Annual Report

Global High Income Fund Inc.

Annual Report

October 31, 2014

Global High Income Fund Inc.:

Managed distribution policy key points to note

The Fund has a managed distribution policy. Effective June 2014, the Fund makes regular monthly distributions at an annualized rate equal to 6% of the Fund's net asset value, as determined as of the last trading day during the first week of a month (usually a Friday, unless the NYSE is closed that day). (From June 2012 through the monthly distribution for May 2014, the annualized rate had been 7% (which, consistent with the policy, in any given month may have been comprised of a combination of net investment income, short- and/or long-term capital gains, and/or a return of capital)).

To the extent that the Fund's taxable income in any fiscal year exceeds the aggregate amount distributed based on a fixed percentage of its net asset value, the Fund would make an additional distribution in the amount of that excess near the end of the fiscal year. To the extent that the aggregate amount distributed by the Fund (based on a percentage of its net assets) exceeds its current and accumulated earnings and profits, the amount of that excess would constitute a return of capital or net realized capital gains for tax purposes. A return of capital may occur, for example, when some or all of the money that shareholders invested in the Fund is deemed to be paid back to shareholders. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with yield or income.

You should not draw any conclusions about the Fund's investment performance from the amount of the monthly distribution or from the terms of the Fund's managed distribution policy.

The Fund periodically issues notices and press releases estimating the source characteristics of its monthly distributions. The estimated amounts and sources reported in these materials are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for accounting and tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV (or your financial intermediary should provide you with similar information) for the calendar year that will tell you how to report these distributions for federal income tax purposes.

The Fund's Board may change or terminate the managed distribution policy at any time without prior notice to Fund shareholders; any such change or termination may have an adverse effect on the market price for the Fund's shares.

Further information regarding the Fund's managed distribution policy is contained in the section captioned "Distribution policy" towards the end of this report.

Global High Income Fund Inc.

December 12, 2014

Dear shareholder,

We present you with the annual report for Global High Income Fund Inc. (the Fund) for the 12 months ended October 31, 2014 (the reporting period).

Performance

For the 12 months ended October 31, 2014, the Fund declined 0.24% on a net asset value basis and fell 0.48% on a market price basis. In comparison, the Fund's benchmark, the Global High Income Fund Index (the Index), gained 2.18%. Over the same period, the Fund's Lipper Emerging Markets Hard Currency Debt Funds peer group median returned 4.08% on a net asset value basis and returned 3.44% on a market price basis. (For more performance information, including a description of the Index, please refer to Performance at a glance on page 5.)

The Fund did not use structural leverage during the reporting period. That is, the Fund did not have preferred stock outstanding or borrow from banks for investment purposes, as some of its peers may have done. Leverage magnifies returns on both the upside and on the downside and creates a wider range of returns within the Fund's peer group.

Global High Income Fund Inc.

Investment goals:

NYSE symbol:

GHI

Distribution payments:

Monthly

The Fund traded at a discount to its net asset value (NAV), and the discount slightly widened during the reporting period. On the last trading day of the preceding fiscal year, which ended October 31, 2013, the Fund traded at a discount of 12.1%. At the close of the current reporting period, October 31, 2014, the Fund traded at a discount of 13.1%. As of the same dates, the Lipper peer group reported median discounts of 10.9% and 12.2%, respectively.

A fund trades at a discount when the market price at which its shares trade is less than its NAV per share. Alternatively, a fund trades at a premium when the market price at which its shares trade is greater than its NAV per share. The market price is the price the market is willing to pay for shares of a fund at a given time, and may be influenced by a range of factors, including supply and demand, and market conditions. NAV per share is determined by dividing the value of the Fund's securities, cash and other assets, less all liabilities, by the total number of common shares outstanding.

Market commentary

After a challenging start and given a sharp sell-off toward the end of the reporting period, the emerging markets debt asset class generated moderately positive results during the 12-month reporting period as a whole. Risk aversion was initially elevated amid rising US interest rates and concerns regarding global growth. The asset class began rallying in February. Given significant spread¹ widening in 2013 and January 2014, emerging markets debt valuations were more attractive, and investors may have felt that negative economic and geopolitical news had been largely priced into the market. Despite a number of headline risks, including Russia's actions in Ukraine and a number of issues in the Middle East, the asset class continued to move higher from March through August. Declining US interest rates have generally supported emerging markets bonds. However, risk aversion resumed in September and early October, given signs of weakening growth in many developed and emerging markets countries. That said, the asset class ended the reporting period on a positive note during the second half of October, as investor sentiment improved.

¹ Spread is the difference between the yields paid on a government bond (such as US Treasuries) and a security of a different quality, but with the same or similar maturity. When spreads widen, it implies the market is factoring in greater risk of default for the lower rated security; conversely, when spreads tighten, the market is factoring in less risk. Such movements in spreads generally result in changes in market prices for such securities.

Global High Income Fund Inc.

During the 12 months ended October 31, 2014, US dollar-denominated emerging markets debt, as measured by the JP Morgan Emerging Markets Bond Index Global (EMBI Global), returned 7.20%. Local market investments (emerging markets debt denominated in the currency of the issuer) returned -2.68%, as measured by the JP Morgan Government Bond Index-Emerging Markets Global Diversified (GBI-EM Global Diversified). Local debt posted a positive return due to attractive carry and a relatively stable yield environment in emerging markets countries; however, emerging markets currencies sold-off substantially, dragging down the overall total return.

Portfolio commentary

What worked

An overweight to Indonesian US dollar-denominated debt was additive for performance. Despite the country's high current account deficit, it outperformed the Index, as investor sentiment improved given expectations for structural reforms from its newly elected government.

An overweight to US dollar-denominated debt from several higher yielding countries contributed to performance. In particular, the Fund's overweight positions in Sri Lanka, Belarus and Mongolia were rewarded, as overall investor demand was solid given attractive yields.

An overweight to Indian quasi-sovereign² US dollar-denominated debt enhanced the Fund's results. India's US dollar-denominated debt outperformed the market as investor sentiment strengthened both preceding and following national elections amid expectations for meaningful political and economic reforms.

An underweight to Ukrainian US dollar-denominated debt was beneficial for results. During the second half of the reporting period, investors were increasingly focused on economic developments in Ukraine, rather than on political events. Given the already challenging financial situation, Ukraine needs long-term financial support to service its debt obligations.

Although the Fund's country selection in several US dollar-denominated emerging markets was positive for performance, this contribution was more than offset by underperformance from the Fund's exposure to Venezuela, positioning in local emerging markets, its duration underweight and somewhat limited exposure to certain well-performing countries, described further below.

What didn't work

An overweight to Venezuelan US dollar-denominated debt detracted from performance. Venezuela performed poorly from November 2013 through January 2014, along with the overall emerging markets debt asset class. Venezuelan US dollar-denominated debt again weakened in September and October, as investors were concerned about the large amount of debt maturing in October. Declining oil prices, coupled with political and economic

uncertainties, also led to spread widening.

The Fund's local currency overweight detracted from performance. Most local currencies fell sharply versus the US dollar late in the period, as the US dollar appreciated versus almost all other currencies due to a stronger economic forecast in the US. Expectations also increased that the US Federal Reserve Board would begin raising rates in 2015. In contrast, growth in many emerging markets countries moderated.

Security selection and an underweight to Argentinian US dollar-denominated debt was negative for performance. We moved from an overweight to an underweight position in late 2013/early 2014, given our concerns regarding the fundamentals and political backdrop in Argentina. After generating weak results during the first part of the reporting period, our underweight was not rewarded, as Argentinian US dollar-denominated debt rallied despite the technical default in August.

Duration positioning was a headwind for the Fund's performance. We tactically adjusted the Fund's duration, but had a shorter position versus that of the Index. This negatively impacted results as longer-term US Treasury yields declined during the reporting period.

Underweights to several Eastern European local debt markets detracted from the Fund's results. In particular, the Fund's underweights to Hungary and Poland were not rewarded, as they performed well given additional actions taken by the European Central Bank to support the eurozone.

² Quasi-sovereign bonds are securities issued by entities supported by the local government.

Global High Income Fund Inc.

Portfolio adjustments

Several adjustments were made to the portfolio during the reporting period.

In the first quarter of 2014, we reduced the Fund's exposure to Brazilian local debt in order to reduce the Fund's overall risk exposure and volatility.

Given weaker economic outlooks, we pared the Fund's exposure to several higher yielding local currencies, but remained overweight versus the Index.

In mid-October, we increased the Fund's US dollar-denominated debt exposure, given more attractive valuations.

Use of derivatives

The Fund continued to utilize a number of instruments to manage its overall currency exposure. Currency forwards were among the most commonly utilized derivative instruments. (A currency forward is an agreement between two parties to exchange a certain amount in currencies at a certain rate at a future date.) During the reporting period, the Fund's overall currency management strategy detracted from results.

The Fund used various types of credit-related instruments to manage its credit risk across emerging markets. Credit default swaps (a type of credit derivative) and credit linked notes (notes structured to provide exposure to an underlying bond or asset) were utilized to adjust the Fund's exposure to the debt of certain emerging markets countries. Whereas credit default swaps were generally used to adjust the Fund's US dollar-denominated debt exposure, the other instruments were employed almost exclusively to gain access to various local markets. The overall management of US dollar-denominated assets, including credit derivatives, detracted from performance, while local bond market exposure generally contributed to results, although this was offset by the weaker currency performance noted above.

The Fund utilized interest rate related derivative instruments, including, but not limited to, futures and swaps. Overall, duration and yield curve management detracted from performance during the reporting period.

Outlook

Many emerging markets countries are experiencing growth well above their major developed country counterparts, although the former are not immune to global developments. We expect to see emerging markets growth rates moderate somewhat in 2015, based on lower exports to developed markets. However, advantages in terms of growth and relatively low fiscal deficits are favorable for debt dynamics in emerging markets countries on a longer-term horizon. That said, in the short-term we are less favorable on the asset class and feel that volatility within the asset class could remain elevated in the near term due to market uncertainty and investor risk aversion. But overall, we

Edgar Filing: GLOBAL HIGH INCOME FUND INC - Form N-CSR

continue to have a positive long-term outlook for emerging markets investments. Solid fundamental data, stable reserves, a stronger fiscal situation and lower indebtedness are signs of such strengths, especially for emerging markets sovereigns, quasi-sovereigns and currencies.

We thank you for your continued support and welcome any comments or questions you may have. For additional information regarding your fund, please contact your financial advisor, or visit us at www.ubs.com/globalam-us.

Past performance does not predict future performance. The return and value of an investment will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. The Fund's net asset value (NAV) returns assume, for illustration only, that dividends and other distributions, if any, were reinvested at the NAV on the payable dates. The Fund's market price returns assume that all dividends and other distributions, if any, were reinvested at prices obtained under the Fund's Dividend Reinvestment Plan. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and other distributions, if any, or on the sale of Fund shares.

¹ The Global High Income Fund Index is an unmanaged index compiled by UBS Global Asset Management (Americas) Inc. constructed as follows: from the Fund's inception until 12/31/93: 100% J.P. Morgan Emerging Markets Bond Index (EMBI); from 01/01/94 to 11/05/06: 100% J.P. Morgan Emerging Markets Bond Index Global (EMBI Global); from 11/06/06 to 03/31/08: 70% J.P. Morgan Emerging Markets Bond Index Global (EMBI Global) and 30% J.P. Morgan Government Bond Index-Emerging Markets Diversified (GBI-EM Diversified); from 04/01/08 to 05/31/08: 50% J.P. Morgan Emerging Markets Bond Index Global (EMBI Global) and 50% J.P. Morgan Government Bond Index-Emerging Markets Diversified (GBI-EM Diversified); from 06/01/08 to present: 50% J.P. Morgan Emerging Markets Bond Index Global (EMBI Global) and 50% J.P. Morgan Government Bond Index-Emerging Markets Global Diversified (GBI-EM Global Diversified). Investors should note that indices do not reflect the deduction of fees and expenses.

