#### Forward-Looking Statements

This Quarterly Report on Form 10-Q, other periodic reports filed by Regions Financial Corporation under the Securities Exchange Act of 1934, as amended, and any other written or oral statements made by us or on our behalf to analysts, investors, the media and others, may include forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. The terms "Regions," the "Company," "we," "us" and "our" mean Regions Financial Corporation, a Delaware corporation, and its subsidiaries when or where appropriate. The words "anticipates," "intends," "plans," "seeks," "believes," "estimates," "expects," "targets," "projects," "outlook," "forecast," "will," "may," "could," "shou expressions often signify forward-looking statements. Forward-looking statements are not based on historical information, but rather are related to future operations, strategies, financial results or other developments.

Forward-looking statements are based on management's current expectations as well as certain assumptions and estimates made by, and information available to, management at the time the statements are made. Those statements are based on general assumptions and are subject to various risks, and because they also relate to the future they are likewise subject to inherent uncertainties and other factors that may cause actual results to differ materially from the views, beliefs and projections expressed in such statements. Therefore, we caution you against relying on any of these forward-looking statements. These risks, uncertainties and other factors include, but are not limited to, those described below:

Current and future economic and market conditions in the United States generally or in the communities we serve, including the effects of declines in property values, unemployment rates and potential reductions of economic growth, which may adversely affect our lending and other businesses and our financial results and conditions.

Possible changes in trade, monetary and fiscal policies of, and other activities undertaken by, governments, agencies, central banks and similar organizations, which could have a material adverse effect on our earnings.

The effects of a possible downgrade in the U.S. government's sovereign credit rating or outlook, which could result in risks to us and general economic conditions that we are not able to predict.

Possible changes in market interest rates or capital markets could adversely affect our revenue and expense, the value of assets and obligations, and the availability and cost of capital and liquidity.

Any impairment of our goodwill or other intangibles, or any adjustment of valuation allowances on our deferred tax assets due to adverse changes in the economic environment, declining operations of the reporting unit, or other factors.

Possible changes in the creditworthiness of customers and the possible impairment of the collectability of loans. Changes in the speed of loan prepayments, loan origination and sale volumes, charge-offs, loan loss provisions or actual loan losses where our allowance for loan losses may not be adequate to cover our eventual losses. Possible acceleration of prepayments on mortgage-backed securities due to low interest rates, and the related acceleration of premium amortization on those securities.

Our ability to effectively compete with other financial services companies, some of whom possess greater financial resources than we do and are subject to different regulatory standards than we are.

Loss of customer checking and savings account deposits as customers pursue other, higher-yield investments, which could increase our funding costs.

• Our inability to develop and gain acceptance from current and prospective customers for new products and services in a timely manner could have a negative impact on our revenue.

Changes in laws and regulations affecting our businesses, such as the Dodd-Frank Act and other legislation and regulations relating to bank products and services, as well as changes in the enforcement and interpretation of such laws and regulations by applicable governmental and self-regulatory agencies, which could require us to change certain business practices, increase compliance risk, reduce our revenue, impose additional costs on us, or otherwise negatively affect our businesses.

Our ability to obtain no regulatory objection (as part of the comprehensive capital analysis and review ("CCAR") process or otherwise) to take certain capital actions, including paying dividends and any plans to increase common stock dividends, repurchase common stock under current or future programs, or redeem preferred stock or other regulatory capital instruments, may impact our ability to return capital to stockholders and market perceptions of us.

Our ability to comply with applicable capital and liquidity requirements (including the Basel III capital standards), including our ability to generate capital internally or raise capital on favorable terms, and if we fail to meet requirements, our financial condition could be negatively impacted.

The costs, including possibly incurring fines, penalties, or other negative effects (including reputational harm) of any adverse judicial, administrative, or arbitral rulings or proceedings, regulatory enforcement actions, or other legal actions to which we or any of our subsidiaries are a party, and which may adversely affect our results.

Our ability to manage fluctuations in the value of assets and liabilities and off-balance sheet exposure so as to maintain sufficient capital and liquidity to support our business.

Possible changes in consumer and business spending and saving habits and the related effect on our ability to increase assets and to attract deposits, which could adversely affect our net income.

Any inaccurate or incomplete information provided to us by our customers or counterparties.

Inability of our framework to manage risks associated with our business such as credit risk and operational risk, including third-party vendors and other service providers, which could, among other things, result in a breach of operating or security systems as a result of a cyber attack or similar act.

#### **Table of Contents**

• The inability of our internal disclosure controls and procedures to prevent, detect or mitigate any material errors or fraudulent acts.

The effects of geopolitical instability, including wars, conflicts and terrorist attacks and the potential impact, directly or indirectly on our businesses.

