I. Operating Results and Financial Conditions

2014 Third Quarter in Review

Looking back at the global economy in the third quarter of 2014, the U.S. economy, buoyed by strong consumer spending, recovered steadily. In Europe, the economy remained sluggish, with deteriorating conditions in Russia potentially having a negative effect on the recovery in neighboring euro area countries. The pace of economic expansion in China was modest while other emerging countries in Southeast Asia and South America faced slowdowns in market growth due to economic stagnation. As for Japan, with the economy yet to recover from the decline following the rush in demand leading up to the hike in the country's consumption tax, growth fell short of the rate recorded in the same period of the previous year. As global growth projections get revised downward with each passing quarter, the outlook for the global economy grows increasingly uncertain.

Looking at the markets in which Canon operates amid these conditions, demand for office multifunction devices (MFDs) and laser printers maintained steady growth. Demand for interchangeable-lens digital cameras remained sluggish due to the delayed economic recovery in Europe and the still depressed demand in Japan following the rush in demand prior to the consumption tax increase, while in China demand showed hearty signs of recovery. As for digital compact cameras, demand continued to shrink in both developed countries and emerging markets. Looking at the market for inkjet printers, demand decreased slightly from the previous year. In the industry and others sector, a rebound in capital investment for both image sensors and memory devices led to a pickup in demand for semiconductor lithography equipment, while demand for lithography equipment used in the production of flat panel displays (FPDs) for tablets and TV screens increased, fueling continued customer investment.

The average values of the yen during the third quarter and first nine months of the year were ¥104.22 and ¥103.01 to the U.S. dollar, respectively, year-on-year depreciations of approximately ¥5 and ¥6, and ¥137.78 and ¥139.53 to the euro, respectively, year-on-year depreciations of approximately ¥7 and ¥12.

During the third quarter, although MFDs enjoyed hearty demand and industrial equipment sales increased, the delayed recovery in demand for interchangeable-lens digital cameras and the continued shrinking of the market for digital compact cameras led to reduced net sales. As a result, third-quarter net sales decreased 4.5% year on year to ¥872.2 billion (U.S.\$8,002 million). Net sales for the nine months ended September 30, 2014, totaled ¥2,667.3 billion (U.S.\$24,471 million), a year-on-year decline of 1.1%. The gross profit ratio for the third quarter rose 0.5 points year on year to 49.5% thanks to a production shift to highly profitable high-added-value products and ongoing cost-cutting activities at production sites along with the depreciation of the yen. The gross profit ratio for the first nine months of the year also increased by 1.9 points to 50.5%. Despite an increase in foreign-currency-denominated operating expenses due to the depreciation of the yen, Group-wide efforts to thoroughly reduce spending contributed to limiting the increase in operating expenses to just ¥359.6 billion (U.S.\$3,299 million), an increase of 0.9% year on year. As a result, third-quarter operating profit decreased by 20.7% year on year to ¥71.8 billion (U.S.\$659 million). Other income for the quarter increased by ¥10.9 billion (U.S.\$100 million) due to foreign currency exchange gains while income before income taxes decreased by 9.0% to ¥80.2 billion (U.S.\$735 million). Net income attributable to Canon Inc. decreased by 1.0% to ¥58.2 billion (U.S.\$534 million). Operating profit for the first nine months of the year increased by 8.7% to ¥265.0 billion (U.S.\$2,431 million) owing to the increased profit in the first half while income before income taxes increased 11.8% year on year to ¥276.3 billion (U.S.\$2,535 million). Net income attributable to Canon Inc. for the first nine months increased by 12.3% to ¥186.7 billion (U.S.\$1,713 million).

Basic net income attributable to Canon Inc. stockholders per share for the third quarter was ¥52.67 (U.S.\$0.48), an increase of ¥1.47 (U.S.\$0.01) compared with the corresponding quarter of the previous year, and ¥167.10 (U.S.\$1.53) for the first nine months of 2014, a year-on-year increase of ¥22.70 (U.S.\$0.21).

Results by Segment

Looking at Canon's quarterly performance by business unit, within the Office Business Unit, although sales of color office MFDs increased significantly from the year-ago period, led by healthy growth of the imageRUNNER ADVANCE C5200 series along with well-received new models, total sales volume remained at the same level as the previous year due to sluggish demand for monochrome models. As for high-speed continuous-feed printers, the Océ ColorStream 3000 series enjoyed solid sales. Among laser printers, although color multifunction models recorded sales growth, total sales volume decreased slightly from the year-ago period owing to the decrease in demand for monochrome models. Sales of consumables declined from the year-ago period, which had recorded strong sales. As a result, sales for the business unit totaled ¥482.3 billion (U.S.\$4,424 million), a year-on-year decline of 2.4%, while operating profit totaled ¥57.9 billion (U.S.\$531 million), decreasing 13.7%. Sales for the combined first nine months of the year totaled ¥1,513.9 billion (U.S.\$13,889 million), growing 2.4% year on year, while operating profit increased by 7.4% to ¥218.5 billion (U.S.\$2,004 million).

