GENERAL INFORMATION

Meeting Information

The Special Meeting of the Company will be held at the law offices of the Company's special securities counsel, Joyce Thrasher Kaiser & Liss, LLC, located at Five Concourse Parkway, Suite 2600, Atlanta, Georgia 30328 at 9:00 a.m., EST, on December 11, 2012.

The sole proposal scheduled to be voted on is as follows: Amending the Company's Articles to (a) effect a reverse stock split of the Company's issued and outstanding shares of Common Stock based upon a ratio of 1 for 3 and (b) subsequent to the reverse stock split, increase the Company's authorized Common Stock from approximately 133,333,333 shares to 400,000,000 shares.

Voting

The Board of Directors (the "Board") of the Company has selected the close of business on November 7, 2012 (the "Record Date") as the time for determining the holders of record of our Common Stock that are entitled to notice of, and are entitled to vote at, the Special Meeting or any adjournment or postponement thereof. Shares of Common Stock outstanding on the Record Date are the only securities that entitle holders to vote at the Special Meeting or any adjournment or postponement thereof.

As of the Record Date, there were 219,945,089 shares of Common Stock issued and outstanding.

Each holder of our shares of Common Stock is entitled to one (1) vote per share on all matters to be voted upon by the stockholders. The holders of shares of Common Stock have no preemptive, conversion, subscription or cumulative voting rights.

Quorum

The presence at the Special Meeting, in person or by proxy, of the holders of a majority of the shares of our Common Stock outstanding on the Record Date will constitute a quorum. Abstentions are counted as present for the purpose of determining the presence of a quorum.

Votes Required

The affirmative vote of the holders of a majority of the outstanding shares of Common Stock of the Company as of the Record Date is required to approve the proposed amendment to the Articles.

Other Matters

The Board does not know of any other matter that will be presented for stockholder consideration at the Special Meeting other than the proposal described herein.

PROPOSAL AMENDMENT TO ARTICLES

On September 12, 2012, the Board approved an amendment to Article 3 of the Company's Articles to (a) effect a reverse stock split of the Company's issued and outstanding shares of Common Stock based upon a ratio of 1 for 3 and (b) subsequent to the reverse stock split, increase the Company's authorized Common Stock from approximately 133,333,333 shares to 400,000,000 shares.

The full text of the proposed amendment to the Articles is set forth in **Exhibit A** to this Information Statement. The amendment will not affect the number of shares of Preferred Stock authorized, which is 100,000,000 shares of Preferred Stock, par value \$0.0001 per share. Currently, there are 240,000 shares of Preferred Stock issued and outstanding.

A.

Reverse Stock Split.

The Board proposes to amend the Articles to affect a 1 for 3 reverse stock split. When effective, the reverse stock split will automatically apply to all shares of Common Stock then issued and outstanding. The reverse stock split will not affect any stockholder's percentage ownership or proportionate voting power or other rights and privileges. However, the reverse stock split, together with the increase in authorized common stock, will increase the Board's ability to issue authorized and unissued shares without further stockholder action.

The principal effect of the reverse stock split will be that the number of shares of our Common Stock issued and outstanding will be reduced from 219,945,089 shares to approximately 73,315,030 shares. No fractional shares will be issued; all fractional shares will be rounded up to the next whole share. In addition, all outstanding options, warrants, notes, debentures and other securities entitling their holders to purchase shares of our Common Stock will be adjusted as a result of the reverse stock split. In particular, the conversion ratio for each instrument will be reduced, and the exercise price, if applicable, will be increased, in accordance with the terms of each instrument and based on the one-for-three ratio.

The reverse stock split may increase the number of stockholders who own odd lots (less than 100 shares). Stockholders who hold odd lots typically may experience an increase in the cost of selling their shares and may have greater difficulty in effecting sales.

Effect on Market Capitalization

There can be no assurance that the total market capitalization of our Common Stock (the aggregate value of all Common Stock at the then market price) after the proposed reverse stock split will be equal to or greater than the total market capitalization before the proposed reverse stock split or that the per share market price of the Common Stock following the reverse stock split will increase in proportion to the reduction in the number of shares of Common Stock outstanding before the reverse stock split. A decline in the market price of the Common Stock after the reverse stock split may result in a greater percentage decline than would occur in the absence of a reverse stock split, and the liquidity of the Common Stock could be adversely affected following such a reverse stock split.

