**PROXY STATEMENT
FOR THE SPECIAL MEETING OF SHAREHOLDERS
TO BE HELD WEDNESDAY, OCTOBER 13, 2010**

This Proxy Statement is furnished to the shareholders of mPhase Technologies, Inc. in connection with the solicitation of proxies by our Board of Directors to be voted at the Special Meeting of Shareholders and at any adjournments thereof. The Special Meeting will be held at our offices at 587 Connecticut Avenue, Norwalk, CT 06854, at 10:00 a.m. Eastern Time on Wednesday, October 13, 2010.

The Company has been unable to hold two Annual Meetings of Shareholders for the fiscal years ended June 30, 2008 and June 30, 2009 owing to financial considerations during the past two years as a result, in part, of the global financial crisis that began in 2008. It is the intent of the Company to use its best efforts to hold its next Annual Meeting for the fiscal year ended June 30, 2010 no later than December 15, 2010. The Company, as a New Jersey Corporation, is subject to the provisions of Section 14A:5-2 of the New Jersey Business Corporation Law that provides as follows:

Annual Meeting of Shareholders

An annual meeting of shareholders shall be held at such time as may be provided in the by-laws, or as may be fixed by the board pursuant to authority granted in the by-laws, and, in the absence of such a provision, at noon on the first Tuesday of April. *Failure to hold the annual meeting at the designated time, or to elect a sufficient number of directors at such meeting or any adjournment thereof, shall not affect otherwise valid corporate acts or work a forfeiture or dissolution of the corporation.* If the annual meeting for election of directors is not held on the date designated therefor, the directors shall cause the meeting to be held as soon thereafter as convenient. If there is a failure to hold an annual meeting for a period of 30 days after the date designated therefor, or if no date has been designated for a period of 13 months after the organization of the corporation or after its last annual meeting, the Superior Court may, upon the application of any shareholder, summarily order the meeting or the election, or both, to be held at such time and place, upon such notice and for the transaction of such business as may be designated in such order. At any meeting ordered to be called pursuant to this section, the shareholders present in person or by proxy and having voting powers shall constitute a quorum for the transaction of the business designated in such order.

For both years ended June 20, 2008 and June 30, 2009, the Company continued to function with the same Board of Directors and auditors elected or approved at its last Annual Meeting for the fiscal year ended June 30, 2007 that was held on August 27, 2008. On July 22, 2010, the Board of Directors appointed Demetrius & Company, L.L.C. as its independent auditors for the 2010 fiscal year, replacing Rosenberg Rich Baker Berman & Company, as set forth in the Company's Form 8-K filing of July 23, 2010. The Board of Directors remains unchanged and it and the Company's recently appointed auditors and any successors thereto approved by the Board shall continue to function in such roles for the Company until the next annual meeting for fiscal year ended June 30, 2010. The Company is using its best efforts to hold such Annual Meeting not later than December 15, 2010.

After consulting with legal counsel, the Board of Directors of the Company determined that, given the lapse of time since the last Annual Meeting, it was in the best interest of all shareholders to hold this Special Meeting of Shareholders. The Company has included its most recent Annual Reports on Form 10-K for the fiscal years ended June 30, 2008 and June 30, 2009 and its Amended and Restated By-Laws. Such materials provide shareholders with the most current information about the Company that would otherwise have been provided if the Annual Meetings had taken place during the traditional time frame shortly after the close of a given fiscal year. Officers of the Company will be present at this Special Meeting of Shareholders to answer all questions regarding the decision to call such

meeting in lieu of the two Annual Meetings of Shareholders for fiscal years ended June 30, 2008 and June 30, 2009.

7

The approximate date on which this Proxy Statement and the accompanying proxy card are first being sent or given to shareholders is August 31, 2010.

VOTING

General

The securities that may be voted at the Special Meeting consist of our common stock, with each share entitling its owner to one vote on each matter submitted to the shareholders. The record date for determining the holders of our shares who are entitled to notice of and to vote at the Special Meeting is August 18, 2010. On the record date, 1,183,598,107 shares were outstanding and eligible to be voted at the Special Meeting.

