Family Relationships

There are no family relationships among any of our directors and executive officers.

Board Composition

Our board of directors is currently comprised of six members. Two directors are elected exclusively by the holders of Class B common stock, voting as a separate class. At least one of these directors must be an executive officer nominated by our nominating and governance committee, with the consent of our founders holding a majority-in-interest of the outstanding Class B common stock over which the founders then exercise voting control. Our founders are executive officers Kishore Seendripu, Ph.D., Curtis Ling, Ph.D., Madhukar Reddy, Ph.D., and several other employees and former employees named in our amended and restated certificate of incorporation. The current Class B directors are Dr. Ling and Dr. Seendripu.

Our remaining directors are elected by the holders of our Class A common stock and Class B common stock, voting together as a single class. Our board of directors is divided into three staggered classes of directors. At each annual meeting of stockholders, a class of directors will be elected for a three year term to succeed the class whose terms are then expiring. The terms of the directors will expire upon the election and qualification of successor directors at the annual meeting of stockholders to be held during the years 2015 for the Class III directors, 2016 for the Class I director, and 2017 for the Class II directors. The Class I director is Mr. Craddock; the Class II directors are Dr. Ling and Messrs. Moyer and Schrock; and the Class III directors are Dr. Seendripu and Mr. Pardun.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, requires our directors, executive officers, and holders of more than 10% of our Class A common stock and Class B common stock to file with the Securities and Exchange Commission, or SEC, reports regarding their ownership and changes in ownership of our securities. Such persons are required by SEC regulations to furnish us with copies of all Section 16(a) forms that they file.

Based solely on our review of the copies of such forms furnished to us and written representations from the directors and executive officers, we believe that during fiscal 2014, our directors, executive officers, and 10% stockholders complied with all Section 16(a) filing requirements.

Code of Ethics

We maintain a code of ethics and employee conduct, which we refer to as our code of conduct, which applies to our board of directors and all of our employees, including our chief executive officer, principal financial officer, and principal accounting officer. Our code of conduct is available at our website by visiting www.maxlinear.com and clicking through Investors, Corporate Governance, and Code of Conduct. When required by the rules of the New York Stock Exchange (NYSE) or the SEC, we will disclose any future amendment to, or waiver of, any provision of the code of conduct for our chief executive officer, principal financial officer, principal accounting officer, or any member or members of our board of directors on our website within four business days following the date of such amendment or waiver.

Audit Committee

Our board of directors has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Exchange Act. Our audit committee currently consists of directors Albert J. Moyer, Thomas E. Pardun, and Steven C. Craddock. Mr. Moyer serves as the chairman of the audit committee. Our board of directors has determined that each of the members of our audit committee is independent and financially literate under the current rules and regulations of the SEC and the NYSE and that Mr. Moyer qualifies as an audit committee financial expert within the meaning of the rules and regulations of the SEC.

ITEM 11. EXECUTIVE COMPENSATION
COMPENSATION OF NON-EMPLOYEE DIRECTORS

Post-IPO Compensation Policy

We established our initial post-IPO compensation programs for non-employee directors in connection with our initial public offering in 2010. Those director compensation decisions were based in part on data provided by Compensia, Inc., an independent compensation consulting firm retained by our compensation committee to evaluate our compensation policies for independent directors. From time to time since the initial public offering, the compensation committee has reviewed our director equity compensation policy, in consultation with Compensia, and implemented changes intended, among other purposes, to ensure that equity incentives for our non-employee directors are competitive with our peer group and that they offer appropriate incentives to continued service as a director or, for prospective directors, to join our board.

Table of Contents*Cash Compensation*

Following their review of the Compensia data, in May 2012, our compensation committee approved and implemented a cash compensation program for non-employee directors. The board of directors amended our cash compensation program for non-employee directors in May 2014. The following table summarizes the cash compensation payable to non-employee directors of ours approved in May 2012 and as subsequently amended in May 2014.

| | Annualized Cash Fee(1) | |

| Nominating and Governance Committee Member | \$ 3,000 | \$ 5,000 |
| Strategy Development Committee Chair | \$ | \$ 10,000 |

(1) All fees are payable on a quarterly basis.

(2) Committee chairs receive both the fees applicable to such position and the fee applicable to committee membership.

Equity Compensation

In connection with our initial public offering, our compensation committee developed a policy relating to equity compensation for our non-employee directors under our 2010 Equity Incentive Plan. The policy initially provided for the grant of stock options upon first becoming a director and annual option grants at subsequent annual meetings. In February 2012, the compensation committee amended our director equity incentive policy to provide for the grant of shares of restricted stock rather than stock options.

New Directors

In May 2014, our compensation committee amended our outside director equity compensation policy as indicated below.

Under the terms of the policy as currently in effect, new directors receive, upon becoming a director, an initial award of shares of Class A common stock having a fair value at issuance of \$220,000, consisting of an annual award of \$110,000 of restricted stock (subject to pro-rata reduction based on the number of days the individual would actually serve as a director during the period beginning on the last May 1 and ending on the next May 1) and a full-term award equal to \$110,000 of restricted stock. The annual award vests fully on the next May 1, and the full-term award vests in three equal installments on each anniversary of the date of grant.

Continuing Directors

Our director equity compensation policy as in effect since May 2014 also provides for an annual award to continuing directors on the date of each annual meeting of stockholders of shares of Class A restricted stock with a fair value at issuance of \$110,000. These shares vest, assuming continued service, on the earlier to occur of the next succeeding May 1 or the date immediately preceding the next annual meeting of stockholders.

