CubeSmart: Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

CubeSmart, L.P.: Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

CubeSmart Yes No CubeSmart, L.P. Yes No

As of June 30, 2016, the last business day of CubeSmart's most recently completed second fiscal quarter, the aggregate market value of common shares held by non-affiliates of CubeSmart was \$5,504,356,819. As of February 15, 2017, the number of common shares of CubeSmart outstanding was 180,171,863.

As of June 30, 2016, the last business day of CubeSmart, L.P.'s most recently completed second fiscal quarter, the aggregate market value of the 2,220,874 units of limited partnership (the "OP Units") held by non-affiliates of CubeSmart, L.P. was \$68,580,589 based upon the last reported sale price of \$30.88 per share on the New York Stock Exchange on June 30, 2016 of the common shares of CubeSmart, the sole general partner of CubeSmart, L.P. (For this computation, the market value of all OP Units beneficially owned by CubeSmart has been excluded.)

Documents incorporated by reference: Portions of the Proxy Statement for the 2017 Annual Meeting of Shareholders of CubeSmart to be filed subsequently with the SEC are incorporated by reference into Part III of this report.

## EXPLANATORY NOTE

This report combines the annual reports on Form 10-K for the year ended December 31, 2016 of CubeSmart (the "Parent Company" or "CubeSmart") and CubeSmart, L.P. (the "Operating Partnership"). The Parent Company is a Maryland real estate investment trust, or REIT, that owns its assets and conducts its operations through the Operating Partnership, a Delaware limited partnership, and subsidiaries of the Operating Partnership. The Parent Company, the Operating Partnership and their consolidated subsidiaries are collectively referred to in this report as the "Company". In addition, terms such as "we", "us", or "our" used in this report may refer to the Company, the Parent Company, and/or the Operating Partnership.

The Parent Company is the sole general partner of the Operating Partnership and, as of December 31, 2016, owned a 98.9% interest in the Operating Partnership. The remaining 1.1% interest consists of common units of limited partnership interest issued by the Operating Partnership to third parties in exchange for contributions of properties to the Operating Partnership. As the sole general partner of the Operating Partnership, the Parent Company has full and complete authority over the Operating Partnership's day-to-day operations and management.

Management operates the Parent Company and the Operating Partnership as one enterprise. The management teams of the Parent Company and the Operating Partnership are identical, and their constituents are officers of both the Parent Company and of the Operating Partnership.

There are a few differences between the Parent Company and the Operating Partnership, which are reflected in the note disclosures in this report. The Company believes it is important to understand the differences between the Parent Company and the Operating Partnership in the context of how these entities operate as a consolidated enterprise. The Parent Company is a REIT, whose only material asset is its ownership of the partnership interests of the Operating Partnership. As a result, the Parent Company does not conduct business itself, other than acting as the sole general partner of the Operating Partnership, issuing public equity from time to time and guaranteeing the debt obligations of the Operating Partnership. The Operating Partnership holds substantially all the assets of the Company and, directly or indirectly, holds the ownership interests in the Company's real estate ventures. The Operating Partnership conducts the operations of the Company's business and is structured as a partnership with no publicly traded equity. Except for net proceeds from equity issuances by the Parent Company, which are contributed to the Operating Partnership in exchange for partnership units, the Operating Partnership generates the capital required by the Company's business through the Operating Partnership units of the Operating Partnership or equity interests in subsidiaries of the Operating Partnership.

The substantive difference between the Parent Company's and the Operating Partnership's filings is the fact that the Parent Company is a REIT with public equity, while the Operating Partnership is a partnership with no publicly traded equity. In the financial statements, this difference is primarily reflected in the equity (or capital for Operating Partnership) section of the consolidated balance sheets and in the consolidated statements of equity (or capital). Apart

from the different equity treatment, the consolidated financial statements of the Parent Company and the Operating Partnership are nearly identical.

The Company believes that combining the annual reports on Form 10-K of the Parent Company and the Operating Partnership into a single report will:

- facilitate a better understanding by the investors of the Parent Company and the Operating Partnership by enabling them to view the business as a whole in the same manner as management views and operates the business;
- remove duplicative disclosures and provide a more straightforward presentation in light of the fact that a substantial portion of the disclosure applies to both the Parent Company and the Operating Partnership; and
- · create time and cost efficiencies through the preparation of one combined report instead of two separate reports.

In order to highlight the differences between the Parent Company and the Operating Partnership, the separate sections in this report for the Parent Company and the Operating Partnership specifically refer to the Parent Company and the Operating Partnership. In the sections that combine disclosures of the Parent Company and the Operating Partnership, this report refers to such disclosures as those of the Company. Although the Operating Partnership is generally the entity that directly or indirectly enters into contracts and real estate ventures and holds assets and debt, reference to the Company is appropriate because the business is one enterprise and the Parent Company operates the business through the Operating Partnership.

As general partner with control of the Operating Partnership, the Parent Company consolidates the Operating Partnership for financial reporting purposes, and the Parent Company does not have significant assets other than its investment in the Operating Partnership. Therefore, the assets and liabilities of the Parent Company and the Operating Partnership are the same on their respective financial

statements. The separate discussions of the Parent Company and the Operating Partnership in this report should be read in conjunction with each other to understand the results of the Company's operations on a consolidated basis and how management operates the Company.

This report also includes separate Item 9A - Controls and Procedures sections, signature pages and Exhibit 31 and 32 certifications for each of the Parent Company and the Operating Partnership in order to establish that the Chief Executive Officer and the Chief Financial Officer of the Parent Company and the Chief Executive Officer and the Chief Financial Officer of the Operating Partnership have made the requisite certifications and that the Parent Company and the Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934, as amended (the "Exchange Act") and 18 U.S.C. §1350.

PART I

Forward-Looking Statements

This Annual Report on Form 10-K, or this Report, together with other statements and information publicly disseminated by the Parent Company and the Operating Partnership, contain certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act. Forward-looking statements include statements concerning the Company's plans, objectives, goals, strategies, future events, future revenues or performance, capital expenditures, financing needs, plans or intentions relating to acquisitions and other information that is not historical information. In some cases, forward-looking statements can be identified by terminology such as "believes", "expects", "estimates", "may", "will", "should", "anticipates", or "intends" or negative of such terms or other comparable terminology, or by discussions of strategy. Such statements are based on assumptions and expectations that may not be realized and are inherently subject to risks, uncertainties and other factors, many of which cannot be predicted with accuracy and some of which might not even be anticipated. Although we believe the expectations reflected in these forward-looking statements are based on reasonable assumptions, future events and actual results, performance, transactions or achievements, financial and otherwise, may differ materially from the results, performance, transactions or achievements expressed or implied by the forward-looking statements. As a result, you should not rely on or construe any forward-looking statements in this Report, or which management may make orally or in writing from time to time, as predictions of future events or as guarantees of future performance. We caution you not to place undue reliance on forward-looking statements, which speak only as of the date of this Report or as of the dates otherwise indicated in the statements. All of our forward-looking statements, including those in this Report, are qualified in their entirety by this statement.

There are a number of risks and uncertainties that could cause our actual results to differ materially from the forward-looking statements contained in or contemplated by this Report. Any forward-looking statements should be considered in light of the risks and uncertainties referred to in Item 1A. "Risk Factors" in this Report and in our other filings with the Securities and Exchange Commission ("SEC"). These risks include, but are not limited to, the following:

- $\cdot \,$  national and local economic, business, real estate and other market conditions;
- the competitive environment in which we operate, including our ability to maintain or raise occupancy and rental rates;
- the execution of our business plan;
- the availability of external sources of capital;

- financing risks, including the risk of over-leverage and the corresponding risk of default on our mortgage and other debt and potential inability to refinance existing indebtedness;
- · increases in interest rates and operating costs;
- · counterparty non-performance related to the use of derivative financial instruments;
- our ability to maintain our Parent Company's qualification as a REIT for federal income tax purposes;
- · acquisition and development risks;
- · increases in taxes, fees, and assessments from state and local jurisdictions;
- · risks of investing through joint ventures;
- · changes in real estate and zoning laws or regulations;
- · risks related to natural disasters;
- · potential environmental and other liabilities;
- · other factors affecting the real estate industry generally or the self-storage industry in particular; and
- 5

• other risks identified in this Report and, from time to time, in other reports that we file with the SEC or in other documents that we publicly disseminate.

Given these uncertainties and the other risks identified elsewhere in this Report, we caution readers not to place undue reliance on forward-looking statements. We undertake no obligation to publicly update or revise these forward-looking statements, whether as a result of new information, future events or otherwise except as may be required by securities laws. Because of the factors referred to above, the future events discussed in or incorporated by reference in this Report may not occur and actual results, performance or achievement could differ materially from that anticipated or implied in the forward-looking statements.

#### ITEM 1. BUSINESS

Overview

We are a self-administered and self-managed real estate company focused primarily on the ownership, operation, management, acquisition, and development of self-storage properties in the United States.

As of December 31, 2016, we owned 475 self-storage properties located in 23 states and in the District of Columbia containing an aggregate of approximately 32.9 million rentable square feet. As of December 31, 2016, approximately 89.7% of the rentable square footage at our owned stores was leased to approximately 269,000 customers, and no single customer represented a significant concentration of our revenues. As of December 31, 2016, we owned stores in the District of Columbia and the following 23 states: Arizona, California, Colorado, Connecticut, Florida, Georgia, Illinois, Indiana, Maryland, Massachusetts, Minnesota, Nevada, New Jersey, New Mexico, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Texas, Utah, and Virginia. In addition, as of December 31, 2016, we managed 316 stores for third parties (including 116 stores containing an aggregate of approximately 6.8 million rentable square feet as part of three separate unconsolidated real estate ventures) bringing the total number of stores we owned and/or managed to 791. As of December 31, 2016, we managed stores for third parties in the following 26 states: Alabama, Arizona, California, Colorado, Connecticut, Florida, Georgia, Illinois, Louisiana, Maryland, Massachusetts, Mississippi, Missouri, Nevada, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Texas, Vermont, and Virginia.

Our self-storage properties are designed to offer affordable and easily-accessible storage space for our residential and commercial customers. Our customers rent storage cubes for their exclusive use, typically on a month-to-month basis. Additionally, some of our stores offer outside storage areas for vehicles and boats. Our stores are designed to accommodate both residential and commercial customers, with features such as wide aisles and load-bearing capabilities for large truck access. All of our stores have a storage associate available to assist our customers during business hours, and 285, or approximately 60.0%, of our owned stores have a manager who resides in an apartment at the store. Our customers can access their storage cubes during business hours, and some of our stores provide

customers with 24-hour access through computer-controlled access systems. Our goal is to provide customers with the highest standard of physical attributes and service in the industry. To that end, 401, or approximately 84.4%, of our owned stores include climate-controlled cubes.

The Parent Company was formed in July 2004 as a Maryland REIT. The Parent Company owns its assets and conducts its business through the Operating Partnership, and its subsidiaries. The Parent Company controls the Operating Partnership as its sole general partner and, as of December 31, 2016, owned an approximately 98.9% interest in the Operating Partnership. The Operating Partnership was formed in July 2004 as a Delaware limited partnership and has been engaged in virtually all aspects of the self-storage business, including the development, acquisition, management, ownership and operation of self-storage properties.

Acquisition and Disposition Activity

As of December 31, 2016 and 2015, we owned 475 and 445 stores, respectively, that contained an aggregate of 32.9 million and 30.4 million rentable square feet with occupancy rates of 89.7% and 90.2%, respectively. A complete listing of, and additional information about, our stores is included in Item 2 of this Report. The following is a summary of our 2016, 2015 and 2014 acquisition and disposition activity:

The comparability of our results of operations is affected by the timing of acquisition and disposition activities during the periods reported. As of December 31, 2016, 2015, and 2014, we owned 475, 445, and 421 self-storage properties and related assets, respectively. The following table summarizes the change in number of owned stores from January 1, 2014 through December 31, 2016:

|                        | 2016 | 2015 | 2014 |
|------------------------|------|------|------|
|                        |      |      |      |

| Balance - December 31  | 475  | 445  | 421  |

Financing and Investing Activities

The following summarizes certain financing and investing activities during the year ended December 31, 2016:

• Store Acquisitions. During 2016, we acquired 28 self-storage properties located throughout the United States for an aggregate purchase price of approximately \$403.6 million. In connection with these acquisitions, we allocated a portion of the purchase price paid for each store to the intangible value of in-place leases which aggregated to \$18.8 million.

Development Activity. During 2016, we completed construction and opened for operation two stores developed through two separate joint ventures. Both of the self-storage properties are located in New York. We invested a total of \$64.0 million in the development of these two stores. Subsequent to the opening of the stores, the noncontrolling members put their 49% ownership interest in each venture to us. As of December 31, 2016, we had five joint venture development properties and two wholly-owned development properties under construction. We anticipate investing a total of \$303.5 million related to

these seven projects, and construction for all projects is expected to be completed by the fourth quarter of 2018.

- Development Commitments. During 2016, we acquired three self-storage properties in New York (1) and Texas (2) for an aggregate purchase price of \$69.4 million after the completion of construction and the issuance of the certificate of occupancy. During 2016, we also entered into contracts to purchase one store in Florida and one store in Illinois after the completion of construction and the issuance of the certificate of occupancy. As of December 31, 2016, we had four stores under contract, including two stores that went under contract in 2015, for a total acquisition price of \$61.1 million. These four acquisitions are subject to due diligence and other customary closing conditions and no assurance can be provided that these acquisitions will be completed on the terms described, or at all.
- At-The-Market Equity Program. During 2016, under our at-the-market equity program, we sold a total of 4.4 million common shares at an average sales price of \$31.25 per share, resulting in net proceeds under the program of \$136.1 million, after deducting offering costs. As of December 31, 2016, 5.8 million common shares remained available for sale under the program. The proceeds from the sales conducted during the year ended December 31, 2016 were used to fund acquisitions of self-storage properties and for general corporate purposes.
- Preferred Share Redemption. On November 2, 2016, we completed the redemption of all of our 3,100,000 outstanding shares of 7.75% Series A Cumulative Redeemable Preferred Shares at a cash redemption price of \$25.00 per share plus accumulated and unpaid dividends. The redemption price of \$77.5 million was paid by the Company from available cash balances.
- Debt Offering. On August 15, 2016, we completed the issuance and sale of \$300.0 million in aggregate principal amount of unsecured senior notes due September 1, 2026 which bear interest at a rate of 3.125% per annum. Net proceeds from the

offering were used to repay outstanding indebtedness under our Revolver (defined below) and for general corporate purposes, including acquisitions, investments in joint ventures, and repayment or repurchase of other indebtedness.

• Mortgage Loans. During 2016, we repaid five mortgage loans aggregating \$34.9 million and assumed two mortgage loans with a combined outstanding principal balance of \$38.5 million as of December 31, 2016.

**Business Strategy** 

Our business strategy consists of several elements:

- Maximize cash flow from our stores Our operating strategy focuses on maximizing sustainable rents at our stores while achieving and sustaining occupancy targets. We utilize our operating systems and experienced personnel to manage the balance between rental rates, discounts, and physical occupancy with an objective of maximizing our rental revenue.
- Acquire stores within targeted markets During 2017, we intend to pursue selective acquisitions in markets that we believe have high barriers to entry, strong demographic fundamentals, and demand for storage in excess of storage capacity. We believe the self-storage industry will continue to afford us opportunities for growth through acquisitions due to the highly fragmented composition of the industry. In the past, we have formed joint ventures with unaffiliated third parties, and in the future we may form additional joint ventures to facilitate the funding of future developments or acquisitions.
- Dispose of stores During 2017, we intend to continue to evaluate opportunities to reduce exposure in slower growth, lower barrier-to-entry markets. We intend to use proceeds from these transactions to fund acquisitions within targeted markets.
- Grow our third-party management business We intend to pursue additional third-party management opportunities. We intend to leverage our current platform to take advantage of consolidation in the industry. We plan to utilize our relationships with third-party owners to help source future acquisitions.

Investment and Market Selection Process

We maintain a disciplined and focused process in the acquisition and development of self-storage properties. Our investment committee, comprised of five senior officers and led by Christopher P. Marr, our Chief Executive Officer, oversees our investment process. Our investment process involves six stages — identification, initial due diligence, economic assessment, investment committee approval (and when required, the approval of our Board of Trustees (the "Board")), final due diligence, and documentation. Through our investment committee, we intend to focus on the

# following criteria:

- Targeted markets Our targeted markets include areas where we currently maintain management that can be extended to additional stores, or where we believe that we can acquire a significant number of stores efficiently and within a short period of time. We evaluate both the broader market and the immediate area, typically three miles around the store, for its ability to support above-average demographic growth. We seek to increase our presence primarily in areas that we expect will experience growth, including the Northeastern and Mid-Atlantic areas of the United States and areas within Georgia, Florida, Texas, Illinois, and California, and to enter additional markets should suitable opportunities arise.
- Quality of store We focus on self-storage properties that have good visibility and are located near retail centers, which typically provide high traffic corridors and are generally located near residential communities and commercial customers.
- Growth potential We target acquisitions that offer growth potential through increased operating efficiencies and, in some cases, through additional leasing efforts, renovations, or expansions. In addition to acquiring single stores, we seek to invest in portfolio acquisitions, including those offering significant potential for increased operating efficiency and the ability to spread our fixed costs across a large base of stores.

Segment

We have one reportable segment: we own, operate, develop, manage, and acquire self-storage properties.

## Concentration

Our self-storage properties are located in major metropolitan areas as well as suburban areas and have numerous customers per store. No single customer represented a significant concentration of our 2016 revenues. Our stores in Florida, New York, Texas, and California provided approximately 17%, 16%, 10% and 8%, respectively, of our total 2016 revenues and approximately 18%, 16%, 10% and 8%, respectively, of our total 2015 revenues.

#### Seasonality

We typically experience seasonal fluctuations in occupancy levels at our stores, with the levels generally slightly higher during the summer months due to increased moving activity.

#### Financing Strategy

We maintain a capital structure that we believe is reasonable and prudent and that will enable us to have ample cash flow to cover debt service and make distributions to our shareholders. As of December 31, 2016, our debt to total capitalization ratio (determined by dividing the carrying value of our total indebtedness by the sum of (a) the market value of the Parent Company's outstanding common shares, preferred shares and units of the Operating Partnership held by third parties and (b) the carrying value of our total indebtedness) was approximately 24.7% compared to approximately 18.5% as of December 31, 2015. Our ratio of debt to the undepreciated cost of our total assets as of December 31, 2016 was approximately 38.5% compared to approximately 33.8% as of December 31, 2015. We expect to finance additional investments in self-storage properties through the most attractive sources of capital available at the time of the transaction, in a manner consistent with maintaining a strong financial position and future financial flexibility, subject to limitations on incurrence of indebtedness in our unsecured credit facilities and the indenture that governs our unsecured notes. These capital sources may include existing cash, borrowings under the Revolver, additional secured or unsecured financings, sales of common or preferred shares of the Parent Company in public offerings or private placements, additional issuances of debt securities, issuances of common or preferred units in our Operating Partnership in exchange for contributed properties, and formations of joint ventures. We also may sell stores that we no longer view as core assets and use the sales proceeds to fund other acquisitions.

## Competition

Self-storage properties compete based on a number of factors, including location, rental rates, security, suitability of the store's design to prospective customers' needs, and the manner in which the store is operated and marketed. In particular, the number of competing self-storage properties in a market could have a material effect on our occupancy

levels, rental rates and on the overall operating performance of our stores. We believe that the primary competition for potential customers of any of our self-storage properties comes from other self-storage properties within a three-mile radius of that store. We believe our stores are well-positioned within their respective markets, and we emphasize customer service, convenience, security, professionalism, and cleanliness.

Our key competitors include local and regional operators as well as the other public self-storage REITS, including Public Storage, Extra Space Storage Inc., and Life Storage, Inc. These companies, some of which operate significantly more stores than we do and have greater resources than we have, and other entities may be able to accept more risk than we determine is prudent for us, including risks with respect to the geographic proximity of investments and the payment of higher acquisition prices. This competition may reduce the number of suitable acquisition opportunities available to us, increase the price required to acquire stores, and reduce the demand for self-storage space at our stores. Nevertheless, we believe that our experience in operating, managing, acquiring, developing, and obtaining financing for self-storage properties should enable us to compete effectively.

**Government Regulation** 

We are subject to various laws, ordinances and regulations, including regulations relating to lien sale rights and procedures and various federal, state, and local regulations that apply generally to the ownership of real property and the operation of self-storage properties.

Under the Americans with Disabilities Act of 1990 and applicable state accessibility act laws (collectively, the "ADA"), all places of public accommodation are required to meet federal requirements related to physical access and use by disabled persons. A number of other federal, state, and local laws may also impose access and other similar requirements at our stores. A failure to comply with the ADA or similar state or local requirements could result in the governmental imposition of fines or the award of damages to private litigants affected by the noncompliance. Although we believe that our stores comply in all material respects with these requirements (or would be eligible for applicable exemptions from material requirements because of adaptive assistance provided), a determination that one or more

of our stores is not in compliance with the ADA or similar state or local requirements would result in the incurrence of additional costs associated with bringing the stores into compliance.

Under various federal, state, and local laws, ordinances and regulations, an owner or operator of real property may become liable for the costs of removal or remediation of hazardous substances released on or in its property. These laws often impose liability without regard to whether the owner or operator knew of, or was responsible for, the release of such hazardous substances. The presence of hazardous substances, or the failure to properly remediate such substances, when released, may adversely affect the property owner's ability to sell the real estate or to borrow using the real estate as collateral, and may cause the property owner to incur substantial remediation costs. In addition to claims for cleanup costs, the presence of hazardous substances on a property could result in a claim by a private party for personal injury or a claim by an adjacent property owner or user for property damage. We may also become liable for the costs of removal or remediation of hazardous substances stored at the properties by a customer even though storage of hazardous substances would be without our knowledge or approval and in violation of the customer's storage lease agreement with us.

Our practice is to conduct or obtain environmental assessments in connection with the acquisition or development of properties. Whenever the environmental assessment for one of our stores indicates that a store is impacted by soil or groundwater contamination from prior owners/operators or other sources, we work with our environmental consultants and, where appropriate, state governmental agencies, to ensure that the store is either cleaned up, that no cleanup is necessary because the low level of contamination poses no significant risk to public health or the environment, or that the responsibility for cleanup rests with a third party. In certain cases, we have purchased environmental liability insurance coverage to indemnify us against claims for contamination or other adverse environmental conditions that may affect a property.

We are not aware of any environmental cleanup liability that we believe will have a material adverse effect on us. We cannot provide assurance, however, that these environmental assessments and investigations have revealed or will reveal all potential environmental liabilities, that no prior owner created any material environmental condition not known to us or the independent consultant or that future events or changes in environmental laws will not result in the imposition of environmental liability on us.

We have not received notice from any governmental authority of any material noncompliance, claim, or liability in connection with any of our stores, nor have we been notified of a claim for personal injury or property damage by a private party in connection with any of our stores relating to environmental conditions.

We are not aware of any environmental condition with respect to any of our stores that could reasonably be expected to have a material adverse effect on our financial condition or results of operations, and we do not expect that the cost of compliance with environmental regulations will have a material adverse effect on our financial condition or results of operations. We cannot provide assurance, however, that this will continue to be the case.

## Insurance

We carry comprehensive liability, fire, extended coverage, and rental loss insurance covering all of the properties in our portfolio. We carry environmental insurance coverage on certain stores in our portfolio. We believe the policy specifications and insured limits are appropriate and adequate given the relative risk of loss, the cost of the coverage, and industry practice. We do not carry insurance for losses such as loss from riots, war or acts of God, and, in some cases, flood and environmental hazards, because such coverage is either not available or not available at commercially reasonable rates. Some of our policies, such as those covering losses due to terrorist activities, hurricanes, floods and earthquakes, are insured subject to limitations involving large deductibles or co-payments and policy limits that may not be sufficient to cover losses. We also carry liability insurance to insure against personal injuries that might be sustained at our stores as well as director and officer liability insurance.

