Dear Shareholder:

We cordially invite you to attend the 2018 annual meeting of shareholders of State Street Corporation. The meeting will be held at One Lincoln Street, 36th Floor, Boston, Massachusetts, on May 16, 2018, at 9:00 a.m. Eastern Time. The proxy statement and annual meeting provide an important opportunity for us to communicate with you as shareholders, and for you to communicate with us, on important topics such as our performance, corporate governance, the effectiveness of the Board of Directors and executive compensation. Details regarding admission to the meeting and the business to be conducted are more fully described in the accompanying notice of annual meeting and proxy statement. Whether or not you plan to attend the meeting, please carefully review the enclosed proxy statement and then cast your vote. We urge you to vote regardless of the number of shares you hold. To be sure that your vote will be received in time, please cast your vote by your choice of available means at your earliest convenience. Your vote is very important to us.

In 2017, we celebrated our 225th anniversary 225 years since John Hancock signed into existence State Street's earliest ancestor. Since that time, a lot has changed at State Street. We became the custodian for the first mutual fund, created the world's first exchange traded fund, placed the Fearless Girl statue in the middle of New York's financial district and expanded across countries and continents. What has remained constant is our ability to change and evolve to stay ahead of our clients' needs and industry demands, and that is what defines our way ahead.

In our most recent year, we achieved our financial targets and continued to generate strong shareholder returns. Revenue, fee revenue, earnings per share and return on average common equity all exceeded 2016 results. Our financial results reflect increased demand from clients, continued strength across our asset management and servicing businesses and prudent expense management, as well as growing global equity markets and rising interest rates. In addition to our positive financial performance, we continued to make substantial progress against our four strategic priorities of strengthening our foundation, delivering highly valued services and solutions to our clients, engaging our people and driving our strategy.

We look forward to seeing you at the annual meeting. Your continued interest in State Street is very much appreciated.

Sincerely,

PLEASE NOTE: If you plan to attend the meeting, please allow time for registration and security clearance. You will be asked to present valid picture identification acceptable to our security personnel, such as a driver's license or passport. If your State Street shares are held in street name through a broker, bank or other nominee, you should also bring proof of beneficial ownership (for further details, see Meeting Admission in the attached *Notice of State Street Corporation 2018 Annual Meeting of Shareholders*). For security purposes, you and your bags are subject to search prior to your admittance to the meeting, and no cameras, recording equipment, mobile phones or other electronic devices, large bags or packages are permitted in the meeting. Public fee-based parking is available at State Street's headquarters at One Lincoln Street (entrance from Kingston Street). Other public fee-based parking near One Lincoln Street is available at the Hyatt Hotel (entrance from Avenue de LaFayette). South Station is the closest MBTA station to One Lincoln Street.

About State Street

State Street Corporation is a financial holding company organized in 1969 under the laws of the Commonwealth of Massachusetts. State Street provides financial and managerial support to our legal and operating subsidiaries. Through our subsidiaries, including our principal banking subsidiary, State Street Bank and Trust Company, we provide a broad range of financial products and services to institutional investors worldwide. We refer to State Street Bank and Trust Company as State Street Bank or the Bank.

As of December 31, 2017, we had consolidated total assets of \$238.43 billion, consolidated total deposits of \$184.90 billion, consolidated total shareholders' equity of \$22.32 billion and 36,643 employees. We operate in more than 100 geographic markets worldwide, including the U.S., Canada, Europe, the Middle East and Asia.

We are a leader in providing financial services and products to meet the needs of institutional investors worldwide, with \$33.12 trillion of assets under custody and administration and \$2.78 trillion of assets under management as of December 31, 2017. Our clients include mutual funds, collective investment funds and other investment pools, corporate and public retirement plans, insurance companies, foundations, endowments and investment managers.

In 2017, we continued to focus on four strategic priorities: strengthen our foundation, deliver highly valued services and solutions to our clients, engage our people and drive our strategy. We performed well against our strategic priorities and achieved our financial results with revenue, fee revenue, earnings per share and return on average common equity exceeding 2016 results all while maintaining a strong capital position, returning value to shareholders and continuing to manage expenses. Below are summary highlights of our 2017 consolidated corporate financial performance. Corporate Governance Summary

Our Board of Directors is committed to strong corporate governance practices and is intent on maintaining State Street's reputation for quality, integrity and high ethical standards. The following is a summary of our corporate governance standards:

For more information about State Street's corporate governance practices, see Corporate Governance at State Street.

Corporate Responsibility

State Street's commitment to social and environmental responsibility and our belief in giving back to the communities in which we live and work are critical to our long-term success. We recognize that sustainable growth comes from operating with absolute integrity and in a way that respects our shareholders, clients, employees, communities and the environment. We firmly believe in the principles of sound governance and to helping our clients succeed. We are dedicated to maintaining a global and inclusive workplace where employees feel valued and engaged. We believe we have a responsibility to enrich our communities, and to be a leader in environmental sustainability, both in the way we carry out our operations and in the products and services we offer. Overview of 2017 Executive Compensation Program

Sound Compensation and Corporate Governance Practices

State Street develops and implements a compensation program for our Named Executive Officers, or NEOs, and other executive officers with the goals of:

attracting, retaining and motivating superior executives

rewarding those executives for meeting or exceeding annual and long-term financial and strategic objectives

driving long-term shareholder value and financial stability

providing equal pay for work of equal value

achieving the preceding goals in a manner aligned with sound risk management and our corporate values

For each of our NEOs identified in the Compensation Discussion and Analysis, the Executive Compensation Committee, or Compensation Committee, determines the appropriate level of total compensation for the year. We engage our largest shareholders to understand their specific perspectives on our compensation and governance programs. For 2017, we held discussions with shareholders representing more than 30% of our outstanding common stock.

At State Street, compensation to our NEOs consists of two key elements:

Base Salary. Base salary is a fixed annual cash amount and is a relatively small portion of total compensation for our NEOs

Incentive Compensation. Incentive compensation is a variable amount, comprising both equity-based elements, awarded as a long-term incentive, and cash-based elements, awarded as an annual incentive both in immediate and deferred cash. The Compensation Committee believes a significant amount of incentive compensation should take the form of both deferred awards and equity awards. Therefore, to emphasize long-term performance, a high percentage of each NEO's total incentive compensation is delivered as an equity-based long-term incentive and a portion of the annual incentive is deferred

2018 NOTICE OF MEETING AND PROXY STATEMENT

CORPORATE GOVERNANCE AT STATE STREET

State Street is a financial holding company whose principal subsidiary is State Street Bank and Trust Company, or State Street Bank or the Bank. State Street and the Bank are each organized under the laws of the Commonwealth of Massachusetts. In accordance with Massachusetts law and State Street's by-laws, our Board of Directors has responsibility for overseeing the conduct of our business. Our Board is committed to strong corporate governance practices and is intent on maintaining State Street's reputation for quality, integrity and high ethical standards.

Governance Guidelines and Independence

State Street's Board of Directors, in its role of overseeing the conduct of our business, is guided by our Corporate Governance Guidelines, or the Guidelines. Among other things, the Guidelines describe the role of the Board of Directors, its responsibilities and functions, the director qualification and selection process and the role of the Lead Director. The Guidelines also contain categorical standards for determining director independence under New York Stock Exchange, or NYSE, listing standards. In general, a director would not be independent under these standards if the director (and in certain circumstances, a member of the director's immediate family) has, or in the past three years had, specified relationships or affiliations with State Street, its external or internal auditors or other companies that do business with State Street (including employment by State Street, receipt of a specified level of direct compensation from State Street other than director fees and compensation committee interlocks). The categorical standards also provide specified relationships that, by themselves, would not impair independence. The portion of the Guidelines addressing director independence is attached as *Appendix A* to this proxy statement. The full Guidelines are available under the Corporate Governance section in the For Our Investors section of our website at www.statestreet.com. In addition to the Guidelines, the charters for each principal committee of the Board are also available in the same location on our website. Except as may be specifically incorporated by reference in this proxy statement, information on our website is not part of this proxy statement.

Pursuant to the Guidelines, the Board undertook a review of director independence in early 2018. State Street, as a global financial institution and one of the largest providers of financial services to institutional investors, conducts business with many organizations throughout the world. Our directors or their immediate family members may have relationships or affiliations with some of these organizations. As provided in the Guidelines, the purpose of the director independence review was to determine whether any relationship or transaction was inconsistent with a determination that the director was independent. As a result of this review, the Board, after review and

recommendation by the Nominating and Corporate Governance Committee, determined that all of our non-management directors meet the categorical standards for independence under the Guidelines, have no material relationship with State Street (other than the role of director) and satisfy the qualifications for independence under listing standards of the NYSE. The Board had previously determined in 2017 that Ronald L. Skates and Thomas J. Wilson, who served on the Board

STATE STREET CORPORATION 1

2018 NOTICE OF MEETING AND PROXY STATEMENT

during 2017, were independent. In making the independence determinations in 2018, the Board considered that the below identified individuals, or their respective family members, have the following relationships or arrangements that are deemed to be immaterial under the categorical standards for independence included in the Guidelines:

commercial or charitable relationships with an entity for which the State Street director or family member serves as a non-employee director, and with respect to which the director was uninvolved in negotiating such relationship (Ms. Hill and Messrs. Burnes, de Saint-Aignan and Freda)

commercial relationships with an entity for which the State Street director or family member serves as an employee, consultant or executive officer where the director does not receive any special benefits from the transaction and the annual payments to or from the entity are equal to or less than the greater of \$1 million or 2% of the consolidated gross annual revenues of the other entity during the most recent completed fiscal year (Ms. Hill and Mr. Freda)

In 2017, none of these commercial or charitable relationships with affiliated entities involved amounts paid or received by State Street exceeding 1.7% of State Street's annual gross revenue or the greater of \$1 million or 0.6% of the affiliated entity's annual gross revenue.

Standards of Conduct

We have a Standard of Conduct for Directors, which together with the Standard of Conduct for Employees, promotes ethical conduct and the avoidance of conflicts of interest in conducting our business. We also have a Code of Ethics for Senior Financial Officers (including the Chief Executive Officer), as required by the Sarbanes-Oxley Act and SEC rules. Each of these documents is available under the Corporate Governance section in the For Our Investors section of our website at www.statestreet.com. Only our Board may grant a waiver for directors, senior financial officers or executive officers from a provision of the Standard of Conduct for Directors, the Standard of Conduct for Employees or the Code of Ethics for Senior Financial Officers, and any waivers will be posted under the Corporate Governance section in the For Our Investors section of our website at www.statestreet.com.

Composition of the Board and Director Selection Process

In connection with nominating directors for election each year and evaluating the need for new director candidates as appropriate, including skill sets, diversity, specific business background and global or international experience, the Nominating and Corporate Governance Committee, with input from the entire Board and management, focuses on the Board's capabilities and functioning as a whole.

On an annual basis, the Nominating and Corporate Governance Committee assesses each director's contributions to the overall effectiveness of the Board. The Committee also evaluates the experience, qualifications and attributes of each director and

2 STATE STREET CORPORATION

Table of Contents

Corporate Governance (continued)

2018 NOTICE OF MEETING AND PROXY STATEMENT

recommends to the Board the director nominees that should stand for election at the next annual meeting. Based on this evaluation, the Board believes that individually each of the nominees has had substantial achievement in his or her personal and professional pursuits and has talents, experience and integrity that will contribute to the best interests of State Street and to long-term shareholder value, and the nominees as a group possess the skill sets, specific business background and global or international experience that the Board desires. The director nominee biographies set forth in this proxy statement under the heading "Item 1 Election of Directors" indicate each nominee's qualifications, skills, experience and attributes that led the Board to conclude he or she should serve as a director of State Street.

In carrying out its responsibility to find the best qualified candidates for directors, the Nominating and Corporate Governance Committee will consider proposals for nominees from a number of sources, including recommendations from shareholders submitted upon written notice to the Chair of the Nominating and Corporate Governance Committee, c/o the Office of the Secretary of State Street Corporation, One Lincoln Street, Boston, Massachusetts 02111 (facsimile number (617) 664-8209). The Committee seeks to identify individuals qualified to become directors, consistent with the above criteria used by the Board for director candidates.

By following the procedures set forth under "General Information About the Annual Meeting Proposals and Nominations by Shareholders," shareholders also have the right under our by-laws to directly nominate director candidates and, in certain circumstances, to have their nominees included in State Street's proxy statement.

The Nominating and Corporate Governance Committee's process for identifying and evaluating candidates includes actively seeking to identify qualified individuals by reviewing lists of possible candidates and considering proposals from a number of sources, such as members of the Board, members of management, employees, shareholders and industry contacts. The Committee's charter grants it the authority to retain search firms to assist in conducting this search. Upon identifying a possible candidate, from whatever source, the Committee makes an initial evaluation as to whether the individual would qualify under the criteria used by the Board for director candidates. A candidate who passes the initial evaluation is then further evaluated through a process which may include obtaining and examining the individual's resume, speaking with the person who has recommended the individual, speaking with others who may be familiar with the individual, interviews by members of the Board and the Nominating and Corporate Governance Committee with the individual, discussion at the Committee level of the individual's possible contribution to State Street and, if appropriate, voting on the individual as a candidate. The Committee evaluates possible nominees for director without regard to whether an individual is recommended by a shareholder or otherwise.

Annual Board and Committee Evaluations

On an annual basis, the Board of Directors and each committee conducts an annual self-evaluation of its performance and effectiveness. Directors complete a questionnaire evaluating the Board and each committee they serve on,

specifically focusing on areas of potential improvement. The overall performance of the Board including its contributions to the Company and a compilation of director responses is reviewed and discussed by the Nominating and Corporate Governance Committee and the Board. Similarly, the performance of each committee, along with specific committee member responses, is reviewed and discussed by the respective committee. The Nominating and Corporate Governance Committee further assesses whether each of the Examining and Audit Committee, Executive Compensation Committee, Risk Committee, Nominating and Corporate Governance Committee and Technology Committee has a functioning self-evaluation process and reports its findings to the Board.

Diversity

State Street does not have a formal policy with respect to diversity but, taken as a whole, strives to have a Board that reflects the diversity (in terms of a number of characteristics including gender, race, national origin, age and tenure on the Board) of State Street's key stakeholders and of the various communities in which we operate. Presently, the Nominating and Corporate Governance Committee and the Board believe the composition of the Board, which currently reflects a range of personal and professional backgrounds, experiences and other characteristics, is reflective of this diversity. As noted above, the Nominating and Corporate Governance Committee includes diversity as a consideration in making its recommendations for nominees for director. The Committee, however, does not assign specific weight to the various factors it considers and no particular criterion is a prerequisite for nomination.

2018 NOTICE OF MEETING AND PROXY STATEMENT

Board Leadership Structure

State Street has adopted a leadership structure that includes an independent Lead Director of the Board. This position is currently held by Kennett F. Burnes. Mr. Burnes was elected Lead Director to serve a one-year term as the presiding director of the independent directors of the Board (all directors, except for Mr. Hooley) in May 2017. Mr. Burnes has served in this capacity for eight annual terms. On November 7, 2017, State Street announced that Joseph L. Hooley will retire as Chief Executive Officer by the end of 2018 and will remain as a director and Chairman of the Board of Directors throughout 2019. Ronald P. O Hanley will succeed Mr. Hooley as State Street's Chief Executive Officer upon Mr. Hooley's retirement.

Our Guidelines provide that any director who reaches the age of 75 will retire from the Board by the end of his or her then current term. The Board waived this requirement for our Lead Director, Mr. Burnes, who turned 75 in February 2018, so that he may continue, if re-elected, as Lead Director until the 2019 annual meeting. The Board took this action to maintain continuity in the Lead Director position during the Company's CEO transition described above.

Mr. Hooley, as State Street's Chairman of the Board, presides at all meetings of the Board at which he is present. The Chairman works with the independent Lead Director in setting Board agendas and coordinating other Board activities. The Nominating and Corporate Governance Committee coordinates the annual Lead Director nomination and election process. The Committee conducts a review of the current Lead Director by soliciting feedback from members of the Board, and based upon the review, recommends that the Board of Directors elect a member of the Board as its Lead Director to serve for a one-year term. The Board of Directors believes that Mr. Hooley's role as Chairman and Mr. Burnes' role as Lead Director is the most effective leadership structure for State Street at this time and is in the best interests of the Board, State Street and its shareholders. Among the factors considered by the Board in determining that this leadership structure continues to be the most appropriate are:

as our Chief Executive Officer, and with his extensive work history in different roles at State Street, Mr. Hooley is more familiar with our business and strategy than an independent, non-management Chairman would be, and is thus better positioned to focus our Board's agenda on the key issues facing State Street

a single Chairman and Chief Executive Officer provides strong, consistent and accountable leadership for State

Street, without risking overlap or conflict of roles

oversight of State Street is the responsibility of our Board as a whole, and this responsibility can be properly discharged without an independent Chairman

the Chairman and our Lead Director work together to play a strong and active role in the oversight of State Street's leadership

The Lead Director may forward to the Examining and Audit Committee, or to another appropriate group or department, for appropriate review, any concerns the Lead Director receives. The Lead Director periodically reports to the independent directors as a group regarding concerns received.

Meetings of the Board of Directors and Annual Shareholder Meeting

During 2017, the Board of Directors held 12 meetings, and each of the incumbent directors attended at least 75 percent of the total of all meetings of the Board and committees on which such director served for the period during which the director served. Although State Street does not have a formal policy regarding attendance of directors at the annual meeting, all directors are encouraged to attend. Each of the 9 directors on the Board at the time of our 2017 annual meeting attended the meeting.

Committees of the Board of Directors

The Board of Directors has the following principal committees to assist it in carrying out its responsibilities, and each operates under a written charter, a copy of which is available under the **Corporate Governance** section in the **For Our Investors** section of our website at www.statestreet.com. The charter for each committee, which establishes its roles and responsibilities and governs its procedures, is annually reviewed and approved by the Board.

Advises the Board on technology related risks, including cyber and information security risks

Non-Employee Director Compensation

General

The Nominating and Corporate Governance Committee annually reviews the form and amount of non-employee director compensation and makes a related recommendation to the Board. Mr. Hooley is the only director who is also one of our employees, and the determination of his compensation is described under the heading "Executive Compensation" Compensation Discussion and Analysis. Mr. Hooley receives no additional compensation for his service as a director. In conducting its review, the Committee has access to compensation consultants and other resources it deems appropriate, including peer group data. The Committee uses the same peer group the Compensation Committee uses for executive compensation generally and, like the Compensation Committee, used the services of Meridian Compensation Partners for 2017. For information on State Street's peer group and compensation consultant, see "Executive Compensation" Compensation Discussion and Analysis "Other Elements of Our Process."

Each year, our compensation consultant assists in preparing a review of director compensation within the peer group. The Committee did not treat peer group data as definitive when determining non-employee director compensation. Rather, it referenced peer group compensation and formed its own perspective on compensation for our non-employee directors. In 2017, the Committee made its recommendation to the Board, which, following the May 2017 annual meeting of shareholders, approved director compensation for all non-employee directors effective through the 2018 annual meeting of shareholders.

2018 NOTICE OF MEETING AND PROXY STATEMENT

Compensation

For the period between each annual meeting of shareholders, non-employee directors receive the following compensation:

Compensation Component	Value (\$)	Vehicle ⁽¹⁾
Annual Retainer ⁽²⁾	\$ 75,000	Cash or shares of State Street common stock
Annual Equity Award ⁽²⁾	150,000	Shares of State Street common stock
Board and Committee Meeting Fee ⁽³⁾	1,500	Cash
Additional Lead Director Retainer	150,000	Cash or shares of State Street common stock
		Cash or shares of State Street common stock

Examining and Audit Committee and Risk Committee Chair Retainers	25,000	
Executive Compensation Committee Chair Retainer	20,000	Cash or shares of State Street common stock
Nominating and Corporate Governance Committee and Technology Committee Chair Retainers	15,000	Cash or shares of State Street common stock
Examining and Audit Committee and Risk Committee Member Retainers	15,000	Cash or shares of State Street common stock

- (1) All awards made in shares of State Street common stock are granted based upon the closing price of our common stock on the NYSE on the date of the annual meeting that begins the period, rounded up to the nearest whole share, unless otherwise noted. Under the 2017 Stock Incentive Plan, with limited exceptions, the total value of all compensation components to a non-employee director cannot exceed \$1.5 million in a calendar year.
- (2) The annual retainer and annual equity award are prorated for any non-employee director joining the Board after the annual meeting that begins the period, with awards made in shares of State Street common stock granted based on the closing price of our common stock on the NYSE on the date of election, rounded up to the nearest whole share.
- (3) Non-employee directors receive meeting fees of \$1,500, payable in cash, for each Board and committee meeting attended, including meetings of a State Street affiliate, together with reimbursement of expenses incurred as a result of Board service. The Lead Director does not receive any committee meeting fees, but does receive Board meeting fees and reimbursement of expenses for Board service.

