SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

- QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2014

OR

- TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

Commission File Number: 001-32634

MOBILESMITH, INC.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

95-4439334
(I.R.S. Employer
Identification No.)

5400 Trinity Road, Suite 208
Raleigh, North Carolina
(Address of principal executive offices)

27607
(Zip Code)

(855) 516-2413
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days: Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Edgar Filing: MobileSmith, Inc. - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

As of August 14, 2014, there were 19,827,542 shares of the registrant’s common stock, par value \$0.001 per share, outstanding.

MOBILESMITH, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
For the Quarterly Period Ended June 30, 2014
(unaudited)

1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

MobileSmith, Inc. (referred to herein as the “Company,” “us,” “we,” or “our”) was incorporated as Smart Online, Inc. in the State of Delaware in 1993. The Company changed its name to MobileSmith, Inc. effective July 1, 2013. The Company develops and markets software products and services tailored to users of mobile devices. The Company’s flagship product is the MobileSmith® Platform (the “Platform”). The Platform is an innovative, patents pending mobile app development platform that enables organizations to rapidly create, deploy, and manage custom, native smartphone and tablet apps deliverable across iOS and Android mobile platforms.

These condensed consolidated financial statements include accounts of the Company and its wholly-owned subsidiary, which was created to explore the concept of a consumer targeted mobile app development platform. From time to time, the Company may create additional wholly-owned subsidiaries in order to test various new services as a part of its research and development process. This subsidiary did not have material activity at June 30, 2014.

The Company’s principal products and services include:

Subscription to its Software as a Service (“SaaS”) cloud based mobile app development platform to customers who design and build their own apps;

Dedicated internal and secure mobile development platform for the U.S. Department of Defense and related contractors;

Custom mobile application design and development services;

Mobile application marketing services; and

Mobile strategy implementation consulting.

The Company prepared the accompanying unaudited condensed consolidated financial statements pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Pursuant to these rules and regulations, the Company has condensed or omitted certain information and footnote disclosures it normally includes in its audited annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”). In management’s opinion, the Company has made all adjustments (consisting only of normal, recurring adjustments, except as otherwise indicated) necessary to fairly present its financial position, results of operations, cash flows and stockholders’ deficit as of June 30, 2014. The Company’s interim period operating results do not necessarily indicate the results that may be expected for any other interim period or for the full fiscal year. These condensed consolidated financial statements and accompanying notes should be read in conjunction with the audited annual consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2013, as amended, on file with the SEC (the “Annual Report”).

There have been no material changes to the Company’s significant accounting policies as compared to the significant accounting policies described in the Annual Report. The accompanying condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. During the six months ended June 30, 2014 and 2013, the Company

incurred net losses as well as negative cash flows. The Company has not yet determined the effect, if any, that the adoption of this standard will have on the Companys financial position or results of operations. These factors indicate that the Company may be unable to continue as a going concern. The accompanying condensed consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts or classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

In May 2014, the FASB issued ASU 2014-9 Revenue from Contracts with Customers (Topic 606). This guidance requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This guidance is effective for annual reporting periods beginning after December 15, 2016 and early adoption is not permitted. The Company will adopt this standard in fiscal year 2017.

2. DEBT

The table below summarizes the Company's debt at June 30, 2014 and December 31, 2013:

Debt Description	June 30, 2014	December 31, 2013	Maturity	Rate	
Bank Loan	\$ 5,000,000	\$ 5,000,000	June, 2016	3.85	%
Capital lease obligations - Noteholder lease	122,899	132,321	August, 2019	8.00	%
Capital lease obligations - Office furniture	33,433	36,778	September, 2016	9.80	%
Convertible notes - related parties, net of discount of \$5,515,357 and \$1,921,394, respectively	23,358,874	23,512,836	November, 2016	8.00	%
Convertible notes, net of discount of \$50,129 and zero, respectively	680,640	730,770	November, 2016	8.00	%
Total debt	29,195,846	29,412,705			
Less: current portion of long term debt					
Capital lease obligations	27,206	26,113			
Bank Loan	-	5,000,000			
Total current portion of long term debt	27,206	5,026,113			
Debt - long term	\$ 29,168,640	\$ 24,386,592			

Convertible Notes

During the six months ended June 30, 2014, the Company sold \$3,440,000 of additional Convertible Secured Subordinated Promissory Notes (the "Notes") to Union Bancaire Privée ("UBP") under its existing Convertible Secured Subordinated Note Purchase Agreement, dated November 14, 2007, as amended (as so amended, the "Note Purchase Agreement").