Within the Imaging System Business Unit, although sales volume of interchangeable-lens digital cameras declined owing to the shrinking market in Japan and other regional markets due to the delayed economic recovery, the advanced-amateur-model EOS 70D realized healthy growth, enabling Canon to maintain the top share in such major markets as Europe, the U.S. and Japan. As for digital compact cameras, despite a decline in total sales volume, sales of high-added-value models featuring high image quality and high-magnification zoom capabilities recorded solid growth, enabling the maintaining of a high market share. Looking at inkjet printers, amid the market contraction due to the delay in economic recovery, especially in Europe and Asia, sales volume for the quarter remained at the same level as the previous year while sales of consumable supplies increased from the year-ago period. As a result, third-quarter sales for the business unit decreased by 9.4% to ¥315.8 billion (U.S.\$2,898 million) year on year, while operating profit declined 23.9% to ¥43.3 billion (U.S.\$398 million). Sales for the first nine months totaled ¥941.0 billion (U.S.\$8,633 million), decreasing 8.9% year on year, while operating profit totaled ¥136.3 billion (U.S.\$1,251 million), a decrease of 3.8% year on year.

In the Industry and Others Business Unit, ongoing investment by memory device manufacturers in response to the healthy growth in demand for smartphones and tablets led to increased third-quarter unit sales of semiconductor lithography equipment while a recovery in investment for panels used for tablets and TV screens, boosted unit sales of FPD lithography equipment. Consequently, third-quarter sales for the business unit totaled ¥97.0 billion (U.S.\$890 million), an increase of 2.0% year on year, while operating profit recorded a loss of ¥5.0 billion (U.S.\$45 million) owing to investment into next-generation technologies, an improvement of ¥3.2 billion (U.S.\$29 million) from the year-ago period. Sales for the first nine months of the year grew 10.1% year on year to ¥282.1 billion (U.S.\$2,588 million), while operating profit posted a loss of ¥15.1 billion (U.S.\$138 million).

Cash Flow

During the first nine months of 2014, cash flow from operating activities totaled ¥398.6 billion (U.S.\$3,656 million), an increase of ¥55.2 billion (U.S.\$507 million) compared with the previous year owing to the increase in profit as well as an improvement in working capital. Although capital investment was focused on new products, cash flow from investing activities increased ¥23.8 billion (U.S.\$218 million) year on year to ¥231.4 billion (U.S.\$2,123 million) as a result of an outlay for the acquisition of Milestone Systems aimed at enhancing the network camera business. Accordingly, free cash flow totaled ¥167.2 billion (U.S.\$1,533 million), an increase of ¥31.4 billion (U.S.\$289 million) compared with the corresponding year-ago period.

Cash flow from financing activities recorded an outlay of ¥250.7 billion (U.S.\$2,300 million), mainly arising from the dividend payout and the repurchasing of treasury stock.

Owing to these factors, as well as the impact of foreign currency translation adjustments, cash and cash equivalents decreased by ¥81.6 billion (U.S.\$748 million) to ¥707.3 billion (U.S.\$6,489 million) from the end of the previous year.

Outlook

As for the outlook in the fourth quarter, with the economies of Europe and emerging countries appearing to be at a standstill, prospects for the future remain uncertain. As for the Japanese economy, projections indicate that more time will be needed to recover fully from the decline that followed the raising of the country's consumption tax. Looking at the U.S. economy, however, improved employment conditions and a steady recovery in consumer spending, offer a promising outlook for the year-end shopping season.

In the businesses in which Canon operates, demand for MFDs is projected to continue to expand moderately, mainly for color models, while demand in the laser printer market is expected to remain at the same level as the previous year. As for interchangeable-lens digital cameras, while Europe and Japan still await a market recovery, an upturn in demand is expected in the U.S. and Chinese markets. Within the digital compact camera market, although projections point to continued market contraction for low-end models, demand is expected to grow steadily for high-added-value models featuring high image quality and high-magnification zoom capabilities. Looking at inkjet printers, demand is expected to contract from last year's level due to the delayed recovery of the global economy. As for the industrial equipment market, manufacturers are expected to continue making capital outlays for semiconductor lithography equipment amid growing demand projected for memory devices and image sensors, as well as for FPD lithography equipment owing to a stable supply-and-demand balance for panels.

With regard to currency exchange rates for the fourth quarter, on which Canon's performance outlook is based, Canon anticipates exchange rates of ¥108 to the U.S. dollar and ¥137 to the euro, representing depreciations of approximately ¥7 against the U.S. dollar, and approximately ¥9 against the euro compared with the annual average rates of the previous year.

Upon taking into consideration these foreign exchange rate assumptions, Canon projects full-year consolidated net sales in 2014 of ¥3,740.0 billion (U.S.\$34,312 million), a year on year increase of 0.2%; operating profit of ¥370.0 billion (U.S.\$3,394 million), a year-on-year increase of 9.7%; income before income taxes of ¥380.0 billion (U.S.\$3,486 million), a year-on-year increase of 9.3%; and net income attributable to Canon Inc. of ¥250.0 billion (U.S.\$2,294 million), a year-on-year increase of 8.5%.

This document contains forward-looking statements with respect to future results, performance and achievements that are subject to risk and uncertainties and reflect management's views and assumptions formed by available information. All statements other than statements of historical fact are statements that could be considered forward-looking statements. When used in this document, words such as anticipate, believe, estimate, expect, intend, may, or should and similar expressions, as they relate to Canon, are intended to identify forward-looking statements. Many factors could cause the actual results, performance or achievements of Canon to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements, including, among others, changes in general economic and business conditions, changes in currency exchange rates and interest rates, introduction of competing products by other companies, lack of acceptance of new products or services by Canon's targeted customers, inability to meet efficiency and cost reduction objectives, changes in business strategy and various other factors, both referenced and not referenced in this document. A detailed description of these and other risk factors is included in Canon's annual report on Form 20-F, which is on file with the United States Securities and Exchange Commission. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein. Canon does not intend or assume any obligation to update these forward-looking statements.
