CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(In millions, except per share data)

1. Basis of Presentation

The condensed consolidated balance sheets as of March 31, 2019 and December 31, 2018, the condensed consolidated statements of income and comprehensive income, cash flow and stockholders' equity for the three months ended March 31, 2019 and March 31, 2018 have been prepared by Church & Dwight Co., Inc. (the "Company"). In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position at March 31, 2019 and results of operations and cash flows for all periods presented have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles ("GAAP") in the United States have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2018 (the "Form 10-K"). The results of operations for the period ended March 31, 2019 are not necessarily indicative of the operating results for the full year.

The Company incurred research and development expenses in the first quarter of 2019 and 2018 of \$20.7 and \$19.5, respectively. These expenses are included in selling, general and administrative ("SG&A") expenses.

2. New Accounting Pronouncements

Recently Adopted Accounting Pronouncements

In August 2017 and October 2018, the FASB issued new accounting guidance, which is intended to improve the financial reporting of hedging relationships to better portray the economic results of an entity's risk management activities in its financial statements. These amendments also make targeted improvements to simplify the application of the hedge accounting. The guidance was effective for annual and interim periods beginning after December 15, 2018, and was adopted by the Company in the first quarter of 2019. The standard's adoption did not have a material impact on the Company's consolidated financial position, results of operations or cash flows.

In February 2016 and July 2018, the FASB issued new lease accounting guidance, requiring lessees to recognize right-of-use lease assets and lease liabilities on the balance sheet for those leases previously classified as operating leases, with a term greater than a year. The new guidance also expands the required quantitative and qualitative disclosures surrounding leases. The guidance was effective for annual and interim periods beginning after December 15, 2018, and allowed companies to apply the requirements retrospectively, either to all prior periods presented or through a cumulative adjustment in the year of adoption. The Company adopted the new standard on January 1, 2019

on a modified retrospective basis and elected the package of practical expedients permitted under the transition guidance, which eliminates the reassessment of past leases, classification, and initial direct costs. The Company has implemented the appropriate internal controls and tools to monitor and record historical and future lease arrangements and required disclosures.

For all existing operating leases as of December 31, 2018, the Company recorded Right of Use Assets of approximately \$55.0 and corresponding lease liabilities of approximately \$57.0 with an offset to Deferred and Other Long-term Liabilities of approximately \$2.0 to eliminate deferred rent on the consolidated balance sheet.

In addition, based on the transition guidance surrounding failed sale-and-leaseback transactions, the Company re-evaluated the lease for its corporate headquarters in Ewing, New Jersey. This lease was previously considered a failed sale-and-leaseback transaction under Accounting Standards Codification (“ASC”) 840 because of continuing involvement. The re-evaluation resulted in a change in classification from a finance transaction to an operating lease. The corporate headquarters building, which had a net book value of approximately \$35.0 recorded in Property, Plant and Equipment as of December 31, 2018, was derecognized on January 1, 2019 and a Right of Use Asset of approximately \$52.0 was recorded with an offset to Deferred Income Taxes of \$4.0 and Retained Earnings of \$13.0. The Lease Liability pertaining to this asset of \$52.0 remained unchanged.

In total, at the adoption of the new accounting guidance there will be a Right of Use Asset of approximately \$107.0 and a corresponding Lease Liability of \$109.0. This does not include an existing cease-use liability of approximately \$7.0 pertaining to one

of the Company's previous corporate offices that remained unchanged as a result of the transition. Refer to Note 12 for the Company's lease disclosures.

The effects of the recently adopted lease accounting standard to the Company's condensed consolidated balance sheet as of January 1, 2019 is as follows:

	Balance at December 31, 2018	New Lease Standard Adjustment	Balance at January 1, 2019
Property, plant and equipment, net	\$ 598.2	\$ (35.2)	\$ 563.0
Other assets	117.4	107.5	224.9
Accounts payable and accrued expenses	725.1	13.6	738.7
Deferred and other long-term liabilities	203.9	41.3	245.2
Deferred income taxes	576.4	4.4	580.8
Retained earnings	3,832.6	13.0	3,845.6

The adoption of the new lease accounting standard did not have a material impact on the Company's results of operations or cash flows.

