Required Vote

Nominees will be elected as directors by a plurality of the votes cast (assuming a quorum is present). The shares represented by each properly executed unrevoked proxy will be voted "FOR" the election of all of the nominees, unless the proxy otherwise directs. Abstentions and broker non-votes will not have any effect on the outcome of this proposal because they are not treated as votes cast. Instructions to withhold authority to vote will have no effect on the outcome of this proposal. All of the nominees have indicated a willingness to serve as directors, but if any of them should decline or be unable to act as a director, the proxy holders will vote "for" the election of another person or persons as our Board recommends.

Board Recommendation:

OUR BOARD RECOMMENDS THAT STOCKHOLDERS VOTE FOR EACH OF THE ABOVE-NAMED NOMINEES.

7

RATIFICATION OF APPOINTMENT OF ERNST & YOUNG LLP

(Proposal 2)

Our Audit Committee has approved the appointment of Ernst & Young LLP as our independent registered public accounting firm to audit our consolidated financial statements for 2017. We are seeking our stockholders' ratification of such action. A representative of Ernst & Young LLP will be available at our Annual Meeting to respond to appropriate questions or make any other statements such representative deems appropriate.

Required Vote

The proposal requires the affirmative vote of a majority of the votes cast on the proposal (assuming a quorum is present). Stockholders may vote "for" or "against" the proposal, or they may abstain from voting on the proposal. Abstentions will not have any effect on the outcome of this proposal because they are not treated as votes cast. In the event the stockholders do not approve this proposal, our Audit Committee will reconsider the appointment of Ernst & Young LLP as our independent registered public accounting firm. Unless a proxy directs otherwise, the shares represented by each properly executed unrevoked proxy will vote "for" the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm.

Board Recommendation:

OUR BOARD RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE RATIFICATION OF APPOINTMENT OF ERNST & YOUNG LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM.

NON-BINDING ADVISORY VOTE ON EXECUTIVE COMPENSATION

(Proposal 3)

We are seeking an advisory vote (sometimes referred to as “say on pay”) from our stockholders to approve our executive officers' compensation. Our Board recommends that you approve this resolution for the following reasons (for more information, please also see “Executive Compensation,” including the Compensation Discussion and Analysis section):

First, we tie the compensation of our executive officers directly to their performance (“pay for performance”):

Strong Link Between Pay and Performance. At the beginning of each year, our Compensation Committee approves written Operating and Financial Goals, as well as a target for our Funds From Operations (“FFO”), which we then disclose in our proxy statement. At the end of each year, our Compensation Committee determines our executives' compensation based on the achievement of those goals, our financial results (in the form of FFO) as well as our acquisitions, dispositions and development and redevelopment activities during the year and (when appropriate and disclosed) other factors.

System Overwhelmingly Approved by our Stockholders. We developed this system in 2012 after consultation with our stockholders, and 99% of our participating stockholders approved this revised compensation approach at the following annual meeting in 2013. Each year thereafter, we have met or talked with most of our major stockholders at least once a year, and generally more often, and engage with them on any thoughts they have on our compensation approach or implementation. We also review and consider any comments from analysts or stockholder advisory services. Taking into account stockholder preferences, since 2014 we revised our compensation system to eliminate time based restricted equity grants unrelated to performance (except in the cases such as new hires and promotions, where a grant of equity can provide an immediate appropriate stake in the Company).

Benchmarking of Pay. We benchmark our executive officers against a benchmark group of 13 public companies selected by our Compensation Committee with the advice of an independent compensation consultant, which includes: (i) office sector REITs that primarily invest in Class “A” space in high barrier-to-entry markets; (ii) select multi-family REITs with a strong concentration of assets in California; and (iii) select California-based REITs with whom we compete for talent. Our Benchmark Group in 2016 was the same as it was in 2015.

Most Pay Dependent on Performance. In 2016, the base salary of our CEO represented less than 13% of his expected annual compensation, with the remaining 87% (none of which is guaranteed) determined at the discretion of our Compensation Committee after the end of the year based on performance during the year. Our Compensation Committee believes that the equity should generally be granted at the end of the performance period after evaluating performance during the measurement period; consequently, we do not generally grant equity at the beginning of the measurement period. This also avoids the difficulty of specifying forfeiture conditions in the equity grant. In 2016, all equity grants to our CEO and COO were based on their performance; they did not receive any grants based solely on time.

Pay Largely in Restricted Equity. We pay most (approximately 87% for our CEO and COO in 2016) of our senior executives' compensation in the form of restricted equity based on their performance during the current year. Those grants: (i) vest over three or more years; (ii) are contingent upon the future stock price performance exceeding the price at which the restricted equity was originally granted by a minimum level set by the Compensation Committee (two percent for 2016 grants); (iii) are subject to restrictions on transfer for two years after vesting; (iv) and any grants not converted into common stock within 10 years of the grant date will be forfeited. Accordingly, none of the equity granted to our executive officers is restricted for less than four years, and some is restricted for at least seven years, after grant. This directly ties the value of the compensation for our executive officers not only to our evaluation of their performance in the year of grant, but also to the ultimate total return to our stockholders over a multi-year period.

Significant Long-Term Equity Ownership Creates a Strong Tie to Our Stockholders. On March 31, 2017 our executive officers and directors held approximately 19% of our outstanding share equivalents (common stock, OP

Units and LTIP Units), with a market value of \$1.3 billion based on the closing price of our stock on March 31, 2017. Each of our executive officers and directors is in compliance with our share ownership and retention policy (described below in “Corporate Governance-Equity Ownership Guidelines”).

Reasonable and Limited Perquisites. We provide very limited perquisites for our executive officers. Our executive officers are entitled to a car or car allowance in lieu of mileage reimbursement and participate in our employee plans on the same basis as our other employees, including vacation, medical and health benefits and our 401(k) retirement savings plan. Our CEO and COO are also entitled to use their secretaries for personal matters, which we believe is minimal and can increase the efficiency of their efforts for us. We believe these perquisites, while not representing a significant portion of our executive officers' total compensation, reflect our intent to create overall market comparable compensation packages.

Reasonable Employment Provisions. The employment agreements for our executive officers do not contain (i) any "single trigger" change of control provisions in any employment provisions; (ii) any severance multipliers in excess of three times; or (iii) any excise tax gross-ups. They do include a provision requiring repayment of any overpayment of compensation following a restatement of our financial statements. We also prohibit hedging transactions in, and pledging of, our securities by our executive officers and directors (without the specific approval of our Audit Committee, which did not grant any such approvals in 2016).

Second, our Compensation Committee fairly implemented this approach for 2016:

Our Compensation Committee concluded that our executives performance in 2016 was excellent, and met or exceeded expectations with respect to most of the goals adopted by the Committee in early 2016.

Strong Fundamentals. During 2016, we increased net effective office rents throughout our office portfolio, and we maintained high levels of occupancy in our office portfolio despite acquiring several properties with significant vacancy, ending the year at 92.2% leased and 90.4% occupied. Based on external estimates, the leased rate of our office portfolio at December 31, 2016 exceeded the average Class A office leased rate in our submarkets by over 160 basis points, a strong achievement because we represent more than a quarter of those markets. The average straight-line rental rate for new and renewed leases that we signed during 2016 was 27.4% greater than the average straight-line rental rate on the expiring leases for the same space. Our multifamily portfolio remained fully leased while we raised asking rents by an average of 5.1%.

Excellent G&A Control. In 2016, our general and administrative expenses represented 4.7% of our revenues, significantly less than the average of 7.3% for a benchmark group of Central Business District (CBD) office REITs.¹

Excellent Capital Control. In 2016, our recurring capital expenditures, tenant improvements and leasing commissions represented 8.7% of our revenues, significantly less than the average of 14.1% for a benchmark group of CBD office REITs¹.

Excellent Tenant Service. Tenant service is key in handling our very large number of small, affluent tenants. In our annual survey of all of our tenants (to which over 1,400 tenants responded), our overall tenant satisfaction score increased to a record high of 4.53 out of 5.

Strong Sustainability Program. During 2016, we saved over \$3.7 million by reducing same property electricity usage by 4% and electrical costs by over 9%. At year end, over 90% of our eligible office space was ENERGY STAR certified by the United States Environmental Protection Agency (the "EPA"), with energy efficiency in the top 25% of buildings nationwide.

Strong FFO Growth. For 2016, we achieved \$1.81 in FFO per share, an increase of 11% from 2015, and above the target of \$1.74 per share set by our Compensation Committee at the beginning of the year. Excluding \$6.6 million of accelerated non-cash accretion of an above-market ground lease from the acquisition of the Harbor Court Land in 2015, our FFO per share increased by 13.8% from 2015.

Strong Same Property NOI Growth. For 2016, our same property cash net operating income (NOI) increased by 5.6% compared to 2015, reflecting increasing rental rates and excellent cost control.

Significant Acquisitions and Dispositions. Our Compensation Committee determined that the acquisitions and disposition that we completed in 2016 were well negotiated and executed. During 2016, together with our joint venture partners, we acquired approximately \$1.7 billion of Class A office properties in our core Los Angeles submarkets.

Progress with Developments. We continued to make progress with our two multifamily developments, one in our Brentwood submarket in Los Angeles, California, and the other in Honolulu, Hawaii. The Brentwood development made significant progress through the entitlement process and we commenced construction of units at our Moanalua development in Honolulu, with expected delivery of the first phase of units in late 2017.

⁽¹⁾ The REITS included in this group are Boston Properties, Inc., Hudson Pacific Properties, Inc., Kilroy Realty Corporation, SL Green Realty Corp., Vornado Realty Trust and Paramount Group, Inc.

Financing our Growth. We raised equity capital of approximately \$750 million from our joint venture partners to finance the acquisition of Class A office properties during 2016 (see "Acquisitions and Dispositions" above), and we closed over \$1.7 billion of new loans in 2016, including \$726 million of new loans to fund our joint venture property acquisitions and approximately \$1 billion of new loans related to refinancings. Of the loans that we closed, over 90% were fixed or effectively fixed with interest rate swaps at a weighted average annual effective interest rate of 2.8%.

