## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report contains forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. Skkynet's actual results could differ materially from those set forth on the forward looking statements as a result of the risks set forth in Skkynet's filings with the Securities and Exchange Commission, general economic conditions, and changes in the assumptions used in making such forward looking statements.

### OVERVIEW

The Company operates its business through its wholly-owned subsidiary Cogent Real-Time Systems, Inc. (Cogent). The Company has taken the existing business lines of Cogent and integrated these with Cloud based systems.

The Company provides software and related systems and facilities to collect process and distribute real-time information over a network. This capability allows the customers to both locally and remotely manage, supervise and control industrial processes and financial information systems. By using this software and where requested by a client, our web based assets, this gives clients and their customers (to the extent relevant) the ability and the tools to observe and interact with these processes and services in real-time as they are underway and to give them the power to analyze, alter, stop or otherwise influence these activities to conform to their plans.

### RESULTS OF OPERATIONS

For the three and nine month periods ending July 31, 2014, revenues were \$209,578 and \$744,925 compared to \$198,801 and \$601,328 for the same period in 2013, respectively. Revenue increased for the nine month period ending July 31, 2014 over the nine month period ended July 31, 2013 are the result of increased sales to customers and the addition of new customers. The Company hired two full time marketing employees to concentrate on the marketing of its software plus commenced a marketing program including channeled advertising and trade show presentations.

General and administrative expense increased to \$458,884 and \$1,264,706 for the three and nine months ended July 31, 2014 from \$220,307 and \$730,621 for the same period in 2013, respectively. The increase in general and administrative expenses for the nine months ended July 31, 2014 included options expensed of \$235,822, compared to none in 2013, increased consulting, the opening of a new office plus added marketing expenses in the business growth.

For the three and nine month periods ending July 31, 2014 the Company posted an operating loss of \$250,850 and \$523,590 compared to an operation loss of \$24,253 and \$136,630 for the same periods in 2013, respectively. The increase in operating loss is attributable to increased expenses in consulting, salaries, and office opening expenses plus the stock based compensation booked for the option expenses of \$235,822. The increase in sales offset some of the additional expense incurred during the nine month period ended July 31, 2014.

Other income and expenses for the three and nine month periods ending July 31, 2014 included expense of \$2,418 and income of \$4,296 for the three and nine month periods ended July 31, 2014 compared to other expense of \$3,030 and other income of \$76,978 for the same periods in 2013. During the nine month period ended July 31, 2014 other income was attributed to gain on the settlement of debt of \$11,982 offset by interest expense of \$7,686, compared to a tax refund of \$86,236 offset by interest expense of \$9,250 and other expense of \$8 for the same period in 2013.

A net loss of \$253,268 and \$519,294 was recorded for the three and nine month periods ending July 31, 2014 compared to a net loss of \$27,283 and \$59,652 for the same periods in 2013. The loss can be attributed to added employee costs and increased marketing activity in 2014 compared to 2013.

#### LIQUIDITY AND CAPITAL RESOURCES

At July 31, 2014, Skkynet had current assets of \$486,462 and current liabilities of \$419,139, resulting in working capital of \$67,323 and a current ratio of 1.16:1. Accumulated deficit as of July 31, 2014 was \$1,163,359 with total shareholder equity of \$73,599.

Net cash used in operations for the nine months ending July 31, 2014 was \$304,154 compared to net cash provided of \$253,685 for the same period in 2013. Net cash used in operations increased primarily due to an increase in the net loss of \$459,642, an increase in accounts payable and accrued expense of \$21,072. These were offset by stock based compensation for valuing options of \$235,822, decrease in accounts receivable of \$7,216 and deferred revenue of \$3,918.

Cash used in investing activities in the nine month periods ended July 31, 2014 and 2013 were \$2,020 and \$984, respectively.

Net cash provided in financing activities during the nine months ended July 31, 2014 was \$330,408 compared to net cash used of \$6,086 for the same period in 2013. The change was due to the sale of common stock of \$369,750 offset by the reduction of notes payable to related parties of \$39,342.

Our existing capital may not be sufficient to meet Skkynet's cash needs, however our shareholders deficit as of October 31, 2013 improved to shareholders equity of \$73,599 as of July 31, 2014 and our cash on hand increased from \$365,415 as of October 31, 2013 to \$404,872 at quarter end of July 31, 2014. In addition our working capital increased as of July 31, 2014 to \$67,323 from negative working capital of \$33,396 as of October 31, 2013 or an increase of \$100,719. The comparison of year end October 31, 2013 to the nine month period ended July 31, 2014 is affected by the re-classing of long term notes payable in the amount of \$158,092 to short term notes payable due to their maturity date. In addition as of August 15, 2014, the Company completed a sale of common stock for \$878,350 in cash.

### Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to management, including the Principal Executive Officer and the Principal Financial Officer, to allow timely decisions regarding required disclosures.

In connection with the preparation of this report, our management, under the supervision and with participation of our Principal Executive Officer and Principal Financial Officer (the “Certifying Officers”) conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of July 31, 2014. Based on that evaluation, our management concluded that there is a material weakness in our disclosure controls and procedures over financial reporting. The material weakness results from a lack of written procedures which effectively documents the proper procedures and descriptions of the duties of all persons involved in the disclosure controls of the Company. The Company hopes to implement plans to document the procedures and internal controls of the Company. A material weakness is a deficiency, or a combination of control deficiencies, in disclosure control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company’s annual or interim financial statements will not be prevented or detected on a timely basis. This does not include an evaluation by the Company’s registered public accounting firm regarding the Company’s internal control over financial reporting.

### Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during our most recent quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
