UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

For the quarterly period ended July 28, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission File Number: 001-33261

AEROVIRONMENT, INC.

(Exact name of registrant as specified in its charter)

Delaware 95-2705790
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

800 Royal Oaks Drive, Suite 210
Monrovia, California 91016
(Address of principal executive offices) (Zip Code)

(626) 357-9983

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if smaller reporting company)

Edgar Filing: AeroVironment Inc - Form 10-Q

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes
No

As of August 29, 2018, the number of shares outstanding of the registrant's common stock, \$0.0001 par value, was 23,930,623.

AeroVironment, Inc.

Notes to Consolidated Financial Statements (Unaudited)

1. Organization and Significant Accounting Policies

Organization

AeroVironment, Inc., a Delaware corporation (the “Company”), is engaged in the design, development, production, support and operation of unmanned aircraft systems (“UAS”) for various industries and governmental agencies.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) for interim financial information and with the instructions of Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments, consisting only of normal recurring adjustments necessary for a fair presentation with respect to the interim financial statements have been included. The results of operations for the three months ended July 28, 2018 are not necessarily indicative of the results for the full year ending April 30, 2019. For further information, refer to the consolidated financial statements and footnotes thereto for the year ended April 30, 2018, included in the Company’s Annual Report on Form 10-K.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions, including estimates of anticipated contract costs and revenue utilized in the revenue recognition process, that affect the reported amounts in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

The Company’s consolidated financial statements include the assets, liabilities and operating results of wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated.

The accompanying consolidated financial statements include the balance sheet and results of operations of Altoy Savunma Sanayi ve Havacilik Anonim Sirketi (“Altoy”), in which the Company increased its ownership to a controlling

interest of 85% during the fourth quarter of the fiscal year ended April 30, 2017. Prior to the increase in ownership, the Company's investment in Altoy was accounted for under the equity method.

In December 2017, the Company and SoftBank Corp. (“SoftBank”) formed a joint venture, HAPSMobile, Inc. (“HAPSMobile”). As the Company has the ability to exercise significant influence over the operating and financial policies of HAPSMobile, the Company’s investment has been accounted for as an equity method investment. The Company has presented its proportion of HAPSMobile’s net loss in “Equity method investment activity, net of tax” in the consolidated statements of operations. The carrying value of the investment in HAPSMobile was recorded in “Other assets.” Refer to Note 6—Equity Method Investments for further details.

On June 29, 2018, the Company completed the sale of substantially all of the assets and related liabilities of its efficient energy systems business segment (“the EES Business”) to Webasto Charging Systems, Inc. (“Webasto”) pursuant to an Asset Purchase Agreement (the “Purchase Agreement”) between Webasto and the Company. The Company determined that the EES Business met the criteria for classification as an asset held for sale at April 30, 2018 and represents a strategic shift in the Company’s operations. Therefore, the assets and liabilities and the results of operations of the EES Business are reported as discontinued operations for all periods presented. Refer to Note 2—Discontinued Operations for further details.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

Table of Contents

Recently Adopted Accounting Standards

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows—Classification of Certain Cash Receipts and Cash Payments (Topic 230). This ASU adds and clarifies guidance on the classification of certain cash receipts and payments in the statement of cash flows. The Company's adoption of ASU No. 2017-01 effective May 1, 2018 did not have a material impact on its consolidated financial statements.

In January 2017, the FASB issued ASU 2017-01, Business Combinations—Clarifying the definition of a business (Topic 805). This ASU clarifies the definition of a business with the objective of providing a more robust framework to evaluate whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The Company's adoption of ASU No. 2017-01 effective May 1, 2018 did not have a material impact on its consolidated financial statements.

In May 2017, the FASB issued ASU 2017-09, Compensation—Stock Compensation (Topic 718). This ASU reduces the diversity in practice and cost and complexity when applying the guidance in Topic 718 to a change in terms or conditions of a share-based payment award. The Company's adoption of ASU No. 2017-09 effective May 1, 2018 did not have a material impact on its consolidated financial statements.

In the first quarter of its fiscal 2019, the Company adopted ASU 2014-09, Revenue from Contracts with Customers (Topic 606), using the full retrospective method. Topic 606 requires revenue to be recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which the Company expects to be entitled in exchange for those goods or services.

Revenue for small UAS product contracts with both the U.S. government and foreign governments under the new standard will be recognized at the point in time when the transfer of control passes to the customer, which is generally when title and risk of loss transfer. Revenue for Tactical Missile Systems ("TMS") contracts will now be recognized under the new standard over time as costs are incurred. Under previous U.S. GAAP, revenue was generally recognized when deliveries of the related TMS products were made. The new standard accelerates the timing of when the revenue is recognized; however, it does not change the total amount of revenue recognized on these contracts. The new standard does not affect revenue recognition for the Company's Customer-Funded Research and Development ("R&D") contracts. The Company continues to recognize revenue for these contracts over time as costs are incurred. The adoption of Topic 606 resulted in a cumulative adjustment to decrease retained earnings by \$1,084,000 at May 1, 2018 relating to both the Company's continuing and discontinued operations. For the Company's continuing operations, the adoption of Topic 606 resulted in a cumulative adjustment to increase retained earnings by \$1,063,000 at May 1, 2018.