² The J.P. Morgan Emerging Markets Bond Index Global (EMBI Global) is an unmanaged index which is designed to track total returns for US dollar-denominated debt instruments issued by emerging market sovereign and quasi-sovereign entities: Brady bonds, loans and Eurobonds. Investors should note that indices do not reflect the deduction of fees and expenses.

Lipper peer group data calculated by Lipper Inc.; used with permission. The Lipper median is the return of the fund that places in the middle of the peer group. Lipper classifies the Fund in its Emerging Markets Hard Currency Debt Funds category, which includes both leveraged and non-leveraged closed-end funds that seek either current income or total return by investing primarily in emerging market debt securities.

Any Fund performance information reflects the deduction of the Fund's fees and expenses, as indicated in shareholder reports, such as investment advisory and administration fees, custody fees, exchange listing fees, etc. It does not reflect any transaction charges that a shareholder may incur when (s)he buys or sells shares (e.g., a shareholder's brokerage commissions).

Investing in the Fund entails specific risks, such as interest rate risk and the risks associated with investing in the securities of issuers in emerging market countries. The value of the Fund's investments in foreign securities may fall due to adverse political, social and economic developments abroad and due to decreases in foreign currency values relative to the US dollar. Investments in emerging market issuers may decline in value because of unfavorable government actions, greater risks of political instability or the absence of accurate information about emerging market issuers. Further detailed information regarding the Fund, including a discussion of principal objectives, principal investment strategies and principal risks, may be found in the fund overview located at <http://www.ubs.com/closedendfundsinfo>. You may also request copies of the fund overview by calling the Closed-End Funds Desk at 888-793 8637.

¹ Prices and other characteristics will vary over time.²

Duration is a measure of price sensitivity of a fixed income investment or portfolio (expressed as % change in price) to a 1 percentage point (i.e., 100 basis points) change in interest rates, accounting for optionality in bonds such as prepayment risk and call/put features.

- ³ Breakdown represents a percentage of market value as of dates indicated. Forward foreign currency contracts are reflected at unrealized appreciation/depreciation; this may not align with the risk exposure described in the portfolio commentary section of the preceding shareholder letter which reflects forward foreign currency contracts based on contract notional amount. As of the most recent period end, October 31, 2014, the Fund maintained a risk exposure to non-U.S. dollar currencies equal to approximately 53% of the Fund.
- ⁴ Weightings represent percentage of net assets as of the dates indicated. The Fund's portfolio is actively managed and its composition will vary over time.
- ⁵ Weightings represent percentages of net assets as of the dates indicated. The Fund's portfolio is actively managed and its composition will vary over time. Credit quality ratings shown are based on those assigned by Standard & Poor's Financial Services LLC, a part of McGraw-Hill Financial (S&P), to individual portfolio holdings. S&P is an independent ratings agency. Ratings reflected represent S&P individual debt issue credit ratings. While S&P may provide a credit rating for a bond issuer (e.g., a specific company or country); certain issues, such as some sovereign debt, may not be covered or rated and therefore are reflected as non-rated for the purposes of this table. Credit ratings range from AAA, being the highest, to D, being the lowest, based on S&P's measures; ratings of BBB or higher are considered to be investment grade quality. Unrated securities do not necessarily indicate low quality. Further information regarding S&P's rating methodology may be found on its website at www.standardandpoors.com. Please note that any references to credit quality made in the commentary above may reflect ratings based on multiple providers (not just S&P) and thus may not align with the data represented in this table. S&P credit ratings were identified and selected for use in the credit quality table included above given their coverage of the asset class in which the Fund invests.

Total	\$ (49,459)	\$ (3,547,791)	\$	\$ (3,597,250)

At October 31, 2014, there were no transfers between Level 1 and Level 2.

Portfolio footnotes

¹ Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities are considered liquid, unless noted otherwise, and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At October 31, 2014, the value of these securities amounted to \$42,738,870 or 17.77% of net assets.

² Security exempt from registration pursuant to Regulation S under the Securities Act of 1933. Regulation S applies to securities offerings that are made outside of the United States and do not involve direct selling efforts in the United States. At October 31, 2014, the value of these securities amounted to \$63,113,924 or 26.23% of net assets.

³ Variable or floating rate security The interest rate shown is the current rate as of October 31, 2014 and changes periodically.

⁴ Security pays, when required, a floating rate that is determined annually based on the Argentina GDP.

Debt security whose principal and/or interest payments are adjusted for inflation, unlike debt securities that make fixed principal and interest payments. The interest rate paid by the securities is fixed, while the principal value rises or falls based on changes in an index. Thus, if inflation occurs, the principal and interest payments on the securities are adjusted accordingly to protect investors from inflationary loss. During a deflationary period, the principal and interest payments decrease, although the securities' principal amounts will not drop below their face amounts at maturity. In exchange for the inflation protection, the securities generally pay lower interest rates than typical government securities from the issuer's country. Only if inflation occurs will securities offer a higher real yield than a conventional government security of the same maturity.

⁶ Step bond — Coupon rate increases in increments to maturity. Rate disclosed is as of October 31, 2014. Maturity date disclosed is the ultimate maturity date.

⁷ Rate shown reflects annualized yield at October 31, 2014 on zero coupon bond.

⁸ The table below details the Fund's investment in a fund advised by the same advisor as the Fund. The advisor does not earn a management fee from the affiliated UBS Relationship Fund.

Security description	Value 10/31/13	Purchases during the year ended 10/31/14	Sales during the year ended 10/31/14	Value 10/31/14	Net income earned from affiliate for the year ended 10/31/14
UBS Cash Management Prime Relationship Fund	\$ 10,870,206	\$ 82,243,350	\$ 86,873,538	\$ 6,240,018	\$ 14,531

Global High Income Fund Inc.

Portfolio of investments October 31, 2014

- ⁹ Illiquid investment as of October 31, 2014.
- ¹⁰ Payments made or received are based on the notional amount.
- ¹¹ If the Fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation or underlying securities comprising the referenced index or (ii) receive a net settlement amount in the form of cash or securities equal to the notional amount of the swap agreement less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- ¹² Payments from/to the counterparty will be received/made upon the occurrence of bankruptcy and/or restructuring event with respect to the referenced index/obligation.
- ¹³ If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap agreement less the recovery value of the referenced obligation.
- ¹⁴ Credit spreads, represented in absolute terms, utilized in determining the market value as of period end serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default or other credit event occurring for the credit derivative. The credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement. A credit spread identified as "Defaulted" indicates a credit event has occurred for the referenced entity. Credit spreads are unaudited.

Net increase (decrease) from operations	(0.04)	(0.62)	1.44	0.24	2.32
Dividends from net investment income	(0.32)	(0.26)	(0.71)	(1.37)	(1.06)
Distributions from net realized gains			(0.28)		
Return of capital	(0.43)	(0.64)		(0.03)	
Total dividends, distributions and return of capital	(0.75)	(0.90)	(0.99)	(1.40)	(1.06)
Net asset value, end of year	\$ 11.14	\$ 11.93	\$ 13.45	\$ 13.00	\$ 14.16
Market price, end of year	\$ 9.68	\$ 10.49	\$ 12.74	\$ 12.54	\$ 14.98
Total net asset value return²	(0.24)%	(4.81)%	11.53%	1.95%	18.91%
Total market price return³	(0.48)%	(11.11)%	9.79%	(6.98)%	41.52%
Ratios to average net assets:					
Expenses before fee waivers	1.44%	1.47%	1.48%	1.50%	1.54%
Expenses after fee waivers	1.31%	1.29%	1.36%	1.44%	1.47%
Net investment income	5.56%	5.29%	6.10%	4.64%	5.76%
Supplemental data:					
Net assets, end of year (000 s)	\$ 240,574	\$ 257,637	\$ 290,367	\$ 280,799	\$ 305,683
Portfolio turnover rate	45%	42%	52%	71%	84%

¹ Calculated using the average shares method.

² Total net asset value return is calculated assuming a \$10,000 purchase of common stock at the current net asset value on the first day of each year reported and a sale at the current net asset value on the last day of each year reported, and assuming reinvestment of dividends and other distributions at the net asset value on the payable dates. Total net asset value return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or a sale of Fund shares. Total return based on net asset value is hypothetical as investors cannot purchase or sell Fund shares at the net asset value but only at market prices.

³ Total market price return is calculated assuming a \$10,000 purchase of common stock at the current market price on the first day of each year reported and a sale at the current market price on the last day of each year reported, and assuming reinvestment of dividends and other distributions at prices obtained under the Fund's Dividend Reinvestment Plan. Total market price return does not reflect brokerage commissions or the deduction of taxes that a shareholder would pay on Fund dividends/distributions or a sale of Fund shares.

See accompanying notes to financial statements.

Global High Income Fund Inc.

Notes to financial statements

Organization and significant accounting policies

Global High Income Fund Inc. (the Fund) was incorporated in Maryland on February 23, 1993 and is registered with the US Securities and Exchange Commission (SEC) as a closed-end, non-diversified management investment company. The Fund's primary investment objective is to achieve a high level of current income. As a secondary objective the Fund seeks capital appreciation, to the extent consistent with its primary objective.

In the normal course of business, the Fund enters into contracts that contain a variety of representations that provide general indemnification for certain liabilities. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) is the exclusive reference of authoritative US generally accepted accounting principles (US GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Fund's financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates. The following is a summary of significant accounting policies:

Valuation of investments

The Fund calculates its net asset value based on the current market value, where available, for its portfolio of securities. The Fund normally obtains market values for its investments from independent pricing sources and broker-dealers. Independent pricing sources may use reported last sale prices, official market closing prices, current market quotations or valuations from computerized evaluation systems that derive values based on comparable investments. An evaluation system incorporates parameters such as security quality, maturity and coupon, and/or research and evaluations by its staff, including review of broker-dealer market price quotations, if available, in determining the valuation of the portfolio investments. Investments also may be valued based on appraisals derived from information concerning the investment or similar investments received from recognized dealers in those holdings. Investments traded in the over-the-counter (OTC) market and listed on The NASDAQ Stock Market, Inc. (NASDAQ) normally are valued at the NASDAQ Official Closing Price. Other OTC securities are valued at the last bid price on the valuation date available prior to valuation. Investments which are listed on US and foreign stock exchanges normally are valued at the market closing price, the last sale price on the day the securities are valued or, lacking any sales on such day, at the last available bid price. In cases where investments are traded on more than one exchange, the investments are valued on the exchange designated as the primary market by UBS Global Asset Management (Americas) Inc. (UBS Global AM or the Advisor), the investment advisor of the Fund. UBS Global AM is an indirect asset management subsidiary of UBS Group AG, an internationally diversified organization with headquarters in Zurich, Switzerland and operations in many areas of the financial services industry. If a market value is not readily available from an independent pricing source for a particular investment, that investment is valued at fair value as determined in good faith by or under the direction of the Fund's Board of Directors (the Board). Various factors may be reviewed in order to make a good faith determination of an investment's fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the investments; and the evaluation of forces which influence the market in which the investments are purchased and sold. Foreign currency exchange rates are generally determined as of the close of the

New York Stock Exchange (NYSE).