Table of Contents**2014 Director Compensation**

The following table sets forth information concerning compensation paid or accrued for services rendered to us by members of our board of directors for the year ended December 31, 2014. The table excludes Kishore Seendripu, Ph.D., and Curtis Ling, Ph.D., who are executive officers and who did not receive any compensation from us in their roles as directors in the year ended December 31, 2014. Information on compensation for Dr. Seendripu and Dr. Ling is set forth under the caption Executive Compensation.

| Name | Fees Earned or Paid in Cash(\$) | Stock Awards (\$)(1) | Total (\$) |
|---------------------|--|-----------------------------|-------------------|
| Steven C. Craddock | 66,000 | 110,000 | 176,000 |
| Harshad K. Desai(2) | 24,833 | | 24,833 |
| Albert J. Moyer | 72,333 | 110,000 | 182,333 |
| Thomas E. Pardun | 94,667 | 110,000 | 204,667 |
| Donald E. Schrock | 59,000 | 110,000 | 169,000 |

- (1) Amounts shown do not reflect compensation actually received by the director. Instead, the amounts represent the aggregate grant-date fair value related to restricted stock awards, granted in the year indicated, pursuant to Accounting Standards Codification Topic 718. For a discussion of the valuation assumptions, see Note 7 to our consolidated financial statements included in our Annual Report on Form 10-K. The actual value that may be realized from an award is contingent upon the satisfaction of applicable conditions to vesting and the value of our Class A common stock on the date the award is vested. Thus, there is no assurance that the value, if any, eventually realized will correspond to the amount shown.
- (2) Mr. Desai passed away on June 8, 2014. As a result, a stock award made on May 20, 2014 with a grant-date fair value equal to \$110,000 did not vest and was forfeited.

EXECUTIVE COMPENSATION**Compensation Discussion and Analysis**

This compensation discussion and analysis reviews and discusses the compensation programs and policies for our principal executive officer, principal financial officer, and four additional executive officers who were our most highly compensated executive officers in fiscal 2014, as determined by the rules of the Securities and Exchange Commission, or SEC. For 2014, these executive officers were Kishore Seendripu, Ph.D., our chairman, president, and chief executive officer; Adam C. Spice, our chief financial officer; Curtis Ling, our chief technical officer; Madhukar Reddy, our vice president, central engineering; Brian J. Sprague, our former vice president and general manager, broadband and consumer; and Michael J. LaChance, our vice president, operations. In accordance with Item 402(a)(3)(iv) of Regulation S-K, we have included compensation disclosures for Brian J. Sprague, our former Vice President and General Manager, Broadband and Consumer, who resigned in December 2014. As a group, we refer to these executive officers as our named executive officers, and they are identified in the summary compensation table provided below.

Objectives of Executive Compensation Programs

The principal objectives of our executive compensation programs are the following:

to attract and retain talented and experienced executives;

to motivate and reward executives whose knowledge, skills, and performance are critical to our success;

to ensure fairness among our executive management team by recognizing the contributions each executive makes to our success; and

to incentivize our executives to manage our business to meet our long-term objectives and the long-term objectives of our stockholders.

Our compensation committee was formed, among other purposes, to ensure that our compensation programs are competitive and that they offer appropriate incentives for recruitment and retention. Historically, our compensation philosophy was heavily equity-based in the form of stock options as we were an early stage company and sought to manage our available liquidity. Since our initial public offering, cash compensation associated with base salary has increased, but equity compensation has, and we expect it will remain, a material portion of our compensation programs. Although our compensation committee has not yet made its final determination, we currently expect that all our executive and non-executive bonus plan payments for our 2014 corporate performance period (other than with respect to Mr. Sprague) will be made in the form of shares of our Class A common stock. We also paid equity-based bonuses for our 2012 and 2013 corporate performance period. Pursuant to our separation agreement with Mr. Sprague, our compensation committee approved a cash bonus payment of \$96,048 on March 10, 2015.

Table of Contents

Our compensation committee generally determines allocations of compensation between cash and equity or among different forms of non-cash compensation based on its review of typical allocations within our compensation peer group. The committee has not adopted, however, and has no current plans to adopt, any policy requiring a specific allocation between cash and equity compensation or between short-term and long-term compensation. In the course of its deliberations, the committee reviews each component of compensation, how they relate to each other, and in particular, how they relate to and affect total compensation. The compensation committee's philosophy is that a substantial portion of an executive officer's compensation should be performance-based, whether in the form of equity or cash compensation. In that regard, we expect to continue to use options, restricted stock units, or other equity incentive awards as a significant component of compensation because we believe that they best align individual compensation with the creation of stockholder value. Cash bonus programs we have implemented in the past were, and we expect any future cash programs will be, substantially tied to annual financial performance targets.

Role of Our Compensation Committee

As a public company, our compensation committee has responsibility for determining the compensation of all executive officers. Our compensation committee operates under a written charter adopted by our board of directors, which establishes the duties and authority of our compensation committee. The fundamental responsibilities of our compensation committee are as follows:

to oversee our overall compensation philosophy, compensation plans, and benefit programs and to make recommendations to our board of directors with respect to improvements or changes to such plans;

to review and approve all compensation arrangements for our executive officers (including our chief executive officer);

to review and approve all equity compensation awards to our executive officers (including our chief executive officer); and

to oversee and administer our equity compensation plans.

Our compensation committee is comprised of the following non-employee members of our board of directors: Thomas E. Pardun, who chairs the committee, Steven C. Craddock, and Donald E. Schrock. Each of Mr. Pardun, Mr. Craddock, and Mr. Schrock is an independent director under the rules of the New York Stock Exchange, an outside director for purposes of Section 162(m) of the Internal Revenue Code, and a non-employee director for purposes of Rule 16b-3 under the Securities Exchange Act of 1934, as amended. Our compensation committee has the authority under its charter to engage the services of outside advisors and experts.

