Special note on forward-looking statements

Our disclosure and analysis in this Quarterly Report on Form 10-Q contain “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as “may,” “will,” “should,” “expects,” “intends,” “plans,” “anticipates,” “believes,” “estimates,” “predicts” or “potential” or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters. You can also identify forward-looking statements by discussions of strategy, plans or intentions.

The forward-looking statements contained in this report reflect our current views about future events and are subject to numerous known and unknown risks, uncertainties, assumptions and changes in circumstances that may cause our actual results to differ significantly from those expressed in any forward-looking statement. Factors that may materially affect such forward-looking statements include, but are not limited to:

- our ability to implement our business strategy;
- our ability to make distributions to our stockholders;
- our ability to acquire assets for our portfolio, including difficulties in identifying single-family rental assets to acquire;
- our ability to sell non-rental real estate owned properties on favorable terms and on a timely basis or at all;
- the impact of changes to the supply of, value of and the returns on single-family rental assets;
- our ability to successfully integrate newly acquired properties, including the RHA Acquired Properties acquired in the HB Acquisition (as such terms are defined in Note 14 of the Notes to Condensed Consolidated Financial Statements herein), into our portfolio of single-family rental properties;
- our ability to successfully operate HavenBrook Partners, LLC (“HavenBrook”) as a property manager or effectively perform the property management services at the level and/or the cost that we anticipate;
- our ability to integrate personnel from HavenBrook and Altisource Portfolio Solutions S.A. (“ASPS”), including retaining key HavenBrook and ASPS employees;
- the failure to identify unforeseen expenses or material liabilities associated with the HB Acquisition through the due diligence process prior to such acquisitions;
- our ability to predict our costs;
- our ability to effectively compete with our competitors;
- our ability to deploy our cash, the proceeds from financing activities or non-rental real estate owned asset sales to target assets in a timely manner;
- changes in the market value of our acquired real estate owned and single-family rental properties;
- changes in interest rates;
- our ability to obtain and access financing arrangements on favorable terms or at all;
- our ability to maintain adequate liquidity;
- our ability to retain our engagement of AAMC;
- the failure of ASPS or Main Street Renewal, LLC to effectively perform their obligations under their respective agreements with us;
- our failure to maintain our qualification as a REIT;
- our failure to maintain our exemption from registration under the Investment Company Act;
- the impact of adverse real estate or housing markets;
- the impact of adverse legislative, regulatory or tax changes; and

general economic and market conditions.

While forward-looking statements reflect our good faith beliefs, assumptions and expectations, they are not guarantees of future performance. Such forward-looking statements speak only as of their respective dates, and we assume no obligation to update them to reflect changes in underlying assumptions or factors, new information or otherwise. For a further discussion of these and other factors that could cause our future results to differ materially from any forward-looking statements, please see Part II, Item 1A in this Quarterly Report on Form 10-Q and “Item 1A. Risk factors” in our Annual Report on Form 10-K for the year ended December 31, 2017.

Front Yard Residential Corporation
Notes to Condensed Consolidated Financial Statements
June 30, 2018
(Unaudited)

1. Organization and Basis of Presentation

Front Yard Residential Corporation (“we,” “our,” “us,” or the “Company”) is a Maryland real estate investment trust (“REIT”) focused on acquiring, owning and managing single-family rental (“SFR”) properties throughout the United States. We conduct substantially all of our activities through our wholly owned subsidiary, Front Yard Residential, L.P., and its subsidiaries.

We employ a diversified SFR property acquisition strategy that includes acquiring large portfolios and smaller pools of SFR properties from a variety of market participants. As of June 30, 2018, we had a rental portfolio of approximately 12,000 homes. In addition, we had a small portfolio of mortgage loans and non-rental real estate owned (“REO”) properties remaining from our previous mortgage loan portfolio acquisitions. We are currently in the process of liquidating these assets in order to create additional liquidity and purchasing power to continue building our rental portfolio.

We are managed by Altisource Asset Management Corporation (“AAMC” or our “Manager”). As we do not have any employees, AAMC provides us with dedicated personnel to administer our business and perform certain of our corporate governance functions. AAMC also provides portfolio management services in connection with our acquisition and management of SFR properties and the ongoing management of our remaining residential mortgage loans and REO properties. See Note 8 for a description of this related-party relationship.

As of June 30, 2018, we had property management contracts with two separate third-party service providers for, among other things, leasing and lease management, operations, maintenance, repair, property management and property disposition services in respect of our SFR and REO portfolios. We also had a servicing agreement with one mortgage loan servicer with respect to the servicing of the remaining mortgage loans in our portfolio.

Basis of presentation and use of estimates

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”). All wholly owned subsidiaries are included, and all intercompany accounts and transactions have been eliminated.

