Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of

Choice Hotels International, Inc. Retirement Savings and Investment Plan

We have audited the accompanying statements of net assets available for benefits of Choice Hotels International, Inc. Retirement Savings and Investment Plan (the Plan) as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2013, as listed in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

CHOICE HOTELS INTERNATIONAL, INC.

RETIREMENT SAVINGS AND INVESTMENT PLAN

Notes to the Financial Statements

Note 1 Description of the Plan

Choice Hotels International, Inc. (Choice or the Company) is in the business of hotel franchising. Choice franchises over 6,000 hotels open and operating under the following brand names: Comfort Inn®, Comfort Suites®, Quality®, Clarion®, Cambria Suites®, Sleep Inn®, Econo Lodge®, Rodeway Inn®, MainStay Suites®, Suburban Extended Stay Hotel®, and Ascend Hotel Collection®. The Company's Retirement Savings and Investment Plan (the Plan) is a defined contribution salary deferral plan available to the eligible employees of Choice. Merrill Lynch Trust Company (Merrill Lynch or the Trustee) is the Plan trustee. The following description of the Plan provides only general information, and participants should refer to the plan document for a more complete description of the plan's provisions.

General The Plan is a defined contribution plan established effective October 15, 1997. The plan document was amended and restated effective January 1, 2009 to comply with the Internal Revenue Code (IRC) and other regulatory requirements. The Plan document was amended again effective January 1, 2013 to provide participants the option to change or suspend their level of plan contributions on a monthly basis. Additionally, effective October 2013, the plan document was amended so that Choice common stock is no longer available to participants for additional investments as detailed below. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility and Contributions All employees of Choice are eligible to participate in the Plan if they are at least 21 years of age and have completed three months of service. Participants may elect to contribute up to a maximum amount per calendar year subject to Internal Revenue Service (IRS) limitations, which was \$17,500 in 2013. Catch-up contributions up to a maximum of \$5,500 were allowed during 2013 under IRS regulations for participants who were age 50 or older. Participants are immediately vested in all participant contributions and earnings (losses) on such contributions.

Participants direct the investment of their contributions into various investment options offered by the Plan. As of January 1, 2013, the Plan offered a variety of mutual funds, common/collective trusts, Choice Hotels International, Inc. common stock (Choice common stock) and a self-directed brokerage option as investment options for participants. In 2013, the Plan was amended to state that Choice common stock was no longer an investment option for contributions made after September 30, 2013; however, participants were allowed to retain their existing investments in Choice common stock.

Employee contributions are recorded in the period during which the Company makes payroll deductions from the participants' eligible earnings. All participants have the option to change or suspend their level of plan contributions on a monthly basis.

Certain participants' accounts may include fractional shares of Choice common stock. Choice common stock held by the Trustee on behalf of each participant shall be voted by the Trustee as directed by the participant to whose accounts such stock is credited. Fractional shares may be combined and voted by the Trustee to the extent possible to reflect the instructions of the participants credited with such shares.

The Company has invoked the safe harbor matching contribution provisions provided for in the plan document. Pursuant to these provisions, the Company matching contribution is an amount equal to 100 percent of the participants

contributions up to 3 percent of eligible compensation, plus 50 percent of the participants' contributions on the next 2 percent of eligible compensation. Company matching contributions are made each pay period in the form of cash and invested as elected by the plan participants. All investments are participant directed.

Employees hired on or before January 1, 2000 receive an additional discretionary matching contribution equal to 200 percent on the next 1 percent of eligible compensation provided that the employee worked 1,000 hours and was employed by the Company as of the last day of the plan year. The discretionary matching contribution is credited to participants' accounts during the first quarter of the following year.

Each participant account is credited with participant contributions and allocations of the Company's matching contributions and plan earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 Description of the Plan Continued

Vesting Participants immediately vest 100 percent in the employer matching contributions and discretionary matching contributions.

Payment of Benefits Upon termination of service, a participant may elect to receive either a cash lump sum amount equal to the value of the participant's entire interest in his or her account, or annual, semi-annual, quarterly, or monthly installments over a fixed period not to exceed 20 years.

Upon separation from service, a participant also may elect that all or a portion of the participant's common stock account be distributed in the form of shares of Choice common stock, with voting rights applicable to that stock. Such distribution is made entirely in whole shares and any partial shares held by the participant will be distributed in the form of cash.

Participants who separate from Choice with balances of more than \$5,000 may retain their accounts in the Plan, roll their balances into other qualified plans or individual retirement accounts (IRAs), or receive lump sum payments, net of applicable federal and state taxes. Participants who separate from Choice with balances of \$5,000 or less may roll their balances into other qualified plans or IRAs or receive lump-sum payments, net of applicable federal and state taxes. Under the Automatic Rollover of Forced-Outs provision of the Economic Growth and Tax Relief Reconciliation Act, plan sponsors are required to rollover directly into an IRA forced-out distributions of amounts in excess of \$1,000 and less than or equal to \$5,000 unless the participants elect otherwise. For participants with balances of less than \$1,000, lump-sum distributions are made, net of applicable federal and state taxes.