Excellent Long Term Total Shareholder Return. Although our Compensation Committee does not formally consider our total shareholder return ("TSR") for the reasons discussed below, our independent compensation consultant provided data on it for our Compensation Committee. In 2016, our one year TSR (20.3%) put us in the 73rd percentile of our Benchmark Group. Over the longer term, our performance has been even stronger: our TSR for the last seven years and for the ten years since our IPO were at the 89th and 88th percentile of our Benchmark Group, respectively.

Based on these factors, our Compensation Committee increased our CEO and COO's total earned compensation in 2016 by 5.0% compared to 2015. Our Compensation Committee did not increase the 2017 base salaries for any of our executive officers.

Required Vote

As an advisory vote, the vote on this proposal is not binding upon us, our Board, or our Compensation Committee. However, our Compensation Committee, which is responsible for designing and administering our executive compensation program, and our Board, both value the opinions expressed by stockholders in their vote on this proposal and will consider the outcome of the vote when making future compensation decisions for executive officers. Abstentions and broker non-votes will not be counted as votes cast and will therefore have no effect on the outcome. Unless a proxy directs otherwise, the shares represented by each properly executed unrevoked proxy will vote "for" Proposal 3.

Board Recommendation:

For all of these reasons, our Board recommends a vote "FOR" the following resolution at our Annual Meeting: "RESOLVED, that the stockholders of Douglas Emmett, Inc. hereby approve, on an advisory basis, the compensation paid to its named executive officers, as disclosed in its Proxy Statement for its 2017 Annual Meeting of Stockholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the Summary Compensation Table and the other related tables and disclosures."

OUR BOARD RECOMMENDS THAT STOCKHOLDERS VOTE FOR PROPOSAL 3.

NON-BINDING ADVISORY VOTE ON THE FREQUENCY
OF AN ADVISORY VOTE ON EXECUTIVE COMPENSATION

(Proposal 4)

As required pursuant to Section 14A of the Exchange Act, we are also seeking an advisory vote from our stockholders in which you can indicate whether you would prefer that an advisory vote on the compensation of our named executive officers occur once every year, every two years or every three years. An advisory vote on named executive officer compensation every year maximizes feedback, while doing so every three years minimizes the administrative process involved. Our Board has determined not to recommend any particular outcome, but instead to have each stockholder express his or her own preference.

Required Vote

As an advisory vote, the vote on this proposal is not binding upon us or our Board. Our Board may decide to hold an advisory vote to approve executive compensation more or less frequently than the option which receives a plurality of the stockholders. Abstentions and broker non-votes will not be counted as votes cast and will therefore have no effect on the outcome. Unless a proxy directs otherwise, the shares represented by each properly executed unrevoked proxy will not be voted on this proposal.

Regardless of the frequency with which we request an advisory vote on executive compensation, our Board encourages stockholders to contact our Board or management to express their views on executive compensation matters through our Corporate Secretary as described under the heading “Corporate Governance – Stockholder and Interested Party Communications.”

CORPORATE GOVERNANCE

Corporate Governance Guidelines

We have adopted Corporate Governance Guidelines, which are available on our website at www.douglasemmett.com/governance. Our Board adopted these guidelines to assist in the exercise of its responsibilities. The guidelines describe such matters as the role of directors, the selection of new directors, Board membership criteria, independence requirements, self-evaluation by our Board and procedural matters of the Board and its committees. In accordance with our guidelines, our Board annually reviews management's long-range planning for executive development and succession.

Our Corporate Governance Guidelines provide that an independent director may not serve on the Board for more than twelve years unless that limit is waived by our Governance Committee. The average tenure of our non-employee board members is only about six years. In addition, our Governance Committee considered the fact that Mr. Emmett is over our standard retirement age of 75, but determined that his service on the Board continues to benefit our business.

Code of Business Conduct and Ethics

Our Code of Business Conduct and Ethics, which is applicable to our directors, officers and employees (including our CEO and CFO), embodies our principles and practices relating to the ethical conduct of our business, and our commitment to honesty, fair dealing and compliance with laws. Our Code of Business Conduct and Ethics is available at www.douglasemmett.com/governance. If we make any amendments to this code other than technical, administrative or other non-substantive amendments, or grant any waivers, including implicit waivers, from a provision of this code to our CEO, CFO or Principal Accounting Officer, we will disclose the nature of any such amendment or waiver to the code, its effective date and to whom it applies, on our website or in a report on Form 8-K filed with the SEC.

Equity Ownership Guidelines

Our Board has adopted a policy to encourage our executive officers and directors to reach target equity ownership levels (through a combination of common stock, OP Units, and/or LTIP Units) within five years of their becoming subject to the policy, equal to the lesser of a multiple (based on fair market value of the equity at each year-end) of annual salary/retainer at the previous year-end or a fixed share amount, as follows:

Title	Share Equivalents	Multiple of Salary/retainer
CEO	200,000	4x
Other executive officers	50,000	3x
Directors	10,000	3x

In addition, our directors and executive officers are restricted from selling or transferring equity compensation for a minimum of two years and as many as seven years after grant.

As of March 31, 2017, each of our directors and executive officers owned at least 13,000 share equivalents (including common stock, OP Units and vested and unvested LTIP Units), and all were in compliance with the applicable standards. As of March 31, 2017, our directors and executive officers owned an aggregate of approximately 33 million share equivalents (including common stock, OP Units and LTIP Units) with a market value of \$1.3 billion based on the closing price of our stock on March 31, 2017.

Director Independence

Our Board annually reviews and determines the independence of each director and nominee for election as a director in accordance with our Corporate Governance Guidelines, which incorporates all elements of the independence standards set forth in the New York Stock Exchange ("NYSE") rules. Our director independence standards are available on our website at www.douglasemmett.com/governance. Based on these standards, our Board determined that all of our non-employee board members are independent.

Board Leadership Structure

Our Board currently separates the role of Chairman of the Board from the role of our CEO. In addition, our Corporate Governance Guidelines designate the chairperson of our Governance Committee as our lead independent director, responsible for matters such as presiding over the meetings of our independent directors. Our Board believes that this structure combines accountability with effective oversight. This structure also gives us the continued benefits of the experience and knowledge of our Chairman, who has been overseeing our operations and those of our predecessors for over 40 years and is one of our largest equity owners. It also provides a single independent director with responsibility for coordinating the actions of our independent directors.

Board Role in Risk Oversight

Our Board is actively involved in overseeing our risk management through our Audit Committee. Under its charter, our Audit Committee is responsible for discussing guidelines and policies governing the process by which our executive officers and our relevant departments assess and manage our exposure to risk, as well as our major financial risk exposures and the steps management has taken to monitor and control such exposures. Our Board oversees an annual review of the potential impact of risks to our operations and financial health, while our Audit Committee oversee a similar assessment of potential fraud risks. Although our separation of the roles of Chairman and CEO could potentially improve risk oversight function by our Board, this was not a significant issue in determining our Board's leadership structure.

Stockholder and Interested Party Communications

Communications to our Board, any of its committees, or the chairperson of our Governance Committee (who chairs the quarterly executive sessions of our independent directors) may be addressed to Corporate Secretary, Douglas Emmett, Inc., 808 Wilshire Blvd., Suite 200, Santa Monica, CA 90401, marked to the attention of the appropriate recipient. Copies of all communications so addressed will be promptly forwarded to the chairperson of the committee involved or, in the case of communications addressed to our Board as a whole, to the chairperson of our Governance Committee.

Annual Meeting Attendance

We expect that our Board members will attend our annual meetings of stockholders in the absence of a showing of good cause. All of our Board members attended our 2016 annual meeting of stockholders.

BOARD MEETINGS AND COMMITTEES

During 2016, our Board met four times and acted by written consent five times. Our Board has three separately designated standing committees: our Nominating and Corporate Governance Committee, our Audit Committee and our Compensation Committee. Each member of these standing committees has been determined to meet the standards for “director independence” under the rules and regulations of the SEC and the NYSE. Our Board committees have adopted charters which are available on our website at www.douglasemmett.com/charters. Our directors attended all of our Board meetings during 2016 and at least 75% of the meetings of the respective committees on which they served.

Nominating and Corporate Governance Committee

Our Governance Committee members are William E. Simon, Jr., Chairperson, Virginia McFerran and Thomas E. O'Hern. In addition to any other duties or responsibilities as may be assigned by the Board, our Governance Committee is responsible for (i) reviewing the size and composition of our Board; (ii) evaluating and recommending candidates for director; (iii) reviewing the frequency and structure of meetings and procedures of our Board; (iv) reviewing the size, composition and functioning of our Board committees; (v) reviewing our corporate governance guidelines; (vi) reviewing director compensation levels and practices; (vii) overseeing our Board's self-evaluation process; and (viii) considering any other corporate governance issues that may arise. Under our Corporate Governance Guidelines, the chairperson of our Governance Committee also chairs the executive sessions of our independent directors. Our Governance Committee met three times during 2016, and acted once by written consent. Our Governance Committee manages the process for evaluating current Board members at the time they are considered for re-nomination. After considering the appropriate skills and characteristics required on our Board, the current makeup of our Board, the results of the evaluations, and the wishes of our Board members to be re-nominated, our Governance Committee recommends to our Board whether those individuals should be re-nominated. On at least an annual basis, our Governance Committee reviews with our Board whether it believes our Board would benefit from adding any new member(s), and if so, the appropriate skills and characteristics required for any new member(s). If our Board determines that a new member would be beneficial, our Governance Committee solicits and receives recommendations for candidates and manages the process for evaluating candidates. All potential candidates, regardless of their source (including candidates recommended by stockholders), are reviewed under the same process. Our Governance Committee (or its chairperson) screens the available information about the potential candidates. Based on the results of the initial screening, interviews with viable candidates are scheduled with Governance Committee members, other members of our Board and executive officers. Upon completion of these interviews and other due diligence, our Governance Committee may recommend to our Board the election or nomination of a candidate.

