To Our Stockholders:

We are pleased to invite you to our 2016 Annual Meeting of Stockholders that will be held at our headquarters, Glenpointe Centre West, 500 Frank W. Burr Blvd., Teaneck, New Jersey 07666, on Wednesday, June 15, 2016, at 9:30 a.m. Eastern Time.

2015 was a significant year for the Company as it again delivered industry-leading growth. Revenue reached \$12.4 billion, a 21% increase over 2014. Net income rose 13% to \$1.6 billion, or \$2.65 per diluted share. Diluted earnings per share on a GAAP and non-GAAP basis was \$2.65 and \$3.07, respectively, in 2015, up from \$2.35 and \$2.60, respectively, in 2014. GAAP operating margin in 2015 was 17.3% and non-GAAP operating margin was 19.7%. Throughout the year, our solid financial position enabled us to invest in expanding our capacity to serve clients and grow our business, while also repurchasing \$376 million of our stock under our stock buyback program.

The Company s strong performance in 2015 reflects our unique ability to help global enterprises fulfill a dual mandate. They must *run better* operating with greater efficiency, productivity and flexibility. At the same time, they must *run differently* embracing innovation and reinventing their business to compete in today s dynamic digital world. With our deep knowledge of diverse industry sectors, extensive process and technology expertise, global delivery network and 221,700 talented associates worldwide, we are well positioned to help clients master both sides of the dual mandate.

Since last year s annual meeting, there have been several corporate governance developments that we are pleased to update you on. First, the Board welcomed two new directors: Zein Abdalla and Jonathan Chadwick. Mr. Abdalla brings extensive leadership and global business expertise to the Board from his 19 years in senior and executive positions at PepsiCo, Inc., including as President prior to his retirement in 2014, where he led and shaped large scale operations in developed, developing and emerging markets. Mr. Chadwick brings a wide range of technology, finance and operations experience to the Board from his 19 years as a financial and operational leader of several prominent technology companies, most recently as Executive Vice President, Chief Financial Officer and Chief Operating Officer of VMware, Inc.

Second, the Board approved amended and restated By-laws for the Company that provide for proxy access. Under the new provisions, a stockholder, or a group of stockholders, owning 3% or more of the Company s shares continuously for at least three years may nominate and include in the Company s proxy materials directors constituting up to 25% of the Board or two individuals, whichever is greater, provided that the stockholder(s) and nominee(s) satisfy the requirements outlined in the By-laws.

The Notice of Meeting and Proxy Statement on the following pages provide further information on the Company s performance and corporate governance and describe the matters to be presented at the 2016 Annual Meeting. In addition, they include instructions on how to vote your shares by proxy and/or attend the meeting and vote in person. Whether or not you plan to attend the meeting in person, we urge you to promptly vote and submit your vote by proxy following the instructions provided in the Notice of Meeting and Proxy Statement.

We thank you for your continued support.

If you received an Internet Notice by mail and would like to receive a printed copy of our proxy materials, you should follow the instructions for requesting such materials contained on the Internet Notice.

Printed Copies of Our Proxy Materials

Some of our stockholders received printed copies of our proxy statement, 2015 Annual Report and proxy card. If you received printed copies of our proxy materials, then instructions regarding how you can vote are contained on the proxy card included in the materials.

Householding

The SEC s rules permit us to deliver a single Internet Notice or set of proxy materials to one address shared by two or more of our stockholders. This delivery method is referred to as householding and can result in significant cost savings. To take advantage of this opportunity, we have delivered only one Internet Notice or one set of proxy materials to multiple stockholders who share an address, unless we received contrary instructions from the impacted stockholders prior to the mailing date. We agree to deliver promptly, upon written or oral request, a separate copy of the Internet Notice or proxy materials, as requested, to any stockholder at the shared address to which a single copy of those documents was delivered. If you prefer to receive separate copies of the Internet Notice or proxy materials, contact Broadridge Financial Solutions, Inc. (Broadridge) at 1-800-542-1061 or in writing at Broadridge, Householding Department, 51 Mercedes Way, Edgewood, New York 11717.

If you are currently a stockholder sharing an address with another stockholder and wish to receive only one copy of future Internet Notices or proxy materials for your household, please contact Broadridge at the above phone number or address.

OUESTIONS AND ANSWERS ABOUT THE 2016 ANNUAL MEETING OF STOCKHOLDERS

Who is entitled to vote at the Annual Meeting?

The Record Date for the Annual Meeting is April 18, 2016. You are entitled to vote at the Annual Meeting only if you were a stockholder of record at the close of business on that date, or if you hold a valid proxy for the Annual Meeting. The only class of stock entitled to be voted at the Annual Meeting is our Common Stock. Each outstanding share of Common Stock is entitled to one vote for all matters before the Annual Meeting. At the close of business on the Record Date, there were 605,884,138 shares of Common Stock issued and outstanding and entitled to vote at the Annual Meeting.

What is the difference between being a record holder and holding shares in street name?

A record holder holds shares in his or her name. Shares held in street name means shares that are held in the name of a bank or broker on a person s behalf.

Am I entitled to vote if my shares are held in street name?

Yes. If your shares are held by a bank or a brokerage firm, you are considered the beneficial owner of those shares held in street name. If your shares are held in street name, these proxy materials are being provided to you by your bank or brokerage firm, along with a voting instruction card if you received printed copies of our proxy materials. As the beneficial owner, you have the right to direct your bank or brokerage firm how to vote your shares, and the bank or brokerage firm is required to vote your shares in accordance with your instructions. If your shares are held in street name, you may not vote your shares in person at the Annual Meeting unless you obtain a legal proxy from your bank or brokerage firm.

ABOUT THIS PROXY STATEMENT

2

How many shares must be present to hold the Annual Meeting?

A quorum must be present at the Annual Meeting for any business to be conducted. The presence at the Annual Meeting, in person or by proxy, of the holders of a majority of the shares of Common Stock outstanding on the Record Date will constitute a quorum.

Who can attend the Annual Meeting of Stockholders?

You may attend the Annual Meeting only if you are a Cognizant stockholder who is entitled to vote at the Annual Meeting, or if you hold a valid proxy for the Annual Meeting. If you plan to attend the Annual Meeting, you must call the Company s investor relations staff at 1-201-498-8840 or email <code>David.Nelson@cognizant.com</code> no later than 5:00 p.m. Eastern Time on June 14, 2016 to have your name placed on the attendance list. In order to be admitted into the Annual Meeting, your name must appear on the attendance list and you must present government-issued photo identification (such as a driver s license). If your bank or broker holds your shares in street name, you will also be required to present proof of beneficial ownership of our Common Stock on the Record Date, such as the Internet Notice you received from your bank or broker, a bank or brokerage statement, or a letter from your bank or broker showing that you owned shares of our Common Stock at the close of business on the Record Date.

What if a quorum is not present at the Annual Meeting?

If a quorum is not present at the scheduled time of the Annual Meeting, a majority of the outstanding shares represented at the Annual Meeting, by proxy or in person, and entitled to vote may adjourn the Annual Meeting.

What does it mean if I receive more than one Internet Notice or more than one set of proxy materials?

It means that your shares are held in more than one account at the transfer agent and/or with banks or brokers. Please vote all of your shares. To ensure that all of your shares are voted, for each Internet Notice or set of proxy materials, please submit your proxy by phone, via the Internet, or, if you received printed copies of the proxy materials, by signing, dating and returning the enclosed proxy card in the enclosed envelope.

How do I vote?

We recommend that stockholders vote by proxy even if they plan to attend the Annual Meeting and vote in person. If you are a stockholder of record, there are three ways to vote by proxy:

by telephone You can vote by telephone by calling 1-800-690-6903 and following the instructions on the proxy card;

by Internet You can vote over the Internet at www.proxyvote.com by following the instructions on the Internet Notice or proxy card; or

by mail You can vote by mail by signing, dating and mailing the proxy card, which you may have received by mail.

Telephone and Internet voting facilities for stockholders of record will be available 24 hours a day and will close at 11:59 p.m. Eastern Time on June 14, 2016.

If your shares are held in street name through a bank or broker, you will receive instructions on how to vote from the bank or broker. You must follow their instructions in order for your shares to be voted. Telephone and Internet voting also will be offered to stockholders owning shares through certain banks and brokers. If your shares are not registered in your own name and you would like to vote your shares in person at the Annual Meeting, you should contact your bank or broker to obtain a legal proxy and bring it to the Annual Meeting in order to vote.

Can I change my vote after I submit my proxy?

Yes. If you are a registered stockholder, you may revoke your proxy and change your vote:

by submitting a duly executed proxy bearing a later date;

by granting a subsequent proxy through the Internet or telephone;

by giving written notice of revocation to the Secretary of Cognizant prior to or at the Annual Meeting; or

by voting in person at the Annual Meeting.

Your most recent proxy card or telephone or Internet proxy is the one that is counted. Your attendance at the Annual Meeting itself will not revoke your proxy unless you give written notice of revocation to the Secretary before your proxy is voted or you vote in person at the Annual Meeting.

If your shares are held in street name, you may change or revoke your voting instructions by following the specific directions provided to you by your bank or broker, or you may vote in person at the Annual Meeting by obtaining a legal proxy from your bank or broker and submitting the legal proxy along with your ballot.

ABOUT THIS PROXY STATEMENT

3

Who will count the votes?

Representatives of Broadridge, our inspector of election, will tabulate and certify the votes.

What if I do not specify how my shares are to be voted?

If you submit a proxy but do not indicate any voting instructions, the persons named as proxies will vote in accordance with the recommendations of the Board. The Board s recommendations for each proposal are set forth on page 1, as well as with the description of each proposal in this proxy statement.

Will any other business be conducted at the Annual Meeting?

We know of no other business that will be presented at the Annual Meeting. If any other matter properly comes before the stockholders for a vote at the Annual Meeting, however, the proxy holders named on the Company s proxy card will vote your shares in accordance with their best judgment.

How many votes are required for the approval of the proposals to be voted upon and how will abstentions and broker non-votes be treated?

Proposal	Votes required	Effect of Abstentions and Broker Non-Votes
Proposal 1: Election of Directors	A director nominee will be elected to the Board if the votes cast for the nominee exceed the votes cast against the nominee.	No effect.
Proposal 2: Advisory (Non-Binding) Vote on Executive Compensation (Say-on-Pay)	The affirmative vote of a majority of the votes cast.	No effect.
		No effect. We do not expect any

No effect. We do not expect any broker non-votes on this proposal.

<u>Proposal 3</u>: Ratification of Appointment of Independent Registered Public Accounting Firm

The affirmative vote of a majority of the votes cast.

<u>Proposal 4</u>: Stockholder Proposal Regarding Stockholder Action by Written Consent

No effect.

The affirmative vote of a majority of the votes cast.

What is an abstention and how will abstentions be treated?

An abstention represents a stockholder s affirmative choice to decline to vote on a proposal. Abstentions are counted as present and entitled to vote for purposes of determining a quorum. Shares voting abstain have no effect on the election of directors, the approval of the compensation of our Named Executives, the ratification of our independent registered public accounting firm and the stockholder proposal regarding stockholder action by written consent.

What are broker non-votes and do they count for determining a quorum?

Generally, broker non-votes occur when shares held by a broker in street name for a beneficial owner are not voted with respect to a particular proposal because the broker (1) has not received voting instructions from the beneficial owner and (2) lacks discretionary voting power to vote those shares. A broker is entitled to vote shares held for a beneficial owner on routine matters, such as the ratification of the appointment of PwC as our independent registered public accounting firm, without instructions from the beneficial owner of those shares. On the other hand, absent instructions from the beneficial owner of such shares, we expect that a broker will not be entitled to vote shares held for a beneficial owner on all of the other proposals to be voted on at the Annual Meeting. Broker non-votes count for purposes of determining whether a quorum is present.

