QUARTER HIGHLIGHTS

Increase of 19.2% in the ADSL accesses in service

Net revenue grew by 9.2%, reaching R\$2.4 billion

Fixed-line ARPU reached R\$81.8, a 9.8% growth

Data communications revenues of R\$283.4 million, a growth of 11.0%

EBITDA of R\$991.7 million, a 7.6% growth

EBITDA margin of 42.0%

Total fixed-line CAPEX of R\$236.5 million

PCS CAPEX of R\$502.7 million

Net earnings adjusted by the goodwill of R\$134.9 million

Net debt fell by 11.3%

HIGHLIGHTS

Brasília, November 3, 2004 - **Brasil Telecom S.A. (BOVESPA: BRTO3/BRTO4; NYSE: BTM)** announces its consolidated earnings for the third quarter of 2004 (3Q04).

On the 26th of September, Brasil Telecom GSM launched its commercial activities in mobile telephony, airing an institutional marketing campaign and initiating sales to the general public.

Brasil Telecom continued to succeed in long distance segments throughout the 3Q04, reaching a **market share of 46% and 25%, in the inter-regional and international segments, respectively.**

Attesting its solid balance sheet, **the demand for the debentures issued by the company surpassed R\$800 million**, that is 60% above the total nominal value of the issuance.

Operating Performance

In the 3Q04, Brasil Telecom had 10,725 thousand **lines installed**, a growth of 0.1% and 0.4% compared to 2Q04 and 3Q03, respectively.

At the end of 3Q04, the **plant in service** was of 9,604 thousand lines.

At the end of 3Q04, Brasil Telecom reached 456.1 thousand **ADSL accesses in service**, representing a growth of 90.5% compared to the 3Q03.

Inter-network traffic increased by 6.1% compared to the 2Q04. This expansion in inter-network traffic was due to the increase in market share of Brasil Telecom in the interregional and international long distance segments.

At the end of the 3Q04, the fixed telephony operation had 5,503 **employees**, while Brasil Telecom GSM had 822.

Financial Performance

Net revenue in the 3Q04 reached R\$2,360.9 million, a 9.2% and 15.0% growth when compared to the net revenue of the 2Q04 and 3Q03, respectively.

The fixed-line ARPU (net revenue/Avg LIS/month) in the 3Q04 reached R\$81.8, compared to R\$74.4 in the 2Q04.

Measured service revenue increased by 10.6% compared to the previous quarter, reflecting the rate adjustments and an increase in traffic.

Long distance revenue increased by 14.3% compared to the previous quarter, leveraged by the Company's operations in the inter-regional and international segments.

Inter-network revenues increased by 9.1% compared to the previous quarter, mainly due to the increase in fixed-mobile traffic and the use of the CSC 14 in calls made from mobile phones.

Data communications revenues reached R\$283.4 million in the 3Q04, an increase of 47.7% compared to the 3Q03.

Interconnection costs amounted to R\$610.2 million in the 3Q04, an increase of 11.9% compared to the previous quarter.

Costs with subcontracted services amounted to R\$366.9 million. As a percentage of net revenue, costs with subcontracted services reached the lowest value of the past quarters, 15.5%.

Edgar Filing: BRASIL TELECOM SA - Form 6-K

Trailing 12M Highlights

Increase of 90.5% in the ADSL accesses in service

Net revenue grew by 15.0%, reaching R\$8.7 billion

Data communications revenues reached R\$ 980.0 million, a 47.7% growth

EBITDA of R\$3.4 billion

Net debt 22.9% lower

Year-to-date cost of debt of 11.8% p.a.

Free cash flow of R\$1.1 billion

Net Earnings in the 9M04 of R\$257.4 million

EBITDA in the 3Q04 was of R\$ million. The **EBITDA margin** was of 42.0%.

As of September 2004, Brasil Telecom's **consolidated total debt** was of R\$5,421.8 million, 5.2% higher than in the 2Q04.

The **dollar-denominated debt** represented 14.9% of the total debt, amounting to R\$809.9 million at the end of 3Q04, including hedge adjustments. **Debt exposed to exchange rate variation** represented 31.3% of the total debt.

