NON-BINDING ADVISORY VOTE ON EXECUTIVE COMPENSATION
(Proposal 2)

We are seeking an advisory vote (sometimes referred to as “say on pay”) from our stockholders to approve our executive officers’ compensation. Our Board recommends that you approve this resolution for the following reasons (for more information, please also see “Executive Compensation,” including the Compensation Discussion and Analysis section):

First, we tie the compensation of our executive officers directly to their performance (“pay for performance”):

- § Clarified Link Between Pay and Performance. Our stockholders approved our executive officers’ compensation last year. At the time of the vote, we spoke with virtually all of our material stockholders, and we meet with our stockholders frequently throughout the year as well. Based in part on those conversations, we have refined our compensation system to make the link between pay and performance more explicit and more transparent. Under the revised system, our Compensation Committee approves written Operating and Financial Goals, as well as a target for our Funds From Operations, at the beginning of each year, and we disclose those goals in our proxy statement. At the end of each year, our Compensation Committee determines our executives’ compensation based on the achievement of those goals, our financial results (in the form of Funds From Operations) as well as our acquisitions, dispositions and development and redevelopment activities during the year, and (when appropriate and disclosed) other factors.
- § Benchmarking of Pay. We benchmark our executive officers against a consistent peer group of companies selected by our Compensation Committee with the advice of an independent compensation consultant.
- § Most Pay Dependant on Performance. We pay our Chief Executive Officer a base salary that represents only about 15% to 20% of his expected annual compensation, and our Compensation Committee determines the remainder of his compensation (none of which is guaranteed) after the end of the year based on performance during the year. We provide very limited perquisites for our executive officers, including no pension benefits beyond participation in our 401(k) plan on the same basis as our other employees.
- § Pay Largely in Restricted Equity. We pay most (over 50% for our Chief Executive Officer and Chief Operating Officer in 2011) of our senior executives’ compensation in the form of equity that vests over time, generally must be held for between two and five years and is contingent upon our future stock price exceeding the price at grant. By doing so, we tie the value of the compensation for our executive officers directly to the ultimate total return to our stockholders over a multi-year period.
- § Significant Long-Term Equity Ownership Creates a Strong Tie to Our Stockholders. In accordance with our share ownership and retention policy (described at “Corporate Governance—Equity Ownership Guidelines”), on March 30, 2012 our executive officers and directors held over 22% of our outstanding share equivalents (Common Stock, OP Units and LTIP Units, but not options), with a market value of approximately \$875 million.
- § Overpayment Clawback; No Excise Tax Gross Up or Hedging; No Automatic Extension. The employment agreements for our executive officers include a provision requiring repayment any overpayment of compensation following a restatement of our financial statements and do not contain any excise tax gross-ups. In response to concerns expressed by certain stockholders and others about automatic extensions generally, we and our executive officers elected to eliminate the automatic one year extension in their employment agreements that would have become effective at the end of the current term (December 31, 2014) if neither party had provided a non-renewal notice by November 1, 2014. We also prohibit hedging transactions in our securities by our employees.

Second, our Compensation Committee fairly implemented this approach for 2011:

- § Using our newly formalized process, our Compensation Committee concluded that our Chief Executive Officer's performance in 2011 substantially exceeded expectations with respect to his goals adopted in early 2011. Most notably,
 - o We successfully completed the refinancing of our \$2.3 billion in debt maturing in 2012 at historically low interest rates.
 - o We achieved over 106,000 square feet of positive absorption in our office portfolio in 2011, a dramatic reversal from the almost 220,000 square feet of negative absorption we sustained in 2010.
 - o We maintained low G&A and capital expenditures compared to our office REIT peers.
 - o Our Funds From Operations (FFO) exceeded the target approved at the beginning of the year.
 - o Our Compensation Committee believed the one acquisition we made in 2011 was well negotiated and executed. They did note that the number of acquisitions we made during 2011 was disappointing, but did not believe that, even in hindsight, we should have purchased any other properties sold in our submarkets during 2011. Our Compensation Committee supported our management's decision not to dispose of any properties during 2011.
- § Fair Comparative Compensation. Even before his voluntary reduction of compensation discussed below, our Chief Executive Officer's total compensation for 2011 (including salary, cash bonus, annual equity grants and one quarter of the quadrennial grants made in 2010) placed him between the 60th percentile (using the average Chief Executive Officer compensation) and the 70th percentile (using the average of Chief Executive Officer and Chief Operating Officer compensation) of our Benchmark Group.
- § No Salary Increases for 2012. The 2012 base salaries for our executive officers other than Mr. Emmett are the same as they were in 2008.
- § Voluntary Reduction of Compensation. Our Chief Executive Officer and Chief Operating Officer each voluntarily reduced his 2011 compensation by \$550,000, or approximately 9%, from the amount awarded by the Compensation Committee in order to stay within the 2011 budget range established prior to our new compensation procedures.

For all of these reasons, our Board of Directors recommends a vote "FOR" the following resolution at our Annual Meeting:

"RESOLVED, that the stockholders of Douglas Emmett, Inc. hereby approve, on an advisory basis, the compensation paid to its named executive officers, as disclosed in its Proxy Statement for its 2012 Annual Meeting of Stockholders, including the Compensation Discussion and Analysis, the Summary Compensation Table and the other related tables and disclosures."

Required Vote

As an advisory vote, the vote on this proposal is not binding upon us, our Board of Directors or our Compensation Committee. However, our Compensation Committee, which is responsible for designing and administering our executive compensation program, and our Board, value the opinions expressed by stockholders in their vote on this proposal and will consider the outcome of the vote when making future compensation decisions for executive officers. Abstentions, broker non-votes and instructions on a proxy to withhold authority to vote on this proposal will not be counted in determining the number of shares present and entitled to vote and will therefore have no effect on the outcome. Unless a proxy directs otherwise, the shares represented by each properly executed unrevoked proxy will vote “for” Proposal 2.

Board Recommendation

OUR BOARD RECOMMENDS THAT STOCKHOLDERS VOTE FOR PROPOSAL 2.

RATIFICATION OF APPOINTMENT OF ERNST & YOUNG LLP
(Proposal 3)

Our Audit Committee has approved the appointment of Ernst & Young LLP as our independent registered public accounting firm to audit our consolidated financial statements for 2012. We are seeking our stockholders' ratification of such action. A representative of Ernst & Young LLP will be available at our Annual Meeting to respond to appropriate questions or make any other statements such representative deems appropriate.

Required Vote

Proposal 3 requires the affirmative vote of a majority of the votes cast on the proposal (assuming a quorum is present). Stockholders may vote "for" or "against" the proposal, or they may abstain from voting on the proposal. Abstentions, broker non-votes and instructions on a proxy to withhold authority to vote on this proposal will not have any effect on the outcome of this proposal. In the event the stockholders do not approve this proposal, our Audit Committee will reconsider the appointment of Ernst & Young LLP as our independent registered public accounting firm. Unless a proxy directs otherwise, the shares represented by each properly executed unrevoked proxy will vote "for" the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm.

CORPORATE GOVERNANCE

Corporate Governance Guidelines

We have adopted Corporate Governance Guidelines, which are available on our website at <http://www.douglasemmett.com/governance>. These guidelines were adopted by our Board to assist our Board in the exercise of its responsibilities. The guidelines describe such matters as the role of directors, the selection of new directors, Board membership criteria, independence requirements, self-evaluation by our Board and procedural matters of the Board and its committees. Under our guidelines, our Board reviews management’s long-range planning for executive development and succession.

Code of Business Conduct and Ethics

Our Code of Business Conduct and Ethics, which is our code of ethics applicable to our directors, officers and employees (including our Chief Executive Officer and Chief Financial Officer), embodies our principles and practices relating to the ethical conduct of our business and our commitment to honesty, fair dealing and full compliance with laws. Our Code of Business Conduct and Ethics is available at <http://www.douglasemmett.com/governance>. If we make any amendments to this code other than technical, administrative or other non-substantive amendments, or grant any waivers, including implicit waivers, from a provision of this code to our Chief Executive Officer, Chief Financial Officer or Principal Accounting Officer, we will disclose the nature of any such amendment or waiver to the code, its

effective date and to whom it applies, on our website or in a report on Form 8-K filed with the Securities and Exchange Commission (“SEC”).