Kishore Seendripu, Ph.D., our chairman, president, and chief executive officer, supports the compensation committee's work by providing information relating to our financial plans, performance assessments of our officers, and other personnel-related data. In particular, as the person to whom our other named executive officers directly report, Dr. Seendripu is responsible for evaluating each individual officer's contribution to corporate objectives as well as their performance relative to individual objectives. He makes recommendations to our compensation committee with respect to base salary adjustments, targets under our annual incentive programs, and stock option grants, restricted stock units, or other equity incentives. Our compensation committee is not required to follow any recommendations of

Dr. Seendripu and exercises its discretion in modifying, accepting, or rejecting any recommended adjustments or awards. Without the participation of Dr. Seendripu, our compensation committee, as part of the annual review process, conducts a similar evaluation of his contribution and individual performance and makes determinations, after the beginning of each fiscal year, with respect to any base salary adjustments, targets under any annual cash incentive programs, and stock option grants or other equity incentives.

Competitive Market Review

The market for experienced management is highly competitive in the semiconductor industry. We seek to attract and retain the most highly qualified executives to manage each of our business functions, and we face substantial competition in recruiting management from companies ranging from established players with multibillion dollar revenues to entrepreneurial, early-stage companies. We are fortunate that many members of our executive management team have long tenures with us, but from time to time we also have been required to recruit new executive officers. As a result, we need to ensure that our executive compensation programs provide sufficient recruitment and retention incentives as well as incentives to achieve our long-term strategic business and financial objectives. We expect competition for individuals with our required skill sets, particularly technical and engineering skills, to remain intense even in weak global macroeconomic environments.

From time to time, our compensation committee has engaged Compensia, an independent compensation consulting firm with substantial experience in the technology sector, to evaluate our levels and types of executive compensation and to recommend changes as appropriate. Among other objectives, Compensia has assisted us in identifying a group of peer companies for purposes of benchmarking our levels of compensation; gathered and analyzed compensation data from those peer companies as well as from other available compensation data; advised us on the creation and implementation of performance-based incentive plans, including determining target bonus levels; and assisted us in structuring awards as part of the equity incentive element of our compensation program, including assisting us in establishing appropriate amounts for equity incentive awards.

Table of Contents

In connection with our initial public offering, Compensia completed a comprehensive review of our executive compensation programs in order to align our policies with those of similarly sized public companies in the technology industry. Mr. Pardun consults regularly with Compensia in connection with specific aspects of or questions relating to our executive compensation, and we generally engage Compensia to conduct a comprehensive review on a biannual basis, with the last such review having been conducted in 2012. Aggregate fees paid for Compensia's services to our compensation committee did not exceed \$120,000 during 2013 or in any prior fiscal year.

For purposes of its 2012 review, our compensation committee, in consultation with Compensia, updated our peer group data to reflect changed circumstances (*e.g.*, mergers and sale transactions) affecting the peer group established at the time of our initial public offering. The committee sought to focus the peer group on companies of similar size, business scope, and market capitalization. The committee continued to consider substantially larger companies as aspirational peers but gave relatively less weight to aspirational peers because of differences in our relative sizes that make meaningful comparisons difficult. While these aspirational peers remain important benchmarks, particularly in considering competitive factors relating to non-executive compensation, they are less relevant for our executive compensation determinations.

The committee's comparative peer group for 2014 compensation decisions consisted of the following companies. Reflecting consolidation trends in the semiconductor industry, particularly among smaller to mid-size capitalization companies, the following members of our peer group have been acquired and are no longer public reporting companies as of March 2015: Mindspeed Technologies, Inc.; Volterra Corporation; Peregrine Semiconductor Corp.; and PLX Technology, Inc.

In late 2014, based on conversations among Mr. Pardun, Dr. Seendripu, and representatives of Compensia, our compensation committee determined that the following peer group should be used going forward for purposes of 2015 compensation decisions. In addition, on February 3, 2015, we announced that we had entered into a definitive agreement to acquire Entropic Communications, Inc.

Table of Contents*Elements of Executive Compensation*

Our executive compensation program currently consists, and is expected to continue to consist, of the following components:

base salary;

annual incentive compensation, recently paid under an equity-based plan;

equity-based incentives, principally in the form of stock options and restricted stock units;

benefits (on substantially similar terms as provided to our other employees); and

severance/termination protection, including in connection with certain change of control transactions. The determination of our compensation committee as to the appropriate use and weight of each component of executive compensation is subjective, based on its view of the relative importance of each component in meeting our overall objectives and factors relevant to the individual executive.

Base Salary

The effective base salaries for each of our named executive officers in 2013 and 2014 were as follows:

| Executive Officer | Annual Base Salary(1) | |
|--------------------------|------------------------------|-------------|
| | 2013 | 2014 |
| Kishore Seendripu, Ph.D. | \$ 375,000 | \$ 400,000 |
| Adam C. Spice | \$ 280,000 | \$ 290,000 |
| Brian J. Sprague | \$ 255,000 | \$ 265,000 |
| Curtis Ling, Ph.D. | \$ 245,000 | \$ 255,000 |
| Madhukar Reddy, Ph.D. | \$ 245,000 | \$ 255,000 |
| Michael J. LaChance | \$ 235,000 | \$ 245,000 |

(1) Reflects the highest annualized base salary established for the named executive officer during the year indicated. As indicated in the table above, base salary increases for fiscal 2014 were relatively modest, with percentage increases for named executive officers ranging from 3.6% for Mr. Spice to 6.7% for Dr. Seendripu. The size of the increases reflects the compensation committee's general philosophy to maintain base salary levels at or near our peer group median.