On May 12, 2014, the Company entered into the Seventh Amendment to Convertible Secured Subordinated Note Purchase Agreement (the "Seventh Amendment") and the Fifth Amendment to Convertible Secured Subordinated Promissory Notes (the "Fifth Amendment"), with the holders of a majority of the aggregate outstanding principal amount of the Notes issued by the Company under the Note Purchase Agreement (collectively, the "Noteholders"). The Seventh Amendment and the Fifth Amendment applied to all \$28,205,000 in principal amount of Notes outstanding as of May 12, 2014 and will apply to any future Notes sold by the Company. As amended, the Notes have the following terms:

- a maturity date of the earlier of (i) November 14, 2016, (ii) a Change of Control (as defined in the Note Purchase Agreement), or (iii) when, upon or after the occurrence of an Event of Default (as defined in the Note Purchase Agreement) such amounts are declared due and payable by a Noteholder or made automatically due and payable in accordance with the terms of the Note Purchase Agreement;
- an interest rate of 8% per year;
- a total borrowing commitment of \$33.3 million;
- a conversion price that is fixed at \$1.43; and

optional conversion upon Noteholder request, provided that, if at the time of any such request, the Company does not have a sufficient number of shares of common stock authorized to allow for such conversion as well as the issuance of the maximum amount of common stock permitted under the Company's 2004 Equity Compensation Plan, the Noteholder may request that the Company call a special meeting of its stockholders specifically for the purpose of increasing the number of shares of common stock authorized to cover the remaining portion of the Notes outstanding as well as the maximum issuances permitted under the 2004 Equity Compensation Plan.

The modification of the aggregate principal balance of Notes issued prior to the most recent prior modification dated June 28, 2013, or \$23,075,000, was accounted for as debt extinguishment in accordance with provisions of ASC 470 "Debt". The fair value of the new debt was determined to be \$21,404,018. The difference between the carrying value of the debt balance prior to the modification and the fair value of the new debt was recorded as debt discount in the amount of \$1,670,982 and will be charged to interest expense over the remaining life of the debt. \$22,344,231 of the modified \$23,075,000 balance was related party debt and \$730,769 was non-related party debt. For the related party portion of the debt, the Company recorded a capital contribution in the amount of \$1,620,852 with a charge to Additional Paid-in Capital; the non-related party debt modification resulted in a \$50,129 gain on extinguishment of debt.

The modification of the aggregate principal balance of Notes issued subsequent to June 28, 2013, but prior to the May 12, 2014 modification, or \$5,130,000, with a net carrying amount of \$922,202 immediately prior to the May 12, 2014 modification resulted in a troubled debt restructuring treatment where no gain or loss was recognized due to fact that the carrying amount of the debt balance was less than total future cash payments specified by the terms of the debt remaining unsettled after the modification.

Fair Value of Modified Convertible Notes

The modified convertible debt instrument with a face value of \$23,075,000, accounted for as debt extinguishment, was recorded with a fair value of \$21,404,018. The Company used a binomial model to determine the fair value of the instrument. The binomial model method uses significant unobservable inputs and falls within the Level III measurement method in accordance with the Fair Value Hierarchy under ASC 820 "Fair Value Measurements."

The significant unobservable inputs and information used to develop those inputs include the following:

- volatility of stock price was determined to be 47% and was based on the Company's historical volatility;

- risk free rate of 1.41%;

- credit spread over the risk free rate was determined to be approximately 20%, which was derived from a combination of the credit spread of CCC rated bonds with added premium for lack of marketability of the convertible instrument;

- nodes of the binomial model were extended for 2.5 years, which approximates the time period until maturity of the convertible instrument; the model included 5 nodes; and

- conversion price was fixed at \$1.43 per share.

On June 9, 2014, the Company entered into the Eighth Amendment to the Note Purchase Agreement and the Sixth Amendment to the Notes with a majority of the Noteholders. The only modification that resulted from these amendments was direct subordination of all current and future Notes under the Note Purchase Agreement to the Loan and Security Agreement (the "LSA") with Comerica Bank ("Comerica"), which is discussed further below.

