EXPLANATORY NOTE

On April 13, 2016, Peabody Energy Corporation, a Delaware corporation (the Company), and a majority of the Company's wholly owned domestic subsidiaries, as well as one international subsidiary in Gibraltar (collectively with the Company, the Debtors), filed voluntary petitions under Chapter 11 of Title 11 of the U.S. Code (the Bankruptcy Code) in the United States Bankruptcy Court for the Eastern District of Missouri (the Bankruptcy Court). The Debtors Chapter 11 cases (collectively, the Chapter 11 Cases) were jointly administered under the caption *In re Peabody Energy Corporation, et al.*, Case No. 16-42529.

On December 22, 2016, the Debtors filed with the Bankruptcy Court a Joint Plan of Reorganization under Chapter 11 of the Bankruptcy Code and a related Disclosure Statement, and, on January 25, 2017, the Debtors filed with the Bankruptcy Court the First Amended Joint Plan of Reorganization and the First Amended Disclosure Statement. On January 27, 2017, the Debtors filed with the Bankruptcy Court the Second Amended Joint Plan of Reorganization (as amended, the Plan) and the Second Amended Disclosure Statement (as amended and hereafter, the Disclosure Statement) to address certain modifications after a hearing before the Bankruptcy Court on January 26, 2017. On January 27, 2017, the Bankruptcy Court entered the Order: (i) Approving Second Amended Disclosure Statement, (ii) Establishing Procedures for Solicitation and Tabulation of Votes to Accept or Reject Second Amended Joint Plan of Reorganization, (iii) Scheduling Hearing on Confirmation of Second Amended Joint Plan of Reorganization and (iv) Approving Related Notice Procedures, which authorized the Debtors to solicit creditors' votes on the Plan. On March 6, 2017 and March 15, 2017, the Debtors filed supplements to the Plan with the Bankruptcy Court.

On March 17, 2017, the Bankruptcy Court entered the Order Confirming Second Amended Joint Plan of Reorganization of Debtors and Debtors in Possession as Revised on March 15, 2017 (the Confirmation Order), which approved and confirmed the Plan. Copies of the Confirmation Order and the Plan were included as exhibits to the Current Report on Form 8-K filed by the Company with the SEC on March 20, 2017.

On April 3, 2017 (the Effective Date), the Debtors satisfied the conditions to effectiveness set forth in the Plan. As a result, the Plan became effective in accordance with its terms, and the Debtors emerged from the Chapter 11 Cases.

For more information on the events that occurred and the securities issued in connection with our emergence from the Chapter 11 Cases, see our Current Report on Form 8-K that was filed with the SEC on April 3, 2017.

Upon emergence in accordance with ASC 852, the Company applied fresh start reporting to its consolidated financial statements as of April 1, 2017 because (i) the reorganization value of the assets of the emerging entity immediately before the date of confirmation was less than the total of all postpetition liabilities and allowed claims and (ii) the holders of the existing voting shares immediately before confirmation received less than 50 percent of the voting shares of the emerging entity. Upon adoption of fresh start reporting, the Company became a new entity for financial reporting purposes reflecting the Successor capital structure. As such, a new accounting basis in the identifiable assets and liabilities assumed was established with no retained earnings or accumulated other comprehensive income (loss) (OCI). This reporting is reflected in the financial information included in the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2017, as filed with the SEC on August 14, 2017.

However, unless otherwise noted or suggested by context, all other financial information and data, and accompanying financial statements and corresponding notes, as of and prior to the Effective Date, as contained in this prospectus supplement or incorporated by reference, reflect the actual historical consolidated results of operations and financial condition of the Company for the periods presented and do not give effect to the Plan or any of the transactions contemplated thereby, or to the adoption of fresh start reporting rules. Accordingly, such financial information may not be representative of our performance or financial condition after the Effective Date. Except with respect to such

historical financial information and data, and accompanying financial statements and corresponding notes, or as otherwise noted or suggested by the context, all other information contained in this prospectus supplement relates to the Company following the Effective Date.

Our Business

We are the world's largest private sector coal company. As of December 31, 2016, we owned interests in 23 coal mining operations located in the United States (the U.S.) and Australia. We have a majority interest in 22 of those mining operations and a 50% equity interest in Middlemount Coal Pty. Ltd., which owns the Middlemount Mine in Queensland, Australia. In addition to our mining operations, we market and broker coal from other coal producers, both as principal and agent, and trade coal and freight-related contracts through trading and business offices in Australia, China, Germany, the United Kingdom and the U.S. (listed alphabetically).

In 2016, we produced and sold 175.6 million and 186.8 million tons of coal, respectively, from continuing operations. During that period, 76% of our total sales (by volume) were to U.S. electricity generators, 21% were to customers outside the U.S. and 3% were to the U.S. industrial sector, with approximately 86% of our worldwide sales (by volume) delivered under long-term contracts.

We conduct business through six operating segments: Australian Metallurgical Mining, Australian Thermal Mining, Midwestern U.S. Mining, Powder River Basin Mining, Western U.S. Mining and Trading and Brokerage.

In 2016, we achieved a global safety incidence rate of 1.22 incidents per 200,000 hours worked, marking a new company record, and a 35% improvement in our global safety performance over the past five years. We were also recognized by the U.S. National Mining Association as the first in the industry to achieve independent certification under the CORESafety® system.

We emerged from our Chapter 11 Cases on April 3, 2017 and our Common Stock began trading on the NYSE under the symbol BTU on April 4, 2017.

Subject to the completion of this offering, we have agreed to purchase from the underwriter shares of our common stock that are subject to this offering having an aggregate value of approximately \$40 million at a price per share equal to the price per share paid by the underwriter to the selling stockholders in this offering. We refer to this repurchase as the share repurchase. We intend to fund the share repurchase with cash on hand. Following the completion of the share repurchase, we will have approximately \$460 million of remaining availability under our repurchase program.

The table below has been prepared based upon information furnished to us by the selling stockholders as of August 14, 2017.

SEC rules generally provide that a person is the beneficial owner of securities if such person has or shares the power to vote or direct the voting thereof, or to dispose or direct the disposition thereof or has the right to acquire such powers within 60 days. Except as disclosed in the footnotes to this table and subject to applicable community property laws, we believe that the selling stockholders identified in the table possess sole voting and investment power over all shares of Common Stock shown as beneficially owned by the selling stockholder.

Table of Contents**PRICE RANGE OF COMMON STOCK; DIVIDEND POLICY**

On April 4, 2017, the Common Stock issued under the Plan began trading on the NYSE under the symbol BTU. No established public trading market existed for the Common Stock prior to April 4, 2017. The following table sets forth, for the periods indicated, the high and low sales price per share of Common Stock as reported by the NYSE:

| | Common Stock Price | |
|--|---------------------------|------------|
| | High | Low |
| Year Ending December 31, 2017: | | |
| Second quarter (beginning April 4, 2017) | \$ 32.50 | \$ 22.58 |
| Third quarter (through August 17, 2017) | \$ 30.95 | \$ 24.37 |

The last reported sale price of our Common Stock on the NYSE on August 17, 2017 was \$27.94 per share. As of August 8, 2017, we had 101,032,485 shares of our Common Stock outstanding. As of June 30, 2017, we had 230 record holders of our Common Stock. The actual number of stockholders is greater than this number of record holders, and includes stockholders who are beneficial owners but whose shares are held in street name by brokers and other nominees.

It is uncertain whether or when we will pay cash dividends or other distributions with respect to our Common Stock. However, on August 1, 2017, we announced that our board of directors has authorized a \$500 million share repurchase program. Repurchases may be made from time to time at our discretion. The specific timing, price and size of repurchases will depend on the share price, general market and economic conditions and other considerations, including compliance with various debt agreements as they may be amended from time to time.