The unaudited interim condensed consolidated financial statements and accompanying unaudited condensed consolidated financial information, in our opinion, contain all adjustments that are of a normal recurring nature and are necessary for a fair presentation of our financial position, results of operations and cash flows for the interim periods. The interim results are not necessarily indicative of results for a full year. We have omitted certain notes and other information from the interim condensed consolidated financial statements presented in this Quarterly Report on Form 10-Q as permitted by Securities and Exchange Commission (“SEC”) rules and regulations. These condensed consolidated financial statements should be read in conjunction with our annual consolidated financial statements included within our 2017 Annual Report on Form 10-K, which was filed with the SEC on March 1, 2018.

Use of estimates

The preparation of condensed consolidated financial statements in conformity with U.S. GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets

and liabilities as of the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ materially from those estimates.

Recently issued accounting standards

Adoption of recent accounting standards

In June 2018, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2018-07, Compensation - Stock Compensation (Topic 718). The amendments in ASU 2018-07 expand the scope of the employee share-based payments guidance to include share-based payments issued to non-employees. The amendments specify that Topic 718 applies to all share-based payment transactions in which a grantor acquires goods or services to be used or consumed in a

(table of contents)

grantor's own operations by issuing share-based payment awards to non-employees. This ASU is effective for fiscal years after December 15, 2018, including interim periods within that fiscal year. The Company has adopted the provisions of ASU 2018-07 effective April 1, 2018. Upon adoption, the fair value of the restricted stock and stock option awards we had previously granted to employees of AAMC was determined as of the transition date, and the fair value of such awards granted subsequent to April 1, 2018 will be determined as of the grant date. As a result, our share-based compensation expense will not fluctuate with our stock price or other factors that previously impacted the mark-to-market adjustments on these awards. This adoption had no other significant effect on our condensed consolidated financial statements.

In May 2017, the FASB issued ASU No. 2017-09, Compensation - Stock Compensation (Topic 718). The amendments in ASU 2017-09 provide guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in Topic 718. This ASU is effective for all entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. The amendments in ASU 2017-09 should be applied prospectively to an award modified on or after the adoption date. Our adoption of this amendment on January 1, 2018 did not have a significant effect on our condensed consolidated financial statements.

In February 2017, the FASB issued ASU 2017-05, Other Income - Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20). ASU 2017-05 clarifies that a financial asset is within the scope of Subtopic 610-20 if it meets the definition of an in substance nonfinancial asset. The amendments define the term "in substance nonfinancial asset," in part, as a financial asset promised to a counterparty in a contract if substantially all of the fair value of the assets (recognized and unrecognized) that are promised to the counterparty in the contract is concentrated in nonfinancial assets. If substantially all of the fair value of the assets that are promised to the counterparty in a contract is concentrated in nonfinancial assets, then all of the financial assets promised to the counterparty are in substance nonfinancial assets within the scope of Subtopic 610-20. This amendment also clarifies that nonfinancial assets within the scope of Subtopic 610-20 may include nonfinancial assets transferred within a legal entity to a counterparty. For example, a parent company may transfer control of nonfinancial assets by transferring ownership interests in a consolidated subsidiary. ASU 2017-05 is effective for periods beginning after December 15, 2017. Our adoption of this amendment on January 1, 2018 did not have a significant effect on our condensed consolidated financial statements.

In October 2016, the FASB issued ASU 2016-16, Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory. The amendments in ASU 2016-16 eliminate the exception of recognizing, at the time of transfer, current and deferred income taxes for intra-entity asset transfers other than inventory. This ASU is effective for public business entities for fiscal years beginning after December 15, 2017, including interim periods within those annual periods. Our adoption of this amendment on January 1, 2018 did not have a significant effect on our condensed consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. The amendments in ASU 2016-15 address eight specific cash flow issues and apply to all entities that are required to present a statement of cash flows under Topic 230. The amendments in ASU 2016-15 are effective for public business entities for fiscal years beginning after December 15, 2017 and interim periods within those fiscal years. Our adoption of this amendment on January 1, 2018 did not have a significant effect on our condensed consolidated financial statements.