Board nominees must demonstrate an ability to make meaningful contributions to the oversight of our business and affairs, and must also have a reputation for honesty and ethical conduct in their personal and professional activities. Our Governance Committee also believes that our directors should share qualities such as objectivity, experience and strong communication and analytical skills. Our Governance Committee may also consider additional factors, including a candidate's specific experiences and skills, relevant industry background and knowledge, time availability in light of other commitments (such as service on other public company boards or on other governing boards), potential conflicts of interest, material relationships with us and independence from our management. Our Governance Committee does not have a formal policy with respect to diversity; however, our Board and our Governance Committee believe that it is important that we have Board members whose diversity of skills, experience and background are complementary to those of our other Board members. In considering candidates for our Board, the Governance Committee considers the entirety of each candidate's credentials.

We have typically found candidates for independent Board members through recommendations from directors or others associated with us. We may in the future also use the help of executive search firms (which receive a fee for their services). In any given search, our Governance Committee may also define particular characteristics for candidates to balance the overall skills and characteristics of our Board and our perceived needs. However, during any search, our Governance Committee reserves the right to modify its stated search criteria. Our stockholders may recommend candidates by sending the candidate's name and resume to our Governance Committee under the

provisions set forth above for communication with our Board. No such suggestions from our stockholders were received in time for our Annual Meeting.

We require specific approval by our Governance Committee of service by any of our directors on more than three boards of directors of public companies (including service on our Board), or on more than two audit committees of other public companies if such director also serves on our Audit Committee. Our Corporate Governance Guidelines limits service of independent directors on our Board to seven years, unless that limit is waived by our Governance Committee. Finally, our policy requires our directors to submit a letter of resignation upon a material change in their current employment status or job responsibilities, which our Governance Committee may accept or reject in its sole discretion.

Audit Committee

Our Audit Committee members are Thomas E. O'Hern, Chairperson, Leslie E. Bider and William E. Simon, Jr. The principal functions of our Audit Committee include (i) approving the appointment, compensation and retention of, and overseeing the work of, our independent registered public accounting firm; (ii) reviewing our financial statements, earnings releases and internal controls over financial reporting, including the impact of any material risks, legal matters, regulatory and accounting initiatives, accounting principles and financial statement presentations and off-balance sheet structures; (iii) reviewing and granting waivers under our policies relating to conflicts of interest and our Code of Business Conduct and Ethics; and (iv) establishing procedures with respect to reports of questionable accounting or auditing matters, or illegal, unethical or other questionable conduct or conflicts of interest.

Our Audit Committee must approve any decision to hire any person who served as a senior member of the audit team of our independent auditor during the prior two years. Our Audit Committee met four times during 2016, and acted once by written consent.

As required in our Audit Committee Charter, our Board has determined that each member of our Audit Committee is "independent," as defined under the rules and regulations of the SEC and the NYSE, and that Thomas E. O'Hern, Chairman of our Audit Committee, is an "audit committee financial expert" as defined under the rules of the SEC.

Compensation Committee

Our Compensation Committee members are Leslie E. Bider, Chairperson, Christopher H. Anderson and Dr. David T. Feinberg. The principal functions of our Compensation Committee include (i) evaluating the performance of our CEO and COO, and determining their compensation, including salary, bonus, incentive and equity compensation, perquisites and personal and other benefits; (ii) reviewing the performance, compensation, perquisites or other personal benefits of our other executive officers; (iii) reviewing our executive compensation plans, general compensation plans and other employee benefit plans, including incentive-compensation and equity-based plans; (iv) approving grants of equity; (v) approving any employment, change in control, severance or termination agreement or arrangement to be made with any executive officer; and (vi) overseeing our policies relating to the compensation of, and other matters relating to, our employees generally. Our Compensation Committee has the authority to delegate to its subcommittees such power and authority as it deems appropriate to the extent consistent with laws, regulations or listing standards, but has not done so. Our Compensation Committee met twice during 2016, and acted twice by written consent.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Our Executive Compensation Philosophy

Our Compensation Committee, comprised entirely of independent directors as defined by the SEC and the NYSE, is responsible for overseeing our compensation and employee benefit plans and practices, incentive compensation, and equity-based plans (including compensation for our executive officers). Approximately 84% of our stockholders voting approved our executive officers' compensation last year. See “System Overwhelmingly Approved by our Stockholders” above for a discussion on how we considered the results of the most recent shareholder advisory vote on executive compensation in determining our compensation policies. Our Compensation Committee tries to design our compensation programs to reflect the following principles:

Pay for Performance: We believe in paying our executive officers based on their performance (so-called “pay for performance”). Accordingly, performance-based pay represents a substantial majority of the compensation of our executive officers. Only about 10 to 15% of our CEO and COO's compensation is guaranteed, with the remainder determined at the end of each year based upon performance during the year. To avoid excessive focus on any one element, as discussed below, our Compensation Committee considers a variety of specified factors in determining the specific level of compensation that we provide to our CEO, COO and our other executive officers.

Alignment with Long Term Stockholder Value: We believe that our executive compensation should align incentive compensation opportunities with the long-term interests of our stockholders. Approximately 87% of our CEO and COO's compensation in 2016 was in the form of restricted equity whose transfer is restricted for between four and seven years after grant, which further aligns their interests with those of our stockholders.

Competitiveness: Our Compensation Committee seeks to pay competitive compensation that allows us to attract and retain talented and experienced executives. To do this, we benchmark our CEO and COO's compensation against a group of competitive companies. We also pay most of the compensation to our senior executives in restricted equity that vests over three years, and whose transfer is restricted for four to seven years, which encourages our executives to stay with us.

Alignment of Risk Profile: We seek to structure compensation to discourage excessive risk-taking and to encourage ethical and social responsibility. To avoid situations where management focuses on the selected metrics to the detriment of real performance or where a mechanical formula produces anomalous results, our Compensation Committee does not use such formulas to measure success. This approach, together with our benchmarking approach, also eliminates the chance that a formula produces uncapped excessive compensation, and allows our Compensation Committee to factor into its compensation decisions its analysis of the risks taken to achieve the results. We also reduce the potential for excessive risk taking by paying more than 85% of our CEO and COO's annual compensation in restricted equity whose transfer is restricted for between four and seven years after grant, by requiring that equity to be forfeited if performance criteria are not met (generally requiring a capital event such as a material stock sale at a price at least 2% higher than on the date of grant), by imposing a clawback of compensation in the event of a restatement and by having our directors and executive officers maintain significant stock ownership.

Role of Compensation Consultants

In 2016, our Compensation Committee again retained FTI Consulting, Inc. (“FTI”) to assist in our Compensation Committee's determination of executive compensation, including base salary, annual cash incentive and annual equity-based incentive compensation. FTI had been retained by our Compensation Committee in prior years to make recommendations concerning the structure and amount of compensation for our executive officers and our Board. In its engagement letter, FTI specifically confirmed that (i) it was ultimately accountable to our Compensation Committee, which had the ultimate authority to engage, evaluate and, if appropriate, terminate FTI's services; (ii) it would timely report directly to our Compensation Committee any difficulties encountered in the course of its work, including any restriction on the scope of activities or access to required information; and (iii) while it would meet with management in the course of performing its services to gather and check facts, and to obtain their reactions to alternatives that FTI believed should be considered by our Compensation Committee, our management was not empowered to set the nature or scope of, or to give FTI instructions or directions concerning the engagement of FTI, all of which powers were exclusively reserved to our Compensation Committee. In hiring FTI and other professionals, our Compensation Committee specifically considered factors including (i) the provision of other services to us by the firm; (ii) the amount of fees received from us by that firm as a percentage of its total revenue; (iii) the policies and procedures of that firm that are designed to prevent conflicts of interest; (iv) any business or personal relationship of the professional or his or her firm with a member of our Compensation Committee; (v) any of our stock owned by the professional; and (vi) any business or personal relationship of the professional or his or her firm with any of our executive officers. In the case of FTI, it has no other relationships with us, any of our executive officers or any Compensation Committee member, and FTI represented that the fees we pay to it represent significantly less than 1% of its revenues.

Components for Compensation for our Executive Officers

The principal components of annual compensation for our executive officers for 2016 were:

Salary: We establish salary levels for our executive officers annually (as well as upon any promotion or other change in job responsibilities) as part of their total compensation package based on matters including (i) the responsibilities of the position, (ii) the individual's salary history, performance and perceived ability to influence our financial performance in the short and long-term, (iii) the compensation of our other employees, and (iv) an evaluation of salaries for similar positions in our Benchmark Group and other competitive factors. We believe that base salary should represent a modest portion of the compensation for our executive officers; our CEO's and COO's base salaries constituted less than 15% of their expected annual compensation. In addition, our Compensation Committee has generally not increased base salaries for our executive officers, believing that any increases in compensation should be based on performance; the 2016 base salaries for our executive officers other than Mr. Emmett are the same as they were in 2008 (or when they joined the Company or were promoted to their current position, if later). For information concerning base salaries of each of our executive officers during 2016, see “Summary Compensation Tables” below.

Annual Incentive Compensation: We pay most of the annual compensation for our executive officers in the form of discretionary compensation, none of which is guaranteed. We have also paid a significant portion of the annual bonuses of our senior employees in the form of equity that vests over three years and is contingent upon our future stock price exceeding the grant price by a minimum level set by the compensation committee (two percent for 2016 grants), and we restrict our executives from transferring that equity for between four and seven years after grant, and any grants not converted into common stock within 10 years of the grant date will be forfeited. This better aligns the interests of our executives with our stockholders, makes their compensation dependent on future performance and functions as “golden handcuffs.” For information concerning annual incentive compensation of each of our executive officers during 2016, see “Summary Compensation Tables” below.