Our ability to declare dividends or repurchase shares will depend on our future financial performance, which in turn depends on the successful implementation of our strategy and on financial, competitive, regulatory, technical and other factors, general economic conditions, demand for and selling prices of coal and other factors specific to our industry, many of which are beyond our control. Restrictive covenants in debt instruments to which we are, or may be, a party may limit our ability to pay dividends or our ability to receive dividends from our operating companies. Our senior secured term loan facility and the indenture governing our outstanding notes limit our ability to pay cash dividends and repurchase shares. In addition, the certificate of designation governing our preferred stock limits our ability to pay cash dividends on or purchase shares of Common Stock above specified thresholds without the consent of holders representing at least a majority of the outstanding shares of the preferred stock.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a general discussion of the U.S. federal income tax considerations related to the acquisition, ownership, and disposition of the Securities by a non-U.S. holder, as defined below, that acquires the Securities pursuant to this offering. This discussion is based on the current provisions of the Internal Revenue Code of 1986, as amended (the Code), applicable Treasury Regulations promulgated thereunder, judicial opinions, and published rulings of the Internal Revenue Service (the IRS), all as in effect on the date of this prospectus supplement and all of which are subject to change or differing interpretations, possibly with retroactive effect, which may result in tax consequences different from those discussed below. We have not sought, and will not seek, any ruling from the IRS or any opinion of counsel with respect to the tax considerations discussed herein, and there can be no assurance that the IRS will not take a position contrary to those discussed below or that any position taken by the IRS will not be sustained.

This discussion does not address all aspects of U.S. federal income taxation that may be relevant to a particular investor in light of the investor's individual circumstances. In addition, this discussion does not address (i) U.S. federal non-income tax laws, such as the gift or estate tax laws, (ii) state, local or non-U.S. tax considerations, (iii) the special tax rules that may apply to certain investors, including, without limitation, banks, insurance companies, financial institutions, controlled foreign corporations, passive foreign investment companies, regulated investment companies, real estate investment trusts, broker-dealers, grantor trusts, personal holding companies, taxpayers who have elected mark-to-market accounting, tax-exempt entities, pension plans, entities or arrangements classified as partnerships for U.S. federal income tax purposes or other pass-through entities or an investor in such entities or arrangements, or U.S. expatriates or former long-term residents of the United States, (iv) the special tax rules that may apply to an investor that acquires, holds, or disposes of the Securities as part of a straddle, hedge, constructive sale, conversion or other integrated transaction, or (v) the effect, if any, of the alternative minimum tax or Medicare contribution tax imposed on net investment income. This discussion assumes that a non-U.S. holder will hold the Securities acquired pursuant to this offering as a capital asset within the meaning of Section 1221 of the Code.

As used in this discussion, the term non-U.S. holder means a beneficial owner of the Securities that is neither a United States person (within the meaning of the Code) nor a partnership (or other entity treated as a partnership for U.S. federal income tax purposes).

The tax treatment of an entity or arrangement treated as a partnership for U.S. federal income tax purposes and each partner thereof will generally depend upon the status and activities of the partnership and such partner. An investor that is treated as a partnership for U.S. federal income tax purposes or a partner in such partnership should consult its own tax advisor regarding the U.S. federal income tax considerations applicable to the partnership's acquisition, ownership and disposition of the Securities.

EACH PROSPECTIVE INVESTOR SHOULD CONSULT ITS OWN TAX ADVISOR WITH RESPECT TO THE PARTICULAR TAX CONSIDERATIONS RELATED TO THE ACQUISITION, OWNERSHIP AND DISPOSITION OF THE SECURITIES, INCLUDING THE APPLICABILITY AND EFFECT OF ANY STATE, LOCAL, AND NON-U.S. TAX LAWS, AS WELL AS U.S. FEDERAL ESTATE AND GIFT TAX LAWS, AND ANY APPLICABLE TAX TREATY.

Distributions on the Securities

As discussed under Price Range of Common Stock; Dividend Policy above, it is uncertain whether or when we will pay cash dividends or other distributions with respect to our Common Stock. If we pay cash or distribute property (other than certain distributions of stock) to non-U.S. holders of the Securities, such distributions generally will

constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Distributions in excess of current and accumulated earnings and profits will constitute a return of capital that will

S-8

Table of Contents

be applied against and reduce (but not below zero) the non-U.S. holder's adjusted tax basis in the Securities. Any remaining excess will be treated as gain from the sale or exchange of the Securities. For a further discussion of the treatment of gain from the sale or exchange of the Securities and distributions treated as a return of capital, see **Gain on Sale, Exchange or Other Taxable Disposition of the Securities** below.

Dividends paid to a non-U.S. holder that are not effectively connected with the non-U.S. holder's conduct of a trade or business in the United States generally will be subject to withholding of U.S. federal income tax at a rate of 30% or such lower rate as may be specified by an applicable income tax treaty. A non-U.S. holder that wishes to claim the benefit of a reduced withholding rate under an applicable income tax treaty generally will be required to submit a properly completed IRS Form W-8BEN or IRS Form W-8BEN-E (or appropriate successor form), as applicable, and certify under penalties of perjury that such non-U.S. holder is not a United States person and is eligible for the benefits of the applicable tax treaty. These forms may need to be periodically updated. If a non-U.S. holder holds the Securities through a financial institution or other intermediary, such non-U.S. holder generally will be required to provide the appropriate documentation to the financial institution or other intermediary.

Dividends that are effectively connected with a non-U.S. holder's conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, attributable to a permanent establishment or fixed base maintained by the non-U.S. holder in the United States), generally are exempt from U.S. federal withholding tax. In order to obtain this exemption, a non-U.S. holder must provide a properly completed IRS Form W-8ECI (or appropriate successor form) certifying such exemption. Such effectively connected dividends, although not subject to U.S. federal withholding tax, are subject to U.S. federal income tax on a net-income basis at the regular graduated U.S. federal income tax rates generally applicable to a United States person. Dividends received by a corporate non-U.S. holder that are effectively connected with such non-U.S. holder's conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, attributable to a permanent establishment or fixed base maintained by the non-U.S. holder in the United States) may be subject to an additional branch profits tax at a 30% rate (or such lower rate as may be specified by an applicable income tax treaty).

Gain on Sale, Exchange or Other Taxable Disposition of the Securities

Subject to the discussion below regarding backup withholding and the Foreign Account Tax Compliance provisions of the Hiring Incentives to Restore Employment Act and Treasury Regulations promulgated thereunder, commonly referred to as FATCA, any gain recognized by a non-U.S. holder on a sale, exchange or other taxable disposition of the Securities generally will not be subject to U.S. federal income or withholding tax unless:

the gain is effectively connected with the conduct of a trade or business of the non-U.S. holder in the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment or fixed base maintained by the non-U.S. holder in the United States),

the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of such disposition, and certain other conditions are met, or

we are or have been a United States real property holding corporation for U.S. federal income tax purposes (a USRPHC) at any time during the shorter of the five-year period ending on the date of disposition and the period that the non-U.S. holder held our Common Stock, the non-U.S. holder is not eligible for an exemption

under an applicable income tax treaty and either (i) our Common Stock ceases to be regularly traded on an established securities market or (ii) such non-U.S. holder held more than 5% of our Common Stock at any time during the relevant period (as described below).

Gain that is described in the first bullet point above generally will be subject to U.S. federal income tax at the regular graduated U.S. federal income tax rates generally applicable to a United States person. A non-U.S. holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty).

Table of Contents

A non-U.S. holder described in the second bullet point above generally will be subject to U.S. federal income tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on any gain derived from the sale, exchange or other taxable disposition, which may be offset by certain U.S.-source capital losses of the non-U.S. holder.