There have been no accounting pronouncements issued but not yet adopted by the Company which are expected to have a material impact on the Company's consolidated financial position, results of operations or cash flows.

On November 1, 2017, the Company's Board of Directors (the "Board") authorized a share repurchase program, under which the Company may repurchase up to \$500.0 in shares of Common Stock (the "2017 Share Repurchase Program"). The 2017 Share Repurchase Program does not have an expiration. The Company also continued its evergreen share repurchase program, authorized by the Board on January 29, 2014, under which the Company may repurchase, from time to time, Common Stock to reduce or eliminate dilution associated with issuances of Common Stock under the Company's incentive plans.

In connection with the evergreen repurchase program, in January 2019, the Company executed open market purchases of \$100.0 of its Common Stock.

8. Fair Value Measurements

The following table presents the carrying amounts and estimated fair values of the Company's other financial instruments at March 31, 2019 and December 31, 2018:

Refer to Note 2 in the Form 10-K for a description of the methods and assumptions used to estimate the fair value of each class of financial instruments reflected in the Condensed Consolidated Balance Sheets.

The carrying amounts of accounts receivable, and accounts payable and accrued expenses, approximated estimated fair values as of March 31, 2019 and December 31, 2018.

9. Derivative Instruments and Risk Management

Changes in interest rates, foreign exchange rates, the price of the Common Stock and commodity prices expose the Company to market risk. The Company manages these risks by the use of derivative instruments, such as cash flow and fair value hedges, diesel and commodity hedge contracts, equity derivatives and foreign exchange forward contracts. The Company does not use derivatives for trading or speculative purposes. Refer to Note 3 in the Form 10-K for a discussion of each of the Company's derivative instruments in effect as of December 31, 2018.

The notional amount of a derivative instrument is the nominal or face amount used to calculate payments made on that instrument. Notional amounts are presented in the following table:

Notional Amount	Notional Amount
-----------------	-----------------

	March 31, 2019	December 31, 2018
Derivatives designated as hedging instruments		
Foreign exchange contracts	\$ 215.8	\$ 146.6

The fair values and amount of gain (loss) recognized in income and Other Comprehensive Income (“OCI”) associated with the derivative instruments disclosed above did not have a material impact on the Company’s condensed consolidated financial statements.

10. Acquisitions

On March 8, 2018, the Company purchased Passport Food Safety Solutions, Inc. (“Passport”). Passport sells products for pre- and post-harvest treatment in the poultry, swine, and beef production markets (the “Passport Acquisition”). The total purchase price was approximately \$50.0, which is subject to an additional payment of up to \$25.0 based on sales performance through 2020. Passport’s annual sales were approximately \$21.0 in 2017. The Passport Acquisition was funded with short-term borrowings and is managed in the SPD segment.

The fair values of the net assets acquired are set forth as follows:

	Passport Acquisition Date Fair Value
Inventory and other working capital	\$ 3.3
Long-term assets	1.0
Trade names and other intangibles	28.5
Goodwill	32.5
Current liabilities	(1.1)
Long-term liabilities	(7.1)
Contingent consideration	(7.3)
Cash purchase price (net of cash acquired)	\$ 49.8

The life of the amortizable intangible assets recognized from the Passport Acquisition ranges from 10 - 15 years. The goodwill is a result of expected synergies from combined operations of the acquisition and the Company. Pro forma results are not presented because the impact is not material to the Company’s consolidated financial results.

The goodwill and other intangible assets associated with the Passport Acquisition are not deductible for U.S. tax purposes.

11. Goodwill and Other Intangibles, Net

The following table provides information related to the carrying value of all intangible assets, other than goodwill:

Indefinite Lived Intangible Assets - Gross Carrying Amount

	March 31, 2019	December 31, 2018
Trade Names	\$1,481.1	\$1,481.1

Intangible amortization expense amounted to \$17.6 and \$18.0 for the first three months of 2019 and 2018, respectively. The Company estimates that intangible amortization expense will be approximately \$70.0 in 2019 and approximately \$68.0 to \$59.0 annually over the next five years.