Perquisites and Other Personal Benefits: We provide very limited perquisites for our executive officers. Our executive officers are entitled to a car or car allowance in lieu of mileage reimbursement and participate in our

employee plans on the same basis as our other employees, including vacation, medical and health benefits and our 401(k) retirement savings plan. Messrs. Emmett, Kaplan and Panzer are also entitled to use their secretaries for personal matters, which we believe is minimal and can increase the efficiency of their efforts for us. These benefits are considered by our Compensation Committee in its review of compensation for our executive officers. We believe these perquisites, while not representing a significant portion of our executive officers' total compensation, reflect our intent to create overall market comparable compensation packages. For information concerning the perquisites of each of our executive officers during 2016, see "Summary Compensation Tables" below.

All of the equity grants we made in 2016 were performance based, with the amount granted reflecting the Compensation Committee's evaluation of the grantee's performance during 2016 (as noted above, our Compensation Committee believes that the equity should generally be granted at the end of the measurement period after evaluating performance rather than at the beginning of the measurement period subject to potential forfeiture for non-performance).

Setting Incentive Compensation: Matching Pay for Performance

Our Incentive Compensation Structure: In determining incentive compensation, our Compensation Committee assesses performance based on the following factors:

Operating and Financial Goals: Our Compensation Committee evaluates whether our management achieved the specific operating and financial goals set by our Compensation Committee at the beginning of the year and disclosed in our Proxy Statement. Our Compensation Committee seeks to set goals for matters within the control of our management, and which it believes are the key factors in the year related to both our annual and long-term success.

External Business Activities: Our Compensation Committee evaluates our external business activities during the year, which includes the effectiveness and financial results of acquisitions, dispositions and development and redevelopment activities. Our Compensation Committee does not set any numeric targets for these activities, since the best course of action necessarily depends on market developments, including the availability and pricing of opportunities, during the year. Our Compensation Committee believes it is equally important that we avoid bad acquisitions as it is that we make good acquisitions.

FFO Targets: Our Compensation Committee evaluates whether our management achieved the quantitative FFO⁽¹⁾ targets set at the beginning of the year. We use FFO as a performance yardstick because many of our investors use it to compare our operating performance with that of other Real Estate Investment Trusts ("REITs"). In evaluating management's performance, our Compensation Committee looks at the "quality" of our FFO as well as its absolute amount. Increases in leasing fundamentals, for example, may (or may not) reflect better management performance than increases that are solely attributable to acquisitions. Our FFO targets, which are set at the beginning of the year, typically exclude the effect of factors such as future acquisitions, dispositions, equity issuances and repurchases, debt financings and repayments, recapitalizations and similar matters, but our Compensation Committee considers such matters in evaluating our management's performance.

Other Factors: Our Compensation Committee also reserves the right to take into account additional factors beyond those identified at the beginning of the year.

Our Compensation Committee uses the above factors as performance yardsticks, as well as evaluating the totality of our management's performance in the context of changing operating environments, to avoid situations where management focuses on the selected metrics to the detriment of real performance or where a formula produces anomalous results. This approach, together with our benchmark approach, also eliminates the chance that a formula produces uncapped excessive compensation, and allows our Compensation Committee to factor into its compensation decisions its analysis of the risk taken.

(1) FFO represents net income (loss) before noncontrolling interests computed in accordance with U.S. generally accepted accounting principles (“GAAP”), excluding gains (or losses) from sales of depreciable operating property, real estate depreciation and amortization (other than amortization of deferred financing costs), and after similar adjustments for unconsolidated funds and joint ventures. We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts (NAREIT). Like any metric, FFO is not perfect as a measure of our performance, because it excludes depreciation and amortization, and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effect and could materially impact our results from operations. Other equity REITs may not calculate FFO in accordance with our definition and, accordingly, our FFO may not be comparable to those other REITs' FFO. Therefore, FFO should be considered only as a supplement to net income as a measure of our performance. FFO should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends. FFO should not be used as a supplement to or substitute measure for cash flow from operating activities computed in accordance with GAAP.

Based on its assessment of these performance factors, our Compensation Committee then determines management's incentive compensation based on performance and comparison to a benchmark group of public REITs (our "Benchmark Group"³). Our independent Compensation Consultant estimated the 2016 compensation at the Benchmark Group using the data for 2015 (the latest data available when we made compensation decisions for 2016). Our Compensation Committee does not tie compensation directly and formulaically to past changes in our stock price, believing that our stock performance in any year depends significantly on factors beyond the control of our management, such as changes in the equity markets or the performance of our submarkets compared to the East Coast markets where most of the other members of our Benchmark Group operate. We do tie our management's compensation directly and substantially to both our assessment of their performance in the year of grant, as well as to the future performance of our stock. Thus, approximately 87% of our CEO and COO's total annual compensation in 2016 was in the form of contingent restricted equity the amount of which was based on the Compensation Committee's evaluation of their performance during 2016. Those grants vest over three years, are contingent upon the future stock price performance exceeding the price at which the restricted equity was originally granted by a minimum level set by the compensation committee (two percent for 2016 grants), are subject to restrictions on transfer for four years after vesting, and any grants not converted into common stock within 10 years of the grant date will be forfeited. Accordingly, all of the equity granted to our Named Executive Officers is restricted for at least four years, and some is restricted for seven years, after grant.

⁽²⁾ For 2016, our benchmark Group was based on (i) office sector REITs that primarily invest in Class “A” space in high barrier-to-entry markets; (ii) select multi-family REITs with a strong concentration of assets in California; and (iii) select California-based REITs with whom we compete for talent. Our Benchmark Group included Alexandria Real Estate Equities, Inc., Apartment Investment and Management Co., Boston Properties, Inc., Columbia Property Trust, Inc., Digital Realty Trust, Inc., Empire State Realty Trust, Inc., Hudson Pacific Properties, Inc., Kilroy Realty Corporation, Paramount Group, Inc., Piedmont Office Realty Trust, Inc., SL Green Realty Corp., UDR, Inc. and Vornado Realty Trust. Our Benchmark Group in 2016 was the same as it was in 2015.

2016 Compensation Determinations

In implementing the above approach for 2016, our Compensation Committee made the following determinations:

Operating and Financial Goals: The table below sets forth the Operating and Financial goals for our CEO and COO for 2016, which was adopted by our Compensation Committee and disclosed in our 2016 proxy, and its evaluation of the results achieved in 2016:

Area	Announced Goal	Results
Leasing	Increase rents in our office portfolio.	During 2016, we increased net effective office rents throughout our office portfolio, and we maintained high levels of occupancy in our office portfolio despite acquiring several properties with significant vacancy, ending the year at 92.2% leased and 90.4% occupied. Based on external estimates, the leased rate of our office portfolio at December 31, 2016 exceeded the average Class A office leased rate in our submarkets by over 160 basis points, a strong achievement because we represent more than a quarter of those markets. The average straight-line rental rate for new and renewed leases that we signed during 2016 was 27.4% greater than the average straight-line rental rate on the expiring leases for the same space.
	Increase rents in our multi-family portfolio.	During 2016, our multifamily portfolio remained fully leased while we raised asking rents by an average of 5%.
	Institute planned upgrades to information technology systems that improve efficiency and reduce reliance on manual systems.	During 2016, we substantially improved our software infrastructure, including (i) automating our lease generation and customization process as well as implementing DocuSign to accelerate and simplify the gathering of customer signatures, (ii) new custom applications covering commercial late fees, amortization of tenant improvement projects and tracking of leads and deal makers; and (iii) streamlining and enhancing many of our existing custom applications.
Operations	Implement planned programs and equipment installations that improve energy usage.	During 2016, we used a new software package to shift our buildings' electrical load to avoid high energy peak usage, added energy management systems at two more properties and converted nine parking garages (with an additional 30 in process) to LED lighting. During 2016, we saved over \$3.7 million by reducing same property electricity usage by 4% and electrical costs by over 9%. At year end, over 90% of our eligible office space was ENERGY STAR certified by the EPA, with energy efficiency in the top 25% of buildings nationwide.
	Achieve tenant satisfaction score of at least 4.25 (out of 5).	In our annual survey of all of our tenants (to which over 1,400 tenants responded), our overall tenant satisfaction score increased to 4.53 out of 5, a new record for us, and up from 4.44 in 2015.
	Limit our general and administrative expenses to a percentage of revenue in the lower half of comparable REITs.	Our 2016 general and administrative expense percentage was 4.7%, significantly less than the average of 7.3% for a Benchmark Group of CBD office REITs.
	Evaluate potential disposition of non-core office properties and execute as determined.	During 2016, we sold a non-core 168,000 square foot office property in Sherman Oaks for \$56.7 million.
	Implement construction plan for the Moanalua	During 2016, we made substantial progress on the construction of the Moanalua Apartment project expansion, including obtaining all of the permits required for

Apartment project expansion.	construction. Construction is now underway, with Phase 1, consisting of 238 new units, scheduled to be completed in late 2017.
Complete the discretionary entitlement process on The Landmark apartment.	During 2016, we made substantial progress on the entitlement process on The Landmark apartment high rise. We developed support from both the City of Los Angeles and neighborhood groups, planning a park for a portion of the site to gain community support for the project. We received final City Council approval in the first quarter of 2017.
Obtain financing for the Westwood Portfolio acquisition, refinance the loan for one of our unconsolidated Funds and address the refinancing of our 2018 maturities.	We (i) closed a \$580 million term loan for our Westwood Portfolio acquisition, with an interest rate effectively fixed at 2.37% per annum for five years, (ii) refinanced and upsized a \$110 million term loan for one of our unconsolidated Funds, with an interest rate effectively fixed at 2.30% per annum for five years, and (iii) completed the refinancing of three quarters of the debt originally scheduled to mature in 2018. In total, we closed over \$1.7 billion in new loans, of which over 90% were fixed or effectively fixed at a weighted average annual effective rate of 2.8%.

External Business Activities: Our Compensation Committee determined that the acquisitions and the disposition that we completed in 2016 were well negotiated and executed. During 2016, together with our joint venture partners, we acquired approximately \$1.7 billion of Class A office properties in our core Los Angeles submarkets.

FFO Target: For 2016, we achieved \$1.81 in FFO per share, exceeding our target of \$1.74 per share, largely as a result of acquisitions and same property NOI growth.