IDB Credit Facility and Comerica LSA

The Company had an outstanding promissory note with Israel Discount Bank (“IDB”) that had a maturity date of May 31, 2014 (the “IDB Credit Facility”). Borrowings under the IDB Credit Facility were guaranteed by Atlas Capital SA (“Atlas”) and subsequent to the merger between Atlas and Mirelis InvesTrust SA (“Mirelis”), by Mirelis. The IDB Credit Facility was further secured by an extended irrevocable standby letter of credit (“SBLC”) issued by UBS Private Bank with an expiration date of November 30, 2015. The Company received confirmation that it will not be required to re-pay any fees associated with previous or future guarantees of the Company's bank loan through issuance of the SBLC by UBS. As such, the Company reversed previously accrued fees associated with the issuance of the SBLC in the IDB transaction and recorded a \$169,861 gain on reversal of previously recorded liabilities.

On June 9, 2014, the Company refinanced the IDB Credit Facility with a new financial institution by entering into the LSA with Comerica. The Company borrowed the entire amount available under the LSA (\$5,000,000) and used those proceeds to repay the IDB Credit Facility in full.

The LSA has the following terms:

- a maturity date of June 9, 2016;
- a variable interest rate at prime plus 0.6% (3.85% on the date of execution) payable quarterly;
- secured by substantially all of the assets of the Company, including the Company's intellectual property;
- secured by an extended irrevocable SBLC issued by UBS AG (Geneva, Switzerland) ("UBS AG") with an initial term expiring on May 31, 2015, which term shall be automatically renewed for one year periods, unless notice of non-renewal is given by UBS AG at least 45 days prior to the then current expiration date; and
- acceleration of payment of all amounts due thereunder upon the occurrence and continuation of certain events of default, including but not limited to, failure by the Company to perform its obligations and observe the covenants made by it under the LSA and insolvency of the Company.

This transaction was accounted for under the guidance of ASC 470 "Debt" as debt extinguishment. The \$12,500 in bank fees that the Company paid to Comerica in connection with entering into the LSA was recorded as loss on extinguishment in the current period. The approximately \$30,000 in legal fees were deferred as deferred financing costs and will be charged to interest expense over the life of the LSA.

3. COMMITMENTS AND CONTINGENCIES

Aggregate future lease commitments

The Company leases computers, office equipment and office furniture under capital lease agreements that expire through August 2019. Total amounts financed under these capital leases were \$156,683 and \$169,099 at June 30, 2014 and December 31, 2013, respectively. These obligations are included within the Company's total debt.

The table below summarizes Company's future obligations under its capital leases:

Year:

2014	\$ 19,278
2015	39,259
2016	39,259
2017	39,259
2018	34,189
Thereafter	19,412
	190,656
Less amount representing interest	(34,324)
Capital lease obligations	\$ 156,332

The Company leases its office space in Raleigh, North Carolina pursuant to a lease with an initial term that expires in March 2019. The lease contains an option to renew for two, three-year terms. In addition, the Company leases a vehicle pursuant to a lease that expires in July 2016.

The table below summarizes the Company's future obligations under its office and vehicle leases:

Year:		
2014		\$ 79,488
2015		162,528
2016		165,678
2017		167,786
2018		172,418
Thereafter		44,082
Total		\$ 791,980

Legal Proceedings

The Company may be subject to legal proceedings and litigation arising in the ordinary course of business, including, but not limited to, certain pending patent and privacy matters, including class action lawsuits, as well as inquiries, investigations, audits and other regulatory proceedings.

The Company will record a liability when it believes that it is both probable that a loss has been incurred and the amount can be reasonably estimated. The Company periodically evaluates developments in its legal matters that could affect the amount of liability that it has previously accrued, if any, and makes adjustments as appropriate. Significant judgment is required to determine both the likelihood of there being, and the estimated amount of, a loss related to such matters, and the Company's judgment may be incorrect. The outcome of any proceeding is not determinable in advance. Until the final resolution of any such matters that the Company may be required to accrue for, there may be an exposure to loss in excess of the amount accrued, and such amounts could be material.

4. EQUITY COMPENSATION

The following is a summary of the stock option activity for the six months ended June 30, 2014:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding, December 31, 2013	530,378	\$ 1.99		
Cancelled	(99,708)	4.29		
Issued	-	-		
Outstanding, June 30, 2014	430,670	\$ 1.46	4.90\$	20,800
Vested and exercisable, June 30, 2014	182,683	\$ 1.31	5.66\$	18,125

Aggregate intrinsic value represents the difference between the closing price of the Company's common stock at June 30, 2014 and the exercise price of outstanding, in-the-money stock options. The closing price of the common stock at June 30, 2014, as reported on the Over-the-Counter Bulletin Board, was \$1.30 per share.