Annual Incentive Program for 2014 Performance Period

Our compensation committee periodically reviews our philosophy and practices concerning annual incentive compensation. The committee believes that our continuing focus on revenue generation and achieving specific financial and operating performance metrics supports implementation of an annual incentive program with payouts earned through achievement of identified corporate and individual objectives. Accordingly, our Executive Incentive Bonus Plan establishes, on an annual basis for each executive officer, award targets, corporate and individual objectives, and potential adjustments for various levels of under-performance or over-performance. For fiscal years 2010 and 2011, the first fiscal years following our initial public offering, we adopted an incentive program that provided for the opportunity to earn cash bonuses based on achievement of target objectives. For fiscal 2012 and 2013, the compensation committee maintained the general structure of the plan but substituted cash awards with fully vested awards of shares of our Class A common stock issued under our 2010 Equity Incentive Plan. The principal purpose of the equity-based bonus plan was to offer a meaningful incentive for achieving both short and long-term financial objectives while preserving cash resources.

On March 26, 2014, our compensation committee approved the structure of our executive incentive bonus plan for the 2014 performance period. Under the plan, executive officers were eligible to earn bonuses, payable in shares of our Class A common stock based on a target percentage of their base salary, subject to achievement of corporate performance goals, which carried a 90% weighting, and the committee's discretionary views of the executive's individual performance, which carried a 10% weighting. Our compensation committee increased the relative weighting for corporate performance to 90% in 2014 from 80% in 2013 to increase the focus on corporate performance as an element of incentive compensation.

Our compensation committee established the 2014 corporate performance targets as relating to total revenue of \$145.0 million, which carried a 40% weighting relative to the executive's total bonus opportunity, and to gross margin percentage within a 60% to 63% range and operating expense management, which collectively carried a 50% weighting relative to the total bonus opportunity. As of the date of the filing of this Amendment No. 1 to our Annual Report on Form 10-K, our compensation committee has not made its determinations with respect to awards under our Executive Incentive Bonus Plan for the 2014 corporate performance period (other than with respect to Mr. Sprague). We expect the compensation committee to make such determinations in March

Table of Contents

2015. Following such determinations, we will file a Current Report on Form 8-K disclosing such decisions. In making a determination whether financial targets were achieved, our compensation committee will have the authority to make appropriate adjustments to the targets for the expected effects of any acquisitions or other approved business plan changes made during the fiscal year 2014; to adjust revenue as it determines appropriate to exclude certain non-recurring items under generally accepted accounting principles such as gains or losses on sales of assets; and to adjust our reported operating loss to exclude certain charges from our operating expenses, including stock compensation expense, bonus plan accruals, restructuring and impairment charges, any acquisition related charges, and expenses associated with litigation and an export compliance review. For purposes of determining the portion of awards based on individual performance, the standard will be subjective based on the committee's discretion and views, with input from Dr. Seendripu relating to the performance of executive officers reporting to him.

In February 2014, our compensation committee established bonus targets as a percentage of base salary as set forth in the following table.

| Executive Officer | Total Bonus Targets | | 2014 Bonuses(1) | |
|--------------------------|---------------------|------------|-------------------|------------------------|
| | % Base Salary | \$ Target | Corporate Targets | Individual Performance |
| Kishore Seendripu, Ph.D. | 100% | \$ 400,000 | N/A | N/A |
| Adam C. Spice | 55% | 159,500 | N/A | N/A |
| Brian J. Sprague | 50% | 132,500 | \$ 81,845 | \$ 14,203 |
| Curtis Ling, Ph.D. | 45% | 114,750 | N/A | N/A |
| Madhukar Reddy, Ph.D. | 45% | 114,750 | N/A | N/A |
| Michael J. LaChance | 45% | 110,250 | N/A | N/A |

- (1) Not available at the time of filing this Amendment No. 1 to our Annual Report on Form 10-K (other than with respect to Mr. Sprague). Once such decisions are made, we will disclose such information under Item 5.02(f) of Form 8-K.

Equity-Based Incentives

We grant equity-based incentives to employees, including our executive officers, in order to create a corporate culture that aligns employee interests with stockholder interests. We have not adopted specific stock ownership guidelines, and other than the issuance of shares to our founders when we were first incorporated, our equity incentive plans have provided the principal method for our executive officers to acquire an equity position in our company, whether in the form of shares or options. We have not granted, nor do we intend to grant, equity compensation awards in anticipation of the release of material, nonpublic information that is likely to result in changes to the price of our Class A common stock, such as a significant positive or negative earnings announcement. Similarly, we have not timed, nor do we intend to time, the release of material, nonpublic information based on equity award grant dates.

Prior to our initial public offering in March 2010, we granted options and other equity incentives to our officers under our 2004 Stock Plan. In connection with our initial public offering, our board of directors adopted the 2010 Equity Incentive Plan, which became effective in March 2010 upon the completion of our initial public offering. The 2010 Equity Incentive Plan permits the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, performance units, performance shares and other stock-based awards. All equity incentive plans and awards are administered by our compensation committee under the delegated authority established in the compensation

committee charter.

To date, our equity incentives have been granted principally with time-based vesting. Until our 2011 compensation review, our equity compensation award grants consisted entirely of stock options. In 2011, the compensation committee determined that it was appropriate to begin granting restricted stock units in addition to stock options for both employees and executive officers. Factors contributing to the decision to begin granting restricted stock units included the competitive dynamics of the markets in which we recruit, with most larger semiconductor companies offering full value awards in the form of restricted stock units; the fact that competitors were using such full value awards as a recruiting inducement to our engineers and other employees; and the more favorable dilutive impact of restricted stock units relative to stock option grants.

