2. Reasons for Proposal

When the Company made an amendment to the Articles of Incorporation on the occasion of transformation into a Company with Committees last year, it changed the organization that decides dividends from surplus, etc. to the Board of Directors. A shareholder's proposal had been submitted at last year's general meeting of shareholders regarding the distribution of dividends, which was the first proposal of its kind made since the establishment of the group, and the timing could only be described as a measure against such proposal. In consequence, the shareholders' right to express their opinion regarding dividends at the general meetings of shareholders was deprived. Predictably, the Board of Directors will argue that the shareholders, if they are not satisfied with the level of dividend, could refrain from reappointing the directors, whose term of office is a year. However, there may be quite a number of shareholders who are not satisfied with the level of the dividends, but do not feel it necessary to replace the directors, and it is unreasonable to deprive such shareholders of their opportunity to express their opinions. This proposal to amend the Articles of Incorporation is the same as other companies, including Marubeni, for which Mizuho Bank, Ltd. (MHBK) is the main bank. In addition, this proposal intends that, while the Board of Directors may decide the amount of dividends, the shareholders are also able to make proposals regarding dividends, and the shareholders, at the general meetings of shareholders, are able to decide which is more appropriate.

Opinion of the Board of Directors of the Company
The Board of Directors of the Company **opposes this proposal**.

Along with the reduction of the term of office of Directors to a year upon the transformation of the Company into a Company with Three Committees, the Company, at the general meeting of shareholders last year, proposed an amendment to the Articles of Incorporation with the intent to decide the distribution of dividends from surplus and other matters provided for in Articles 459 and 460 of the Companies Act, not by a resolution of a general meeting of shareholders, but by a resolution of the Board of Directors, and this proposal was adopted by receiving majority approval of the shareholders.

Since the decision regarding the distribution of dividends from surplus and other matters requires consideration of various aspects of the management of the Company, and transparency and fairness in the decision-making processes can be secured by utilizing, among other things, the three legally-required committees, comprising mainly of outside directors, upon the transformation into a Company with Three Committees, and through clarification of the shareholder return policy, the Company believes that it could return profits to shareholders and flexibly implement capital management by establishing a system in which the Board of Directors elected by the shareholders determines the dividend level and take responsibility for their decision, taking into account, among other things, the shareholder return policy and profitability.

Accordingly, the Board of Directors is of the opinion that it is unnecessary to change the provision to the Articles of Incorporation as proposed.

Proposal 3: Partial amendment to the Articles of Incorporation (Exercise of voting rights of shares held for strategic reasons)

1. Details of Proposal

It is proposed that the following provision be added to the Articles of Incorporation:

The Company shall instruct its subsidiaries that the Company administers, such as bank subsidiaries and securities companies subsidiaries, in exercising voting rights of shares held for strategic reasons, to exercise their voting rights appropriately by means such as seeking opinions from independent proxy advisers.

2. Reasons for Proposal

The group holds equity portfolio of JPY 3.7 trillion or more on a consolidated basis and recognized Net Losses related to Stocks in the amount of JPY 400 billion or more in fiscal year 2008, thereby contributing to demands for large amounts of capital increases, which were conducted twice. Although the most basic point is to reduce the amount of its holding shares, with respect to continuous shareholding, risk management and value enhancement measures to avoid impairment of stock value are necessary. Nevertheless, actions that are strikingly lacking in economic rationality, such as consistently opposing the shareholders' proposals for dividend increases in Sanyo Engineering & Construction (the company has continued to have an extremely low ROE ratio over a period of many years and management is handed down by hereditary succession), have continuously been taken in the course of exercising voting rights of shares held for strategic reasons. In the case where there is collusion between the group and its business partners, voting rights are quite likely to be prevented from being exercised objectively and rationally. This means that asset management is conducted against the common interests of the shareholders. Therefore, enhancement of the equity portfolio value should be pursued through the rational exercise of voting rights of shares held for strategic reasons by means such as consulting proxy advisers for advice. At the general meeting of shareholders of the Company last year, this proposal received recommended approval of ISS, and was agreed to by the shareholders holding 32% of the voting shares.

Opinion of the Board of Directors of the Company

The Board of Directors of the Company **opposes this proposal**.