Other Factors: Our Compensation Committee also reviewed the analysis of its compensation consultant FTI, which reported on its assessment of both the factors outlined above, as well as an analysis of our TSR. FTI's report to our Compensation Committee compared our historical TSR (which includes share price appreciation and dividends) to the comparable total return of our Benchmark Group for the period ended November 15, 2016 (the Compensation Committee met on November 21, 2016). FTI subsequently updated that information as of December 31, 2016:

Performance Period	As of November 15, 2016		As of December 31, 2016	
	Our Total Shareholder Return ("TSR")	Benchmark Group Ranking	Our Total Shareholder Return ("TSR")	Benchmark Group Ranking
One year	13.1%	74th percentile	20.3%	73rd percentile
3-Year	60.5%	73rd percentile	70.9%	67th percentile
5-Year	117.2%	91st percentile	131.2%	87th percentile
Since IPO	122.3%	88th percentile	136.6%	88th percentile

Conclusion: Our Compensation Committee concluded that our executives performance in 2016 was excellent, and met or exceeded expectations with respect to the goals adopted by the Committee in early 2016. Our Compensation Committee decided to increase our CEO and COO's total compensation for 2016 by 5.0% from 2015. This placed our CEO at approximately the 53rd percentile of CEO compensation, and approximately the 67th percentile of the average of CEO and COO compensation, at our Benchmark Group¹. For more detailed information on 2016 compensation, see "Summary Compensation Tables".

Other Executive Officers

We use similar principles to set the compensation of our other officers, although less senior officers typically have a higher portion of compensation represented by base compensation and lower variation in incentive compensation based on performance. For more detailed information on the amounts of the 2016 compensation of our other executive officers, including the cash bonus paid and equity awards granted, see "Summary Compensation Tables" and "Grants of Plan-based Awards" below. The 2016 base salaries for our executive officers other than Mr. Emmett have not been increased since 2008 (or when they assumed their current positions). Our Compensation Committee continues to believe that Mr. Emmett's compensation is significantly below that of other executives with his seniority, abilities and experience.

⁽¹⁾ Given the allocation of responsibilities between our CEO and our COO, we pay them equal compensation. Accordingly, our Compensation Committee asked our Compensation Consultant to compare our CEO's compensation to the average of the CEO and COO compensation at the Benchmark Group as well as to the compensation of the CEO alone.

2017 Operating and Financial Goals

For 2017, we intend to use a similar methodology for determining incentive compensation. Our Compensation Committee has established the following 2017 Operating and Financial Goals for our CEO and COO:

Area	2017 Goals
Leasing	<ul style="list-style-type: none"> Achieve a leased rate in our office portfolio that exceeds the average for Class A office buildings in our submarkets. Increase rents in our office portfolio. Increase rents in our multi-family portfolio. Institute additional upgraded information technology systems. Continue to implement additional practices and equipment to improve energy usage.
Operations	<ul style="list-style-type: none"> Leverage relationships with strategic vendors to maintain high levels of service and efficiency. Maintain high levels of tenant satisfaction. Limit our general and administrative expenses to a percentage of revenue in the lower half of comparable REITs. Substantially complete Phase I of the construction of the Moanalua Apartment project expansion.
Capital	<ul style="list-style-type: none"> Complete the entitlement process for The Landmark apartment high rise and make substantial progress on the design and engineering required to allow the start of construction. Continue to address upcoming debt maturities and refinance the loan for one of our unconsolidated Funds.

External Business Activities: Consistent with 2016, the Compensation Committee is not establishing any numeric targets for the effectiveness and financial results of acquisitions, dispositions and development and redevelopment activities, since the best course of action necessarily depends on market developments, including the availability and pricing of opportunities, during the year. The Compensation Committee continues to believe that it is equally important that we avoid bad acquisitions as it is that we make good acquisitions.

FFO target: Our Compensation Committee set a target for 2017 FFO of \$1.91 per share. This excludes the impact from any future acquisitions, dispositions, equity issuances or repurchases, debt financings or repayments, recapitalizations or similar matters which had not been announced as of February 8, 2017.

Other Factors: In determining incentive compensation at the end of the year, the Compensation Committee reserves the right to take into account additional factors beyond those identified above.

Compensation and Risk

We seek to structure compensation to discourage excessive risk-taking and to encourage ethical and social responsibility:

We align the interests of our executives with those of our stockholders by paying a significant portion of the compensation of our executive officers in equity (for example, approximately 87% for our CEO and COO in 2016), in addition, as of March 31, 2017, our directors and executive officers owned approximately 19% of our outstanding share equivalents (common stock, OP Units and LTIP Units), with a market value of \$1.3 billion, based on the closing price of our stock on March 31, 2017, well in excess of what is required by our stock ownership guidelines.

We tie our executives' compensation to the long-term impact of their decisions by paying most or all of their annual incentive compensation in restricted equity whose transfer is restricted for not less than four, and as much as seven, years after grant.

By awarding LTIP Units, rather than options or outperformance plans, we reduce the potential that outsized rewards and limited downside will induce excessive risk taking.

We avoid potential anomalies from relying on mechanical formulas, including distortion by unanticipated events, uncapped excessive compensation and undue focus on the metrics chosen. Our Compensation Committee also factors into its compensation decisions the risk taken to achieve the results achieved.

Our clawback/recoupment policy reduces the chance that our executive officers benefit if earnings were misstated.

We prohibit hedging of our stock by our executive officers and also prohibit them from pledging any of our stock they own without the specific approval of our Audit Committee. No such permission was granted during 2016, and as of March 31, 2017, none of the shares of stock owned by our executive officers was subject to any pledge.

Tax and Accounting Implications

Our Compensation Committee considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which provides that we may not deduct compensation of more than \$1,000,000 that is paid in any calendar year to our CEO and our next three highest compensated executive officers (not including our CFO) under certain circumstances. Our Compensation Committee's policy with respect to Section 162(m) is to make reasonable efforts to allow compensation paid to such persons to be deductible while simultaneously providing the executives with appropriate compensation for their performance. As noted above, to avoid situations where management focuses on the selected metrics to the detriment of real performance or where a mechanical formula produces anomalous results, our Compensation Committee does not use such formulas to measure success. As a result of this approach, our annual incentive compensation generally does not qualify as "performance-based" for purposes of Section 162(m) and is included with base salary and other compensation subject to the \$1,000,000 limitation on deductibility. For 2016, all of the incentive compensation to our named executive officers has been paid in the form of LTIP Units. Our LTIP Units are structured as "profits interests" for federal income tax purposes, so that we do not expect the grant, vesting, or conversion of LTIP Units to produce a tax deduction for us, without regard to any application of Section 162(m). For 2016, we have not provided for cash compensation in excess of \$1,000,000 to any of our named executive officers.

We account for stock-based payments, including awards under our 2016 Plan and 2006 Plan (defined below), in accordance with the requirements of Accounting Standards Codification ("ASC") 718.

Role of Executive Officers in Compensation Decisions

Under its charter, our Compensation Committee makes all compensation decisions with respect to our CEO and our other executive officers, although it may and does consult with others, including our CEO and other officers, as it deems appropriate. In determining the appropriate compensation levels for our CEO and our COO, our Compensation Committee meets outside the presence of all of our executive officers. The Compensation Committee consulted with our CEO and other officers in establishing the operating and financial goals, FFO target and other matters in its discretion, and our CEO provided the Compensation Committee with his evaluation of progress in meeting the 2016 goals. As noted above, although FTI's engagement letter allowed it to meet with management in the course of performing its services to gather and check facts, and to obtain their reactions to alternatives that FTI believed should be considered by our Compensation Committee, our management was not empowered to set the nature or scope of, or to give FTI instructions or directions concerning its engagement, all of which powers were exclusively reserved to our Compensation Committee.

Change of Control Payments

We do not have any payments that are triggered by a change of control where the employee is not also either terminated without cause or has good reason for a termination (no "single trigger" provisions). Messrs. Kaplan, Panzer and Crummy's employment agreements provide that the total of each executive's salary and bonus for each year in the remaining term of the employment agreement following a change of control may not be less than the total salary, bonus (whether paid in cash or equity grants) and value of other awards that vested with respect to the calendar year ending before the change in control occurred. Our employment agreements also do not contain any excise tax gross up provisions. See "Principal Compensation Agreements and Plans-Employment Agreements." The awards that we have made under our 2016 Plan and 2006 Plan (defined below) provide that any unvested options or LTIP Units will not automatically vest unless our common stock would no longer be publicly traded.

Principal Compensation Agreements and Plans

2016 Omnibus Stock Incentive Plan

Our 2016 Omnibus Stock Incentive Plan (our "2016 Plan") was adopted by our Board and approved by our stockholders in 2016. Our 2016 Plan is designed to be an important component of overall compensation for our key

employees, directors and other persons by permitting participation of these key persons in our long-term growth and profitability. This summary of our 2016 Plan does not purport to be exhaustive and is expressly qualified in its entirety by reference to the full text of our 2016 Plan.

Our 2016 Plan is administered and interpreted by our Compensation Committee. All full-time and part-time officers, employees, directors and consultants are eligible to participate in our 2016 Plan. As of December 31, 2016, approximately 6.9 million shares (subject to adjustment for stock splits, stock dividends or similar changes in our capitalization) of our common stock remained available for future issuance under our 2016 Plan. Subject to certain exceptions, shares that are forfeited or canceled from awards under our 2016 Plan become available for future awards. "Full value" awards made (such as Deferred Stock Awards, Restricted Stock Awards and LTIP Unit Awards) count against our 2016 Plan overall limits as two shares (rather than one), while options and stock appreciation rights ("SARs") are counted as one share. Our 2016 Plan provides our Compensation Committee with the authority to grant a variety of types of equity awards:

Incentive Stock Options or Non-Qualified Stock Options. Options entitle the participant to purchase shares of our common stock over time for an exercise price fixed on the date of the grant. The exercise price may not be less than 100% of the fair market value of our common stock on the date of the grant. The exercise price may be paid in cash, by the transfer of shares of our common stock meeting certain criteria, by the sale through a broker of a portion of the shares acquired upon exercise, by applying the value of a portion of the shares acquired upon exercise and issuing only the net balance of the shares, or by a combination of these methods. The participant has no rights as a stockholder with respect to any shares covered by the option until the option is exercised by the participant and shares are issued by us. Although we expect to grant only non-qualified stock options, our 2016 Plan permits the grant of options that qualify as an "incentive stock option" under the Internal Revenue Code.