Brasil Telecom **hedged** 45.6% of the debt exposed to exchange rate variation. The dollar denominated debt maturing in the next 24 months is 100% hedged.

The financial result (excluding Interest on Shareholders' Equity) was of negative R\$141.5 million in the 3Q04, stable compared to 2Q04.

Net Debt

R\$ Million	Sep/04	Jun/04	Sep/04	Δ Quarter	Δ 12 Months
Total Debt	4,798.1	5,155.0	5,421.8	5.2%	13.0%
(-) Cash	1,138.4	1,970.7	2,598.9	31.9%	128.3%
Net Debt	3,659.7	3,184.3	2,822.9	-11.3%	-22.9%
(-) Inter Company with BRP	1,379.6	1,475.3	1,014.7	-31.2%	-26.5%
Net Debt Ex-Inter Company with BRP	2,280.1	1,709.0	1,808.2	5.8%	-20.7%

The **year-to-date cost of debt** in 2004 is 11.8% p.a.

Consolidated net debt was of R\$1,808.2 million, as of September.

Consolidated net debt as a percentage of shareholders equity fell from 48.3% in the 2Q04 to 42.1% in the 3Q04.

In the 3Q04, Brasil Telecom generated a positive **operating cash flow** of R\$817.9 million, compared to R\$814.1 million in the 3Q03.

The trailing 12-month free cash flow was of positive R\$1,142.9 million, calculated by subtracting from the operating cash flow the cash flow from investment activities and the interest paid.

Installed Lines

In the 3Q04, Brasil Telecom installed 13.8 thousand lines, closing the quarter with 10.7 million terminals, an increase of 47.8 thousand lines from the same period in 2003.

[Table of Contents](#)

Graph 1 : Plant - Progression

Lines in Service

The plant in service totaled 9.6 million lines in the 3Q04 . Brasil Telecom continued the process of detecting delinquent lines, disconnecting lines without prospects of returning to the active base in the medium term and transferring some of the clients who negotiated their obligations to the hybrid plan (LigMix). As a result, the utilization rate reached 89.5%.

Additionally, the increase of 67.6% in the number of hybrid terminals was a result of the Company's initiative to encourage the migration of clients that were on default or who subscribed to economical plans. This initiative has been increasing the fixed-line ARPU.

ADSL

The number of ADSL accesses grew by 90.5% year on year, reaching 456.1 thousand accesses in the 3Q04.

Billed Pulses

The traffic of billed pulses (exceeding local pulses) increased by 0.5% compared to the 2Q04, reaching 2.7 billion.

Long Distance Traffic

In the 3Q04, long distance traffic increased by 0.8% in comparison to the previous quarter, reaching 1.6 billion.

LD Market Share

At the end of the 3Q04, Brasil Telecom had a 45.7% and 25.1% market share in the interregional and international long distance segments.

Leveraged by the success of the marketing campaigns of our carrier selection code (CSC 14) to locations outside the Region, the **DLD market share of Brasil Telecom increased by 0.2 p.p. in the intra-region segment**. The market share in the intra-sector and intra-region segments reached 90.9% and 81.3%, respectively.

[Table of Contents](#)

Graph 3 : DLD Market Share

Inter-Network Traffic

Inter-network traffic increased by 6.1% in the 3Q04 compared to the 2Q04, given an increase in VC-1, VC-2, and VC-3 traffic by 3.9%, 10.8%, and 34.5%, respectively.

Of the total inter-network traffic, 82.2% corresponded to VC-1 calls, while 12.0% corresponded to VC-2 calls and 5.9% to VC-3 calls.

TARIFFS

Tariff Adjustments

Following the Supreme Court of Justice's (Supremo Tribunal de Justiça - STJ) decision to authorize the rate adjustments of the Basic and Long Distance Plans, Brasil Telecom, in agreement with the Ministry of Communications and Anatel, increased rates for the local service and long distance baskets by an average of 8.7% and 9.6%, respectively. It was pre-established to apply the rate adjustments in two installments, one effective on September 1st and the other on November 1st.