With regard to decisions on exercising the voting rights of shares held for strategic reasons by the Company and the Company's Core Companies(*), it is necessary to make comprehensive decisions upon full consideration of various matters through discussions with the issuing companies and through verification with specialized departments, from the viewpoint of whether the issuing company has established an appropriate governance structure, and whether such company has made appropriate decisions leading to an increase in the medium- to long-term corporate value of such company, as well as consideration from the perspective of increasing the corporate value of the group, in addition to an examination of the short-term dividend pay-out ratio.

The group will make continued efforts to ensure that voting rights are exercised appropriately.

Accordingly, the Board of Directors is of the opinion that it is unnecessary to add the proposed provision to the Articles of Incorporation.

Proposal 4: Partial amendment to the Articles of Incorporation (Preparation of an evaluation report in an appropriate manner)

1. Details of Proposal

It is proposed that the following provision be added to the Articles of Incorporation:

The Company, on or after the 2015 ordinary general meeting of shareholders, shall instruct the subsidiaries and affiliates, such as banks, securities companies and consulting companies, that the Company administers (the Subsidiaries), in the event that any of the Subsidiaries is requested in the course of its business to prepare an evaluation report on enterprise value, so as not to prepare an inappropriate evaluation report by using means such as valuing that debt is negative.

2. Reasons for Proposal

In 2006, when a TOB against Kanebo at a price that was too low and a transfer of business were conducted, and the general shareholders were squeezed out, what the consortium of investment funds used as a basis for determining the price was the evaluation report on enterprise value prepared by Mizuho Securities Co., Ltd. (MHSC). MHSC had evaluated Kanebo's share price, which the court subsequently determined to have a value of JPY 360, to be JPY 162 per share, which was even lower than JPY 277 (after consideration of the consolidation), the lowest share price of Kanebo since the end of the war, and the consortium of investment funds squeezed out the general shareholders with this low price based on the evaluation. In the evaluation report for the transfer of business, MHSC lowered the calculated price by going as far as to manipulate the debt to equity ratio to be negative 15%.

Under laws and regulations and the accounting practices at least as of June 2015, it is not appropriate to calculate enterprise value by valuing that debt as negative. If MHSC prepares such evaluation reports without due consideration in the future, MHSC and the Company, its parent company, are likely to be exposed to compensation claims for damages. Therefore, the Company should avoid such risk.

Opinion of the Board of Directors of the Company

The Board of Directors of the Company **opposes this proposal**.

When the subsidiaries of group companies of MHFG, such as securities companies, etc., evaluate enterprise value, they do so based on a thorough and objective examination of the economic environment, social situation, and industry trends surrounding the corporation, the specificity of the corporation with respect to its management and technologies, etc., and other similar criteria, as appropriate, taking into account, among other things, the generally accepted accounting practices at the time of the evaluation, rather than based on across-the-board standards.

There is a certain range with respect to the evaluation results for enterprise value due to, among other factors, the methods and figures to be used, and prices other than those determined by court are not calculated unfairly. The Company, through its group management structure, is making efforts to maintain appropriate internal control systems among its subsidiaries and affiliates in accordance with laws and regulations; therefore, the evaluation of enterprise value will not be affected by arbitrary calculation.

Accordingly, the Board of Directors is of the opinion that it is unnecessary to add the proposed provision to the Articles of Incorporation.

Proposal 5: Partial amendment to the Articles of Incorporation (Establishment of a sexual harassment prevention system)

1. Details of Proposal

It is proposed that the following provision be added to the Articles of Incorporation:

The group shall thoroughly respect the purpose to create the society where all women can play active roles, as the Abe administration has been promoting, and shall not impose any disadvantage, such as compelling them to retire, to victims of sexual harassment such as incapacitated rape and shall make its utmost efforts to support them to be reinstated as well as make efforts to prevent sexual harassment to female employees of the bank.

2. Reasons for Proposal

According to news reports, it seems that it is highly possible that a male colleague of a female employee of MHBK in her thirties committed incapacitated rape to her. This is a serious profanation to personality of a woman. In addition, it must be said that it goes against the creation of a society where all women can play active roles, which the Abe administration has been promoting.