Where can I find the voting results of the Annual Meeting of Stockholders?

We plan to announce preliminary voting results at the Annual Meeting and we will report the final results in a Current Report on Form 8-K, which we intend to file with the SEC shortly after the Annual Meeting.

Majority Voting Standard in Election of Directors

Our By-laws provide that the voting standard for the election of directors in uncontested elections is a majority of votes cast. If none of our stockholders provides us with notice of an intention to nominate one or more candidates to compete with the Board s nominees in a Director election, or if our stockholders have withdrawn all such nominations by the day before the Company mails its notice of meeting to our stockholders, a nominee must receive more votes cast for than against his or her election or re-election in order to be elected or re-elected to the Board.

In accordance with our By-laws and Corporate Governance Guidelines, the Board will nominate for election or re-election as a Director only candidates who agree to tender, promptly following their failure to receive the required vote for election or re-election at the next meeting at which they would face election or re-election, an irrevocable resignation that will be effective upon acceptance by the Board. In addition, the Board will fill Director vacancies and new directorships only with candidates who agree to tender the same form of resignation, promptly following their appointment to the Board.

If an incumbent Director fails to receive the required vote for re-election, then, within 90 days following certification of the stockholder vote, the Governance Committee will act to determine whether to accept the Director's resignation and will submit the recommendation for prompt consideration by the Board, and the Board will act on the Governance Committee's recommendation. The Governance Committee and the Board may consider any factors they deem relevant in deciding whether to accept a Director's resignation. Any such Director may not participate in the Governance Committee recommendation or Board action regarding whether to accept the resignation offer. If each member of the Governance Committee fails to receive the required vote in favor of his or her election in the same election, then those independent Directors who did receive the required vote will appoint a committee amongst themselves to consider the resignation offers and recommend to the Board whether to accept them. However, if the only Directors who did not receive the required vote in the same election constitute three or fewer Directors, all Directors may participate in the action regarding whether to accept the resignation offers.

Thereafter, the Board will promptly disclose its decision-making process and decision regarding whether to accept the Director s resignation offer (or the reason(s) for rejecting the resignation offer, if applicable) in a Form 8-K furnished to the SEC.

BOARD COMPOSITION

Director Candidate Identification and Evaluation Process

The Governance Committee is charged with identifying and evaluating director candidates and recommending nominees to the Board for approval.

Finding Director Candidates

The Governance Committee seeks recommendations from Board members and others, engages search firms from time-to-time to assist in the identification and evaluation of director candidates, meets periodically to evaluate biographical information and background material relating to potential candidates and has selected candidates interviewed by members of the Governance Committee and the Board. In 2015 and 2016, the Company engaged a third-party director search firm to assist the Governance Committee in identifying and evaluating director candidates. Zein Abdalla and Jonathan Chadwick, who were elected to the Board in 2015 and 2016, respectively, were identified by such search firm.

Director Candidate Selection

The Governance Committee strives to maintain an engaged, independent Board with broad and diverse experience and judgment that is committed to representing the long-term interests of our stockholders. In considering whether to recommend any particular candidate for inclusion in the Board's slate of recommended Director nominees, the Governance Committee applies the criteria set forth in our Corporate Governance Guidelines. These criteria include the candidate's integrity, business acumen, knowledge of our business and industry, experience, diligence, absence of conflicts of interest and the ability to act in the interests of all stockholders, and includes consideration of the value of Board diversity. In evaluating Director candidates, the Governance Committee does not assign specific weights to particular criteria and no particular criterion is a prerequisite for each prospective nominee. We believe that the backgrounds, qualifications and diversity of our Directors, considered as a group, should provide a composite mix of experience, knowledge and abilities that will allow the Board to fulfill its responsibilities.

11

CORPORATE GOVERNANCE

The Governance Committee s Director candidate selection includes the following considerations:

Ensuring an experienced, qualified Board with expertise in areas relevant to the Company. We seek directors who have held significant leadership positions and have global business experience, especially in the consulting and technology industries in which we compete. In addition, we seek directors with the financial reporting, corporate governance and compliance experience appropriate for a large, global, publicly traded company.

Leadership

11/11 Directors

We believe that directors who have held significant leadership positions over an extended period, especially CEO positions, possess extraordinary leadership qualities, and the ability to identify and develop those qualities in others. They demonstrate a practical understanding of organizations, processes, strategy and risk management, and know how to drive change and growth.

Global Business Experience

9/11 Directors

With over 20% of our revenue currently coming from, and our continued success dependent, in part, on continued growth in, our business outside the United States, and with the extensive international aspects of our business operations, including our outsourcing services, we believe that global business experience is an important quality for many of our Directors to possess.

Consulting

5/11 Directors

Consulting, including as to information technology strategy, business and operations, is one of our key areas of business focus. It is an important component of the continuing growth of our business and permeates other important technology growth areas for us. As consulting is a critical component of our efforts to develop ever more strategic relationships with clients, it is important to have directors with consulting experience.

Technology

8/11 Directors

As a leading information technology company, developing and investing in new technologies and ideas is at the heart of our business. Our current investments include building capabilities to enable clients to drive digital transformation at scale and create next generation information technology infrastructures, and building platform-based solutions and industry utilities to enable clients to achieve new levels of efficiency. As such, having directors with technology experience is as important as ever.

Financial

8/11 Directors

We use a broad set of financial metrics to measure our operating and strategic performance. Accurate financial reporting and robust auditing are also critical to our success. As such, it is important for us to have directors with an understanding of financial statements and financial reporting processes.

Enhancing the Board s Diversity. Our Corporate Governance Guidelines provide that the value of director diversity, including as to race, gender, age and cultural background, should be considered in the selection of directors. The Governance Committee seeks out qualified women and individuals from minority groups to

include in the pool from which Board nominees are chosen, and in fact two of the three most recent director additions to the Board have been individuals from minority groups.

Ensuring a balanced mix of different tenures. The Governance Committee believes it is important to maintain a mix of experienced directors with a deep understanding of the Company and its industry and others who bring a fresh perspective. In this regard, the Governance Committee has recruited four new directors over the last four years.

Maintaining independence and avoiding conflicts of interest. The Governance Committee looks at other positions a director candidate has held or holds (including other board memberships) and any potential conflicts of interest to ensure the continued independence of the Board and its committees.

As part of the Governance Committee s annual self-assessment process, it assesses its performance as to all aspects of the selection and nomination process for directors, including diversity.

Director Candidate Recommendations by Stockholders

Stockholders may recommend individuals to the Governance Committee for consideration as potential director candidates by submitting the names of the recommended individuals, together with appropriate biographical information and background materials and a statement as to whether the stockholder or group of stockholders making the recommendation has beneficially owned more than 5% of Common Stock for at least a year as of the date such recommendation is made. Such recommendations should be sent to the Governance Committee, c/o Corporate Secretary, Cognizant Technology Solutions Corporation, Glenpointe Centre West, 500 Frank W. Burr Blvd., Teaneck, New Jersey 07666. Assuming that appropriate biographical and background material has been provided on a timely basis, the Governance Committee will evaluate stockholder-recommended candidates by following substantially the same process, and applying substantially the same criteria, as it follows for candidates submitted by others.

In addition, our By-laws provide that stockholders satisfying certain ownership and holding period requirements with respect to the Common Stock and other requirements may nominate directors for inclusion in our proxy statement. See Director Nominees for Inclusion in Next Year s Proxy Statement (Proxy Access) on page 48.

Compensation Committee

All members of the Audit Committee are required to satisfy the independence requirements contemplated by Rule 10A-3 under the Securities Exchange Act of 1934, as amended (the Exchange Act) and NASDAQ rules, specifically that Audit Committee members may not accept any direct or indirect consulting, advisory or other compensatory fee from the Company or any of its subsidiaries, except for their compensation for Board service, and that Audit Committee members may not be affiliated with the Company or any of its subsidiaries.

Under NASDAQ rules the Board must affirmatively determine the independence of each member of the Compensation Committee after considering all sources of compensation of the director, including any consulting, advisory or other compensation paid by the Company or any of its subsidiaries, and whether the Compensation Committee member is affiliated with the Company or any of its subsidiaries.

BOARD OPERATIONS

Board Leadership Structure

	Since December 2003, the Company s board leadership structure has separated the Chairman of the
Separate	Board and Chief Executive Officer roles into two positions. Currently, John E. Klein is the
Chairman	Chairman of the Board and Francisco D Souza is the Chief Executive Officer. The Board evaluates
	its leadership structure on an ongoing basis based on factors such as the experience of the
and CEO	applicable individuals and the current business environment of the Company. After considering
	these factors, the Board

determined that continuing to separate the positions of Chairman of the Board and Chief Executive Officer is the appropriate board leadership structure at this time.

CORPORATE GOVERNANCE

Director Attendance at Board and Stockholder Meetings

There were seven meetings of the Board during 2015. Each Director attended at least 75% of the aggregate of (i) all meetings of the Board held during the period in which he or she served as a Director and (ii) the total number of meetings held by the committees on which he or she served during the period, if applicable.

Our Corporate Governance Guidelines provide that Directors are expected to attend the annual meeting of stockholders. For the 2015 Annual Meeting, Mr. D Souza acted as Chairman and all but two of the nine then current Directors attended (participating by teleconference).

Board Role in Risk Oversight

The Board is responsible for oversight of the Company s risk management practices while management is responsible for the day-to-day risk management processes. This division of responsibilities is the most effective approach for addressing the risks facing the Company. The Board receives periodic reports from management regarding the most significant risks facing the Company and evaluates its role in risk oversight on an ongoing basis. In addition, the Audit Committee assists the Board in its oversight role by receiving periodic reports regarding the Company s risk and control environment. The Board does not believe that its role in the oversight of the Company s risks affects the Board s leadership structure.

Committees of the Board

The Board has established three standing committees the Audit Committee, Compensation Committee and the Nominating and Corporate Governance Committee (the Governance Committee) each of which operates under a charter that has been approved by the Board. Current copies of each committee is charter are posted in the Company Overview section of the About Cognizant page of our website located at www.cognizant.com, under the Corporate Governance tab.

Communications to the Loard from Stockholders

How you can communicate concerns to our Directors Under procedures approved by a majority of the independent Directors, our Chairman of the Board and Secretary and General Counsel are primarily responsible for monitoring communications from stockholders and, if they relate to important substantive matters and include suggestions or comments that our Secretary and Chairman of the Board consider to be important for the Directors to know, providing copies or summaries to the other Directors. In general, communications relating to corporate governance and long-term corporate strategy are more likely to be forwarded than

communications relating to ordinary business affairs, personal grievances and matters as to which we tend to receive repetitive or duplicative communications.

The Board will give appropriate attention to written communications that are submitted by stockholders, and will respond if and as appropriate. Stockholders who wish to send communications on any topic to the Board should address such communications to the Board by emailing the Board at *corporategovernance@cognizant.com* or by writing to the Board c/o Corporate Secretary, Cognizant Technology Solutions Corporation, Glenpointe Centre West, 500 Frank W. PROPOSAL 2 ADVISORY VOTE ON EXECUTIVE COMPENSATION (SAY-ON-PAY)

What are you voting on?

In accordance with Section 14A of the Exchange Act, we are asking stockholders to vote on an advisory basis to approve the compensation paid to our Named Executives, as disclosed in this proxy statement.