The authorized maximum average rates for Brasil Telecom's basic plans are as follows:

SUBSIDIARIES

Brasil Telecom GSM

With an institutional marketing campaign aired on the 26 th of September, Brasil Telecom GSM announced the launch of its commercial activities in mobile telephony.

With a convergent telecommunications platform integrating the complete range of products and services of the Group, Brasil Telecom GSM brought a number of innovative and exclusive advantages to the market.

After announcing a promotion that reduced the interconnection rate by approximately 45%, which reduced the costs of calls from land lines to mobiles, Brasil Telecom GSM launched a new set of advantages to its clients, valid since the start of operations:

- **Pula-Pula** : The best part of the launch was Brasil Telecom's Pula-Pula . In the post-paid Pula-Pula, every time Brasil Telecom GSM clients pay their bills, credits are earned for the following month. And in the pre-paid Pula-Pula, every minute received in calls by pre-paid clients is converted into credits for the following month.
- **Único** : a pre-paid service that merges mobile, fixed line and payphone services. Clients buy credits for their pre-paid mobiles but also have the option to use the same credits to make phone calls from fixed line or payphones. The client simply calls a toll free number and informs the number to be called. The cost of the call is deducted from the pre-paid credits and the rate charged is cheaper than the pre-paid one. Brasil Telecom GSM is also the only operator to offer SMS credits every time you buy a calling card, no matter the face value of the card.
- **Bonus every month (Bônus todo mês)** : clients who buy a Brasil Telecom GSM mobile can pick a Brasil Telecom fixed-line to receive a bonus of up to 200 minutes per month in local calls to any fixed line number.
- **Boomerang 14 (Bumerangue 14)** : every minute of long distance calls made from Brasil Telecom GSM mobiles using the CSC 14 of Brasil Telecom is converted into

Edgar Filing: BRASIL TELECOM SA - Form 6-K

bonuses of local calls to any fixed-line number or Brasil Telecom mobile. The more the client uses the CSC 14 in long distance calls, the bigger the savings in local calls.

- **Friends at All Times (*Amigos toda hora*)** : Brasil Telecom GSM clients can pick 14 friends to speak to at a reduced rate of only R\$0.10 (excluding taxes) per minute, at any time, day or night. The chosen numbers may be fixed-line or mobile numbers, as long as the numbers are Brasil Telecom numbers and have the same area code as the mobile.

With the commercial launch of the mobile operations, Brasil Telecom becomes the first complete telecommunications carrier. Our convergence concept goes beyond products and services to reach our customer service and sales force. Both our call centers and points of sale will be ready to meet all the telecommunications needs of our clients. There will be more than 1.8 thousand points of sale, among them 16 flagship stores, 40 kiosks, 400 exclusive dealers and 1.350 retailers.

Our flagship stores have been designed following the one-stop-shop concept, where clients find all of our products and services including fixed and mobile telephony, intelligent services, broadband and narrowband internet, alternative DLD and ILD rate packages, besides various fixed-line and mobile telephony accessories.

In the 3Q04, investment in the mobile operation was of R\$502.7 million , amounting to R\$867.0 million since the start of the project.

Graph 4 : Gross Revenue Breakdown

2Q04
R\$3,037 million

3Q04
R\$3,315 million

Local Service

Gross local service revenues reached R\$1,218.3 million in the 3Q04, 3.2% higher than in the 3Q03 and 9.2% higher compared to the 2Q04, mainly as a result of an increase in billed pulses (measured service) and basic subscription fees.

Gross line activation revenues totaled R\$7.7 million in the 3Q04, 17.6% lower than in the 2Q04, primarily due to the fee reduction of 18.5%, applicable from July 02, 2004 onwards. This reduction was partially offset by a rate increase of 3.6%, effective on September 01, 2004. Additionally, Brasil Telecom activated 403 thousand lines in the 3Q04, compared to 418 thousand lines in the previous quarter.