Equity Ownership Guidelines

Our Board has adopted a policy to encourage our executive officers and directors to reach target equity ownership levels (through a combination of Common Stock, OP Units, and/or Long Term Incentive Plan units (“LTIP Units”)) within 5 years of their becoming subject to the policy, equal to the lesser of a multiple (based on fair market value of the equity at each year end) of annual salary/retainer at the previous year-end or a fixed share amount, as follows:

Title	Share Equivalents	Multiple of Salary/retainer
Chief Executive Officer	200,000	4x
Other executive officers	50,000	3x
Directors	10,500	3x

All of our current directors and executive officers are in compliance with the applicable standards. As of March 30, 2012, our directors and executive officers owned an aggregate of approximately 39 million share equivalents (including Common Stock, OP Units and LTIP Units, but not options) with a market value of approximately \$875 million.

Director Independence

Our Board annually reviews and determines the independence of each director and nominee for election as a director in accordance with our Corporate Governance Guidelines, which incorporates all elements of the independence standards set forth in the New York Stock Exchange (“NYSE”) rules. Our director independence standards are available on our website at <http://www.douglasemmett.com/governance>. Based on these standards, our Board determined that each of Christopher H. Anderson, Leslie E. Bider, Dr. David T. Feinberg Thomas E. O’Hern, Dr. Andrea Rich, Ghebre Selassie Mehreteab and William E. Simon, Jr. is independent and William Wilson III was, until September 1, 2011, the date of his resignation from the Board, independent.

Board Leadership Structure

Our Board currently separates the role of Chairman of the Board from the role of our Chief Executive Officer. In addition, our Corporate Governance Guidelines designate the chairperson of our Governance Committee as our lead independent director, responsible for matters such as presiding over the executive meetings of our independent directors. Our Board believes that this structure combines accountability with effective oversight. This structure also gives us the continued benefits of the experience and knowledge of our Chairman, who has been overseeing our operations and those of our predecessor for over 40 years, while reflecting the current responsibilities and contributions of the team of our Chief Executive Officer and Chief Operating Officer. It also provides a single independent director with responsibility for coordinating the actions of our independent directors.

Board Role in Risk Oversight

Our Board is actively involved in overseeing our risk management through our Audit Committee. Under its charter, our Audit Committee is responsible for discussing guidelines and policies governing the process by which our senior management and our relevant departments assess and manage our exposure to risk, as well as our major financial risk exposures and the steps management has taken to monitor and control such exposures. Although the separation of the roles of Chairman and Chief Executive Officer could potentially affect risk oversight function by our Board, this was not a significant issue in determining our Board’s leadership structure.

Stockholder and Interested Party Communications

Communications to our Board, any of its committees or the chairperson of our Governance Committee (who chairs the quarterly executive sessions of our non-management directors) may be addressed to Corporate Secretary, Douglas Emmett, Inc., 808 Wilshire Blvd., Suite 200, Santa Monica, CA 90401, marked to the attention of the appropriate recipient. Copies of all communications so addressed will be promptly forwarded to the chairperson of the committee involved or, in the case of communications addressed to our Board as a whole, to the chairperson of our Governance Committee.

Annual Meeting Attendance

We expect that all of our Board members will attend our annual meetings of stockholders in the absence of a showing of good cause for failure to do so. Six of the eight members of our Board attended our 2011 annual meeting of stockholders.

BOARD MEETINGS AND COMMITTEES

During 2011, our Board held four meetings and acted by written consent six times. Our Board has three separately designated standing committees: our Governance Committee, our Audit Committee and our Compensation Committee. Each member of these standing committees has been determined to meet the standards for “director independence” under the rules of the SEC and the rules and regulations of the NYSE. Each incumbent director attended at least 75% of the aggregate number of meetings of our Board and meetings of committees of our Board on which she or he served during 2011.

Nominating and Corporate Governance Committee

The members of our Governance Committee are Dr. Andrea L. Rich, Chairperson, Christopher H. Anderson and Dr. David T. Feinberg. Our Governance Committee has adopted a charter that is available on our website at <http://www.douglasemmet.com/charters>. In addition to any other duties or responsibilities as may be assigned by the Board, our Governance Committee is responsible for (i) reviewing the size and composition of our Board; (ii) evaluating and recommending candidates for director; (iii) reviewing the frequency and structure of meetings and procedures of our Board; (iv) reviewing the size, composition and functioning of committees of our Board; (v) reviewing our corporate governance guidelines; (vi) reviewing our director compensation levels and practices; (vii) overseeing our Board’s self-evaluation process; and (viii) considering any other corporate governance issues that may arise. Under our Corporate Governance Guidelines, the chairperson of our Governance Committee also chairs the executive sessions of non-management directors. Our Governance Committee met five times during 2011 and acted by written consent once.

Our Governance Committee manages the process for evaluating current Board members at the time they are considered for re-nomination. After considering the appropriate skills and characteristics required on our Board, the current makeup of our Board, the results of the evaluations, and the wishes of our Board members to be re-nominated, our Governance Committee recommends to our Board whether those individuals should be re-nominated.

On at least an annual basis, our Governance Committee reviews with our Board whether it believes our Board would benefit from adding a new member(s), and if so, the appropriate skills and characteristics required for the new member(s). If our Board determines that a new member would be beneficial, our Governance Committee solicits and receives recommendations for candidates and manages the process for evaluating candidates. All potential candidates, regardless of their source (including candidates recommended by stockholders), are reviewed under the same process. Our Governance Committee (or its chairperson) screens the available information about the potential candidates. Based on the results of the initial screening, interviews with viable candidates are scheduled with Governance Committee members, other members of our Board and senior members of our management. Upon completion of these interviews and other due diligence, our Governance Committee may recommend to our Board the election or nomination of a candidate.

All Board nominees must demonstrate an ability to make meaningful contributions to the oversight of our business and affairs and also must have a reputation for honesty and ethical conduct in their personal and professional activities. Our Governance Committee also believes that all directors should share qualities such as objectivity, experience and strong communication and analytical skills. Our Governance Committee may also consider additional factors, including a candidate’s specific experiences and skills, relevant industry background and knowledge, time

availability in light of other commitments (such as service on other public company boards or on other governing boards), potential conflicts of interest, material relationships with us and independence from our management. Our Governance Committee does not have a formal policy with respect to diversity; however, our Board and our Governance Committee believe that it is important that we have Board members whose diversity of skills, experience and background are complementary to those of our other Board members. In considering candidates for our Board, the Governance Committee considers the entirety of each candidate's credentials.

We have typically found candidates for independent Board members through recommendations from directors or others associated with us. We may in the future also use the help of executive search firms (which receive a fee for their services). In any given search, our Governance Committee may also define particular characteristics for candidates to balance the overall skills and characteristics of our Board and our perceived needs. However, during any search, our Governance Committee reserves the right to modify its stated search criteria for exceptional candidates. Our stockholders may recommend candidates by sending the candidate's name and resume to our Governance Committee under the provisions set forth above for communication with our Board. No such suggestions from our stockholders were received in time for our Annual Meeting.

We require specific approval by our Governance Committee of service by any of our directors on more than three boards of directors of public companies (including service on our Board) or on more than two audit committees of other public companies if such director also serves on our Audit Committee. Our Corporate Governance Guidelines limits service of independent directors on our Board to seven years, unless that limit is waived by our Governance Committee. Finally, our policy requires our directors to submit a letter of resignation upon a material change in their current employment status or job responsibilities, which our Governance Committee may accept or reject in its sole discretion.

Audit Committee

The members of our Audit Committee are Thomas E. O'Hern, Chairman, Leslie E. Bider and Ghebre Selassie Mehreteab (who is retiring as of our Annual Meeting). Our Audit Committee has adopted a charter, which is available on our website at <http://www.douglasemmett.com/charters>. The information contained in this paragraph shall not be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended (the "Securities Act") or the Securities Exchange Act of 1934 as amended (the "Exchange Act"), whether made before or after the date hereof and irrespective of any general incorporation language in any such filing (except to the extent that we specifically incorporate this information by reference) and shall not otherwise be deemed "soliciting material" or "filed" with the SEC or subject to Regulation 14A or 14C, or to the liabilities of Section 18 of the Exchange Act (except to the extent that we specifically request that this information be treated as soliciting material or specifically incorporate this information by reference).

The principal functions of our Audit Committee include (i) approving the appointment, compensation and retention of, and overseeing the work of, our independent public accounting firm; (ii) reviewing our financial statements, our earnings releases, and our internal controls over financial reporting, including the impact of any material risks, legal matters, regulatory and accounting initiatives, accounting principles and financial statement presentations and off-balance sheet structures; (iii) reviewing and granting waivers under our policies relating conflicts of interest and our Code of Business Conduct and Ethics; and (iv) establishing procedures with respect to reports of questionable accounting or auditing matters or illegal, unethical or other questionable conduct or conflicts of interest.

Our Audit Committee must approve any decision to hire any person who served as a senior member of the audit team of our independent auditor within the prior two years. Our Audit Committee met five times during 2011 and acted by written consent once.