Certain investments in which the Fund invests are traded in markets that close before 4:00 p.m., Eastern time. Normally, developments that occur between the close of the foreign markets and 4:00 p.m., Eastern time, will not be reflected in the Fund's net asset value. However, if the Fund determines that such developments are so significant that they will materially affect the value of the Fund's investments, the Fund may adjust the previous closing prices to reflect what is believed to be the fair value of these investments as of 4:00 p.m., Eastern time.

Global High Income Fund Inc.

Notes to financial statements

The amortized cost method of valuation, which approximates market value, generally is used to value short-term debt instruments with sixty days or less remaining to maturity, unless the Board determines that this does not represent fair value. Investments in open-end investment companies are valued at the daily closing net asset value of the respective investment company. Pursuant to the Fund's use of the practical expedient within ASC Topic 820, investments in non-registered investment companies are also valued at the daily net asset value. All investments quoted in foreign currencies are valued daily in US dollars on the basis of the foreign currency exchange rates prevailing at the time such valuation is determined by the Fund's custodian and accounting agent.

Futures contracts are generally valued at the settlement price established each day on the exchange on which they are traded. Forward foreign currency contracts are valued daily using forward exchange rates quoted by independent pricing services.

Swaps are marked-to-market daily based upon values from third party vendors or quotations from market makers to the extent available, and the change in value, if any, is recorded as an unrealized gain or loss on the Statement of assets and liabilities. In the event that market quotations are not readily available or deemed unreliable, the swap is valued at fair value as determined in good faith by or under the direction of the Board (or a committee designated by it).

The Board has delegated to the UBS Global Asset Management Global Valuation Committee (the "GVC") the responsibility for making fair value determinations with respect to the Fund's portfolio holdings. The GVC is comprised of representatives of management, including members of the investment team.

The GVC provides reports to the Board at each quarterly meeting regarding any investments that have been fair valued, valued pursuant to standing instructions approved by the GVC, or where non-vendor pricing sources had been used to make fair value determinations when sufficient information exists during the prior quarter. Fair valuation determinations are subject to review at least monthly by the GVC during scheduled meetings. Pricing decisions, processes, and controls over fair value determinations are subject to internal and external reviews, including annual internal compliance reviews and periodic internal audit reviews of security valuations.

The types of investments for which such fair value pricing may be necessary include, but are not limited to: foreign investments under some circumstances; securities of an issuer that has entered into a restructuring; investments whose trading has been halted or suspended; fixed income securities that are in default and for which there is no current market value quotation; and investments that are restricted as to transfer or resale. The need to fair value the Fund's portfolio investments may also result from low trading volume in foreign markets or thinly traded domestic investments, and when a security that is subject to a trading limit or collar on the exchange or market on which it is primarily traded reaches the limit up or limit down price and no trading has taken place at that price. Various factors may be reviewed in order to make a good faith determination of an investment's fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of investments; and the evaluation of forces which influence the market in which the investments are purchased and sold. Valuing investments at fair value involves greater reliance on judgment than valuing investments that have readily available market quotations. Fair value determinations can also involve reliance on quantitative models employed by a fair value pricing service.

US GAAP requires disclosure regarding the various inputs that are used in determining the value of the Fund's investments. These inputs are summarized into the three broad levels listed below:

Level 1 Unadjusted quoted prices in active markets for identical investments.

Level 2 Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risk.

Global High Income Fund Inc.

Notes to financial statements

Level 3 Unobservable inputs inclusive of the Fund's own assumptions in determining the fair value of investments.

A fair value hierarchy has been included near the end of the Fund's Portfolio of investments.

The provisions of ASC Topic 815 – Derivatives and Hedging (ASC Topic 815) require qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments and disclosures about credit-risk related contingent features in derivative agreements. Since investment companies value their derivatives at fair value and recognize changes in fair value through the Statement of operations, they do not qualify for hedge accounting under ASC Topic 815. Accordingly, even though the Fund's investments in derivatives may represent economic hedges, they are considered to be non-hedge transactions for purposes of disclosure under ASC Topic 815. ASC Topic 815 requires that (1) objectives for using derivative instruments be disclosed in terms of underlying risk and accounting designation, (2) the fair values of derivative instruments and their gains and losses be disclosed in a tabular format, and (3) information be disclosed about credit-risk contingent features of derivatives contracts. Details of this disclosure can be found below as well as in the Portfolio of investments. Swap agreements, forward foreign currency contracts, swaptions and options written entered into by the Fund may contain credit-risk related contingent features that could be triggered subject to certain circumstances. Such circumstances include agreed upon net asset value thresholds. If triggered, the derivative counterparty could request additional cash margin and/or terminate the derivative contract. The aggregate fair value of the derivative contracts that are in a net liability position that contain these triggers can be found in the Portfolio of investments. The aggregate fair value of assets that are already posted as collateral as of October 31, 2014 is reflected in the Statement of assets and liabilities. If the applicable credit-risk related contingent features were triggered as of October 31, 2014, the Fund would be required to post additional collateral or may be required to terminate the contracts and settle any amounts outstanding. The volume of derivatives that is presented in the Portfolio of investments of the Fund is consistent with the derivative activity during the year ended October 31, 2014. The Fund may be a seller of protection through credit default swap agreements which are by nature credit-risk contingent (the terms of these agreements can be found within the Portfolio of investments, with further discussion in the Notes to financial statements).

Disclosure of derivatives by underlying risk as of and for the year ended October 31, 2014 is as follows:

Asset derivatives				
	Interest rate risk	Credit risk	Foreign exchange risk	Total
Forward foreign currency contracts ¹	\$	\$	\$ 698,171	\$ 698,171
Futures contracts ²	95,238			95,238
Swap agreements ¹	295,768	13,583	171,133	480,484

² Realized and unrealized gain (loss) is included in net realized gain (loss) on investments and change in net unrealized appreciation/depreciation on investments.

³ Statement of operations location: Change in net unrealized appreciation/depreciation on futures contracts, options written, swap agreements and forward foreign currency contracts.

In January 2013, Accounting Standards Update 2013-01 (ASU 2013-01), Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities , replaced Accounting Standards Update 2011-11 (ASU 2011-11), Disclosures about Offsetting Assets and Liabilities . ASU 2013-01 is effective for fiscal years beginning on or after January 1, 2013, and interim periods within those annual periods. ASU 2011-11 was intended to enhance disclosure requirements on the offsetting of financial assets and liabilities. ASU 2013-01 limits the scope of the new balance sheet offsetting disclosures to derivatives, repurchase and reverse repurchase agreements, and securities lending and borrowing transactions to the extent that they are (1) offset in the financial statements or (2) subject to an enforceable master netting arrangement or similar agreement.

The Fund typically enters into International Swaps and Derivatives Association, Inc. Master Agreements (ISDA Master Agreements) or similar master agreements (collectively, Master Agreements) with its OTC derivative

Global High Income Fund Inc.

Notes to financial statements

contract counterparties in order to, among other things, reduce its credit risk to counterparties. ISDA Master Agreements include provisions for general obligations, representations, collateral and events of default or termination. Under an ISDA Master Agreement, the Fund typically may offset with the counterparty certain derivative financial instrument's payables and/or receivables with collateral held and/or posted and create one single net payment (close-out netting) in the event of default or termination.

*In some instances, the actual collateral pledged may be more than the amount shown.

Restricted securities

The Fund may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expenses, and prompt sale at an

Global High Income Fund Inc.

Notes to financial statements

acceptable price may be difficult. Restricted securities are identified, if any, in the Portfolio of investments and information regarding them, is included in the Fund's Portfolio of investments footnotes.

Investment transactions and investment income

Investment transactions are recorded on the trade date. Realized gains and losses from investment and foreign exchange transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

During prior fiscal years, the amortization of premium and accretion of inflationary income for certain securities was accounted for incorrectly. These instances resulted in an understatement of net investment income and an overstatement of realized and unrealized gains/losses. As such, there was no corresponding impact to the net assets or the net asset value per share of the Fund in any prior year since this represented only a reclassification between income and capital accounts. The impact of these misclassifications was immaterial, and therefore, no changes to prior year reported amounts have been recorded. During the current fiscal year, the amortization of premium and recognition of inflationary income was calculated using the US GAAP approved method over the remaining contractual maturity period. The cumulative impact of these adjustments on the components of net assets as of the beginning of the year was to increase net unrealized depreciation by \$3,689,924 (as a result of the change to amortized cost of impacted portfolio securities), decrease distributions in excess of net investment income by \$5,997,444 and decrease accumulated realized loss by \$2,307,520.

Foreign currency translation

The Fund uses the foreign currency exchange rates determined as of the close of regular trading on the NYSE. For purposes of calculating the US dollar equivalent value of a non-US dollar denominated obligation, foreign currency amounts are translated into US dollars on the following basis: (1) market value of investment securities and other assets and liabilities at the exchange rates prevailing at the end of the Fund's fiscal period; and (2) purchases and sales of investment securities and income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

Although the net assets and the market value of the Fund's portfolio are presented at the foreign exchange rates at the end of the Fund's fiscal period, the Fund does not generally isolate the effect of fluctuations in foreign exchange rates from the effect of the changes in market prices of securities. However, the Fund does isolate the effect of fluctuations in foreign exchange rates when determining the gain or loss upon the sale or maturity of foreign currency-denominated securities pursuant to US federal income tax regulations. Certain foreign exchange gains and losses included in realized and unrealized gains and losses are included in, or are a reduction of, ordinary income in accordance with US federal income tax regulations.

Forward foreign currency contracts

The Fund may enter into forward foreign currency exchange contracts (forward contracts) in connection with planned purchases or sales of securities or to hedge the US dollar value of portfolio securities denominated in a particular currency. The Fund may also use forward contracts in an attempt to enhance income or gains.

The Fund has no specific limitation on the percentage of assets which may be committed to such contracts. The Fund may enter into forward contracts or maintain a net exposure to forward contracts only if (1) the consummation of the contracts would not obligate the Fund to deliver an amount of foreign currency in excess of the value of the position being hedged by such contracts or (2) the Fund identifies cash or liquid securities in an amount not less than the value of its assets committed to the consummation of the forward contracts and not covered as provided in (1) above, as marked-to-market daily.

Risks may arise upon entering into forward contracts from the potential inability of counterparties to meet the terms of their forward contracts and from unanticipated movements in the value of foreign currencies relative to the US dollar.

Global High Income Fund Inc.

Notes to financial statements

Fluctuations in the value of forward contracts are recorded for book purposes as unrealized gains or losses by the Fund. Realized gains and losses include net gains and losses recognized by the Fund on contracts which have been sold or matured.

Futures contracts

The Fund may use financial futures contracts for hedging purposes and to adjust exposure to US and foreign fixed income markets in connection with a reallocation of the Fund's assets or to manage the average duration of the Fund. The Fund may also use futures contracts in an attempt to enhance income or gains. However, imperfect correlations between futures contracts and the related securities or markets, or market disruptions, do not normally permit full control of these risks at all times. Using financial futures contracts involves various market risks, including interest rate risk. Risks of entering into futures contracts include the possibility that there may be an illiquid market or that a change in the value of the contract may not correlate with changes in the value of the underlying securities. To the extent that market prices move in an unexpected direction, there is a risk that the Fund will not achieve the anticipated benefits of the futures contract or may realize a loss.

Upon entering into a financial futures contract, the Fund is required to deliver to a broker an amount of cash and/ or liquid securities equal to a certain percentage of the contract amount. This amount is known as the initial margin. Subsequent payments, known as variation margin, are made or received by the Fund each day, depending on the daily fluctuations in the value of the underlying futures contracts. Such variation margin is recorded for financial statement purposes on a daily basis as an unrealized gain or loss on futures until the futures contract is closed or expires, at which time the net gain or loss is reclassified to realized gain or loss on futures.