Offices

Our principal executive offices are located at 5 Old Lancaster Road, Malvern, PA 19355. Our telephone number is (610) 535-5000.

Employees

As of December 31, 2016, we employed 2,136 employees, of whom 292 were corporate executive and administrative personnel and 1,844 were property-level personnel. We believe that our relations with our employees are good. Our employees are not unionized.

## Available Information

We file registration statements, proxy statements, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports, with the SEC. You may obtain copies of these documents by visiting the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549, by calling the SEC at 1-800-SEC-0330, or by accessing the SEC's website at www.sec.gov. Our internet website address is www.cubesmart.com. You also can obtain on our website, free of charge, copies of our annual report on Form 10-K, our quarterly reports on Form 10-Q, our current reports on Form 8-K, and any amendments to those reports, after we electronically file such reports or amendments with, or furnish them to, the SEC. Our internet website and the information contained therein or connected thereto are not intended to be incorporated by reference into this Report.

Also available on our website, free of charge, are copies of our Code of Business Conduct and Ethics, our Corporate Governance Guidelines, and the charters for each of the committees of our Board — the Audit Committee, the Corporate Governance and Nominating Committee, and the Compensation Committee. Copies of each of these documents are also available in print free of charge, upon request by any shareholder. You can obtain copies of these documents by contacting Investor Relations by mail at 5 Old Lancaster Road, Malvern, PA 19355.

## ITEM 1A. RISK FACTORS

Overview

An investment in our securities involves various risks. Investors should carefully consider the risks set forth below together with other information contained in this Report. These risks are not the only ones that we may face. Additional risks not presently known to us, or that we currently consider immaterial, may also impair our business, financial condition, operating results, and ability to make distributions to our shareholders.

Risks Related to our Business and Operations

Adverse macroeconomic and business conditions may significantly and negatively affect our rental rates, occupancy levels and therefore our results of operations.

We are susceptible to the effects of adverse macro-economic events that can result in higher unemployment, shrinking demand for products, large-scale business failures and tight credit markets. Our results of operations are sensitive to

changes in overall economic conditions that impact consumer spending, including discretionary spending, as well as to increased bad debts due to recessionary pressures. Adverse economic conditions affecting disposable consumer income, such as employment levels, business conditions, interest rates, tax rates, and fuel and energy costs, could reduce consumer spending or cause consumers to shift their spending to other products and services. A general reduction in the level of discretionary spending or shifts in consumer discretionary spending could adversely affect our growth and profitability.

It is difficult to determine the breadth and duration of the economic and financial market disruptions and the many ways in which they may affect our customers and our business in general. Nonetheless, continuation or further worsening of these difficult financial and macroeconomic conditions could have a significant adverse effect on our sales, profitability, and results of operations.

Many states and local jurisdictions are facing severe budgetary problems which may have an adverse impact on our business and financial results.

Many states and jurisdictions are facing severe budgetary problems. Action that may be taken in response to these problems, such as increases in property taxes on commercial properties, changes to sales taxes or other governmental efforts, including mandating medical insurance for employees, could adversely impact our business and results of operations.

Our financial performance is dependent upon economic and other conditions of the markets in which our stores are located.

We are susceptible to adverse developments in the markets in which we operate, such as business layoffs or downsizing, industry slowdowns, relocations of businesses, changing demographics, and other factors. Our stores in Florida, New York, Texas, and California accounted for approximately 17%, 16%, 10% and 8%, respectively, of our total 2016 revenues. As a result of this geographic concentration of our stores, we are particularly susceptible to adverse market conditions in these areas. Any adverse economic or real estate developments in these markets, or in any of the other markets in which we operate, or any decrease in demand for self-storage space

resulting from the local business climate, could adversely affect our rental revenues, which could impair our ability to satisfy our debt service obligations and pay distributions to our shareholders.

We face risks associated with property acquisitions.

We intend to continue to acquire individual and portfolios of self-storage properties. The purchase agreements that we enter into in connection with acquisitions typically contain closing conditions that need to be satisfied before the acquisitions can be consummated. The satisfaction of many of these conditions is outside of our control, and we therefore cannot assure you that any of our pending or future acquisitions will be consummated. These conditions include, among other things, satisfactory examination of the title to the properties, the ability to obtain title insurance and customary closing conditions. Moreover, in the event we are unable to complete pending or future acquisitions, we may have incurred significant legal, accounting, and other transaction costs in connection with such acquisitions without realizing the expected benefits.

Those acquisitions that we do consummate would increase our size and may potentially alter our capital structure. Although we believe that future acquisitions that we complete will enhance our financial performance, the success of acquisitions is subject to the risks that:

- acquisitions may fail to perform as expected;
- the actual costs of repositioning or redeveloping acquired properties may be higher than our estimates;
- $\cdot$  we may be unable to obtain acquisition financing on favorable terms;
- acquisitions may be located in new markets where we may have limited knowledge and understanding of the local economy, an absence of business relationships in the area or an unfamiliarity with local governmental and permitting procedures; and
- there is only limited recourse, or no recourse, to the former owners of newly acquired properties for unknown or undisclosed liabilities such as the clean-up of undisclosed environmental contamination; claims by customers, vendors, or other persons arising on account of actions or omissions of the former owners of the properties; and claims by local governments, adjoining property owners, property owner associations, and easement holders for fees, assessments, or taxes on other property-related changes. As a result, if a liability were asserted against us based upon ownership of an acquired property, we might be required to pay significant sums to settle it, which could adversely affect our financial results and cash flow.

In addition, we do not always obtain third-party appraisals of acquired properties (and instead rely on value determinations by our senior management) and the consideration we pay in exchange for those properties may exceed the value determined by third-party appraisals.

We will incur costs and will face integration challenges when we acquire additional stores.

As we acquire or develop additional self-storage properties, we will be subject to risks associated with integrating and managing new stores, including customer retention and mortgage default risks. In the case of a large portfolio purchase, we could experience strains in our existing information management capacity. In addition, acquisitions or developments may cause disruptions in our operations and divert management's attention away from day-to-day operations. Furthermore, our income may decline because we will be required to expense acquisition-related costs and amortize in future periods costs for acquired goodwill and other intangible assets. Our failure to successfully integrate any future acquisitions into our portfolio could have an adverse effect on our operating costs and our ability to make distributions to our shareholders.

The acquisition of new stores that lack operating history with us will make it more difficult to predict revenue potential.

We intend to continue to acquire additional stores. These acquisitions could fail to perform in accordance with expectations. If we fail to accurately estimate occupancy levels, rental rates, operating costs, or costs of improvements to bring an acquired store up to the standards established for our intended market position, the performance of the store may be below expectations. Acquired stores may have characteristics or deficiencies affecting their valuation or revenue potential that we have not yet discovered. We cannot assure that the performance of stores acquired by us will increase or be maintained under our management.

Our development activities may be more costly or difficult to complete than we anticipate.

We intend to continue to develop self-storage properties where market conditions warrant such investment. Once made, these investments may not produce results in accordance with our expectations. Risks associated with development and construction activities include:

- the unavailability of favorable financing sources in the debt and equity markets;
- construction cost overruns, including on account of rising interest rates, diminished availability of materials and labor, and increases in the costs of materials and labor;
- construction delays and failure to achieve target occupancy levels and rental rates, resulting in a lower than projected return on our investment; and
- complications (including building moratoriums and anti-growth legislation) in obtaining necessary zoning, occupancy, and other governmental permits.

We depend on external sources of capital that are outside of our control; the unavailability of capital from external sources could adversely affect our ability to acquire or develop stores, satisfy our debt obligations, and/or make distributions to shareholders.

We depend on external sources of capital to fund acquisitions and development, to satisfy our debt obligations and to make distributions to our shareholders required to maintain our status as a REIT, and these sources of capital may not be available on favorable terms, if at all. Our access to external sources of capital depends on a number of factors, including the market's perception of our growth potential and our current and potential future earnings and our ability to continue to qualify as a REIT for federal income tax purposes. If we are unable to obtain external sources of capital, we may not be able to acquire or develop properties when strategic opportunities exist, satisfy our debt obligations or make distributions to shareholders that would permit us to qualify as a REIT or avoid paying tax on our REIT taxable income.

Rising operating expenses could reduce our cash flow and funds available for future distributions.

Our stores and any other stores we acquire or develop in the future are and will be subject to operating risks common to real estate in general, any or all of which may negatively affect us. Our stores are subject to increases in operating expenses such as real estate and other taxes, personnel costs including the cost of providing specific medical coverage

to our employees, utilities, insurance, administrative expenses, and costs for repairs and maintenance. If operating expenses increase without a corresponding increase in revenues, our profitability could diminish and limit our ability to make distributions to our shareholders.

We cannot assure our ability to pay dividends in the future.

Historically, we have paid quarterly distributions to our shareholders, and we intend to continue to pay quarterly dividends and to make distributions to our shareholders in amounts such that all or substantially all of our taxable income in each year, subject to certain adjustments, is distributed. This, along with other factors, should enable us to continue to qualify for the tax benefits accorded to a REIT under the Internal Revenue Code. We have not established a minimum dividends payment level, and all future distributions will be made at the discretion of our Board. Our ability to pay dividends will depend upon, among other factors:

 $\cdot$  the operational and financial performance of our stores;

- · capital expenditures with respect to existing and newly acquired stores;
  - general and administrative costs associated with our operation as a publicly-held REIT;
- maintenance of our REIT status;
- the amount of, and the interest rates on, our debt;
- · the absence of significant expenditures relating to environmental and other regulatory matters; and
- $\cdot \,$  other risk factors described in this Report.

Certain of these matters are beyond our control and any significant difference between our expectations and actual results could have a material adverse effect on our cash flow and our ability to make distributions to shareholders.

If we are unable to promptly re-let our cubes or if the rates upon such re-letting are significantly lower than expected, then our business and results of operations would be adversely affected.

We derive revenues principally from rents received from customers who rent cubes at our self-storage properties under month-to-month leases. Any delay in re-letting cubes as vacancies arise would reduce our revenues and harm our operating results. In addition, lower than expected rental rates upon re-letting could adversely affect our revenues and impede our growth.

Store ownership through joint ventures may limit our ability to act exclusively in our interest.

We have in the past co-invested with, and we may continue to co-invest with, third parties through joint ventures. In any such joint venture, we may not be in a position to exercise sole decision-making authority regarding the stores owned through joint ventures. Investments in joint ventures may, under certain circumstances, involve risks not present when a third party is not involved, including the possibility that joint venture partners might become bankrupt or fail to fund their share of required capital contributions. Joint venture partners may have business interests or goals that are inconsistent with our business interests or goals and may be in a position to take actions contrary to our policies or objectives. Such investments also have the potential risk of impasse on strategic decisions, such as a sale, in cases where neither we nor the joint venture partner would have full control over the joint venture. In other circumstances, joint venture partners may have the ability without our agreement to make certain major decisions, including decisions about sales, capital expenditures, and/or financing. Any disputes that may arise between us and our joint venture partners could result in litigation or arbitration that could increase our expenses and distract our officers and/or Trustees from focusing their time and effort on our business. In addition, we might in certain circumstances be liable for the actions of our joint venture partners, and the activities of a joint venture could adversely affect our ability to qualify as a REIT, even though we do not control the joint venture.

We face significant competition for customers and acquisition and development opportunities.

Actions by our competitors may decrease or prevent increases of the occupancy and rental rates of our stores. We compete with numerous developers, owners, and operators of self-storage properties, including other REITs, some of which own or may in the future own stores similar to ours in the same submarkets in which our stores are located and some of which may have greater capital resources. In addition, due to the relatively low cost of each individual self-storage property, other developers, owners, and operators have the capability to build additional stores that may

compete with our stores.

If our competitors build new stores that compete with our stores or offer space at rental rates below the rental rates we currently charge our customers, we may lose potential customers, and we may be pressured to reduce our rental rates below those we currently charge in order to retain customers when our customers' leases expire. As a result, our financial condition, cash flow, cash available for distribution, market price of our shares, and ability to satisfy our debt service obligations could be materially adversely affected. In addition, increased competition for customers may require us to make capital improvements to our stores that we would not have otherwise made. Any unbudgeted capital improvements we undertake may reduce cash available for distributions to our shareholders.

We also face significant competition for acquisitions and development opportunities. Some of our competitors have greater financial resources than we do and a greater ability to borrow funds to acquire stores. These competitors may also be willing to accept more risk than we can prudently manage, including risks with respect to the geographic proximity of investments and the payment of higher acquisition prices. This competition for investments may reduce the number of suitable investment opportunities available to us, may increase acquisition costs and may reduce demand for self-storage space in certain areas where our stores are located and, as a result, adversely affect our operating results.

We may become subject to litigation or threatened litigation which may divert management's time and attention, require us to pay damages and expenses, or restrict the operation of our business.

We may become subject to disputes with commercial parties with whom we maintain relationships or other parties with whom we do business. Any such dispute could result in litigation between us and the other parties. Whether or not any dispute actually proceeds to litigation, we may be required to devote significant management time and attention to its successful resolution (through litigation, settlement, or otherwise), which would detract from our management's ability to focus on our business. Any such resolution could involve the payment of damages or expenses by us, which may be significant. In addition, any such resolution could involve our agreement with terms that restrict the operation of our business.

There are other commercial parties, at both a local and national level, that may assert that our use of our brand names and other intellectual property conflict with their rights to use brand names, internet domains, and other intellectual property that they consider to be similar to ours. Any such commercial dispute and related resolution would involve all of the risks described above, including, in particular, our agreement to restrict the use of our brand name or other intellectual property.

We also could be sued for personal injuries and/or property damage occurring on our properties. We maintain liability insurance with limits that we believe adequate to provide for the defense and/or payment of any damages arising from such lawsuits. There can be no assurance that such coverage will cover all costs and expenses from such suits.

Potential losses may not be covered by insurance, which could result in the loss of our investment in a property and the future cash flows from the property.

We carry comprehensive liability, fire, extended coverage, and rental loss insurance covering all of the properties in our portfolio. We believe the policy specifications and insured limits are appropriate and adequate given the relative risk of loss, the cost of the coverage and industry practice. We do not carry insurance for losses such as loss from riots, war or acts of God, and, in some cases, flooding and environmental hazards, because such coverage is not available or is not available at commercially reasonable rates. Some of our policies, such as those covering losses due to terrorism, hurricanes, floods, and earthquakes, are insured subject to limitations involving large deductibles or co-payments and policy limits that may not be sufficient to cover losses. If we experience a loss at a store that is uninsured or that exceeds policy limits, we could lose the capital invested in that store as well as the anticipated future cash flows from that store. Inflation, changes in building codes and ordinances, environmental considerations, and other factors also might make it impractical or undesirable to use insurance proceeds to replace a store after it has been damaged or destroyed. In addition, if the damaged stores are subject to recourse indebtedness, we would continue to be liable for the indebtedness, even if these stores were irreparably damaged.

Our insurance coverage may not comply with certain loan requirements.

Certain of our stores serve as collateral for our mortgage-backed debt, some of which we assumed in connection with our acquisition of stores and requires us to maintain insurance at levels and on terms that are not commercially reasonable in the current insurance environment. We may be unable to obtain required insurance coverage if the cost and/or availability make it impractical or impossible to comply with debt covenants. If we cannot comply with a lender's requirements, the lender could declare a default, which could affect our ability to obtain future financing and have a material adverse effect on our results of operations and cash flows and our ability to obtain future financing. In addition, we may be required to self-insure against certain losses or our insurance costs may increase.

Potential liability for environmental contamination could result in substantial costs.

We are subject to federal, state and local environmental regulations that apply generally to the ownership of real property and the operation of self-storage properties. If we fail to comply with those laws, we could be subject to significant fines or other governmental sanctions.

Under various federal, state and local laws, ordinances, and regulations, an owner or operator of real estate may be required to investigate and clean up hazardous or toxic substances or petroleum product releases at a property and may be held liable to a governmental entity or to third parties for property damage and for investigation and clean-up costs incurred by such parties in connection with contamination. Such liability may be imposed whether or not the owner or operator knew of, or was responsible for, the presence of these hazardous or toxic substances. The cost of investigation, remediation or removal of such substances may be substantial, and the presence of such substances, or the failure to properly remediate such substances, may adversely affect our ability to sell or rent such property or to borrow using such property as collateral. In addition, in connection with the ownership, operation, and management of properties, we are potentially liable for property damage or injuries to persons and property.

Our practice is to conduct or obtain environmental assessments in connection with the acquisition or development of additional stores. We carry environmental insurance coverage on certain stores in our portfolio. We obtain or examine environmental assessments from qualified and reputable environmental consulting firms (and intend to conduct such assessments prior to the acquisition or development of additional stores). The environmental assessments received to date have not revealed, nor do we have actual knowledge of, any environmental liability that we believe will have a material adverse effect on us. However, we cannot assure that our environmental assessments have identified or will identify all material environmental conditions, that any prior owner of any property did not create a material environmental condition not actually known to us, or that a material environmental condition does not otherwise exist with respect to any of our properties.

Americans with Disabilities Act and applicable state accessibility act compliance may require unanticipated expenditures.

Under the ADA, all places of public accommodation are required to meet federal requirements related to physical access and use by disabled persons. A number of other federal, state and local laws may also impose access and other similar requirements at our properties. A failure to comply with the ADA or similar state or local requirements could result in the governmental imposition of fines or the award of damages to private litigants affected by the noncompliance. Although we believe that our properties comply in all material respects with these requirements (or would be eligible for applicable exemptions from material requirements because of adaptive assistance provided), a determination that one or more of our properties is not in compliance with the ADA or similar state or local requirements would result in the incurrence of additional costs associated with bringing the properties into compliance. If we are required to make substantial modifications to comply with the ADA or similar state or local requirements, we may be required to incur significant unanticipated expenditures, which could have an adverse effect on our operating costs and our ability to make distributions to our shareholders.

Privacy concerns could result in regulatory changes that may harm our business.

Personal privacy has become a significant issue in the jurisdictions in which we operate. Many jurisdictions in which we operate have imposed restrictions and requirements on the use of personal information by those collecting such information. Changes to law or regulations affecting privacy, if applicable to our business, could impose additional costs and liability on us and could limit our use and disclosure of such information.

We face system security risks as we depend upon automated processes and the Internet.

We are increasingly dependent upon automated information technology processes and Internet commerce, and many of our new customers come from the telephone or over the Internet. Moreover, the nature of our business involves the receipt and retention of personal information about our customers. We also rely extensively on third-party vendors to retain data, process transactions and provide other systems and services. These systems, and our systems, are subject to damage or interruption from power outages, computer and telecommunications failures, computer viruses, malware, and other destructive or disruptive security breaches and catastrophic events, such as a natural disaster or a terrorist event or cyber-attack. In addition, experienced computer programmers and hackers may be able to penetrate our security systems and misappropriate our confidential information, create system disruptions, or cause shutdowns. Such data security breaches as well as system disruptions and shutdowns could result in additional costs to repair or replace such networks or information systems and possible legal liability, including government enforcement actions and private litigation. In addition, our customers could lose confidence in our ability to protect their personal information, which could cause them to discontinue leasing at our self-storage properties.

If we are unable to attract and retain team members or contract with third parties having the specialized skills or technologies needed to support our systems, implement improvements to our customer-facing technology in a timely manner, allow accurate visibility to product availability when customers are ready to rent, quickly and efficiently fulfill our customers rental and payment methods they demand, or provide a convienent and consistent experience for our customers regardless of the ultimate sales channel, our ability to compete and our results of operations could be adversely affected.

Terrorist attacks and other acts of violence or war may adversely impact our performance and may affect the markets on which our securities are traded.

Terrorist attacks against our stores, the United States or our interests, may negatively impact our operations and the value of our securities. Attacks or armed conflicts could negatively impact the demand for self-storage and increase the cost of insurance coverage for our stores, which could reduce our profitability and cash flow. Furthermore, any terrorist attacks or armed conflicts could result in increased volatility in or damage to the United States and worldwide financial markets and economy.

Risks Related to the Real Estate Industry

Our performance and the value of our self-storage properties are subject to risks associated with our properties and with the real estate industry.

Our rental revenues and operating costs and the value of our real estate assets, and consequently the value of our securities, are subject to the risk that if our stores do not generate revenues sufficient to meet our operating expenses, including debt service and capital expenditures, our cash flow and ability to pay distributions to our shareholders will be adversely affected. Events or conditions beyond our control that may adversely affect our operations or the value of our properties include but are not limited to:

· downturns in the national, regional, and local economic climate;

· local or regional oversupply, increased competition, or reduction in demand for self-storage space;

- · vacancies or changes in market rents for self-storage space;
- inability to collect rent from customers;
- · increased operating costs, including maintenance, insurance premiums, and real estate taxes;
- · changes in interest rates and availability of financing;
- hurricanes, earthquakes and other natural disasters, civil disturbances, terrorist acts, or acts of war that may result in uninsured or underinsured losses;
- significant expenditures associated with acquisitions and development projects, such as debt service payments, real estate taxes, insurance, and maintenance costs which are generally not reduced when circumstances cause a reduction in revenues from a property;
- costs of complying with changes in laws and governmental regulations, including those governing usage, zoning, the environment, and taxes; and
- the relative illiquidity of real estate investments.

In addition, prolonged periods of economic slowdown or recession, rising interest rates, or declining demand for self-storage, or the public perception that any of these events may occur, could result in a general decline in rental revenues, which could impair our ability to satisfy our debt service obligations and to make distributions to our shareholders.

Rental revenues are significantly influenced by demand for self-storage space generally, and a decrease in such demand would likely have a greater adverse effect on our rental revenues than if we owned a more diversified real estate portfolio.

Because our real estate portfolio consists primarily of self-storage properties, we are subject to risks inherent in investments in a single industry. A decrease in the demand for self-storage space would have a greater adverse effect on our rental revenues than if we owned a more diversified real estate portfolio. Demand for self-storage space could be adversely affected by weakness in the national, regional, and local economies, changes in supply of, or demand for, similar or competing self-storage properties in an area, and the excess amount of self-storage space in a particular market. To the extent that any of these conditions occur, they are likely to affect market rents for self-storage space, which could cause a decrease in our rental revenue. Any such decrease could impair our ability to satisfy debt service obligations and make distributions to our shareholders.

Because real estate is illiquid, we may not be able to sell propeties when appropriate.

Real estate property investments generally cannot be sold quickly. Also, the tax laws applicable to REITs require that we hold our properties for investment, rather than for sale in the ordinary course of business, which may cause us to forgo or defer sales of properties that otherwise would be in our best interest. Therefore, we may not be able to dispose of properties promptly, or on favorable terms, in response to economic or other market conditions, which may adversely affect our financial position.

Risks Related to our Qualification and Operation as a REIT

Failure to qualify as a REIT would subject us to U.S. federal income tax which would reduce the cash available for distribution to our shareholders.