As such, the group should make an announcement after prompt investigation of the truth and take preventive measures. In addition, it is outrageous if the female employee, the victim, receives any disadvantageous treatment such as being pushed to retire, which may result in difficulty obtaining human resources in the future.

Opinion of the Board of Directors of the Company

The Board of Directors of the Company **opposes this proposal**.

The group has been working on the appropriate establishment of a working environment, based on the Equal Employment Opportunity Act and the policy of the Ministry of Health, Labour and Welfare, and other matters, in cooperation with all officers and employees of the group, with the better understanding of the cause and background behind sexual harassment through the clarification of the policy regarding sexual harassment and the dissemination and education of such policy, and the group will continue to make efforts to improve the work environment.

In addition, in the case where the fact that any sexual harassment has arisen at a workplace is recognized, the group appropriately responds so as not to make any disadvantage to the victim's working condition such as taking measures, etc. in consideration of the victim as well as endeavoring to establish an adequate working environment.

Accordingly, the Board of Directors is of the opinion that it is unnecessary to add the proposed provision to the Articles of Incorporation.

Proposal 6: Partial amendment to the Articles of Incorporation (Record date of the ordinary general meeting of shareholders and other matters)

1. Details of Proposal

It is proposed that Articles 10, Paragraph 1 and Article 22 of the Articles of Incorporation be changed as described below:

Current version

Article 10. (Record Date)

The Company shall deem shareholders having voting rights appearing in writing or electronically in the register of shareholders as of the end of March 31 of each year as the shareholders who are entitled to exercise their rights at the ordinary general meeting of shareholders for the relevant business year.

Article 22. (Convocation of General Meetings of Shareholders)

An ordinary general meeting of shareholders of the Company shall be convened no later than 3 months from the last day of each business year and an extraordinary general meeting of shareholders shall be convened whenever necessary.

Proposed version

Article 10. (Record Date)

The Company shall deem shareholders having voting rights appearing in writing or electronically in the register of shareholders as of the end of May 31 of each year as the shareholders who are entitled to exercise their rights at the ordinary general meeting of shareholders for the relevant business year.

Article 22. (Convocation of General Meetings of Shareholders)

An ordinary general meeting of shareholders of the Company shall be convened no later than 2 months from the record date and an extraordinary general meeting of shareholders shall be convened whenever necessary.

2. Reasons for Proposal

The group has set the record date on March 31 and shall hold its ordinary general meeting of shareholders towards the end of June every year. For this reason, there is a three-month gap between the record date and the ordinary general meeting of shareholders, and there is a strong possibility that shareholders may have changed during that time. Moreover, with only the annual securities report from the previous fiscal year available to consult, the shareholders must deliberate on issues at the general meeting of shareholders.

In addition, shareholders' meetings are concentrated in June, making it difficult for shareholders to attend them, and such situation should be avoided.

Further, because the statutory audit of the financial statements, etc. must be conducted, there is only about three weeks from the date the convocation notices are dispatched to the date of the shareholders' meeting, leaving insufficient time to consider the proposals.

Contrary to the former Securities and Exchange Act, under the current Financial Instruments and Exchange Act, obtaining the approval of the shareholders' meeting for financial statements is not necessary. In addition, the Companies Act does not require that the fiscal year end and the record date are the same. Therefore, it is not required by laws and regulations to hold the ordinary general meeting of shareholders in June.

Table of Contents

By setting the record date on May 31, and holding its ordinary general meeting of shareholders in July, the Company could avoid the above negative effects.

Opinion of the Board of Directors of the Company
The Board of Directors of the Company **opposes this proposal**.

The term of the Company's Directors and Executive Officers is one year, and the Company considers it important to promptly establish, after the end of a fiscal year, the composition of Directors and Executive Officers for the next fiscal year, and to hear the opinions, etc. of the shareholders.

The Company has dispatched the convocation notice promptly, and in addition, the Company, from this shareholders' meeting, is securing a period of approximately four weeks until the date of the shareholders' meeting by, among other things, disclosing information on the Internet prior to dispatching the convocation notices.

The Company is aware of the discussions over the timing, etc. of the ordinary general meeting of shareholders. However, the Company considers it appropriate to hold the ordinary general meeting of shareholders as early as possible, in June.