With respect to the third bullet point above, a U.S. corporation generally is a USRPHC if the fair market value of its U.S. real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests and its other assets used or held for use in a trade or business. We expect, although it is not free from doubt, that we are likely a USRPHC. Assuming we are a USRPHC, subject to the next sentence, a non-U.S. holder generally will be taxed on gain recognized on the sale, exchange or other taxable disposition of the Securities in the same manner as if such non-U.S. holder were a United States person (subject to an applicable income tax treaty providing otherwise) and/or a 15% withholding tax will apply to the gross proceeds from the sale, exchange or other taxable disposition of the Securities (including a redemption treated as a sale or exchange for U.S. federal income tax purposes or a distribution treated as a return of capital, as described under Distributions on the Securities above). However, if and so long as our Common Stock continues to be regularly traded on an established securities market, as defined by applicable Treasury Regulations, the 15% withholding tax on gross proceeds will not apply and a non-U.S. holder generally will not be subject to U.S. federal income tax with respect to such gain as a result of us being or having been a USRPHC if such non-U.S. holder held, directly or constructively (by application of certain attribution rules), at all times during the shorter of the five-year period ending on the date of disposition or the non-U.S. holder's holding period for the Securities, 5% or less of our Common Stock. Our Common Stock is currently listed on the NYSE and we believe that, for as long as our Common Stock continues to be so listed, the Common Stock will be treated as regularly traded on an established securities market.

Non-U.S. holders are urged to consult their own tax advisors regarding the potential applicability of these rules as well as any income tax treaty in their particular circumstances.

Information Reporting and Backup Withholding

The amount of dividends paid to a non-U.S. holder on the Securities and the tax, if any, withheld with respect to those dividends generally must be reported annually to the IRS and to such non-U.S. holder of the Securities. Copies of the information returns reporting those dividends and withholding may also be made available to the tax authorities in the country in which the non-U.S. holder is a resident under the provisions of an applicable income tax treaty or agreement. Information reporting also is generally required with respect to the proceeds from sales and other dispositions of the Securities to or through the U.S. office (and in certain cases, the foreign office) of a broker, unless the non-U.S. holder establishes that it is not a United States person.

Under some circumstances, Treasury Regulations require backup withholding currently at a rate of 28%, on reportable payments with respect to the Securities. A non-U.S. holder generally may eliminate the requirement for U.S. federal backup withholding by providing certification of its foreign status, under penalties of perjury, on a duly executed applicable IRS Form W-8BEN or IRS Form W-8BEN-E (or appropriate successor form) or by otherwise establishing an exemption. Notwithstanding the foregoing, U.S. federal backup withholding may apply if the payor has actual knowledge, or reason to know, that the non-U.S. holder is a United States person. Backup withholding is not an additional tax. Rather, the amount of any U.S. federal backup withholding generally will be allowed as a credit against a non-U.S. holder's U.S. federal income tax liability, if any, and may entitle such non-U.S. holder to a refund, provided that certain required information is timely furnished to the IRS. Non-U.S. holders are urged to consult their own tax advisors regarding the application of backup withholding and the availability of and procedure for obtaining an exemption from backup withholding in their particular circumstances.

FATCA Withholding

FATCA will impose a U.S. federal withholding tax of 30% on certain types of payments, including U.S.-source dividends and gross proceeds from the sale or other disposition of securities that can produce U.S.-source dividends made to (i) foreign financial institutions, unless they agree to collect and disclose to the IRS information regarding their direct and indirect U.S. account holders, or are otherwise eligible for an exemption, and (ii) certain non-financial foreign entities, unless they certify certain information regarding their direct and indirect U.S. owners, or are otherwise eligible for an exemption. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules. The withholding obligations described above generally will apply to payments of U.S.-source dividends made with respect to the Securities, and to payments of gross proceeds from a sale or other disposition of the Securities occurring on or after January 1, 2019. Non-U.S. holders are urged to consult their own tax advisors regarding FATCA and the application of these requirements to any investment in the Securities.

We will not pay any additional amounts to non-U.S. holders with respect to any amounts withheld, including pursuant to FATCA.

UNDERWRITING

Under the terms and subject to the conditions contained in an underwriting agreement dated August 17, 2017, the selling stockholders have agreed to sell to Credit Suisse Securities (USA) LLC, acting as underwriter, 12,800,000 shares of Common Stock. Subject to the terms and conditions set forth in the underwriting agreement, the underwriter has agreed to purchase all the shares of Common Stock sold under the underwriting agreement if any of these shares are purchased.

Subject to the completion of this offering, we have agreed to purchase from the underwriter shares of our common stock that are subject to this offering having an aggregate value of approximately \$40 million at a price per share equal to the price paid by the underwriter to the selling stockholders in this offering.

The underwriter may receive from purchasers of the shares of Common Stock normal brokerage commissions in an amount agreed upon with such purchasers.

The underwriter proposes to offer the Securities offered hereby from time to time for sale in one or more transactions on the NYSE, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices, subject to receipt and acceptance by the underwriter and subject to approval of legal matters by its counsel, including the validity of the Securities, and other conditions contained in the underwriting agreement, such as the receipt by the underwriter of officer's certificates and legal opinions. The underwriter reserves the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part. The underwriter may effect such transactions by selling the Securities to or through dealers and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriter and/or purchasers of Securities for whom they may act as agents or to whom they may sell as principal.

The underwriter has agreed to purchase the Securities from the selling stockholders at a price of \$27.10 per share, which will result in approximately \$346.9 million of proceeds, before expenses, to the selling stockholders.

We estimate that our out of pocket expenses for this offering will be approximately \$900,000. We have also agreed to reimburse the underwriter for certain expenses related to the offering in an amount up to \$35,000.

We have agreed that we will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act relating to, any shares of our Common Stock or securities convertible into or exchangeable or exercisable for any shares of our Common Stock, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing, without the prior written consent of the underwriter for a period of 90 days after the date of this prospectus supplement.

Our officers and directors and the selling stockholders have agreed, subject to certain exceptions, that for a period of 90 days after the date of this prospectus supplement they will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any shares of our Common Stock or securities convertible into or exchangeable or exercisable for any shares of our Common Stock, enter into a transaction that would have the same effect, or enter into any swap, hedge or other arrangement that transfers, in whole or in part, any of the economic consequences of ownership of our Common Stock, whether any of these transactions are to be settled by delivery of our Common Stock or other securities, in cash or otherwise, or publicly disclose the intention to make any offer, sale, pledge or disposition, or to enter into any transaction, swap, hedge or other arrangement, without, in each case, the prior written consent of the underwriter.

We and the selling stockholders have agreed to indemnify the underwriter and certain of its controlling persons against liabilities under the Securities Act and to contribute to payments that the underwriter may be required to make in respect of those liabilities.

S-12

Table of Contents

The shares of Common Stock are listed on the NYSE under the symbol BTU.

In connection with the offering the underwriter may engage in stabilizing transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Exchange Act.

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Syndicate covering transactions involve purchases of the Common Stock in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of shares to close out the short position, the underwriter will consider, among other things, the price of shares available for purchase in the open market. If the underwriter sells more shares than could be covered by the shares sold in the offering, a naked short position, the position can only be closed out by buying shares in the open market. A naked short position is more likely to be created if the underwriter is concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

Penalty bids permit the underwriter to reclaim a selling concession from a syndicate member when the Common Stock originally sold by the syndicate member is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our Common Stock or preventing or retarding a decline in the market price of the Common Stock. As a result the price of our Common Stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on NYSE or otherwise and, if commenced, may be discontinued at any time.

A prospectus supplement in electronic format may be made available on the web sites maintained by the underwriter, or selling group members, if any, participating in this offering and the underwriter may distribute prospectus supplements electronically. The underwriter may agree to allocate a number of shares to selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriter and selling group members that will make internet distributions on the same basis as other allocations.

Other Relationships

The underwriter and its affiliates are full-service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriter and its affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for us, for which they received or will receive customary fees and expenses. In particular, the underwriter or its affiliates act as lenders and/or agents under our senior secured term loan facility.

