PROXY STATEMENT FOR 2008 ANNUAL MEETING

GENERAL INFORMATION ABOUT THE MEETING AND VOTING

Who can attend the annual meeting?

All stockholders as of the record date, January 17, 2008.

Who can vote?

You can vote your shares of common stock if our records show that you owned the shares on January 17, 2008. A total of 10,249,656 shares of common stock can vote at the annual meeting. You get one vote for each share of common stock. We do not recognize cumulative voting for the election of our directors. The enclosed proxy card shows the number of shares you can vote.

How do I vote by proxy?

Follow the instructions on the enclosed proxy card to vote on each proposal to be considered at the annual meeting. Sign and date the proxy card and mail it back to us in the enclosed envelope. The proxyholders named on the proxy card will vote your shares as you instruct. If you sign and return the proxy card but do not vote on a proposal, the proxyholders will vote for you on that proposal. Unless you instruct otherwise, the proxyholders will vote for each of the seven directors and for the ratification of Hogan & Slovacek as independent auditors.

What if other matters come up at the annual meeting?

The matters described in this proxy statement are the only matters we know will be voted on at the annual meeting. If other matters are properly presented at the meeting, any proxies returned to us will be voted as the proxyholders see fit.

Can I change my vote after I return my proxy card?

Yes. At any time before the vote on a proposal, you can change your vote either by giving our secretary a written notice revoking your proxy card or by signing, dating and returning to us a new proxy card. We will honor the proxy card with the latest date. Attendance at the annual meeting will not, by itself, revoke your proxy card.

Can I vote in person at the annual meeting rather than by completing the proxy card?

Although we encourage you to complete and return the proxy card to ensure that your vote is counted, you can attend the annual meeting and vote your shares in person. If your shares are held in the name of your broker, a bank, or other nominee, that party should give you instructions for voting your shares.

How are votes counted?

We will hold the annual meeting if holders of a majority of the shares of common stock entitled to vote either sign and return their proxy cards or attend the meeting. If you sign and return your proxy card, your shares will be counted to determine whether we have a quorum even if you abstain or fail to vote on any of the proposals listed on the proxy card. Votes will be tabulated by an inspector of election appointed by our Board of Directors. Abstentions from voting, which you may specify on the ratification of the appointment of Hogan & Slovacek as independent auditors, will have the effect of a negative vote.

If your shares are held in the name of a nominee, and you do not tell the nominee how to vote your shares (so-called "broker nonvotes"), the nominee may vote them on the proposals to elect directors and to ratify the appointment of Hogan & Slovacek as our independent auditors. Additionally, broker nonvotes will be counted as present to

determine if a quorum exists.

What percentage of stock are the directors and executive officers entitled to vote at the annual meeting?
Together, they own 4,513,400 shares of our common stock, or 44.0% of the stock entitled to vote at the Annual Meeting.

Who are the largest principal stockholders?

Kenneth A. Chymiak, our President and Chief Executive Officer, beneficially owns 2,046,000 shares of our common stock, or 20.0% of the stock entitled to vote at the Annual Meeting. David E. Chymiak, our Vice President and Chairman of the Board, beneficially owns 2,429,900 shares of our common stock, or 23.7% of the stock entitled to vote at the Annual Meeting.

Who pays for this proxy solicitation?

The accompanying proxy is solicited by and on behalf of our Board of Directors, and the entire cost will be paid by us. In addition to sending you these materials, some of our employees may contact you by telephone, by mail or in person. None of these employees will receive any extra compensation for doing this, but they may be reimbursed for their out-of-pocket expenses incurred while assisting us in soliciting your proxy.

Board Independence. The Board of Directors has determined that Messrs. The following describes the functions and membership of each committee and the number of times it met during our fiscal year ended September 30, 2007:

AUDIT COMMITTEE

The functions and members of the Audit Committee are set forth below. Stephen J. Tyde was the Chairman of the Committee from October 2006 through August 2007, at which time he was succeeded by Paul F. Largess. The Audit Committee met five times during fiscal 2007. Report of the Audit Committee

The Audit Committee of our Board of Directors is comprised of four directors who are not officers. Under currently applicable rules, each member is an independent director of our company under the rules of NASDAQ as well as under rules adopted by the Securities and Exchange Commission pursuant to the Sarbanes-Oxley Act of 2002.