The Company determined that the carrying value of its trade names as of December 31, 2018 and 2017, was recoverable based upon the forecasted cash flows and profitability of the brands. In 2017 there was a personal care trade name that, based on performance, had experienced sales and profit declines that had eroded a significant portion of the excess between fair and carrying value, which could potentially result in an impairment of the asset. In 2017, this excess had been reduced due in large part to an increased competitive market environment therefore resulting in reduced cash flow projections. The performance of the tradename improved in 2018, thereby increasing the excess between fair value and carrying value. The Company continues to monitor performance and should there be any significant change in forecasted assumptions or estimates, including sales, profitability and discount rate, the Company may be required to recognize an impairment charge.

The carrying amount of goodwill is as follows:

	Consumer Domestic	Consumer International	Specialty Products	Total
Balance at December 31, 2018	\$1,633.2	\$ 223.7	\$ 136.0	\$1,992.9
Balance at March 31, 2019	\$1,633.2	\$ 223.7	\$ 136.0	\$1,992.9

12. Leases

The Company leases certain manufacturing facilities, warehouses, office space, railcars and equipment. Leases with an initial term of twelve months or less are not recorded on the Condensed Consolidated Balance Sheet. All recorded leases are classified as operating leases and lease expense is recognized on a straight-line basis over the lease term. For leases beginning in 2019, lease components (base rental costs) are accounted for separately from the nonlease components (e.g., common-area maintenance costs). For leases that do not provide an implicit rate, the Company uses its estimated secured incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments.

A summary of the Company's lease information is as follows:

16. Commitments, Contingencies and Guarantees**Commitments**

a. The Company has a partnership with a supplier of raw materials that mines and processes sodium-based mineral deposits. The Company purchases the majority of its sodium-based raw material requirements from the partnership. The partnership agreement terminates upon two years' written notice by either partner. Under the partnership agreement, the Company has an annual commitment to purchase 240,000 tons of sodium-based raw materials at the prevailing market price. The Company is not engaged in any other material transactions with the partnership or the partner supplier.

b. As of March 31, 2019, the Company had commitments of approximately \$240.1. These commitments include the purchase of raw materials, packaging supplies and services from its vendors at market prices to enable the Company to respond quickly to changes in customer orders or requirements, as well as costs associated with licensing and promotion agreements.

c. As of March 31, 2019, the Company had various guarantees and letters of credit totaling \$5.2.

d. In connection with the Company's acquisition of Agro BioSciences, Inc. (the "Agro Acquisition") on January 17, 2017, the Company is obligated to pay an additional amount of up to \$25.0 based on sales performance in 2019. The initial fair value of this contingent liability was \$17.8, which was established in the purchase price allocation. Subsequent to the Agro Acquisition, the Company increased the estimate of the contingent consideration liability \$5.4 in the fourth quarter of 2017 from \$17.8 to \$23.2 based on updated sales forecasts. However in 2018, the Company lowered its estimate by \$7.5 to \$15.7 based on updated sales forecasts. The reduction was recorded in SG&A in the SPD segment. There were no changes to the liability during the first quarter of 2019 and the liability will be assessed for re-measurement at each balance sheet date leading up to December 31, 2019.

In connection with the Passport Acquisition, the Company is obligated to pay an additional amount of up to \$25.0 based on sales performance through 2020. The initial fair value of this contingent liability was \$7.3, which was established in the purchase price allocation. There were no changes to the liability during the first quarter of 2019 and the liability will be assessed for re-measurement at each balance sheet date leading up to December 31, 2020.

Legal proceedings

e. The Company has been named as a defendant in a breach of contract action filed by Scantibodies Laboratory, Inc. (the “Plaintiff”) on April 1, 2014, in the U.S. District Court for the Southern District of New York.