As required in our Audit Committee Charter, our Board has determined that each member of our Audit Committee is "independent," as defined under the rules and regulations of the SEC and the NYSE, and that Thomas E. O'Hern, Chairman of our Audit Committee, is an "audit committee financial expert" as defined under the rules of the SEC.

Compensation Committee

The members of our Compensation Committee are Leslie E. Bider, Chairman, Dr. David T. Feinberg and Ghebre Selassie Mehreteab (who is retiring as of our Annual Meeting). Our Compensation Committee has adopted a charter, which is available on our website at <http://www.douglasemmett.com/charters>. The principal functions of our Compensation Committee include (i) evaluating the performance of our Chief Executive Officer and Chief Operating Officer and determining their compensation, including salary, bonus, incentive and equity compensation and perquisites and other personal benefits; (ii) reviewing the performance, compensation, perquisites or other personal benefits of our other executive officers; (iii) reviewing our executive compensation plans, general compensation plans and other employee benefit plans, including incentive-compensation and equity-based plans; (iv) approving grants of equity; (v) approving any employment, change in control, severance or termination agreement or arrangement to be made with any executive officer; and (vi) overseeing our policies relating to the compensation of, and other matters relating to, our employees generally. Our Compensation Committee has the authority to delegate to its subcommittees such power and authority as it deems appropriate to the extent consistent with laws, regulations or listing standards, but has not done so. Our Compensation Committee met three times during 2011 and acted by written consent twice.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Our Executive Compensation Philosophy

Our Compensation Committee, comprised entirely of independent directors as defined by the Securities and Exchange Commission and the New York Stock Exchange, is responsible for overseeing our compensation and employee benefit plans and practices, incentive compensation, and equity-based plans (including compensation for our executive officers). Our stockholders approved our executive officers' compensation last year. At the time of the vote, we spoke with virtually all of our material stockholders, and we meet with our stockholders frequently throughout the year as well. Based in part on those conversations, we have refined our compensation system to make the link between pay and performance more explicit and more transparent. In doing so, our Compensation Committee tries to design our compensation programs to reflect the following principles:

- § Pay for Performance: We believe in paying our executive officers based on their performance (so-called "pay for performance"). Accordingly, performance-based pay represents a substantial majority of the compensation of our executive officers. Only about 15 to 20% of our Chief Executive Officer's compensation is guaranteed, with the remainder determined at the end of each year based on performance during the year. To avoid excessive focus on any one element, our Compensation Committee considers a variety of factors in determining the specific level of compensation we provide to our Chief Executive Officer and our other executive officers.

- § Alignment with Long Term Stockholder Value: We believe our executive compensation should align incentive compensation opportunities with the long-term interests of our stockholders. For example, more than 50% of our Chief Executive Officer's compensation in 2011 was in the form of restricted equity that generally must be held for two to five years after grant, which further aligns his interests with those of our stockholders.

§ **Competitiveness:** Our Compensation Committee seeks to pay competitive compensation that allows us to attract and retain talented and experienced executives. To do this, we benchmark our chief executive officer's compensation against those of a group of competitive companies. We also pay a significant portion of compensation in restricted equity that vests over time, which encourages our executives to stay with us.

§ **Alignment of Risk Profile:** We seek to structure compensation to discourage excessive risk-taking and to encourage ethical and social responsibility. To avoid situations where management focuses on the selected metrics to the detriment of real performance or where a mechanical formula produces anomalous results, our Compensation Committee does not use such formulas to measure success. This approach, together with our benchmark approach, also eliminates the chance that a formula produces uncapped excessive compensation, and allows our Compensation Committee to factor into its compensation decisions its analysis of the risks taken to achieve the results. We also reduce the potential for excessive risk taking by paying more than 50% of our Chief Executive Officer's annual compensation in restricted equity that generally must be held for two to five years after grant and by having our directors and executive officers maintain significant stock ownership.

Our Compensation Components

The principal components of annual compensation for our executive officers for 2011 were:

§ **Salary.** We establish salary levels for our executive officers annually (as well as upon any promotion or other change in job responsibility) as part of their total compensation package based on matters including (i) the responsibilities of the position, (ii) the individual's salary history, performance and perceived ability to influence our financial performance in the short and long-term, (iii) the compensation of our other employees, and (iv) an evaluation of salaries for similar positions in our benchmark group and other competitive factors. We believe that base salary should represent a modest portion of the compensation for our executive officers; our Chief Executive Officer's base salary constitutes only about 15% to 20% of his expected annual compensation. In addition, our Compensation Committee has not increased base salaries for our executive officers, believing that any increases in compensation should be based on performance. For information concerning base salaries of each of our executive officers during 2011, see "—Summary Compensation Table" below.

§ **Annual Incentive Compensation.** We pay most of the annual compensation for our executive officers in the form of discretionary compensation, none of which is guaranteed. We have also paid most of the annual bonuses of our senior employees in the form of equity which vest over time, which generally must be held for between two and five years and which is contingent upon our future stock price exceeding the price at which the restricted equity was originally granted. This better aligns the interests of our executives with our stockholders, makes their compensation dependent on future performance and functions as "golden handcuffs." For information concerning annual incentive compensation of each of our executive officers during 2011, see "—Summary Compensation Table" below.

§ **Perquisites and Other Personal Benefits.** We provide very limited perquisites for our executive officers, including no pension benefits beyond participation in our 401(k) plan on the same basis as our other employees. Our executive officers are entitled to a car allowance in lieu of mileage reimbursement and participate in our employee plans on the same basis as our other employees, including vacation, medical and health benefits and our 401(k) retirement savings plan. Messrs. Emmett, Kaplan and Panzer are also entitled to use their secretaries for personal matters, which we believe could increase the efficiency of their efforts for us. These benefits are considered by our Compensation Committee in its review of compensation for our executive officers. We believe these perquisites,

while not representing a significant portion of our executive officers' total compensation, reflect our intent to create overall market comparable compensation packages. For information concerning the perquisites of each of our executive officers during 2011, see “—Summary Compensation Table” below.

Quadrennial Restricted Equity Grants. Although many companies in our benchmark group use so called “Outperformance Plans” for longer term compensation, our Compensation Committee has instead used restricted equity grants every four years (most recently in 2010), which minimize potential conflicts between our management and our stockholders with respect to risk. No similar grants were made in 2011, except that Mr. Guth received a quadrennial grant of LTIP Units vesting over four years when he joined us at the beginning of 2011.

Setting Incentive Compensation: Matching Pay for Performance.

Our Incentive Compensation Structure. In determining incentive compensation, our Compensation Committee assesses performance based on the following factors:

§ Operating and Financial Goals. Our Compensation Committee evaluates whether our management achieved specific operating and financial goals set by our Compensation Committee at the beginning of the year and disclosed in our proxy statement (the 2011 and 2012 goals are enumerated below). Our Compensation Committee seeks to set goals for matters within the control of our management, and which it believes are the key factors in the year related to both our annual and long-term success.

§ External Business Activities. Our Compensation Committee evaluates our external business activities during the year, which includes the effectiveness and financial results of acquisitions, dispositions and development and redevelopment activities undertaken during the year. Our Compensation Committee does not set numeric targets for these activities, since the best course of action necessarily depends on the market, including the availability and pricing of opportunities, throughout the year. Our Compensation Committee believes it is equally important that we avoid bad acquisitions as it is that we make good acquisitions.

§ Funds from Operations (“FFO”) Targets. Our Compensation Committee evaluates whether our management achieved the quantitative funds from operations (“FFO”) target set at the beginning of the year. We use FFO as a performance yardstick because many of our investors use it to compare our operating performance with that of other Real Estate Investment Trusts (REITs).¹ In evaluating management’s performance, our Compensation Committee looks at the “quality” of our FFO as well as its absolute amount. Increases in leasing fundamentals, for example, may (or may not) reflect better management performance than increases that come solely from acquisitions. When set at the beginning of the year, our FFO target typically excludes the effect of factors such as acquisitions, dispositions, equity issuances and repurchases, debt financings and repayments, recapitalizations and similar matters, but our Compensation Committee considers such matters in evaluating our management’s performance.

§ Other Factors. Our Compensation Committee also reserves the right to take into account additional factors beyond those identified at the beginning of the year. For example, while our operating performance during 2008 was excellent, our Compensation Committee actually reduced the compensation of our Chief Executive Officer (at his suggestion) given our outlook for the economy at the end of 2008.

