Revenues: Revenues increased 26.2% to Ps. 1,423 million in the second quarter of 2005, from Ps. 1,128 million in the same period of 2004, driven mainly by an increase in service revenue as a result of a larger subscriber base, higher consumption per user and revenues derived from exchange of capacity services provided to Unefon. The Grupo Iusacell subscriber base at the end of the second quarter of 2005 was 1.62 million.

Costs and Operating Expenses: Total cost and operating expenses increased by 16.3% and 31.3% to Ps.743 million and Ps.380 million, respectively, compared to Ps. 639 million and Ps. 289 million for the same quarter last year. The increase in total cost is mainly due to higher interconnection cost and technical expenses, offset by a reduction in handset subsidies. The increase in operating expenses is primarily due to advertising costs related to the launching of new products and special promotions and the increase in personnel expenses and salaries due to the establishment of regional sales and customer service structures in line with our strategy of providing the best service to our

clients.

Operating income before depreciation and amortization: Iusacell recorded an operating income before depreciation and amortization in the second quarter of 2005 of Ps. 300 million, representing a 50.2% increase compared to the Ps. 200 million recorded in the second quarter of 2004. This increase was primarily the result of the increase in revenues described above.

Net Loss: The net loss of Ps. 34 million recorded in the second quarter of 2005 represented a 96.6% decrease compared to the net loss of Ps. 984 million recorded in the same period the year before. This decrease was primarily due to a lower depreciation and amortization and a foreign exchange gain of Ps. 414 million.

CAPEX: Investments during the quarter were in order of US\$16 million, directed mainly toward expanding the coverage and capacity of Grupo Iusacell's 3-G network and EV-DO (Evolution Data Only) services.