On March 26, 2014, our compensation committee and independent directors approved the following stock option and restricted stock unit grants under our 2010 Equity Incentive Plan for our named executive officers. In connection with its evaluations of equity incentive awards for 2014, our compensation committee increased the relative weighting of restricted stock unit awards to stock options such that two thirds of the award value (measured on a Black-Scholes basis) consisted of restricted stock units and one third consisted of stock options. Option grants and restricted stock units were approved based on the cash equivalent grant date fair value determined in accordance with Accounting Standards Topic 718 and were granted effective June 2, 2014 with the actual number of shares subject to the stock options and restricted stock units being calculated based on the closing price of our Class A common stock in trading on the New York Stock Exchange on June 2, 2014.

| Executive Officer | Grant Date | Fair value |
|--------------------------|-------------------------|----------------------------------|
| | Stock Options(1) | Restricted Stock Units(1) |
| Kishore Seendripu, Ph.D. | \$ 425,000 | \$ 825,000 |
| Adam C. Spice | 161,568 | 313,632 |

| Madhukar Reddy, Ph.D. | 134,640 | 261,360 |
| Michael J. LaChance | 100,980 | 196,020 |

- (1) Options and restricted stock units to vest quarterly over four years with the first vesting event to occur on August 20, 2014 and the grants becoming fully vested on May 20, 2018, subject to the executive officer s continuing to provide services to us on each applicable vesting date.

Benefits

We provide the following benefits to our executive officers, generally on the same basis provided to all of our employees:

health, dental, and vision insurance;

life insurance;

employee stock purchase plan;

employee assistance plan;

medical and dependent care flexible spending account;

short- and long-term disability, accidental death and dismemberment; and

a 401(k) plan.

We believe that these benefits are consistent with those of companies with which we compete for employees.

Severance and Termination Benefits

Effective April 10, 2013, we entered into amended and restated change in control and severance agreements with our chief executive officer, chief financial officer, and other executive officers. These amended and restated agreements provide for certain termination benefits both in the context of a change in control (as defined in the agreements) and

outside the context of a change in control. The agreements have an initial term of three (3) years and provide that the parties will review the agreement on each anniversary of its effectiveness. If the parties agree to renew the agreement, it will be renewed for an additional three year term, with the review and renewal process occurring annually. The agreements terminate on the earlier to occur of (i) the date the agreement expires, (ii) the date all obligations of the parties have been satisfied, or (iii) at any time prior to a change in control if the executive has ceased to be an officer for purposes of Section 16 under the Securities Exchange Act of 1934, as amended. Notwithstanding these termination provisions, if a change in control occurs and there are less than twelve (12) months remaining in the term of the agreement, the term of the agreement will extend automatically through the 12 month anniversary of the change in control.

In connection with agreeing to provide these benefits, our compensation committee reviewed competitive data and consulted with Compensia. In setting the terms of and determining whether to approve these agreements, our compensation committee recognized that executives often face challenges securing new employment following termination, in particular following a change of control, and that distractions created by uncertain job security surrounding potentially beneficial transactions to us and our stockholders may have a detrimental impact on their performance. In contexts not involving a change of control, the compensation committee sought to establish a reasonable contractual benefit for precedential purposes and to fix executive expectations prior to an actual termination. In addition, the change in control severance benefits identified below are intended to provide these executive officers with post-change in control termination protection of salary and benefits while they seek new employment. We also have agreed to accelerate vesting of certain equity incentives in connection with certain terminations following a change of control, based on our view that these executive officers are not likely to be retained in comparable positions by a large acquirer, and the benefit of these equity incentives would otherwise be forfeited upon a termination of employment, including an involuntary termination by an acquiring company.

Table of Contents

Chief Executive Officer and Chief Financial Officer

Under the terms of the amended change in control and severance agreement, if Dr. Seendripu, our chief executive officer, or Mr. Spice, our chief financial officer, terminates his employment with us for good reason (as defined in the agreement), or if we terminate him without cause (as defined in the agreement), and such termination occurs outside of the period beginning three (3) months prior to and ending twelve (12) months following a change in control, the executive will be entitled to a single lump sum severance payment equal to six (6) months of the executive's then-current base salary. In addition, we agreed that any outstanding and vested stock options and/or stock appreciation rights as of the date of termination would remain exercisable until the six (6) month anniversary of the termination date, *provided that* in no event would the post-termination exercise period for any individual stock option extend beyond the original maximum term. In addition, we agreed to provide the executive reimbursement for continued health benefits under our health plans for up to twelve (12) months; *provided that* the executive constitutes a qualified beneficiary under applicable law and timely elects to continue coverage under applicable law.

In addition, if within the period beginning three (3) months prior to and ending twelve (12) months following a change in control, the executive is terminated by us or our successor without cause or he terminates for good reason, we have agreed that the executive will be entitled to receive the following benefits:

a lump sum cash payment equal to eighteen (18) months of his base salary, determined at a rate equal to the greater of (A) his annual salary as in effect immediately prior to the change in control or (B) his then current base salary as of the date of such termination;

a lump sum cash payment equal to a pro-rated amount of his target annual bonus for the year immediately preceding the year of the change in control;

reimbursement of premiums for continued health benefits under our health plans for up to eighteen (18) months following the executive's termination; *provided that* the executive constitutes a qualified beneficiary under applicable law and timely elects to continue coverage under applicable law;

immediate vesting of one hundred percent (100%) of the then-unvested portion of any outstanding equity awards held by the executive; and

extended exercisability of outstanding and vested stock options or stock appreciation rights until the twelve (12) month anniversary of the termination date; *provided that* in no event will the post-termination exercise period for any individual stock option extend beyond the original maximum term.