RESOLUTION STOCKHOLDERS ARE BEING ASKED TO APPROVE

RESOLVED, that the stockholders of Cognizant Technology Solutions Corporation approve, on an advisory basis, the compensation of the Company s named executive officers, disclosed pursuant to Item 402 of Regulation S-K in the Company s definitive proxy statement for the 2016 Annual Meeting of Stockholders.

The Board unanimously recommends a vote <u>FOR</u> the approval of the advisory (non-binding) vote on executive compensation.

Vote Required

The approval of this proposal requires the affirmative vote of a majority of the votes cast. Abstentions and broker non-votes are not considered to be votes cast and, accordingly, will have no effect on the outcome of the vote on this proposal.

Background

The Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act), requires that our stockholders have the opportunity to cast an advisory (non-binding) vote on executive compensation at annual meetings, commonly referred to as a Say-on-Pay vote.

The advisory vote on executive compensation is a non-binding vote on the compensation of our Named Executives, as described in the Compensation Discussion and Analysis section, the tabular disclosure regarding such compensation, and the accompanying narrative disclosure, set forth in this proxy statement. Please read the Compensation Discussion and Analysis section starting on page 17 for a detailed discussion about our executive compensation programs and compensation philosophy, including information about the fiscal 2015 compensation of our Named Executives. The advisory vote on executive compensation is not a vote on our general compensation policies, the compensation of the Board, or our compensation policies as they relate to risk management.

The vote solicited by this Proposal No. 2 is advisory, and therefore is not binding on the Company, the Board or the Compensation Committee. The outcome of the vote will not require the Company, the Board or the Compensation Committee to take any action, and will not be construed as overruling any decision by the Company or the Board. Furthermore, because this non-binding, advisory resolution primarily relates to the compensation of our Named Executives that has already been paid or contractually committed, there is generally no opportunity for us to revisit these decisions. However, the Board, including the Compensation Committee, values the opinions of our stockholders and, to the extent there is any significant vote against the executive officer compensation as disclosed in this proxy statement, we will consider our stockholders—concerns and evaluate what actions, if any, may be appropriate to address those concerns.

Frequency of Say-on-Pay Vote

Annual Say-on-Pay Vote The Dodd-Frank Act requires that we hold the advisory vote on executive compensation at least once every three years. At the 2011 Annual Meeting of Stockholders, the Company's stockholders recommended, on an advisory basis, that the stockholder vote on the compensation of our Named Executives occur every year. Accordingly, our next advisory Say-on-Pay vote (following the non-binding advisory vote at this Annual Meeting) is expected to occur at our 2017 Annual Meeting.

2015 Say-on-Pay Vote

At the 2015 Annual Meeting, approximately 98.4% of the votes cast on the Say-on-Pay proposal were voted for the proposal.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis section describes the general objectives, principles and philosophy of the Company s executive compensation program. This section focuses primarily on the compensation of our Named Executives, who are listed below and appear in the 2015 Summary Compensation Table on page 31.

Overview of Executive Compensation Program

Compensation Committee

The Compensation Committee oversees and administers our executive compensation program, including the evaluation and approval of compensation plans, policies and programs offered to our Named Executives. The Compensation Committee operates under a written charter adopted by the Board and is comprised entirely of independent, non-employee directors as determined in accordance with various NASDAQ, SEC and U.S. Internal Revenue Code (IRC) rules. The Compensation Committee has the authority to engage its own independent advisor to assist in carrying out its responsibilities under its charter.

Program Objectives

The Compensation Committee has designed the executive compensation program for our Named Executives to meet the following objectives:

Ensure executive compensation is aligned with our corporate strategies and business objectives;

Subject a substantial portion of an executive officer s compensation to achieving both short-term and long-term performance objectives that enhance stockholder value by linking rewards to measurable corporate and individual performance;

Reinforce the importance of meeting and exceeding identifiable and measurable goals through superior awards for superior performance;

Provide total direct compensation that is competitive in markets in which we compete for management talent in order to attract, retain and motivate the best possible executive talent;

Provide an incentive for long-term continued employment with the Company; and

Reinforce our desired culture and unique corporate environment by fostering a sense of ownership, urgency and overall entrepreneurial spirit.

Increased penetration at existing customers, including strategic clients; and

Continued expansion of the market for global delivery of IT services and business process services. The Compensation Committee took into account the above factors and the Company s performance, including relative to the industry, during 2015 and in previous years in its compensation decisions. See Proxy Statement Summary starting on page i for more information about the Company s performance in previous years.

Role of Stockholder Say-on-Pay Votes

The Company provides its stockholders with the opportunity to cast an annual, non-binding advisory vote on executive compensation. At the 2015 Annual Meeting, approximately 98.4% of the votes cast on the Say-on-Pay proposal were voted for the proposal. The Compensation Committee considered the outcome of that advisory vote to be an endorsement of the Compensation Committee s compensation philosophy and implementation. As such, in making its decisions regarding executive compensation for 2015, the Compensation Committee considered the significant level of stockholder support for our compensation program and chose to generally retain the 2014 structure of the executive compensation program, including the ratio of performance-based compensation to all other compensation and the ratio of performance-based equity compensation to time-based equity compensation, while making quantitative adjustments to reflect the performance of the Company and our Named Executives in 2015 and adding an additional performance criteria for the PSUs, as described in Primary Compensation Elements for 2015 starting on page 20. The Compensation Committee will continue to consider the outcome of the Company s Say-on-Pay votes when making future compensation decisions for the Named Executives.

COMPENSATION 18

The Compensation-Setting Process

Compensation Committee and Engagement of Compensation Consultant

To achieve the objectives of our executive compensation program, the Compensation Committee evaluates our executive compensation program with the goal of setting compensation at levels the Compensation Committee believes are competitive with those of other growth technology-related companies that compete with us for executive talent. The Compensation Committee has periodically engaged an independent compensation consultant to provide additional assurance that the Company s executive compensation program is reasonable and consistent with its objectives. The consultant reports directly to the Compensation Committee, periodically participates in Committee meetings, and advises the Compensation Committee with respect to compensation trends and best practices, plan design, and the reasonableness of individual compensation awards. Although the Compensation Committee reviews the compensation practices of our peer companies as described below, the Compensation Committee does not adhere to strict formulas or survey data to determine the mix of compensation elements. Instead, as described below, the Compensation Committee considers various factors in exercising its discretion to determine compensation, including the experience, responsibilities and performance of each Named Executive as well as the Company s overall financial performance. This flexibility is particularly important in designing compensation arrangements to attract and retain executives in a highly-competitive, rapidly changing market.

Since 2010, the Compensation Committee has engaged Pay Governance, LLC (Pay Governance), an independent executive compensation advisory firm, to review all elements of executive compensation, benchmark such compensation in relation to other comparable companies with which we compete for executive talent, and provide recommendations to ensure that our executive compensation program continues to enable us to attract and retain qualified executives through competitive compensation packages which will result in the attainment of our short-term and long-term strategic objectives. As part of the compensation-setting processes for 2013, 2014 and 2015, the Compensation Committee asked Pay Governance to provide benchmark compensation data and/or review management s recommendations for year-over-year compensation adjustments, including review for general market competitiveness and competitiveness with the Company s peer group. See Peer Group below.

The Compensation Committee has assessed the independence of Pay Governance and concluded that no conflict of interest exists that would prevent Pay Governance from providing independent advice to the Compensation Committee regarding executive and director compensation matters.

Role of Executive Officers in Determining Executive Compensation

Our Chief Executive Officer, aided by our President, provides statistical data and makes recommendations to the Compensation Committee to assist it in determining compensation levels. In addition, our Chief Executive Officer provides the Compensation Committee with a review of the performance of the other executive officers. While the Compensation Committee utilizes this information and values management s observations with regard to compensation, the ultimate decisions regarding executive compensation are made by the Compensation Committee.

Peer Group

The Compensation Committee, with assistance from Pay Governance, establishes the Company s peer group that is used for market comparisons and benchmarking. The peer group is comprised of a group of technology-related firms selected based on revenue, headcount and market capitalization.

Direct Compensation of Named Executives

Primary Compensation Elements for 2015

Our executive compensation program is designed to motivate, retain and engage our executive leadership and appropriately reward them for their contributions to the achievement of our business strategies and goals. In order to achieve our compensation objectives, the Company provides its executives with a total direct compensation package consisting of the elements listed in the table below. The Compensation Committee makes decisions on executive compensation from a total direct compensation perspective. Each element is considered by the Committee to be important in meeting one or more of the compensation program objectives.

There is no pre-established policy or target for the allocation between cash and non-cash compensation or short-term and long-term compensation. However, these primary elements have been weighted to ensure that a substantial amount of pay for the Named Executives is variable, contingent upon meeting or exceeding pre-determined performance goals and tied to the performance of our Common Stock.

2015 Target Total Direct Compensation

The following chart illustrates the balance of the elements of 2015 total direct compensation (using grant date share prices for RSUs and PSUs and target values for the annual cash incentive and the PSUs) for our Chief Executive Officer and other Named Executives.

2015 Target Total Direct Compensation

Our Named Executives (including our Chief Executive Officer s) target total direct compensation is, on average, 83% long-term (comprised of RSUs and PSUs) and 62% performance-based (comprised of PSUs and the annual cash incentive). Target total direct compensation for the Chief Executive Officer is weighted more towards long-term, equity compensation as compared to the other Named Executives. While the overall percentage of compensation that is performance-based is similar between the Chief Executive Officer and the other Named Executives, the mix of performance-based compensation for our Chief Executive Officer is weighted more towards the long-term equity (PSUs) as opposed to the annual cash incentive. This emphasis on long-term, equity compensation for our Chief Executive Officer was designed by the Compensation Committee to more closely align our Chief Executive Officer s compensation with the interests of stockholders and encourage a focus on the Company s long-term growth.

Base Salary

The Compensation Committee reviews the base salaries of our Named Executives on an annual basis. The primary objective of the base salary component of an executive s total direct compensation is to provide financial stability and certainty through market-competitive salary levels, recognizing each Named Executive s experience, knowledge, skills, relative value and sustained contribution to the Company. The Compensation Committee makes periodic adjustments to base salary based on individual performance and contributions, market trends, increases in the cost of living, competitive position and our financial situation. Consideration is also given to relative responsibility, seniority, experience and performance of each individual Named Executive. No specific weight is assigned to any of the above criteria relative to the others, but rather the Compensation Committee uses its judgment in combination with market and other data provided by Pay Governance and the Company. The Compensation Committee does not attempt to set compensation components to meet specific benchmarks relative to our peers because the Compensation Committee believes that excessive reliance on benchmarking is detrimental to stockholder interests as it can result in compensation that is unrelated to the value delivered by the Named Executives.

Based on the analysis set forth above, the base salaries of our Named Executives were established, effective January 1, 2015, as set forth in the following table. Messrs. D Souza and Coburn each received an increase in base salary over their 2014 base salary of approximately 3% to account for annual increases in the cost of living and general market trends. Ms. McLoughlin received an increase of 9% primarily to bring her compensation to a market-competitive level for her experience and position as Chief Financial Officer. Mr. Mehta received an increase of 6% primarily to reflect his expanded responsibilities and to account for increases in the cost of living and general market trends. Mr. Frank received an increase of 9% primarily to account for his performance with respect to key strategic initiatives and increased responsibilities he has taken on in the area of digital services.