Pursuant to State Street's Deferred Compensation Plan for Directors, non-employee directors may elect to defer the receipt of 0% or 100% of their (1) retainers, (2) meeting fees or (3) annual equity grant award. Non-employee directors also may elect to receive their retainers in cash or shares of common stock. Non-employee directors who elect to defer the cash payment of their retainers or meeting fees may choose from four notional investment fund returns for such deferred cash. Deferrals of common stock are adjusted to reflect the hypothetical reinvestment in additional shares of common stock for any dividends or distributions on State Street common stock. Deferred amounts will be paid (a) as elected by the non-employee director, on either the date of their termination of service on the Board or on the earlier of such termination and a future date specified, and (b) in the form elected by the non-employee director as either a lump sum or in installments over a two- to five-year period.

Director Stock Ownership Guidelines

Under our stock ownership guidelines, all non-employee directors are required to maintain a target level of stock ownership equal to 5 times the annual equity award of \$150,000 for a total of \$750,000. There is a five-year phase-in period to achieve compliance with the guidelines. Non-employee directors must hold all net shares received until the full (not pro-rated) target ownership level is achieved. For purposes of these stock ownership guidelines, the value of shares owned is based on the closing price of our common stock on the NYSE on the date that we use for the beneficial ownership table under the heading Security Ownership of Certain Beneficial Owners and Management Management. Non-employee directors are credited with all shares they beneficially own for purposes of

the beneficial ownership table which includes all shares awarded as director compensation, whether immediate or deferred. Non-employee directors are expected to attain the ownership level ratably over the phase-in period.

2018 NOTICE OF MEETING AND PROXY STATEMENT

As of March 1, 2018, each of our non-employee directors, except for Ms. Dugle and Mr. O Sullivan, exceeded the full level of ownership under these guidelines. Ms. Dugle and Mr. O Sullivan exceeded the pro-rated expected level of ownership, and therefore, the holding requirement applies only to them during the phase-in period.

Gregory L. Summe	135,000	150,062	15,406	300,468
Thomas J. Wilson ⁽³⁾	19,500			19,500

- (1) For the May 2017-April 2018 Board year, each non-employee director, other than Messrs. Skates and Wilson, received 1,880 shares of State Street common stock valued at \$150,062 on the date of grant for the annual equity award. All of these shares were valued based on the closing price of our common stock on the NYSE on May 17, 2017 of \$79.82. Stock awards to non-employee directors vest immediately, and there were no unvested non-employee director stock awards as of December 31, 2017.
- (2) Perquisites that Messrs. Burnes, de Saint-Aignan, Freda, Sergel, Skates and Summe as well as Dame Amelia and Meses. Dugle and Hill received in 2017 include: director life insurance coverage and business travel accident insurance paid for by State Street (\$627 for Messrs. Burnes, de Saint-Aignan and Sergel; \$406 for Messrs. Freda and Summe, Dame Amelia and Ms. Hill; \$289 for Ms. Dugle; and \$261 for Mr. Skates). Donations by non-employee directors to approved charities are eligible for a Company match of up to \$35,000 per calendar year under the State Street matching gift program. Matching charitable contributions made on behalf of the non-employee directors were: \$35,000 for Messrs. Burnes, de Saint-Aignan and Freda; \$25,000 for Ms. Dugle; \$19,000 for Dame Amelia; \$16,114 for Ms. Hill; \$15,000 for Mr. Summe; and \$12,388 for Mr. Sergel. Perquisites for Mr. Skates also include retirement gifts of \$16,215 in recognition of his 15 years of service as a member of the Board. The amount of perquisites and other personal benefits for Messrs. O Sullivan and Wilson have not been itemized because the total did not exceed \$10,000.
- (3) Messrs. Skates and Wilson retired from the Board in May 2017. Amounts reported in the Fees Earned or Paid in Cash column reflect Board and committee meeting fees earned in 2017 while Messrs. Skates and Wilson were still serving as directors.

Related Person Transactions

The Board has adopted a written policy and procedures for the review of any transaction, arrangement or relationship in which State Street is a participant, the amount involved exceeds \$120,000 and one of our executive officers, directors or 5% shareholders (or their immediate family members), who we refer to as related persons, has a direct or indirect material interest. A related person proposing to enter into such a transaction, arrangement or relationship must report the proposed related-person transaction to State Street's Chief Legal Officer. The policy calls for the proposed related-person transaction to be reviewed and, if deemed appropriate, approved by the Nominating and Corporate Governance Committee. A related-person transaction reviewed under the policy will be considered approved or ratified if it is authorized by the Nominating and Corporate Governance Committee (or the Committee Chair) after full disclosure of the related person's interest in the transaction. Whenever practicable, the reporting, review and approval will occur prior to the transaction. If advance review is not practicable or was otherwise not obtained, the Committee will review and, if deemed appropriate, ratify the related-person transaction. The policy also permits the Chair of the Committee to review and, if deemed appropriate, approve proposed related-person transactions that arise between Committee meetings, in which case they will be reported to the full Committee at its next meeting. Any ongoing

related-person transactions are reviewed annually.

Corporate Governance (continued)

2018 NOTICE OF MEETING AND PROXY STATEMENT

The Nominating and Corporate Governance Committee may approve or ratify the related-person transaction only if the Committee determines that, under all of the circumstances, the transaction is in, or is not inconsistent with, State Street's best interests. The Committee may, in its sole discretion, impose such conditions as it deems appropriate on State Street or the related person in connection with approval of the related-person transaction.

In addition to the transactions that are excluded by the instructions to the SEC's related-person transaction disclosure rule, the Board has determined that the following transactions do not create a material direct or indirect interest on behalf of related persons and, therefore, are not related-person transactions for purposes of this policy:

interests arising solely from the related person's position as an executive officer, employee or consultant of another entity (whether or not the person is also a director of such entity) that is a party to the transaction, where (1) the related person and his or her immediate family members do not receive any special benefits as a result of the transaction and (2) the annual amount involved in the transaction equals less than the greater of \$1 million or 2% of the consolidated gross revenues of the other entity that is a party to the transaction during that entity's last completed fiscal year or

a transaction that involves discretionary charitable contributions from State Street to a tax-exempt organization where a related person is a director, trustee, employee or executive officer, provided the related person and his or her immediate family members do not receive any special benefits as a result of the transaction, and further provided that, where a related person is an executive officer of the tax-exempt organization, the amount of the discretionary charitable contributions in any completed year in the last 3 fiscal years is not more than the greater of \$1 million, or 2% of that organization's consolidated gross revenues in the last completed fiscal year of that organization (in applying this test, State Street's automatic matching of director or employee charitable contributions to a charitable organization will not be included in the amount of State Street's discretionary contributions)

On March 27, 2017, State Street entered into a series of definitive agreements with DST Systems, Inc., or DST, and its affiliates providing for, among other things, the acquisition by affiliates of DST of State Street's interests in the parties joint ventures, Boston Financial Data Services, Inc., or BFDS, and International Financial Data Services Limited, or IFDS Ltd. BFDS provides shareholder recordkeeping, intermediary and investor services and regulatory compliance solutions to financial services clients in the United States, and IFDS Ltd. is an investor and policy holder administrative services and technology provider to the collective funds, insurance and retirement industries. State Street exchanged its interest in BFDS for approximately 2 million shares of State Street common stock, valued at approximately \$158 million. State Street sold its interest in IFDS Ltd. and related assets for cash consideration of

approximately \$175 million. Stephen C. Hooley, President and Chief Executive Officer of DST, is the brother of Joseph L. Hooley, Chairman and Chief Executive Officer of State Street. Due to the change in ownership of BFDS, in accordance with the terms of the BFDS deferred compensation plan, on June 22, 2017, Mr. Joseph L. Hooley received a distribution from BFDS of his full account balance under the BFDS deferred compensation plan (approximately \$2.9 million). Mr. Hooley's participation in the plan resulted from his previously disclosed employment at BFDS, which ended in 2000. Each of these transactions was approved by State Street's Nominating and Corporate Governance Committee in accordance with our Related Person Transaction Policy.

Based on information provided by the directors and executive officers, and obtained by the legal department, no other related-person transactions were required to be reported in this proxy statement under applicable SEC regulations. In addition, neither State Street nor the Bank had extended a personal loan or extension of credit to any of its directors or executive officers.

2018 NOTICE OF MEETING AND PROXY STATEMENT

ITEM 1 ELECTION OF DIRECTORS

Each director elected at the 2018 annual meeting will serve until the next annual meeting of shareholders, except as otherwise provided in State Street's by-laws. Of the 10 director nominees, 9 are non-management and 1 serves as the Chief Executive Officer of State Street. All of the non-management directors are independent, as determined by the Board in its opinion, under the applicable definition in the NYSE listing standards and the State Street Corporate Governance Guidelines.

Pursuant to State Street's by-laws, on February 15, 2018, the Board fixed the number of directors at 10, effective as of the date of the 2018 annual meeting. Unless contrary instructions are given, shares represented by proxies solicited by the Board of Directors will be voted for the election of the 10 nominees listed below. We have no reason to believe that any nominee will be unavailable for election at the annual meeting. In the event that one or more nominees is unexpectedly not available to serve, proxies may be voted for another person nominated as a substitute by the Board or the Board may reduce the number of directors to be elected at the annual meeting. Information relating to each nominee for election as director is described below, including:

age and period of service as a director of State Street

business experience during at least the past five years (including directorships at other public companies)

community activities

other experience, qualifications, attributes or skills that led the Board to conclude the director should serve as a director of State Street

The Board of Directors recommends that shareholders approve each director nominee for election based upon the qualifications and attributes discussed below. See Corporate Governance at State Street Composition of the Board and Director Selection Process for a further discussion of the Board's process and reasons for nominating these candidates.

Executive Summary

2017 Corporate Performance Highlights

In 2017, our 225th anniversary year, we honored State Street's heritage of stewardship and innovation by continuing to invest in, strengthen and evolve our business to meet our clients' ever-changing needs. We achieved strong financial results for the year while advancing our digital strategy, developing new solutions to support our clients, positioning State Street for continued growth and demonstrating our ongoing commitment to risk excellence. Our results reflect strength across our asset servicing and asset management businesses, increased client demand for our products and services and disciplined expense control. Strong global equity markets and rising interest rates also created a favorable environment for revenue growth. Below are selected key indicators we use to monitor our performance. The Committee also considered these indicators in evaluating 2017 corporate performance for compensation purposes. Additional factors considered by the Committee are described under the heading "2017 Compensation Decisions - Corporate Performance."

Strategic Objective Performance Highlights

We made progress on several important strategic objectives during 2017. These included:

Grew our asset servicing and asset management businesses, including increasing year-end assets under custody and administration (AUCA) by 15% to \$33.12 trillion and assets under management (AUM) by 13% to \$2.78 trillion, each compared to year-end 2016, supported by strong global equity markets

Made major strides in the implementation of State Street Beacon, our multi-year strategy to digitize our business, deliver significant value and innovation for our clients and lower expenses across the organization, including

delivered industry-leading improvements in speed of service and transparency for our clients

achieved approximately \$150 million of net pre-tax program savings target for 2017, approximately \$10 million more than projected

Developed new solutions to meet our clients' needs, including launching

a suite of 15 ultra-low-cost SPDR® Portfolio exchange-traded funds (ETFs) that provide investors access to a wide range of equity and fixed income asset classes

ESGXSM, an analytics tool designed to identify and highlight potential sources of environmental, social and governance risk that may be overlooked by traditional financial analysis

Continued to advance risk excellence as a top organizational priority, making considerable progress in strengthening our controls and operating environment and reinforcing a strong culture

*Additional Performance Highlights**Returning Value to Shareholders*

We declared total quarterly common stock dividends of \$1.60 per share in 2017, or approximately \$596 million, compared to total quarterly common stock dividends of \$1.44 per share, or approximately \$559 million, in 2016

We purchased approximately 16.8 million shares of our common stock in 2017 at a total cost of approximately \$1.45 billion, compared to purchases of approximately 21.1 million shares at a total cost of approximately \$1.37 billion in 2016

Capital Levels

Our regulatory capital levels remained well above current regulatory minimum requirements in 2017.

(2) Minimum common equity tier 1 risk-based capital, minimum tier 1 risk-based capital and minimum total risk-based capital presented include the transitional capital conservation buffer as well as the estimated transitional G-SIB surcharge being phased-in beginning January 1, 2016 through January 1, 2019 based on an estimated 1.5% surcharge in all periods.

CCAR Results

We completed the Federal Reserve's 2017 Comprehensive Capital Analysis and Review, or CCAR process, without Federal Reserve objection to our 2017 capital plan. Under Federal Reserve rules, we must submit an annual capital plan to the Federal Reserve, taking into account the results of separate stress tests designed by us and by the Federal Reserve.

Resolution Plan Assessment

As a requirement of the regulatory reforms under the Dodd-Frank Act, State Street, along with other banking institutions with \$50 billion or more in total assets, periodically prepares and files its resolution plan in order to demonstrate State Street's plan of orderly resolution in the event of major financial distress or failure. We submitted our 2017 Resolution Plan, commonly referred to as a living will, to the Federal Reserve and the Federal Deposit Insurance Corporation on June 30, 2017, and the agencies announced that they did not identify any deficiencies or shortcomings in the plan.

Other Matters

State Street's 2017 performance is reviewed in greater detail, along with relevant risks associated with our business, results of operations and financial condition, in our annual report on Form 10-K, which accompanies this proxy statement and was previously filed with the Securities and Exchange Commission, or SEC.

2017 Leadership Transition

On November 7, 2017, we announced that Mr. Hooley will retire as Chief Executive Officer by the end of 2018 and will remain as Chairman of the Board of Directors throughout 2019. State Street's Board of Directors appointed Mr. O'Hanley to serve as our President and Chief Operating Officer effective November 6, 2017. Mr. O'Hanley will succeed Mr. Hooley as State Street's Chief Executive Officer upon Mr. Hooley's retirement. As part of this transition we announced several other changes to the leadership team, including retirements, promotions and other key leadership changes. Messrs. Aboaf, Erickson and Taraporevala, in particular, saw significant increases in their responsibilities, supporting the implementation of this transition. Mr. Taraporevala was appointed President and Chief Executive Officer of SSGA, Mr. Erickson was appointed Head of State Street Global Services and Mr. Aboaf took on responsibility for our Global Strategy function, in addition to his responsibilities as our Chief Financial Officer that he assumed earlier this year.

2017 Corporate and NEO Performance Evaluations

Corporate Performance

In determining our current NEOs' compensation for 2017, the Compensation Committee evaluated State Street's overall corporate performance. This evaluation included a structured assessment of corporate performance based on three discrete scorecards that capture State Street's annual performance against financial, strategic and risk management objectives. The Committee's conclusions are shown below:

Corporate Performance Scorecards

2017 Committee Evaluation

Financial Performance	Above Expectations
Strategic Objectives Performance	Above Expectations
Risk Management Performance	At Expectations
Overall Performance	Above Expectations

NEO Performance and Compensation

Based on the year's strong performance as described above, and detailed further under the heading 2017 Compensation Decisions Individual Compensation Decisions, our current NEOs were paid above their target incentives for 2017.

Annual Incentive. The Compensation Committee awarded annual incentives to our current NEOs ranging from 125% to 158% of target for 2017, based on the Above Expectations assessment of overall corporate performance. Individual awards reflect the Committee's evaluation of the current NEOs' overall 2017 performance, which included particularly strong strategic and financial performance, achieved with appropriate consideration to risk management. Consequently, the Committee believed annual incentives above target to be appropriate.

Long-Term Incentive. The value ultimately realized from long-term incentives will be based on future stock price performance. In addition, a majority of the long-term incentive is only paid if specific financial targets are achieved. Therefore, our long-term incentive awards remain relatively consistent with target compensation levels, absent a change in the executive's responsibilities, State Street's long-term performance trend or market practices. As noted below under New Compensation Program Elements, in 2017 the Committee formalized its assessment of actions and behaviors upon which the long-term incentive may vary. The formalized assessment evaluated leadership qualities based on factors such as diversity and inclusion, talent development and employee engagement. The Committee awarded long-term incentive awards for our current NEOs ranging from 95% to 100% of target for 2017.

For additional information concerning how the Committee incorporated the individual performance of Mr. Hooley and our other current NEOs into 2017 compensation decisions, see 2017 Compensation Decisions Individual Compensation Decisions.

(1) Mr. Bell ceased serving as our Chief Financial Officer in March 2017 and did not receive incentive compensation for 2017 performance.

Sound Compensation and Corporate Governance Practices

Our NEO compensation practices are designed to support good governance and avoid excessive risk-taking incentives. We regularly review and refine our governance practices considering several factors, including feedback from ongoing engagement with our shareholders.

2018 NOTICE OF MEETING AND PROXY STATEMENT

New Compensation Program Elements

We made the following enhancements to NEO compensation policies and practices in 2017:

Shareholder Outreach and Say-on-Pay

In reviewing compensation design and governance practices, the Compensation Committee considers market practice and regulatory guidance, as well as other factors, including shareholder feedback. The Committee receives feedback from our shareholders through two primary channels:

Shareholder Outreach. We engage our largest shareholders to understand their specific perspectives on our compensation and governance programs. For 2017, we held discussions with shareholders representing more than 30% of our outstanding common stock

Say-on-Pay. At our annual shareholder meeting, we ask our shareholders to approve a non-binding advisory proposal on executive compensation. At our 2017 annual meeting, our shareholders approved that proposal with over 96% of the votes cast

Based on the results of our say-on-pay vote and shareholder outreach, the Committee believes that our shareholders support our overall executive compensation program. For the 2017 compensation year, we therefore continued many of the elements of our existing compensation program, such as maintaining a high level of equity and deferral for incentive compensation awards to our NEOs, as well as emphasizing pay for performance and alignment with shareholder interests.

Compensation Committee Process Concerning Risk Alignment

For 2017, we continued our focus on aligning incentive compensation with appropriate risk management principles. We provide incentives designed not to encourage unnecessary or excessive risk-taking and have established additional process controls and oversight. These features include:

Compensation Committee Interaction and Overlap with Risk Committee. The Compensation Committee regularly communicates with the Risk Committee of our Board of Directors to integrate the Risk Committee's input into compensation decisions. The Chair of the Risk Committee also serves on the Compensation Committee

Table of Contents

Executive Compensation (continued)

2018 NOTICE OF MEETING AND PROXY STATEMENT

Corporate Risk Summary Review. The Compensation Committee periodically reviews a corporate risk summary, prepared by the Chief Risk Officer, evaluating firm-wide risk in several categories

Annual Compensation Risk Review. The Compensation Committee annually reviews a presentation by the Chief Risk Officer and the Chief Human Resources Officer evaluating our compensation programs and covering:

the alignment of State Street's compensation plans with its safety and soundness

the activities of a multi-disciplinary control function committee created by management to formally review and assess incentive compensation arrangements throughout the organization

the identification of executives and other individuals whose roles or activities may expose State Street to material amounts of risk (referred to as material risk-takers)

the mechanisms in place for monitoring risk performance and, where appropriate, implementing risk-based adjustments to incentive compensation

Risk-Based Adjustments to Incentive Compensation. We use a two-pronged process for risk-based adjustments to incentive compensation awards for material risk-takers. This process involves, as appropriate, both: (1) adjustments at the time awards are made (so-called *ex ante* adjustments) and (2) adjustments after the awards are made (so-called *ex post* adjustments) through possible recoupment of incentive compensation that has already been awarded via forfeiture (before vesting and delivery) or clawback (after vesting and delivery). For more information, see the discussion under Other Elements of Compensation Recourse Mechanisms below

Emphasis on Deferral and Equity-Based Compensation. We maintain significant levels of deferred compensation and equity-based compensation for our executives. Combined, these elements align an executive's compensation with the risks and performance results experienced by our shareholders. The high level of deferral places a significant amount of compensation at risk for possible forfeiture or other downward adjustments in specified circumstances

For a further discussion of the risk alignment of our compensation practices, see below under the heading **Alignment of Incentive Compensation and Risk**.

