Financial performance

Adjusted profit before tax increased 9%

Adjusted income decreased 3%, due to Non-Core run-down, while impairment reduced 13%

Total adjusted operating expenses decreased 7% to £4.1bn driven by savings from Transform programmes and lower costs to achieve Transform

Adjusted attributable profit was £1.1bn, resulting in EPS of 6.5p

Group RoE was 7.6%, with Core RoE of 10.9%

Dilution on Group RoE from Barclays Non-Core was 3.3%

Statutory attributable profit was £465m:

Further provisions of £800m for investigations and litigation primarily relating to Foreign Exchange

Additional PPI redress provision of £150m

Gain of £429m recognised as valuation of a component of the defined retirement benefit liability was aligned to statutory provisions

Loss of £118m relating to completion of the Spanish business sale

Summary Group financials: Adjusted profits up 9%

1

EPS and RoE calculations are based on adjusted attributable profit, also taking into account tax credits on AT1 coupons |

Progressive strengthening of key balance sheet metrics

CET1 capital has increased to £42bn and RWAs reduced to £396bn improving the CET1 ratio to 10.6%

Leverage exposure increased slightly to £1.255trn (Dec 2014: £1.233trn), mainly as a result of seasonal effects, but the leverage ratio was maintained at 3.7%

Liquidity position remains robust with liquidity pool of £148bn and LCR of 122%

Funding profile remain conservative and well diversified

Overall funding requirements reducing as Non-Core is run-down

Further progress on proactive transition towards Holding Company capital and funding model

With a proxy TLAC ratio of 24%

6

, we are well positioned to meet
future TLAC requirement

Highlights

Raised £2bn of senior unsecured debt at Barclays PLC
which was used to subscribe for senior unsecured debt at
Barclays Bank PLC.

Period end equity reduced by £5.2bn to £9.7bn, including a £1.3bn reduction in Q1

RWAs reduced £41bn to £65bn, with a reduction of £10bn in Q1, including the completion of the sale of the Spanish business

Income reduced £363m to £10m, reflecting sale of income generating assets

Credit impairment improved to £29m, driven by the impact of sale of the Spanish business and improved performance in European retail

Costs reduced 49% to £239m due to savings from Transform programmes, including non-retail headcount reductions, and savings from the sale of the Spanish and UAE businesses

Attributable loss was £199m, but with the reduction in allocated equity, the Non-Core dilution on Group RoE was 3.3%

RWAs (£bn)
Highlights

RWAs reduced by £6bn reflecting continued progress on the run-down of Non-Core, and growth in Core businesses

Core business growth of £7bn driven by growth in PCB due to increased corporate and mortgage lending

Net Non-Core run-down of £10bn, reflecting the sale of the Spanish business and reduction in legacy structures and credit products

Model and methodology driven updates resulted in a net £5bn reduction in RWAs driven by improved market risk diversification methodology and a credit and counterparty risk model update

RWAs: Closely managed to support business growth and capital ratio accretion

OVERVIEW
HOLDING COMPANY
TRANSITION
CAPITAL &

LEVERAGE

ASSET QUALITY

Continued progress on the transition towards our target end-state capital structure

Fully loaded CRD IV CET1 ratio at 10.6% on track to meet our target of > 11% in 2016. The ratio was well in excess of the 7% PRA regulatory target¹

Robust buffers to contingent capital triggers²
AT1 contingent capital: c.360bps or £14.1bn
T2 contingent capital: c.530bps or £20.8bn³

As we build CET1 capital over the transitional period, we currently expect to hold an internal management buffer of up to c.150bps over minimum requirements in end state⁴

Transitional total capital ratio increased to 16.8% (Dec 2014: 16.5%), and fully loaded total capital ratio increased to 15.6% (Dec 2014 : 15.4%)

Further clarity required on Total Loss Absorbing Capacity (TLAC) quantum and composition.