Notes Receivable from Participants The Plan permits participants to borrow from their accounts a minimum of \$750 up to the lesser of \$50,000 or 50 percent of their vested account balances. Participants may not have more than one loan outstanding at a time.

Loans are repaid during fixed terms not to exceed five years (or over a reasonable period of time not to exceed 30 years for principal home loans). Principal and interest must be paid through payroll deductions; however, early pay-off of loans is permitted.

Interest rates are equal to 1 percent above the Wall Street Journal Prime Rate on the last day of the prior month in which the loan is issued. Interest rates on loans outstanding as of December 31, 2013 and 2012 ranged from 4.25 percent to 9.25 percent with various dates of maturity through 2042. An annual loan processing fee of \$50 is charged to the participant's account.

Rollovers Rollovers represent transfers of account balances of certain participant contributions into certain investments of the Plan from other qualified plans.

Administrative Expenses All administrative expenses, including investment management and trustee fees, are charged to the Plan. Any difference between the investment earnings and administrative expenses are calculated on a quarterly basis and paid from participant accounts on a pro-rata basis. Participant accounts also are charged loan-processing fees and self-directed investment account fees. During the year ended December 31, 2013, the Plan incurred administrative expenses in excess of investment earnings totaling \$147,930 of which \$26,179 is payable to Choice as of December 31, 2013. Legal expenses totaling \$37,080 were paid by Choice during 2013 and are not subject to reimbursement.

Basis of Accounting The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates The preparation of financial statements in conformity with U.S. GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 2 Summary of Significant Accounting Policies

Investment Valuation and Income Recognition The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest earned on investments is recorded on an accrual basis. All income (losses) are allocated daily to participant accounts.

Note 2 Summary of Significant Accounting Policies - Continued

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, investments in common collective trusts are reflected at their net asset value or net unit value. For fully responsive investment contracts, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. At times, the Plan has invested in investment contracts through common collective trusts. When the Plan is invested in these investment contracts, the statement of net assets available for benefits presents the fair value of the investment in the common collective trusts as well as the adjustment of the investment in the common collective trust from fair value to contract value relating to the investment contracts and the statement of changes in net assets available for benefits is prepared on a contract value basis.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its investments, which consists of the realized gains and losses and the unrealized appreciation and depreciation on those investments.

Risks and Uncertainties The Plan provides for various mutual fund investment options in stocks, bonds, money market funds, and fixed income securities as well as for direct common stock investment. Investments are exposed to various risks, such as interest rate, market and credit risk. The market value of investments may decline for a number of reasons, including, among others, changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants Notes receivable from participants are recorded at principal less repayments plus accrued interest.

Payment of Benefits Benefit claims are recorded in the period in which they are paid. As of December 31, 2013, there were no instances of participants who had elected to withdraw from the Plan but had not yet been paid.

Subsequent Events The Plan has evaluated subsequent events through June 24, 2014, the date of the issuance of the financial statements.

Note 3 Fair Value Measurements

The Plan estimates the fair value of its financial instruments utilizing a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The following summarizes the three levels of inputs, as well as the assets that the Plan values using those levels of inputs for assets required to be measured at fair value on a recurring basis.

Level 1 - Quoted prices in active markets for identical assets and liabilities. The Plan's Level 1 assets consist of cash, mutual funds and common stocks.

Level 2 -

Observable inputs, other than quoted prices in active markets for identical assets and liabilities, such as quoted prices for similar assets and liabilities; quoted prices in markets that are not active; or other inputs that are observable. The Plan's Level 2 assets consist of common collective trusts and money market funds.

Level 3 - Unobservable inputs, supported by little or no market data available, where the reporting entity is required to develop its own assumptions to determine the fair value of the instrument. The Plan does not have any Level 3 assets required to be measured at fair value on a recurring basis.

The Plan discloses significant transfers between levels based on valuations at the end of each reporting period. At December 31, 2013, there were no transfers between Level 1 and Level 2 based on levels assigned to the financial instruments on December 31, 2012.

Common Stocks Valued at the closing price reported on the active market on which the individual securities are traded at year end.

Mutual Funds Valued at the quoted market prices of shares held by the Plan at the year end.

Note 3 Fair Value Measurements Continued

Common Collective Trusts Valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year end, based on the fair value of the underlying investments. Redemptions of investments in the common collective trusts may be made daily without a notice period. The net unit values of the tiers of the common collective trusts are determined as of the close of each business day.