The complaint alleges, among other things, that the Company (i) breached two agreements for the manufacture and supply of pregnancy and ovulation test kits by switching suppliers, (ii) failed to give Plaintiff the proper notice, (iii) failed to reimburse Plaintiff for costs and expenses under the agreements and (iv) misrepresented its future requirements. The complaint seeks compensatory and punitive damages in an amount in excess of \$20.0, as well as declaratory relief, statutory prejudgment interest and attorneys’ fees and costs.

The Company is vigorously defending itself in this matter. On September 19, 2018, the court granted the Company’s motion for summary judgment, dismissing all claims brought by the Plaintiff. The Plaintiff has filed an appeal.

In connection with this matter, the Company has reserved an amount that is immaterial. However, it is reasonably possible that the Company may ultimately be required to pay all or substantially all of the damages and other amounts sought by Plaintiff in the event the summary judgment entered in favor of the Company is reversed.

f. In addition, in conjunction with the Company’s acquisition and divestiture activities, the Company entered into select guarantees and indemnifications of performance with respect to the fulfillment of the Company’s commitments under applicable purchase and sale agreements. The arrangements generally indemnify the buyer or seller for damages associated with breach of contract, inaccuracies in representations and warranties surviving the closing date and satisfaction of liabilities and commitments retained under the applicable contract. Representations and warranties that survive the closing date generally survive for periods up to five years or the expiration of the applicable statutes of limitations. Potential losses under the indemnifications are generally limited to a portion of the original transaction price, or to other lesser specific dollar amounts for select provisions. With respect to sale transactions, the Company also routinely enters into non-competition agreements for varying periods of time. Guarantees and indemnifications with respect to acquisition and divestiture activities, if triggered, could have a materially adverse impact on the Company’s financial condition, results of operations and cash flows.

g. In addition to the matters described above, from time to time in the ordinary course of its business the Company is the subject of, or party to, various pending or threatened legal, regulatory or governmental actions or other proceedings without limitation, those relating to, intellectual property, commercial transactions, product liability, purported consumer class actions,

Such proceedings are generally subject to considerable uncertainty and their outcomes, and any related damages, may not be reasonably predictable or estimable. While any such proceedings could result in an adverse outcome for the Company, any such adverse outcome is not expected to have a material adverse effect on the Company’s business, financial condition, results of operations or cash flows.

We anticipate there will be a four-month integration transition period in which the net cash received from Ideavillage will be accounted for as other revenue as a component of net sales. We will purchase the inventory following the transition period. FLAWLESS will be accounted for in the Consumer Domestic and Consumer International segments and represents an addition to our specialty haircare portfolio which includes BATISTE dry shampoo, VIVISCAL hair thinning supplements, and TOPPIK hair fibers.

Amended Credit Agreement

On May 1, 2019, we amended our \$1,000.0 unsecured revolving credit facility (the “Credit Agreement”) to extend the term of the Credit Agreement from March 29, 2023 to March 29, 2024. Under the Credit Agreement, we continue to have the ability to increase our borrowing up to an additional \$600.0, subject to lender commitments and certain conditions as described in the Credit Agreement. Borrowings under the Credit Agreement are available for general corporate purposes and are used to support our \$1,000.0 commercial paper program.

New Term Loan

On May 1, 2019, we entered into a new \$300.0 unsecured term loan credit facility with various banks, the proceeds of which were used to partially fund the Flawless Acquisition. Unless prepaid, the loan is due on May 1, 2022. The interest rate is LIBOR plus an applicable margin based on our credit rating, which can range from 60 bps to 113 bps.

Net Sales

Net sales for the quarter ended March 31, 2019 were \$1,044.7, an increase of \$38.7 or 3.8% as compared to the same period in 2018. The components of the net sales increase are as follows:

	Three Months Ended March 31, 2019		
Net Sales - Consolidated			
Product volumes sold	2.2	%	
Pricing/Product mix	2.3	%	
Foreign exchange rate fluctuations	(1.0)	%	
Volume from acquired product lines ⁽¹⁾	0.3	%	
Net Sales increase	3.8	%	

⁽¹⁾On March 8, 2018, we acquired Passport Food Safety Solutions, Inc. (“Passport”).