Compensation Philosophy

State Street's compensation program for NEOs and other executive officers aims to:

attract, retain and motivate superior executives

reward those executives for meeting or exceeding annual and long-term financial and strategic objectives

drive long-term shareholder value and financial stability

provide equal pay for work of equal value

achieve the preceding goals in a manner aligned with sound risk management and our corporate values

- (1) For more information, see the discussion under **Other Elements of Compensation** **Recourse Mechanisms** below.
- (2) For 2017, Mr. Taraporevala participated in an arrangement referred to as the SSGA Long Term Incentive Plan (SSGA LTIP) based on his role prior to his appointment as President and Chief Executive Officer of SSGA in November 2017. Granting of awards, vesting and payment terms under the SSGA LTIP mirror the terms of the DVAs granted

30 STATE STREET CORPORATION

Table of Contents

Executive Compensation (continued)

2018 NOTICE OF MEETING AND PROXY STATEMENT

to our other current NEOs. The one material difference is that participants choose among three notional investment options under the SSGA LTIP, including a money market option, which Mr. Taraporevala selected. The money market notional investment is increased to approximate a total annual return target of 3% over the deferral period in the same manner as under the DVA terms.

- (3) Early in each compensation year, the Compensation Committee identifies specific types of objectively determinable factors that could affect performance measures during the year and which will be excluded from the performance measure calculation. Factors that result in an adjustment to the calculation of performance measures include: acquisitions, dispositions and similar transactions and related securities issuances and expenses; changes in accounting principles, tax or banking law or regulations; litigation or regulatory settlements arising from events that occurred prior to the performance period; and restructuring charges and expenses. However, the Committee retains the power to exercise negative discretion, as it deems appropriate, to reduce the actual payouts under performance awards as a result of any of these factors.

Restrictive Covenants. Each of our deferred incentive compensation awards includes restrictive covenants applicable to our NEOs. Beginning with awards granted for 2015 performance, we added provisions concerning non-competition to the non-solicitation, confidentiality and non-disparagement provisions included historically in these awards.

2017 Compensation Decisions***Total Compensation Approach***

The Compensation Committee evaluates individual compensation for our NEOs and other executive officers by looking at total compensation, consisting of base salary and incentive compensation.

Base Salary. Base salary is a fixed annual cash amount and is a relatively small portion of total compensation for the NEOs. 2017 annual base salary rates for the NEOs, other than Mr. Erickson, remained unchanged from their levels in 2016. Effective April 1, 2017, Mr. Erickson received an increase of \$46,727 to his 2016 salary in recognition of his June 2016 appointment as Head of Investment Servicing, Americas and relative internal and external salary levels. Mr. Erickson was appointed to his current role, Head of State Street Global Services, effective in November 2017, but received no further increase to his salary at that time. Mr. Erickson's base salary is paid in Hong Kong Dollars (HK\$) rather than U.S. Dollars (US\$). Base salary displayed in this CD&A for Mr. Erickson is converted from HK\$ to US\$ using the December 29, 2017 exchange rate of 1 HK\$ to 0.127948 US\$.

Incentive Compensation. Incentive compensation is a variable amount, comprising both equity-based elements, awarded as a long-term incentive, and cash-based elements, awarded as an annual incentive both in immediate and deferred cash. The Committee believes a significant amount of incentive compensation should take the form of both deferred awards and equity awards. Therefore, to emphasize long-term performance, a high percentage of each NEO's

total incentive compensation is delivered as an equity-based long-term incentive and a portion of the annual incentive is deferred.

By paying a significant portion of our NEOs' compensation in equity and by requiring vesting of that component over multiple years, the Committee creates an incentive structure where both the rewards and risks of share ownership are shared by our executives and shareholders.

Individual Compensation Targets. For 2017, the Compensation Committee established compensation targets for each current NEO's annual and long-term incentive. These targets were based upon an assessment of the executive's role and responsibilities at State Street and relevant competitive and market factors, as well as internal equity.

Annual Incentive. The annual incentive is composed of non-deferred cash and DVAs (and SSGA LTIP awards in lieu of DVAs for Mr. Taraporevala), and is designed to reflect the executive's performance for the year, including on a strategic, financial and risk management basis. Therefore, the actual annual incentive can vary from target year to year based on State Street's and the executive's performance. The final annual incentive award can range between 0% and 200% of target to reflect performance. 2017 annual incentive awards (granted in February 2018) for our current NEOs ranged from 125% to 158% of target.

Long-Term Incentive. The long-term incentive is composed of performance-based RSUs and DSAs and is designed to reflect State Street's long-term performance trend, as well as the core responsibilities associated with the executive's role over time. Therefore, the actual long-term incentive awarded is expected to be consistent from year to year, absent a change in (1) State Street's long-term performance trend, (2) the executive's responsibilities or (3) market compensation practices. Absent any of these changes, the long-term incentive may still vary within a range of 80% to 120% of the target based on an assessment of actions or behaviors that affect the NEOs' long-term value to State Street. These behaviors may include prioritizing cross-organization initiatives in support of State Street's business strategy, serving as an ethical role model, enhancing a culture of compliance and prudent risk-taking and ensuring that management practices, such as diversity and inclusion and employee engagement initiatives, are in place to deliver the required talent pipeline, as well as other considerations deemed appropriate by the Committee. The Committee emphasizes different behaviors from year to year in making long-term incentive decisions.

Table of Contents

Executive Compensation (continued)

2018 NOTICE OF MEETING AND PROXY STATEMENT

relative to each NEO's target. For 2017, the Committee emphasized factors such as diversity and inclusion, talent development and employee engagement. 2017 long-term incentive awards (granted in February 2018) for our current NEOs ranged from 95% to 100% of target.

NEW for 2017. In determining NEO long-term incentive grants for 2017 performance, the Compensation Committee formalized its assessment of actions and behaviors (as described above) to include factors such as diversity and inclusion, talent development and employee engagement.

The Committee establishes annual and long-term incentive compensation targets for NEOs as well as members of State Street's Management Committee at the beginning of each year. The 2017 annual and long-term incentive compensation targets established for each of our NEOs, other than Mr. Bell, are listed in the following chart:

Name ⁽¹⁾	Base Salary Rate	Target Incentive Compensation ⁽²⁾			Target Total Compensation

- (1) Mr. Bell ceased serving as our Chief Financial Officer in March 2017 as part of a planned transition. The Committee therefore did not establish incentive compensation targets for his 2017 performance.
- (2) The Committee retains the ability to deviate from the annual and long-term incentive targets (higher or lower), their designed purposes or the form of compensation delivered as it deems appropriate based on performance or other factors or circumstances.
- (3) The award granted to Mr. Aboaf in connection with his hiring and the promotion awards granted to Messrs. Aboaf, Erickson and Taraporevala described under 2017 Compensation Decisions Individual Compensation Decisions were not considered in setting annual and long-term incentive targets and are therefore excluded from this table.
- (4) Mr. Taraporevala was not a member of State Street's Management Committee when 2017 incentive compensation targets were set by the Compensation Committee. His targets were set by Messrs. O'Hanley and Hooley in March 2017, based upon considerations consistent with those used by the Compensation Committee in setting targets for each member of the Management Committee.

Compensation Assessment Framework

For each NEO, the Compensation Committee determines the appropriate level of total compensation for the year. This determination is based on a subjective evaluation of many factors, including corporate performance, individual performance and market, regulatory and shareholder considerations. In evaluating these factors and making 2017 compensation decisions for the current NEOs, the Committee used the following framework:

Performance assessed under this framework drives incentive compensation determinations relative to each NEO's targets, particularly for the annual incentive. The Committee balances corporate and individual results to reach final total compensation decisions. In doing so, the Committee may consider additional factors or give greater or less weight to specific notable factors.

Corporate Performance

Framework Evaluation. As referenced above, the corporate performance framework uses a structured evaluation of three discrete and multi-factor scorecards, which contain both quantitative and qualitative metrics and cover:

financial performance

performance against strategic objectives

risk management performance, including the risk management performance of significant individual business lines and functions

The Compensation Committee received financial, strategic objectives and risk management performance scorecard updates in July and December 2017. The Compensation Committee also received an additional interim financial performance scorecard update in September 2017, as well as the final 2017 financial, strategic objectives and risk

management scorecards in early 2018. The Committee's overall evaluation of corporate performance, balancing positive and negative performance outcomes in each of these scorecards, is a primary driver of incentive compensation decisions for our NEOs.

In 2017, we achieved strong financial results while advancing our digital strategy, developing new solutions to support our clients, positioning State Street for continued growth and demonstrating our ongoing commitment to risk excellence. Our results reflect strength across our asset servicing and asset management businesses, increased client demand for our products and services and disciplined expense control. Strong global equity markets and rising interest rates also created a favorable environment for revenue growth.

2018 NOTICE OF MEETING AND PROXY STATEMENT

Eric W. Aboaf

2017 Performance Highlights

As Chief Financial Officer, Mr. Aboaf drove strong corporate financial results and a more effective Finance function.

Delivered 1-Year TSR of 27.83%, including returning ~\$2 billion to shareholders through common stock purchases and dividends

Exceeded corporate financial targets, increasing revenue, EPS and ROE on both a GAAP and operating (non-GAAP)⁽¹⁾ basis from year-end 2016, while maintaining a strong capital position

Actively intervened to maintain expense discipline, including achieving ~\$150 million in 2017 net pre-tax savings through the Beacon initiative

Implemented effective liability pricing actions to improve net interest margin (NIM)

Delivered on regulatory commitments

Supported culture of risk excellence with particular focus on regulatory risk management

Realigned Finance's global operating model to drive efficiency and effectiveness

Effectively progressed talent development, employee engagement and diversity initiatives in the Finance function

2017 Compensation

Mr. Aboaf was hired in December 2016 to succeed Mr. Bell as Chief Financial Officer and was appointed to the role on February 28, 2017

The Committee granted an award to Mr. Aboaf in connection with his hiring, awarded in the first quarter of 2017 and designed to compensate for the loss of 2016 incentive compensation from Mr. Aboaf's prior employer. This award was granted in a combination of non-deferred cash, DSAs and performance-based RSUs, on the same terms and vesting in the same manner as 2016 incentive compensation awards made to our other NEOs in February 2017. The award was granted as follows:

\$892,500 in non-deferred cash;

\$663,000 in DSAs; and

\$994,500 in performance-based RSUs

The Committee also granted a promotion award valued at \$2,000,000 to Mr. Aboaf in February 2018 in recognition of the additional responsibilities he assumed, in support of the implementation of our leadership transition announced in November 2017. This award was granted entirely in the form of performance-based RSUs, which vest in the same manner as 2017 incentive compensation awards made to our other current NEOs in February 2018

Mr. Aboaf was awarded total compensation of \$6,367,000 for 2017, excluding the award made in connection with his hiring and the promotion award noted above. This total includes annual incentives at 151% of target and long-term incentives at 100% of target. Overall incentive compensation was awarded at 118% of target

Note on 2018 Compensation In connection with the expansion of Mr. Aboaf's role to include responsibility for our Global Strategy function noted above, the Committee increased his target total compensation for 2018 from \$5,500,000 to \$6,500,000

Ronald P. O Hanley

2017 Performance Highlights

As Chief Executive Officer of SSGA, Mr. O Hanley delivered strong financial results, innovative new products and improved marketing

Improved revenue and margin through focused investments and expense discipline

Expanded ETF business with the launch of low cost ETFs and innovative new products

Raised market profile with Fearless Girl and SSGA's leadership in strong corporate governance

Achieved accretion and full integration of the 2016 GE Asset Management acquisition ahead of plan

Launched Office of the CIO business, securing key client wins in 2017

Executed leadership succession plan with the appointment of Mr. Taraporevala to President and Chief Executive Officer of SSGA in November 2017

Supported culture of risk excellence, delivering results with appropriate focus on risks and controls, in particular regarding development of State Street's 2017 resolution plan

Executed on key talent development and employee engagement initiatives, with continued focus needed to enhance the diversity of our workforce in SSGA

2017 Compensation

Mr. O Hanley was awarded total compensation of \$9,779,000 for 2017, up from \$8,670,000 in 2016, which includes annual incentives at 136% of target and long-term incentives at 95% of target. Overall incentive compensation was awarded at 110% of target

Note on 2018 Compensation In connection with Mr. O Hanley's promotion described above under Executive Summary 2017 Leadership Succession, the Committee increased his target total compensation for 2018 from \$9,000,000 to \$10,500,000

2018 NOTICE OF MEETING AND PROXY STATEMENT

Andrew Erickson

2017 Performance Highlights

As Head of Investor Services Americas, Mr. Erickson attracted significant new business, improved quality of service for existing clients and prudently managed expenses

Achieved transformational sales wins, while leading his peers in efficiency improvements

Developed enhanced reporting to improve service levels and relationship coverage for State Street's clients and optimize internal processes

Strengthened control environment within function with an active focus on risk excellence

Continued to improve employee engagement, reducing unplanned turnover and increasing internal mobility while championing professional challenge initiatives. However, additional focus needed to further enhance the diversity of our workforce in Investor Services Americas

2017 Compensation

Mr. Erickson was appointed Head of State Street Global Services effective in November 2017. Prior to his appointment, he served as Executive Vice President and Head of Investment Servicing, Americas

The Committee also granted a promotion award valued at \$4,000,000 to Mr. Erickson in November 2017 in recognition of his promotion and role in the implementation of our leadership transition announced in November 2017. This award, granted entirely in the form of performance-based RSUs, was originally granted with a GAAP ROE performance target of 12%, an increase from 11% for 2016 and 2015 awards reflecting evolving market conditions and increased visibility into the effects of new regulatory standards. However, in February 2018

Mr. Erickson agreed to modify the award to increase the ROE target to 13% to reflect the expected effects of the U.S. tax legislation enacted in December 2017 and to align with the terms of the 2017 awards made to our other current NEOs in February 2018. Mr. Erickson was awarded total compensation of \$3,937,539 for 2017, excluding the promotion award noted above, which includes annual incentives at 142% of target and long-term incentives at 100% of target. Overall incentive compensation was awarded at 114% of target

Note on 2018 Compensation In connection with Mr. Erickson's promotion to Head of State Street Global Services noted above, the Committee increased his target total compensation for 2018 from approximately \$3,500,000 to \$5,000,000, which includes an approved base salary increase, effective in April 2018, from \$446,539 to \$500,000⁽¹⁾

(1)The Committee set Mr. Erickson's 2018 target total compensation and base salary increase in HK\$ at 39,060,000 HK\$ and 3,910,000 HK\$, respectively. US\$ values quoted are approximate and based on the December 29, 2017 exchange rate of 1 HK\$ to 0.127948 US\$.

Cyrus Taraporevala

2017 Performance Highlights

As Head of the Global Institutional Group at SSGA, oversaw a remodeling of Institutional distribution, successful price competitiveness and product innovation efforts and improved marketing for our SSGA and SPDR® brands

Defined a more effective Institutional distribution strategy and operating model

Improved revenue and achieved accretion for the 2016 GE Asset Management acquisition ahead of plan

Successfully launched expanded investment capabilities, while rationalizing and repricing existing product ranges

With Mr. O Hanley, improved our market profile with Fearless Girl and SSGA's leadership in strong corporate governance

Executed talent plan, including widespread skills upgrades within the global institutional group organization

Maintained critical focus on risk management activities through close partnerships with Compliance and Audit functions

2017 Compensation

Mr. Taraporevala was appointed President and CEO of SSGA effective November 2017. Prior to his appointment, he served as Executive Vice President and Head of the Global Institutional Group at SSGA. As a result, his 2017 compensation reflects the compensation program applicable to SSGA Executive Vice Presidents. This program was substantially similar to the compensation program for the other current NEOs, except for the following:

He received a lower percentage of his long-term incentive in performance-based RSUs (20% instead of 60%), with the remainder of his long-term incentive composed of DSAs;

He received deferred cash-based incentive compensation in the form of SSGA LTIP awards, discussed under Compensation Design Elements, above, rather than DVAs

The Committee also granted a promotion award valued at \$4,000,000 to Mr. Taraporevala in November 2017 in recognition of his promotion and role in the implementation of our leadership transition announced in November 2017. This award, granted entirely in the form of performance-based RSUs, was originally granted with a GAAP ROE performance target of 12%, an increase from 11% for 2016 and 2015 awards reflecting evolving market conditions and increased visibility into the effects of new regulatory standards. However, in February 2018 Mr. Taraporevala agreed to modify the award to increase the ROE target to 13% to reflect the expected effects of the U.S. tax legislation enacted in December 2017 and to align with the terms of the 2017 awards made to our other current NEOs in February 2018

Mr. Taraporevala was awarded total compensation of \$4,000,000 for 2017, excluding the promotion award noted above, which includes annual incentives at 125% of target and long-term incentives at 100% of target. Overall incentive compensation was awarded at 113% of target

Note on 2018 Compensation In connection with Mr. Taraporevala's promotion to President and CEO of SSGA noted above, the Committee increased his target total compensation for 2018 from \$3,600,000 to \$5,000,000, which includes an approved base salary increase, effective in April 2018, from \$400,000 to \$450,000

(1) Mr. Bell ceased serving as our Chief Financial Officer in March 2017 and did not receive any incentive awards for 2017 performance.

(2) The award granted to Mr. Aboaf in connection with his hiring and the promotion awards granted to Messrs. Aboaf, Erickson and Taraporevala described under 2017 Compensation Decisions Individual Compensation Decisions were not considered in setting annual and long-term incentive targets and are therefore excluded from this table.

The Compensation Committee's 2017 total compensation decisions for the current NEOs are presented in the table below. The table below is intended to help shareholders understand the process and philosophy the Committee used in calculating current NEO compensation for 2017 performance. Note (1) to the table below describes the relationship between the amounts reported in the table below and those amounts reported in the Summary Compensation Table (as required by SEC rules) and related tables beginning on page 49. **While the table below summarizes how the Committee views annual compensation, it is not a substitute for the tables and disclosures required by the SEC's rules.**

(1) The compensation described in the table above, which summarizes how the Committee evaluates annual total compensation, differs from the compensation described in the Summary Compensation Table beginning on page 49 in the following respects:

Annual Base Salary. The table above reflects the year-end annual base salary rate applicable for each current NEO. Column (c) in the Summary Compensation Table presents the amount of base salary actually earned by each NEO during the relevant year.

Table of Contents

Executive Compensation (continued)

2018 NOTICE OF MEETING AND PROXY STATEMENT

DVAs/SSGA LTIP. The table above reflects the value of deferred cash compensation designated by the Committee and does not include the adjustment factor intended to provide the notional investment return of a money market instrument during the deferral period. The DVA and SSGA LTIP award amounts included in the Summary Compensation Table are increased to reflect this adjustment factor, which is more fully described in note (4) to the Summary Compensation Table.

Long-Term Incentive Awards. The Compensation Committee grants long-term incentive equity awards based on the prior year's performance. In the table above, equity awards are shown for the year of performance (e.g., equity granted in 2018 for 2017 performance is shown as 2017 compensation). Under applicable SEC rules, the Summary Compensation Table presents equity awards in the year in which they are made (e.g., equity granted in 2017 for 2016 performance will be shown as 2017 compensation).

Other Awards. The award granted to Mr. Aboaf in connection with his hiring and the promotion awards granted to Messrs. Aboaf, Erickson and Taraporevala described under 2017 Compensation Decisions Individual Compensation Decisions were not considered in setting annual and long-term incentive targets and are therefore excluded from the Total Compensation column in this table. Such awards include equity-based components, which, under applicable SEC rules, are presented in the Summary Compensation Table in the year in which the awards are granted. The promotion awards were granted entirely in the form of performance-based RSUs in the following amounts in recognition of each executive's promotion and role in implementing our leadership transition announced in November 2017: \$4,000,000 to Mr. Erickson in November 2017, \$4,000,000 to Mr. Taraporevala in November 2017 and \$2,000,000 to Mr. Aboaf in February 2018.

Total Compensation. The amounts disclosed above differ from the amounts reported in column (j) of the Summary Compensation Table due to the different methodologies discussed in the notes above. Additionally, this presentation excludes several items from the Summary Compensation Table that State Street does not view as primary components of regular annual compensation, such as Change in Pension Value (which is due solely to variances in actuarial computations over time).

- (2) Mr. Bell ceased serving as our Chief Financial Officer in March 2017 and did not receive any incentive awards for 2017 performance.
- (3) SSGA LTIP awards granted only to Mr. Taraporevala. He received SSGA LTIP awards for 2017 based on his role prior to his appointment to President and Chief Executive Officer of SSGA in November 2017.

