

PACWEST BANCORP
Form 10-Q
May 10, 2018

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2018

Commission File No. 001-36408

PACWEST BANCORP

(Exact name of registrant as specified in its charter)

Delaware 33-0885320

(State of Incorporation) (I.R.S. Employer Identification No.)

9701 Wilshire Blvd., Suite 700

Beverly Hills, CA 90212

(Address of Principal Executive Offices, Including Zip Code)

(310) 887-8500

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of May 7, 2018, there were 125,133,358 shares of the registrant's common stock outstanding, excluding 1,381,135 shares of unvested restricted stock.

PART I

Glossary of Acronyms, Abbreviations, and Terms

The acronyms, abbreviations, and terms listed below are used in various sections of this Form 10-Q, including "Item 1. Financial Statements" and "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations."

AFX	American Financial Exchange	FRB	Board of Governors of the Federal Reserve System
ALM	Asset Liability Management	FRBSF	Federal Reserve Bank of San Francisco
ASC	Accounting Standards Codification	IRR	Interest Rate Risk
ASU	Accounting Standards Update	MBS	Mortgage-Backed Securities
Basel III	A comprehensive capital framework and rules for U.S. banking organizations approved by the FRB and the FDIC in 2013.	MVE	Market Value of Equity
BHCA	Bank Holding Company Act of 1956, as amended	NII	Net Interest Income
BOLI	Bank Owned Life Insurance	NIM	Net Interest Margin
CapitalSource Inc.	A company acquired on April 7, 2014	Non-PCI	Non-Purchased Credit Impaired
CapitalSource Division	A division of Pacific Western Bank, formed at the closing of the CapitalSource Inc. merger	NSF	Non-Sufficient Funds
C&I	Commercial and Industrial	OREO	Other Real Estate Owned
CDI	Core Deposit Intangible Assets	PWEF	Pacific Western Equipment Finance, a leasing unit sold March 31, 2016
CET1	Common Equity Tier 1	PCI	Purchased Credit Impaired
CMOs	Collateralized Mortgage Obligations	PRSUs	Performance-Based Restricted Stock Units
CRA	Community Reinvestment Act	S1AM	Square 1 Asset Management, Inc.
CRI	Customer Relationship Intangible Assets	SBA	Small Business Administration
CUB	CU Bancorp (a company acquired on October 20, 2017)	SEC	Securities and Exchange Commission
CU Bank	California United Bank (a wholly-owned subsidiary of CUB)	Square 1	Square 1 Financial, Inc. (a company acquired on October 6, 2015)
DBO	California Department of Business Oversight	Square 1 Bank Division	A division of Pacific Western Bank formed at the closing of the Square 1 acquisition
DTAs	Deferred Tax Assets	Tax Equivalent Net Interest Income	Net interest income adjusted for tax-equivalent adjustments related to tax-exempt interest on certain loans and municipal securities
Dodd-Frank Act	Dodd-Frank Wall Street Reform and Consumer Protection Act	Tax Equivalent NIM	NIM adjusted for tax-equivalent adjustments related to tax-exempt income on certain loans and municipal securities
Efficiency Ratio	Noninterest expense (less intangible asset amortization, net foreclosed assets income/expense, and acquisition, integration and reorganization costs)	TCJA	Tax Cuts and Jobs Act

Edgar Filing: PACWEST BANCORP - Form 10-Q

divided by net revenues (the sum of tax equivalent net interest income plus noninterest income, less gain/loss on sale of securities and gain/loss on sales of assets other than loans and leases)

FASB	Financial Accounting Standards Board	TDRs	Troubled Debt Restructurings
FCAL	First California Financial Group, Inc. (a company acquired on May 31, 2013)	TRSAs	Time-Based Restricted Stock Awards
FDIC	Federal Deposit Insurance Corporation	U.S. GAAP	U.S. Generally Accepted Accounting Principles
FHLB	Federal Home Loan Bank of San Francisco	VIE	Variable Interest Entity

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 1. ORGANIZATION

PacWest Bancorp, a Delaware corporation, is a bank holding company registered under the BHCA, with our corporate headquarters located in Beverly Hills, California. Our principal business is to serve as the holding company for our wholly-owned subsidiary, Pacific Western Bank. References to "Pacific Western" or the "Bank" refer to Pacific Western Bank together with its wholly-owned subsidiaries. References to "we," "us," or the "Company" refer to PacWest Bancorp together with its subsidiaries on a consolidated basis. When we refer to "PacWest" or to the "holding company," we are referring to PacWest Bancorp, the parent company, on a stand-alone basis.

We are focused on relationship-based business banking to small, middle-market and venture-backed businesses nationwide. At March 31, 2018, the Bank offers a broad range of loan and lease and deposit products and services through 75 full-service branches located throughout the State of California, one branch located in Durham, North Carolina, and several loan production offices located in cities across the country. We provide commercial banking services, including real estate, construction, and commercial loans, and comprehensive deposit and treasury management services to small and middle-market businesses. We offer additional products and services through our CapitalSource and Square 1 Bank Divisions. Our CapitalSource Division provides asset-based, equipment, real estate, security cash flow loans and treasury management services to established middle-market businesses on a national basis. Our Square 1 Bank Division offers a comprehensive suite of financial services focused on entrepreneurial businesses and their venture capital and private equity investors, with offices located in key innovation hubs across the United States. In addition, we provide investment advisory and asset management services to select clients through Square 1 Asset Management, Inc., a wholly-owned subsidiary of the Bank and a SEC-registered investment adviser. We generate our revenue primarily from interest received on loans and leases and, to a lesser extent, from interest received on investment securities, and fees received in connection with deposit services, extending credit and other services offered, including foreign exchange services. Our major operating expenses are compensation, occupancy, general operating expenses, and the interest paid by the Bank on deposits and borrowings.

We have completed 29 acquisitions from May 1, 2000 through March 31, 2018. Our acquisitions have been accounted for using the acquisition method of accounting and, accordingly, the operating results of the acquired entities have been included in the consolidated financial statements from their respective acquisition dates. See Note 3.

Acquisitions, for more information about the CUB acquisition.

Significant Accounting Policies

Our accounting policies are described in Note 1. Nature of Operations and Summary of Significant Accounting Policies, of our audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2017 as filed with the Securities and Exchange Commission ("Form 10-K"). Updates to our significant accounting policies described below reflect the impact of the adoption of ASU 2016-01, "Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities" and ASU 2018-03, "Technical Corrections and Improvements to Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities."

Investment Securities

Our significant accounting policy for investment securities applied to both debt and equity securities in prior periods. Effective January 1, 2018, upon the adoption of ASUs 2016-01 and 2018-03, our significant accounting policy for investment securities applies only to debt securities.

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

Equity Investments

Investments in common or preferred stock that are not publicly traded and certain investments in limited partnerships are considered equity investments that do not have a readily determinable fair value. If we have the ability to significantly influence the operating and financial policies of the investee, the investment is accounted for pursuant to the equity method of accounting. This is generally presumed to exist when we own between 20% and 50% of a corporation, or when we own greater than 5% of a limited partnership or similarly structured entity. Our equity investment carrying values are included in other assets and our share of earnings and losses in equity method investees is included in "Noninterest income - other" on the condensed consolidated statements of earnings. Prior to January 1, 2018, if we did not have significant influence over the investee, the cost method was used to account for the equity interest.

Effective January 1, 2018 with the adoption of ASU 2016-01, our accounting treatment for equity investments differs for those with and without readily determinable fair values. Equity investments with readily determinable fair values are recorded at fair value with changes in fair value recorded in "Noninterest income - other." For equity investments without readily determinable fair values we have elected the "measurement alternative," and therefore carry these investments at cost, less impairment (if any), plus or minus changes in observable prices. On a quarterly basis, we review our equity investments without readily determinable fair values for impairment. We consider a number of qualitative factors such as whether there is a significant deterioration in earnings performance, credit rating, asset quality, or business prospects of the investee in determining if impairment exists. If the investment is considered impaired, an impairment loss equal to the amount by which the carrying value exceeds its fair value is recorded through a charge to earnings. The impairment loss may be reversed in a subsequent period if there are observable transactions for the identical or similar investment of the same issuer at a higher amount than the carrying amount that was established when the impairment was recognized.

Realized gains or losses resulting from the sale of equity investments are calculated using the specific identification method and are included in "Noninterest income - other."

Comprehensive Income

Comprehensive income consists of net earnings and net unrealized gains (losses) on debt securities available for sale, net, and is presented in the consolidated statements of comprehensive income.

Accounting Standards Adopted in 2018

Effective January 1, 2018, the Company adopted ASU 2014-09, "Revenue Recognition (Topic 606): Revenue from Contracts with Customers." ASU 2014-09 supersedes Topic 605, "Revenue Recognition" and requires an entity to recognize revenue at an amount that reflects the consideration to which it expects to be entitled to in exchange for the transfer of promised goods or services to customers.

Substantially all of the Company's revenue is interest income on loans, investment securities, and deposits at other financial institutions which are specifically outside the scope of ASU 2014-09. ASU 2014-09 applies primarily to certain noninterest income items in the Company's condensed consolidated statement of earnings. The Company adopted ASU 2014-09 as of January 1, 2018 using the cumulative effect transition method, which resulted in no adjustment to retained earnings and no material impact on the Company's consolidated financial position, results of operations, or cash flows. The Company did make minor changes to accounting operations and internal controls as part of adopting this new standard. See Note 13. Revenue From Contracts With Customers for further details.

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

Effective January 1, 2018, the Company adopted ASU 2016-01, "Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities" and ASU 2018-03, "Technical Corrections and Improvements to Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities." ASU 2016-01 contained a number of changes which are applicable to the Company including the following: (1) requires equity investments to be measured at fair value with changes in fair value recognized in net income; (2) allows equity investments without readily determinable fair values to be measured at cost less impairment, if any, plus or minus changes in observable prices (referred to as the "measurement alternative"); and (3) changes certain presentation and disclosure requirements for financial instruments, including using the exit price notion when measuring the fair value of financial instruments (see Note 11. Fair Value Measurements). ASU 2018-03 also clarified certain aspects of the guidance issued in ASU 2016-01, including requiring a prospective transition approach for equity investments without readily determinable fair value in which the measurement alternative is applied.

ASU 2016-01 does not apply to investments accounted for using the equity method, investments in consolidated subsidiaries, FHLB stock, and investments in low income housing tax credit projects. Upon adoption of ASU 2016-01, the Company recorded a transition adjustment to reclassify \$529,000 in net unrealized gains from accumulated other comprehensive income ("AOCI") to retained earnings. The ASU also eliminated the requirement to classify equity investments into different categories such as "Available-for-Sale." The adoption of this ASU may result in more earnings volatility as changes in fair value of certain equity investments will now be recorded in the statement of earnings as opposed to AOCI.

Effective January 1, 2018, the Company adopted ASU 2016-15, "Classification of Certain Cash Receipts and Cash Payments." Upon adoption, the Company applied the retrospective transition method to each period presented. ASU 2016-15 addressed eight issues related to the statement of cash flows, the most relevant to the Company being the classification of proceeds from the settlement of BOLI policies. As the Company classified proceeds from the settlement of BOLI policies in the manner required by ASU 2016-15 in the prior periods presented, there was no change to the Company's consolidated financial position, results of operations, or cash flows for both current and prior periods upon adoption.

Effective January 1, 2018, the Company adopted ASU 2016-18, "Statement of Cash Flows (Topic 230): Restricted Cash." Upon adoption, the Company applied the retrospective transition method to each period presented. As the Company does not present restricted cash as a separate line in the statement of financial position, there is no change to the presentation of cash on the statement of cash flows. The nature and amount of our restricted cash is shown in Note 2. Restricted Cash Balances.

Effective January 1, 2018, the Company adopted ASU 2017-01, "Business Combinations (Topic 805): Clarifying the Definition of a Business." ASU 2017-01 provides a new framework for determining whether transactions should be accounted for as acquisitions of assets or businesses. The Company had no acquisitions or purchases of components of a business in the first quarter of 2018, thus, the impact of adopting the new standard had no impact on the Company's consolidated financial position, results of operations, or cash flows.

Effective January 1, 2018, the Company adopted ASU 2017-09, "Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting." ASU 2017-09 provided clarification of what constitutes a modification of a share-based payment award. The Company did not modify any share-based payment awards in the first quarter of 2018, thus, the impact of adopting the new standard had no impact on the Company's consolidated financial position, results of operations, or cash flows.

Effective January 1, 2018, the Company early-adopted ASU 2018-02, "Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income." The TCJA required deferred tax assets and liabilities to be re-measured at its enactment date for the effect of the change in the federal corporate tax rate. This process resulted in "stranded tax effects" in AOCI for deferred tax asset or

liabilities which were established with an offsetting amount in AOCI. ASU 2018-02 allows for a reclassification of the stranded tax effects resulting from the enactment of the TCJA from AOCI to retained earnings. The Company elected to reclassify its stranded tax effects of \$6.665 million from AOCI to retained earnings effective January 1, 2018, while no other income tax effects related to the application of the TCJA were reclassified.

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

Basis of Presentation

Our interim condensed consolidated financial statements are prepared in accordance with U.S. GAAP for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Article 10 of Regulation S-X of the Securities Exchange Act of 1934. Accordingly, certain disclosures accompanying annual consolidated financial statements are omitted. In the opinion of management, all significant intercompany accounts and transactions have been eliminated and adjustments, consisting solely of normal recurring accruals and considered necessary for the fair presentation of financial statements for the interim periods, have been included. The current period's results of operations are not necessarily indicative of the results that ultimately may be achieved for the year. The interim condensed consolidated financial statements and notes thereto should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Form 10-K.

Use of Estimates

We have made a number of estimates and assumptions related to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting period to prepare these condensed consolidated financial statements in conformity with U.S. GAAP. Actual results could differ from those estimates. Material estimates subject to change in the near term include, among other items, the allowance for credit losses, the carrying value of intangible assets, the realization of deferred tax assets, and the fair value estimates of assets acquired and liabilities assumed in acquisitions. These estimates may be adjusted as more current information becomes available, and any adjustment may be significant.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current period's presentation format. In our loan and allowance tables, we realigned our commercial loan portfolio classes and subclasses to better reflect and report our lending, especially in light of the fourth quarter of 2017 cash flow loan sale and the exiting of the origination operations related to general, technology, and healthcare cash flow loans. Prior to the realignment, our commercial portfolio classes were: (1) asset-based, (2) venture capital, (3) cash flow, and (4) equipment finance. After the realignment, our commercial portfolio classes are (1) asset-based (which includes equipment finance), (2) venture capital, and (3) other commercial (which includes retained cash flow). All of the loan and allowance tables, both current period and prior periods, reflect this realignment.

In prior periods, our credit quality disclosures were only for Non-PCI loans and leases. As our gross PCI loan portfolio reduced to less than 0.4% of total loans as of the end of 2017, beginning in 2018 the credit quality disclosures reflect our entire loan and lease portfolio. Accordingly, for the credit quality tables in Note 6. Loans and Leases, amounts related to the 2018 period are for total loans and leases, while amounts related to the 2017 period are for Non-PCI loans and leases only.

NOTE 2. RESTRICTED CASH BALANCES

The Company is required to maintain reserve balances with the FRBSF. Such reserve requirements are based on a percentage of deposit liabilities and may be satisfied by cash on hand. The average reserves required to be held at the FRBSF for the three months ended March 31, 2018 and year ended December 31, 2017 were \$80.7 million and \$77.6 million. As of March 31, 2018 and December 31, 2017, we pledged cash collateral for our derivative contracts of \$3.7 million and \$2.7 million.

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 3. ACQUISITIONS

CUB Acquisition

On October 20, 2017, we completed the acquisition of CUB. As part of the acquisition, CU Bank, a wholly-owned subsidiary of CUB, was merged with and into PacWest's wholly-owned banking subsidiary, Pacific Western Bank. We completed the acquisition to, among other things, enhance our Southern California community bank franchise by adding a \$2.1 billion loan portfolio and \$2.7 billion of core deposits. The CUB acquisition has been accounted for under the acquisition method of accounting. We acquired \$3.5 billion of assets and assumed \$2.8 billion of liabilities upon closing of the acquisition. The assets and liabilities, both tangible and intangible, were recorded at their estimated fair values as of the acquisition date.