Name	2015 Base Salary
Francisco D Souza	\$645,000
Gordon Coburn	\$613,500
Karen McLoughlin	\$406,000
Rajeev Mehta	\$538,500
Malcolm Frank	\$417,000

Annual Cash Incentive

The Compensation Committee has designed our annual cash incentive program to stimulate and support a high-performance environment by tying such incentive compensation to the attainment of organizational financial goals and by recognizing superior performance. The annual cash incentives are intended to compensate individuals for the achievement of these goals. The Committee determines actual cash incentives after the end of the fiscal year based upon the Company s performance.

The Compensation Committee believes that each Named Executive s annual cash incentive should be based upon the achievement of financial goals, which are tied to metrics that are valued by our stockholders. The Compensation Committee believes that our stockholders value and measure the performance of the Named Executives based principally on the growth of Company revenue, earnings and cash flow. Consequently, the Compensation Committee believes it is appropriate to establish three components to the annual cash incentive: revenue, non-GAAP income from operations (non-GAAP Income from Operations) (see Reconciliation of Non-GAAP Financial Measures on page 55 for a reconciliation of non-GAAP financial measures to our results as reported under GAAP) and days sales outstanding (DSO). All three components are subject to adjustment for any acquisitions over the course of the year. Over the past several years, one of our principal goals has been to grow revenue at an industry-leading pace, while maintaining a targeted level of non-GAAP operating margin and DSO. The annual cash incentive target has been set in an effort to achieve this operating performance.

For 2015, the Compensation Committee determined a target for each component (revenue, non-GAAP Income from Operations and DSO) and a weighting for the various components as a percentage of the total award such that achievement of the targeted level of performance for all three components would result in the Named Executives receiving their target awards. The Committee set threshold, or minimum, levels for each of the components below which no annual cash incentive would be paid for the particular component. The Committee also set maximum levels for each of the components above which no additional annual cash incentive would be paid for the particular component and which collectively result in a maximum possible annual cash incentive equal to 200% of the target awards for the Named Executives. To the extent the Company s actual 2015 performance falls between the threshold and target levels or between the target and maximum levels for any of the components, the annual cash incentive program provides for straight-line interpolation between the levels to calculate the payout level for the component.

	Threshold	Target	Maximum	
Component		(\$ in thousands)		Weighting
Revenue	\$11,599,500	\$12,210,000	\$12,820,500	50%

COMPENSATION 22

Annual Cash Incentive Target Based on High Growth Objectives The Compensation Committee established revenue and non-GAAP Income from Operations targets at levels 19% and 13% above the Company s 2014 revenue and non-GAAP Income from Operations, respectively. These targets were established to incentivize the Company s management to prioritize a continued high level of growth in the Company s revenue while maintaining a targeted level of non-GAAP operating margin. Meanwhile, the DSO component incentivizes maintenance of a healthy cash flow level consistent with past years. As a result of these targets, there was substantial uncertainty at the time the Compensation Committee established the performance goals for 2015 as to the likelihood of the Company s attainment of the targeted levels of performance.

The Compensation Committee set the 2015 target awards for the Named Executives at a level equal to 85% of the Named Executives base salaries. Based on the Company s actual 2015 performance against the metrics described above, the Compensation Committee determined that performance under the annual cash incentive program had been achieved at a level equal to 142% of the target award. The target awards and actual awards approved for payment by the Compensation Committee for 2015 to each of the Named Executives are set forth in the following table.

	2015 Annual Cash Incentive			
Name	Toward Amoud

Long-Term Incentives Stock-Based Awards

We provide long-term incentive compensation through stock-based awards in the form of restricted stock units (RSUs) and performance-based stock units (PSUs). The Committee believes that such RSUs and PSUs are a valuable component of our long-term incentive program for several reasons, including concerns over the dilutive effect option grants may have on our outstanding shares, our desire to make a portion of our Named Executives compensation less

subject to market volatility, and our desire to create a retention mechanism which creates the incentive to maximize stockholder value.

The Compensation Committee currently plans to use a combination of RSUs and PSUs in future years. We believe that stock-based grants provide our executive officers with a strong incentive to manage the Company from the perspective of an owner with an equity stake in the long-term success of the business, create an ownership culture, and help to align the interests of our executives and our stockholders. In addition, the vesting feature of our equity grants should further our goal of executive retention because this feature provides an incentive to our executive officers to remain in our employ during the vesting period.

In considering the number of long-term incentives to grant, the Compensation Committee first establishes a target compensation value that it wants to deliver to the Named Executives through long-term equity awards. In doing so, the Committee generally takes into account various factors, including the value of RSUs and PSUs that each of our executive officers has previously been awarded, the base salary of the executive officer, the heavy weight placed on equity in the mix of total compensation, and the perceived retention value of the total compensation package in light of the competitive environment. The Committee also generally takes into account increases in the cost of living, the size of comparable awards made to individuals in similar positions within the industry, the scope, responsibility and business impact of the officer s position, the individual s potential for increased responsibility and promotion over the award term, and the individual s personal experience and performance in recent periods. Once the target value is established, the Compensation Committee determines the number of RSUs and PSUs to be granted by reference to the current value of the Company s Common Stock.

In 2015, the Compensation Committee established target long-term incentive compensation values that were, as compared to the values provided in 2014, approximately 3% higher for all of the Named Executives except Ms. McLoughlin, for whom it was approximately 8% higher. The 3% increases were primarily to account for increases in the cost of living and general market trends, reflecting the fact that there were no major changes in the other factors mentioned above. For Ms. McLoughlin, the higher increase was, in addition, to bring her compensation to a market-competitive level for her experience and position as Chief Financial Officer.

23 COMPENSATION

65% / 35%

PSU/RSU

Split

The Compensation Committee determined that the 2015 long-term incentive compensation should be apportioned 65% to PSUs and 35% to RSUs. The Committee believes that a split that is weighted towards PSUs, which contain both performance- and time-based vesting aspects, is appropriate to emphasize the importance of achieving the specified financial results and long-term appreciation of the Company s Common Stock. The RSUs then provide further incentive for continued service and alignment of the Named Executives interests with those of stockholders.

Based on the foregoing considerations, on November 30, 2015, the Compensation Committee approved the following PSU and RSU awards to our Named Executives.

	Ps	SUs		RSUs

Malcolm Frank	26,426	\$ 1,706,591	14,229	\$ 918,909	\$ 2,625,500

Such PSUs and RSUs were granted pursuant to the terms and conditions of the Company s 2009 Incentive Plan and the related Stock Unit Award Agreements. Details of how such PSUs and RSUs work can be found on page 25.

Other Elements of Compensation

Supplemental Retirement Programs

We do not have any nonqualified deferred compensation programs, pension plans or pre-tax supplemental executive retirement plans for our executive officers, except for the CSRP described under Broad-Based Programs below and a nonqualified deferred compensation program established for Mr. Coburn. We established the program for Mr. Coburn to provide him with the equivalent economic value of the retirement plan in which he participated while the Company was majority-owned by IMS Health. Accordingly, Mr. Coburn is entitled to an annual Company contribution to his

nonqualified deferred compensation account equal to 6% of his base salary and earned annual cash incentive.

Broad-Based Programs

Our U.S.-based executive officers are eligible to participate in our broad-based medical, dental and vision insurance, life and accidental death insurance, 401(k) savings plan, CSRP and 2004 Employee Stock Purchase Plan on the same basis as all other regular employees.

Under the 401(k) savings plan, we match employee contributions at the rate of 50% for each dollar contributed during each pay period, up to the first 6% of eligible compensation contributed during each pay period, subject to applicable U.S. Internal Revenue Service (IRS) limits. The matching contributions immediately vest.

Our U.S.-based executive officers who are subject to contribution restrictions under our 401(k) savings plan due to statutory limits that apply to highly-compensated employees are eligible to participate in the Cognizant Technology Solutions Supplemental Retirement Plan (the CSRP) on the same basis as all other regular U.S.-based employees. The CSRP is a nonqualified savings plan in which the employee is contributions are made on a post-tax basis to an individually owned, portable and flexible retirement plan held with a life insurance company. The CSRP works alongside established qualified retirement plans such as our 401(k) savings plan or can be the basis for a long-term stand-alone retirement savings plan. We provide a fully vested incentive match following the same formula as our 401(k) savings plan. Because the CSRP is not subject to the same IRS non-discrimination rules as our 401(k) savings plan, employees that face limitations on their 401(k) contributions due to these rules can avail themselves of the CSRP without foregoing the Company match. Although there is a limit in the amount of employer contributions, there is no limit to the amount an employee may contribute to the CSRP and it can be used in concert with other retirement strategies that may be available outside of our Company.

The 401(k) savings plan, CSRP and other generally available benefit programs allow us to remain competitive for employee talent. We believe that the availability of the aforementioned broad-based benefit programs generally enhances employee morale and loyalty.

PSUs HOW THEY WORK

The PSUs are subject to attainment of certain performance milestones and continued service requirements.

Step 1 Performance milestones

1-year

Performance

1 erjormance

Period;

2 Performance

Metrics

The PSUs granted in November 2015 have a 1-year performance period (fiscal year

2016) over which the Company $\,$ s performance across two performance metrics is measured: revenue and non-GAAP diluted earnings per share ($\,$ non-GAAP EPS) (see

Reconciliation of Non-GAAP Financial Measures on page 55 for a reconciliation of non-GAAP financial measures to our results as reported under GAAP). Revenue

determines 75% of the award and non-GAAP EPS determines the remaining 25% of the award. Both metrics are subject to adjustment by the Compensation Committee for

any acquisitions over the course of the performance period.

For each metric, the Compensation Committee established threshold (50% vesting), target (100% vesting) and maximum (200% vesting) levels at the time of the award, with no PSUs eligible for vesting as to a metric for performance below the threshold level and the maximum possible number of PSUs that may vest as to a metric capped at 200%, regardless of performance above the maximum level. Performance across these two metrics determines the total number of PSUs that may vest, subject to the Named Executive satisfying the continued service requirements of the award as described in Step 2 below. The following diagram summarizes the manner in which the number of PSUs that may vest is determined.

Whether and to what extent the performance as to either metric has been achieved will be determined by the Compensation Committee in its sole and absolute discretion based upon the audited financials for the 2016 fiscal year. To the extent the level of achievement falls between the threshold and target levels or between the target and maximum levels for either metric, straight-line interpolation, rounded down to the preceding whole number (e.g., 101.74 rounded down to 101), is utilized to calculate the payout level for the component.

Step 2 Continued service requirement

A Named Executive must continue in the service of the Company until the relevant vesting date in order to receive the PSUs calculated in Step 1:

Vesting over Subsequent 2-year Period

1/3, rounded down to the nearest whole number, will vest on the 18-month anniversary of the date of grant; and

the remaining 2/9/s will vest on the 36-month anniversary of the date of grant.

RSUs HOW THEY WORK

Quarterly

Vesting Over

The RSUs vest in quarterly installments over a 3-year period. As a result, 1/12th of the RSUs granted in November 2015 vest on March 1, June 1, September 1 and December 1 of 2016,

3 Years

2017 and 2018.

25 COMPENSATION

Perquisites

We seek to maintain an egalitarian culture in our facilities and operations. The Company s philosophy is to provide a minimal amount of personal benefits perquisites to its executives and generally only when such benefits have a business purpose.

We incur expenses to ensure that our employees, including our executive officers, are accessible to us and our customers at all times and to promote our commitment to provide our employees and executives with the necessary resources and items of technology to allow them to operate around the clock in a virtual office environment. However, we do not view these expenses as executive perquisites because they are essential to the efficient performance of their duties and are comparable to the benefits provided to a broad-based group of our employees. In addition, the Company may reimburse executives for approved travel expenses where an immediate family member accompanies an executive to attend a business function at which such family member is generally expected to attend. Each of the Named Executives receives a perquisite in the form of an annual physical exam.

