face potential claims, litigation and threatened litigation from guests, visitors to our properties, contractors, sub-contractors and others. These claims and proceedings are inherently uncertain and their costs and outcomes cannot be predicted with certainty. Some of these claims may result in defense costs, settlements, fines or judgments against us, some of which are not, or cannot be, covered by insurance. Payment of any such costs, settlements, fines or judgments that are not insured could have a material adverse impact on our financial position and results of operations. In addition, certain litigation or the resolution of certain litigation may affect the availability or cost of some of our insurance coverage, which could adversely impact our results of operations and cash flows, expose us to increased risks that would be uninsured, and/or adversely impact our ability to attract officers and trustees.

Risks Related to Our Status as a REIT

Qualifying as a REIT involves highly technical and complex provisions of the Code.

Our qualification as a REIT involves the application of highly technical and complex Code provisions for which only limited judicial and administrative authorities exist. Even a technical or inadvertent violation could jeopardize our REIT qualification. Moreover, new legislation, court decisions or administrative guidance, in each case possibly with retroactive effect, may make it more difficult or impossible for us to qualify as a REIT. Maintaining our qualification as a REIT will depend on our satisfaction of certain asset, income, organizational, distribution, shareholder ownership and other requirements on a continuing basis. Our ability to satisfy the REIT income and asset tests depends upon our analysis of the characterization and fair market values of our assets, some of which are not susceptible to a precise determination and for which we will not obtain independent appraisals, and upon our ability to successfully manage the composition of our income and assets on an ongoing basis. In addition, our ability to satisfy the requirements to maintain our qualification as a REIT depends in part on the actions of third parties over which we have no control or only limited influence, including in some cases where we own an equity interest in an entity that is classified as a partnership for U.S. federal income tax purposes.

Legislative or regulatory tax changes related to REITs could materially and adversely affect us.

There are a number of issues associated with an investment in a REIT that are related to the federal income tax laws, including, but not limited to, the consequences of a company's failing to qualify or to continue to qualify as a REIT and the tax rates applicable to REITs and their shareholders. At any time, the federal income tax laws governing REITs or the administrative interpretations of those laws may be amended or modified. Any new laws or

interpretations may take effect retroactively and could materially and adversely affect us. For example, several REIT rules were recently amended under the Protecting Americans from Tax Hikes Act of 2015, which was enacted on December 18, 2015. These rules were enacted with varying effective dates, some of which are retroactive.

Table of Contents

If we do not qualify as a REIT or if we fail to remain qualified as a REIT, we will be subject to U.S. federal income tax and potentially state and local taxes, which would reduce our earnings and the amount of cash available for distribution to our shareholders.

We have been organized, operate, and intend to continue to operate, in a manner that will enable us to qualify as a REIT for U.S. federal income tax purposes commencing with the taxable year ended December 31, 2011 and thereafter. Our qualification as a REIT depends on our satisfaction of the requirements described above under "—Qualifying as a REIT involves highly technical and complex provisions of the Code."

If we were to fail to qualify as a REIT in any taxable year and any available relief provisions do not apply, we would be subject to U.S. federal and state corporate income tax, including any applicable alternative minimum tax, on our taxable income at regular corporate rates, and dividends paid to our shareholders would not be deductible by us in computing our taxable income. Unless we were entitled to statutory relief under certain Code provisions, we also would be disqualified from taxation as a REIT for the four taxable years following the year in which we failed to qualify as a REIT.

Any determination that we do not qualify as a REIT would have a material adverse effect on our results of operations and could materially reduce the value of our common shares. Our additional tax liability could be substantial and would reduce our net earnings available for investment, debt service or distributions to shareholders. Furthermore, we would no longer be required to make any distributions to shareholders as a condition to REIT qualification and all of our distributions to shareholders would be taxable as ordinary C corporation dividends to the extent of our current and accumulated earnings and profits. This means that our shareholders currently taxed as individuals would be taxed on those dividends at capital gain rates and our corporate shareholders generally would be entitled to the dividends received deduction with respect to such dividends, subject in each case, to applicable limitations under the Code. Our failure to qualify as a REIT also could cause an event of default under loan documents governing our debt.

REIT distribution requirements could adversely affect our ability to execute our business plan or cause us to finance our needs during unfavorable market conditions.

We generally must distribute annually at least 90% of our REIT taxable income, subject to certain adjustments and excluding any net capital gain, in order for U.S. federal corporate income tax not to apply to earnings that we distribute. To the extent that we satisfy this distribution requirement but distribute less than 100% of our taxable income, we will be subject to U.S. federal corporate income tax on our undistributed taxable income. In addition, we will be subject to a 4% nondeductible excise tax if the actual amount that we pay out to our shareholders in a calendar year is less than a minimum amount specified under U.S. federal tax laws. We intend to make distributions to our shareholders to comply with the REIT requirements of the Code.

From time to time, we may generate taxable income greater than our income for financial reporting purposes prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). In addition, differences in timing between the recognition of taxable income and the actual receipt of cash may occur. As a result, we may find it difficult or impossible to meet distribution requirements in certain circumstances. In particular, where we experience differences in timing between the recognition of taxable income and the actual receipt of cash, the requirement to distribute a substantial portion of our taxable income could cause us to: (1) sell assets in adverse market conditions; (2) incur debt or issue additional equity on unfavorable terms; (3) distribute amounts that would otherwise be invested in future acquisitions, capital expenditures or repayment of debt; or (4) make a taxable distribution of our common shares as part of a distribution in which shareholders may elect to receive our common shares or (subject to a limit measured as a percentage of the total distribution) cash, in order to comply with REIT requirements. These alternatives could increase our costs or dilute our equity. In addition, because the REIT distribution requirement prevents us from retaining earnings, we generally will be required to refinance debt at its maturity with additional debt or equity. Thus, compliance with the REIT requirements may hinder our ability to grow, which could adversely affect the market price of our common shares.

Dividends payable by REITs do not qualify for the reduced tax rates available for some dividends.

For taxable years beginning on or after January 1, 2013, the maximum tax rate applicable to "qualified dividends" paid to U.S. shareholders that are individuals, trusts and estates is 23.8% (taking into account the 3.8% Medicare tax applicable to net investment income). Dividends payable by REITs, however, generally are not eligible for the reduced rates and will continue to be subject to tax at rates applicable to ordinary income, which will be as high as 43.4% (taking into account the 3.8% Medicare tax applicable to net investment income). The more favorable tax rates applicable to regular corporate qualified dividends could cause investors who are individuals, trusts and estates to perceive investments in REITs to be relatively less attractive than investments in the shares of non-REIT corporations that pay dividends, which could adversely affect the value of the shares of REITs, including our common shares.

Table of Contents

Even if we qualify as a REIT, we may face other tax liabilities that reduce our cash flow.

Even if we qualify for taxation as a REIT, we may be subject to certain U.S. federal, state and local taxes, including payroll taxes, taxes on any undistributed income, taxes on income from some activities conducted as a result of a foreclosure, a 100% excise tax on any transactions with a TRS that are not conducted on an arm's-length basis, and state or local income, property and transfer taxes. In addition, we could, in certain circumstances, be required to pay an excise or penalty tax (which could be significant in amount) in order to utilize one or more relief provisions under the Code to maintain our qualification as a REIT. In addition, our TRSs will be subject to U.S. federal, state and local corporate income taxes on their net taxable income, if any. To the extent that we conduct operations outside of the United States, our operations would subject us to applicable foreign taxes, as well. Any of these taxes would decrease cash available for the payment of our debt obligations and distributions to shareholders.

If our leases are not respected as true leases for federal income tax purposes, we would likely fail to qualify as a REIT. To qualify as a REIT, we must satisfy two gross income tests, pursuant to which specified percentages of our gross income must be passive income, such as rent. For the rent paid pursuant to the hotel leases with our TRSs, which we currently expect will continue to constitute substantially all of our gross income, to qualify for purposes of the gross income tests, the leases must be respected as true leases for federal income tax purposes and must not be treated as service contracts, joint ventures or some other type of arrangement. We believe that the leases will be respected as true leases for federal income tax purposes. There can be no assurance, however, that the IRS will agree with this characterization. If the leases were not respected as true leases for federal income tax purposes, we would not be able to satisfy either of the two gross income tests applicable to REITs and would likely lose our REIT status.

Rents paid to us by each of our TRSs may not be based on the net income or profits of any person, or they would not be treated as "rents from real property," in which case we would likely fail to qualify for taxation as a REIT. We receive "percentage rents" calculated based on the gross revenues of the hotels subject to leases with our TRSs, but not on net income or profits. We believe our leases have customary terms and rents, reflect normal business practices and do not provide for rent based on net income or profits, but there can be no assurance the IRS will agree. While it would not affect our REIT status, the IRS could adjust rents related to our leases which would cause us to incur a 100% excise tax on the potential adjustment.

If our TRSs fail to qualify as "taxable REIT subsidiaries" under the Code, we would likely fail to qualify as a REIT. Rent paid by a lessee that is a "related party tenant" will not be qualifying income for purposes of the two gross income tests applicable to REITs. We lease and expect to continue to lease substantially all of our hotels to our TRSs, which will not be treated as "related party tenants" so long as they qualify as "taxable REIT subsidiaries" under the Code. To qualify as such, most significantly, a taxable REIT subsidiary cannot engage in the operation or management of hotels. We believe that our TRSs will qualify to be treated as taxable REIT subsidiaries for federal income tax purposes. There can be no assurance, however, that the IRS will not challenge the status of a TRS for federal income tax purposes or that a court would not sustain such a challenge. If the IRS were successful in disqualifying any of our TRSs from treatment as a taxable REIT subsidiary, it is likely that we would fail to meet the asset tests applicable to REITs and substantially all of our income would fail to qualify for the gross income tests. If we failed to meet either the asset tests or the gross income tests, we would likely lose our REIT status.

If any hotel management companies that we engage do not qualify as "eligible independent contractors," or if our hotels are not "qualified lodging facilities," we would likely fail to qualify as a REIT.

Rent paid by a lessee that is a "related party tenant" of ours generally will not be qualifying income for purposes of the two gross income tests applicable to REITs. An exception is provided, however, for leases of "qualified lodging facilities" to a TRS so long as the hotels are managed by an "eligible independent contractor" and certain other requirements are satisfied. We lease and expect to lease all or substantially all of our hotels to TRS lessees, which are disregarded subsidiaries of the TRSs, and to engage hotel management companies that are intended to qualify as "eligible independent contractors." Among other requirements, in order to qualify as an eligible independent contractor, the hotel management company must not own, directly or through its shareholders, more than 35% of our outstanding shares, and no person or group of persons can own more than 35% of our outstanding shares and the

shares (or ownership interest) of the hotel management company (taking into account certain ownership attribution rules and, with respect to our shares and the outstanding shares of any publicly traded hotel management company, only the shares owned by persons who own, directly or indirectly, more than 5% of a publicly traded class of shares). The ownership attribution rules that apply for purposes of these 35% thresholds are complex, and monitoring actual and constructive ownership of our shares by the hotel management companies and their owners may not be practical. Accordingly, there can be no assurance that these ownership levels will not be exceeded.

In addition, for a hotel management company to qualify as an eligible independent contractor, such company or a related person must be actively engaged in the trade or business of operating "qualified lodging facilities" (as defined below) for one or more persons not related to the REIT or its TRSs at each time that such company enters into a hotel management contract with

Table of Contents

a TRS or its TRS lessee. As of the date hereof, we believe the hotel management companies operate qualified lodging facilities for certain persons who are not related to us or our TRS. However, no assurances can be provided that this will continue to be the case or that any other hotel management companies that we may engage in the future will in fact comply with this requirement in the future. Failure to comply with this requirement would require us to find other managers for future contracts, and, if we hired a management company without knowledge of the failure, it could jeopardize our status as a REIT.

Finally, each hotel with respect to which our TRS lessees pay rent must be a "qualified lodging facility." A "qualified lodging facility" is a hotel, motel, or other establishment more than one-half of the dwelling units in which are used on a transient basis, including customary amenities and facilities, provided that no wagering activities are conducted at or in connection with such facility by any person who is engaged in the business of accepting wagers and who is legally authorized to engage in such business at or in connection with such facility. As of the date hereof, we believe that all of the hotels leased to our TRS lessees will be qualified lodging facilities. Although we intend to monitor future acquisitions and improvements of hotels, the REIT provisions of the Code provide only limited guidance for making determinations under the requirements for qualified lodging facilities, and there can be no assurance that these requirements will be satisfied in all cases.

Our ownership of taxable REIT subsidiaries is limited, and our transactions with our taxable REIT subsidiaries will cause us to be subject to a 100% penalty tax on certain income or deductions if those transactions are not conducted on arm's length terms.

A REIT may own up to 100% of the stock of one or more taxable REIT subsidiaries. A taxable REIT subsidiary may hold assets and earn income that would not be qualifying assets or income if held or earned directly by a REIT. Both the subsidiary and the REIT must jointly elect to treat the subsidiary as a taxable REIT subsidiary. A corporation of which a taxable REIT subsidiary directly or indirectly owns more than 35% of the voting power or value of the stock will automatically be treated as a taxable REIT subsidiary. Overall, no more than 25% (20% for taxable years beginning after December 31, 2017) of the value of a REIT's assets may consist of stock or securities of one or more taxable REIT subsidiaries. In addition, the rules applicable to taxable REIT subsidiaries limit the deductibility of interest paid or accrued by a taxable REIT subsidiary to its parent REIT to assure that the taxable REIT subsidiary is subject to an appropriate level of corporate taxation. The rules also impose a 100% excise tax on "redetermined rent," "redetermined deductions," "excess interest" or, effective for taxable years beginning after December 31, 2015, "redetermined TRS service income" to the extent rent paid by a taxable REIT subsidiary exceeds an arm's-length amount.

Our TRSs will pay U.S. federal, state and local income taxes on their net taxable income, and their after-tax net income will be available for distribution to us but is not required to be distributed. We anticipate that the aggregate value of the stock and securities of our TRSs will be less than 25% (20% for taxable years beginning after December 31, 2017) of the value of our total assets (including the stock and securities of our TRSs). Furthermore, we will monitor the value of our respective investments in our TRSs for the purpose of ensuring compliance with the ownership limitations applicable to taxable REIT subsidiaries. In addition, we will scrutinize all of our transactions with our TRSs to ensure that they are entered into on arm's-length terms to avoid incurring the 100% excise tax described above. There can be no assurance, however, that we will be able to comply with the TRS limitation discussed above or to avoid application of the 100% excise tax discussed above. While we believe our leases have customary terms and reflect normal business practices and that the rents paid thereto reflect market terms, there can be no assurance that the IRS will agree.

Complying with REIT requirements may force us to forgo and/or liquidate otherwise attractive investment opportunities.

To qualify as a REIT, we must ensure that we meet the REIT gross income tests annually and that at the end of each calendar quarter, at least 75% of the value of our assets consists of cash, cash items, government securities and qualified real estate assets. The remainder of our investment in securities (other than government securities and qualified real estate assets) generally cannot include more than 10% of the outstanding voting securities of any one

issuer or more than 10% of the total value of the outstanding securities of any one issuer. In addition, in general, no more than 5% of the value of our assets (other than government securities and qualified real estate assets) can consist of the securities of any one issuer, and no more than 25% (20% for taxable years beginning after December 31, 2017) of the value of our total assets can be represented by securities of one or more taxable REIT subsidiaries. If we fail to comply with these requirements at the end of any calendar quarter, we must correct the failure within 30 days after the end of the calendar quarter or qualify for certain statutory relief provisions to avoid losing our REIT qualification and suffering adverse tax consequences. As a result, we may be required to liquidate from our portfolio, or contribute to a taxable REIT subsidiary, otherwise attractive investments in order to maintain our qualification as a REIT. These actions could have the effect of reducing our income and amounts available for distribution to our shareholders. In addition, we may be required to make distributions to shareholders at disadvantageous times or when we do not have funds readily available for distribution, and may be unable to pursue investments that would otherwise be advantageous to us in order to satisfy the source of income or asset diversification requirements for qualifying as a REIT. Thus, compliance with the REIT requirements may hinder our ability to make, and, in certain cases, maintain ownership of, certain attractive investments.

Table of Contents

Our TRS may be limited in using certain tax benefits.

If a corporation undergoes an "ownership change" within the meaning of Section 382 of the Code and the Treasury Regulations thereunder, such corporation's ability to use net operating losses ("NOLs"), generated prior to the time of that ownership change may be limited. To the extent the affected corporation's ability to use NOLs is limited, such corporation's taxable income may increase. As of December 31, 2015, we had approximately \$134.6 million of NOLs (all of which are attributable to our TRS) which will begin to expire in 2028 for federal tax purposes and during the period from 2018 to 2028 for state tax purposes if not utilized. An ownership change within the meaning of Section 382 of the Code with respect to the REIT's TRS occurred during the 2012 and 2013 tax years. Accordingly, to the extent our TRS has taxable income in future years, its ability to use NOLs incurred prior to these ownership changes in such future years will be limited, and it may have greater taxable income as a result of such limitation.

Complying with REIT requirements may limit our ability to hedge effectively and may cause us to incur tax liabilities.

The REIT provisions of the Code may limit our ability to hedge our assets and operations. Under these provisions, any income that we generate from transactions intended to hedge our interest rate risk will be excluded from gross income for purposes of the REIT 75% and 95% gross income tests if the instrument hedges interest rate risk on liabilities used to carry or acquire real estate assets (each such hedge, a "Borrowings Hedge") or manages the risk of certain currency fluctuations (each such hedge, a "Currency Hedge"), and such instrument is properly identified under applicable Treasury Regulations. Income from hedging transactions that do not meet these requirements will generally constitute non-qualifying income for purposes of both the REIT 75% and 95% gross income tests. Effective for taxable years beginning after December 31, 2015, this exclusion from the REIT 75% and 95% gross income tests will also apply if we previously entered into a Borrowings Hedge or a Currency Hedge, a portion of the hedged indebtedness or property is disposed of, and in connection with such extinguishment or disposition we enter into a new properly identified hedging transaction to offset the prior hedging position. As a result of these rules, we may have to limit our use of hedging techniques that might otherwise be advantageous or implement those hedges through a TRS. This could increase the cost of our hedging activities because our TRS would be subject to tax on gains or expose us to greater risks associated with changes in interest rates than we would otherwise want to bear. In addition, losses in our TRS will generally not provide any tax benefit, except for being carried back or forward against past or future taxable income in the TRS.

Risks Related to Our Common Shares

Our cash available for distribution to shareholders may not be sufficient to pay distributions at expected or required levels, and we may need to borrow funds or rely on other external sources in order to make such distributions, or we may not be able to make such distributions at all, which could cause the market price of our common shares to decline significantly.