Other Elements of Our Process***Roles of the Committee and the CEO***

The Compensation Committee has direct responsibility for executive officer compensation plans, policies and programs at State Street and for establishing the overall compensation philosophy for executive officers, other than the Chief Executive Officer. The Committee performs those same functions for the Chief Executive Officer in consultation with the other independent directors. Accordingly, the Committee's compensation decisions for the Chief

Executive Officer include input from the other independent directors of the Board, whether or not specifically referenced in this CD&A. In making compensation decisions for the other NEOs, the Committee considers the recommendations of the Chief Executive Officer and input from the other independent directors.

The Committee met eight times from July 2017 through March 2018 regarding 2017 NEO compensation and evaluated a broad range of corporate performance factors, individual performance updates, market information, regulatory updates and input from our shareholder engagement efforts, as well as its pay-for-performance practices and the results of our annual shareholder meeting, including say-on-pay results. The Committee also considered evolving trends, practices, guidance and requirements in the design, regulation, risk-alignment and governance of compensation matters in the U.S. and other jurisdictions, including Europe and Asia. During these meetings, the Committee received regular updates, including from the Committee's independent compensation consultant, on these and other matters, particularly with respect to the financial services industry.

Peer Group and Benchmarking

Among the many factors used in determining executive compensation, we benchmark our total compensation against a peer group of other major financial services companies. The Compensation Committee did not treat peer group data as definitive when determining 2017 executive compensation. Rather, it referenced peer group compensation data as well as performance data, but formed its own perspective on compensation for our current NEOs based on a subjective evaluation of many factors.

We consider few firms to be true comparators for the specific scope of our primary business activities. We include our direct competitors as well as other firms with which we compete in some aspects of our businesses and for executive talent. The group varies in firm size and business lines and the nature of applicable regulation, including status (like State Street) as a systemically important financial institution. The peers were selected based on a screening methodology that accounts for our industry sector, size, specific business model and applicable regulatory frameworks. Our generally applicable peer group, periodically reviewed and approved by the Committee, consists of the following 12 firms:

Ameriprise Financial, Inc.	JPMorgan Chase & Co.
The Bank of New York Mellon Corporation	Morgan Stanley
BlackRock, Inc.	Northern Trust Corporation
Capital One Financial Corporation	The PNC Financial Services Group, Inc.
Franklin Resources, Inc.	U.S. Bancorp
The Goldman Sachs Group, Inc.	Wells Fargo & Company

Table of Contents

Executive Compensation (continued)

2018 NOTICE OF MEETING AND PROXY STATEMENT

A subset of the above firms, consisting of Bank of New York Mellon, Capital One, JPMorgan, Northern Trust, PNC Financial Services, U.S. Bancorp and Wells Fargo, was also used to benchmark Mr. Hooley's compensation. The Committee believes this subset contains the comparator companies most appropriate for evaluating compensation of the Chief Executive Officer position. The Committee recognized that the peer group companies vary in size and business lines. In addition, the nature of the roles of executives varies by firm. Therefore, as noted above, the Committee referenced peer group data, but formed its own perspectives on appropriate compensation levels for our current NEOs on a subjective evaluation of many factors, including those described under the heading "2017 Compensation Decisions - Total Compensation Approach."

In 2017, State Street worked with Meridian Compensation Partners, the Committee's independent compensation consultant, to compile market compensation data from each applicable peer group for benchmarking purposes. The peer market compensation data, based on publicly disclosed information, was supplemented with multiple compensation surveys provided by other compensation data providers. This survey data generally covered large financial services companies with whom we may compete for talent for our executive roles. In evaluating this data, the Committee considers total compensation to consist of base salary and incentive compensation. In addition to this market data, the Committee received regular updates during 2017 and the first quarter of 2018 regarding identified market trends and compensation actions at major financial services institutions.

Compensation Consultant

The Compensation Committee directly retains Meridian Compensation Partners to provide compensation consulting to the Committee. Meridian regularly participated in meetings and executive sessions of the Committee. Meridian did not provide any other services to State Street during 2017.

The Committee believes the consultant's primary representatives advising the Committee must be independent of management and the Committee for the consultant to provide appropriate advice on compensation matters. Therefore, the Committee adopted a policy requiring an annual assessment of compensation consultant independence based on the requirements of the NYSE. In December 2017, the Committee reviewed the independence of Meridian's primary representatives under the policy. Following its review, the Committee determined the primary representatives of Meridian to be independent and that no conflicts of interest were raised by the services of Meridian or its primary representatives.

The Committee reviews data prepared by Willis Towers Watson PLC and McLagan Partners as part of its consideration of compensation matters. Each of these firms, engaged by our Global Human Resources group based on its specialized expertise in the financial services industry, has provided other services to State Street in the past and may do so in the future.

Non-GAAP Information

During its evaluation of 2017 performance, the Compensation Committee had access to financial results presented in conformity with GAAP, as well as financial results presented on an operating basis, which is a non-GAAP presentation. Management has historically believed its operating-basis presentation supports additional meaningful analysis and comparisons of trends with respect to State Street's business operations from period to period. Management may also provide, as appropriate, additional non-GAAP measures, including capital ratios calculated under regulatory standards scheduled to be effective in the future or other standards that management uses in evaluating State Street's business and activities. For the full-year 2016 comparative financial information, our operating-basis financial results are presented with additional adjustments to highlight the effects of the acceleration of compensation expense and aggregate reduction of accrued tax expense we experienced in the fourth quarter of 2016. This type of additional presentation is consistent with the intent of our historical operating-basis presentation. In general, our operating-basis financial results adjust our GAAP-basis financial results to both: (1) exclude the impact of revenue and expenses outside of State Street's normal course of business, such as restructuring charges and the one-time effects of the Tax Cuts and Jobs Act of 2017; and (2) present revenue from non-taxable sources, such as interest income from tax-exempt investment securities and processing fees and other revenue associated with tax-advantaged adjustments, on a fully taxable-equivalent basis. Management has historically believed that operating-basis financial information facilitates an investor's further understanding and analysis of State Street's financial performance and trends, including providing additional insight into our underlying margin and profitability, in addition to financial information prepared and reported in conformity with GAAP. The tax-equivalent adjustments provide additional comparisons of yields and margins on assets and the evaluation of investment opportunities with different tax profiles. Non-GAAP financial measures should be considered in addition to, and not as a substitute for or superior to, financial measures determined in conformity with GAAP.

Other Elements of Compensation

Additional elements of our compensation program for our NEOs include the following.

Recourse Mechanisms

The incentive compensation awards to our NEOs are subject to recourse mechanisms, including clawback, forfeiture and *ex ante* adjustment, as described below. These awards are also subject to any compensation recovery or similar requirements under applicable law and implementing regulations and related State Street policies. This approach is intended to comply with applicable banking regulations and regulatory guidance on incentive compensation and will be interpreted and administered accordingly. In 2017, the Compensation Committee reviewed the terms of these recourse mechanisms in light of evolving market practices and extended the clawback and forfeiture provisions applicable to current NEOs to also apply to all employees at the Executive Vice President level and broadened the circumstances that may result in clawback or forfeiture under these provisions. The Committee may continue to adjust its approach for future incentive compensation awards based on market practice and regulatory guidance.

Clawback. After vesting (if applicable) and delivery to the executive, all amounts delivered to our NEOs as incentive compensation awards, including cash incentive, performance-based RSUs, DSAs, DVAs and SSGA LTIP awards, contain clawback provisions providing for the repayment of those amounts, in whole or in part, upon the occurrence of specified events. The Compensation Committee, in its discretion, determines whether clawback is appropriate, making that determination within four years (in the case of performance-based RSUs) or three years (in the case of all other forms of incentive compensation) of the date of the grant of the award. The events for which clawback may occur include either:

if the executive engaged in fraud or willful misconduct, including in a supervisory capacity, that resulted in financial or reputational harm that is material to State Street and resulted in termination of the executive's employment, or

if, as a result of the occurrence of a material financial restatement by State Street contained in a filing with the SEC or miscalculation or inaccuracy in financial results, performance metrics, or other criteria used in determining the amount of the award, the executive would have received a smaller or no award

Forfeiture. Before vesting and delivery to the executive, all deferred incentive compensation awards to our NEOs, including performance-based RSUs, DSAs, DVAs and SSGA LTIP awards, allow reduction or cancellation of the

award, in whole or in part, upon the occurrence of specified events. The Compensation Committee, in its discretion, determines whether forfeiture is appropriate. The events for which forfeiture may occur include:

if the executive's actions exposed State Street to inappropriate risks that resulted or could reasonably be expected to result in material losses that are or would be substantial in relation to State Street's or a relevant business unit's revenue, capital and overall risk tolerance

if the executive engaged in fraud, gross negligence or any misconduct, including in a supervisory capacity, that was materially detrimental to the interests or business reputation of State Street or any of its businesses

if the executive engaged in conduct that constituted a violation of State Street policies and procedures or Standard of Conduct in a manner which either caused or could have caused reputational harm that is material to State Street or either placed or could have placed State Street at material legal or financial risk

if, as a result of a material financial restatement contained in an SEC filing, or miscalculation or inaccuracy in the determination of performance metrics, financial results or other criteria used in determining the amount of the award, the executive would have received a smaller or no award

if the executive's employment is terminated by State Street for gross misconduct

Ex Ante Adjustment. Before planned awards are made to the executive for a given compensation year, all incentive compensation for our NEOs, including both deferred incentive compensation awards and the non-deferred cash incentive, is subject to downward adjustment, in whole or in part, upon the occurrence of specified events. The Compensation Committee, in its discretion, determines whether *ex ante* adjustment is appropriate. The events for which *ex ante* adjustment may occur include:

if the executive's actions exposed State Street to inappropriate risks that resulted in a Significantly Below Expectations rating on any of the factors on State Street's corporate multi-factor risk scorecard, which guides State Street's risk assessment process

if the executive incurred significant or repeated compliance or risk-related violations of State Street's policies

Retirement Benefits

Our U.S.-based NEOs are eligible to participate in our 401(k) defined contribution retirement plan available to our U.S.-based employees generally. For 2017, the plan included a matching employer contribution of 5%. We also maintain a frozen qualified defined benefit pension plan for certain U.S. employees that determines benefits based on an account balance that is increased annually by interest credits. Mr. Hooley is the only current NEO who participates in this plan; no additional annual pay credits, however, are provided to his account.

Because pension benefits under our U.S. qualified defined benefit plan are limited by Internal Revenue Code restrictions, we maintain two supplemental pension programs, both of which are frozen. One was designed to make up for limits imposed by the qualified plan or by the Internal Revenue Code on qualified-plan benefits and was frozen along with the qualified defined pension plan. Mr. Hooley is the only current NEO who participates in this plan. The second was originally designed to provide executive vice presidents or above with competitive retirement benefits to encourage their continued employment based upon a specified percentage of compensation. It was later changed to include two separate benefit components: (1) the traditional defined benefit component, in which Mr. Hooley participates, which was frozen in 2007, and (2) a defined contribution component, which was frozen in January 2017 following an executive supplemental retirement plan market analysis, and in which only Messrs. Hooley and Erickson participate.

These plans are described in further detail below under the heading Pension Benefits at Fiscal Year-End.

Mr. Erickson participates in our Hong Kong defined contribution Mandatory Provident Fund (MPF) and Occupational Retirement Scheme Ordinance (ORSO), which are retirement programs available to our Hong Kong employees generally, including Mr. Erickson. In aggregate, the participant contributes 5% of his or her base salary and State Street contributes an amount equal to 10% of the participant's base salary to the MPF and ORSO. Participant and State Street contributions based on the first 5% of monthly base salaries of up to 30,000 HK\$ (approximately 3,800 US\$) are contributed to the MPF; participant contributions based on monthly base salary earnings above that limit, and State Street contributions that exceed 5% of the participant's monthly base salary (or 1,500 HK\$ per month if the participant's monthly base salary is more than 30,000 HK\$), are contributed to the ORSO.

Deferred Compensation

We maintain a nonqualified deferred compensation plan that allows NEOs, other executive officers and others to defer base salary and/or the portion of annual incentive bonuses payable in immediately available cash. Participants receive a return based on one or more notional investment options selected by the participant. Currently, the investment options include a money market fund, three State Street index funds and a State Street common stock fund. The

nonqualified deferred compensation plan supplements deferrals made under our tax-qualified 401(k) plan. We provide these nonqualified deferred compensation benefits because, in our experience, most companies of our size provide a similar benefit to their senior employees. This plan is described below under the heading 2017 Nonqualified Deferred Compensation.

Perquisites

We provide a modest level of perquisites, such as financial planning, annual physicals and personal liability coverage, to our NEOs. In addition, we provide a driver and other security benefits to Mr. Hooley. We offer parking benefits to our other NEOs. We provide these benefits because we believe they are appropriate in scope and amount to promote the effectiveness of our senior executives, allowing them greater opportunity to focus their attention on our business operations and activities. We do not provide a tax gross-up for the income attributable to any perquisite for our NEOs, other than for standard relocation benefits.

Change-of-Control Agreements

Under a long-standing program, we have change-of-control agreements in place with each of our NEOs. We provide these agreements because we believe providing some protection in the event of a change of control is necessary to attract and retain high quality executives and to help address the possible inherent distractions during the period leading up to a possible change of control.

Our change-of-control arrangements are further described below under the heading Potential Payments upon Termination or Change of Control as of December 31, 2017.

Executive Equity Ownership Guidelines, Practices and Policies

State Street believes executive stock ownership is key to aligning our executives' interests with those of our shareholders. It also incentivizes our executives to meet our financial, strategic and risk management objectives. Therefore, we implemented the following practices, policies and guidelines.

Stock Ownership Guidelines. Our stock ownership guidelines apply to all members of our Management Committee, including our current NEOs. These guidelines require executives to own shares of common stock with a value equal to the multiple of the relevant executive's annual base salary shown below. Guideline levels are phased in over a period of five years, with the first year starting on the first January 1 after the person becomes an executive officer. The executive is expected to attain the ownership level ratably over five years and is deemed to satisfy the guideline if that ratable ownership level is met.

Our Stock Ownership Guidelines also include a holding requirement. Under this requirement, during the five-year phase-in period, each executive must hold 50% of the net shares received from a vesting event until the ownership requirement is met. Following the five year phase-in period, if the ownership guideline is not met, a 100% holding requirement applies until the ownership guideline is satisfied. As of March 1, 2018, the holding requirement does not apply to any of the current NEOs, other than Mr. Aboaf, as each exceeds their full (not ratable) ownership guideline. Mr. Aboaf joined our Management Committee in December 2016 and exceeds his ratable ownership guideline, but is subject to the holding requirement described above, as he does not yet exceed his full ownership guideline.

Eric W. Aboaf	5	On a Pro Rata Basis
Ronald P. O Hanley	5	
Andrew Erickson	5	
Cyrus Taraporevala	5	

The level of ownership is calculated on the same date used for the beneficial ownership table in our annual meeting proxy statement and by reference to the closing price of our common stock on the NYSE on that date. Ownership includes unvested time-vesting shares, DSAs and earned performance-based RSUs (all on an after-tax basis), including shares held under our 401(k) retirement plan, but excludes stock options, stock appreciation rights and unearned performance-based RSUs. This calculation differs from the calculation of shares under applicable SEC rules for purposes of the beneficial ownership table on page 76.

As noted in the table above, the stock ownership of each current NEO exceeded the expected level of ownership under these guidelines.

Securities Trading Policy; No Hedging or Speculative Trading; Rule 10b5-1 Plans. State Street has a Securities Trading Policy that contains specific provisions and trading restrictions. The policy assists our executive officers, including our NEOs, and other designated employees with access to sensitive information, to comply with U.S. federal securities laws when trading in State Street securities. The policy prohibits selling State Street securities short, engaging in hedging transactions in State Street securities and engaging in speculative trading in State Street securities. The policy permits individuals, including our NEOs, to enter into trading plans designed to comply with Rule 10b5-1 under the Exchange Act of 1934. Rule 10b5-1 allows executives to prearrange sales of their company's securities in a manner designed to avoid initiating stock transactions while in possession of material non-public information. Our NEOs and other executive officers may, from time to time, adopt trading plans under Rule 10b5-1 and effect transactions in our securities under those plans. The Securities Trading Policy is in addition to the

requirements in the State Street Standard of Conduct, applicable to all employees, that their trading activities must be in compliance with applicable law and that they may not trade on the basis of material non-public information.

Equity Grant Guidelines. The Compensation Committee adopted Equity Grant Guidelines, as described below:

Annual Equity Award Grants. Annual grants of equity awards to our NEOs, other executive officers and other employees are typically made by the Committee on the date of a scheduled meeting of the Committee or the Board of Directors to be held in February or March of each year following the public release of financial results for the prior fiscal year. Pursuant to authority delegated by the Board, and subject to any limitations that the Board or the Committee may establish, another committee of the Board (which may consist of a single member) may make annual grants to persons other than executive officers on the date of the scheduled meeting in February or March

Other Equity Award Grants. Grants of equity awards to NEOs and other executive officers in connection with new hirings, promotions, special recognition, retention or other special circumstances are made by the Committee. Awards to other individuals may be made either by the Committee or, subject to any limitations that the Board or the Committee may establish, a committee of the Board composed of (1) the Chairman of the Board, (2) the Chief Executive Officer, (3) the Committee Chair or (4) the Committee Chair along with any other member of the Committee. This type of award may be granted on the date of a scheduled meeting of the Committee, a scheduled meeting of the Board or the last business day of a calendar month

The exercise price for all stock options and stock appreciation rights will be the NYSE closing price of State Street's common stock on the date of grant

Except for the setting of the February or March meeting to occur after our public release of annual earnings, there was no program, plan or practice with respect to 2017 of timing equity awards in coordination with the release of material non-public information.

Tax Deductibility of Executive Compensation

Section 162(m) of the U.S. Internal Revenue Code, or Section 162(m), generally limits to \$1 million the U.S. federal income tax deductibility of compensation paid in one year to covered employees. Performance-based compensation paid through calendar year 2017 was not subject to the limits on deductibility of Section 162(m), provided such compensation met specified requirements, including shareholder approval of material terms of compensation. Deductibility of performance-based compensation under Section 162(m) was eliminated by the Tax Cuts and Jobs Act of 2017 effective January 1, 2018, subject to transition rules. In addition, the definition of covered employees under Section 162(m) was amended to expand the definition of covered employees. As such, effective January 1, 2018

covered employees include any person who was the chief executive officer or chief financial officer at any time during the tax year, as well as the next three most highly paid NEOs as of the last day of the taxable year. In addition, any person who was a covered employee as of January 1, 2017 or becomes a covered employee thereafter will remain a covered employee in perpetuity.

The Compensation Committee considers tax deductibility in making compensation decisions, to the extent deductibility is reasonably practicable and consistent with our other compensation objectives. The Compensation Committee continues to believe that shareholder interests are best served by not restricting its discretion and flexibility in structuring compensation programs, even though such programs will result in non-deductible compensation expenses.

Compensation Committee Report

The Compensation Committee furnishes the following report:

The Committee has reviewed and discussed the Compensation Discussion and Analysis with State Street management. Based on this review and discussion, the Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement.

Alignment of Incentive Compensation and Risk

We align incentive compensation with appropriate risk management principles, such as providing incentives that do not encourage unnecessary or excessive risk-taking and establishing additional process controls and oversight where appropriate. We utilize broad and integrated processes to maintain this alignment, including to:

conduct risk-based reviews of incentive plan design

identify individuals whose activities may expose State Street to material amounts of risk

adjust compensation for risk

implement specific Board committee review of selected control function compensation (*e.g.*, Board-level Examining and Audit Committee review of Chief Compliance Officer and Compliance Department compensation)

As a result of these reviews and processes, we believe that our compensation policies and practices for employees do not create risks that are reasonably likely to have a material adverse effect on us. We will continue to monitor developments in this area and may, as we believe appropriate, make related adjustments to our compensation practices.

* Amounts in this column show total compensation, as determined under applicable SEC rules and reported in column (j), minus the change in pension value reported in column (h). This is provided to illustrate the effect that the year-over-year change in pension value had on total compensation as determined under applicable SEC rules and to highlight the effect of the Executive Compensation Committee's (ECC) decisions on total compensation year-over-year. Refer to the compensation table included in the Compensation Discussion and Analysis on page 40 for the ECC's compensation decisions for each NEO. The amounts reported in the Total without Change in Pension

Value and Nonqualified Deferred Compensation Earnings column differ from the amounts reported in the Total column (column (j)) and are not a substitute for total compensation calculated in accordance with SEC rules. The change in pension value is subject to external variables that are not related to the Company's performance.