For the three months ended March 31, 2019, the volume change primarily reflects increased product sales in both the Consumer Domestic and Consumer International segments, with volume declines in Specialty Products. For the three months ended March 31, 2019, favorable price/mix in the Consumer Domestic and SPD segments were partially offset by unfavorable price/mix in the Consumer International segment.

Gross Profit / Gross Margin

Our gross profit was \$470.8 for the three months ended March 31, 2019, a \$19.3 increase as compared to the same period in 2018. Gross margin increased 20 basis points (“bps”) in the first quarter of 2019 compared to the same period in 2018, primarily due to productivity programs of 130 bps, and favorable price/volume mix of 70 bps, partially offset by higher commodity and transportation costs of 100 bps, and other manufacturing cost increases of 80 bps.

Operating Expenses

Marketing expenses for the three months ended March 31, 2019 were \$98.1, a decrease of \$1.8 or 1.8% as compared to the same period in 2018. Marketing expenses as a percentage of net sales in the first quarter of 2019 decreased by 50 bps to 9.4% as compared to 9.9% in the same period in 2018 due to 30 bps of leverage on higher net sales and 20 bps on lower expenses.

Selling, general and administrative (“SG&A”) expenses were \$131.9 in the first quarter of 2019, an increase of \$0.6 or 0.5% as compared to the same period in 2018. SG&A as a percentage of net sales decreased 50 bps to 12.6% in the first quarter of 2019 as compared to 13.1% in the same period in 2018. The decrease is due to 50 bps of leverage associated with higher sales.

Other Income and Expenses

Other expense, net for the three months ended March 31, 2019 decreased \$2.0 compared to the same period in 2018 primarily due to the effect of changes in foreign exchange rates.

Interest expense for the three months ended March 31, 2019 decreased \$2.3 as compared to the same period in 2018 primarily due to a lower amount of average debt outstanding primarily associated with repayment of the \$300.0 Floating Rate Senior Notes that matured on January 25, 2019 and lower commercial paper borrowings in 2019 as compared to the same period in 2018.

Income Taxes

The effective tax rate for the three months ended March 31, 2019 was 21.9% compared to 21.4% in the same period in 2018. The increase in the tax rate is primarily due to a lower tax benefit on a lower amount of stock option exercises.

Segment results

We operate three reportable segments: Consumer Domestic, Consumer International and SPD. These segments are determined based on differences in the nature of products and organizational and ownership structures. We also have a Corporate segment.

Segment	Products
	Household
	and
	personal
Consumer	care
Domestic	products
	Primarily
	personal
Consumer	care
International	products
	Specialty
	chemical
SPD	products

The Corporate segment income consists of equity in earnings of affiliates. As of March 31, 2019, we held 50% ownership interests in each of Armand Products Company (“Armand”) and The ArmaKleen Company (“ArmaKleen”), respectively. Our equity in earnings of Armand and ArmaKleen for the three months ended March 31, 2019 and 2018 are included in the Corporate segment. Certain subsidiaries that are included in the Consumer International segment manufacture and sell personal care products to the Consumer Domestic segment. These sales are eliminated from the Consumer International segment results set forth below.

Segment net sales and income before income taxes for the months ended March 31, 2019 and March 31, 2018 are as follows:

	Consumer Domestic	Consumer International	SPD	Corporate	Total
Net Sales ⁽¹⁾					
First Quarter 2019	\$ 784.9	\$ 186.7	\$73.1	\$ 0.0	\$1,044.7
First Quarter 2018	751.4	180.7	73.9	0.0	1,006.0
Income before Income Taxes ⁽²⁾					
First Quarter 2019	\$ 182.7	\$ 28.4	\$12.3	\$ 1.7	\$225.1
First Quarter 2018	159.3	27.7	11.6	2.1	200.7

⁽¹⁾ Intersegment sales from Consumer International to Consumer Domestic, which are not reflected in the table, were \$2.3 and \$0.9 for the three months ended March 31, 2019 and March 31, 2018, respectively.

⁽²⁾ In determining Income before Income Taxes, interest expense, investment earnings and certain aspects of other income and expense were allocated among the segments based upon each segment's relative Income from Operations.

