Yes No

Discovery in Corcovado-1

(Rio de Janeiro, April 8, 2009). PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA, BCBA: APBR/APBRA], a Brazilian international energy company, informs that the BG Group announced today it has discovered evidences of oil in the pre-salt layer in the BM-S52 block (Santos Basin). This discovery had been announced during the drilling of the well 6-BG-6P-SPS, know as Corcovado-1, located 130 km from the cost of the state of São Paulo, in a water depth of 800 meters.

The Consortium, formed by Petrobras (60%) and BG Group (40% - operator during the exploratory phase), plans to continue drilling the Corcovado-1 and also drill another well in 2009, seeking to increase the knowledge about the area and to fulfill the commitment that was taken on with National Petroleum Agency (ANP).

In the case of the declaration of the commerciality, Petrobras will be the operator of the Consortium during the production phase.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