We operate our business to qualify to be taxed as a REIT for federal income tax purposes. We have not requested and do not plan to request a ruling from the IRS that we qualify as a REIT, and the statements in this Report are not binding on the IRS or any court. As a REIT, we generally will not be subject to federal income tax on the income that we distribute currently to our shareholders. Many of the REIT requirements, however, are highly technical and complex. The determination that we are a REIT requires an analysis of various factual matters and circumstances that may not be totally within our control. For example, to qualify as a REIT, at least 95% of our gross income must come from specific passive sources, such as rent, that are itemized in the REIT tax laws. In addition, to qualify as a REIT, we cannot own specified amounts of debt and equity securities of some issuers. We also are required to distribute to our shareholders with respect to each year at least 90% of our REIT taxable income, excluding net capital gains. The fact that we hold substantially all of our assets through the Operating Partnership and its subsidiaries and joint ventures further complicates the application of the REIT requirements for us. Even a technical or inadvertent mistake could jeopardize our REIT status, and, given the highly complex nature of the rules governing REITs and the ongoing importance of factual determinations, we cannot provide any assurance that we will continue to qualify as a REIT. Changes to rules governing REITS were made by the Protecting Americans From Tax Hikes Act of 2015, signed into law on December 18, 2015, and Congress and the IRS might make further changes to the tax laws and regulations, and the courts might issue new rulings that make it more difficult, or impossible, for us to remain qualified as a REIT. If we fail to qualify as a REIT for federal income tax purposes and are able to avail ourselves of one or more of the statutory savings provisions in order to maintain our REIT status, we would nevertheless be required to pay penalty taxes of \$50,000 or more for each such failure.

If we fail to qualify as a REIT for federal income tax purposes, and are unable to avail ourselves of certain savings provisions set forth in the Internal Revenue Code, we would be subject to federal income tax at regular corporate rates on all of our income. As a taxable corporation, we would not be allowed to take a deduction for distributions to shareholders in computing our taxable income or pass through long-term capital gains to individual shareholders at favorable rates. We also could be subject to the federal alternative minimum tax and possibly increased state and local taxes. We would not be able to elect to be taxed as a REIT for four years following the year we first failed to qualify unless the IRS were to grant us relief under certain statutory provisions. If we failed to qualify as a REIT, we would have to pay significant income taxes, which would reduce our net earnings available for investment or distribution to our shareholders. This likely would have a significant adverse effect on our earnings and likely would adversely affect the value of our securities. In addition, we would no longer be required to pay any distributions to shareholders.

Furthermore, as a result of our acquisition of all the issued and outstanding shares of common stock of a privately held self-storage REIT ("PSI"), we now own a subsidiary REIT. PSI is independently subject to, and must comply with, the same REIT requirements that we must satisfy in order to qualify as a REIT, together with all other rules applicable to REITs. If PSI fails to qualify as a REIT and certain statutory relief provisions do not apply, as a result of a protective

election made jointly by PSI and CubeSmart, PSI will be taxed as a taxable REIT subsidiary. See the section entitled "Taxation of CubeSmart–Requirements for Qualification–Taxable REIT Subsidiaries" in Exhibit 99.1 for more information regarding taxable REIT subsidiaries.

Failure of the Operating Partnership (or a subsidiary partnership or joint venture) to be treated as a partnership would have serious adverse consequences to our shareholders.

If the IRS were to successfully challenge the tax status of the Operating Partnership or any of its subsidiary partnerships or joint ventures for federal income tax purposes, the Operating Partnership or the affected subsidiary partnership or joint venture would be taxable as a corporation. In such event we would cease to qualify as a REIT and the imposition of a corporate tax on the Operating Partnership, a subsidiary partnership, or joint venture would reduce the amount of cash available for distribution from the Operating Partnership to us and ultimately to our shareholders.

To maintain our REIT status, we may be forced to borrow funds on a short-term basis during unfavorable market conditions.

As a REIT, we are subject to certain distribution requirements, including the requirement to distribute 90% of our REIT taxable income, excluding net capital gains, which may result in our having to make distributions at a disadvantageous time or to borrow funds at unfavorable rates. Compliance with this requirement may hinder our ability to operate solely on the basis of maximizing profits.

We will pay some taxes even if we qualify as a REIT, which will reduce the cash available for distribution to our shareholders.

Even if we qualify as a REIT for federal income tax purposes, we will be required to pay certain federal, state and local taxes on our income and property. For example, we will be subject to income tax to the extent we distribute less than 100% of our REIT taxable income, including capital gains. Additionally, we will be subject to a 4% nondeductible excise tax on the amount, if any, by which dividends paid by us in any calendar year are less than the sum of 85% of our ordinary income, 95% of our capital gain net income and 100% of our undistributed income from prior years. Moreover, if we have net income from "prohibited transactions," that income will be subject to a 100% penalty tax. In general, prohibited transactions are sales or other dispositions of property held primarily for sale to customers in the ordinary course of business. The determination as to whether a particular sale is a prohibited transaction depends on the facts and circumstances related to that sale. We cannot guarantee that sales of our properties would not be prohibited transactions unless we comply with certain statutory safe-harbor provisions.

In addition, any net taxable income earned directly by our taxable REIT subsidiaries, or through entities that are disregarded for federal income tax purposes as entities separate from our taxable REIT subsidiaries, will be subject to federal and possibly state corporate income tax. We have elected to treat some of our subsidiaries as taxable REIT subsidiaries, and we may elect to treat other subsidiaries as taxable REIT subsidiaries in the future. In this regard, several provisions of the laws applicable to REITs and their subsidiaries ensure that a taxable REIT subsidiary will be subject to an appropriate level of federal income taxation. For example, a taxable REIT subsidiary is limited in its ability to deduct certain interest payments made to an affiliated REIT. In addition, the REIT has to pay a 100% penalty tax on some payments that it receives or on some deductions taken by a taxable REIT subsidiary if the economic arrangements between the REIT, the REIT's customers, and the taxable REIT subsidiary are not comparable to similar arrangements between unrelated parties. Finally, some state and local jurisdictions may tax some of our income even though as a REIT we are not subject to federal income tax on that income because not all states and localities follow the federal income tax treatment of REITs. To the extent that we and our affiliates are required to pay federal, state, and local taxes, we will have less cash available for distributions to our shareholders.

We face possible federal, state, and local tax audits.

Because we are organized and qualify as a REIT, we are generally not subject to federal income taxes, but are subject to certain state and local taxes. Certain entities through which we own real estate either have undergone, or are currently undergoing, tax audits. Although we believe that we have substantial arguments in favor of our positions in the ongoing audits, in some instances there is no controlling precedent or interpretive guidance on the specific point at issue. Collectively, tax deficiency notices received to date from the jurisdictions conducting the ongoing audits have not been material. However, there can be no assurance that future audits will not occur with increased frequency or that the ultimate result of such audits will not have a material adverse effect on our results of operations.

Legislative or regulatory tax changes related to REITs could materially and adversely affect our business.

At any time, the federal income tax laws or regulations governing REITs or the administrative interpretations of those laws or regulations may be changed, possibly with retroactive effect. We cannot predict if or when any new federal income tax law, regulation or administrative interpretation, or any amendment to any existing federal income tax law, regulation or administrative interpretation, will be adopted, promulgated or become effective or whether any such law, regulation or interpretation may take effect retroactively. We and our shareholders could be adversely affected by any such change in, or any new, federal income tax law, regulation or administrative interpretation or administrative interpretation.

Risks Related to our Debt Financings

We face risks related to current debt maturities, including refinancing risk.

Certain of our mortgages, bank loans, and unsecured debt (including our senior notes) will have significant outstanding balances on their maturity dates, commonly known as "balloon payments." We may not have the cash resources available to repay those amounts, and we may have to raise funds for such repayment either through the issuance of equity or debt securities, additional bank borrowings (which may include extension of maturity dates), joint ventures, or asset sales. Furthermore, we are restricted from incurring certain additional indebtedness and making certain other changes to our capital and debt structure under the terms of the senior notes and the indenture governing the senior notes.

There can be no assurance that we will be able to refinance our debt on favorable terms or at all. To the extent we cannot refinance debt on favorable terms or at all, we may be forced to dispose of properties on disadvantageous terms or pay higher interest rates, either of which would have an adverse impact on our financial performance and ability to pay dividends to investors

20

As a result of our interest rate hedges, swap agreements and other, similar arrangements, we face counterparty risks.

We may be exposed to the potential risk of counterparty default or non-payment with respect to interest rate hedges, swap agreements, floors, caps, and other interest rate hedging contracts that we may enter into from time to time, in which event we could suffer a material loss on the value of those agreements. Although these agreements may lessen the impact of rising interest rates on us, they also expose us to the risk that other parties to the agreements will not perform or that we cannot enforce the agreements. There is no assurance that our potential counterparties on these agreements will perform their obligations under such agreements.

Financing our future growth plan or refinancing existing debt maturities could be impacted by negative capital market conditions.

Recently, domestic financial markets have experienced extreme volatility and uncertainty. At times in recent years liquidity has tightened in the domestic financial markets, including the investment grade debt and equity capital markets for which we historically sought financing. Consequently, there is greater uncertainty regarding our ability to access the credit markets in order to attract financing on reasonable terms; there can be no assurance that we will be able to continue to issue common or preferred equity securities at a reasonable price. Our ability to finance new acquisitions and refinance future debt maturities could be adversely impacted by our inability to secure permanent financing on reasonable terms, if at all.

The terms and covenants relating to our indebtedness could adversely impact our economic performance.

Like other real estate companies that incur debt, we are subject to risks associated with debt financing, such as the insufficiency of cash flow to meet required debt service payment obligations and the inability to refinance outstanding indebtedness at maturity. If our debt cannot be paid, refinanced, or extended at maturity, we may not be able to make distributions to shareholders at expected levels or at all and may not be able to acquire new stores. Failure to make distributions to our shareholders could result in our failure to qualify as a REIT for federal income tax purposes. Furthermore, an increase in our interest expense could adversely affect our cash flow and ability to make distributions to shareholders. If we do not meet our debt service obligations, any stores securing such indebtedness could be foreclosed on, which would have a material adverse effect on our cash flow and ability to make distributions and, depending on the number of stores foreclosed on, could threaten our continued viability.

Our Credit Facility (defined below) contains (and any new or amended facility we may enter into from time to time will likely contain) customary affirmative and negative covenants, including financial covenants that, among other things, require us to comply with certain liquidity and net worth tests. Our ability to borrow under the Credit Facility is (and any new or amended facility we may enter into from time to time will be) subject to compliance with such financial and other covenants. In the event that we fail to satisfy these covenants, we would be in default under the

Credit Facility and may be required to repay such debt with capital from other sources. Under such circumstances, other sources of debt or equity capital may not be available to us, or may be available only on unattractive terms. Moreover, the presence of such covenants in our credit agreements could cause us to operate our business with a view toward compliance with such covenants, which might not produce optimal returns for shareholders. Similarly, the indenture under which we have issued unsecured senior notes contains customary financial covenants, including limitations on incurrence of additional indebtedness.

Increases in interest rates on variable rate indebtedness would increase our interest expense, which could adversely affect our cash flow and ability to make distributions to shareholders. Rising interest rates could also restrict our ability to refinance existing debt when it matures. In addition, an increase in interest rates could decrease the amounts that third parties are willing to pay for our assets, thereby limiting our ability to alter our portfolio promptly in relation to economic or other conditions.

Our organizational documents contain no limitation on the amount of debt we may incur. As a result, we may become highly leveraged in the future.

Our organizational documents do not limit the amount of indebtedness that we may incur. We could alter the balance between our total outstanding indebtedness and the value of our assets at any time. If we become more highly leveraged, then the resulting increase in debt service could adversely affect our ability to make payments on our outstanding indebtedness and to pay our anticipated distributions and/or the distributions required to maintain our REIT status, and could harm our financial condition.

Risks Related to our Organization and Structure

We are dependent upon our senior management team whose continued service is not guaranteed.

Our executive team, including our named executive officers, has extensive self-storage, real estate, and public company experience. Although our named executive officers, effective January 1, 2017, are parties to the Company's executive severance plan, we cannot

provide assurance that any of them will remain in our employment. The loss of services of one or more members of our senior management team could adversely affect our operations and our future growth.

We are dependent upon our on-site personnel to maximize customer satisfaction; any difficulties we encounter in hiring, training, and retaining skilled field personnel may adversely affect our rental revenues.

As of December 31, 2016, we had 1,844 property-level personnel involved in the management and operation of our stores. The customer service, marketing skills, and knowledge of local market demand and competitive dynamics of our store managers are contributing factors to our ability to maximize our rental income and to achieve the highest sustainable rent levels at each of our stores. We compete with various other companies in attracting and retaining qualified and skilled personnel. Competitive pressures may require that we enhance our pay and benefits package to compete effectively for such personnel. If there is an increase in these costs or if we fail to attract and retain qualified and skilled personnel, our business and operating results could be harmed.

Certain provisions of Maryland law could inhibit changes in control, which may discourage third parties from conducting a tender offer or seeking other change of control transactions that could involve a premium price for our shares or otherwise benefit our shareholders.

Certain provisions of Maryland law may have the effect of inhibiting a third party from making a proposal to acquire us or of impeding a change of control under circumstances that otherwise could provide the holders of our common shares with the opportunity to realize a premium over the then-prevailing market price of those shares, including:

• "business combination moratorium/fair price" provisions that, subject to limitations, prohibit certain business combinations between us and an "interested shareholder" (defined generally as any person who beneficially owns 10% or more of the voting power of our shares or an affiliate thereof) for five years after the most recent date on which the shareholder becomes an interested shareholder, and thereafter imposes stringent fair price and super-majority shareholder voting requirements on these combinations; and

• "control share" provisions that provide that "control shares" of our company (defined as shares which, when aggregated with other shares controlled by the shareholder, entitle the shareholder to exercise one of three increasing ranges of voting power in electing Trustees) acquired in a "control share acquisition" (defined as the direct or indirect acquisition of ownership or control of "control shares" from a party other than the issuer) have no voting rights except to the extent approved by our shareholders by the affirmative vote of at least two thirds of all the votes entitled to be cast on the matter, excluding all interested shares, and are subject to redemption in certain circumstances.

We have opted out of these provisions of Maryland law. However, our Board may opt to make these provisions applicable to us at any time without shareholder approval.

Our Trustees also have the discretion, granted in our bylaws and Maryland law, without shareholder approval to, among other things (1) create a staggered Board, (2) amend our bylaws or repeal individual bylaws in a manner that provides the Board with greater authority, and (3) issue additional equity securities. Any such action could inhibit or impede a third party from making a proposal to acquire us at a price that could be beneficial to our shareholders.

Our shareholders have limited control to prevent us from making any changes to our investment and financing policies.

Our Board has adopted policies with respect to certain activities. These policies may be amended or revised from time to time at the discretion of our Board without a vote of our shareholders. This means that our shareholders have limited control over changes in our policies. Such changes in our policies intended to improve, expand, or diversify our business may not have the anticipated effects and consequently may adversely affect our business and prospects, results of operations, and share price.

Our rights and the rights of our shareholders to take action against our Trustees and officers are limited.

Maryland law provides that a trustee or officer has no liability in that capacity if he or she performs his or her duties in good faith, in a manner he or she reasonably believes to be in our best interests and with the care that an ordinarily prudent person in a like position would use under similar circumstances. Our declaration of trust and bylaws require us to indemnify our Trustees and officers for actions taken by them in those capacities on our behalf, to the extent permitted by Maryland law. Accordingly, in the event that actions taken in good faith by any Trustee or officer impede our performance, our shareholders' ability to recover damages from that Trustee or officer will be limited.

22

Our declaration of trust permits our Board to issue preferred shares with terms that may discourage third parties from conducting a tender offer or seeking other change of control transactions that could involve a premium price for our shares or otherwise benefit our shareholders.

Our declaration of trust permits our Board to issue up to 40,000,000 preferred shares, having those preferences, conversion or other rights, voting powers, restrictions, limitations as to distributions, qualifications, or terms or conditions of redemption as determined by our Board. In addition, our Board may reclassify any unissued common shares into one or more classes or series of preferred shares. Thus, our Board could authorize, without shareholder approval, the issuance of preferred shares with terms and conditions that could have the effect of discouraging a takeover or other transaction in which holders of some or a majority of our shares might receive a premium for their shares over the then-prevailing market price of our shares. We currently do not expect that the Board would require shareholder approval prior to such a preferred issuance. In addition, any preferred shares that we issue would rank senior to our common shares with respect to the payment of distributions, in which case we could not pay any distributions on our common shares until full distributions have been paid with respect to such preferred shares.

Risks Related to our Securities

Additional issuances of equity securities may be dilutive to shareholders.

The interests of our shareholders could be diluted if we issue additional equity securities to finance future acquisitions or developments or to repay indebtedness. Our Board may authorize the issuance of additional equity securities, including preferred shares, without shareholder approval. Our ability to execute our business strategy depends upon our access to an appropriate blend of debt financing, including unsecured lines of credit and other forms of secured and unsecured debt, and equity financing, including common and preferred equity.

Many factors could have an adverse effect on the market value of our securities.

A number of factors might adversely affect the price of our securities, many of which are beyond our control. These factors include:

• increases in market interest rates, relative to the dividend yield on our shares. If market interest rates go up, prospective purchasers of our securities may require a higher yield. Higher market interest rates would not, however, result in more funds for us to distribute and, to the contrary, would likely increase our borrowing costs and

potentially decrease funds available for distribution. Thus, higher market interest rates could cause the market price of our equity securities to go down;

- anticipated benefit of an investment in our securities as compared to investment in securities of companies in other industries (including benefits associated with tax treatment of dividends and distributions);
- · perception by market professionals of REITs generally and REITs comparable to us in particular;
- · level of institutional investor interest in our securities;
- · relatively low trading volumes in securities of REITs;
- · our results of operations and financial condition;
- · investor confidence in the stock market generally; and
- · additions and departures of key personnel.

The market value of our equity securities is based primarily upon the market's perception of our growth potential and our current and potential future earnings and cash distributions. Consequently, our equity securities may trade at prices that are higher or lower than our net asset value per equity security. If our future earnings or cash distributions are less than expected, it is likely that the market price of our equity securities will diminish.

The market price of our common shares has been, and may continue to be, particularly volatile, and our shareholders may be unable to resell their shares at a profit.

The market price of our common shares has been subject to significant fluctuation and may continue to fluctuate or decline. Between January 1, 2014 and December 31, 2016, the closing price of our common shares has ranged from a high of \$33.30 (on March 31, 2016) to a low of \$15.63 (on January 27, 2014). In the past several years, REIT securities have experienced high levels of volatility and significant increases in value from their historic lows.

In the past, following periods of volatility in the market price of a company's securities, securities class action litigation has often been brought against that company. If our share price is volatile, we may become the target of securities litigation. Securities litigation could result in substantial costs and divert our management's attention and resources from our business.

### ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Overview

As of December 31, 2016, we owned 475 self-storage properties that contain approximately 32.9 million rentable square feet and are located in 23 states and the District of Columbia. The following table sets forth summary information regarding our stores by state as of December 31, 2016.

| State    | Number of<br>Stores | Cubes  | Total<br>Rentable<br>Square Feet | % of Total<br>Rentable<br>Square Feet |   | Period-end<br>Occupancy |   |
|----------|---------------------|--------|----------------------------------|---------------------------------------|---|-------------------------|---|
| Florida  | 77                  | 55,746 | 5,749,593                        | 17.4                                  | % | 93.1                    | % |

#### Our Stores

The following table sets forth additional information with respect to each of our owned stores as of December 31, 2016. Our ownership of each store consists of a fee interest in the store held by our Operating Partnership, or one of its subsidiaries, except for eight of our stores, which are subject to ground leases. In addition, small parcels of land at two of our other stores are subject to ground leases.

|                | Year<br>Acquired / |            |          |           |    |       |           |           |    |

\*Denotes stores developed by us or acquired at development completion.

<sup>†</sup>Denotes stores that contain commercial rentable square footage. All of this commercial space, which was developed in conjunction with the self-storage cubes, is located within or adjacent to our self-storage properties and is managed by our store managers. As of December 31, 2016, properties in our owned portfolio included an aggregate of approximately 237,000 rentable square feet of commercial space.

- (1) Represents the year acquired for those stores we acquired from a third party or the year of completion for those stores we developed.
- (2) Represents occupied square feet as of December 31, 2016 divided by total rentable square feet.
- (3) Indicates whether a store has an on-site apartment where a manager resides.
- (4) Represents the percentage of rentable square feet in climate-controlled cubes.
- (5) We do not own the land at these properties. We lease the land pursuant to ground leases that expire between 2052 and 2064, subject to renewal options.
- (6) We have ground leases for certain small parcels of land adjacent to these properties that expire between 2018 and 2019.

We have grown by adding stores to our portfolio through acquisitions and development. The tables set forth below show the average occupancy, annual rent per occupied square foot, average occupied square feet, and total revenues for our stores owned as of December 31, 2016, and for each of the previous three years, grouped by the year during which we first owned or operated the store.

Stores by Year Acquired - Average Occupancy

|  |             | Rentable Square | Average Occupancy |        |        |  |  |

| All Stores Owned as of December 31, 2016 | 475         | \$ 496,825  | \$ 430,217     | \$ 361,505 |  |  |

(1) Represents the year acquired for those stores we acquired from a third party or the year placed in service for those stores we developed.

- (2) Determined by dividing the aggregate rental revenue for each twelve-month period by the average of the month-end occupied square feet for the period. Rental revenue includes the impact of promotional discounts, which reduce rental income over the promotional period, of \$17.4 million, \$16.2 million, and \$15.7 million for the periods ended December 31, 2016, 2015 and 2014, respectively.
- (3) Represents the average of the aggregate month-end occupied square feet for the twelve-month period for each group of stores.

Unconsolidated Real Estate Ventures

As of December 31, 2016, we held ownership interests ranging from 10% to 50% in three unconsolidated real estate ventures for an aggregate investment balance of \$98.7 million. We formed interests in these real estate ventures with unaffiliated third parties to acquire, own, and operate self-storage properties in select markets. As of December 31, 2016, these three unconsolidated real estate ventures owned 116 self-storage properties that contain an aggregate of approximately 6.8 million net rentable square feet. The self-storage properties owned by the real estate ventures are managed by us and are located in Texas (34), South Carolina (22), Michigan (17), Massachussetts (13), Tennessee (10), Georgia (5), North Carolina (5), Connecticut (3), Florida (3), Rhode Island (2), and Vermont (2). Each of the ventures has debt and other obligations that we do not consolidate in our financial statements.

We account for our investments in these real estate ventures using the equity method. See note 5 to the consolidated financial statements for further disclosure regarding the assets, liabilities, and operating results of our unconsolidated real estate ventures.

Capital Expenditures

We have a capital improvement program that includes office upgrades, adding climate control to selected cubes, construction of parking areas, and other store upgrades. For 2017, we anticipate spending approximately \$5.0 million to \$10.0 million associated with these capital expenditures. For 2017, we also anticipate spending approximately \$15.0 million to \$20.0 million on recurring capital expenditures and approximately \$50.0 million to \$65.0 million on the development of new self-storage properties.

# ITEM 3. LEGAL PROCEEDINGS

We are involved in claims from time to time, which arise in the ordinary course of business. In the opinion of management, we have made adequate provisions for potential liabilities, if any, arising from any such matters. However, litigation is inherently unpredictable, and the costs and other effects of pending or future litigation, governmental investigations, legal and administrative cases and proceedings (whether civil or criminal), settlements, judgments and investigations, claims, and changes in any such matters, could have a material adverse effect on our business, financial condition, and operating results.

On July 13, 2015, a putative class action was filed against the Company in the Federal District Court of New Jersey seeking to obtain declaratory, injunctive and monetary relief for a class of New Jersey consumers based upon alleged violations by the Company of the New Jersey Truth in Customer Contract, Warranty and Notice Act and the New

Jersey Consumer Fraud Act. The Company brought a motion to partially dismiss the complaint for failure to state a claim, which motion was granted in part and denied in part. The plaintiff has moved to file an amended complaint to re-allege the action dismissed by the Court, which motion is presently pending decision. We intend to vigorously defend the action, and the possibility of any adverse outcome cannot be determined at this time.