We intend to continue to pay regular quarterly distributions to holders of our common shares. All distributions will be made at the discretion of our board of trustees and will depend on our historical and projected results of operations, EBITDA, FFO, liquidity and financial condition, REIT qualification, debt service requirements, capital expenditures and operating expenses, prohibitions and other restrictions under financing arrangements and applicable law and other factors as our board of trustees may deem relevant from time to time. No assurance can be given that our projections will prove accurate or that any level of distributions or particular yield will be made or sustained. We may not be able to make distributions in the future or may need to fund such distributions through borrowings or other external financing sources, which may be available only at commercially unattractive terms, if at all. Any of the foregoing could cause the market price of our common shares to decline significantly.

Future issuances of debt securities, which would rank senior to our common shares upon our liquidation, and future issuances of equity securities (including OP units), which would dilute the holdings of our existing common shareholders and may be senior to our common shares for the purposes of making distributions, periodically or upon liquidation, may negatively affect the market price of our common shares.

In the future, we may issue debt or equity securities or incur other borrowings. Upon our liquidation, holders of our debt securities and other loans and preferred shares will receive a distribution of our available assets before common shareholders. If we incur debt in the future, our future interest costs could increase, and adversely affect our liquidity, FFO and results of operations. We are not required to offer any additional equity securities to existing common shareholders on a preemptive basis. Therefore, additional common share issuances, directly or through convertible or exchangeable securities (including OP units), warrants or options, will dilute the holdings of our existing common shareholders and such issuances or the perception of such issuances may reduce the market price of our common shares. Our preferred shares, if issued, would likely have a preference on distribution payments, periodically or upon liquidation, which could eliminate or otherwise limit our ability to make distributions to common shareholders. Because our decision to issue debt or equity securities or incur other borrowings in the future will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount,

Table of Contents

timing, nature or success of our future capital raising efforts. Thus, common shareholders bear the risk that our future issuances of debt or equity securities or our incurrence of other borrowings will negatively affect the market price of our common shares.

The number of common shares available for future issuance or sale could adversely affect the per share trading price of our common shares.

As of February 17, 2016, we had 124,627,008 common shares outstanding. In addition, as of such date, 894,000 OP units in our operating partnership were outstanding, which are redeemable for cash or, at our option, for a like number of our common shares. We cannot predict the effect, if any, of future resales of our common shares or OP units, or the perception of such resales, on the market price of our common shares. Any such future resales, or the perception that such resales might occur, could adversely affect the market price of our common shares and may also make it more difficult for us to sell equity or equity-related securities in the future at times and upon terms that we deem appropriate.

In addition, subject to applicable law, our board of trustees has the authority, without further shareholder approval, to issue additional common shares and preferred shares on the terms and for the consideration it deems appropriate. We may issue from time to time additional common shares or OP units in connection with hotel acquisitions and may grant registration rights in connection with such issuances, pursuant to which we would agree to register the resale of such securities under the Securities Act. Furthermore, in the future we may issue common shares and securities convertible into, or exchangeable or exercisable for, our common shares under our equity incentive plan. The market price of our common shares may decline significantly upon future issuances of equity under our equity incentive plan or in connection with hotel acquisitions.

The trading volume and market price of our common shares may be volatile and could decline substantially in the future.

The market price of our common shares may be volatile in the future. In addition, the trading volume in our common shares may fluctuate and cause significant price variations to occur. We cannot assure shareholders that the market price of our common shares will not fluctuate or decline significantly in the future, including as a result of factors unrelated to our operating performance or prospects. In particular, the market price of our common shares could be subject to wide fluctuations in response to a number of factors, including, among others, the following:

- actual or anticipated differences in our operating results, liquidity, or financial condition;
- changes in our revenues, EBITDA, FFO or earnings estimates;
- publication of research reports about us, our hotels or the lodging or overall real estate industry;
- additions and departures of key personnel;
- the performance and market valuations of other similar companies;
- the passage of legislation or other regulatory developments that adversely affect us or our industry;
- the realization of any of the other risk factors presented in this Annual Report on Form 10-K;
- speculation in the press or investment community;
- changes in accounting principles;
- terrorist acts; and
- general market and economic conditions, including factors unrelated to our operating performance.

In the past, securities class action litigation has often been instituted against companies following periods of volatility in the market price of their common shares. If the market price of our common shares is volatile and this type of litigation is brought against us, it could result in substantial costs and divert our management's attention and resources, which could have a material adverse effect on us.

Increases in market interest rates may reduce demand for our common shares and result in a decline in the market price of our common shares.

The market price of our common shares may be influenced by the distribution yield on our common shares (i.e., the amount of our annual distributions as a percentage of the market price of our common shares) relative to market interest rates. An increase in market interest rates, which are currently low compared to historical levels, may lead

prospective purchasers of our common shares to expect a higher distribution yield, which we may not be able, or may choose not, to provide. Higher interest rates would also likely increase our borrowing costs and decrease our operating results and cash available for distribution. Thus, higher market interest rates could cause the market price of our common shares to decline.

This hotel is owned through a joint venture in which we own a 98.3% economic interest. We are the managing (1) member of this joint venture and control all material decisions related to this hotel. Our joint venture partner is affiliated with the hotel's property manager.

Our Hotel Management Agreements

In order to qualify as a REIT, we cannot directly or indirectly operate any of our hotels. We lease our hotels to TRS lessees, which in turn engage property management companies to manage our hotels. Each of our hotels is operated pursuant to a hotel management agreement with one of 15 independent hotel management companies. Each hotel management company receives a base management fee and is also eligible to receive an incentive management fee upon the achievement of certain financial thresholds as set forth in each applicable management agreement. The incentive management fee is generally calculated as a percentage of hotel operating profit after we have received a priority return on our investment in the hotel. WLS, a fully-integrated owner, developer and manager of premium-brand hotels, is the management company for 72 of our hotels. Our remaining hotels are managed by 14 other hotel management companies located in the United States. Below is a summary of the principal terms of the hotel management agreements with WLS and a general overview of our non-WLS hotel management agreements.

Table of Contents

WLS Hotel Management Agreements

Our TRS lessees, as lessees of the respective hotels, have entered into hotel management agreements with WLS for 72 of our hotels. This summary is qualified in its entirety by reference to the form of the WLS hotel management agreement included as an exhibit to this Annual Report on Form 10-K.

Term

Our WLS hotel management agreements contain initial terms of 10 to 20 years and are subject to two automatic renewal terms of five to 10 years each. The WLS hotel management agreements have an average remaining initial term of approximately 11 years.

Amounts Payable under our WLS Hotel Management Agreements

Under the WLS hotel management agreements, WLS receives a base management fee and, if certain financial thresholds are met or exceeded, an incentive management fee. The base management fee is generally 3.5% of gross hotel revenues for the applicable hotel. Gross hotel revenue is calculated as all hotel revenue before subtracting expenses. The incentive management fee, which is calculated on a per hotel basis, is 15% of operating profit (as defined in the applicable management agreements) remaining after we receive an annual return equal to 11% of our total capital investment, including debt, in the applicable hotel. We also pay certain computer support and accounting service fees to WLS, as reflected in each hotel management agreement.

Termination Events

Performance Termination. We have structured our WLS hotel management agreements to align our interests with those of WLS by providing us with a right to terminate a WLS hotel management agreement if WLS fails to achieve certain criteria relating to the performance of a hotel under WLS management, as measured with respect to any two consecutive fiscal years. We may initiate a performance termination if, during any two consecutive year period, (1) an independent hotel consulting expert, agreed to by both WLS and us, determines that the operating profit of the affected hotel is less than the operating profit of comparable hotels as determined by the independent hotel consulting expert, and (2) the RevPAR penetration index fails to exceed a specified RevPAR penetration index threshold, as set forth in the applicable hotel management agreement. WLS has the right, which can be exercised no more than three times per hotel, to avoid a performance termination by paying an amount equal to the amount that the operating profit fell below the annual operating budget for the relevant performance termination period, as reflected in each WLS hotel management agreement, or by agreeing to offset the operating budget difference against future management fees due to WLS.

Early Termination for Casualty/Condemnation or Cause. Subject to certain qualifications and applicable cure periods, the hotel management agreements are generally terminable by either party upon material casualty or condemnation of the hotel or the occurrence of certain customary events of default, including, among others: the bankruptcy or insolvency of either party; the failure of either party to make a payment when due, and failure to cure such non-payment after due notice; failure by us to provide WLS with sufficient working capital to operate the hotel after due notice; breach by either party of covenants or obligations under a WLS hotel management agreement; and failure by us to complete work approved or required under the terms of the hotel's franchise agreement and the applicable WLS hotel management agreement.

If an event of default occurs and continues beyond the grace period set forth in the WLS hotel management agreement, the non-defaulting party generally has, among other remedies, the option of terminating the applicable hotel management agreement, upon at least 30 days written notice to the other party.

Early Termination by WLS — Liquidated Damages. In the event that WLS elects to terminate a WLS hotel management agreement due to an event of default by us, WLS may elect to recover a termination fee, as liquidated damages, equal to 2.5 times the actual base management fee and incentive management fee earned by WLS under that hotel management agreement in the fiscal year immediately preceding the fiscal year in which such termination occurred.

Sale of a Hotel. Generally, the WLS hotel management agreements state that we cannot sell the applicable hotel to any unrelated third party or engage in certain change of control actions (1) if we are in default under the hotel management

agreement, or (2) with or to a person or entity that is known in the community as being of bad moral character or has been convicted of a felony or is in control of or controlled by persons convicted of a felony or would be in violation of any franchise agreement requirements applicable to us. Generally, the WLS hotel management agreements further require that any future owner of the applicable hotel, at the option of WLS, assume the WLS hotel management agreement or enter into a new WLS hotel management agreement for such hotel.

32

Table of Contents

Other Hotel Management Agreements

As of the date of this Annual Report on Form 10-K, 54 of our hotels are managed by 14 hotel management companies other than WLS. This number includes five and ten hotels that receive the benefits of a franchise agreement pursuant to hotel management agreements with Marriott and Hyatt, respectively. Each of these hotels is subject to a hotel management agreement that contains customary terms and conditions that generally are similar to the provisions found in the WLS hotel management agreements described above. The hotel management agreements generally have initial terms that range from three to 25 years, and some provide for one or two automatic extension periods ranging from one to ten years. In addition, each hotel management company receives a base management fee generally equal to 3.0% of gross hotel revenues. Management agreements that include the benefits of a franchise agreement incur a base management fee generally equal to 7.0% of gross hotel revenues. Management companies may also earn an incentive management fee ranging from 10% to 25% of available cash flow (or other similar metric) as set forth in the applicable hotel management agreement, calculated on a per hotel basis, generally equal to the operating profit of the hotel after deducting a priority return to us based upon a percentage of our total capital investment in the hotels. Each of these hotel management agreements also provides us with a right to terminate such management agreement if the hotel management company fails to reach certain performance targets (as provided in the applicable management agreement) or provides us with a right to terminate the management agreement in our sole and absolute discretion. In addition, certain hotel management agreements give us the right to terminate the management agreement upon the sale of the hotel or for any reason upon payment of a stipulated termination fee. The performance targets vary, but generally provide us with the right to terminate the applicable hotel management agreement if the operating profit of the hotel is less than the budget targets set forth pursuant to such management agreement and/or the RevPAR penetration index fails to exceed a specified RevPAR penetration index threshold as set forth in the applicable management agreement. The hotel management agreements are also generally terminable by either party upon material casualty or condemnation of the hotel or the occurrence of certain customary events of default.

Franchise Agreements

As of December 31, 2015, 72, 29 and 6 of our hotels operated under franchise agreements with Marriott, Hilton and Hyatt, respectively. These numbers exclude five and ten hotels that receive the benefits of a franchise agreement pursuant to hotel management agreements with Marriott and Hyatt, respectively. The remaining four hotels that we own as of December 31, 2015 operate under existing franchise agreements with brands other than Marriott, Hilton or Hyatt.

Franchisors provide a variety of benefits to franchisees, including centralized reservation systems, national advertising, marketing programs and publicity designed to increase brand awareness, training of personnel and maintenance of operational quality at hotels across the brand system. The franchise agreements generally specify management, operational, record-keeping, accounting, reporting and marketing standards and procedures with which our TRS lessees, as the franchisees, must comply. The franchise agreements require our TRS lessees to comply with the franchisors' standards and requirements, including training of operational personnel, safety, maintaining specified insurance, the types of services and products ancillary to guest room services that may be provided by the TRS lessee, display of signage and the type, quality and age of furniture, fixtures and equipment included in guest rooms, lobbies and other common areas. Each of the existing franchise agreements for our hotels require that we pay a royalty fee generally between 4.0% and 6.0% of room revenue, plus additional fees for marketing, central reservation systems and other franchisor costs that amount to between 1.0% and 4.3% of room revenue. Certain hotels are also charged a royalty fee of between 1.0% and 3.0% of food and beverage revenues. In addition, under certain of our franchise agreements, the franchisor may require that we renovate guest rooms and public facilities from time to time to comply with then-current brand standards.

The franchise agreements also provide for termination at the applicable franchisor's option upon the occurrence of certain events, including failure to pay royalties and fees or to perform other obligations under the franchise license, bankruptcy and abandonment of the franchise or a change in control. The TRS lessee that is the franchisee is responsible for making all payments under the applicable franchise agreement to the franchisor; however we are

required to guarantee the obligations under each of the franchise agreements. In addition, many of our existing franchise agreements provide the franchisor with a right of first offer in the event of certain sales or transfers of a hotel and provide the franchisor the right to approve any change in the hotel management company engaged to manage the hotel.

TRS Leases

In order for us to qualify as a REIT, neither our company nor any of our subsidiaries, including the operating partnership, may directly or indirectly operate our hotels. Subsidiaries of our operating partnership, as lessors, lease our hotels to our TRS lessees, which, in turn, are parties to the existing hotel management agreements with third-party hotel management companies for each of our hotels. The TRS leases for our hotels contain the provisions described below. We intend that leases with respect to hotels acquired in the future will contain substantially similar provisions to those described below; however, we may, in our discretion, alter any of these provisions with respect to any particular lease.

Table of Contents

Lease Terms

Our TRS leases have initial terms that range from three to five years and a majority of the leases can be renewed by our TRS lessees for three successive five-year renewal terms unless the lessee is in default at the expiration of the then-current term. In addition, our TRS leases are subject to early termination by us in the event that we sell the hotel to an unaffiliated party, a change in control occurs or applicable provisions of the Code are amended to permit us to operate our hotels. Our TRS leases are also subject to early termination upon the occurrence of certain events of default and/or other contingencies described in the lease.

Amounts Payable under the Leases

During the term of each TRS lease, our TRS lessees are obligated to pay us a fixed annual base rent plus a percentage rent and certain other additional charges that our TRS lessees agree to pay under the terms of the respective TRS lease. Percentage rent is calculated based on revenues generated from guest rooms, food and beverage sales, and certain other sources, including meeting rooms and movie rentals.

The TRS leases require our TRS lessees to pay rent, all costs and expenses, management fees, franchise fees, personal property taxes and certain insurance, and all utility and other charges incurred in the operation of the hotels they lease. The leases also provide for rent reductions and abatements in the event of damage to, or destruction or a partial taking of, any hotel.

All of the above mentioned transactions eliminate in consolidation.

Maintenance and Modifications

Under each TRS lease, the TRS lessee may, at its expense, make additions, modifications or improvements to the hotel that it deems desirable and that we approve. In addition, our TRS lessees are required, at their expense, to maintain the hotels in good order and repair, except for ordinary wear and tear, and to make repairs that may be necessary and appropriate to keep the hotel in good order and repair. Under the TRS lease, we are responsible for maintaining, at our cost, any underground utilities or structural elements, including exterior walls and the roof of the hotel (excluding, among other things, windows and mechanical, electrical and plumbing systems). Each TRS lessee, when and as required to meet the standards of the applicable hotel management agreement, any applicable hotel franchise agreement or to satisfy the requirements of any lender, must establish an FF&E reserve in an amount equal to up to 5% of gross revenue for the purpose of periodically repairing, replacing or refurbishing furnishings and equipment.

Events of Default

Events of default under each of the leases include, among others: the failure by a TRS lessee to pay rent when due; the breach by a TRS lessee of a covenant, condition or term under the lease, subject to the applicable cure period; the bankruptcy or insolvency of a TRS lessee; cessation of operations by a TRS lessee of the leased hotel for more than 30 days, except as a result of damage, destruction, or a partial or complete condemnation; or the default by a TRS lessee under a franchise agreement subject to any applicable cure period.

Termination of Leases on Disposition of the Hotels or Change of Control

In the event that we sell a hotel to a non-affiliate or a change of control occurs, we generally have the right to terminate the lease by paying the applicable TRS lessee a termination fee to be governed by the terms and conditions of the lease.

Ground Leases

As of December 31, 2015, nine of our hotels were subject to ground lease agreements that cover the land underlying the respective hotels. Additional information regarding our hotels that are subject to ground leases can be found in Note 9 to our accompanying consolidated financial statements.

Item 3. Legal Proceedings

The nature of the operations of our hotels exposes our hotels, the Company and the operating partnership to the risk of claims and litigation in the normal course of business. Other than routine litigation arising out of the ordinary course of business, the Company is not presently subject to any material litigation nor, to the Company's knowledge, is any material litigation threatened against the Company.

Item 4. Mine Safety Disclosures
Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Shareholder Matters and Issuer Purchases of Equity Securities

Our common shares are traded on the New York Stock Exchange ("NYSE") under the symbol "RLJ." Below is a summary of the high and low prices of our common shares for each quarterly period for the years ended December 31, 2015 and 2014, as reported on the NYSE and the distributions paid by us with respect to each quarterly period.

2015	High	Low	Distribution
January 1, 2015 through March 31, 2015	\$36.25	\$29.90	\$0.33
April 1, 2015 through June 30, 2015	\$32.09	\$28.73	\$0.33
July 1, 2015 through September 30, 2015	\$32.14	\$25.00	\$0.33
October 1, 2015 through December 31, 2015	\$27.52	\$21.48	\$0.33
2014	High	Low	Distribution
January 1, 2014 through March 31, 2014	\$27.28	\$23.65	\$0.22
April 1, 2014 through June 30, 2014	\$29.00	\$25.00	\$0.22
July 1, 2014 through September 30, 2014	\$30.64	\$27.76	\$0.30
October 1, 2014 through December 31, 2014	\$34.47	\$27.95	\$0.30

On December 31, 2015 and February 17, 2016, the closing price of our common shares as reported on the NYSE was \$21.63 and \$19.13, respectively.

Table of Contents

Share Return Performance

The following graph compares the total shareholder return of our common shares against the cumulative total returns of the Standard & Poor's 500 Index ("S&P 500 Index") and the Morgan Stanley Capital International United States REIT Index ("MSCI US REIT Index") for the period from May 11, 2011, the date of the initial listing of our common shares of beneficial interest on the NYSE, to December 31, 2015. The graph assumes an initial investment of \$100 in our common shares and in each of the indices, and also assumes the reinvestment of dividends.

