Intel's Growth Strategy

Transaction Summary

Purchase Price

\$54 per share in cash

Financial Impact

Expected to be accretive to non-GAAP EPS & Free Cash
Flow (FCF) in the first year after close

Financing

Cash on hand + new debt

Closing

Expected in approximately 6-9 months

Unanimously approved by Intel and Altera
Boards of Directors

Subject to approval by Altera's stockholders, regulatory approvals, and other customary closing conditions
Equity Value

~\$16.7 billion

The FPGA business is aligned to our growth strategy, Altera is well positioned, and FPGAs benefit from Moore's Law. We expect this transaction to create significant value for our stockholders.

Executive Summary

Altera's products combined with our IP portfolio are expected to enable a new class of products that meet customer needs in the data center and IoT market segments.

materially
from
the

forward-looking statements in this presentation, including the following, among others:

- delays, disruptions or increased costs in the integration of Altera's technology in existing or new products;
- Altera stockholders may not approve the transaction;
- closing of the transaction may not occur or may be delayed;
- expected synergies, cost savings, and other financial benefits of the transaction may not be realized;
- integration of the acquisition post-closing may not occur as anticipated;
- litigation related to the transaction or limitations or restrictions imposed by regulatory authorities may delay or negatively impact the financial benefits of or our ability to complete the transaction;
- unanticipated
restructuring
costs
may
be

assumed;

- attempts to retain key personnel and customers may not succeed;

- the business combination or the combined company's products may not be supported by third parties;

- actions by competitors may negatively impact results; and

- there may be negative changes in general economic conditions in the regions or the industries in which Intel and Altera operate.

In addition, please refer to the documents that Intel and Altera file with the SEC on Forms 10-K, 10-Q and 8-K. These filings identify and address

other important risks and uncertainties that could cause events and results to differ materially from those contained in the forward-looking statements set forth in this document. Readers are cautioned not to put undue reliance on forward-looking statements, and Intel and Altera assume no obligation and do not intend to update these forward-looking statements, whether as a result of new information, future events, or otherwise.