Quorum and Vote Required

The presence, in person or by proxy, of a majority of the outstanding shares of common stock is necessary to constitute a quorum at this Special Meeting. Abstentions and broker non-votes shall be counted for purposes of determining a quorum. At a meeting where a quorum is present, with respect to the proposal for the amendment of the Company's Amended Certificate of Incorporation to authorize an additional 2 billion shares of common stock for a total number of 4 billion authorized shares of common stock, the affirmative vote of a majority of the shares of the Company represented at the meeting in person or by proxy is required for approval.

Brokers holding shares of record for customers generally are not entitled to vote on certain matters unless they receive voting instructions from their customers. Broker non-votes means the votes that could have been cast on the matter in question if the brokers had received their customers' instructions and as to which the broker has notified us on a proxy form in accordance with industry practice or has otherwise advised us that it lacks voting authority. If no direction is made, this Proxy will be considered a "yes" vote with respect to the proposal.

Voting by Proxy

Shares represented by properly executed proxies received at or before the Special Meeting that have not been revoked will be voted at the Special Meeting in accordance with the instructions contained therein. Shares represented by properly executed proxies for which no instruction is given will be voted "FOR" approval of the proposal described in this Proxy Statement. If any other matters properly come before the Special Meeting, the persons named as proxies will vote upon such matters according to their judgment. Our shareholders are requested to complete, sign, date and promptly return the enclosed proxy card in the postage-prepaid envelope provided for this purpose to ensure that their shares are voted. A shareholder may revoke a proxy at any time before it is voted by signing and returning a later-dated proxy with respect to the same shares by filing with our corporate secretary a written revocation bearing a later date or by attending and voting in person at the Special Meeting. Mere attendance at the Special Meeting will not in and of itself revoke a proxy.

If the Special Meeting is postponed or adjourned for any reason, at any subsequent reconvening of the Special Meeting, all proxies (except for any proxies that have theretofore effectively been revoked or withdrawn) will be voted in the same manner as such proxies would have been voted at the original convening of the Special Meeting, notwithstanding that such proxies may have been effectively voted on the same or any other matter at a previous meeting.

PROPOSAL

**APPROVAL OF AN AMENDMENT TO THE COMPANY S AMENDED CERTIFICATE OF
INCORPORATION**

The Board of Directors has approved, and is recommending to the stockholders for approval at the Special Meeting, an amendment to our Amended Certificate of Incorporation to increase the number of authorized shares of common stock from 2,000,000,000 to 4,000,000,000 shares. The Board of Directors determined that this amendment is advisable and should be considered at the Special Meeting.

10

Purpose and Effect of the Amendment to Authorize Additional Shares of Common Stock

PROPOSAL TO AMEND THE COMPANY'S AMENDED CERTIFICATE OF INCORPORATION TO INCREASE THE AUTHORIZED COMMON STOCK FROM 2,000,000,000 SHARES TO 4,000,000,000 SHARES

Background

The Company's Amended Certificate of Incorporation, as currently in effect, provides that the Company's authorized capital stock consists of 2,000,000,000 shares of common stock, \$.01 par value per share. Effective as of July 15, 2010, the Company's Board of Directors approved an amendment to Article 4 of the Company's Amended Certificate of Incorporation to increase the number of authorized shares of common stock from 2,000,000,000 shares to 4,000,000,000 shares. In accordance with New Jersey law, the proposed amendment to the Amended Certificate of Incorporation is subject to shareholder approval.

In the event that shareholder approval of the proposed amendment is obtained, the Company expects to file a Certificate of Amendment to the Amended Certificate of Incorporation with the New Jersey Secretary of State on or about the close of business on the date of the Special Meeting.

As of June 22, 2010, of the 2,000,000,000 shares of common stock currently authorized for issuance under the Amended Certificate of Incorporation, a total of 1,163,726,452 shares were issued and outstanding and 349,716,405 shares were reserved for issuance upon exercise of the Company's stock options, warrants and other convertible debt securities that are currently outstanding and funded based upon the closing stock price of \$.0192 per share on such date. In addition if all convertible debt were funded in cash to the Company of \$5,420,000, the Company would be required to issue an additional 376,416,667 shares of its common stock based upon the stock price of \$.0192 per share on June 22, 2010. An increase in the number of shares of common stock authorized for issuance under the Company's Amended Certificate of Incorporation is necessary to permit the Company to have additional shares available for issuance in furtherance of the Company's business purposes, as more fully set forth below under "Reasons for and Effects of the Proposal."