The Audit Committee reviews our financial reporting process on behalf of the Board of Directors. The Audit Committee's policy is to review and pre-approve all proposed engagements for audit or non-audit services rendered by our independent auditors. Under its pre-approval policy, the Audit Committee approved 100% of the services provided by Hogan & Slovacek in 2007 as those services are described in the section entitled "Principal Accounting Fees and Services." Management has the primary responsibility for the financial statements and the reporting process, including the system of internal controls.

In connection with its function to oversee and monitor our financial reporting process, the Audit Committee has done the following:

- selected Hogan & Slovacek as our independent accountants for the audit of the fiscal 2007 financial statements.
- reviewed and discussed the audited financial statements for the fiscal year ended September 30, 2007, with management;
- discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 as amended (AICPA, Professional Standards, Vol. 1. AU Section 380), including the independent auditor's judgments as to the quality, not just the acceptability, of our accounting principles and such other matters as are required to be discussed with the committee under generally accepted auditing standards;
- received the written disclosures and the letter from the independent accountants required by Independence Standards Board Standard No. 1 (Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees), and has discussed with the independent accountant the independent accountant's independence; and
- based on the reviews and discussions referred to above, recommended to the Board that the audited financial statements be included in our Annual Report on Form 10-K for fiscal year 2007 for filing with the Securities and Exchange Commission (the "SEC").

Audit Committee Financial Expert

The SEC has adopted rules pursuant to the provisions of the Sarbanes-Oxley Act requiring audit committees to include an “audit committee financial expert,” defined as a person who has the following attributes:

- 1) an understanding of generally accepted accounting principles and financial statements;
- 2) the ability to assess the general application of such principles in connection with the accounting for estimates, accruals and reserves;
- 3) experience preparing, auditing, analyzing or evaluating financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the registrant’s financial statements, or experience actively supervising one or more persons engaged in such activities;
- 4) an understanding of internal control over financial reporting; and
- 5) an understanding of audit committee functions.

The financial expert will have to possess all of the attributes listed above to qualify as an audit committee financial expert.

Our Board of Directors has determined that Thomas J. Franz, Paul F. Largess, James C. McGill and Stephen J. Tyde each meets the definitions of a Audit Committee financial expert as defined by the SEC in rules adopted pursuant to the Sarbanes-Oxley Act of 2002.

Under currently applicable rules, each member is an “independent director” as defined under Rule 4200 of NASDAQ, a “non-employee director” (within the meaning of Rule 16b-3(b)(3) of the Securities Exchange Act of 1934) and satisfies the requirements of an “outside director” as defined by Section 162(m) of the Internal Revenue Code.

Compensation Discussion and Analysis

Objectives of Compensation Program

The Compensation Committee establishes and monitors the base salary of Kenneth A. Chymiak, President and Chief Executive Officer (CEO) and David E. Chymiak, Vice President and Chairman of the Board (Chairman). The Committee is responsible for evaluating the overall performance of the CEO and Chairman on an annual basis and makes salary and incentive changes based on the results of the evaluation performed. The Compensation Committee has historically maintained the same pay structure for both the CEO and Chairman positions as both officers currently share the responsibilities for the top executive officer of the Company. This historical practice is expected to continue as long as Messrs. Chymiak maintain their current responsibilities.

The Compensation Committee is guided by the following key objectives in determining the compensation of our CEO, Chairman and other executive officers who are specifically named in the table below captioned "Summary Compensation Table" under the section captioned "Compensation of Directors and Executive Officers" ("NEOs"):

· Competitive Pay

A goal of the Compensation Committee is maintaining total compensation on a basis consistent with similar companies that generate similar revenues and achieve similar EBIT margins, as well as other strategic and performance characteristics. Compensation should reflect the competitive marketplace so that we can attract, retain and motivate high caliber executives. In constructing the various elements of total compensation, we generally target base pay to be at or below the market median and incentive compensation to be at or above the market median. These component objectives support our overall objective to establish a competitive executive compensation program.

· Accountability for Business Performance

Compensation should be largely tied to our overall financial and operating performance, so that executives are held accountable through their compensation for achievement of our financial and operating results.

· Accountability for Individual Performance

Compensation should also be tied to the individual's performance to encourage and reflect individual contributions to our performance.