We made significant estimates and exercised significant judgment in estimating fair values and accounting for such acquired assets and liabilities. Such fair values are preliminary estimates and are subject to adjustment for up to one year after the acquisition date or when additional information relative to the closing date fair values becomes available and such information is considered final, whichever is earlier. The application of the acquisition method of accounting resulted in goodwill of \$374.7 million. All of the recognized goodwill is non-deductible for tax purposes.

NOTE 4. GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill and other intangible assets arise from the acquisition method of accounting for business combinations. Goodwill and other intangible assets generated from business combinations and deemed to have indefinite lives are not subject to amortization and instead are tested for impairment at least annually. Goodwill represents the excess of the purchase price over the fair value of the net assets and other identifiable intangible assets acquired. Impairment exists when the carrying value of the goodwill exceeds its implied fair value. An impairment loss would be recognized in an amount equal to that excess as a charge to "Noninterest expense" in the condensed consolidated statements of earnings.

Our other intangible assets with definite lives include CDI and CRI. CDI and CRI are amortized over their respective estimated useful lives and reviewed for impairment at least quarterly. The amortization expense represents the estimated decline in the value of the underlying deposits or loan and lease customers acquired. The aggregate amortization expense is expected to be \$22.5 million for 2018. The estimated aggregate amortization expense related to these intangible assets for each of the next five years is \$18.7 million for 2019, \$14.6 million for 2020, \$10.8 million for 2021, \$7.5 million for 2022, and \$1.4 million for 2023.

The following table presents the changes in CDI and CRI and the related accumulated amortization for the periods indicated:

	Three Months Ended		
	March 31,	December 31,	March 31,
	2018	2017	2017
	(In thousands)		
Gross Amount of CDI and CRI:			
Balance, beginning of period	\$ 119,497	\$ 61,997	\$ 64,187
Addition from CUB acquisition	—	57,500	—
Balance, end of period	119,497	119,497	64,187
Accumulated Amortization:			
Balance, beginning of period	(39,871)	(34,809)	(27,821)
Amortization	(6,346)	(5,062)	(3,064)
Balance, end of period	(46,217)	(39,871)	(30,885)
Net CDI and CRI, end of period	\$ 73,280	\$ 79,626	\$ 33,302

Equity investments	—	—	—	—	6,421	779	(130)	7,070
Total	\$3,818,709	\$ 28,611	\$(45,334)	\$3,801,986	\$3,721,525	\$ 68,965	\$(16,059)	\$3,774,431

In connection with our adoption of ASU 2016-01 and ASU 2018-03 on January 1, 2018, we reclassified \$7.1 million of equity investments from securities available-for-sale to other assets in the first quarter of 2018. The reclassification was applied prospectively without prior period amounts being restated.

As of March 31, 2018, securities available-for-sale with a fair value of \$433.3 million were pledged as collateral for borrowings, public deposits and other purposes as required by various statutes and agreements.

During the three months ended March 31, 2018, we sold \$299.9 million of securities available-for-sale for a gross realized gain of \$6.8 million and a gross realized loss of \$515,000. During the three months ended March 31, 2017, we sold \$43.1 million of securities available-for-sale for a gross realized gain of \$204,000 and a gross realized loss of \$303,000.

Municipal securities	67,936	(365)	32,326	(974)	100,262	(1,339)
Agency commercial MBS	579,373	(3,777)	129,060	(4,981)	708,433	(8,758)
SBA securities	74,904	(575)	—	—	74,904	(575)
Asset-backed securities	45,198	(818)	10,473	(56)	55,671	(874)
Equity investments	1,039	(130)	—	—	1,039	(130)
Total	\$1,026,780	\$(8,928)	\$223,832	\$(7,131)	\$1,250,612	\$(16,059)

We reviewed the securities that were in an unrealized loss position at March 31, 2018, and concluded their unrealized losses were a result of the level of market interest rates relative to the types of securities and pricing changes caused by shifting supply and demand dynamics and not a result of downgraded credit ratings or other indicators of deterioration of the underlying issuers' ability to repay. Accordingly, we determined the securities were temporarily impaired and we did not recognize such impairment in the condensed consolidated statements of earnings. Although we periodically sell securities for portfolio management purposes, we do not foresee having to sell any temporarily impaired securities strictly for liquidity needs and believe that it is more likely than not we would not be required to sell any temporarily impaired securities before recovery of their amortized cost.

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

Contractual Maturities of Securities Available-for-Sale

The following table presents the contractual maturities of our securities available-for-sale portfolio based on amortized cost and carrying value as of the date indicated:

Maturity	March 31, 2018	
	Amortized Cost	Fair Value
	(In thousands)	
Due in one year or less	\$10,384	\$10,517
Due after one year through five years	486,326	483,913
Due after five years through ten years	1,053,610	1,035,714
Due after ten years	2,268,389	2,271,842
Total securities available-for-sale	\$3,818,709	\$3,801,986

Mortgage-backed securities have contractual terms to maturity, but require periodic payments to reduce principal. In addition, expected maturities may differ from contractual maturities because obligors and/or issuers may have the right to call or prepay obligations with or without call or prepayment penalties.

Interest Income on Investment Securities

The following table presents the composition of our interest income on investment securities for the periods indicated:

	Three Months Ended		
	March 31, 2018	December 31, 2017	March 31, 2017
	(In thousands)		
Taxable interest	\$14,599	\$13,724	\$12,166
Non-taxable interest	11,107	11,429	10,381
Dividend income	432	559	492
Total interest income on investment securities	\$26,138	\$25,712	\$23,039

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 6. LOANS AND LEASES

Our loans are carried at the principal amount outstanding, net of deferred fees and costs, and in the case of acquired loans, net of purchase discounts and premiums. Deferred fees and costs and purchase discounts and premiums on acquired non-impaired loans are recognized as an adjustment to interest income over the contractual life of the loans primarily using the effective interest method or taken into income when the related loans are paid off or included in the carrying amount of loans that are sold.

Prior to January 1, 2018, our loan and lease portfolio consisted of Non-PCI loans and leases and PCI loans. Non-PCI loans and leases were those we originated or those we acquired that were not credit impaired at the dates of acquisition. PCI loans were purchased loans for which there was, at the acquisition date, evidence of credit deterioration since their origination and for which it was probable that collection of all contractually required payments was unlikely. As our gross PCI loan portfolio represented less than 0.4% of total loans as of the end of 2017, beginning in 2018 the PCI loans were accounted for as Non-PCI loans. Accordingly, in the credit quality tables below under "Loans and leases held for investment," amounts related to the 2018 period are for total loans and leases, and amounts related to the 2017 period are for Non-PCI loans and leases.

Loans Held for Sale

In the fourth quarter of 2017, we sold \$1.5 billion of cash flow loans and exited our CapitalSource Division origination operations related to general, technology, and healthcare cash flow loans. As of December 31, 2017, \$1.0 billion of the loans sold had settled, while \$481.1 million were classified as held for sale. In connection with the loan sale and transfer of loans to held for sale, we recognized \$2.2 million in charge-offs during the fourth quarter of 2017 to record the loans at the lower of cost or fair value. The loans held for sale at December 31, 2017 settled in the first quarter of 2018 and we recorded a gain of \$1.3 million.

Loans and Leases Held for Investment

The following table summarizes the composition of our loans and leases held for investment as of the dates indicated:

	March 31, 2018	December 31, 2017		Total
	Total Loans and Leases	Non-PCI Loans and Leases	PCI Loans	Total Loans and Leases

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

It is our policy to discontinue accruing interest when principal or interest payments are past due 90 days or more (unless the loan is both well secured and in the process of collection) or when, in the opinion of management, there is a reasonable doubt as to the collectability of a loan or lease in the normal course of business. Interest income on nonaccrual loans is recognized only to the extent cash is received and the principal balance of the loan is deemed collectable.

The following table presents our nonaccrual and performing loans and leases held for investment, net of deferred fees, by portfolio segment and class as of the dates indicated:

	March 31, 2018			December 31, 2017 ⁽¹⁾

(1) Excludes loans held for sale carried at lower of cost or fair value and PCI loans.

At March 31, 2018, nonaccrual loans and leases totaled \$103.7 million and included \$11.9 million of loans and leases 90 or more days past due, \$8.7 million of loans and leases 30 to 89 days past due, and \$83.1 million of loans and leases current with respect to contractual payments that were placed on nonaccrual status based on management's judgment regarding their collectability. Nonaccrual loans and leases totaled \$155.8 million at December 31, 2017, including \$14.2 million of the loans and leases 90 or more days past due, \$3.2 million of loans and leases 30 to 89 days past due, and \$138.4 million of current loans and leases that were placed on nonaccrual status based on management's judgment regarding their collectability.

As of March 31, 2018, our ten largest loan relationships on nonaccrual status had an aggregate carrying value of \$68.8 million and represented 66.3% of total nonaccrual loans and leases.

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

In addition to our internal risk rating process, our federal and state banking regulators, as an integral part of their examination process, periodically review the Company's loan and lease risk rating classifications. Our regulators may require the Company to recognize rating downgrades based on their judgments related to information available to them at the time of their examinations. Risk rating downgrades generally result in increases in the provisions for credit losses and the allowance for credit losses.

Nonaccrual loans and leases and performing troubled debt restructured loans are considered impaired for reporting purposes. Troubled debt restructurings are a result of rate reductions, term extensions, fee concessions, and debt forgiveness, or a combination thereof.

The following table presents the composition of our impaired loans and leases held for investment, net of deferred fees, by portfolio segment as of the dates indicated:

NOTE 7. FORECLOSED ASSETS

The following table summarizes foreclosed assets as of the dates indicated:

Property Type	March	December
	31, 2018	31, 2017
	(In thousands)	
Construction and land development	\$219	\$ 219
Commercial real estate	64	64
Single family residence	953	1,019
Total other real estate owned, net	1,236	1,302
Other foreclosed assets	—	27
Total foreclosed assets, net	\$1,236	\$ 1,329

The following table presents the changes in foreclosed assets, net of the valuation allowance, for the period indicated:

	Foreclosed Assets (In thousands)
Balance, December 31, 2017	\$ 1,329
Provision for losses	(65)
Reductions related to sales	(28)
Balance, March 31, 2018	\$ 1,236

NOTE 8. OTHER ASSETS

The following table presents the detail of our other assets as of the dates indicated:

Other Assets	March	December
	31, 2018	31, 2017
	(In thousands)	
Cash surrender value of BOLI	\$195,163	\$193,917
Interest receivable	78,822	82,935
Taxes receivable	64,739	98,998
CRA investments	53,838	49,432
Low income housing tax credit ("LIHTC") investments	43,793	39,235
Equity investments without readily determinable fair values	15,642	14,856
Equity investments with readily determinable fair values	5,028	—
Other assets	54,159	61,350
Total other assets	\$511,184	\$540,723

The Company has purchased life insurance policies on certain employees and has also acquired life insurance policies through acquisitions. BOLI is recorded at the amount that can be realized under the insurance contract, which is the cash surrender value. The increase in the cash surrender value each period is recorded to "Noninterest income - other." The Company makes various investments for CRA investment purposes including, but not limited to, CRA-related loan pool investments, CRA-related equity investments and investments in LIHTC partnerships. The loan pool and other CRA equity investments primarily consist of investments in partnerships which provide affordable housing and participations in loan pools which provide low-cost loans to low and moderate income applicants.

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

The Company invests as a limited partner in LIHTC partnerships that operate qualified affordable housing projects and generate tax benefits for investors, including federal low income housing tax credits. The partnerships are deemed to be VIEs because they do not have sufficient equity investment at risk and are structured with non-substantive voting rights. We are not the primary beneficiary of the VIEs and do not consolidate them. As a practical expedient, we amortize the investment in proportion to the allocated tax benefits using the proportional amortization method of accounting and record such benefits net of investment amortization in income tax expense.

Our equity investments without readily determinable fair values include investments in privately held companies and limited partnerships as well as investments in entities from which we issued trust preferred securities. On January 1, 2018, we adopted ASU 2016-01 and ASU 2018-03 which changed the way we account for equity investments without readily determinable fair values previously accounted for using the cost method. Upon adoption, we have elected to measure our equity investments without readily determinable fair values using the measurement alternative. The Company reclassified \$1.2 million of equity securities without readily determinable fair values previously included in securities available-for-sale to other assets on our condensed consolidated balance sheet in the first quarter of 2018. The reclassification was applied prospectively without prior period amounts being restated. Carrying values of these investments are adjusted to fair value upon observable transactions for identical or similar investments of the same issuer. We did not identify any observable transactions for our equity investments without readily determinable fair values during the three months ended March 31, 2018 that would require us to adjust the carrying value of these investments held as of March 31, 2018. Beginning January 1, 2018, unrealized and realized gains and losses on equity investments without readily determinable fair values are recorded in "Noninterest income - other."

Our equity investments with readily determinable fair values include investments in public companies and publicly-traded mutual funds. The Company reclassified \$5.9 million of equity securities with readily determinable fair values previously included in securities available-for-sale to other assets on our condensed consolidated balance sheet in the first quarter of 2018. The reclassification was applied prospectively without prior period amounts being restated. Beginning January 1, 2018, unrealized and realized gains and losses on equity investments with readily determinable fair values are recorded in "Noninterest income - other."

The remaining other assets balance of \$54.2 million at March 31, 2018 consists of, among other things, prepaid expenses, other receivables, equity warrants, and derivative assets.

NOTE 9. BORROWINGS AND SUBORDINATED DEBENTURES

Borrowings

The following table summarizes our borrowings as of the dates indicated:

	March 31, 2018		December 31, 2017	
	Amount	Weighted Average Rate	Amount	Weighted Average Rate
	(Dollars in thousands)			
Non recourse debt	\$284	6.94 %	\$342	6.87 %
FHLB secured advances	340,000	1.87 %	332,000	1.41 %
FHLB unsecured overnight advance	135,000	1.85 %	135,000	1.34 %
AFX borrowings	100,000	1.82 %	—	— %
Total borrowings	\$575,284		\$467,342	

The non recourse debt represents the payment stream of certain equipment leases sold to third parties. The debt is secured by the leased equipment and all interest rates are fixed. As of March 31, 2018, this debt had a weighted average remaining maturity of 1.7 years.

The Bank has established secured and unsecured lines of credit under which it may borrow funds from time to time on a term or overnight basis from the FHLB, the FRBSF, and other financial institutions.

FHLB Secured Line of Credit. The Bank had secured financing capacity with the FHLB as of March 31, 2018 of \$3.9 billion, collateralized by a blanket lien on \$5.7 billion of certain qualifying loans. As of March 31, 2018, the balance outstanding was a \$340.0 million overnight advance. As of December 31, 2017, the balance outstanding was a \$332.0 million overnight advance.

FRBSF Secured Line of Credit. The Bank has a secured line of credit with the FRBSF. As of March 31, 2018, the Bank had secured borrowing capacity of \$1.7 billion collateralized by liens covering \$2.1 billion of certain qualifying loans. As of March 31, 2018 and December 31, 2017, there were no balances outstanding.

FHLB Unsecured Line of Credit. The Bank has a \$135.0 million unsecured line of credit with the FHLB for the purchase of overnight funds, of which \$135.0 million was outstanding at March 31, 2018. At December 31, 2017, the balance outstanding was \$135.0 million.

Federal Funds Arrangements with Commercial Banks. As of March 31, 2018, the Bank had unsecured lines of credit of \$75.0 million with correspondent banks for the purchase of overnight funds, subject to availability of funds. These lines are renewable annually and have no unused commitment fees. As of March 31, 2018 and December 31, 2017, there were no balances outstanding. The Bank is a member of the AFX, through which it may either borrow or lend funds on an overnight or short-term basis with a group of pre-approved commercial banks. The availability of funds changes daily. As of March 31, 2018 the balance outstanding was \$100.0 million in overnight borrowings. As of December 31, 2017, there were no balances outstanding.