Name	Initial Investment at May 11, 2011	Value of Initial Investment at Dec 31, 2011	Value of Initial Investment at Dec 31, 2012	Value of Initial Investment at Dec 31, 2013	Value of Initial Investment at Dec 31, 2014	Value of Initial Investment at Dec 31, 2015
RLJ Lodging Trust	\$ 100.00	\$ 97.64	\$ 116.67	\$ 151.95	\$ 216.96	\$ 147.03
S&P 500 Index	\$ 100.00	\$ 95.05	\$ 110.26	\$ 145.96	\$ 165.93	\$ 168.20
MSCI US REIT Index	\$ 100.00	\$ 97.87	\$ 115.32	\$ 118.20	\$ 154.24	\$ 158.15

This performance graph shall not be deemed "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or incorporated by reference into any filing by us under the Securities Act of 1933, as amended, or the Securities Exchange Act, except as shall be expressly set forth by specific reference in such filing.

Shareholder Information

At February 17, 2016, we had 101 holders of record of our common shares. However, because many of our common shares are held by brokers and other institutions on behalf of shareholders, we believe there are substantially more beneficial holders of our common shares than record holders. At February 17, 2016, there were four holders (other than our company) of our OP units. Our OP units are redeemable for cash or, at our election, for our common shares. In order to comply with certain requirements related to our qualification as a REIT, our declaration of trust provides that, subject to certain exceptions, no person or entity (other than a person or entity who has been granted an exception) may directly or indirectly, beneficially or constructively, own more than 9.8% of the aggregate of our outstanding common shares, by value or by number of shares, whichever is more restrictive, or 9.8% of the aggregate of the outstanding preferred shares of any class or series, by value or by number of shares, whichever is more restrictive.

Table of Contents

Distribution Information

We intend, over time, to make quarterly distributions to our common shareholders. In order to qualify and maintain our qualification for taxation as a REIT, we intend to make annual distributions to our shareholders of at least 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding any net capital gain.

The credit agreements governing our \$300 million unsecured revolving credit facility and our unsecured term loans limit our ability to pay cash dividends. However, so long as no default or event of default exists, the credit agreements allow us to pay cash dividends with respect to any period of four fiscal quarters in an amount not to exceed (i) 95% of adjusted funds from operations (as defined in the credit agreements), (ii) the amount required for us to maintain our status as a REIT (including the right to distribute 100% of net capital gain) under Sections 856 through 860 of the Code, and (iii) the amount necessary for us to avoid income or excise tax under the Code. If certain defaults or events of default exist, we may pay cash dividends with respect to any fiscal year in an aggregate amount not to exceed the greater of (a) the minimum amount required for us to maintain our status as a REIT under Sections 856 through 860 of the Code, or (b) the amount necessary to avoid income or excise tax under the Code.

Any future distributions will be at the sole discretion of our board of trustees, and their form, timing and amount, if any, will depend upon a number of factors, including our actual and projected financial condition, liquidity, EBITDA, FFO and results of operations, the revenue we actually receive from our properties, our operating expenses, our debt service requirements, our capital expenditures, prohibitions and other limitations under our financing arrangements, as described above, our REIT taxable income, the annual REIT distribution requirements, applicable law and such other factors as our board of trustees deems relevant. To the extent that our cash available for distribution is less than 90% of our REIT taxable income, we may consider various means to cover any such shortfall, including borrowing under our unsecured revolving credit facility or other loans, selling certain of our assets or using a portion of the net proceeds we receive from offerings of equity, equity-related or debt securities or declaring taxable share dividends.

Unregistered Sales of Equity Securities

The Company did not sell any securities during the fiscal year ended December 31, 2015 that were not registered under the Securities Act of 1933, as amended.

Issuer Purchases of Equity Securities

On May 1, 2015, the Company's board of trustees authorized a share repurchase program to acquire up to \$200.0 million of the Company's common shares through April 30, 2016. On October 30, 2015, the Company's board of trustees extended the duration of the share repurchase program to December 31, 2016 and increased the authorized amount that may be repurchased by \$200.0 million to a total of \$400.0 million. Between May 1, 2015 and December 31, 2015, the Company repurchased 8,044,372 of its common shares for approximately \$225.2 million under the authorized share repurchase program.

Additionally, during the year ended December 31, 2015, certain of our employees surrendered common shares owned by them to satisfy their statutory minimum federal and state tax obligations associated with the vesting of restricted common shares of beneficial interest issued under the RLJ Lodging Trust 2015 Equity Incentive Plan (the "2015 Plan").

Table of Contents

The following table summarizes all of these repurchases during the year ended December 31, 2015:

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Maximum number of shares that may yet be purchased under the plans or programs (1)
January 1, 2015 through January 31, 2015	—	—	N/A	N/A
February 1, 2015 through February 28, 2015	43,009	\$33.48	N/A	N/A
March 1, 2015 through March 31, 2015	10,459	\$31.78	N/A	N/A
April 1, 2015 through April 30, 2015	—	—	N/A	N/A
May 1, 2015 through May 31, 2015	944,121	\$29.95	888,408	5,736,341
June 1, 2015 through June 30, 2015	1,117,837	\$30.05	1,106,769	4,706,502
July 1, 2015 through July 31, 2015	203,158	\$30.06	—	4,698,613
August 1, 2015 through August 31, 2015	3,370,792	\$28.26	3,342,428	1,659,500
September 1, 2015 through September 30, 2015	1,666,844	\$27.57	1,655,103	—
October 1, 2015 through October 31, 2015	360	\$25.47	—	7,973,525
November 1, 2015 through November 30, 2015	772,247	\$24.21	744,138	7,461,307
December 1, 2015 through December 31, 2015	319,267	\$23.58	307,526	8,082,015
Total for the year ended December 31, 2015	8,448,094		8,044,372	

The maximum number of shares that may yet be repurchased under the stock repurchase plan is calculated by (1) dividing the total dollar amount available to repurchase shares by the closing price of our common shares on the last business day of the respective month.

Item 6. Selected Financial Data

The following selected financial information should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the consolidated financial statements as of December 31, 2015 and 2014 and for the three years ended December 31, 2015, 2014 and 2013, and the related notes included elsewhere in this Annual Report on Form 10-K.

We completed our initial public offering ("IPO") on May 16, 2011. Due to the timing of the IPO, we present herein certain combined consolidated historical financial data for us and our predecessor. The consolidated financial data for our predecessor is not necessarily indicative of our results of operations, cash flows or financial position following the completion of the IPO.

The selected financial information as of and for the years ended December 31, 2015, 2014, 2013, 2012 and 2011 has been derived from our audited historical financial statements. Due to the timing of the IPO, the results of operations for the year ended December 31, 2011 reflect the financial condition and results of operations of our predecessor together with our Company.

Per Share Data:					
Basic income (loss) from continuing operations per share	\$1.69	\$1.06	\$0.89	\$0.40	\$(0.10)
Diluted income (loss) from continuing operations per share (1)	\$1.68	\$1.05	\$0.88	\$0.40	\$(0.10)
Weighted average shares outstanding—basic	128,444,469	127,360,669	117,950,066	105,423,604	95,340,666
Weighted average shares outstanding—diluted (1)	128,967,754	128,293,843	118,738,626	105,748,686	95,340,666
Dividends declared per share	\$1.32	\$1.04	\$0.86	\$0.70	\$0.38

Income (loss) allocated to noncontrolling interest in our operating partnership has been excluded from the (1) numerator, and OP units of our operating partnership have been omitted from the denominator, since the effect of including these amounts in the numerator and denominator would have no impact.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the accompanying consolidated financial statements, related notes included thereto and Item 1A., "Risk Factors", appearing elsewhere in this Annual Report on Form 10-K.

Overview

Our strategy is to acquire primarily premium-branded, focused-service and compact full-service hotels. Focused-service and compact full-service hotels typically generate most of their revenue from room rentals, have limited food and beverage outlets and meeting space, and require fewer employees than traditional full-service hotels. We believe premium-branded, focused-service and compact full-service hotels have the potential to generate attractive returns relative to other types of hotels due to their ability to achieve RevPAR levels at or close to those achieved by traditional full-service hotels while achieving higher profit margins due to their more efficient operating model and less volatile cash flows.

While the outlook for global economic growth has become more uncertain recently, the health of the domestic consumer has improved. As such, we are optimistic that the U.S. economy will continue to grow. Lodging demand is at record levels and hotel industry supply remains below historical averages. We believe that corporate profits will increase over the upcoming years and support lodging fundamentals. Accordingly, we remain cautiously optimistic that we are in a positive lodging cycle that will continue in the near term.

We believe that attractive acquisition opportunities that meet our investment profile remain available in the market and we intend to weigh all investment decisions against our capital allocation requirements. We believe our cash on hand and expected access to capital (including availability under our unsecured revolving credit facility) along with our senior management team's experience, extensive industry relationships and asset management expertise, will enable us to pursue investment opportunities that generate additional internal and external growth.

As of December 31, 2015, we owned 126 hotels with approximately 20,900 rooms, located in 21 states and the District of Columbia and an interest in a mortgage loan secured by a hotel. We own, through wholly-owned subsidiaries, 100% of the interests in all properties, with the exception of one property in which we own a 98.3% controlling interest in a joint venture.

Table of Contents

Our Customers

Substantially all of our hotels consist of premium-branded, focused-service and compact full-service hotels. As a result of this property profile, the majority of our customers are transient in nature. Transient business typically represents individual business or leisure travelers. The majority of our hotels are located in business districts within major metropolitan areas. Accordingly, business travelers represent the majority of the transient demand at our hotels. As a result, macroeconomic factors impacting business travel have a greater effect on our business than factors impacting leisure travel.

Group business is typically defined as a minimum of 10 guestrooms booked together as part of the same piece of business. Group business may or may not use the meeting space at any given hotel. Given the limited meeting space at the majority of our hotels, group business that utilizes meeting space represents a small component of our customer base.

A number of our hotels are affiliated with brands marketed toward extended-stay customers. Extended-stay customers are generally defined as those staying five nights or longer. Reasons for extended stays may include, but are not limited to, training and/or special project business, relocation, litigation and insurance claims.

Our Revenues and Expenses

Our revenue is primarily derived from hotel operations, including the sale of rooms, food and beverage revenue and other operating department revenue, which consists of telephone, parking and other guest services.

Our operating costs and expenses consist of the costs to provide hotel services, including room expense, food and beverage expense, management and franchise fees and other operating expenses. Room expense includes housekeeping and front office wages and payroll taxes, reservation systems, room supplies, laundry services and other costs. Food and beverage expense primarily includes the cost of food, the cost of beverages and associated labor costs. Other operating expenses include labor and other costs associated with the other operating department revenue, as well as labor and other costs associated with administrative departments, sales and marketing, repairs and maintenance and utility costs. Our hotels that are subject to franchise agreements are charged a royalty fee, plus additional fees for marketing, central reservation systems and other franchisor costs, in order for the properties to operate under the respective brands. Franchise fees are based on a percentage of room revenue and for certain hotels additional franchise fees are charged for food and beverage revenue. Our hotels are managed by independent, third-party management companies under long-term agreements pursuant to which the management companies typically earn base and incentive management fees based on the levels of revenues and profitability of each individual hotel. We generally receive a cash distribution from the hotel management companies on a monthly basis, which reflects hotel-level sales less hotel-level operating expenses.

Key Indicators of Operating Performance

We use a variety of operating, financial and other information to evaluate the operating performance of our business. These key indicators include financial information that is prepared in accordance with GAAP as well as other financial measures that are non-GAAP measures. In addition, we use other information that may not be financial in nature, including industry standard statistical information and comparative data. We use this information to measure the operating performance of our individual hotels, groups of hotels and/or business as a whole. We also use these metrics to evaluate the hotels in our portfolio and potential acquisition opportunities to determine each hotel's contribution to cash flow and its potential to provide attractive long-term total returns. The key indicators include:

-

Average Daily Rate ("ADR") — ADR represents total hotel room revenues divided by the total number of rooms sold in a given period. ADR measures average room price attained by a hotel and ADR trends provide useful information concerning the pricing environment and the nature of the customer base of a hotel or group of hotels. We use ADR to assess the pricing levels that we are able to generate, as changes in rates have a greater impact on operating margins and profitability than changes in occupancy.

Occupancy — Occupancy represents the total number of hotel rooms sold in a given period divided by the total number of rooms available. Occupancy measures the utilization of our hotels' available capacity. We use occupancy to measure demand at a specific hotel or group of hotels in a given period. Additionally, occupancy levels help us determine achievable ADR levels.

Revenue Per Available Room ("RevPAR") — RevPAR is the product of ADR and occupancy. RevPAR does not include non-room revenues such as food and beverage revenue or other operating department revenue. We use

Table of Contents

RevPAR to identify trend information with respect to room revenues from comparable properties and to evaluate hotel performance on a regional basis.

RevPAR changes that are primarily driven by changes in occupancy have different implications for overall revenues and profitability than changes that are driven primarily by changes in ADR. For example, an increase in occupancy at a hotel would lead to additional variable operating costs (including housekeeping services, utilities and room supplies) and could also result in increased other operating department revenue and expense. Changes in ADR typically have a greater impact on operating margins and profitability as they only have a limited effect on variable operating costs. ADR, Occupancy and RevPAR are commonly used measures within the lodging industry to evaluate operating performance. RevPAR is an important statistic for monitoring operating performance at the individual hotel level and across our entire business. We evaluate individual hotel RevPAR performance on an absolute basis with comparisons to budget and prior periods, as well as on a regional and company-wide basis. ADR and RevPAR include only room revenue. Room revenue comprised approximately 86.7% of our total revenue for the year ended December 31, 2015, and is dictated by demand (as measured by occupancy), pricing (as measured by ADR) and our available supply of hotel rooms.

Another commonly used measure in the lodging industry is the RevPAR penetration index, which measures a hotel's RevPAR in relation to the average RevPAR of that hotel's competitive set. Like other lodging companies, we use the RevPAR penetration index as an indicator of a hotel's market share in relation to its competitive set. However, the RevPAR penetration index for a particular hotel is not necessarily reflective of that hotel's relative share of any particular lodging market. The RevPAR penetration index for a particular hotel is calculated as the quotient of (1) the subject hotel's RevPAR divided by (2) the average RevPAR of the hotels in the subject hotel's competitive set, multiplied by 100. For example, if a hotel's RevPAR is \$90 and the average RevPAR of the hotels in its competitive set is \$90, the RevPAR penetration index would be 100, which would indicate that the subject hotel is capturing its fair market share in relation to its competitive set (i.e., the hotel's RevPAR is, on average, the same as its competitors). If, however, a hotel's RevPAR is \$110 and the average RevPAR of the hotels in its competitive set is \$90, the RevPAR penetration index of the subject hotel would be 122.2, which would indicate that the subject hotel has a RevPAR premium of approximately 22.2% (and, therefore, a market share premium) in relation to its competitive set. One critical component in the RevPAR penetration index calculation is the determination of a hotel's competitive set, which consists of a small group of hotels in the relevant market that we and the third-party hotel management company that manages the hotel believe are comparable for purposes of benchmarking the performance of such hotel. A hotel's competitive set is mutually agreed upon by us and the hotel's management company. Factors that we consider when establishing a competitive set include geographic proximity, brand affiliations and rate structure, as well as the level of service provided at the hotel. Competitive set determinations are highly subjective, however, and our methodology for determining a hotel's competitive set may differ materially from those used by other hotel owners and/or management companies.

For the year ended December 31, 2015, the portfolio wide RevPAR penetration index of our hotels was 110.7 which indicates that, on average, our hotels maintained a market share premium of approximately 10.7% in relation to their competitive set.

We also use non-GAAP measures such as FFO, Adjusted FFO, EBITDA and Adjusted EBITDA to evaluate the operating performance of our business. See "—Non-GAAP Financial Measures."

Principal Factors Affecting Our Results of Operations

The principal factors affecting our operating results include overall demand for lodging compared to the supply of available hotel rooms and other lodging options, and the ability of our third-party management companies to increase or maintain revenues while controlling expenses.

Demand — The demand for lodging, especially business travel, generally fluctuates with the overall economy. Historically, periods of declining demand are followed by extended periods of relatively strong demand, which typically occurs during the growth phase of the lodging cycle.

Supply — The development of new hotels is driven largely by construction costs, the availability of financing and expected performance of existing hotels and other lodging options.

We expect that our ADR, Occupancy and RevPAR performance will be impacted by macroeconomic factors such as regional and local employment growth, government spending, personal income and corporate earnings, office vacancy rates and business relocation decisions, airport activity, business and leisure travel demand, new hotel construction and the pricing strategies of our competitors. In addition, our ADR, Occupancy and RevPAR performance are dependent on the continued success of the Marriott, Hilton and Hyatt brands.

Table of Contents

Revenue — Substantially all of our revenue is derived from the operation of hotels. Specifically, our revenue is comprised of:

Room revenue — Occupancy and ADR are the major drivers of room revenue. Room revenue accounts for the substantial majority of our total revenue.

Food and beverage revenue — Occupancy, the nature of the property and the type of customer staying at the hotel are the major drivers of food and beverage revenue (i.e., group business typically generates more food and beverage revenue through catering functions as compared to transient business, which may or may not utilize the hotel's food and beverage outlets).

Other operating department revenue — Occupancy and the nature of the property are the main drivers of other ancillary revenue, such as telephone, parking and other guest services. Some hotels, due to the limited focus of the services offered and size or space limitations, may not have facilities that generate other operating department revenue.

Property Operating Expense — The following presents the components of our property operating expenses:

Room expense — These costs include housekeeping and front office wages and payroll taxes, reservation systems, room supplies, laundry services and other costs. Like room revenue, occupancy is the major driver of room expense. These costs can increase based on increases in salaries and wages, as well as the level of service and amenities that are provided.

Food and beverage expense — These expenses primarily include food, beverage and labor costs. Occupancy and the type of customer staying at the hotel (i.e., catered functions are generally more profitable than restaurant, bar or other on-property food and beverage outlets) are the major drivers of food and beverage expense, which correlates closely with food and beverage revenue.

Management and franchise fee expense — Base management fees are computed as a percentage of gross revenue.

Incentive management fees generally are paid when operating profits exceed certain threshold levels. Franchise fees are based on a percentage of room revenue and for certain hotels additional franchise fees are charged for food and beverage revenue. See "Our Properties — Our Hotel Management Agreements" and "Our Properties — Franchise Agreements."

Other operating expense — These expenses include labor and other costs associated with the other operating department revenue, as well as labor and other costs associated with administrative departments, sales and marketing, repairs and maintenance and utility costs.

Most categories of variable operating expenses, including labor costs such as housekeeping, fluctuate with changes in occupancy. Increases in occupancy are accompanied by increases in most categories of variable operating expenses, while increases in ADR typically only result in increases in limited categories of operating costs and expenses, such as franchise fees, management fees, travel agency commissions and credit card processing fee expenses which are based on hotel revenues. Thus, changes in ADR have a more significant impact on operating margins than changes in occupancy.