Accordingly, the Board of Directors is of the opinion that it is unnecessary to change the provisions to the Articles of Incorporation as proposed.

Proposal 7: Partial amendment to the Articles of Incorporation (Prohibition of improper method of reaching a resolution)

1. Details of Proposal

It is proposed that the following provision be added to the Articles of Incorporation:

For the preparations and resolutions of the proposals made at the ordinary general meetings of shareholders, the resolutions should not be reached in an improper method, such as a tie-in proposal made in combination of a proposal to which anyone agrees and a proposal with the pros and cons.

2. Reasons for Proposal

At the ordinary general meeting of shareholders of the Company held last year, the amendment to the Articles of Incorporation was placed on the agenda as the Proposal 2. Such proposal was mainly about the transformation to a Company with Committees. However, at the same time, such proposal combined and inserted the Article 47 of the Articles of Incorporation that provides that the decisions on dividends from surplus cannot be resolved at the general meetings of shareholders.

With respect to the transformation to a Company with Committees, anyone would agree with it because enhancement of governance was necessary after the revelation of providing loans to anti-social elements. On the other hand, many shareholders would oppose the Article 47 because it would make shareholders unable to even make a proposal regarding dividends. In fact, 86% of shareholders have agreed to the Proposal 2, but 19% of shareholders have agreed to the proposal that propose the dividends to be JPY 5. Therefore, at least 5% of shareholders unavoidably have agreed to the proposal even though they agreed to the transformation to a Company with Committees, but opposed to the proposal that would make shareholders unable to put the dividends on agenda at the general meetings of shareholders.

Such resolution made by way of combination is grossly improper and the profits of shareholders would be largely damaged, therefore should be strictly refrained.

Opinion of the Board of Directors of the Company

The Board of Directors of the Company **opposes this proposal**.

No reaching resolution through an improper method is a legal requirement, and the Company has never violated nor will the Company violate it hereafter.

The amendment to the Articles of Incorporation, with respect to the decisions on dividends from surplus, etc. that are to be determined by a resolution of the Board of Directors, not by a resolution of the general meetings of shareholders, as pointed out by the proposers of this proposal, constitute part of the governance system under a Company with Three Committees that the Company aims for. Therefore, the proposal for such amendment was made to ask shareholders judgment together with other amendments to the Articles of Incorporation, and not a tie-in proposal.

The decisions on dividends from surplus, etc. need to be determined based on various aspects of company management and are strictly considered reflecting profits of shareholders by the Board of Directors, which operates for the benefit of the shareholders. With these and other reasons, it is legally permitted to decide the dividends, etc. not by a resolution of a general meeting of shareholders but by a resolution of the Board of Directors as the system of a Company with Three Committees.

Accordingly, the Board of Directors is of the opinion that it is unnecessary to add the proposed provision to the Articles of Incorporation.

Proposal 8: Partial amendment to the Articles of Incorporation (Disclosure of minutes of the general meetings of shareholders)

1. Details of Proposal

It is proposed that the following provision be added to the Articles of Incorporation:

The Company shall make every effort to disclose, via the Internet, the minutes of the general meetings of shareholders of the Company, at least to its shareholders, after omitting the personal names of the questioning shareholders.

2. Reasons for Proposal

The general meetings of shareholders are valuable opportunities for shareholders to directly hear the management's voice, and important information may be disclosed through the answers to the shareholder questions.

However, on the other hand, as they are held in the daytime on weekdays, attendance to them is difficult for most of the shareholders.

Under the applicable law, shareholders may request the inspection and copying of the minutes of the general meetings of shareholders; however, such requests have not been made frequently because the procedure is cumbersome.

Therefore, the Company should disclose to its shareholders the minutes of the general meetings of shareholders via the Internet. This measure would enhance the value of the Company as a company eager to disclose information.

Opinion of the Board of Directors of the Company

The Board of Directors of the Company **opposes this proposal**.