In addition, the Company provides Mr. D Souza with limited access to an administrative assistant of the Company for his personal business purposes. Mr. D Souza does not reimburse the Company for its cost of providing the administrative services and the Company pays him an additional amount to help offset any income taxes associated with the receipt of such services.

Additional Compensation Policies and Practices

Internal Pay Equity

Our compensation programs are designed so that potential realizable compensation is set relative to each executive s level of responsibility and potential impact on our performance.

Stock Ownership Guidelines

The Company maintains a stock ownership and retention policy which is applicable to the Named Executives and non-employee Directors and designed to help align their interests with those of stockholders. The policy requires such individuals, consistent with their responsibilities to the stockholders of the Company, to hold a significant equity interest in the Company. The policy expects each individual to attain a minimum share ownership level equal to the lesser of a certain number of shares and a multiple of his or her base salary or retainer, as set forth in the table below.

Officer or Director Level	Ownership Target
Chief Executive Officer	Lesser of 100,000 shares and 5x annual base salary
U.Sbased Named Executive (other than Chief	
Executive Officer)	Lesser of 60,000 shares and 4x annual base salary
Chairman of the Board (or Lead Director, if applicable)	Lesser of 20,000 shares and 4x annual retainer
Non-employee Directors	Lesser of 6,000 shares and 4x annual retainer

Compliance with the policy is measured every June 30 and Named Executives and non-employee Directors are required to come into compliance with the policy within five years of becoming subject to it and meet any subsequently increased ownership requirements within five years of the increase.

Hedging, Short Sale, Margin Account and Pledging Prohibitions

The Company s insider trading policies include the following prohibitions:

No hedging or speculation with respect to Cognizant securities. All of the Company s directors, officers and other employees are prohibited from purchasing or selling puts, calls and other derivative securities of the Company or any other derivative security that provides the equivalent of ownership of any of the Company s securities or an opportunity, direct or indirect, to profit from the change in value of the Company s securities.

No short sales of Cognizant securities. All of the Company s directors, officers and other employees are prohibited from engaging in short sales of Cognizant securities, preventing such persons from profiting from a decline in the trading price of the Company s common stock.

No margin accounts with Cognizant securities. The Company s directors and certain of its senior officers and other specified insiders, including the Named Executives, are prohibited from using Company securities as collateral in a margin account.

Limited pledging of Cognizant securities. The Company s directors and certain of its senior officers and other specified insiders, including the Named Executives, are prohibited from pledging the Company s securities as collateral for a loan, or modifying an existing pledge, without pre-approval from the Audit Committee.

COMPENSATION 26

Clawback Policy

The Company maintains a Clawback Policy which applies to all Named Executives and certain other members of management. The policy provides that if the Company is required to prepare an accounting restatement due to material noncompliance by the Company with any financial reporting requirement under the securities laws that is caused directly or indirectly by any current or former employee s gross negligence, willful fraud or failure to act that affects the performance measures or the payment, award or value of any compensation which is based in whole or in part on the achievement of financial results by the Company, the Company may recover from any employee covered by the policy, regardless of whether or not such employee engaged in the applicable misconduct, the difference between (1) the amount of any such incentive compensation actually paid or awarded to, or realized by, the covered employee during the preceding three years, and (2) the amount of any such incentive compensation that would have been paid or awarded to, and value that would have been realized by, the covered employee based on the financial results under the restatement, as determined in the sole discretion of the Compensation Committee.

To the extent the applicable restatement is caused directly or indirectly by any current or former covered employee s willful fraud or intentional manipulation of performance measures that affect the payment, award or value of incentive compensation, the Company may recoup from such covered employee responsible for the fraud or manipulation, the difference between (1) the amount of any such incentive compensation actually paid or awarded to, and value of any such incentive compensation realized by, such covered employee at any time while a covered employee, and (2) the amount of any such incentive compensation that would have been paid or awarded to, and value of any incentive compensation that would have been realized by, such covered employee at any time while a covered employee based on the financial results under the restatement, as determined in the sole discretion of the Compensation Committee.

Equity Grant Practices

The Compensation Committee or the Board approves the grant of stock-based equity awards, such as options, PSUs and RSUs, at its regularly scheduled meetings or by written consent. Awards approved during a regularly scheduled meeting become effective on the date of the meeting or as of a future date, as specified by the Compensation Committee or the Board in its approval. Awards approved by unanimous written consent become effective as of the date the Company is in receipt of all signed consents or as of a future date, as specified by the Compensation Committee or the Board in the written consent. In addition, the Board has authorized an executive committee, comprised of Messrs. Coburn, D Souza and Narayanan (the Executive Committee), to grant options to newly hired and existing employees. Stock options granted by the Executive Committee are granted in accordance with the Company s policy governing the issuance of stock options which is detailed below.

The Compensation Committee and the Board do not engage in any market timing of the stock-based equity awards made to the executive officers or other award recipients. There is no established practice of timing our awards in advance of the release of favorable financial results or adjusting the award date in connection with the release of unfavorable financial developments affecting our business. It is our intent that all stock option grants, whether made by the Board, the Compensation Committee or the Executive Committee, have an exercise price per share equal to the fair market value of our Common Stock based on the closing market price per share on the grant date.

The Company has a written policy governing the grant of stock options. The grant of PSUs and RSUs is not covered by the policy. The policy applies equally to grants of stock options to executives and other employees. The policy provides, among other things, that:

Stock option grants may be made by the Executive Committee, the Board or the Compensation Committee, provided the Executive Committee shall not grant options to any of its members, to any employee subject to Section 16 reporting as defined by the SEC that are not members of the Executive Committee or to anyone who is or may be a covered employee under IRC Section 162(m) that are not members of the Executive Committee;

The exercise price of each stock option shall not be less than 100% of the fair market value of our Common Stock on the date of grant based on the closing market price per share on such date;

Stock options granted by the Executive Committee must be within the guidelines set forth in the policy and may only be granted on the 14th day of a calendar month or, if the 14th day is a day that the Common Stock is not publicly traded, then on the last preceding trading date. The grants are reported to the Board at its next regularly scheduled meeting;

Except for grants to non-employee members of the Board (which shall only be issued with a grant date coincident with the date of the Company s annual meeting of stockholders or, with respect to the initial grant made to a non-employee Board member who is first elected or appointed to the Board other than at an annual meeting, the date of his or her initial election or appointment to the Board), no stock options shall be granted on a date that falls within

27 COMPENSATION

one of the Company s earnings black-out periods (period beginning 15 days prior to the end of each fiscal quarter (i.e., March 31, June 30, September 30 and December 31) and ending with and including the second full trading day following the quarterly announcement of the earnings of the Company for such quarter);

No stock options shall be granted by the Executive Committee to any one individual that collectively exceed 10,000 shares (subject to certain adjustments provided for under the policy) during any rolling 12-month period without approval by the Board or the Compensation Committee:

No stock option grant by the Executive Committee shall have a term in excess of 10 years or a vesting schedule other than 25% per year over a four-year period measured from the grant date or contain terms other than those specified in the applicable plan document; and

All option grants to employees subject to Section 16 reporting as defined by the SEC shall be made by the Compensation Committee comprised solely of two or more outside directors as determined under IRC Section 162(m) and the applicable Treasury Regulations (or by the Board so long as (i) any member of the Board that does not so qualify as such an outside director recuses himself or herself, and (ii) any such grant is made by two or more members of the Board who do qualify as such outside directors).

Risk Assessment

We believe our approach to goal setting and setting of targets with payouts at multiple levels of performance assists in mitigating excessive risk-taking that could harm our value or reward poor judgment by our executives. Several features of our programs reflect sound risk management practices. We believe we have allocated our compensation among base salary and short and long-term compensation target opportunities in such a way as to not encourage excessive risk-taking, but rather to reward meeting strategic company goals that enhance stockholder value. In addition, we believe that the mix of equity award instruments used under our long-term incentive program that includes full value awards as well as the multi-year vesting of our equity awards also mitigates risk and properly accounts for the time horizon of risk.

We do not believe that any of our compensation policies create risks that are reasonably likely to have a material adverse effect on the Company.

<u>Tax Considerations</u> <u>Deductibility of Executive Compensation</u>

IRC Section 162(m) generally disallows a tax deduction to publicly held companies for compensation exceeding \$1.0 million paid to certain of the corporation s executive officers, to the extent that compensation exceeds \$1.0 million per covered officer in any fiscal year. The limitation applies only to compensation which is not considered to be qualified performance-based compensation for purposes of Section 162(m). The Compensation Committee believes it is important to maintain compensation at the requisite level to attract and retain the executive officers essential to the Company s financial success, even if all or part of that compensation may not be qualified performance-based compensation , and therefore subject to the \$1.0 million limitation on deductible compensation under Section 162(m). Accordingly, the Compensation Committee may provide one or more executive officers with the opportunity to earn compensation, which may include cash incentive programs tied to the Company s financial performance or equity awards other than in the form of stock options, which may be in excess of the amount deductible by reason of

Section 162(m) or other provisions of the IRC. In establishing such cash and equity incentive compensation programs for the Company s executive officers, the Compensation Committee believes that the potential deductibility of the compensation payable under those programs should be only one of a number of relevant factors taken into consideration, and not the sole governing factor.

Ongoing and Post-Employment Compensation

The Company recognizes that a change in control can create uncertainty for its employees that may result in loss or distraction of executives during a critical period. As a result, in February 2013, we entered into Amended and Restated Executive Employment and Non-Disclosure, Non-Competition and Invention Assignment Agreements (collectively, the Employment Agreements) with each of the Named Executives under which certain payments and benefits would be provided should the executive officer s employment terminate under certain circumstances, including in connection with a change in control. The Employment Agreements replace the Severance and Noncompetition Agreements previously entered into with Messrs. D Souza, Coburn and Mehta. Prior to this, Ms. McLoughlin and Mr. Frank were not a party to any such agreement with the Company.

Under these agreements, in the event of an involuntary termination, other than in the case of a termination for cause, death, disability, or in the event that the Named Executive resigns for Good Reason (other than any termination described in the next paragraph) the Named Executive will receive his or her then current base salary for the 22-month period following termination in regular installments, commencing on or as soon as practicable after the applicable general release of claims is effective and within 35 days of the date of such termination, and an amount equal to the monthly COBRA medical insurance cost under the Company s medical plan for the Named Executive, his or her spouse and

COMPENSATION

28

dependents for the 12 months after termination. In addition, the portion of any outstanding equity awards that were subject to vesting solely upon continued service with the Company and that would have vested had the Named Executive remained employed during the year following the termination will become fully vested and exercisable as of the termination date, and with respect to any equity award subject to vesting in whole or in part based on achievement of performance objectives, to the extent such performance period expired on or before the termination date, the performance objectives have been satisfied and the only condition remaining to vesting is continued employment, the portion of such equity awards that would have vested during the year following the termination date will become fully vested and exercisable as of the termination date. With respect to any equity award subject to vesting in whole or in part based on achievement of performance objectives, if the performance period has not expired on or before the termination date or the performance objectives have not been satisfied, the entire unvested portion of such equity awards will be forfeited. The Named Executive will also be entitled to any amounts earned, accrued and owed but not yet paid to Named Executive as of the termination date and any benefits accrued and earned in accordance with the terms of any benefits plans or programs, and this amount is not conditioned upon the release becoming effective.