In the interim, we continue to build towards our target end

-state capital structure which assumes at least 17% of total capital; final requirements subject to PRA discretion

Barclays 2015 Pillar 2A requirement as per the PRA's Individual Capital Guidance (ICG) is 2.8%. The ICG is subject to at least annual review
CET1 of 1.6% (assuming 56%)
AT1 of 0.5% (assuming 19%)

T2 of 0.7% (assuming 25%)

The PRA consultation on the Pillar 2 framework (CP1/15), and Basel Committee consultations and reviews of approaches to Pillar 1 and Pillar 2 risk might further impact the Pillar 2A requirement in the future

APPENDIX
PERFORMANCE
OVERVIEW
HOLDING COMPANY
TRANSITION
CAPITAL &

LEVERAGE

ASSET QUALITY

We intend to manage our CET1 capital ratio to mitigate against the risk of mandatory distribution restrictions

Mandatory restrictions to discretionary distributions

2

will

apply

to

all

European

banks, under CRD IV, from 1 January 2016

(Art. 162.2 of CRD)

As outlined in Art. 141 of CRD, mandatory distribution restrictions apply if an institution fails to meet the combined buffer requirement (CBR)

3

at which point a

Maximum Distributable Amount (MDA) is calculated on a reducing scale

CBR is phased in from 2016. In end state, we intend to hold an internal management buffer of up to c.150bps above CBR providing prudent headroom to the mandatory distribution restriction point

As at 1 January 2016, mandatory distribution restrictions on interest payment would apply at 7.2%, stepping up to 10.6% by 2019 when the CRD IV transitional rules are fully phased in

1

Barclays expects to have full discretion in the allocation of permitted distributions within the MDA

Leverage ratio on track for 2016 target

Leverage ratio at 3.7% well on track to meet 2016 Transform
target of in excess of 4%

The ratio was maintained as £0.3bn of T1 capital growth was
offset by a £22bn increase in leverage exposure

Leverage ratio already in line with expected minimum end-state
requirement of 3.7% as outlined by the Financial Policy
Committee

Leverage exposure increased by £22bn in Q1 2015, mainly due
to fluctuations in settlement balances

Non-Core leverage exposure reduced by £41bn to £236bn
primarily driven by the sale of the Spanish business, as well as
continued reduction in derivatives exposure reflecting maturities
and trade compressions

Core leverage exposure increased by £63bn driven by an
increase in loans and advances and other assets due to the
seasonal increase in settlement balances

Leverage

ratio

1

1,255

Leverage exposures during Q1 15 increased by £22bn to
£1,255bn

Loans and advances and other assets increased by £19bn to
£709bn primarily due to a seasonal increase in settlement
balances, partly offset by a decrease in cash balances

Net derivatives exposures decreased £9bn due to offsetting
moves between IFRS derivatives and allowable netting

Trade compressions and tear-ups continued to benefit PFE,
but reductions achieved during the quarter were largely offset
by new activity

SFT exposure was impacted by reduced netting

OpCo Equity

Barclays is committed to issuing most of its capital and term senior

unsecured debt out of Barclays PLC, the Holding Company

To better align the credit proposition between investors in HoldCo and OpCo securities during the transition period, proceeds raised by Barclays PLC have been used to subscribe for capital and senior unsecured term debt in Barclays Bank PLC with corresponding ranking

As the HoldCo is a creditor of the OpCo alongside OpCo external creditors, respecting the creditor hierarchy should require *pari passu* treatment between internally and externally OpCo issued capital and debt of the same rank

1

Maturing capital and term senior unsecured debt to be refinanced out of HoldCo during the transition period, making the external creditor hierarchy simpler post transition

When required to qualify as TLAC

4

in a material subsidiary,
senior obligations with >1 year residual maturity would need to be downstreamed in subordinated form to its excluded liabilities

Investment at HoldCo gives exposure to diversified businesses post ring-fencing, comparable to the position of OpCo investors today

Evolving regulation, including the implementation of MREL beginning 1 Jan 2016 and any subsequent regulatory policy interpretations, may require a change to the current approach. Any change would be communicated to the market