In addition, in the ordinary course of their business activities, the underwriter and its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. These investments

and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriter and its affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

EXPLANATORY NOTE

On April 13, 2016, Peabody Energy Corporation, a Delaware corporation (the Company), and a majority of the Company's wholly owned domestic subsidiaries, as well as one international subsidiary in Gibraltar (collectively with the Company, the Debtors), filed voluntary petitions under Chapter 11 of Title 11 of the U.S. Code (the Bankruptcy Code) in the United States Bankruptcy Court for the Eastern District of Missouri (the Bankruptcy Court). The Debtors Chapter 11 cases (collectively, the Chapter 11 Cases) were jointly administered under the caption *In re Peabody Energy Corporation, et al.*, Case No. 16-42529.

On December 22, 2016, the Debtors filed with the Bankruptcy Court a Joint Plan of Reorganization under Chapter 11 of the Bankruptcy Code and a related Disclosure Statement, and, on January 25, 2017, the Debtors filed with the Bankruptcy Court the First Amended Joint Plan of Reorganization and the First Amended Disclosure Statement. On January 27, 2017, the Debtors filed with the Bankruptcy Court the Second Amended Joint Plan of Reorganization (as amended, the Plan) and the Second Amended Disclosure Statement (as amended and hereafter, the Disclosure Statement) to address certain modifications after a hearing before the Bankruptcy Court on January 26, 2017. On January 27, 2017, the Bankruptcy Court entered the Order: (i) Approving Second Amended Disclosure Statement, (ii) Establishing Procedures for Solicitation and Tabulation of Votes to Accept or Reject Second Amended Joint Plan of Reorganization, (iii) Scheduling Hearing on Confirmation of Second Amended Joint Plan of Reorganization and (iv) Approving Related Notice Procedures, which authorized the Debtors to solicit creditors' votes on the Plan. On March 6, 2017 and March 15, 2017, the Debtors filed supplements to the Plan with the Bankruptcy Court.

On March 17, 2017, the Bankruptcy Court entered the Order Confirming Second Amended Joint Plan of Reorganization of Debtors and Debtors in Possession as Revised on March 15, 2017 (the Confirmation Order), which approved and confirmed the Plan. Copies of the Confirmation Order and the Plan were included as exhibits to the Current Report on Form 8-K filed by the Company with the SEC on March 20, 2017.

Our Business

We are the world's largest private sector coal company. As of December 31, 2016, we owned interests in 23 coal mining operations located in the United States (the U.S.) and Australia. We have a majority interest in 22 of those mining operations and a 50% equity interest in Middlemount Coal Pty. Ltd., which owns the Middlemount Mine in Queensland, Australia. In addition to our mining operations, we market and broker coal from other coal producers, both as principal and agent, and trade coal and freight-related contracts through trading and business offices in Australia, China, Germany, the United Kingdom and the U.S. (listed alphabetically).

In 2016, we produced and sold 175.6 million and 186.8 million tons of coal, respectively, from continuing operations. During that period, 76% of our total sales (by volume) were to U.S. electricity generators, 21% were to customers outside the U.S. and 3% were to the U.S. industrial sector, with approximately 86% of our worldwide sales (by volume) delivered under long-term contracts.

We conduct business through six operating segments: Australian Metallurgical Mining, Australian Thermal Mining, Midwestern U.S. Mining, Powder River Basin Mining, Western U.S. Mining and Trading and Brokerage.

In 2016, we achieved a global safety incidence rate of 1.22 incidents per 200,000 hours worked, marking a new company record, and a 35% improvement in our global safety performance over the past five years. We were also recognized by the U.S. National Mining Association as the first in the industry to achieve independent certification under the CORESafety® system.

Our Corporate Governance Guidelines and each of the charters of the Board's committees are available on the Corporate Governance page under the Investors section of our website at: www.peabodyenergy.com. 2017 Incentive Plan

All of our outstanding equity awards were canceled as of the Effective Date. The Board adopted the Peabody Energy Corporation 2017 Incentive Plan (the 2017 Incentive Plan) on March 7, 2017. In connection with the Effective Date, we granted restricted stock units under the 2017 Incentive Plan to employees, including our executive officers. On May 2, 2017 we granted deferred stock units under the 2017 Incentive Plan to non-employee directors.

General

The 2017 Incentive Plan is intended to help attract and retain employees, consultants and directors upon whom, in large measure, we depend for sustained progress, growth and profitability. By encouraging employees, consultants and directors of the Company and our subsidiaries to acquire a proprietary interest in the Company's growth and performance, we intend to motivate employees, consultants and directors to achieve Company goals and to more closely align such persons' interests with those of the Company's other shareholders.

Table of Contents

The 2017 Incentive Plan generally provides for the following types of awards:

options (including non-qualified stock options and incentive stock options);

stock appreciation rights (SARs);

restricted stock;

restricted stock units (RSUs);

deferred stock;

performance units;

dividend equivalents; and

cash incentive awards.

Unless otherwise determined by the Board, the Compensation Committee of the Board (the Committee) will administer the 2017 Incentive Plan. The Committee shall determine who shall be granted awards under the 2017 Incentive Plan, the types of awards to be granted and the terms of each award. The Committee is authorized to interpret the 2017 Incentive Plan and any award agreement, and may generally amend any award agreement. Generally, all determinations of the Committee will be final, conclusive and binding.

Subject to certain adjustments described in the 2017 Incentive Plan, 14,092,376 shares of Common Stock are reserved for issuance under the 2017 Incentive Plan. To the extent an award under the 2017 Incentive Plan is forfeited or otherwise terminates without the delivery of shares, or shares already granted are returned in connection with the forfeiture or termination of an award, any shares subject to such award, or any shares returned, will be available for issuance under the 2017 Incentive Plan. Certain shares will not again be available for issuance under the 2017 Incentive Plan: (1) shares withheld to pay the option price of an option; (2) shares not issued in connection with a stock-settled SAR; (3) shares purchased on the open market with option proceeds; and (4) any shares used to satisfy tax withholding obligations. Shares delivered pursuant to the 2017 Incentive Plan may be authorized and unissued shares or treasury shares, including shares repurchased by the Company for purposes of the 2017 Incentive Plan.

Certain additional limits apply to the granting of awards:

Qualified Performance-Based Awards. The Committee may grant awards that are intended to satisfy the requirements for qualified performance-based compensation (Qualified Performance-Based Awards) under Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), as described below under Qualified Performance-Based Awards. The following limitations (subject to certain adjustments) apply to Qualified Performance-Based Awards:

During any one calendar year, no grantee may be granted awards for stock options and/or SARs with respect to more than 1,000,000 shares.

During any one calendar year, no grantee may be granted Qualified Performance Based Awards in the form of restricted stock, deferred stock, restricted stock units, performance units and/or any other award (other than an award of stock options or SARs), which is determined by reference to the value of shares or appreciation in the value of shares, with respect to a number of shares exceeding 1,000,000 shares.

During any one calendar year, no grantee may be granted Qualified Performance Based Awards in the form of cash incentive awards that have a performance period with a duration of up to one calendar year that have an aggregate maximum payout which could exceed \$5,000,000. During any one calendar year, no grantee may be granted Qualified Performance Based Awards in the form of cash incentive awards that have a performance period with a duration of longer than one calendar year that have an aggregate maximum payout which could exceed \$15,000,000.

Table of Contents

Directors. The maximum number of shares subject to awards that may be granted to a non-employee member of the Board in any calendar year taken together with any cash fees paid to such non-employee director during the year, cannot exceed \$600,000 in total value (calculating the value of any such awards based on the grant date fair value of such awards for financial reporting purposes).

Awards

Awards may be granted to employees of and consultants to the Company or a subsidiary of the Company, and to members of the Board. Each award under the 2017 Incentive Plan will be evidenced by an award agreement in a form approved by the Board or the Committee.

Options. The 2017 Incentive Plan permits the grant of options. The Committee may make option grants containing such terms as the Committee shall determine, including whether the options granted are incentive stock options (as provided under Section 422 of the Code) or non-qualified stock options and vesting provisions that may or may not be subject to the achievement of specified performance goals. Subject to exceptions as provided in the 2017 Incentive Plan, no portion of an option will vest less than one year following the grant date. Options generally must have an exercise price that is not less than the fair market value of our Common Stock on the date of grant. The term of an option may not exceed 10 years. No dividend equivalents may be granted in connection with an option.