(1) Denomination is in Euros with a value of €25.8 million.

(2) Acquired in the CUB acquisition on October 20, 2017 and redeemed in the first quarter of 2018.

(3) Amount represents the fair value adjustment on trust preferred securities assumed in acquisitions.

Interest payments made by the Company on subordinated debentures are considered dividend payments under FRB regulations. Bank holding companies, such as PacWest, are required to notify the FRB prior to declaring and paying a dividend during any period in which quarterly and/or cumulative twelve month net earnings are insufficient to fund the dividend amount, among other requirements.

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 10. COMMITMENTS AND CONTINGENCIES

Lending Commitments

The Company is a party to financial instruments with off balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. Those instruments involve, to varying degrees, elements of credit risk in excess of the amount recognized in the condensed consolidated balance sheets. The contract or notional amounts of those instruments reflect the extent of involvement the Company has in particular classes of financial instruments.

The following table presents a summary of the financial instruments described above as of the dates indicated:

	March 31, 2018	December 31, 2017
	(In thousands)	
Loan commitments to extend credit	\$6,352,803	\$6,234,061
Standby letters of credit	337,678	320,063
Total	\$6,690,481	\$6,554,124

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The increase in loan commitments to extend credit is primarily a result of the continued growth of our construction and venture capital portfolios.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. We provide standby letters of credit in conjunction with several of our lending arrangements and property lease obligations. Most guarantees expire within one year from the date of issuance. If a borrower defaults on its commitments subject to any letter of credit issued under these arrangements, we would be required to meet the borrower's financial obligation but would seek repayment of that financial obligation from the borrower. In some cases, borrowers have pledged cash and investment securities as collateral with us under these arrangements. In addition, the Company invests in low income housing project partnerships, which provide income tax credits, and in small business investment companies that call for capital contributions up to an amount specified in the partnership agreements. As of March 31, 2018 and December 31, 2017, we had commitments to contribute capital to these entities totaling \$79.4 million and \$62.6 million. We also had commitments to contribute up to an additional \$2.5 million to private equity funds at March 31, 2018 and December 31, 2017.

Legal Matters

In the ordinary course of our business, the Company is party to various legal actions, which we believe are incidental to the operation of our business. The outcome of such legal actions and the timing of ultimate resolution are inherently difficult to predict. In the opinion of management, based upon currently available information, any resulting liability, in addition to amounts already accrued, and taking into consideration insurance which may be applicable, would not have a material adverse effect on the Company's financial statements or operations.

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 11. FAIR VALUE MEASUREMENTS

ASC Topic 820, "Fair Value Measurement," defines fair value, establishes a framework for measuring fair value including a three level valuation hierarchy, and expands disclosures about fair value measurements. Fair value is defined as the exchange price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date reflecting assumptions that a market participant would use when pricing an asset or liability. The hierarchy uses three levels of inputs to measure the fair value of assets and liabilities as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2: Observable inputs other than Level 1, including quoted prices for similar assets and liabilities in active markets, quoted prices in less active markets, or other observable inputs that can be corroborated by observable market data, either directly or indirectly, for substantially the full term of the financial instrument. This category generally includes municipal securities, agency residential and commercial MBS, collateralized loan obligations, registered publicly rated private label CMOs, and asset-backed securitizations.

Level 3: Inputs to a valuation methodology that are unobservable, supported by little or no market activity, and significant to the fair value measurement. These valuation methodologies generally include pricing models, discounted cash flow models, or a determination of fair value that requires significant management judgment or estimation. This category also includes observable inputs from a pricing service not corroborated by observable market data, and includes our non-rated private label CMOs, non-rated private label asset-backed securities, and equity warrants.

The Company uses fair value to measure certain assets and liabilities on a recurring basis, primarily securities available for sale and derivatives. For assets measured at the lower of cost or fair value, the fair value measurement criteria may or may not be met during a reporting period and such measurements are therefore considered "nonrecurring" for purposes of disclosing our fair value measurements. Fair value is used on a nonrecurring basis to adjust carrying values for impaired loans and other real estate owned and also to record impairment on certain assets, such as goodwill, CDI, and other long lived assets.

The following tables present information on the assets and liabilities measured and recorded at fair value on a recurring basis as of the dates indicated:

Measured on a Recurring Basis	Fair Value Measurements as of March 31, 2018			
	Total	Level 1	Level 2	Level 3

	Fair Value (In thousands)	Valuation Technique			
Impaired loans	\$32,638	Discounted cash flows	Discount rates	2.00% - 10.20%	7.33%
Impaired loans	11,791	Third party appraisals	No discounts		
Total non-recurring Level 3	\$44,429				

ASC Topic 825, "Financial Instruments," (as amended by ASU 2016-01 and ASU 2018-03) requires disclosure of the estimated fair value of certain financial instruments and the methods and significant assumptions used to estimate such fair values. Additionally, certain financial instruments and all nonfinancial instruments are excluded from the applicable disclosure requirements.

On January 1, 2018, we adopted ASU 2016-01 and ASU 2018-03 which requires the use of the exit price notion when measuring the fair values of financial instruments for disclosure purposes. Starting in the first quarter of 2018, we updated our methodology used to estimate fair values for our loan portfolios to conform to the new requirements.

Notes to Condensed Consolidated Financial Statements (Unaudited)

For information regarding the valuation methodologies used to measure our assets recorded at fair value (under ASC Topic 820), and for estimating fair value for financial instruments not recorded at fair value (under ASC Topic 825, as amended by ASU 2016-01 and ASU 2018-03), see Note 1. Nature of Operations and Summary of Significant Accounting Policies, and Note 12. Fair Value Measurements, to the Consolidated Financial Statements of the Company's 2017 Annual Report on Form 10-K.

Limitations

Fair value estimates are made at a specific point in time and are based on relevant market information and information about the financial instrument. These estimates do not reflect income taxes or any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. Because no market exists for a portion of the Company's financial instruments, fair value estimates are based on what management believes to be reasonable judgments regarding expected future cash flows, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimated fair values are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates. Since the fair values have been estimated as of March 31, 2018, the amounts that will actually be realized or paid at settlement or maturity of the instruments could be significantly different.

NOTE 12. EARNINGS PER SHARE

The following table presents the computations of basic and diluted net earnings per share for the periods indicated:

	Three Months Ended		
	March 31, 2018	December 31, 2017	March 31, 2017
	(Dollars in thousands, except per share data)		
Basic Earnings Per Share:			
Net earnings	\$118,276	\$84,037	\$78,668
Less: Earnings allocated to unvested restricted stock ⁽¹⁾	(1,115)	(951)	(999)
Net earnings allocated to common shares	\$117,161	\$83,086	\$77,669
Weighted-average basic shares and unvested restricted stock outstanding	127,487	127,971	121,346
Less: Weighted-average unvested restricted stock outstanding	(1,413)	(1,440)	(1,503)
Weighted-average basic shares outstanding	126,074	126,531	119,843
Basic earnings per share	\$0.93	\$0.66	\$0.65
Diluted Earnings Per Share:			
Net earnings allocated to common shares	\$117,161	\$83,086	\$77,669
Weighted-average basic shares outstanding	126,074	126,531	119,843
Diluted earnings per share	\$0.93	\$0.66	\$0.65

(1)

Represents cash dividends paid to holders of unvested restricted stock, net of forfeitures, plus undistributed earnings amounts available to holders of unvested restricted stock, if any.

NOTE 13. REVENUE FROM CONTRACTS WITH CUSTOMERS

The Company adopted Topic 606 Revenue from Contracts with Customers effective as of January 1, 2018 and has applied the guidance to all contracts within the scope of Topic 606 as of that date. Revenue from contracts with customers in the scope of Topic 606 is measured based on the consideration specified in the contract with a customer, and excludes amounts collected on behalf of third parties. The Company recognizes revenue from contracts with customers when it satisfies its performance obligations. The Company's performance obligations are typically satisfied as services are rendered and payment is generally collected at the time services are rendered, or on a monthly, quarterly or annual basis. The Company had no material unsatisfied performance obligations as of March 31, 2018. In certain cases, other parties are involved with providing products and services to our customers. If the Company is a principal in the transaction (providing goods or services itself), revenues are reported based on the gross consideration received from the customer and any related expenses are reported gross in noninterest expense. If the Company is an agent in the transaction (arranging for another party to provide goods or services), the Company reports its net fee or commission retained as revenue. Rebates, waivers, and reversals are recorded as a reduction of revenue either when the revenue is recognized by the Company or at the time the rebate, waiver, or reversal is earned by the customer. The Company has elected the following practical expedients: (1) we do not disclose information about remaining performance obligations that have original expected durations of one year or less; and (2) we do not adjust the consideration from customers for the effects of a significant financing component if at contract inception the period between when the Company transfers the goods or services and when the customer pays for that good or service will be one year or less.

Nature of Goods and Services

Substantially all of the Company's revenue, such as interest income on loans, investment securities, and interest-earning deposits in financial institutions, is specifically out-of-scope of Topic 606. For the revenue that is in-scope, the following is a description of principal activities, separated by the timing of revenue recognition, from which the Company generates its revenue from contracts with customers:

Revenue earned at a point in time. Examples of revenue earned at a point in time are ATM transaction fees, wire transfer fees, NSF fees, and credit and debit card interchange fees. Revenue is generally derived from transactional information accumulated by our systems and is recognized as revenue immediately as the transactions occur or upon providing the service to complete the customer's transaction. The Company is the principal in each of these contracts with the exception of credit and debit card interchange fees, in which case the Company is acting as the agent and records revenue net of expenses paid to the principal.

Revenue earned over time. The Company earns certain revenue from contracts with customers monthly. Examples of this type of revenue are deposit account service fees, investment management fees, merchant referral services, MasterCard marketing incentives and safe deposit box fees. Account service charges, management fees and referral fees are recognized on a monthly basis while any transaction-based revenue is recorded as the activity occurs. Revenue is primarily based on the number and type of transactions and is generally derived from transactional information accumulated by our systems. Revenue is recorded in the same period as the related transactions occur or services are rendered to the customer.

Notes to Condensed Consolidated Financial Statements (Unaudited)

Disaggregation of Revenue

The following table presents interest income and noninterest income, the components of total revenue, as disclosed in the condensed consolidated statements of earnings and the related amounts which are from contracts with customers within the scope of Topic 606. As illustrated here, substantially all of our revenue is specifically excluded from the scope of Topic 606.

	Three Months Ended March 31, 2018	
	Total	Revenue from Contracts With Customers
	(In thousands)	
Total interest income	\$277,775	\$ —
Noninterest income:		
Service charges on deposit accounts	4,174	4,174
Other commissions and fees	10,265	4,651
Leased equipment income	9,587	—
Gain on sale of loans	4,569	—
Gain on sale of securities	6,311	—
Other income	3,653	461
Total noninterest income	38,559	9,286
Total revenue	\$316,334	\$ 9,286

The following table presents revenue from contracts with customers based on the timing of revenue recognition for the period indicated:

	Three Months Ended March 31, 2018 (In thousands)
Products and services transferred at a point in time	\$ 4,661
Products and services transferred over time	4,625
Total revenue from contracts with customers	\$ 9,286

Contract Balances

The following table provides information about receivables, contract assets and contract liabilities from contracts with customers:

	March 31, 2018 (In thousands)
Receivables, which are included in "Other assets"	\$ 1,438
Contract assets, which are included in "Other assets"	\$ —
Contract liabilities, which are included in "Interest payable and other liabilities"	\$ 719

Contract liabilities relate to advance consideration received from customers for which revenue is recognized over the life of the contract. The change in contract liabilities for the three months ended March 31, 2018 due to revenue recognized that was included in the contract liability balance at the beginning of the period was \$33,000.

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 14. STOCK-BASED COMPENSATION

The Company's 2017 Stock Incentive Plan, or the 2017 Plan, permits stock-based compensation awards to officers, directors, employees, and consultants. As of March 31, 2018, the 2017 Plan authorized grants of stock based compensation instruments to purchase or issue up to 4,000,000 shares of Company common stock. As of March 31, 2018, there were 3,537,972 shares available for grant under the 2017 Plan. Though frozen for new issuances, certain awards issued under the 2003 Stock Incentive Plan, or the 2003 Plan, remain outstanding.

Restricted Stock

Restricted stock amortization totaled \$7.2 million, \$5.4 million, and \$6.5 million for the three months ended March 31, 2018, December 31, 2017 and March 31, 2017. Such amounts are included in "Compensation expense" on the condensed consolidated statements of earnings. The amount of unrecognized compensation expense related to unvested TRSAs and PRSUs as of March 31, 2018 totaled \$52.1 million.

Time-Based Restricted Stock Awards

At March 31, 2018, there were 1,383,914 shares of unvested TRSAs outstanding pursuant to the Company's 2003 and 2017 Stock Incentive Plans (the "Plans"). The TRSAs generally vest ratably over a service period of three or four years from the date of the grant or immediately upon death of an employee. Compensation expense related to TRSAs is based on the fair value of the underlying stock on the award date and is recognized over the vesting period using the straight line method.

Performance-Based Restricted Stock Units

At March 31, 2018, there were 325,741 unvested PRSUs granted. The PRSUs will vest only if performance goals with respect to certain financial metrics are met over a three-year performance period. The PRSUs are not considered issued and outstanding under either the 2017 Plan or the 2003 Plan until they vest. PRSUs are granted and initially expensed based on a target number. The number of shares that will ultimately vest based on actual performance will range from zero to a maximum of either 150% or 200% of target. Compensation expense related to PRSUs is based on the fair value of the underlying stock on the award date and is amortized over the vesting period using the straight-line method unless it is determined that: (1) attainment of the financial metrics is less than probable, in which case a portion of the amortization is suspended, or (2) attainment of the financial metrics is improbable, in which case a portion of the previously recognized amortization is reversed and also suspended. If it is determined that attainment of a financial measure higher than target is probable, the amortization will increase to up to 150% or 200% of the target amortization amount. Annual PRSU expense may vary during the three-year performance period based upon changes in management's estimate of the number of shares that may ultimately vest. In the case where the performance target for the PRSU is based on a market condition (such as total shareholder return), the amortization is neither reversed nor suspended if it is subsequently determined that the attainment of the performance target is less than probable or improbable.

NOTE 15. RECENTLY ISSUED ACCOUNTING STANDARDS

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)," which, among other things, requires lessees to recognize most leases on-balance sheet, which will result in an increase in their reported assets and liabilities. Lessor accounting remains substantially similar to current U.S. GAAP. ASU 2016-02 supersedes Topic 840, Leases, and is effective for annual and interim periods in fiscal years beginning after December 15, 2018. There have been further amendments, including practical expedients, with the issuance of ASU 2018-01, "Leases (Topic 842): Land Easement Practical Expedient for Transition to Topic 842" in January 2018. The FASB has also approved an optional transition method when adopting Topic 842, which would allow companies to elect not to adjust their comparative period financial information, and effectively apply the requirements of the new standard prospectively. The Company will adopt the standard effective January 1, 2019. The Company has reviewed its current lessee portfolio and is assessing the impact of the new standard on its financial statements, related disclosures, systems, and internal controls. The accounting changes are expected to relate primarily to its leased branches and office space which are currently accounted for as operating leases. The Company is on track with its implementation plan which includes a new software solution and procedures. The Company has not yet determined the quantitative effect ASU 2016-02 will have on its consolidated financial position and results of operations. For information on the Company's future minimum lease payments refer to Note 8. Premises and Equipment, Net in our Annual Report on Form 10-K for the year ended December 31, 2017.

In June 2016, the FASB issued ASU 2016-13, "Measurement of Credit Losses on Financial Instruments," which significantly changes the way entities recognize credit losses and impairment of financial assets recorded at amortized cost. Currently, the credit loss and impairment model for loans and leases is based on incurred losses, and investments are recognized as impaired when there is no longer an assumption that future cash flows will be collected in full under the originally contracted terms. Under the new current expected credit loss ("CECL") model, the standard requires immediate recognition of estimated credit losses expected to occur over the remaining life of the asset. The forward-looking concept of CECL to estimate future credit losses will broaden the range of data to consider including, but not limited to, past and current events and conditions along with reasonable and supportable forecasts that affect expected collectability. The new standard will also add new disclosure requirements.