ITEM 4. MINING SAFETY DISCLOSURES

Not applicable.

PART II

# ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED SHAREHOLDER MATTERS, AND ISSUER PURCHASES OF EQUITY SECURITIES

Repurchase of Parent Company Common and Preferred Shares

The following table provides information about repurchases of the Parent Company's common and preferred shares during the three months ended December 31, 2016:

|                          |                              |                       | Total             | Maximum      |
|--------------------------|------------------------------|-----------------------|-------------------|--------------|
|                          |                              |                       | Number of         | Number of    |

| Total                    | 3,100,277                    | \$ 25.00              | N/A               | 3,000,000    |

(2)

<sup>(1)</sup> On September 27, 2007, the Parent Company announced that the Board of Trustees approved a share repurchase program for up to 3.0 million of the Parent Company's outstanding common shares. Unless terminated earlier by resolution of the Board of Trustees, the program will expire when the number of authorized shares has been repurchased. The Parent Company has made no repurchases under this program to date.

Represents common shares withheld by the Parent Company upon the vesting of restricted shares to cover employee tax obligations.

(3) Represents 7.75% Series A Cumulative Redeemable Preferred Shares redeemed by the Parent Company on November 2, 2016. On September 2, 2016, the Parent Company announced its intention to call for redemption all of its 3,100,000 issued and outstanding 7.75% Series A Cumulative Redeemable Preferred Shares, which redemption was completed on November 2, 2016.

Market Information for and Holders of Record of Common Shares

As of December 31, 2016, there were approximately 87 registered record holders of the Parent Company's common shares and 10 holders (other than the Parent Company) of the Operating Partnership's common units. These figures do not include common shares held by brokers and other institutions on behalf of shareholders. There is no established trading market for units of the Operating Partnership. The following table shows the high and low closing prices per common share, as reported by the New York Stock Exchange, and the cash dividends declared with respect to such shares:

| 2015                  | High     | Low      | 040 | h Dividends<br>lared per<br>re |
|-----------------------|----------|----------|-----|--------------------------------|
| First quarter         | \$ 25.43 | \$ 22.31 | \$  | 0.16                           |
| Second quarter        | \$ 24.62 | \$ 22.74 | \$  | 0.16                           |
| Third quarter         | \$ 27.21 | \$ 23.81 | \$  | 0.16                           |
| Fourth quarter        | \$ 31.42 | \$ 26.99 | \$  | 0.21                           |
| 2016<br>First quarter | \$ 33.30 | \$ 27.70 | \$  | 0.21                           |
| Second quarter        | \$ 33.28 | \$ 29.18 | \$  | 0.21                           |
| Third quarter         | \$ 32.07 | \$ 26.43 | \$  | 0.21                           |
| Fourth quarter        | \$ 26.96 | \$ 23.88 | \$  | 0.27                           |

For each quarter in 2015 and 2016, the Operating Partnership paid a cash distribution per unit in an amount equal to the dividend paid on a common share for each such quarter.

Since our initial quarter as a publicly-traded REIT, we have made regular quarterly distributions to our shareholders. Distributions to shareholders are usually taxable as ordinary income, although a portion of the distribution may be designated as capital gain or may constitute a tax-free return of capital. Annually, we provide each of the Parent Company's common shareholders a statement detailing the tax characterization of dividends paid during the preceding year as ordinary income, capital gain, or return of capital. The characterization of the Parent Company's dividends for 2016 consisted of a 98.663% ordinary income distribution and a 1.337% capital gain distribution from earnings and profits.

Distributions to 7.75% Series A Cumulative Redeemable Preferred Shareholders are usually taxable as ordinary income, although a portion of the distribution may be designated as capital gain or may constitute a tax-free return of capital. Annually, we provide each of the Parent Company's preferred shareholders a statement detailing preferred distributions paid during the preceding year and their characterization as ordinary income, capital gain, or return of capital. The characterization of our preferred distributions for 2016 consisted of a 7.683% ordinary income distribution, a 0.104% capital gain distribution from earnings and profits, and a 92.213% cash liquidating distribution.

We intend to continue to declare quarterly distributions. However, we cannot provide any assurance as to the amount or timing of future distributions. Under our Credit Facility, we are restricted from paying distributions on the Parent Company's common shares in excess of the greater of (i) 95% of our funds from operations, and (ii) such amount as may be necessary to maintain our REIT status.

To the extent that we make distributions in excess of our earnings and profits, as computed for federal income tax purposes, these distributions will represent a return of capital, rather than a dividend, for federal income tax purposes. Distributions that are treated as a return of capital for federal income tax purposes generally will not be taxable as a dividend to a U.S. shareholder, but will reduce the shareholder's basis in its shares (but not below zero) and therefore can result in the shareholder having a higher gain upon a subsequent sale of such shares. Return of capital distributions in excess of a shareholder's basis generally will be treated as gain from the sale of such shares for federal income tax purposes.

On September 27, 2007, the Parent Company announced that the Board approved a share repurchase program for up to 3.0 million of the Parent Company's outstanding common shares. Unless terminated earlier by resolution of the Board of Trustees, the program will expire when the number of authorized shares has been repurchased. The Parent Company has made no repurchases under this program to date and there were no other repurchases of the Parent Company's common shares during the year ended December 31, 2016.

#### ITEM 6. SELECTED FINANCIAL DATA

#### CUBESMART

The following table sets forth selected financial and operating data on a historical consolidated basis for the Parent Company. The selected historical financial data as of and for each of the years in the five-year period ended December 31, 2016 are derived from the Parent Company's consolidated financial statements, which financial statements have been audited by KPMG LLP, an independent registered public accounting firm. The consolidated financial statements as of December 31, 2016 and 2015, and for each of the years in

the three-year period ended December 31, 2016, and the report thereon, are included herein. The selected data should be read in conjunction with the consolidated financial statements for the year ended December 31, 2016, the related notes, and the independent registered public accounting firm's report, which refers to the Company's change in its method for reporting discontinued operations as of January 1, 2014. The other data presented below is not derived from the financial statements.

The following data should be read in conjunction with the audited financial statements and notes thereto of the Parent Company and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included elsewhere in this Report.

|  | For the year ended December 31, |                  |            |            |            |  |  |  |

(1) OP units have been excluded from the earnings per share calculations as the related income or loss is presented in noncontrolling interests in the Operating Partnership.

(2) We announced full quarterly dividends of \$0.08 and \$0.484 per common and preferred shares, respectively, on February 21, 2012, May 30, 2012, and August 1, 2012; dividends of \$0.11 and \$0.484 per common and preferred shares, respectively, on December 10, 2012, February 21, 2013, May 29, 2013, and August 7, 2013; dividends of \$0.13 and \$0.484 per common and preferred shares, respectively, on December 19, 2013, February 25, 2014, May 28, 2014, and August 5, 2014; dividends of \$0.16 and \$0.484 per common and preferred shares, respectively, on December 16, 2014, February 24, 2015, May 27, 2015, and August 4, 2015; dividends of \$0.21 and \$0.484 per common and preferred shares, respectively, on December 16, 2014, February 24, 2015, May 27, 2015, and August 4, 2015; dividends of \$0.21 and \$0.484 per common and preferred shares, respectively, on December 10, 2015, February 16, 2016, June 1, 2016, and August 2, 2016; dividends of \$0.174 per preferred share on September 2, 2016; and dividends of \$0.27 per common share on December 15, 2016.

CUBESMART, L.P.

The following table sets forth selected financial and operating data on a historical consolidated basis for the Operating Partnership. The selected historical financial data as of and for each of the years in the the five-year period ended December 31, 2016 are derived from the Operating Partnership's consolidated financial statements, which financial statements have been audited by KPMG LLP, an independent registered public accounting firm. The consolidated financial statements as of December 31, 2016 and 2015, and for each of the years in the three-year period ended December 31, 2016, and the report thereon, are included herein. The selected data should be read in conjunction with the consolidated financial statements for the year ended December 31, 2016, the related notes, and the independent registered public accounting firm's report, which refers to the Operating Partnership's change in its method for reporting discontinued operations as of January 1, 2014. The other data presented below is not derived from the financial statements.

The following data should be read in conjunction with the audited financial statements and notes thereto of the Operating Partnership and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included elsewhere in this Report.

(1) OP units have been excluded from the earnings per unit calculations as the related income or loss is presented in Operating Partnership interest of third parties.

(2) We announced full quarterly dividends of \$0.08 and \$0.484 per common and preferred units, respectively, on February 21, 2012, May 30, 2012, and August 1, 2012; dividends of \$0.11 and \$0.484 per common and preferred units, respectively, on December 10, 2012, February 21, 2013, May 29, 2013, and August 7, 2013; dividends of \$0.13 and \$0.484 per common and preferred units, respectively, on December 19, 2013, February 25, 2014, May 28, 2014, and August 5, 2014; dividends of \$0.16 and \$0.484 per common and preferred units, respectively, on December 16, 2014, February 24, 2015, May 27, 2015, and August 4, 2015; dividends of \$0.21 and \$0.484 per common and preferred units, respectively, on December 16, 2014, February 24, 2015, May 27, 2015, and August 4, 2015; dividends of \$0.21 and \$0.484 per common and preferred units, respectively, on December 10, 2015, February 16, 2016, June 1, 2016, and August 2, 2016; dividends of \$0.174 per preferred unit on September 2, 2016; and dividends of \$0.27 per common unit on December 15, 2016.

# ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this Report. Some of the statements we make in this section are forward-looking statements within the meaning of the federal securities laws. For a complete discussion of forward-looking statements, see the section in this Report entitled "Forward-Looking Statements". Certain risk factors may cause actual results, performance or achievements to differ materially from those expressed or implied by the following discussion. For a discussion of such risk factors, see the section in this Report entitled "Risk Factors".

Overview

We are an integrated self-storage real estate company, and as such we have in-house capabilities in the operation, design, development, leasing, management, and acquisition of self-storage properties. The Parent Company's operations are conducted solely through the Operating Partnership and its subsidiaries. The Parent Company has elected to be taxed as a REIT for U.S. federal income tax purposes. As of December 31, 2016 and December 31, 2015, we owned 475 and 445 self-storage properties, respectively, totaling approximately 32.9 million and 30.4 million rentable square feet, respectively. As of December 31, 2016, we owned stores in the District of Columbia and the following 23 states: Arizona, California, Colorado, Connecticut, Florida, Georgia, Illinois, Indiana, Maryland, Massachusetts, Minnesota, Nevada, New Jersey, New Mexico, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Texas, Utah, and Virginia. In addition, as of December 31, 2016, we managed 316 stores for third parties (including 116 stores containing an aggregate of approximately 6.8 million rentable square feet as part of three separate unconsolidated real estate ventures), bringing the total number of stores we owned and/or managed to 791. As of December 31, 2016, we managed stores for third parties in the following 26 states: Alabama, Arizona, California, Colorado, Connecticut, Florida, Massachusetts, Michigan, Mississippi, Missouri, Nevada, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, and Virginia.

We derive revenues principally from rents received from customers who rent cubes at our self-storage properties under month-to-month leases. Therefore, our operating results depend materially on our ability to retain our existing customers and lease our available self-storage cubes to new customers while maintaining and, where possible, increasing our pricing levels. In addition, our operating results depend on the ability of our customers to make required rental payments to us. Our approach to the management and operation of our stores combines centralized marketing, revenue management, and other operational support with local operations teams that provide market-level oversight and control. We believe this approach allows us to respond quickly and effectively to changes in local market conditions, and to maximize revenues by managing rental rates and occupancy levels.

We typically experience seasonal fluctuations in the occupancy levels of our stores, which are generally slightly higher during the summer months due to increased moving activity.

Our results of operations may be sensitive to changes in overall economic conditions that impact consumer spending, including discretionary spending, as well as to increased bad debts due to recessionary pressures. Adverse economic conditions affecting disposable consumer income, such as employment levels, business conditions, interest rates, tax rates, fuel and energy costs, and other matters could reduce consumer spending or cause consumers to shift their spending to other products and services. A general reduction in the level of discretionary spending or shifts in consumer discretionary spending could adversely affect our growth and profitability.

We continue our focus on maximizing internal growth opportunities and selectively pursuing targeted acquisitions and developments of self-storage properties.

We have one reportable segment: we own, operate, develop, manage, and acquire self-storage properties.

Our self-storage properties are located in major metropolitan and suburban areas and have numerous customers per store. No single customer represents a significant concentration of our revenues. Our stores in Florida, New York, Texas, and California provided approximately 17%, 16%, 10%, and 8%, respectively, of total revenues for the year ended December 31, 2016.

Summary of Critical Accounting Policies and Estimates

Set forth below is a summary of the accounting policies and estimates that management believes are critical to the preparation of the consolidated financial statements included in this Report. Certain of the accounting policies used in the preparation of these consolidated financial statements are particularly important for an understanding of the financial position and results of operations presented in the historical consolidated financial statements included in this Report. A summary of significant accounting policies is also provided in the notes to our consolidated financial statements (see note 2 to the consolidated financial statements). These policies require the application

of judgment and assumptions by management and, as a result, are subject to a degree of uncertainty. Due to this uncertainty, actual results could differ materially from estimates calculated and utilized by management.

**Basis of Presentation** 

The accompanying consolidated financial statements include all of the accounts of the Company, and its majority-owned and/or controlled subsidiaries. The portion of these entities not owned by the Company is presented as noncontrolling interests as of and during the periods presented. All significant intercompany accounts and transactions have been eliminated in consolidation.

When the Company obtains an economic interest in an entity, the Company evaluates the entity to determine if the entity is deemed a variable interest entity ("VIE"), and if the Company is deemed to be the primary beneficiary, in accordance with authoritative guidance issued by the Financial Accounting Standards Board ("FASB") on the consolidation of VIEs. When an entity is not deemed to be a VIE, the Company considers the provisions of additional FASB guidance to determine whether a general partner, or the general partners as a group, controls a limited partnership or similar entity when the limited partners have certain rights. The Company consolidates (i) entities that are VIEs and of which the Company is deemed to be the primary beneficiary and (ii) entities that are non-VIEs which the Company controls and in which the limited partners do not have substantive participating rights, or the ability to dissolve the entity or remove the Company without cause.

Self-Storage Properties

The Company records self-storage properties at cost less accumulated depreciation. Depreciation on the buildings and equipment is recorded on a straight-line basis over their estimated useful lives, which range from five to 39 years. Expenditures for significant renovations or improvements that extend the useful life of assets are capitalized. Repairs and maintenance costs are expensed as incurred.

When stores are acquired, the purchase price is allocated to the tangible and intangible assets acquired and liabilities assumed based on estimated fair values. When a portfolio of stores is acquired, the purchase price is allocated to the individual stores based upon an income approach or a cash flow analysis using appropriate risk adjusted capitalization rates, which take into account the relative size, age, and location of the individual store along with current and projected occupancy and rental rate levels or appraised values, if available. Allocations to the individual assets and liabilities are based upon comparable market sales information for land, buildings and improvements, and estimates of depreciated replacement cost of equipment.

In allocating the purchase price for an acquisition, the Company determines whether the acquisition includes intangible assets or liabilities. The Company allocates a portion of the purchase price to an intangible asset attributable to the value of in-place leases. This intangible asset is generally amortized to expense over the expected remaining term of the respective leases. Substantially all of the leases in place at acquired stores are at market rates, as the majority of the leases are month-to-month contracts. Accordingly, to date no portion of the purchase price has been allocated to above- or below-market lease intangibles. To date, no intangible asset has been recorded for the value of customer relationships, because the Company does not have any concentrations of significant customers and the average customer turnover is fairly frequent.

Long-lived assets classified as "held for use" are reviewed for impairment when events and circumstances such as declines in occupancy and operating results indicate that there may be an impairment. The carrying value of these long-lived assets is compared to the undiscounted future net operating cash flows, plus a terminal value, attributable to the assets to determine if the store's basis is recoverable. If a store's basis is not considered recoverable, an impairment loss is recorded to the extent the net carrying value of the asset exceeds the fair value. The impairment loss recognized equals the excess of net carrying value over the related fair value of the asset. There were no impairment losses recognized in accordance with these procedures during the years ended December 31, 2016, 2015 and 2014.

The Company considers long-lived assets to be "held for sale" upon satisfaction of the following criteria: (a) management commits to a plan to sell a store (or group of stores), (b) the store is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such stores, (c) an active program to locate a buyer and other actions required to complete the plan to sell the store have been initiated, (d) the sale of the store is probable and transfer of the asset is expected to be completed within one year, (e) the store is being actively marketed for sale at a price that is reasonable in relation to its current fair value, and (f) actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Typically these criteria are all met when the relevant asset is under contract, significant non-refundable deposits have been made by the potential buyer, the assets are immediately available for transfer and there are no contingencies related to the sale that may prevent the

transaction from closing. However, each potential transaction is evaluated based on its separate facts and circumstances. Stores classified as held for sale are reported at the lesser of carrying value or fair value less estimated costs to sell.

**Revenue Recognition** 

Management has determined that all our leases with customers are operating leases. Rental income is recognized in accordance with the terms of the lease agreements or contracts, which generally are month to month.

The Company recognizes gains from disposition of stores only upon closing in accordance with the guidance on sales of real estate. Payments received from purchasers prior to closing are recorded as deposits. Profit on real estate sold is recognized using the full accrual method upon closing when the collectability of the sales price is reasonably assured and the Company is not obligated to perform significant activities after the sale. Profit may be deferred in whole or part until the sale meets the requirements of profit recognition on sales under this guidance.

Share-Based Payments

We apply the fair value method of accounting for contingently issued shares and share options issued under our equity incentive plans. The share compensation expense is recorded ratably over the vesting period relating to such contingently issued shares and options. The Company has elected to recognize compensation expense on a straight-line method over the requisite service period.

Noncontrolling Interests

Noncontrolling interests are the portion of equity (net assets) in a subsidiary not attributable, directly or indirectly, to a parent. The ownership interests in the subsidiary that are held by owners other than the parent are noncontrolling interests. In accordance with authoritative guidance issued on noncontrolling interests in consolidated financial statements, such noncontrolling interests are reported on the consolidated balance sheets within equity/capital, separately from the Parent Company's equity/capital. The guidance also requires that noncontrolling interests are adjusted each period so that the carrying value equals the greater of its carrying value based on the accumulation of historical cost or its redemption value. On the consolidated statements of operations, revenues, expenses, and net income or loss from less-than-wholly-owned subsidiaries are reported at the consolidated amounts, including both the amounts attributable to the Parent Company and noncontrolling interests. Presentation of consolidated equity/capital activity is included for both quarterly and annual financial statements, including beginning balances, activity for the period and ending balances for shareholders' equity/capital, noncontrolling interests, and total equity/capital.

#### Investments in Unconsolidated Real Estate Ventures

The Company accounts for its investments in unconsolidated real estate ventures under the equity method of accounting. Under the equity method, investments in unconsolidated joint ventures are recorded initially at cost, as investments in real estate entities, and subsequently adjusted for equity in earnings (losses), cash contributions, less distributions and impairments. On a periodic basis, management also assesses whether there are any indicators that the carrying value of the Company's investments in unconsolidated real estate entities may be other than temporarily impaired. An investment is impaired only if the fair value of the investment, as estimated by management, is less than the carrying value of the investment and the decline is other than temporary. To the extent impairment that is other than temporary has occurred, the loss shall be measured as the excess of the carrying amount of the investment over the fair value of the investment, as estimated by management. Fair value is determined through various valuation techniques, including but not limited to, discounted cash flow models, quoted market values, and third party appraisals. There were no impairment losses related to the Company's investments in unconsolidated real estate ventures recognized during the years ended December 31, 2016, 2015 and 2014.

#### Income Taxes

The Parent Company elected to be taxed as a real estate investment trust under Sections 856-860 of the Internal Revenue Code beginning with the period from October 21, 2004 (commencement of operations) through December 31, 2004. In management's opinion, the requirements to maintain these elections are being met. Accordingly, no provision for federal income taxes has been reflected in the consolidated financial statements other than for operations conducted through our taxable REIT subsidiaries.

Earnings and profits, which determine the taxability of distributions to shareholders, differ from net income reported for financial reporting purposes due to differences in cost basis, the estimated useful lives used to compute depreciation, and the allocation of net income and loss for financial versus tax reporting purposes.

The Parent Company is subject to a 4% federal excise tax if sufficient taxable income is not distributed within prescribed time limits. The excise tax equals 4% of the annual amount, if any, by which the sum of (a) 85% of the Parent Company's ordinary income, (b) 95% of the Parent Company's net capital gains, and (c) 100% of prior year taxable income exceeds cash distributions and certain taxes paid by the Parent Company.

**Recent Accounting Pronouncements** 

In January 2017, the FASB issued Accounting Standards Update ("ASU") No. 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business, which changes the defininition of a business to include an input and a substantive process that together signifianctly contribute to the ability to create outputs. A framework is provided to evaluate when an input and a substantive process are present. The new guidance also narrows the definition of outputs, which are defined as the results of inputs and substantive processes that provide goods or services to customers, other revenue, or investment income. The standard is effective on January 1, 2018, however early adoption is permitted. We are in the process of evaluating the impact of this new guidance.

In November 2016, the FASB issued ASU No. 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash, which requires the statement of cash flows to explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. The new guidance also requires entities to reconcile such total to amounts on the balance sheet and disclose the nature of the restrictions. The standard is effective on January 1, 2018, however early adoption is permitted. The standard requires the use of the retrospective transition method. We are in the process of evaluating the impact of this new guidance.

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments, which is intended to reduce diversity in practice in how certain transactions are classified in the statement of cash flows. The eight items that the ASU provides classification guidance on include (1) debt prepayment and extinguishment costs, (2) settlement of zero-coupon debt instruments, (3) contingent consideration payments made after a business combination, (4) proceeds from the settlement of insurance claims, (5) proceeds from the settlement of corporate-owned life insurance policies, including bank-owned life insurance policies, (6) distributions received from equity method investments, (7) beneficial interests in securitization transactions, and (8) separately identifiable cash flows and application of the predominance principle. The standard is effective on January 1, 2018, however early adoption is permitted. The standard requires the use of the retrospective transition method. We are in the process of evaluating the impact of this new guidance.

In March 2016, the FASB issued ASU No. 2016-09, Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting, which is intended to simplify various aspects related to how share-based payments are accounted for and presented in the financial statements. The new guidance allows for entities to make an entity-wide accounting policy election to either estimate the number of awards that are expected to vest or account for forfeitures when they occur. In addition, the guidance allows employers to withhold shares to satisfy minimum statutory tax withholding requirements up to the employees' maximum individual tax rate without

causing the award to be classified as a liability. The guidance also stipulates that cash paid by an employer to a taxing authority when directly withholding shares for tax-withholding purposes should be classified as a financing activity on the statement of cash flows. The standard is effective on January 1, 2017, however early adoption is permitted. We do not expect this new guidance to have a material impact on our consolidated financial position or results of operations.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract (i.e. lessees and lessors). The new standard requires lessees to apply a dual approach, classifying leases as either financing or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight line basis over the term of the lease, respectively. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. The new standard requires lessors to account for leases using an approach that is substantially equivalent to existing guidance for sales-type leases, direct financing leases and operating leases. The standard is effective on January 1, 2019, however early adoption is permitted. We are currently assessing the impact of the adoption of ASU No. 2016-02 on our consolidated financial statements and related disclosures.

In September 2015, the FASB issued ASU No. 2015-16, Simplifying the Accounting for Measurement-Period Adjustments, which amends the current business combination guidance to require that an acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amounts are determined, as opposed to having to revise prior period information. The standard also requires additional disclosure about the impact on current-period income statement line items of adjustments that would have been recognized in prior periods if prior period information had been revised. The new standard became effective for the Company on January 1, 2016. The adoption of this guidance did not have a material impact on our consolidated

financial position or results of operations as all measurement-period adjustments recorded during 2016 relate to business combinations that took place in the current year and do not impact the prior period. Refer to note 4 for details regarding the measurement-period adjustments made during the year ended December 31, 2016.