Reasons for and Effects of the Proposal

Due to the limited number of shares of common stock available to be issued, the Board of Directors has unanimously approved, and recommends that the shareholders approve, an amendment to the Company's Amended Certificate of Incorporation pursuant to which the number of shares of common stock which the Company would be authorized to issue would be increased from 2,000,000,000 shares to 4,000,000,000 shares. As of June 22, 2010, the Company had outstanding 1,163,726,452 shares of common stock as well as warrants and options convertible into an additional 248,110,502 shares of common stock. In addition, the Company anticipates the need for significant additional shares in connection with future funding of over \$5 million anticipated from future conversions of convertible debt securities.

The Company traditionally financed its operations from inception to late 2007 through equity private placements with retail investments of its common stock and warrants. The equity market for the Company's common stock contracted significantly in December of 2007. As a result, in order to finance its operations thereafter, the Company has issued convertible debentures and convertible notes to a number of hedge funds. Such transactions are highly dilutive since the conversion price of the convertible debt into common stock is at a discount ranging from 20-25% of the market price of the stock. From September 30, 2007 through September 23, 2008 the Company's shares of common stock outstanding increased from 391,736,000 shares to 527,000,000 shares and by September 19, 2009 such outstanding shares had increased to 1,158,726,952 shares. The substantial increase in shares is attributable to the decline in the Company's common stock value from \$.076 per share in September of 2007 to \$.04 per share in September of 2008 to \$.024 per share in September of 2009. On July 19, 2010 the stock price closed at \$.0155 per

share. In order for the Company to raise a fixed amount of financing for operations, it has become necessary to issue an increased amount of shares upon conversions of convertible debt into shares of common stock at a fixed discount from the then current market price. The Company will continue to require substantial funds to be raised in the capital markets until it has achieved profitable operations. The Company is unable to predict when its operations may become profitable and therefore finds it necessary to increase its authorized shares in order to continue to finance for operations. The need for the substantial increase in authorized shares for the Company is especially critical at this time given the continuing volatility of the Company's stock price and global uncertainty in the capital markets.

The Company also currently plans to reserve not more than one billion shares of the additional authorized common stock for issuance in connection with benefit, option or stock ownership plans or employment agreements, as the case may be. In particular, substantial awards may be made in connection herewith to the Company's key executives, Messrs. Durando, Dotoli and Smiley.

The Board of Directors believes that an increase in authorized common stock would provide the Company with increased flexibility to issue and/or sell common stock from time to time at the discretion of the Board of Directors, and without further authorization by the shareholders, for one or more of the following business purposes: (i) in public or private offerings as a means of obtaining additional capital for the Company's business; (ii) as part or all of the consideration required to be paid for the acquisition of ongoing businesses or other assets; (iii) to satisfy any current or future financial obligations of the Company; (iv) in connection with the exercise of options, warrants or rights, or the conversion of convertible securities that may be issued by the Company; or (v) pursuant to any benefit, option or stock ownership plan or employment agreement.

The Company expects to receive between \$100,000 and \$400,000 per month during the next 15 months through the conversion of convertible debt securities that is essential capital to maintain ongoing operations until sales revenues of its new emergency flashlight product materialize. In addition, the Company will need to raise an additional \$5-10 million for product expansion and marketing and distribution during the next 12 months. Since the Company uses its stock as its main source of currency to sustain operations and fund further product development and commercialization, management believes that the additional number of authorized shares will enable it to continue development of the Company into an enterprise with revenue in the future.