The Company applied the standard's practical expedient that permits the omission of prior-period information about the Company's remaining performance obligations, the practical expedient that permits the Company to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset the entity otherwise would have recognized is one year or less, and the practical expedient that permits the Company to not retrospectively restate contracts which were modified prior to the Company's initial date of adoption, or May 1, 2016. Instead the Company reflected the aggregate effect of all modifications when identifying the satisfied and unsatisfied performance obligations, determining the transaction price, and allocating the transaction price. No other practical expedients were applied.

Revenue Recognition

The Company's revenue is generated pursuant to written contractual arrangements to design, develop, manufacture and/or modify complex products, and to provide related engineering, technical and other services according to the specifications of the customers. These contracts may be firm fixed price ("FFP"), cost plus fixed fee ("CPFF"), or time and materials ("T&M"). The Company considers all such contracts to be within the scope of ASC Topic 606.

Performance Obligations

A performance obligation is a promise in a contract to transfer distinct goods or services to a customer, and it is the unit

Table of Contents

of account in ASC Topic 606. A contract's transaction price is allocated to each distinct performance obligation and revenue is recognized when each performance obligation under the terms of a contract is satisfied. Revenue is measured at the amount of consideration the Company expects to receive in exchange for transferring goods or providing services. For contracts with multiple performance obligations, the Company allocates the contract's transaction price to each performance obligation using its observable standalone selling price for products and services. When the standalone selling price is not directly observable, the Company uses its best estimate of the standalone selling price of each distinct good or service in the contract using the cost plus margin approach. This approach estimates the Company's expected costs of satisfying the performance obligation and then adds an appropriate margin for that distinct good or service.

Contract modifications are routine in the performance of the Company's contracts. In most instances, contract modifications are for additional goods and/or services that are distinct and, therefore, accounted for as new contracts.

The Company's performance obligations are satisfied over time or at a point in time. Performance obligations are satisfied over time if the customer receives the benefits as the Company performs, if the customer controls the asset as it is being developed or produced, or if the product being produced for the customer has no alternative use and the Company has a contractual right to payment for the Company's costs incurred to date plus a reasonable margin. The contractual right to payment is generally supported by termination for convenience clauses that allow the customer to unilaterally terminate the contract for convenience, pay the Company for costs incurred plus a reasonable profit, and take control of any work in process. Revenue for TMS product deliveries and Customer-Funded R&D contracts is recognized over time as costs are incurred. Contract services revenue is composed of revenue recognized on contracts for the provision of services, including repairs and maintenance, training, engineering design, development and prototyping activities, and technical support services. Contract services revenue is recognized over time as services are rendered. Typically, revenue is recognized over time using an input measure (e.g., costs incurred to date relative to total estimated costs at completion) to measure progress. Training services are recognized over time using an output method based on days of training completed.

For performance obligations satisfied over time, revenue is generally recognized using costs incurred to date relative to total estimated costs at completion to measure progress. Incurred costs represent work performed, which correspond with, and thereby best depict, transfer of control to the customer. Contract costs include labor, materials, subcontractors' costs, other direct costs, and indirect costs applicable on government and commercial contracts.

For performance obligations which are not satisfied over time per the aforementioned criteria above, revenue is recognized at the point in time in which each performance obligation is fully satisfied. The Company's small UAS product sales revenue is composed of revenue recognized on contracts for the delivery of small UAS systems and spare parts. Revenue is recognized at the point in time when control transfers to the customer, which generally occurs when title and risk of loss have passed to the customer.

On July 28, 2018, the Company had approximately \$157,049,000 of remaining performance obligations under fully funded contracts with its customers, which the Company also refers to as funded backlog. The Company currently expects to recognize approximately 82% of the remaining performance obligations as revenue in fiscal 2019, an additional 13% in fiscal 2020, and the balance thereafter.

The Company collects sales, value add, and other taxes concurrent with revenue producing activities, which are excluded from revenue when they are both imposed on a specific transaction and collected from a customer.

Contract Estimates

Accounting for contracts and programs primarily with a duration of less than six months involves the use of various techniques to estimate total contract revenue and costs. For long-term contracts, the Company estimates the total expected costs to complete the contract and recognizes revenue based on the percentage of costs incurred at period end. Typically, revenue is recognized over time using costs incurred to date relative to total estimated costs at completion to measure progress toward satisfying the Company's performance obligations. Incurred costs represent work performed, which corresponds with, and thereby best depicts, the transfer of control to the customer. Contract costs include labor, materials, subcontractors' costs, other direct costs, and indirect costs applicable on government and commercial

Table of Contents

contracts.