Our Compensation Committee uses these factors as performance yardsticks, as well as evaluating the totality of our management’s performance in the context of changing operating environments, to avoid situations where management focuses on the selected metrics to the detriment of real performance or where a formula produces anomalous results. This approach, together with our benchmark approach, also eliminates the chance that a formula produces uncapped excessive compensation, and allows our Compensation Committee to factor into the compensation decisions its analysis of the risk taken.

¹ FFO represents net income (loss), computed in accordance with U.S. generally accepted accounting principles (“GAAP”), excluding gains (or losses) from sales of depreciable operating property, real estate depreciation and amortization (other than amortization of deferred financing costs) and after adjustments for unconsolidated

partnerships and joint ventures. We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts (NAREIT), although doing so may still involve some judgments (for example, amortization of the impact of swap terminations). Like any metric, FFO is not perfect as a measure of our performance because it excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effect and could materially impact our results from operations. Other equity REITs may not calculate FFO in accordance with the NAREIT definition and, accordingly, our FFO may not be comparable to those other REITs' FFO. Therefore, FFO should be considered only as a supplement to net income as a measure of our performance. FFO should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends. FFO should not be used as a supplement to or substitute measure for cash flow from operating activities computed in accordance with GAAP.

Based on its assessment of these performance factors, our Compensation Committee then determines management's incentive compensation based on performance and comparison to a benchmark group of 14 public Real Estate Investment Trusts (REITs)² in three sectors (office, industrial and diversified) (our "Benchmark Group"). The benchmark compensation for 2011 was calculated by increasing the data for 2010 (the latest data available when the compensation decisions were made for 2011) by 6%, which was estimated by our Compensation Consultant as the expected average increase in compensation for 2011 at our Benchmark Group.

Our Compensation Committee does not tie compensation directly and formulaically to past changes in our stock price. Our stock performance in any year depends significantly on factors beyond the control of our management in that period, such as changes in the equity markets or the performance of our submarkets compared to the East Coast markets where other members of our Benchmark Group operate. However, we do tie our management's compensation directly and substantially to the future performance of our stock. Thus, over 50% of our Chief Executive Officer's total annual compensation in 2011 was in the form of contingent restricted equity. Those grants vest over time, generally must be held for a minimum of two years and are contingent upon the future stock price performance exceeding the price at which the restricted equity was originally granted.

2011 Compensation Determinations Chief Executive Officer

In determining the compensation of our Chief Executive Officer for 2011, our Compensation Committee evaluated the following factors:

§ Operating and Financial Goals. Our Compensation Committee reviewed the success of our Chief Executive Officer in achieving the qualitative operating and financial goals set in early 2011:

Goal	Assessment of Results
Refinance the \$2.3 billion of our debt expiring in 2012.	We completed our term loan program, closing \$1.7 billion in loans at an average annual interest rate of 4.08% during 2011. With the Board's concurrence, we postponed refinancing the last \$522.5 million until early 2012 to benefit from low interest rates on the existing debt.
Stem loss of occupancy in our office portfolio; maintain 99% multi-family occupancy.	After many quarters of declining office occupancy, we increased our office portfolio occupancy in 2011. Our multi-family portfolio remains over 99% leased.
Maintain our company as a top operator.	Based on its own assessment and the views of our stockholders and independent analysts, our Compensation Committee determined that we continue to be a top operator.
Maintain low general and administrative expenses compared to peers.	The percentage of revenue represented by our general and administrative expenses has continued to be one of the lowest of our office property peers

in 2011.

Continue to stress cost containment and reduction.

Our actual 2011 operating expenses were \$3 million below budget.

2 Our peer group for 2011 included Alexandria Real Estate Equities, Inc., Boston Properties, Inc., Brandywine Realty Trust, Digital Realty Trust, Inc., Duke Realty Corporation, Hudson Pacific Properties, Inc., Kilroy Realty Corporation, Mack-Cali Realty Corporation, Piedmont Office Realty Trust, Inc., ProLogis, PS Business Parks, Inc., SL Green Realty Corp. and Vornado Realty Trust. Our peer group is comprised of the same companies as in prior years, except for AMB Property Corporation, which was acquired by ProLogis, Inc., and iStar Financial and Liberty Property Trust, which were no longer comparable in terms of company size, property focus and executive team members. These companies were replaced by Hudson Pacific Properties, Inc. and Piedmont Office Realty Trust, Inc.

§ External Operating Activities. Our Compensation Committee believed that the one acquisition we made in 2011 was well negotiated and executed. Our Compensation Committee believed that the total amount of acquisitions during 2011 was disappointing. However, the lack of transactions reflected a market in which many deals were withdrawn due to sellers' expectations not being met by buyers. Our Compensation Committee did not believe, even in hindsight, that we should have purchased any other properties sold in our submarkets during 2011. Our Compensation Committee concurred with our management's decision not to dispose of any properties during 2011.

§ FFO Target. For 2011, we achieved FFO of \$1.38 per share, \$.11 more than the midpoint of our guidance target at the beginning of the year (excluding the impact of a one-time swap termination fee, which had been specifically excluded in setting our target). Even including the impact of that swap termination, we exceeded the 2011 FFO target by \$.05 per share.

§ Other Factors. For 2011, our Compensation Committee did not cite any additional factors as being material to its decisions.

Although our Compensation Committee did not assign any specific weighting for these factors for 2011, they weighted the external operating activities somewhat less than the other factors given the lack of attractive acquisition opportunities during the year.

Based on its assessment of these factors, our Compensation Committee concluded that our Chief Executive Officer's performance in 2011 substantially exceeded expectations. Accordingly, our Compensation Committee determined to increase the Chief Executive Officer's total compensation³ by 10% above the baseline increase for our Benchmark Group, which placed our Chief Executive Officer between the 60th percentile (using the average Chief Executive Officer compensation) and the 70th percentile (using the average of Chief Executive Officer and Chief Operating Officer compensation⁴) of our Benchmark Group. For more detailed information on 2011 compensation, see the "Summary Compensation Table."

Other Executive Officers

We use similar principles to set the compensation of our other officers, although less senior officers have a higher portion of compensation represented by base compensation increases and the variation in incentive compensation based on performance decreases. For more detailed information on the amounts of the 2011 compensation of our other executive officers, see the "Summary Compensation Table" below. Mr. Guth received a quadrennial grant of LTIP Units vesting over four years when he joined us at the beginning of 2011. For information concerning the cash bonus paid and equity awards granted to each of our executive officers in 2011, see "—Summary Compensation Table" and "Grants of Plan-based Awards" table below.

Voluntary Reduction of Compensation

Our Chief Executive Officer and Chief Operating Officer each voluntarily reduced their 2011 incentive compensation by \$550,000, or approximately 9%, from the amount awarded by the Compensation Committee in order to stay within 2011 budget range established prior to our new compensation procedures.

3 In determining our Chief Executive Officer's total compensation in 2011, our Compensation Committee included base salary, incentive compensation (with equity allocated to the year earned rather than the year granted), perquisites and one quarter of the 2010 quadrennial grants.

4 Given the allocation of responsibilities between our CEO and our COO, we pay them equal compensation. Accordingly, our Compensation Committee asked our Compensation Consultant to compare our Chief Executive Officer to the average of the CEO and COO at the Benchmark Group as well as the average of the CEO.

2012 Compensation Decisions

For 2012, we intend to use a similar methodology for determining incentive compensation. Our Compensation Committee has established the following 2012 Operating and Financial Goals:

Area	Goal
1. Debt	Complete the refinance of the \$522.5 million of debt maturing in 2012. Subject to acquisition opportunities, make progress on deleveraging our company over the next two years.
2. Leasing	Improve occupancy in office portfolio; begin to increase office rents in selected markets. Increase rents in the multi-family portfolio.
3. Operations	Continue automation projects to move towards paperless systems. Target occupancy in the office portfolio to exceed the average Class A office occupancy in our submarkets. The percentage that general and administrative expenses represents of revenue should be in the lower half of our peer group.
4. Capital	Maintain our “at-the-market” equity sale program and explore other financing/joint venture vehicles to provide additional liquidity as needed for acquisitions and deleveraging.

We have set a target range for 2012 FFO of \$1.33 to \$1.39 per share. This excludes any impact from future acquisitions, dispositions, equity issuances or repurchases, debt financings or repayments, recapitalizations, or similar matters.

As noted above, we use similar principles to set the compensation of our other executive officers, although less senior officers have a higher portion of compensation represented by base compensation increases and the variation in incentive compensation based on performance decreases. For 2012, our Compensation Committee reversed the 2% increase in Mr. Kamer’s base salary made in 2011, so that the 2012 base salaries for our executive officers other than Mr. Emmett are the same as they were in 2008. Our Compensation Committee did not increase Mr. Emmett’s base salary for 2012, and continues to believe that Mr. Emmett’s compensation is significantly below that of other executives with his seniority, abilities and experience.