The minutes of the general meetings of shareholders are legally-required documentary records of the general meetings of shareholders, and are not documents intended to be disclosed by the Company. For that reason, they are regulated by law that the right of inspection and copying of them is granted only to shareholders and creditors, and a procedure for making a request to the Company is required. In addition, it is assumed that the inspection and copying are a justifiable exercise of rights, and in the case where such inspection and copying constitute abuse of rights, even shareholders or creditors cannot inspect the minutes, etc. Considering the above-stated character of the documents, the disclosure via the Internet may lead to the abuse of the documents, such as use of the documents for a purpose other than the intended purpose, and therefore, is not necessarily appropriate.

For your information, from the perspective of necessity to convey information to shareholders, the Company plans to disclose the summary of the question and answer session on its website, starting from this general meeting of shareholders.

Accordingly, the Board of Directors is of the opinion that it is unnecessary to add the proposed provision to the Articles of Incorporation.

Proposal 9: Partial amendment to the Articles of Incorporation (Establishment of a system to prohibit fraud)

1. Details of Proposal

It is proposed that the following provision be added to the Articles of Incorporation:

The group shall pay careful attention not to let employees of the bank in the group commit fraud upon customers, etc., at the Head Office and branches of the group, etc.

2. Reasons for Proposal

Mr. O, a former employee of MHBK, was arrested for defrauding customers of the bank (depositors who deposited a large amount of money) of a substantial amount of funds by proposing and soliciting a profitable investment. He was sued by some of the victims and in the court decision dated February 20 was ordered to pay approximately JPY 250 million. The victims deposited their money without anxiety because Mr. O was an employee of MHBK, and he led them to a reception room of the Head Office. As such case would destroy the credibility of the group, the group should make efforts to prevent a recurrence.

Opinion of the Board of Directors of the Company

The Board of Directors of the Company **opposes this proposal**.

The group has established the Mizuho Code of Conduct, which sets forth clear and concrete standards of ethical behavior, so that all directors, senior management and employees of the group are well aware of its content and act accordingly. Each of the companies in the group has also prepared a compliance manual, which serves as a practical guidebook for rigorous enforcement of compliance and clarifies the laws and regulations that the companies must observe in pursuing their business activities and the compliance activities they are required to follow. The group also conducts compliance training, etc., so that directors, senior management and employees are fully acquainted with the contents of the manual. The group is acutely aware of the significance of compliance with laws and regulations and will continue its endeavors to disseminate such awareness to employees. Accordingly, the Board of Directors is of the opinion that it is unnecessary to add the proposed provision to the Articles of Incorporation.

Proposal 10: Partial amendment to the Articles of Incorporation (Withdrawal from Green Sheet market)

1. Details of Proposal

It is proposed that the following provision be added to the Articles of Incorporation:

The security company in the group shall fully withdraw from the market of the Green Sheet issues handled by it.

2. Reasons for Proposal

Although the defect in the market of Green Sheet issues handled by MHSC was pointed out in the shareholder's proposal of last year, such defect has not been cured in any way; therefore, MHSC should immediately withdraw from the market.

If MHSC is to continue participating in the market, it should disclose the indicative prices in continuous trading sessions and introduce the auction system that applies the principle of price priority and time priority, which is the principle applied in the stock exchanges.

Opinion of the Board of Directors of the Company

The Board of Directors of the Company **opposes this proposal.**

MHSC operates its business appropriately and in accordance with the various rules of the Japan Securities Dealers Association (JSDA) and the rules established by the JSDA for the purpose of ensuring the maintenance of order and fair trade practices in over-the-counter transactions.

With regard to Green Sheet issues handled by MHSC, MHSC discloses, once daily, indicative prices appropriately, and those indicative prices are disclosed on said association's website. However, as the indicative prices for Green Sheet issues serve as reference prices for intended trades, actual trades are not necessarily executed at those prices.

In conducting trades, MHSC endeavors to execute clients' orders under the best terms and conditions for the clients based on the clients' intentions. In order to execute clients' orders under the best terms and conditions, MHSC comprehensively considers not only the price, but also various other factors, including cost, speed and certainty of the execution.

Accordingly, the Board of Directors is of the opinion that it is unnecessary to add the proposed provision to the Articles of Incorporation.