Contract estimates are based on various assumptions to project the outcome of future events that may span several years. These assumptions include labor productivity and availability, the complexity of the work to be performed, the cost and availability of materials, the performance of subcontractors, and the availability and timing of funding from the customer.

The nature of the Company's contracts gives rise to several types of variable consideration, including penalty fees and incentive awards generally for late delivery and early delivery, respectively. The Company generally estimates such variable consideration as the most likely amount. In addition, the Company includes the estimated variable consideration to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the related uncertainty is resolved. These estimates are based on historical award experience, anticipated performance and the Company's best judgment at the time. Because of the certainty in estimating these amounts, they are included in the transaction price of the Company's contracts and the associated remaining performance obligations.

As a significant change in one or more of these estimates could affect the profitability of the Company's contracts, the Company regularly reviews and updates its contract-related estimates. Changes in cumulative revenue estimates, due to changes in the estimated transaction price or cost estimates, are recorded using a cumulative catch-up adjustment in the period identified for contracts with performance obligations recognized over time. If at any time the estimate of contract profitability indicates an anticipated loss on the contract, the Company recognizes the total loss in the quarter it is identified.

The impact of adjustments in contract estimates on the Company's operating earnings can be reflected in either operating costs and expenses or revenue. The aggregate impact of adjustments in contract estimates on revenue related to performance obligations satisfied or partially satisfied in previous periods was not significant for the three-month periods ended July 28, 2018 and July 29, 2017. No adjustment on any one contract was material to the Company's unaudited consolidated financial statements for the three-month periods ended July 28, 2018 and July 29, 2017.

Revenue by Category

Revenue from products and services during the three months ended July 28, 2018 consisted of revenue derived from over 160 active contracts. The following tables present the Company's revenue disaggregated by major product line, contract type, customer category and geographic location:

Revenue by major product line/program	Three Months Ended	
	July 28, 2018	July 29, 2017
Small UAS	\$ 41,216	\$ 20,061
TMS	22,766	9,565
HAPS	11,563	2,551
Other	2,498	2,184
Total revenue	\$ 78,043	\$ 34,361

Revenue by contract type	Three Months Ended

FFP	\$ 58,003	\$ 25,854
CPFF	19,983	8,373
T&M	57	134
Total revenue	\$ 78,043	\$ 34,361

Table of Contents

Each of these contract types presents advantages and disadvantages. Typically, the Company assumes more risk with FFP contracts. However, these types of contracts generally offer additional profits when the Company completes the work for less than originally estimated. CPFF contracts generally subject the Company to lower risk. Accordingly, the associated base fees are usually lower than fees on FFP contracts. Under T&M contracts, the Company's profit may vary if actual labor hour rates vary significantly from the negotiated rates.

	Three Months Ended	
	July 28, 2018	July 29, 2017

International	42,691	12,791
Total revenue	\$ 78,043	\$ 34,361

Contract Balances

The timing of revenue recognition, billings and cash collections results in billed accounts receivable, unbilled receivables, and customer advances and deposits on the consolidated balance sheet. In the Company's services contracts, amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals, which is generally monthly, or upon the achievement of contractual milestones. Generally, billing occurs subsequent to revenue recognition, resulting in contract assets recorded in "Unbilled receivables and retentions" on the consolidated balance sheet. However, the Company sometimes receives advances or deposits from its customers before revenue is recognized, resulting in contract liabilities recorded in "Customer advances" on the consolidated balance sheet. Contract liabilities are not a significant financing component as they are generally utilized to pay for contract costs within a one-year period or are used to ensure the customer meets contractual requirements. These assets and liabilities are reported on the consolidated balance sheet on a contract-by-contract basis at the end of each reporting period. For the Company's product revenue, the Company generally receives cash payments subsequent to satisfying the performance obligation via delivery of the product, resulting in billed accounts receivable. Changes in the contract asset and liability balances during the three-month period ended July 28, 2018 were not materially impacted by any other factors. For the Company's contracts, there are no significant gaps between the receipt of payment and the transfer of the associated goods and services to the customer for material amounts of consideration.

Revenue recognized for the three-month periods ended July 28, 2018 and July 29, 2017 that was included in contract liability balances at the beginning of each year were \$1,548,000 and \$764,000, respectively.

Segments

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the Chief Operating Decision Maker (“CODM”) in deciding how to allocate resources and in assessing performance. The Company’s CODM, who is the Chief Executive Officer, makes operating decisions, assesses performance and makes resource allocation decisions, including the focus of R&D, on a consolidated basis for the Company’s continuing operations. Accordingly, the Company operates its business as a single reportable segment.

Investments

The Company’s investments are accounted for as held-to-maturity and available-for-sale and reported at amortized cost and fair value, respectively.