Stock Appreciation Rights. The 2017 Incentive Plan permits the grant of SARs. The Committee may make grants of SARs containing such terms as the Committee shall determine. Subject to exceptions provided in the 2017 Incentive Plan, no portion of an SAR will vest less than one year following the grant date. The strike price of a SAR generally may not be less than 100% of the fair market value of our Common Stock on the date of the grant. The term of a SAR may not exceed 10 years. No dividend equivalents may be granted in connection with an SAR.

Restricted Stock. The 2017 Incentive Plan permits the grant of shares of restricted stock. A share of restricted stock is a share of our Common Stock that is subject to restrictions. Vesting may be time-based, performance-based, or based on the occurrence of a specified event, as determined by the Committee. The Committee will determine the amount, if any, that a grantee will pay in exchange for an award of restricted stock. If restricted stock is forfeited, and if the grantee was required to pay for such shares or acquired such restricted stock upon the exercise of an option, the grantee is deemed to have resold such restricted stock to us at a price equal to the lesser of (a) the amount paid by the grantee for such restricted stock or the exercise price of the option, as applicable, and (b) the fair market value of the restricted stock on the date of forfeiture.

Restricted Stock Units. The 2017 Incentive Plan permits the grant of RSUs. An RSU represents the right to receive a certain number of shares of our Common Stock or cash equal to a certain number of shares of our Common Stock. Vesting may be time-based, performance-based, or based on the occurrence of a specified event, as determined by the Committee. If provided in an award agreement, whenever dividends are paid or distributions are made with respect to shares, dividend equivalents may be credited to RSU accounts in the form of additional RSUs or cash, and such dividend equivalents will be subject to the same vesting conditions as otherwise apply to the RSUs to which they relate.

Deferred Stock. The 2017 Incentive Plan permits the grant of deferred stock. The Committee may make grants of deferred stock upon such terms as it shall determine. No voting rights may attach to deferred stock. In addition, the Committee may determine that the delivery of Common Stock or the payment of cash, upon the exercise, vesting or settlement of all or a portion of any award (other than a cash incentive award) may be deferred and may establish programs and procedures for deferral elections to be made by grantees. The Committee may provide for distributions while a grantee is still an employee or otherwise providing services to us. The Committee is authorized to make

deferrals of awards (other than cash incentive awards) and to determine when, and in what annual percentages, grantees may receive payments, including lump sum payments, following the grantee's termination of service, and to implement such other terms and conditions allowed by the 2017 Incentive Plan and applicable law.

Table of Contents

Performance Units. The 2017 Incentive Plan permits the grant of performance units. The Committee may make grants of performance units containing such terms as it shall determine, consistent with the terms of the 2017 Incentive Plan. The Committee will set performance goals that, depending on the extent to which they are met during a performance period, will determine the number or value of performance units that will be paid to the grantee. At the discretion of the Committee, and subject to the terms of the 2017 Incentive Plan, a grantee may be entitled to receive dividends or dividend equivalents declared with respect to shares deliverable in connection with the grant of performance units which have been earned, but not yet delivered to the grantee.

Cash Incentive Awards. The 2017 Incentive Plan permits the grant of cash incentive awards containing such terms, including performance goals, as the Committee shall determine. Cash incentive awards will be evidenced by award agreements specifying the individual's incentive opportunity, the performance goals, and such other terms consistent with the 2017 Incentive Plan, as the Committee determines.

Certain Other Terms and Conditions

Qualified Performance-Based Awards. The 2017 Incentive Plan permits the grant of stock-based awards and cash incentive awards, that are intended to satisfy the requirements for qualified performance-based compensation under Section 162(m) of the Code. The 2017 Incentive Plan includes a list of objective performance criteria upon which the Committee must condition the grant or vesting of awards of restricted stock, restricted stock units, deferred stock, shares, performance units, or cash incentive awards (or any portion of any such award) that are intended to be Qualified Performance-Based Awards under the 2017 Incentive Plan.

Plan Amendment or Termination. The Board generally may amend, alter, suspend, discontinue or terminate the 2017 Incentive Plan in whole or in part at any time. Certain amendments, however, will be contingent upon the approval of our stockholders when so required by law, and any amendment or termination will not accelerate the timing of any payments that constitute deferred compensation under Section 409A of the Code unless such acceleration of payment is permitted by the Section 409A of the Code. Subject to the foregoing, the Committee generally may amend the 2017 Incentive Plan and outstanding awards at any time, but no such amendment may materially impair the rights of any grantee under any award previously granted without such grantee's consent, and any such amendment will be subject to the approval of the Board. In certain limited circumstances set forth in the 2017 Incentive Plan, the Board may amend the 2017 Incentive Plan and outstanding awards without the grantee's consent.

The foregoing description of the 2017 Incentive Plan is qualified in its entirety by reference to the full text of the 2017 Incentive Plan, which is filed as Exhibit 4.6 to the registration statement on Form S-8 filed with the SEC on April 3, 2017 and is included as Exhibit 10.40 to the Registration Statement of which this prospectus forms a part.

Table of Contents**PRINCIPAL AND SELLING STOCKHOLDERS**

The following tables set forth information regarding the beneficial ownership of our Securities by:

all stockholders known by us to hold more than 5% of either of our outstanding shares of Common Stock or Preferred Stock, as well as the selling stockholders;

each of our directors and named executive officers; and

all of our directors and executive officers as a group.

The table below has been prepared based upon information available to us or furnished to us by the selling stockholders as of June 30, 2017. The selling stockholders identified below may have exercised or converted, or sold, transferred or otherwise disposed of, some or all of their Securities since the date on which the information in the following table is presented, in transactions exempt from or not subject to the registration requirements of the Securities Act.

SEC rules generally provide that a person is the beneficial owner of securities if such person has or shares the power to vote or direct the voting thereof, or to dispose or direct the disposition thereof or has the right to acquire such powers within 60 days. In the table below, Common Stock issuable upon the conversion of Preferred Stock that is currently convertible, or convertible within 60 days of June 30, 2017, is deemed to be outstanding and beneficially owned for purposes of calculating the beneficial and percentage ownership of the person holding such Securities, but is not deemed outstanding for computing the percentage ownership of any other person. Shares subject to outstanding equity awards, including those granted in connection with our emergence from the Chapter 11 Cases, are not considered beneficially owned and are not deemed outstanding for the purposes of computing the percentage of Common Stock owned until 60 days prior to the date on which such shares may be acquired. Percentage of ownership is based on 100,223,701 shares of Common Stock and 18,452,402 shares of Preferred Stock outstanding. Stockholders beneficial ownership after the offering assumes that the selling stockholders sell all of the Securities held by them that have been registered by us and do not sell any securities of the Company held by them that are not registered or acquire any additional securities of the Company. Securities registered pursuant to the Registration Statement of which this prospectus is a part are not required to be sold, and such registration does not necessarily indicate that the stockholder intends to sell such Securities. Except as disclosed in the footnotes to these tables beginning on page 26, we believe that each stockholder identified in the table possesses sole voting and investment power over all shares of Securities shown as beneficially owned by the stockholder. Unless otherwise indicated in the table or footnotes below, the address for each director and named executive officer is c/o Peabody Energy Corporation, 701 Market Street, St. Louis, Missouri 63101-1826.

Under a written policy adopted by the Board, the Nominating and Corporate Governance Committee is responsible for reviewing and approving all transactions between us and certain related persons, such as our executive officers, directors and owners of more than 5% of our voting securities. In reviewing a transaction, the Nominating and Corporate Governance Committee considers the relevant facts and circumstances, including the benefits to us, any impact on director independence and whether the terms are consistent with a transaction available on an arms-length basis. Only those related person transactions that are determined to be in (or not inconsistent with) our best interests and the best interests of our stockholders are permitted to be approved. No Committee member may participate in any review of a transaction in which the member or any of his or her family members is the related person. A copy of the policy can be found on our website (www.peabodyenergy.com) by clicking on Investor Info, then Corporate Governance, and then Governance Documents, and is available in print to any stockholder who requests it. Information on our website is not considered part of this prospectus or the Registration Statement of which this prospectus is a part.

