Table of Contents**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****Note A Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and therefore do not include all information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. Except as disclosed herein, there has been no material change in the information disclosed in the notes to the consolidated financial statements included in the Annual Report on Form 10-K of Genuine Parts Company (the Company) for the year ended December 31, 2006. Accordingly, the quarterly condensed consolidated financial statements and related disclosures herein should be read in conjunction with the 2006 Annual Report on Form 10-K.

The preparation of interim financial statements requires management to make estimates and assumptions for the amounts reported in the condensed consolidated financial statements. Specifically, the Company makes estimates in its interim consolidated financial statements for the accrual of bad debts, inventory adjustments, discounts and volume incentives earned, among others. Bad debts are accrued based on a percentage of sales, and volume incentives are estimated based upon cumulative and projected purchasing levels. Inventory adjustments are accrued on an interim basis and adjusted in the fourth quarter based on the annual book to physical inventory adjustment. The estimates for interim reporting may change upon final determination at year-end, and such changes may be significant.

In the opinion of management, all adjustments necessary for a fair statement of the Company's financial results for the interim period have been made. These adjustments are of a normal recurring nature. The results of operations for the six months ended June 30, 2007 are not necessarily indicative of results for the entire year.

component of net sales in the Company's condensed consolidated statements of income.

Table of Contents**Note C Comprehensive Income**

Comprehensive income was \$303.7 million and \$249.1 million for the six months ended June 30, 2007 and 2006, respectively. The difference between comprehensive income and net income was due to foreign currency translation adjustments, adjustments to the fair value of derivative instruments and amounts amortized into net periodic benefit cost as required by Statement of Financial Accounting Standards (SFAS) No. 158, *Employers Accounting for Defined Benefit Pension and Other Postretirement Plans* (SFAS No. 158), as summarized below:

	Six Months Ended June 30,

Comprehensive income for the three months ended June 30, 2007 and 2006 totaled \$173.4 million and \$137.6 million, respectively.

Note D Recently Issued Accounting Pronouncements

On September 15, 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles in the United States, and expands disclosures about fair value measurements. SFAS No. 157 does not expand the use of fair value in any new circumstances. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company does not expect SFAS No. 157 will have a significant impact on the Company s consolidated financial statements.

In June 2007, the FASB issued EITF 06-11, *Accounting for the Income Tax Benefits of Dividends on Share-Based Payment Awards* (EITF 06-11). EITF 06-11 requires tax benefits associated with dividends on share-based payment awards to be recorded as a component of additional paid-in capital. EITF 06-11 is effective, on a prospective basis, for fiscal years beginning after December 15, 2007. The Company does not expect EITF 06-11 will have a significant impact on the Company s consolidated financial statements.

Note E Share-Based Compensation

As more fully discussed in Note 5 of the Company s notes to the consolidated financial statements in the 2006 Annual Report on Form 10-K, the Company maintains various Long-Term Incentive Plans, which provide for the granting of stock options, stock appreciation rights (SARs), restricted stock, restricted stock units (RSUs), performance awards, dividend equivalents and other share-based awards. The Company issues new shares upon option exercise under these plans. Most options may be exercised not earlier than twelve months nor later than ten years from the date of grant. At June 30, 2007, total compensation cost related to nonvested awards not yet recognized was approximately \$29.6 million, as compared to \$26.7 million at June 30, 2006. The weighted-average period over which this compensation cost is expected to be recognized is approximately three years. The aggregate intrinsic value for options and RSUs outstanding at June 30, 2007 was approximately \$76.4 million, as compared to approximately \$45.9 million

at June 30, 2006. At June 30, 2007 the aggregate intrinsic value for options and RSUs vested totaled approximately \$50.4 million, as compared to approximately \$31.2 million at June 30, 2006. At June 30, 2007, the weighted-average contractual life for outstanding and exercisable options and RSUs was seven and six years, respectively. For the six months ended June 30, 2007, \$7.2 million of share-based compensation cost was recorded, as compared to \$5.4 million for the same period in the prior year.