Role of Compensation Consultants

In 2011, our Compensation Committee again retained FTI Consulting, Inc. (“FTI”) to assist in our Compensation Committee’s determination of executive compensation. FTI had been retained in prior years to make recommendations concerning the structure and amount of compensation for our executive officers and our Board. In 2011, FTI was retained to review the annual compensation program for 2011 for our senior management team, including base salary, annual cash incentive and annual equity-based incentive compensation. In its engagement letter, FTI specifically confirmed that (i) it was ultimately accountable to our Compensation Committee, which had the ultimate authority to engage, evaluate and, if appropriate, terminate FTI’s services; (ii) it would timely report directly to our Compensation Committee any difficulties encountered in the course of its work, including any restriction on the scope of activities or access to required information and (iii) while it would meet with management in the course of performing its services to gather and check facts, and to obtain their reactions to alternatives that FTI believed should be considered by our Compensation Committee, our management was not empowered to set the nature or scope of, or to give FTI instructions or directions concerning the engagement of FTI, all of which powers were exclusively reserved to our Compensation Committee.

Compensation and Risk

We seek to structure compensation to discourage excessive risk-taking and to encourage ethical and social responsibility:

- § We align the interests of our executives with those of our stockholders by paying much of the compensation of our executive officers in equity (for example, more than 50% for our Chief Executive Officer in 2011), while our directors and executive officers owned 22% of our fully diluted equity (Common Stock, OP Units and LTIP Units, but not options), with a market value of approximately \$875 million, as of March 30, 2012, well in excess of what is required by our stock ownership guidelines.
- § We tie our executives’ compensation to the long term impact of their decisions by paying them in restricted equity that must generally be held for not less than two, and as much as five, years after grant.
- § We avoid potential anomalies from relying on mechanical formulas, including distortion by unanticipated events, uncapped excessive compensation and undue focus on the metrics chosen. Our Compensation Committee also factors into its compensation decisions the risk taken to achieve the results achieved.
- § Our clawback/recoupment policy reduces the chance that our executive officers benefit if earnings were misstated.

Tax and Accounting Implications

Our Compensation Committee considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which provides that we may not deduct compensation of more than \$1,000,000 that is paid to certain individuals under certain circumstances. Our Compensation Committee’s policy with respect to Section 162(m) is to make every reasonable effort to make that compensation deductible while simultaneously providing the executives with appropriate compensation for their performance. We believe that the compensation paid to our executive officers in 2011 should generally be fully deductible for federal income tax purposes.

We account for stock-based payments, including awards under our 2006 Plan (defined below), in accordance with the requirements of Accounting Standards Codification (“ASC”) 718.

Role of Executive Officers in Compensation Decisions

Under its charter, our Compensation Committee makes all compensation decisions with respect to our Chief Executive Officer and Chief Operating Officer, and recommends to our Board the compensation for our other executive officers and all other elected officers, although it may consult with other advisors, including our Chief Executive Officer and other officers, as it deems appropriate. In determining the appropriate compensation levels for our Chief Executive Officer and our Chief Operating Officer, our Compensation Committee meets outside the presence of all of our executive officers. As noted above, although FTI's engagement letter allowed it to meet with management in the course of performing its services to gather and check facts, and to obtain their reactions to alternatives that FTI believed should be considered by our Compensation Committee, our management was not empowered to set the nature or scope of, or to give FTI instructions or directions concerning, its engagement, all of which powers were exclusively reserved to our Compensation Committee.

Change of Control Payments

As described below under “—Principal Compensation Agreements and Plans—Employment Agreements,” we are obligated under our employment contracts with Messrs. Kaplan, Panzer, Kamer and Guth to make severance payments to them in the event they terminate their employment within 18 months after a change of control as defined in those agreements. In addition, the awards we have made under our 2006 Plan (defined below) provide that if following a change of control either the employment of a participant (including any of our executive officers) is terminated without cause by us or for good reason by the participant, or our Common Stock is no longer publicly traded, then any unvested options or LTIP Units will immediately vest. Our employment agreements do not contain any excise tax gross up provisions.

Principal Compensation Agreements and Plans

2006 Omnibus Stock Incentive Plan

The Douglas Emmett, Inc. 2006 Omnibus Stock Incentive Plan (our “2006 Plan”) was adopted by our Board and approved by our stockholders prior to the consummation of our initial public offering in 2006 and was amended with the approval of our stockholders in 2009. Our 2006 Plan is designed to be an important component of overall compensation for our key employees, directors and other persons by permitting participation by these key persons in our long-term growth and profitability. This summary of our 2006 Plan does not purport to be exhaustive and is expressly qualified in its entirety by reference to the full text of our 2006 Plan, as amended.

Our 2006 Plan is administered and interpreted by our Compensation Committee. All full-time and part-time officers, employees, directors and other key persons (including consultants and prospective employees) are eligible to participate in our 2006 Plan. As of December 31, 2011, approximately 22.7 million shares (subject to adjustment for stock splits, stock dividends or similar changes in our capitalization) of our Common Stock remained available for future issuance under our 2006 Plan. Subject to certain exceptions, shares that are forfeited or canceled from awards under our 2006 Plan become available for future awards. Our 2006 Plan is a “Fungible Share” plan, under which so called “full value” awards made after the date of the 2009 amendment (such as Deferred Stock Awards, Restricted Stock Awards and LTIP Unit awards) count against our 2006 Plan overall limits as two shares (rather than one), while options and stock appreciation rights (“SARs”) are counted as one share (0.9 shares for options or SARs with terms of five years or less).

Our 2006 Plan provides our Compensation Committee with the authority to grant a variety of types of equity awards:

§ Incentive Stock Options or Non-Qualified Stock Options. Options entitle the participant to purchase shares of our Common Stock over time for an exercise price fixed on the date of the grant. The exercise price may not be less than 100% of the fair market value of our Common Stock on the date of the grant, and may be paid in cash, or by the transfer of shares of our Common Stock meeting certain criteria or by a combination thereof. Although we expect to grant only non-qualified stock options, our 2006 Plan permits the grant of options that qualify as “incentive stock options” under the Internal Revenue Code.

- § Stock Appreciation Rights. SARs entitle the participant to receive the appreciation in the fair market value of our Common Stock between the date of grant and the exercise date in the form of shares of our Common Stock.
- § Restricted Stock and Deferred Stock Awards. Restricted stock awards are shares of our Common Stock that vest in accordance with terms and conditions established by our Compensation Committee. Deferred stock awards are stock units entitling the participant to receive shares of our Common Stock paid out on a deferred basis. Shares of restricted stock or deferred stock awards that do not satisfy any vesting conditions are subject to our right of repurchase or forfeiture.
- § Dividend Equivalent Rights. Dividend equivalent rights entitle the participant to receive credits for dividends that would be paid if the participant had held specified shares of our Common Stock.
- § Other Stock-based Awards. Other stock-based awards permitted under our 2006 Plan include awards that are valued in whole or in part by reference to shares of our Common Stock, including convertible preferred stock, convertible debentures and other convertible or exchangeable securities, partnership interests in a subsidiary or our operating partnership, awards valued by reference to book value, fair value or performance of a subsidiary, and any class of profits interest or limited liability company membership interest.
- § LTIP Units. LTIP Units are a separate series of units of limited partnership interests in Douglas Emmett Properties, LP, our operating partnership, valued by reference to the value of our Common Stock. LTIP Unit awards, whether vested or unvested, entitle the participant to receive, currently or on a deferred or contingent basis, dividends or dividend equivalent payments with respect to the number of shares of our Common Stock underlying the LTIP Unit award or other distributions from our operating partnership. LTIP Unit awards that do not satisfy any vesting conditions are subject to our right of repurchase or forfeiture. LTIP Units are structured as “profits interests” for federal income tax purposes, and we do not expect the grant, vesting or conversion of LTIP Units to produce a tax deduction for us. As profits interests, LTIP Units initially will not have full parity with our operating partnership’s common units with respect to liquidating distributions. Upon the occurrence of specified events, LTIP Units can achieve full parity with those common units with respect to liquidating distributions. If full parity is achieved, LTIP Units may be converted, subject to the satisfaction of applicable vesting conditions, on a one-for-one basis into common units, which in turn are redeemable by the holder for shares of our Common Stock or for the cash value of such shares, at our election. Until full parity is reached, the value that a participant could realize for a given number of LTIP Units will be less than the value of an equal number of shares of our Common Stock and may be zero. All of the LTIP Units we have awarded must be held for a minimum of two years before they can be redeemed for common stock.