Table of Contents

Proposal 11: Partial amendment to the Articles of Incorporation (Non-participation in the successor system of the Green Sheet market)

1. Details of Proposal

It is proposed that the following provision be added to the Articles of Incorporation:

The security company in the group shall not participate in the successor system of the Green Sheet market.

2. Reasons for Proposal

MHSC should not participate in the successor system of the Green Sheet market without the expectation that the Company would gain profits therefrom, and moreover, after having caused investors to incur enormous losses due to unjustly low stock prices.

If MHSC is to participate in the system, it should disclose the indicative prices in continuous trading sessions, introduce the auction system that applies the principle of price priority and time priority, which is the principle applied in the stock exchanges, and make the market a fair and transparent one that appropriately evaluates corporate value.

Opinion of the Board of Directors of the Company

The Board of Directors of the Company **opposes this proposal**.

The JSDA announced the introduction of the Shareholders Community system, which is a system for over-the-counter securities transaction that replaces the Green Sheet issue system.

Based on the self-regulatory regulations for the introduction of such system that will be established by the JSDA, the group intends to consider the feasibility of participation in such system after fully analyzing matters such as whether (i) such system serves as a fair and transparent market for investors, (ii) such system contributes to the enhancement of MHSC's provision of investment opportunities that meet the various needs of customers and (iii) such system is consistent with the group's strategies and is sufficiently profitable.

Accordingly, the Board of Directors is of the opinion that it is unnecessary to add the proposed provision to the Articles of Incorporation.

Business Report for the 13th Fiscal Year

(from April 1, 2014 to March 31, 2015)

1. Matters Regarding the Current State of the Mizuho Financial Group, Inc.

(1) Developments and Results of Operations, etc.

Financial and Economic Environment

Reviewing the economic environment over the fiscal year ended March 31, 2015, although the global economy as a whole continued to recover gradually, weakness in the recovery is seen in some regions. As for the future direction of the economy, although continued recovery is expected particularly in the major industrialized countries, increase of geopolitical risk and effect of decline in oil prices need continued and careful observation.

In the United States, the economy continues to recover as employment conditions improved and consumer spending picked up. As for the future direction of the economy, although the possible effects of movements toward normalization of monetary policy should be noted, steady recovery in the economy is expected to continue.

In Europe, the economies of the Euro area continued to recover gradually, in addition to steady recovery in the United Kingdom. It is expected that the economies of the region will continue to be on a gradual recovery trend; however such factors as the consequence of debt problems (including developments in Greece) and high unemployment rates, the effect of the slowdown of the Russian economy, and trends in monetary policy still require attention.

In Asia, China's economy continued to grow in a stable manner, although the growth speed was slightly reduced. This trend is expected to continue; however, a possibility of a slowdown in growth rate began to be recognized mainly due to the issue of excess equipment in the manufacturing sector and weakness in the real estate market. As for the economies of the region as a whole, the situation in which growth momentum was lacking continued partially due to the weakening of exports to Europe. As for the future direction of the economy, while domestic demand is expected to be boosted by the decline in oil prices, since there are some concerns including depreciation of currencies that may be caused by the expected increase in interest rates in the United States, the rate of economic expansion is expected to remain gradual.

In Japan, as the gradual economic recovery trend continued, improvement of employment conditions and companies' earnings were seen. As for the future direction of the economy, the Japanese economy can be expected to continue picking up, supported by such factors as growth in consumer spending backed by a recovery in employee compensation, and increased exports due to the continued trend of depreciation of the yen against other major currencies.

Table of Contents**[Results of Operations for fiscal 2014]**

For fiscal 2014, the Group recorded a Consolidated Net Income of JPY 611.9 billion, which is a favorable result that exceeded the earnings estimates of JPY550.0 billion. Consolidated Net Income decreased by JPY 76.4 billion as compared to that of the last fiscal year, which was a record high Consolidated Net Income; however, such decrease occurred due to reasons including an increase in Income Taxes* by JPY 90.0 billion on a year-on-year basis due to, among others, the impact on tax effect accounting caused by the change in the effective tax rate due to revisions in the taxation system that were enacted in fiscal 2015. As a new policy to return profits to shareholders, starting from this fiscal year, we have implemented a steady dividend payout policy setting a dividend payout ratio on a consolidated basis of approximately 30% as a guide for our consideration. Based on this policy, MHFG proposes to make year-end cash dividend payments of JPY 4.00 per share on Common Stock (resulting in annual cash dividends including interim dividends, totaling JPY 7.50 per share for fiscal 2014, which is a JPY 1.00 increase from the amount for the previous fiscal year) for fiscal 2014, which represents an increase of JPY 0.50 from the amount forecasted at the beginning of fiscal 2014. [Business Management, Management Foundations, etc.]

