PREFACE TO THE POSTAL BALLOT NOTICE

ISSUANCE OF ORDINARY SHARES AND A ORDINARY SHARES THROUGH A RIGHTS ISSUE

Proposal

Members approval is being sought by way of Ordinary Resolution for authorizing the Board to raise long term funds aggregating 7,500 crores through the issue of shares on a rights basis.

This envisages the issue of ordinary shares to the holders of ordinary shares and the issue of A ordinary shares to the holders of A ordinary shares in the same proportion of ordinary shares and A ordinary shares held in the capital of the Company.

Legal Requirement

Whilst generally a Rights Issue does not require shareholder approval, taking into consideration that the Rights Issue envisages the issue of A ordinary shares and pursuant to the requirement of Section 110 of the Companies Act, 2013 and the Rules framed thereunder proposal is being placed before the shareholders.

Rationale and utilization of proceeds

Considering the future growth and expansion plan of the Company on a global basis, it is expected that the total capital outlay required shall remain high in the near term (approximately on an average 4,000 crores per annum for the Indian business and GBP3.5-3.7 billion per annum for the Jaguar Land Rover (JLR) business with similar elevated levels for each business for the subsequent 2-3 years as well).

Whilst the Company endeavours to meet a significant portion of its total capital outlay on global basis through its consolidated cash flow from operations, taking into account the cyclical nature of the automobile operations, as evidenced by the downturn in India and the negative impact on operating cash flow, and the future capex and

product development programme envisioned for the Tata Motors Group, it is considered prudent at this stage for the Company to raise funds through a Rights Issue.

The Rights Issue proceeds are expected to be utilized to finance a portion of the ongoing capital expenditure, including product development expenses; invest in subsidiaries to support future growth opportunities in India and abroad; strengthen capital structure by deleveraging the balance sheet to build financial flexibility; partly correct the accumulated mismatch between the long term sources and application of funds; meet issue expenses; and general corporate purposes.

Eligibility of American Depositary Receipts (ADR) holders to the Rights Issue

Although the Company currently intends to file a registration statement with the U.S. Securities and Exchange Commission to enable holders of ADRs to participate in the Rights Issue, there is no assurance that such registration statement will be filed. Accordingly, there is no assurance that ADR holders will be able to participate in the Rights Issue on the same basis as holders of ordinary shares or at all. This notice does not constitute or form part of an offer to sell or issue or an invitation to purchase or subscribe to any securities of the Company in any jurisdiction where such offer or sale is not permitted, and no part of this notice shall form the basis of or be relied upon in connection with any contract or commitment.

Next Steps

Subsequent to the receipt of shareholders' approval, the Board of Directors would fix the record date for eligibility of the Members to the Rights Issue. The Board or a Committee thereof would finalise the terms of the Rights Issue which include basis of rights entitlement, pricing of the shares offered, timing of the offer and other terms.

The proposed Resolution is recommended by the Board for approval by the Members.

Note: For detailed information on the proposal for the said Rights Issue, kindly refer the Notice alongwith the Explanatory Statement appended hereto.

Issue of ordinary shares and A ordinary shares through a Rights Issue

Company's strategic plans and fund requirements:

The Company has embarked on a dynamic journey to achieve profitable growth and expansion of its product offerings and geographical presence, both globally as well as in India. These developments are expected to include the addition of more than 100 products (taking into account differing tonnages, power train combinations and variants) in the commercial vehicle business over the next 3 years, the introduction of 2 or 3 new products each year in the passenger vehicle business, the adoption of a new modular platform from 2016-17 onwards, the addition of more than 40 new products (taking into account differing variants and power train combinations) over the next 5 years in the Company's Jaguar Land Rover business, an increase in manufacturing capacity in the UK, an expansion of Jaguar Land Rover's operations in China, Brazil and potentially other markets, de-risking the Jaguar Land Rover business by setting up its own engine plant in the UK, investment in technology, including to enable compliance with increasingly stringent emission requirements, expansion of commercial and passenger vehicle operations in Thailand, Indonesia and South Korea (through the Company's existing manufacturing bases), as well as penetration of new export markets for India business including Australia, Philippines and Vietnam.

Brief description of each of the key business areas of the Company are set forth below.

India Business:-

The Company offers a diverse range of products in its portfolio of commercial vehicles, starting from 0.5 ton vehicle to upto 49 ton vehicles. The Company also offers a wide variety of passenger vehicles, ranging from small hatchbacks to UVs.

The Company has drawn a strategic road map, under the umbrella *Horizonext* which is aimed at strengthening its position and market share in commercial vehicles and regaining market share in passenger vehicles.

