### **Oil and natural gas production in October**

Rio de Janeiro, November 17, 2015 – Petróleo Brasileiro S.A. – Petrobras announces that its average oil and natural gas production in October in Brazil and abroad reached 2.76 million barrels of oil equivalent per day (boed), 1.6% higher than the 2.72 million boed recorded in September.

Considering the volumes produced in Brazil only, oil and natural gas production averaged 2.57 million boed in October, 1.6% higher than in the previous month (2.53 million boed).

### **Oil and gas production in Brazil**

Petrobras' own production in Brazil totaled 2.10 million barrels of oil per day (bpd) in October, 2.1% higher than in September (2.06 million bpd).

This increase reflected the end of the scheduled maintenance stoppages in the large platforms in September.

Own natural gas production in Brazil, excluding liquefied gas, totaled 74.7 million m<sup>3</sup>/day in October, in line with September (75.0 million m<sup>3</sup>/day).

### **Pre-salt production remained above 1 million barrels of oil equivalent per day**

Oil and gas production operated by Petrobras in the pre-salt layer remained above 1 million boed in October, with an average volume of 1.005 million boed, slightly lower (2.3%) than in September (1.028 million boed).

Oil production operated by Petrobras in the pre-salt stood at 809,000 bpd, slightly less (2.3%) than in September (828,000 bpd).

### **Oil and gas production abroad**

Petrobras produced 194,000 boed abroad, 3.4% more than the 188,000 boed produced in the previous month. This increase was chiefly due to the performance of the new wells in the Rio Neuquén field, in Argentina, and the conclusion of cleaning operations in the export gas pipeline in the Akpo field, in Nigeria.

Oil production averaged 99,000 bpd in October, 2.8% higher than the 97,000 bpd recorded in September, due to the aforementioned reasons.

Natural gas production abroad averaged 16.1 million m<sup>3</sup>/d, 4.1% up on the 15.5 million m<sup>3</sup>/d recorded in the previous month, due to the performance of the new wells in the Rio Neuquén field, in Argentina.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