Barclays PLC is the holding company (HoldCo) of the Barclays Group

The HoldCo's primary assets currently are its investments in, and loans and advances made to, its sole subsidiary, Barclays Bank PLC, the operating company (OpCo)

As Barclays is committed to issuing most capital and term senior unsecured debt out of the HoldCo going forward, the HoldCo balance sheet is expected to increase

Barclays PLC parent company accounts

Notes to the [parent company balance sheet](#)

Investment in subsidiary

The investment in subsidiary of £33,743m (2014: £33,743m) represents investments made into Barclays Bank PLC, including £4,326m (2014: £4,326m) of Additional Tier 1 (AT1) securities.

Loans and advances to subsidiary and debt securities in issue

During the quarter, Barclays PLC issued £2,032m equivalent of Fixed Rate Senior Notes accounted for as debt securities in issue. The proceeds raised through these transactions were used to make £2,032m equivalent of Fixed Rate Senior Loans to Barclays Bank PLC, with a ranking corresponding to the notes issued by Barclays PLC.

HOLDING COMPANY
TRANSITION

Proactive
transition
towards
a
HoldCo
funding
and
capital
model positions us well to meet potential future TLAC
requirements

While requirements remain to be set, Barclays current
expectation is a multi-year conformance period

Majority portion of OpCo term senior unsecured debt
maturing before 2019 which can be refinanced from HoldCo

Based on Barclays current interpretation of TLAC
requirements,
proxy
TLAC
ratio
is
24%
4
on
the
assumption
that Barclays Bank PLC term non-structured senior
unsecured debt is refinanced from HoldCo and subordinated
to OpCo excluded liabilities

Currently do not intend to use HoldCo senior unsecured debt
proceeds to subscribe for OpCo liabilities on a subordinated
basis until required to do so

The future TLAC-ratio will further benefit from CET1 capital
growth and AT1 issuance towards end-state expectations

As TLAC rules are finalised, and as we approach
implementation date, we will assess the appropriate
composition and quantum of our future TLAC stack

Barclays Q1 2015 Fixed Income Investor Presentation

Stable liquidity position with the Group liquidity pool maintained at £148bn, providing a surplus to internal and external minimum requirements

Quality of the pool remains high:

81% held in cash, deposits with central banks and high quality government bonds

94% of government bonds are securities issued by UK, US, Japanese, French, German, Danish, Swiss and Dutch sovereigns

Even though not a regulatory requirement, the size of our liquidity pool is over 1.8x that of wholesale debt maturing in less than a year

Additional significant sources of contingent funding in the form of high quality assets pre-positioned with central banks globally

Maintaining a robust liquidity position, with pool well in excess of internal and external minimum requirements

Barclays Q1 2015 Fixed Income Investor Presentation
Total funding (excluding BAGL, as at 31 December 14)

We guided to issuance of a gross amount of £10-15bn in 2015 across public and private senior unsecured, secured and subordinated debt. This is materially below term maturities of £23bn in 2015, of which £14bn remaining this year

In Q1 15, we issued £4bn publicly against this plan, including \$3bn of senior unsecured debt from the HoldCo in two transactions, a £1bn covered bond from Barclays Bank PLC, and a \$500m US cards securitisation from Barclays Bank Delaware

We intend to maintain access to diverse sources of wholesale funding, through different products, currencies, maturities and channels

We expect to be a regular issuer of AT1 securities over the next few years

We maintain access to stable and diverse sources of funding, across customer deposits and wholesale debt

31

Key Messages

Potential outflows related to a multiple-notch credit downgrade of Barclays Bank PLC are included in the liquidity risk appetite (LRA)

The table on the left hand side shows contractual collateral requirements and contingent obligations following potential future one and two notch long-term and associated short-term simultaneous downgrades of Barclays

Bank

PLC

across

all

credit

rating

agencies

Behavioural outflows

During 2014 the Group strengthened its liquidity position, building a larger surplus to its liquidity risk appetite