2015 Significant Activities

Our significant activities reflect our commitment to creating long-term shareholder value through enhancing our portfolio's quality, recycling capital and maintaining a prudent capital structure. During the year ended December 31, 2015, the following significant activities took place:

Purchased three hotel properties for an aggregate purchase price of \$175.9 million;

Sold 23 hotel properties for an aggregate sale price of \$252.5 million and a gain on sale of \$28.4 million;

Completed two major redevelopment projects in San Francisco and Houston;

Repurchased 8.0 million common shares for \$225.2 million at an average per share price of \$27.99; and

Declared cash dividends of \$1.32 per share for the year, an increase of 26.9% over the cash dividends declared in 2014.

Table of Contents

Results of Operations

At December 31, 2015, 2014 and 2013 we owned 126, 146 and 149 properties, respectively. Based on when a property is acquired, sold or closed for renovation, the operating results for certain properties are not comparable for the years ended December 31, 2015, 2014 and 2013.

For comparisons between the years ended December 31, 2015 and 2014, the non-comparable properties include 18 acquisitions that were completed between January 1, 2014 and December 31, 2015, 41 dispositions that were completed between January 1, 2014 and December 31, 2015 and three properties that were closed for renovations during all or a portion of the period between January 1, 2014 and December 31, 2015.

For comparisons between the years ended December 31, 2014 and 2013, the non-comparable properties include 22 acquisitions that were completed between January 1, 2013 and December 31, 2014, 18 dispositions that were completed in 2014 and one property that was closed for renovations during all or a portion of the period between January 1, 2013 and December 31, 2014.

We sold or transferred three hotels during 2013 which are included in discontinued operations for the year ended December 31, 2013, and therefore are not included in any of the comparisons presented.

Revenue

Total revenue increased \$27.1 million, or 2.4%, to \$1.136 billion for the year ended December 31, 2015 from \$1.109 billion for the year ended December 31, 2014. The increase was a result of a \$27.9 million increase in total revenue from the comparable properties, partially offset by a \$0.8 million decrease in total revenue from the non-comparable properties. The increase in total revenue at the comparable properties was attributable to a 2.4% increase in RevPAR.

Table of Contents

The following are the key hotel operating statistics for the comparable properties at December 31, 2015 and 2014, respectively:

	For the year ended December 31,		% Change	
	2015	2014		
Number of comparable properties (at end of period)	105	105		
Occupancy %	78.1	% 79.6	% (1.9)%
ADR	\$ 163.01	\$ 156.16	4.4	%
RevPAR	\$ 127.33	\$ 124.31	2.4	%

Room Revenue

Our portfolio consists primarily of focused-service and compact full-service hotels that generate the majority of their revenues through room sales. Room revenue increased \$16.0 million, or 1.6%, to \$985.4 million for the year ended December 31, 2015 from \$969.4 million for the year ended December 31, 2014. The increase was a result of a \$19.5 million increase in room revenue from the comparable properties, partially offset by a \$3.5 million decrease in room revenue from the non-comparable properties. The increase in room revenue at the comparable properties was attributable to a 2.4% increase in RevPAR.

Food and Beverage Revenue

Food and beverage revenue increased \$7.3 million, or 6.8%, to \$114.8 million for the year ended December 31, 2015 from \$107.5 million for the year ended December 31, 2014. The increase includes a \$7.5 million increase in food and beverage revenue from the comparable properties, partially offset by a \$0.2 million decrease in food and beverage revenue from the non-comparable properties.

Other Operating Department Revenue

Other operating department revenue, which includes revenue derived from ancillary sources such as telephone charges and parking fees, increased \$3.9 million, or 12.1%, to \$36.2 million for the year ended December 31, 2015 from \$32.3 million for the year ended December 31, 2014. The increase was due to a \$3.0 million increase in other operating department revenue from the non-comparable properties and a \$0.9 million increase at the comparable properties.

Property Operating Expense

Property operating expense increased \$11.3 million, or 1.7%, to \$657.6 million for the year ended December 31, 2015 from \$646.3 million for the year ended December 31, 2014. The increase includes a \$14.1 million increase in property operating expense at the comparable properties, partially offset by a \$2.8 million decrease in property operating expense from the non-comparable properties. The increase in property operating expense is attributable to higher room expense, food and beverage expense, other operating department costs, and management and franchise fees at the comparable properties. Room expense, food and beverage expense, and other operating department costs fluctuate based on various factors, including changes in occupancy, labor costs, utilities and insurance costs. Management fees and franchise fees, which are computed as a percentage of gross revenue and room revenue, respectively, increased as a result of higher revenues.

Depreciation and Amortization

Depreciation and amortization expense increased \$11.9 million, or 8.3%, to \$156.2 million for the year ended December 31, 2015 from \$144.3 million for the year ended December 31, 2014. The increase includes additional depreciation expense of \$8.3 million as a result of capital expenditures to improve our comparable properties and a \$3.6 million increase in depreciation and amortization expense arising from the non-comparable properties.

Impairment

For the year ended December 31, 2015, we incurred a \$1.0 million impairment loss on one hotel, as compared to a \$9.2 million impairment loss on three hotels for the year ended December 31, 2014. Each of these impairments was the result of an evaluation of the recoverability of the carrying values given the current expectation to sell the hotels before the end of their previously estimated useful lives.

Table of Contents

Property Tax, Insurance and Other

Property tax, insurance and other expense increased \$5.2 million, or 7.3%, to \$76.7 million for the year ended December 31, 2015 from \$71.4 million for the year ended December 31, 2014. The increase is the result of a \$6.9 million increase in property taxes at the comparable properties, partially offset by a 1.7 million decrease in property tax, insurance and other expense attributable to the non-comparable properties.

General and Administrative

General and administrative expense decreased \$3.9 million, or 9.3%, to \$37.8 million for the year ended December 31, 2015 from \$41.7 million for the year ended December 31, 2014. The decrease in general and administrative expense is primarily attributable to lower compensation costs, including a decrease in salary and bonus expense of \$2.5 million and a decrease in the amortization of restricted share awards and performance units of \$2.1 million, partially offset by an increase in other general and administrative costs.

Interest Expense

The components of our interest expense for the years ended December 31, 2015 and 2014 are as follows (in thousands):

	For the year ended December 31,	
	2015	2014
Mortgage indebtedness	\$ 16,500	\$ 23,282
Revolving credit facility and term loans	35,898	29,560
Loss on defeasance	—	804
Amortization of deferred financing costs	4,164	4,298
Capitalized interest	(1,774) (1,134
Total interest expense	\$54,788	\$56,810

Interest expense decreased \$2.0 million, or 3.6%, to \$54.8 million for the year ended December 31, 2015 from \$56.8 million for the year ended December 31, 2014. The decrease in interest expense from mortgage indebtedness was due to a decrease in the principal balances outstanding as a result of mortgage amortization as well as mortgage principal balances that were paid down. The increase in interest expense from the revolving credit facility and term loans was due to the new interest rate swaps and additional borrowings on the term loans. The loss on defeasance is related to the costs incurred to extinguish the mortgage indebtedness in conjunction with the disposal of certain properties in 2014. The increase in the capitalized interest was due to two major redevelopment projects in 2015, both of which were completed in the third quarter of 2015.

Income Taxes

As part of our structure, we own TRSs that are subject to federal and state income taxes. We had an income tax benefit of \$39.1 million for the year ended December 31, 2015 as compared to an income tax expense of \$1.1 million for the year ended December 31, 2014. The \$40.3 million decrease in income taxes primarily resulted from the release of a deferred tax asset valuation allowance of \$39.9 million. The effective tax rates were (21.7)% and 0.8% for the years ended December 31, 2015 and 2014, respectively. The effective tax rate decreased as a result of the release of the valuation allowance.

Net income attributable to common shareholders	\$135,441	\$112,921	\$22,520	19.9	%

Revenue

Total revenue increased \$138.8 million, or 14.3%, to \$1.1 billion for the year ended December 31, 2014 from \$970.4 million for the year ended December 31, 2013. The increase was a result of \$83.1 million in revenue attributable to non-comparable properties and a 6.9% increase in RevPAR at the comparable properties.

Table of Contents

The following are the key hotel operating statistics for the comparable properties at December 31, 2014 and 2013, respectively:

	For the year ended December 31,		% Change	
	2014	2013		
Number of comparable properties (at end of period)	123	123		
Occupancy %	78.4	% 75.6	% 3.7	%
ADR	\$148.50	\$144.05	3.1	%
RevPAR	\$116.38	\$108.89	6.9	%

Room Revenue

Our portfolio consists primarily of focused-service and compact full-service hotels that generate the majority of their revenues through room sales. Room revenue increased \$124.7 million, or 14.8%, to \$969.4 million for the year ended December 31, 2014 from \$844.7 million for the year ended December 31, 2013. This increase was a result of \$72.7 million of room revenue from non-comparable properties and a 6.9% increase in RevPAR at the comparable properties.

Food and Beverage Revenue

Food and beverage revenue increased \$10.5 million, or 10.8%, to \$107.5 million for the year ended December 31, 2014 from \$97.1 million for the year ended December 31, 2013. The increase includes \$7.1 million in food and beverage revenue arising from non-comparable properties. Food and beverage revenue for the remainder of the portfolio increased \$3.4 million.

Other Operating Department Revenue

Other operating department revenue, which includes revenue derived from ancillary sources such as telephone charges and parking fees, increased \$3.7 million, or 13.0%, to \$32.3 million for the year ended December 31, 2014 from \$28.6 million for the year ended December 31, 2013. The increase was primarily due to \$3.3 million of other operating department revenue from non-comparable properties.

Property Operating Expense

Property operating expense increased \$71.2 million, or 12.4%, to \$646.3 million for the year ended December 31, 2014 from \$575.1 million for the year ended December 31, 2013. This increase includes \$44.7 million in hotel operating expense attributable to non-comparable properties. The remaining increase was primarily attributable to higher room expense, food and beverage expense, other operating department costs, and management and franchise fees at the comparable properties. Room expense, food and beverage expense and other operating department costs fluctuate based on various factors, including changes in occupancy, labor costs, utilities and insurance costs. Management fees and franchise fees, which are computed as a percentage of gross revenue and room revenue, respectively, increased as a result of higher revenues.

Depreciation and Amortization

Depreciation and amortization expense increased \$17.1 million, or 13.4%, to \$144.3 million for the year ended December 31, 2014 from \$127.2 million for the year ended December 31, 2013. The increase is the result of a \$14.5 million increase in depreciation and amortization expense arising from non-comparable properties. The remaining

increase is the result of capital expenditures to improve our properties.

Impairment

For the year ended December 31, 2014, we incurred \$9.2 million of impairment loss on three hotels. The impairment was the result of an evaluation of the recoverability of the carrying values given the current expectation to sell the hotels before the end of their previously estimated useful lives.

Table of Contents

Property Tax, Insurance and Other

Property tax, insurance and other expense increased \$7.8 million, or 12.3%, to \$71.4 million for the year ended December 31, 2014 from \$63.6 million for the year ended December 31, 2013. The increase includes \$5.3 million in property tax, insurance and other expense attributable to non-comparable properties. The remaining increase of \$2.5 million is the net impact of increasing property tax assessments offset by favorable resolution of property tax appeals at the comparable properties.

General and Administrative

General and administrative expense increased \$6.2 million, or 17.5%, to \$41.7 million for the year ended December 31, 2014 from \$35.5 million for the year ended December 31, 2013. The increase in general and administrative expense is primarily attributable to an increase in compensation related expense of \$4.3 million and an increase in amortization of restricted share awards of \$2.0 million.

Interest Expense

The components of our interest expense for the years ended December 31, 2014 and 2013 are as follows (in thousands):

	For the year ended December 31,	
	2014	2013
Mortgage indebtedness	\$23,282	\$44,290
Revolving credit facility and term loans	29,560	15,574
Loss on defeasance	804	—
Amortization of deferred financing costs	4,298	4,484
Capitalized interest	(1,134) —
Total interest expense	\$56,810	\$64,348

Interest expense decreased \$7.5 million, or 11.7%, to \$56.8 million for the year ended December 31, 2014 from \$64.3 million for the year ended December 31, 2013. The decrease in interest expense from mortgage indebtedness was due to decreases in principal balances as a result of mortgage amortization as well as mortgage principal balances that were paid down. The increase in interest expense from the revolving credit facility and term loans was due to increased borrowings on the term loans. The loss on defeasance related to costs incurred to extinguish the mortgage indebtedness in conjunction with the disposal of certain properties. The increase in capitalized interest was due to the three major redevelopment projects underway during the year ended December 31, 2014.

Income Taxes

As part of our structure, we own TRSs that are subject to federal and state income taxes. Income tax expense increased \$0.3 million to \$1.1 million for the year ended December 31, 2014 from \$0.9 million for the year ended December 31, 2013, primarily as a result of the recognition of deferred tax benefits related to our TRSs in 2013. The effective tax rates were 0.8% and 0.8% for the years ended December 31, 2014 and 2013, respectively.

Non-GAAP Financial Measures

We consider the following non-GAAP financial measures useful to investors as key supplemental measures of our performance: (1) FFO, (2) Adjusted FFO, (3) EBITDA, and (4) Adjusted EBITDA. These non-GAAP financial

measures should be considered along with, but not as alternatives to, net income or loss as a measure of our operating performance. FFO, Adjusted FFO, EBITDA and Adjusted EBITDA, as calculated by us, may not be comparable to FFO, Adjusted FFO, EBITDA and Adjusted EBITDA as reported by other companies that do not define such terms exactly as we define such terms.

Table of Contents

Funds From Operations

We calculate FFO in accordance with standards established by the National Association of Real Estate Investment Trusts ("NAREIT") which defines FFO as net income or loss (calculated in accordance with GAAP), excluding gains or losses from sales of real estate, impairment, the cumulative effect of changes in accounting principles, plus depreciation and amortization, and adjustments for unconsolidated partnerships and joint ventures. Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, most real estate industry investors consider FFO to be helpful in evaluating a real estate company's operations. We believe that the presentation of FFO provides useful information to investors regarding our operating performance and can facilitate comparisons of operating performance between periods and between REITs, even though FFO does not represent an amount that accrues directly to common shareholders. Our calculation of FFO may not be comparable to measures calculated by other companies who do not use the NAREIT definition of FFO or do not calculate FFO per diluted share in accordance with NAREIT guidance. Additionally, FFO may not be helpful when comparing us to non-REITs. We present FFO attributable to common shareholders, which includes our OP units, because our OP units may be redeemed for common shares. We believe it is meaningful for the investor to understand FFO attributable to all common shares and OP units.

We further adjust FFO for certain additional items that are not in NAREIT's definition of FFO, such as hotel transaction and pursuit costs, non-cash income tax expense or benefit, the amortization of share-based compensation, and certain other expenses that we consider outside the normal course of business. We believe that Adjusted FFO provides useful supplemental information to investors regarding our ongoing operating performance that, when considered with net income and FFO, is beneficial to an investor's understanding of our operating performance.

The following is a reconciliation of our GAAP net income to FFO and Adjusted FFO for the years ended December 31, 2015, 2014 and 2013 (in thousands):

	For the year ended December 31,		
	2015	2014	2013
Net income (1)	\$219,812	\$136,480	\$114,179
Gain on sale of hotel properties	(28,398)	(353)	(2,081)
Depreciation and amortization	156,226	144,294	127,231
Gain on extinguishment of indebtedness (2)	—	—	(5,708)
Impairment loss	1,003	9,200	—
Noncontrolling interest in joint venture	(77)	(171)	(540)
Adjustments related to joint venture (3)	(170)	(186)	(484)
Adjustments related to discontinued operations (4)	—	—	199
FFO attributable to common shareholders	348,396	289,264	232,796
Non-cash income tax benefit (5)	(39,845)	—	—
Gain on foreclosure	—	—	(4,863)
Transaction and pursuit costs	3,058	4,850	4,410
Amortization of share based compensation	13,002	15,088	13,078
Loan related costs (6)	97	1,073	1,046
Other expenses (7)	—	432	157
Adjusted FFO attributable to common shareholders	\$324,708	\$310,707	\$246,624

(1) Includes net income from discontinued operations for the year ended December 31, 2013.

(2)

Includes the gain on extinguishment of indebtedness from the SpringHill Suites Southfield, Michigan and Courtyard Goshen, Indiana.

- (3) Includes depreciation and amortization expense allocated to the noncontrolling interest in joint venture.
- (4) Includes depreciation and amortization expense from discontinued operations.
- (5) Reflects the non-cash portion of income tax benefit (expense) related to the release of a valuation allowance.
- (6) Represents debt extinguishment costs and accelerated amortization of deferred financing costs.
- (7) Represents legal and other expenses outside the normal course of operations.

Table of Contents

Earnings Before Interest, Taxes, Depreciation and Amortization

EBITDA is defined as net income or loss excluding: (1) interest expense; (2) provision for income taxes, including income taxes applicable to sales of assets; and (3) depreciation and amortization. We consider EBITDA useful to an investor in evaluating and facilitating comparisons of our operating performance between periods and between REITs by removing the impact of our capital structure (primarily interest expense) and asset base (primarily depreciation and amortization) from our operating results. In addition, EBITDA is used as one measure in determining the value of hotel acquisitions and dispositions. We present EBITDA attributable to common shareholders, which includes our OP units, because our OP units may be redeemed for common shares. We believe it is meaningful for the investor to understand EBITDA attributable to all common shares and OP units.

We further adjust EBITDA for certain additional items such as gains or losses on dispositions, hotel transaction and pursuit costs, impairment losses, the amortization of share-based compensation, and certain other expenses that we consider outside the normal course of business. We believe that Adjusted EBITDA provides useful supplemental information to investors regarding our ongoing operating performance that, when considered with net income and EBITDA, is beneficial to an investor's understanding of our operating performance.

The following is a reconciliation of our GAAP net income to EBITDA and Adjusted EBITDA for the years ended December 31, 2015, 2014 and 2013 (in thousands):

	For the year ended December 31,		
	2015	2014	2013

Other expenses (6)	—	432	157
Adjusted EBITDA attributable to common shareholders	\$380,088	\$366,923	\$311,147

(1) Includes net income from discontinued operations for the year ended December 31, 2013.

(2) Excludes amounts attributable to investment in loans of \$1.5 million, \$1.2 million and \$1.6 million for the years ended December 31, 2015, 2014 and 2013, respectively.

(3) Includes depreciation, amortization and interest expense allocated to the noncontrolling interest in joint venture.

(4) Includes depreciation, amortization and interest expense related to discontinued operations.

(5) Includes the gain on extinguishment of indebtedness from the SpringHill Suites Southfield, Michigan and Courtyard Goshen, Indiana.

(6) Represents legal and other expenses outside the normal course of operations.

Liquidity and Capital Resources

Our short-term liquidity requirements consist primarily of funds necessary to pay for operating expenses and other expenditures directly associated with our hotel properties, including:

- recurring maintenance and capital expenditures necessary to maintain our hotel properties in accordance with brand standards;

Table of Contents

interest expense and scheduled principal payments on outstanding indebtedness; and

distributions necessary to qualify for taxation as a REIT.

We expect to meet our short-term liquidity requirements generally through net cash provided by operations, existing cash balances and, if necessary, short-term borrowings under our unsecured \$300.0 million revolving credit facility, of which \$300.0 million was available at December 31, 2015, or proceeds from public offerings of common shares.