In January 2016, the FASB issued ASU 2016-01, Financial Instruments - Overall (Subtopic 825-10). ASU 2016-01 requires all equity investments to be measured at fair value with changes in the fair value recognized through net income (other than those accounted for under equity method of accounting or those that result in consolidation of the investee). The amendments also require an entity to present separately in other comprehensive income the portion of

the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. In addition, the amendments eliminate the requirement to disclose the fair value of financial instruments measured at amortized cost for entities that are not public business entities and the requirement to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet for public business entities. The amendments in this update are effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Our adoption of this amendment on January 1, 2018 did not have a significant effect on our condensed consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). ASU 2014-09 is a comprehensive new revenue recognition model requiring a company to recognize revenue to depict the transfer of goods or services to a customer at an amount reflecting the consideration it expects to receive in exchange for those goods or services. In August 2015, FASB issued ASU 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, which effectively delayed the adoption date of ASU 2014-09 by one year. In 2016 and 2017, the FASB issued accounting

(table of contents)

standards updates that amended several aspects of ASU 2014-09. ASU 2014-09, as amended, is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017. Management performed an analysis of our gains and losses arising from real estate sales (the sole component of our revenue within the scope of ASU 2014-09). We determined that our policy for recognition of gains and losses on real estate sales prior to our adoption is consistent with the updated revenue recognition requirements of ASU 2014-09, as amended. Therefore, our adoption of ASU 2014-09 effective January 1, 2018 had no significant impact on our previous revenue recognition practices, and our application of the modified retrospective method of adoption resulted in no adjustments to comparative information or cumulative adjustments to any beginning balances in the current period. As our mortgage loan and related REO activities are no longer a core part of our operations, we determined to classify net gains and losses from sales of real estate and resolutions and dispositions of mortgage loans as a component of other income, outside of operating income or loss, which is consistent with the guidance of ASU 2014-09, effective with the adoption on January 1, 2018.

Recently issued accounting standards not yet adopted

In August 2017, the FASB issued ASU 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities. The ASU expands the activities that qualify for hedge accounting and simplifies the rules for reporting hedging transactions. This ASU is effective for public business entities for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted. We will adopt this standard on January 1, 2019, and we do not expect the adoption of this standard to have a material impact on our consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments - Credit Losses (Topic 326) Measurement of Credit Losses on Financial Instruments, which amends the guidance on measuring credit losses on financial assets held at amortized cost. The amendment is intended to address the issue that the previous “incurred loss” methodology was restrictive for an entity's ability to record credit losses based on not yet meeting the “probable” threshold. The new language will require these assets to be valued at amortized cost presented at the net amount expected to be collected with a valuation provision. This ASU is effective for fiscal years beginning after December 15, 2019. The amendments in ASU 2016-13 should be applied on a modified retrospective transition basis. We expect to adopt this standard on January 1, 2020. While we are still evaluating the overall impact of this ASU, we do not expect the adoption of this standard to have a material impact on our consolidated financial statements.

In February 2016, FASB issued ASU 2016-02, Leases (Topic 842). ASU 2016-02 requires that lessees recognize assets and liabilities for leases with lease terms greater than twelve months in the statement of financial position and also requires improved disclosures to help users of financial statements better understand the amount, timing and uncertainty of cash flows arising from leases. Accounting by lessors is substantially unchanged from prior practice as lessors will continue to recognize lease revenue on a straight-line basis. The FASB has also issued multiple ASUs amending certain aspects of Topic 842. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, including interim reporting periods within those fiscal years. The amendments in ASU 2016-02 should be applied on a modified retrospective transition basis, and a number of practical expedients may apply. These practical expedients relate to the identification and classification of leases that commenced before the effective date, initial direct costs for leases that commenced before the effective date and the ability to use hindsight in evaluating lessee options to extend or terminate a lease or to purchase the underlying asset. We will adopt this standard on January 1, 2019. While we are still evaluating the overall impact of this ASU, we do not expect the adoption of this standard to have a material impact on our consolidated financial statements.

2. Asset acquisitions and dispositions

Real estate assets

Real estate acquisitions

HOME Flow Transaction

On March 30, 2017, we entered into an agreement to acquire up to 3,500 SFR properties (the “HOME Flow Transaction”) from entities (the “Sellers”) sponsored by Amherst Holdings, LLC (“Amherst”), pursuant to which we acquired 3,465 SFR properties in three separate closings during 2017.

In the first closing on March 30, 2017, our indirect wholly owned subsidiary, HOME SFR Borrower II, LLC (“HOME Borrower II”), acquired 757 SFR properties for an aggregate purchase price of \$106.5 million. The purchase price was funded with approximately \$79.9 million in a seller financing arrangement (the “HOME II Loan Agreement,” see Note

8

6), representing 75% of the aggregate purchase price, as well as \$26.6 million of cash on hand. We capitalized \$1.5 million of acquisition fees and costs related to this portfolio acquisition. The value of in-place leases was estimated at \$2.4 million based upon the costs we would have incurred to lease the properties and was amortized over the weighted average remaining life of the leases of approximately seven months as of the acquisition date.