Table of Contents

For the six months ended June 30, 2007, the Company granted approximately 1,272,000 SARs and 95,000 RSUs. SARs represent a right to receive the excess, if any, of the fair market value of one share of common stock on the date of exercise over the grant price. RSUs represent a contingent right to receive one share of the Company's common stock at a future date provided certain pre-tax profit targets are achieved. The majority of awards vest on a pro-rata basis for periods ranging from one to five years and are expensed accordingly on a straight-line basis.

Note F Income Taxes

On July 13, 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, an interpretation of FASB Statement No. 109 (FIN No. 48), to create a single model to address accounting for uncertainty in tax positions. FIN No. 48 clarifies the accounting for income taxes by prescribing a minimum threshold that a tax position is required to meet before being recognized in the financial statements. FIN No. 48 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN No. 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted FIN No. 48 on January 1, 2007. The cumulative effect of adopting FIN No. 48 did not have a material impact on the Company's financial position or results of operation. The Company's gross tax effected unrecognized tax benefits as of the date of the adoption was approximately \$28 million, of which approximately \$14 million, if recognized, would affect the Company's effective tax rate. In addition, at the date of adoption, the Company had accrued interest and penalties related to the unrecognized tax benefits of approximately \$1 million, which is included as a component of the unrecognized tax benefit of \$28 million noted above. The Company recognizes potential interest and penalties related to unrecognized tax benefits as a component of income tax expense. With few exceptions, the Company is no longer subject to United States federal, state and local income tax examinations for years ended before 2004 or before 2000 for non-United States income tax examinations. The Company does not anticipate total unrecognized tax benefits will significantly change during the year due to the settlement of audits and the expiration of statutes of limitations.

Pension benefits also include amounts related to a supplemental retirement plan. During the six months ended June 30, 2007, the Company contributed \$30 million to the pension plan.

Table of Contents**Note H Guarantees**

In June 2003, the Company completed an amended and restated master agreement to our \$85 million construction and lease agreement (the Agreement). The lessor in the Agreement is an independent third-party limited liability company, which has as its sole member a publicly traded corporation. Properties acquired by the lessor are constructed and/or then leased to the Company under operating lease agreements. No additional properties are being added to this Agreement, as the construction term has ended. The Company does not believe the lessor is a variable interest entity, as defined in FASB Interpretation No. 46(R), *Consolidation of Variable Interest Entities, an interpretation of ARB No. 51* (FIN No. 46). In addition, the Company has verified that even if the lessor was determined to be a variable interest entity, the Company would not have to consolidate the lessor nor the assets and liabilities associated with properties leased to the Company. This is because the assets leased under the Agreement do not exceed 50% of the total fair value of the lessor's assets, excluding any assets that should be excluded from such calculation under FIN No. 46, nor did the lessor finance 95% or more of the leased balance with non-recourse debt, target equity or similar funding. The Agreement has been accounted for as an operating lease under SFAS No. 13, *Accounting for Leases* (SFAS No. 13) and related interpretations. Rent expense related to the Agreement is recorded under selling, administrative and other expenses in our condensed consolidated statements of income and was \$2.5 million and \$2.3 million for the six months ended June 30, 2007 and 2006, respectively.

This Agreement, having a term of six years expiring in 2009, contains residual value guarantee provisions and other guarantees that would become due in the event of a default under the operating lease agreement, or at the expiration of the operating lease agreement if the fair value of the leased properties is less than the guaranteed residual value. The maximum amount of the Company's potential guarantee obligation, representing the residual value guarantee, at June 30, 2007, is approximately \$72.6 million. The Company believes the likelihood of funding the guarantee obligation under any provision of the operating lease agreements is remote.

The Company also guarantees the borrowings of certain independently controlled automotive parts stores (independents) and certain other affiliates in which the Company has a minority equity ownership interest (affiliates). Presently, the independents are generally consolidated by unaffiliated enterprises that have a controlling financial interest through ownership of a majority voting interest in the entity. The Company has no voting interest or other equity conversion rights in any of the independents. The Company does not control the independents or the affiliates, but receives a fee for the guarantee. The Company has concluded that it is not the primary beneficiary with respect to any of the independents and that the affiliates are not variable interest entities. The Company's maximum exposure to loss as a result of its involvement with these independents and affiliates is equal to the total borrowings subject to the Company's guarantee.