The proposed increase in the number of authorized shares of common stock will not change the number of shares of common stock outstanding or the rights of the holders of such stock. Other than issuing new shares of common stock upon the exercise of options, warrants, convertible debentures and convertible notes, the Company has no immediate plans to issue additional common stock out of the additional authorized shares. However, the Company does anticipate that it will need to raise additional equity capital in the near future through the issuance of common stock or securities convertible into or that otherwise grant the holder the right to purchase common stock. The records of the Company's transfer agent indicated that as of June 22, 2010, the Company had 1,163,726,592 shares of common stock outstanding plus warrants at prices ranging from \$.05 to \$.35 per share convertible into 110,592,502 shares of common stock and options ranging from \$.05 per share to \$.30 per share convertible into 137,518,000 shares of common stock. Warrants convertible into 8,628,505 shares of common stock and options convertible into 7,775,000 shares of common stock expired during the period from January 1, 2010 through June 22, 2010. All warrants and options have fixed strike prices and none allow for cashless exercise.

As of June 22, 2010, the Company's convertible debt instruments were immediately convertible into 101,605,903 shares of common stock at a price discounted from the market price of \$.0192 per share for \$1,463,750 of funding already received by the Company. Based upon the market price of the Company's common stock on June 22, 2010, additional conversions into 376,416,667 shares of common stock through November 17, 2012 may occur provided that the Company receives funding of \$5,420,400 of additional cash under these agreements. The shares that would be issued under the convertible debt would increase in cases where the price of the Company's common stock decreased. The Company may experience requests for conversions exceeding the total shares it has available over the life of the convertible debt agreements should its stock price decrease; in such case the Company believes it would not have a greater liability than that recorded on its Financial Statements, as amended, for convertible notes payable and the corresponding derivative liability. The Company also has outstanding officer notes for amounts owed that have limited conversion features effective from April of 2009 through April of 2014 that could be convertible into approximately 195,000,000 shares of common stock provided that such shares are available at the time of conversion.

The following table illustrates the shares issuable at a range of prices from \$.01536, \$.01920 (the actual price as of June 22, 2010) and \$.02304 for obligations the Company has outstanding as of June 22, 2010.

OUTSTANDING CONVERTIBLE DEBENTURES

Arrangement #1 (LaJolla Cove Investors Inc.)

On Sept 11, 2008, the Company issued a 7.25% convertible debenture in the principal amount of \$2,000,000 to La Jolla Cove Investors, Inc. Interest only is payable monthly with any unpaid principal plus accrued interest payable on September 30, 2011. The Company received \$200,000 in cash plus an 8.25% secured promissory note from the debenture holder in the principal amount of \$1,800,000. Interest only is payable monthly with any unpaid principal plus accrued interest payable at maturity on September 30, 2011.

Conversion of outstanding debentures into common shares is at the option of the holder at a price equal to the dollar amount of the debenture divided by the lesser of \$.35 per share or 80% of the three lowest volume weighted average prices during a 20 day trading period. The holder has converted \$190,000 of the principal amount of the convertible debenture into 21,714,285 shares of common stock as of June 22, 2010.

If the price of the Company's common stock is \$.04 per share or greater prior to maturity, the holder of the convertible debenture may fund, under the terms of the secured promissory note, up to the remaining principal of \$1,800,000 and convert such amount into a maximum of approximately 56,250,000 or fewer shares of common stock at the price set forth in the preceding paragraph.

Arrangement #2 (JMJ Financial, Inc.)

On August 19, 2009, the Company issued a 12% convertible note maturing on August 10, 2012 in the principal amount of \$1,870,000 to MJJ Financial for a purchase price of \$1,700,000. The Company initially received \$250,000 in cash as partial payment of the purchase price for the convertible note plus a 13.2% secured promissory note maturing on August 10, 2012 in the amount of \$1,450,000. To date the Company has received a total of \$1,523,500 cash and has issued 109,920,635 shares of common stock to the holder upon conversions. The remaining \$570,900 of cash to be received from the holder plus accrued and unpaid interest is convertible into shares of common stock at the option of the holder. Upon receipt, in full, of cash by the Company equaling the purchase price of the convertible note plus interest or any portion thereof payable through maturity, the holder may convert such portion of the total amount of interest funded that would accrue to maturity into additional shares of common stock. The number of shares into which this convertible note can be converted is equal to the dollar amount of the debenture divided by 75% of the lowest trading price during the 20 day trading period prior to conversion. Based upon the price of the Company's common stock on June 22, 2010 of \$.0192 per share, the holder could convert the remaining principal amount plus interest of this convertible note into approximately 39,645,833 shares of common stock.