Table of Contents

Fair Values of Financial Instruments

Fair values of cash and cash equivalents, accounts receivable, unbilled receivables and retentions, and accounts payable approximate cost due to the short period of time to maturity.

Government Contracts

Payments to the Company on government CPFF or T&M contracts are based on provisional, or estimated indirect rates, which are subject to an annual audit by the Defense Contract Audit Agency (“DCAA”). The cost audits result in the negotiation and determination of the final indirect cost rates that the Company may use for the period(s) audited. The final rates, if different from the provisional rates, may create an additional receivable or liability for the Company.

For example, during the course of its audits, the DCAA may question the Company’s incurred costs, and if the DCAA believes the Company has accounted for such costs in a manner inconsistent with the requirements under Federal Acquisition Regulations, the DCAA auditor may recommend to the Company’s administrative contracting officer to disallow such costs. Historically, the Company has not experienced material disallowed costs as a result of government audits. However, the Company can provide no assurance that the DCAA or other government audits will not result in material disallowances for incurred costs in the future.

The Company’s revenue recognition policy calls for revenue recognized on all CPFF or T&M government contracts to be recorded at actual rates unless collectability is not reasonably assured. During the fiscal year ended April 30, 2017, the Company settled rates for its incurred cost claims with the DCAA for fiscal years 2011 through 2014 without payment of any consideration. At July 28, 2018 and April 30, 2018, the Company had \$77,000 reserved for incurred cost claim audits.

Earnings (Loss) Per Share

Basic earnings (loss) per share is computed using the weighted-average number of common shares outstanding, excluding shares of unvested restricted stock.

The reconciliation of basic to diluted shares is as follows:

	Three Months Ended	
	July 28, 2018	July 29, 2017
Income (loss) from		
Continuing operations attributable to AeroVironment	\$ 20,337	\$ (4,371)
Discontinued operations, net of tax	6,993	(1,488)
Net income (loss) attributable to AeroVironment	\$ 27,330	\$ (5,859)
Denominator for basic earnings per share:		
Weighted average common shares	23,574,595	23,336,305
Dilutive effect of employee stock options, restricted stock and restricted stock units	435,708	—
Denominator for diluted earnings per share	24,010,303	23,336,305

Potentially dilutive shares not included in the computation of diluted weighted-average common shares because their effect would have been anti-dilutive were 25,392 for the three months ended July 28, 2018. Due to the net loss for the three months ended July 29, 2017, no shares reserved for issuance upon exercise of stock options or shares of unvested restricted stock were included in the computation of diluted loss per share as their inclusion would have been anti-dilutive. Potentially dilutive shares not included in the computation of diluted weighted-average common shares because their effect would have been anti-dilutive were 256,011 for the three months ended July 29, 2017.

Recently Issued Accounting Standards

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). This ASU requires the lessee to recognize the

Table of Contents

assets and liabilities for the rights and obligations created by leases with terms of 12 months or more. The guidance is effective for fiscal years beginning after December 15, 2018 and interim periods therein, with early adoption permitted. The Company currently does not hold a large number of leases that are classified as operating leases under the existing lease standard, with the only significant leases being the Company's various property leases. The Company is evaluating the potential impact of this adoption on its consolidated financial statements.

In February 2018, the FASB issued ASU 2018-02, Reclassification of Certain Tax Effects from Accumulated Other

Comprehensive Income. This ASU permits but does not require the Company to reclassify the disproportionate income tax effects of the Tax Cuts and Jobs Act of 2017 (the "Tax Act") on items within AOCI to retained earnings. The guidance is effective for fiscal years beginning after December 15, 2018 and interim periods therein, with early adoption permitted. The Company is evaluating the potential impact of this adoption on its consolidated financial statements.

2. Discontinued Operations

On June 29, 2018, the Company completed the sale of the EES Business to Webasto. In accordance with the terms of the Purchase Agreement, as amended by a Side Letter Agreement executed at the closing, the Company received cash consideration of \$31,994,000 upon closing, which resulted in a gain of \$11,420,000 which has been recorded in "Gain on sale of business, net of tax" in the consolidated statements of operations. The Company will receive additional cash consideration of \$6,500,000 (the "Holdback") upon the assignment of two of the remaining customer contracts to Webasto. The Holdback was not recorded in the Company's consolidated financial statements as the amount was not realized or realizable as of July 28, 2018.

Concurrent with the execution of the Purchase Agreement, the Company entered into a transition services agreement (the "TSA") to provide certain general and administrative services to Webasto for a defined period. Income from performing services under the TSA has been recorded in "Other income, net" in the consolidated statements of operations.

The Company determined that the EES Business met the criteria for classification as an asset held for sale as of April 30, 2018 and represents a strategic shift in in the Company's operations. Therefore, the assets and liabilities and the results of operations of the EES Business are reported as discontinued operations for all periods presented. The table below presents the statements of operations data for the EES Business.