Swap agreements

The Fund may engage in swap agreements, including but not limited to interest rate, currency, total return, and credit default swap agreements. The Fund expects to enter into these transactions to preserve a return or spread on a particular investment or to hedge a portion of the portfolio's duration, to protect against any increase in the price of securities the Fund anticipates purchasing at a later date, to gain exposure to certain markets in the most economical way possible or in an attempt to enhance income or gains.

The Fund may enter into interest rate swap agreements with another party to receive or pay interest (e.g., an exchange of fixed rate payments for floating rate payments) to protect itself from interest rate fluctuations. This type of swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to a specified interest rate(s) for a specified amount. The payment flows are usually netted against each other, with the difference being paid by one party to the other. In addition, the Fund may enter into interest rate cap and floor transactions which involve an agreement between two parties in which one party agrees to make payments to the other when a designated market interest rate goes above (in the case of a cap) or below (in the case of a floor) a designated level on pre-determined dates or during a specified period. Interest rate swap agreements are subject to general market risk, liquidity risk, counterparty risk and interest rate risk.

The Fund may enter into currency swap agreements with another party to receive or pay amounts based on changes in currency exchange rates in order to protect itself from or take advantage of exchange rate fluctuations. The Fund utilizes currency swaps to earn income and enhance returns as well as to manage the risk profile of the Fund. This

type of swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to a specified currency exchange rate(s) for a specified amount. Currency swap agreements are subject to general market risk, liquidity risk, counterparty risk, foreign exchange risk and interest rate risk.

Credit default swap agreements involve commitments to make or receive payments in the event of a default or other credit event of a referenced security. As a buyer, the Fund would make periodic payments to the

Global High Income Fund Inc.

Notes to financial statements

counterparty, and the Fund would receive payments only upon the occurrence of a credit event. If no credit event occurs, the Fund will lose its periodic stream of payments over the term of the contract. However, if a credit event does occur, the Fund typically would receive full notional value for a reference obligation that may have little or no value. As a seller, the Fund would receive periodic payments from the counterparty, and the Fund would make payments only upon the occurrence of a credit event. If no credit event occurs, the Fund will retain the periodic stream of payments it received over the term of the contract. However, if a credit event occurs, the Fund will pay full notional value for a reference obligation that may have little or no value. Credit default swaps may involve greater risks than if the Fund had invested in the reference obligation directly and are subject to general market risk, liquidity risk, counterparty risk and credit risk.

Credit default swap agreements on sovereign issues of an emerging market country involve one party making a stream of payments to another party in exchange for the right to receive a specified return in the event of a default or other credit event. If a credit event occurs and cash settlement is not elected, a variety of other obligations may be delivered in lieu of the specific referenced obligation. The ability to deliver other obligations may result in delivery of a security with a value other than had been anticipated (such as a party's right to choose the deliverable obligation with the lowest value following a credit event). The Fund may use credit default swaps on corporate issues or sovereign issues of an emerging market country to provide a measure of protection against defaults of the issuers (i.e., to reduce risk where the Fund owns or has exposure to the referenced obligation) or to take an active long or short position with respect to the likelihood of a particular issuer's default.

The maximum potential amount of future payments (undiscounted) that the Fund as a seller of protection could be required to make under a credit default swap agreement would be an amount equal to the notional amount of the agreement. Notional amounts of all credit default swap agreements outstanding as of October 31, 2014 for which the Fund is the seller of protection are disclosed under the section "Credit default swaps on corporate and sovereign issues - sell protection" in the Notes to Portfolio of investments. These potential amounts would be partially offset by any recovery values of the respective referenced obligations, upfront payments received upon entering into the agreement, or net amounts received from the settlement of buy protection credit default swap agreements entered into, if any, by the Fund for the same referenced entity or entities.

The use of swap agreements involves investment techniques and risks different from those associated with ordinary portfolio security transactions. If UBS Global AM is incorrect in its forecast of market values, interest rates and other applicable factors, the investment performance of the Fund will be less favorable than it would have been if this investment technique was never used. Swap agreements do not involve the delivery of securities and are subject to counterparty risk. If the other party to a swap agreement defaults and fails to consummate the transaction, the Fund's risk of loss will consist of the net amount of interest or other payments that the Fund is contractually entitled to receive. Therefore, the Fund would consider the creditworthiness of the counterparty to a swap agreement in evaluating potential credit risk.

The Fund accrues for interim payments on swap agreements on a daily basis, with the net amount recorded within outstanding swap agreements on the Statement of assets and liabilities. Once interim payments are settled in cash, the net amount is recorded as realized gain/loss on swap agreements, in addition to realized gain/loss recorded upon the termination of swap agreements on the Statement of operations. Fluctuations in the value of swap agreements are recorded for financial statement purposes as unrealized appreciation or depreciation on swap agreements.

Structured notes

The Fund may invest in structured notes whose values are based on the price movements of a referenced security or index. The value of these structured notes will rise and fall in response to changes in the referenced security or index. On the maturity date of each structured note, the Fund will receive a payment from a counterparty based on

Global High Income Fund Inc.

Notes to financial statements

the value of the referenced security or index (notional amount multiplied by the price of the referenced security or index) and record a realized gain or loss.

Structured notes may present a greater degree of market risk than many types of securities and may be more volatile and less liquid than less complex securities. Structured notes are also subject to the risk that the issuer of the structured notes may fail to perform its contractual obligations.

Option writing

The Fund may write (sell) put and call options on foreign or US securities, indices, foreign currencies and interest rate swaps (commonly referred to as swaptions), in order to gain exposure to or protect against changes in the markets. When the Fund writes a call or a put option, an amount equal to the premium received by the Fund is included in the Fund's Statement of assets and liabilities as an asset and as an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. If an option which the Fund has written either expires on its stipulated expiration date or the Fund enters into a closing purchase transaction, the Fund realizes a gain (or loss if the cost of a closing purchase transaction exceeds the premium received when the option was written) without regard to any unrealized gain or loss on the underlying security or derivative instrument, and the liability related to such option is extinguished. If a call option which the Fund has written is exercised, the Fund recognizes a realized gain or loss (long-term or short-term, depending on the holding period of the underlying security) from the sale of the underlying security or derivative instrument and the proceeds from the sale are increased by the premium originally received. If a put option which the Fund has written is exercised, the amount of the premium originally received reduces the cost of the security or derivative instrument which the Fund purchases upon exercise of the option.

In writing an option, the Fund bears the market risk of an unfavorable change in the price of the derivative instrument, security, index or currency underlying the written option. Exercise of an option written by the Fund could result in the Fund selling or buying a derivative instrument, security or currency at a price different from current market value.

Purchased options

The Fund may purchase put and call options on foreign or US securities, indices, foreign currencies and interest rate swaps (commonly referred to as swaptions), as well as exchange listed call options on particular market segment indices to achieve temporary exposure to a specific security, currency, industry or geographic region. Purchasing call options tends to increase exposure to the underlying instrument. Purchasing put options tends to decrease exposure to the underlying instrument. The Fund pays a premium which is included in the Statement of assets and liabilities as an investment and subsequently marked-to-market to reflect the current value of the option. Premiums paid for purchasing options which expire are treated as realized losses. The risk associated with purchasing put and call options is limited to the premium paid. Premiums paid for purchasing options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying futures, security or currency transaction to determine the realized gain or loss.

Dividends and distributions

Dividends and distributions to shareholders are recorded on the ex-distribution date. The amount of dividends from net investment income and distributions from net realized capital gains and/or return of capital are determined in accordance with income tax regulations, which may differ from US GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Global High Income Fund Inc.

Notes to financial statements

Concentration of risk

Investing in securities of foreign issuers and currency transactions may involve certain considerations and risks not typically associated with investments in US securities. These risks include revaluation of currencies, adverse fluctuations in foreign currency values and possible adverse political, social and economic developments, including those particular to a specific industry, country or region, which could cause the securities and their markets to be less liquid and prices more volatile than those of comparable US companies and US government securities. These risks are greater with respect to securities of issuers located in emerging market countries in which the Fund invests. The ability of the issuers of debt securities held by the Fund to meet their obligations may be affected by economic and political developments particular to a specific industry, country, state or region.

Investment advisor and administrator and other transactions with related entities

The Fund's Board has approved an investment advisory and administration contract dated August 1, 2014, with UBS Global AM (the "Advisory Contract"); the Advisory Contract superseded an earlier agreement (the "Prior Advisory Contract"). The only substantive difference between the Advisory Contract and the Prior Advisory Contract is that the Advisory Contract reflects a Board approved reduction in the contractual investment advisory and administration fee paid to UBS Global AM.

Pursuant to the Prior Advisory Contract, the Fund had agreed to pay UBS Global AM an investment advisory and administration fee, accrued weekly and paid monthly, at the annual rate of 1.25% of the Fund's average weekly net assets. UBS Global AM had, since August 2005, contractually waived a portion of the fee it received under the Prior Advisory Contract through a fee reduction "breakpoint," which reduced the fee so that it was assessed at an annual rate of (1) 1.25% of the Fund's average weekly net assets on assets up to \$200 million, and (2) 1.00% of the Fund's average weekly net assets on assets above \$200 million.

Beginning August 2010, UBS Global AM had also voluntarily waived from year-to-year compensation otherwise payable to it under the Prior Advisory Contract. Effective August 1, 2013, through July 31, 2014, UBS Global AM waived additional compensation so that it was paid at the annual rate of 1.10% of the Fund's weekly net assets up to \$200 million and at the annual rate of 1.00% of the Fund's average weekly net assets above \$200 million.

When the Prior Advisory Contract was superseded by the Advisory Contract, effective August 1, 2014, the contractual fee rate was changed from 1.25% to a flat rate of 1.00% of the Fund's average weekly net assets. Given the new, lower contractual fee rate under the Advisory Contract, the older "breakpoint" structure was removed, and the voluntary year-to-year waiver arrangements that related to the Prior Advisory Contract were replaced by the ongoing lower contractual fee under the Advisory Contract, namely the 1.00% rate.

At October 31, 2014, the Fund owed UBS Global AM \$204,242, which is composed of investment advisory and administration fees. For the year ended October 31, 2014, UBS Global AM waived \$312,498 of investment advisory and administration fees from the Fund.

Additional information regarding compensation to affiliate of a board member

Professor Meyer Feldberg serves as a senior advisor to Morgan Stanley, a financial services firm with which the Fund may conduct transactions, resulting in him being an interested director of the Fund. The Fund has been informed that Professor Feldberg's role at Morgan Stanley does not involve matters directly affecting any UBS funds. Fund transactions are executed through Morgan Stanley based on that firm's ability to provide best execution of the transactions. During the year ended October 31, 2014, the Fund purchased and sold certain securities (e.g., fixed income securities) in principal trades with Morgan Stanley having an aggregate value of \$4,884,525. Morgan Stanley received compensation in connection with these trades, which may have been in the form of a mark-up or mark-down of the price of the securities, a fee from the issuer for maintaining a commercial paper program, or some other form of compensation. Although the precise amount of this

Global High Income Fund Inc.

Notes to financial statements

compensation is not generally known by UBS Global AM, UBS Global AM believes that under normal circumstances it represents a small portion of the total value of the transactions.