· Compensation Program Design

Our executive compensation program should be designed to clearly and fairly relate pay to performance, with the objective of creating long term shareholder value. Our executive compensation program should also be designed to match pay practices with corporate goals. Each year, we approve an incentive compensation plan. At the end of the year, the Compensation Committee conducts a retrospective review of compensation related actions to determine if objectives have been met.

· Role of Executive Officers in Compensation Decisions

The Compensation Committee is responsible for evaluating the overall performance of the CEO and Chairman on an annual basis and makes salary and incentive changes based on the results of the evaluations performed. The CEO and Chairman do not participate in this evaluation process but have, in the past, declined or accepted on a reduced basis, certain Compensation Committee recommended pay increases to their salaries.

The CEO and Chairman are responsible for making recommendations to the Committee for the base salaries and incentives of other NEOs. The Compensation Committee reviews and approves or rejects these recommendations, on a majority vote basis, without the votes of the CEO and Chairman. In the event that a recommendation is not approved by a majority of the Committee, the CEO and Chairman reevaluate, amend and resubmit their recommendation.

Elements of Compensation

Our executive compensation program has four elements: base salary, non-equity incentive compensation, equity incentive compensation and perquisites. Generally, we target compensation for our NEOs at levels competitive with market median practice. In addition, NEOs holding higher offices have the potential to receive a greater percentage of their total compensation in the form of non-equity incentive compensation.

From time to time, to we issue equity incentive compensation as inducement to attract and retain key NEOs. When we award equity incentive compensation, there is typically a vesting period in which the incentive award is earned. In addition, certain NEOs are members of the Board of Directors and receive equity incentive awards, at levels similar to other non-employee Directors, as compensation for their services as Director. These equity incentive compensation awards are vested when issued.

· Base Salary

We provide NEOs, officers and other employees with a base salary to compensate for services rendered during the fiscal year.

· Non-Equity Incentive Compensation

Our Senior Management – Incentive Compensation Plan is designed to provide performance based compensation awards to executives for achievement of our financial objectives.

· Equity Incentive Compensation

Equity incentive compensation is awarded on a case by case basis based on the recommendation of the CEO and approval by the Committee. In addition, equity incentive compensation is earned by certain NEOs for service on the Board of Directors.

· Other Compensation

We provide our NEOs (and certain other management employees) with limited perquisites and other personal benefits that we believe are generally reasonable and consistent with industry practice. In addition our NEOs participate in the Company's qualified 401(k) plan along with our other non-NEO employees. After one year of service, employees receive a dollar-for-dollar company matching contribution up to 5% of eligible compensation.

· Other Benefit Plans

The NEOs also are eligible to participate in the employee benefit plans and programs generally available to other employees, including coverage under ADDvantage's medical, dental, life and disability insurance plans. Again, such plans are consistent with our compensation objectives, particularly our ability to recruit and retain employees. The costs associated with these plans are not included as compensation in our Compensation Summary Table.

Determination of Amount of Each Element of Compensation

· Benchmarking

We believe that we compete for executive talent against a broad array of companies, not limited to our direct business competitors. We also believe that the levels we pay our NEOs should reflect the size and scope of our operations. Accordingly, we attempt to provide our NEOs with compensation that is competitive with the pay levels for comparable positions at companies of similar revenues size. The Compensation Committee engages Villareal and

Associates, a local executive recruiting and consulting firm, to identify the salaries of similar officers at other companies in the local marketplace of similar revenue and employee size. The Committee also obtains benchmarking compensation information from generally available databases, primarily accessible through the internet. The Compensation Committee evaluates and compares this information, along with other relevant facts and circumstances including but not limited to internal equity, individual performance and individual job responsibilities, when making compensation decisions as discussed below.

· Base Salary

Although compared annually to available salary data and surveys, the base salaries established in 2006 for the CEO and Chairman were increased with a cost of living adjustment based upon the Consumer Price Index as published by the Bureau of Labor statistics. This procedure was deemed to be reasonable in the market for executive management talent (as previously discussed) that is not dynamically changing.