Three Months Ended

Edgar Filing: AeroVironment Inc - Form 10-Q

Auction rate securities	—	2,142
Total available-for-sale investments	—	2,142
Total long-term investments	\$ 36,712	\$ 40,656

Held-To-Maturity Securities

As of July 28, 2018 and April 30, 2018, the balance of held-to-maturity securities consisted of state and local government municipal securities, U.S. treasury securities, U.S. government-guaranteed agency securities, U.S. government-sponsored agency debt securities, highly rated corporate bonds, and certificates of deposit. Interest earned from these investments is recorded in interest income.

Table of Contents

The amortized cost, gross unrealized gains, gross unrealized losses, and estimated fair value of the held-to-maturity investments as of July 28, 2018 were as follows (in thousands):

	July 28, 2018			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Municipal securities	\$ 16,995	\$ 8	\$ (3)	\$ 17,000
U.S. government securities	62,323	—	(307)	62,016
Corporate bonds	72,697	1	(53)	72,645
Certificates of deposit	3,000	—	—	3,000
Total held-to-maturity investments	\$ 155,015	\$ 9	\$ (363)	\$ 154,661

The amortized cost, gross unrealized gains, gross unrealized losses, and estimated fair value of the held-to-maturity investments as of April 30, 2018 were as follows (in thousands):

	April 30, 2018			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Municipal securities	\$ 37,390	\$ 9	\$ (36)	\$ 37,363
U.S. government securities	58,976	—	(367)	58,609
Corporate bonds	55,797	2	(71)	55,728
Certificates of deposit	—	—	—	—
Total held-to-maturity investments	\$ 152,163	\$ 11	\$ (474)	\$ 151,700

The amortized cost and fair value of the held-to-maturity securities by contractual maturity at July 28, 2018 were as follows (in thousands):

	Cost	Fair Value
Due within one year	\$ 118,303	\$ 118,120
Due after one year through five years	36,712	36,541
Total	\$ 155,015	\$ 154,661

Available-For-Sale Securities

Auction Rate Securities

As of April 30, 2018, the entire balance of available-for-sale auction rate securities consisted of two investment grade auction rate municipal bonds with maturities ranging from 1 to 16 years. These investments have characteristics similar to short term investments, because at predetermined intervals, generally ranging from 30 to 35 days, there is a new auction process at which the interest rates for these securities are reset to current interest rates. At the end of such period, the Company chooses to roll over its holdings or redeem the investments for cash. A market maker facilitates the redemption of the securities and the underlying issuers are not required to redeem the investment within 365 days. Interest earned from these investments is recorded in interest income.

During the fourth quarter of the fiscal year ended April 30, 2008, the Company began experiencing failed auctions on some of its auction rate securities. A failed auction occurs when a buyer for the securities cannot be obtained and the market maker does not buy the security for its own account. The Company continues to earn interest on the investments that failed to settle at auction, at the maximum contractual rate until the next auction occurs. In the event the Company needs to access funds invested in these auction rate securities, the Company may not be able to liquidate these securities at the fair value recorded on April 30, 2018 until a future auction of these securities is successful or a buyer is found outside of the auction process.

As a result of the failed auctions, the fair values of these securities are estimated utilizing a discounted cash flow analysis

Table of Contents

as of April 30, 2018. The analysis considers, among other items, the collateralization underlying the security investments, the creditworthiness of the counterparty, the timing of expected future cash flows, and the expectation of the next time the security is expected to have a successful auction.

During the three months ended July 28, 2018, the remaining investment grade auction rate municipal bonds were redeemed at par value.

The amortized cost, gross unrealized gains, gross unrealized losses, and estimated fair value of the auction rate securities as of April 30, 2018, were as follows (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Auction rate securities	\$ 2,250	\$ —	\$ (108)	\$ 2,142
Total available-for-sale investments	\$ 2,250	\$ —	\$ (108)	\$ 2,142

4. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value hierarchy contains three levels as follows:

- Level 1—Inputs to the valuation based upon quoted prices (unadjusted) for identical assets or liabilities in active markets that are accessible as of the measurement date.
- Level 2—Inputs to the valuation include quoted prices in either markets that are not active, or in active markets for similar assets or liabilities, inputs other than quoted prices that are observable, and inputs that are derived principally from or corroborated by observable market data.

- Level 3—Inputs to the valuation that are unobservable inputs for the asset or liability.

The Company did not have any financial assets measured at fair value on a recurring basis at July 28, 2018 as the Company's remaining auction rate securities were redeemed during the three months ended July 28, 2018 at par value. The following table provides a reconciliation between the beginning and ending balances of items measured at fair value on a recurring basis that used significant unobservable inputs (Level 3) (in thousands):

Description	Fair Value Measurements Using Significant Unobservable Inputs (Level 3)
Balance at May 1, 2018	\$ 2,142
Transfers to Level 3	—
Total gains (realized or unrealized) Included in earnings	—
Included in other comprehensive income	108
Settlements	(2,250)
Balance at July 28, 2018	\$ —
The amount of total gains or (losses) for the period included in earnings attributable to the change in unrealized gains or losses relating to assets still held at July 28, 2018	\$ —

Table of Contents

The auction rate securities were valued using a discounted cash flow model. The analysis considered, among other items, the collateralization underlying the security investments, the creditworthiness of the counterparty, the timing of expected future cash flows and the estimated date upon which the security is expected to have a successful auction.