At June 30, 2014, \$216,950 of unvested expense has yet to be recorded related to outstanding stock options.

5. MAJOR CUSTOMERS AND CONCENTRATION

Edgar Filing: MobileSmith, Inc. - Form 10-Q

For the six months ended June 30, 2014, two major customers accounted for 28% of total revenues and five customers accounted for 75% of the accounts receivable balance. For the six months ended June 30, 2013, two major customers accounted for 26% of total revenues and three customers accounted for 62% of the accounts receivable balance.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Information set forth in this Quarterly Report on Form 10-Q contains various forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act") and other laws. Forward-looking statements consist of, among other things, trend analyses, statements regarding future events, future financial performance, our plan to build our business and the related expenses, our anticipated growth, trends in our business, the potential impact of current or future litigation and government investigations, our ability to continue as a going concern, and the sufficiency of our capital resources including the funds available under our credit facility, the funds available under our Note facility and the future sales of Notes, all of which are based on current expectations, estimates, and forecasts, and the beliefs and assumptions of our management. Words such as "expect," "anticipate," "project," "intend," "plan," "estimate," variations of such words, and similar expressions also are intended to identify such forward-looking statements. These forward-looking statements are subject to risks, uncertainties, and assumptions that are difficult to predict. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. Readers are directed to risks and uncertainties identified under Part I, Item 1A, "Risk Factors," in the Annual Report and our subsequent periodic reports filed with the SEC for factors that may cause actual results to be different than those expressed in these forward-looking statements. Except as required by law, we undertake no obligation to revise or update publicly any forward-looking statements for any reason.

The following discussion is designed to provide a better understanding of our unaudited condensed consolidated financial statements, including a brief discussion of our business and products, key factors that impacted our performance, and a summary of our operating results. The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements and the notes thereto included in Part I, Item 1 of this Quarterly Report on Form 10-Q, and the audited annual consolidated financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in the Annual Report. Historical results and percentage relationships among any amounts in the consolidated financial statements are not necessarily indicative of trends in operating results for any future periods.

Overview

We develop and market a software-as-a-service ("SaaS") platform that allows non-programmers to design and build native mobile applications for smartphones and tablets. Our flagship product is the MobileSmith® Platform (the "Platform"). Platform related services often include data integration and training. We also provide consulting services, which include assistance with design and implementation of mobile strategy, implementation of mobile marketing strategy and the development of mobile apps.

We use a SaaS business model – the customers acquire access to the Platform through user subscription agreements and are able to obtain total control of mobile app production. Our business model allows for creation and management of any desired number of apps by our customers for a monthly license fee. The on-demand SaaS model developed using multi-tenant architecture enables end users to visit a website and use the SaaS applications, all via a web browser, with no installation, no special information technology knowledge, and no maintenance. The SaaS application is transformed into a service that can be used anytime and anywhere by the end user. Multi-tenant SaaS applications also permit us to add needed functionality to our applications in one location for the benefit of all end users. This capability allows us to provide upgrades universally.

For a limited number of customers from the Department of Defense and related contractors we offer turnkey installation of the Platform in their internal network. This approach offers those customers the most secure way to adopt and scale mobility for their employees and contractors. In these instances the business model is a perpetual license with annual maintenance charges and related costs associated with the onsite installation.

Target Market and Sales Channels

We believe that the do-it-yourself model for creation and management of apps will become a cost effective solution for enterprise clients who have an ever increasing need to interact with their customers and employees through mobile devices. Single apps may reach their limits of usability very quickly, if made complex. The Platform offers an ability to create multiple, customized non-template apps with designated functionalities and specific designs without incurring additional costs.