At June 30, 2007, the total borrowings of the independents and affiliates subject to guarantee by the Company were approximately \$187.6 million. These loans generally mature over periods from one to ten years. In the event that the Company is required to make payments in connection with guaranteed obligations of the independents or the affiliates, the Company would obtain and liquidate certain collateral (e.g., accounts receivable and inventory) to recover all or a portion of the amounts paid under the guarantee. When it is deemed probable that the Company will incur a loss in connection with a guarantee, a liability is recorded equal to this estimated loss. To date, the Company has had no significant losses in connection with guarantees of independents' and affiliates' borrowings.

Effective January 1, 2003, the Company adopted FIN No. 45, *Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others* (FIN No. 45). In accordance with FIN No. 45 and based on available information, the Company has accrued for those guarantees related to the independents and affiliates' borrowings and the construction and lease agreement as of June 30, 2007. These liabilities are not material to the financial position of the Company and are included in other long-term liabilities in the accompanying condensed consolidated balance sheets.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements and accompanying notes contained herein and with the audited consolidated financial statements, accompanying notes, related information and Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2006.

Forward-Looking Statements

Some statements in this report, as well as in other materials we file with the SEC and in materials that we make available on our website or otherwise release to the public, constitute forward-looking statements that are subject to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Senior officers may also make verbal statements to analysts, investors, the media and others that are forward-looking. Forward-looking statements may relate, for example, to future operations, prospects, strategies, financial condition, economic performance (including growth and earnings), industry conditions and demand for our products and services. The Company cautions that its forward-looking statements involve risks and uncertainties, and while we believe that our expectations for the future are reasonable in view of currently available information, you are cautioned not to place undue reliance on our forward-looking statements. Actual results or events may differ materially from those indicated as a result of various important factors. Such factors include, but are not limited to, changes in general economic conditions, the growth rate of the market for the Company's products and services, the ability to maintain favorable supplier arrangements and relationships, competitive product and pricing pressures, including internet related initiatives, the effectiveness of the Company's promotional, marketing and advertising programs, changes in laws and regulations, including changes in accounting and taxation guidance, the uncertainties of litigation, as well as other risks and uncertainties discussed from time to time in the Company's filings with the SEC.

Forward-looking statements are only as of the date they are made, and the Company undertakes no duty to update its forward-looking statements. You are advised, however, to review any further disclosures we make on related subjects in subsequent Forms 10-K, 10-Q and 8-K reports to the SEC.

Overview

Genuine Parts Company is a service organization engaged in the distribution of automotive replacement parts, industrial replacement parts, office products and electrical/electronic materials. The Company has a long tradition of growth dating back to 1928, the year we were founded in Atlanta, Georgia. During the six months of 2007, business was conducted throughout the United States, Puerto Rico, Canada and Mexico from approximately 2,000 locations. We recorded consolidated net income of \$251.7 million for the six months ended June 30, 2007, compared to consolidated net income of \$234.6 million in the same period last year, an increase of 7%. During the second quarter of 2007, the Company continued to focus on initiatives to grow sales and earnings. Such initiatives included new products, product line expansion, the penetration of new markets and a variety of gross margin and cost savings initiatives. For several periods now, our growth initiatives have enabled us to further capitalize on the favorable economic conditions and industry trends in the markets we serve. As a result, we have reported improved performance for the six months ended June 30, 2007.

Critical Accounting Estimates

The preparation of the condensed consolidated financial statement information contained herein requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, net sales and expenses, and related disclosure of contingent assets and liabilities. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

An accounting policy is deemed to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time the estimate is made, and if different estimates that reasonably could have been used, or changes in the accounting estimates that are reasonably likely to occur periodically, could materially impact the financial statements. Information with respect to the Company's critical accounting policies that the Company believes could have the most significant effect on the Company's reported results and require subjective or complex judgments by management is contained in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006. Management believes that as of June 30, 2007, there have been no material changes to this information.