Accounting Consequences

The par value of the Common Stock will remain unchanged at \$0.0001 per share after the reverse stock split. Also, the capital account of the Company will remain unchanged, and the Company does not anticipate that any other accounting consequences will arise as a result of the reverse stock split.

Effect on Fractional Stockholders

You will not receive fractional post-reverse stock split shares in connection with the reverse stock split. All post-split shareholdings will be rounded-up to the nearest full share.

Effect on Registered and Beneficial Stockholders

Upon a reverse stock split, we intend to treat stockholders holding Common Stock in street name, through a bank, broker or other nominee, in the same manner as registered stockholders whose shares are registered in their names. Banks, brokers or other nominees will be instructed to affect the reverse stock split for their beneficial holders holding Common Stock in street name. However, these banks, brokers or other nominees may have different procedures than registered stockholders for processing the reverse stock split. If you hold your shares with a bank, broker or other nominee and if you have any questions in this regard, we encourage you to contact your nominee.

Anti-Takeover Effects

Although the increased proportion of unissued authorized shares to issued shares could, under certain circumstances, have an anti-takeover effect (for example, by permitting issuances that would dilute the stock ownership of a person seeking to effect a change in the composition of our Board or contemplating a tender offer or other transaction for the combination of the Company with another company) the reverse stock split was not proposed in response to any effort of which we are aware to accumulate shares of Common Stock or obtain control of the Company, nor is it part of a plan by management to recommend a series of similar actions having an anti-takeover effect to the Board and the Company's stockholders.

Procedure for Effecting Reverse Stock Split

We will promptly file a Certificate of Amendment with the Secretary of State of the State of Nevada to amend our existing Articles if the proposal to amend the Articles is approved at the Special Meeting. The reverse stock split will become effective on the date of filing the Certificate of Amendment, which is referred to as the split effective date. Beginning on the split effective date, each certificate representing pre-reverse stock split shares will be deemed for all corporate purposes to evidence ownership of post-reverse stock split shares. As of the effective date of the reverse stock split, each certificate representing shares of common stock before the reverse stock split will be deemed, for all corporate purposes, to evidence ownership of the reduced number of shares of common stock resulting from the reverse stock split. All options, warrants, convertible debt instruments and other securities will also be automatically adjusted on the split effective date.

The Company anticipates that its transfer agent will act as the exchange agent for purposes of implementing the exchange of stock certificates. As soon as practicable after the split effective date, shareholders will be notified of the effectiveness of the reverse split. Shareholders of record will receive a letter of transmittal requesting them to surrender their stock certificates for stock certificates reflecting the adjusted number of shares as a result of the reverse stock split. Persons who hold their shares in brokerage accounts or "street name" will not be required to take any further actions to effect the exchange of their certificates. Instead, the holder of the certificate will be contacted.

Federal Income Tax Consequences of Reverse Split

The Company believes that the Federal income tax consequences of the reverse stock split to holders of Common Stock will be as follows:

(i)

Except as explained in (v) below, no income gain or loss will be recognized by a shareholder on the surrender of the current shares or receipt of the certificate representing new post-split shares.

(ii)

Except as explained in (v) below, the tax basis of the post-reverse split shares will equal the tax basis of the pre-reverse split shares exchanged therefore.

(iii)

Except as explained in (v) below, the holding period of the post-reverse split shares will include the holding period of the pre-reverse split shares if such pre-reverse split shares were held as capital assets.

(iv)

The conversion of the pre-reverse split shares into the post-reverse split shares will produce no taxable income or gain or loss to the Company.

(v)

The Federal income tax treatment of the receipt of the additional fractional interest by a shareholder is not clear and may result in tax liability not material in amount in view of the low value of such fractional interest.

The Company's opinion is not binding upon the Internal Revenue Service or the courts, and there can be no assurance that the Internal Revenue Service or the courts will accept the positions expressed above.