5. Inventories, net

Inventories consist of the following (in thousands):

	July 28, 2018	April 30, 2018
Raw materials	\$ 14,156	\$ 12,020
Work in process	15,103	14,780
Finished goods	17,057	14,578
Inventories, gross	46,316	41,378
Reserve for inventory excess and obsolescence	(4,072)	(3,953)
Inventories, net	\$ 42,244	\$ 37,425

6. Equity Method Investments

In December 2017, the Company and SoftBank formed a joint venture, HAPSMobile. HAPSMobile is a Japanese corporation that is 5% owned by the Company and 95% owned by SoftBank and is governed by a Joint Venture Agreement (the “JVA”). The Company purchased its 5% stake in HAPSMobile for 210,000,000 yen (\$1,860,000) effective as of December 27, 2017 and 150,000,000 yen (\$1,407,000) on April 17, 2018. Under the JVA, the Company committed to make an additional capital contribution of 209,500,000 yen (approximately \$1,900,000) in or around January 2019 to maintain its 5% ownership stake. Additionally, under the JVA, the Company may purchase additional shares of HAPSMobile, at the same per share price for the purchase of its original 5% stake, to increase its ownership percentage of HAPSMobile up to 19% prior to the first flight test of the prototype aircraft produced under a design and development agreement between HAPSMobile and the Company.

As the Company has the ability to exercise significant influence over the operating and financial policies of HAPSMobile, the Company’s investment is accounted for as an equity method investment. For the three months ended July 28, 2018, the Company recorded 5% of the net loss of HAPSMobile, or \$602,000, in “Equity method investment activity, net of tax” in the unaudited consolidated statement of operations. At July 28, 2018, the carrying value of the

investment in HAPSMobile was \$1,388,000 and was recorded in “Other assets.”

7. Warranty Reserves

The Company accrues an estimate of its exposure to warranty claims based upon both current and historical product sales data and warranty costs incurred. The warranty reserve is included in other current liabilities. The related expense is included in cost of sales. Warranty reserve activity is summarized as follows for the three months ended July 28, 2018 and July 29, 2017, respectively (in thousands):

	Three Months Ended	
	July 28, 2018	July 29, 2017
Beginning balance	\$ 2,090	\$ 1,947
Warranty expense	611	279
Changes in estimates related to pre-existing warranties	712	—
Warranty costs settled	(275)	(602)
Ending balance	\$ 3,138	\$ 1,624

During the three months ended July 28, 2018, the Company revised its estimates based on the results of additional engineering studies and recorded incremental warranty reserve charges totaling \$712,000 related to the estimated costs to

Table of Contents

repair a component of certain small UAS that were delivered in prior periods.

8. Intangibles

Intangibles are included in other assets on the consolidated balance sheets. The components of intangibles are as follows:

	July 28, 2018	April 30, 2018
	(In thousands)	
Licenses	\$ 818	\$ 818
Customer relationships	733	733
Trademarks and tradenames	28	28
Other	3	3
Intangibles, gross	1,582	1,582
Less accumulated amortization	(1,023)	(954)
Intangibles, net	\$ 559	\$ 628

The customer relationships, trademarks and tradenames, and other intangible assets were recognized in conjunction with the Company's acquisition of a controlling interest in Altoy on February 1, 2017.

9. Accumulated Other Comprehensive Loss and Reclassifications Adjustments

The components of accumulated other comprehensive loss and adjustments are as follows (in thousands):

	Available-for-Sale Securities	Foreign Currency Translation Adjustments	Accumulated Other Comprehensive Loss
Balance, net of \$76 of taxes, as of April 30, 2018	\$ (57)	\$ 36	\$ (21)
Reclassifications out of accumulated other comprehensive loss, net of taxes	—	—	—
Change in foreign currency translation adjustments, net of \$0 taxes	—	(20)	(20)

Edgar Filing: AeroVironment Inc - Form 10-Q

Unrealized gains, net of \$51 of taxes	57	—	57
Balance, net of \$0 of taxes, as of July 28, 2018	\$ —	\$ 16	\$ 16

10. Customer-Funded Research & Development

Customer-funded R&D costs are incurred pursuant to contracts (revenue arrangements) to perform R&D activities according to customer specifications. These costs are direct contract costs and are expensed to cost of sales as costs are incurred. Revenue from customer-funded R&D contracts are recognized in accordance with Topic 606 over time as costs are incurred. Revenue from customer-funded R&D was approximately \$17,117,000 and \$8,798,000 for the three months ended July 28, 2018 and July 29, 2017, respectively.