· Non-Equity Incentive Compensation

In 2007, we approved the Senior Management Incentive Compensation Plan. Based first on exceeding a targeted sales threshold, NEOs are awarded non-equity incentive compensation based on comparison of our earnings before interest and taxes (EBIT) as a percentage of a set target EBIT. Under this plan, cash incentives could be earned to a maximum of 55% of the CEO's and Chairman's base salaries.

% Target CEO & CHAIRMAN INCENTIVE
AWARD
(% of Base Salary)

105%	15%
110%	20%
115%	25%
120%	30%
125%	35%
130%	40%
135%	45%
140%	50%
145+%	55%

· Equity Compensation

Our CEO and Chairman received stock options during the second quarter of the fiscal year for their services as members of the Board of Directors, at levels consistent with non-employee directors. Under SEC Rules, we are required to report in the Summary Compensation Table the fair value of the stock options issued to each of our NEOs. The fair values are calculated in accordance with Financial Standards Board Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment (FAS 123R).

· Other Compensation

For the fiscal year 2007, the perquisites and personal benefits awarded to NEOs were limited to an automobile allowance and the matching contributions to the Company's qualified 401(k) plan.

The Corporate Governance and Nominating Committee is comprised of three directors who are not officers. Under currently applicable rules, each member is an “independent director” as defined under the NASDAQ rules as well as under rules adopted by the Securities and Exchange Commission pursuant to the Sarbanes-Oxley Act of 2002.

The Corporate Governance and Nominating Committee’s criteria and process for identifying and evaluating the candidates that it selects, or recommends to the full Board for selection, as director nominees, are: (i) regular review of composition and size of the board; (ii) review of qualifications of candidates properly recommended or nominated by any qualifying shareholder; (iii) evaluation of the performance of the Board and qualification of members of the Board eligible for re-election; and (iv) consideration of the suitability of each candidate, including current members of the Board, in light of the size and composition of the Board. After such review and consideration, the Corporate Governance and Nominating Committee will recommend, based solely on the vote of the independent committee members, a slate of director nominees.

While the Corporate Governance and Nominating Committee has not established specific minimum requirements for director candidates, other than they be at least 21 years of age, the Committee believes that candidates and nominees must reflect a board that is comprised of directors who: (i) are predominantly independent; (ii) are of high integrity; (iii) have qualifications that will increase overall board effectiveness; and (iv) meet other requirements as may be required by applicable rules, such as financial literacy or financial expertise with respect to audit committee members.

The Corporate Governance and Nominating Committee has adopted a policy with regard to the consideration of director candidates recommended by shareholders. The Corporate Governance and Nominating Committee will consider director candidates recommended by any shareholder holding 10,000 shares of our common stock for at least 12 months prior to the date of submission of the recommendation or nomination. Additionally, a recommending shareholder shall submit a written statement in support of the candidate, particularly within the context of the criteria for board membership, including issues of character, judgment, age, independence, expertise, corporate experience, length of service, other commitments and the like, personal references, and a written indication by the candidate of his/her willingness to serve, if elected, and evidence of the recommending person's ownership of our stock sufficient to meet the stock ownership requirements described above.

Board Meetings

Our Board held four meetings during fiscal 2007. Each director attended at least 75% of all meetings of the Board and the committees on which he served.

Shareholder Communication with the Board of Directors and Committees

Written correspondence to Mr. Tyde may be delivered to our executive offices, 1221 East Houston, Broken Arrow, Oklahoma, 74012. All security holder communications directed to Mr. Tyde will be promptly forwarded to him. All Board members are encouraged, but not required, to attend our annual meeting. Last year, all of our Board members attended our annual meeting.

CODE OF ETHICS

We have adopted a Code of Business Conduct and Ethics which is applicable to all of our directors, officers and employees. A copy of our Code of Business Conduct and Ethics is posted on our website at www.addvantagetech.com.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

During fiscal 2007, we leased four separate properties in Broken Arrow, Oklahoma from two companies owned by David E. Chymiak and Kenneth A. Chymiak. The combined lease payments made during fiscal 2007 on these properties totaled \$341,840. During the fiscal year, we purchased one of these leased facilities, further discussed below, and are in the process of vacating and consolidating the other three leased warehouses into the recently purchased facility. We currently continue to lease these remaining properties as overflow warehouse under existing leases which expire on September 30, 2008. The minimum future payments under these leases are expected to total \$331,840 in fiscal 2008.