Securities lending

The Fund may lend securities up to 33 ⅓% of its total assets to qualified broker-dealers or institutional investors. The loans are secured at all times by cash, cash equivalents or US government securities in an amount at least equal to 102% of the market value of the securities loaned with respect to domestic securities and 105% of the market value of the securities loaned with respect to foreign securities, plus accrued interest and dividends, determined on a daily basis and adjusted accordingly.

The Fund will regain ownership of loaned securities to exercise certain beneficial rights; however, the Fund may bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower fail financially. The Fund receives compensation for lending its securities from interest or dividends earned on the cash, cash equivalents or US government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The Fund did not lend any securities during the year ended October 31, 2014.

Capital stock

There are 100,000,000 shares of \$0.001 par value common stock authorized and 21,591,836 shares outstanding at October 31, 2014. For the year ended October 31, 2014 and for the year ended October 31, 2013, there were no transactions involving common stock.

Purchases and sales of securities

For the year ended October 31, 2014, aggregate purchases and sales of portfolio securities, excluding short-term securities, were \$106,500,634, and \$101,689,510, respectively.

Federal tax status

It is the Fund's policy to comply with all requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax. Accordingly, no federal income tax provision was required.

The tax character of distributions paid during the fiscal years ended October 31, 2014 and October 31, 2013 were as follows:

Distributions paid from:	2014	2013
Ordinary income	\$ 7,009,453	\$ 5,652,589
Return of capital	9,266,473	13,853,476

Edgar Filing: GLOBAL HIGH INCOME FUND INC - Form N-CSR

Total distributions paid	\$ 16,275,926	\$ 19,506,065
--------------------------	---------------	---------------

At October 31, 2014, the components of accumulated earnings (deficit) on a tax basis were as follows:

Capital and other losses	\$ (5,727,465)
Net unrealized depreciation	(11,013,862)
Total accumulated deficit	\$ (16,741,327)

Global High Income Fund Inc.

Notes to financial statements

The difference between book-basis and tax-basis net unrealized appreciation/(depreciation) of investments is attributed to wash sales, premium amortization adjustments, tax treatment of certain inflation protected debt securities and derivative related adjustments.

To reflect reclassifications arising from permanent book/tax differences for the year ended October 31, 2014, the Fund's accumulated undistributed net investment income was decreased \$6,255,492, accumulated net realized loss was decreased \$6,658,843, and capital stock was decreased \$403,351. These differences are primarily due to tax treatment of foreign currencies, options transactions, inflation protected debt securities and swap adjustments.

Under the Regulated Investment Company Modernization Act of 2010 (the Act), net capital losses recognized by the Fund after December 22, 2010 may be carried forward indefinitely, and retain their character as short-term and/or long-term losses. The Act requires that post-enactment net capital losses be used before pre-enactment net capital losses.

At October 31, 2014, the Fund had post-enactment net capital losses incurred that will be carried forward indefinitely as follow:

Short-term losses	Long-term losses	Net capital losses
\$126,124	\$ 5,305,279	\$ 5,431,403

Qualified late year losses are deemed to arise on the first business day of a Fund's next taxable year. For the year ended October 31, 2014, the Fund did not incur, or elect to defer any such losses.

ASC 740-10 Income Taxes Overall sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Fund has conducted an analysis and concluded, as of October 31, 2014, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. It is the Fund's policy to record any significant foreign tax exposures on the financial statements. The Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the year ended October 31, 2014, the Fund did not incur any interest or penalties. Capital gains realized by the Fund on securities issued in or by certain foreign countries may be subject to capital gains tax imposed by those countries.

Each of the tax years in the four year period ended October 31, 2014 remains subject to examination by the Internal Revenue Service and state taxing authorities.

Global High Income Fund Inc.

Report of Ernst & Young LLP, independent registered public accounting firm

The Board of Directors and Shareholders of Global High Income Fund Inc.

We have audited the accompanying statement of assets and liabilities of Global High Income Fund Inc. (the Fund), including the portfolio of investments, as of October 31, 2014, and the related statement of operations for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2014, by correspondence with the custodian and others or by other appropriate auditing procedures where replies from others were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Global High Income Fund Inc. at October 31, 2014, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with US generally accepted accounting principles.

New York, New York

December 30, 2014

Global High Income Fund, Inc.

Tax information (unaudited)

Dividends received by tax-exempt recipients (e.g., IRAs and Keoghs) need not be reported as taxable income. Some retirement trusts (e.g., corporate, Keogh and 403(b)(7) plans) may need this information for their annual reporting. Since the Fund's fiscal year is not the calendar year, another notification will be sent in respect of calendar year 2014. The second notification, which will reflect the amount to be used by calendar year taxpayers on their federal income tax returns, will be made in conjunction with Form 1099 DIV and will be mailed no later than January 31, 2015. Shareholders are advised to consult their own tax advisors with respect to the tax consequences of their investment in the Fund.

The foreign taxes paid represent taxes incurred by the Fund on income received by the Fund from foreign sources. Foreign taxes paid may be included in taxable income with an offsetting deduction from gross income or may be taken as a credit for taxes paid to foreign governments. For the year ended October 31, 2014, there was no foreign tax credit expected to be passed through to the shareholders. You should consult your tax advisor regarding the appropriate of foreign taxes paid.

Global High Income Fund Inc.

General information

The Fund

Global High Income Fund Inc. (the Fund) is a non-diversified, closed-end management investment company whose shares trade on the New York Stock Exchange (NYSE). The Fund's primary investment objective is to achieve a high level of current income. As a secondary objective, the Fund seeks capital appreciation, to the extent consistent with its primary objective. There can be no assurance that the Fund's investment objective will be achieved. The Fund's investment advisor and administrator is UBS Global Asset Management (Americas) Inc. (UBS Global AM).

Shareholder information

The Fund's NYSE trading symbol is GHI. Net asset value and market price information as well as other information about the Fund is updated each business day on UBS's web site at the following internet address:
<http://globalam-us.ubs.com/corpweb/closedendedfunds.do>.

Quarterly Form N-Q portfolio schedule

The Fund will file its complete schedule of portfolio holdings with the US Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the SEC's Web site at <http://www.sec.gov>. The Fund's Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the SEC's Public Reference Room may be obtained by calling 1-800-SEC-0330. Additionally, you may obtain copies of Form N-Q from the Fund upon request by calling 1 888-793 8637.

Proxy voting policies, procedures and record

You may obtain a description of the Fund's (1) proxy voting policies (2) proxy voting procedures, and information regarding how the Fund voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting the Fund directly at 1-888-793 8637, online on UBS's Web site: http://www.ubs.com/us/en/asset_management/individual_investors/closed_end_funds.html or on the EDGAR Database on the SEC's Web site (<http://www.sec.gov>).

Dividend reinvestment plan

The Fund's Board has established a Dividend Reinvestment Plan (the Plan) under which all shareholders whose shares are registered in their own names, or in the name of UBS Financial Services Inc. or its nominee, will have all dividends and other distributions on their shares of common stock automatically reinvested in additional shares, unless such shareholders elect to receive cash. Shareholders who elect to hold their shares in the name of another broker or nominee should contact such broker or nominee to determine whether, or how, they may participate in the Plan.

The ability of such shareholders to participate in the Plan may change if their shares are transferred into the name of another broker or nominee.

A shareholder may elect not to participate in the Plan or may terminate participation in the Plan at any time without penalty, and shareholders who have previously terminated participation in the Plan may rejoin it at any time. Changes

in elections must be made in writing to the Fund's transfer agent and should include the shareholder's name and address as they appear on the investor's share certificate or in the transfer agent's records.

An election to terminate participation in the Plan, until such election is changed, will be deemed an election by a shareholder to take all subsequent distributions in cash. An election will be effective only for distributions declared and having a record date at least ten days after the date on which the election is received.

Global High Income Fund Inc.

General information

Additional shares of common stock acquired under the Plan will be purchased in the open market, on the NYSE or otherwise, at prices that may be higher or lower than the net asset value per share at the time of the purchase. Investors should consider whether continued participation in the dividend reinvestment plan is appropriate for them when the Fund's market price exceeds its net asset value; a portion of a dividend/distribution may represent a return of capital, which would be reinvested in the Fund at a premium to net asset value. The number of shares of common stock purchased with each dividend/distribution will be equal to the result obtained by dividing the amount of the dividend/distribution payable to a particular shareholder by the average price per share (including applicable brokerage commissions) that the transfer agent was able to obtain in the open market. The Fund will not issue any new shares in connection with the Plan. There currently is no charge to participants for reinvesting dividends or other distributions. The transfer agent's fees for handling the reinvestment of distributions are paid by the Fund. However, each participant pays a pro rata share of brokerage commissions incurred with respect to the transfer agent's open market purchases of common stock in connection with the reinvestment of distributions. The automatic reinvestment of dividends and other distributions in shares of common stock does not relieve participants of any income tax that may be payable on such distributions.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan with respect to any dividend or other distribution if notice of the change is sent to Plan participants at least 30 days before the record date for such distribution. The Plan also may be amended or terminated by the transfer agent by at least 30 days' written notice to all Plan participants. Additional information regarding the Plan may be obtained from, and all correspondence concerning the Plan should be directed to, the transfer agent at BNY Mellon Shareowner Services, P.O. Box 358035, Pittsburgh, PA 15252-8035. For further information regarding the Plan, you may also contact the transfer agent directly at 1-866-352 5528.

Distribution policy

The Fund's Board adopted a managed distribution policy in December 1999, which was revised (1) effective June 2005, (2) effective August 2009, (3) effective June 2012 and (4) effective June 2014. Pursuant to the policy as in effect from December 1999 through early May 2005, the Fund made regular monthly distributions at an annualized rate equal to 11% of the Fund's net asset value, as determined as of the last trading day during the first week of that month (usually a Friday unless the NYSE is closed that Friday). The Board approved reducing the annualized rate for distribution pursuant to the policy from 11% to 9% effective beginning with the June 2005 monthly distribution. The Board approved a further reduction in the annualized rate for distributions pursuant to the policy from 9% to 8% in July 2009, effective beginning with the August 2009 monthly distribution. The Board approved a subsequent reduction in the annualized rate for distributions pursuant to the policy from 8% to 7% in May 2012, effective beginning with the June 2012 monthly distribution. Most recently, the Board approved a reduction in the annualized rate for distributions pursuant to the policy from 7% to 6% in May 2014, effective beginning with the June 2014 monthly distribution. Prior to December 20, 1999, the Fund's distributions varied based on the Fund's net investment income and realized capital gains or losses.

Monthly distributions based on a fixed percentage of the Fund's net asset value may require the Fund to make multiple distributions of long term capital gains during a single fiscal year. The Fund has received exemptive relief from the Securities and Exchange Commission that enables it to do so. The Fund's Board receives recommendations from UBS Global AM, the Fund's investment advisor, periodically and no less frequently than annually will reassess the annualized percentage of net assets at which the Fund's monthly distributions will be made.

The above information supplements that contained on the inside front cover of this report.

Revised distribution characteristics for distributions made during the fiscal year ended October 31, 2014

During the fiscal year ended October 31, 2014, the Fund issued press releases and notices to shareholders estimating information regarding the sources of its monthly distributions. Those press releases and related

Global High Income Fund Inc.

General information

shareholder notices indicated that distributions during this time were estimated to be sourced from a combination of net investment income, capital gains and/or a return of capital. As discussed in the Notes to the financial statements in the Investment transactions and investment income section, there was an issue regarding the amortization of premium and accretion of inflationary income for certain securities at the time that the Fund issued those press releases and notices. These instances resulted in an understatement of net investment income and an overstatement of realized and unrealized gains/losses which has since been addressed in the reclassifications noted in the financial statements.