Our long-term liquidity requirements consist primarily of funds necessary to pay for the costs of acquiring additional properties and redevelopments, renovations, expansions and other capital expenditures that need to be made periodically with respect to our properties and scheduled debt payments, at maturity or otherwise. We expect to meet our long-term liquidity requirements through various sources of capital, including our unsecured revolving credit facility and future equity (including OP units) or debt offerings, existing working capital, net cash provided by operations, long-term hotel mortgage indebtedness and other secured and unsecured borrowings.

Sources and Uses of Cash

As of December 31, 2015, we had \$134.2 million of cash and cash equivalents compared to \$262.5 million at December 31, 2014.

Cash flows from Operating Activities

Net cash flow provided by operating activities totaled \$328.9 million for the year ended December 31, 2015. Net income of \$219.8 million included significant non-cash expenses, including \$156.2 million of depreciation and amortization, \$13.0 million of amortization of share-based compensation, \$4.2 million of amortization of deferred financing costs and \$1.0 million of impairment. These amounts were partially offset by a \$28.4 million gain on sale of hotel properties. In addition, changes in operating assets and liabilities due to the timing of cash receipts and payments from our hotels resulted in net cash inflow of \$3.1 million.

Net cash flow provided by operating activities totaled \$298.8 million for the year ended December 31, 2014. Net income of \$136.5 million included significant non-cash expenses, including \$144.3 million of depreciation, \$15.1 million of amortization of share-based compensation, \$9.2 million of impairment, \$4.3 million of amortization of deferred financing costs, \$1.0 million of amortization of deferred management fees, \$0.8 million loss on defeasance and \$0.1 million of expense related to the grant of shares to our trustees, partially offset by a \$0.4 million gain on sale of property and \$0.2 million of accretion of interest income on investment in loans. In addition, changes in operating assets and liabilities due to the timing of cash receipts and payments from our hotels resulted in net cash outflow of \$11.2 million.

Net cash flow provided by operating activities totaled \$251.4 million for the year ended December 31, 2013. Net income of \$114.2 million included significant non-cash expenses, including \$127.4 million of depreciation, \$13.1 million of amortization of share-based compensation, \$4.5 million of amortization of deferred financing costs, \$1.1 million of amortization of deferred management fees and \$0.1 million of expense related to the grant of shares to our trustees, partially offset by a \$5.7 million gain on extinguishment of indebtedness, a \$4.9 million gain on foreclosure, a \$2.1 million gain on sale of property and \$0.5 million of accretion of interest income on investment in loans. In addition, changes in operating assets and liabilities due to the timing of cash receipts and payments from our hotels, which resulted in net cash inflow of \$5.0 million.

Cash flows from Investing Activities

Net cash flow used in investing activities totaled \$38.1 million for the year ended December 31, 2015 primarily due to \$143.8 million used for the purchase of three hotels, \$124.8 million in routine capital improvements and additions to hotels and other properties and \$24.5 million related to two major redevelopment projects. These were partially offset by \$246.4 million of proceeds resulting from the sale of 23 properties and the net releases from restricted cash reserves of \$9.1 million.

For the two major redevelopment projects we had underway, we incurred \$24.5 million of costs for the year ended December 31, 2015, and total costs of \$45.4 million since the inception of the projects. Both projects were completed in the third quarter of 2015.

Net cash flow used in investing activities totaled \$611.2 million for the year ended December 31, 2014 primarily due to \$631.6 million used for the purchase of 15 hotels, \$92.3 million in routine improvements and additions to hotels, \$26.5 million related to three major redevelopment projects, and the net funding of restricted cash reserves of \$0.6 million. These

Table of Contents

were partially offset by \$7.2 million in purchase deposits applied against property acquisitions and \$132.7 million of proceeds resulting from the sale of 18 properties.

Net cash flow used in investing activities totaled \$262.1 million for the year ended December 31, 2013 primarily due to \$208.2 million used for the purchase of four hotels, \$0.2 million paid for additions to property and equipment and \$61.1 million in routine capital improvements and additions to hotels. These were partially offset \$2.7 million in purchase deposits applied against property acquisitions and the net release from restricted cash reserves of \$2.4 million in conjunction with the completion of renovation projects and \$2.4 million of proceeds resulting from the sale of property.

Cash flows from Financing Activities

Net cash flow used in financing activities totaled \$419.1 million for the year ended December 31, 2015 primarily due to \$166.6 million in payments of mortgage principal, \$171.3 million in payment of distributions to shareholders and unitholders, \$225.2 million paid to repurchase common shares under a share repurchase program and \$12.0 million paid to repurchase common shares to satisfy the statutory minimum federal and state tax obligations of certain employees in connection with the vesting of restricted common shares of beneficial interest issued to such employees. This was partially offset by \$150.0 million of borrowings on the term loans and \$7.0 million in additional mortgage debt.

Net cash flow provided by financing activities totaled \$242.6 million for the year ended December 31, 2014 primarily due to \$175.0 million of aggregate proceeds from the unsecured term loans, \$232.7 million from the issuance and sale of common shares of beneficial interest, \$143.0 million in proceeds from mortgage loans and \$292.5 million in borrowings on the revolving credit facility. This was offset by \$170.7 million of mortgage loan repayments, \$292.5 million of repayments on the revolving credit facility, \$126.0 million in payments of distributions to shareholders and unitholders, \$4.1 million paid for deferred financing costs, a \$1.2 million distribution related to the joint venture noncontrolling interest and \$6.1 million of shares acquired to satisfy the statutory minimum federal and state tax obligations of certain employees in connection with the vesting of restricted common shares of beneficial interest issued to such employees.

Net cash flow provided by financing activities totaled \$227.1 million for the year ended December 31, 2013 primarily due to \$450.0 million of aggregate proceeds from the unsecured term loans, \$327.5 million from the issuance and sale of common beneficial interest, \$150.0 million in proceeds from mortgage loans and \$205.5 million in borrowings on the revolving credit facility. This was offset by \$577.4 million of mortgage loan repayments, \$221.5 million of repayments on the revolving credit facility, \$98.1 million in payment of distributions to shareholders and unitholders, \$5.0 million paid for deferred financing costs and \$4.0 million of shares acquired to satisfy the statutory minimum federal and state tax obligations of certain employees in connection with the vesting of restricted common shares of beneficial interest issued to such employees.

Capital Expenditures and Reserve Funds

We maintain each of our properties in good repair and condition and in conformity with applicable laws and regulations, franchise agreements and management agreements. The cost of all such routine improvements and alterations are paid out of FF&E reserves, which are funded by a portion of each property's gross revenues. Routine capital expenditures are administered by the property management companies. However, we have approval rights over the capital expenditures as part of the annual budget process for each of our properties.

From time to time, certain of our hotels may undergo renovations as a result of our decision to upgrade portions of the hotels, such as guestrooms, public space, meeting space, and/or restaurants, in order to better compete with other hotels and alternative lodging options in our markets. In addition, upon acquisition of a hotel we often are required to complete a property improvement plan in order to bring the hotel up to the respective franchisor's standards. If permitted by the terms of the management agreement, funding for a renovation will first come from the FF&E reserves. To the extent that the FF&E reserves are not available or sufficient to cover the cost of the renovation, we will fund all or the remaining portion of the renovation with cash and cash equivalents on hand, our revolving credit facility and/or other sources of available liquidity.

With respect to some of our hotels that are operated under franchise agreements with major national hotel brands and for some of our hotels subject to first mortgage liens, we are obligated to maintain FF&E reserve accounts for future capital expenditures at these hotels. The amount funded into each of these reserve accounts is generally determined pursuant to the management agreements, franchise agreements and/or mortgage loan documents for each of the respective hotels, and typically ranges between 3.0% and 5.0% of the respective hotel's total gross revenue. As of December 31, 2015, approximately \$55.1 million was held in FF&E reserve accounts for future capital expenditures.

Table of Contents

Off-Balance Sheet Arrangements

As of December 31, 2015, we had no off-balance sheet arrangements.

Contractual Obligations

The following table sets forth our contractual obligations as of December 31, 2015 (in thousands):

Obligations and Commitments	2016	2017	2018	2019	2020	Thereafter	Total
Mortgage loans and interest (1)	\$237,152	\$157,312	\$2,319	\$2,319	\$2,319	\$32,484	\$433,905
Borrowings under credit facilities (2)	37,490	37,490	433,206	640,550	5,139	155,449	1,309,324
Ground rent	4,708	4,711	4,713	4,716	4,718	420,588	444,154
Operating lease obligations	370	1,034	1,062	1,092	1,122	1,686	6,366
	\$279,720	\$200,547	\$441,300	\$648,677	\$13,298	\$610,207	\$2,193,749

(1) Amounts include principal and interest payments. Interest payments have been included in the long-term debt obligations based on the interest rate at December 31, 2015, considering the effect of interest rate swaps.

(2) Amounts include principal and interest payments. Interest expense is calculated based on the variable rate as of December 31, 2015. It is assumed that the outstanding debt as of December 31, 2015 will be repaid upon maturity with interest-only payments until then.

Critical Accounting Policies

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of our financial statements and the reported amounts of revenues and expenses during the reporting period. We have provided a summary of our significant accounting policies in the notes to the consolidated financial statements included elsewhere in this filing. We have set forth below those accounting policies that we believe require material subjective or complex judgments and have the most significant impact on our financial condition and results of operations. It is possible that the actual amounts may differ significantly from these estimates and assumptions. We evaluate our estimates, assumptions and judgments on an ongoing basis, based on information that is available to us, our business and industry experience, and various other matters that we believe are reasonable and appropriate for consideration under the circumstances.

Investment in Hotel Properties

Our acquisitions generally consist of land, land improvements, buildings, building improvements, FF&E and inventory. We may also acquire intangible assets or liabilities related to in-place leases, management agreements and franchise agreements. We allocate the purchase price among the assets acquired and liabilities assumed based on their respective fair values. We determine the fair values by using market data and independent appraisals available to us and making numerous estimates and assumptions. Transaction costs are expensed for acquisitions that are considered business combinations and capitalized for asset acquisitions.

Our investments in hotel properties are carried at cost and are depreciated using the straight-line method over estimated useful lives of 15 years for land improvements, 15 years for building improvements, 40 years for buildings and three to five years for FF&E. Intangible assets and liabilities arising from the acquisitions are amortized using the straight-line method over the non-cancelable portion of the term of the agreement. Maintenance and repairs are expensed and major renewals or improvements are capitalized. Interest used to finance real estate under development is capitalized as an additional cost of development. Upon the sale or disposition of a property, the asset and related

accumulated depreciation are removed from the accounts and the related gain or loss is included in gain or loss on disposal of hotel properties. Gains or losses from dispositions that represent a strategic shift that has or will have a major effect on operations and financial results will be presented as discontinued operations.

In accordance with the guidance on impairment or disposal of long-lived assets, we do not consider "held for sale" classification until it is probable that the sale will be completed within one year and the other requisite criteria for such classification have been met. We do not depreciate properties so long as they are classified as held for sale. Upon designation as held for sale and quarterly thereafter, we review the realizability of the carrying value, less cost to sell, in accordance with the guidance. Any such adjustment in the carrying value is reflected as an impairment charge.

Table of Contents

We assess the carrying value whenever events or changes in circumstances indicate that the carrying amounts may not be fully recoverable. Recoverability is measured by comparing the carrying amount to the estimated future undiscounted cash flows which take into account current market conditions and our intent with respect to holding or disposing of the properties. If our analysis indicates that the carrying value is not recoverable on an undiscounted cash flow basis, we recognize an impairment charge for the amount by which the carrying value exceeds the fair value. Fair value is determined through various valuation techniques, including internally developed discounted cash flow models, comparable market transactions and third-party appraisals, when considered necessary.

The use of projected future cash flows is based on assumptions that are consistent with a market participant's future expectations for the travel industry and the economy in general and our expected use of the underlying properties. The assumptions and estimates related to the future cash flows and capitalization rates are complex and subjective. Changes in economic and operating conditions that occur subsequent to a current impairment analysis and our ultimate use of the property could impact these assumptions and result in future impairment charges with respect to the properties.

Revenue Recognition

Our revenue consists of room revenue, food and beverage revenue and revenue from other hotel operating departments (such as telephone, parking and other guest services). These revenues are recorded net of any sales and occupancy taxes collected from guests. All rebates or discounts are recorded as a reduction to revenue, and there are no material contingent obligations with respect to rebates and discounts offered by the hotels. All revenues are recorded on an accrual basis as earned. An allowance for doubtful accounts is our best estimate of the amount of probable credit losses in the existing accounts receivable and it is recorded as bad debt expense. The allowance is calculated as a percentage of aged accounts receivable. Cash received prior to guest arrival is recorded as an advance deposit from the guest and recognized as revenue at the time of occupancy.

Income Taxes

We have elected to be taxed as a real estate investment trust under Sections 856 through 860 of the Internal Revenue Code, as amended, commencing with the taxable year ended December 31, 2011. To qualify as a REIT, we must meet a number of organizational and operational requirements, including a requirement that we distribute at least 90% of our REIT taxable income, subject to certain adjustments and excluding any net capital gain. Our current intention is to adhere to these requirements and maintain the qualification for taxation as a REIT. As a REIT, we generally are not subject to federal corporate income tax on that portion of net income that is distributed. If we fail to qualify for taxation as a REIT in any taxable year, we will be subject to federal income taxes at regular corporate rates (including any applicable alternative minimum tax) and may not be able to qualify as a REIT for four subsequent taxable years. Even if we qualify for taxation as a REIT, we may be subject to certain state and local taxes on our income and property, and to federal income and excise taxes on undistributed taxable income.

Taxable income from non-REIT activities managed through taxable REIT subsidiaries is subject to federal, state and local income taxes. The taxable REIT subsidiaries are required to pay income taxes at the applicable rates. Our consolidated income tax provision or benefit includes the income tax provision or benefit related to the operations of the taxable REIT subsidiaries as well as state income taxes incurred.

Where required, deferred income taxes are accounted for using the asset and liability method. Under this method, deferred income taxes are recognized for temporary differences between the financial reporting bases of assets and liabilities and their respective income tax bases and for operating loss, capital loss and tax credit carryforwards based on enacted income tax rates expected to be in effect when such amounts are realized or settled. However, deferred tax assets are recognized only to the extent that it is more likely than not they will be realized based on consideration of available evidence, including future reversals of existing taxable temporary differences, future projected taxable income and tax planning strategies.

We perform an annual review for any uncertain tax positions and, if necessary, will record expected future tax consequences of uncertain tax positions in the financial statements.

Share-Based Compensation

From time to time, we may issue share-based awards under the 2015 Plan as compensation to officers, employees and non-employee trustees. The vesting of the awards issued to officers and employees is based on either continued employment (time-based) or based on the relative total shareholder returns of the Company and continued employment (performance-based), as determined by the board of trustees at the date of grant. For time-based awards, we recognize compensation expense for unvested restricted shares on a straight-line basis over the vesting period based upon the fair market value of the shares on the date of grant, adjusted for forfeitures. For performance-based awards, we recognize compensation expense over the

Table of Contents

requisite service period for each award, based on the fair market value of the shares on the date of grant, as determined using a Monte Carlo simulation, adjusted for forfeitures.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Market risk includes the risks that arise from changes in interest rates, equity prices and other market changes that affect market sensitive instruments. Our primary market risk exposure is to changes in interest rates on our variable rate debt. As of December 31, 2015, we had approximately \$1.5 billion of total variable debt outstanding (or 97.9% of total indebtedness) with a weighted average interest rate of 3.35% per annum. After taking into consideration the effect of interest rate swaps, \$131.0 million (or 8.3% of total indebtedness) was subject to variable rates. If market interest rates on our variable rate debt outstanding as of December 31, 2015 were to increase by 1.00%, or 100 basis points, interest expense would decrease future earnings and cash flows by approximately \$0.5 million annually, taking into account our existing contractual hedging arrangements.

Our interest rate risk objectives are to limit the impact of interest rate fluctuations on earnings and cash flows and to lower our overall borrowing costs. To achieve these objectives, we manage our exposure to fluctuations in market interest rates through the use of fixed rate debt instruments to the extent that reasonably favorable rates are obtainable. We have entered into derivative financial instruments such as interest rate swaps to mitigate our interest rate risk or to effectively lock the interest rate on a portion of our variable rate debt. We do not enter into derivative or interest rate transactions for speculative purposes.

The following table provides information about our financial instruments that are sensitive to changes in interest rates. For debt obligations outstanding as of December 31, 2015, the following table presents principal repayments and related weighted average interest rates by contractual maturity dates (in thousands):

	2016	2017	2018	2019	2020	Thereafter	Total	
Fixed rate debt (1)	\$605	\$594	\$626	\$660	\$691	\$30,123	\$33,299	
Weighted average interest rate	5.25	% 5.25	% 5.25	% 5.25	% 5.25	% 5.25	% 5.25	%
Variable rate debt	223,250	150,000	400,000	625,000	—	150,000	1,548,250	
Weighted average interest rate (2)	3.72	% 3.99	% 3.10	% 3.19	% —	3.43	% 3.35	%
Total	\$223,855	\$150,594	\$400,626	\$625,660	\$691	\$180,123	\$1,581,549	

(1) Excludes \$1.2 million related to a fair value adjustment of \$1.3 million on mortgage debt assumed in conjunction with an acquisition, net of accumulated amortization of \$0.1 million.

(2) The weighted average interest rate gives effect to interest rate swaps, as applicable.

Our ultimate realized gain or loss with respect to interest rate fluctuations will depend on the exposures that arise during future periods, prevailing interest rates, and our hedging strategies at that time.

Changes in market interest rates on our fixed rate debt impact the fair value of our debt, but such changes have no impact on our consolidated financial statements. As of December 31, 2015, the estimated fair value of our fixed rate debt was \$34.7 million, which is based on having the same debt service requirements that could have been borrowed at the date presented, at prevailing current market interest rates. If interest rates were to rise by 1.00%, or 100 basis

points, and our fixed rate debt balance remains constant, we expect the fair value of our debt to decrease by approximately \$1.9 million.

Item 8. Financial Statements and Supplementary Data

See Index to the Financial Statements on page F-1.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosures

None.

Table of Contents

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management has evaluated, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, the effectiveness of the disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act), as required by paragraph (b) of Rules 13a-15 and 15d-15 of the Exchange Act. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that as of December 31, 2015, the Company's disclosure controls and procedures were effective to ensure that information we are required to disclose in reports filed or submitted with the Securities and Exchange Commission (i) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and (ii) is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding disclosure.

Management's Annual Report on Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act). The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluations of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company's management assessed the effectiveness of its internal control over financial reporting as of December 31, 2015. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control - Integrated Framework (2013). Based on this assessment, management has concluded that, as of December 31, 2015, our internal control over financial reporting is effective based on those criteria.

The effectiveness of the Company's internal control over financial reporting as of December 31, 2015 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which appears on page F-2 of this Annual Report on Form 10-K.