Table of Contents**Sales**

Sales for the second quarter of 2007 were \$2.77 billion, an increase of 4% compared to \$2.66 billion for the same period in 2006. The sales growth in the quarter was driven primarily by our internal growth initiatives across all our businesses, as well as by continued favorable economic conditions and positive industry trends in our Industrial and Electrical/Electronic businesses. For the six months ended June 30, 2007, sales were \$5.42 billion compared to \$5.22 billion for the same period last year, which was an increase of 4%.

Sales for the Automotive Parts Group increased 2% in the second quarter of 2007 as compared to the same period in the previous year and 3% for the six months ended June 30, 2007. We expect new sales and product initiatives in the Automotive Parts Group to provide further growth opportunities for us, and the demographics in the automotive aftermarket remain favorable. The Industrial Products Group increased sales by 9% and 8% in the three and six months ended June 30, 2007, respectively, as compared to the same periods in 2006. The market indices, such as Industrial Production and Capacity Utilization, remain at very solid levels and have shown some further strengthening recently, which has impacted sales for the Industrial Products Group. Sales for the Office Products Group for the second quarter of 2007 increased 1% over the same period in 2006. For the six months ended June 30, 2007, sales have decreased 1% as compared to the first half of 2006. This group has experienced softening demand over the past several months due to industry-wide softness. Sales for the Electrical/Electronic Materials Group increased 7% for the second quarter of 2007 compared to the second quarter of 2006 and 9% for the six months ended June 30, 2007 as compared to the same period of the prior year. The market indicators for this group remain strong and continue to indicate a healthy industry climate, which continues to favorably impact sales for this group.

Cost of Goods Sold/Expenses

Cost of goods sold for the second quarter of 2007 was \$1.90 billion compared to \$1.84 billion for the second quarter of 2006. As a percent of sales, cost of goods sold decreased from 69.00% to 68.60% for the three months ended June 30, 2007. For the six months ended June 30, 2007, cost of goods sold was \$3.72 billion compared to \$3.59 billion for the same period last year and as a percent of sales decreased from 68.77% to 68.60%. The decreases in cost of goods sold as a percent of sales for the three and six month periods ended June 30, 2007 partially reflect the impact of our initiatives to improve gross margins. These include initiatives to improve product and customer mix. The Company has also worked with its customers to pass through most of its supplier price increases along to them. For the six months ended June 30, 2007, cumulative pricing is up 0.6% in Automotive, 2.3% in Industrial, 1.8% in Office Products and 4.2% in Electrical/Electronic.

Selling, administrative and other expenses of \$659.8 million increased slightly to 23.82% of sales for the second quarter of 2007 compared to 23.66% for the same period of the prior year. For the six months ended June 30, 2007, these expenses totaled \$1.30 billion and decreased to 23.91% of sales compared to 23.94% for the same period in 2006. In the second quarter, the Company lost some leverage on expenses due to the low single-digit sales growth in the Automotive and Office Products businesses. Through the six months ended June 30, 2007, our decrease as a percent to sales is attributed to ongoing cost management initiatives.

Operating Profit

Operating profit as a percentage of sales was 8.3% for the three months ended June 30, 2007 compared to 8.2% for the same period of the previous year. For the six months ended June 30, 2007, operating profit as a percentage of sales was 8.2% as compared to 8.1% for the same period of the previous year.