In April 2015, the FASB issued ASU No. 2015-03, Simplifying the Presentation of Debt Issuance Costs, an update to the accounting standard relating to the presentation of debt issuance costs. Under the new guidance, debt issuance costs related to a recognized debt liability will be presented on the balance sheet as a direct deduction from the debt liability. In the event that there is not an associated debt liability recorded in the consolidated financial statements, the debt issuance costs will continue to be recorded on the consolidated balance sheet as an asset until the debt liability is recorded. The new standard became effective for the Company on January 1, 2016. The adoption of this guidance did not have a material impact on our consolidated financial position or results of operations as the update only related to changes in financial statement presentation as discussed in note 7 and in the "Reclassifications" section of the consolidated financial statements.

In February 2015, the FASB issued ASU No. 2015-02, Consolidation – Amendments to the Consolidation Analysis, which amends the current consolidation guidance affecting both the variable interest entity ("VIE") and voting interest entity ("VOE") consolidation models. The standard does not add or remove any of the characteristics in determining if an entity is a VIE or VOE, but rather enhances the way the Company assesses some of these characteristics. The new standard became effective for the Company on January 1, 2016. The adoption of this guidance did not have a material impact on our consolidated financial position or results of operations as none of its existing consolidation conclusions were changed.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance under GAAP when it becomes effective. The new standard will be effective for the Company beginning on January 1, 2018, however early application beginning on January 1, 2017 is permitted. The standard permits the use of either the retrospective or cumulative effect transition method. The Company has not yet selected a transition method. We are currently assessing the impact of the adoption of ASU No. 2014-09 on our consolidated financial statements and related disclosures.

**Results of Operations** 

The following discussion of our results of operations should be read in conjunction with the consolidated financial statements and the accompanying notes thereto. Historical results set forth in the consolidated statements of operations reflect only the existing stores and should not be taken as indicative of future operations. We consider our same-store portfolio to consist of only those stores owned and operated on a stabilized basis at the beginning and at the end of the applicable years presented. We consider a store to be stabilized once it has achieved an occupancy rate that we believe, based on our assessment of market-specific data, is representative of similar self-storage assets in the applicable market for a full year measured as of the most recent January 1 and has not been significantly damaged by

natural disaster or undergone significant renovation. We believe that same-store results are useful to investors in evaluating our performance because they provide information relating to changes in store-level operating performance without taking into account the effects of acquisitions, developments or dispositions. As of December 31, 2016, we owned 407 same-store properties and 68 non-same-store properties. All of the non-same-store properties were 2015 and 2016 acquisitions, developed stores, or stores with a significant portion taken out of service. For analytical presentation, all percentages are calculated using the numbers presented in the financial statements contained in this Report.

The comparability of our results of operations is affected by the timing of acquisition and disposition activities during the periods reported. As of December 31, 2016, 2015 and 2014, we owned 475, 445 and 421 self-storage properties and related assets, respectively.

The following table summarizes the change in number of owned stores from January 1, 2014 through December 31, 2016:

|                        | 2016 | 2015 | 2014 |
|------------------------|------|------|------|
| Balance - January 1    | 445  | 421  | 366  |
| Stores acquired        | 10   | 7    | 10   |
| Stores developed       | 1    |      | 2    |
| Balance - March 31     | 456  | 428  | 378  |
| Stores acquired        | 7    | 4    | 9    |
| Stores developed       | 1    | 1    |      |

- (1) Represents occupancy as of December 31 of the respective year.
- (2) Represents the weighted average occupancy for the period.
  - (3) Realized annual rent per occupied square foot is computed by dividing rental income by the weighted average occupied square feet for the period.

#### Revenues

Rental income increased from \$392.5 million during 2015 to \$449.6 million during 2016, an increase of \$57.1 million, or 14.6%. The increase in same-store revenue was due primarily to an increase in average occupancy of 80 basis points and higher rental rates. Realized annual rent per square foot on our same-store portoflio increased 6.4% as a result of higher asking rates for new and existing customers during 2016 as compared to 2015. The remaining increase is primarily attributable to \$30.0 million of additional income from the stores acquired in 2015 and 2016 included in our non-same store portfolio.

Other property related income consists of late fees, administrative charges, customer insurance fees, sales of storage supplies and other ancillary revenues. Other property related income increased from \$45.2 million in 2015 to \$50.3 million in 2016, an increase of \$5.1 million, or 11.2%. This increase is primarily attributable to increased fee revenue and insurance fees of \$3.5 million on the stores acquired in 2015 and 2016 and a \$2.0 million increase in same-store property related income mainly attributable to increased insurance participation and higher average occupancy, offset by a decrease of \$0.4 million of additional income relating to the disposals of nine stores in 2015.

Property management fee income increased to \$10.2 million in 2016 from \$6.9 million during 2015, an increase of \$3.3 million, or 48.5%. This increase is attributable to an increase in management fees related to the third-party management business resulting from more stores under management and higher revenue at managed stores (316 stores as of December 31, 2016 compared to 227 stores as of December 31, 2015).

**Operating Expenses** 

Property operating expenses increased from \$153.2 million in 2015 to \$165.8 million in 2016, an increase of \$12.7 million, or 8.3%, which is primarily attributable to \$12.3 million of increased expenses associated with newly acquired stores.

Depreciation and amortization increased from \$151.8 million in 2015 to \$161.9 million in 2016, an increase of \$10.1 million, or 6.6%. This increase is primarily attributable to depreciation and amortization expense related to the 2015 and 2016 acquisitions.

General and administrative expenses increased from \$28.4 million in 2015 to \$32.8 million in 2016, an increase of \$4.5 million, or 15.7%. The change is primarily attributable to \$4.1 million of increased payroll expenses resulting from additional employee headcount to support our growth.

Acquisition related costs increased from \$3.3 million during 2015 to \$6.6 million during 2016, an increase of \$3.3 million, or 98.5%. Acquisition-related costs are non-recurring and fluctuate based on periodic investment activity.

Other (expense) income

Interest expense on loans increased from \$43.7 million during the year ended December 31, 2015 to \$50.4 million during the year ended December 31, 2016, an increase of \$6.7 million, or 15.2%. The increase is primarily attributable to a higher amount of outstanding debt during 2016 as compared to 2015. The average debt balance increased \$234.6 million to \$1.4 billion during 2016 as compared to \$1.2 billion during 2015 as the result of borrowings to fund a portion of the Company's acquisition acitivity.

Equity in losses of real estate ventures increased from \$0.4 million during the year ended December 31, 2015 to \$2.7 million during the year ended December 31, 2016, an increase of \$2.3 million, or 547.7%. The increase is mainly driven by our share of the losses attributable to HVP, a real estate venture in which we own a 10% interest. The loss incurred in 2016 was primarily the result of amortization expense associated with the in-place lease intangible that was recorded in connection with HVP's acquisition of 68 properties. The amortization expense did not exist in 2015 as the acquisitions took place during the fourth quarter of 2015 and throughout 2016.

Gains from sale of real estate, net were \$17.6 million for the year ended December 31, 2015 with no comparable amounts for the year ended December 31, 2016. These gains are determined on a transactional basis and, accordingly, are not comparable across reporting periods.

Other income (expense) increased \$1.3 million from 2015 to 2016 primarily due to acquisition fees earned in conjunction with HVP's acquisition of 68 self-storage properties.

(1) Represents occupancy as of December 31 of each respective year.

<sup>(2)</sup> Represents the weighted average occupancy for the period.

<sup>(3)</sup> Realized annual rent per occupied square foot is computed by dividing rental income by the weighted average occupied square feet for the period.

Rental income increased from \$330.9 million in 2014 to \$392.5 million in 2015, an increase of \$61.6 million, or 18.6%. This increase is primarily attributable to \$40.3 million of additional income from the stores acquired in 2014 and 2015, offset by a decrease of \$1.2 million of additional income relating to the disposal of nine stores in 2015. Also, increases in net rental rates for new and existing customers, lower levels of promotional discounts, and an increase in average occupancy of 150 basis points on the same-store portfolio provided a \$22.5 million increase in rental income during 2015 as compared to 2014.

Other property related income consists of late fees, administrative charges, customer insurance fees, sales of storage supplies and other ancillary revenues. Other property related income increased from \$40.1 million in 2014 to \$45.2 million in 2015, an increase of \$5.1 million, or 12.8%. This increase is primarily attributable to increased fee revenue and insurance fees of \$3.2 million on the stores acquired in 2014 and 2015 and a \$1.9 million increase in same-store property related income mainly attributable to increased insurance participation and higher average occupancy.

Property management fee income increased to \$6.9 million in 2015 from \$6.0 million during 2014, an increase of \$0.9 million, or 14.3%. This increase is attributable to an increase in management fees related to the third-party management business resulting from more stores under management and higher revenue at managed stores (227 stores as of December 31, 2015, compared to 174 stores as of December 31, 2014).

## **Operating Expenses**

Property operating expenses increased from \$132.7 million in 2014 to \$153.2 million in 2015, an increase of \$20.5 million, or 15.4%. This increase is primarily attributable to \$15.6 million of increased expenses associated with newly acquired stores in 2015 and 2014. Additionally, property operating expenses on the same-store portfolio increased \$2.5 million primarily due to an increase of \$1.2 million in property taxes and \$1.0 million in payroll.

Depreciation and amortization increased from \$126.8 million in 2014 to \$151.8 million in 2015, an increase of \$25.0 million, or 19.7%. This increase is primarily attributable to depreciation and amortization expense related to the 2014 and 2015 acquisitions.

Acquisition related costs decreased from \$7.5 million during 2014 to \$3.3 million during 2015, a decrease of \$4.2 million, or 55.9%. Acquisition related costs are non-recurring and fluctuate based on periodic investment activity.

Other (expense) income

Interest expense decreased from \$46.8 million during the year ended December 31, 2014 to \$43.7 million during the year ended December 31, 2015, a decrease of \$3.1 million, or 6.6%. The decrease is attributable to lower rates on the credit facility and term loan facility compared to 2014 as a result of our improved credit ratings and credit facility amendment. The weighted average effective interest rate of our outstanding debt decreased from 4.02% for the year ended December 31, 2014 to 3.88% for the year ended December 31, 2015 due to the previously discussed changes in the term loan facility and credit facility pricing and the repayment of \$84.9 million in secured loans with a weighted average effective interest rate of 4.75%, while the average debt balances for the years ended December 31, 2015 and 2014 were constant at \$1.2 billion.

Equity in losses of real estate ventures decreased from \$6.3 million during the year ended December 31, 2014 to \$0.4 million during the year ended December 31, 2015, a decrease of \$5.9 million, or 93.4%. This expense is related to our share of the losses attributable to HHF (defined below), a partnership in which we own a 50% interest, and HVP (defined below), a new partnership in which we entered into in December 2015 and in which we own a 10% interest. The decrease is primarily attributable to HHF's increased net operating income levels in 2015 as compared to 2014 as well as a decrease in amortization expense related to intangible assets from 2014 to 2015.

Gains from sale of real estate, net were \$17.6 million and and \$0.5 million for the years ended December 31, 2015 and 2014, respectively. These gains are determined on a transactional basis and, accordingly, are not comparable across reporting periods.

## **Discontinued Operations**

Income from discontinued operations was \$0.3 million for the year ended December 31, 2014 with no comparable amount for the year ended December 31, 2015. The income during the 2014 period represents real estate tax refunds received as a result of appeals of previous tax assessments on six self-storage properties that we sold in prior years.

#### Non-GAAP Financial Measures

NOI

We define net operating income, which we refer to as NOI, as total continuing revenues less continuing property operating expenses. NOI also can be calculated by adding back to net income (loss): interest expense on loans, loan procurement amortization expense, loan procurement amortization expense — early repayment of debt, acquisition related costs, equity in losses of real estate ventures, other expense, depreciation and amortization expense, general and administrative expense, and deducting from net income (loss): gains from sale of real estate, net, income from discontinued operations, gains from disposition of discontinued operations, other income, gains from remeasurement of investments in real estate ventures and interest income. NOI is not a measure of performance calculated in accordance with GAAP.

We use NOI as a measure of operating performance at each of our stores, and for all of our stores in the aggregate. NOI should not be considered as a substitute for operating income, net income, cash flows provided by operating, investing and financing activities, or other income statement or cash flow statement data prepared in accordance with GAAP.

We believe NOI is useful to investors in evaluating our operating performance because:

- it is one of the primary measures used by our management and our store managers to evaluate the economic productivity of our stores, including our ability to lease our stores, increase pricing and occupancy, and control our property operating expenses;
- it is widely used in the real estate industry and the self-storage industry to measure the performance and value of real estate assets without regard to various items included in net income that do not relate to or are not indicative of operating performance, such as depreciation and amortization, which can vary depending upon accounting methods and the book value of assets; and
- we believe it helps our investors to meaningfully compare the results of our operating performance from period to period by removing the impact of our capital structure (primarily interest expense on our outstanding indebtedness) and depreciation of our basis in our assets from our operating results.

There are material limitations to using a measure such as NOI, including the difficulty associated with comparing results among more than one company and the inability to analyze certain significant items, including depreciation and interest expense, that directly affect our net income. We compensate for these limitations by considering the economic effect of the excluded expense items independently as well as in connection with our analysis of net income. NOI should be considered in addition to, but not as a substitute for, other measures of financial performance reported in accordance with GAAP, such as total revenues, operating income and net income.

#### FFO

Funds from operations ("FFO") is a widely used performance measure for real estate companies and is provided here as a supplemental measure of operating performance. The April 2002 National Policy Bulletin of the National Association of Real Estate Investment Trusts, as amended, defines FFO as net income (computed in accordance with GAAP), excluding gains (or losses) from sales of real estate and related impairment charges, plus real estate depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures.

Management uses FFO as a key performance indicator in evaluating the operations of our stores. Given the nature of our business as a real estate owner and operator, we consider FFO a key measure of our operating performance that is not specifically defined by accounting principles generally accepted in the United States. We believe that FFO is useful to management and investors as a starting point in measuring our operational performance because FFO excludes various items included in net income that do not relate to or are not indicative of our operating performance such as gains (or losses) from sales of real estate, gains from remeasurement of investments in real estate ventures, impairments of depreciable assets, and depreciation, which can make periodic and peer analyses of operating performance more difficult. Our computation of FFO may not be comparable to FFO reported by other REITs or real

estate companies.

FFO should not be considered as an alternative to net income (determined in accordance with GAAP) as an indication of our performance. FFO does not represent cash generated from operating activities determined in accordance with GAAP and is not a measure of liquidity or an indicator of our ability to make cash distributions. We believe that to further understand our performance, FFO should be compared with our reported net income and considered in addition to cash flows computed in accordance with GAAP, as presented in our Consolidated Financial Statements.

FFO, as adjusted

FFO, as adjusted represents FFO as defined above, excluding the effects of acquisition related costs, gains or losses from early extinguishment of debt, and non-recurring items, which we believe are not indicative of the Company's operating results. We present FFO, as adjusted because we believe it is a helpful measure in understanding our results of operations insofar as we believe that the items noted above that are included in FFO, but excluded from FFO, as adjusted are not indicative of our ongoing operating results. We also believe that the analyst community considers our FFO, as adjusted (or similar measures using different terminology) when evaluating us. Because other REITs or real estate companies may not compute FFO, as adjusted in the same manner as we do, and may use different terminology, our computation of FFO, as adjusted may not be comparable to FFO, as adjusted reported by other REITs or real estate companies.

The following table presents a reconciliation of net income to FFO and FFO, as adjusted, for the years ended December 31, 2016 and 2015 (in thousands):

|   | or the Year Ende                              | December 31,<br>015                                  |

(1) Years ended December 31, 2016 and 2015 include \$0.4 million and \$0.2 million, respectively, of acquisition related costs that are included in the Company's share of equity in losses of real estate ventures.

Cash Flows

Comparison of the Year Ended December 31, 2016 to the Year Ended December 31, 2015

A comparison of cash flow related to operating, investing and financing activities for the years ended December 31, 2016 and 2015 is as follows:

|                                 | Year Ended De  |      |        |
|---------------------------------|----------------|------|--------|
| Net cash provided by (used in): | 2016           | 2015 | Change |
|                                 | (in thousands) |      |        |

| Operating activities | \$ 263,526   | \$ 215,705   | \$ 47,821    |
|----------------------|--------------|--------------|--------------|
| Investing activities | \$ (544,471) | \$ (374,608) | \$ (169,863) |
| Financing activities | \$ 221,049   | \$ 218,871   | \$ 2,178     |

Cash provided by operating activities for the years ended December 31, 2016 and 2015 was \$263.5 million and \$215.7 million, respectively, an increase of \$47.8 million. Our increased cash flow from operating activities is primarily attributable to our 2015 and 2016 acquisitions and increased net operating income levels on the same-store portfolio in the 2016 period as compared to the 2015 period.

Cash used in investing activities was \$544.5 million in 2016 and \$374.6 million in 2015, an increase of \$169.9 million driven by an increase in cash used for acquisitions of self-storage properties. Cash used during 2016 relates to the acquisition of 28 stores for an aggregate purchase price of \$403.6 million, inclusive of \$6.5 million of assumed debt, while cash used in investing activities during 2015 relates to the acquisition of 29 stores for an aggregate purchase price of \$292.4 million, inclusive of \$2.7 million of assumed debt. The change is also driven by a \$62.4 million increase in cash used for development costs, resulting primarily from the acquisition of a development property by a consolidated joint venture in the second quarter of 2016 for \$67.2 million, inclusive of \$35.0 million of assumed debt.

Cash provided by financing activities was \$221.0 million in 2016 and \$218.9 million in 2015, an increase of \$2.2 million. From 2015 to 2016, proceeds from the issuance of unsecured senior notes increased \$49.2 million and net proceeds in revolving credit facility borrowings increased \$121.3 million. A \$47.6 million decrease in principal payments on mortgage loans, resulting primarily from the repayment of five secured loans during 2016 for \$34.9 million compared to four repayments during 2015 for \$82.6 million also contributed to the increase in net cash inflows provided by financing activities from 2015 to 2016. These increases were offset by a \$43.1

million increase in cash distributions paid to common shareholders, preferred shareholders and noncontrolling interests in the Operating Partnership during 2016 compared to 2015, resulting primarily from the increase in the common dividend per share and number of shares outstanding. The increases were also offset by \$77.6 million paid to redeem our 7.75% Series A Preferred shares in November 2016 with no similar transaction in 2015 and a \$97.9 million decrease in proceeds from the issuance of common shares in 2016 as compared to 2015.

Comparison of the Year Ended December 31, 2015 to the Year Ended December 31, 2014

A comparison of cash flow related to operating, investing and financing activities for the years ended December 31, 2015 and 2014 is as follows:

|                                 | Year Ended De  |              |              |
|---------------------------------|----------------|--------------|--------------|
| Net cash provided by (used in): | 2015           | 2014         | Change       |
|                                 | (in thousands) |              |              |
| Operating activities            | \$ 215,705     | \$ 166,032   | \$ 49,673    |
| Investing activities            | \$ (374,608)   | \$ (522,699) | \$ 148,091   |
| Financing activities            | \$ 218,871     | \$ 356,392   | \$ (137,521) |

Cash provided by operating activities for the years ended December 31, 2015 and 2014 was \$215.7 million and \$166.0 million, respectively, an increase of \$49.7 million. Our increased cash flow from operating activities is primarily attributable to our 2014 and 2015 acquisitions and increased net operating income levels on the same-store portfolio in the 2015 period as compared to the 2014 period.

Cash used in investing activities was \$374.6 million in 2015 and \$522.7 million in 2014, a decrease of \$148.1 million driven by a decrease in cash used for acquisitions of self-storage properties. Cash used in 2015 relates to the acquisition of 29 stores for an aggregate purchase price of \$292.4 million, net of \$2.7 million of assumed debt, while cash used in investing activities in 2014 relates to the acquisition of 53 stores for an aggregate purchase price of \$568.2 million, net of \$27.5 million of assumed debt. This decrease in cash used for acquisitions is offset by an increase of \$57.7 million in cash used for development activities. Additionally, cash distributed from real estate ventures was \$6.5 million in 2015 compared to \$56.9 million in 2014.

Cash provided by financing activities was \$218.9 million in 2015 and \$356.4 million in 2014, a decrease of \$137.5 million. Proceeds from the issuance of common shares decreased \$181.9 million from \$416.0 million in 2014 to \$234.1 million in 2015, and net proceeds from the Revolver decreased \$117.4 million from net proceeds of \$39.4 million in 2014 to net repayments of \$78.0 million in 2015. Additionally, principal payments on our mortgage loans totaled \$84.9 million in 2015 compared to \$30.1 million in 2014. These decreases in cash provided by financing

activities were offset by \$249.3 million in net proceeds received from our issuance of unsecured senior notes in 2015, with no similar transaction in 2014.

Liquidity and Capital Resources

Liquidity Overview

Our cash flow from operations has historically been one of our primary sources of liquidity used to fund debt service, distributions and capital expenditures. We derive substantially all of our revenue from customers who lease space from us at our stores and fees earned from managing stores. Therefore, our ability to generate cash from operations is dependent on the rents that we are able to charge and collect from our customers. We believe that the properties in which we invest, self-storage properties, are less sensitive than other real estate product types to near-term economic downturns. However, prolonged economic downturns will adversely affect our cash flows from operations.

In order to qualify as a REIT for federal income tax purposes, the Parent Company is required to distribute at least 90% of REIT taxable income, excluding capital gains, to its shareholders on an annual basis or pay federal income tax. The nature of our business, coupled with the requirement that we distribute a substantial portion of our income on an annual basis, will cause us to have substantial liquidity needs over both the short term and the long term.

Our short-term liquidity needs consist primarily of funds necessary to pay operating expenses associated with our stores, refinancing of certain mortgage indebtedness, interest expense and scheduled principal payments on debt, expected distributions to limited partners and shareholders, capital expenditures, and the development of new stores. These funding requirements will vary from year to year, in some cases significantly. In the 2017 fiscal year, we expect recurring capital expenditures to be approximately \$15.0 million to \$20.0 million, planned capital improvements and store upgrades to be approximately \$5.0 million to \$10.0 million and costs associated with the

development of new stores to be approximately \$50.0 million to \$65.0 million. Our currently scheduled principal payments on debt, including borrowings outstanding on the Credit Facility and Term Loan Facility, are approximately \$8.6 million in 2017.

Our most restrictive financial covenants limit the amount of additional leverage we can add; however, we believe cash flows from operations, access to equity financing, including through our "at-the-market" equity program, and available borrowings under our Credit Facility provide adequate sources of liquidity to enable us to execute our current business plan and remain in compliance with our covenants.

Our liquidity needs beyond 2017 consist primarily of contractual obligations which include repayments of indebtedness at maturity, as well as potential discretionary expenditures such as (i) non-recurring capital expenditures; (ii) redevelopment of operating stores; (iii) acquisitions of additional stores; and (iv) development of new stores. We will have to satisfy the portion of our needs not covered by cash flow from operations through additional borrowings, including borrowings under our Credit Facility, sales of common or preferred shares of the Parent Company and common or preferred units of the Operating Partnership and/or cash generated through store dispositions and joint venture transactions.