Product line revenues from external customers are as follows:

	Three Months	
	Ended	
	March	March
	31,	31,
	2019	2018
Household Products	\$443.3	\$413.0
Personal Care Products	341.6	338.4
Total Consumer Domestic	784.9	751.4
Total Consumer International	186.7	180.7
Total SPD	73.1	73.9
Total Consolidated Net Sales	\$1,044.7	\$1,006.0

Household Products include laundry, deodorizing, and cleaning products. Personal Care Products include condoms, pregnancy kits, oral care products, skin care and hair care products and gummy dietary supplements.

Consumer Domestic

Consumer Domestic net sales in the first quarter of 2019 were \$784.9, an increase of \$33.5 or 4.5% as compared to the same period in 2018. The components of the net sales change are the following:

	Three Months Ended March 31, 2019	
Net Sales - Consumer Domestic		
Product volumes sold	1.0	%
Pricing/Product mix	3.5	%
Net Sales increase	4.5	%

The increase in net sales for the three months ended March 31, 2019, reflects higher sales of ARM & HAMMER liquid and unit dose laundry detergent, ARM & HAMMER clumping cat litter, TROJAN condoms, XTRA liquid laundry detergent, L'IL CRITTERS gummy vitamins, and BATISTE dry shampoo.

There continues to be significant product competition in the gummy vitamin category. The category has grown from eight competitors to 30 in the last five years. We continue to evaluate and vigorously combat these pressures through, among other things, new product introductions and increased marketing and trade spending. However, there is no assurance this category will not decline in the future and that we will be able to offset any such decline.

Consumer Domestic income before income taxes for the first quarter of 2019 was \$182.7, a \$23.4 increase as compared to the first quarter of 2018. The increase is due primarily to favorable price/mix of \$18.9, lower marketing expenses of \$4.2, lower interest and other expenses of \$3.4, higher sales volumes of \$1.4, lower SG&A costs of \$1.0, partially offset by unfavorable manufacturing and distribution costs of \$5.5.

Consumer International

Consumer International net sales were \$186.7 in the first quarter of 2019, an increase of \$6.0 or 3.3% as compared to the same period in 2018. The components of the net sales change are the following:

	Three Months Ended March 31, 2019	
Net Sales - Consumer International		
Product volumes sold	10.2	%
Pricing/Product mix	(1.7)	%
Foreign exchange rate fluctuations / Other	(5.2)	%
Net Sales increase	3.3	%

Excluding the impact of foreign exchange rates, higher sales in the first quarter ended March 31, 2019 were primarily due to FEMFRESH, BATISTE, STERIMAR, and ARM & HAMMER liquid laundry detergent in the Global Market Group (formerly Export) business, ARM & HAMMER clumping cat litter and liquid laundry detergent in Canada, BATISTE in Germany, and WATERPIK in several countries.

23

Consumer International income before income taxes was \$28.4 in the first quarter 2019, an increase of \$0.7 compared to the same period in 2018 due primarily to higher sales volumes of \$10.5, partially offset by higher costs as a result of the higher marketing expenses of \$3.8, unfavorable manufacturing costs of \$2.6, unfavorable price/mix of \$1.6, unfavorable foreign exchange rates of \$1.5, and higher SG&A costs of \$1.1.

Specialty Products (“SPD”)

SPD net sales were \$73.1 in the first quarter of 2019, a decrease of \$0.8 or 1.1% as compared to the same period in 2018. The components of the net sales change are the following:

	Three Months Ended March 31, 2019	
Net Sales - SPD		
Product volumes sold	(4.5	%)
Pricing/Product mix	0.3	%
Volume from acquired product lines ⁽¹⁾	3.1	%
Net Sales increase	(1.1	%)

⁽¹⁾ Includes net sales of Passport since the date of acquisition.

Excluding the impact of the acquisitions, the net sales decrease in the first quarter of 2019 was driven by lower volumes in the animal and food production business, partially offset by higher broad-based pricing. Demand in the dairy industry is significantly reduced due to low milk prices.