During the past 3 years, the Company has encountered challenging conditions in its India business due to a significant slowdown in the Indian economy and reduced demand for the entire automobile industry in general and the commercial vehicle industry in particular. Volumes in the medium and heavy commercial vehicles sector fell by around 49% from FY12-FY14. The Company, being a lead player in the Commercial Vehicle industry (with an overall market share of 54%) was significantly impacted by the slowdown.

Table of Contents

Nevertheless, the Company has utilised this period of slowdown as an opportunity to further strengthen its product profile and offerings of other value added services for the customers in the commercial vehicle business, reshaping its passenger vehicle product portfolio and improve customer and dealer engagements in the passenger vehicle business, undertake several organisational changes, including the the creation of a new Programme Planning & Project Management (PPPM) which is intended to front-end and improve the execution of new product development projects for creating competitive and profitable products, the centralisation of procurement and supply chain functions and the creation of a new role for Vehicle Line Directors who are tasked with overseeing product programs for various vehicle lines and bring accountability on parameters such as timelines, cost, quality, profitability that are critical for the success of the products in the marketplace. With all these changes and current undergoing initiatives, the Company believes that it will emerge stronger from the slowdown and is ready for taking a leap into the next phase of growth.

Several key strategic initiatives commenced by the Company are as set forth below:-

Lead The Future (LTF): An internal market-benchmarked leadership programme intended to ensure cost reduction and roll-out value enhancement through work streams designed to meet aggressive yet tangible targets.

Jaguar Land Rover Business (JLR):

JLR continues to invest substantially, towards development of new products in new and existing segments, new power trains and technologies to meet customer and regulatory requirements and to increase its manufacturing capacity in the United Kingdom, China, Brazil and potentially other international markets.

The significant growth in JLR sales and profitability with a strong cash and liquidity position has supported JLR capital spending strategy.

JLR continues to have a longer term capital spending target of 10-12% of revenue, which it believes is in line with other premium competitors, but in the near and medium term, JLR expects its capital spending to be a greater percentage of revenue in order to realise the present opportunities for growth. JLR continues to target funding most of its capital spending out of operating cash flow. JLR expects its strong Balance sheet and proven access to funding from capital markets and banks to support its requisite investment plans.

Table of Contents

Other Subsidiaries:

The Company intends to increase its market position and presence in the geographies where it has a manufacturing base through its subsidiaries like Tata Motors Thailand (TMTL), PT Tata Motors Indonesia (PTTMI), Tata Motors South Africa (TMSA) and Tata Daewoo Korea (TDCV). The Company expects to launch several new products - Medium and Heavy Commercial Vehicles, Light Commercial Vehicles and some launches of passenger vehicles in these markets aimed at increasing the Company's market presence and achieving profitable volume growth.

Further, the Company also expects to invest in its captive finance subsidiary to enable it to capitalize on the next phase of economic growth in India.

Company Funding Strategy:

Considering the future growth and expansion plans of the Company on a global basis, it is expected that the total capital outlay will remain high in the near term (~an average of 4,000 crores p.a., approx. US\$ 651 million based on exchange rate of US\$1: 61.12 as on date) for the India business, GBP3.5-3.7 billion per annum (approx. US\$5.3 to 5.6 billion based on exchange rate of US\$ 1.50:GBP 1 as on date) for JLR and similar elevated levels for each business in the next 2-3 years).

While the Company endeavours to meet a significant portion of its total spend on global basis through its consolidated cash flow from operations, taking into account the cyclical nature of the automobile operations, (as evidenced by the downturn in India and the negative impact on operating cash flows) and future capex and product development programme for the Tata Motors Group, it is considered prudent at this stage for the Company to raise funds.

It is currently envisaged to raise funds through the issue of ordinary and A ordinary shares of the Company, both of the face value of 2/- each (together referred to as the Shares) on a rights basis for an amount not exceeding 7,500 crores (approx. US\$ 1.2 billion based on an exchange rate of US\$1: 61.12 as on date) in one or more tranches at such price as may be considered appropriate by the Board, to the members as set out in the said Resolution.

As mentioned above, the Rights Issue proceeds are expected to be utilized to finance a portion of the ongoing capital expenditure, including product development expenses; invest in subsidiaries to support future growth opportunities in India and abroad; strengthen capital structure by deleveraging the balance sheet to build financial flexibility; partly correct the accumulated mismatch between the long term sources and application of funds; meet issue expenses; and general corporate purposes.