We believe that, as a publicly traded REIT, we will have access to multiple sources of capital to fund our long-term liquidity requirements, including the incurrence of additional debt and the issuance of additional equity. However, we cannot provide any assurance that this will be the case. Our ability to incur additional debt will be dependent on a number of factors, including our degree of leverage, the value of our unencumbered assets and borrowing restrictions that may be imposed by lenders. In addition, dislocation in the United States debt markets may significantly reduce the availability and increase the cost of long-term debt capital, including conventional mortgage financing and commercial mortgage-backed securities financing. There can be no assurance that such capital will be readily available in the future. Our ability to access the equity capital markets will be dependent on a number of factors as well, including general market conditions for REITs and market perceptions about us.

As of December 31, 2016, we had approximately \$3.0 million in available cash and cash equivalents. In addition, we had approximately \$456.0 million of availability for borrowings under our Credit Facility.

Unsecured Senior Notes

Our unsecured senior notes are summarized as follows (collectively referred to as the "Senior Notes"):

December 31, December 31, Effective Issuance Maturity

| Unsecured Senior Notes             | 2016<br>(in thousands) | <br>015       | Interest Rate | •   | Date   | Date         |

| Less: Loan procurement costs, net  | (6,953)                | (5,208)       |               |     |        |              |
| Total unsecured senior notes, net  | \$ 1,039,076           | \$<br>741,904 |               |     |        |              |

The indenture under which the Senior Notes were issued restricts the ability of the Operating Partnership and its subsidiaries to incur debt unless the Operating Partnership and its consolidated subsidiaries comply with a leverage ratio not to exceed 60% and an interest coverage ratio of more than 1.5:1 after giving effect to the incurrence of the debt. The indenture also restricts the ability of the Operating Partnership and its subsidiaries to incur secured debt unless the Operating Partnership and its consolidated subsidiaries comply with a secured debt leverage ratio not to exceed 40% after giving effect to the incurrence of the debt. The indenture also contains other financial and customary covenants, including a covenant not to own unencumbered assets with a value less than 150% of the unsecured indebtedness of the Operating Partnership and its consolidated subsidiaries. As of and for the year ended December 31, 2016, the Operating Partnership was in compliance with all of the financial covenants under the Senior Notes.

## Revolving Credit Facility and Unsecured Term Loans

On June 20, 2011, we entered into an unsecured term loan agreement (the "Term Loan Facility") which consisted of a \$100.0 million term loan with a five-year maturity ("Term Loan A") and a \$100.0 million term loan with a seven-year maturity ("Term Loan B"). On December 9, 2011, we entered into a credit facility (the "Credit Facility") comprised of a \$100.0 million unsecured term loan maturing in

December 2014 ("Term Loan C"); a \$200.0 million unsecured term loan maturing in March 2017 ("Term Loan D"); and a \$300.0 million unsecured revolving facility maturing in December 2015 ("Revolver").

On June 18, 2013, we amended both the Term Loan Facility and Credit Facility. With respect to the Term Loan Facility, among other things, the amendment extended the maturity date to June 2018 and decreased the pricing of Term Loan A, while Term Loan B remained unchanged by the amendment. With respect to the Credit Facility, among other things, the amendment extended the maturity date to January 2019 and decreased the pricing of Term Loan D. On August 5, 2014, we further amended the Term Loan Facility to extend the maturity date to January 2020 and decrease the pricing of Term Loan B. On December 17, 2013, we repaid the \$100.0 million balance under Term Loan C that was scheduled to mature in December 2014.

Pricing on the Term Loan Facility depends on our unsecured debt credit ratings. At our current Baa2/BBB level, amounts drawn under Term Loan A are priced at 1.30% over LIBOR, while amounts drawn under Term Loan B are priced at 1.15% over LIBOR.

On April 22, 2015, we further amended the Credit Facility with respect to the Revolver. Among other things, the amendment increased the aggregate amount of the Revolver from \$300.0 million to \$500.0 million, decreased the facility fee from 0.20% to 0.15% and extended the maturity date from June 18, 2017 to April 22, 2020.

Pricing on the Credit Facility depends on our unsecured debt credit ratings. At our current Baa2/BBB level, amounts drawn under the Revolver are priced at 1.25% over LIBOR, inclusive of a facility fee of 0.15%, while amounts drawn under Term Loan D are priced at 1.30% over LIBOR.

We incurred costs of \$2.3 million in 2015 in connection with amending the Credit Facility and capitalized such costs as a component of loan procurement costs, net of amortization on the consolidated balance sheet. Additionally, in connection with the amendment, \$0.1 million of unamortized costs were written-off. All remaining unamortized costs, along with costs incurred in connection with the amendment, are amortized as an adjustment to interest expense over the remaining term of the modified facilities.

As of December 31, 2016, \$200.0 million of unsecured term loan borrowings were outstanding under the Term Loan Facility, \$200.0 million of unsecured term loan borrowings were outstanding under the Credit Facility and \$456.0 million was available for borrowing under the unsecured revolving portion of the Credit Facility. The available balance under the unsecured revolving portion of the Credit Facility is reduced by an outstanding letter of credit of \$0.7 million. In connection with a portion of the unsecured borrowings, we had interest rate swaps as of December 31, 2016 that fix 30-day LIBOR (see note 10). As of December 31, 2016, borrowings under the Credit Facility and Term

Loan Facility, as amended and after giving effect to the interest rate swaps, had an effective weighted average interest rate of 2.67%.

The Term Loan Facility and the term loan under the Credit Facility were fully drawn as of December 31, 2016 and no further borrowings may be made under the term loans. Our ability to borrow under the revolving portion of the Credit Facility is subject to ongoing compliance with certain financial covenants which include:

- · Maximum total indebtedness to total asset value of 60.0% at any time;
- · Minimum fixed charge coverage ratio of 1.50:1.00; and
- Minimum tangible net worth of \$821,211,200 plus 75% of net proceeds from equity issuances after June 30, 2010.

Further, under the Credit Facility and Term Loan Facility, we are restricted from paying distributions on the Parent Company's common shares in excess of the greater of (i) 95% of funds from operations, and (ii) such amount as may be necessary to maintain the Parent Company's REIT status.

As of December 31, 2016, we were in compliance with all of our financial covenants and anticipate being in compliance with all of our financial covenants through the terms of the Credit Facility and Term Loan Facility.

Issuance of Common Shares

Pursuant to a previous sales agreement, we had an "at-the-market" equity program that enabled us to sell common shares through a sales agent. On May 7, 2013, we terminated the previous sales agreement with our previous sales agent and entered into separate equity distribution agreements (the "Equity Distribution Agreements") with a group of sales agents (collectively, the "Sales Agents"). The Equity Distribution Agreements replaced the previous sale agreement and were amended on May 5, 2014, October 2, 2014, and December

30, 2015 to increase the number of common shares authorized for sale through "at-the-market" equity offerings. Pursuant to the Equity Distribution Agreements, as amended, we may sell, from time to time, up to 40.0 million common shares of beneficial interest through the Sales Agents.

During 2016, we sold a total of 4.4 million common shares under the Equity Distribution Agreements at an average sales price of \$31.25 per share, resulting in net proceeds of \$136.1 million after deducting offering costs. The proceeds from the sales conducted during the year ended December 31, 2016 were used to fund acquisitions of self-storage properties and for general corporate purposes. As of December 31, 2016, 5.8 million common shares remained available for issuance under the Equity Distribution Agreements.

During 2015, we sold a total of 9.0 million common shares under the Equity Distribution Agreements at an average sales price of \$26.35 per share, resulting in net proceeds of \$234.2 million after deducting offering costs. The proceeds from the sales conducted during the year ended December 31, 2015 were used to fund acquisitions of self-storage properties and for general corporate purposes.

**Redemption of Preferred Shares** 

On November 2, 2016, we completed the redemption of all of our 3,100,000 outstanding shares of 7.75% Series A Cumulative Redeemable Preferred Shares at a cash redemption price of \$25.00 per share plus accumulated and unpaid dividends. The redemption price of \$77.5 million was paid by the Company from available cash balances. In connection with the redemption, we recognized a charge of \$2.9 million related to excess redemption costs over the original net proceeds.

Other Material Changes in Financial Position

|                             | December 31, |                        |             |
|-----------------------------|--------------|------------------------|-------------|
|                             | 2016         | 2015<br>(in thousands) | Change      |
| Selected Assets             |              |                        |             |
| Storage properties, net     | \$ 3,326,816 | \$ 2,872,983           | \$ 453,833  |
| Restricted cash             | \$ 7,893     | \$ 24,600              | \$ (16,707) |
| Selected Liabilities        |              |                        |             |
| Unsecured senior notes, net | \$ 1,039,076 | \$ 741,904             | \$ 297,172  |
| Revolving credit facility   | \$ 43,300    | \$ —                   | \$ 43,300   |

Storage properties, net of accumulated depreciation, increased \$453.8 million primarily as a result of the acquisition of 28 self-storage properties, fixed asset additions, and development costs incurred during the year. Restricted cash decreased \$16.7 million primarily as a result of a portion of the proceeds from the sale of the El Paso, TX assets in the prior year, which were held in escrow as of December 31, 2015, being used to fund acquisitions in 2016 under a tax free like kind exchange.

The increase in Unsecured senior notes, net of \$297.2 million is a result of the issuance of our 3.125% senior notes due September 1, 2026 during the year.

Revolving credit facility increased \$43.3 million primarily as a result of the acquisition of 28 stores, fixed asset additions, and development costs incurred during the year.

**Contractual Obligations** 

The following table summarizes our known contractual obligations as of December 31, 2016 (in thousands):

(a) Amounts do not include unamortized discounts/premiums.

We expect to satisfy contractual obligations owed in 2017 through a combination of cash generated from operations and from draws on the revolving portion of our Credit Facility.

Off-Balance Sheet Arrangements

We do not have off-balance sheet arrangements, financings, or other relationships with other unconsolidated entities (other than our co-investment partnerships) or other persons, also known as variable interest entities not previously discussed.

#### ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our future income, cash flows, and fair values relevant to financial instruments depend upon prevailing market interest rates.

Market Risk

Our investment policy relating to cash and cash equivalents is to preserve principal and liquidity while maximizing the return through investment of available funds.

Effect of Changes in Interest Rates on our Outstanding Debt

Our interest rate risk objectives are to limit the impact of interest rate fluctuations on earnings and cash flows and to lower our overall borrowing costs. To achieve these objectives, we manage our exposure to fluctuations in market interest rates for a portion of our borrowings through the use of derivative financial instruments such as interest rate swaps or caps to mitigate our interest rate risk on a related financial instrument or to effectively lock the interest rate on a portion of our variable rate debt. The analysis below presents the sensitivity of the market value of our financial instruments to selected changes in market interest rates. The range of changes chosen reflects our view of changes which are reasonably possible over a one-year period. Market values are the present value of projected future cash flows based on the market interest rates chosen.

As of December 31, 2016 our consolidated debt consisted of \$1.5 billion of outstanding mortgages, unsecured senior notes, and unsecured term loans that are subject to fixed rates, including variable rate debt that is effectively fixed through our use of interest rate swaps. Borrowings under our revolving credit facility are subject to floating rates. Changes in market interest rates have different impacts on the fixed and variable rate portions of our debt portfolio. A change in market interest rates on the fixed portion of the debt portfolio impacts the net financial instrument position, but has no impact on interest incurred or cash flows. A change in market interest rates on the variable portion of the debt portfolio impacts the net financial instrument position.

If market interest rates increase by 100 basis points, the fair value of our outstanding fixed-rate mortgage debt, unsecured senior notes, and unsecured term loans would decrease by approximately \$78.8 million. If market interest rates decrease by 100 basis points, the fair value of our outstanding fixed-rate mortgage debt, unsecured senior notes, and unsecured term loans would increase by approximately \$87.4 million.

# ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Financial statements required by this item appear with an Index to Financial Statements and Schedules, starting on page F-1 of this Report.

# ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

#### ITEM 9A. CONTROLS AND PROCEDURES

Controls and Procedures (Parent Company)

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this Report, the Parent Company carried out an evaluation, under the supervision and with the participation of its management, including its chief executive officer and chief financial officer, of the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rules 13a-15(e) under the Exchange Act).

Based on that evaluation, the Parent Company's chief executive officer and chief financial officer have concluded that the Parent Company's disclosure controls and procedures are designed at a reasonable assurance level and are effective to provide reasonable assurance that information required to be disclosed by the Parent Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to the Parent Company's management, including its chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There has been no change in the Parent Company's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during its most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, its internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

Management's report on internal control over financial reporting of the Parent Company is set forth on page F-2 of this Report, and is incorporated herein by reference. The effectiveness of the Parent Company's internal control over financial reporting as of December 31, 2016 has been audited by KPMG LLP, an independent registered public accounting firm, as stated in its report which is included herein.

Controls and Procedures (Operating Partnership)

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this Report, the Operating Partnership carried out an evaluation, under the supervision and with the participation of its management, including the Operating Partnership's chief executive officer and chief financial officer, of the effectiveness of the design and operation of the Operating Partnership's disclosure controls and procedures (as defined in Rules 13a-15(e) under the Exchange Act).

Based on that evaluation, the Operating Partnership's chief executive officer and chief financial officer have concluded that the Operating Partnership's disclosure controls and procedures are designed at a reasonable assurance level and are effective to provide reasonable assurance that information required to be disclosed by the Operating Partnership in reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to the Operating Partnership's management, including the Operating Partnership's chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There has been no change in the Operating Partnership's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Operating Partnership's internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

Management's report on internal control over financial reporting of the Operating Partnership is set forth on page F-3 of this Report, and is incorporated herein by reference. The effectiveness of the Operating Partnership's internal control over financial reporting as of December 31, 2016 has been audited by KPMG LLP, an independent registered public accounting firm, as stated in its report which is included herein.

ITEM 9B. OTHER INFORMATION

Not applicable.

PART III

# ITEM 10. TRUSTEES, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

We have adopted a Code of Ethics for all of our employees, officers and trustees, including our principal executive officer and principal financial officer, which is available on our website at www.cubesmart.com. We intend to disclose any amendment to, or a waiver from, a provision of our Code of Ethics on our website within four business days following the date of the amendment or waiver.

The remaining information required by this item regarding trustees, executive officers and corporate governance is hereby incorporated by reference to the material appearing in the Parent Company's Proxy Statement for the Annual Shareholders Meeting to be held in 2017 (the "Proxy Statement") under the captions "Proposal 1: Election of Trustees," "Executive Officers," "Meetings and Committees of the Board of Trustees," and "Shareholder Proposals and Nominations for the 2017 Annual Meeting." The information required by this item regarding compliance with Section 16(a) of the Exchange Act is hereby incorporated by reference to the material appearing in the Parent Company's Proxy Statement under the caption "Section 16(a) Beneficial Ownership Reporting Compliance."

## ITEM 11. EXECUTIVE COMPENSATION

The information required by this item is hereby incorporated by reference to the material appearing in the Parent Company's Proxy Statement under the captions "Compensation Committee Report," "Meetings and Committees of the Board of Trustees — Compensation Committee Interlocks and Insider Participation," "Compensation Discussion and Analysis," "Executive Compensation," "Potential Payments Upon Termination or Change in Control," and "Trustee Compensation."

# ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED SHAREHOLDER MATTERS

The following table sets forth certain information regarding our equity compensation plans as of December 31, 2016.

| Plan Category   | Number of securities to<br>be issued upon exercise<br>of outstanding options,<br>warrants and rights<br>(a) |     | exe<br>out | rrants and | e of<br>ptions | Number of securities remaining<br>available for future issuance under<br>equity compensation plans<br>,(excluding securities<br>reflected in column(a))<br>(c) |
|---|---|-----|------------|------------|----------------|--|
| Equity compensation plans<br>approved by shareholders<br>Equity compensation plans<br>not approved by | 1,939,690   | (1) | \$         | 12.94      | (2)            | 5,471,377  |
| shareholders<br>Total   |   |     | \$         | 12.94      |                | 5,471,377  |

(1) Excludes 512,788 shares subject to outstanding restricted share unit awards.

(2) This number reflects the weighted-average exercise price of outstanding options and has been calculated exclusive of outstanding restricted unit awards.

The information regarding security ownership of certain beneficial owners and management required by this item is hereby incorporated by reference to the material appearing in the Parent Company's Proxy Statement under the caption "Security Ownership of Management" and "Security Ownership of Beneficial Owners."

# ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND TRUSTEE INDEPENDENCE

The information required by this item is hereby incorporated by reference to the material appearing in the Parent Company's Proxy Statement under the captions "Corporate Governance- Independence of Trustees," "Policies and Procedures Regarding Review, Approval or Ratification of Transactions With Related Persons," and "Transactions With Related Persons."

#### ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information required by this item is hereby incorporated by reference to the material appearing in the Parent Company's Proxy Statement under the captions "Audit Committee Matters - Fees Paid to Our Independent Registered Public Accounting Firm" and "- Audit Committee Pre-Approval Policies and Procedures."

PART IV

### MANAGEMENT'S REPORT ON CUBESMART INTERNAL CONTROL OVER FINANCIAL REPORTING

Management of CubeSmart (the "REIT") is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Under Section 404 of the Sarbanes-Oxley Act of 2002, the REIT's management is required to assess the effectiveness of the REIT's internal control over financial reporting as of the end of each fiscal year, and report on the basis of that assessment whether the REIT's internal control over financial reporting is effective.

The REIT's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. The REIT's internal control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and the disposition of the assets of the REIT;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles, and that the receipts and expenditures of the REIT are being made only in accordance with the authorization of the REIT's management and its Board of Trustees; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the REIT's assets that could have a material effect on the financial statements.

There are inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and the circumvention or overriding of controls. Accordingly, even an effective internal control system can provide only reasonable assurance with respect to financial statement preparation. Further, because of changes in conditions, the effectiveness of an internal control system may vary over time.

Under the supervision, and with the participation, of the REIT's management, including the principal executive officer and principal financial officer, management conducted a review, evaluation, and assessment of the effectiveness of our internal control over financial reporting as of December 31, 2016, based on criteria established in Internal Control — Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In performing its assessment of the effectiveness of internal control over financial reporting, management has concluded that, as of December 31, 2016, the REIT's internal control over financial reporting was effective based on the COSO framework.

The effectiveness of our internal control over financial reporting as of December 31, 2016, has been audited by KPMG LLP, an independent registered public accounting firm, as stated in their report that appears herein.

### MANAGEMENT'S REPORT ON CUBESMART, L.P. INTERNAL CONTROL OVER FINANCIAL REPORTING

Management of CubeSmart, L.P. (the "Partnership") is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Under Section 404 of the Sarbanes-Oxley Act of 2002, the Partnership's management is required to assess the effectiveness of the Partnership's internal control over financial reporting as of the end of each fiscal year, and report on the basis of that assessment whether the Partnership's internal control over financial reporting is effective.

The Partnership's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. The Partnership's internal control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and the disposition of the assets of the Partnership;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles, and that the receipts and expenditures of the Partnership are being made only in accordance with the authorization of the Partnership's management and its Board of Trustees; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Partnership's assets that could have a material effect on the financial statements.

There are inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and the circumvention or overriding of controls. Accordingly, even an effective internal control system can provide only reasonable assurance with respect to financial statement preparation. Further, because of changes in conditions, the effectiveness of an internal control system may vary over time.

Under the supervision, and with the participation, of the Partnership's management, including the principal executive officer and principal financial officer, management conducted a review, evaluation, and assessment of the effectiveness of our internal control over financial reporting as of December 31, 2016, based on criteria established in Internal Control — Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In performing its assessment of the effectiveness of internal control over financial reporting, management has concluded that, as of December 31, 2016, the Partnership's internal control over financial reporting was effective based on the COSO framework.

The effectiveness of our internal control over financial reporting as of December 31, 2016, has been audited by KPMG LLP, an independent registered public accounting firm, as stated in their report that appears herein.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders of

CubeSmart:

We have audited the accompanying consolidated balance sheets of CubeSmart and subsidiaries as of December 31, 2016 and 2015, and the related consolidated statements of operations, comprehensive income (loss), equity, and cash flows for each of the years in the three-year period ended December 31, 2016. In connection with our audits of the consolidated financial statements, we have also audited financial statement Schedule III. These consolidated financial statements and financial statement schedule are the responsibility of CubeSmart's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of CubeSmart and subsidiaries as of December 31, 2016 and 2015, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2016, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

As discussed in Note 18 to the consolidated financial statements, the Company changed its method for reporting discontinued operations as of January 1, 2014.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), CubeSmart's internal control over financial reporting as of December 31, 2016, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 17, 2017, expressed an unqualified opinion on the effectiveness of CubeSmart's internal control over financial reporting.

## /s/ KPMG LLP

Philadelphia, Pennsylvania

February 17, 2017

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders of

CubeSmart:

We have audited CubeSmart's internal control over financial reporting as of December 31, 2016, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). CubeSmart's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on CubeSmart Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, CubeSmart maintained, in all material respects, effective internal control over financial reporting as of December 31, 2016, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of CubeSmart and subsidiaries as of December 31, 2016 and 2015, and the related consolidated statements of operations, comprehensive income (loss), equity, and cash flows for each of the years in the three-year period ended December 31, 2016, and our report dated February 17, 2017 expressed an unqualified opinion on those consolidated financial statements.

February 17, 2017

Report of Independent Registered Public Accounting Firm

The Partners of

CubeSmart, L.P.:

We have audited CubeSmart, L.P.'s internal control over financial reporting as of December 31, 2016, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). CubeSmart, L.P.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, CubeSmart, L.P. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2016, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of CubeSmart, L.P. and subsidiaries as of December 31, 2016 and 2015, and the related consolidated statements of operations, comprehensive income (loss), capital, and cash flows for each of the years in the three-year period ended December 31, 2016, and our report dated February 17, 2017 expressed an unqualified opinion on those consolidated financial statements.

See accompanying notes to the consolidated financial statements.

### CUBESMART AND CUBESMART L.P.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### 1. ORGANIZATION AND NATURE OF OPERATIONS

CubeSmart (the "Parent Company") operates as a self-managed and self-administered real estate investment trust ("REIT") with its operations conducted solely through CubeSmart, L.P. and its subsidiaries. CubeSmart, L.P., a Delaware limited partnership (the "Operating Partnership"), operates through an umbrella partnership structure, with the Parent Company, a Maryland REIT, as its sole general partner. In the notes to the consolidated financial statements, we use the terms the "Company", "we", or "our" to refer to the Parent Company and the Operating Partnership together, unless the context indicates otherwise. As of December 31, 2016, the Company owned self-storage properties located in 23 states throughout the United States and in the District of Columbia which are presented under one reportable segment: the Company owns, operates, develops, manages, and acquires self-storage properties.

As of December 31, 2016, the Parent Company owned approximately 98.9% of the partnership interests ("OP Units") of the Operating Partnership. The remaining OP Units, consisting exclusively of limited partner interests, are held by persons who contributed their interests in properties to us in exchange for OP Units. Under the partnership agreement, these persons have the right to tender their OP Units for redemption to the Operating Partnership at any time for cash equal to the fair value of an equivalent number of common shares of the Parent Company. In lieu of delivering cash, however, the Parent Company, as the Operating Partnership's general partner, may, at its option, choose to acquire any OP Units so tendered by issuing common shares in exchange for the tendered OP Units. If the Parent Company so chooses, its common shares will be exchanged for OP Units on a one-for-one basis. This one-for-one exchange ratio is subject to adjustment to prevent dilution. With each such exchange or redemption, the Parent Company's percentage ownership in the Operating Partnership will increase. In addition, whenever the Parent Company issues common or other classes of its shares, it contributes the net proceeds it receives from the issuance to the Operating Partnership and the Operating Partnership issues to the Parent Company an equal number of OP Units or other partnership interests having preferences and rights that mirror the preferences and rights of the shares issued. This structure is commonly referred to as an umbrella partnership REIT or "UPREIT".