Our market penetration strategy focuses on three distinct sectors:

Government:

We believe that the Platform has a unique capability to service various structures within federal, state and local governments, as government structure is highly segmented by function and territory. In addition, the Platform can be safely placed behind the firewalls of individual departments, where data security is a primary concern. Replicating the Platform and placing it behind a secure firewall would allow an organization to create and manage multiple mobile apps with targeted functionality for targeted audiences without going outside of the secure firewall. As a result of our focus on the government sector, we secured Naval Air Systems Command (“NAVAIR”) as a client in June 2014. NAVAIR is a division within the U.S. Navy that provides full life-cycle support of naval aviation aircraft, weapons and systems operated by sailors and Marines. This support includes research, design, development and systems engineering; acquisition; test and evaluation; training facilities and equipment; repair and modification; and in-service engineering and logistics support. NAVAIR will be running a dedicated instance of the Platform in its own private cloud to rapidly develop apps that will be used in carrying out specifically designed tasks and objectives.

Healthcare clients:

Healthcare organizations, such as hospitals and healthcare networks, are akin to government in their departmental segmentation and territorial reach. Additionally, healthcare companies are subject to increased regulation as a result of the Affordable Care Act and may be subject to penalties for delivering inefficient care under new Medicare regulations. Hospitals increasingly turn to portfolios of apps to increase efficiency and remain competitive: outpatient care apps, wellness apps, physician referral apps, appointment apps, discharge apps and others. We believe that the Platform has a significant competitive advantage in the healthcare space due to the ability to deliver a variety of targeted mobile solutions cost effectively.

Healthcare continues to be a significant focus for the mobile industry, and the introduction of new health related features in iOS8 by Apple underscores that significance.

We expect to focus future Platform development on the demands of our healthcare clients: advanced data integration; authentication; and data security. Improvements that can be made to the Platform that target the needs of our healthcare clients will be used to deliver value in other sectors.

Enterprise clients:

The third sector combines all other large and multi-national enterprise clients, where large-scale customization based on functionality or territory is of the highest value, and other contributors such as time to market, technology reach, and ease of use play important roles. These target clients may include large food chains, media and PR companies, software solutions providers, hardware manufacturers, mortgage brokers and real estate franchises.

Our enterprise focus results in continuous integration of new technology into the Platform. In April 2014, we partnered with Qualcomm Retail Solutions to integrate their popular Gimbal™ context awareness technology into the Platform. Gimbal uses low-cost proximity micro-location beacon technology to exchange information between a mobile device and a beacon for areas of less than 50 meters in radius. This new technology has far reaching applications in retail, healthcare and other industries, where real-time interaction with a mobile user based on his or her location is of highest importance.

Results of Continuing Operations for the Three Months Ended June 30, 2014 and June 30, 2013

Revenue

We generated revenues of \$194,783 in the three month period ended June 30, 2014, which is an increase of \$134,030, or 221%, from \$60,753 in the same period in 2013. As the Platform matures and we continue to grow our market penetration, our customer base is expanding and we retain larger customers with broader ranges of needs in the mobile space that enter into more significant contracts.

Cost of Revenue

Cost of revenue decreased from \$127,347 to \$124,682 by \$2,665, or 2%, in the three month period ended June 30, 2014 compared to the same period in 2013. There were no significant changes in the composition of our product team or infrastructure to support the Platform.

Gross Profit

Gross profit was \$70,101 for the three months ended June 30, 2014, compared to the loss of \$66,594 for the same period in 2013, an increase of \$136,695. In a SaaS model, the cost to deliver revenue increases at a much smaller rate than revenue itself. As we retain current customers and acquire new customers, our gross margins are expected to increase.

Sales and Marketing

Sales and marketing expenses decreased from \$265,141 to \$235,627 by \$29,514, or 11%, in the three month period ended June 30, 2014 compared to the same period in 2013. This decrease is attributable to an internal re-allocation of employee wages among departments by function of approximately \$30,000. Our target marketing budget for 2014 remained relatively unchanged from 2013. The majority of non-payroll sales and marketing expenses is a mix of marketing campaigns and tradeshow participation.

Research and Development

Research and development expenses increased from \$222,386 to \$261,737 by \$39,351, or 18%, in the three month period ended June 30, 2014 compared to the same period in 2013. An increase of approximately \$115,283, is attributable to development expenses that were capitalized as software development costs during the three months ended June 30, 2013, compared to \$0 in the three months ended June 30, 2014. During 2013, the Company adopted the Agile development method, which supports the Company's strategy of rapid development and delivery of Platform features to its customers. As a result, the Company ceased capitalizing its research and development costs mid-year 2013. This increase was partially offset by a decrease in developer recruiting fees of approximately \$22,000, a decrease in outsourced development work of \$30,000 and other development expenses.