Arrangement #3 (JMJ Financial, Inc.)

On September 30, 2009, the Company issued a 12% convertible note maturing on September 23, 2012 in the principal amount of \$1,200,000 to JMJ Financial for a purchase price of \$1,100,000. The Company initially received \$150,000 in cash as partial payment of the purchase price for the convertible note plus a 13.2% secured promissory note maturing on August 10, 2012 in the amount of \$950,000. To date the Company has received a total of \$150,000 cash and has issued no shares of common stock to the holder upon conversions. The remaining \$1,094,000 of cash to be received from the holder plus accrued and unpaid interest is convertible into shares of common stock at the option of the holder. Upon receipt, in full, of cash by the Company equaling the purchase price of the convertible note plus interest or any portion thereof payable through maturity, the holder may convert such portion of the total amount of interest funded that would accrue to maturity into additional shares of common stock. The number of shares into which this convertible note can be converted is equal to the dollar amount of the note divided by 75% of the lowest trading price during the 20 day trading period prior to conversion. Based upon the price of the Company's common stock on June 22, 2010 of \$.0192 per share, the holder could convert the remaining principal amount plus interest of this convertible note into approximately 93,333,334 shares of common stock.

Arrangement #4 (JMJ Financial, Inc.)

On November 17, 2009, the Company received a total of \$186,000 of proceeds in connection with a new financing agreement with JMJ Financial. This transaction consists of the following: 1) a convertible note in the amount of \$1,200,000 plus a one-time interest factor of 12% (\$144,000) and a maturity date of September 23, 2012 and (2) a secured promissory note in the amount of \$1,100,000 plus a one-time interest rate factor of 13.2% (\$144,000) and a maturity date of September 23, 2012 due from the holder of the convertible note. Conversion of outstanding principal into shares of common stock is at the option of the holder. The number of shares into which this note can be converted is equal to the dollar amount of the note divided by 75% of the lowest trade price during the 20 day trading period prior to conversion.

To date, the Company has received a total of \$186,000 cash and has issued no shares of common stock to the holder upon conversions. The remaining \$1,058,000 of cash to be received from the holder plus accrued and unpaid interest is convertible into shares of common stock at the option of the holder. Upon receipt, in full, of cash by the Company equaling the purchase price of the convertible note plus interest or any portion thereof payable through maturity, the holder may convert such portion of the total amount of interest funded that would accrue to maturity into additional shares of common stock. Based upon the price of the Company's common stock on June 22, 2010 of \$.0192 per share, the holder could convert the remaining principal amount plus interest of this convertible note into approximately 93,333,334 shares of common stock.

Arrangement #5 (JMJ Financial, Inc.)

On December 15, 2009, the Company entered into a new financing agreement with JMJ Financial that consists of the following: 1) a convertible note issued by the Company in the amount of \$1,500,000 plus a one time interest factor of 12% (\$180,000) and a maturity date of December 15, 2012 and (2) a secured promissory note in the amount of \$1,400,000 plus a one time interest rate factor of 13.2% (\$180,000) and a maturity date of December 15, 2012 due from the holder of the convertible note.

To date, the Company has received a total of \$300,000 cash and has issued no shares of common stock to the holder upon conversions. The remaining \$1,280,000 of cash to be received from the holder plus accrued and unpaid interest is convertible into shares of common stock at the option of the holder. Upon receipt, in full, of cash by the Company equaling the purchase price of the convertible note plus interest or any portion thereof payable through maturity, the holder may convert such portion of the total amount of interest funded that would accrue to maturity into additional shares of common stock. The number of shares into which this convertible note can be converted is equal to the dollar amount of the note divided by 75% of the lowest trade price during the 20 day trading period prior to conversion. Based upon the price of the Company's common stock on June 22, 2010 of \$.0192 per share, the holder could convert the remaining principal amount plus interest of this convertible note into approximately 116,666,667 shares of common stock.

Arrangement #6 (JMJ Financial, Inc.)