SPD income before income taxes was \$12.3 in the first quarter of 2019, an increase of \$0.7 as compared to the same period in 2018 due to favorable manufacturing costs of \$1.6, favorable price/product mix of \$0.2 and lower marketing costs of \$0.2, partially offset by higher SG&A costs of \$1.1 and lower sales volumes of \$0.4.

Corporate

The Corporate segment includes equity in earnings of affiliates from Armand and ArmaKleen in the first quarter of 2019 and 2018. The Corporate segment income before income taxes was \$1.7 in the first quarter of 2019, as compared to \$2.1 in the same period in 2018.

Liquidity and Capital Resources

On May 1, 2019, we amended our \$1,000.0 unsecured revolving credit facility (the “Credit Agreement”) to extend the term of the Credit Agreement from March 29, 2023 to March 29, 2024. Under the Credit Agreement, we continue to have the ability to increase our borrowing up to an additional \$600.0, subject to lender commitments and certain conditions as described in the Credit Agreement. Borrowings under the Credit Agreement are available for general corporate purposes and are used to support our \$1,000.0 commercial paper program.

On May 1, 2019, we entered into a new \$300.0 unsecured term loan credit facility with various banks, the proceeds of which were used to partially fund the Flawless Acquisition. Unless prepaid, the loan is due on May 1, 2022. The

interest rate is LIBOR plus an applicable margin based on our credit rating, which can range from 60 bps to 113 bps.

As of March 31, 2019, we had \$97.9 in cash and cash equivalents, and approximately \$899.0 available through the revolving facility under our Credit Agreement and our commercial paper program. To preserve our liquidity, we invest cash primarily in government money market funds, prime money market funds, short-term commercial paper and short-term bank deposits.

We repatriate excess cash held at our foreign subsidiaries. We repatriated approximately \$16.0 million during the first quarter of 2019 and anticipate an additional \$20.0 million during the balance of 2019. As of March 31, 2019, there is \$45.0 million of cash and cash equivalents held at foreign subsidiaries.

The current economic environment presents risks that could have adverse consequences for our liquidity. See “Unfavorable economic conditions could adversely affect demand for our products” under “Risk Factors” in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2018 (the “Form 10-K”). We do not anticipate that current economic conditions will adversely affect our ability to comply with the financial covenant in the Credit Agreement because we currently are, and anticipate that we will continue to be, in compliance with the maximum leverage ratio requirement under the Credit Agreement.

On February 5, 2019, the Board declared a 5% increase in the regular quarterly dividend from \$0.2175 to \$0.2275 per share, equivalent to an annual dividend of \$0.91 per share. The increase raises the annual dividend payout from \$213.3 to approximately \$225.0.

In connection with the evergreen repurchase program, in January 2019, we executed open market purchases of \$100.0 of our Common Stock. See Part II – Item 2 of this Form 10Q for further details.

We anticipate that our cash from operations, together with our current borrowing capacity, will be sufficient to meet our capital expenditure program costs, which are expected to be approximately \$85.0 in 2019, fund our share repurchase programs to the extent implemented by management, pay the upcoming maturing notes and pay dividends at the latest approved rate. Cash, together with our current borrowing capacity, may be used for acquisitions that would complement our existing product lines or geographic markets. We did not have any mandatory fixed rate debt principal payments in 2018. We paid the \$300.0 Floating Rate Senior Notes that matured on January 25, 2019 with cash on hand and commercial paper. The \$300.0 Senior Notes (2.45%) will mature on December 15, 2019 and we currently intend to repay these notes with cash on hand and commercial paper borrowing if necessary.