General and Administrative

General and administrative expenses remained flat at approximately \$347,000 in both the three month periods ended June 30, 2014 and 2013. There were no significant changes in general and administrative expenses between the periods. Most significant legal and professional expenses related to a network breach incident that occurred in June 2012 were incurred through the first quarter of 2013. Subsequent quarters did not result in significant general and administrative expenses fluctuations as we continued to increase our operational efficiency.

Other expenses and gains

We recorded a \$169,861 gain on reversal of previously recorded liabilities. We received confirmation that we will not be required to re-pay any fees associated with previous or future guarantees of our bank loan through issuance of the SBLC by UBS.

Gain on extinguishment of debt

On May 12, 2014, the Company modified all of its current and future Notes outstanding under the Note Purchase Agreement. A modification of a portion of the Notes in the transaction was treated as debt extinguishment and the new Notes were recorded at fair value, which was lower than the previous carrying value. The \$50,129 difference between the carrying value of the \$730,770 non-related party notes and the newly established fair value of the Notes of \$680,640 was recorded as a gain on extinguishment of debt.

Interest expense

Interest expense was \$1,095,243 in the three month period ended June 30, 2014 compared to \$509,380 in the same period in 2013, an increase of \$585,883, or 115%, \$110,522 of which is related to the general increase in debt and the remaining \$475,361 is related to amortization of debt discount.

Results of Continuing Operations for the Six Months Ended June 30, 2014 and June 30, 2013

Revenue

We generated revenues of \$382,728 in the six month period ended June 30, 2014, an increase of \$257,520, or 206%, from \$125,208 in the same period in 2013. Our customer base increased from 27 to 36 customers between these periods; we lost 10 customers (mostly project based app development) that accounted for approximately \$25,000 in revenue in the six month period ended June 30, 2013, but gained 21 new customers (mostly app development Platform subscribers) that accounted for approximately \$233,000 of revenue in the six month period ended June 30, 2014. As the Platform matures and we continue our market penetration, our customer base is expanding and we retain larger customers with broader ranges of needs in the mobile space.

Cost of Revenue

Cost of revenue decreased from \$275,227 to \$260,269 by \$14,958, or 5%, in the six month period ended June 30, 2014 is compared to the same period in 2013. There were no significant changes in the composition of our product team or infrastructure to support the Platform

Gross Profit

Gross profit was \$122,459 for the six months ended June 30, 2014, compared to a loss of \$150,019 for the same period in 2013, an increase of \$272,478. In a SaaS model, the cost to deliver revenue increases at a much smaller rate than revenue itself. As we retain current customers and acquire new customers, our gross margins are expected to increase.

Sales and Marketing

Sales and marketing expenses decreased from \$552,453 to \$455,784 by \$96,669, or 17%, in the six month period ended June 30, 2014 compared to the same period in 2013. This decrease is attributable to an internal re-allocation

of employee wages among departments by function of approximately \$100,000. Our target marketing budget for 2014 remained relatively unchanged from 2013. The majority of non-payroll sales and marketing expenses is a mix of marketing campaigns and tradeshow participation.

Research and Development

Research and development expenses increased from \$390,216 to \$530,614 by \$140,398, or 36%, in the six month period ended June 30, 2014 compared to the same period in 2013. Payroll and related expenses of our development team increased by \$22,934 due to the continued expansion of our development team to support new features of the Platform. In addition, stock based compensation increased by approximately \$25,000 as a result of the recognition of expenses related to stock options granted in September 2013. These increases were offset by a decrease of \$30,000 in outsourced development work and \$22,000 decrease in recruiting fees.

An increase of approximately \$156,000 is attributable to development expenses that were capitalized as software development costs during the six months ended June 30, 2013, compared to \$0 in the six months ended June 30, 2014. During 2013, the Company adopted the Agile development method, which supports the Company's strategy of rapid development and delivery of Platform features to its customers. As a result, the Company ceased capitalizing its research and development costs mid-year 2013. We believe that the current composition of our development team is sufficient for implementation of our research and development strategy and to support our growth.

General and Administrative

General and administrative expenses decreased from \$764,509 to \$682,569 by \$81,940, or 11%, in the six month period ended June 30, 2014 compared to the same period in 2013. This decrease is due to a reduction in legal and professional fees associated with a network breach incident that occurred in June 2012.