18

Table of Contents

11. Long-Term Incentive Awards

During the three months ended July 28, 2018, the Company granted awards under its amended and restated 2006 Equity Incentive Plan (the “Restated 2006 Plan”) to key employees (“Fiscal 2019 LTIP”). Awards under the Fiscal 2019 LTIP consist of: (i) time-based restricted stock awards which vest in equal tranches in July 2019, July 2020 and July 2021, and (ii) performance-based restricted stock units (“PRSUs”) which vest based on the Company’s achievement of revenue and operating income targets for the three-year period ending April 30, 2021. At the award date, target achievement levels for each of the financial performance metrics were established for the PRSUs, at which levels the PRSUs would vest at 100% for each such metric. Threshold achievement levels for which the PRSUs would vest at 50% for each such metric and maximum achievement levels for which such awards would vest at 200% for each such metric were also established. The actual payout for the PRSUs at the end of the performance period will be calculated based upon the Company’s achievement of the established revenue and operating income targets for the performance period. Settlement of the PRSUs will be made in fully-vested shares of common stock. As of July 28, 2018, the Company recorded \$44,000 of compensation expense related to the Fiscal 2019 LTIP. At July 28, 2018, the maximum compensation expense that may be recorded for the performance-based portion of the Fiscal 2019 LTIP is \$3,733,000.

During the three months ended July 29, 2017, the Company granted awards under the Restated 2006 Plan to key employees (“Fiscal 2018 LTIP”). Awards under the Fiscal 2018 LTIP consist of: (i) time-based restricted stock awards which vest in equal tranches in July 2018, July 2019 and July 2020, and (ii) PRSUs which vest based on the Company’s achievement of revenue and operating income targets for the three-year period ending April 30, 2020. At the award date, target achievement levels for each of the financial performance metrics were established for the PRSUs, at which levels the PRSUs would vest at 100% for each such metric. Threshold achievement levels for which the PRSUs would vest at 50% for each such metric and maximum achievement levels for which such awards would vest at 200% for each such metric were also established. The actual payout for the PRSUs at the end of the performance period will be calculated based upon the Company’s achievement of the established revenue and operating income targets for the performance period. Settlement of the PRSUs will be made in fully-vested shares of common stock. As of July 28, 2018, the Company recorded \$490,000 of compensation expense related to the Fiscal 2018 LTIP. At July 28, 2018, the maximum compensation expense that may be recorded for the performance-based portion of the Fiscal 2018 LTIP is \$2,850,000.

During the three months ended July 29, 2017, the Company also granted awards under the Restated 2006 Plan to key employees (“Fiscal 2017 LTIP”). Awards under the Fiscal 2017 LTIP consist of: (i) time-based restricted stock awards which vest in equal tranches in July 2017, July 2018 and July 2019, and (ii) PRSUs which vest based on the Company’s achievement of revenue and operating income targets for the three-year period ending April 30, 2019. At the award date, target achievement levels for each of the financial performance metrics were established for the PRSUs, at which levels the PRSUs would vest at 100% for each such metric. Threshold achievement levels for which the PRSUs would vest at 50% for each such metric and maximum achievement levels for which such awards would vest at 200% for each such metric were also established. The actual payout for the PRSUs at the end of the performance period will be calculated based upon the Company’s achievement of the established revenue and operating income targets for the performance period. Settlement of the PRSUs will be made in fully-vested shares of common stock. As of July 28, 2018, the Company recorded \$264,000 of compensation expense related to the Fiscal 2017 LTIP. At July 28, 2018, the maximum compensation expense that may be recorded for the performance-based portion of the Fiscal 2017 LTIP is \$2,630,000.

At each reporting period, the Company reassesses the probability of achieving the performance targets. The estimation of whether the performance targets will be achieved requires judgment, and, to the extent actual results or updated estimates differ from the Company's current estimates, the cumulative effect on current and prior periods of those changes will be recorded in the period estimates are revised.

12. Income Taxes

On December 22, 2017, the Tax Act was signed into law, which resulted in significant changes to the Internal Revenue Code. Changes include, but are not limited to, a corporate tax rate decrease from 35% to 21% effective for tax years beginning after December 31, 2017, repeal of the corporate alternative minimum tax, repeal of the deduction for domestic production activities, a deduction for certain Foreign Derived Intangible Income ("FDII"), and limitation on the deductibility of certain executive compensation.

Table of Contents

In accordance with ASC 740, Income Taxes, the Company is required to record the effects of tax law changes in the period enacted. As the Company has an April 30 fiscal year end, its U.S. federal corporate income tax rate was blended in fiscal 2018, resulting in a statutory federal rate of approximately 30.4% (8 months at 35% and 4 months at 21%), and 21% for subsequent fiscal years. The Company remeasured its existing deferred tax assets and liabilities at the rate the Company expects to be in effect when those deferred taxes will be realized and recorded a one-time deferred tax expense of approximately \$3,300,000 during the fiscal year ended April 30, 2018.