The Company has established a multidisciplinary project team, developed an implementation plan, selected a software solution, completed the readiness assessment, and is engaged in the implementation phase of the project. The Company, with the assistance of a third party adviser, is working on: (1) developing a new expected loss model with supportable assumptions, (2) identifying data, reporting, and disclosure gaps, (3) assessing updates to accounting policies, and (4) documenting new processes and controls. ASU 2016-13 is effective for interim and annual periods in fiscal years beginning after December 15, 2019, with earlier adoption permitted. The Company plans to adopt this standard on January 1, 2020. Entities are required to use a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is adopted (modified-retrospective approach). A prospective transition approach is required for debt securities for which an other-than-temporary impairment had been recognized before the adoption date. The new standard will be significant to the policies, processes, and methodology used to determine credit losses, however the Company has not yet determined the quantitative effect ASU 2016-13 will have on its consolidated financial position and results of operations.

In January 2017, the FASB issued ASU 2017-04, "Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment," which intends to simplify goodwill impairment testing by eliminating the second step of the analysis under which the implied fair value of goodwill is determined as if the reporting unit were being acquired in a business combination. ASU 2017-04 instead requires entities to compare the fair value of a reporting unit with its carrying amount and recognize an impairment charge for any amount by which the carrying amount exceeds the reporting unit's fair value, to the extent that the loss recognized does not exceed the amount of goodwill allocated to that reporting unit. ASU 2017-04 must be applied prospectively and is effective for the Company on January 1, 2020.

Early adoption is permitted. The Company does not expect ASU 2017-04 to have a material impact on its consolidated financial position or results of operations.

Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 16. SUBSEQUENT EVENTS

Common Stock Dividends

On April 24, 2018, the Company announced that the Board of Directors had declared a quarterly cash dividend of \$0.60 per common share. The cash dividend is payable on May 31, 2018 to stockholders of record at the close of business on May 21, 2018.

The Company has evaluated events that have occurred subsequent to March 31, 2018 and have concluded there are no other subsequent events that would require recognition in the accompanying consolidated financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Information

This Form 10-Q contains certain “forward-looking statements” about the Company and its subsidiaries within the meaning of the Private Securities Litigation Reform Act of 1995, including certain plans, strategies, goals, and projections and including statements about our expectations regarding our capital management, including reducing excess capital, intentions to expand the Bank’s lending business; net interest income, net interest margin, allowance for loan and lease losses, deposit growth, loan and lease portfolio growth and production, liquidity, profitability, goodwill and intangible assets, interest rate risk management, and effective tax rates. All statements contained in this Form 10-Q that are not clearly historical in nature are forward-looking, and the words “anticipate,” “assume,” “intend,” “believe,” “forecast,” “expect,” “estimate,” “plan,” “continue,” “will,” “should,” “look forward” and similar expressions are generally intended to identify forward-looking statements. All forward-looking statements (including statements regarding future financial and operating results and future transactions and their results) involve risks, uncertainties and contingencies, many of which are beyond our control, which may cause actual results, performance, or achievements to differ materially from anticipated results, performance or achievements. Actual results could differ materially from those contained or implied by such forward-looking statements for a variety of factors, including without limitation:

- our ability to complete future acquisitions and to successfully integrate such acquired entities or achieve expected benefits, synergies and/or operating efficiencies within expected time frames or at all;
- our ability to compete effectively against other financial service providers in our markets;
- the effect of the current low interest rate environment or impact of changes in interest rates or levels of market activity, especially on the fair value of our loan and investment portfolios;
 - deterioration, weaker than expected improvement, a continued sluggish recovery, or other changes in the state of the economy or the markets in which we conduct business (including the levels of initial public offerings and mergers and acquisitions), which may affect the ability of borrowers to repay their loans and the value of real property or other property held as collateral for such loans;
 - changes in credit quality and the effect of credit quality on our provision for credit losses and allowance for loan and lease losses;
- our ability to attract deposits and other sources of funding or liquidity;
- the need to retain capital for strategic or regulatory reasons;
- the impact of the Dodd-Frank Act on our business, business strategies and cost of operations;
- compression of the net interest margin due to changes in the interest rate environment, forward yield curves, loan products offered, spreads on newly originated loans and leases and/or asset mix;
- reduced demand for our services due to strategic or regulatory reasons;
- our ability to successfully execute on initiatives relating to enhancements of our technology infrastructure, including client-facing systems and applications;
- legislative or regulatory requirements or changes, including an increase to capital requirements, and increased political and regulatory uncertainty;
- the impact on our reputation and business from our interactions with business partners, counterparties, service providers and other third parties;
- higher than anticipated increases in operating expenses;
- lower than expected dividends paid from the Bank to the holding company;
- a deterioration in the overall macroeconomic conditions or the state of the banking industry that could warrant further analysis of the carrying value of goodwill and could result in an adjustment to its carrying value resulting in a non-cash charge;
- the effectiveness of our risk management framework and quantitative models;
- the costs and effects of legal, compliance, and regulatory actions, changes and developments, including the impact of adverse judgments or settlements in litigation, the initiation and resolution of regulatory or other governmental inquiries or investigations, and/or the results of regulatory examinations or reviews;

the impact on the value of our DTAs and on our net income or regulatory capital if corporate tax rates in the U.S. are reduced, or if other changes are made to tax laws or regulations affecting our business, including the disallowance of tax benefits by tax authorities and/or changes in tax filing jurisdictions or entity classifications; and our success at managing risks involved in the foregoing items and all other risk factors described in our audited consolidated financial statements, and other risk factors described in this Form 10-Q and other documents filed or furnished by PacWest with the SEC.

All forward-looking statements included in this Form 10-Q are based on information available at the time the statement is made. We are under no obligation to (and expressly disclaim any such obligation to) update or alter our forward-looking statements, whether as a result of new information, future events or otherwise except as required by law.

Overview

PacWest Bancorp is a bank holding company registered under the BHCA. Our principal business is to serve as the holding company for our Beverly Hills based wholly-owned banking subsidiary, Pacific Western Bank. References to “Pacific Western” or the “Bank” refer to Pacific Western Bank together with its wholly-owned subsidiaries. References to “we,” “us,” or the “Company” refer to PacWest Bancorp together with its subsidiaries on a consolidated basis. When we refer to “PacWest” or to the “holding company,” we are referring to PacWest Bancorp, the parent company, on a stand-alone basis.

The Bank is focused on relationship-based business banking to small, middle-market and venture-backed businesses nationwide. At March 31, 2018, the Bank offers a broad range of loan and lease and deposit products and services through 75 full-service branches located throughout the state of California, one branch located in Durham, North Carolina, and several loan production offices located in cities across the country. We provide commercial banking services, including real estate, construction, and commercial loans, and comprehensive deposit and treasury management services to small and middle-market businesses. We offer additional products and services through our CapitalSource and Square 1 Bank Divisions. Our CapitalSource Division provides asset-based, equipment, real estate, security cash flow loans and treasury management services to established middle market businesses on a national basis. Our Square 1 Bank Division offers a comprehensive suite of financial services focused on entrepreneurial businesses and their venture capital and private equity investors, with offices located in key innovation hubs across the United States. In addition, we provide investment advisory and asset management services to select clients through Square 1 Asset Management, Inc., a wholly-owned subsidiary of the Bank and a SEC-registered investment adviser. In managing the top line of our business, we focus on loan growth, loan yield, deposit cost, and net interest margin. Net interest income, for the first quarter of 2018, accounted for 86.9% of our net revenue (net interest income plus noninterest income).

At March 31, 2018, we had total assets of \$24.1 billion, including \$16.5 billion of total loans and leases, net of deferred fees, and \$3.8 billion of securities available-for-sale, compared to \$25.0 billion of total assets, including \$17.5 billion of total loans and leases, net of deferred fees, and \$3.8 billion of securities available-for-sale at December 31, 2017. The \$845.5 million decrease in total assets during the three months ended March 31, 2018 was due primarily to a \$998.6 million decrease in loans and leases, offset partially by a \$149.4 million increase in cash and cash equivalents. The decrease in loans and leases was driven mostly by payoffs and paydowns of \$1.9 billion and settlement of the loans held for sale at December 31, 2017, offset partially by new production of \$788.5 million and disbursements of \$747.4 million.

At March 31, 2018, we had total liabilities of \$19.3 billion, including total deposits of \$18.1 billion and borrowings of \$575.3 million, compared to \$20.0 billion of total liabilities, including \$18.9 billion of total deposits and \$467.3 million of borrowings at December 31, 2017. The \$735.4 million decrease in total liabilities since year-end was due mainly to a \$275.5 million decrease in core deposits, a \$277.8 million decrease in non-core non-maturity deposits, and a \$233.5 million decrease in time deposits, offset partially by a \$107.9 million increase in borrowings, primarily short-term FHLB advances. At March 31, 2018, core deposits totaled \$15.7 billion, or 87% of total deposits, and time deposits totaled \$1.8 billion, or 10% of total deposits.

Recent Events

CUB Acquisition

On October 20, 2017, PacWest completed the acquisition of CUB in a transaction valued at \$670.6 million. As part of the acquisition, CU Bank, a wholly-owned subsidiary of CUB, was merged with and into PacWest's wholly-owned banking subsidiary, Pacific Western Bank.

CU Bank was a commercial bank headquartered in Los Angeles, California with nine branches located in Los Angeles, Orange, Ventura and San Bernardino counties. We completed the acquisition to, among other things, enhance our Southern California community bank franchise by adding a \$2.1 billion loan portfolio and \$2.7 billion of core deposits.

We recorded the acquired assets and liabilities, both tangible and intangible, at their estimated fair values as of the acquisition date which increased total assets by \$3.5 billion. The application of the acquisition method of accounting resulted in goodwill of \$374.7 million.

Loan Sales and Loans Held for Sale

In the fourth quarter of 2017, we sold \$1.5 billion of cash flow loans and exited our CapitalSource Division origination operations related to general, technology, and healthcare cash flow loans. As of December 31, 2017, \$1.0 billion of the loans sold had settled, while \$481.1 million were classified as held for sale. In connection with the loan sale and transfer of loans to held for sale, we recognized \$2.2 million in charge-offs during the fourth quarter of 2017 to record the loans at the lower of cost or fair value. The loans held for sale at December 31, 2017 settled in the first quarter of 2018 and we recorded a gain of \$1.3 million.

Federal Tax Reform

The TCJA was signed into law on December 22, 2017 and represents the first major overhaul of the United States federal income tax system in more than 30 years. The TCJA reduced the federal corporate tax rate from 35% to 21% effective January 1, 2018. Other changes affecting us include immediate deductions for certain new investments instead of deductions for bonus depreciation expense over time, modification of the deduction for performance-based executive compensation and limiting the amount of FDIC insurance assessments that are deductible. We currently estimate that our 2018 effective tax rate will be approximately 28%.

Stock Repurchase Program

Our Stock Repurchase Program was initially authorized by PacWest's Board of Directors in October 2016 pursuant to which the Company could, until December 31, 2017, purchase shares of its common stock for an aggregate purchase price not to exceed \$400 million. In November 2017, PacWest's Board of Directors amended the Stock Repurchase Program to reduce the authorized purchase amount to \$150 million and extend the maturity date to December 31, 2018. On February 14, 2018, PacWest's Board of Directors amended the Stock Repurchase Program to increase the authorized purchase amount to \$350 million and extend the maturity date to February 28, 2019.

The amount and exact timing of any repurchases will depend upon market conditions and other factors. The Stock Repurchase Program may be suspended or discontinued at any time. During the first quarter of 2018, the Company repurchased 2,285,855 shares of common stock for a total amount of \$119.8 million. All shares repurchased under the Stock Repurchase Program were retired upon settlement. At March 31, 2018, the remaining amount that could be used to repurchase shares under the Stock Repurchase Program was \$296.7 million.

Key Performance Indicators

Among other factors, our operating results generally depend on the following key performance indicators:

The Level of Net Interest Income

Net interest income is the excess of interest earned on our interest earning assets over the interest paid on our interest bearing liabilities. Net interest margin is net interest income (annualized if related to a quarterly period) expressed as a percentage of average interest earning assets. Tax equivalent net interest income is net interest income increased by an adjustment for tax-exempt interest on certain loans and municipal securities based on a 21% federal statutory tax rate for 2018 and a 35% federal statutory tax rate for prior periods. Tax equivalent net interest margin is calculated as tax equivalent net interest income divided by average interest-earning assets.

Our primary interest earning assets are loans and investment securities, and our primary interest bearing liabilities are deposits. Contributing to our high net interest margin is our high yield on loans and leases and competitive cost of deposits. While our deposit balances will fluctuate depending on deposit holders' perceptions of alternative yields available in the market, we seek to minimize the impact of these variances by attracting a high percentage of noninterest bearing deposits.

Loan and Lease Growth

We actively seek new lending opportunities under an array of commercial real estate loans and C&I lending products. Our targeted collateral for our real estate loan offerings includes multi-family properties, industrial properties, office properties, hospitality properties, and retail properties. Our C&I loan products include equipment-secured loans and leases, asset-secured loans, loans to finance companies, cash flow loans primarily to security monitoring companies, and venture capital loans to either venture capital firms directly for working capital or to venture capital-backed companies to support operations. Our loan origination process emphasizes credit quality. We have a number of large credit relationships and individual commitments. Our commitment sizes vary by loan product and can reach up to \$150 million for certain asset-based lending arrangements and select real estate loans. We price loans to preserve our interest spread and maintain our net interest margin. Achieving net loan growth is subject to many factors, including maintaining strict credit standards, competition from other lenders, and borrowers that opt to prepay loans.

The Magnitude of Credit Losses

We emphasize credit quality in originating and monitoring our loans and leases, and we measure our success by the levels of our classified and nonperforming assets and net charge offs. We maintain an allowance for credit losses on loans and leases, which is the sum of our allowance for loan and lease losses and our reserve for unfunded loan commitments. Provisions for credit losses are charged to operations as and when needed for both on and off balance sheet credit exposure. Loans and leases which are deemed uncollectable are charged off and deducted from the allowance for loan and lease losses. Recoveries on loans and leases previously charged off are added to the allowance for loan and lease losses. The provision for credit losses on the loan and lease portfolio is based on our allowance methodology which considers various credit performance measures such as historical and current net charge offs, the levels and trends of classified loans and leases, the migration of loans and leases into various risk classifications, and the overall level of outstanding loans and leases. For originated and acquired non impaired loans, a provision for credit losses may be recorded to reflect credit deterioration after the origination date or after the acquisition date, respectively.

We regularly review our loans and leases to determine whether there has been any deterioration in credit quality resulting from borrower operations or changes in collateral value or other factors which may affect collectability of our loans and leases. Changes in economic conditions, such as the rate of economic growth, the unemployment rate, rate of inflation, increases in the general level of interest rates, declines in real estate values, changes in commodity prices, and adverse conditions in borrowers' businesses, could negatively impact our borrowers and cause us to adversely classify loans and leases. An increase in classified loans and leases generally results in increased provisions for credit losses and an increased allowance for credit losses. Any deterioration in the commercial real estate market may lead to increased provisions for credit losses because our loans are concentrated in commercial real estate loans.

The Level of Noninterest Expense

Our noninterest expense includes fixed and controllable overhead, the major components of which are compensation, occupancy, data processing, and other professional services. It also includes costs that tend to vary based on the volume of activity, such as loan and lease production and the number and complexity of foreclosed assets. We measure success in controlling both fixed and variable costs through monitoring of the efficiency ratio. We calculate the efficiency ratio by dividing noninterest expense (less intangible asset amortization, net foreclosed assets expense (income), and acquisition, integration and reorganization costs) by net revenues (the sum of tax equivalent net interest income plus noninterest income, less gain (loss) on sale of securities and gain (loss) on sales of assets other than loans and leases).