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The accompanying consolidated financial statements include all of the accounts of the Company, and its majority-owned and/or controlled subsidiaries. The portion of these entities not owned by the Company is presented as noncontrolling interests as of and during the periods consolidated. All significant intercompany accounts and

transactions have been eliminated in consolidation.

When the Company obtains an economic interest in an entity, the Company evaluates the entity to determine if the entity is deemed a variable interest entity ("VIE"), and if the Company is deemed to be the primary beneficiary, in accordance with authoritative guidance issued on the consolidation of VIEs. When an entity is not deemed to be a VIE, the Company considers the provisions of additional guidance to determine whether a general partner, or the general partners as a group, controls a limited partnership or similar entity when the limited partners have certain rights. The Company consolidates (i) entities that are VIEs and of which the Company is deemed to be the primary beneficiary, and (ii) entities that are non-VIEs which the Company controls and which the limited partners do not have the ability to dissolve or remove the Company without cause nor substantive participating rights.

The Company adopted Accounting Standard Update ("ASU") No. 2015-02, Consolidation – Amendments to the Consolidation Analysis, as of January 1, 2016. The Company evaluated the application of this guidance and concluded that there were no changes to any previous conclusions with respect to consolidation accounting for any of its interests in less than wholly owned joint ventures. However, the Operating Partnership now meets the criteria as a VIE. The Parent Company's sole significant asset is its investment in the Operating Partnership. As a result, substantially all of the Parent Company's assets and liabilities represent those assets and liabilities of the Operating Partnership. All of the Parent Company's debt is an obligation of the Operating Partnership.

Noncontrolling Interests

The Financial Accounting Standards Board ("FASB") issued authoritative guidance regarding noncontrolling interests in consolidated financial statements which was effective on January 1, 2009. The guidance states that noncontrolling interests are the portion of equity (net assets) in a subsidiary not attributable, directly or indirectly, to a parent. The ownership interests in the subsidiary that are held by owners other than the parent are noncontrolling interests. Under the guidance, such noncontrolling interests are reported on the consolidated balance sheets within equity, separately from the Company's equity. On the consolidated statements of operations, revenues, expenses, and net income or loss from controlled or consolidated entities that are less than wholly owned are reported at the consolidated

amounts, including both the amounts attributable to the Company and noncontrolling interests. Presentation of consolidated equity activity is included for both quarterly and annual financial statements, including beginning balances, activity for the period, and ending balances for shareholders' equity, noncontrolling interests and total equity.

However, per the FASB issued authoritative guidance on the classification and measurement of redeemable securities, securities that are redeemable for cash or other assets at the option of the holder, not solely within the control of the issuer, must be classified outside of permanent equity. This would result in certain outside ownership interests being included as redeemable noncontrolling interests outside of permanent equity in the consolidated balance sheets. The Company makes this determination based on terms in applicable agreements, specifically in relation to redemption provisions. Additionally, with respect to noncontrolling interests for which the Company has a choice to settle the contract by delivery of its own shares, the Company considered the FASB issued guidance on accounting for derivative financial instruments indexed to, and potentially settled in, a Company's own stock to evaluate whether the Company controls the actions or events necessary to issue the maximum number of shares that could be required to be delivered under share settlement of the contract. The guidance also requires that noncontrolling interests are adjusted each period so that the carrying value equals the greater of its carrying value based on the accumulation of historical cost or its redemption fair value.

The consolidated results of the Company include results attributable to units of the Operating Partnership that are not owned by the Company. These interests were issued in the form of OP units and were a component of the consideration the Company paid to acquire certain self-storage properties. Limited partners who acquired OP units have the right to require the Operating Partnership to redeem part or all of their OP units for, at the Company's option, an equivalent number of common shares of the Company or cash based upon the fair value of an equivalent number of common shares of the Company. However, the operating agreement contains certain circumstances that could result in a net cash settlement outside the control of the Company, as the Company does not have the ability to settle in unregistered shares. Accordingly, consistent with the guidance discussed above, the Company will continue to record these noncontrolling interests outside of permanent equity in the consolidated balance sheets. Net income or loss related to these noncontrolling interests is excluded from net income or loss in the consolidated statements of operations. The Company has adjusted the carrying value of its noncontrolling interests subject to redemption value to the extent applicable. Based on the Company's evaluation of the redemption value of the redeemable noncontrolling interests, the Operating Partnership reflected these interests at their redemption value as of December 31, 2016, as the estimated redemption value exceeded their carrying value. The Operating Partnership recorded a decrease to OP Units owned by third parties and a corresponding increase to capital of \$7.4 million as of December 31, 2016. Disclosure of such redemption provisions is provided in note 12.

### Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Although we believe the assumptions and estimates we made are reasonable and appropriate, as discussed

in the applicable sections throughout these consolidated financial statements, different assumptions and estimates could materially impact our reported results. The current economic environment has increased the degree of uncertainty inherent in these estimates and assumptions and changes in market conditions could impact our future operating results.

Self-Storage Properties

Self-storage properties are carried at historical cost less accumulated depreciation and impairment losses. The cost of self-storage properties reflects their purchase price or development cost. Costs incurred for the renovation of a store are capitalized to the Company's investment in that store. Acquisition costs and ordinary repairs and maintenance are expensed as incurred; major replacements and betterments, which improve or extend the life of the asset, are capitalized and depreciated over their estimated useful lives. The costs to develop self-storage properties are capitalized to construction in progress while the project is under development.

Purchase Price Allocation

When stores are acquired, the purchase price is allocated to the tangible and intangible assets acquired and liabilities assumed based on estimated fair values. When a portfolio of stores is acquired, the purchase price is allocated to the individual stores based upon the fair value determined using an income approach or a cash flow analysis using appropriate risk adjusted capitalization rates, which take into account the relative size, age and location of the individual store along with current and projected occupancy and rental rate levels or appraised values, if available. Allocations to land, building and improvements, and equipment are recorded based upon their respective fair values as estimated by management.

In allocating the purchase price for an acquisition, the Company determines whether the acquisition includes intangible assets or liabilities. The Company allocates a portion of the purchase price to an intangible asset attributed to the value of in-place leases. This intangible is generally amortized to expense over the expected remaining term of the respective leases. Substantially all of the leases in place at acquired stores are at market rates, as the majority of the leases are month-to-month contracts. Accordingly, to date, no portion of the purchase price has been allocated to above- or below-market lease intangibles. To date, no intangible asset has been recorded for the value of customer relationships, because the Company does not have any concentrations of significant customers and the average customer turnover is fairly frequent.

Depreciation and Amortization

The costs of self-storage properties and improvements are depreciated using the straight-line method based on useful lives ranging from five to 39 years.

Impairment of Long-Lived Assets

We evaluate long-lived assets for impairment when events and circumstances such as declines in occupancy and operating results indicate that there may be an impairment. The carrying value of these long-lived assets is compared to the undiscounted future net operating cash flows, plus a terminal value, attributable to the assets to determine if the store's basis is recoverable. If a store's basis is not considered recoverable, an impairment loss is recorded to the extent the net carrying value of the asset exceeds the fair value. The impairment loss recognized equals the excess of net carrying value over the related fair value of the asset.

Long-Lived Assets Held for Sale

We consider long-lived assets to be "held for sale" upon satisfaction of the following criteria: (a) management commits to a plan to sell a store (or group of stores), (b) the store is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such stores, (c) an active program to locate a buyer and other actions required to complete the plan to sell the store have been initiated, (d) the sale of the store is probable and transfer of the asset is expected to be completed within one year, (e) the store is being actively marketed for sale at a price that is reasonable in relation to its current fair value, and (f) actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Typically these criteria are all met when the relevant asset is under contract, significant non-refundable deposits have been made by the potential buyer, the assets are immediately available for transfer, and there are no contingencies

related to the sale that may prevent the transaction from closing. However, each potential transaction is evaluated based on its separate facts and circumstances. Stores classified as held for sale are reported at the lesser of carrying value or fair value less estimated costs to sell.

Cash and Cash Equivalents

Cash and cash equivalents are highly-liquid investments with original maturities of three months or less. The Company may maintain cash equivalents in financial institutions in excess of insured limits, but believes this risk is mitigated by only investing in or through major financial institutions.

Restricted Cash

Restricted cash consists of purchase deposits and cash deposits required for debt service requirements, capital replacement, and expense reserves in connection with the requirements of our loan agreements.

Loan Procurement Costs

Loan procurement costs related to borrowings were \$24.7 million and \$20.7 million as of December 31, 2016 and 2015, respectively, and are reported net of accumulated amortization of \$9.7 million and \$7.3 million as of December 31, 2016 and 2015, respectively. In accordance with ASU No. 2015-03, Loan procurement costs, net are presented as a direct deduction from the carrying amount of the related debt liability. If there is not an associated debt liability recorded on the consolidated balance sheets, the costs are recorded as an asset net of accumulated amortization. Loan procurement costs associated with the Company's revolving credit facility remain in Loan procurement costs, net of amortization on the Company's consolidated balance sheets. The costs are amortized over the estimated life of the related debt using the effective interest method and are reported as Loan procurement amortization expense on the Company's consolidated statements of operations.

#### Other Assets

Other assets are comprised of the following as of December 31, 2016 and 2015 (in thousands):

|   | December 31, |           |  |
|---|--------------|-----------|--|
|   | 2016         | 2015      |  |
| Intangible assets, net of accumulated amortization of \$8,109 and \$7,220 | \$ 8,280     | \$ 12,814 |  |
| Accounts receivable   | 5,284        | 5,049     |  |
| Deposits on future acquisitions   | 5,106        | 12,106    |  |
| Prepaid real estate taxes   | 3,640        | 2,800     |  |
| Prepaid insurance   | 1,053        | 1,140     |  |
| Other   | 13,151       | 9,722     |  |
| Total other assets, net   | \$ 36,514    | \$ 43,631 |  |

#### **Environmental Costs**

Our practice is to conduct or obtain environmental assessments in connection with the acquisition or development of additional stores. Whenever the environmental assessment for one of our stores indicates that a store is impacted by soil or groundwater contamination from prior owners/operators or other sources, we will work with our environmental consultants and where appropriate, state governmental agencies, to ensure that the store is either cleaned up, that no cleanup is necessary because the low level of contamination poses no significant risk to public health or the environment, or that the responsibility for cleanup rests with a third party.

#### **Revenue Recognition**

Management has determined that all of our leases are operating leases. Rental income is recognized in accordance with the terms of the leases, which generally are month to month.

The Company recognizes gains from disposition of stores only upon closing in accordance with the guidance on sales of real estate. Payments received from purchasers prior to closing are recorded as deposits. Profit on real estate sold is recognized using the full accrual method upon closing when the collectability of the sales price is reasonably assured and the Company is not obligated to perform significant activities after the sale. Profit may be deferred in whole or part until the sale meets the requirements of profit recognition on sales under this guidance.

Advertising and Marketing Costs

The Company incurs advertising and marketing costs primarily attributable to internet marketing campaigns and other media advertisements. The Company incurred \$9.4 million, \$8.6 million, and \$7.7 million in advertising and marketing expenses for the years ended December 31, 2016, 2015 and 2014, respectively, which are included in property operating expenses on the Company's consolidated statements of operations.

Equity Offering Costs

Underwriting discounts and commissions, financial advisory fees and offering costs are reflected as a reduction to additional paid-in capital. For the years ended December 31, 2016, 2015 and 2014, the Company recognized \$1.6 million, \$2.5 million, and \$6.0 million of equity offering costs related to the issuance of common shares during the years, respectively.

Other Property Related Income

Other property related income consists of late fees, administrative charges, customer insurance fees, sales of storage supplies, and other ancillary revenues and is recognized in the period that it is earned.

Capitalized Interest

The Company capitalizes interest incurred that is directly associated with construction activities until the asset is placed into service. Interest is capitalized to the related assets using a weighted-average rate of the Company's outstanding debt. For the years ended December 31, 2016, 2015 and 2014, the Company capitalized \$4.6 million, \$2.6 million, and \$1.3 million, respectively, of interest incurred that is directly associated with construction activities.

Derivative Financial Instruments

The Company carries all derivatives on the balance sheet at fair value. The Company determines the fair value of derivatives by observable prices that are based on inputs not quoted on active markets, but corroborated by market data. The accounting for changes in the fair value of a derivative instrument depends on whether the derivative has been designated and qualifies as part of a hedging relationship and, if so, the reason for holding it. The Company's use of derivative instruments has been limited to cash flow hedges of certain interest rate risks. The Company had interest rate swap agreements for notional principal amounts aggregating \$300 million and \$400 million as of December 31, 2016 and 2015, respectively, the fair value of which are included in accounts payable, accrued expenses and other liabilities.

Income Taxes

The Company has elected to be taxed as a real estate investment trust under Sections 856-860 of the Internal Revenue Code since the Company's commencement of operations in 2004. In management's opinion, the requirements to maintain these elections are being met. Accordingly, no provision for federal income taxes has been reflected in the consolidated financial statements other than for operations conducted through our taxable REIT subsidiaries.

Earnings and profits, which determine the taxability of distributions to shareholders, differ from net income reported for financial reporting purposes due to differences in cost basis, the estimated useful lives used to compute depreciation, and the allocation of net income and loss for financial versus tax reporting purposes. The net tax basis in the Company's assets was \$3.2 billion and \$2.7 billion as of December 31, 2016 and 2015, respectively.

Distributions to shareholders are usually taxable as ordinary income, although a portion of the distribution may be designated as capital gain or may constitute a tax-free return of capital. Annually, the Company provides each of its shareholders a statement detailing the tax characterization of dividends paid during the preceding year as ordinary income, capital gain, or return of capital. The characterization of the Company's dividends for 2016 consisted of a 98.663% ordinary income distribution and a 1.337% capital gain distribution from earnings and profits.

Distributions to 7.75% Series A Cumulative Redeemable Preferred Shareholders are usually taxable as ordinary income, although a portion of the distribution may be designated as capital gain or may constitute a tax-free return of capital. Annually, the Company provides each of its shareholders a statement detailing preferred distributions paid during the preceding year and their characterization as ordinary income, capital gain, or return of capital. The characterization of our preferred distributions for 2016 consisted of a 7.683% ordinary income distribution, a 0.104% capital gain distribution from earnings and profits, and a 92.213% cash liquidating distribution.

The Company is subject to a 4% federal excise tax if sufficient taxable income is not distributed within prescribed time limits. The excise tax equals 4% of the annual amount, if any, by which the sum of (a) 85% of the Company's ordinary income, (b) 95% of the Company's net capital gains, and (c) 100% of prior taxable income exceeds cash distributions and certain taxes paid by the Company. No excise tax was incurred in 2016, 2015, or 2014.

Taxable REIT subsidiaries (TRS) are subject to federal and state income taxes. Our taxable REIT subsidiaries have a net deferred tax asset related to expenses which are deductible for tax purposes in future periods of \$1.3 million and \$1.7 million as of December 31, 2016 and 2015, respectively.

The Protecting Americans from Tax Hikes Act (PATH Act) was enacted in December 2015, and included numerous law changes applicable to REITs. The provisions have various effective dates. We expect that the changes will not materially impact our operations, but will continue to monitor as regulatory guidance is issued.

Earnings per Share and Unit

Basic earnings per share and unit are calculated based on the weighted average number of common shares and restricted shares outstanding during the period. Diluted earnings per share and unit is calculated by further adjusting for the dilutive impact of share options, unvested restricted shares and contingently issuable shares outstanding during the period using the treasury stock method. Potentially dilutive securities calculated under the treasury stock method were 1,287,000; 1,551,000, and 1,756,000 in 2016, 2015, and 2014, respectively.

### Share-Based Payments

We apply the fair value method of accounting for contingently issued shares and share options issued under our incentive award plan. Accordingly, share compensation expense is recorded ratably over the vesting period relating to such contingently issued shares and options. The Company has recognized compensation expense on a straight-line method over the requisite service period, which is included in general and administrative expense on the Company's consolidated statement of operations.

Foreign Currency

The financial statements of foreign subsidiaries are translated to U.S. Dollars using the period-end exchange rate for assets and liabilities and an average exchange rate for each period for revenues, expenses, and capital expenditures. The local currency is the functional currency for the Company's foreign subsidiaries. Translation adjustments for foreign subsidiaries are recorded as a component of accumulated other comprehensive loss in shareholders' equity. The Company recognizes transaction gains and losses arising from fluctuations in currency exchange rates on transactions denominated in currencies other than the functional currency in earnings as incurred. The Pound, which represents the functional currency used by USIFB, LLP ("USIFB"), our joint venture in England, was translated at October 2, 2015, the date that the venture's remaining asset was sold. The exchange rate was approximately 1.521600 U.S Dollars per Pound on October 2, 2015 and approximately 1.558642 U.S Dollars per Pound on December 31, 2014. The Pound was translated at an average exchange rate of 1.643106 and 1.588598 U.S. Dollars per Pound for the year ended December 31, 2014. The Company recorded an unrealized loss on foreign currency translation of \$0.2 million for the year ended December 31, 2014. In connection with the sale of the remaining asset, the Company recorded a realized loss on foreign currency exchange of \$1.2 million, which is included in Gains on sale of real estate in the Company's consolidated statement of operations.

Investments in Unconsolidated Real Estate Ventures

The Company accounts for its investments in unconsolidated real estate ventures under the equity method of accounting. Under the equity method, investments in unconsolidated joint ventures are recorded initially at cost, as investments in real estate ventures, and subsequently adjusted for equity in earnings (losses), cash contributions, less distributions. On a periodic basis, management also assesses whether there are any indicators that the value of the Company's investments in unconsolidated real estate ventures may be other than temporarily impaired. An investment is impaired only if the fair value of the investment is less than the carrying value of the investment and the decline is other than temporary. To the extent impairment that is other than temporary has occurred, the loss shall be measured as the excess of the carrying amount of the investment over the fair value of the investment, as estimated by management.

## Reclassifications

During the first quarter of 2016, the Company adopted ASU No. 2015-03, Simplifying the Presentation of Debt Issuance Costs, which requires the Company to reclassify debt financing costs, which were previously included in loan procurement costs, net of amortization on the Company's consolidated balance sheets, and present them as a direct deduction from the carrying amount of the related debt liability. Net costs of \$10.7 million have been reclassified in the December 31, 2015 consolidated balance sheets from the loan procurement costs line and netted against the related debt liability. See Recent Accounting Pronouncements below for revisions to the accounting guidance for debt issuance costs.

**Recent Accounting Pronouncements** 

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business, which changes the definition of a business to include an input and a substantive process that together significantly contribute to the ability to create outputs. A framework is provided to evaluate when an input and a substantive process are present. The new guidance also narrows the definition of outputs, which are defined as the results of inputs and substantive processes that provide goods or services to customers, other revenue, or investment income. The standard is effective on January 1, 2018, however early adoption is permitted. The Company is in the process of evaluating the impact of this new guidance.

In November 2016, the FASB issued ASU No.2016-18, Statement of Cash Flows (Topic 230): Restricted Cash, which requires the statement of cash flows to explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. The new guidance also requires entities to reconcile such total to amounts on the balance sheet and disclose the nature of the restrictions. The standard is effective on January 1, 2018, however early adoption is permitted. The standard requires the use of the retrospective transition method. The Company is in the process of evaluating the impact of this new guidance.

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments, which is intended to reduce diversity in practice in how certain transactions are classified in the statement of cash flows. The eight items that the ASU provides classification guidance on include (1) debt prepayment and extinguishment costs, (2) settlement of zero-coupon debt instruments, (3) contingent consideration payments made after a business combination, (4) proceeds from the settlement of insurance claims, (5) proceeds from the settlement of corporate-owned life insurance policies, including bank-owned life insurance policies, (6) distributions received from equity method investments, (7) beneficial interests in securitization transactions, and (8) separately identifiable cash flows and application of the predominance principle. The standard is effective on January 1, 2018, however early adoption is permitted. The standard requires the use of the retrospective transition method. The Company is in the process of evaluating the impact of this new guidance.

In March 2016, the FASB issued ASU No. 2016-09, Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting, which is intended to simplify various aspects related to how share-based payments are accounted for and presented in the financial statements. The new guidance allows for entities to make an entity-wide accounting policy election to either estimate the number of awards that are expected to vest or account for forfeitures when they occur. In addition, the guidance allows employers to withhold shares to satisfy minimum statutory tax withholding requirements up to the employees' maximum individual tax rate without causing the award to be classified as a liability. The guidance also stipulates that cash paid by an employer to a taxing authority when directly withholding shares for tax-withholding purposes should be classified as a financing activity on the statement of cash flows. The standard is effective on January 1, 2017, however early adoption is permitted. The Company does not expect this new guidance to have a material impact on the Company's consolidated financial position or results of operations.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract (i.e. lessees and lessors). The new standard requires lessees to apply a dual approach, classifying leases as either financing or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight line basis over the term of the lease, respectively. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. The new standard requires lessors to account for leases using an approach that is substantially equivalent to existing guidance for sales-type leases, direct financing leases and operating leases. The standard is effective on January 1, 2019, however early adoption is permitted. The Company is currently assessing the impact of the adoption of ASU No. 2016-02 on the Company's consolidated financial statements and related disclosures.

In September 2015, the FASB issued ASU No. 2015-16, Simplifying the Accounting for Measurement-Period Adjustments, which amends the current business combination guidance to require that an acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amounts are determined, as opposed to having to revise prior period information. The standard also requires additional disclosure about the impact on current-period income statement line items of adjustments that would have been recognized in prior periods if prior period information had been revised. The new standard became effective for the Company on January 1, 2016. The adoption of this guidance did not have a material impact on the Company's consolidated financial position or results of operations as all measurement-period adjustments recorded during 2016 relate to business combinations that took place in the current year and do not have prior period impact. Refer to note 4 for details regarding the measurement-period adjustments made during the year ended December 31, 2016.

In April 2015, the FASB issued ASU No. 2015-03, Simplifying the Presentation of Debt Issuance Costs, an update to the accounting standard relating to the presentation of debt issuance costs. Under the new guidance, debt issuance costs related to a recognized debt liability will be presented on the balance sheet as a direct deduction from the debt liability. In the event that there is not an associated debt liability recorded in the consolidated financial statements, the debt issuance costs will continue to be recorded on the consolidated balance sheet as an asset until the debt liability is recorded. The new standard became effective for the Company on January 1, 2016. The adoption of this guidance did not have a material impact on the Company's consolidated financial position or results of operations as the update only related to changes in financial statement presentation as discussed in note 7 and in "Reclassifications" above.

In February 2015, the FASB issued ASU No. 2015-02, Consolidation – Amendments to the Consolidation Analysis, which amends the current consolidation guidance affecting both the variable interest entity ("VIE") and voting interest entity ("VOE") consolidation models. The standard does not add or remove any of the characteristics in determining if an entity is a VIE or VOE, but rather enhances the way the Company assesses some of these characteristics. The new standard became effective for the Company on January 1, 2016. As discussed under Basis of Presentation above, the adoption of this guidance did not have a material impact on the Company's consolidated financial position or results of operations as none of its existing consolidation conclusions were changed.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance under GAAP when it becomes effective. The new standard will be effective for the Company beginning on January 1, 2018, however early application beginning on January 1, 2017 is permitted. The standard permits the use of either the retrospective or cumulative effect transition method. The Company has not yet selected a transition method. The Company is currently assessing the impact of the adoption of ASU No. 2014-09 on the Company's consolidated financial statements and related disclosures.

Concentration of Credit Risk

The Company's stores are located in major metropolitan and rural areas and have numerous customers per store. No single customer represents a significant concentration of our revenues. The stores in Florida, New York, Texas, and California provided total revenues of approximately 17%, 16%, 10%, and 8%, respectively, for the year ended December 31, 2016 and approximately 18%, 16%, 10%, and 8%, respectively, for the year ended December 31, 2015. The stores in Florida, New York, Texas, and California provided total revenues of approximately 18%, 16%, 10%, and 8%, respectively, for the year ended December 31, 2015. The stores in Florida, New York, Texas, and California provided total revenues of approximately 17%, 16%, and 8%, respectively, for the year ended December 31, 2015.