The October 2014 press release and notice reported that an estimated 71% of the distributions made during the fiscal year ended October 31, 2014 was attributed to net investment income and the remaining 29% was attributed to a return of capital. As a result of the aforementioned accounting reclassifications, the estimated sources of distributions during the fiscal year ended October 31, 2014 should have been reported as 82% attributed to net investment income with the remaining 18% to return of capital. This allocation does not change the amount of the distributions that had been paid, only their estimated characteristics, and is not being provided for tax reporting purposes. The Fund will send you a Form 1099-DIV (or your financial intermediary should provide you with similar information) for the calendar year that will tell you how to report these distributions for federal income tax purposes.

Global High Income Fund Inc.

Board approval of investment advisory and administration contract (unaudited)

Background At a meeting of the board of Global High Income Fund Inc. (the Fund) on July 15-16, 2014, the members of the board, including the directors who are not interested persons of the Fund (Independent Directors), as defined in the Investment Company Act of 1940, as amended (the 1940 Act), considered and approved an amended and restated investment advisory and administration contract (the Investment Advisory and Administration Contract) of the Fund with UBS Global Asset Management (Americas) Inc. (UBS Global AM). (As indicated below, the only substantive differences between the then current agreement and the amended and restated agreement related to the reduction in contractual advisory and administration fees. For convenience of reference, both the then current, as well as the proposed amended and restated, agreements may be referred to as the Investment Advisory and Administration Agreement.) In preparing for the meeting, the board members had requested and received extensive information from UBS Global AM to assist them, including information about UBS Global AM, as well as the advisory and administrative arrangements for the Fund. The Independent Directors discussed the materials initially provided by management on several occasions prior to the scheduled board meeting. The Independent Directors also met in executive session after management's presentation was completed to review the disclosure that had been made to them at the meeting. At these sessions the Independent Directors were joined by their independent legal counsel. The Independent Directors also received a memorandum from their independent legal counsel discussing the duties of board members in considering the approval of advisory, administration and distribution agreements.

In its consideration of the approval of the Investment Advisory and Administration Contract, the board reviewed the following factors:

Nature, extent and quality of the services under the Investment Advisory and Administration Contract The board received and considered information regarding the nature, extent and quality of advisory services provided to the Fund, a registered closed-end investment company, by UBS Global AM under the Investment Advisory and Administration Contract during the past year. The board also considered the nature, extent and quality of administrative and shareholder services performed by UBS Global AM and its affiliates for the Fund and the resources devoted to, and the record of compliance with, the Fund's compliance policies and procedures. The board noted that it received information at regular meetings throughout the year regarding the services rendered by UBS Global AM concerning the management of the Fund's affairs and UBS Global AM's role in coordinating and overseeing providers of other services to the Fund. The board's evaluation of the services provided by UBS Global AM took into account the board's knowledge and familiarity gained as board members of funds in the UBS New York fund complex, including the scope and quality of UBS Global AM's investment advisory and other capabilities and the quality of its administrative and other services. The board observed that the scope of services provided by UBS Global AM had expanded over time as a result of regulatory and other developments, including maintaining and monitoring its own and the Fund's expanded compliance programs.

The board had available to it the qualifications, backgrounds and responsibilities of the senior personnel at UBS Global AM responsible for the Fund and had previously met with and received information regarding the person primarily responsible for the day-to-day management of the Fund. The board recognized that the Fund's senior personnel at UBS Global AM report to the board regularly and that at each regular meeting the board receives a detailed report from UBS Global AM on the Fund's performance. The board also considered, based on its knowledge of UBS Global AM and its affiliates, the financial resources available to UBS Global AM and its parent organization, UBS AG. In that regard, the board received extensive financial information regarding UBS Global AM and noted that it was a wholly owned, indirect subsidiary of one of the largest financial services firms in the world. It also was noted that UBS Global AM had approximately \$158 billion in assets under management as of March 31, 2014 and was part

of the UBS Global Asset Management Division, which had approximately \$674 billion in assets under management worldwide as of March 31, 2014. The board also was cognizant of, and considered, the regulatory and litigation actions and investigations occurring in the past few years involving UBS AG, UBS Global AM and certain of their affiliates.

Global High Income Fund Inc.

Board approval of investment advisory and administration contract (unaudited)

The board concluded that, overall, it was satisfied with the nature, extent and quality of services provided (and expected to be provided) to the Fund under the Investment Advisory and Administration Contract.

Advisory fees and expense ratios The board reviewed and considered the contractual management fee (the Contractual Management Fee) payable by the Fund to UBS Global AM in light of the nature, extent and quality of the advisory and administrative services provided by UBS Global AM pursuant to the Investment Advisory and Administration Contract. The board also reviewed and considered the fee waiver arrangements for the Fund and considered the actual fee rate (after taking the waiver into account) (the Actual Management Fee) payable by the Fund. Additionally, the board received and considered information comparing the Fund's Contractual Management Fee, Actual Management Fee and total expenses with those of funds in a group of funds selected and provided by Lipper, Inc. (Lipper), an independent provider of investment company data (the Expense Group). The Expense Group consisted of the Fund and two other comparable non-leveraged funds.

In connection with its consideration of the Fund's management fees, the board also received information on UBS Global AM's standard institutional account fees for accounts of a similar investment type to the Fund. The board noted management's explanation that comparisons with such accounts may be of limited relevance given the different structures and regulatory requirements of mutual funds, such as the Fund, versus those accounts and the differences in the levels of services required by the Fund and those accounts. The board also received information on fees charged to other mutual funds managed by UBS Global AM.

The comparative Lipper information showed that the Fund's Contractual Management Fee was 12 basis points (0.12%) above the Expense Group median, its Actual Management Fee was approximately 4 basis points (0.04%) above the Expense Group median and its total expenses were approximately 15 basis points (0.15%) above the Expense Group median (each the highest in the Expense Group). (Below median expenses represents fees or expenses that are lower relative to the median and above median expenses represents fees or expenses that are higher relative to the median of the funds in the Expense Group.) Management noted that a combination of the Fund's management, custodial and other non-management expenses contributes to a higher total expense ratio. Management noted that the Fund, unlike most of its peers, has a broad mandate of investing in both local and external emerging markets debt. Management noted that tapping both local and external emerging markets debt widens the opportunity set and further diversifies the Fund's sources of risk across multiple interest rate and currency markets. Management noted that the Fund's Expense Group peers invest primarily in US dollar denominated debt, and that funds with an investment approach more aligned with the Fund tend to have higher management fees like the Fund. Management also noted that the Fund's custody fees tend to be higher than its Expense Group peers due to the Fund's sizable exposure to local emerging markets debt, where custody accounts are more costly to maintain.

The board discussed the adjustments made to the Fund's fee structure over the years and the various voluntary fee waivers introduced by UBS Global AM in an attempt to reduce the Fund's expenses. It was noted that, with these reductions, the Fund's actual advisory fee blended rate was 1.07%, which according to last year's Lipper materials was more in line with the then Expense Group median and supplemental group median. Management noted that this year's peer group medians are lower. The board discussed management's proposal to further reduce the Fund's management fee so that UBS Global AM is paid at a flat annual rate of 1.00% on the Fund's average weekly net assets, effective beginning August 1, 2014. Management proposed to bake in the fee waiver by amending and restating the then current Investment Advisory and Administration Contract, by which UBS Global AM would effectively concede the ability to revert to the higher original fee as might have been the case had a fee reduction been effectuated by a separate fee

waiver agreement subject to a set term (such as one year).

In light of the foregoing, including the proposed contractual fee reduction, the board determined that the management fee was reasonable in light of the nature, extent and quality of services provided to the Fund under the Investment Advisory and Administration Agreement. Nonetheless, the board determined that it would closely monitor the Fund's expenses over the upcoming year.

Global High Income Fund Inc.

Board approval of investment advisory and administration contract (unaudited)

Fund performance The board received and considered (a) annualized total return information of the Fund compared to other funds (the Performance Universe) selected by Lipper over the one-, three-, five-, ten-year and since inception periods ended April 30, 2014 and (b) annualized performance information for each year in the ten-year period ended April 30, 2014. Although the board received information for the ten-year and since inception periods, in its analysis, it generally placed greater emphasis on the one-, three- and five-year periods. The board was provided with a description of the methodology Lipper used to determine the similarity of the Fund with the funds included in its Performance Universe.

The comparative Lipper information showed that the Fund's performance was below the Performance Universe median for the one-, three-, five- and ten-year periods and at the Performance Universe median since inception. (Below median performance represents performance that is worse relative to the median and above median performance represents performance that is better relative to the median of the funds in the Performance Universe.) For the one-, three-, five- and ten-year periods, the Fund ranked last of the three funds being compared. Management noted, however, that the Performance Universe, which only included two other funds, was too small to effectively rank the Fund's performance.

Management noted that emerging markets broadly posted very weak returns over the twelve-month period ended April 30, 2014. Management noted that the Fund underperformed largely due to its overweight to local currency debt and longer duration exposure to Brazil, which detracted from results. Management also noted that there are various types of strategies managers can focus on within emerging markets debt (*e.g.*, local currency, hard currency, corporate, region specific, etc.), which can materially impact relative rankings. Management noted that its emerging markets debt strategies have historically been higher beta in style and that this has negatively reflected on recent performance. Management noted that it is continuing to closely monitor the Fund's exposures and risk across markets. Management further noted that the Fund's performance improved in the last three months as investor sentiment strengthened with respect to emerging economies and capital flows stabilized.

Based on its review of the Fund and management's presentation, the board concluded that the Fund's investment performance was acceptable, but determined to continue to closely monitor the Fund's performance over the upcoming year.

Advisor profitability The board received and considered a profitability analysis of UBS Global AM and its affiliates in providing services to the Fund. The board also received profitability information with respect to the UBS New York fund complex as a whole. UBS Global AM's profitability was considered not excessive in light of the nature, extent and quality of the services provided to the Fund.

Economies of scale The board received and considered information from management regarding whether UBS Global AM realized economies of scale as the Fund's assets grew, whether the Fund has appropriately benefited from any economies of scale, and whether there is potential for realization of further economies of scale for the Fund. The board considered whether economies of scale in the provision of services to the Fund were being passed along to the shareholders.

The board noted that the Fund's Contractual Management Fee did not contain breakpoints; however, the Fund had received the benefit of a breakpoint via an older fee waiver agreement instituted in 2005 that can only be changed with the consent of the board. The board considered that the Fund's asset level exceeded the breakpoint as of April 30, 2014

and, as a result, the Fund and its shareholders had realized certain economies of scale because the total expense ratio of the Fund was lower than if no breakpoint had been in place. Accordingly, the board determined that economies of scale had been passed on to shareholders in the form of breakpoints in the Actual Management Fee; however, it was also recognized that approval of the proposed lower contractual fee would result in a flat fee without breakpoints going forward effective August 1, 2014.

Global High Income Fund Inc.

Board approval of investment advisory and administration contract (unaudited)

Generally, in light of UBS Global AM's profitability data, the Contractual Management Fee and Actual Management Fee, the board believed that UBS Global AM's sharing of current economies of scale with the Fund was acceptable even in the absence of a breakpoint going forward.

Other benefits to UBS Global AM The board considered other benefits received by UBS Global AM and its affiliates as a result of its relationship with the Fund, including the opportunity to offer additional products and services to Fund shareholders.

In light of the costs of providing investment advisory, administrative and other services to the Fund and UBS Global AM's ongoing commitment to the Fund, the profits and other ancillary benefits that UBS Global AM and its affiliates received were considered reasonable.