The following table presents the calculation of our efficiency ratio for the periods indicated:

	Three Months Ended		
	March 31, 2018	December 31, 2017	March 31, 2017
Efficiency Ratio			
	(Dollars in thousands)		
Noninterest expense	\$ 127,395	\$ 142,868	\$ 116,544
Less: Intangible asset amortization	6,346	5,062	3,064
Foreclosed assets (income) expense, net	(122)	(475)	143
Acquisition, integration and reorganization costs	—	16,085	500
Noninterest expense used for efficiency ratio	\$ 121,171	\$ 122,196	\$ 112,837
Net interest income (tax equivalent)	\$ 258,472	\$ 268,230	\$ 237,235
Noninterest income	38,559	26,795	35,114
Net revenues	297,031	295,025	272,349
Less: Gain (loss) on sale of securities	6,311	(3,329)	(99)
Net revenues used for efficiency ratio	\$ 290,720	\$ 298,354	\$ 272,448
Efficiency ratio	41.7	% 41.0	% 41.4

Critical Accounting Policies

The Company's accounting policies are fundamental to understanding management's discussion and analysis of results of operations and financial condition. We identify critical policies as those that require management to make particularly difficult, subjective, and/or complex judgments about matters that are inherently uncertain and because of the likelihood that materially different amounts would be reported under different conditions or using different assumptions. These policies relate to the allowance for credit losses on loans and leases held for investment, accounting for business combinations, and the realization of deferred income tax assets and liabilities. For further information, refer to our Annual Report on Form 10-K for the year ended December 31, 2017.

Non-GAAP Measurements

We use certain non GAAP financial measures to provide meaningful supplemental information regarding the Company's operational performance and to enhance investors' overall understanding of such financial performance. The methodology for determining these non-GAAP measures may differ among companies. We used the following non-GAAP measures in this Form 10-Q:

Return on average tangible equity, tangible common equity ratio, and tangible book value per share: Given that the use of these measures is prevalent among banking regulators, investors and analysts, we disclose them in addition to the related GAAP measures of return on average equity, equity to assets ratio, and book value per share, respectively. The reconciliations of these non-GAAP measurements to the GAAP measurements are presented in the following tables for and as of the periods presented.

	Three Months Ended			
	March 31, 2018	December 31, 2017	March 31, 2017	
Return on Average Tangible Equity				
	(Dollars in thousands)

First Quarter of 2018 Compared to Fourth Quarter of 2017

Net earnings for the first quarter of 2018 were \$118.3 million, or \$0.93 per diluted share, compared to net earnings for the fourth quarter of 2017 of \$84.0 million, or \$0.66 per diluted share. The \$34.2 million increase in net earnings was due mainly to lower noninterest expense of \$15.5 million, higher noninterest income of \$11.8 million, lower income tax expense of \$11.1 million, and a lower provision for credit losses of \$2.4 million, offset partially by lower net interest income of \$6.5 million. The decrease in noninterest expense was due to lower acquisition, integration and reorganization costs of \$16.1 million related to the CUB acquisition completed in the fourth quarter of 2017. The increase in noninterest income was due mainly to a higher gain on sale of securities of \$9.6 million. In the first quarter of 2018, we sold certain securities for a net gain of \$6.3 million, whereas in the fourth quarter of 2017, we made a tax-related decision to sell certain securities resulting in a net loss of \$3.3 million. The decrease in income tax expense was due primarily to the TCJA which reduced our effective tax rate to 27.7% in the first quarter of 2018 from 40.2% in the fourth quarter of 2017. Net interest income declined by \$6.5 million due mostly to two fewer days in the current quarter and a lower average loan and lease balance, offset partially by a higher yield on average loans and leases.

First Quarter of 2018 Compared to First Quarter of 2017

Net earnings for the first quarter of 2018 were \$118.3 million, or \$0.93 per diluted share, compared to net earnings for the first quarter of 2017 of \$78.7 million, or \$0.65 per diluted share. The \$39.6 million increase in net earnings was due mainly to higher net interest income of \$24.0 million, a lower provision for credit losses of \$20.7 million and higher noninterest income of \$3.4 million, offset partially by higher noninterest expense of \$10.9 million. The increase in net interest income was due mainly to a higher average interest-earning assets balance and a higher yield on average loans and leases, offset by a lower yield on average investment securities and higher interest expense. The provision for credit losses was lower in the first quarter of 2018 due to higher recoveries and the first quarter of 2017 included higher specific provisions for impaired loans. The increase in noninterest income was due mostly to a higher gain on sale of securities of \$6.4 million. The increase in noninterest expense was due mostly to (1) higher compensation expense of \$6.1 million related to inclusion of the CUB operations since its October 2017 acquisition, and (2) higher intangible asset amortization of \$3.3 million due to the intangible assets related to the CUB acquisition.

Net Interest Income

Net interest income is affected by changes in both interest rates and the volume of average interest earning assets and interest bearing liabilities. The following table summarizes the distribution of average assets, liabilities and stockholders' equity, as well as interest income and yields earned on average interest earning assets and interest expense and rates paid on average interest bearing liabilities, presented on a tax equivalent basis, for the periods indicated:

	Three Months Ended

(1)

Includes nonaccrual loans and leases and loan fees. Starting with the third quarter of 2017, includes tax-equivalent adjustments related to tax-exempt interest on loans.

(2) Includes discount accretion on acquired loans of \$7.6 million, \$6.8 million, and \$6.4 million for the three months ended March 31, 2018, December 31, 2017, and March 31, 2017, respectively.

(3) Includes tax-equivalent adjustments of \$1.8 million, \$5.0 million, and \$4.8 million for the three months ended March 31, 2018, December 31, 2017, and March 31, 2017, respectively, related to tax-exempt interest on municipal securities. The federal statutory tax rate utilized was 21% for the 2018 period and 35% for the 2017 periods.

(4) Tax equivalent.

(5) Total deposits is the sum of total interest-bearing deposits and noninterest-bearing demand deposits. The cost of total deposits is calculated as annualized interest expense on deposits divided by average total deposits.

(6) Funding sources is the sum of total interest-bearing liabilities and noninterest-bearing demand deposits. The cost of funding sources is calculated as annualized total interest expense divided by average funding sources.

First Quarter of 2018 Compared to Fourth Quarter of 2017

Net interest income decreased by \$6.5 million to \$256.5 million for the first quarter of 2018 compared to \$263.0 million for the fourth quarter of 2017 due mainly to two fewer days in the first quarter and a lower average loan and lease balance, offset partially by a higher yield on average loans and leases. The loan and lease yield for the first quarter of 2018 was 6.11% compared to 5.89% for the fourth quarter of 2017. The increase in the loan and lease yield was principally due to the repricing of variable-rate loans, higher fee income, and higher recapture of nonaccrual interest.

The tax equivalent NIM for the first quarter of 2018 was 5.11% compared to 4.97% for the fourth quarter of 2017. The increase in the tax equivalent NIM was due mainly to the higher loan and lease yield resulting from the repricing of variable-rate loans and higher loan fee income, which was offset partially by a decrease of six basis points resulting from a smaller tax equivalent adjustment due to the lower statutory federal tax rate. The taxable equivalent adjustment for tax-exempt interest income on municipal securities contributed four points to the tax equivalent NIM for the first quarter of 2018 and nine basis points for the fourth quarter of 2017.

The cost of average total deposits increased to 0.31% in the first quarter of 2018 from 0.30% in the fourth quarter of 2017.

First Quarter of 2018 Compared to First Quarter of 2017

Net interest income increased by \$24.0 million to \$256.5 million for the first quarter of 2018 compared to \$232.5 million for the first quarter of 2017 due mainly to a higher average interest-earning assets balance and a higher yield on average loans and leases, offset partially by a lower yield on average investment securities and higher interest expense. The loan and lease yield for the first quarter of 2018 was 6.11% compared to 5.94% for the same quarter of 2017. The increase in the loan and lease yield was due mainly to repricing of variable-rate loans attributable to the increase in market rates during the first quarter of 2018 and three increases in market interest rates during 2017.

The tax equivalent NIM for the first quarter of 2018 was 5.11% compared to 5.16% for the same quarter last year. The decrease in the tax equivalent NIM was due mostly to a higher cost of average interest-bearing liabilities, a lower yield on average investments securities, and a decrease of six basis points resulting from a smaller tax equivalent adjustment due to the lower statutory federal tax rate, offset partially by the increase in the yield on average loans and leases as described above. Tax-exempt interest income on municipal securities contributed four basis points to the tax equivalent NIM for the first quarter of 2018 and 10 basis points for the first quarter of 2017.

The cost of average total deposits increased to 0.31% for the first quarter of 2018 from 0.21% for the first quarter of 2017 due mainly to higher costs of non-core non-maturity deposits and brokered time deposits.

Provision for Credit Losses

The following table sets forth the details of the provision for credit losses on loans and leases held for investment and information regarding Non-PCI credit quality metrics for the periods indicated:

	Three Months Ended			
	March 31, 2018	December 31, 2017	March 31, 2017	
	(Dollars in thousands)			
Provision For Credit Losses:				
Addition to (reduction in) allowance for loan and lease losses	\$(226)	\$2,906	\$24,488	
Addition to reserve for unfunded loan commitments	4,226	3,500	240	
Total provision for credit losses	\$4,000	\$6,406	\$24,728	
Credit Quality Metrics ⁽¹⁾ :				
Net charge offs on loans and leases held for investment	\$4,955	\$22,758	\$18,189	
Annualized net charge offs to average loans and leases	0.12	% 0.52	% 0.49	%
At period end:				
Nonaccrual loans and leases held for investment ⁽²⁾	\$103,725	\$155,784	\$173,030	
Performing troubled debt restructured loans held for investment	60,173	56,838	56,947	
Total impaired loans and leases	\$163,898	\$212,622	\$229,977	
Classified loans and leases ⁽²⁾	\$208,042	\$278,405	\$424,399	
Allowance for credit losses	\$167,136	\$161,647	\$167,589	
Allowance for credit losses to loans and leases held for investment	1.02	% 0.96	% 1.08	%
Allowance for credit losses to nonaccrual loans and leases held for investment	161.1	% 103.8	% 96.9	%

(1) Amounts and ratios related to March 31, 2018 are for total loans and leases. Amounts and ratios related to 2017 periods are for Non-PCI loans and leases.

(2) Excludes loans held for sale carried at lower of cost or fair value at December 31, 2017.

Provisions for credit losses are charged to earnings for both on and off balance sheet credit exposures. We have a provision for credit losses on our loans and leases held for investment that is based on our allowance methodology and is an expense that, in our judgment, is required to maintain an adequate allowance for credit losses.

The allowance for loan and lease losses has a general reserve component for loans and leases with no credit impairment and a specific reserve component for loans and leases determined to be impaired. Our allowance methodology for the general reserve component includes both quantitative and qualitative loss factors that are applied against the population of unimpaired loans and leases. The quantitative loss factors are the average charge-offs experienced over a prescribed historical look-back period pooled both by loan or lease type and credit risk rating; loans with more adverse credit risk ratings have higher quantitative loss factors. The qualitative loss factors consider, among other things, current economic trends and forecasts, current collateral values and performance trends, and the loan portfolio's current composition and credit performance trends.

We recorded a provision for credit losses of \$4.0 million in the first quarter of 2018, \$6.4 million in the fourth quarter of 2018, and \$24.7 million in the first quarter of 2017. The decrease in the provision for credit losses for the first quarter of 2018 was due mainly to lower period-end loan and lease balances and recoveries of \$7.2 million.

Net charge-offs on loans and leases held for investment of \$5.0 million for the first quarter of 2018 were comprised of \$12.2 million in charge-offs net of \$7.2 million in recoveries. Charge-offs included \$6.9 million for other commercial loans, \$2.5 million for commercial real estate mortgage loans, and \$2.3 million for venture capital loans. Recoveries included \$4.6 million for venture capital loans.

Net charge-offs on loans and leases held for investment of \$22.8 million for the fourth quarter of 2017 were comprised of \$24.3 million in charge-offs net of \$1.6 million in recoveries. Charge-offs included \$20.1 million for venture capital loans and \$3.6 million for other commercial loans.

Net charge-offs on loans and leases held for investment of \$18.2 million for the first quarter of 2017 were comprised of \$20.9 million in charge-offs net of \$2.7 million in recoveries. Charge-offs included \$13.5 million for other commercial loans and \$5.8 million for venture capital loans. Recoveries included \$2.0 million for asset-based loans. Certain circumstances may lead to increased provisions for credit losses in the future. Examples of such circumstances are an increased amount of classified and/or impaired loans and leases, net loan and lease and unfunded commitment growth, and changes in economic conditions. Changes in economic conditions include the rate of economic growth, the unemployment rate, the rate of inflation, increases in the general level of interest rates, declines in real estate values, and adverse conditions in borrowers' businesses. See further discussion in "- Balance Sheet Analysis - Allowance for Credit Losses on Loans and Leases Held for Investment" contained herein.

Noninterest Income

The following table summarizes noninterest income by category for the periods indicated:

	Three Months Ended		
	March 31, 2018	December 31, 2017	March 31, 2017
Noninterest Income			
	(In thousands)		
Service charges on deposit accounts	\$4,174	\$4,574	\$3,758
Other commissions and fees	10,265	10,505	10,390
Leased equipment income	9,587	8,258	9,475
Gain on sale of loans and leases	4,569	1,988	712
Gain (loss) on sale of securities	6,311	(3,329)	(99)
Other income:			
Dividends and realized gains on equity investments	251	342	1,345
Warrant income	248	831	155
Other	3,154	3,626	9,378
Total noninterest income	\$38,559	\$26,795	\$35,114

First Quarter of 2018 Compared to Fourth Quarter of 2017

Noninterest income increased by \$11.8 million to \$38.6 million for the first quarter of 2018 compared to \$26.8 million for the fourth quarter of 2017 due mainly to a higher gain on sale of securities of \$9.6 million and a higher gain on sale of loans of \$2.6 million. During the first quarter of 2018, we sold \$299.9 million of securities for a gain of \$6.3 million. These securities were sold primarily for reinvestment in higher quality liquid assets, yield, and credit risk purposes. During the fourth quarter of 2017, we made a tax-related decision to sell \$172.6 million of securities and recognized a loss of \$3.3 million to take advantage of the higher statutory federal tax rate in 2017. In addition, the gain on sale of loans increased by \$2.6 million to \$4.6 million for the first quarter of 2018 from \$2.0 million for the fourth quarter of 2017. The first quarter of 2018 includes a \$2.4 million gain resulting from the sale of our largest nonaccrual loan above our carrying value and \$1.3 million related to the settlement of our December 31, 2017 loans held for sale of \$481.1 million.

First Quarter of 2018 Compared to First Quarter of 2017

Noninterest income increased by \$3.4 million to \$38.6 million for the first quarter of 2018 compared to \$35.1 million for the first quarter of 2017 due mostly to a higher gain on sale of securities of \$6.4 million and a higher gain on sale of loans of \$3.9 million, offset partially by lower other income of \$6.2 million attributable mainly to a \$5.0 million legal settlement with a former borrower received in the first quarter of 2017.

Noninterest Expense

The following table summarizes noninterest expense by category for the periods indicated:

	Three Months Ended		
	March 31, 2018	December 31, 2017	March 31, 2017
Noninterest Expense			
	(In thousands)		
Compensation	\$71,023	\$71,986	\$64,880
Occupancy	13,223	12,715	11,608
Data processing	6,659	6,764	7,015
Other professional services	4,439	5,786	3,378
Insurance and assessments	5,727	5,384	4,791
Intangible asset amortization	6,346	5,062	3,064
Leased equipment depreciation	5,375	5,048	5,625
Foreclosed assets expense (income), net	(122)	(475)	143
Acquisition, integration and reorganization costs	—	16,085	500
Loan expense	2,271	3,140	3,387
Other	12,454	11,373	12,153
Total noninterest expense	\$127,395	\$142,868	\$116,544

First Quarter of 2018 Compared to Fourth Quarter of 2017

Noninterest expense decreased by \$15.5 million to \$127.4 million for the first quarter of 2018 compared to \$142.9 million for the fourth quarter of 2017 due mostly to a decrease in acquisition, integration and reorganization costs of \$16.1 million related to the CUB acquisition. Other professional services decreased by \$1.3 million due mostly to lower legal fees and internal audit costs. Compensation expense decreased by \$1.0 million as the fourth quarter of 2017 included a charge of \$2.9 million for separation costs in connection with exiting the origination operations related to general, technology, and healthcare cash flow loans, offset partially by an increase in stock compensation expense and a seasonal increase in payroll tax expense. Intangible asset amortization increased by \$1.3 million as a result of a full quarter of expense for the intangible assets related to the CUB acquisition. Other expense increased by \$1.1 million due primarily to an increase in CRA-related and corporate donations.