The effects of man-made and natural disasters, including fires, floods, droughts, tornadoes, hurricanes, and environmental damage, which may negatively affect our operations and/or our loan portfolios and increase our cost of conducting business.

Our inability to keep pace with technological changes could result in losing business to competitors.

Our ability to identify and address cyber-security risks such as data security breaches, "denial of service" attacks, "hacking" and identity theft, a failure of which could disrupt our business and result in the disclosure of and/or misuse or misappropriation of confidential or proprietary information; increased costs; losses; or adverse effects to our reputation.

Possible downgrades in our credit ratings or outlook could increase the costs of funding from capital markets. The effects of problems encountered by other financial institutions that adversely affect us or the banking industry generally could require us to change certain business practices, reduce our revenue, impose additional costs on us, or otherwise negatively affect our businesses.

The effects of the failure of any component of our business infrastructure provided by a third party could disrupt our businesses; result in the disclosure of and/or misuse of confidential information or proprietary information; increase our costs; negatively affect our reputation; and cause losses.

Our ability to receive dividends from our subsidiaries could affect our liquidity and ability to pay dividends to stockholders.

• Changes in accounting policies or procedures as may be required by the Financial Accounting Standards Board or other regulatory agencies could materially affect how we report our financial results.

The effects of any damage to our reputation resulting from developments related to any of the items identified above. You should not place undue reliance on any forward-looking statements, which speak only as of the date made. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible to predict all of them. We assume no obligation to update or revise any forward-looking statements that are made from time to time, either as a result of future developments, new information or otherwise, except as may be required by law

See also the reports filed with the Securities and Exchange Commission, including the discussion under the "Risk Factors" section of Regions' Annual Report on Form 10-K for the year ended December 31, 2014 as filed with the Securities and Exchange Commission and available on its website at www.sec.gov.

# REGIONS FINANCIAL CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Three and Six Months Ended June 30, 2015 and 2014

NOTE 1. BASIS OF PRESENTATION

Regions Financial Corporation ("Regions" or the "Company") provides a full range of banking and bank-related services to individual and corporate customers through its subsidiaries and branch offices located primarily in Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, South Carolina, Tennessee, Texas and Virginia. The Company is subject to competition from other financial institutions, is subject to the regulations of certain government agencies and undergoes periodic examinations by certain of those regulatory authorities.

The accounting and reporting policies of Regions and the methods of applying those policies that materially affect the consolidated financial statements conform with accounting principles generally accepted in the United States ("GAAP") and with general financial services industry practices. The accompanying interim financial statements have been prepared in accordance with the instructions for Form 10-Q and, therefore, do not include all information and notes to the consolidated financial statements necessary for a complete presentation of financial position, results of operations, comprehensive income and cash flows in conformity with GAAP. In the opinion of management, all adjustments, consisting of normal and recurring items, necessary for the fair presentation of the consolidated financial statements have been included. These interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto in Regions' Form 10-K for the year ended December 31, 2014. Regions has evaluated all subsequent events for potential recognition and disclosure through the filing date of this Form 10-Q.

On January 11, 2012, Regions entered into an agreement to sell Morgan Keegan & Company, Inc. ("Morgan Keegan") and related affiliates. The transaction closed on April 2, 2012. See Note 2 and Note 15 for further details. Results of operations for the entities sold are presented separately as discontinued operations for all periods presented on the consolidated statements of income. This presentation is consistent with the consolidated financial statements included in the Annual Report on Form 10-K for the year ended December 31, 2014.

Effective January 1, 2015, the Company adopted new guidance related to the accounting for investments in qualified affordable housing projects. For investments that met the criteria specified in the guidance, Regions elected to use the proportional amortization method. Under this method, the initial investment was amortized in proportion to the actual tax credits and other tax benefits to be received in the current period as compared to the total tax credits and other tax benefits expected to be received over the life of the investment. The amortization and tax benefits were included as a component of income tax expense. The guidance required retrospective application. All prior period amounts impacted by this guidance were revised. The cumulative effect of the retrospective application was a \$116 million decrease to retained earnings (deficit), a \$22 million increase to other interest-earning assets and a \$138 million decrease to other assets. The Company's total investments in qualified affordable housing projects were \$897 million and \$818 million at June 30, 2015 and December 31, 2014, respectively. These investments are reflected in other assets on Regions' consolidated balance sheets. The Company recognized \$51 million and \$45 million of amortization expense and \$58 million and \$50 million of tax credits related to these investments during the six months ended June 30, 2015 and 2014, respectively. The Company also recognized \$11 million of other tax benefits related to these investments for both six months ended June 30, 2015 and 2014.