Basic subscription revenues reached R\$800.6 million in the quarter, an increase of 9.3% compared to the 2Q04, due to the rate adjustments of 7.4% and 4.4%, effective from July 02, 2004 and September 01, 2004, respectively.

Billed pulses revenues totaled R\$386.7 million in the 3Q04, an increase of 10.6% compared to the 2Q04, as a result of an increase in local traffic compared to 2Q04 and the rate adjustments of 7.4% and 4.4%, effective from July 02, 2004 and September 01, 2004, respectively.

Public Telephony

Public telephony revenues reached R\$128.4 million in the 3Q04, an increase of 7.8% compared to the 2Q04, primarily due to the rate adjustments of 7.4% and 3.2% in payphones credits, effective since from July 02, 2004 and September 01, 2004, respectively.

Long-Distance

Long distance revenues reached R\$478.3 million in the 3Q04, resulting in an increase of 14.3% compared to the 2Q04. This was principally due to the **market share increase of 7.7 p.p. and 5.5 p.p. in the interregional and international segments**. The rate adjustment of 3.2% and 4.8%, effective from July 02, 2004 and September 01, 2004, respectively, in the DLD basket also had a positive impact on revenues.

Inter-Network

Gross revenue from inter-network calls reached R\$805.5 million in the 3Q04, a 9.1% increase compared to 2Q04, reflecting the 6.1% increase in inter-network traffic and the increase of VC-2 and VC-3 traffic in the inter-network call mix.

Interconnection

Interconnection revenues increased by 1.9% compared to the 2Q04. On July 02, 2004, the Local Network Usage Rate (TU-RL) was decreased by 10.5% and the Intercity Network Usage Rate (TU-RIU) increased by 3.2%.

Data Communications

In the 3Q04, data communications revenues reached R\$283.4 million, an increase of 11.0% compared to the previous quarter, mainly due to the 19.2% growth in ADSL accesses.

Data communications has been increasing as a percentage of total revenues. In the 3Q03, the segment represented 6.7% of total revenues, increasing its share to 8.5% in the 3Q04.

[Table of Contents](#)

Graph 5: Data Communications Revenues

Supplementary and Value-Added Services

Gross revenue from supplementary and value-added services increased by 12.6% compared to the previous quarter, amounting to R\$117.2 million in the 3Q04.

Other Revenues

Other revenues reached R\$47.6 million in the 3Q04, a growth of 8.3% compared to 2Q04.

Gross Revenue Deductions

Gross revenue deductions reached R\$954.3 million in the 3Q04, representing 28.8% of the quarter's gross revenue, stable compared to the previous quarter.

Fixed-line ARPU

Fixed-line ARPU (net revenue/Average LIS/month) in the 3Q04 was of R\$81.8, compared to R\$70.0 in the 3Q03, a 16.8% increase.

Graph 6: Operating Costs and Expenses Breakdown (Excluding Depreciation, Provisions and Losses)

2Q04	3Q04
R\$1,106 million	R\$1,206 million

Operating Costs and Expenses

Operating costs and expenses totaled R\$1,996.0 million in the 3Q04, compared to R\$1,840.8 million in the previous quarter.

Operating costs and expenses excluding depreciation, amortization, provisions and losses were of R\$1,205.5 million in the 3Q04, compared to R\$1,106.1 million in the 2Q04, an increase of 9.0% compared to the previous quarter. The increase in costs was primarily a result of an increase in interconnection costs (+11.9) and other (+31.0%).

Number of Employees

At the end of the 3Q04, Brasil Telecom's fixed telephony operation had 5,503 employees, compared to 5,386 in the previous quarter. This increase was due to the consolidation of Vant and the increase of commercial personnel, associated to the opening of flagship stores following the one-stop-shop concept.

As of September 2004, Brasil Telecom GSM had 822 employees, compared to 758 in the 2Q04, reflecting the structuring process for the product's launch.

Personnel

Personnel costs and expenses reached R\$104.5 million, an increase of 4.2% compared to the previous quarter, given the increase in the workforce observed during the period.