By responding to the changes in the business environment, such as tightening of regulations, the Group will also firmly exert efforts in its business management and management foundations, which are inextricably linked to the business strategy.

(Enhancement of Corporate Governance)

While the Group has transformed into a Company with Three Committees, the Group will continue to endeavor to enhance the sophistication of the corporate governance structure that is suitable for a global systemically important financial institution (G-SIFI), in consideration of requirements both in Japan and overseas for a strong corporate governance, as can be observed in the amendments to the Companies Act, the establishment of the Corporate Governance Code, and the consultative document of the Basel Committee on Banking Supervision aiming to revise the Corporate Governance Principles for Banks. Furthermore, the Group will commit itself to continue to conduct its business operations appropriately, in compliance with the structure for ensuring appropriate conduct of operations (internal control system) determined by a resolution of the Board of Directors.

(Establishment of the Risk Appetite Framework)

Starting this fiscal year, the Group has introduced a risk appetite framework, in light of enhancement of corporate values through the integrated group-wide operation of business strategies, financial strategies and risk controls. Specifically, the Group will establish a policy on risk-taking, decide on the risk limits based on specific risk categories, and provide them to the units responsible for planning and advancing our business strategies. The risk-taking policy will be set separately for each of the three categories: universal risk-taking category, medium to long term objectives and current fiscal year objectives. The Group will implement effective business operations in accordance with its risk-taking policy, by nurturing a sound risk culture within the organization and by taking actions to raise the awareness of all officers and employees.

(Establishment of Data Management Division and Assignment of Chief Data Officer)

Against the backdrop of the strengthening of financial regulations and the development of information technology world-wide, the Group established the Data Management Division in July 2014, and the officer in charge was named the Chief Data Officer (CDO), in consideration of the importance of the collection and analysis, and the management of data that is applied to our business operations. The CDO is responsible for promoting data management and he/she will centrally manage data for the banking, trust banking and securities businesses and will enhance marketing efforts through strong risk management and effective application of big data.

(Establishment of Corporate Culture)

The Group will continue to take initiatives to establish a strong corporate culture that will support corporate governance. Specifically, it will further strengthen continued actions related to each initiative by having each division and branch create its own visions and supporting the initiatives towards realizing these visions, commencing discussion sessions with senior management, and off-site meetings for general managers of head office divisions and marketing offices in Japan and overseas.

(Further Market Penetration of Mizuho Brand)

The Group has adopted the brand slogan, One MIZUHO: Building the future with you, to indicate our commitment to become The most trusted financial services group with a global presence and a broad customer base, contributing to the prosperity of the world, Asia and Japan. In order to further the market penetration of the Mizuho brand, the Group will strive to achieve the business plans for the fiscal year 2015 and make efforts to practice communication of the Mizuho brand. Specifically, Mizuho has started, since April 2015, the social contribution project, Mizuho Heartful Action, such as registering Mizuho branches as children's refuge centers, increasing branches with interpreting services for non-Japanese speaking customers, providing tablet banking service that allows users to fill out forms online, and conducting voluntary activities within the local communities. Moreover, Mizuho will continue to implement measures to further improve the value of the Mizuho brand by means such as contributing to the growth strategy of Japan through the appointment as a Tokyo 2020 Gold Partner in the category of Banking.

The Group will continue to endeavor to strengthen the attitude toward governance and toward compliance with laws and regulations, including severance of business relations with anti-social elements, and at the same time, it will pursue the group strategy sharing with all of its management and employees the determination represented by the brand slogan, in the spirit of One MIZUHO. The Group will promote CSR initiatives and contribute to the sustainable development of society on a group-wide basis, and further promote its corporate values. Our shareholders' continuing support would be greatly appreciated.