Certain other prior period amounts have been reclassified to conform to the current period presentation. These reclassifications are immaterial and have no effect on net income, comprehensive income, total assets or total stockholders' equity as previously reported.

#### NOTE 2. DISCONTINUED OPERATIONS

On January 11, 2012, Regions entered into a stock purchase agreement to sell Morgan Keegan and related affiliates to Raymond James Financial, Inc. ("Raymond James"). The transaction closed on April 2, 2012. Regions Investment Management, Inc. (formerly known as Morgan Asset Management, Inc.) and Regions Trust were not included in the sale. In connection with the closing of the sale, Regions agreed to indemnify Raymond James for all litigation matters

related to pre-closing activities. See Note 15 for related disclosure.

#### Table of Contents

The following table represents the condensed results of operations for discontinued operations:

<sup>(1)</sup> The gross unrealized losses recognized in other comprehensive income (OCI) on held to maturity securities resulted from a transfer of available for sale securities to held to maturity in the second quarter of 2013. Equity securities in the tables above included the following amortized cost related to Federal Reserve Bank stock and Federal Home Loan Bank ("FHLB") stock. Shares in the Federal Reserve Bank and FHLB are accounted for at amortized cost, which approximates fair value.

	June 30, 2015	December 31, 2014
	(In millions)	
Federal Reserve Bank	\$484	\$488
Federal Home Loan Bank	144	39

Securities with carrying values of \$12.7 billion and \$12.1 billion at June 30, 2015 and December 31, 2014, respectively, were pledged to secure public funds, trust deposits and certain borrowing arrangements. Of the \$12.7 billion and the \$12.1 billion securities pledged, approximately \$12 million and zero represents encumbered U.S. Treasury securities at June 30, 2015 and December 31, 2014, respectively.

The amortized cost and estimated fair value of securities available for sale and securities held to maturity at June 30, 2015, by contractual maturity, are shown below. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

#### **Table of Contents**

	Amortized Cost (In millions)	Estimated Fair Value

The following tables present gross unrealized losses and the related estimated fair value of securities available for sale and held to maturity at June 30, 2015 and December 31, 2014. For securities transferred to held to maturity from available for sale, the analysis in the tables below is comparing the securities' original amortized cost to its current estimated fair value. These securities are segregated between investments that have been in a continuous unrealized loss position for less than twelve months and for twelve months or more.

	\$2,358	\$(17)	\$3,864	\$(61	\$6,222	\$(78	)

The number of individual securities in an unrealized loss position in the tables above increased from 827 at December 31, 2014 to 895 at June 30, 2015. The increase in the number of securities and the total amount of unrealized losses from year-end 2014 was primarily due to changes in interest rates, and credit spreads in certain instances. In instances where an unrealized loss did occur, there was no indication of an adverse change in credit on any of the underlying securities in the tables above. Management believes no individual unrealized loss represented an other-than-temporary impairment as of those dates. The Company does not intend to sell, and it is not more likely than not that the Company will be required to sell, the securities before the recovery of their amortized cost basis, which may be at maturity.

Gross realized gains and gross realized losses on sales of securities available for sale are shown in the table below. The cost of securities sold is based on the specific identification method.

	Three Month	is Ended June 30	Six Months Er	ided June 30

# NOTE 4. LOANS AND THE ALLOWANCE FOR CREDIT LOSSES LOANS

The following table presents the distribution of Regions' loan portfolio by segment and class, net of unearned income:

	June 30, 2015	December 31, 2014
	(In millions, net of a	unearned income)
Commercial and industrial	\$35,347	\$32,732
Commercial real estate mortgage—owner-occupied	7,797	8,263
Commercial real estate construction—owner-occupied	448	407
Total commercial	43,592	41,402
Commercial investor real estate mortgage	4,509	4,680
Commercial investor real estate construction	2,419	2,133
Total investor real estate	6,928	6,813
Residential first mortgage	12,589	12,315
Home equity	10,899	10,932
Indirect—vehicles	3,782	3,642
Indirect—other consumer	383	206
Consumer credit card	992	1,009
Other consumer	984	988
Total consumer	29,629	29,092
	\$80,149	\$77,307

During the three months ended June 30, 2015 and 2014, Regions purchased approximately \$291 million and \$272 million, respectively, in indirect-vehicles and indirect-other consumer loans from third parties. During the six months ended June 30, 2015 and 2014, the comparable loan purchase amounts were approximately \$547 million and \$518 million, respectively.

At June 30, 2015, \$13.3 billion in loans held by Regions were pledged to secure borrowings from the FHLB. At June 30, 2015, an additional \$31.1 billion of loans held by Regions were pledged to the Federal Reserve Bank. ALLOWANCE FOR CREDIT LOSSES

Regions determines the appropriate level of the allowance on at least a quarterly basis. Refer to Note 1 "Summary of Significant Accounting Policies" to the consolidated financial statements to the Annual Report on Form 10-K for the year ended December 31, 2014, for a description of the methodology.