THE ABOVE DISCUSSION IS A BRIEF SUMMARY OF THE EFFECTS OF FEDERAL INCOME TAXATION UPON THE PARTICIPANTS AND THE COMPANY WITH RESPECT TO THE REVERSE STOCK SPLIT. THIS SUMMARY DOES NOT PURPORT TO BE COMPLETE AND DOES NOT ADDRESS THE FEDERAL INCOME TAX CONSEQUENCES TO TAXPAYERS WITH SPECIAL TAX STATUS. IN ADDITION, THIS SUMMARY DOES NOT DISCUSS THE PROVISIONS OF THE INCOME TAX LAWS OF ANY MUNICIPALITY, STATE OR FOREIGN COUNTRY IN WHICH THE PARTICIPANT MAY RESIDE, AND DOES NOT DISCUSS ESTATE, GIFT OR OTHER TAX CONSEQUENCES OTHER THAN INCOME TAX CONSEQUENCES. THE COMPANY ADVISES EACH PARTICIPANT TO CONSULT HIS OR HER OWN TAX ADVISOR REGARDING THE TAX CONSEQUENCES OF THE REVERSE STOCK SPLIT AND FOR REFERENCE TO APPLICABLE PROVISIONS OF THE INTERNAL REVENUE CODE.

B.

Increase in Authorized Common Stock.

If approved, the 1 for 3 reverse stock split would reduce the issued and outstanding shares of Common Stock of the Company from 219,945,089 shares to approximately 73,315,030 shares and reduce the authorized shares of Common Stock of the Company from 400,000,000 to approximately 133,333,333. Accordingly, there would be approximately 60,018,303 authorized but unissued shares of Common Stock available for issuance after the reverse stock split.

After the 1 for 3 reverse stock split is effected, we will increase our authorized shares of Common Stock to 400,000,000. Accordingly, there would be approximately 326,684,970 authorized but unissued shares available for issuance. Increasing our authorized shares will give us greater flexibility and will allow us to issue such shares, in most cases, without the expense or delay of seeking stockholder approval. We are investigating additional sources of financing and acquisitions which our Board believes will be in our best interests and in the best interests of our stockholders. As of the date of this filing, the Company does not have any definitive plans, proposals or arrangements nor has it received any demands to issue any of the newly available authorized shares for any purpose. Potential uses of the additional authorized shares may include, but are not limited to, public or private offerings, conversions of convertible securities, issuance of options pursuant to employee stock option plans, acquisition transactions and other corporate purposes.

The increase in authorized common stock alone will not have any immediate effect on the rights of existing stockholders. However, the Board will have the authority to issue authorized common stock without requiring future stockholder approval of such issuances, except as may be required by applicable law. To the extent that additional authorized shares are issued in the future, each new issuance will decrease the existing stockholders' percentage equity ownership and would be dilutive to the existing stockholders unless the issuance is on a pro rata basis to existing shareholders. The Company does not have current plans to issue shares that would not be dilutive on a pro rata basis to the existing shareholders. Examples of a pro rata basis issuance are stock dividends or stock splits.

The newly authorized shares of Common Stock will have the same rights and privileges as the presently authorized shares of our Common Stock.

There can be no assurance as to the amount of consideration the Company would receive from any issuance of additional shares of our Common Stock nor can there be any assurance of what effect, if any, the proposed increase in the authorized shares of our Common Stock and any subsequent issuance will have on the market price of our Common Stock.

Release No. 34-15230 of the staff of the Securities and Exchange Commission requires disclosure and discussion of the effects of any shareholder proposal that may be used as an anti-takeover device. However, the proposed increase in the authorized Common Stock is not the result of any such specific effort; rather, as indicated above, the purpose of the increase in the authorized Common Stock is to provide the Company's management with the ability to finance the development and operation of our business. While it is possible that management could use the additional shares to resist or frustrate a third-party transaction providing an above-market premium that is favored by a majority of the independent stockholders, the Company has no intent or plan to employ the additional unissued authorized shares as an anti-takeover device, and the Company currently has no such provisions in any of its governing documents. Regardless, the increase in authorized Common Stock may make it more difficult for, prevent or deter a third party from acquiring control of the Company or changing its board of directors and management, as well as inhibit fluctuations in the market price of the Company's shares that could result from actual or rumored takeover attempts.