On November 20, 2006, we purchased real estate, consisting of an office and warehouse facility located on ten acres in Broken Arrow, OK, from Chymiak Investments, LLC, a Company owned equally by David E. Chymiak and Kenneth A. Chymiak, for \$3,250,000. The office and warehouse facility is currently being utilized as our headquarters and the office and warehouse of our subsidiary, Tulsat Corporation. The office and warehouse facility contains approximately 100,000 square feet of gross building area and was recently renovated and modified for our specific use. This transaction was reviewed by our Corporate Governance and Nominating Committee. The Committee evaluated several options for leasing the building from Chymiak Investments, LLC and financing options related to purchasing the real estate. In determining whether to lease the property from Chymiak Investments, LLC or purchase the property the Committee reviewed a "Lease vs. Buy" analysis performed by our management showing the costs associated with leasing the property would be greater than the costs associated with owning the real estate. Based on the review of our liquidity and the financial benefits associated with owning the property, the Committee recommended that we purchase the property for a fair and reasonable price. In evaluating the reasonableness of the purchase price, the Committee reviewed a detail of the expenses paid by Chymiak Investments LLC identifying the money spent to purchase the building and modify it for our specific use totaling approximately \$3.250 million, a third party independent appraisal showing the appraised value at \$3.420 million and an insurance report from a third party property insurer identifying the replacement cost for the real estate at \$5.4 million. Based on the evaluation, the Committee recommended, and the Board of Directors approved, the purchase of the real estate by us for \$3.25 million.

On November 27, 2007 we redeemed all of the issued and outstanding shares of the Company's Series B 7% Cumulative Preferred Stock (Series B Stock). All of these shares of preferred stock were beneficially held by 50% by David E. Chymiak and 50% by Kenneth A. Chymiak. We financed the \$12.0 million redemption price of the outstanding Series B Stock through an increase in our revolving and term loan credit facility with our primary financial lender, Bank of Oklahoma.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires our directors and executive officers, and persons who own more than 10% of our common stock to report their initial ownership of our common stock and any subsequent changes in that ownership to the SEC and to furnish us with a copy of each of these reports. SEC regulations impose specific due dates for these reports and we are required to disclose in this proxy statement any failure to file by these dates during fiscal 2006.

Based solely on the review of the copies of these reports furnished to us and written representations that no other reports were required, during and with respect to the fiscal year ended September 30, 2007, we believe that these

persons have complied with all applicable filing requirements.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditor

Consistent with SEC policies regarding auditor independence, the Audit Committee has responsibility for appointing, setting compensation and overseeing the work of the independent registered public accounting firm. In recognition of this responsibility, the Audit Committee has established a policy to pre-approve all audit and permissible non-audit services provided by the independent registered public accounting firm. During the year the Audit Committee approved all of the services performed by the independent accounting firms. The fees billed for these services approximated 100% of the pre-approved amounts.

Before engagement of the independent registered public accounting firm for the next year's audit, management will submit a list of services and related fees expected to be rendered during that year within each of the following four categories of services to the Audit Committee for approval:

1. Audit services include audit work performed on the financial statements, internal control over financial reporting, as well as work that generally only the independent registered public accounting firm can reasonably be expected to provide, including comfort letters, statutory audits, and discussions surrounding the proper application of financial accounting and/or reporting standards.
2. Audit-Related services are for assurance and related services that are traditionally performed by the independent registered public accounting firm, including due diligence related to mergers and acquisitions, employee benefit plan audits, and special procedures required to meet certain regulatory requirements.
3. Tax services include all services, except those services specifically related to the audit of the financial statements, performed by the independent registered public accounting firm's tax personnel, including tax analysis; assisting with coordination of execution of tax related activities, primarily in the area of corporate development; supporting other tax related regulatory requirements; and tax compliance and reporting.
4. Other Fees are those associated with services not captured in the other categories. We generally don't request such services from the independent registered public accounting firm.

Before engagement, the Audit Committee pre-approves the independent registered public accounting firm's services within each category. During the year, circumstances may arise when it may become necessary to engage the independent registered public accounting firm for additional services not contemplated in the original pre-approval categories. In those instances, the Audit Committee requires specific pre-approval before engaging the independent registered public accounting firm.

The Audit Committee may delegate pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting.