In addition, the change in control and severance agreements with Dr. Seendripu and Mr. Spice provide that in the event that the severance payments and other benefits payable to such executives constitute parachute payments under Section 280G of the Internal Revenue Code of 1986, as amended, and would be subject to the applicable excise tax, then such executive's severance and other benefits will be either (i) delivered in full or (ii) delivered to such lesser extent which would result in no portion of such benefits being subject to the excise tax, whichever results in the receipt by such executive on an after-tax basis of the greatest amount of benefits.

Payment of the benefits described above is subject to the executive's timely executing and not revoking a release of claims with us.

Our compensation committee and board of directors approved change in control severance benefits for Dr. Seendripu and Mr. Spice that are greater than the benefits provided to our other executives after considering factors such as the higher likelihood that a chief executive officer or chief financial officer will be terminated in connection with a change of control transaction as compared to the other executive officers.

Other Executive Officers

We have also entered into change in control agreements with Dr. Ling, Mr. LaChance, and Dr. Reddy. Under the terms of the amended change in control and severance agreement with our other executive officers, if the executive terminates his employment with us for good reason (as defined in the agreement), or if we terminate him without cause (as defined in the agreement), the executive will be entitled to a single lump sum severance payment equal to three (3) months of the executive's then-current base salary. In addition, we agreed that any outstanding and vested stock options and/or stock appreciation rights as of the date of termination would remain exercisable until the three (3) month anniversary of the termination date, *provided that* in no event would the post-termination exercise period for any individual stock option extend beyond the original maximum term. We also agreed to provide the executive reimbursement for continued health benefits under our health plans for up to six (6) months; *provided that* the executive constitutes a qualified beneficiary under applicable law and timely elects to continue coverage under applicable law.

Table of Contents

In addition, if within the period beginning three (3) months prior to and ending twelve (12) months following a change in control, the executive is terminated by us or our successor without cause or he terminates for good reason, we have agreed that the executive will be entitled to receive the following benefits:

a lump sum cash payment equal to twelve (12) months of the executive's base salary, determined at a rate equal to the greater of (A) his annual salary as in effect immediately prior to the change in control or (B) his then-current base salary as of the date of such termination;

a lump sum cash payment equal to a pro-rated amount of his target annual bonus for the year immediately preceding the year of the change in control;

reimbursement of premiums for continued health benefits under our health plans for up to twelve (12) months following the executive's termination; *provided that* the executive constitutes a qualified beneficiary under applicable law and timely elects to continue coverage under applicable law;

immediate vesting of one hundred percent (100%) of the then-unvested portion of any outstanding equity awards held by the executive; and

extended exercisability of outstanding and vested stock options or stock appreciation rights until the six (6) month anniversary of the termination date; *provided that* in no event would the post-termination exercise period for any individual stock option extend beyond the original term.

Payment of the benefits described above under these change in control agreements is also subject to the executive's executing and not revoking a release of claims with us.

In addition, the change in control and severance agreements with each of the executives provide that in the event that the severance payments and other benefits payable to such executives constitute parachute payments under Section 280G of the Internal Revenue Code of 1986, as amended, and would be subject to the applicable excise tax, then such executive's severance and other benefits will be either (i) delivered in full or (ii) delivered to such lesser extent which would result in no portion of such benefits being subject to the excise tax, whichever results in the receipt by such executive on an after-tax basis of the greatest amount of benefits.

Role of Stockholder Say-on-Pay Votes in Determining Compensation

We believe that it is appropriate to seek the views of our stockholders on the design and effectiveness of our executive compensation program. In 2014, the advisory vote on executive compensation received greater than 96% support of the votes cast by our stockholders. Our compensation committee, which is responsible for designing and administering our executive compensation programs, values the opinions expressed by stockholders in their vote and considered the outcome of this vote when it made compensation decisions for our named executive officers.

Accounting and Tax Considerations

Internal Revenue Code Section 162(m) limits the amount that we may deduct for compensation paid to our Chief Executive Officer and to each of our four most highly compensated officers to \$1,000,000 per person, unless certain exemption requirements are met. Exemptions to this deductibility limit may be made for various forms of performance-based compensation. In addition to salary and bonus compensation, upon the exercise of stock options that are not treated as incentive stock options, the excess of the current market price over the option price, or option spread, is treated as compensation and accordingly, in any year, such exercise may cause an officer's total compensation to exceed \$1,000,000. Under certain regulations, option spread compensation from options that meet certain requirements will not be subject to the \$1,000,000 cap on deductibility, and in the past, we have granted options that we believe met those requirements. While the compensation committee cannot predict how the deductibility limit may impact our compensation program in future years, the compensation committee intends to maintain an approach to executive compensation that strongly links pay to performance. While the compensation committee has not adopted a formal policy regarding tax deductibility of compensation paid to our Chief Executive Officer and our four most highly compensated officers, the compensation committee intends to consider tax deductibility under Section 162(m) as a factor in compensation decisions.

Section 409A of the Code imposes additional significant taxes in the event that an executive officer, director, or other service provider receives deferred compensation that does not satisfy the requirements of Section 409A. Although we do not maintain traditional nonqualified deferred compensation plans, Section 409A does apply to certain change of control severance arrangements. Consequently, to assist in avoiding additional tax under Section 409A, we have designed the change in control and severance arrangements described above in a manner to avoid the application of Section 409A.