First Quarter of 2018 Compared to First Quarter of 2017

Noninterest expense increased by \$10.9 million to \$127.4 million for the first quarter of 2018 compared to \$116.5 million for the first quarter of 2017 due mostly to higher compensation expense of \$6.1 million related to inclusion of the CUB operations since its October 2017 acquisition. Intangible asset amortization increased by \$3.3 million due to the intangible assets related to the CUB acquisition.

Income Taxes

The effective tax rate for the first quarter of 2018 was 27.7% compared to 40.2% for the fourth quarter of 2017 and 37.7% for the first quarter of 2017. The effective tax rate for the first quarter of 2018 was lower due to the enactment of the TCJA, which reduced the federal statutory corporate tax rate to 21% in the first quarter of 2018 from 35% in the fourth quarter of 2017. The Company recorded the effects of the TCJA in its financial statements as of December 31, 2017. There were no changes recorded in the first quarter of 2018 and the Company considers its accounting for the effects of the TCJA to be materially complete. However, the legislation remains subject to potential amendments, technical corrections and further guidance at both the federal and state levels. The Company's blended statutory tax rate for federal and state is 28.7%. The estimated effective tax rate for the full year 2018 is approximately 28%.

Balance Sheet Analysis

Securities Available-for-Sale

The following table presents the composition and durations of our securities available-for-sale as of the dates indicated:

Security Type	March 31, 2018			December 31, 2017		
	Fair Value	% of Total	Duration (in years)	Fair Value	% of Total	Duration (in years)
(Dollars in thousands)

(1) Excludes loans held for sale carried at lower of cost or fair value at December 31, 2017.

Our real estate portfolio exposes us to risk elements associated with mortgage loans on commercial property. For commercial real estate loans, the respective primary and secondary sources of loan repayments are the net operating incomes of the properties and the proceeds from the sales or refinancings of the properties. As such, our commercial real estate borrowers generally are required to refinance the loans with us or another lender or sell the properties to

repay our loans.

60

The following table presents the geographic composition of our real estate loans held for investment by the top 10 states and all other states combined (in the order presented for the current quarter-end) as of the dates indicated:

Real Estate Loans by State	March 31, 2018		December 31, 2017

The following table presents a roll forward of the loan and lease portfolio held for investment for the periods indicated:

Loans and Leases Held for Investment Roll Forward ⁽¹⁾	Three Months Ended	
	March 31, 2018	
(Dollars in thousands)		
Balance, beginning of period	\$ 16,972,743	
New production	788,477	
Existing loans and leases:		
Payoffs	(974,532)	
Paydowns	(936,002)	
Disbursements	747,376	
Sales ⁽²⁾	(130,624)	
Charge-offs	(12,153)	
Balance, end of period	\$ 16,455,285	
Weighted average rate on new production ⁽³⁾	5.28	%

(1) Includes direct financing leases but excludes equipment leased to others under operating leases.

(2) Sales for the three months ended March 31, 2018 exclude loans held for sale of \$481.1 million at December 31, 2017.

(3) The weighted average rate on new production presents contractual rates and does not include amortized fees. Amortized fees added approximately 32 basis points to loan yields in the first quarter of 2018.

Allowance for Credit Losses on Loans and Leases Held for Investment

The allowance for credit losses on loans and leases held for investment is the combination of the allowance for loan and lease losses and the reserve for unfunded loan commitments. The allowance for loan and lease losses is reported as a reduction of outstanding loan and lease balances and the reserve for unfunded loan commitments is included within "Accrued interest payable and other liabilities" on the condensed consolidated balance sheets. For loans and leases acquired and measured at fair value and deemed non-impaired on the acquisition date, our allowance methodology measures deterioration in credit quality or other inherent risks related to these acquired assets that may occur after the acquisition date.

The allowance for credit losses is maintained at a level deemed appropriate by management to adequately provide for known and inherent risks in the loan and lease portfolio and other extensions of credit at the balance sheet date. The allowance is based upon our review of the credit quality of the loan and lease portfolio, which includes loan and lease payment trends, borrowers' compliance with loan agreements, borrowers' current and budgeted financial performance, collateral valuation trends, and current economic factors and external conditions that may affect our borrowers' ability to make payments to us in accordance with contractual terms. Loans and leases that are deemed to be uncollectable are charged off and deducted from the allowance. The provision for loan and lease losses and recoveries on loans and leases previously charged off are added to the allowance.

The allowance for loan and lease losses has a general reserve component for loans and leases with no credit impairment and a specific reserve component for loans and leases determined to be impaired.

A loan or lease is considered impaired when it is probable that we will be unable to collect all amounts due according to the original contractual terms of the agreement. We assess our loans and leases for impairment on an ongoing basis using certain criteria such as payment performance, borrower reported financial results and budgets, and other external factors when appropriate. We measure impairment of a loan or lease based upon the fair value of the underlying collateral if the loan or lease is collateral-dependent or the present value of cash flows, discounted at the effective interest rate, if the loan or lease is not collateral-dependent. To the extent a loan or lease balance exceeds the estimated collectable value, a specific reserve or charge-off is recorded depending upon either the certainty of the estimate of loss or the fair value of the loan's collateral if the loan is collateral-dependent. Smaller balance loans (under \$250,000), with a few exceptions for certain loan types, are generally not individually assessed for impairment but are evaluated collectively.

Our allowance methodology for the general reserve component includes both quantitative and qualitative loss factors which are applied to our population of unimpaired loans and leases to estimate our general reserves. The quantitative loss factors are the average charge-offs experienced over a prescribed historical look-back period on loans and leases pooled both by loan or lease type and credit risk rating; loans with more adverse credit risk ratings have higher quantitative loss factors. The qualitative loss factors consider, among other things, current economic trends and forecasts, current collateral values and performance trends, and the loan portfolio's current composition and credit performance trends.

The qualitative criteria we consider when establishing the loss factors include the following:

- current economic trends and forecasts;
- current collateral values, performance trends, and overall outlook in the markets where we lend;
- legal and regulatory matters that could impact our borrowers' ability to repay our loans and leases;
- loan and lease portfolio composition and any loan concentrations;
- current lending policies and the effects of any new policies or policy amendments;
- loan and lease production volume and mix;
- loan and lease portfolio credit performance trends;
- results of our independent credit review; and
- changes in management related to credit administration functions.

We estimate the reserve for unfunded commitments using the same loss factors as used for the allowance for loan and lease losses. The reserve for unfunded commitments is computed using expected future usage of the unfunded commitments based on historical usage of unfunded commitments for the various loan types.

The allowance for credit losses is directly correlated to the credit risk ratings of our loans. To ensure the accuracy of our credit risk ratings, an independent credit review function assesses the appropriateness of the credit risk ratings assigned to loans on a regular basis. The credit risk ratings assigned to every loan and lease are either "pass," "special mention," "substandard," or "doubtful" and defined as follows:

• **Pass:** Loans and leases classified as "pass" are not adversely classified and collection and repayment in full are expected.

• **Special Mention:** Loans and leases classified as "special mention" have a potential weakness that requires management's attention. If not addressed, these potential weaknesses may result in further deterioration in the borrower's ability to repay the loan or lease.

• **Substandard:** Loans and leases classified as "substandard" have a well-defined weakness or weaknesses that jeopardize the collection of the debt. They are characterized by the possibility that we will sustain some loss if the weaknesses are not corrected.

• **Doubtful:** Loans and leases classified as "doubtful" have all the weaknesses of those classified as "substandard," with the additional trait that the weaknesses make collection or repayment in full highly questionable and improbable. In addition, we may refer to the loans and leases with assigned credit risk ratings of "substandard" and "doubtful" together as "classified" loans and leases. For further information on classified loans and leases, see Note 6. Loans and Leases, of the Notes to Condensed Consolidated Financial Statements (Unaudited) contained in "Item 1. Condensed Consolidated Financial Statements (Unaudited)."

Management believes the allowance for credit losses is appropriate for the known and inherent risks in our loan and lease portfolio and the credit risk ratings and inherent loss rates currently assigned are appropriate. It is possible that others, given the same information, may at any point in time reach different conclusions that could result in a significant impact to the Company's financial statements. In addition, current credit risk ratings are subject to change as we continue to monitor our loans and leases. To the extent we experience, for example, increased levels of borrower loan defaults, borrowers' noncompliance with our loan agreements, adverse changes in collateral values, or changes in economic and business conditions that adversely affect our borrowers, our classified loans and leases may increase. Higher levels of classified loans and leases generally result in increased provisions for credit losses and an increased allowance for credit losses. Although we have established an allowance for credit losses that we consider appropriate, there can be no assurance that the established allowance will be sufficient to absorb future losses. The following table presents information regarding the allowance for credit losses on loans and leases held for investment as of the dates indicated:

	March 31, 2018	December 31, 2017	March 31, 2017

Consumer	31	398	99
Total charge-offs	\$12,153	\$ 24,335	\$20,928

(1) Charge-offs related to March 31, 2018 are for total loans and leases. Charge-offs related to 2017 periods are for Non-PCI loans and leases.

Charge-offs in the venture capital portfolio were significantly lower in the first quarter of 2018. We experienced elevated charge-offs in our venture capital portfolio in 2017 compared to prior periods. However, there were no specific circumstances, trends or common characteristics that led to the increase as charge-offs in the venture capital portfolio are driven by individual loan circumstances and borrower-specific events. In 2017, the venture capital charge-offs primarily related to borrower-specific events such as the loss of a major license, the technology becoming obsolete, a failed market strategy, or discontinued support from venture capital sponsors.

The following table presents recoveries by portfolio segment, class, and subclass for the periods indicated:

Allowance for Credit Losses Recoveries	Three Months Ended

Classified loans and leases held for investment to loans and leases held for investment ⁽²⁾	1.26	% 1.65	% 2.75	%

(1) Excludes loans held for sale carried at lower of cost or fair value at December 31, 2017.

(2) Amounts and ratios related to March 31, 2018 are for total loans and leases. Amounts and ratios related to 2017 periods are for Non-PCI loans and leases.

Nonperforming assets include nonaccrual loans and leases held for investment and foreclosed assets and totaled \$105.5 million at March 31, 2018 compared to \$158.9 million at December 31, 2017. The ratio of nonperforming assets to loans and leases held for investment and foreclosed assets decreased to 0.64% at March 31, 2018 from 0.93% at December 31, 2017. During the first quarter of 2018, classified loans and leases held for investment decreased by \$70.4 million to \$208.0 million due primarily to the sale of our largest nonaccrual loan, a \$44.6 million healthcare real estate loan, the sale of a \$9.8 million cash flow loan, and an \$18.2 million net decrease in classified venture capital loans.

Nonaccrual Loans and Leases Held for Investment

During the first quarter of 2018, nonaccrual loan and leases held for investment decreased by \$53.8 million to \$103.7 million at March 31, 2018 due mainly to the sale of our largest nonaccrual loan, a \$44.6 million healthcare real estate loan, \$11.7 million in charge-offs, and \$22.8 million in principal payments and other reductions, offset by nonaccrual additions of 25.3 million. As of March 31, 2018, the Company's ten largest loan relationships on nonaccrual status had an aggregate carrying value of \$68.8 million and represented 66.3% of total nonaccrual loans and leases.

The following table presents our nonaccrual loans and leases held for investment and accruing loans and leases past due between 30 and 89 days by portfolio segment and class as of the dates indicated:

	Nonaccrual Loans and Leases (1)			Accruing and 30 - 89 Days Past Due (1)	
	March 31, 2018	December 31, 2017		March 31, 2018	December 31, 2017

Total held for investment ⁽²⁾	\$103,725	0.6 %	\$155,784	0.9 %	\$28,481 \$45,245

(1) Amounts and ratios related to March 31, 2018 are for total loans and leases. Amounts and ratios related to December 31, 2017 are for Non-PCI loans and leases.

(2) Excludes loans held for sale carried at lower of cost or fair value at December 31, 2017.

Foreclosed Assets

The following table presents foreclosed assets (primarily OREO) by property type as of the dates indicated:

Property Type	March 31, 2018	December 31, 2017	March 31, 2017
	(In thousands)		
Construction and land development	\$219	\$219	\$11,224
Multi-family	—	—	601
Commercial real estate	64	64	78
Single family residence	953	1,019	—
Total OREO, net	1,236	1,302	11,903
Other foreclosed assets	—	27	939
Total foreclosed assets	\$1,236	\$1,329	\$12,842

During the first quarter of 2018, foreclosed assets decreased by \$0.1 million to \$1.2 million at March 31, 2018.

Performing Troubled Debt Restructured Loans Held for Investment

During the first quarter of 2018, performing troubled debt restructured loans held for investment increased by \$3.3 million to \$60.2 million due mainly to a \$1.9 million net increase for balance changes and \$1.6 million in new additions. At March 31, 2018, we had \$51.0 million in real estate mortgage loans, \$5.7 million in real estate construction and land loans, \$3.3 million in commercial loans, and \$0.1 million in consumer loans that were accruing interest under the terms of troubled debt restructurings.

The majority of the number of performing troubled debt restructured loans were on accrual status prior to the restructurings and have remained on accrual status after the restructurings due to the borrowers making payments before and after the restructurings.

Classified and Special Mention Loans and Leases Held for Investment

The following table presents the credit risk ratings of our loans and leases held for investment as of the dates indicated:

	March 31, 2018	December 31, 2017	March 31, 2017
	(In thousands)		
Pass	\$15,832,127	\$16,334,134	\$14,629,321
Special mention	415,116	302,168	406,634
Classified	208,042	278,405	424,399
Total loans and leases held for investment, net of deferred fees ⁽¹⁾	\$16,455,285	\$16,914,707	\$15,460,354

(1) Amounts related to March 31, 2018 are for total loans and leases. Amounts related to 2017 periods are for Non-PCI loans and leases.

At March 31, 2018, classified loans and leases declined to \$208.0 million or 1.26% of total loans and leases from \$278.4 million or 1.65% of total loans and leases at December 31, 2017. During the first quarter of 2018, a \$44.6 million classified healthcare real estate loan was sold, accounting for the largest component of this decrease. At March 31, 2018, special mention loans and leases increased to \$415.1 million or 2.52% of total loans and leases from \$302.2 million or 1.79% of total loans and leases at December 31, 2017. During the first quarter, loans newly graded special mention exceeded the amount of loans that were special mention at December 31, 2017 that had paid down, paid off, or otherwise migrated out of the special mention category. The net increase in special mention loans was mainly attributable to two residential construction loans and three commercial real estate mortgage loans that were downgraded into special mention. The construction loans are experiencing project delays, prompting discussions with the borrowers for plan revisions and additional borrower equity contributions. The real estate mortgage loans are loans secured by properties that are performing less favorably than prior projections, requiring borrowers to implement performance improvement plans.