Stock Appreciation Rights. SARs entitle the participant to receive the appreciation in the fair market value of our common stock between the date of grant and the exercise date either in cash or in the form of shares of our common stock. For cash-settled SARs, the participant will have no rights as a stockholder. For stock-settled SARs, the participant will have no rights as a stockholder with respect to any shares covered by the SAR until the award is exercised by the participant and we issue the shares. SARs may be granted either in tandem with stock options or independently. SARs granted in tandem with options may be exercised only during the time that the related options may be exercised, and the number of SARs is decreased by the number of options exercised by the participant.

Restricted Stock and Deferred Stock Awards. Restricted stock awards are shares of our common stock that vest in accordance with terms and conditions established by the Compensation Committee. Deferred stock awards are stock units entitling the participant to receive shares of our common stock paid out on a deferred basis. Shares of restricted stock or deferred stock awards that do not satisfy applicable vesting conditions are subject to our right of repurchase or forfeiture. In either case, the vesting conditions may be based on continued employment (or other service) with us and our affiliates and/or achievement of performance goals. Unless otherwise provided in the applicable award agreement, a participant granted restricted stock will have the rights of a stockholder for the common stock subject to restrictions, including voting and dividend rights, but not the right to sell or transfer the shares. A participant granted a deferred stock award does not have stockholder rights until shares are issued, if at all.

Other Stock-based Awards. Other stock-based awards permitted under our 2016 Plan include awards that are valued in whole or in part by reference to shares of our common stock, including convertible preferred stock, convertible debentures and other convertible or exchangeable securities, partnership interests in a subsidiary or our operating partnership, awards valued by reference to book value, fair value or performance of a subsidiary, and any class of profits interest or limited liability company membership interest.

Dividend Equivalent Rights. Dividend Equivalent Rights entitle the participant to receive credits for dividends that would be paid if the participant had held specified shares of our common stock. Dividend equivalent rights may not be granted on option shares or SARs.

LTIP Units. LTIP Units are a separate series of units of limited partnership interests in our operating partnership valued by reference to the value of our common stock. LTIP Units, whether vested or unvested, entitle the participant

to receive, currently or on a deferred or contingent basis, dividends or dividend equivalent payments with respect to the number of shares of our common stock underlying the LTIP Unit Award or other distributions from our operating partnership. LTIP Unit Awards that do not satisfy applicable vesting conditions are subject to our right of repurchase or forfeiture. LTIP Units are structured as “profits interests” for federal income tax purposes, and we do not expect the grant, vesting or conversion of LTIP Units to produce a tax deduction for us. As profits interests, LTIP Units initially will not have full parity with OP Units with respect to liquidating distributions. Upon the occurrence of specified events, LTIP Units can achieve full parity with OP Units with respect to liquidating distributions. If full parity is achieved, LTIP Units may be converted, subject to the satisfaction of applicable vesting conditions, on a one-for-one basis into OP Units, which in turn are redeemable by the holder for shares of our common stock or for the cash value of such shares, at our election. Until full parity is reached, the value that a participant could realize for a given number of LTIP Units will be less than the value of an equal number of shares of our common stock and may be zero.

Our 2016 Plan is not an “evergreen” plan and has a ten-year term ending in October 2026, so that awards may not be made under our 2016 Plan after October 2026. Any awards made under our 2016 Plan that remain outstanding after that date will continue to be governed by the terms of our 2016 Plan. Our 2016 Plan generally prohibits the transfer of awards, and only allows the participant to exercise an award during his or her lifetime, although our Compensation Committee may allow certain transfers to family members or entities. If we experience a change-in-control, our Board and the board of directors of the surviving or acquiring entity must make appropriate provisions for the continuation or assumption of awards outstanding under our 2016 Plan, and may provide for the acceleration of vesting with respect to existing awards. We may amend, suspend or terminate our 2016 Plan at any time, but we will obtain stockholder approval of any such action if it is required to comply with applicable law or NYSE regulations. Further, we will need the holder's consent if in doing so we adversely affect any rights under outstanding awards. Until it expired in 2016, we made grants under our 2006 Omnibus Stock Incentive Plan (our "2006 Plan"), which was substantially similar to our 2016 Plan. No further awards may be granted under our 2006 Plan, although awards granted in prior years which are still outstanding continue to be governed by the terms of our 2006 Plan.

Employment Agreements

We have employment agreements with each of Messrs. Kaplan, Panzer and Crummy. This summary of our employment agreements does not purport to be exhaustive and is expressly qualified in its entirety by reference to the full text of the agreements. The principal terms of the agreements are as follows:

Compensation: Each of Messrs. Kaplan and Panzer is entitled to receive a salary of not less than \$1,000,000, and Mr. Crummy is entitled to receive a salary of not less than \$600,000. Messrs. Kaplan, Panzer and Crummy are also entitled to receive an annual bonus based on their individual performance and our overall performance during the year, as evaluated by our Compensation Committee in consultation with that officer. Following a change of control, the total of each officer's salary and bonus may not be less than the total salary and bonus paid with respect to the calendar year ending before the change in control.

Perquisites and Other Benefits: Messrs. Kaplan and Panzer are entitled to the use of an automobile and family health insurance, and to use their secretaries for personal use to an extent reasonably consistent with past practices. Mr. Crummy is entitled to a car allowance. Each of these executives is entitled to 25 days of personal time off per year. Otherwise, the agreements do not provide our executive officers with perquisites that differ from those of our other employees.

Term: The term of each employment agreement ends December 31, 2018, subject to earlier termination with or without cause (30-days' prior notice is required where the termination is by us without cause or by the officer for good reason).

Severance Payments: If we terminate an officer's employment without cause, or if the officer terminates his employment for good reason, they will receive severance equal to (a) compensation equal to three times the average of their total compensation over the last three calendar years ending prior to the termination date (two times for Mr. Crummy), including (i) their salary, (ii) their annual bonus and (iii) the value of any other awards under our plans (the value of LTIP Units will be the face value of the award on the date of grant) (except that in the case of long term grants, where it will be based on the amount that vested in the year - this provision does not apply to Messrs. Kaplan or Panzer, who did not receive any long term grants), and (b) continued coverage under our medical and dental plans for the officer and their eligible dependents for a three-year period (two-year period for Mr. Crummy) following their termination. See “Potential Payments Upon Termination or Change of Control” below. Mr. Crummy's agreement contains a means of calculating his average total compensation until he has three full calendar years of service.

Other Termination Payments: Upon an officer's death or disability, they will continue to receive medical benefits for themselves (in the case of disability only) and their eligible dependents for a period of twelve months plus vesting of any unvested equity grants through the end of the year of termination in lieu of any severance or annual bonus.

Non-competition: Each of these employment agreements also contains a non-competition provision that applies during the term of the agreement, and under which the officer covenants that they will not: (i) for their own account engage in any business that invests in or deals with large and mid-size office buildings and multifamily properties in Los Angeles County and Hawaii (larger than 50,000 square feet for office properties and 50 units for apartment buildings); (ii) enter the employment of, or render any consulting or any other services to, any such entities that so compete, directly or indirectly, with any business carried on by us or any of our subsidiaries; or (iii) become interested in any such competing entity in any capacity, including, without limitation, as an individual, partner, shareholder, officer, director, principal, agent, trustee or consultant; provided, however, that the officer may own, directly or indirectly, solely as a passive investment, 5% or less of any class of securities of any entity traded on any national securities exchange and any assets acquired in compliance with the requirements of the aforementioned non-competition provisions.

As described in the footnotes to the table above, we make long term grants of restricted equity, particularly in connection with hiring and promotions (through 2014, we used them more generally as part of our overall compensation program). As required under SEC rules, the table above includes the entire long-term grant in the year of grant. In contrast, our Compensation Committee spreads the long-term grants over the vesting period. Re-allocating the grant value of long-term grants to the year in which they vest results in the following:

(1) Represents the salary payable with respect to the year it was earned.

28

Represents the aggregate grant date fair value of restricted equity grants, calculated in accordance with ASC 718, not the face value, under the assumptions set forth in Note 12 to our audited financial statements for 2016 included in our 2016 Annual Report on Form 10-K. We restricted our executives from selling or transferring their LTIP Unit Awards in 2016 for between four and seven years after grant. All of our LTIP Unit grants in 2016 were (2) performance based, with the amount granted reflecting the Compensation Committee's evaluation of the performance of the officer during the year in which they were granted. As noted above, our Compensation Committee believes that the equity should generally be granted at the end of the measurement period after evaluating performance rather than at the beginning of the measurement period subject to potential forfeiture for non-performance.

The 2016 amount presented includes (to the extent applicable) auto allowances (in lieu of mileage reimbursements), matching contributions under our 401(k) Plan and the estimated incremental cost of personal use (3) of an administrative assistant. For details, see "Employment Agreements". Messrs. Kaplan and Panzer received an auto allowance of \$30,454 and \$28,643 during 2016, respectively, \$30,115 and \$29,174 during 2015, respectively, and \$30,411 and \$29,040 during 2014, respectively.

Mr. Crummy joined us in July 2014, and his compensation for 2014 included several one-time matters in connection with his hiring, including an agreement that his bonus for 2014 would not be prorated, and a sign-on (4) bonus consisting of a long-term restricted equity grant with an aggregate fair value of \$2,600,000, vesting one quarter (\$650,000) at the end of each of 2015, 2016, 2017 and 2018.

Ms. Gisler received a long-term restricted equity grant in December 2015 in connection with her promotion to CFO (5) effective January 1, 2016. The grant had an aggregate fair value of \$650,000, vesting one fifth (\$130,000) at the end of each of 2016, 2017, 2018, 2019 and 2020.