Related person transactions for the last three fiscal years are described below.

| Transaction | Description of Relationship |
|-------------------------------|--|
| Registration Rights Agreement | On the Effective Date, we entered into the Registration Rights Agreement with certain of our pre-emergence creditors that received Securities on the Effective Date (together with any person or entity that becomes a party to the Registration Rights Agreement, the Holders), as provided in the Plan. The Registration Rights Agreement provides resale registration rights for the Holders Registrable Securities (as defined in the Registration Rights Agreement). |

Pursuant to the Registration Rights Agreement, we are required to file a Shelf Registration Statement (as defined in the Registration Rights Agreement) with respect to the Registrable Securities within 30 days of the Effective Date. The Registration Statement, of which this prospectus forms a part, that we have filed with the SEC has fulfilled this requirement. We are required to maintain the effectiveness of any such registration statement until the Registrable Securities covered by the registration statement have been disposed of or are no longer Registrable Securities.

In addition, if there is no Shelf Registration Statement, or if the Registrable Securities cannot be sold under the Shelf Registration Statement, the Holders have the right to demand that the Company effect the registration of any or all of the Registrable Securities (a Demand Registration). We are not obligated to effect more than four Demand Registrations in any twelve-month period, and we need not comply with such a request unless the aggregate gross proceeds from such a sale will exceed \$25 million.

Holders also have customary underwritten offering and piggyback registration rights, subject to the limitations set forth in the Registration Rights Agreement. Under their underwritten offering registration rights, certain Holders have certain rights to demand that we effectuate the distribution of any or all of their Registrable Securities by means of an underwritten offering pursuant to a shelf takedown. We are not obligated to effect an underwritten offering within 90 days after the consummation of a previous underwritten offering.

These registration rights are subject to certain conditions and limitations, including the right of the underwriters to limit the number of shares to be included in a registration statement and our right to delay or withdraw a registration statement under certain circumstances. We will generally pay all registration expenses in connection with our obligations under the Registration Rights Agreement, regardless of whether a registration statement is filed or becomes effective. The registration rights granted in the Registration Rights Agreement are

subject to customary indemnification and contribution provisions, as well as customary restrictions such as blackout periods and, if an underwritten offering is contemplated, limitations on the number of shares to be included in the underwritten offering that may be imposed by the managing underwriter.

No separate review of this transaction was performed by the Nominating and Corporate Governance Committee as it was a requirement of the Plan.

Joy Global Inc. Michael W. Sutherlin was elected to the Board on January 22, 2014. He served as the President and Chief Executive Officer of Joy Global Inc., a mining equipment and services provider, from 2006 to December 2013 and continued as an employee of Joy through January 31, 2014. We purchase mining equipment and services from Joy and its subsidiaries in the ordinary course of our business. Mr. Sutherlin, given his previous position as President and Chief Executive Officer of Joy, may be deemed to have been a related party with an indirect material interest in these transactions. During 2013, we paid Joy and its subsidiaries approximately \$81.3 million for mining equipment and services. The Nominating and Corporate Governance Committee reviewed and ratified these transactions under our related persons transactions policy at the time that Mr. Sutherlin was elected to the Board.

DESCRIPTION OF CAPITAL STOCK

Below, we have summarized the material terms of our Fourth Amended and Restated Certificate of Incorporation (Charter), the Certificate of Designation attached thereto, and our Amended and Restated Bylaws (Bylaws) and relevant sections of the Delaware General Corporation Law (the DGCL). The summaries below are not intended to be complete and are subject to and qualified in their entirety by our full Charter and Bylaws, copies of which have been filed as exhibits to our registration statement on Form 8-A dated April 3, 2017 and are incorporated by reference into the Registration Statement of which this prospectus is a part, and by the applicable provisions of the DGCL.

Authorized Capital

We have the authority to issue a total of 450,000,000 shares of Common Stock, par value \$0.01 per share, 100,000,000 shares of preferred stock, par value \$0.01 per share, of which 50,000,000 are designated as Preferred Stock, and 50,000,000 shares of series common stock, par value \$0.01 per share.

The Board of Directors is granted authority to issue both preferred stock and series common stock of one or more series and in connection with the creation of any such series to fix by the resolution or resolutions providing for the issue of shares, any designation, voting powers, preferences and relative, participating, optional, or other special rights of such series, and the qualifications, limitations or restrictions attaching thereto.

We may not issue non-voting equity securities; provided, however, that such restriction shall (a) not apply beyond what is required under Section 1123(a)(6) of the Bankruptcy Code, (b) only have such force and effect for so long as Section 1123 of the Bankruptcy Code is in effect and applicable to us, and (c) in all events may be amended or eliminated in accordance with applicable law.

Preferred Stock

Series A Convertible Preferred Stock

Our outstanding Preferred Stock accrues dividends at a rate of 8.5% per annum, payable in kind semi-annually on April 30 and October 31 of each year as additional shares of Preferred Stock. Our Preferred Stock will also participate on an as-converted basis (giving effect to any accrued and unpaid dividends) in any dividend, distribution or payments to holders of Common Stock. If we liquidate, dissolve or wind up, whether voluntarily or involuntarily, the holders of Preferred Stock are granted \$25.00 per share of Preferred Stock, plus any accrued but unpaid dividends through the date of liquidation. They may also participate on an as-converted basis in any payments upon liquidation payable to the holders of Common Stock.

The Preferred Stock shall be convertible into Common Stock at any time, at the option of the holders at an initial conversion price of \$16.25, representing a discount of 35% to the equity value assigned to the Common Stock by the Plan (subject to customary any-dilution adjustments, the Conversion Price). If at any time following the Effective Date, less than 7,500,000 shares of Preferred Stock remain outstanding, then the Company shall have the right, but not the obligation, to redeem all (but not less than all) of the remaining shares of Preferred Stock, following thirty days notice, and on no more than 60 days notice, at a redemption price equal to \$25 per share of Preferred Stock, payable in cash or shares of Common Stock at our election, subject to certain adjustments; provided that the Company shall not redeem any shares of Preferred Stock for cash during any time that any obligations under our senior secured term loan facility entered into on April 3, 2016 remain outstanding. At any time following the Effective Date, if holders of at least 66 2/3% of the Preferred Stock elect to convert, then all remaining outstanding Preferred Stock will automatically convert at the same time and on the same terms.

In addition, beginning on the Effective Date, each outstanding share of Preferred Stock shall automatically convert into a number of shares of Common Stock at the Conversion Price (such conversion, the Mandatory

Table of Contents

Conversion) if the volume weighted average price of the Common Stock exceeds \$32.50 (the Conversion Threshold) for at least 45 trading days in a 60 consecutive trading day period, including each of the last 20 days in such 60 consecutive trading day period (such period, the Mandatory Conversion Period). Notwithstanding the foregoing, during the first 45 trading days after the Effective Date, a Mandatory Conversion will be deemed to have occurred if the volume weighted average price of Common Stock exceeds \$37.50 for at least 10 trading days in a 20 consecutive day trading period, including each of the last 5 days of the 10 trading days when the threshold is achieved.

Finally, the Preferred Stock shall automatically convert into shares of Common Stock immediately prior to the consummation of a Fundamental Change (as defined below) if either (1) at consummation of the Fundamental Change, the price of the Common Stock exceeds the Conversion Threshold, or (2) the consideration payable in the Fundamental Change per share of Common Stock exceeds the Conversion Threshold and is payable in cash.