Deposits

The following table presents the balance of each major category of deposits as of the dates indicated:

Deposit Category	March 31, 2018		December 31, 2017	
	Amount	% of Total	Amount	% of Total
(Dollars in thousands)				
Noninterest-bearing demand deposits	\$8,232,140	46 %	\$8,508,044	45 %
Interest checking deposits	2,076,152	11 %	2,226,885	12 %
Money market deposits	4,676,734	26 %	4,511,730	24 %
Savings deposits	676,503	4 %	690,353	4 %
Total core deposits	15,661,529	87 %	15,937,012	85 %
Non-core non-maturity deposits	585,399	3 %	863,202	4 %
Total non-maturity deposits	16,246,928	90 %	16,800,214	89 %
Time deposits \$250,000 and under	1,482,118	8 %	1,709,980	9 %
Time deposits over \$250,000	349,742	2 %	355,342	2 %
Total time deposits	1,831,860	10 %	2,065,322	11 %
Total deposits	\$18,078,788	100 %	\$18,865,536	100 %

Total deposits decreased by \$786.7 million during the first quarter to \$18.1 billion, due mainly to a decrease in non-core non-maturity deposits of \$277.8 million, a decrease in core deposits of \$275.5 million, and a decrease in time deposits of \$233.5 million. The proceeds from the cash flow loan sale in the fourth quarter of 2017 allowed us to improve our funding mix by reducing our balances of non-core non-maturity deposits and time deposits. At March 31, 2018, core deposits totaled \$15.7 billion, or 87% of total deposits, including \$8.2 billion of noninterest-bearing demand deposits, or 46% of total deposits.

The following table summarizes the maturities of time deposits as of the date indicated:

Maturity	Time Deposits		
	\$250,000 and Under	Over \$250,000	Total
(In thousands)			
Due in three months or less	\$630,978	\$106,570	\$737,548
Due in over three months through six months	426,743	173,587	600,330
Due in over six months through twelve months	315,181	49,377	364,558
Due in over 12 months through 24 months	77,071	14,798	91,869
Due in over 24 months	32,145	5,410	37,555
Total at March 31, 2018	\$1,482,118	\$349,742	\$1,831,860

Client Investment Funds

In addition to deposit products, we also offer select clients non-depository cash investment options through S1AM, our registered investment adviser subsidiary, and third-party money market sweep products. S1AM provides customized investment advisory and asset management solutions. At March 31, 2018, total off-balance sheet client investment funds were \$2.1 billion, of which \$1.6 billion was managed by S1AM. At December 31, 2017, total off-balance sheet client investment funds were \$2.1 billion, of which \$1.7 billion was managed by S1AM.

Regulatory Matters

Capital

Bank regulatory agencies measure capital adequacy through standardized risk-based capital guidelines that compare different levels of capital (as defined by such guidelines) to risk-weighted assets and off-balance sheet obligations. At March 31, 2018, banks considered to be “well capitalized” must maintain a minimum Tier 1 leverage ratio of 5.00%, a minimum common equity Tier 1 risk-based capital ratio of 6.50%, a minimum Tier 1 risk-based capital ratio of 8.00%, and a minimum total risk-based capital ratio of 10.00%. Regulatory capital requirements limit the amount of deferred tax assets that may be included when determining the amount of regulatory capital. Deferred tax asset amounts in excess of the calculated limit are disallowed from regulatory capital. At March 31, 2018, such disallowed amounts were \$145,000 for the Company and \$29,000 for the Bank. No assurance can be given that the regulatory capital deferred tax asset limitation will not increase in the future or that the Company or Bank will not have increased deferred tax assets that are disallowed.

Basel III requires all banking organizations to maintain a capital conservation buffer above the minimum risk-based capital requirements to avoid certain limitations on capital distributions, stock repurchases and discretionary bonus payments to executive officers. The capital conservation buffer is exclusively comprised of common equity tier 1 capital, and it applies to each of the three risk-based capital ratios but not to the leverage ratio. At March 31, 2018, the Company and Bank were in compliance with the capital conservation buffer requirement. The capital conservation buffer will increase by 0.625% each year through 2019, at which point, the common equity tier 1, tier 1 and total capital ratio minimums inclusive of the capital conservation buffer will be 7.0%, 8.5% and 10.5%, respectively. The following table presents a comparison of our actual capital ratios to the minimum required ratios and well capitalized ratios as of the dates indicated:

	Actual	Minimum Required For Capital Adequacy Purposes	Plus Capital Conservation Buffer Phase-In (1)	For Well Capitalized Requirement	Plus Capital Conservation Buffer Fully Phased-In
March 31, 2018					
PacWest Bancorp Consolidated					
Tier 1 capital (to average assets)	10.66%	4.00%	4.000%	N/A	4.00%
CET1 capital (to risk weighted assets)	11.16%	4.50%	6.375%	N/A	7.00%
Tier 1 capital (to risk weighted assets)	11.16%	6.00%	7.875%	N/A	8.50%
Total capital (to risk weighted assets)	14.11%	8.00%	9.875%	N/A	10.50%
Pacific Western Bank					
Tier 1 capital (to average assets)	11.33%	4.00%	4.000%	5.00%	4.00%
CET1 capital (to risk weighted assets)	11.86%	4.50%	6.375%	6.50%	7.00%
Tier 1 capital (to risk weighted assets)	11.86%	6.00%	7.875%	8.00%	8.50%
Total capital (to risk weighted assets)	12.67%	8.00%	9.875%	10.00%	10.50%

	Actual	Minimum Required			Plus Capital Conservation Fully Phased-In
		Purposes	For Capital Adequacy	Plus Capital Conservation Buffer Phase-In (1)	
December 31, 2017					
PacWest Bancorp Consolidated					
Tier 1 capital (to average assets)	10.66%	4.00%	4.000%	N/A	4.00%
CET1 capital (to risk weighted assets)	10.91%	4.50%	5.750%	N/A	7.00%
Tier 1 capital (to risk weighted assets)	10.91%	6.00%	7.250%	N/A	8.50%
Total capital (to risk weighted assets)	13.75%	8.00%	9.250%	N/A	10.50%
Pacific Western Bank					
Tier 1 capital (to average assets)	11.75%	4.00%	4.000%	5.00%	4.00%
CET1 capital (to risk weighted assets)	11.91%	4.50%	5.750%	6.50%	7.00%
Tier 1 capital (to risk weighted assets)	11.91%	6.00%	7.250%	8.00%	8.50%
Total capital (to risk weighted assets)	12.69%	8.00%	9.250%	10.00%	10.50%

Ratios for March 31, 2018 reflect the minimum required plus capital conservation buffer phase-in for 2018; ratios (1) for December 31, 2017 reflect the minimum required plus capital conservation buffer phase-in for 2017. The capital conservation buffer increases by 0.625% each year through 2019.

Subordinated Debentures

We issued or assumed through mergers subordinated debentures to trusts that were established by us or entities we previously acquired, which, in turn, issued trust preferred securities. The carrying value of subordinated debentures totaled \$452.2 million at March 31, 2018. At March 31, 2018, none of the trust preferred securities were included in the Company's Tier I capital under the phase-out limitations of Basel III, and \$438.7 million were included in Tier II capital.

During the first quarter of 2018, we redeemed \$12.4 million of subordinated debentures assumed in connection with the CUB acquisition.

Dividends on Common Stock and Interest on Subordinated Debentures

As a bank holding company, PacWest is required to notify the FRB prior to declaring and paying a dividend to stockholders during any period in which quarterly and/or cumulative twelve-month net earnings are insufficient to fund the dividend amount, among other requirements. Interest payments made by us on subordinated debentures are considered dividend payments under FRB regulations.

Liquidity

Liquidity Management

The goals of our liquidity management are to ensure the ability of the Company to meet its financial commitments when contractually due and to respond to other demands for funds such as the ability to meet the cash flow requirements of customers who may be either depositors wanting to withdraw funds or borrowers who have unfunded commitments. We have an Executive Management Asset/Liability Management Committee ("Executive ALM Committee") that is comprised of members of senior management and is responsible for managing commitments to meet the needs of customers while achieving our financial objectives. Our Executive ALM Committee meets regularly to review funding capacities, current and forecasted loan demand, and investment opportunities.

We manage our liquidity by maintaining pools of liquid assets on-balance sheet, consisting of cash and due from banks, interest-earning deposits in other financial institutions, and unpledged investment securities available-for-sale, which we refer to as our primary liquidity. We also maintain available borrowing capacity under secured borrowing lines with the FHLB and the FRBSF, which we refer to as our secondary liquidity.

As a member of the FHLB, the Bank had secured borrowing capacity with the FHLB as of March 31, 2018 of \$3.9 billion, collateralized by a blanket lien on \$5.7 billion of certain qualifying loans. The Bank also had secured borrowing capacity with the FRBSF of \$1.7 billion as of March 31, 2018 collateralized by liens on \$2.1 billion of qualifying loans.

In addition to its secured lines of credit, the Bank also maintains unsecured lines of credit for the purpose of borrowing overnight funds, subject to availability, of \$135.0 million with the FHLB and \$75.0 million with correspondent banks. As of March 31, 2018, there was a \$135.0 million balance outstanding related to the FHLB unsecured line of credit. The Bank is a member of the AFX, through which it may either borrow or lend funds on an overnight or short-term basis with a group of pre-approved commercial banks. The availability of funds changes daily. As of March 31, 2018, the Bank had \$100.0 million of borrowings outstanding through the AFX.

The following tables provide a summary of the Bank's primary and secondary liquidity levels at the dates indicated:

	March 31, 2018	December 31, 2017	
Primary Liquidity - On-Balance Sheet			
	(Dollars in thousands)		
Cash and due from banks	\$235,061	\$233,215	
Interest-earning deposits in financial institutions	312,735	165,222	
Securities available-for-sale	3,801,986	3,774,431	
Less: pledged securities	(433,337)	(449,187)	
Total primary liquidity	\$3,916,445	\$3,723,681	
Ratio of primary liquidity to total deposits	21.7	% 19.7	%
Secondary Liquidity - Off-Balance Sheet	March 31, 2018	December 31, 2017	
Available Secured Borrowing Capacity	(In thousands)		
Secured borrowing capacity with the FHLB	\$3,919,613	\$3,789,949	
Less: secured advances outstanding	(340,000)	(332,000)	
Net secured borrowing capacity with the FHLB	3,579,613	3,457,949	
Secured borrowing capacity with the FRBSF	1,670,180	1,766,188	
Total secondary liquidity	\$5,249,793	\$5,224,137	

During the three months ended March 31, 2018, the Company's primary liquidity increased by \$192.8 million due to a \$147.5 million increase in interest-earning deposits in financial institutions, a \$27.6 million increase in securities available-for-sale, a \$15.9 million decrease in pledged securities, and a \$1.8 million increase in cash due from banks. The Company's secondary liquidity increased by \$25.7 million during the first quarter of 2018 due mainly to a \$129.7 million increase in the borrowing capacity on the secured borrowing line with the FHLB, offset partially by a \$96.0 million decrease in the borrowing capacity on the secured credit line with the FRBSF and an \$8.0 million increase in the amount borrowed from the secured borrowing line with the FHLB.

In addition to our primary liquidity, we generate liquidity from cash flows from our loan and securities portfolios and from our large base of core customer deposits, defined as noninterest-bearing demand, interest checking, savings, and non-brokered money market accounts. At March 31, 2018, core deposits totaled \$15.7 billion and represented 87% of the Company's total deposits. These core deposits are normally less volatile, often with customer relationships tied to other products offered by the Bank promoting long-standing relationships and stable funding sources. See "- Balance Sheet Analysis - Deposits" for additional information and detail of our core deposits.

Our deposit balances may decrease if interest rates increase significantly or if corporate customers withdraw funds from the Bank. In order to address the Bank's liquidity risk as deposit balances may fluctuate, the Bank maintains adequate levels of available off-balance sheet liquidity.

We use brokered deposits, the availability of which is uncertain and subject to competitive market forces and regulation, for liquidity management purposes. At March 31, 2018, brokered deposits totaled \$1.1 billion, consisting of \$581.3 million of brokered time deposits, \$557.7 million of non-maturity brokered accounts, and \$7.2 million of other brokered deposits. At December 31, 2017, brokered deposits totaled \$1.6 billion, consisting of \$732.2 million of brokered time deposits, \$835.6 million of non-maturity brokered accounts, and \$7.5 million of other brokered deposits.

Our liquidity policy includes guidelines for On-Balance Sheet Liquidity (a measurement of primary liquidity to total deposits plus borrowings), Coverage and Crisis Coverage Ratios (measurements of liquid assets to expected short-term liquidity required for the loan and deposit portfolios under normal and stressed conditions), Loan to Funding Ratio (measurement of gross loans net of fees divided by deposits plus borrowings), Wholesale Funding Ratio (measurement of wholesale funding divided by interest-earning assets), and other guidelines developed for measuring and maintaining liquidity. As of March 31, 2018, we were in compliance with all of our established liquidity guidelines.

Holding Company Liquidity

PacWest acts a source of financial strength for the Bank which can also include being a source of liquidity. The primary sources of liquidity for the holding company include dividends from the Bank, intercompany tax payments from the Bank, and PacWest's ability to raise capital, issue subordinated debt, and secure outside borrowings. Our ability to obtain funds for the payment of dividends to our stockholders, the repurchase of shares of common stock, and other cash requirements is largely dependent upon the Bank's earnings. The Bank is subject to restrictions under certain federal and state laws and regulations that limit its ability to transfer funds to the holding company through intercompany loans, advances, or cash dividends.

Dividends paid by California state-chartered banks are regulated by the FDIC and the DBO under their general supervisory authority as it relates to a bank's capital requirements. A state bank may declare a dividend without the approval of the DBO and the FDIC as long as the total dividends declared in a calendar year do not exceed either the retained earnings or the total of net profits for three previous fiscal years less any dividends paid during such period. During the three months ended March 31, 2018, PacWest received \$268.0 million in dividends from the Bank. Since the Bank had an accumulated deficit of \$584.3 million at March 31, 2018, for the foreseeable future, any dividends from the Bank to the holding company will continue to require DBO and FDIC approval.

At March 31, 2018, PacWest had \$241.9 million in cash and due from banks, of which substantially all is on deposit at the Bank. We believe this amount of cash, along with anticipated dividends from the Bank, will be sufficient to fund the holding company's cash flow needs over the next 12 months, including any stock repurchases pursuant to the Company's Stock Repurchase Program, which terminates on February 28, 2019. See "- Recent Events - Stock Repurchase Program" for additional information.

Contractual Obligations

The following table summarizes the known contractual obligations of the Company as of the date indicated:

	March 31, 2018				
	Due Within One Year	Due in One to Three Years	Due in Three to Five Years	Due After Five Years	Total
	(In thousands)				
Time deposits ⁽¹⁾	\$1,702,436	\$107,469	\$21,913	\$42	\$1,831,860
Short-term borrowings	575,000	—	—	—	575,000
Long-term debt obligations ⁽¹⁾	198	87	—	543,561	543,846
Contractual interest ⁽²⁾	5,282	991	591	1	6,865
Operating lease obligations	34,181	59,034	40,767	34,521	168,503
Other contractual obligations	41,669	45,162	10,359	38,503	135,693
Total	\$2,358,766	\$212,743	\$73,630	\$616,628	\$3,261,767

(1) Excludes purchase accounting fair value adjustments.

(2) Excludes interest on subordinated debentures as these instruments are variable rate.

Long-term debt obligations include subordinated debentures. Debt obligations are also discussed in Note 9.

Borrowings and Subordinated Debentures, in the Notes to Condensed Consolidated Financial Statements (Unaudited) contained in "Item 1. Condensed Consolidated Financial Statements (Unaudited)." Operating lease obligations are discussed in the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2017. The other contractual obligations relate to our minimum liability associated with our data and item processing contract with a third-party provider, commitments to contribute capital to investments in low income housing project partnerships and private equity funds, and commitments under deferred compensation arrangements.

We believe that we will be able to meet our contractual obligations as they come due through the maintenance of adequate liquidity levels. We expect to maintain adequate liquidity levels through profitability, loan and lease payoffs, securities repayments and maturities, and continued deposit gathering activities. We also have in place various borrowing mechanisms for both short-term and long-term liquidity needs.

Off-Balance Sheet Arrangements

Our obligations also include off-balance sheet arrangements consisting of loan commitments, of which only a portion is expected to be funded. At March 31, 2018, our loan commitments, including standby letters of credit, totaled \$6.7 billion. The commitments, a portion of which result in funded loans, increase our profitability through net interest income when drawn. We manage our overall liquidity taking into consideration funded and unfunded commitments as a percentage of our liquidity sources. Our liquidity sources, as described in "- Liquidity - Liquidity Management," have been and are expected to be sufficient to meet the cash requirements of our lending activities. For further information on loan commitments, see Note 10. Commitments and Contingencies, of the Notes to Condensed Consolidated Financial Statements (Unaudited) contained in "Item 1. Condensed Consolidated Financial Statements (Unaudited)."