Summary Compensation Table

- (1) As of the date of filing this Amendment No. 1 to our Annual Report on Form 10-K and other than with respect to Mr. Sprague, our compensation committee has not made a determination with respect to awards under our Executive Incentive Bonus Plan for the 2014 corporate performance period. Consistent with fiscal 2012 and 2013 and other than with respect to Mr. Sprague, who was paid in cash, we currently expect to issue shares of our Class A common stock for the 2014 performance period under our Executive Incentive Bonus Plan although our compensation committee has authority to pay such awards in cash. Once our compensation committee has made its determination for 2014, we will disclose such information under Item 5.02(f) of Form 8-K. Target bonus awards for 2014 for the named executive officers are set forth in the section captioned Compensation Discussion and Analysis and under the column marked Target above. Includes for 2013 the issuance of shares of our Class A common stock for the 2013 performance period under our Executive Incentive Bonus Plan. Individual awards, valued in accordance with Accounting Standards Codification Topic 718 (ASC 718), were made on May 9, 2014 in the following amounts: Dr. Seendripu, \$407,175; Mr. Spice, \$169,833; Mr. Sprague, \$147,323; Dr. Reddy, \$119,181; and Dr. Ling, \$113,234. Includes for 2012 the issuance of shares of our Class A common stock for the 2012 performance period under our Executive Incentive Bonus Plan, valued in accordance with ASC 718. Awards were made on May 3, 2013 in the following amounts: Dr. Seendripu, \$384,068; Mr. Spice, \$177,889; Mr. Sprague, \$122,996; Dr. Reddy, \$122,996; and Dr. Ling, \$122,996.
- (2) Includes for 2014 grants of RSUs in the following amounts: Dr. Seendripu, \$824,996; Mr. Spice, \$313,626; Mr. Sprague, \$261,357; Dr. Reddy, \$261,357; Dr. Ling, \$261,357; and Mr. LaChance, \$196,018. Includes for 2013 grants of RSUs in the following amounts: Dr. Seendripu, \$603,083; Mr. Spice, \$254,678; Mr. Sprague, \$230,263; Dr. Reddy, \$194,040; and Dr. Ling, \$194,040. Includes for 2012 grants of restricted stock units (RSUs) in the following amounts: Dr. Seendripu, \$481,000; Mr. Spice, \$353,300 Mr. Sprague, \$192,400; Dr. Reddy, \$333,400; and Dr. Ling, \$474,400. The dollar value of the RSUs shown represents the aggregate grant date fair value computed pursuant to ASC 718 and attributable to RSU awards granted to these individuals during the periods indicated. These grant date fair values have been determined based on the assumptions described under Note 7, Stock-Based Compensation Expense in the notes to our consolidated financial statements included in our Annual Report on Form 10-K. As these values reflect the aggregate grant date fair value in accordance with ASC 718, they do not necessarily correspond to the actual value, if any, that may be realized by the named executive officers. The actual value that may be realized is also subject to time-based vesting restrictions that require the named executive officer to continue to provide services to us.
- (3) With respect to Mr. Spice and Dr. Reddy, the Stock Awards column for 2012 includes the aggregate incremental grant date fair value, calculated in accordance with ASC 718, for RSUs awarded to Mr. Spice and Dr. Reddy under the stock option-for-RSU exchange program that we implemented following stockholder approval in 2012. We will recognize such grant date fair value ratably over the vesting period of the RSUs owned in connection with the exchange. In connection with the exchange program, Mr. Spice exchanged options to acquire 275,000 and 30,000 shares, respectively, of our Class A common stock at exercise prices of \$11.36 and \$9.10, respectively, for RSUs with respect to 152,500 shares Class A common stock. Dr. Reddy exchanged an option to acquire 80,728 shares of Class B common stock at an exercise price of \$7.45 per share for RSUs with respect to 40,364 shares of Class A common stock and an option to acquire 36,000 shares of Class A common stock at an exercise price of \$9.10 per share of RSUs with respect to 18,000 shares of Class A common stock. The aggregate incremental value of the restricted stock units relative to the stock options was \$251,319 for Mr. Spice and \$114,185 for Dr. Reddy.
- (4) Amounts shown do not reflect compensation actually received by the named executive officer. Instead, the amounts represent the aggregate grant date fair value related to stock option awards granted in the year indicated pursuant to ASC 718. For a discussion of the valuation assumptions, see Note 7 to our consolidated financial statements included in our Annual Report on Form 10-K. The actual value that may be realized from an award is contingent upon the satisfaction of the conditions to vesting and the

executive's decisions with respect to the exercise of the option. Thus, there is no assurance that the value, if any, eventually realized will correspond to the amount shown.

- (5) Represents employer funded amounts for group term life insurance and medical and dental insurance premiums. With respect to Mr. Sprague, also represents amounts to which he was entitled under our form of severance agreement for executive officers discussed in the section entitled "Resignation of Brian J. Sprague" below.
- (6) Mr. LaChance was not a named executive officer for the years ended December 31, 2012 or December 31, 2013.

- (1) The shares of common stock underlying these stock option grants and RSU awards were valued as of their respective grant dates in accordance with ASC 718. Our assumptions with respect to the calculation of stock-based compensation expense are set forth above in the notes to our consolidated financial statements for the year ended December 31, 2014, included in our Annual Report on Form 10-K.
- (2) Corresponds to the date on which our board set the target bonus amounts payable to each of our named executive officers pursuant to our 2014 executive incentive bonus plan.
- (3) As of the date of filing this Amendment No. 1 to our Annual Report on Form 10-K, our compensation committee has not made a determination with respect to awards under our Executive Incentive Bonus Plan for the 2014 corporate performance period. Consistent with 2012 and 2013, we currently expect to issue shares of our Class A common stock for the 2014 performance period although our compensation committee has authority to pay such awards in cash. Once our compensation committee has made its determination for 2014, we will disclose such information under Item 5.02(f) of Form 8-K. Target bonus awards for 2014 for the named executive officers are set forth in the section captioned "Compensation Discussion and Analysis" and under the column marked "Target" in the Grant of Plan-Based Awards table. Because the number of shares subject to the awards is not calculable until the issuance date based on the closing sales price of our Class A common stock on that date, we have indicated "N/A" in the columns requiring us to specify the number of shares and base price.
- (4) These stock awards represent RSUs issued under our 2010 Equity Incentive Plan (as amended, the "2010 EIP"). Each RSU entitles the executive to receive one share of our common stock at the time of vesting without the payment of an exercise price or other consideration. Generally, the shares subject to an RSU vest quarterly over four years, subject to acceleration of vesting in certain situations such as in connection with a change of control.
- (5) Amounts shown represent stock options issued under our 2010 EIP that will, in general, vest and become exercisable quarterly over four years, subject to acceleration of vesting in certain situations such as in connection with a change of control.
- (6) Represents award granted under our Executive Incentive Bonus Plan for the 2014 corporate performance period. These columns show the award that was possible at the target and maximum levels of performance. The column entitled "Non-Equity Incentive Plan Compensation" in the Summary Compensation Table shows the actual award earned in fiscal year 2014 by Mr. Sprague.