For purposes of the Preferred Stock, our Certificate of Designation defines a Fundamental Change as a transaction in which the Company consolidates with, or merges with or into, or enters into any other business combination with, another person or sells, assigns, conveys, transfers, leases or otherwise disposes of all or substantially all of its and its subsidiaries assets to any person, or any person consolidates or combines with, or merges with or into, the Company, in which such consolidation, combination, or merger the outstanding voting capital stock of the Company is converted into or exchanged for cash, securities or other property; provided, however, for purposes of mandatory conversions, following such transaction the holders of Common Stock immediately prior to such transaction do not own more than 50% of the common equity of the company surviving such business combination transaction or to which such assets are transferred or do not own the common equity in the company surviving such business combination substantially in the same relative proportions as their respective interests in the Common Stock.

Upon any optional or mandatory conversion of the Preferred Stock that occurs on or prior to the three year anniversary of their initial issuance, holders of the Preferred Stock will be deemed to have (1) received dividends through the last payment of dividends prior to the conversion, including dividends received on prior dividends, to the extent accrued and not previously paid; and (2) dividends on the shares of Preferred Stock then outstanding and any shares deemed issued pursuant to the preceding clause accruing from the last dividend date preceding the date of the conversion through, but not including, the three year anniversary of their initial issuance, and all dividends on prior dividends. In respect of an optional or mandatory conversion occurring after the three year anniversary of their initial issuance, there shall be deemed to have been issued in respect of all shares of Preferred Stock at the time outstanding (1) dividends through the date of payment of the dividend immediately preceding the date of the conversion, including dividends on such dividends, to the extent accrued and not previously paid, and (2) dividends on (a) the shares of Preferred Stock at the time outstanding and (b) any shares of Preferred Stock deemed issued pursuant to the preceding clause (1) accruing from the date of payment of the dividend immediately preceding the conversion, through, but not including, the date of conversion and all dividends on such dividends.

There are no restrictions on the repurchase or redemption of the Preferred Stock while there is any arrearage in the payment of dividends.

Table of Contents

The Preferred Stock votes with the Common Stock as a single class on an as-converted basis on all matters submitted to a vote of the holders of Common Stock with the exception of:

any issuance of Preferred Stock other than paid-in-kind dividends;

any increase in the authorized amount of the Preferred Stock;

the authorization of any class of equity ranking senior to or on par with the Preferred Equity;

any amendment to the terms of the Preferred Stock, which approval shall require the affirmative vote of 2/3 of the outstanding Preferred Equity;

any Fundamental Change requiring approval of the holders of Common Stock;

any liquidation or winding-up; and

authorization of dividends on Common Stock in excess of \$100 million payable in any 12-month period.

On these matters, the holders of Preferred Stock are entitled to vote as a separate class with a majority vote required for approval.

Holders of Preferred Stock are also signatories to the Registration Rights Agreement described under *Certain Relationships and Related Party Transactions* above.

Other Preferred Stock

As of the date hereof, no other series of preferred stock is outstanding. Our Charter provides that our Board may, by resolution, establish one or more classes or series of preferred stock having the number of shares and relative voting rights, designations, dividend rates, liquidation and other rights, preferences and limitations (subject to the rights of the Preferred Stock) as may be fixed by them without further stockholder approval. The holders of our preferred stock may be entitled to preferences over common stockholders with respect to dividends, liquidation, dissolution or our winding up in such amounts as are established by the resolutions of our Board approving the issuance of such shares.

The issuance of preferred stock may have the effect of delaying, deferring or preventing a change in control without further action by the holders and may adversely affect voting and other rights of holders of our Securities. In addition, issuance of preferred stock, while providing desirable flexibility in connection with possible acquisitions and other corporate purposes, could make it more difficult for a third party to acquire a majority of the outstanding shares of voting stock.

Series Common Stock

As of the date hereof, no series common stock is outstanding. Our Charter provides that our Board may, by resolution, establish one or more classes or series of common stock having the number of shares and relative voting rights, designations, dividend rates, liquidation and other rights, preferences and limitations as may be fixed by them without further stockholder approval. The holders of our series common stock may be entitled to preferences over Common Stockholders and holders of preferred stock with respect to dividends, liquidation, dissolution or our winding up in such amounts as are established by the resolutions of our Board approving the issuance of such shares.

The issuance of series common stock may have the effect of delaying, deferring or preventing a change in control without further action by the holders and may adversely affect voting and other rights of holders of our Securities. In addition, issuance of series common stock, while providing desirable flexibility in connection with possible acquisitions and other corporate purposes, could make it more difficult for a third party to acquire a majority of the outstanding shares of voting stock.

Table of Contents

Voting Rights

Subject to the Preferred Stock voting rights described above, and any other voting rights granted to preferred stock or series common stock that may be outstanding from time to time, each share of our Common Stock shall be entitled to one vote per share, in person or by proxy, on all matters submitted to a vote for our stockholders on which the holders of Common Stock are entitled to vote. Except as otherwise required in our Charter, Bylaws or by applicable law, the holders of voting stock shall vote together as one class on all matters submitted to a vote of stockholders generally. Our Charter and Bylaws do not provide for cumulative voting in connection with the election of directors, and accordingly, holders of more than 50% of the shares voting will be able to elect all of the directors. However, in a contested election, a plurality of the votes shall be enough to elect a director. The holders of a majority of our voting stock issued and outstanding and entitled to vote thereat, present in person or represented by proxy, constitute a quorum at all meetings of the stockholders for the transaction of business.

Dividend Rights

Subject to the Preferred Stock dividend rights described above, and any other dividend rights granted to preferred stock or series common stock that may be outstanding from time to time, the holders of shares of Common Stock shall be entitled to receive such dividends and other distributions in cash, property or shares of stock as may be declared thereon by our Board from time to time out of the assets or funds legally available. Before payment of any dividend, there may be set aside out of any funds available for dividends such sum or sums as the directors, in their absolute discretion, think proper as a reserve or reserves to meet contingencies, or for equalizing dividends, or for repairing or maintaining any Company property, or for such other purpose as the directors shall think conducive to the interests of the Company, and the directors may modify or abolish any such reserve in the manner in which it was created.

No Preemptive Rights

No holder of our capital stock has any preemptive right to subscribe for any shares of our capital stock issued in the future.

Liquidation Rights

The holders of Common Stock shall be entitled to share ratably in the net assets remaining after payment of all liquidation preferences to the Preferred Stock as described above, and any other liquidation rights granted to preferred stock or series common stock that may be outstanding from time to time.

Anti-Takeover Provisions of Charter, Bylaws and DGCL

Preferred Stock and Series Common Stock

See above under Preferred Stock and Series Common Stock.

Special Meetings of Stockholders

Our Charter and Bylaws provide that special meetings of the stockholders may be called by our Chairman of the Board, Chief Executive Officer, President or the Board. A special meeting of stockholders shall also be called by our secretary upon the written request of stockholders entitled to cast at least 40% of all votes entitled to be cast at the special meeting.

Advance Notice of Stockholder Meetings

Notice of any annual or special meeting of stockholders, stating the place (if any), date and hour of the meeting shall be given to each stockholder entitled to notice of such meeting not less than ten nor more than sixty days before the date of such meeting.

Table of Contents

Advance Notice for Nominations or Stockholder Proposals at Meetings

Our Bylaws also prescribe the procedure that a shareholder must follow to nominate directors or bring business before shareholders' meetings.

Nominations of persons for election to the Board and the proposal of business at stockholder meetings may be made by (1) the Company, (2) the chairman of the Board, or (3) any stockholder entitled to vote and who makes the nomination or proposal pursuant to timely notice in proper written form to our secretary in compliance with the procedures set forth in the Bylaws. For a stockholder to nominate a candidate for director or to bring other business before a meeting, we must receive notice not less than 90 days nor more than 120 days prior to the first anniversary of the preceding year's annual meeting; provided, however, that in the event that the date of the annual meeting is advanced by more than 20 days, or delayed by more than 70 days from such anniversary date, notice by the stockholder must be so delivered not earlier than 120 days prior to such annual meeting and not later than the close of business on the later of the 90th day prior to such annual meeting or the 10th day following the day on which public announcement of the date of such meeting is made. Notice of a nomination for director must also include a description of various matters regarding the nominee and the shareholder giving notice, as set forth in the Bylaws.