Proposal:

The Company proposes to raise additional capital aggregating upto 7,500 crores by way of issue of ordinary shares and A ordinary shares having differential voting rights of the Company, on a rights basis, in one or more tranches, to the ordinary shareholders and A ordinary shareholders, respectively (the Rights Issue) i.e. ordinary shareholders existing as on the record date shall only receive new ordinary shares whereas the A ordinary shareholders existing as on the record date shall only receive new A ordinary shares, in accordance with the Company's Articles of Association, the applicable provisions of the Companies Act read with the rules made thereunder, to the extent notified and in effect and Chapter IV of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009, as amended (the ICDR Regulations) and as approved by the Board by way of a resolution passed at its meeting held on January 27, 2015.

Although the Company currently intends to file a registration statement with the U.S. Securities and Exchange Commission to enable holders of ADRs to participate in the Rights Issue, there is no assurance that such registration statement will be filed. Accordingly, there is no assurance that ADR holders will be able to participate in the Rights Issue on the same basis as holders of ordinary shares or at all. This notice does not constitute or form part of an offer to sell or issue or an invitation to purchase or subscribe for any securities of the Company in any jurisdiction where such offer or sale is not permitted, and no part of this notice shall form the basis of or be relied upon in connection with any contract or commitment.

Statutory provision and disclosure:

Section 62 of the Companies Act, inter-alia provides that whenever it is proposed to increase the subscribed capital of a company by allotment of further shares, such further shares shall be offered to the persons who on the date of the offer are holders of the equity shares of the company in proportion to the capital paid-up on that date unless shareholders in a general meeting/postal ballot decide otherwise. The Listing Agreement executed by the Company with various Stock Exchanges also provides that a company shall in the first instance, offer all securities for subscription pro rata to the shareholders, unless the shareholders decide otherwise.

The ordinary shares and A ordinary shares, if any, allotted on issue, shall rank pari passu inter se and with the existing ordinary shares and A ordinary shares, of the Company respectively, as the case may be.

The Company has no outstanding preference share capital;

The Company has not defaulted in repayment of any term loan from a public financial institution or State level financial institution or scheduled bank that has become repayable or interest payable thereon or dues with respect to statutory payments relating to its employees to any authority or defaulted in crediting the amount in the Investor Education and Protection Fund of the Central Government;

The Company is not regulated by any sectoral regulator.

The proposed issue and allotment shall be governed by the applicable provisions of the Companies Act and the rules made thereunder, to the extent notified and in effect and the provisions of the ICDR Regulations.

The other information prescribed under Rule 4(2) of the Companies (Share Capital and Debentures) Rules, 2014 with regard to disclosure in the Explanatory Statement in respect of a proposal for issue of Shares with differential voting rights is as follows:-

(a) The total number of Shares to be issued with differential rights:

The Company proposes to issue Shares on a rights basis upto an amount not exceeding 7,500 crores. Currently, the A ordinary shares comprise 14.97% of the Company s paid- up capital. The holders of A ordinary shares shall be entitled to dividend for any financial year at 5 percentage points more than the aggregate rate of dividend declared on ordinary shares for that financial year (i.e. the aggregate dividend paid on each A ordinary share in any financial year would be 0.10 more than the aggregate dividend paid on each ordinary share). In case no dividend is recommended for ordinary shares for a financial year, the A ordinary shareholders would also not receive any dividend.

(c) The percentage of the Shares with differential rights to the total post issue paid up equity share capital including A ordinary shares with differential rights issued at any point of time:

The Company proposes to issue Shares on a rights basis upto an amount not exceeding 7,500 crores. Currently, the A ordinary shares comprise 14.97% of the Company's paid-up capital. As per Article 7A of the Company's Articles of Association, at any point of time, the total number of A ordinary shares issued and outstanding shall not be in excess of 25% of the total share capital (ordinary shares and A ordinary shares taken together) issued and outstanding of the Company.

(d) The reasons or justification for the issue:

Accordingly, the Company proposes to issue A ordinary shares in the Rights Issue. The holders of A ordinary shares shall receive further A ordinary shares whereas holders of ordinary shares shall receive further ordinary shares.

(e) The price at which such A ordinary shares are proposed to be issued either at par or premium:
The Board of Directors shall determine the price of the A ordinary shares (including, the premium on such A ordinary shares) issued pursuant to the Rights Issue at a later date.

(f) The basis on which the price has been arrived at:
The Board of Directors shall determine the basis of the A ordinary shares (including the premium, if any, on such A ordinary shares) to be issued pursuant to the Rights Issue at a later date. Full justification of the offer price shall be disclosed in the final Letter of Offer.

(g) The percentage of voting right which the equity share capital with differential voting right shall carry to the total voting right of the aggregate equity share capital:
The voting rights on the existing A ordinary shares represent 1.49% of the total voting rights of the aggregate share capital (ordinary shares and A ordinary shares taken together).