- (1) Salary column displays actual 2017 compensation paid as salary. Mr. Erickson is a Hong Kong employee and his salary was converted from HK\$ to US\$ using the average 2017 exchange rate of 0.128359. Mr. Bell's 2017 salary reflects a partial year as he left State Street in March 2017. In 2016, all US employees transitioned to a one week in arrears pay schedule which resulted in only 51 weeks of salary being paid in 2016. State Street employees are paid bi-weekly. There were 27 pay periods in 2015 (vs. 26 pay periods in 2016 and 2017).
- (2) Reflects the cash payment of \$892,500 that Mr. Aboaf received in February 2017 in connection with his hire in 2016 to compensate him for the loss of 2016 incentive compensation from his prior employer.
- (3) Amounts represent the grant date fair value of awards granted to the NEOs during the indicated years for DSAs and performance-based RSU awards. Fair value for the awards for each year is computed in accordance with GAAP (FASB ASC 718), using the assumptions stated in note 18 to the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2017. The amounts included for the performance-based RSUs reflect target level performance, as reflected in the 2017 Grants of Plan-Based Awards table. Please refer to the 2017 Grants of Plan-Based Awards table for the threshold, target and maximum number of shares associated with the performance-based RSUs awarded to each NEO. The maximum payout on date of grant for each NEO's 2017 performance-based RSUs are as follows: For grants awarded on February 27, 2017: Mr. Hooley: \$8,400,036; Mr. Aboaf: \$1,392,282; Mr. O'Hanley: \$4,451,942; Mr. Erickson: \$1,201,211; and Mr. Bell: \$3,360,000; and for grants awarded on November 30, 2017: Messrs. Erickson and Taraporevala: \$6,000,077.
- (4) Represents the immediate and deferred cash (granted in DVAs) portions of incentive compensation. DVAs are units representing the notional investment return of a money market instrument. The number of units is increased to provide an estimated annual return over the deferral period: 3.00% for DVAs awarded in February 2018 for 2017 performance, 2.50% for DVAs awarded in February 2017 for 2016 performance and 2.75% for DVAs awarded in February 2016 for 2015 performance. The adjustment factor

Table of Contents

Executive Compensation (continued)

is 5.55% for DVAs awarded in February 2018 for 2017, and was 5.16% for DVAs awarded in February 2017 for 2016 and 5.92% for DVAs awarded in February 2016 for 2015. The amounts shown in the Non-Equity Incentive Plan Compensation column above include these adjustments. The cash portion of incentive compensation for 2017 was awarded as follows (including the DVA adjustment factor) in the table below:

2017 Non-Equity Incentive Plan Compensation

Name	DVAs (including Immediate Cash adjustment factor)		Total
	(\$)	(\$)	
Joseph L. Hooley	\$3,087,500	\$1,754,769	\$4,842,269
Eric W. Aboaf	1,103,810	1,544,397	2,648,207
Ronald P. O Hanley	1,695,920	2,372,848	4,068,768
Andrew Erickson	641,130	897,038	1,538,168

Cyrus Taraporevala ^(A)	600,000	1,477,700	2,077,700
-----------------------------------	---------	-----------	-----------

(A) For 2017, Mr. Taraporevala participated in a similar arrangement to the DVA referred to as the SSGA LTIP based on his role prior to his appointment as President and Chief Executive Officer of SSGA on November 7, 2017. Granting of awards, vesting and payment terms under the SSGA LTIP (including the adjustment factor of 5.55%) mirror the terms of the DVAs granted to our other current NEOs.

(5) Because our deferred compensation plans do not provide above-market earnings, no earnings are included in this column. The amounts in this column represent the change in the actuarial present value of the accumulated benefits under our qualified and nonqualified defined benefit pension plans. The plans are frozen and none of the NEOs are receiving additional credits under the plans. Mr. Hooley is the only NEO eligible to participate in our defined benefit pension plans since the other NEOs were either hired or appointed to an eligible role after January 1, 2008. For 2017, the change in value presented in the Summary Compensation Table above reflects a year-over-year update to applicable actuarial calculation assumptions from December 31, 2016 to December 31, 2017, including a change to the lump sum mortality assumption related to the current mandated Internal Revenue Service (IRS) table under Code Section 417(e) and a decrease in the discount rate assumption for the State Street Retirement Plan (SSRP), the Management Supplemental Retirement Plan (MSRP) and the Executive Supplemental Retirement Plan (ESRP), as well as formula-driven changes due to Mr. Hooley being older and closer to retirement. These updates resulted in increases in the actuarial present value of benefits as of December 31, 2017 for Mr. Hooley. The table below describes the change in pension value for 2017, as presented in the Summary Compensation Table above, highlighting the split between (i) the amount attributable to change in age, including ESRP benefit indexing, and (ii) the amount attributable to the actuarial present value effect of the decrease in market interest rates and mortality improvements. The change in pension value presented in the Summary Compensation Table above and in the following table represents actuarial calculations based upon assumptions on the relevant dates. The actuarial present value of the accumulated pension benefits calculated on future dates may increase or decrease, based upon assumptions applicable on those future dates and on formula-driven changes due to the executive's age and ESRP benefit indexing. ESRP defined benefits are indexed three percent per year as a cost-of-living adjustment up to December 31, 2017. The aggregate change in pension value was positive for Mr. Hooley primarily due to the changes in the discount rate and lump sum conversion factor changes. For more details, refer to footnote B of the 2017 Change in Pension Value table below.

2017 Change in Pension Value

Name	Due to Age and	Due to Change in	Total
	Proximity to Retirement ^(A)	Assumptions ^(B)	
	(\$)	(\$)	(\$)
Joseph L. Hooley	\$1,297,107	\$2,227,850	\$3,524,957

- (A) The change in pension value due to an additional year of age was quantified by comparing (i) the December 31, 2016 present value of pension benefits with (ii) the present value of pension benefits calculated on December 31, 2017 holding the December 31, 2016 discount rate and mortality assumptions constant. Since the plans were frozen as of December 31, 2010 and there are no service accruals provided after that date, the increase in value reflects the effects on the present value calculation of pension benefits of Mr. Hooley having aged one additional year closer to normal retirement age (65).
- (B) The change in pension value due to changes in assumptions was quantified by comparing (i) the present value of pension benefits calculated as of December 31, 2017 based on the December 31, 2017 discount rates and mortality assumptions and (ii) subtracting from that the relevant amounts determined to be due to additional age, as set forth in footnote (A) above. The impact of reflecting the lump sum mortality table change and decrease in discount rate assumption for each plan resulted in an increase in pension value.

(6) The following table describes the amounts set forth for 2017 in the All Other Compensation column:

2018 NOTICE OF MEETING AND PROXY STATEMENT

- (A) Amount includes the cost of a car and driver for Mr. Hooley. For the car and driver in 2017, the aggregate non-business incremental cost of \$37,993 was determined by allocating the total cost between non-business and business use by mileage traveled. Amount also includes parking benefits for Messrs. Hooley and O Hanley of \$7,200 and for Messrs. Erickson and Taraporevala of \$6,600.
- (B) Amount represents the cost of security at Mr. Hooley's residence, determined by invoice amounts for alarm monitoring and maintenance.
- (C) Amount shown includes expatriate benefits received by Mr. Erickson in accordance with his international assignment. State Street provides expatriate employees with cost of living, housing and other relocation assistance as well as a tax equalization policy (designed to maintain a level of income tax equivalent to that applicable in the home country) applicable to all employees working on temporary international assignments in jurisdictions other than their home country.
- (D) Includes the following Company contributions: (1) \$13,500 to the Salary Savings Program (SSP) for Messrs. Hooley, O Hanley, Taraporevala and Bell, (2) \$1,346 to the SSP for Mr. Aboaf, (3) \$11,500 to the Management Supplemental Savings Plan (MSSP) for Mr. Hooley, (4) \$1,643 to the MSSP for Mr. Bell, and (5) \$43,486 for Mr. Erickson consisting of \$2,303 to the Mandatory Provident Fund (MPF) and \$41,183 to the Occupation Retirement Schemes Ordinance (ORSO). Mr. Erickson's MPF and ORSO Company contributions were converted from HK\$ to US\$ using the December 29, 2017 exchange rate of 0.127948.
- (E) Includes charitable donations and the matching gift program. In 2017, Executive Vice Presidents and above serving on non-profit boards were allowed to annually recommend a financial contribution from the State Street Foundation to the same non-profit up to \$25,000. Messrs. Aboaf, O Hanley and Taraporevala directed contributions of \$25,000 in 2017. The Company's matching gift program will match contributions made by employees to eligible charitable and educational organizations in accordance with specified annual limits. Matching charitable contributions were made in the name of Messrs. Hooley, Aboaf, O Hanley and Taraporevala in 2017 up to their specified limits to eligible charities of their choice under State Street's matching gift program (\$30,000 for Messrs. Hooley and O Hanley and \$20,000 for Messrs. Aboaf and Taraporevala. Amounts exclude the \$5,000 benefit available to State Street employees). Additionally includes \$175,945 in relocation benefits (including the standard tax gross-up on taxable relocation benefits) for Mr. Aboaf per his relocation benefits and repayment agreement in connection with his hire at State Street in December 2016 and \$10,453 paid to Mr. Bell for unused vacation (which was not included as part of base salary in the Summary Compensation Table above).

CEO Pay Ratio Disclosure

The following sets out a reasonable estimate under applicable SEC regulations of the ratio of the annual total compensation of our Chief Executive Officer to the median of the annual total compensation of our other employees. The methodology and the material assumptions, adjustments and estimates we used in identifying our median employee and calculating that employee's annual total compensation are set forth below. This methodology and the

material assumptions, adjustments and estimates may differ materially from those applied by other companies, including other financial services companies, under applicable SEC regulations. As a result, the information below may not be comparable to similar information disclosed by other companies.

For 2017, we estimate that:

the median of the annual total compensation of all employees of State Street (other than Mr. Hooley), was \$82,760; and

the annual total compensation of Mr. Hooley was \$19,497,361

Based on the foregoing, the ratio of the annual total compensation of Mr. Hooley to the median of the annual total compensation of all other employees is estimated to be 236 to 1.

We identified our median employee the employee at the midpoint of our employee population based on our employee population as of December 1, 2017. State Street employees are generally eligible for base pay and incentive pay. We therefore analyzed our employee population based on these compensation elements for full year 2017. We annualized base pay of all full and part-time employees in our employee population who were hired during 2017. Similarly, for all such employees who did not receive incentive pay in 2017 due solely to their date of hire, we used a consistent methodology to impute annualized incentive pay based on level and function. For the median employee, we combined all forms of compensation that would have been reported in the Total column (column (j)) of the Summary Compensation Table had disclosure of the median employee's compensation been required in that table and then added health and welfare benefits paid by State Street.

For Mr. Hooley, we used the amount reported in the Total column (column (j)) of our Summary Compensation Table on page 49 and then, for consistent comparability to our median employee, added health and welfare benefits paid by State Street.

- (5) Performance-based RSU awards granted on February 27, 2017 designed to compensate Mr. Aboaf for the loss of 2016 incentive compensation from his prior employer.
- (6) DSAs granted on February 27, 2017, designed to compensate Mr. Aboaf for the loss of 2016 incentive compensation from his prior employer.
- (7) Performance-based RSU awards granted on November 30, 2017, were promotion awards for Messrs. Erickson and Taraporevala in recognition of their promotions and role in the implementation of our leadership transition announced in November 2017. Reflects the award modification agreed to by Messrs. Erickson and Taraporevala in February 2018 as discussed under 2017 Compensation Decisions Individual Compensation Decisions.

Narrative Disclosure Accompanying Grants of Plan-Based Awards Table

The awards set forth in the Estimated Possible Payouts Under Non-Equity Incentive Plan Awards column of the 2017 Grants of Plan-Based Awards table above were awarded as annual incentives in the form of immediate and deferred cash (granted in DVAs/ SSGA LTIP). The 2017 annual incentive awards referenced in this table were granted as part of 2017 incentive compensation in February 2018. The targets, minimum (0%) and maximum (200%) are described above under the heading, Compensation Discussion and Analysis 2017 Compensation Decisions Total Compensation Approach Individual Compensation Targets Annual Incentive. The amounts awarded in February 2018 under these annual incentive awards are included in the 2017 row of the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table.

2018 NOTICE OF MEETING AND PROXY STATEMENT

The awards granted in February 2017 under the 2006 Equity Incentive Plan, set forth in the Estimated Future Payouts Under Equity Incentive Plan Awards column of the 2017 Grants of Plan-Based Awards table above were performance-based RSU awards. These awards for Messrs. Hooley, O Hanley, Erickson and Bell were granted as part of the long-term incentive component of each NEO's 2016 incentive compensation. Mr. Aboaf's award was granted to compensate him for the loss of 2016 compensation from his prior employer. Payouts under these awards are currently shown at 100% (target); however, the percent at which the awards are actually earned will be determined based on the simple average of each calendar year's return on equity determined under GAAP for the three-year period from January 1, 2017 to December 31, 2019. The performance-based RSU awards granted in November 2017 under the 2017 Stock Incentive Plan for Messrs. Erickson and Taraporevala were awarded in recognition of their promotions and role in the implementation of our leadership transition announced in November 2017. Payouts under these awards are currently shown as earned at 100% (target); however, the percent at which the awards are actually earned will be determined based on the simple average of each calendar year's return on equity determined under GAAP for the three-year period from January 1, 2018 to December 31, 2020.

DSAs, set forth in the All Other Stock Awards column of the 2017 Grants of Plan-Based Awards table above, were awarded as part of Messrs. Hooley, O Hanley, Erickson, Taraporevala and Bell's long-term incentive component of their 2016 incentive compensation. Mr. Aboaf's award was granted to compensate him for the loss of 2016 compensation from his prior employer. These awards for Messrs. Hooley, Aboaf, O Hanley, Erickson and Bell vest ratably in annual installments over four years from the date of grant. The award for Mr. Taraporevala vests ratably in quarterly installments over four years from the date of grant. All DSAs were granted under the 2006 Equity Incentive Plan.

All performance-based RSUs and DSAs granted provide for a double-trigger change-of-control vesting provision. The double trigger provides, in the context of a change of control, that awards will only receive accelerated vesting if the executive incurs a qualified termination following the change of control. For a description of qualified terminations, see below under the heading Potential Payments upon Termination or Change of Control as of December 31, 2017.

The grant date fair value of DSAs and performance-based RSUs is based on the closing price of our common stock on date of grant, adjusted if appropriate based on the award's ability to receive dividends during the vesting period. No dividends or dividend equivalents are attached to the DSAs or performance-based RSUs granted in 2017. The performance-based RSU awards vest in one installment based on the satisfaction of applicable performance criteria and on certification by the Compensation Committee following the end of the performance period. The February 2017 performance-based RSUs have a maximum payout of 140% of the award target and the November 2017 performance-based RSUs have a maximum payout of 150% of the award target. State Street has stock ownership guidelines for its NEOs which are described in our Compensation Discussion and Analysis Executive Equity Ownership Guidelines, Practices and Policies section.

The DVAs (or SSGA LTIP for Mr. Taraporevala), DSAs and performance-based RSUs awarded to our NEOs are subject to recourse mechanisms, including clawback, forfeiture and *ex ante* adjustments, and the immediate cash awards to our NEOs are also subject to recourse mechanisms, including clawback and *ex ante* adjustments as described in our Compensation Discussion and Analysis Other Elements of Compensation section.

Historically the Compensation Committee intended to structure our NEO incentive compensation program so that our immediate cash incentives, DVAs/ SSGA LTIP and DSAs are Section 162(m)-qualified performance-based compensation delivered under the Senior Executive Annual Incentive Plan (SEAIP), which has been approved by our shareholders. (Our performance-based RSUs are granted under the 2006 Equity Incentive Plan and have also historically been intended to qualify under Section 162(m).) As discussed in the Compensation Discussion and Analysis, the deductibility of performance-based compensation under Section 162(m) was eliminated by the Tax Cuts and Jobs Act of 2017 effective January 1, 2018, subject to transition rules. Under the SEAIP, the Committee annually establishes a maximum payout amount for each NEO's annual incentive award plus DSA awards. For 2017, this maximum payout amount was equal to a percentage of our operating-basis net income before income taxes and incentive compensation, or Operating NIBTIC, and subject to an annual limit of \$10 million per executive. Operating NIBTIC for 2017 was \$4.433 billion. The 2017 SEAIP incentive target was: 0.239063% for Mr. Hooley; 0.119531% for Mr. Aboaf; 0.203203% for Mr. O Hanley and 0.071719% for Mr. Erickson. No 2017 SEAIP target was set for Mr. Taraporevala, as he was not a member of the Management Committee at the beginning of 2017, or Mr. Bell, as he was stepping down from his role as Chief Financial Officer during 2017. The Committee may use its discretion to reduce, but not increase, both the Operating NIBTIC amount used for the above purposes and the amount of compensation awarded to any one or more executives below the maximum payout amount permitted under the SEAIP. For 2017, the Committee did not exercise discretion to reduce Operating NIBTIC, but, for each NEO, the Committee exercised discretion to reduce the amount of incentive compensation awarded under the SEAIP below the applicable payout opportunity. All 2017 awards under the SEAIP fell within

- (1) Mr. Hooley is the only NEO eligible to participate in our defined benefit pension plans since the other NEOs were either hired or appointed to an eligible role after January 1, 2008.
- (2) Retirement Plan and MSRP service is credited from first anniversary of date of hire, but plans are frozen with benefits ceasing to accrue for Mr. Hooley on December 31, 2010. ESRP service is credited from date of hire. For Mr. Hooley's ESRP benefit, prior service for nine years with a State Street joint venture counts as credited service with State Street. The Committee does not consider this credit to represent extra years of service since it covers service with an affiliated company.
- (3) Actuarial assumptions for the year ended December 31, 2017, include the following:
 - benefit obligations are determined using a discount rate of 3.56% for the Retirement Plan, 3.27% for MSRP and 3.07% for ESRP as of December 31, 2017
 - retirement age assumed to be Normal Retirement Age as defined by each plan
 - no pre-retirement mortality, disability or termination assumedConsistent with valuation assumptions, the form of payment reflected in this December 31, 2017 disclosure is 85% lump sum or installment payment and 15% annuity for the Retirement Plan and 100% three-year installment for the MSRP and ESRP.

State Street maintains a qualified defined benefit plan, referred to as the Retirement Plan. The Retirement Plan has been frozen to new accruals since January 1, 2008 (or as of January 1, 2011 for Mr. Hooley who met a specified combination of age and completed years of service). Prior to 1990, the Retirement Plan was a final average pay plan. Since January 1, 1990, the Retirement Plan has determined benefits using a cash balance formula. Under this formula, a notional account was established for each eligible participant which increased annually by both interest credits and pay credits. Interest credits are made at a specified rate and pay credits were based upon a percentage of the participant's pay for applicable calendar years until the plan was frozen effective January 1, 2008 (as of January 1, 2011 for Mr. Hooley, as noted above). The pay credit percentages were 4.0% for the first year of participation increasing to 11.25% for the thirtieth year and zero thereafter. Eligible pay included a participant's salary, overtime, cash incentive compensation and commissions.

In general, until August 31, 2003, the Retirement Plan provided that eligible participants who were continuously employed since December 31, 1989 and who retired after reaching age 55 would receive the greater of their cash balance account or the annual benefit derived from the grandfathered final average pay formula. For a participant with 30 or more years of service, the grandfathered formula would result in a benefit of 50% of final average pay (counting base salary only) minus 50% of the estimated Social Security benefit. For periods of service of less than 30 years, the benefit is reduced on a pro rata basis by year. The grandfathered portion of this better of treatment was frozen effective August 31, 2003 by ceasing future accruals under this formula based on a participant's eligible average pay earned and benefit service completed after August 31, 2003. Years of service completed after that date continue to be counted, however, for purposes of determining early retirement reduction factors.

The Normal Retirement Age under the Retirement Plan is 65, although earlier retirement options are available. The Retirement Plan has a three-year vesting provision and participants who are vested are entitled to receive their account balances or equivalent annuities if they cease to be employed before retirement.

To comply with federal tax rules, the Retirement Plan limits the benefit that a participant may receive and the amount of compensation that may be taken into account for any participant in any year. State Street has maintained a supplemental retirement plan, the Management Supplemental Retirement Plan, referred to as the MSRP, that was designed to provide affected employees the benefits that would be payable under the Retirement Plan but for the limitations imposed by the Internal Revenue Code. The MSRP has been frozen in the same manner as described above for the Retirement Plan.