Subcontracted services

Costs and expenses with subcontracted services, excluding interconnection and advertising & marketing, totaled R\$366.9 million in the 3Q04, a 2.3% increase compared to the previous

quarter.

As a percentage of net revenue, costs with subcontracted services reached the lowest value of the past quarters, or 15.5%, compared to 16.6% in the 2Q04.

Interconnection

Interconnection costs totaled R\$610.2 million in the 3Q04, a 11.9% increase compared to the previous quarter. The increase is a result of the increase of VC-2 and VC-3 traffic in the inter-network traffic mix, the increase in long distance calls terminating outside Region II, and the increase in fixed-to-mobile traffic.

Advertising & Marketing

Expenses with advertising & marketing totaled R\$31.4 million in the 3Q04, an increase of 28.2% from the previous period. Advertising & marketing expenses as a percentage of net revenues corresponded to 1.3%, compared to 1.1% in the 2Q04.

Losses with Accounts Receivable/Gross Revenue

Losses with accounts receivable reached 3.0% of gross revenues in the 3Q04, stable when compared to the previous quarter. Losses with accounts receivable reached R\$97.9 million in the 3Q04.

Accounts Receivable

Gross accounts receivable as a percentage of gross revenues fell from 70.7% in the 2Q04 to 68.9% in the 3Q04, the lowest value in the last 12 months, given that the increase in gross revenues was higher than the increase in accounts receivable in the period. Despite the rate adjustments applied during the period, gross accounts receivable as a percentage of gross revenues fell in the quarter.

Gross accounts receivable in the period was influenced by the CSC 14 operation in the inter-regional and international segments and its usage in calls originated from mobile phones.

Deducting provision for doubtful accounts in the amount of R\$191.1 million, **Brasil Telecom's net accounts receivable totaled R\$2,093.3 million at the end of the 3Q04**.

Total Debt

As of September 2004, Brasil Telecom's consolidated total debt was of R\$5,421.8 million, 5.2% higher than the amount reported in the 2Q04. This was mainly due to the availability of funds associated with the first tranche of the loan raised with BNDES and the debentures issued by Company.

Net Debt

Net debt totaled R\$2,822.9 million, an 11.3% reduction from June 2004. Excluding inter-company debt and the private debenture raised with Brasil Telecom Participações S.A., our parent company, net debt at the end of September was of R\$1,808.2 million.

Funds raised with BNDES

On July 19, 2004, BNDES (National Development Bank) approved the loan of R\$1.27 billion to Brasil Telecom, which will be used for investments in the fixed-line plant and for operational improvements. The loan has a 6.5-year tenure, with a grace period of 1.5 years and was directly raised with BNDES. The interest rate (coupon) will be equivalent to TJLP + 5.5% p.a. for 80% of the loan and Currency Basket + 5.5% p.a. for the remaining 20%. Of the total amount approved, BNDES has already paid out R\$400 million on August 26, 2004. The remaining portion of the loan will be available by 2006.

Demand for Brasil Telecom S.A.'s Debentures exceeds R\$800 million

Attesting Brasil Telecom's credibility among investors, the demand for the debentures, exceeded R\$800 million, 60% higher than the R\$500 million proposed by the Company. The interest rate of the debentures, defined upon book building, was of CDI + 1% p.a., which was lower than the maximum interest rate proposed by the Company of CDI + 1.15% p.a. This was the first issuance in the Brazilian market of an instrument with a 5-year tenure effected in a single tranche, pegged to the CDI, with no other tranches pegged to price indexes.

Long term debt

As of September 2004, 73.4% of the total debt was long-term debt, compared to 57.1% in December 2003, reflecting the Company's success in increasing debt maturity. Brasil Telecom's debt had the following amortization schedule:

[Table of Contents](#)

Table 14: Amortization Schedule of Long Term Debt

Maturity	% Long Term Debt
2005	10.5%
2006	25.4%
2007	14.2%
2008	4.1%
2009 and after	45.8%

Foreign currency Denominated Debt As of September 2004, debt exposed to exchange variation amounted to R\$1,695.5 million, from which R\$809.9 million were denominated in US dollars, R\$278.0 million were currency basket denominated and R\$607.6 million were denominated in yens, all amounts including their respective hedge adjustments.