In 2010, as part of our compensation approach at that time, Messrs. Kaplan and Panzer each received long-term (6) restricted equity grants in 2010 with an aggregate fair value of \$3,900,000, vesting one quarter (\$975,000) at the end of each of 2011, 2012, 2013 and 2014.

Grants of Plan-based Awards

The following table sets forth the grants of plan-based awards during 2016 to our named executive officers:

Name	Approval Date ⁽¹⁾	Grant Date ⁽¹⁾	Number of LTIP Units Awarded ⁽¹⁾	Grant Date Fair Value of LTIP Unit Award ⁽¹⁾⁽²⁾
Dan A. Emmett	November 21, 2016	December 9, 2016	3,256	\$87,521
Jordan L. Kaplan	November 21, 2016	December 9, 2016	255,819	\$6,876,415
Kenneth M. Panzer	November 21, 2016	December 9, 2016	255,819	\$6,876,415
Kevin A. Crummy	November 21, 2016	December 9, 2016	55,209	\$1,484,018
Mona M. Gisler	November 21, 2016	December 9, 2016	7,292	\$196,009

Consistent with our annual practice, our Compensation Committee approved the dollar value of the grants on November 21, 2016, stipulating that they be granted on December 9, 2016, with the number of LTIP units to be (1) based on the closing price of our common stock on the date of grant (\$38.40 at December 9, 2016). Our Compensation Committee does so because we wish to inform our employees of the grants in their reviews, which are scheduled to occur between the approval date and the grant date.

The amounts represent the aggregate grant date fair value of the LTIP Units calculated in accordance with ASC (2) 718, under the assumptions set forth in Note 12 to our audited financial statements for 2016 included in our 2016 Annual Report on Form 10-K.

Outstanding Equity Awards at Fiscal Year-end

The following table presents outstanding stock options (all of which were fully vested and exercisable) and unvested LTIP Units held by our named executive officers as of December 31, 2016:

Jordan L. Kaplan	126,853	98,118	42,636

(2) Based on the closing price of our common stock of \$36.56 on December 31, 2016 at the rate of one share of our Common Stock for each LTIP Unit.

Option Exercises and Equity Vested

The following table presents the exercise of stock options and the vesting of LTIP Units held by our named executive officers during 2016:

Name	Option Awards Number	LTIP Unit Awards Number of LTIP Units Vested	Value Realized on Vesting ⁽²⁾
Dan A. Emmett	202,793	4,334	\$158,451
Jordan L. Kaplan	3,547,998	252,941	\$9,247,523
Kenneth M. Panzer	3,547,998	252,941	\$9,247,523
Kevin A. Crummy	\$—	65,012	\$2,376,839
Mona M. Gisler	\$—	9,499	\$347,283

Amounts are determined by multiplying (i) the number of shares of our common stock to which the exercise of the (1) options related, by (ii) the difference between the per-share closing price of our common stock on the date of exercise and the exercise price of the options.

Amounts represent the market value as of the vesting date of the awards, based on the closing price for our (2) common stock on the date of vesting of the LTIP Units, at the rate of one share of our Common Stock for each LTIP Unit.

EQUITY COMPENSATION PLAN INFORMATION

The following table sets forth certain information regarding our 2016 Plan and our 2006 Plan (our only equity compensation plans, both of which was previously approved by our stockholders) as of December 31, 2016 (share numbers in thousands):

Equity compensation plans approved by security holders ⁽¹⁾ :	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in the first column)
2006 Plan ⁽²⁾	3,969	\$12.43	—
2016 Plan	—	\$—	6,934
Total	3,969		6,934

(1) We do not have any equity compensation plans which were not approved by our security holders.

(2) No further awards may be granted under our 2006 Plan, although awards granted under the 2006 Plan in the past and which are still outstanding will continue to be governed by the terms of our 2006 Plan.

(3) For more information about our 2016 Plan and our 2006 Plan, please see "Principal Compensation Agreements and Plans".

Potential Payments Upon Termination or Change of Control

The section below provides information concerning the amount of compensation payable to each of our executive officers in the event of termination of such executive's employment, including certain estimates of the amounts that would have been paid on certain dates under what we believe to be reasonable assumptions. However, the actual amounts to be paid out can only be determined at the time of such executive's termination.

Payments Made Upon Termination

Regardless of the manner in which any of our employees (including any of our executive officers) is terminated, the employee would be entitled to receive certain amounts due during such employee's term of employment. Such amounts would include:

any unpaid salary from the date of the last payroll to the date of termination;

- reimbursement for any properly incurred unreimbursed business expenses; and
- unpaid, accrued and unused personal time off through the date of termination.

In addition, the officer would retain the following rights:

- any existing rights to indemnification for prior acts through the date of termination; and
- any options and LTIP Units awarded pursuant to our 2016 Plan and our 2006 Plan to the extent provided in that plan and the grant or award.

The awards that we have made under our 2016 Plan and our 2006 Plan provide that if the employment of a participant (including any of our executive officers who have unvested options or LTIP Units) is terminated without cause by us, or for good reason by the participant, or if our common stock is no longer publicly traded following a change of control, then any unvested options or LTIP Units will vest immediately.

Mr. Emmett: Mr. Emmett does not have any contractual severance arrangements on termination, except that under the terms of our standard award agreements, Mr. Emmett's unvested LTIP Units would become vested if his employment is terminated without cause by us, or for good reason by him, or if our common stock is no longer publicly traded following a change of control. As a result, based on our common stock closing price at December 31, 2016, we estimate the value of the severance payment in the case of a termination without cause by us, or with good reason by Mr. Emmett, immediately following December 31, 2016 would have been approximately \$205,138.

Messrs. Kaplan, Panzer and Crummy: As noted above under "Principal Compensation Agreements and Plans - Employment Agreements", each of Messrs. Kaplan, Panzer and Crummy has an employment agreement with us. In addition to those payments made upon termination noted above, these agreements provide for the following additional benefits on certain terminations:

Payments Made Upon Termination by Us Without Cause or by the Officer for Good Reason: If we terminate Messrs. Kaplan, Panzer or Crummy's employment without cause, or if the officer terminates his employment for good reason, he will receive severance equal to (a) compensation equal to three times the average of his total compensation over the last three full calendar years ending prior to the termination date (two times for Mr. Crummy), including (i) his salary, (ii) his annual bonus and (iii) the value of any other awards under our plans (the value of LTIP Units will be the face value of the award on the date of grant) (except that in the case of long term grants, where it will be based on the amount that vested in the year - this provision does not apply to Messrs. Kaplan or Panzer, who did not receive any long term grants), and (b) continued coverage under our medical and dental plans for the officer and his eligible dependents for a three-year period (two-year period for Mr. Crummy) following his termination. In order to receive such severance, the officer must execute a release of all claims and comply with the remaining confidentiality and non-solicitation provisions of his employment agreement. Based on the compensation paid and equity grants in 2014, 2015 and 2016, and using medical insurance premiums, we estimate that the approximate value of these severance payments if employment termination had occurred on December 31, 2016, would have been \$31,179,335 for each of Messrs. Kaplan and Panzer and \$6,070,596 for Mr. Crummy. In addition, the unvested LTIP Units of each executive would vest immediately, which based on the price of our common stock at December 31, 2016 would result in additional value of \$9,783,712 for each of Messrs. Kaplan and Panzer and \$5,095,440 for Mr. Crummy.

Payments Made Upon a Change of Control: We do not have any single trigger provisions in our employment agreements or equity grants, so that following a change of control an employee will have the same severance payments upon a termination without cause or a termination with good reason as outlined in the preceding paragraph. In addition, as is true for all of our employees, if the class of equity into which any unvested equity compensation is convertible is no longer publicly traded after a change of control, any unvested grants will become vested. We estimate that based on the price of our common stock at December 31, 2016 an acceleration under these conditions would result in value of \$9,783,712 for each of Messrs. Kaplan and Panzer and \$5,095,440 for Mr. Crummy. No payments would be grossed up to adjust for any excise taxes under Section 280G of the Internal Revenue Code.

Payments Made Upon Death or Disability: In the event of the death or disability of Messrs. Kaplan, Panzer or Crummy, the officer (or his estate) will receive continued medical benefits for him (in the case of disability only) and

his eligible dependents for a period of 12 months. Using current medical insurance premiums, we estimate that the approximate value of these continued medical benefit payments would have been \$35,909 for each of Messrs. Kaplan, Panzer and Crummy in the case a termination for death had occurred on December 31, 2016. In addition, our grants of LTIP Units beginning in 2014 provide that any employee whose employment is terminated as a result of death will be immediately vested in any equity scheduled to vest in that calendar year. In the case of a termination for death had occurred on December 31, 2016, we estimate that, based on the number of units scheduled to vest in 2016 and the price of our common stock at December 31, 2016, the approximate value of the accelerated LTIP Unit vesting would have been \$9,247,523 for each of Messrs. Kaplan and Panzer, and \$2,376,839 for Mr. Crummy.

COMPENSATION COMMITTEE

Christopher H. Anderson

Dr. David T. Feinberg

DIRECTOR COMPENSATION

The compensation for our non-employee directors is determined by our Board, after recommendation from our Governance Committee, and is reviewed periodically as appropriate. Our Governance Committee consists solely of independent directors, and our executive officers do not participate in its vote on director compensation, although Messrs. Emmett, Kaplan and Panzer, as members of our Board, are involved in the Board approval of the recommendation of our Governance Committee.

As annual fees for their services, each of our non-employee directors receive a grant of LTIP Units with a face value of \$180,000 that vests on a quarterly basis during the year the services are rendered. LTIP Units granted to our directors cannot be exchanged for common stock and are subject to restrictions on transfer for two years after the grant date. Our Audit Committee chairperson receives an additional annual fee of \$22,500, and our Compensation Committee and Governance Committee chairpersons each receive an additional annual fee of \$15,000, paid for in LTIP Units that vest on a quarterly basis. We also reimburse non-employee directors for their reasonable expenses incurred in connection with their services as a directors.