The Company followed the guidance in SEC Staff Accounting Bulletin 118 (“SAB 118”), which provides additional clarification regarding the application of ASC Topic 740 in situations where the Company does not have the necessary information available, prepared, or analyzed in reasonable detail to complete the accounting for certain income tax effects of the Tax Act for the reporting period in which the Act was enacted. SAB 118 provides for a measurement period beginning in the reporting period that includes the Act’s enactment date and ending when the Company has obtained, prepared, and analyzed the information needed in order to complete the accounting requirements but in no circumstances should the measurement period extend beyond one year from the enactment date.

The \$3,300,000 expense for the one-time deferred tax remeasurement is a provisional estimate of the impact of the Tax Act. In addition, for the year ending April 30, 2019 the Company has estimated that the FDII deduction will benefit the Company’s full year estimated effective tax rate by approximately 2% and that it will not have an income tax payable as a result of the one-time deemed repatriation transition tax on unrepatriated foreign earnings. These amounts are considered provisional because they use estimates for which final tax computations or returns have not been completed and because estimated amounts may be impacted by future regulatory and accounting guidance if and when issued.

The Company’s financial statements do not reflect the impact of certain aspects of the Tax Act as the Company did not have the necessary information available, prepared, or analyzed (including computations), or because sufficient guidance has not been issued in order to determine an actual or provisional amount for the tax effects of the Act. To date, these aspects include the new compensation related provisions under section 162(m) and the state income tax conformity to the Tax Act.

For the three months ended July 28, 2018, the Company recorded a provision for income taxes of \$2,567,000, yielding an effective tax rate of 10.9%. For the three months ended July 29, 2017, the Company recorded a (benefit) for income taxes of \$(3,221,000), yielding an effective tax rate of 42.3%. The variance from statutory rates for the three months ended July 28, 2018 was primarily due to federal R&D credits and the recording of discrete excess tax benefits of \$1,150,000 resulting from the vesting of restricted stock awards and exercises of stock options. The variance from statutory rates for the three months ended July 29, 2017 was primarily due to federal R&D credits and the recording of discrete excess tax benefits of \$1,025,000 resulting from the vesting of restricted stock awards and exercises of stock options.

13. Share Repurchase

In September 2015, the Company's Board of Directors authorized a program to repurchase up to \$25,000,000 of the Company's common stock with no specified termination date for the program. No shares were repurchased under the program during the three months ended July 28, 2018. As of July 28, 2018 and April 30, 2018, approximately \$21.2 million remained authorized for future repurchases under this program.

14. Related Party Transactions

Related party transactions are defined as transactions between the Company and entities either controlled by the Company or that the Company can significantly influence. Although SoftBank has a controlling interest in HAPSMobile, the Company determined that it has the ability to exercise significant influence over HAPSMobile. As such, HAPSMobile and SoftBank are considered related parties of the Company. Concurrent with the formation of HAPSMobile, the Company executed a Design and Development Agreement (the "DDA") with HAPSMobile. Under the DDA, the Company will use its best efforts, up to a maximum net value of \$76,589,000, to design and build prototype

Table of Contents

solar powered high altitude aircraft and ground control stations for HAPSMobile and conduct low altitude and high altitude flight tests of the prototype aircraft.

The Company recorded revenue under the DDA and preliminary design agreements between the Company and SoftBank of \$11,563,000 and \$2,551,000 for the three months ended July 28, 2018 and July 29, 2017, respectively. At July 28, 2018 and April 30, 2018, the Company had unbilled related party receivables from HAPSMobile of \$9,504,000 and \$3,145,000 recorded in “Unbilled receivables and retentions” on the consolidated balance sheets, respectively. During the year ended April 30, 2018, the Company purchased a 5% stake in accordance with the JVA. Refer to Note 6—Equity Method Investments for further details.

15. Legal Settlements

In May 2018, the Company entered into a settlement agreement to dismiss its claims against MicaSense Inc. and former AeroVironment employees, Gabriel Torres, Justin McAllister, and Jeff McBride. The terms and amount of the settlement agreement are confidential. The proceeds of the settlement were received during the three months ended July 28, 2018 and have been recorded in “Other income, net” on the consolidated statements of operations.

16. Impact of Adoption of New Accounting Standards

During the three months ended July 28, 2018, the Company adopted ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606). The impact to the Company's unaudited balance sheet as a result of adopting the standard was as follows:

	April 30, 2018 As Reported	Effect of the Adoption of ASC Topic 606	April 30, 2018 As Adjusted
Assets			
Current assets:			
Cash and cash equivalents	\$ 143,517	\$ —	\$ 143,517
