If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 1.01 Entry into a Material Definitive Agreement

On March 11, 2019, Nanophase Technologies Corporation (the “Company”) and BASF Corporation (“BASF”) entered into Amendment No. 4, effective as of January 1, 2019 (the “Amendment”), to the Zinc Oxide Supply Agreement originally dated September 16, 1999 and subsequently amended during 2001, 2003 and 2012 (the “Supply Agreement”). The Amendment reduces from \$1,000,000 to \$500,000 the amount of cash and cash equivalents (calculated in accordance with U.S. generally accepted accounting practices (“GAAP”) that the Company must maintain to prevent a “Triggering Event” and consequent “Technology Transfer” (as those terms as defined in the Supply Agreement) during a trailing 12-month period when the Company also reports a net loss. The Amendment also provides that a Technology Transfer may be triggered if the Company’s cash and cash equivalents, using a broader, non-GAAP definition that includes the Company’s aged receivables from BASF, zinc metal raw materials on hand, and inventory of certain of the Company’s zinc-based personal care ingredients, are less than \$1,000,000. The Amendment further changes certain requirements relating to the minimum inventory of certain zinc-based personal care ingredients that the Company must maintain under the Supply Agreement.

All other terms and conditions in the Supply Agreement in effect immediately prior to the Amendment remain in full force and effect thereafter.