In accordance with SEC rules, the table below summarizes the compensation that we awarded to our non-employee directors in 2016 (which will vest in, and relates to, 2017 service):

Name ⁽¹⁾	LTIP Unit Awards ⁽²⁾
Christopher Anderson	\$ 149,641
Leslie E. Bider	\$ 162,121
Dr. David T. Feinberg	\$ 287,312
Virginia A. McFerran	\$ 149,641
Thomas E. O'Hern	\$ 168,348
William E. Simon, Jr.	\$ 162,121

Our directors who are also our employees are not entitled to receive additional compensation for their services as (1) directors, and thus Messrs. Emmett, Kaplan and Panzer are not included in this table. The compensation received by Messrs. Emmett, Kaplan and Panzer as our employees is shown in the "Summary Compensation Tables".

The amounts in this column represent the grant date fair value, not the face value, of awards made in 2016. The grant date fair value is calculated in accordance with ASC 718, based on the assumptions disclosed in Note 12 to (2) our audited financial statements for 2016, which are included in our 2016 Annual Report on Form 10-K. Except in the case of Dr. Feinberg, who received a pro-rata annual retainer grant with a fair value of \$137,671 for his 2016 services upon his reelection to the Board in 2016, these awards were granted on December 9, 2016 for 2017 services. Our non-employee directors did not hold any options as of December 31, 2016.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The members of our Compensation Committee are Leslie E. Bider, Chairperson, Christopher H. Anderson and Dr. David T. Feinberg. No member of our Compensation Committee is or was one of our officers or employees, or is related to any other member of our Compensation Committee or any member of our Board, or any of our executive officers by blood, marriage or adoption, or had any other relationships requiring disclosure under SEC rules. None of our executive officers has served on the board of directors or on the compensation committee of any other entity that had an officer who served on our Board or our Compensation Committee.

TRANSACTIONS WITH RELATED PERSONS

Emmett and Panzer, our Chairman of the Board and COO, respectively, through an affiliated limited partnership and living trust, respectively, each invested \$750,000 in a fund for individual investors that is a member of our institutional real estate fund ("Fund X") on the same basis that we and other investors contributed approximately \$300 million. We currently own 68.61% of Fund X. Fund X pays us fees and reimburses us for certain expenses related to property management and other services we provide. We also receive distributions based on invested capital and on any profits that exceed certain specified cash returns to the investors. Fund X contemplates a value creation period through 2023 (subject to extension under certain circumstances).

Conflicts of Interest: Our Code of Business Conduct and Ethics (our "Code of Conduct") defines a conflict of interest as any situation in which a director, officer or employee has competing professional or personal interests, which could possibly make it difficult to fulfill his or her duties and responsibilities in an impartial manner. Our Code of Conduct specifically requires that all of our directors, officers and employees (i) fully disclose to the appropriate parties all actual or perceived conflicts of interest, and (ii) ensure that their duties and responsibilities are handled in such a manner that ensures impartiality. Under our Code of Conduct, conflicts of interest involving our directors and executive officers must be approved by a majority of disinterested directors on our Board, with any interested members abstaining. If such a waiver is granted, a written authorization will be provided indicating that the individual may proceed with the proposed activity.

AUDIT COMMITTEE REPORT

The information contained in this Audit Committee Report shall not be deemed incorporated by reference in any filing under the Securities Act or the Exchange Act, whether made before or after the date hereof and irrespective of any general incorporation language in any such filing (except to the extent that we specifically incorporate this information by reference) and shall not otherwise be deemed “soliciting material” or “filed” with the SEC or subject to Regulation 14A or 14C, or to the liabilities of Section 18 of the Exchange Act (except to the extent that we specifically request that this information be treated as soliciting material or specifically incorporate this information by reference).

Although the Audit Committee oversees our financial reporting process on behalf of our Board consistent with the Audit Committee's written charter, management has the primary responsibility for preparation of our consolidated financial statements in accordance with generally accepted accounting principles and the reporting process, including disclosure controls and procedures and the system of internal control over financial reporting. Ernst & Young LLP, our independent registered public accounting firm is responsible for auditing the annual financial statements prepared by management and providing a report on the effectiveness of our system of internal control over financial reporting. The Audit Committee has reviewed and discussed with management and our independent registered public accounting firm, Ernst & Young LLP, our 2016 audited financial statements and the effectiveness of our internal control over financial reporting as of December 31, 2016. Prior to the commencement of the audit, the Audit Committee discussed with our management and independent registered public accounting firm the overall scope and plans for the audit. Subsequent to the audit and each of the quarterly reviews, the Audit Committee discussed with Ernst & Young, with and without management present, the results of their audit /review, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of specific judgments and the clarity of disclosures in the consolidated financial statements.

In addition, the Audit Committee discussed with Ernst & Young the matters required to be discussed by Statements on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1 AU section 308), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. The Audit Committee has also received the written disclosures from Ernst & Young required by applicable requirements of the Public Company Accounting Oversight Board regarding Ernst & Young's independence. The Audit Committee discussed with Ernst & Young its independence from us and considered the compatibility of non-audit services with its independence.

Based upon the reviews and discussions referred to in the foregoing paragraphs, the Audit Committee recommended to our Board that the audited financial statements be included in our Annual Report on Form 10-K for 2016 filed with the Securities and Exchange Commission.

Audit Committee Authorization of Audit and Non-Audit Services

Our Audit Committee has the sole authority to authorize all audit and non-audit services to be provided by the independent registered public accounting firm engaged to conduct the annual audit of our consolidated financial statements. In addition, our Audit Committee has adopted pre-approval policies and procedures that are detailed as to each particular service to be provided by the independent registered public accounting firm and require our Audit Committee to be informed of each service provided by the independent registered public accounting firm. Such policies and procedures do not permit our Audit Committee to delegate its responsibilities under the Exchange Act to management.

Our Audit Committee's policy is to pre-approve all audit and permissible non-audit services provided by Ernst & Young LLP, and did so in the case of all of the fees for 2016. Pre-approval is generally provided by our Audit Committee for up to one year, with limits by the particular service or category of services to be rendered, and may be subject to a specific budget. Our Audit Committee may also pre-approve additional services of specific engagements on a case-by-case basis. Our Audit Committee considered and determined that the provision of non-audit services by Ernst & Young LLP was compatible with maintaining their independence.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors and executive officers, as well as persons who own more than ten percent of our common stock, to file with the SEC initial reports of beneficial ownership and reports of changes in beneficial ownership of our common stock. Directors, executive officers and greater-than-ten percent stockholders are required by the SEC regulations to furnish us with copies of all Section 16(a) forms they file.

Based solely on a review of copies of Forms 3, 4 and 5 filed with the SEC and submitted to us, and on written representations by certain directors and executive officers received by us, we believe that all Section 16(a) reports for our directors and executive officers, as well as persons who own more than ten percent of our common stock, were timely filed during 2016, except that Dan Emmett filed (i) a late Form 4 on January 26, 2016, reporting the redemption and exchange of operating partnership units for common stock and the sale of common stock on January 21, 2016, and (ii) a late Form 4 on April 26, 2016 reporting the redemption and exchange of operating partnership units for common stock and the sale of common stock on April 21, 2016.

The notice must contain the information required by our bylaws. The notice of a nomination or other proposal must be received by our Corporate Secretary no earlier than November 18, 2017 nor later than 5:00 p.m. Eastern Standard Time on December 18, 2017.

In addition, subject to SEC Rule 14a-4(c) promulgated under the Exchange Act, as amended, the proxy solicited by our Board for the 2018 annual meeting of stockholders will confer discretionary authority to vote on any stockholder proposal presented at that meeting if notice of the proposal was not timely received by us under our bylaws, as calculated above.

FORWARD-LOOKING STATEMENTS

This Proxy Statement contains “forward-looking statements” within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. These statements relate to expectations concerning matters that are not historical facts. You can find many (but not all) of these statements by looking for words such as “approximates,” “believes,” “expects,” “anticipates,” “estimates,” “intends,” “plans,” “would,” “could,” “may,” “future” or other similar expressions in this proxy statement. We claim the protection of the safe harbor contained in the Private Securities Litigation Reform Act of 1995. We caution investors that any forward-looking statements presented in this proxy statement, or those that we may make orally or in writing from time to time, are based on our beliefs and assumptions, as well as information currently available to us. The actual outcome will be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control or ability to predict. Although we believe that our assumptions are reasonable, they are not guarantees of future performance and some will inevitably prove to be incorrect. As a result, our actual future results may differ from our expectations, and those differences may be material. We do not undertake any obligation to update any forward-looking statements. Accordingly, investors should use caution when relying on previously reported forward-looking statements, which were based on known results and trends at the time they are made, to anticipate future results or trends.

Please refer to the risk factors included in “Item 1A. Risk Factors” in our 2016 Annual Report on Form 10-K, filed with the Securities and Exchange Commission on February 17, 2017, as well as those described elsewhere in our public filings. The risks included are not exhaustive, and additional factors could adversely affect our business and financial performance. We operate in a very competitive and rapidly changing environment. New risk factors emerge from time to time, and it is not possible for management to predict all such risk factors, nor can it assess the impact of all such risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

OTHER MATTERS

Our Board is not aware of any matter to be acted upon at our Annual Meeting other than as described in this Proxy Statement. However, if any other matter properly comes before the meeting, the proxy holders are authorized to vote on that matter or matters in accordance with their best judgment.

ANNUAL REPORT TO STOCKHOLDERS

Our Annual Report to Stockholders for 2016 is being mailed to stockholders along with this Proxy Statement. Our Annual Report shall not be deemed incorporated by reference in any filing under the Securities Act or the Exchange Act, whether made before or after the date hereof, and irrespective of any general incorporation language in any such filing (except to the extent that we specifically incorporate this information by reference) and shall not otherwise be deemed “soliciting material” or “filed” with the SEC or subject to Regulation 14A or 14C, or to the liabilities of Section 18 of the Exchange Act (except to the extent that we specifically request that this information be treated as soliciting material or specifically incorporate this information by reference).

By Order of the Board of Directors,