Our 2006 Plan is not an “evergreen” plan and has a ten-year term ending in October 2016, so that awards may not be made under our 2006 Plan after October 2016. Any awards made under our 2006 Plan that remain outstanding after that date will continue to be governed by the terms of our 2006 Plan. Our 2006 Plan generally prohibits the transfer of awards, and only allows the participant to exercise an award during his or her lifetime, although our Compensation Committee may allow certain transfers to family members or entities. If we experience a change-in-control, our Board and the board of directors of the surviving or acquiring entity must make appropriate provisions for the continuation or assumption of awards outstanding under our 2006 Plan, and may provide for the acceleration of vesting with respect to existing awards. We may amend, suspend or terminate our 2006 Plan at any time, but we will obtain stockholder approval of any such action if it is required to comply with applicable law or NYSE regulations. Further, we will need the holder’s consent if in doing so we adversely affect any rights under outstanding awards.

Employment Agreements

Kaplan, Panzer, Kamer and Guth Employment Agreements. We have employment agreements with each of Messrs. Kaplan, Panzer, Kamer and Guth (we did not amend or enter into any such agreements within the past twelve months). The principal terms of these agreements include the following:

§ Salary: Each of Messrs. Kaplan and Panzer is entitled to receive a salary of not less than \$1,000,000, and each of Mr. Kamer and Mr. Guth is entitled to receive a salary of not less than \$600,000.

- § Bonus: Each of Messrs. Kaplan, Panzer, Kamer and Guth is entitled to receive an annual bonus based on his individual performance and our overall performance during the year, as evaluated by our Compensation Committee in consultation with that officer.
- § Perquisites and Other Benefits: Mr. Kaplan and Mr. Panzer are entitled to the use of an automobile and family health insurance. Mr. Kamer is entitled to reimbursement for family health insurance costs, since he does not participate in our medical plans, and a car allowance. Mr. Guth is entitled to a car allowance.
- § Term: The term of each employment agreement ends December 31, 2014, subject to earlier termination with or without cause (although 30-days' prior notice is required where the termination is by us without "cause" or by the officer for "good reason"). Good reason includes a termination by the officer within 18 months after the occurrence of a change of control. In response to concerns expressed by certain stockholders and others about automatic extensions generally, we and our executive officers elected to eliminate the automatic one year extension in their employment agreements that would have become effective at the end of the current term (December 31, 2014) if neither party had provided a non-renewal notice by November 1, 2014.
- § Severance Payments: If we terminate the officer's employment without cause or if the officer terminates his employment for good reason, he will receive severance equal to (a) compensation equal to three (two in the case of Mr. Kamer and Mr. Guth) times the average of his total compensation over the last three calendar years ending prior to the termination date, including (i) his salary, (ii) his annual bonus and (iii) the value (based on the Black-Scholes value in the case of options and the value of the underlying grants in the case of LTIP Unit awards or outperformance plans) of any equity or other compensation plans granted or awarded to the officer and (b) continued coverage under our medical and dental plans for himself and his eligible dependents for a three-year period (two-year period for Mr. Kamer and Mr. Guth) following his termination.
- § Other Termination Payments: Upon the officer's death or disability, he will receive continued medical benefits for himself and his eligible dependents for a period of twelve months plus a pro-rated portion of his annual bonus.
- § Non-competition: Each of these employment agreements also contains confidentiality and non-solicitation provisions effective through the term of the agreement and for a period of two years (confidentiality) and one year (non-solicitation) thereafter, as well as a non-competition provision that applies during the term of the agreement, and under which the officer covenants that he will not: (i) for his own account engage in any business that invests in or deals with large and mid-size office buildings and multifamily properties in Los Angeles County and Hawaii (larger than 50,000 square feet for office properties and 50 units for apartment buildings); (ii) enter the employ of, or render any consulting or any other services to, any such entities that so compete, directly or indirectly, with any business carried on by us or any of our subsidiaries; or (iii) become interested in any such competing entity in any capacity, including, without limitation, as an individual, partner, shareholder, officer, director, principal, agent, trustee or consultant; provided, however, that the officer may own, directly or indirectly, solely as a passive investment, 5% or less of any class of securities of any entity traded on any national securities exchange and any assets acquired in compliance with the requirements of the aforementioned non-competition provisions.

Summary Compensation Table

The following tables set forth the salary and other compensation earned for 2009, 2010 and 2011 by our President and Chief Executive Officer, our Chief Financial Officer and our three other executive officers who for 2011 received more than \$100,000 in aggregate compensation. As noted above, we pay the annual bonus for our executives, partly in cash and partly in restricted equity grants, in January of the following year. In compliance with applicable SEC rules, the first table below reports (i) the cash and equity portions of each executive officer's annual bonus in different years, since the cash portion of an annual bonus is included in the year for which it is earned (even though paid after year end) and the equity portion is reported in the year in which it is granted (even though representing compensation

for the prior year) and (ii) includes the full value of the quadrennial restricted equity grants we made in 2010 for Messrs Kaplan, Panzer and Kamer, with no comparable amounts in 2009 or 2011 for these officers. Mr. Guth received a quadrennial restricted equity grant in 2011. To assist readers in comparing annual compensation for each year, we have included the second table below in which (i) both the cash and the equity portion of the annual bonus are included in the year earned and (ii) the effect of quadrennial restricted equity grants are excluded.

- (1) The aggregate grant date fair value of quadrennial restricted equity grants in 2010 to Messrs. Kaplan, Panzer and Kamer was \$3,900,000, \$3,900,000 and \$1,040,000, respectively. In determining compensation in 2010 and 2011, our Compensation Committee allocated one quarter of these amounts to each year. Because the value of the 2006 quadrennial grants was calculated under a different methodology in accordance with the then applicable rules, the comparable number for 2009 was not calculated (although the 2006 quadrennial grants involved a greater face value of awards than those in 2010). Consequently, we have omitted the quadrennial grant value from the second table to enable better comparison of year-to-year numbers. At the beginning of 2011 in connection with his hire, Mr. Guth received a quadrennial grant of 81,066 LTIP Units vesting over four years with an aggregate grant date fair value of \$1,338,758. In considering his compensation, our Compensation Committee similarly allocates one quarter of these amounts to each year.
- (2) Bonuses are cash amounts paid to each officer with respect to the year in question, whether paid in that year or the next.
- (3) The amounts in these columns represent the aggregate grant date fair value of restricted equity grants issued, calculated in accordance with ASC 718, under the assumptions set forth in Note 13 to our audited financial statements for 2011 included in our 2011 Annual Report on Form 10-K. As noted above, we pay the annual bonus for our executives partly in cash and partly in restricted equity grants in January of the following year. In accordance with SEC rules, the first table includes the equity portions of the annual bonus in the subsequent year and the full costs of the quadrennial restricted equity grants in 2010 for Messrs. Kaplan, Panzer and Kamer and the quadrennial restricted equity grants in 2011 for Mr. Guth. For a more direct annual comparison, the second table above reflects both the cash and the equity portion of the bonus in the year with respect to which they were earned, and excludes the quadrennial restricted equity grants. Had one quarter of their quadrennial grants been included in 2011, the total compensation column in the second table would approximate \$7.2 million for Mr. Kaplan, \$7.2 million for Mr. Panzer, \$2.1 million for Mr. Kamer and \$1.5 million for Mr. Guth.
- (4) For 2011, this amount reflects the compensation awarded by our Compensation Committee, but not the amount actually paid in the case of our Chief Executive Officer and Chief Operating Officer, who each voluntarily reduced their 2011 compensation by \$550,000, or approximately 9%, from the amount awarded by the Compensation Committee in order to stay within 2011 budget range established prior to our new compensation procedures. Giving effect to the reductions, would reduce the value of their incentive LTIP Unit grants for 2011 in the second table to \$2.6 million, and their total compensation for 2011 in the second table to approximately \$5.6 million. Because the incentive LTIP Unit grants with respect to 2011 were made in 2012, the voluntary reduction in those grants would not change the first table.
- (5) The amount shown in 2011 includes auto allowances (in lieu of mileage reimbursements), reimbursement of medical insurance premiums in lieu of participation in our insurance program, matching contributions under our 401(k) Plan and the estimated incremental cost of personal use of an administrative assistant. For details, see “—Employment Agreements.”