At December 31, 2013 and 2012, the investments held by the common collective trusts consisted of short-term fixed-income securities, equity securities, traditional and synthetic guaranteed investment contracts issued by insurance companies and wrapper contracts issued by a third party. Synthetic guaranteed investment contracts are portfolios of securities (debt securities or units of collective trusts) owned by a trust with wrap contracts associated with the portfolios. The investment in these trusts is reflected at net unit value, which for certain investments represent, the contract value. The fair value of these wrap contracts is determined based on the change in the present value of each contract's replacement cost. Short-term fixed income securities are valued using an amortized cost that generally approximates the current fair value of these securities and equity securities valued at the closing price reported on the active market on which the individual securities are traded.

Money Market Fund The money market fund consists primarily of unallocated cash which is valued at cost and approximates fair value.

The following table sets forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis, at December 31, 2013:

	Level 1	Level 2	Level 3	Total
Mutual Funds				
Fixed Income	\$ 9,527,264	\$	\$	\$ 9,527,264
Balanced	7,274,105			7,274,105
Index	271,810			271,810
Large Cap Equity	16,103,947			16,103,947
Mid Cap Equity	4,860,797			4,860,797
Small Cap Equity	6,192,527			6,192,527
International Equity	11,702,356			11,702,356
Emerging Markets	53,027			53,027
Specialty	40,475			40,475
Common Stock	11,226,727			11,226,727
Common Collective Trusts		41,158,408		41,158,408
Money Market Funds		327,065		327,065
Cash	88,419			88,419

Total Assets at Fair Value	\$67,341,454	\$ 41,485,473	\$	\$ 108,826,927
----------------------------	--------------	---------------	----	----------------

Note 3 Fair Value Measurements Continued

The following table sets forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis, at December 31, 2012:

	Level 1	Level 2	Level 3	Total
Mutual Funds				
Fixed Income	\$ 9,520,213	\$	\$	\$ 9,520,213
Balanced	5,131,337			5,131,337
Index	194,016			194,016
Large Cap Equity	12,512,719			12,512,719
Mid Cap Equity	3,097,575			3,097,575
Small Cap Equity	5,136,770			5,136,770
International Equity	9,892,849			9,892,849
Emerging Markets	46,144			46,144
Specialty	20,096			20,096
Common Stock	9,282,775			9,282,775
Common Collective Trusts		34,889,713		34,889,713
Money Market		189,235		189,235
Cash	843			843
Total Assets at Fair Value	\$ 54,835,337	\$ 35,078,948	\$	\$ 89,914,285

Fair values estimated are made at a specific point in time, are subjective in nature and involve uncertainties and matters of significant judgment.

Note 4 Investments

The following presents investments, at fair value (other than the fully benefit-responsive investment contract disclosed at contract value), that represent 5 percent or more of the Plan's net assets:

		2013	2012
Northern Trust S&P 500 Equity Index	Common/Collective Trust	\$ 14,649,376	\$ 11,615,177
Choice Common Stock	Common Stock	10,735,360	8,974,488
Mainstay Large Cap Growth Fund	Mutual Fund	8,806,720	6,862,885
Invesco Stable Value Retirement	Common/Collective Trust	8,209,230	8,729,393
Invesco Van Kampen Equity & Income Fund	Mutual Fund	7,274,105	5,131,337
Invesco Van Kampen Growth & Income Fund	Mutual Fund	7,196,796	5,586,085
Northern Trust EAFE Index Fund	Common/Collective Trust	7,122,058	5,623,276
PIMCO Total Return Fund	Mutual Fund	6,574,360	6,448,781
Harbor International Fund	Mutual Fund	6,530,401	
Allianz NJF Small Cap Value Fund	Mutual Fund	5,704,941	4,930,256
Columbia International Value Fund	Mutual Fund		5,500,282

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual Funds	\$ 7,581,863
Common Collective Trusts	7,229,611
Common Stock	3,829,081

\$ 18,640,555

The Plan invests in the Invesco Stable Value Retirement Fund (ISVRF) maintained by the Invesco National Trust Company (the INTC). The ISVRF invests primarily in the Invesco Stable Value Trust, which is a fully benefit-responsive investment contract, the Invesco Group Trust for Retirement Savings Collective Funds and the Invesco Short-Term Investment Fund. The investments in the Trust for Retirement Savings Collective Funds and the Short-Term Investment Fund are reflected at transactional net asset value and the investments in the Stable Value Retirement Plan are reflected at net unit value. The INTC maintains contributions within the general accounts of the issuing insurance companies and banks. Consequentially, the ability to satisfy the terms of the insurance and bank contracts is dependent upon the general financial soundness of the issuers of those contracts. The insurance and bank contracts are not guaranteed by the U.S. government or any agency thereof. The contract value is included in the statements of net assets available for benefits at fair value as described in Note 2. The adjustment from fair value to contract value for the investment contract is based on the contract value as reported to the Plan by the INTC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The ISVRF's primary objectives are to seek preservation of principal and provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. The net unit values of the tiers of the ISVRF are determined at the close of each business day. In accordance with the terms of the trust agreement, participant units are redeemed only at the end of each day and at the net unit value at contract value,

provided that redeeming participant plans comply with a required one-year notice provision. When the market value of units is less than their contract value, participant plans may also elect to withdraw units at their market value upon 10 days notice. The ISVRF had no unfunded commitments at December 31, 2013 or 2012.