Changes in Internal Control over Financial Reporting

There have been no changes in the Company's internal control over financial reporting (as defined in Rule 13a-15 and 15d-15 of the Exchange Act) during the period ended December 31, 2015 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 9B. Other information

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees and Shareholders of RLJ Lodging Trust:

In our opinion, the consolidated financial statements listed in the accompanying index present fairly, in all material respects, the financial position of RLJ Lodging Trust and its subsidiaries at December 31, 2015 and 2014, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2015 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule listed in the accompanying index presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2015, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements and financial statement schedule, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting. Our responsibility is to express opinions on these financial statements, on the financial statement schedule, and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

As discussed in Note 2 to the consolidated financial statements, the Company has changed its method of accounting for discontinued operations in 2014 due to the adoption of Accounting Standards Update No. 2014-08, Reporting Discounted Operations and Disclosures of Disposals of Components of an Entity.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Table of Contents

RLJ Lodging Trust
Notes to the Consolidated Financial Statements

1. Organization

RLJ Lodging Trust (the "Company") was formed as a Maryland real estate investment trust ("REIT") on January 31, 2011. The Company is a self-advised and self-administered REIT that acquires primarily premium-branded, focused-service and compact full-service hotels. The Company qualified and elected to be taxed as a REIT, for U.S. federal income tax purposes, commencing with the portion of its taxable year ending December 31, 2011.

Substantially all of the Company's assets are held by, and all of its operations are conducted through RLJ Lodging Trust, L.P. (the "Operating Partnership"). The Company is the sole general partner of the Operating Partnership. As of December 31, 2015, there were 125,529,675 units of limited partnership interest in the Operating Partnership ("OP units") outstanding and the Company owned, through a combination of direct and indirect interests, 99.3% of the outstanding OP units.

As of December 31, 2015, the Company owned 126 hotel properties with approximately 20,900 rooms, located in 21 states and the District of Columbia and an interest in one mortgage loan secured by a hotel. The Company, through wholly-owned subsidiaries, owned a 100% interest in all of its properties, with the exception of the DoubleTree Metropolitan Hotel New York City, in which the Company, through wholly-owned subsidiaries, owned a 98.3% controlling interest in a joint venture, DBT Met Hotel Venture, LP, which was formed to engage in the hotel operations related to this hotel. An independent operator manages the operations of each property.

2. Summary of Significant Accounting Policies

Basis of Presentation and Principles of Consolidation

The consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

The consolidated financial statements include the accounts of the Company, the Operating Partnership and its wholly-owned subsidiaries, including joint ventures in which the Company has a majority voting interest and control. All intercompany balances have been eliminated in consolidation.

Use of Estimates

The preparation of the Company's financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and the amounts of contingent assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications

Certain prior year amounts in these financial statements have been reclassified to conform to the current year presentation with no impact to net income, shareholders' equity or cash flows.

Revenue Recognition

The Company's revenue consists of room revenue, food and beverage revenue and revenue from other hotel operating departments (such as telephone, parking and other guest services). These revenues are recorded net of any sales and occupancy taxes collected from guests. All rebates or discounts are recorded as a reduction in revenue, and there are no material contingent obligations with respect to rebates and discounts offered by the hotels. All revenues are recorded on an accrual basis as earned. An allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in the existing accounts receivable and it is recorded as bad debt expense. The allowance is calculated as a percentage of aged accounts receivable. Cash received prior to guest arrival is recorded as an advance deposit from the guest and recognized as revenue at the time of occupancy.

F-10

Table of Contents

Investment in Hotels and Other Properties

The Company's acquisitions generally consist of land, land improvements, buildings, building improvements, furniture, fixtures and equipment ("FF&E"), and inventory. The Company may also acquire intangible assets or liabilities related to in-place leases, management agreements and franchise agreements. The Company allocates the purchase price among the assets acquired and liabilities assumed based on their respective fair values. We determine the fair values by using market data and independent appraisals available to us and making numerous estimates and assumptions. Transaction costs are expensed for acquisitions that are considered business combinations and capitalized for asset acquisitions.

The Company's investments in hotels and other properties are carried at cost and are depreciated using the straight-line method over estimated useful lives of 15 years for land improvements, 15 years for building improvements, 40 years for buildings and three to five years for FF&E. Intangible assets or liabilities arising from the acquisitions are amortized using the straight-line method over the non-cancelable portion of the term of the agreement. Maintenance and repairs are expensed and major renewals or improvements are capitalized. Interest used to finance real estate under development is capitalized as an additional cost of development. Upon the sale or disposition of a property, the asset and related accumulated depreciation are removed from the accounts and the related gain or loss is included in gain or loss on disposal of hotel properties. Gains or losses from dispositions that represent a strategic shift that has or will have a major effect on operations and financial results will be presented as discontinued operations.

In accordance with the guidance on impairment or disposal of long-lived assets, the Company does not consider "held for sale" classification until it is probable that the sale will be completed within one year and the other requisite criteria for such classification have been met. The Company does not depreciate properties so long as they are classified as held for sale. Upon designation as held for sale and quarterly thereafter, the Company reviews the realizability of the carrying value, less cost to sell, in accordance with the guidance. Any such adjustment in the carrying value is reflected as an impairment charge.

The Company assesses the carrying value whenever events or changes in circumstances indicate that the carrying amounts may not be fully recoverable. Recoverability is measured by comparing the carrying amount to the estimated future undiscounted cash flows which take into account current market conditions and the Company's intent with respect to holding or disposing of the properties. If the Company's analysis indicates that the carrying value is not recoverable on an undiscounted cash flow basis, it recognizes an impairment charge for the amount by which the carrying value exceeds the fair value. Fair value is determined through various valuation techniques, including internally developed discounted cash flow models, comparable market transactions and third-party appraisals, when considered necessary.

The use of projected future cash flows is based on assumptions that are consistent with a market participant's future expectations for the travel industry and the economy in general and the Company's expected use of the underlying properties. The assumptions and estimates related to the future cash flows and capitalization rates are complex and subjective. Changes in economic and operating conditions that occur subsequent to a current impairment analysis and the Company's ultimate use of the properties could impact these assumptions and result in future impairment charges with respect to the properties.

Cash and Cash Equivalents

Cash and cash equivalents include all cash and highly liquid investments with a maturity of three months or less when purchased. The Company maintains its cash at domestic banks, which, at times, may exceed the limits of the amounts insured by the Federal Deposit Insurance Corporation.

Restricted Cash Reserves

Restricted cash reserves consists of all cash that is required to be maintained in a reserve escrow account by a management agreement, franchise agreement and/or a mortgage agreement for the replacement of furniture, fixtures and equipment and the funding of real estate taxes and insurance.

Hotel Receivables

Hotel receivables consist mainly of receivables due from hotel guests and meeting and banquet room rentals. The Company does not generally require collateral, as ongoing credit evaluations are performed and an allowance for doubtful accounts is established against any receivable that is estimated to be uncollectible.

F-11

Table of Contents

Deferred Financing Costs

Deferred financing costs relate to costs incurred to obtain long-term financing. Deferred financing costs are recorded at cost and are amortized using the straight-line method, which approximates the effective interest method, over the respective term of the financing agreement (see Note 6) and are included as a component of interest expense. The Company expenses unamortized deferred financing costs when the associated financing agreement is refinanced or repaid before maturity, unless certain criteria are met that would allow for the carryover of such costs to the refinanced agreement. For the years ended December 31, 2015, 2014 and 2013, approximately \$4.2 million, \$4.3 million and \$4.5 million (excluding discontinued operations), respectively, of amortization expense was recorded as a component of interest expense. Accumulated amortization at December 31, 2015 and 2014 was approximately \$10.6 million and \$6.8 million, respectively.

Advertising Costs

The Company expenses advertising costs as incurred. Advertising expense was approximately \$4.1 million, \$3.7 million and \$3.7 million for the years ended December 31, 2015, 2014 and 2013 (excluding discontinued operations), respectively, and is included in other operating expense.

Transaction and Pursuit Costs

The Company incurs costs during the review of potential property acquisitions and dispositions, including legal fees, architectural costs, environmental reviews and market studies. These costs are expensed as incurred.

Derivative Financial Instruments

In the normal course of business, the Company is exposed to the effects of interest rate changes. The Company utilizes a variety of borrowing vehicles including an unsecured revolving credit facility and medium and long-term financings. To reduce the Company's susceptibility to interest rate variability, the Company uses interest rate instruments, typically interest rate swaps, to convert a portion of variable rate debt to fixed rate debt. The Company limits the risks associated with interest rate changes by following the Company's established risk management policies and procedures, including the use of derivatives. The Company utilizes derivative financial instruments to manage, or hedge, interest rate risk. The Company attempts to require that hedging derivative instruments be effective in reducing the interest rate risk exposure that they are designated to hedge. This effectiveness is essential in order to qualify for hedge accounting. Instruments that meet these hedging criteria are formally designated as hedges at the inception of the derivative contract. When the terms of an underlying transaction are modified, or when the underlying hedged item ceases to exist, all changes in the fair value of the instrument are marked-to-market with changes in value included in net income each period until the instrument matures.

Interest rate swap agreements contain a credit risk that the counterparties may be unable to fulfill the terms of the agreement. The Company has minimized that risk by evaluating the creditworthiness of its counterparties, who are limited to major banks and financial institutions, and it does not anticipate nonperformance by these counterparties. The estimated fair values of the derivatives have been determined by using available market information and appropriate valuation methods. Considerable judgment is required in interpreting market data to develop the estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that the Company could realize in a current market exchange.

Gains and losses on derivatives determined to be effective hedges are reported in other comprehensive income (loss) and are reclassified to earnings in the period in which the earnings are affected by the underlying hedged item. The ineffective portion of all hedged items is recognized in earnings in the current period.

Noncontrolling Interests

The consolidated financial statements include all subsidiaries controlled by the Company. For the controlled subsidiaries that are not wholly-owned, the noncontrolling interests in these subsidiaries are presented separately in the consolidated financial statements. As of December 31, 2015, the Company consolidated DBT Met Hotel Venture, LP, a majority-owned partnership that has a third-party, noncontrolling 1.7% ownership interest. The third-party partnership interest is included in noncontrolling interest in joint venture on the consolidated balance sheet. Profits and losses are allocated in proportion to each party's respective ownership interest.

As of December 31, 2015, the Company consolidated the Operating Partnership, which has a third-party, noncontrolling 0.7% ownership interest. The third-party partnership interest is included in noncontrolling interest in Operating Partnership on the consolidated balance sheet. Profits and losses are allocated in proportion to each party's respective ownership interest.

F-12

Table of Contents

Income Taxes

The Company has elected to be taxed as a real estate investment trust under Sections 856 through 860 of the Internal Revenue Code, as amended, commencing with the taxable year ended December 31, 2011. To qualify as a REIT, the Company must meet a number of organizational and operational requirements, including a requirement that it distribute at least 90% of its REIT taxable income, subject to certain adjustments and excluding any net capital gain. The Company's current intention is to adhere to these requirements and maintain the qualification for taxation as a REIT. As a REIT, the Company generally is not subject to federal corporate income tax on that portion of net income that is distributed. If the Company fails to qualify for taxation as a REIT in any taxable year, it will be subject to federal income taxes at regular corporate rates (including any applicable alternative minimum tax) and may not be able to qualify as a REIT for four subsequent taxable years. Even if the Company qualifies for taxation as a REIT, it may be subject to certain state and local taxes on income and property, and to federal income and excise taxes on undistributed taxable income.

Taxable income from non-REIT activities managed through taxable REIT subsidiaries is subject to federal, state and local income taxes. The taxable REIT subsidiaries are required to pay income taxes at the applicable rates. The consolidated income tax provision or benefit includes the income tax provision or benefit related to the operations of the taxable REIT subsidiaries as well as state income taxes incurred.

Where required, deferred income taxes are accounted for using the asset and liability method. Under this method, deferred income taxes are recognized for temporary differences between the financial reporting bases of assets and liabilities and their respective income tax bases and for operating loss, capital loss and tax credit carryforwards based on enacted income tax rates expected to be in effect when such amounts are realized or settled. However, deferred tax assets are recognized only to the extent that is more likely than not they will be realized based on consideration of available evidence, including future reversals of existing taxable temporary differences, future projected taxable income and tax planning strategies.

The Company performs an annual review for any uncertain tax positions and, if necessary, will record expected future tax consequences of uncertain tax positions in the financial statements.

Earnings Per Share

Basic earnings per common share is calculated by dividing net income attributable to common shareholders by the weighted-average number of common shares outstanding during the period excluding the weighted-average number of unvested restricted shares outstanding during the period. Diluted earnings per common share is calculated by dividing net income attributable to common shareholders by the weighted-average number of common shares outstanding during the period, plus any shares that could potentially be outstanding during the period. Potential shares consist of unvested share-based awards, calculated using the treasury stock method. Any anti-dilutive shares have been excluded from the diluted earnings per share calculation.

Share-based Compensation

From time to time, the Company may issue share-based awards under the RLJ Lodging Trust 2015 Equity Incentive Plan (the "2015 Plan"), as compensation to officers, employees and non-employee trustees (see Note 11). The vesting of the awards issued to officers and employees is based on either continued employment (time-based) or based on the relative total shareholder returns of the Company and continued employment (performance-based), as determined by the board of trustees at the date of grant. For time-based awards, the Company recognizes compensation expense for unvested restricted shares on a straight-line basis over the vesting period based upon the fair market value of the shares on the date of grant, adjusted for forfeitures. For performance-based awards, the Company recognizes compensation expense over the requisite service period for each award, based on the fair market value of the shares on the date of grant, as determined using a Monte Carlo simulation, adjusted for forfeitures.

Recently Issued Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity, which significantly changed the requirements for reporting discontinued operations. Under the new guidance, only disposals representing a strategic shift that has (or will have) a major effect on operations and final results should be presented as discontinued operations. The guidance also provides additional disclosure requirements in connection with both discontinued operations and other dispositions not qualifying as discontinued operations. The guidance applies to all disposals (or classifications as held for sale) of components of an entity that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years. Early adoption was permitted, but only for disposals (or classifications as held for sale) that had not been

F-13

Table of Contents

reported in financial statements previously issued or available for issuance. The Company adopted the new guidance for the quarterly period ended March 31, 2014. Prior to January 1, 2014, properties disposed of were presented in discontinued operations for all periods presented.

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, Revenue from Contracts with Customers, which supersedes or replaces nearly all GAAP revenue recognition guidance. The new guidance establishes a new control-based revenue recognition model, changes the basis for deciding when revenue is recognized over time or at a point in time and expands disclosures about revenue. The guidance is effective for annual reporting periods beginning after December 15, 2017, and interim periods within those annual periods. Early adoption is permitted for annual reporting periods beginning after December 15, 2016. The Company is currently evaluating whether this ASU will have a material impact on its financial position, results of operations or cash flows.

In August 2014, the FASB issued ASU 2014-15, Presentation of Financial Statements-Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. ASU 2014-15 requires management to evaluate whether there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern, and to provide certain disclosures when it is probable that the entity will be unable to meet its obligations as they become due within one year after the date that the financial statements are issued. ASU 2014-15 is effective for the annual period ended December 31, 2016 and for annual periods and interim periods thereafter with early adoption permitted. The Company does not believe this ASU will have a material impact on its financial position, results of operations or cash flows.

In February 2015, the FASB issued ASU 2015-02, Consolidation (Topic 810): Amendments to the Consolidation Analysis. ASU 2015-02 requires reporting entities to reevaluate whether they should consolidate certain legal entities under the revised consolidation model. This standard modifies the evaluation of whether limited partnerships and similar legal entities are variable interest entities ("VIEs"), eliminates the presumption that a general partner should consolidate a limited partnership, and affects the consolidation analysis of reporting entities that are involved with VIEs, especially those that have fee arrangements and related party relationships. This ASU is effective for fiscal years beginning after December 15, 2015, and for interim periods within those fiscal years. The Company does not believe this ASU will have a material impact on its financial position, results of operations or cash flows.

In April 2015, the FASB issued ASU 2015-03, Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. ASU 2015-03 requires debt issuance costs related to a recognized debt liability to be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability. The guidance is effective for fiscal years beginning after December 15, 2015 with early adoption permitted. The Company does not believe this ASU will have a material impact on its financial position, results of operations or cash flows.

In August 2015, the FASB issued ASU 2015-15, Interest - Imputation of Interest (Subtopic 835-30): Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements. ASU 2015-15 allows debt issuance costs related to a line of credit arrangement to be presented in the balance sheet as an asset and amortized ratably over the term of the line of credit arrangement, regardless of whether there are any amounts outstanding on the line of credit arrangement. The guidance is effective for fiscal years beginning after December 15, 2015 with early adoption permitted. The Company does not believe this ASU will have a material impact on its financial position, results of operations or cash flows.

In September 2015, the FASB issued ASU 2015-16, Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments. ASU 2015-16 requires that the cumulative impact of a measurement period

adjustment be recognized in the period in which the adjustment is identified. The guidance is effective for fiscal years beginning after December 15, 2016 with early adoption permitted. The Company does not believe this ASU will have a material impact on its financial position, results of operations or cash flows.

F-14

Table of Contents

3. Investment in Hotel Properties

Investment in hotel properties as of December 31, 2015 and 2014 consisted of the following (in thousands):

	December 31, 2015	December 31, 2014
Land and improvements	\$736,709	\$706,497
Buildings and improvements	3,205,704	3,005,390
Furniture, fixtures and equipment	571,118	498,126
Intangible assets	2,507	2,507
	4,516,038	4,212,520
Accumulated depreciation and amortization	(841,039) (693,717
Investment in hotel properties, net	\$3,674,999	\$3,518,803

For the years ended December 31, 2015, 2014 and 2013, the Company recognized depreciation and amortization expense related to investment in hotel properties of approximately \$155.8 million, \$143.9 million and \$126.8 million (excluding discontinued operations), respectively.

Impairment

During the year ended December 31, 2015, the Company recorded an impairment loss of \$1.0 million related to one hotel. The Company evaluated the recoverability of the hotel's carrying value given the expectation to sell the hotel before the end of its previously estimated useful life. Based on an analysis of the estimated undiscounted net cash flows, the Company concluded that the carrying value of the hotel was not recoverable. The Company estimated the fair value of the hotel using a discounted cash flow analysis. In the analysis, the Company estimated the future net cash flows from the hotel using the expected useful life and holding period, and the applicable capitalization and discount rates.

During the year ended December 31, 2014, the Company recorded an impairment loss of \$9.2 million related to three hotels. The Company evaluated the recoverability of the carrying values of the hotels given the expectation to sell certain hotels before the end of their previously estimated useful lives. Based on an analysis of the estimated undiscounted net cash flows, the Company concluded that the carrying values of the three hotels were not recoverable. The Company estimated the fair value of the hotels using a widely accepted revenue multiple valuation approach with significant unobservable inputs, including revenue growth projections and prevailing market multiples, from third-party sources.