This positions the Group well for any potential contractual or behavioural outflows as a consequence of the potential loss of the A-1 short term rating for Barclays Bank PLC by S&P as the credit rating agency assess sovereign support notches in its ratings

Barclays Q1 2015 Fixed Income Investor Presentation
Summary

Diversified international bank focused on delivering improved and more sustainable returns

Concentrating on high growth opportunities where we have competitive advantage, eliminating marginal businesses and sharpening our focus on costs
Business model

Strengthened capital position with fully loaded CRD IV CET1 ratio of 10.6% as at 31 March 2015, on track to deliver a ratio of greater than 11% in 2016

Building on good track record in reducing RWAs as we run-down Barclays Non-Core and reinvest in Core businesses outside of the Investment Bank
Capital

Diversified funding base, combining customer deposits and wholesale funding, in multiple currencies and different maturities

Robust liquidity position, well positioned to meet anticipated future regulatory requirements
Liquidity & funding

Proactive and practical approach to managing regulatory changes

Established track record of adapting to regulatory developments.
Regulation

Leverage ratio maintained at 3.7% as at 31 March 2015, close to our target of greater than 4% in 2016

Additional planned reductions in leverage exposure by 2016 mainly through reduction in Barclays Non-Core and the Core Investment Bank

PCB: Profits up 14%

1

Q1 15 CIR excluding CTA was 58% |

Income was in line at £2,174m:

Personal income reduced 2% driven by a reduction in fee income and mortgage margin pressure from existing customer rate switching, partially offset by improved deposit margins

Corporate income increased 3% due to improved deposit margins and balance growth in both lending and deposits, partially offset by reduced margins in the lending business

Wealth income reduced 4% to £258m

Net interest margin improved to 3.02% primarily due to the revised overdraft proposition and higher savings and deposit margins in personal and corporate businesses, partially offset by margin compression in mortgages and the corporate lending business

Credit impairment charges improved 41% due to the positive economic environment in the UK resulting in lower default rates and charges in corporate, with a resulting loan loss rate of 14bps

Costs reduced 3% reflecting savings from Transform programmes, including headcount reductions and branch network rationalisation

Positive jaws contributed to an increased RoE of 12.9%, while RoTE improved to 17.1%

Barclays Q1 2015 Fixed Income Investor Presentation

Income increased 9% to £1,135m driven by US cards and Barclaycard Business Solutions

Net interest margin reduced to 8.78% (Q1 14: 9.19%) due to change in product mix with relatively stronger growth in the lower margin US cards and Barclays Partner Finance businesses, but strongly up from 8.13% reported for Q4 14

Non-interest income increased 6% to £314m due to growth in US cards and Barclaycard Business Solutions, partially offset by the impact of interchange fee reductions in Europe

Credit impairment charges increased 8% to £290m and was accompanied by loans and advances growth of 15%. The loan loss rate reduced 20bps to 305bps

Costs increased 18% primarily reflecting business growth

PBT decreased slightly to £366m and attributable profit rose to £259m (2014: £254m)

Barclaycard: Income up 9% and RoE of nearly 17%

Currency movements had a limited effect on Q1 year on year comparisons. Discussion of business performance is therefore based on reported results in GBP:

PBT increased 23%, driven by 8% income growth exceeding 3% cost growth

Net interest income increased 6% to £533m, driven by higher loans to customers in Corporate and Investment Banking (CIB) and customer deposits in Retail and Business Banking

Non-interest income increased 11% to £415m, reflecting transactional income growth in South Africa and trading income in CIB

Credit impairment charges decreased 6% to £90m, driven by reduced impairments in the South Africa mortgages portfolio and business banking

Costs increased 3% reflecting inflationary pressures, resulting in higher staff costs, partially offset by the benefits of Transform programmes

RoE was 10.8% and RoTE was 14.7%

(1)%

1,028

48%

PBT rose 37% driven by income up 2% and costs down 9%

RoE improved to 9.1%, or 9.6% excluding CTA

Income increased 2% to £2,149m:

Banking increased 3% driven by higher debt and equity underwriting fees, partially offset by a decrease in advisory fees and lending

Macro increased 13% due to higher income in rates and currency products, reflecting increased client activity and market volatility

Credit decreased 21% driven by lower income in distressed credit, but recovered strongly from Q4 14 due to increased client activity

Equities increased 5% driven by cash equities and equity financing, partially offset by equity derivatives

Costs decreased 9% due to lower CTA and compensation costs, as well as savings from Transform programmes, including business restructuring and operational streamlining

Important Notice

The information, statements and opinions contained in this document do not constitute a public offer under any applicable legislation, nor a solicitation of any offer to buy any securities or financial instruments or any advice or recommendation with respect to such securities or financial instruments.

Forward-looking Statements

This document contains certain forward-looking statements within the meaning of Section 21E of the US Securities Exchange Act of 1934 and Section 27A of the US Securities Act of 1933, as amended, with respect to certain of the Group's plans and its current goals.

to its future financial condition and performance. Barclays cautions readers that no forward-looking statement is a guarantee of that actual results could differ materially from those contained in the forward-looking statements. These forward-looking statements include the fact that they do not relate only to historical or current facts. Forward-looking statements sometimes use words such as "may", "aim", "anticipate", "target", "projected", "expect", "estimate", "intend", "plan", "goal", "believe", "achieve" or other similar words. Forward-looking statements include, among others, statements regarding the Group's future financial position, income growth, assets, liabilities, provisions, business strategy, capital, leverage and other regulatory ratios, payment of dividends (including dividend pay-out ratios), growth in the banking and financial markets, projected costs or savings, original and revised commitments and targets in connection with the Programme and Group Strategy Update, run-down of assets and businesses within Barclays Non-Core, estimates of capital expenditures, objectives for future operations, projected employee numbers and other statements that are not historical fact. By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances. These may be affected by changes in legislation, accounting standards and interpretations under International Financial Reporting Standards (IFRS), evolving practices with regard to the interpretation of accounting and regulatory standards, the outcome of current and future legal proceedings and regulatory investigations, future provisions, the policies and actions of governmental and regulatory authorities, geopolitical risks and the impact of competition. Factors including (but not limited to) the following may have an effect: capital, leverage and other regulatory rules (including with regard to the Group) applicable to past, current and future periods; UK, US, Africa, Eurozone and global macroeconomic and business conditions; continued volatility in credit markets; market related risks such as changes in interest rates and foreign exchange rates; effects of credit market exposures; changes in valuation of issued securities; volatility in capital markets; changes in credit ratings of the Group or more countries exiting the Eurozone; the impact of EU and US sanctions on Russia; the implementation of the Transform Programme; and the impact of future acquisitions, disposals and other strategic transactions. A number of these influences and factors are beyond the Group's control. The Group's actual future results, dividend payments, and capital and leverage ratios may differ materially from the plans, goals, and objectives in the Group's forward-looking statements. Additional risks and factors are identified in our filings with the SEC, including our Annual Report for the fiscal year ended 31 December 2014 (2014 20-F), which are available on the SEC's website at <http://www.sec.gov>. Any forward-looking statements made herein speak only as of the date they are made and it should not be assumed that they have been updated in the light of new information or future events. Except as required by the Prudential Regulation Authority, the Financial Conduct Authority, the London Stock Exchange plc (the LSE) or applicable law, Barclays expressly disclaims any obligation or undertaking to release or update, or to revise or amend, any forward-looking statements contained herein to reflect any change in Barclays' expectations with regard to the conditions or circumstances on which any such statement is based. The reader should, however, consult any additional disclosures made or may make in documents it has published or may publish via the Regulatory News Service of the LSE and/or has filed with the SEC, including the 2014 20-F.