State Street also maintains the Executive Supplemental Retirement Plan, referred to as the ESRP, to provide officers at the executive vice president level or higher with competitive retirement benefits and encourage their continued employment. Officers become eligible to participate in the ESRP upon their appointment to an eligible position. During 2017, Messrs. Hooley, Erickson and Bell participated in the ESRP, although, as described below Messrs.

Erickson and Bell were only eligible to participate in the defined contribution portion of the ESRP.

The ESRP provides two separate benefit components: a traditional defined benefit component, which was frozen effective January 1, 2008, and a defined contribution component, which was frozen effective January 1, 2017. In general, the defined

2018 NOTICE OF MEETING AND PROXY STATEMENT

benefit component of the ESRP (when expressed as a life annuity commencing at age 65) accrues at the annual rate of 2.5% of eligible earnings (generally base salary plus incentive compensation earned under the SEAIP), up to a maximum of 50% of eligible earnings. This formula benefit is offset by pension benefits from State Street or other sources, including a former employer, but excluding Social Security. For participants who retire early, the defined benefit component is reduced by a factor of 3% for each year under the age of 65 (the standard reduction factors), except that any participants who on January 1, 2005 were at least age 55 and had completed at least 10 years of service are subject instead to a monthly early retirement reduction of their formula benefit aggregating to 1% per year between age 60 and 65 and to 2.5% per year between ages 55 and 60 (the pre-2005 reduction factors), with the offset for other plan benefits reduced by the applicable factors under those plans. If a participant becomes disabled or dies before retirement, the ESRP pays a disability benefit equal to the participant's accrued defined benefit component including offsets, reduced for early retirement age and multiplied by a percentage determined by dividing the sum of the participant's age and service by 85, and a death benefit equal to one-half of the benefit calculated in the same manner.

For certain participants, the ESRP also contains special defined benefit provisions that may apply in lieu of or in addition to the general defined benefit provisions. In Mr. Hooley's case, the actuarial equivalent of a hypothetical account balance that is periodically adjusted for interest on the same basis as the cash balance accounts under State Street's tax-qualified defined benefit plan is added to the benefit determined from the defined benefit formula under the ESRP. No offsets apply to this formula benefit. As of 2017, the balance of this hypothetical account was \$1,184,310. In addition, Mr. Hooley is credited with nine additional years of service under the plan for his service at a State Street joint venture and at State Street prior to the joint venture service. These special defined benefit provisions were implemented in accordance with a 2005 amendment to the plan specifically addressing the unique circumstances of Mr. Hooley's service.

Effective January 1, 2008, the ESRP was amended to freeze the defined benefit component. However, these benefits continued to receive a 3% index each year as a cost-of-living adjustment through December 31, 2017. The amended plan includes a transition that continued the defined benefit component for certain executives who had attained age 50 and had served as an executive vice president for at least 5 years as of December 31, 2007. Mr. Hooley was provided with transition benefits which continued the defined benefit component until January 1, 2010, and his benefits are subject to the standard reduction factors. Other NEOs are ineligible to participate in the defined benefit portion of the ESRP since they were hired or appointed to an eligible position after December 31, 2007.

The defined contribution component of the ESRP was added to the plan effective January 1, 2008 and frozen effective January 1, 2017. This component of the ESRP generally provides that each of the named executive officers will receive, each year that they remain employed by State Street, an annual defined contribution credit to a book-keeping account in the amount of \$200,000. Amounts credited to the account may be allocated by the executive among

available notional investment options. Each of the NEOs (except Mr. Taraporevala) was also eligible to receive an additional \$200,000 grant of DSAs under State Street's equity incentive plan for each applicable year.

All defined contribution benefits under the ESRP are subject to retirement eligibility and vesting. Participants are eligible to receive one-third of their defined contribution ESRP benefit if they have attained age 53 and have a combined age and service of at least 60 (Rule of 60); vesting increases to two-thirds on the first birthday following initial vesting and to full vesting on the second birthday following initial vesting. Defined contribution benefits under the ESRP are subject to forfeiture in the event a participant's employment terminates for any reason other than death or disability prior to vesting at any time. Effective August 1, 2012, for executives hired or rehired on or after that date, a minimum service requirement of five years was added to the definition of the Rule of 60 in determining early retirement eligibility.

Vested participants who terminate their employment will receive their defined contribution benefit from the ESRP in three equal installments, with payments on the first day of the month coinciding with or following each of the six-month, one-year and two-year anniversaries of their termination of employment. In addition, benefits terminate if the participant engages in certain competitive activities within two-years of termination of employment.

The Compensation Committee approved amendments to the ESRP for the 2015 and 2016 compensation years that served to eliminate the generally applicable annual defined contribution credits and DSAs for those years. Effective January 1, 2017, the ESRP was amended to freeze the defined contribution component to all future accruals. Account balances as of January 1, 2017 will remain in place until distributed per the terms of the plan.

Based on age and service to State Street, Mr. Hooley is eligible for early retirement under the Retirement Plan and related supplemental plans. Since Messrs. Aboaf, O'Hanley, Taraporevala and Bell were hired at State Street after December 31, 2007, they do

2018 NOTICE OF MEETING AND PROXY STATEMENT

not participate in the Retirement Plan, the MSRP or the defined benefit portion of the ESRP. Further, Messrs. Aboaf, O Hanley and Taraporevala did not receive any contributions under the defined contribution portion of the ESRP. Mr. Bell forfeited his ESRP defined contribution account balance as he was not retirement eligible and not vested in his ESRP when he left State Street in March 2017. Mr. Erickson was not a US employee prior to the defined benefit plans closing and therefore, does not participate in the Retirement Plan, or the MSRP. Mr. Erickson is a participant in the defined contribution portion of the ESRP; however, he is not early retirement eligible and does not meet the eligibility requirements to participate in the defined benefit portion of the ESRP.

Under the benefit formula described above, Mr. Hooley would have received the following benefits if he had retired at the end of 2017:

Name ⁽¹⁾	Retirement Plan	MSRP	ESRP Defined Benefit ⁽²⁾	ESRP Defined Contribution ⁽³⁾	Total Entitled Benefit
Joseph L. Hooley	\$ 224,116	\$ 974,221	\$ 26,542,467	\$ 3,338,007	\$ 31,078,811

(1)The defined benefit amounts provided in this table reflect early retirement factors and are different than the amounts included in the 2017 Pension Benefits Table, which are calculated as of Mr. Hooley's unreduced normal retirement age and discounted to the end of 2017.

(2)Mr. Hooley's ESRP defined benefit includes his ESRP hypothetical account balance of \$1,184,310.

(3)The ESRP defined contribution annual cash credits and DSAs were reduced to zero for 2017 and all subsequent compensation plan years for Mr. Hooley.

- (2) Includes employer defined contribution plan amounts for the MSSP. These amounts are included in the All Other Compensation column of the Summary Compensation Table.
- (3) Mr. Bell's aggregate withdrawals/distributions include a forfeiture of his ESRP in the amount of \$192,775 in accordance with the ESRP terms. Mr. Bell was not retirement eligible and not vested in the ESRP when he left State Street in March 2017, forfeiting his ESRP balance. Mr. Bell withdrew his MSSP balance of \$107,722 after he left State Street in accordance with the MSSP distribution terms.
- (4) Of the total amounts shown in this column, the following amounts have been reported as All Other Compensation in the Summary Compensation Table on page 49 in this proxy statement and in prior years' proxy statements: Mr. Hooley: \$904,000; Mr. Aboaf: \$0; Mr. O Hanley: \$0; Mr. Erickson: \$0; Mr. Taraporevala: \$0; and Mr. Bell: \$237,143 which was forfeited or withdrawn in 2017.
- (5) Not included in this table for Mr. Hooley is a full account distribution of approximately \$2.9 million on June 22, 2017 of his Boston Financial Data Services, Inc. (BFDS) deferred compensation plan. Mr. Hooley's participation in the BFDS deferred compensation plan resulted from his previously disclosed employment at BFDS, which ended in 2000. The BFDS transaction is discussed above under the Related Party Transactions section of this proxy statement.

State Street maintains the MSSP for designated highly compensated or managerial employees, which includes the NEOs, excluding Mr. Erickson, who is a Hong Kong-based employee and is not eligible for the MSSP. The MSSP provides eligible employees savings and Company matching contribution opportunities beyond the Internal Revenue Code limits imposed under the SSP. Under the MSSP, eligible employees may elect, prior to the beginning of a year, to defer (a) from 1% to 50% of base salary for the year, and/or (b) a percentage, from 5% to 100% of otherwise

immediately payable annual cash bonus incentives (net of FICA withholding), excluding any amount subject to automatic deferral.

Like the SSP, the MSSP provides a 5% employer matching contribution. For 2017, State Street matched all deferrals made under the MSSP for 2017 up to a maximum of 5% of a participant's MSSP match-eligible compensation, which is defined as the lesser of (i) base salary plus annual cash incentive compensation, or (ii) \$500,000, in either case reduced by the applicable Internal Revenue Code cap on annual compensation (\$270,000 in 2017).

2018 NOTICE OF MEETING AND PROXY STATEMENT

A book-keeping account is maintained for each participant reflecting deferrals, matching credits and increases or decreases based on the performance of notional investments selected by the employee, or on a default notional investment if the employee does not make a selection. A participant may change notional investments daily. The notional investments available for 2017 and the rate of return for the year were as set forth below.

Notional Investment ⁽¹⁾	Rate of Return
MSSP and ESRP Investments	
SSGA U.S. Bond Index Fund	0.01%
Vanguard Prime Money Market Fund	1.09%
SSGA International Index Fund	19.51%
SSGA S&P 500 Index Fund	18.58%
State Street Corporation ESOP Stock Fund	39.26%

(1) Non-US notional funds were added as investment options for the defined contribution ESRP effective June 1, 2015. Non-US notional funds and rates of return were not provided for the non-US investment options because they have not been selected by our NEO participants.

Participants elect to receive either or both of their base salary or immediate cash incentive compensation deferrals from the MSSP in a lump sum either (i) on the first business day of the month following the six-month anniversary of the participant's termination of employment, or (ii) at a specified date not earlier than three years from the election date. Participants may also elect to receive deferrals in installments over two to ten years commencing on the six-month anniversary of the participant's termination of employment. Distributions are subject to certain acceleration rules. Participants may change distribution elections consistent with limitations set forth in the plan and tax rules applicable to nonqualified deferred compensation. Matching and historical performance-based credits are automatically paid in a lump sum on the first day of the month following the six-month anniversary of the employee's termination of employment. A participant's account is payable in a lump sum upon the participant's death. A participant who experiences a severe and unanticipated financial need may request a withdrawal of amounts deferred under the plan subject to certain restrictions.

The MSSP was amended during 2016 in order to modify the definition of eligible compensation used in determining plan eligibility. The definition of eligible compensation now includes incentive pay contemplated under a corporate transaction that occurred during the same year. Additionally, the plan was amended during 2016 and 2017 to add State Street Global Advisors Trust Company (SSGATC) and State Street Global Markets, LLC (SSGM) as participating employers, respectively.

Amounts related to the defined contribution component of the ESRP, which is described in the narrative accompanying the 2017 Pension Benefits table, are included in the figures above in the table under the narrative of the 2017 Pension Benefits section. The notional investment options available for the defined contribution ESRP are the same as the notional investment options listed above for the MSSP, with the addition of six non-US notional funds.

Potential Payments upon Termination or Change of Control as of December 31, 2017

The tables below show certain potential payments that would have been made to an NEO if the NEO's employment had terminated on December 31, 2017 under various scenarios, including a change of control. The tables do not include the pension benefits or nonqualified deferred compensation that would be paid to an NEO, which are set forth in the Pension Benefits and 2017 Nonqualified Deferred Compensation tables above, except to the extent that the NEO is entitled to an additional benefit as a result of the termination. The footnotes to the tables describe the assumptions used in estimating the amounts shown in the tables.

- (1) Each of our NEOs is also entitled to benefits payable upon retirement or other qualifying termination under State Street's defined benefit pension plans and nonqualified deferred compensation plans. These plans are described above under 2017 Pension Benefits and 2017 Nonqualified Deferred Compensation. All payments upon the separation from service of specified employees within the meaning of Section 409A of the Internal Revenue Code are subject to a six-month delay under the rules of Section 409A to the extent applicable. In addition, upon a qualifying retirement, all eligible employees, including our NEOs, may continue medical coverage until age 65 under State Street's welfare benefit program. A qualifying retirement requires attainment of age 55, completion of 5 years of service and participation in State Street's medical plan at the time of retirement. As of December 31, 2017, Mr. Hooley is the only current NEO who met these conditions. Fixed cost sharing (health and welfare benefit) subsidies apply upon the qualifying retirements of employees who have attained age 47 and completion of 7 years of service as of December 31, 2007. Assuming a termination of employment as of December 31, 2017, Mr. Hooley is the only current NEO who would be eligible for fixed cost sharing subsidies.
- (2) State Street has a severance plan that provides benefits to all eligible employees upon specified involuntary separations from service due to an organizational change, such as a reduction in force. Employees are required to execute a separation agreement and release acceptable to State Street in order to receive benefits under the plan. The severance plan provides for an amount of severance pay equal to a specified number of weeks of base salary, up to a maximum, based on employment title. These severance benefits are subject to the employee's compliance with specified restrictive covenants including confidentiality and non-solicitation. For all eligible employees who hold an executive vice president or more senior title, including our current NEOs, the plan provides for a severance period of 52 weeks (including a two-week notice period) of base salary plus four weeks of base salary per completed year of service up to a maximum of 104 weeks of base salary. In addition, the plan provides for continued participation in State Street's welfare benefit plan for the severance period at active employee rates (subject to timely enrollment in COBRA continuation coverage) and personal outplacement services by a third-party provider. Amounts above assume a qualifying termination of employment on December 31, 2017. For these purposes, the severance amounts are not discounted for payment over time and welfare benefits are valued at 2017 rates.
- (3) Calculations assume a change of control occurred on December 31, 2017 and a qualifying termination of employment entitling the executive to the specified benefits occurred on that date. The value of shares of common stock used in calculations is based on the closing price of State Street's common stock on the NYSE on December 29, 2017, \$97.61. Effective March 26, 2014, none of our NEOs are eligible to receive a gross-up

payment in connection with their change-of-control benefits. For a detailed description of payments and benefits under a termination in connection with change of control refer to the Change of Control section below.

- (a) The amount would be paid as a lump sum but has been calculated without any present-value discount assuming that base pay would continue at 2017 rates and SEAIP bonuses would continue at 2017 target levels for Messrs. Hooley, Aboaf, O Hanley, Erickson and assuming the prior year's annual bonus including the adjustment factor on the deferred cash for Mr. Taraporevala. Severance is reduced in the event that reducing parachute payments to the 280G safe harbor level would result in a higher after-tax payment. Assuming a change of control occurred on December 31, 2017, none of our NEOs would have a severance reduction upon a qualifying termination of employment.
- (b) Represents the value of DSAs and performance-based RSUs with known performance that were subject to service-based restrictions on December 31, 2017. These restrictions lapse upon a change of control.

2018 NOTICE OF MEETING AND PROXY STATEMENT

- (c) Represent the estimated value of unearned performance-based RSUs granted in 2016 and 2017 based on Company ROE performance through December 31, 2017.
- (d) Represents the value of all deferred value awards that were subject to service-based restrictions on December 31, 2017. These restrictions lapse upon a change of control.
- (e) The accrued obligation is equal to the target SEAIP bonus for Messrs. Hooley, Aboaf, O Hanley, Erickson and the prior year's cash incentive award (immediate and deferred including the prior year's adjustment factor of 5.16%) for Mr. Taraporevala to be paid to each executive in February 2018 for the 2017 year.
- (f) The enhancement to any pension benefit otherwise owed to an executive would be paid as a lump sum. The final years for which defined benefit base pay and target bonus applied was 2010 for Mr. Hooley.
- (g) Represents the value of perquisites (based on eligibility, including items such as cost of car and driver and residential security) that would continue for two years upon a change of control. Assumed \$75,000 per year for Messrs. Hooley and O Hanley, and \$25,000 per year for Messrs. Aboaf, Erickson and Taraporevala.
- (h) Mr. Erickson entered into a change-of-control agreement with the Company effective February 22, 2018. The table above reflects Mr. Erickson's change-of-control benefit as if his change-of-control agreement was in effect on December 31, 2017.
- (i) Mr. Taraporevala had an Executive Vice President (EVP) change-of-control agreement in place as of December 31, 2017. Mr. Taraporevala's table above reflects the terms of his EVP change-of-control agreement. The other NEOs have a Management Committee (MC) change-of-control agreement and their tables reflect the terms of the MC change-of-control agreement. The only difference between the EVP change-of-control agreement and the MC change-of-control agreement is the calculation methodology for the annual bonus used in the annual bonus and severance calculations in a change of control. The annual bonus in the EVP change-of-control agreement is the prior year's cash incentive (immediate cash and DVA/SSGA LTIP including the adjustment factor). The annual bonus in the MC change-of-control agreement is the target SEAIP bonus. Mr. Taraporevala was not part of the MC in February 2017 when the 2017 SEAIP targets were approved. A 2018 SEAIP target was approved for Mr. Taraporevala in February 2018 and he will receive an MC change-of-control agreement in 2018.
- (4) Pursuant to the terms of applicable award agreements under our 2006 Equity Incentive Plan, the 2017 Stock Incentive Plan, the Amended and Restated Supplemental Cash Incentive Plan and the SSGA LTIP, all deferred incentive awards continue to vest if an employee (1) is terminated involuntarily other than for gross misconduct, (2) retires after attaining age 55 and completing 5 years of service with State Street, (3) becomes disabled or (4) dies. Vesting and payment of DSAs will be accelerated in full in the case of death, and vesting and payment of DVAs will be accelerated in full in the case of death or disability. In the four termination scenarios listed in this footnote, performance-based RSUs will continue to vest and be paid on the scheduled payment date, subject to attainment and certification of performance measures. Performance-based RSUs for the 2017 award year have a three-year performance measurement period (January 1, 2017 – December 31, 2019) and will vest in one installment

upon certification at the end of the performance period. For these purposes, shares of common stock are valued at the closing price of our common stock on December 29, 2017 (\$97.61) and are currently shown as earned at 100% (target); however, the percent at which the awards actually will be earned will remain unknown until the end of the three-year performance period. Deferred incentive awards to our NEOs that continue to vest as scheduled after termination remain subject to applicable forfeiture and clawback provisions. DVAs that are paid on an accelerated basis following disability remain subject to applicable clawback provisions in the case of awards granted in 2017 for 2016 performance and for subsequent performance years. DSAs and DVAs that are paid on an accelerated basis following death do not remain subject to clawback provisions. For a description of forfeiture and clawback provisions, see above in this proxy statement under the heading Compensation Design Elements Recourse Mechanisms.

- (5) Should an employee terminate due to death or disability prior to the payment date of current year immediate cash incentives, a pro-rated amount may be paid in State Street's sole discretion to the participant or his/her estate.
- (6) Only Mr. Hooley is fully vested in his pension benefits. Amounts shown for Mr. Erickson reflect the balance of his unvested annual defined contribution cash credits and DSAs as of December 31, 2017 under the ESRP. Vesting and payment of these amounts under the ESRP will be accelerated in the event of death or disability.

Change of Control

State Street has entered into an agreement with each of our NEOs that would become effective upon a change of control of State Street or upon a termination of employment arising in connection with or in anticipation of such change of control. A change of control is defined to include the acquisition of 25% or more of our outstanding stock, the failure of incumbent directors (or their designated successors) to constitute a majority of the Board of Directors or a merger, consolidation or sale of all or substantially all of our assets in which State Street shareholders do not retain a majority of the voting power of the surviving or successor corporation and incumbent directors do not constitute a majority of the Board. These agreements have a two-year term that is annually renewed at the end of the year, unless State Street gives the executive notice at least 60 days before the annual renewal date that the agreement will not be renewed. Mr. Erickson entered into a change-of-control agreement with the Company effective February 22, 2018.

Each change-of-control agreement provides for two years of continued employment after a change of control on terms commensurate with those previously in effect, including base salary at an unreduced rate and minimum incentive compensation set at the target incentive compensation amount under the SEAIP applicable to the executive officer for the fiscal year in which the change of control occurs with the exception of Mr. Taraporevala, whose minimum incentive compensation is set at the prior year's cash incentive (immediate and deferred including the adjustment factor) awarded under the Company's annual incentive plan. Each agreement also provides for two years of continued participation in savings, welfare benefit, fringe benefit and retirement plans on terms no less favorable than those in effect prior to the change of control, and payment of legal fees in connection with the enforcement of the executive officer's rights under the agreement.