The Employment Agreements also provide that in the event of an involuntary termination that coincides with, or within the 12-month period immediately after, the first occurrence of a change in control, we will pay such individual the following,

Double Trigger Change in Control Payments provided he or she executes and does not revoke a general release of claims: a cash payment equal to one times his or her annual base salary, to be paid in regular installments over a period of 12 months commencing on or as soon as practicable after the release is effective and within 35 days of the date of such termination, a cash payment equal to the amount of the target annual cash incentive the Named Executive would otherwise have been eligible to receive for the performance year in which the termination occurs, assuming that the Named Executive and the Company have achieved 100% of performance targets and objectives, to be paid in a lump sum on or as soon as practicable after the release is effective and within 35 days of the date of such termination, and an amount equal to the

monthly COBRA medical insurance cost under the Company s medical plan for the Named Executive and his or her spouse and dependents for the 12 months after termination. In addition, the portion of any outstanding equity awards that were subject to vesting solely upon continued service with the Company will become fully vested and exercisable as of the termination date, and with respect to any equity award subject to vesting in whole or in part based on achievement of performance objectives, to the extent such performance period expired on or before the termination date, the performance objectives have been satisfied and the only condition remaining to vesting is continued employment, such equity awards become fully vested and exercisable as of the termination date. Moreover, with respect to the portion of any equity award subject to vesting in whole or in part based on achievement of performance objectives, to the extent the applicable performance period has not expired before the termination date, the Company must pro-rate the performance objectives for the period up to the closing of the change in control and make a good faith determination of the level of achievement of the performance objective and treat as fully vested and exercisable the proportionate amount of equity awards corresponding to that level of achievement. The Named Executive will also be entitled to any amounts earned, accrued and owed but not yet paid to the Named Executive as of the termination date and any benefits accrued and earned in accordance with the terms of any benefits plans or programs, and this amount is not conditioned upon the effectiveness of the release.

The Employment Agreements also provide that in the event any payments under the Employment Agreements would constitute parachute payments under IRC Section 280G, then the payments under the Employment Agreements shall be reduced by the minimum amount necessary so that no amounts paid will be non-deductible to the Company or subject to the excise tax imposed under IRC Section 4999.

Pursuant to the Employment Agreements, each Named Executive has agreed not to engage in any competitive business in any capacity for one year following termination of employment and not to solicit any of our employees to leave our employ within the one-year period following termination of employment. Our Named Executives are also bound by confidentiality covenants that protect our and our customers—confidential information and business and by intellectual property covenants that require the Named Executives to fully and promptly disclose all inventions and works developed while at the Company and for a period of six months after employment termination.

We believe that the Employment Agreements continue to achieve two important goals crucial to our long-term financial success, namely, the long-term retention of the Named Executives and their commitment to the attainment of our strategic objectives. These agreements will allow our Named Executives to continue to focus their attention on our business operations and strategic plans without undue concern over their own financial situations during periods when substantial disruptions and distractions might otherwise prevail. We believe that these severance packages are also fair and reasonable in light of the years of service our executive officers have rendered us (average tenure of over 10 years), the level of dedication and commitment they have rendered us over that period, the contribution they have made to our growth and financial success and the value we expect to receive from retaining their services, including during challenging transition periods following a change in control.

- ¹ Represents the aggregate grant date fair value of RSUs and PSUs determined in accordance with FASB ASC Topic 718 granted in each respective year. The reported dollar amounts do not take into account any estimated forfeitures related to continued service vesting requirements. See Long-Term Incentives Stock-Based Awards starting on page 23 for a description of the terms of the RSUs and PSUs granted during 2015.
- These amounts do not necessarily represent the actual value that will be recognized by the Named Executives upon vesting of shares. The amounts reported in the columns assume settlement of PSUs at target levels; however, PSUs may vest at a maximum of 200% of target, depending on the Company s 2016 revenue and non-GAAP EPS. For PSUs granted in 2015, if the maximum level of performance is achieved, the grant date fair value for the PSUs will be approximately \$13,628,447 for Mr. D Souza, \$7,282,816 for Mr. Coburn, \$3,642,441 for Ms. McLoughlin, \$6,960,045 for Mr. Mehta and \$3,413,182 for Mr. Frank, resulting in an aggregate grant date fair value for all stock awards of approximately \$17,297,624 for Mr. D Souza, \$9,243,594 for Mr. Coburn, \$4,623,088 for Ms. McLoughlin, \$8,833,898 for Mr. Mehta and \$4,332,091 for Mr. Frank. None of the Named Executives forfeited any stock awards during the 2015, 2014, or 2013 fiscal years. For information regarding assumptions underlying the valuation of stock-based awards, see Note 14 of the Consolidated Financial Statements in our Annual Report on Form 10-K for the applicable fiscal year.
- ³ Amounts shown in this column represent cash incentive awards earned for each respective fiscal year and paid in the first quarter of the following year under our officer annual cash incentive program.
- ⁴ Amount represents investment earnings/(losses) on Mr. Coburn s nonqualified deferred compensation account. The earnings/(losses) correspond to the actual market earnings on a select group of investment funds utilized to track the notional investment return on the account balance for the respective fiscal year. The Company has not made any determination as to which portion of such earnings may be considered above market for purposes of column (h) of this table and has elected to report the entire amount of such earnings/(losses). Mr. Coburn s nonqualified deferred compensation account incurred an investment loss in 2015 in an amount equal to \$(76,165), as reflected in the 2015 Nonqualified Deferred Compensation Table on page 35.
- ⁵ For 2015, includes a 401(k) savings plan matching contribution in the amount of \$783, and the use of an administrative assistant of the Company for personal matters, which is valued at \$22,759, plus a gross-up for taxes relating to such services equal to \$21,135. For 2014, includes a 401(k) savings plan matching contribution in the amount of \$1,500, and the use of an administrative assistant of the Company for personal matters, which is valued at \$7,588, plus a gross-up for taxes relating to such services equal to \$8,169. ¹Represents the range of annual cash incentive that can be earned by the Named Executive if the minimum threshold, target and maximum performance targets are achieved. The annual cash incentive is prorated if performance levels are achieved between the threshold and target levels or between the target and maximum levels. Performance below the minimum threshold results in no annual cash incentive payout to the Named Executive. See Annual Cash Incentive starting on page 22 for information regarding the methodology and performance criteria applied in determining these potential cash incentive amounts. The actual annual cash incentive paid to each Named Executive for his or her 2015 performance is reported as Non-Equity Incentive Plan Compensation in the 2015 Summary Compensation Table on page 31.

- ³ Market value was determined based on a closing price of a share of our Common Stock of \$60.02 as of December 31, 2015.
- ⁴ For PSUs granted in 2013, represents the number of shares that are eligible to vest subject to the continued service vesting requirements, at an achievement of 86.1% of the target for such PSUs, which percentage was determined based on the Company s fiscal 2014 revenue measured against the target for such revenue set forth in the award. 1/3rd of such shares vested on June 3, 2015 and the remaining 2/3^{rds} will vest on December 3, 2016 provided the Named Executive is employed by the Company on such date.

Measurement Date	Number of Shares	Calendar Year Revenue in 000
December 31, 2014	200% of Award Outstanding	\$10,960,000
	100% of Award Outstanding	\$10,250,000
	50% of Award Outstanding	\$9,945,000
	No Award	less than \$9,945,000

⁵ For PSUs granted in 2014, represents the number of shares that are eligible to vest subject to the continued service vesting requirements, at an achievement of 122.9% of the target for such PSUs, which percentage was determined based on the Company s fiscal 2015 revenue measured against the target for such revenue set forth in the award.

Such shares will vest 1/3rd on June 1, 2016 and the remaining 2/3^{rds} on December 1, 2017 provided the Named Executive is employed by the Company on such dates.

Measurement Date	Number of Shares	Calendar Year Revenue in 000
December 31, 2015	200% of Award Outstanding	\$13,050,000
	100% of Award Outstanding	\$12,228,000
	50% of Award Outstanding	\$11,875,000
	No Award	less than \$11,875,000

For PSUs granted in 2015, represents the number of unearned shares of stock not vested equal to the target award for such PSUs. The actual number of shares of stock that may vest will be determined by the Company s fiscal 2016 performance versus target levels on two metrics: revenue (75% of the award) and non-GAAP EPS (25% of the award). For the shares subject to each of the metrics, the number that may vest may be zero, if a threshold level of performance is not achieved as to the metric, or between 50% and 200% of the target number of shares. After the Compensation Committee determines, based on the performance for the fiscal 2016 measurement period, the number of shares that may vest, such shares will vest 1/3rd on May 31, 2017 and the remaining 2/3rds on November 30, 2018 provided the Named Executive is employed by the Company on such dates. See Long-Term Incentives Stock-Based Awards starting on page 23 for additional information.

2015 Option Exercises and Stock Vested Table

The following Option Exercises and Stock Vested table provides additional information about the value realized by the Named Executives on option award exercises and stock award vesting during the year ended December 31, 2015.

(a)	(b) Option A	(c) wards	(d) Stock A Number of Shares	(e) wards
Name	Number of Shares Acquired on Exercise	Value Realized on Exercise ¹	Acquired on Vesting Date ²	Value Realized on Vesting ³
	(#)	(\$)	(#)	(\$)
Francisco D Souza			285,510	17,899,516
Gordon J. Coburn	40,000	1,851,500	152,571	9,565,158
Karen McLoughlin	20,000	846,700	58,215	3,650,753
Rajeev Mehta			135,110	8,475,558
Malcolm Frank			57,197	3,586,918

¹ Value realized on exercise is calculated based upon the number of options exercised and the fair market value or sale price of the shares on the date of exercise less the exercise price, before any applicable tax withholding.

² The number of shares shown in the table reflects the gross number of shares received by each Named Executive upon vesting of the stock awards. The Company reduced the number of shares issued to each Named Executive by automatically withholding a number of shares with a fair market value as of the vesting date sufficient to satisfy

required tax withholdings. Each Named Executive actually received the following net number of shares of Company stock following such share withholding: Mr. D Souza, 139,710; Mr. Coburn, 80,122; Ms. McLoughlin, 28,696; Mr. Mehta, 79,825; and Mr. Frank, 29,312.

³ Value realized on vesting is calculated by multiplying the number of shares acquired on vesting by the fair market value of the shares on the respective vesting date.

³ Includes the amounts reported in columns (c) and (d) of this table plus such amounts previously reported in the Company s Summary Compensation Table in previous years if such compensation was required to be disclosed. The Company has established this nonqualified deferred compensation arrangement for Mr. Coburn to serve as the economic equivalent of the retirement plan in which he participated while the Company was majority owned by IMS

Health. Pursuant to such arrangement, the Company will credit Mr. Coburn s deferred compensation account with an annual contribution in a dollar amount equal to 6% of his base salary and earned annual cash incentive for the year. Mr. Coburn can select from the 16 investment funds sponsored by Mass Mutual available to the plan to serve as the measures of the investment return on his account for each year. Mr. Coburn may change his investment elections up to six times per year. The account balance will become due and payable upon the occurrence of any of the following distributable events: (i) retirement at 55 years of age payable six months following retirement in either a lump sum or 10 annual installments as elected by Mr. Coburn per plan provisions; (ii) termination of employment payable in a lump sum six months following termination of employment; (iii) death or disability immediate lump sum payment; and (iv) unforeseen emergency, as defined by IRC Section 409A payable in a lump sum.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

No Named Executive has an employment agreement that provides a specific term of employment. Accordingly, the employment of each Named Executive may be terminated at any time at the discretion of the Board.

We have entered into Employment Agreements with each of the Named Executives that provided certain benefits upon the termination of their employment under certain prescribed circumstances.