Cash Flow Analysis

	Three Months Ended	
	March 31, 2019	March 31, 2018
Net cash provided by operating activities	\$137.9	\$155.5
Net cash used in investing activities	\$(12.4)	\$(60.0)
Net cash used in financing activities	\$(344.3)	\$(255.6)

Net Cash Provided by Operating Activities – Our primary source of liquidity is the cash flow provided by operating activities, which is dependent on net income and changes in working capital. Our net cash provided by operating activities in the three months ended March 31, 2019 decreased by \$17.6 to \$137.9 as compared to \$155.5 in the same period in 2018 due to higher cash earnings (net income plus non-cash expenses such as depreciation, amortization, and non-cash compensation) more than offset by an increase in working capital. The change in working capital is primarily due to an increase in accounts receivable due to the timing of sales and a decrease in accounts payable and accrued expenses due to higher incentive compensation and profit sharing payments partially offset by our continued program to extend payment terms with our suppliers. However, we measure working capital effectiveness based on our cash conversion cycle. The following table presents our cash conversion cycle information for the quarters ended March 31, 2019 and 2018:

	As of		
	March 31, 2019	March 31, 2018	Change
Days of sales outstanding in accounts receivable ("DSO")	31	31	0
Days of inventory outstanding ("DIO")	61	56	5
Days of accounts payable outstanding ("DPO")	67	65	(2)

Cash conversion cycle 25 22 3

Our cash conversion cycle (defined as the sum of DSO and DIO less DPO) which is calculated using a two period average method, increased three days from the prior year amount of 22 days to 25 days at March 31, 2019 due primarily to an increase in DIO of 5 days. DPO increased two days from 65 to 67 days and DSO remained consistent compared to the same period in 2018. The increase in the cash conversion cycle is primarily due to certain acquisitions, which currently require a higher level of working capital. We continue to focus on reducing our working capital requirements.

Net Cash Used in Investing Activities – Net cash used in investing activities during the first three months of 2019 was \$12.4, primarily reflecting \$11.7 for property, plant and equipment additions. Net cash used in investing activities during the first three months of 2018 was 60.0, primarily reflecting \$49.9 for the Passport Acquisition, and \$9.9 for property, plant and equipment additions.

Net Cash Used in Financing Activities – Net cash used in financing activities during the first three months of 2019 was \$344.3, reflecting \$202.0 of net debt payments, \$100.0 of repurchases of our common stock (“Common Stock”), \$55.9 of cash dividend payments, partially offset by \$15.1 of proceeds from stock option exercises. Net cash used in financing activities during the first three months of 2018 was \$255.6, reflecting \$200.0 of repurchases of our Common Stock, \$53.0 of cash dividend payments, \$17.4 of debt payments, partially offset by \$16.4 of proceeds from stock option exercises.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

General

The Company, in the ordinary course of its business, is subject of, or party to, various pending or threatened legal actions, government investigations and proceedings from time to time, including, without limitation, those relating to commercial transactions, product liability, purported consumer class actions, employment matters, antitrust, environmental, health, safety and other compliance related matters. Such proceedings are subject to many uncertainties and the outcome of certain pending or threatened legal actions may not be reasonably predictable and any related damages may not be estimable. Certain legal actions, including the one described below, could result in an adverse outcome for us, and any such adverse outcome could have a material adverse effect on our business, financial condition, results of operations, and cash flows.

Scantibodies Laboratory, Inc.

The Company has been named as a defendant in a breach of contract action filed by Scantibodies Laboratory, Inc. (the “Plaintiff”) on April 1, 2014, in the U.S. District Court for the Southern District of New York.

The complaint alleges, among other things, that the Company (i) breached two agreements for the manufacture and supply of pregnancy and ovulation test kits by switching suppliers, (ii) failed to give Plaintiff the proper notice, (iii) failed to reimburse Plaintiff for costs and expenses under the agreements and (iv) misrepresented its future requirements. The complaint seeks compensatory and punitive damages in an amount in excess of \$20.0 million, as well as declaratory relief, statutory prejudgment interest and attorneys’ fees and costs.

The Company is vigorously defending itself in this matter. On September 19, 2018, the court granted the Company’s motion for summary judgment, dismissing all claims brought by the Plaintiff. The Plaintiff has filed an appeal.

In connection with this matter, the Company has reserved an amount that is immaterial. However, it is reasonably possible that the Company may ultimately be required to pay all or substantially all of the damages and other amounts sought by Plaintiff in the event the summary judgment entered in favor of the Company is reversed.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Item 1A, "Risk Factors" in the Form 10-K, which could materially affect the Company's business, financial condition or future results.