In light of all of the foregoing, the board approved the proposed amended and restated Investment Advisory and Administration Contract. No single factor reviewed by the board was identified by the board as the principal factor in determining whether to approve the Investment Advisory and Administration Contract. The Independent Directors were advised by separate independent legal counsel throughout the process. The board discussed the proposed amended and restated Investment Advisory and Administration Agreement in private sessions with its independent legal counsel at which no representatives of UBS Global AM were present.

Global High Income Fund Inc.

Supplemental information (unaudited)

Board of Directors & Officers

The Fund is governed by a Board of Directors which oversees the Fund's operations. Directors are classified into three classes. The term of office of one class of directors will expire at the Fund's 2015 annual stockholders meeting, with the second class expiring at the 2016 meeting and the third expiring at the 2017 meeting, and when the successors to the members of each class have been elected. The Board members were classified as follows: Class I Bernard H. Garil and Heather R. Higgins; Class II Richard Q. Armstrong, Alan S. Bernikow and David Malpass; and Class III Richard R. Burt and Meyer Feldberg. Officers are appointed by the directors and serve at the pleasure of the Board.

The table below shows, for each director and officer, his or her name, address and age, the position held with the Fund, the length of time served as a director or officer of the Fund, the director's term of office, the director's or officer's principal occupations during the last five years, the number of funds in the UBS fund complex overseen by the director or for which a person served as an officer, and other directorships held by the director.

The Fund's most recent proxy statement for an annual meeting of shareholders contains additional information about the directors and is being mailed to shareholders concurrently with this annual report.

Interested Director:

UBS family of funds privacy notice

N. B. The following privacy notice applies to closed-end fund shares where the investor's holdings are registered directly with the fund's transfer agent and not held through an intermediary (e.g., in street name).

Privacy Notice

This privacy notice is not a part of the shareholder report.

This notice describes the privacy policy of the UBS Family of Funds, the PACE® Funds and all closed-end funds managed by UBS Global Asset Management (collectively, the Funds). The Funds are committed to protecting the personal information that they collect about individuals who are prospective, current or former investors.

The Funds collect personal information in order to process requests and transactions and to provide customer service. Personal information, which is obtained from applications and other forms or correspondence submitted to the Funds, may include name(s), address, e-mail address, telephone number, date of birth, social security number or other tax identification number, bank account information, information about your transactions and experiences with the Funds, and any affiliation a client has with UBS Financial Services Inc. or its affiliates (Personal Information).

The Funds limit access to Personal Information to those individuals who need to know that information in order to process transactions and service accounts. These individuals are required to maintain and protect the confidentiality of Personal Information and to follow established procedures. The Funds maintain physical, electronic and procedural safeguards to protect Personal Information and to comply with applicable laws and regulations.

The Funds may share Personal Information with their affiliates to facilitate the servicing of accounts and for other business purposes, or as otherwise required or permitted by applicable law. The Funds may

also share Personal Information with non-affiliated third parties that perform services for the Funds, such as vendors that provide data or transaction processing, computer software maintenance and development, and other administrative services. When the Funds share Personal Information with a non-affiliated third party, they will do so pursuant to a contract that includes provisions designed to ensure that the third party will uphold and maintain privacy standards when handling Personal Information. In addition to sharing information with non-affiliated third parties to facilitate the servicing of accounts and for other business purposes, the Funds may disclose Personal Information to non-affiliated third parties as otherwise required or permitted by applicable law. For example, the Funds may disclose Personal Information to credit bureaus or regulatory authorities to facilitate or comply with investigations; to protect against or prevent actual or potential fraud, unauthorized transactions, claims or other liabilities; or to respond to judicial or legal process, such as subpoena requests.

Except as described in this privacy notice, the Funds will not use Personal Information for any other purpose unless the Funds describe how such Personal Information will be used and clients are given an opportunity to decline approval of such use of Personal Information relating to them (or affirmatively approve the use of Personal Information, if required by applicable law). The Funds endeavor to keep their customer files complete and accurate. The Funds should be notified if any Personal Information needs to be corrected or updated. Please call 1-800-647-1568 with any questions or concerns regarding your Personal Information or this privacy notice.

UBS Global Asset Management (Americas) Inc.

1285 Avenue of the Americas

New York, NY 10019-6028

Item 2. Code of Ethics.

The registrant has adopted a code of ethics that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions pursuant to Section 406 of the Sarbanes-Oxley Act of 2002. (The registrant has designated the code of ethics adopted pursuant to Sarbanes-Oxley as a Code of Conduct to lessen the risk of confusion with its separate code of ethics adopted pursuant to Rule 17j-1 under the Investment Company Act of 1940, as amended.)

Item 3. Audit Committee Financial Expert.

The registrant's Board has determined that the following person serving on the registrant's Audit Committee is an audit committee financial expert as defined in item 3 of Form N-CSR: Alan S. Bernikow. Mr. Bernikow is independent as defined in Item 3 of Form N-CSR.

Item 4. Principal Accountant Fees and Services.

(a) **Audit Fees:**

For the fiscal years ended October 31, 2014 and October 31, 2013, the aggregate Ernst & Young LLP (E&Y) audit fees for professional services rendered to the registrant were approximately \$70,564 and \$69,564, respectively.

Fees included in the audit fees category are those associated with the annual audits of financial statements and services that are normally provided in connection with statutory and regulatory filings.

(b) **Audit-Related Fees:**

In each of the fiscal years ended October 31, 2014 and October 31, 2013, the aggregate audit-related fees billed by E&Y for services rendered to the registrant that are reasonably related to the performance of the audits of the financial statements, but not reported as audit fees, were approximately \$4,490 and \$4,444, respectively.

Fees included in the audit-related category are those associated with (1) the reading and providing of comments on the 2014 and 2013 semiannual financial statements, and (2) review of the consolidated 2013 and 2012 report on the profitability of the UBS Funds to UBS Global Asset Management (Americas) Inc. and its affiliates to assist the board members in their annual advisory/administration contract reviews.

There were no audit-related fees required to be approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the fiscal years indicated above.

(c) Tax Fees:

In each of the fiscal years ended October 31, 2014 and October 31, 2013, the aggregate tax fees billed by E&Y for professional services rendered to the registrant were approximately \$7,000 and \$6,142, respectively.

Fees included in the tax fees category comprise all services performed by professional staff in the independent accountant's tax division except those services related to the audits. This category comprises fees for review of tax compliance, tax return preparation and excise tax calculations.

There were no tax fees required to be approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the fiscal years indicated above.

(d) All Other Fees:

In each of the fiscal years ended October 31, 2014 and October 31, 2013, there were no fees billed by E&Y for products and services, other than the services reported in Item 4(a)-(c) above, rendered to the registrant.

Fees included in the all other fees category would consist of services related to internal control reviews, strategy and other consulting, financial information systems design and implementation, consulting on other information systems, and other tax services unrelated to the registrant.

There were no all other fees required to be approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the fiscal years indicated above.

(e) (1) Audit Committee Pre-Approval Policies and Procedures:

The registrant's Audit Committee (audit committee) has adopted an Audit Committee Charter (Amended and Restated as of May 12, 2004-with revisions through July 2013) (the charter). The charter contains the audit committee's pre-approval policies and procedures. Reproduced below is an excerpt from the charter regarding pre-approval policies and procedures:

The [audit]Committee shall:

2. Pre-approve (a) all audit and permissible non-audit services¹ to be provided to the Fund and (b) all permissible non-audit services to be provided by the Fund's independent auditors to UBS Global [Asset Management (Americas) Inc. (UBS Global AM)] and any Covered Service Providers, if the engagement relates directly to the operations and financial reporting of the Fund. In carrying out this responsibility, the Committee shall seek periodically from UBS Global [AM] and from the independent auditors a list of such audit and permissible non-audit services that can be expected to be rendered to the Fund, UBS Global [AM] or any Covered Service Providers by the Fund's independent auditors, and an estimate of the fees sought to be paid in connection with such services. The Committee may delegate its responsibility

to pre-approve any such audit and permissible non-audit services to a sub-committee consisting of the Chairperson of the Committee

and two other members of the Committee as the Chairperson, from time to time, may determine and appoint, and such sub-committee shall report to the Committee, at its next regularly scheduled meeting after the sub-committee's meeting, its decision(s). From year to year, the Committee shall report to the Board whether this system of pre-approval has been effective and efficient or whether this Charter should be amended to allow for pre-approval pursuant to such policies and procedures as the Committee shall approve, including the delegation of some or all of the Committee's pre-approval responsibilities to other persons (other than UBS Global [AM] or the Fund's officers).

¹ The Committee will not approve non-audit services that the Committee believes may taint the independence of the auditors. Currently, permissible non-audit services include any professional services (including tax services) that are not prohibited services as described below, provided to the Fund by the independent auditors, other than those provided to the Fund in connection with an audit or a review of the financial statements of the Fund. Permissible non-audit services may not include: (i) bookkeeping or other services related to the accounting records or financial statements of the Fund; (ii) financial information systems design and implementation; (iii) appraisal or valuation services, fairness opinions or contribution-in-kind reports; (iv) actuarial services; (v) internal audit outsourcing services; (vi) management functions or human resources; (vii) broker or dealer, investment adviser or investment banking services; (viii) legal services and expert services unrelated to the audit; and (ix) any other service the Public Company Accounting Oversight Board determines, by regulation, is impermissible.

Pre-approval by the Committee of any permissible non-audit services is not required so long as: (i) the aggregate amount of all such permissible non-audit services provided to the Fund, UBS Global [AM] and any service providers controlling, controlled by or under common control with UBS Global [AM] that provide ongoing services to the Fund (Covered Service Providers) constitutes not more than 5% of the total amount of revenues paid to the independent auditors (during the fiscal year in which the permissible non-audit services are provided) by (a) the Fund, (b) its investment adviser and (c) any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the Fund during the fiscal year in which the services are provided that would have to be approved by the Committee; (ii) the permissible non-audit services were not recognized by the Fund at the time of the engagement to be non-audit services; and (iii) such services are promptly brought to the attention of the Committee and approved by the Committee (or its delegate(s)) prior to the completion of the audit.

(e) (2) Services approved pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X:

Audit-Related Fees:

There were no amounts that were approved by the audit committee pursuant to the de minimis exception for the fiscal years ended October 31, 2014 and October 31, 2013 on behalf of the registrant.

There were no amounts that were required to be approved by the audit committee pursuant to the de minimis exception for the fiscal years ended October 31, 2014 and October 31, 2013 on behalf of the registrant's service providers that relate directly to the operations and financial reporting of the registrant.

Tax Fees:

There were no amounts that were approved by the audit committee pursuant to the de minimis exception for the fiscal years ended October 31, 2014 and October 31, 2013 on behalf of the registrant.

There were no amounts that were required to be approved by the audit committee pursuant to the de minimis exception for the fiscal years ended October 31, 2014 and October 31, 2013 on behalf of the registrant's service providers that relate directly to the operations and financial reporting of the registrant.

All Other Fees:

There were no amounts that were approved by the audit committee pursuant to the de minimis exception for the fiscal years ended October 31, 2014 and October 31, 2013 on behalf of the registrant.

There were no amounts that were required to be approved by the audit committee pursuant to the de minimis exception for the fiscal years ended October 31, 2014 and October 31, 2013 on behalf of the registrant's service providers that relate directly to the operations and financial reporting of the registrant.