This offer letter set Mr. Spice's base salary at an annual rate of \$250,000 and provided for a target bonus of 50% of Mr. Spice's annual base salary pursuant to our 2012 Executive Incentive Bonus Plan. In addition, pursuant to the offer letter agreement, Mr. Spice was granted an option to purchase 275,000 shares of our Class A common stock under our 2010 Equity Incentive Plan and received severance and termination protection benefits in connection with a change in control agreement, as described in the section below. Estimated Termination Payments

The following tables provide information concerning the estimated payments and benefits that would have been provided under change-in-control agreements that were in effect with our executive officers on December 31, 2014.

Except where otherwise noted, payments and benefits are estimated in the table assuming that the triggering event took place on the last business day of fiscal 2014 (December 31, 2014), and based on the closing price per share of our Class A common stock on December 31, 2014. There can be no assurance that a triggering event would produce the same or similar results as those estimated below if such event occurs on any other date or at any other price, or if any other assumption used to estimate potential payments and benefits is not correct. Due to the number of factors that affect the nature and amount of any potential payments or benefits, any actual payments and benefits may be different.

We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person. Beneficial ownership representing less than one percent is denoted with an asterisk (*).

The information provided in the table is based on our records, information filed with the SEC, and information provided to us, except where otherwise noted.

Director Independence

As a company listed on the New York Stock Exchange, or NYSE, we are required under NYSE listing requirements to maintain a board comprised of a majority of independent directors, as determined affirmatively by our board. As a result of this review, our board of directors determined that directors Steven C. Craddock, Albert J. Moyer, Thomas E. Pardun, and Donald E. Schrock, representing a majority of our directors, are independent directors as defined under the rules of the NYSE. Kishore Seendripu, Ph.D. and Curtis Ling, Ph.D. are not considered independent directors because of their employment as our chief executive officer and chief technical officer, respectively.

Audit Committee. Our audit committee currently consists of directors Albert J. Moyer, Thomas E. Pardun, and Steven C. Craddock. Mr. Moyer is the chairman of the audit committee. Our board of directors has determined that each of the members of our audit committee is independent and financially literate under the current rules and regulations of the SEC and the NYSE and that Mr. Moyer qualifies as an audit committee financial expert within the meaning of the rules and regulations of the SEC.

Compensation Committee. Our compensation committee is currently comprised of Thomas E. Pardun, Steven C. Craddock, and Donald E. Schrock, each of whom qualifies as an independent director under the applicable rules and regulations of the SEC and the NYSE. Mr. Pardun is the chairman of our compensation committee. Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services

Consistent with the requirements of the SEC and the Public Company Accounting Oversight Board, or PCAOB, regarding auditor independence, our audit committee has responsibility for appointing, setting compensation, and overseeing the work of our independent registered public accounting firm. In recognition of this responsibility, our audit committee has established a policy for the pre-approval of all audit and permissible non-audit services provided by the independent registered public accounting firm.

Prior to the engagement of the independent registered public accounting firm for the next year's audit, management submits a list of services falling within the four categories below expected to be rendered by the firm during that year and the related fees to the audit committee for approval.

1. Audit services include audit work performed on the financial statements, as well as work, including information systems and procedural review and testing, that is required to be performed by the independent registered public accounting firm to allow the firm to form an opinion on our financial statements. Audit services also include services

that only the independent registered public accounting firm can reasonably be expected to provide, including comfort letters and statutory audits.

2. *Audit-related* services are for assurance and related services that are reasonably related to the performance of the audit or review of our financial statements and/or internal control over financial reporting or that are traditionally performed by the independent registered public accounting firm and include due diligence related to mergers and acquisitions, audits of employee benefit plans and special procedures required to meet certain regulatory requirements.

3. *Tax* services include services such as tax compliance, tax planning and tax advice, as long as such services do not impair the independence of the independent registered public accounting firm and are consistent with the SEC's rules on auditor independence.

4. *All other* services are those services not captured in the audit, audit-related, or tax categories.

Table of Contents

Prior to engagement, the audit committee pre-approves the independent registered public accounting firm's services within each of the four categories described above and the fees for each category are budgeted. The audit committee requires the independent registered public accounting firm and management to report actual fees versus the budgeted amount periodically throughout the year by category of services. During the year, circumstances may arise when it may become necessary to engage the independent registered public accounting firm for additional services not contemplated in the original pre-approval categories. In those instances, the audit committee requires specific pre-approval before engaging the independent registered public accounting firm.

The audit committee may delegate pre-approval authority to one or more of its members provided that such member must report, for informational purposes only, any pre-approval decisions to the audit committee at its next scheduled meeting.

The audit committee has determined that the rendering of services other than audit services by Ernst & Young LLP is consistent with maintaining Ernst & Young LLP's independence.