The change-of-control agreements also provide our NEOs with the payment of accrued salary and benefits, including a pro-rated target incentive compensation amount under the SEAIP (with the exception of Mr. Taraporevala, as noted above), in the event of a termination by reason of death or disability, and they provide for additional severance benefits as summarized below upon the cessation of employment under a "double-trigger" mechanism. This mechanism requires the occurrence of both a change of control and either the termination of employment without cause or by the officer for good reason during the two-year term of the change-of-control agreement.

Executive Compensation (continued)

2018 NOTICE OF MEETING AND PROXY STATEMENT

The severance benefits provided include: (1) a lump sum payment, subject to a maximum of \$10 million, equal to two times the sum of base salary and the target incentive compensation under the SEAIP (with the exception of Mr. Taraporevala, as noted above) for the year of the change of control, (2) a lump sum payment equal to two times State Street's contributions to the defined contribution retirement plans applicable to the officer, (3) in the case of officers who are eligible to participate in State Street's frozen qualified and supplemental defined benefit plans, a lump sum payment equal to the actuarial value of the incremental benefit that the officer would have received under such plans had he or she remained employed for two years after the date of termination, (4) continued employee welfare benefits for two years after the date of termination, (5) reasonable outplacement services and (6) to the extent not already vested, immediate vesting in benefits under the ESRP.

Since February 20, 2014, State Street's 2006 Equity Incentive Plan, 2017 Stock Incentive Plan, Amended and Restated Supplemental Cash Incentive Plan, SSGA LTIP and award agreements under those plans provide for accelerated vesting and payment of awards under a "double trigger" mechanism. This standard applies to all deferred equity and cash awards outstanding, including awards to our NEOs. Our agreements now provide, in the context of a change of control, for accelerated vesting and payment only upon a change of control and either a termination of employment without cause or by the officer for good reason, in each case on or prior to the first anniversary of the change of control. Performance-based RSUs will convert into State Street common stock at the following rates in the case of a change of control occurring prior to the end of the three-year performance period: (i) 100% in the case of a change of control in the first year, (ii) in the second year at the rate obtained by averaging the actual GAAP ROE results for the first calendar year, adjusted in accordance with the Plan, and 100% for each of the second and third years and (iii) in the third year at the rate obtained by averaging the actual GAAP ROE results, adjusted in accordance with the Plan, for each of the first and second calendar years and 100% for the third year. In the case of a two-year performance period: (i) 100% in the case of a change of control in the first year and (ii) in the second year at the rate obtained by averaging the actual GAAP ROE results for the first calendar year, adjusted in accordance with the Plan, and 100% for the second year.

Effective March 26, 2014, each change-of-control agreement provides that, in the event change-of-control benefits would exceed 110% of the product of 2.99 multiplied by the officer's base amount, then the value of such benefits shall be either (i) subject to a cutback or (ii) delivered in full, whichever of the foregoing provides the executive the greatest benefit on an after-tax basis (with the golden parachute excise tax being the responsibility of the executive to pay). If benefits are below the 110% threshold, the executive would be subject to an automatic cutback to assure that the change-of-control benefits do not exceed 2.99 times the NEO's base amount.

The amounts set forth in the column entitled "Termination in Connection with Change of Control" in the tables above are based on the hypothetical assumption that on December 31, 2017 State Street had a change of control and that immediately thereafter, but also on December 31, 2017, the executive was terminated, received a lump sum payment

of all cash entitlements under the change-of-control agreement and all equity awards accelerated upon the change of control.

Estimated Payouts upon Termination of Employment

Mr. Bell left State Street on March 3, 2017. Pursuant to the terms of his Transition Agreement dated April 15, 2016, Mr. Bell's outstanding equity awards will continue to vest according to their original terms. As of March 3, 2017, his 72,929 outstanding DSAs were worth \$5,850,364 and his 108,806 outstanding performance-based RSUs were worth \$8,728,417, based on the closing price of our common stock of \$80.22 on that date. The final value of the performance-based RSUs will not be determined until after the conclusion of the performance period for each outstanding award. Mr. Bell also received \$10,453 for unused vacation, as noted in the Summary Compensation Table above. Mr. Bell did not receive severance or other retirement enhancements.

2018 NOTICE OF MEETING AND PROXY STATEMENT

ITEM 2 APPROVAL OF ADVISORY PROPOSAL ON EXECUTIVE COMPENSATION

The Board of Directors recommends that shareholders approve the advisory proposal on executive compensation set forth below. Unless contrary instructions are given, shares represented by proxies solicited by the Board will be voted for the approval of this advisory proposal. We believe that shareholder feedback on executive compensation is important and have provided shareholders the opportunity to vote annually on an advisory executive compensation proposal since 2009. Over the past several years shareholders have consistently approved the say-on-pay vote, and in 2017, 96.5% of the votes cast supported the proposal.

State Street develops and implements a compensation program for our NEOs and other executive officers with the goals of:

attracting, retaining and motivating superior executives

rewarding those executives for meeting or exceeding annual and long-term financial and strategic objectives

driving long-term shareholder value and financial stability

providing equal pay for work of equal value

achieving the preceding goals in a manner aligned with sound risk management and our corporate values

For each NEO, the Compensation Committee determines the appropriate level of total compensation for the year. This determination is based on a subjective evaluation of many factors, including corporate performance, individual performance and market, regulatory and shareholder considerations. Along with the say-on-pay advisory proposal, we also engage several of our largest shareholders to receive their specific perspectives on our compensation programs and governance practices. For 2017, we held discussions with shareholders representing more than 30% of our outstanding common stock. Based on these discussions, we believe our shareholders, in general, support our executive compensation program, and therefore, we continued many of the elements of our program, such as maintaining a high level of equity and deferral for incentive compensation awards as well as emphasizing pay for performance and

alignment with shareholder interests. Our compensation practices for NEOs, including the complete framework used by the Compensation Committee in evaluating and making 2017 compensation decisions, are described in Compensation Discussion and Analysis.

The advisory proposal is provided in accordance with Section 14A of the Securities Exchange Act of 1934, or the Exchange Act, and is non-binding. The outcome of this advisory proposal does not overrule any decision by, create or imply any change to the fiduciary duties of, or create or imply any additional fiduciary duties for State Street or the Board of Directors (or any of its committees). Though the vote is non-binding, the Compensation Committee will take into account the outcome of the vote on this advisory proposal when considering future executive compensation arrangements.

The text of the proposal presented for your approval is as follows:

VOTED: That the compensation of State Street's executives, as disclosed pursuant to the SEC's compensation disclosure rules, as set forth in this proxy statement under the heading Executive Compensation, including the Compensation Discussion and Analysis, the compensation tables and related material, is approved; provided, that, this resolution shall not be binding on State Street's Board of Directors or any of its committees and may not be construed as overruling any decision by the Board of Directors or any of its committees.

ITEM 3 AMENDMENT TO ARTICLES OF ORGANIZATION TO IMPLEMENT A MAJORITY VOTING STANDARD FOR SPECIFIED CORPORATE ACTIONS

State Street is asking shareholders to approve an amendment to our Articles of Organization to implement a majority voting standard for specified corporate actions. Chapter 156D of the Massachusetts Business Corporation Act currently provides that the default voting requirement for certain corporate actions is the affirmative vote of at least two-thirds of the outstanding shares of common stock of a corporation. However, the Massachusetts Business Corporation Act permits corporations to modify the default voting requirements through an amendment to their Articles of Organization. The proposed amendment implements a majority voting requirement for all corporate actions to which the two-thirds default voting requirement would otherwise apply under the Massachusetts Business Corporation Act.

Our Board of Directors recognizes that many shareholders believe that a majority voting requirement will provide shareholders with a greater voice in expressing their views on matters impacting a corporation. Our Board of Directors believes reducing the voting requirements is in the best interest of the shareholders, and therefore, approval of this proposal by shareholders will change the voting requirement to approve certain corporate actions from the affirmative vote of two-thirds of the outstanding shares of common stock to the affirmative vote of at least a majority of outstanding shares of common stock. A proposed amendment and restatement of Article 6 of the Articles of Organization is set forth in *Appendix B* to this proxy statement, and the summary of the proposed amendment contained in this Item 3 is qualified by the full text of the proposed amendment and restatement.

If this proposal is approved, upon filing of Articles of Amendment to our Articles of Organization, the affirmative vote of at least a majority of all the shares of common stock entitled to vote on the matter and at least a majority of the shares in any voting group entitled to vote separately on the matter, will be required to approve the following corporate actions:

Amending the Articles of Organization

Acting on a merger or share exchange

Selling all or substantially all property other than in the regular course of business

Authorizing voluntary dissolution

Approving a plan of domestication to a foreign jurisdiction

Approving a plan of entity conversion to a domestic or foreign entity

EXAMINING AND AUDIT COMMITTEE MATTERS

Examining and Audit Committee Pre-Approval Policies and Procedures

State Street's Examining and Audit Committee has established pre-approval policies and procedures applicable to all services provided by State Street's independent registered public accounting firm, pursuant to which the Examining and Audit Committee reviewed for approval each particular service expected to be provided. In connection with that review, the Examining and Audit Committee is provided with detailed information so that it can make well-reasoned assessments of the impact of the services on the independence of the independent auditor. Pre-approvals could include pre-approved cost levels or budgeted amounts or a range of cost levels or budgeted amounts. Pre-approval is also required for substantive changes in terms, conditions and fee arrangements resulting from changes in the scope, structure or other items. The pre-approvals include services in categories of audit services, audit-related services, tax services and other services (services permissible under the SEC's auditor independence rules). The services shown in the table below were approved by the Examining and Audit Committee in accordance with these pre-approval policies and procedures.

Audit and Non-Audit Fees

Ernst & Young LLP was State Street's independent registered public accounting firm for each of the fiscal years ended December 31, 2017 and December 31, 2016. Fees incurred by State Street and its subsidiaries for professional services rendered by Ernst & Young LLP with respect to 2017 and 2016 were as follows:

Description	2017	2016
(In millions)		
Audit Fees	\$ 16.2	\$ 18.6

Audit-Related Fees	15.4	15.6
Tax Fees	7.8	8.6
All Other Fees	0.0	4.4

Services provided under Audit Fees primarily included statutory and financial statement audits, the requirement to opine on the design and operating effectiveness of internal controls over financial reporting and accounting consultations billed as audit services. Services provided under Audit-Related Fees consisted principally of reports on the processing of transactions by servicing organizations, non-statutory audits and due diligence procedures. Services provided under Tax Fees consisted principally of compliance and corporate tax advisory services. In 2016, services provided under All Other Fees consisted of advisory services primarily related to certain regulatory initiatives. These fees were not incurred in 2017.

In addition to the services described above, Ernst & Young LLP provides audit and tax compliance services to certain mutual funds, exchange-traded funds, or ETFs, and foreign-based private investment funds for which State Street is the sponsor and investment adviser or manager. The mutual funds and ETFs have boards of directors or similar bodies that make their own determinations as to selection of the funds' audit firms and approval of any fees paid to such firms. In the case of certain foreign-based private investment funds, State Street participates in the selection of the audit firm to provide the audit and tax compliance services. All of the fees for such services are paid by the mutual funds, ETFs and foreign-based private investment funds not by State Street and are not included in the table above.

Report of the Examining and Audit Committee

The Examining and Audit Committee, referred to in this report as the Committee, consists entirely of members who meet the independence requirements of the listing standards of the NYSE and the rules and regulations of the SEC, as determined by the Board of Directors. Further, all of the members of the Committee are financially literate, based upon their education and experience, as such qualification under the listing standards of the NYSE is interpreted by the Board. The Board has determined, based upon education and experience as a principal accounting or financial officer or public accountant, or experience actively supervising a principal accounting or financial officer or public accountant, that each member of the Committee satisfies the

definition of audit committee financial expert, as set out in the rules and regulations under the Exchange Act, and have accounting or related financial management expertise, as such qualification under the listing standards of the NYSE is interpreted by the Board. The Committee furnishes the following report:

On behalf of State Street's Board of Directors, the Committee oversees the operation of a system of internal controls designed to ensure the integrity of State Street's financial statements and reports, compliance with laws, regulations and corporate policies and the qualifications, performance and independence of State Street's independent registered public accounting firm. It is management's responsibility to prepare State Street's consolidated financial statements and establish and maintain internal controls over financial reporting. The role of the independent registered public accountant is to independently audit the consolidated financial statements and effectiveness of internal controls over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (PCAOB).

Consistent with this oversight responsibility, the Committee has reviewed and discussed with management the audited consolidated financial statements for the year ended December 31, 2017 and their assessment of internal controls over financial reporting as of December 31, 2017. Ernst & Young LLP, State Street's independent registered public accounting firm, issued their unqualified report on State Street's consolidated financial statements and the design and operating effectiveness of State Street's internal controls over financial reporting.

The Committee has discussed with our independent registered public accounting firm the matters required to be discussed by AS 1301, *Communications with Audit Committees*, issued by the PCAOB. The Committee has also received the written disclosures and the letter from Ernst & Young LLP required by PCAOB Ethics and Independence Rule 3526, *Communication with Audit Committees Concerning Independence* and has conducted a discussion with Ernst & Young LLP relative to its independence. The Committee has considered whether Ernst & Young LLP's provision of non-audit services is compatible with its independence.

Based on these reviews and discussions, the Committee recommended to the Board of Directors that State Street's audited consolidated financial statements for the year ended December 31, 2017, be included in State Street's annual report for the fiscal year then ended.

ITEM 4 RATIFICATION OF THE SELECTION OF THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors recommends that shareholders approve the ratification of the selection of the independent registered public accounting firm described below. The Examining and Audit Committee has appointed Ernst & Young LLP as State Street's independent registered public accounting firm for the year ending December 31, 2018. Ernst & Young LLP has acted as our independent auditor since 1972.

The Examining and Audit Committee has direct responsibility for the appointment, compensation, retention, evaluation and oversight of the work of our independent registered public accounting firm, including the sole authority for the establishment of pre-approval policies and procedures for all audit and non-audit engagements. The Examining and Audit Committee also oversees the integrity of our financial statements and reports and the qualifications, performance and independence of State Street's independent registered public accounting firm.

The Examining and Audit Committee annually assesses the appointment of the independent registered public accounting firm and considers among other factors:

If the retention of the registered public accounting firm is in the best interests of State Street and its shareholders

The results of an annual survey prepared by management on the performance of the independent registered public accounting firm

The technical expertise, experience and knowledge level of the independent registered public accounting firm

The recent performance of the independent registered public accounting firm and lead partner, including quality of communication, competence and responsiveness

The independence of the independent registered public accounting firm

Known legal risks and significant proceedings of the independent registered accounting firm

The fees incurred by State Street for the services rendered by the independent registered accounting firm in accordance with SEC rules and Ernst & Young LLP policies, the lead audit partner must be rotated at least every five years. The Examining and Audit Committee and the Committee Chair are involved in the selection of the lead engagement partner pursuant to the rotation requirement. The Examining and Audit Committee and the Board of Directors believe that the continued retention of Ernst & Young LLP as our independent registered public accounting firm is in the best interest of State Street and its shareholders. For more information, see the discussion in this proxy statement under the heading Examining and Audit Committee Matters.

We have been advised by Ernst & Young LLP that it is a registered public accounting firm with the Public Company Accounting Oversight Board (United States) and complies with the auditing, quality control and independence standards and rules of that Board and the SEC.

Representatives of Ernst & Young LLP will be present at the annual meeting to respond to appropriate questions, and they will have the opportunity to make a statement if they desire. While shareholder ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm is not required, the Board of Directors is submitting the selection of Ernst & Young LLP to the shareholders for ratification to learn the opinion of shareholders on the selection. Should the selection of Ernst & Young LLP not be ratified by the shareholders, the Examining and Audit Committee will reconsider the matter. Even in the event the selection of Ernst & Young LLP is ratified, the Examining and Audit Committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if in its view such a change is in the best interests of State Street and its shareholders.

2018 NOTICE OF MEETING AND PROXY STATEMENT

How many votes can be cast by all shareholders?

As of the record date, 367,874,930 shares of our common stock were outstanding and entitled to be voted at the meeting. Each share of common stock is entitled to one vote on each matter.

How do I vote?

If your shares are registered in your name, you may vote in person at the annual meeting or by proxy without attending the meeting. Registered shareholders may also vote by telephone or on the Internet by following the instructions included with your proxy card or the notice we mailed to you on April [], 2018. In addition, if you received a printed proxy card, you may mark, sign, date and mail the proxy card you received from State Street in the postage-paid return envelope. If you vote in accordance with any of the available methods, your shares will be voted at the meeting pursuant to your instructions. If you sign and return the proxy card or vote by telephone or on the Internet but do not provide voting instructions on some or all of the proposals, your shares will be voted by the persons named in the proxy card on all uninstructed proposals in accordance with the recommendations of the Board of Directors given below.

If your shares are held in street name by a broker, bank or other nominee, that person, as the record holder of your shares, is required to vote your shares according to your instructions. Your bank, broker or other nominee will send you directions on how to vote those shares, which may include the ability to instruct the voting of your shares by telephone or on the Internet.

If your shares are held by a broker, bank or other nominee and you wish to vote in person at the meeting, you must obtain from the record holder, and bring with you to the meeting, a legal proxy from the record holder issued in your name. Please note that this legal proxy from the record holder is in addition to the picture identification and proof of beneficial ownership required for your admission into the meeting.

What are the Board's recommendations on how to vote my shares?

The Board of Directors recommends a vote:

Item 1 **FOR** election of the 10 nominees named herein as directors (page 12)

Item 2 **FOR** approval of the advisory proposal on executive compensation (page 67)

Item 3 **FOR** amending the Articles of Organization to implement a majority voting standard for specified corporate actions (page 68)

Item 4 **FOR** ratification of the selection of the independent registered public accounting firm (page 71)
Additionally, if other matters are presented at the annual meeting, the persons named in the proxy card as proxy holders are authorized to vote on the additional matters as they determine.

Who pays the cost for soliciting proxies by State Street?

State Street will pay the cost for the solicitation of proxies by the Board. The solicitation of proxies will be made primarily by mail and electronic means. State Street has retained Georgeson Inc. to aid in the solicitation of proxies for a fee of \$19,500, plus expenses. Proxies may also be solicited by employees of State Street and its subsidiaries personally, or by mail, telephone, fax or e-mail, without any remuneration to such employees other than their regular compensation. State Street will reimburse brokers, banks, custodians, other nominees and fiduciaries for forwarding these materials to their principals to obtain authorization for the execution of proxies.

What is householding?

Some banks, brokers and other nominee record holders may be householding our proxy statements, annual reports and related materials. Householding means that only one copy of these documents may have been sent to multiple shareholders in one household. If you would like to receive your own set of State Street's proxy statements, annual reports and related materials, or if you share an address with another State Street shareholder and together both of you would like to receive only a single set of these documents, please contact your bank, broker or other nominee.

May I change my vote?

If you are a registered shareholder, you may change your vote or revoke your proxy at any time before it is voted by notifying the Secretary in writing, by returning a signed proxy with a later date, by submitting an electronic proxy as of a later date or by attending the meeting and voting in person. If your shares are held in street name, you must contact your bank, broker or other nominee for instructions on changing your vote.

2018 NOTICE OF MEETING AND PROXY STATEMENT

What constitutes a quorum?

A majority of the votes entitled to be cast on a matter constitutes a quorum for action on that matter. A share once represented for any purpose at the annual meeting will be deemed present for determination of a quorum for the entire meeting and for any adjournment of the meeting (unless (1) a shareholder attends solely to object to lack of notice, defective notice or the conduct of the meeting on other grounds and the shareholder does not vote the shares or otherwise consent that they are to be deemed present or (2) in the case of an adjournment, a new record date is set for that adjourned meeting).

What vote is required to approve each item?

Since it is an uncontested election of directors at the annual meeting, a nominee for director will be elected to the Board of Directors if the votes cast for the nominee's election exceed the votes cast against the nominee's election (Item 1). If the votes cast against the nominee's election exceed the votes cast for the nominee's election, the nominee will not be elected to the Board of Directors. However, under Massachusetts law, if a nominee that is an incumbent director is not elected to the Board of Directors, that incumbent director will hold over in office as a director until his or her successor is elected or until there is a decrease in the number of directors. Under our Corporate Governance Guidelines, in an uncontested election of directors, any incumbent director who does not receive more votes cast for his or her election than votes cast against his or her election will submit to the Board a letter of resignation for consideration by the Nominating and Corporate Governance Committee. After consideration, that Committee would make a recommendation to the Board on action to be taken regarding the resignation. No such tendered resignation will be deemed effective unless and until it is accepted by action of the Board.