Other expenses and gains

We recorded a \$169,861 gain on reversal of previously recorded liabilities. We will not be required to re-pay fees associated with previous or future guarantees of the LSA through issuance of SBLC by UBS.

Gain on extinguishment of debt

On May 12, 2014, the Company modified all of its current and future Notes outstanding under the Note Purchase Agreement. A modification of a portion of the Notes in the transaction was treated as debt extinguishment and the new Notes were recorded at fair value, which was lower than the previous carrying value. The \$50,129 difference between the carrying value of the \$730,770 non-related party notes and the newly established fair value of the Notes of \$680,640 was recorded as a gain on extinguishment of debt.

Interest expense

Interest expense was \$1,921,685 in the six month period ended June 30, 2014 compared to \$981,698 in the same period in 2013, an increase of \$939,987, or 96%, \$217,361 of which is related to the general increase in debt and the remaining \$722,605 of which is related to amortization of debt discount.

Liquidity and Capital Resources

We have not yet achieved positive cash flows from operations, and our main source of funds for our operations is the sale of additional Notes. We must continue to rely on this source until we are able to generate sufficient cash from revenues to fund our operations. We believe that anticipated cash flows from operations, and additional issuances of Notes, together with cash on hand, will provide sufficient funds to finance our operations at least for the next 12 to 15 months, depending on our ability to achieve strategic goals outlined in our annual operating budget approved by the Board of Directors. Changes in our operating plans, lower than anticipated sales, increased expenses, or other events may cause us to seek additional equity or debt financing in future periods. There can be no guarantee that financing will be available on acceptable terms or at all. Additional equity and convertible debt financing could be dilutive to the holders of shares of our common stock, and additional debt financing, if available, could impose greater cash payment obligations and more covenants and operating restrictions.

Uses of Cash

During the six months ended June 30, 2014, we used in operating activities approximately \$2.97 million, which was offset by approximately \$430,000 in cash collected from our customers; approximately \$1,166,000 was used to pay interest payments on the Notes and bank debt; approximately \$1,210,000 was used for payroll, benefits and related costs; approximately \$130,000 was used on non-payroll related sales and marketing efforts; and approximately \$460,000 was used for other non-payroll development and general and administrative expenses, which included among other things infrastructure costs, rent, insurance, legal and professional fees and other expenditures.

Capital Expenditures and Investing Activities

Our capital expenditures are limited to the purchase of new office equipment, computers and related peripherals and new mobile devices that are used for testing. Cash used for investing activities in the six months ended June 30, 2014 was insignificant. We are not planning any significant capital expenditures in the near future.

Financing Activities and Sources of Cash

Since November 14, 2007, we have financed our working capital deficiency primarily with the issuance of Notes under the Note Purchase Agreement. During the six months ended June 30, 2014, we borrowed an additional \$3,440,000 under the Note Purchase Agreement. The aggregate face value of outstanding Notes, as of June 30, 2014, was \$29,605,000. The carrying value of the Notes was \$24,039,514, as of June 30, 2014, which included a remaining unamortized discount of \$5,565,486. As of the date of this report, we have approximately \$3,500,000 available to borrow under the Note Purchase Agreement non-binding commitment.

On May 12, 2014, we entered into the Seventh Amendment to the Note Purchase Agreement and the Fifth Amendment to the Notes with a majority of the Noteholders. The Seventh Amendment and the Fifth Amendment applied to all \$28,205,000 in principal amount of Notes outstanding as of May 12, 2014 and will apply to any future Notes sold by the Company. As amended, the Notes have the following terms:

- a maturity date of the earlier of (i) November 14, 2016, (ii) a Change of Control (as defined in the Note Purchase Agreement), or (iii) when, upon or after the occurrence of an Event of Default (as defined in the Note Purchase Agreement) such amounts are declared due and payable by a Noteholder or made automatically due and payable in accordance with the terms of the Note Purchase Agreement;
- an interest rate of 8% per year;
- a total borrowing commitment of \$33.3 million;
- a conversion price that is fixed at \$1.43; and
- optional conversion upon Noteholder request, provided that, if at the time of any such request, we do not have a sufficient number of shares of common stock authorized to allow for such conversion as well as the issuance of the maximum amount of common stock permitted under our 2004 Equity Compensation Plan, the Noteholder may request that we call a special meeting of our stockholders specifically for the purpose of increasing the number of shares of common stock authorized to cover the remaining portion of the Notes outstanding as well as the maximum issuances permitted under the 2004 Equity Compensation Plan.