As of September 30, 2004, Brasil Telecom S.A. had hedged 45.6% of the debt exposed to exchange rate variation. Dollar denominated debt maturing in the next 24 months is 100% hedged.

Year-to-date Cost of Debt Brasil Telecom's consolidated debt had a year-to-date cost of 11.8% p.a., equivalent to 74.4% of CDI (domestic interbank rate).

Financial Leverage As of September 30, 2004, Brasil Telecom's financial leverage - net debt to shareholders' equity ratio - was equal to 42.1%, compared to 48.3% in June.

[Table of Contents](#)**AWARDS****Fortune Magazine - "50 Most Powerful Women of the World"**

For the third consecutive year, Carla Cico, CEO of Brasil Telecom S.A., was listed by the renowned Fortune Magazine, among the 50 Most Powerful Women of the World, outside the United States.

This year, Carla Cico climbed to the 25th position, what, according to Fortune, confers her the title of Most Powerful Woman of South America and Second Most Powerful Woman of Latin America.

Edgar Filing: BRASIL TELECOM SA - Form 6-K

This title strengthens the image of Brasil Telecom in the domestic and international markets and reiterates the solid and efficient management carried out by Brasil Telecom S.A.'s top executive.

Transparency Trophy ANEFAC, FIPECAFI and SERASA

Brasil Telecom was once again awarded the Transparency Trophy Finalist Category. The award was presented by the National Association of Finance, Management and Accounting Executive (ANEFAC), the Institute Foundation of Research in Accounting, Actuary and Finance (FIPECAFI) and SERASA. .

Only 10 companies, selected from the 500 biggest and best private companies of Brazil in the fields of commerce, industry and services (except for financial services) and the 50 biggest state-owned companies, were eligible to run for the Transparency Trophy of the Best Balance Sheet Published in 2003, part of the VIII ANEFAC, FIPECAFI and SERASA Award.

Having qualified to run for the prize for the third consecutive year improves Brasil Telecom's credibility further, as its Financial Statements and Management Report are subject to the analysis of renown institutions with independent interests, capable of attesting the quality of the information presented.

2004 ABERJE Award

Brasil Telecom, together with Ingrid Rocha Comunicações, was awarded, for the second consecutive year, the 2004 ABERJE Award, presented by the Brazilian Association of Business Communication (Associação Brasileira de Comunicação Empresarial), in the Special Events category, with the Featured Employees (Gente em Destaque).

ABERJE is the main entity of the Brazilian business communication scenery and has the objective of discussing and promoting communication as the instrument linked to the strategic management of corporations and to the strengthening of citizenship.

As this campaign was chosen as the best in its category in the Central region, it is also eligible to run for the National ABERJE Prize, in the grand final to take place in São Paulo.

2003 Oswaldo Checchia Human Being Award

The Brazilian Association of Human Resources (ABRH Nacional) conferred the 2003 Oswaldo Checchia Human Being Award to Brasil Telecom, in the Technology Applied to HR category, with the e-HR Project (Projeto e-RH).

This award has the objective of recognizing and exposing important projects which implement technological solutions in the management of people, promoting the professional development, productivity, and improving the quality of life of the employees of the company. The term e-HR embraces HR system, transaction and data solutions, which are available electronically and have an impact on the work environment of employees and managers.

With this award, Brasil Telecom becomes the national benchmark also in automated Human Resources processes.

Social Balance Sheet Award ABERJE, APIMEC, Ethos, Fides and Ibase

Brasil Telecom was a finalist of the 3rd Edition of the Social Balance Sheet Award. This ABERJE, APIMEC, Ethos, Fides award is a joint-initiative of the Brazilian Association of Business Communication and Ibase (ABERJE), the Association of Capital Markets Analysts and Investment Professionals (APIMEC), the Ethos Institute of Corporations and Social Responsibility, the Institute Foundation of Business and Social Development (Fides), and of the Brazilian Institute of Social and Economic Analyses (Ibase), sponsored by Sesi, Sebrae and Petrobras.