Held for Sale

In November 2014, the Company entered into a purchase and sale agreement to sell a portfolio of 20 hotel properties for an aggregate sale price of \$230.3 million. At December 31, 2014, these hotel properties have been included in assets of hotel properties held for sale in the accompanying consolidated balance sheets. The transaction closed on February 23, 2015.

4. Acquisition of Hotel Properties

During the year ended December 31, 2015, the Company acquired a 100% interest in the following properties:

Property	Location	Acquisition Date	Management Company	Rooms	Purchase Price (in thousands)
		July 15, 2015	Aimbridge Hospitality	164	\$68,000

Hyatt Place Washington DC Downtown K Street	Washington, DC				
Homewood Suites Seattle Lynnwood	Lynnwood, WA	July 20, 2015	InnVentures	170	37,900
Residence Inn Palo Alto Los Altos (1)	Los Altos, CA	September 25, 2015	InnVentures	156	70,000
				490	\$ 175,900

(1) In connection with this acquisition, the Company assumed a \$33.4 million mortgage loan with a fair value at assumption of \$34.7 million.

Table of Contents

During the year ended December 31, 2014, the Company acquired a 100% interest in the following properties:

Property	Location	Acquisition Date	Management Company	Rooms	Purchase Price (in thousands)
Hyatt House Charlotte Center City	Charlotte, NC	March 12, 2014	Hyatt Affiliate	163	\$32,496
Hyatt House Cypress Anaheim	Cypress, CA	March 12, 2014	Hyatt Affiliate	142	14,753
Hyatt House Emeryville San Francisco Bay Area	Emeryville, CA	March 12, 2014	Hyatt Affiliate	234	39,274
Hyatt House San Diego Sorrento Mesa	San Diego, CA	March 12, 2014	Hyatt Affiliate	193	35,985
Hyatt House San Jose Silicon Valley	San Jose, CA	March 12, 2014	Hyatt Affiliate	164	44,159
Hyatt House San Ramon	San Ramon, CA	March 12, 2014	Hyatt Affiliate	142	20,833
Hyatt House Santa Clara	Santa Clara, CA	March 12, 2014	Hyatt Affiliate	150	40,570

				2,749	\$631,950

(1) Purchase price includes \$1.3 million paid for five condominium units.

The allocation of the purchase price for the properties acquired was as follows (in thousands):

	For the year ended December 31,	
	2015	2014
Land and improvements	\$31,692	\$164,396
Buildings and improvements	131,960	409,540
Furniture, fixtures and equipment	13,517	57,575
Intangible and other assets	—	439
Fair value adjustment on mortgage debt assumed	(1,269)) —
Total purchase price	\$175,900	\$631,950

See Note 15 for the detail of the other assets acquired and liabilities assumed in conjunction with the Company's acquisitions.

Edgar Filing: UMB FINANCIAL CORP - Form 10-Q

For the properties acquired during the year ended December 31, 2015, total revenues and net income (loss) from the date of acquisition through December 31, 2015 are included in the accompanying consolidated statements of operations as follows (in thousands):

	For the year ended December 31, 2015
Total revenue	\$10,053
Net loss	\$(1,477)

F-16

Table of Contents

For the properties acquired during the year ended December 31, 2014, total revenues and net income from the date of acquisition through December 31, 2014 are included in the accompanying consolidated statements of operations as follows (in thousands):

	For the year ended December 31, 2014
Total revenue	\$106,306
Net income	\$18,773

The following unaudited condensed pro forma financial information presents the results of operations as if the 2015 acquisitions had taken place on January 1, 2014 and the 2014 acquisitions had taken place on January 1, 2013. The unaudited condensed pro forma financial information is not necessarily indicative of what the actual results of operations of the Company would have been assuming the 2015 and 2014 acquisitions had taken place on January 1, 2014 and 2013, respectively, nor is it indicative of the results of operations for future periods. The unaudited condensed pro forma financial information is as follows (in thousands, except share and per share data):

	For the year ended December 31,	
	2015	2014
	(unaudited)	
Total revenue	\$1,149,453	\$1,165,303
Net income attributable to common shareholders	\$222,498	\$146,755
Net income per share attributable to common shareholders - basic	\$1.72	\$1.14
Net income per share attributable to common shareholders - diluted	\$1.71	\$1.14
Weighted average number of shares outstanding - basic	128,444,469	127,360,669
Weighted average number of shares outstanding - diluted	128,967,754	128,293,843

5. Disposal of Hotel Properties

During the year ended December 31, 2015, the Company sold 23 hotel properties in four separate transactions for a total sale price of approximately \$252.5 million. In conjunction with these transactions, the Company recorded a \$28.4 million gain on disposal, which is included in the accompanying consolidated statement of operations.

Table of Contents

The following table provides a list of properties that were sold during the year ended December 31, 2015:

Property Name	Location	Disposal Date	Rooms
Courtyard Chicago Schaumburg	Schaumburg, IL	February 23, 2015	162

Courtyard Fort Wayne	Fort Wayne, IN	December 19, 2014	142
		Total	2,194

During 2013, the Company disposed of three properties in three separate transactions. The operating results for the year ended December 31, 2013 for these properties are included in discontinued operations in the accompanying consolidated statement of operations.

Property Name	Location	Disposal Date	Rooms
SpringHill Suites Southfield (1)	Southfield, MI	May 30, 2013	84
Courtyard Goshen (2)	Goshen, IN	August 28, 2013	91
Fairfield Inn & Suites Memphis	Memphis, TN	November 18, 2013	63
		Total	238

(1) In November 2011, the Company elected to cease the subsidization of debt service on the mortgage loan secured by the SpringHill Suites Southfield, Michigan. In January 2012, the Company received notice of an event of default for failure to make the required monthly payments. Under the terms of the mortgage loan, the lender received the monthly net cash from operations from the hotel. In December 2012, the Company entered into a deed in lieu of foreclosure agreement with the lender, providing for a consensual transfer of the property to the lender or its designee. On May 30, 2013, the Company transferred title to the hotel to the lender pursuant to the deed in lieu of foreclosure arrangement. The Company recorded a gain on extinguishment of indebtedness of approximately \$2.4 million to discontinued operations at that time.

(2) In November 2011, the Company elected to cease the subsidization of debt service on the mortgage loan secured by the Courtyard Goshen, Indiana. In December 2011, the Company received notice of an event of default for failure to make the required monthly payments. In May 2012, a receiver took control of the property for the benefit of the lender of the mortgage loan. On August 28, 2013, the property was sold at a foreclosure auction and was purchased by an affiliate of the lender. The Company recorded a gain on extinguishment of indebtedness of approximately \$3.3 million to discontinued operations at that time.

In February 2013, the Goshen lender filed suit against the Company claiming amounts due from the Company in its capacity as a guarantor of certain borrower obligations and has continued to pursue this claim following the sale of the property. The Company disputes that any amounts are owed to the lender under the guaranty and is defending itself against this claim.

F-19

Table of Contents

The operating results of the discontinued operations were as follows (in thousands):

	For the year ended December 31, 2013	
Operating revenue	\$2,950	
Operating expense	(2,930)
Operating income	20	
Interest expense	(373)
Loss from discontinued operations before gain on sale	(353)
Gain on sale of property	2,081	
Gain on extinguishment of indebtedness	5,708	
Net income from discontinued operations	\$7,436	

6. Debt

Credit Facilities

The Company has the following unsecured credit agreements in place:

- \$300.0 million revolving credit facility with a scheduled maturity date of November 20, 2016 with a one-year extension option if certain conditions are satisfied (the "Revolver");

- \$400.0 million term loan with a scheduled maturity date of August 27, 2018 (the "2013 Five-Year Term Loan");

- \$400.0 million term loan with a scheduled maturity date of March 20, 2019 (which was originally scheduled to mature in 2017) (the "2012 Five-Year Term Loan");

- \$225.0 million term loan with a scheduled maturity date of November 20, 2019 (the "2012 Seven-Year Term Loan");
- and

- \$150.0 million term loan with a scheduled maturity date of January 22, 2022 (the "2014 Seven-Year Term Loan").

The 2012 Five-Year Term Loan, the 2012 Seven-Year Term Loan, the 2013 Five-Year Term Loan and the 2014 Seven-Year Term loan are collectively the "Term Loans". The credit agreements for these term loans require that a group of no less than 20 of the Company's hotel properties remain unencumbered by outstanding indebtedness. The credit agreements contain certain financial covenants relating to the Company's maximum leverage ratio, minimum fixed charge coverage ratio, minimum tangible net worth and maximum secured indebtedness. If an event of default exists, the Company is not permitted to make distributions to shareholders, other than those required to qualify for and maintain REIT status. As of December 31, 2015, the Company was in compliance with all financial covenants.

Borrowings under the Revolver and Term Loans bear interest at variable rates equal to the London InterBank Offered Rate ("LIBOR") plus an applicable margin. The margin ranges from 1.55% to 3.00%, depending on the Company's leverage ratio, as calculated under the terms of each facility. The Company incurs an unused facility fee on the Revolver of between 0.25% and 0.35%, based on the amount by which the maximum borrowing amount exceeds the total principal balance of outstanding borrowings.

Under the terms of the credit agreement for the Revolver, one or more standby letters of credit, up to a maximum aggregate outstanding balance of \$30.0 million, may be issued on behalf of the Company by the lenders under the Revolver. The Company will incur a fee of 0.125% of the value of each standby letter of credit that is issued on its behalf. Any outstanding standby letters of credit reduce the available borrowings on the Revolver by a corresponding amount. No standby letters of credit were outstanding at December 31, 2015. The Company also may borrow up to a maximum aggregate outstanding balance of \$40.0 million of swingline loans. Any outstanding swingline loans reduce the available borrowings under the Revolver by a corresponding amount. No swingline loans were outstanding at December 31, 2015.

F-20

Table of Contents

As of December 31, 2015 and 2014, the details of the credit facilities were as follows (in thousands):

	Interest Rate at December 31, 2015 (1)	Maturity Date	Outstanding Borrowings at	
			December 31, 2015	December 31, 2014
Revolver (2)	2.18%	November 2016	\$—	\$—
2013 Five-Year Term Loan	3.10%	August 2018	400,000	400,000
2012 Five-Year Term Loan	2.72%	March 2019	400,000	400,000
2012 Seven-Year Term Loan	4.04%	November 2019	225,000	225,000
2014 Seven-Year Term Loan	3.43%	January 2022	150,000	—
Total			\$1,175,000	\$1,025,000

(1) Interest rate at December 31, 2015 gives effect to interest rate hedges.

(2) At December 31, 2015 there was \$300.0 million of borrowing capacity on the Revolver.

Mortgage Loans

As of December 31, 2015 and 2014, the Company was subject to the following mortgage loans (in thousands):

Lender	Number of Assets Encumbered	Interest Rate at December 31, 2015 (1)	Maturity Date	Principal balance at	
				December 31, 2015	December 31, 2014
PNC Bank (2)	5	2.78%	(3) May 2016	(4) \$74,000	\$74,000
Wells Fargo (5)	4	4.19%	September 2016	(6) 149,250	150,000
Wells Fargo	4	3.99%	(3) October 2017	(6) 150,000	143,000
Wells Fargo (7)	1	5.25%	June 2022	34,505	—
Capmark Financial Group			May 2015	—	10,513
Capmark Financial Group			June 2015	—	4,561
Barclays Bank			June 2015	—	107,544
Barclays Bank			June 2015	—	26,775
Capmark Financial Group			July 2015	—	6,214
Barclays Bank			September 2015	—	10,140
	14			\$407,755	\$532,747

(1) Interest rate at December 31, 2015 gives effect to interest rate hedges.

(2) The five hotels encumbered by the PNC Bank loan are cross-collateralized.

(3) Requires payments of interest only until the commencement of the extension period(s).

(4) Maturity date may be extended for one one-year term at the Company's option, subject to certain lender requirements.

(5) Two of the four hotels encumbered by the Wells Fargo loans are cross-collateralized.

(6) Maturity date may be extended for four one-year terms at the Company's option, subject to certain lender requirements.

(7)

Includes \$1.2 million at December 31, 2015 related to a fair value adjustment of \$1.3 million on mortgage debt assumed in conjunction with an acquisition, net of accumulated amortization of \$0.1 million.

Certain mortgage agreements are subject to customary financial covenants. The Company was in compliance with these financial covenants at December 31, 2015 and 2014.

Swap-cash flow	50,000	—	1.56%	June 2021	59	—
Swap-cash flow	50,000	—	1.71%	June 2021	(361)	—
	\$1,792,251	\$1,143,000			\$(16,602)	\$(13,644)

(1) Effective between the maturity of the existing swap in November 2017 and the maturity of the debt in March 2019.

(2) Effective between the maturity of the existing swaps in September 2018 and the maturity of the debt in September 2020.

As of December 31, 2015 and 2014, the aggregate fair value of the interest rate swap liabilities of \$17.1 million and \$13.6 million, respectively, was included in accounts payable and other liabilities in the accompanying consolidated balance sheets. At December 31, 2015, the aggregate fair value of the interest rate swap assets of \$0.5 million was included in prepaid expense and other assets in the accompanying consolidated balance sheets.

As of December 31, 2015 and 2014, there was approximately \$16.6 million and \$13.6 million, respectively, in unrealized losses included in accumulated other comprehensive loss related to interest rate hedges that are effective in offsetting the variable cash flows. There was no ineffectiveness recorded on designated hedges during the years ended December 31, 2015 and 2014. For the years ended December 31, 2015 and 2014, approximately \$18.2 million and \$12.4 million, respectively, of amounts included in accumulated other comprehensive loss were reclassified into interest expense. Approximately \$14.0 million of the net unrealized losses included in accumulated other

comprehensive loss at December 31, 2015 is expected to be reclassified into interest expense within the next 12 months.

F-23

Table of Contents

8. Fair Value

Fair Value Measurement

Fair value is defined as the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or most advantageous market. The fair value hierarchy has three levels of inputs, both observable and unobservable:

Level 1 — Inputs include quoted market prices in an active market for identical assets or liabilities.

Level 2 — Inputs are market data, other than Level 1, that are observable either directly or indirectly. Level 2 inputs include quoted market prices for similar assets or liabilities, quoted market prices in an inactive market, and other observable information that can be corroborated by market data.

Level 3 — Inputs are unobservable and corroborated by little or no market data.

Fair Value of Financial Instruments

The Company used the following market assumptions and/or estimation methods:

Cash and cash equivalents, restricted cash reserves, hotel and other receivables, accounts payable and other liabilities

- The carrying amounts reported in the consolidated balance sheets for these financial instruments approximate fair value because of their short term maturities.

Variable rate mortgage loans and borrowings under the Revolver and Term Loans - The carrying amounts reported in the consolidated balance sheets for these financial instruments approximate fair value as they bear interest at market rates. The Company determined that its variable rate mortgage loans and borrowings under the Revolver and Term Loans are classified in Level 3 of the fair value hierarchy.

Fixed rate mortgage loans - The fair value estimated at December 31, 2015 and 2014 of \$34.7 million and \$171.1 million, respectively, is calculated based on the net present value of the payments over the term of the loans using estimated market rates for similar mortgage loans with similar terms and loan-to-value ratios. As a result, the Company determined that its fixed rate mortgage loans in their entirety are classified in Level 3 of the fair value hierarchy. The carrying value of the fixed rate mortgage loans at December 31, 2015 and 2014 was \$34.5 million and \$165.7 million, respectively.

Recurring Fair Value Measurements

The following table presents the Company's fair value hierarchy for those financial assets and liabilities measured at fair value on a recurring basis as of December 31, 2015 (in thousands):

	Fair Value at December 31, 2015			Total
	Level 1	Level 2	Level 3	
Interest rate swap asset	\$—	\$506	\$—	\$506
Interest rate swap liability	\$—	\$(17,108)	\$—	\$(17,108)
Total	\$—	\$(16,602)	\$—	\$(16,602)

The following table presents the Company's fair value hierarchy for those financial assets and liabilities measured at fair value on a recurring basis as of December 31, 2014 (in thousands):

	Fair Value at December 31, 2014			Total
	Level 1	Level 2	Level 3	
Interest rate swap liability	\$—	\$(13,644)	\$—	\$(13,644)

F-24

Table of Contents

The fair values of the derivative financial instruments are determined using widely accepted valuation techniques including a discounted cash flow analysis on the expected cash flows of each derivative. The Company determined that the significant inputs, such as interest yield curves and discount rates, used to value its derivatives fall within Level 2 of the fair value hierarchy and that the credit valuation adjustments associated with the Company's counterparties and its own credit risk utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. As of December 31, 2015, the Company assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and determined that the credit valuation adjustments were not significant to the overall valuation of its derivatives. As a result, the Company determined that its derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

9. Commitments and Contingencies

Ground Leases

As of December 31, 2015, nine of our hotels were subject to ground lease agreements that cover the land underlying the respective hotels. The total ground rent expense was \$5.5 million, \$5.3 million and \$3.7 million for the years ended December 31, 2015, 2014 and 2013, respectively.

The Residence Inn Chicago Oak Brook is subject to a ground lease with an initial term that expires on March 6, 2100. After the initial term, we may extend the ground lease for an additional renewal term of 99 years. The ground rent expense was de minimis for each of the years ended December 31, 2015, 2014 and 2013, respectively.

The Marriott Louisville Downtown is subject to a ground lease with an initial term extending out to 2053. The ground lease may be extended for up to four additional twenty-five year terms at the Company's option. The ground rent expense was de minimis for each of the years ended December 31, 2015, 2014 and 2013, respectively.

The Courtyard Austin Downtown Convention Center and Residence Inn Austin Downtown Convention Center are subject to a ground lease with a term extending to 2100. The ground rent expense was \$1.0 million, \$0.8 million and \$0.8 million for the years ended December 31, 2015, 2014 and 2013, respectively.

The Hilton Garden Inn Bloomington is subject to a ground lease with an initial term expiring in 2053. The ground lease automatically extends for up to five additional ten-year terms unless certain conditions are met. The ground rent expense was de minimis for each of the years ended December 31, 2015, 2014 and 2013, respectively.

The Hilton Garden Inn Bloomington is also subject to an agreement to lease parking spaces with an initial term expiring in 2033. The agreement to lease parking spaces may be extended if certain events occur. The ground rent expense was de minimis for each of the years ended December 31, 2015, 2014 and 2013, respectively.

The Hampton Inn Garden City is subject to a ground lease with an initial term extending to 2016. The lease will revert to a fee simple ownership at the end of the ground lease. The ground rent expense was de minimis for each of the years ended December 31, 2015, 2014 and 2013, respectively.

A portion of the site of the Courtyard Charleston Historic District is subject to a ground lease with a term extending to 2096. The ground rent expense was \$1.0 million for each of the years ended December 31, 2015, 2014 and 2013, respectively.

The Courtyard Waikiki Beach is subject to a ground lease with a term extending to 2112. The ground rent expense was \$3.4 million, \$3.4 million and \$1.8 million for the years ended December 31, 2015, 2014 and 2013, respectively.