Grants of Plan-based Awards

The following table sets forth the grants of plan-based awards during 2011 to our executive officers:

(1) In accordance with SEC rules, the LTIP Unit awards granted in January 2011 are included in the table above because they were made in 2011, even though they were part of each executive's compensation for 2010. Consistent with our annual practice, our Compensation Committee approved the dollar value of these grants on December 22, 2010, stipulating that they be issued on January 18, 2011, with the number of shares to be based on the closing price on the date of grant (\$17.27). Our Compensation Committee did so because we wish to inform our employees of the grants in their reviews, which are then scheduled to occur between the date of approval and the date of grant. LTIP Unit awards with respect to each executive's compensation for 2011 were not included in the table above because they were granted in January 2012.

(2) The amounts in this column represent the aggregate grant date fair value of the LTIP Units calculated in accordance with ASC 718, under the assumptions set forth in Note 13 to our audited financial statements for 2011 included in our 2011 Annual Report on Form 10-K.

Potential Payments Upon Termination or Change of Control

The section below provides information concerning the amount of compensation payable to each of our executive officers in the event of termination of such executive's employment, including certain estimates of the amount that would have been paid on certain dates under what we believe to be reasonable assumptions. However, the actual amounts to be paid out can only be determined at the time of such executive's termination.

Payments Made Upon Termination

Regardless of the manner in which any of our employees (including any of our executive officers) is terminated, the employee would be entitled to receive certain amounts due during such employee's term of employment. Such amounts would include:

- any unpaid salary from the date of the last payroll to the date of termination;
- reimbursement for any properly incurred unreimbursed business expenses; and
- unpaid, accrued and unused personal time off through the date of termination.

In addition, the officer would retain the following rights:

- any existing rights to indemnification for prior acts through the date of termination; and
- any options and LTIP Units awarded pursuant to our 2006 Plan to the extent provided in that plan and the grant or award.

The awards we have made under the 2006 Plan provide that if a participant's (including any of our executive officers who have unvested options or LTIP Units) employment is terminated without cause by us or for good reason by the participant, or if our Common Stock is no longer publicly traded following a change of control, then any unvested

options or LTIP Units will immediately vest.

Mr. Emmett. Mr. Emmett does not have any contractual severance arrangements on termination, except that under the terms of our standard award agreements Mr. Emmett's unvested options and LTIP Units would become vested if his employment is terminated without cause by us or for good reason by him, or if our Common Stock is no longer publicly traded following a change of control. As a result, based on our Common Stock closing price on December 31, 2011, we estimate that the approximate value of these severance payments in the case of a termination without cause or with good reason immediately following December 31, 2011 would have been approximately \$71,296.

Messrs. Kaplan, Panzer, Kamer and Guth. As noted above under “—Principal Compensation Agreements and Plans—Employment Agreements,” each of Messrs. Kaplan, Panzer, Kamer and Guth has an employment agreement with us. In addition to those payments made upon termination noted immediately above, these agreements provide for the following additional benefits on certain terminations:

Payments Made Upon Termination by Us Without Cause or by the Officer for Good Reason. If we terminate Messrs. Kaplan, Panzer, Kamer or Guth’s employment without cause or if the officer terminates his employment for good reason, he will receive severance equal to (a) compensation equal to three (two in the case of Mr. Kamer and Mr. Guth) times the average of his total compensation over the last three full calendar years ending prior to the termination date, including (i) his salary, (ii) his annual bonus and (iii) the value (based on the Black-Scholes value in the case of options and the value of the underlying grants in the case of LTIP Unit awards) of any equity or other compensation granted or awarded to him (we note that most of these grants are in lieu of annual bonuses); and (b) continued coverage under our medical and dental plans for him and his eligible dependents for a three-year period (two-year period for Mr. Kamer and Mr. Guth) following his termination. Under the applicable employment agreements for Messrs. Kaplan, Panzer, Kamer and Guth, good reason includes a termination by the officer within 18 months after the occurrence of a change of control. In order to receive such severance, the officer must execute a release of all claims and comply with the remaining confidentiality and non-solicitation provisions of his employment agreement.

Based on the compensation paid, and the grants of options and LTIP Units, in 2009, 2010 and 2011, and using medical insurance premiums and the price of our Common Stock as of December 31, 2011, we estimate that the approximate value of these severance payments and benefits in the case of a termination without cause or with good reason immediately following December 31, 2011 would have been \$24,521,891 for Mr. Kaplan, \$24,502,785 for Mr. Panzer, \$4,503,482 for Mr. Kamer and \$4,030,564 for Mr. Guth. In addition, the unvested option and LTIP Units of each executive would vest immediately, which we estimate would result in additional value of \$4,057,727 for Mr. Kaplan, \$4,057,727 for Mr. Panzer, \$970,378 for Mr. Kamer and \$1,108,974 for Mr. Guth based on the price of our Common Stock as of December 31, 2011.

Payments on Termination following a Change of Control. As noted above, under the employment agreements for Messrs. Kaplan, Panzer, Kamer and Guth, good reason includes a termination by the officer within 18 months after the occurrence of a change of control. As a result, on any such termination, the officer involved would be entitled to the same severance payment, and the same additional value for the acceleration of the unvested option and LTIP Units outlined above. Under their current employment agreements, these payments would not be grossed up to adjust for any excise taxes under Section 280G of the Internal Revenue Code.

Payments Made Upon Death or Disability. In the event of the death or disability of Messrs. Kaplan, Panzer Kamer or Mr. Guth, the officer (or his estate) will receive continued medical benefits for him and his eligible dependents for a period of 12 months, plus a pro-rated portion of the officer’s annual bonus, that he otherwise would have been paid based upon actual performance for the year and the percentage of the year that elapsed through the date of his termination of employment. Using current medical insurance premiums, we estimate that the approximate value of the continued medical benefit payments in the case of a termination for death or disability immediately following December 31, 2011 would have been \$26,371 for Mr. Kaplan, \$26,371 for Mr. Panzer, \$14,400 for Mr. Kamer and \$15,272 for Mr. Guth.

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to our Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

COMPENSATION COMMITTEE

DIRECTOR COMPENSATION

Director compensation is determined by our Board, after recommendation from our Governance Committee, and is reviewed periodically as appropriate. Our executive officers do not participate in decisions concerning director compensation except to the extent that Messrs. Emmett, Kaplan and Panzer are involved as members of our Board (but not as members of our Governance Committee). Our directors who are employees of our company or our subsidiaries are not entitled to receive additional compensation for their services as directors. Our non-employee directors receive an annual fee of \$85,000, any or all of which may be paid in cash or in LTIP Units at the election of the director. Any LTIP Units are awarded at the beginning of each calendar year and vest on a quarterly basis over the year in question. The chairperson of our Audit Committee receives an additional annual fee of \$20,000, and the chairperson of our Compensation Committee or of our Governance Committee each receives an additional annual fee of \$12,500, all paid in cash on a quarterly basis. Once every three years (most recently in 2010), we also provide each of our non-employee directors with a grant of \$150,000 of LTIP Units (based on our common stock price), vesting over the next three years (directors elected to our Board for the first time between such grants receive a pro rata grant on election). We also reimburse all directors for their reasonable expenses incurred in connection with their director duties.

LTIP Units granted to our directors cannot be exchanged for Common Stock and sold until at least two years after the date of grant.

The table below summarizes the compensation we paid to our non-employee directors in 2011:

Name(1)	Fees Earned or Paid in Cash (\$)	LTIP Unit Awards (\$)(2)	Total (\$)
Christopher Anderson	\$ 0	\$ 66,282	\$ 66,282
Leslie E. Bider	\$ 12,500	\$ 85,003	\$ 97,503
Dr. David Feinberg	\$ 0	\$ 115,249	\$ 115,249

Dr. Andrea L. Rich	\$ 12,500	\$ 85,003	\$ 97,503
William Wilson III	\$ 0	\$ 85,003	\$ 85,003

- (1) Messrs. Emmett, Kaplan and Panzer are not included in this table as they are our employees and thus receive no additional compensation for their services as directors. The compensation received by Messrs. Emmett, Kaplan and Panzer as our employees is shown in the Summary Compensation Table.
- (2) The amounts in this column represent the aggregate grant date fair value of awards made in 2011, calculated in accordance with ASC 718, under the assumptions included in Note 13 to our audited financial statements for 2011 included in our 2011 Annual Report on Form 10-K. The aggregate grant date fair values in this column are equal to the individual grant date fair values of the 4,984 LTIP Units granted in January 2011 to each of Mr. Bider, Mr. O'Hern, Dr. Rich and Mr. Wilson to satisfy the portion of their annual service fees not paid in cash, as well as the 6,526 LTIP Units granted in September 2011 to Mr. Feinberg and the 8,011 LTIP Units granted in December 2011 to Mr. Anderson in connection with the election of each to the Board. On December 31, 2011, no non-employee director held any options.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The members of our Compensation Committee are Leslie E. Bider, Chairman, Dr. David Feinberg and Ghebre Selassie Mehreteab. No member of our Compensation Committee is or was one of our officers or employees, or is related to any other member of our Compensation Committee or any member of our Board, or any of our executive officers by blood, marriage or adoption or had any other relationships requiring disclosure under SEC rules. None of our executive officers has served on the board of directors or on the compensation committee of any other entity that had an officer who served on our Board or our Compensation Committee.