Under the Employment Agreements, if a Named Executive s employment terminates for any reason other than Cause, death or disability or if the Named Executive resigns for Good Reason and the Company s right to cure has expired (an involuntary termination) (other than a termination that coincides with, or occurs within the 12-month period immediately after, the first occurrence of a change in control) and if the Named Executive executes and does not revoke the applicable general release of claims in favor of the Company, we will pay such individual his or her then current base salary for the 22-month period following termination in regular installments, commencing on or as soon as practicable after the release is effective and within 35 days of the date of such termination, and an amount equal to the monthly COBRA medical insurance cost under the Company s medical plan for the Named Executive, his or her spouse and dependents for the 12 months after termination. In addition, the portion of any outstanding equity awards that were subject to vesting solely upon continued service with the Company and would have vested had the Named Executive remained employed during the year following the termination will become fully vested and exercisable as of the termination date, and, with respect to

35 COMPENSATION

any equity award subject to vesting in whole or in part based on achievement of performance objectives, to the extent such performance period expired on or before the termination date, the performance objectives have been satisfied and the only condition remaining to vesting is continued employment, the portion of such equity awards that would have vested during the year following the termination date will become fully vested and exercisable as of the termination date. With respect to any equity award subject to vesting in whole or in part based on achievement of performance objectives, if the performance period has not expired on or before the termination date or the performance objectives have not been satisfied, the entire unvested portion of such equity awards will be forfeited. The Named Executive will also be entitled to any amounts earned, accrued and owed but not yet paid to Named Executive as of the termination date and any benefits accrued and earned in accordance with the terms of any benefits plans or programs, and this amount is not conditioned upon the release becoming effective.

Under the Employment Agreements, Cause is generally defined to include: (i) willful malfeasance or willful misconduct by the Named Executive in connection with his or her employment, (ii) continuing failure to perform such duties as are requested by the Board, (iii) failure by the Named Executive to observe material policies of the Company applicable to him or her, (iv) the commission by the Named Executive of (x) any felony or (y) any misdemeanor involving moral turpitude, (v) the Named Executive engaging in any fraudulent act or embezzlement, or (vi) any material breach of the agreement.

Under the Employment Agreements, Good Reason is generally defined as the occurrence of one or more of the following events: (i) a material diminution of the Named Executive's authority, duties or responsibilities, (ii) a material diminution in his or her overall compensation package which is not caused by an overall policy to reduce senior employee compensation throughout the Company, (iii) the failure of the Company to obtain from its successor the express assumption of the agreement, and (iv) a change, without the Named Executive's consent, in the principal place of work of the Named Executive to a location more than 50 miles from his or her primary work location, but only if the change is after a change in control. The Employment Agreements provide that the Named Executive must give the Company notice within 30 days of the action or omission giving rise to the Good Reason, and the Company then has a period of 30 days to correct the reason constituting grounds for Good Reason. If the Company does not correct the event during the cure period, the Named Executive has 30 days to terminate for Good Reason.

The Employment Agreements also provide that in the event of an involuntary termination that coincides with, or occurs within the 12-month period immediately after, the first occurrence of a change in control, we will pay such individual the following, provided he or she executes and does not revoke the applicable release of claims: a cash payment equal to one times his or her annual base salary, to be paid in regular installments over a period of 12 months commencing on or as soon as practicable after the applicable release is effective and within 35 days of the date of such termination, a cash payment equal to the amount of the target annual cash incentive the Named Executive would otherwise have been eligible to receive for the performance year in which the termination occurs, assuming that the Named Executive and the Company have achieved 100% of performance targets and objectives, to be paid in a lump sum on or as soon as practicable after the release is effective and within 35 days of the date of such termination, and an amount equal to the monthly COBRA medical insurance cost under the Company s medical plan for the Named Executive and his or her spouse and dependents for the 12 months after termination. In addition, the portion of any outstanding equity awards that were subject to vesting solely upon continued service with the Company will become fully vested and exercisable as of the termination date, and with respect to any equity award subject to vesting in whole or in part based on achievement of performance objectives, to the extent such performance period expired on or before the termination date, the performance objectives have been satisfied and the only condition remaining to vesting is continued employment, such equity awards will become fully vested and exercisable as of the termination date. Moreover, with respect the portion of any equity award subject to vesting in whole or in part based on achievement of performance objectives, to the extent the applicable performance period has not expired before the termination date, the Company must pro-rate the performance objectives for the period up to the closing of the change

in control and make a good faith determination of the level of achievement of the performance objective and treat as fully vested and exercisable the proportionate amount of equity awards corresponding to that level of achievement. The Named Executive will also be entitled to any amounts earned, accrued and owed but not yet paid to Named Executive as of the termination date and any benefits accrued and earned in accordance with the terms of any benefits plans or programs, and this amount is not conditioned upon the effectiveness of the release.

Pursuant to the Employment Agreements, a change in control is generally defined as a change in ownership or control of the Company effected through any of the following transactions: (i) consummation of a merger, consolidation or other reorganization approved by the stockholders, unless securities representing 50% or more of the total combined voting power of the voting securities of the successor corporation are immediately thereafter beneficially owned, directly or indirectly, by the persons who beneficially owned the Company s outstanding voting securities immediately prior to such transaction, (ii) a sale, transfer or other disposition of all or substantially all of the Company s assets, (iii) the closing of any

transaction or series of related transactions pursuant to which any person or any group of persons comprising a group within the meaning of Rule 13d-5(b)(1) of the Exchange Act (other than (A) the Company or (B) a person that, prior to such transaction or series of related transactions, directly or indirectly controls, is controlled by or is under common control with, the Company) acquires directly or indirectly (whether as a result of a single acquisition or by reason of one or more acquisitions within the 12-month period ending with the most recent acquisition) the beneficial ownership (within the meaning of Rule 13d-3 of the 1934 Act) of securities possessing (or convertible into or exercisable for securities possessing) more than 35% of the total combined voting power of the Company s securities (as measured in terms of the power to vote with respect to the election of Board members) outstanding immediately after the consummation of such acquisition or series of related acquisitions, whether any such acquisition involves a direct issuance from the Company or the acquisition of outstanding securities held by one or more of the Company s existing stockholders, or (iv) a change in the composition of the Board over a period of 12 consecutive months or less such that a majority of the Board members ceases, by reason of one or more contested elections for Board membership, to be comprised of individuals who either (A) have been Board members continuously since the beginning of such period or (B) have been elected or nominated for election as Board members during such period by at least a majority of the Board members described in clause (A) who were still in office at the time the Board approved such election or nomination.

If a Named Executive is terminated due to death, disability or for Cause, he or she will receive any amounts earned, accrued and owed but not yet paid to him or her as of the termination date and any benefits accrued and earned in accordance with the terms of any benefit plan or program of the Company. However, all other obligations to the Named Executive will be extinguished as of the termination date.

Pursuant to the Employment Agreements, each Named Executive has agreed not to engage in any competitive business in any capacity for one year following termination of employment and not to solicit any of our employees to leave our employ within the one-year period following termination of employment. Our Named Executives are also bound by confidentiality covenants of indefinite duration and by intellectual property covenants that require the Named Executives to fully and promptly disclose all inventions and works developed while at the Company and for a period of six months after termination.

DIRECTOR COMPENSATION

Discussion and Analysis

The Company uses cash and stock-based compensation to attract and retain qualified individuals to serve on the Board. The Company sets compensation for directors who are not our employees or the employees of any of our subsidiaries (non-employee Directors) in light of the time commitment and experience level expected of its Directors. A Director who is an employee of the Company or any of its subsidiaries receives no cash or stock-based compensation for serving as a Director.

Engagement of Compensation Consultant

For purposes of establishing non-employee Director compensation for 2015, the Compensation Committee engaged Pay Governance, an independent executive compensation advisory firm, to review all elements of non-employee Director compensation, benchmark such compensation in relation to other comparable companies with which we compete for Board talent and provide recommendations to ensure that our non-employee Director compensation program remains competitive. Pay Governance benchmarked our non-employee Director compensation against the same group of technology-related firms used by Pay Governance in preparing its recommendations to the Compensation Committee in determining stock-based awards for executive officers in November 2015. See Compensation Committee and Engagement of Compensation Consultant and Peer Group on page 19. The Compensation Committee considered the benchmarking data and recommendations of Pay Governance in setting the 2015 cash and stock-based compensation of non-employee Directors set forth below.

Cash Compensation

Prior to the 2015 Annual Meeting, all non-employee Directors, other than our Chairman, received an annual retainer of \$40,000 for their service on the Board (with no additional fees paid for attendance at meetings of the Board), our Chairman received an annual retainer of \$140,000 (with no additional fees paid for attendance at meetings of the Board), the Chair of the Audit Committee received an additional annual retainer of \$15,000, the Chair of the Compensation Committee received an additional annual retainer of \$10,000 and the Chair of the Governance Committee received an additional annual retainer of \$5,000.

For purposes of establishing non-employee Director compensation for the director term commencing following the 2015 Annual Meeting, the Compensation Committee engaged Pay Governance to review all elements of non-employee Director compensation, benchmark such compensation in relation to other comparable companies with which we compete for Board talent and provide recommendations to ensure that the Company s non-employee Director compensation program remained competitive. See Engagement of Compensation Consultant above. Based on the Pay Governance review, the Board determined that, commencing with the 2015 Annual Meeting, all non-employee Directors, other than our Chairman, would receive an annual retainer of \$90,000 for their service on the Board (with no additional fees paid for attendance at meetings of the Board), our Chairman would receive an annual retainer of \$240,000 (with no additional fees paid for attendance at meetings of the Board), the Chair of the Audit Committee would receive an additional annual retainer of \$25,000, and the Chair of the Compensation Committee and the Chair of the Governance Committee each would receive an additional annual retainer of \$15,000.

All non-employee Directors receive \$1,500 for attendance at each meeting of a committee of the Board, other than telephonic meetings that are held for 30 minutes or less, for which no attendance fee is paid.

The Company s compensation policy is to pay the annual retainers to Directors in advance following their election or reelection at the Company s annual meeting of stockholders. In the event that a non-employee Director is nominated to the Board at any point during the year, that Director will receive a pro-rated amount of the retainer for the period from such election to the one-year anniversary of the Company s last annual meeting of stockholders.

Stock-Based Compensation

Directors were previously eligible to participate in the 1999 Incentive Plan and the Director Plan. During 2009, the 2009 Incentive Plan succeeded the 1999 Incentive Plan and the Director Plan. Awards granted under the previous plans are still valid; however, no additional awards may be granted from the 1999 Incentive Plan and the Director Plan. All Directors are currently eligible to participate in our 2009 Incentive Plan.

In 2015, all non-employee Directors received grants of options to purchase shares of our Common Stock and grants of RSUs under the 2009 Incentive Plan. All grants of options are subject to the Company s written policy governing the grant of stock options which is described in Long-Term Incentives Stock Based Awards starting on page 23. Those non-employee Directors who were re-elected to the Board at the 2015 Annual Meeting, consisting of all of the non-employee

40

COMPENSATION

Directors except Messrs. Abdalla and Chadwick, were granted options to purchase 6,371 shares of our Common Stock at an exercise price of \$65.60 and 1,600 RSUs on June 2, 2015, the date of such annual meeting. The Company s compensation policy provides that the annual stock-based awards to non-employee Directors are subject to pro-ration in the same manner as the cash compensation described under Cash Compensation on page 40. As a result, Mr. Abdalla received a lesser grant of options to purchase 4,368 shares of our Common Stock at an exercise price of \$62.77 and 1,191 RSUs on September 15, 2015, the date of his election to the Board, and Mr. Chadwick received a lesser grant of options to purchase 998 shares of our Common Stock at an exercise price of \$60.16 and 258 RSUs on April 9, 2016, the date of his election to the Board.