On June 9, 2014 the Company entered into the Eighth Amendment to the Note Purchase Agreement and the Sixth Amendment to the Notes with a majority of the Noteholders. The only modification that resulted from these amendments was direct subordination of all current and future Notes under the Note Purchase Agreement to the LSA Comerica, which is discussed further below.

On June 30, 2014, we sold an additional Note due November 14, 2016 in the principal amount of \$1,000,000, or the New Note, to a current Noteholder upon substantially the same terms and conditions as our previously issued Notes, the terms of which are as described in Item 1 and Exhibit 4.1 of our Quarterly Reports on Form 10-Q filed with the SEC on November 14, 2007 and November 12, 2008, under Item 2.03 of our Current Reports on Forms 8-K filed with the SEC on November 21, 2008 and February 25, 2009, under Item 1.01 of our Current Report on Form 8-K filed with the SEC on March 8, 2010, under Item 1.01 of our Current Report on Form 8-K filed with the SEC on June 19, 2012, under Item 1.01 of our Current Report on Form 8-K filed with the SEC on July 2, 2013 and under Item 5 and in Exhibit 10.1 of our Quarterly Report on Form 10-Q filed with the SEC on May 15, 2014, which descriptions are incorporated herein by reference, and in this Quarterly Report on Form 10-Q. We are obligated to pay interest on the New Note at an annualized rate of 8% payable in quarterly installments commencing September 30, 2014. As with existing Notes, we are not permitted to prepay the New Note without approval of the holders of at least a majority of the aggregate principal amount of the Notes then outstanding.

On June 9, 2014, we refinanced the IDB Credit Facility with a new financial institution by entering into the LSA with Comerica. We borrowed the entire amount available under the LSA (\$5,000,000) and used those proceeds to repay the IDB Credit Facility in full.

The LSA has the following terms:

- a maturity date of June 9, 2016;
- a variable interest rate at prime plus 0.6% (3.85% on the date of execution) payable quarterly;
- secured by substantially all of the assets of the Company, including the Company's intellectual property;
- secured by an SBLC issued by UBS AG with an initial term expiring on May 31, 2015, which term shall be automatically renewed for one year periods, unless notice of non-renewal is given by UBS AG at least 45 days prior to the then current expiration date; and
- acceleration of payment of all amounts due thereunder upon the occurrence and continuation of certain events of default, including but not limited to, our failure to perform our obligations and observe the covenants made by us under the LSA and our insolvency.

We incurred \$12,500 in bank fees and approximately \$30,000 in legal fees in connection with entering into the LSA. The legal fees were recorded as deferred financing cost and will be charged to interest expense over the life of the LSA.

Off Balance Sheet Arrangements

As of June 30, 2014, we had no off balance sheet arrangements that have had or that we expect would be reasonably likely to have a future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Going Concern

We have not yet achieved positive cash flows from operations, and our main source of funds for our operations is the sale of additional Notes. We must continue to rely on this source until we are able to generate sufficient cash from revenues to fund our operations. Changes in our operating plans, lower than anticipated sales, increased expenses, or other events may cause us to seek additional equity or debt financing in future periods. There can be no guarantee that financing will be available on acceptable terms or at all. Additional equity financing could be dilutive to the holders of shares of our common stock, and additional debt financing, if available, could impose greater cash payment obligations and more covenants and operating restrictions on us.

Our independent registered public accounting firm has issued an emphasis of matter paragraph in their report included in the Annual Report in which they express substantial doubt as to our ability to continue as a going concern. The condensed consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts or classification of liabilities that might be necessary should we be unable to continue as a going concern. Our continuation as a going concern depends on our ability to generate sufficient cash flows to meet our obligations on a timely basis, to obtain additional financing that is currently required, and ultimately to attain profitable operations and positive cash flows. There can be no assurance that our efforts to raise capital or increase revenue will be successful. If our efforts are unsuccessful, we may have to cease operations and liquidate our business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures for the three months ended June 30, 2014. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, as appropriate to allow for timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, as ours are designed to do, and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2014, our disclosure controls and procedures were effective at a reasonable assurance level.

There has been no change to our internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, during the three months ended June 30, 2014 that has materially affected, or that is reasonably likely to materially affect, our internal control over financial reporting.