## 3. STORAGE PROPERTIES

The book value of the Company's real estate assets is summarized as follows:

|                            | December 31,   | December 31, |
|----------------------------|----------------|--------------|
|                            | 2016           | 2015         |
|                            | (in thousands) |              |
| Land                       | \$ 649,744     | \$ 588,503   |
| Buildings and improvements | 2,928,275      | 2,534,193    |
| Equipment                  | 217,867        | 243,442      |

| Construction in progress       | 202,294      | 100,894      |
|--------------------------------|--------------|--------------|
| Storage properties             | 3,998,180    | 3,467,032    |
| Less: Accumulated depreciation | (671,364)    | (594,049)    |
| Storage properties, net        | \$ 3,326,816 | \$ 2,872,983 |

The following table summarizes the Company's acquisition and disposition activity for the years ended December 31, 2016, 2015 and 2014:

| Asset/Portfolio                       | Market                           | Transaction Date     | Number of<br>Stores | Purchase / Sale Price<br>(in thousands) |
|---------------------------------------|----------------------------------|----------------------|---------------------|---|
| 2016 Acquisitions:                    |                                  |                      |                     |   |
| Metro DC Asset                        | Baltimore / DC                   | January 2016         | 1                   | \$ 21,000                               |
| Texas Assets                          | Texas Markets - Major            | January 2016         | 2                   | 24,800                                  |
| New York Asset                        | New York / Northern NJ           | January 2016         | 1                   | 48,500                                  |
| Texas Asset                           | Texas Markets - Major            | January 2016         | 1                   | 11,600                                  |
| Connecticut Asset                     | Connecticut                      | February 2016        | 1                   | 19,000                                  |
| Texas Asset                           | Texas Markets - Major            | March 2016           | 1                   | 11,600                                  |
| Florida Assets                        | Florida Markets - Other          | March 2016           | 3                   | 47,925                                  |
| Colorado Asset                        | Denver                           | April 2016           | 1                   | 11,350                                  |

## 4. INVESTMENT ACTIVITY

#### 2016 Acquisitions

During the year ended December 31, 2016, the Company acquired 28 stores, including three stores upon completion of construction and the issuance of a certificate of occupancy, located throughout the United States for an aggregate purchase price of approximately \$403.6 million. In connection with these acquisitions, the Company allocated a portion of the purchase price to the tangible and intangible assets acquired based on fair value. Intangible assets consist of in-place leases, which aggregated \$18.8 million at the time of the acquisitions and prior to any amortization of such amounts. The estimated life of these in-place leases was 12 months, and the amortization expense that was recognized during 2016 was approximately \$10.5 million. In connection with one of the acquired stores, the Company assumed mortgage debt that was recorded at a fair value of \$6.5 million, which fair value includes an outstanding principal balance totaling \$6.3 million and a net premium of \$0.2 million to reflect the estimated fair value of the debt at the time of assumption.

During the fourth quarter of 2016, the Company received additional information regarding the fair value of each of the assets acquired during the first three quarters of 2016. As a result, the Company has refined its purchase price allocation estimates resulting in an aggregate \$14.7 million reclassification from land to buildings and improvements.

As of December 31, 2016, the Company was under contract and had made aggregate deposits of \$1.8 million associated with four stores under construction for a total purchase price of \$61.1 million. In connection with one of the storess, the Company provided a \$4.1 million loan, which was repaid to the Company in full in December 2015, for the purpose of acquiring the premises on which the store will be built. The deposits are reflected in Other assets, net on the Company's consolidated balance sheets. The purchase of these four stores is expected to occur by the fourth quarter of 2017 after the completion of construction and the issuance of a certificate of occupancy. These acquisitions are subject to due diligence and other customary closing conditions and no assurance can be provided that these acquisitions will be completed on the terms described, or at all.

#### Development

As of December 31, 2016, the Company had five contracts through joint ventures for the construction of five self-storage properties located in New York (see note 12). As part of the PSI Assets discussed below, the Company also acquired a self-storage property that is under construction in North Palm Beach, FL. Additionally, during the second quarter of 2016, the Company issued 61,224 OP Units, valued at approximately \$1.5 million, to pay the remaining consideration on its store that is under construction in Washington, D.C. and was previously owned by a

joint venture. Construction for all projects is expected to be completed by the fourth quarter of 2018. As of December 31, 2016, development costs for these projects totaled \$181.0 million. Total construction costs for these projects is expected to be \$312.7 million. These costs are capitalized to construction in progress while the projects are under development and are reflected in Storage properties on the Company's consolidated balance sheets.

The Company has completed the construction and opened for operation the following stores since January 1, 2014. The costs associated with the construction of these stores are capitalized to land, building, and improvements as well as equipment and are reflected in Storage properties on the Company's consolidated balance sheets.

- (1) These stores were previously owned through two separate consolidated joint ventures, of which the Company owned a 51% interest in each. On April 5, 2016, the noncontrolling member in the venture that owned the Queens, NY store put its 49% interest in the venture to the Company for \$12.5 million. On August 12, 2016, the noncontrolling member in the venture that owned the Bronx, NY store put its 49% interest in the venture to the Company for \$17.0 million.
- (2) These stores are subject to ground leases.

(3) During the fourth quarter of 2013, the Company completed the construction of the portion of a mixed-use property comprised of office space and relocated its corporate headquarters. During the first quarter of 2014, construction was completed on the portion of the building comprised of rentable storage space and the store opened for operation.

## 2015 Acquisitions

On December 15, 2015, the Company acquired all of the issued and outstanding uncertificated shares of common stock of a privately held self-storage REIT ("PSI") for \$115.8 million. As of the date of the acquisition, PSI owned real property consisting of 12 fully operational self-storage properties which were acquired for \$109.8 million, and one self-storage property that is under construction, which was acquired for \$6.0 million (the "PSI Assets"). The PSI Assets are located in Arizona, Florida, Georgia, Massachusetts, New York, North Carolina, Tennessee, and Texas. In connection with this acquisition, the Company allocated a portion of the purchase price to the intangible value of in-place leases, which aggregated to \$6.7 million at the time of the acquisition and prior to any amortization of such amounts. The estimated life of these in-place leases was 12 months, and the amortization expense that was recognized during the years ended December 31, 2016 and 2015 was approximately \$6.1 million and \$0.6 million, respectively.

During 2014, the Operating Partnership entered into an Agreement for Purchase and Sale with certain limited liability companies controlled by HSRE REIT I and HSRE REIT II, both Maryland real estate investment trusts, to acquire (the "HSRE Acquisition") 26 self-storage properties for an aggregate purchase price of \$223.0 million plus customary closing costs. During 2014, the Company closed on the first tranche of 22 stores comprising the HSRE Acquisition, for an aggregate purchase price of \$195.5 million. On March 18, 2015, the Company closed on the second tranche of the remaining four stores comprising the HSRE Acquisition, for an aggregate purchase price of \$27.5 million. The four stores purchased in the second tranche are located in Illinois. In connection with this acquisition, the Company allocated a portion of the purchase price to the intangible value of in-place leases, which aggregated to \$2.7 million at the time of the acquisition and prior to any amortization of such amounts. The estimated life of these in-place leases was 12 months, and the amortization expense that was recognized during the years ended December 31, 2016 and 2015 was approximately \$0.7 million and \$2.0 million, respectively.

During the year ended December 31, 2015, the Company acquired 13 additional self-storage properties, including one store upon completion of construction and the issuance of a certificate of occupancy, located throughout the United States for an aggregate purchase price of approximately \$155.0 million. In connection with these acquisitions, the Company allocated a portion of the purchase price to the tangible and intangible assets acquired based on fair value. Intangible assets consist of in-place leases, which aggregated \$10.7 million at the time of the acquisitions and prior to any amortization of such amounts. The estimated life of these in-place leases was 12 months, and the amortization expense that was recognized during the years ended December 31, 2016 and 2015 was approximately \$6.0 million and \$4.7 million, respectively. In connection with one of the acquired stores, the Company assumed mortgage debt that was recorded at a fair value of \$2.7 million, which fair value includes an outstanding principal balance totaling \$2.5 million and a net premium of \$0.2 million to reflect the estimated fair value of the debt at the time of assumption.

### 2015 Dispositions

On October 8, 2015, the Company sold seven stores in Texas and one store in Florida for an aggregate sales price of approximately \$37.8 million. In connection with these sales, the Company recorded gains that totaled \$14.4 million. The proceeds from these sales were held in escrow to fund future acquisitions under a tax free like kind exchange. The total net proceeds of \$36.4 million were subsequently applied to three separate acquisitions, of which one closed in December 2015 and two closed in Janaury 2016.

On October 2, 2015, USIFB, a consolidated real estate joint venture in which the Company owned a 97% interest, sold its remaining asset in London, England, for an aggregate sales price of  $\pounds$ 6.5 million (approximately \$9.9 million). In connection with the sale, the Company recorded a gain of \$3.0 million net of a foreign currency translation loss of \$1.2 million.

### 2014 Acquisitions

On August 25, 2014, the Operating Partnership entered into an Agreement for Purchase and Sale with certain limited liability companies controlled by HSRE REIT I and HSRE REIT II, each Maryland real estate investment trusts, to acquire (the "HSRE Acquisition") 26 self-storage properties for an aggregate purchase price of \$223.0 million plus customary closing costs. On November 3, 2014, the Company closed on the first tranche of 22 stores comprising the HSRE Acquisition, for an aggregate purchase price of \$195.5 million. The 22 stores purchased are located in California, Florida, Illinois, Nevada, New York, Ohio, and Rhode Island. In connection with this acquisition, the Company allocated a portion of the purchase price to the intangible value of in-place leases, which aggregated \$14.5 million at the time of the acquisition and prior to any amortization of such amounts. The estimated life of these in-place leases was 12 months and the

amortization expense that was recognized during the years ended December 31, 2015 and 2014 was approximately \$12.1 million and \$2.4 million, respectively.

During 2014, the Company acquired an additional 31 self-storage properties located throughout the United States for an aggregate purchase price of approximately \$372.7 million. In connection with these acquisitions, the Company allocated a portion of the purchase price to the intangible value of in-place leases, which aggregated \$23.8 million at the time of such acquisitions and prior to any amortization of such amounts. The estimated life of these in-place leases was 12 months, and the amortization expense that was recognized during the years ended December 31, 2015 and 2014 was approximately \$10.4 million and \$13.4 million, respectively. In connection with four of the acquired stores, the Company assumed mortgage debt and recorded the debt at a fair value of \$27.5 million, which included an outstanding principal balance totaling \$26.0 million and a net premium of \$1.5 million to reflect the estimated fair value of the debt at the time of assumption.

2014 Disposition

On June 30, 2014, the Company sold one asset in London, England owned by USIFB, for an aggregate sales price of  $\pounds$ 4.1 million (approximately \$7.0 million). The Company received net proceeds of \$7.0 million, a portion of which were used to repay the loan the Company made to USIFB, and recorded a gain of \$0.5 million as a result of the transaction.

The following table summarizes the Company's results of operations of the 2016, 2015, and 2014 acquisitions from the respective acquisition dates in the year they were acquired, included in the consolidated statements of operations for the years ended December 31, 2016, 2015, and 2014:

|               | Year ended December 31, |          |           |  |  |  |  |
|---------------|-------------------------|----------|-----------|--|--|--|--|
|               | 2016                    | 2015     | 2014      |  |  |  |  |
|               | (in thousands)          |          |           |  |  |  |  |
| Total revenue | \$ 15,270               | \$ 9,110 | \$ 21,156 |  |  |  |  |
| Net loss      | (9,804)                 | (6,563)  | (12,350)  |  |  |  |  |

# 5. INVESTMENT IN UNCONSOLIDATED REAL ESTATE VENTURES

## CUBE HHF Northeast Venture LLC ("HHFNE")

On December 15, 2016, the Company invested a 10% ownership interest in a newly-formed joint venture that acquired 13 self-storage properties located in Connecticut (3), Massachusetts (6), Rhode Island (2), and Vermont (2). HHFNE paid \$87.5 million for these stores, of which \$6.0 million was allocated to the value of the in-place lease intangible. The acquisition was funded primarily through an advance totaling \$44.5 million on the venture's loan facility. The remainder of the purchase price was contributed pro-rata by the Company and its unaffiliated joint venture partner. The Company's total contribution to HHFNE related to this portfolio acquisition was \$3.8 million. The loan bears interest at LIBOR plus 1.90% and matures on December 15, 2019 with options to extend the maturity date through December 15, 2021, subject to satisfaction of certain conditions and payment of the extension fees as stipulated in the loan agreement.

# 191 III CUBE LLC ("HVP")

During the fourth quarter of 2015, the Company invested a 10% ownership interest in a newly-formed joint venture that agreed to acquire a property portfolio comprised of 37 self-storage properties located in Michigan (17), Tennessee (10), Massachusetts (7), and Florida (3). HVP paid \$242.5 million for these 37 stores, of which \$18.9 million was allocated to the value of the in-place lease intangible. HVP acquired 30 of the stores on December 8, 2015 for \$193.7 million, one of the stores on January 26, 2016 for \$5.7 million, five of the stores on April 21, 2016 for \$36.1 million, and one store on June 15, 2016 for \$7.0 million. In connection with six of the acquired stores, HVP assumed mortgage debt that was recorded at a fair value of \$25.3 million, which includes an outstanding principal balance totaling \$23.7 million and a net premium of \$1.6 million to reflect the estimated fair value of the debt at the time of assumption. The remainder of the purchase price was funded through advances totaling \$116.0 million on the venture's \$122.0 million loan facility and amounts contributed pro-rata by the Company and its unaffiliated joint venture partner. The Company's total contribution to HVP related to this portfolio acquisition was \$10.7 million. The loan facility bears interest at LIBOR plus 2.00% per annum and matures on December 7, 2018 with options to extend the maturity date through December 7, 2020, subject to satisfaction of certain conditions and payment of the extension fees as stipulated in the loan agreement.

During the first quarter of 2016, HVP agreed to acquire a portfolio comprised of 31 self-storage properties located in South Carolina (22), Georgia (5), and North Carolina (4) that were previously managed by the Company. HVP paid \$115.5 million for these 31 stores, of which \$10.6 million was allocated to the value of the in-place lease intangible. HVP acquired 30 of the stores on March 30, 2016 for \$112.8 million and one of the stores on November 29, 2016 for \$2.7 million. In conjunction with the acquisitions, HVP refinanced its existing loan facility by entering into an increased amended and restated loan facility not to exceed \$185.5 million. The acquisitions were funded primarily through advances totaling \$63.5 million on the venture's amended and restated loan facility. The remainder of the purchase price was contributed pro-rata by the Company and its unaffiliated joint venture partner. The Company's total contribution to HVP related to this portfolio acquisition was \$5.4 million, bringing its total investment in HVP to \$16.1 million as of December 31, 2016. The amended and restated loan facility bears interest at LIBOR plus 2.00% per annum. The initial maturity date was extended to March 30, 2019 with options to extend through March 30, 2021, subject to satisfaction of certain conditions and payment of the extension fees as stipulated in the amended and restated loan agreement.

CUBE HHF Limited Partnership ("HHF")

On December 10, 2013, the Company invested a 50% ownership interest in a newly-formed joint venture that acquired 35 self-storage properties located in Texas (34) and North Carolina (1). HHF paid \$315.7 million for these stores, of which \$12.1 million was allocated to the value of the in-place lease intangible. The Company and the unaffiliated joint venture partner, collectively the "HHF Partners," each contributed cash equal to 50% of the capital required to fund the acquisition. On May 1, 2014, HHF obtained a \$100.0 million loan secured by the 34 self-storage properties located in Texas that are owned by the venture. There is no recourse to the Company, subject to customary exceptions to non-recourse provisions. The loan bears interest at 3.59% per annum and matures on April 30, 2021. This financing completed the planned capital structure of HHF and proceeds (net of closing costs) of \$99.2 million were distributed proportionately to the partners.

Based upon the facts and circumstances at formation of HHFNE, HVP, and HHF (the "Ventures"), the Company determined that the Ventures are not VIEs in accordance with the accounting standard for the consolidation of VIEs. As a result, the Company used the voting interest model under the accounting standard for consolidation in order to determine whether to consolidate the Ventures. Based upon each member's substantive participating rights over the activities of each entity as stipulated in the operating agreements, the Ventures are not consolidated by the Company and are accounted for under the equity method of accounting. The Company's investments in the Ventures are included in Investment in real estate ventures, at equity on the Company's consolidated balance sheets and the Company's earnings from its investments in the Ventures are presented in Equity in losses of real estate ventures on the Company's consolidated statements of operations.

The amounts reflected in the following table are based on the historical financial information of the Ventures. The following is a summary of the financial position of the Ventures as of December 31, 2016 and 2015 (in thousands):

|                              | December 31, 2016 |         | December 31, 2015 |         |
|------------------------------|-------------------|---------|-------------------|---------|
| Assets                       |                   |         |                   |         |
| Storage properties, net      | \$                | 667,975 | \$                | 456,452 |

| 2025   | 250,000      | 250,000       | 4.03 | % | Oct-15 | Nov-25 |
| \$300M 3.125% Guaranteed Notes due   |              |               |      |   |        |        |
| 2026   | 300,000      |               | 3.18 | % | Aug-16 | Sep-26 |
| Principal balance outstanding  | 1,050,000    | 750,000       |      |   |        |        |
| Less: Discount on issuance of  |              |               |      |   |        |        |
| unsecured senior notes, net  | (3,971)      | (2,888)       |      |   |        |        |
| Less: Loan procurement costs, net  | (6,953)      | (5,208)       |      |   |        |        |
| Total unsecured senior notes, net  | \$ 1,039,076 | \$<br>741,904 |      |   |        |        |

The indenture under which the Senior Notes were issued restricts the ability of the Operating Partnership and its subsidiaries to incur debt unless the Operating Partnership and its consolidated subsidiaries comply with a leverage ratio not to exceed 60% and an interest coverage ratio of more than 1.5:1 after giving effect to the incurrence of the debt. The indenture also restricts the ability of the Operating Partnership and its subsidiaries to incur secured debt unless the Operating Partnership and its consolidated subsidiaries to incur secured debt unless the Operating Partnership and its consolidated subsidiaries comply with a secured debt leverage ratio not to exceed 40% after giving effect to the incurrence of the debt. The indenture also contains other financial and customary covenants, including a covenant not to own unencumbered assets with a value less than 150% of the unsecured indebtedness of the Operating Partnership and its consolidated subsidiaries. As of and for the year ended December 31, 2016, the Operating Partnership was in compliance with all of the financial covenants under the Senior Notes.

# 7. REVOLVING CREDIT FACILITY AND UNSECURED TERM LOANS

On June 20, 2011, the Company entered into an unsecured term loan agreement (the "Term Loan Facility") which consisted of a \$100.0 million term loan with a five-year maturity ("Term Loan A") and a \$100.0 million term loan with a seven-year maturity ("Term Loan B"). On December 9, 2011, the Company entered into a credit facility (the "Credit Facility") comprised of a \$100.0 million unsecured term loan maturing in December 2014 ("Term Loan C"); a \$200.0 million unsecured term loan maturing in March 2017 ("Term Loan D"); and a \$300.0 million unsecured revolving facility maturing in December 2015 ("Revolver").

On June 18, 2013, the Company amended both the Term Loan Facility and Credit Facility. With respect to the Term

Loan Facility, among other things, the amendment extended the maturity date to June 2018 and decreased the pricing of Term Loan A, while Term Loan B remained unchanged by the amendment. With respect to the Credit Facility, among other things, the amendment extended the maturity date to January 2019 and decreased the pricing of Term Loan D. On August 5, 2014, the Company further amended the Term Loan Facility to extend the maturity date to January 2020 and decrease the pricing of Term Loan B. On December 17, 2013, the Company repaid the \$100.0 million balance under Term Loan C that was scheduled to mature in December 2014.

Pricing on the Term Loan Facility depends on the Company's unsecured debt credit ratings. At the Company's current Baa2/BBB level, amounts drawn under Term Loan A are priced at 1.30% over LIBOR, while amounts drawn under Term Loan B are priced at 1.15% over LIBOR.

On April 22, 2015, the Company further amended the Credit Facility with respect to the Revolver. Among other things, the amendment increased the aggregate amount of the Revolver from \$300.0 million to \$500.0 million, decreased the facility fee from 0.20% to 0.15%, and extended the maturity date from June 18, 2017 to April 22, 2020.

Pricing on the Credit Facility depends on the Company's unsecured debt credit ratings. At the Company's current Baa2/BBB level, amounts drawn under the Revolver are priced at 1.25% over LIBOR, inclusive of a facility fee of 0.15%, while amounts drawn under Term Loan D are priced at 1.30% over LIBOR.

The Company incurred costs of \$2.3 million in 2015 in connection with amending the Credit Facility and capitalized such costs as a component of loan procurement costs, net of amortization on the consolidated balance sheet. Additionally, in connection with the amendment, \$0.1 million of unamortized costs were written-off. All remaining unamortized costs, along with costs incurred in connection with the amendment, are amortized as an adjustment to interest expense over the remaining term of the modified facilities.

During the first quarter of 2016, the Company adopted ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs, which requires the Company to reclassify debt financing costs, which were previously included in loan procurement costs, net of amortization on the Company's consolidated balance sheets, and present them as a direct deduction from the carrying amount of the related debt liability. As of December 31, 2016 and 2015, unsecured term loans are presented net of unamortized loan procurement costs of \$1.3 million and \$1.8 million, respectively, on the Company's consolidated balance sheets. Deferred financing costs associated with the Revolver remain in loan procurement costs, net of amortization on the Company's consolidated balance sheets.

As of December 31, 2016, \$200.0 million of unsecured term loan borrowings were outstanding under the Term Loan Facility, \$200.0 million of unsecured term loan borrowings were outstanding under the Credit Facility, and \$456.0 million was available for borrowing under the unsecured revolving portion of the Credit Facility. The available balance under the unsecured revolving portion of the Credit Facility is reduced by an outstanding letter of credit of \$0.7 million. In connection with a portion of the unsecured borrowings, the Company had interest rate swaps as of December 31, 2016 that fix 30-day LIBOR (see note 10). As of December 31, 2016, borrowings under the Credit Facility and Term Loan Facility, as amended and after giving effect to the interest rate swaps, had an effective weighted average interest rate of 2.67%.

The Term Loan Facility and the term loan under the Credit Facility were fully drawn as of December 31, 2016 and no further borrowings may be made under the term loans. Our ability to borrow under the revolving portion of the Credit Facility is subject to ongoing compliance with certain financial covenants which include:

 $\cdot~$  Maximum total indebtedness to total asset value of 60.0% at any time;

· Minimum fixed charge coverage ratio of 1.50:1.00; and

• Minimum tangible net worth of \$821,211,200 plus 75% of net proceeds from equity issuances after June 30, 2010.

Further, under the Credit Facility and Term Loan Facility, the Company is restricted from paying distributions on the Parent Company's common shares in excess of the greater of (i) 95% of funds from operations, and (ii) such amount as may be necessary to maintain the Parent Company's REIT status.

As of December 31, 2016, the Company was in compliance with all of its financial covenants and it anticipates being in compliance with all of its financial covenants through the terms of the Credit Facility and Term Loan Facility.

## 8. MORTGAGE LOANS AND NOTES PAYABLE

The Company's mortgage loans and notes payable are summarized as follows:

|                                  | Carrying Value as of: |                |               |          |  |