The fair values of the investment contracts at December 31, 2013 and 2012 were \$8,275,515 and \$8,803,007, respectively. As of December 31, 2013 and 2012, the average yield was 1.28 percent and 1.51 percent, respectively. The crediting interest rate was based on a formula agreed upon with the issuer. Such interest rates were reviewed on a quarterly basis for resetting. As of December 31, 2013 and 2012, the crediting interest rate was 1.27 percent and 1.69 percent, respectively.

Note 4 Investments Continued

Certain events, such as premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with the INTC. The Plan's administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with Plan's participants is not probable.

The Plan also invests in the Northern Trust Global Investments Collective Funds Trust (NTGT) which is comprised of 115 collective funds each with its own investment objectives. The NTGT established this trust for the commingling of assets of eligible employee benefit plan accounts. The Plan's investments in the NTGT include the Aggregate Bond Index Fund, EAFE Index Fund, Russell 2000 Index Fund, S&P 400 Index Fund and the S&P 500 index fund. The primary objective of these funds is to provide investment results that approximate the overall performance of the corresponding market indices each fund seeks to replicate. The NTGT funds are valued on a daily basis using the ending number of units outstanding and the net assets of the funds on that date. Admissions and withdrawals are recorded at the unit value determined on the valuation date and shall be made only as of the valuation date in accordance with the terms of the trust. The NTGT had no unfunded commitments at December 31, 2013 or 2012.

Note 5 Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2013 and 2012:

	2013	2012
Net assets available for benefits - financial statements	\$ 110,722,568	\$ 91,856,011
Adjustment from contract value to fair value for interest in common collective trusts relating to fully benefit-responsive investment contracts	66,285	73,614
Net assets available for benefits per Form 5500	\$ 110,788,853	\$ 91,929,625

The following is a reconciliation of the statement of changes in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2013:

Net increase in net assets available for benefits financial statements	\$ 18,866,557
Adjustment from contract value to fair value for interest in common collective trusts relating to fully benefit-responsive investment contracts	(7,329)
Increase in net assets available for benefits per Form 5500	\$ 18,859,228

Note 6 Federal Income Tax Status

On July 29, 2009, the Plan received a favorable determination letter from the IRS. The Plan was further amended effective October 1, 2013. The Plan is intended to satisfy the tax qualification requirements under Section 401(a) of the IRC therefore, the funds of the Plan are intended to be exempt from federal income taxes under the applicable sections of the IRC. The plan administrator believes that the Plan, as amended, is designed and is currently being operated in compliance with the applicable requirements of the IRC.

With respect to uncertain income tax positions, a tax liability is recorded in full when the Plan determines that the position does not meet the more likely than not threshold of being sustained on examination. A tax liability also may be recognized for a position that meets the more likely than not threshold, based on the Plan's assessment of the position's probable settlement value. The Plan records interest and penalties on unrecognized tax benefits in the provision for income taxes. As of December 31, 2013 and 2012, the Plan did not have any unrecognized tax positions. The Plan is generally no longer subject to income tax examinations for years prior to 2010.

Note 7 Plan Termination

Although it has not expressed any intent to do so, Choice has the right under the Plan's provisions to discontinue the Company's contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the net assets of the Plan will be distributed to the participants.

Note 8 Party-in-Interest Transactions

Certain Plan investments including shares of mutual funds are managed by Merrill Lynch and BlackRock Investment Management LLC. Merrill Lynch is a trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions.

Certain Plan investments include shares of Choice common stock; therefore these transactions qualify as party-in-interest transactions.

During the year ended December 31, 2013, the Plan incurred administrative expenses payable to or paid by Choice as detailed in Note 2.

Total purchases and sales of Choice common stock during 2013 were \$458,073 (11,247 shares) and \$1,897,998 (47,060 shares), respectively. In addition, in-kind distributions of \$278,257 (12,528 shares) were made during the year. In-kind distributions are delivery of actual securities rather than their cash value. As of December 31, 2013 and 2012, the Plan held 218,598 and 266,939 shares of Choice common stock with a fair value of \$10,735,360 and \$8,974,488, respectively.

Notes receivable from participants also qualify as party-in-interest transactions.

CHOICE HOTELS INTERNATIONAL, INC.