The 3rd Edition had the attendance of 167 companies. A commission, compound of 25 entities invited by the organizers of the award, analyzed all the balance sheets, considering some aspects as length, integrity, consistency, credibility and communication.

ABRASCA Award Best Annual Report

Brasil Telecom placed third in the 6th Edition of the Best Annual Report Award of the Brazilian Association of Public Companies (ABRASCA). The association ranked 46 public companies.

RECENT DEVELOPMENTS**Brasil Telecom receives new tranche from BNDES**

On October 26, 2004, **Brasil Telecom received a new tranche of R\$342.4 million from BNDES**, of which R\$282.7 million bear interest of TJLP + 5.5% p.a. and R\$59.7 million of Currency Basket + 5.5% p.a. Considering this new tranche, the total amount of funds associated with this loan received from BNDES in 2004 totaled R\$742.4 million.

Brasil Telecom launches a new Data Center in Brasília

On October 20, Brasil Telecom launched a new Cyber Data Center – CyDC in Brasília. The CyDC is five thousand squared meters big, with power generators of 1.25 MVA - capable of supporting a city with 6 thousand inhabitants - and the most up-to-date physical and logical security systems.

Brasil Telecom already has a Cyber Data Center in Brasília, with total capacity nearly filled, and 3 others in Porto Alegre, Curitiba and São Paulo. With several units distributed throughout its area of operation, Brasil Telecom comes closer to its clients, which in turn can closely monitor their applications stored in the CyDC.

The new Cyber Data Center in Brasília, the most modern in the country and in Latin America, was designed following international standards. Take for instance, the security procedures and systems. The entire structure is reinforced by protection systems against hackers and is under permanent vigilance of security specialists, who monitor each and every attack attempt to the five Cyber Data Centers of Brasil Telecom.

The data storage capacity is virtually endless. It is possible to store 140 terabytes, the equivalent to 200 thousand CDs, per 4 squared meters. Connectivity, initially available at 5.2 gigabits per second can be expanded as demand for CyDC services increases.

The new CyDC in Brasília is already capable of handling all data center services offered by Brasil Telecom, guaranteeing availability, performance and security. The CyDC services include hosting, co-location, and integrated and shared solutions. Integrated solutions comprise of complete packages that range from thin clients, data storage and connectivity services to specific software designed to meet the needs of the firm or governmental body. Brasil Telecom already offers integrated solutions including the Cyber School, the Cyber City Hall and the Cyber Security, the latter aimed at public safety bodies and security companies.

The Cyber Data Center also offers services to small and medium sized companies, as the newly launched Turbo Management 14 (*Gestão Turbo 14*), a complete business management solution, via the Internet, with various tools including inventory control, financial management, and purchasing and billing processes monitoring, which were previously only available to large corporations. The applications are stored in the CyDC, following the Application Service Provider – ASP model.

Brasil Telecom launches video on demand

Brasil Telecom and BrTurbo - BrT Serviços de Internet S.A. s (BrTSI) web portal – in partnership with Claxson, launched the first Video on Demand (VoD) service in the Brazilian market, the Turbo Video, which uses for particular types of contents under the scope of the partnership, the ESDC (*El Sitio Digital Channel*) platform developed by Claxson.

A single connection to watch movies, access the Internet and talk on the phone. Being able to rent a movie with a simple click of a mouse. Watch your favorite band's concert at the time you want and without having to leave the comfort of your house. If all this sounds like the future, for BrTurbo clients, this is the present.

BrT Serviços de Internet is offering another differentiated service to its broadband users through its BrTurbo portal, increasingly consolidating the portal's position as the largest broadband provider of Region 2, with more than 250 mil clients. The new service, called Turbo Video PC, will allow users to access a wide-range of quality videos.

With pioneer agreements between Brasil Telecom, Claxson, and Editora Abril, users of the new service will be able to access three different packages of digital content: family, adult and Playboy TV. The best of Fox Sports, Fashion TV and Much Music, among others, now also in Brazil as VoD over Brasil Telecom's broadband network.