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

This analysis should be read in conjunction with text under the caption "Quantitative and Qualitative Disclosures About Market Risk" in our Annual Report on Form 10-K for the year ended December 31, 2017, which text is incorporated herein by reference. Our analysis of market risk and market-sensitive financial information contains forward-looking statements and is subject to the disclosure at the beginning of Item 2 regarding such forward-looking information.

Market Risk - Foreign Currency Exchange

We enter into foreign exchange contracts with our clients and counterparty banks primarily for the purpose of offsetting or hedging clients' foreign currency exposures arising out of commercial transactions, and we enter into cross currency swaps to hedge exposures to loans and debt instruments denominated in foreign currencies. We have experienced and will continue to experience fluctuations in our net earnings as a result of transaction gains or losses related to revaluing certain asset and liability balances that are denominated in currencies other than the U.S. Dollar, and the cross currency swaps that hedge those exposures. As of March 31, 2018, the U.S. Dollar notional amounts of loans receivable and subordinated debentures payable denominated in foreign currencies were \$49.4 million and \$31.8 million, and the U.S. Dollar notional amounts of cross currency swaps outstanding to hedge these foreign currency exposures were \$56.5 million and \$29.2 million. We recognized foreign currency translation net gains of \$0.7 million and net losses of \$0.2 million for the three months ended March 31, 2018 and 2017.

Asset/Liability Management and Interest Rate Sensitivity

Interest Rate Risk

We measure our IRR position on at least a quarterly basis using two methods: (i) NII simulation analysis; and (ii) MVE modeling. The Executive ALM Committee and the Board Asset/Liability Management Committee review the results of these analyses quarterly. If hypothetical changes to interest rates cause changes to our simulated net present value of equity and/or net interest income outside our pre established limits, we may adjust our asset and liability mix in an effort to bring our interest rate risk exposure within our established limits.

We evaluated the results of our NII simulation model and MVE model prepared as of March 31, 2018, the results of which are presented below. Our NII simulation indicates that our balance sheet is asset-sensitive, while our MVE model indicates that our balance sheet had a slightly liability-sensitive profile. An asset-sensitive profile would suggest that a sudden sustained increase in rates would result in an increase in our estimated net interest income and market value of equity, while a liability-sensitive profile would suggest that these amounts would decrease.

Net Interest Income Simulation

We used a NII simulation model to measure the estimated changes in net interest income that would result over the next 12 months from immediate and sustained changes in interest rates as of March 31, 2018. This model is an interest rate risk management tool and the results are not necessarily an indication of our future net interest income. This model has inherent limitations and these results are based on a given set of rate changes and assumptions at one point in time. We have assumed no growth in either our total interest sensitive assets or liabilities over the next 12 months, therefore the results reflect an interest rate shock to a static balance sheet.

This analysis calculates the difference between net interest income forecasted using both increasing and decreasing interest rate scenarios using the forward yield curve at March 31, 2018. In order to arrive at the base case, we extend our balance sheet at March 31, 2018 one year and reprice any assets and liabilities that would contractually reprice or mature during that period using the products' pricing as of March 31, 2018. Based on such repricing, we calculate an estimated NII and NIM for each rate scenario.

The NII simulation model is dependent upon numerous assumptions. For example, the substantial majority of our loans are variable rate, which are assumed to reprice in accordance with their contractual terms. Some loans and investment securities include the opportunity of prepayment (embedded options) and the simulation model uses prepayment assumptions to estimate these prepayments and reinvest these proceeds at current simulated yields. Our interest-bearing deposits reprice at our discretion and are assumed to reprice at a rate less than the change in market rates. The 12-month NII simulation model as of March 31, 2018 assumes interest-bearing deposits reprice at 47% of the change in market rates (this is commonly referred to as the "deposit beta"). The effects of certain balance sheet attributes, such as fixed rate loans, variable rate loans that have reached their floors, and the volume of noninterest bearing deposits as a percentage of earning assets, impact our assumptions and consequently the results of our NII simulation model. Changes that could vary significantly from our assumptions include loan and deposit growth or contraction, changes in the mix of our earning assets or funding sources, and future asset/liability management decisions, all of which may have significant effects on our net interest income.

The following table presents forecasted net interest income and net interest margin for the next 12 months using the forward yield curve as the base scenario and shocking the base scenario given immediate and sustained parallel upward and downward movements in interest rates of 100, 200 and 300 basis points as of the date indicated:

March 31, 2018 Interest Rate Scenario	Forecasted	Forecasted	Forecasted	
	Net Interest Income (Tax Equivalent) (Dollars in millions)	Percentage Change From Base	Net Interest Margin (Tax Equivalent)	Net Interest Margin Change From Base
Up 300 basis points	\$ 1,163.9	13.3%	5.63%	0.66%
Up 200 basis points	\$ 1,121.0	9.1%	5.42%	0.45%
Up 100 basis points	\$ 1,076.5	4.8%	5.20%	0.23%
BASE CASE	\$ 1,027.3	—	4.97%	—
Down 100 basis points	\$ 974.7	(5.1)%	4.71%	(0.26)%
Down 200 basis points	\$ 927.4	(9.7)%	4.48%	(0.49)%
Down 300 basis points	\$ 903.7	(12.0)%	4.37%	(0.60)%

Total base case year 1 tax equivalent NII was \$1.03 billion at March 31, 2018 compared to \$1.07 billion at December 31, 2017. The \$39.0 million decrease in year 1 tax equivalent NII was attributable to the \$517 million decrease in loans and leases held for investment, net of deferred fees, and the \$481 million decrease in the balance of loans held for sale.

In addition to parallel interest rate shock scenarios, we also model various alternative rate vectors that are viewed as more likely to occur in a typical monetary policy tightening cycle. The most favorable alternate rate vector that we model is the "Bear Flattener" scenario, when short-term rates increase faster than long-term rates, and the least favorable alternate rate vector that we model is the "Bull Steepener," when short-term rates fall faster than long-term rates. In the "Bear Flattener" scenario that we model, Year 1 NII increases by 3.4%, and in the "Bull Steepener" scenario that we model, Year 1 NII decreases by 3.7%.

Of the \$16.5 billion of total loans in the portfolio, \$10.7 billion have variable interest rate terms (excluding hybrid loans discussed below). At March 31, 2018, \$10.5 billion of these variable-rate loans have a loan rate higher than their floor rate, which allows them to reprice at their next reprice date upon a change in their index. Approximately 56% of the total variable-rate loans have a LIBOR index rate. Of the \$208 million of loans with rates below their floor rates at March 31, 2018, \$94 million (45.2%) will rise above their floor rates with a 100 basis point increase in market rates. Additionally, approximately \$2.5 billion of variable-rate hybrid loans do not immediately reprice because the loans contain an initial fixed-rate period before they become variable. The cumulative amounts of hybrid loans that would switch from being fixed-rate to variable-rate because the initial fixed-rate term would expire were approximately \$238 million, \$462 million, and \$756 million in the next one, two, and three years.

Market Value of Equity

We measure the impact of market interest rate changes on the net present value of estimated cash flows from our assets, liabilities and off balance sheet items, defined as the market value of equity, using our MVE model. This simulation model assesses the changes in the market value of our interest sensitive financial instruments that would occur in response to an instantaneous and sustained increase or decrease in market interest rates of 100, 200, and 300 basis points. This analysis assigns significant value to our noninterest-bearing deposit balances. The projections include various assumptions regarding cash flows and interest rates and are by their nature forward looking and inherently uncertain.

The MVE model is an interest rate risk management tool and the results are not necessarily an indication of our actual future results. Actual results may vary significantly from the results suggested by the market value of equity table. Loan prepayments and deposit attrition, changes in the mix of our earning assets or funding sources, and future asset/liability management decisions, among others, may vary significantly from our assumptions. The base case is determined by applying various current market discount rates to the estimated cash flows from the different types of assets, liabilities and off balance sheet items existing at March 31, 2018.

The following table shows the projected change in the market value of equity for the set of rate scenarios presented as of the date indicated:

March 31, 2018	Projected Dollar Market Value of Equity (Dollars in millions)	Change From Base	Percentage Change From Base	Percentage of Total Assets	Ratio of Projected Market Value to Book Value
Interest Rate Scenario					
Up 300 basis points	\$6,224.4	\$(26.7)	(0.4)%	25.8%	127.9%
Up 200 basis points	\$6,235.9	\$(15.2)	(0.2)%	25.8%	128.1%
Up 100 basis points	\$6,246.1	\$(4.9)	(0.1)%	25.9%	128.3%
BASE CASE	\$6,251.1	\$—	—%	25.9%	128.4%
Down 100 basis points	\$6,229.3	\$(21.8)	(0.3)%	25.8%	128.0%
Down 200 basis points	\$6,196.9	\$(54.2)	(0.9)%	25.7%	127.3%
Down 300 basis points	\$5,992.5	\$(258.6)	(4.1)%	24.8%	123.1%

Total base case projected market value of equity was \$6.3 billion at March 31, 2018 compared to \$6.6 billion at December 31, 2017. The projected market value of equity decreased by \$327 million while our overall MVE sensitivity profile has remained relatively unchanged. The decrease in base case market value of equity was due primarily to: (1) a \$313 million decrease in the mark-to-market adjustment for loans and leases resulting from the implementation of ASU 2016-01, which requires the valuation methodology used for determining the fair value of loans to be based on an "exit price" methodology, resulting in the application of higher credit spreads for the loan value calculation, and (2) a \$110 million decrease in the book value of stockholders' equity, offset partially by (3) a \$98 million decrease in the mark-to-market adjustment for total deposits due to the overall increase in the market level of interest rates at March 31, 2018.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, an evaluation was carried out by the Company's management, with the participation of the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, these disclosure controls and procedures were effective.

There have been no changes in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The information set forth in Note 10. Commitments and Contingencies in the Notes to Condensed Consolidated Financial Statements (Unaudited) is incorporated herein by reference.

In addition, in the ordinary course of our business, we are party to various legal actions, which we believe are incidental to the operation of our business. The outcome of such legal actions and the timing of ultimate resolution are inherently difficult to predict. In the opinion of management, based upon information currently available to us, any resulting liability, in addition to amounts already accrued, and taking into consideration insurance which may be applicable, would not have a material adverse effect on the Company's financial statements or operations.

ITEM 1A. RISK FACTORS

For information regarding factors that could affect the Company's results of operations, financial condition and liquidity, see the risk factors disclosed in the "Risk Factors" section of our Annual Report on Form 10-K for the year ended December 31, 2017. See also "Forward-Looking Information" disclosed in Part I, Item 2 of this quarterly report on Form 10-Q.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table presents stock purchases made during the first quarter of 2018:

Purchase Dates	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Total	Maximum
			Number of Shares Purchased as Part of Publicly Announced Program (2)	Dollar Value of Shares That May Yet Be Purchased Under the Program (2)
January 1, 2018 - January 31, 2018	721,665	\$ 51.46	721,665	\$ 75,395
February 1, 2018 - February 28, 2018	1,168,952	\$ 52.62	1,113,766	\$ 320,730
March 1, 2018 - March 31, 2018	450,424	\$ 53.29	450,424	\$ 296,727
Total	2,341,041	\$ 52.39	2,285,855	

Includes shares repurchased pursuant to net settlement by employees and directors in satisfaction of income tax (1) withholding obligations incurred through the vesting of Company stock awards, and shares repurchased pursuant to the Company's publicly announced Stock Repurchase Program, described in (2) below.

Our Stock Repurchase Program was initially authorized by PacWest's Board of Directors in October 2016 pursuant to which the Company could, until December 31, 2017, purchase shares of its common stock for an aggregate purchase price not to exceed \$400 million. On November 15, 2017 PacWest's Board of Directors amended the (2) Stock Repurchase Program to reduce the authorized purchase amount to \$150 million and extend the maturity date to December 31, 2018. On February 14, 2018, PacWest's Board of Directors amended the Stock Repurchase Program to increase the authorized purchase amount to \$350 million and extend the maturity date to February 28, 2019. All shares repurchased under the Stock Repurchase Program were retired upon settlement.

ITEM 6. INDEX TO EXHIBITS

Exhibit Number	Description
2.3	<u>Agreement and Plan of Merger dated March 1, 2015 between PacWest Bancorp and Square 1 Financial, Inc. (Exhibit 2.1 to Form 8-K filed on March 5, 2015 and incorporated herein by this reference).</u>
2.4	<u>Agreement and Plan of Merger dated April 5, 2017 between PacWest Bancorp and CU Bancorp (Exhibit 2.1 to Form 8-K filed on April 6, 2017 and incorporated herein by reference).</u>
3.1	<u>Certificate of Incorporation, as amended, of PacWest Bancorp, a Delaware corporation, dated April 22, 2008 (Exhibit 3.1 to Form 8-K filed on May 14, 2008 and incorporated herein by this reference).</u>
3.2	<u>Certificate of Amendment of Certificate of Incorporation of PacWest Bancorp, a Delaware Corporation, dated May 14, 2010 (Exhibit 3.1 to Form 8-K filed on May 14, 2010 and incorporated herein by this reference).</u>
3.5	<u>Amended and Restated Bylaws of PacWest Bancorp, a Delaware corporation, dated November 5, 2014 (Exhibit 3.5 to Form 10-Q filed on November 10, 2014 and incorporated herein by this reference).</u>
10.1	<u>PacWest Bancorp 2003 Stock Incentive Plan, as amended and restated, dated May 16, 2016 (Exhibit 10.1 to Form 8-K filed on May 18, 2016 and incorporated herein by this reference).</u>
10.2	<u>Form of Stock Award Agreement pursuant to the Company's 2003 Stock Incentive Plan, as amended and restated (Exhibit 10.2 to Form 10-Q filed on November 7, 2016 and incorporated herein by this reference).</u>
10.3	<u>Form of Stock Unit Award Agreement pursuant to the Company's 2003 Stock Incentive Plan, as amended and restated (Exhibit 10.3 to Form 10-Q filed on November 7, 2016 and incorporated herein by this reference).</u>
10.4	<u>PacWest Bancorp 2017 Stock Incentive Plan, as amended, dated May 15, 2017 (Exhibit 10.1 to Form S-8 filed on May 15, 2017 and incorporated herein by this reference).</u>
10.5	<u>Form of Stock Unit Award Agreement and Grant Notice pursuant to the Company's 2017 Stock Incentive Plan, as amended (Exhibit 10.2 to Form 8-K filed on May 18, 2017 and incorporated herein by reference).</u>
10.6	<u>Form of Stock Award Agreement and Grant Notice pursuant to the Company's 2017 Stock Incentive Plan, as amended (Exhibit 10.3 to Form 8-K filed on May 18, 2017 and incorporated herein by reference).</u>
31.1	<u>Section 302 Certification of Chief Executive Officer (Filed herewith).</u>
31.2	<u>Section 302 Certification of Chief Financial Officer (Filed herewith).</u>
32.1	<u>Section 906 Certification of Chief Executive Officer (Filed herewith).</u>
32.2	<u>Section 906 Certification of Chief Financial Officer (Filed herewith).</u>
101	<u>Interactive data files pursuant to Rule 405 of Regulation S-T: (i) the Condensed Consolidated Balance Sheets as of March 31, 2018 and December 31, 2017, (ii) the Condensed Consolidated Statements of Earnings for the three months ended March 31, 2018, December 31, 2017, and March 31, 2017, (iii) the Condensed Consolidated Statements of Comprehensive Income for the three months ended March 31, 2018, December 31, 2017, and March 31, 2017, (iv) the Condensed Consolidated Statement of Changes in Stockholders' Equity for the three months ended March 31, 2018, (v) the Condensed Consolidated Statements of Cash Flows for the three months ended March 31, 2018 and 2017, and (vi) the Notes to Condensed Consolidated Financial Statements (Filed herewith).</u>

Signatures

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