On April 5, 2010, the Company entered into a new financing agreement with JMJ Financial that consists of the following: 1) a convertible note issued by the Company in the principal amount of \$1,200,000 plus a one time interest factor of 12% (\$144,000) and a maturity date of December 15, 2012, and (2) a secured promissory note from the holder of the convertible note in the amount of \$1,100,000 plus a one time interest rate factor of 13.2% (\$144,000) and a maturity date of December 15, 2012.

To date the Company has received a total of \$100,000 cash and has issued no shares of common stock to the holder upon conversions. The remaining \$1,144,000 of cash to be received from the holder plus accrued and unpaid interest is convertible into shares of common stock at the option of the holder. Upon receipt, in full, of cash by the Company equaling the purchase price of the convertible note plus interest or any portion thereof payable through maturity, the holder may convert such portion of the total amount of interest funded that would accrue to maturity into additional shares of common stock. The number of shares into which this convertible note can be converted is equal to the dollar amount of the note divided by 75% of the lowest trade price during the 20 day trading period prior to conversion. Based upon the price of the Company's common stock on June 22, 2010 of \$.0192 per share, the holder could convert the remaining principal amount plus interest of this convertible note into approximately 93,333,334 shares of common stock.

Arrangement #7 (J. Fife)

On March 3, 2010, the Company entered into a new financing agreement with J. Fife that consists of a convertible note issued by the Company in the principal amount of \$550,000, bearing interest at 7.5% per annum, in which the Company received \$495,000 cash up front. The convertible note has a maturity date of four years from the date of issuance. In addition, the Company has committed to issue in the future two additional promissory notes, each in the principal amount of \$275,000, each with an interest rate of 7.5% and each upon the receipt of \$250,000 of cash funding in exchange for such notes. The issuance of each of such notes is expected to take place upon the full conversion by the holder of its previous note into common stock of the Company. Conversion of each of the convertible notes into common stock of the Company is at the option of the holder at a price equal to the dollar amount of the note being converted divided by 75% of the three lowest volume weighted average prices during the 20 day trading period immediately preceding the date of conversion. Based upon the price of the Company's common stock on June 22, 2010 of \$.0192 per share, the holder could convert the remaining principal amount plus interest of this convertible note into approximately 41,059,028 shares of common stock.

From December 31, 2007 through June 22, 2010, the Company has raised a total of \$7,662,500 in cash proceeds from convertible debentures and notes and has issued 516,292,691 shares of common stock in connection with such securities.

Private Placements

During fiscal year ended June 30, 2008, the Company issued 24,600,000 shares of common stock in private placements raising \$1,144,247. In addition the Company issued warrants in connection with such private placements convertible into 500,000 shares of common stock.

During fiscal year ended June 30, 2009, the Company issued 72,333,334 shares of common stock in private placements raising \$720,000.

Reparation Shares

In private placements that occurred during the fiscal year ended June 30, 2008 and the fiscal year ended June 30, 2009 and continuing through the quarter ended December 31, 2009, the Company has, as indicated in its Form 10-K and Form 10-Q filings, issued reparation shares during such period to induce prior investors from earlier offerings to invest in additional shares of common stock of the Company. The Company also issued 1,700,000 reparation shares in November 2009 relating to the same private placements. The Company has, in three of the past ten years prior to the fiscal year commencing on July 1, 2007, issued reparation shares in order to induce prior investors in equity private placements of common stock of the Company to make an investment in a new private placement. This was necessary because the price of the Company's common stock has generally declined over the course of the past ten years and the Company engaged exclusively in private placements of equity prior to December of 2007. None of the investors that have been issued reparation shares in the fiscal years ended June 30, 2008 or June 30, 2009 or for the period from July 1, 2009 through the date hereof are "related persons" as defined in Item 404 of Regulation S-K. The Company had no contractual or legal obligation to issue such shares for reparations and determined the issuance of each on a case by case basis as negotiated with its investor. As of the date hereof, there are no current agreements for the issuance of any additional reparation shares. The Company is unable to predict whether conditions in the financial markets in the future may require it to issue additional reparation shares in order to attract monies in future private placements of its common stock.