- (f) For the fiscal year ended October 31, 2014, if greater than 50%, specify the percentage of hours spent on the audit of the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons who are not full-time, permanent employees of E&Y. According to E&Y, such amount was below 50%; therefore disclosure item not applicable to this filing.
- (g) For the fiscal years ended October 31, 2014 and October 31, 2013, the aggregate fees billed by E&Y of \$277,517 and \$134,421, respectively, for non-audit services rendered on behalf of the registrant (covered), its investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and any entity controlling, controlled by, or under common control with the adviser (non-covered) that provides ongoing services to the registrant for each of the last two fiscal years of the registrant is shown in the table below:

	2014	2013
Covered Services	\$ 11,490	\$ 10,586
Non-Covered Services	266,027	123,835

- (h) The registrant's audit committee was not required to consider whether the provision of non-audit services that were rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or

overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

Item 5. Audit Committee of Listed Registrants.

The registrant has a separately designated standing audit committee (the Audit Committee) established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended. The Audit Committee is comprised of the following board members: Mr. Armstrong, Mr. Bernikow, Mr. Burt, Mr. Garil, Mr. Malpass and Ms. Higgins.

Item 6. Investments.

(a) Included as part of the report to shareholders filed under Item 1 of this form.

(b) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The registrant's Board of Directors believes that the voting of proxies on securities held by the registrant is an important element of the overall investment process. As such, the Board has delegated the responsibility to vote such proxies to the registrant's advisor. Following is a summary of the proxy voting policy of the advisor.

CORPORATE GOVERNANCE PHILOSOPHY, VOTING GUIDELINES AND POLICY SUMMARY

The proxy voting policy of UBS Global Asset Management (Americas) Inc. (UBS Global AM) is based on its belief that voting rights have economic value and should be treated accordingly. Generally, UBS Global AM expects the boards of directors of companies issuing securities held by its clients to act in the service of the shareholders, view themselves as stewards of the company, exercise good judgment and practice diligent oversight of the management of the company. While there is no absolute set of rules that determine appropriate corporate governance under all circumstances and no set of rules will guarantee ethical behavior, there are certain principles which provide evidence of good corporate governance. UBS Global AM may delegate to an independent proxy voting and research service the authority to exercise the voting rights associated with certain client holdings. Any such delegation shall be made with the direction that the votes be exercised in accordance with UBS Global AM's proxy voting policy.

When UBS Global AM's view of a company's management is favorable, UBS Global AM generally supports current management initiatives. When UBS Global AM's view is that changes to the management structure would probably increase shareholder value, UBS Global AM may not support existing management proposals. In general, UBS Global AM generally exercises voting rights in accordance with the following principles: (1) with respect to board structure, (a) the roles of chairman and chief executive generally should be separated, (b) board members should have appropriate and diverse experience and be capable of providing good judgment and diligent oversight of management of the company, and (c) the board should include executive and non-executive members and the non-executive members should provide a challenging, but generally supportive environment; and (2) with respect to board responsibilities, (a) the whole board should be fully involved in endorsing strategy and in all major strategic decisions, and (b) the board should ensure that, among other things, at all times the interests of executives and shareholders are aligned and the financial audit is independent and accurate. In addition,

UBS Global AM focuses on the following areas of concern when voting its clients' securities: economic value resulting from acquisitions or disposals; operational performance; quality of management; independent board members not holding management accountable; quality of internal controls; lack of transparency; inadequate succession planning; poor approach to social responsibility; inefficient management structure; and corporate activity designed to frustrate the ability of shareholders to hold the board accountable or realize the maximum value of their investment. UBS Global AM exercises its voting rights in accordance with overarching rationales outlined by its proxy voting policies and procedures that are based on the principles described above.

UBS Global AM has implemented procedures designed to identify whether it has a conflict of interest in voting a particular proxy proposal, which may arise as a result of its or its affiliates' client relationships, marketing efforts or banking, investment banking and broker/dealer activities. To address such conflicts, UBS Global AM has imposed information barriers between it and its affiliates who conduct banking, investment banking and broker/dealer activities and has implemented procedures to prevent business, sales and marketing issues from influencing its proxy votes. Whenever UBS Global AM is aware of a conflict with respect to a particular proxy, the UBS Global AM Corporate Governance Committee is required to review and resolve the manner in which such proxy is voted.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a) (1) Name Uwe Schillhorn
Title Vice President

Length of Service Since 2004

Business Experience Last 5 Years Mr. Schillhorn is a managing director (since 2010) (prior to which he was an executive director) and head of emerging markets debt (since 2004) of UBS Global AM. Mr. Schillhorn is a vice president of two investment companies (consisting of two portfolios) for which UBS Global AM serves as investment advisor, sub-advisor or manager.

Information is as of January 9, 2015

(a) (2) (i) Portfolio Manager
Uwe Schillhorn

(a) (2) (ii) (A) Registered Investment Companies

The portfolio manager is responsible for 3 additional Registered Investment Companies (not including the registrant) totaling approximately \$245 million as of October 31, 2014.

(a) (2) (ii) (B) Other Pooled Investment Vehicles

The Portfolio Manager is responsible for 20 additional Other Pooled Investment Vehicles totaling approximately \$5.427 billion as of October 31, 2014.

(a) (2) (ii) (C) Other accounts

The Portfolio Manager is responsible for 15 additional accounts totaling approximately \$9.771 billion as of October 31, 2014.

(a) (2) (iii) Accounts with respect to which an advisory fee is based on the performance of the account as of October 31, 2014.

As of October 31, 2014, the Portfolio Manager is not responsible for an account with respect to which the advisory fee is based on the performance of the account.

(a) (2) (iv) Conflicts.

The portfolio management team's management of the registrant and other accounts could result in potential conflicts of interest if the registrant and other accounts have different objectives, benchmarks and fees because the portfolio management team must allocate its time and investment expertise across multiple accounts, including the registrant. The portfolio manager and the team of which he is a member manage the registrant and other accounts utilizing a model approach that groups similar accounts within a model portfolio. UBS Global AM manages accounts according to the appropriate model portfolio, including where possible, those accounts that have specific investment restrictions. Accordingly, portfolio holdings, position sizes, and industry and sector exposures tend to be similar across accounts, which may minimize the potential for conflicts of interest.

If a portfolio manager identifies a limited investment opportunity that may be suitable for more than one account or model portfolio, the registrant may not be able to take full advantage of that opportunity due to an allocation of filled purchase or sale orders across all eligible portfolios and accounts. To deal with these situations, UBS Global AM has adopted procedures for allocating portfolio trades across multiple accounts to provide fair treatment to all accounts.

The management of personal accounts by a portfolio manager may also give rise to potential conflicts of interest. UBS Global AM and the registrant have adopted a Code of Ethics that governs such personal trading, but there is no assurance that the Code will adequately address all such conflicts.

(Information in Item 8(a)(2) is provided as of the Registrant's fiscal year end of October 31, 2014.)

(a) (3) Compensation.

UBS Global Asset Management's compensation and benefits programs are designed to provide its investment professionals with incentives to excel, and to promote an entrepreneurial, performance-oriented culture with clear accountability. They also align the interests of investment professionals with those of our clients and other stakeholders.

In general, the total compensation received by the portfolio managers and analysts at UBS Global Asset Management consists of two elements: a fixed component (base salary and benefits) and an annual discretionary performance award.

Fixed component (base salary and benefits):

Set with the aim of being competitive in the industry and monitored and adjusted periodically with reference to the relevant local labor market in order to remain so.

The fixed component is used to recognize the experience, skills and knowledge that each portfolio manager and analyst brings to their role.

Performance award:

Determined annually on a discretionary basis.

Based on the individual's financial and non-financial contribution as assessed through a rigorous performance assessment process as well as the performance of their respective function, of UBS Global Asset Management and of UBS as a whole.

Delivered in cash and, when total compensation is over a defined threshold, partly in deferral vehicles.

For awards subject to deferral, the deferred amount is calculated using graduated marginal deferral rates, which increase as the value of the performance award increases.

Deferred amounts are then delivered via two deferral vehicles: 75% in the UBS Global Asset Management Equity Ownership Plan (Global AM EOP) and 25% in the Deferred Contingent Capital Plan (DCCP):

- i Global AM EOP awards generally vest over five years with 40% of the award vesting in year two, 40% in year three and 20% in year five, provided the vesting conditions, including continued service, are met and the awards have not been forfeited on or before the vesting dates. The notional funds awarded under the Global AM EOP are aligned to selected UBS Global Asset Management funds. They provide for a high level of transparency and correlation between an employee's compensation and the investment performance of UBS Global Asset Management. This alignment with UBS Global Asset Management funds enhances the alignment of investment professionals' and other employees' interests with those of our clients.
- i The DCCP is a mandatory deferral plan. Awards under the DCCP vest 100% in year five, subject to vesting conditions, including continued employment, and subject to forfeiture.

UBS Global Asset Management believes that these deferral plans reinforce the critical importance of creating long-term business value, with both plans serving as alignment and retention tools.

Investment professionals' discretionary performance awards are correlated with the investment performance of relevant client portfolios versus benchmark (here a blended benchmark composed of 50% of J.P. Morgan Emerging Markets Bond Index Global and 50% J.P. Morgan Government Bond Index - Emerging Markets Global Diversified) or other investment objectives and, where appropriate, peer strategies over one and three years. This is to ensure that long-term performance is the focus and that the interests of the portfolio managers are aligned with those of clients.

For analysts, performance awards are, in general, based on the performance of some combination of model and/or client portfolios, generally evaluated over one and three years. This is coupled with a qualitative assessment of their contribution considering factors such as the quality of their research, stock recommendations and their communication within and between teams and with portfolio managers.

(Information in Item 8(a)(3) is provided as of the Registrant's fiscal year end of October 31, 2014.)

(a) (4) Dollar Range of Securities of Registrant Beneficially Owned by Portfolio Manager.

None

(Information in Item 8(a)(4) is provided as of the Registrant's fiscal year end of October 31, 2014.)

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

There were no purchases made by or on behalf of the Registrant or any affiliated purchaser, as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, as amended, of shares of the Registrant's equity securities that are registered by the Registrant pursuant to Section 12 of the Exchange Act made in the period covered by this report.

Item 10. Submission of Matters to a Vote of Security Holders.

The registrant's Board has established a Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee will consider nominees recommended by shareholders if a vacancy occurs among those board members who are not interested persons as defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended. In order to recommend a nominee, a shareholder should send a letter to the chairperson of the Nominating and Corporate Governance Committee, Richard R. Burt, care of the Secretary of the registrant at UBS Global Asset Management, UBS Building, One North Wacker Drive, Chicago, IL 60606, and indicate on the envelope

Nominating and Corporate Governance Committee. The shareholder's letter should state the nominee's name and should include the nominee's resume or curriculum vitae, and must be accompanied by a written consent of the individual to stand for election if nominated for the Board and to serve if elected by shareholders.

Item 11. Controls and Procedures.

- (a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) are effective based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.
- (b) The registrant's principal executive officer and principal financial officer are aware of no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940, as amended) that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. Exhibits.

- (a) (1) Code of Ethics as required pursuant to Section 406 of the Sarbanes-Oxley Act of 2002 (and designated by registrant as a "Code of Conduct") is filed herewith as Exhibit EX-99.CODE ETH.
- (a) (2) Certifications of principal executive officer and principal financial officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto as Exhibit EX-99.CERT.
- (a)

(3) Written solicitation to purchase securities under Rule 23c-1 under the Investment Company Act of 1940 sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons
The registrant has not engaged in such a solicitation during the period covered by this report.

- (b) Certifications of principal executive officer and principal financial officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto as Exhibit EX-99.906CERT.
- (c) Disclosure pursuant to Section 13(r) of the Securities Exchange Act of 1934, as amended, is attached hereto as Exhibit EX-99.IRANNOTICE.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