Edgar Filing: BRASIL TELECOM SA - Form 6-K

Quality is guaranteed by the Content Delivery Network (CDN) of Brasil Telecom, a network dedicated to the transmission of multimedia content that uses the IP backbone of the carrier. To watch videos over the computer, all the client needs is an ADSL connection.

The video over ADSL technology supported by CDN will be capable of offering Video on Demand. The client chooses what and when to watch, much like renting a movie at a rental store, only without the hassle of physically going to the store. The content - movies, shows, lectures etc - is selected through the portal and clients can stop, forward and rewind, as with DVD or VCR players.

The technology also offers e-learning applications. The user can watch lectures, seminars or lessons at home and at the time he/she finds convenient.

Clients will be able to choose between a monthly subscription plan, offering different packages of content, and a video on demand plan, equivalent to pay-per-view. The content offered is wide, including movies, cartoons, music, sports and adult content.

Besides content, the service also offers Brasil Telecom broadband clients 3D multiplayer games and 3D community tools, of the first person type.

In a nutshell, Turbo Video PC is a new alternative offering integrated entertainment in its various forms, allowing clients to enjoy a totally innovative experience.

4Q04 AND 2004 SCENARIO (GUIDELINES)

Disclaimer

This press release contains forward-looking statements. Such statements are not statements of historical fact, and reflect the beliefs and expectations of the Company's management. The words "anticipates," "believes," "estimates," "expects," "forecasts," "intends," "plans," "predicts," "projects" and "targets" and similar words are intended to identify these statements, which necessarily involve known and unknown risks and uncertainties. Accordingly, the actual results of operations of the Company may be different from the company's current expectations, and the reader should not place undue reliance on these forward-looking statements. Forward-looking statements speak only as of the date they are made, and the Company does not undertake any obligation to update them in light of new information or future developments.

Lines in Service

We maintain our forecast that there will be no increase in demand for fixed terminals in 2004. Additionally, Brasil Telecom continued the process of detecting delinquent lines, disconnecting lines without prospects of returning to the active base in the medium term. We expect a slight reduction in the number of lines in service in the 4Q04, due to the disconnection of non-paying clients.

Revenues

The Supreme Court of Justice's decision favoring the tariff adjustment mechanism defined in the concession contracts, the IGP-DI, as well as the improvement in economic conditions, should have a positive effect on revenues. On the other hand, revenues from mobile operations should not be significant in the 4Q04.

Costs

For the 4Q04, operational costs should remain stable, excluding mobile operations.

Advertising and marketing costs of fixed-line operations are estimated at 1.5% of net revenues in 2004.

Provisions for Doubtful Accounts

Provisions for doubtful accounts should increase in the 4Q04, due to the complete implementation of the co-billing system with other telecommunication operators.

EBITDA Margin

Effecting the rate adjustments associated with the year 2003 should generate a positive impact of 1 p.p. on the EBITDA margin of the year.

Edgar Filing: BRASIL TELECOM SA - Form 6-K

On the other hand, the launch of mobile operations in the 2H04 should have a negative impact on the EBITDA margin of approximately 2.0 p.p. The increase in the share of the DLD and ILD segments and inter-network revenues as a percentage of total revenues should also have a negative effect on margins, as these sources of revenues offer lower margins than other services.

CAPEX

Total Capex for 2004 is expected around R\$2 and R\$2,2 billion, including fixed and mobile operations. This is mainly due to the Company's strategy of bringing forward the mobile telephony Capex to 2004, with the objective of improving the quality of coverage and overall service already in the year of the operations' launch.

Brasil Telecom GSM

We expect Brasil Telecom GSM to report the following:

Table 20: Selected Data - Brasil Telecom GSM

(thousands)	2004	2005
Client Base	500	1.700
Pre-Paid Sales Mix	75%	77%
Sales Share	6%	21%
Market Share	3%	8%

Additionally, an average ARPU of R\$22 by the end of 2005 and an average SAC of R\$220 also by the end of 2005 should be observed.