In addition, our Bylaws permit a stockholder, or group of no more than 20 stockholders meeting specified eligibility requirements, to include director nominees in our proxy materials for annual meetings. In order to be eligible, stockholders must have owned 3% or more of the Company's outstanding Common Stock continuously for at least three years. Requests to include stockholder-nominated candidates in our proxy materials must be delivered to us within the time periods applicable to stockholder notices of nominations as described in the preceding paragraph. The maximum number of stockholder-nominated candidates is the greater of two directors or the largest whole number that does not exceed 20% of the number of directors in office as of last day on which a notice under these provisions is delivered. The Bylaws provide a process to determine which candidates under these provisions exceed the maximum permitted number. Each stockholder seeking to include a director nominee in our proxy materials pursuant to these provisions is required to provide certain information, as set forth in the Bylaws. A stockholder nominee must also meet certain eligibility requirements, as set forth in the Bylaws.

At a meeting of stockholders, only such business (other than the nomination of candidates for election as directors in accordance with the Bylaws) will be conducted or considered as is properly brought before the annual meeting or a special meeting as specified in the Bylaws.

Action by Written Consent

Our Charter prohibits action by written consent by stockholders.

Directors

The Board shall consist of at least three members and no more than 15, and may be fixed from time to time by a resolution adopted by the Board or by the stockholders. At present, the Board has nine members. Directors need not be stockholders but are subject to certain share ownership requirements as described in our Annual Report on Form 10-K for the year ended December 31, 2016, as amended on July 10, 2017 and August 14, 2017.

Each director to be elected by stockholders shall be elected by a majority vote of the stockholders, except that if the number of nominees exceeds the number of directors to be elected, the directors shall be elected by a plurality of votes. There is no cumulative voting in the election of directors. Directors may be removed, with or without cause, by a majority vote of our voting stock.

All directors will be in one class and serve for a term ending at the annual meeting following the annual meeting at which the director was elected. Our current class of directors will be subject to reelection at our 2018 annual meeting.

Table of Contents

The Board is authorized to adopt, amend, alter or repeal the Bylaws by the affirmative vote of a majority of the directors present at any regular or special meeting, subject to the power of the voting stock to adopt, amend, alter or repeal the Bylaws made by the Board. Notwithstanding anything in the Charter or Bylaws to the contrary, a vote of holders of 75% or more of the voting stock is required to adopt, amend, alter or repeal any provision inconsistent with the foregoing or the manner in which action may be taken by voting stock.

Limitations on Liability and Indemnification of Officers and Directors

The Company's Charter and Bylaws provide for indemnification of officers and directors of the Company and certain other persons to the full extent permitted by law, as now in effect or later amended, against liabilities and expenses incurred by any of them in certain stated proceedings and under certain stated conditions.

The Company may maintain insurance for the benefit of its directors, officers, employees, agents and certain other persons, insuring such persons against any expense, liability or loss, including liability under the securities laws. In addition, the Company has entered into indemnification agreements with our directors and executive officers that require us to indemnify these persons for claims made against each of these persons because he or she is, was or may be deemed to be a director, officer, employee or agent of the Company or any of our subsidiaries. We are obligated to pay the expenses of these persons in connection with any claims that are subject to the agreement.

Section 102 of the DGCL allows a corporation to eliminate the personal liability of directors of a corporation to the corporation or its stockholders for monetary damages for a breach of fiduciary duty as a director, except where the director breached his duty of loyalty, failed to act in good faith, engaged in intentional misconduct or knowingly violated a law, authorized the payment of a dividend or approved a stock repurchase in violation of the DGCL or obtained an improper personal benefit.

Section 145 of the DGCL provides, among other things, that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding (other than an action by or in the right of the corporation) by reason of the fact that the person is or was a director, officer, agent or employee of the corporation or is or was serving at the corporation's request as a director, officer, agent, or employee of another corporation, partnership, joint venture, trust or other enterprise, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with such action, suit or proceeding. The power to indemnify applies (a) if such person is successful on the merits or otherwise in defense of any action, suit or proceeding, or (b) if such person acted in good faith and in a manner he or she reasonably believed to be in the best interest, or not opposed to the best interest, of the corporation, and with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful. The power to indemnify applies to actions brought by or in the right of the corporation as well, but only to the extent of defense expenses (including attorneys' fees but excluding amounts paid in settlement) actually and reasonably incurred and not to any satisfaction of judgment or settlement of the claim itself, and with the further limitation that in such actions no indemnification shall be made in the event of any adjudication of negligence or misconduct in the performance of his or her duties to the corporation, unless the court believes that in the light of all the circumstances indemnification should apply.

Section 174 of the DGCL provides, among other things, that a director, who willfully or negligently approves of an unlawful payment of dividends or an unlawful stock purchase or redemption, may be held liable for such actions. A director who was either absent when the unlawful actions were approved or dissented at the time may avoid liability by causing his or her dissent to such actions to be entered in the books containing the minutes of the meetings of the board of directors at the time such action occurred or immediately after such absent director receives notice of the unlawful acts.

The selling stockholders may from time to time pledge or grant a security interest in some or all of the Securities, and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the Securities from time to time under this prospectus, or under a supplement or amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act amending the list of selling stockholders to include the pledgee. The list of selling stockholders may similarly be amended to include any donee, transferee or other successor of the selling stockholders.

The selling stockholders and any broker-dealers or agents who participate in the distribution of Securities may be deemed to be underwriters. As a result, any profits on the sale of the Securities by selling stockholders and any discounts, commissions or concessions received by any such broker-dealers or agents might be deemed to be underwriting discounts and commissions under the Securities Act. If the selling stockholders were deemed to be underwriters, the selling stockholders may be subject to certain statutory liabilities as underwriters under the Securities Act.

The Securities may be offered to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more of such firms. Unless otherwise set forth in the prospectus supplement, the obligations of the underwriters or dealers to purchase the Securities offered will be subject to certain conditions precedent and the underwriters or dealers will be obligated to purchase all of the offered Securities if any are purchased. Any public offering price and any discount or concession allowed or re-allowed or paid by underwriters or dealers to other dealers may be changed from time to time.

If Securities are sold through underwriters or broker-dealers, each selling stockholder will be responsible for underwriting discounts or commissions or agent's commissions applicable to the sale of such selling stockholder's Securities.

Each selling stockholder reserves the right to accept and, together with its agents, to reject, any proposed purchases of Securities to be made directly or through agents.

The selling stockholders and any other person participating in a distribution will be subject to applicable provisions of the Exchange Act, as amended, and the rules and regulations thereunder, including, without limitation, to the extent applicable, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the shares of the Securities by the selling stockholders and any other participating person. To the extent applicable, Regulation M may also restrict the ability of any person engaged in the distribution of the Securities to engage in market-making activities with respect to the Securities. All of the foregoing may affect the marketability of the Securities and the ability of any person or entity to engage in market-making activities with respect to the Securities.

In order to comply with the securities laws of certain states, if applicable, the Securities may be sold in those jurisdictions only through registered or licensed brokers or dealers. In addition, in certain states, the Securities may not be sold unless they have been registered or qualified for sale in the state or an exemption from the registration or qualification requirement is available and complied with.

We know of no existing arrangements between any selling stockholder, any other stockholder, broker, dealer, underwriter, or agent relating to the sale or distribution of the Securities offered by this prospectus. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers, and controlling persons, we have been advised that in the opinion of the SEC this indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

This offering will terminate on the date that all of the Securities offered by this prospectus have been sold by the selling stockholders.

The selling stockholders may also sell Securities pursuant to Section 4(a)(7) of the Securities Act or Rule 144 under the Securities Act, or other exemption from registration under the Securities Act, rather than this prospectus, in each case if such exemption is available.