TRANSACTIONS WITH RELATED PERSONS

Mr. Kaplan, our Chief Executive Officer, in his individual capacity, and Messrs. Emmett and Panzer, our Chairman of the Board and Chief Operating Officer, respectively, through an affiliated limited partnership and living trust, respectively, each committed \$750,000 to our institutional real estate fund ("Fund X") on the same basis as we committed approximately \$150 million and third party investors committed another approximately \$150 million. During the life of Fund X, we are entitled to certain additional cash based on committed capital and on any profits that exceed certain specified cash returns to the investors. Certain of our wholly-owned affiliates provide property management and other services to Fund X, for which we are paid fees and/or reimbursed our costs. Fund X contemplates an investment period that will end no later than October 7, 2012, followed by a value creation period of up to ten years (subject to extension under certain circumstances).

Our Code of Business Conduct and Ethics defines a conflict of interest as any situation in which a director, officer or employee has competing professional or personal interests, which could possibly make it difficult to fulfill his or her duties and responsibilities in an impartial manner. Our Code of Business Conduct and Ethics specifically requires that all of our officers, directors and employees (i) fully disclose to the appropriate parties all actual or perceived conflicts of interest and (ii) ensure that their duties and responsibilities are handled in such a manner that ensures impartiality.

Under our Code of Business Conduct and Ethics conflicts of interest involving our directors and executive officers must be approved by a majority of disinterested directors on our Board, with any interested members abstaining. If such a waiver is granted, a written authorization will be provided indicating that the individual may proceed with the proposed activity.

REPORT OF THE AUDIT COMMITTEE

The information contained in this Report of the Audit Committee shall not be deemed incorporated by reference in any filing under the Securities Act or the Exchange Act, whether made before or after the date hereof and irrespective of any general incorporation language in any such filing (except to the extent that we specifically incorporate this information by reference) and shall not otherwise be deemed “soliciting material” or “filed” with the SEC or subject to Regulation 14A or 14C, or to the liabilities of Section 18 of the Exchange Act (except to the extent that we specifically request that this information be treated as soliciting material or specifically incorporate this information by reference).

Although the Audit Committee oversees our financial reporting process on behalf of our Board consistent with the Audit Committee’s written charter, management has the primary responsibility for preparation of our consolidated financial statements in accordance with generally accepted accounting principles and the reporting process, including disclosure controls and procedures and the system of internal control over financial reporting. Our independent registered public accounting firm is responsible for auditing the annual financial statements prepared by management.

The Audit Committee has reviewed and discussed with management and our independent registered public accounting firm, Ernst & Young LLP, our 2011 audited financial statements and management’s assessment of the effectiveness of our internal control over financial reporting as of December 31, 2011. Prior to the commencement of the audit, the Audit Committee discussed with our management and independent registered public accounting firm the overall scope and plans for the audit. Subsequent to the audit and each of the quarterly reviews, the Audit Committee discussed with the independent registered public accounting firm, with and without management present, the results of their examinations or reviews, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of specific judgments and the clarity of disclosures in the consolidated financial statements.

In addition, the Audit Committee discussed with the independent registered public accounting firm the matters required to be discussed by Statements on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1 AU section 308), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. The Audit Committee has also received the written disclosures and the letter from the independent registered public accounting firm required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accounting firm’s communications with the Audit Committee concerning independence. The Audit Committee discussed with the independent registered public accounting firm its independence from us and considered the compatibility of non-audit services with its independence.

Based upon the reviews and discussions referred to in the foregoing paragraphs, the Audit Committee recommended to our Board that the audited financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2011 filed with the Securities and Exchange Commission.

AUDIT COMMITTEE

Thomas E. O’Hern, Chairperson

Leslie E. Bider

Ghebre Selassie Mehreteab

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

For 2010 and 2011, our independent registered public accounting firm was Ernst & Young, LLP, an Independent Registered Public Accounting Firm. The following table presents fees for professional services rendered by Ernst & Young LLP to us for 2010 and 2011:

	2010	2011
Audit Fees	\$ 946,000	\$ 957,000
Audit-Related Fees	\$ 0	\$ 0
Tax Fees(1)	\$ 581,000	\$ 647,000
All Other Fees	\$ 0	\$ 0

- (1) Tax fees include fees principally incurred for assistance with tax compliance matters.

Audit Committee Authorization of Audit and Non-Audit Services

Our Audit Committee has the sole authority to authorize all audit and non-audit services to be provided by the independent registered public accounting firm engaged to conduct the annual audit of our consolidated financial statements. In addition, our Audit Committee has adopted pre-approval policies and procedures that are detailed as to each particular service to be provided by the independent registered public accounting firm and require our Audit Committee to be informed of each service provided by the independent registered public accounting firm. Such policies and procedures do not permit our Audit Committee to delegate its responsibilities under the Exchange Act to management.

Our Audit Committee's policy is to pre-approve all audit and permissible non-audit services provided by Ernst & Young LLP, and did so in the case of all of the fees for 2011. Pre-approval is generally provided by our Audit Committee for up to one year, as detailed as to the particular service or category of services to be rendered, as is generally subject to a specific budget. Our Audit Committee may also pre-approve additional services of specific engagements on a case-by-case basis. Our Audit Committee considered and determined that the provision of non-audit services by Ernst & Young LLP was compatible with maintaining their independence.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors and executive officers, as well as persons who own more than ten percent of our Common Stock, to file with the SEC initial reports of beneficial ownership and reports of changes in beneficial ownership of our Common Stock. Directors, executive officers and greater-than-ten percent stockholders are required by the SEC regulations to furnish us with copies of all Section 16(a) forms they file.

Based solely on a review of copies of Forms 3, 4 and 5 filed with the SEC and submitted to us and on written representations by certain directors and executive officers received by us, we believe that all Section 16(a) reports for our directors and executive officers, as well as persons who own more than ten percent of our Common Stock, were timely filed except that a single report by Mr. O'Hern with respect to the conversion of 8,307 OP Units to the same number of shares of Common Stock on February 8, 2012 was filed on April 9, 2012.

STOCKHOLDERS' NOMINATIONS AND OTHER PROPOSALS FOR 2012

ANNUAL MEETING OF STOCKHOLDERS

The deadline for submission of stockholder proposals in our proxy statement and form of proxy for the 2013 annual meeting of stockholders calculated in accordance with SEC Rule 14a-8 is December 25, 2012.

A stockholder wishing to submit a nomination or other proposal for consideration at the 2013 annual meeting outside of SEC Rule 14a-8 is required to give written notice addressed to the Corporate Secretary, Douglas Emmett, Inc., 808 Wilshire Blvd., Suite 200, Santa Monica, CA 90401, of his or her intention to make such a proposal. The notice of a nomination or other proposal must be received by our Corporate Secretary no later than 5:00 p.m. Eastern Standard Time on December 25, 2012.

DISCRETIONARY PROXY VOTING AUTHORITY

Rule 14a-4(c) promulgated under the Exchange Act, as amended, governs our use of discretionary proxy voting authority with respect to a stockholder proposal that the stockholder has not sought to include in our proxy statement. The rule provides that if we have not received notice of such a proposal at least 45 days before the date of mailing of the prior year's proxy statement, then the management proxies will be allowed to use their discretionary voting authority when the proposal is raised at the meeting. With respect to our 2013 Annual Meeting of Stockholders, if we are not provided notice of a stockholder proposal which the stockholder has not previously sought to include in our proxy statement by March 13, 2013, management proxies will be allowed to use their discretionary authority as indicated above. Proxies solicited by us will confer discretionary voting authority with respect to these proposals, subject to SEC rules governing the exercise of this authority.

FORWARD-LOOKING STATEMENTS

This proxy statement contains “forward-looking statements” within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. These statements relate to expectations concerning matters that are not historical facts. The risks included are not exhaustive, and additional factors could adversely affect our business and financial performance. We operate in a very competitive and rapidly changing environment. New risk factors emerge from time to time, and it is not possible for management to predict all such risk factors, nor can it assess the impact of all such risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

OTHER MATTERS

Our Board is not aware of any matter to be acted upon at our Annual Meeting other than as described in this Proxy Statement. If any other matter properly comes before the meeting, however, the proxy holders are authorized to vote on that matter or matters in accordance with their best judgment.