A portion of the site of the Residence Inn Palo Alto Los Altos is subject to a ground lease with a term extending to 2033. The ground rent expense was de minimis for the year ended December 31, 2015. There was no ground rent expense in 2014 and 2013 as this property was acquired in September of 2015.

As of December 31, 2015, the future minimum ground lease payments were as follows (in thousands):

	2016	2017	2018	2019	2020	Thereafter	Total
Future minimum ground lease payments	\$4,708	\$4,711	\$4,713	\$4,716	\$4,718	\$420,588	\$444,154

F-25

Table of Contents

Restricted Cash Reserves

The Company is obligated to maintain cash reserve funds for future capital expenditures at the hotels (including the periodic replacement or refurbishment of FF&E) as determined pursuant to the management agreements, franchise agreements and/or mortgage loan documents. The management agreements, franchise agreements and/or mortgage loan documents require the Company to reserve cash ranging typically from 3.0% to 5.0% of the individual hotel's revenues and maintain the reserves in restricted cash reserve escrows. Any unexpended amounts will remain the property of the Company upon termination of the management agreements, franchise agreements or mortgage loan documents. As of December 31, 2015 and December 31, 2014, approximately \$55.5 million and \$63.1 million, respectively, was available in the restricted cash reserves for future capital expenditures, real estate taxes and insurance.

Litigation

Neither the Company nor any of its subsidiaries are currently involved in any regulatory or legal proceedings that management believes will have a material adverse effect on the financial position, results of operations or cash flows of the Company.

Data Breach

During the first quarter of 2014, one of the Company's third-party hotel managers notified the Company of a data breach that occurred over a nine-month period ending in December 2013 affecting a number of hotels it manages, including seven hotels that are owned by the Company. During the first quarter of 2015, the same third-party hotel manager notified the Company of a second data breach that occurred over a seven-month period ending in February 2015 affecting a number of hotels it manages, including six hotels owned by the Company. The third-party hotel manager is cooperating with the relevant authorities in their investigations of these criminal cyber-attacks. The Company and its third-party hotel manager are continuing to take steps to assess and further strengthen information security systems.

The Company believes that each of the credit card companies impacted may seek to impose fines, fees or assessments in connection with the breach against various parties, including the Company. The Company may also incur other costs, including legal fees and other professional services fees, related to investigating the breach. Because the investigation into each of these matters is ongoing and certain factual and legal questions remain unanswered, the Company is unable to estimate with certainty the total costs, fines, fees or assessments that may be associated with any potential claims. However, the Company currently believes that any amounts that the Company may ultimately be required to pay as a result of this incident will not be material to its financial position, results of operations or cash flows.

F-26

Table of Contents

Management Agreements

As of December 31, 2015, 126 of the Company's hotel properties were operated pursuant to long-term management agreements with initial terms ranging from 3 to 25 years, with 15 different management companies as noted in the table below. This number includes five and ten hotels that receive the benefits of a franchise agreement pursuant to management agreements with Marriott and Hyatt, respectively.

Management Company	Number of Hotels
Aimbridge Hospitality	3
Concord Hospitality Enterprises Company	1
Crestline Hotels and Resorts	1
Davidson Hotels and Resorts	1
Embassy Suites Management	3
HEI Hotels and Resorts	1
Highgate Hotels	6
Hyatt Corporation and affiliates	10
Interstate Hotels and Resorts	11
InnVentures	3
K Partners Hospitality Group	1
Marriott Hotel Services	5
Sage Hospitality	4
Urgo Hotels	4
WLS	72
	126

Each management company receives a base management fee generally between 3.0% and 3.5% of hotel revenues. Management agreements that include the benefits of a franchise agreement incur a base management fee generally equal to 7.0% of hotel revenues. The management companies are also eligible to receive an incentive management fee if hotel operating income, as defined in the management agreements, exceeds certain thresholds. The incentive management fee is generally calculated as a percentage of hotel operating income after the Company has received a priority return on their investment in the hotel. Management fees are included in management and franchise fee expense in the accompanying consolidated statements of operations.

For the years ended December 31, 2015, 2014 and 2013, the Company incurred management fee expense, including amortization of deferred management fees, of approximately \$44.1 million, \$43.2 million and \$35.0 million, respectively, (excluding discontinued operations).

Franchise Agreements

As of December 31, 2015, 111 of the Company's hotel properties are operated under franchise agreements with initial terms ranging from 10 to 30 years. This number excludes five and ten hotels that receive the benefits of a franchise agreement pursuant to management agreements with Marriott and Hyatt, respectively. Franchise agreements allow the properties to operate under the respective brands. Pursuant to the franchise agreements, the Company pays a royalty fee, generally between 4.0% and 6.0% of room revenue, plus additional fees for marketing, central reservation systems and other franchisor costs generally between 1.0% and 4.3% of room revenue. Certain hotels are also charged a royalty fee generally between 1.0% and 3.0% of food and beverage revenues. Franchise fees are included in management and franchise fee expense in the accompanying consolidated statements of operations.

For the years ended December 31, 2015, 2014 and 2013, the Company incurred franchise fee expense of approximately \$72.3 million, \$71.6 million and \$64.2 million, respectively (excluding discontinued operations).

F-27

Table of Contents

10. Equity

Common Shares of Beneficial Interest

Under the original declaration of trust of the Company, the total number of shares initially authorized for issuance was 100,000 common shares. At formation, the Company issued to each of its two initial shareholders 500 common shares at \$1 per share, which shares were subsequently redeemed. On May 5, 2011, the declaration of trust was amended to authorize the issuance of up to 450,000,000 common shares.

On March 25, 2013, the Company issued and sold 15,870,000 common shares of beneficial interest at a price per share of \$21.60, for total gross proceeds of \$342.8 million. The Company received aggregate net proceeds of approximately \$327.5 million. The Company used the net proceeds from the offering to repay amounts outstanding on its unsecured revolving credit facility, to repay mortgage indebtedness and for general corporate purposes.

On May 22, 2014, the Company issued and sold 9,200,000 common shares of beneficial interest at a price per share of \$26.45, for total gross proceeds of \$243.3 million. The Company received aggregate net proceeds of approximately \$232.7 million.

On May 1, 2015, the Company's board of trustees authorized a share repurchase program to acquire up to \$200.0 million of the Company's common shares through April 30, 2016. On October 30, 2015, the Company's board of trustees extended the duration of the share repurchase program to December 31, 2016 and increased the amount by \$200.0 million to a total of \$400.0 million. Between May 1, 2015 and December 31, 2015, the Company repurchased and retired 8,044,372 of its common shares for approximately \$225.2 million.

Preferred Shares of Beneficial Interest

Under the original declaration of trust of the Company, the total number of shares initially authorized for issuance was 10,000 preferred shares. On May 5, 2011, the declaration of trust was amended to authorize the issuance of up to 50,000,000 preferred shares. As of both December 31, 2015 and 2014, respectively, there were no preferred shares of beneficial interest outstanding.

Noncontrolling Interest in Joint Venture

As of December 31, 2015, the Company consolidated DBT Met Hotel Venture, LP, a majority-owned limited partnership that has a third-party partner that owns a noncontrolling 1.7% ownership interest. The third-party partnership interest is included in noncontrolling interest in joint venture on the consolidated balance sheets.

Noncontrolling Interest in Operating Partnership

The Company consolidates its Operating Partnership, a majority-owned limited partnership that has a noncontrolling ownership interest and is included in noncontrolling interest in Operating Partnership on the consolidated balance sheets. As of December 31, 2015, the Operating Partnership had 125,529,675 OP units outstanding, of which 99.3% were owned by the Company and its subsidiaries and 0.7% were owned by other limited partners.

The outstanding OP units held by limited partners are redeemable for cash, or at the option of the Company, for a like number of common shares of beneficial interest of the Company.

11. Equity Incentive Plan

On May 1, 2015, the Company's shareholders approved the RLJ Lodging Trust 2015 Equity Incentive Plan (the "2015 Plan"), which constitutes an amendment and restatement of the RLJ Lodging Trust 2011 Equity Incentive Plan (the "2011 Plan"), including an increase in the total number of available shares under the 2015 Plan by 2,500,000 shares and changes to certain other terms of the 2011 Plan. The Company may issue equity-based awards to officers, employees, non-employee trustees and other eligible persons under the 2015 Plan. The 2015 Plan provides for a maximum of 7,500,000 common shares of beneficial interest to be issued in the form of share options, share appreciation rights, restricted share awards, unrestricted share awards, share units, dividend equivalent rights, long-term incentive units, other equity-based awards and cash bonus awards.

Table of Contents

Share Awards

From time to time, the Company may award unvested restricted shares under the 2015 Plan, as compensation to officers, employees and non-employee trustees. The shares issued to officers and employees vest over a period of time as determined by the board of trustees at the date of grant. The Company recognizes compensation expense for the time-based unvested restricted shares on a straight-line basis over the vesting period based upon the fair market value of the shares on the date of issuance, adjusted for forfeitures.

The Company may also award unrestricted shares under the 2015 Plan as compensation to non-employee trustees that would otherwise be paid in cash for their services. The shares issued to non-employee trustees are unrestricted and include no vesting conditions. The Company recognizes compensation expense for the unrestricted shares issued in lieu of cash compensation on the date of issuance based upon the fair market value of the shares on that date.

A summary of the unvested shares as of December 31, 2015, 2014 and 2013 is as follows:

	2015		2014		2013	
	Number of Shares	Weighted Average Grant Date Fair Value	Number of Shares	Weighted Average Grant Date Fair Value	Number of Shares	Weighted Average Grant Date Fair Value
Unvested at January 1,	731,459	\$ 21.21	932,800	\$ 18.99	1,013,673	\$ 17.80
Granted (1)	292,505	32.10	348,234	24.46	383,187	21.25
Vested (1)	(470,703)	21.52	(537,988)	19.44	(458,808)	18.24
Forfeited	(12,376)	25.65	(11,587)	22.89	(5,252)	20.07
Unvested at December 31,	540,885	\$ 26.73	731,459	\$ 21.21	932,800	\$ 18.99

For the years ended December 31, 2015, 2014 and 2013, respectively, 5,008, 4,347 and 5,357 unrestricted shares (1) were issued in lieu of cash compensation to non-employee trustees at a weighted average grant date fair value of \$26.43, \$29.31 and \$23.20, respectively.

For the years ended December 31, 2015, 2014 and 2013, the Company recognized approximately \$9.6 million, \$10.6 million and \$8.6 million, respectively, of share-based compensation expense related to the restricted share awards. As of December 31, 2015, there was \$13.5 million of total unrecognized compensation costs related to unvested restricted share awards and these costs are expected to be recognized over a weighted-average period of 2.4 years. The total fair value of the shares vested (calculated as number of shares multiplied by the vesting date share price) during the years ended December 31, 2015, 2014 and 2013 was approximately \$14.0 million, \$15.5 million and \$10.5 million, respectively.

Performance Units

In July 2012, the Company awarded performance units to certain employees. The performance units vested over a four-year period, including three years of performance-based vesting (the "measurement period") plus an additional one year of time-based vesting. In July 2015, following the end of the measurement period, the Company issued 838,934 restricted shares upon conversion of the performance units. Half of the restricted shares vested immediately with the remaining half vesting in July 2016. As of December 31, 2015, there were 419,467 unvested restricted shares related to the conversion of the performance units.

For the years ended December 31, 2015, 2014 and 2013, the Company recognized \$3.4 million, \$4.5 million and \$4.5 million, respectively, of share-based compensation expense related to the performance unit awards. As of

December 31, 2015, there was \$1.1 million of total unrecognized compensation cost related to the performance unit awards. The total fair value of the vested restricted shares related to the conversion of the performance units (calculated as the number of restricted shares issued multiplied by the vesting date share price) during the year ended December 31, 2015 was approximately \$12.6 million.

As of December 31, 2015, there were 4,122,417 common shares available for future grant under the 2015 Plan.

F-29

Table of Contents

12. Earnings per Common Share

Basic earnings per common share is calculated by dividing net income attributable to common shareholders by the weighted-average number of common shares outstanding during the period excluding the weighted average number of unvested restricted shares outstanding during the period. Diluted earnings per common share is calculated by dividing net income attributable to common shareholders by the weighted average number of common shares outstanding during the period, plus any shares that could potentially be outstanding during the period. The potential shares consist of the unvested restricted share grants and unvested performance units, calculated using the treasury stock method. Any anti-dilutive shares have been excluded from the diluted earnings per share calculation.

Unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating shares and are considered in the computation of earnings per share pursuant to the two-class method. If there were any undistributed earnings allocable to participating shares, they would be deducted from net income attributable to common shareholders used in the basic and diluted earnings per share calculations.

For the years ended December 31, 2015 and 2013, approximately \$0.4 million and \$0.1 million, respectively, represented the undistributed earnings that were allocable to participating shares. For the year ended December 31, 2014, no earnings represented the undistributed earnings that were allocated to participating shares because the Company paid dividends in excess of net income.

The limited partners' outstanding limited partnership units in the Operating Partnership (which may be redeemed for common shares of beneficial interest under certain circumstances) have been excluded from the diluted earnings per share calculation as there was no effect on the amounts for the years ended December 31, 2015, 2014 and 2013, since the limited partners' share of income would also be added back to net income attributable to common shareholders.

F-30

Table of Contents

The computation of basic and diluted earnings per common share is as follows (in thousands, except share and per share data):

	For the year ended December 31,		
	2015	2014	2013
Numerator:			
Income from continuing operations attributable to common shareholders, including gain on disposal of hotel properties	\$218,221	\$135,441	\$105,539
Add: Income from discontinued operations	—	—	7,382
Net income attributable to common shareholders	218,221	135,441	112,921
Less: Dividends paid on unvested restricted shares	(1,180)	(951)	(936)
Less: Undistributed earnings attributable to unvested restricted shares	(378)	—	(61)
Net income attributable to common shareholders excluding amounts attributable to unvested restricted shares	\$216,663	\$134,490	\$111,924
Denominator:

Impact of rate change	46	42	(94
Other permanent items	(416) (418) (443
Impact of acquired tax attributes	—	(5) 361
Impact of provision to return	309	370	71
Income tax benefit (expense)	\$39,126	\$(1,145) \$(879

Table of Contents

Deferred income taxes represent the tax effect from continuing operations of the differences between the book and tax basis of assets and liabilities. Deferred tax assets (liabilities) include the following (in thousands):

	December 31,	
	2015	2014
Deferred tax liabilities:		
Property and equipment	\$(7,660) \$(5,354
Prepaid expenses	(1,780) (2,362
Other - deferred tax liabilities	(361) (163
Deferred tax liabilities	\$(9,801) \$(7,879
Deferred tax assets:		
Property and equipment	\$793	\$—
Deferred revenue - key money	2,668	1,429
Incentive and vacation accrual	1,769	2,627
Allowance for doubtful accounts	46	65
Other - deferred tax assets	689	191
Other carryforwards	204	158
Net operating loss carryforwards	53,985	54,355
Valuation allowance	(10,176) (51,323
Deferred tax assets	\$49,978	\$7,502

The Company records a valuation allowance to reduce its deferred tax assets to the amount that is most likely to be utilized in future periods to offset taxable income. As of December 31, 2014, the Company had a valuation allowance of approximately \$51.3 million related to net operating loss (“NOL”) carryforwards and other deferred tax assets of its TRSs. Based upon the available evidence at December 31, 2015, the Company determined it was most likely that the deferred tax assets related to the NOL carryforwards of its primary TRS would be utilized in future periods. As a result, the Company released the valuation allowance against these deferred tax assets and recorded a deferred tax benefit of \$39.9 million for the year ended December 31, 2015. The Company considered all available evidence, both positive and negative, including cumulative income in recent years and its current forecast of future income in its analysis. While the Company believes its forecast of future income is reasonable, it is inherently uncertain. If the Company’s projections of future income are lower than expected, the Company may need to reestablish the valuation allowance. As of December 31, 2015, the Company had a remaining valuation allowance of approximately \$10.2 million related to the NOL carryforwards of another TRS entity which the Company believed was not likely to be utilized in future periods.

The Company’s NOLs will begin to expire in 2028 for federal tax purposes and during the period from 2018 to 2028 for state tax purposes. Additionally, the annual utilization of these NOLs is limited pursuant to Section 382 of the Code.

The net current and non-current components of deferred income taxes included in the consolidated balance sheets are as follows (in thousands):

	December 31,	
	2015	2014
Current net deferred tax assets	\$2,461	\$616
Current net deferred tax liabilities	(2,141) (2,524
Non-current net deferred tax assets	47,517	6,886
Non-current net deferred tax liabilities	(7,660) (5,355
Net deferred tax asset (liability)	\$40,177	\$(377

The Company had no accruals for tax uncertainties as of December 31, 2015 and 2014.

Table of Contents

14. Segment Information

The Company separately evaluates the performance of each of its hotels. However, because each of the hotels has similar economic characteristics, facilities, and services, the hotel properties have been aggregated into a single operating segment.

15. Supplemental Information to Statements of Cash Flows (in thousands)

	For the year ended December 31,		
	2015	2014	2013
Interest paid, net of capitalized interest	\$48,524	\$52,424	\$59,826

17. Quarterly Operating Results (unaudited)

The Company's unaudited condensed consolidated quarterly operating data for the years ended December 31, 2015 and 2014 follows (in thousands, except share and per share data). In the opinion of management, all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of quarterly results have been reflected in the data. It is also management's opinion, however, that quarterly operating data for the hotel properties are not indicative of results to be achieved in succeeding years or quarters. In order to obtain a more accurate indication of performance, there should be a review of operating results, changes in shareholders' equity and cash flows for a period of several years.

	Year ended December 31, 2015			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
Total revenue	\$270,405	\$301,252	\$289,420	\$275,263
Net income	\$48,102	\$56,410	\$40,933	\$74,367
Net income attributable to common shareholders	\$47,850	\$55,991	\$40,594	\$73,786
Comprehensive income	\$38,447	\$61,910	\$25,428	\$89,478
Basic per share data:				
Net income attributable to common shareholders	\$0.36	\$0.43	\$0.32	\$0.58
Diluted per share data:				
Net income attributable to common shareholders	\$0.36	\$0.42	\$0.31	\$0.59
Basic weighted average common shares outstanding	131,272,611	130,670,629	127,663,480	124,256,834
Diluted weighted average common shares outstanding	132,286,542	131,618,693	128,143,154	124,679,650
	Year ended December 31, 2014			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
Total revenue	\$236,373	\$295,047	\$297,666	\$280,111
Net income	\$11,985	\$53,361	\$37,064	\$34,070
Net income attributable to common shareholders	\$11,932	\$52,904	\$36,760	\$33,845
Comprehensive income	\$10,571	\$45,991	\$42,327	\$28,849
Basic per share data:				
Net income attributable to common shareholders	\$0.10	\$0.42	\$0.28	\$0.26
Diluted per share data:				
Net income attributable to common shareholders	\$0.10	\$0.42	\$0.28	\$0.25
Basic weighted average common shares outstanding	121,740,962	125,260,607	131,106,440	131,189,673