The determination of the quantity of reparation shares for the corrective issuance of each reparation for selected prior investments in private placements of the Company's common stock was negotiated with each accredited investor at the time the subsequent new investment was made. This quantity was based on several factors including: (i) the market value of the Company's common stock at the time of the prior investment in relation to the market value at the date of the new investment; (ii) the dollar amount of the prior investment in relation to the dollar amount of the new investment; and (iii) the current terms of private placements of common stock being offered by the Company to other accredited investors. All reparation costs were valued as of the date of the new investment. In no case did the corrective issuance exceed the reduction in the market value of the prior issuance.

The following tables summarize details of reparation expense for the last two fiscal years as follows:

*** The date indicated was the execution and funding date of the new investment and the date the corresponding reparation shares or warrant(s) were issued.

** Included in proceeds from current year private placements and exercise of warrants.

* Issued as an inducement to an existing warrant-holder to make an investment of \$722,222 based upon the exercise of previously issued warrants, as modified. Reparation costs associated with this warrant were measured at the difference between the original value of the warrants and the value of the warrant after modification, based upon the Black-Scholes model.

The warrant-holder exercised its right to purchase 11,111,112 shares of the Company's common stock under two previously issued warrants, at a price revised from each of the original prices in each of the two warrants. The previously outstanding warrants were fixed price warrants, each to purchase up to 555,555,556 shares of the Company's common stock at an exercise price of \$.15 and \$.18, respectively, through December 12, 2011. The revised prices of \$.062 and \$.067 per share, or approximately \$.065 for all shares from both warrants, was based on 50% of the share price of the Company's common stock on March 28, 2009. As a condition to the re-pricing of the strike price of the warrants the warrant-holder was required to exercise such warrants by April 1, 2008 and the Company issued the warrant-holder a new replacement warrant at a fixed price of \$.14 per share for 11,111,112 shares of common stock that can be exercised at any time through April 1, 2013.

Any issuance of additional shares of common stock could reduce the current shareholders' proportionate interests in the Company, depending on the number of shares issued and the purpose, terms and conditions of the issuance. Moreover, the issuance of additional shares of common stock could discourage attempts to acquire control of the Company by tender offer or other means. In such a case, shareholders might be deprived of benefits that could result from such an attempt, such as realization of a premium over the market price of their shares in a tender offer or the temporary increase in market price that could result from such an attempt. Also, the issuance of stock to persons supportive of the Board of Directors could make it more difficult to remove incumbent management and directors from office. Although the Board of Directors intends to issue common stock only when it considers such issuance to be in the best interest of the Company, the issuance of additional shares of common stock may have, among others, a dilutive effect on earnings per share of common stock and on the equity and voting rights of holders of shares of common stock. The Board of Directors believes, however, that the benefits of providing the flexibility to issue shares without delay for any business purpose outweigh any such possible disadvantages.

Ownership of shares of common stock entitles each shareholder to one vote per share of common stock. Holders of shares of common stock do not have preemptive rights to subscribe to additional securities that may be issued by the Company, which means that current shareholders do not have a prior right to purchase any new issue of capital stock of the Company in order to maintain their proportionate ownership. Shareholders wishing to maintain their interest, however, may be able to do so through normal market purchases.

The increase in the authorized common stock will be implemented by effecting an amendment to the Company's Amended Certificate of Incorporation, replacing the current Article 4 with a new Article 4 that states as follows:

The aggregate number of shares of common stock which the Corporation shall have authority to issue is 4,000,000,000 shares, par value \$.01 per share.