Each of the options granted under the 2009 Incentive Plan vests ratably, 50% per year on the anniversary of such grant in 2016 and 2017 (or 2017 and 2018, in the case of the grants to Mr. Chadwick), and has an exercise price equal to the fair market value per share of Common Stock on the grant date or the closing price on the last trading day if granted on a weekend or holiday, and a maximum term of seven years measured from such date. The Directors will have a limited period in which to exercise their vested options following cessation of Board service. Each of the RSUs granted to the Directors under the 2009 Incentive Plan during 2015 vests ratably one-third per year on the anniversary of such grant in 2016, 2017 and 2018, subject to the deferral elections described below under Deferral of Restricted Stock Units . Upon a Director s retirement while in good standing, the Board s intent is to utilize its discretion to accelerate the vesting of such Director s outstanding stock-based awards.

Director Stock Ownership Guidelines

The Company maintains a stock ownership and retention policy which is applicable to the Named Executives and non-employee Directors and designed to align their interests with those of stockholders. The policy requires the Chairman of the Board to hold a number of shares of our Common Stock equal to the lesser of 20,000 shares and four times the Chairman s annual retainer. The policy requires other non-employee Directors to hold a number of shares of our Common Stock equal to the lesser of 6,000 shares and four times such non-employee Director s annual retainer. Compliance with the policy is measured every June 30 and non-employee Directors are required to come into compliance with the policy within five years of becoming subject to it and meet any subsequently increased ownership requirements within five years of the increase. See Stock Ownership Guidelines on page 26 for additional information on the policy as well as its applicability to Directors who are employees.

Hedging, Short Sale, Margin Account and Pledging Prohibitions

All Directors are subject to the same insider trading policies of the Company that apply to employees that provide for:

No hedging or speculation with respect to Cognizant securities;

No short sales of Cognizant securities;

No margin accounts with Cognizant securities; and

Limited pledging of Cognizant securities.

See Hedging, Short Sale, Margin Account and Pledging Prohibitions on page 26 for additional information on these restrictions.

Deferral of Restricted Stock Units

The non-employee Directors had the opportunity to defer settlement of the RSUs granted in 2015. Mr. Weissman elected to defer such settlement until the first to occur of (i) a change in control of the Company, (ii) the Director s death or permanent disability or (iii) the July 1 immediately following his separation from service from the Company. Ms. Breakiron-Evans and Messrs. Klein and Wendel elected to defer such settlement until the first to occur of: (i) a change in control of the Company, (ii) the Director s death or disability or (iii) (a) with respect to one-third of the Director s RSUs (rounded down to the nearest whole share), the July 1 immediately following his or her separation from service from the Company, (b) with respect to one-third of his or her RSUs (rounded down to the nearest whole share), the second July 1 immediately following his or her separation from service from the Company and (c) with respect to the remainder of his or her RSUs, the third July 1 following his or her separation from service from the Company. Messrs. Abdalla, Fox, Mackay, Jr. and Patsalos-Fox did not elect to defer the settlement of their RSUs.

PROPOSAL 3 RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

What are you

voting on?

Our Audit Committee has appointed PricewaterhouseCoopers LLP (PwC) as the independent registered public accounting firm to audit our consolidated financial statements and our internal control over financial reporting for 2016. We are asking our stockholders to ratify this appointment of PwC.

WHY STOCKHOLDERS ARE VOTING ON THIS PROPOSAL

Although ratification is not required by our By-laws or otherwise, the Board values the opinions of our stockholders and believes that stockholder ratification of the Audit Committee s selection is a good corporate governance practice. If the selection is not ratified, the Audit Committee will take this fact into consideration in determining whether it is appropriate to select another independent auditor for 2016 or future years. Even if the selection is ratified, the Audit Committee may select a different independent auditor at any time during the year if it determines that this would be in the best interests of the Company and its stockholders.

The Board unanimously recommends a vote <u>FOR</u> the Ratification of PricewaterhouseCoopers LLP as our Independent Registered Public Accounting Firm for 2016.

Vote Required

The approval of this proposal requires the affirmative vote of a majority of the votes cast. Abstentions are not considered to be votes cast and, accordingly, will have no effect on the outcome of the vote on this proposal. Because brokers have discretionary authority to vote on the ratification of the appointment of PwC, we do not expect any broker non-votes in connection with this proposal.

Our Auditor Review and Engagement Process

The Audit Committee is directly responsible for the appointment, compensation (including negotiation and approval of the audit fee), retention and oversight of the independent registered public accounting firm that audits our financial

statements and our internal control over financial reporting. Our Audit Committee and its chairperson are directly involved in the selection of the lead audit partner at the start of each rotation.

To ensure continuing audit independence:

The Audit Committee periodically considers whether there should be a regular rotation of the accounting firm that is retained, and considers the advisability and potential impact of selecting a different accounting firm;

Neither the accounting firm nor any of its members is permitted to have, and none has, any direct or indirect financial interest in or any connection with us in any capacity other than as our auditors, providing audit and non-audit related services; and

In accordance with SEC rules and PwC policies, audit partners are subject to rotation requirements to limit the number of consecutive years an individual partner may provide services to our Company. For lead and concurring audit partners, the maximum number of consecutive years of service in that capacity is five years. The members of the Audit Committee and the Board believe that the continued retention of PwC to serve as the Company s independent registered public accounting firm is in the best interests of the Company and its stockholders.

We Expect PricewaterhouseCoopers LLP to Attend the 2016 Annual Meeting

PwC representatives are expected to attend the Annual Meeting. They will have an opportunity to make a statement if they wish and are expected to be available to respond to appropriate questions from stockholders.

Audit-Related Fees

Audit-related fees consist of fees for assurance and related services that are reasonably related to the performance of the audit and the review of our financial statements and which are not reported under. Audit Fees including financial due diligence services related to business combinations. These services relate to attest services that are not required by statute or regulation, consultations concerning financial accounting and reporting matters, and independent assessment of controls related to outsourcing services. PROPOSAL 4 STOCKHOLDER PROPOSAL REGARDING STOCKHOLDER ACTION BY WRITTEN CONSENT

What are you The following stockholder proposal will be voted on at the 2016 Annual Meeting only if properly presented by or on behalf of the stockholder proponent. The Board unanimously recommends a

voting on? vote <u>AGAINST</u> the proposal for the reasons set forth following the proposal.

The Company has been advised that James McRitchie and Myra K. Young, 9295 Yorkship Court, Elk Grove, California 95758, beneficial owners of 100 shares of the Company s Common Stock, intend to submit the proposal set forth below at the Annual Meeting. Mr. McRitchie and Ms. Young have delegated John Chevedden to act on their behalf regarding the proposal.

Proposal 4 Right to Act by Written Consent

Resolved, Shareholders request that our board of directors undertake such steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorize the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law. This includes shareholder ability to initiate any topic for written consent consistent with applicable law.

A shareholder right to act by written consent and to call a special meeting are 2 complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle.

A shareholder right to act by written consent is one method to equalize our limited provisions for shareholders to call a special meeting. Delaware law allows 10% of shareholders to call a special meeting without mandating a holding period. However it takes 25% of Cognizant shareholders, from only those shareholders with at least one-year of continuous stock ownership, to call a special meeting.

Thus potentially 50% of Cognizant shareholders could be disenfranchised from having any voice whatsoever in calling a special meeting due to the Cognizant one-year lock-out period. The average holding period for stock is less than one-year according to Stock Market Investors Have Become Absurdly Impatient.

The Board s Statement of Opposition

The Board **UNANIMOUSLY** recommends that stockholders vote **AGAINST** this proposal for the following reasons:

- 1. Substantially identical proposals were rejected by the Company s stockholders in 2013 and 2015, upon the recommendation of the Board. Substantially the same proposal has been submitted, considered by the Board and rejected by stockholders at two of the previous three annual meetings of the Company. The Board has repeatedly evaluated whether adoption of the right to act by written consent would be in the best interests of the Company and its stockholders, and has repeatedly concluded that it would not. As discussed further below, the Board has implemented changes in its corporate governance practices where it has determined that a particular practice would benefit the Company and stockholders. The Board continues to believe that the right to act by written consent would not be a sound corporate governance practice and, in fact, could be detrimental to the Company s ability to operate effectively and create long-term value for all stockholders.
- 2. Implementation of the proposal is unnecessary given the Company s governance practices, including the ability of stockholders to call special meetings, and could impose significant burdens on the **Company.** The Board believes, as it has in past years, that implementation of this proposal is unnecessary given the Company s governance practices, including the ability of stockholders to call special meetings at any time. Stockholders may propose any proper matter for a vote at our annual meeting, and, in addition, stockholders holding 25% of the Company s outstanding Common Stock may call a special meeting. In the Board s view, action at an annual or special meeting supports stockholders interests more than action by written consent. At meetings of stockholders, all stockholders have the opportunity to express views on proposed actions and to participate in deliberations and vote. Such meetings occur at a time and date announced publicly in advance of the meeting. These provisions ensure that stockholders can raise matters for consideration while protecting stockholders interests in receiving notice of and an opportunity to voice concerns about proposed actions affecting the Company. The proposal, however, would allow stockholders to use the written consent procedure at any time and as frequently as they choose to act on a range of potentially significant matters, without a meeting, potentially without prior notice to all stockholders, and without an opportunity for fair and open discussion among all stockholders on the merits of the proposed action. Allowing stockholders to act by written consent could lead to a disordered state of corporate affairs, distract the Board and management, and impose significant financial and administrative burdens on the Company, with little or no corresponding benefit to stockholders.
- 3. The Company s existing corporate governance practices and policies already ensure stockholder democracy and the accountability of the Board. The Board believes that the adoption of this proposal is ill-advised in light of the sound corporate governance practices and stockholder protections the Company currently has in place. In addition to providing for stockholders—right to call special meetings, the Company has been responsive to stockholder input and enhanced its governance practices and policies over the past several years to ensure the rights of our stockholders and the accountability of the Board, including:

Proxy Access By-law. In early 2016, the Board approved amended and restated By-laws which provide for proxy access. See Director Nominees for Inclusion in Next Year's Proxy Statement (Proxy Access) on page 48. This new by-law permits a stockholder, or a group of stockholders, owning 3% or more of the Company's Common Stock continuously for at least three years to nominate and include in the Company's proxy materials directors constituting up to 25% of the board or two individuals, whichever is greater, provided that the stockholder(s) and nominee(s) satisfy the certain requirements outlined in the By-laws.

<u>Majority Voting in Director Elections</u>. The Company s By-laws provide that, in an uncontested election of directors, a director nominee must receive more for votes than against votes to be elected. Our Corporate Governance Guidelines provide that any incumbent director nominee who fails to receive the requisite number of votes is expected to tender his or her resignation.

<u>Board Declassification</u>. In 2013, the Board recommended and the stockholders approved an amendment to the Company s Certificate of Incorporation to declassify the Board. Each of our directors is now subject to re-election at each annual meeting of stockholders.

No Poison Pill. In 2003, the Company adopted a Rights Plan. That plan expired by its terms on March 5, 2013, and the Company decided not to adopt a new plan or amend the existing one to extend its term.

We believe that our existing corporate governance practices and policies strike the optimal balance between facilitating the monitoring of Board members by stockholders and enabling stockholders to act quickly in support of their interests, while avoiding the governance risk associated with the ability of stockholders to act by written consent.
