### **New well confirms the light oil potential in Tupi**

Rio de Janeiro, June 23 2010   Petróleo Brasileiro S.A. - Petrobras announces that the drilling of the seventh well in the Tupi area confirmed the light oil potential in the pre-salt reservoirs, located in ultra-deep Santos Basin waters.

The new well, called 3-BRSA-821-RJS (3-RJS-674) and informally known as Tupi Alto, is located in the Tupi Evaluation Plan area, at a depth of 2,111 meters below the water line, nearly 275 km of the coast of Rio de Janeiro, and 12 km northeast of discovery well 1-RJS-628 (1-BRSA-369).

The well was drilled in a higher structural position than the other wells in Tupi, and proved the discovery of light oil via a cable test. The sample obtained in the test presented lighter oil (about 30 degrees API) than the average of the oils found in the other Tupi wells (about 28 degrees API).

The information obtained from this well and from the other ones that have already been drilled in the area reinforces the estimations of the potential of 5 to 8 billion recoverable barrels of light oil and natural gas in the pre-salt reservoirs of the Tupi area.

The Consortium, formed by Petrobras (65% - Operator), BG Group (25%), and Galp Energia (10%), to explore block BM-S-11 will carry on with the activities and investments called for in the Evaluation Plan which was approved by the ANP and foresees the drilling of other wells until the declaration of commerciality, which is expected to be made in December 2010.

This announcement is not an offer of Petrobras shares. Petrobras shares may not be offered or sold in the United States absent registration or an exemption from registration, and Petrobras currently intends to register the proposed offering in the United States. Any public offering of Petrobras shares will be made by means of a prospectus containing detailed information about Petrobras and the offering.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