return
on
average
tangible
shareholders
equity
which
represents
annualised
profit
after
tax
for
the
period
attributable
to
ordinary
shareholders,
including
an
adjustment
for
the
tax
credit
in

reserves
in
respect
of
other
equity
instruments,
as
a
proportion
of
average
shareholders
equity
excluding
non-controlling
interests
and
other
equity
instruments
adjusted
for
the
deduction
of
intangible
assets
and
goodwill;

Barclays
Core
results
are
non-IFRS
measures
because
they
represent
the
sum
of
five
Operating
Segments,
each
of
which
is

prepared
in
accordance
with
IFRS
8;
Operating
Segments :
Personal
and
Corporate
Banking,
Barclaycard,
Africa
Banking,
Investment
Bank
and
Head
Office.

Liquidity
Coverage
Ratio
(LCR)
is
calculated
according
to
the
Commission
Delegated
Regulation
of

October
2014
that
supplements
Regulation
(EU)
575/2013
(CRDIV)
published
by
the
European
Commission
in
June
2013.
The
metric
is
a
ratio
that
is
not
yet
fully
implemented
in
local
regulations
and,
as
such,
represents
a
non-IFRS
measure

Net
Stable
Funding
Ratio
(NSFR)
is
calculated
according
to
the
definition
and

methodology
detailed
in
the
standard
provided
by
the
Basel
Committee
on
Banking
Supervision.
The
original
guidelines
released
in
December
2010
(Basel
III:
International
Framework
for
Liquidity
Risk
Measurement,
Standards
and
Monitoring ,
December
2010)
were
revised
for
in
January
2014
(Basel
III:
The
Net
Stable
Funding
Ratio ,
January
2014).
The
metric

is
a
regulatory
ratio
that
is
not
yet
finalised
in
local
regulations
and,
as
such,
represent
a non-
IFRS
measure.
This
definition
and
the
methodology
used
to
calculate
this
metric
is
subject
to
further
revisions
ahead
of
the
implementation
date
and
Barclays
interpretation
of
this
calculation
may
not
be
consistent
with

that
of
other
financial
institutions;

Transitional
CET1
ratio
according
to
FSA
October
2012.

This
measure
is
calculated
by
taking
into
account
the
statement
of
the
Financial
Services
Authority,
the
predecessor
of
the
Prudential
Regulation
Authority,
on
CRD
IV
transitional
provisions
in
October
2012,
assuming
such
provisions
were
applied
as

at
1
January
2014.
This
ratio
is
used
as
the
relevant
measure
starting
1
January
2014
for
purposes
of
determining
whether
the
automatic
write-down
trigger
(specified
as
a
Transitional
CET1
ratio
according
to
FSA
October
2012
of
less
than
7.00%)
has
occurred
under
the
terms
of
the
Contingent
Capital
Notes

issued
by
Barclays
Bank
PLC
on
November
21,
2012
(CUSIP:
06740L8C2)
and
April
10,
2013
(CUSIP:
06739FHK0).

of
this
measure
to
CRD
IV
CET1
ratio;
and

The
estimate
of
Proxy
Total
Loss
Absorbing
Capacity
(TLAC)

ratio
reflects
Barclays
current
understanding
of
how
the
Financial
Stability
Board's
Consultative
Document
on
Adequacy
of
loss-absorbing
capacity
of
global
systemically
important
banks
in
resolution
may
be
implemented
in
the
United
Kingdom.
The
estimate
reflects
certain
assumptions
on
the
inclusion
or
exclusion
of
certain
liabilities
where
further
regulatory
guidance
is

necessary.
Evolving
regulation,
including
the
implementation
of
MREL
beginning
1
Jan
2016
and
any
subsequent
regulatory
policy
interpretations,
may
require
a
change
to
the
current
approach.
As
such
metric
is
subject
to
further
regulatory
guidance
and
it
is
not
yet
implemented
in
local
regulations,
the
estimate
of
this
metric
represents

a
non-IFRS
measure
and
is
presented
in
this
document
for
illustrative
purposes
only.