The actions concerning the advisory proposal on executive compensation (Item 2) and the ratification of the selection of the independent registered public accounting firm (Item 4) will be approved if the votes cast for the action exceed the votes cast against the action. Items 2 and 4 are non-binding proposals. The proposal to amend the Articles of Organization to implement a majority voting standard for specified corporate actions (Item 3) requires the affirmative vote of at least two-thirds of the outstanding shares of our common stock to be approved.

How is the vote counted?

Votes cast by proxy or in person at the annual meeting will be counted by the persons appointed by State Street to act as tellers for the meeting.

Abstentions and broker non-votes are not counted as votes with respect to any of the items to be voted on at the annual meeting. With respect to the proposal to amend the Articles of Organization to implement a majority voting standard

for specified corporate actions (Item 3), abstentions and broker non-votes will have the same effect as a vote against the proposal.

Stock exchange rules permit a broker to vote shares held in a brokerage account on routine proposals if the broker does not receive voting instructions from you. Stock exchange and SEC rules, however, prohibit brokers from voting uninstructed shares in the election of directors and executive compensation matters. Accordingly, of the matters to be voted on at the annual meeting, we believe the only routine proposal is the ratification of the selection of the independent registered public accounting firm (Item 4).

What happens if the meeting is postponed or adjourned?

Your proxy may be voted at the postponed or adjourned meeting. You will still be able to change your proxy until it is voted.

What are my rights as a participant in the Salary Savings Program?

As part of its employee benefits program, State Street maintains a 401(k) plan called the Salary Savings Program, or SSP. If you participate in the SSP and have invested part or all of your account in the Employee Stock Ownership Plan fund, you are considered a named fiduciary and may direct the voting of the State Street Corporation common stock allocated to your account as of the record date.

You may give direction on the Internet, by telephone or by mail. If you do not provide timely direction as to how to vote your allocated share, your allocated share will be voted on the same proportional basis as the shares that are directed by other participants. If a matter arises at the meeting, or such other time as affords no practical means for securing participant direction, the trustee will follow the direction of the Committee designated by the Plan Sponsor, or its designee. Voting of your allocated share will occur as described above unless the trustee or plan administrator (or its designee), as applicable, determines that doing so would result in a breach of its fiduciary duty.

You must direct your vote in advance of the annual meeting so that the trustee, the registered owner of all of the shares held in the SSP, can vote in a timely manner. Regardless of what method you use to direct the trustee, the trustee must receive your

direction no later than 11:59 p.m. Eastern Time on May 14, 2018 for your direction to be counted. Your direction will be held in confidence by the trustee. You may not provide this direction at the annual meeting. You may change your direction to the trustee by timely submitting a new direction. The last direction the trustee receives by 11:59 p.m. Eastern Time on May 14, 2018, will be the only one counted. If your direction by mail is received on the same day as the one received electronically, the electronic direction will be followed.

The trustee is providing the annual report, the notice of annual meeting and the proxy statement electronically to SSP participants with State Street stock in the SSP who are active employees and have a State Street-provided e-mail account and Internet access. Instead of receiving these materials in paper form mailed to your home, you will have on-line access to these materials over the Internet, thus expediting the delivery of materials and reducing printing and mailing costs. An e-mail will be sent to all such participants with detailed instructions to access materials and give your direction of the trustee. You may request that paper copies be sent to you, thereby permitting you to send in your direction by mail if you prefer that method. All other participants will receive their materials in the mail.

Other Matters

The Board of Directors does not know of any other matters that may be presented for action at the annual meeting. Under our by-laws, the deadline for shareholders to notify us of any proposals or director nominations to be presented for action at the 2018 annual meeting has passed. Should any other business properly come before the meeting, the persons named on the enclosed proxy will, as stated therein, have discretionary authority to vote the shares represented by such proxies in accordance with their best judgment. See the discussion in this proxy statement under the heading **General Information About the Meeting Questions and Answers About Voting**.

Proposals and Nominations by Shareholders

Shareholders who wish to present proposals for inclusion in State Street's proxy materials for the 2019 annual meeting of shareholders may do so by following the procedures prescribed in Rule 14a-8 under the Exchange Act and State Street's by-laws. To be eligible for inclusion in State Street's proxy materials, the shareholder proposals must be received by the Secretary on or before December 6, 2018.

State Street's proxy access provision permits a shareholder, or a group of up to 20 shareholders, to include in State Street's proxy materials director nominees constituting up to 20% of the Board; provided that: (1) the nominating shareholder(s) own a number of shares representing 3% or more of the total voting power of State Street's outstanding shares of capital stock entitled to vote on the election of directors; (2) the nominating shareholder(s) have owned that number of shares continuously for at least 3 years; and (3) the nominating shareholder(s) and their director nominee(s) satisfy the requirements of Article I, Section 7(c) of the by-laws, including its requirement of timely written notice. To

be timely, a proxy access notice with respect to the 2019 annual meeting must be delivered to the Secretary no earlier than December 17, 2018 and no later than January 16, 2019 unless the date of the 2019 annual meeting is advanced by more than 30 days or delayed by more than 60 days from the anniversary date of the 2018 annual meeting, in which event Article I, Section 7(c) of the by-laws provides different notice requirements.

Under State Street's by-laws, nominations for directors and proposals of business other than those to be included in State Street's proxy materials as described above may be made by shareholders entitled to vote at the meeting if notice is timely given, contains the information required by the by-laws and such business is within the purposes specified in our notice of meeting. Except as noted below, to be timely, a notice with respect to the 2019 annual meeting must be delivered to the Secretary no earlier than February 15, 2019 and no later than March 17, 2019 unless the date of the 2019 annual meeting is advanced by more than 30 days or delayed by more than 60 days from the anniversary date of the 2018 annual meeting, in which event the by-laws provide different notice requirements.

State Street's by-laws specify requirements relating to the content of the notice that shareholders must provide to the Secretary, including a shareholder nomination for director, to be properly presented at a shareholder meeting.

Any proposal of business or nomination should be mailed to: Office of the Secretary, State Street Corporation, One Lincoln Street, Boston, Massachusetts 02111.

Management

The table below sets forth the number of shares of State Street common stock beneficially owned as of the close of business on March 1, 2018 by (1) each director, (2) the named executive officers as identified in the Summary Compensation Table on page 49 of this proxy statement and (3) all current directors and executive officers as a group. For this purpose, beneficial ownership is determined under the rules of the SEC. As of March 1, 2018, there were 368,769,990 shares of State Street common stock outstanding. On March 1, 2018, each executive officer and director listed below individually, and those individuals as a group, owned beneficially less than 1% of the outstanding shares of common stock.

Name	Amount and Nature of Beneficial Ownership ⁽¹⁾
Eric W. Aboaf	6,844

(1) Information in this table includes shares that the individual or group has the right to acquire within 60 days of March 1, 2018. Also included are shares that have vested under the Executive Supplemental Retirement Plan and other deferred retirement benefits, as follows: Mr. Hooley, 20,542 and for the group of all current directors and executive officers, 45,296. Shares granted to non-management directors vest immediately and are included in the total amounts above, and are not subject to a vesting schedule, even if deferred.

(2) Mr. Bell ceased serving as our Chief Financial Officer in March 2017, and the amount of shares reported as beneficially owned by Mr. Bell is as of this date. Shares for Mr. Bell are not reflected in the total beneficial ownership for all current directors and executive officers as a group.

(3) Includes 2,800 shares as to which Mr. Hooley has shared voting power and investment power.

(4) Includes 3,111 shares held by a family member.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires State Street's directors, executive officers and any beneficial owners of more than 10% of our common stock to file reports of ownership and changes in ownership with the SEC. State Street is not aware of any 10% beneficial owners. On June 27, 2017, Joseph L. Hooley filed an untimely Form 4 to report a June 9, 2017 automated conversion of State Street common stock interests under the Boston Financial Data Services, Inc., or BFDS, deferred compensation plan into another investment option. This automatic conversion was related to DST Systems, Inc.'s acquisition of State Street's interest in BFDS. Mr. Hooley's participation in the plan resulted from his previously disclosed employment at BFDS, which ended in 2000. Based on State Street's review of the reports it has received and written representations from its directors and executive officers, State Street believes that all of its directors and officers otherwise complied with all Section 16(a) reporting requirements applicable to them with respect to transactions in 2017.

Table of Contents*Appendix A***Excerpt from State Street's Corporate Governance Guidelines**

The Board will have a majority of directors who meet the criteria for independence required by the New York Stock Exchange (NYSE) corporate governance standards. The Board has adopted the following guidelines to assist it in determining director independence in accordance with the NYSE standards. To be considered independent, the Board must determine, after review and recommendation by the Nominating and Corporate Governance Committee, that the director has no direct or indirect material relationship with the Company. The Board has established the following categorical guidelines to assist it in determining independence:

- a. A director will not be independent if he or she does not satisfy any of the bright-line tests set forth in Section 303A.02 (b) of the NYSE Listed Company Manual.

- b. The following commercial or charitable relationships will not be considered to be material relationships that would impair a director's independence: (i) if the State Street director or a member of such director's immediate family (as defined in Section 303A of the NYSE Listed Company Manual) is a director or owner of less than a 10% ownership interest of another company (including a tax-exempt organization) that does business with the Company; provided such State Street director is not involved in negotiating the transaction; (ii) if the State Street director or a member of such director's immediate family is a current employee, consultant or executive officer of another company (including a tax-exempt organization) that does business with the Company; provided that, (x) where the State Street director is an employee, consultant or executive officer of the other company, neither the director nor any of his or her immediate family members receives any special benefits as a result of the transaction and (y) the annual payments to, or payments from, the Company from, or to, the other company, for property or services in any completed fiscal year in the last three fiscal years are equal to or less than the greater of \$1 million, or two percent of the consolidated gross annual revenues of the other company during the last completed fiscal year of the other company; and (iii) if the State Street director or member of such director's immediate family is a director, trustee, employee or executive officer of a tax-exempt organization that receives discretionary charitable contributions from the Company; provided such State Street director and his or her Immediate Family Members do not receive any special benefits as a result of the transaction; and further provided that, where the director or immediate family member is an executive officer of the tax-exempt organization, the amount of discretionary charitable contributions in any completed fiscal year in the last three fiscal years are not more than the greater of \$1 million, or two percent of that organization's consolidated gross revenues in the last completed fiscal year of that organization (in applying this test, State Street's automatic matching of employee charitable contributions to a charitable organization will not be included in the amount of State Street's discretionary contributions).

- c. The following commercial relationships will not be considered to be a material relationship that would impair a director's independence: lending relationships, deposit relationships or other banking relationships (such as depository, transfer, registrar, indenture trustee, trusts and estates, private banking, investment management, custodial, securities brokerage, cash management and similar services) between State Street and its subsidiaries, on the one hand, and a company with which the director or such director's immediate family member is affiliated by reason of being a director, employee, consultant, executive officer, general partner or an equity holder thereof, on the other, provided that: (i) such relationships are in the ordinary course of the

Company's business and are on substantially the same terms as those prevailing at the time for comparable transactions with non-affiliated persons; (ii) with respect to a loan by the Company to such company or its subsidiaries, such loan has been made in compliance with applicable law, including Regulation O of the Board of Governors of the Federal Reserve and Section 13(k) of the Securities Exchange Act of 1934, such loan did not involve more than the normal risk of collectability or present other unfavorable features, and no event of default has occurred under the loan; and (iii) payments to the Company for property or services (including fees and interest on loans but not including principal repayments) from such company does not exceed the limit provided in (b)(ii) above.

If a relationship is described by the categorical guidelines contained in both paragraphs b. and c. above, it will not be considered to be a material relationship that would impair a director's independence if it satisfies all of the applicable requirements of either paragraph b. or c. For relationships not covered by the categorical guidelines (either because they involve a different type of relationship or a different dollar amount), the determination of whether the relationship is material or not, and therefore whether the director would be independent or not, shall be made by the directors who satisfy the independence guidelines set forth above. The Company will explain in the next proxy statement the basis for any Board determination that a relationship was immaterial despite the fact that it did not meet the categorical guidelines of immateriality set forth above.

Proposed Amendment and Restatement of Article 6 of State Street Articles of Organization

Article 6

By-laws

The board of directors is authorized to make, amend or repeal the by-laws of the corporation in whole or in part, except with respect to any provision thereof which by law, by these Articles of ~~organization~~Organization or by the by-laws requires action by the ~~stockholders~~shareholders.

The by-laws of the ~~Corporation~~corporation may, but are not required to, provide that in a meeting of the shareholders other than a Contested Election Meeting (as defined below), a nominee for director shall be elected to the board of directors only if the votes cast for such nominee's election exceed the votes cast against such nominee's election (with abstentions, broker non-votes and withheld votes not counted as a vote for or against such nominee's election). At a Contested Election Meeting, directors shall be elected by a plurality of the votes cast at such Contested Election Meeting. A meeting of the shareholders shall be a Contested Election Meeting if there are more persons nominated for election as directors at such meeting than there are directors to be elected at such meeting, determined as of the tenth day preceding the date of the ~~Corporation's~~corporation's first notice to shareholders of such meeting sent pursuant to the ~~Corporation's~~corporation's by-laws (the Determination Date); provided, however, that in accordance with the ~~Corporation's~~corporation's by-laws, shareholders are entitled to make nominations during a period of time that ends after the otherwise applicable Determination Date, the Determination Date shall instead be as of the end of such period.

Place of Meetings of the ~~Stockholders~~Shareholders

Meetings of the ~~stockholders~~shareholders may be held anywhere in the United States.

Partnership

The corporation may be a partner in any business enterprise which the corporation would have power to conduct by itself.

Indemnification of Directors, Officers and Others

The corporation shall to the fullest extent legally permissible indemnify each person who is or was a director, officer, employee or other agent of the corporation and each person who is or was serving at the request of the corporation as a director, trustee, officer, employee or other agent of another corporation or of any partnership, joint venture, trust, employee benefit plan or other enterprise or organization against all liabilities, costs and expenses, including but not limited to amounts paid in satisfaction of judgments, in settlement or as fines and penalties, and counsel fees and disbursements, reasonably incurred by him in connection with the defense or disposition of or otherwise in connection with or resulting from any action, suit or other proceeding, whether civil, criminal, administrative or investigative, before any court or administrative or legislative or investigative body, in which he may be or may have been involved as a party or otherwise or with which he may be or may have been threatened, while in office or thereafter, by reason of his being or having been such a director, officer, employee, agent or trustee, or by reason of any action taken or not taken in any such capacity, except with respect to any matter as to which he shall have been finally adjudicated by a court of competent jurisdiction not to have acted in good faith in the reasonable belief that his action was in the best

interests of the corporation (any person serving another organization in one or more of the indicated capacities at the request of the corporation who shall not have been adjudicated in any proceeding not to have acted in good faith in the reasonable belief that his action was in the best interest of such other organization shall be deemed so to have acted in good faith with respect to the corporation) or to the extent that such matter relates to service with respect to an employee benefit plan, in the best interest of the participants or beneficiaries of such employee benefit plan. Expenses, including but not limited to counsel fees and disbursements, so incurred by any such person in defending any such action, suit or proceeding, may be paid from time to time by the corporation in advance of the final disposition of such action, suit or

proceeding upon receipt of an undertaking by or on behalf of the person indemnified to repay the amounts so paid if it shall ultimately be determined that indemnification of such expenses is not authorized hereunder.

If, in an action, suit or proceeding brought by or in the name of the corporation, a director of the corporation is held not liable for monetary damages, whether because that director is relieved of personal liability under the provisions of this Article Six of the Articles of Organization, or otherwise, that director shall be deemed to have met the standard of conduct set forth above and to be entitled to indemnification for expenses reasonably incurred in the defense of such action, suit or proceeding.

As to any matter disposed of by settlement by any such person, pursuant to a consent decree or otherwise, no such indemnification either for the amount of such settlement or for any other expenses shall be provided unless such settlement shall be approved as in the best interests of the corporation, after notice that it involves such indemnification, (a) by vote of a majority of the disinterested directors then in office (even though the disinterested directors be less than a quorum), or (b) by any disinterested person or persons to whom the question may be referred by vote of a majority of such disinterested directors, or (c) by vote of the holders of a majority of the outstanding stock at the time entitled to vote for directors, voting as a single class, exclusive of any stock owned by any interested person, or (d) by any disinterested person or persons to whom the question may be referred by vote of the holders of a majority of such stock. No such approval shall prevent the recovery from any such officer, director, employee, agent or trustee of any amounts paid to him or on his behalf as indemnification in accordance with the preceding sentence if such person is subsequently adjudicated by a court of competent jurisdiction not to have acted in good faith in the reasonable belief that his action was in the best interests of the corporation.

The right of indemnification hereby provided shall not be exclusive of or affect any other rights to which any director, officer, employee, agent or trustee may be entitled or which may lawfully be granted to him. As used herein, the terms director , officer , employee , agent and trustee include their respective executors, administrators and other representatives, an interested person is one against whom the action, suit or other proceeding in question or another action, suit or other proceeding on the same or similar grounds is then or had been pending or threatened, and a disinterested person is a person against whom no such action, suit or other proceeding is then or had been pending or threatened.

By action of the board of directors, notwithstanding any interest of the directors in such action, the corporation may purchase and maintain insurance, in such amounts as the board of directors may from time to time deem appropriate, on behalf of any person who is or was a director, officer, employee or other agent of the corporation, or is or was serving at the request of the corporation as a director, trustee, officer, employee or other agent of another corporation or of any partnership, joint venture, trust, employee benefit plan or other enterprise or organization, against any liability incurred by him in any such capacity, or arising out of his status as such, whether or not the corporation would have the power to indemnify him against such liability.

Intercompany Transactions

No contract or transaction between the corporation and one or more of its directors or officers, or between the corporation any other organization of which one or more of its directors or officers are directors, trustees or officers, or in which any of them has any financial or other interest, shall be void or voidable, or in any way affected, solely for this reason, or solely because the director or officer is present at or participates in the meeting of the board of directors or committee thereof which authorizes, approves or ratifies the contract or transaction, if:

- a) The material facts as to his relationship or interest and as to the contract or transaction are disclosed or are known to the board of directors or the committee which authorizes, approves or ratifies the contract or transaction, and the board or committee in good faith authorizes, approves or ratifies the contract or transaction by the affirmative votes of a majority of the disinterested directors, even though the disinterested directors be less than a quorum; or

- b) The material facts as to his relationship or interest and as to the contract or transaction are disclosed or are known to the ~~stockholders~~shareholders entitled to vote thereon, and the contract or transaction is specifically authorized, approved or ratified in good faith by the vote of the ~~stockholders~~shareholders; or

B-2

Table of Contents

- c) The contract or transaction is fair as to the corporation as of the time it is authorized, approved or ratified by the board of directors, a committee thereof, or the ~~stockholders~~shareholders.

Common or interested directors may be counted in determining the presence of a quorum at a meeting of the board of directors or of a committee thereof which authorizes, approves or ratifies the contract or transaction. No director or officer of the corporation shall be liable or accountable to the corporation or to any of its ~~stockholders~~shareholders or creditors or to any other person, either for any loss to the corporation or to any other person or for any gains or profits realized by such director or officer, by reason of any contract or transaction as to which clauses (a), (b) or (c) above are applicable.

Liability of Directors

A director of this corporation shall not be personally liable to the corporation or its ~~stockholders~~shareholders for monetary damages for breach of fiduciary duty as a director notwithstanding any provision of law imposing such liability, provided, however, that this paragraph of Article Six shall not eliminate the liability of a director to the extent such liability is imposed by applicable law (i) for any breach of the director's duty of loyalty to this corporation or its ~~stockholders~~shareholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) for any transaction from which the director derived an improper personal benefit, or (iv) for paying a dividend, approving a stock repurchase or making loans which are illegal under certain provisions of Massachusetts law, as the same exists or hereafter may be amended. If Massachusetts law is hereafter amended to authorize the further limitation of the legal liability of the directors of this corporation, the liability of the directors shall then be deemed to be limited to the fullest extent then permitted by Massachusetts law as so amended. Any repeal or modification of this paragraph of this Article Six which may hereafter be effected by the ~~stockholders~~shareholders of this corporation shall be prospective only, and shall not adversely affect any limitation on the liability of a director for acts or omissions prior to such repeal or modification.

Vote Required for Certain Matters

As permitted pursuant to Section 7.27(b) of the Massachusetts Business Corporation Act (the "MBCA"), the corporation has provided that the following actions will require the specific shareholder vote provided below:

Domestication into Foreign Jurisdiction