The Automotive Parts Group's operating profit increased 1% in the second quarter of 2007, and its operating profit margin of 8.2% for the three months ended June 30, 2007 was down from 8.3% for the second quarter of 2006. For the six months ended June 30, 2007, the group's operating profit increased 1% and its operating profit margin decreased to 7.9% from 8.1% for the same period last year. The decrease in operating profit margin for this group is primarily due to minimal sales growth within the period. The Industrial Products Group had a 19% increase in operating profit in the second quarter of 2007, and the operating profit margin for this group increased to 8.3% from 7.6% for the same period of the previous year. Operating profit increased 15.5% for the six months ended June 30, 2007 compared to the same 2006 period and the Industrial Products Group's operating profit margin was up from 7.5% for the same period last year to 8.0% in the same 2007 period. The increase in operating profit margin for this group is generally due to gross margin improvement and expense leverage gained from strong sales growth. For the three

month period ended June 30, 2007, the Office Products Group's operating profit decreased 2.3% and the operating profit margin decreased to 8.7% from 9.0% in the same period of the prior year. The decrease in

Table of Contents

operating profit margin for this group is due to the loss of expense leverage caused by the decrease in sales. This group's operating profit margin was 9.7% for the six months ended June 30, 2007, which is unchanged from the same period in the previous year. The Electrical /Electronic Materials Group increased its operating profit for the second quarter by 32.6%, and its operating margin increased to 7.5% compared to 6.0% in the second quarter of the previous year. For the six months ended June 30, 2007, the group increased its operating profit by 39.7%, and its operating profit margin improved to 7.1% compared to 5.6% for the six months ended June 30, 2006. The improvement in operating profit and operating margin is due to the strong sales growth.

Income Taxes

The effective income tax rate was 38.0% for both the three and six month periods ended June 30, 2007 as compared to 38.3% for the three and six month periods ended June 30, 2006. The decrease in the rate is primarily due to lower state taxes.

Net Income

Net income for the three months ended June 30, 2007 was \$130.1 million, an increase of 8%, as compared to \$120.7 million for the second quarter of 2006. On a per share diluted basis, net income was \$.76, up 9% compared to \$.70 for the second quarter of last year. Net income for the six months was \$251.7 million, an increase of 7% over \$234.6 million recorded for the same period in the previous year. Earnings per share on a diluted basis were \$1.47, up 9% compared to \$1.35 for the same six month period of the previous year.

Financial Condition

The major balance sheet categories at June 30, 2007 were relatively consistent with the December 31, 2006 balance sheet categories. Cash balances increased \$138.6 million from December 31, 2006, due primarily to increased income and improved working capital management. Cash generated from operations of \$352.8 million was primarily used to pay dividends of \$119.7 million, repurchase approximately \$52.0 million of the Company's stock and invest in the Company via capital expenditures of \$52.8 million. Accounts receivable increased \$95.2 million or 8%, which is primarily due to the Company's overall sales increase and acquisitions within our Industrial Parts Group. Inventory decreased \$13.3 million or 1% compared to December 31, 2006, which reflects the Company's planned inventory reduction initiatives. Prepaid expenses and other current assets decreased 7% or \$15.3 million compared to December 31, 2006, primarily due to collected volume incentives. Other assets increased \$7.3 million, up 4% from December 31, 2006. Accounts payable increased \$118.4 million or 13% due primarily to increased purchases made in the six months ended June 30, 2007, compared to December 31, 2006 and increased terms with certain vendors. The Company's long-term debt is discussed in detail below.

Liquidity and Capital Resources

Long-term debt, which matures in 2008 and 2011, is at fixed rates of interest and remained unchanged at \$500 million as of June 30, 2007, compared to December 31, 2006.

The ratio of current assets to current liabilities was 3.1 to 1 at June 30, 2007, as compared to 3.2 to 1 at December 31, 2006. The Company believes existing lines of credit and cash generated from operations will be sufficient to fund anticipated operations for the foreseeable future.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The information called for by this item is provided elsewhere herein and in Item 7A. Quantitative and Qualitative Disclosures about Market Risk in the Company's Annual Report on Form 10-K for the year ended December 31, 2006. There have been no material changes in market risk from the information provided under Item 7A in the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

Table of Contents**Item 4. Controls and Procedures**

As of the end of the period covered by this report, an evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the Company's disclosure controls and procedures. Based on that evaluation, the Company's CEO and CFO concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to the Company's management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

There have been no changes in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 of the SEC that occurred during the Company's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION**Item 1A. Risk Factors**

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2006, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.