In the second closing on June 29, 2017, our indirect wholly owned subsidiary, HOME SFR Borrower III, LLC (“HOME Borrower III”), acquired 751 SFR properties for an aggregate purchase price of \$117.1 million. The purchase price was funded with approximately \$87.8 million in a seller financing arrangement (the “HOME III Loan Agreement,” see Note 6), representing 75% of the aggregate purchase price, as well as \$29.3 million of cash on hand. We capitalized \$1.3 million of acquisition fees and costs related to this portfolio acquisition. The value of in-place leases was estimated at \$2.0 million based upon the costs we would have incurred to lease the properties and was amortized over the weighted average remaining life of the leases of approximately nine months as of the acquisition date.

In the third and final closing on November 29, 2017, our wholly owned subsidiary, HOME SFR Borrower IV, LLC (“HOME Borrower IV”) acquired 1,957 SFR properties for an aggregate purchase price of \$305.1 million. The purchase price was funded with approximately \$228.8 million in two separate seller financing arrangements (the “HOME IV Loan Agreements,” see Note 6), representing 75% of the aggregate purchase price, as well as \$76.3 million of cash on hand. We capitalized \$1.9 million of acquisition fees and costs related to this portfolio acquisition. The value of in-place leases was estimated at \$5.9 million based on the costs we would have incurred to lease the properties and is being amortized over the weighted average remaining life of the leases of approximately seven months as of the acquisition date. In accordance with the related purchase and sale agreement, certain of the properties are subject to potential purchase price adjustments, which will be based on the rental rates achieved for the properties within 24 months after the closing date. Because such future rental rates are unknown, we are unable to predict the ultimate adjustments, if any, that will be made to the initial aggregate purchase price at this time (see Note 7).

For each closing under the HOME Flow Transaction, we allocated the purchase price, including capitalized acquisition fees and costs, based on the relative fair value of the properties acquired.

During the three and six months ended June 30, 2018, we acquired 19 and 54 SFR properties, respectively, under our other acquisition programs for an aggregate purchase price of \$2.4 million and \$6.7 million, respectively. During the three and six months ended June 30, 2017, we acquired 17 residential properties under our other acquisition programs for an aggregate purchase price of \$1.8 million.

Real estate dispositions

During the three and six months ended June 30, 2018, we sold 137 and 330 properties, respectively. Net proceeds of these sales were \$25.0 million and \$60.2 million, respectively, and we recorded \$10.9 million and \$25.3 million, respectively, of net realized gain on sales of real estate, which is recorded as a component of net loss on real estate and mortgage loans in our condensed consolidated statements of operations.

During the three and six months ended June 30, 2017, we sold 522 and 935 REO properties, respectively. Net proceeds of these sales were \$66.4 million and \$133.3 million, respectively, and we recorded \$20.8 million and \$40.8 million, respectively, of net realized gains on real estate.

Mortgage loans

Mortgage loan dispositions and resolutions

During the three and six months ended June 30, 2018, we resolved 9 and 21 mortgage loans, respectively, primarily through short sales, refinancing and foreclosure sales. Net proceeds of these resolutions were \$0.7 million and \$1.8

million, respectively, and we recorded \$(0.5) million and \$(1.0) million of net realized loss on mortgage loans, respectively, which is recorded as a component of net loss on real estate and mortgage loans in our condensed consolidated statements of operations.

During the three and six months ended June 30, 2017, we sold 2,104 and 2,660 mortgage loans, respectively, and we resolved 33 and 111 mortgage loans, respectively, primarily through short sales, refinancing and foreclosure sales. Net proceeds of these sales and resolutions were \$339.2 million and \$464.0 million, respectively, and we recorded \$40.2 million and \$75.8 million of net realized gain on mortgage loans, respectively.

Transfers of mortgage loans to real estate owned

During the three and six months ended June 30, 2018, our transfers of mortgage loans to or from REO were not significant.

During the three and six months ended June 30, 2017, we transferred an aggregate of 66 and 261 mortgage loans to REO, respectively, at an aggregate fair value based on BPOs of \$12.2 million and \$40.9 million, respectively. Such transfers occur when the foreclosure sale is complete; however, subsequent to a foreclosure sale, we may be notified that the foreclosure sale was invalidated for certain reasons. In connection with these transfers to REO, we recorded \$5.0 million and \$14.5 million in change in unrealized gain on mortgage loans, respectively, that resulted from marking the properties to their most current market value.

The following table presents the components of net gain (loss) on real estate and mortgage loans during the three and six months ended June 30, 2018 and 2017 (\$ in thousands):

	Three months ended June 30, 2018		Six months ended June 30, 2017	
	2018	2017	2018	2017
Change in unrealized gain on mortgage loans due to:				
Conversion of mortgage loans to REO, net	\$ 147	\$ 4,992