#### ROLLFORWARD OF ALLOWANCE FOR CREDIT LOSSES

The following tables present analyses of the allowance for credit losses by portfolio segment for the three and six months ended June 30, 2015 and 2014. The total allowance for loan losses and the related loan portfolio ending balances as of June 30, 2015 and 2014 are disaggregated to detail the amounts derived through individual evaluation and collective evaluation for impairment. The allowance for loan losses related to individually evaluated loans is attributable to reserves for non-accrual commercial and investor real estate loans and all troubled debt restructurings ("TDRs"). The allowance for loan losses and the loan portfolio ending balances related to collectively evaluated loans is attributable to the remainder of the portfolio.

#### PORTFOLIO SEGMENT RISK FACTORS

The following describe the risk characteristics relevant to each of the portfolio segments.

Commercial—The commercial loan portfolio segment includes commercial and industrial loans to commercial customers for use in normal business operations to finance working capital needs, equipment purchases or other expansion projects. Commercial also includes owner-occupied commercial real estate mortgage loans to operating businesses, which are loans for long-term financing of land and buildings, and are repaid by cash flow generated by business operations. Owner-occupied construction loans are made to commercial businesses for the development of land or construction of a building where the repayment is derived from revenues generated from the business of the borrower. Collection risk in this portfolio is driven by the creditworthiness of underlying borrowers, particularly cash flow from customers' business operations.

Investor Real Estate—Loans for real estate development are repaid through cash flow related to the operation, sale or refinance of the property. This portfolio segment includes extensions of credit to real estate developers or investors where repayment is dependent on the sale of real estate or income generated from the real estate collateral. A portion of Regions' investor real estate portfolio segment consists of loans secured by residential product types (land, single-family and condominium loans) within Regions' markets. Additionally, these loans are made to finance income-producing properties such as apartment buildings, office and industrial buildings, and retail shopping centers. Loans in this portfolio segment are particularly sensitive to valuation of real estate.

Consumer—The consumer loan portfolio segment includes residential first mortgage, home equity, indirect-vehicles, indirect-other consumer, consumer credit card, and other consumer loans. Residential first mortgage loans represent loans to consumers to finance a residence. These loans are typically financed over a 15 to 30 year term and, in most cases, are extended to borrowers to finance their primary residence. Home equity lending includes both home equity loans and lines of credit. This type of lending, which is secured by a first or second mortgage on the borrower's

residence, allows customers to borrow against the equity in their home. Real estate market values as of the time the loan or line is secured directly affect the amount of credit extended and, in addition, changes in these values impact the depth of potential losses. Indirect-vehicles lending, which is lending initiated through third-party business partners, largely consists of loans made through automotive dealerships. Indirect-other consumer lending represents other point of sale lending through third parties. Consumer credit card includes Regions branded consumer credit card accounts. Other consumer loans include other revolving consumer accounts, direct consumer loans, and overdrafts. Loans in this portfolio segment are sensitive to unemployment and other key consumer economic measures.

#### CREDIT QUALITY INDICATORS

The following tables present credit quality indicators for the loan portfolio segments and classes, excluding loans held for sale, as of June 30, 2015 and December 31, 2014. Commercial and investor real estate loan portfolio segments are detailed by categories related to underlying credit quality and probability of default. Regions assigns these categories at loan origination and reviews the relationship utilizing a risk-based approach on, at minimum, an annual basis or at any time management becomes aware of information affecting the borrowers' ability to fulfill their obligations. Both quantitative and qualitative factors are considered in this review process. These categories are utilized to develop the associated allowance for credit losses.

Pass—includes obligations where the probability of default is considered low;

Special Mention—includes obligations that have potential weakness which may, if not reversed or corrected, weaken the credit or inadequately protect the Company's position at some future date. Obligations in this category may also be subject to economic or market conditions which may, in the future, have an adverse effect on debt service ability; Substandard Accrual—includes obligations that exhibit a well-defined weakness that presently jeopardizes debt repayment, even though they are currently performing. These obligations are characterized by the distinct possibility that the Company may incur a loss in the future if these weaknesses are not corrected;

Non-accrual—includes obligations where management has determined that full payment of principal and interest is in doubt.

Substandard accrual and non-accrual loans are often collectively referred to as "classified." Special mention, substandard accrual, and non-accrual loans are often collectively referred to as "criticized and classified." Classes in the consumer portfolio segment are disaggregated by accrual status.

	June 30, 2015