Assuming the increase in authorized common stock is approved by the shareholders at the Special Meeting, an amendment to the Company's Amended Certificate of Incorporation will be filed with the Secretary of State of the State of New Jersey, and the increase in authorized common stock will become effective as of 5:00 p.m. Eastern Time on the date of such filing. The Company expects that such filing will take place on or shortly after the date the Special Meeting is held. The increase in authorized common stock may be abandoned by the Board of Directors at any time before or after the Special Meeting.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR APPROVAL OF THE AMENDMENT TO THE AMENDED CERTIFICATE OF INCORPORATION, THEREBY INCREASING THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK FROM 2,000,000,000 SHARES TO 4,000,000,000 SHARES, AS SET FORTH ABOVE. THE AFFIRMATIVE VOTE OF HOLDERS OF A MAJORITY OF THE SHARES OF COMMON STOCK REPRESENTED AT THE MEETING IN PERSON OR BY PROXY IS REQUIRED TO APPROVE THE AMENDMENT TO THE AMENDED CERTIFICATE OF INCORPORATION. SHARES OF COMMON STOCK REPRESENTED AT THE MEETING BY EXECUTED BUT UNMARKED PROXIES WILL BE VOTED FOR APPROVAL OF THE PROPOSAL.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The members of the Compensation Committee are Messrs. Biderman, Dotoli and Guerino. Neither Messr. Biderman nor Guerino has been an officer or employee of mPhase. None of the Company's directors or executive officers served as a member of the Compensation Committee (or other board committee performing equivalent functions or, in the absence of such committee, the entire Board of Directors) of another entity during fiscal year 2008 or 2009 that has a director or executive officer serving also as a director on mPhase's Board of Directors. Mr. Dotoli, together with Mr. Durando and Mr. Ergul, were collectively controlling shareholders and directors of Janifast Ltd. In March of 2009, Janifast Ltd. terminated operations.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

As indicated above, our Compensation Committee consists of Messrs. Dotoli, Biderman and Guerino. The committee determines all compensation paid or awarded to our executive officers and approves our overall compensation policies.

The committee's goals are to attract and retain an executive management team that is capable of taking full advantage of our opportunities, and to provide incentives for outstanding performance. In arriving at an initial compensation offer to an individual, the committee considers determinants of the individual's market value, including experience, education, accomplishments and reputation, as well as the level of responsibility to be assumed, in relation to the market value of such qualifications and industry standards. When determining subsequent adjustments to an individual's compensation package, the committee also evaluates the importance to stockholders of that person's continued service. This is a judgment process, exercised by the committee with the advice of our management and a compensation consultant.

The executive officers' compensation structure consists of: (i) base salary, (ii) cash bonus and (iii) stock options.

Base Salary. Each individual's base salary is determined by the committee after considering a variety of factors that make up our market value and prospective value, including the knowledge, experience and accomplishments of the individual, the individual's level of responsibility, and the typical compensation levels for individuals with similar credentials. The committee may change the salary of an individual on the basis of its judgment for any reason, including our performance or the performance of the individual, changes in responsibility, and changes in the market for executives with similar credentials. Salaries for 2008 and 2009 were set based on the above factors and after review of industry comparables.

Cash Bonus. Bonuses are awarded for accomplishments during the past year. Bonuses are determined by the committee with advice from our management, based upon the committee's assessment of the individual's contributions during the year, compared to, but not limited to, a list of individualized goals previously approved by our management and the committee.

Stock Options. Stock options are prospective incentives, aimed at keeping and motivating key people by letting them share in the value they create for stockholders. They are awarded at times deemed appropriate by the committee in amounts calculated to secure the full attention and best efforts of executives on whose future performance our success will depend.

Compliance with Section 16(a) of the Exchange Act

Section 16(a) of the Exchange Act requires our executive officers and directors, and persons who own more than ten percent of a registered class of our equity securities, to file reports of ownership and changes in ownership with the SEC and to provide us with copies of such reports. mPhase has reviewed the report copies filed in 2009 and, based also on written representations from its directors and executive officers, the Company believes that there was compliance with Section 16(a) filing requirements for 2009.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS**Material Related Party Transactions**

The Company has material related party transactions. The Company incurs costs for engineering, design and production of prototypes and certain administrative functions from Microphase Corporation. Mr. Durando and Mr. Dotoli are officers of Microphase Corporation. Mr. Ergul and Mr. Durando collectively own a 90% controlling interest of Microphase Corporation and each is a director of Microphase Corporation. Microphase Corporation is a significant shareholder of mPhase.

Management believes the amounts charged to the Company by Microphase are commensurate with amounts that would be incurred if outside parties were used. The Company believes Microphase has the ability to fulfill its obligations to the Company without further support from the Company.
