EXXON MOBIL CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Financial Statement Preparation

These unaudited condensed consolidated financial statements should be read in the context of the consolidated financial statements and notes thereto filed with the Securities and Exchange Commission in the Corporation's 2014 Annual Report on Form 10-K. In the opinion of the Corporation, the information furnished herein reflects all known accruals and adjustments necessary for a fair statement of the results for the periods reported herein. All such adjustments are of a normal recurring nature. Prior data has been reclassified in certain cases to conform to the current presentation basis.

The Corporation's exploration and production activities are accounted for under the "successful efforts" method.

2. Recently Issued Accounting Standard

In May 2014, the Financial Accounting Standards Board issued a new standard, *Revenue from Contracts with Customers*. The standard establishes a single revenue recognition model for all contracts with customers, eliminates industry specific requirements, and expands disclosure requirements. The standard is required to be adopted beginning January 1, 2017. ExxonMobil is evaluating the standard and its effect on the Corporation's financial statements.

3. Litigation and Other Contingencies

Litigation

A variety of claims have been made against ExxonMobil and certain of its consolidated subsidiaries in a number of pending lawsuits. Management has regular litigation reviews, including updates from corporate and outside counsel, to assess the need for accounting recognition or disclosure of these contingencies. The Corporation accrues an undiscounted liability for those contingencies where the incurrence of a loss is probable and the amount can be reasonably estimated. If a range of amounts can be reasonably estimated and no amount within the range is a better

estimate than any other amount, then the minimum of the range is accrued. The Corporation does not record liabilities when the likelihood that the liability has been incurred is probable but the amount cannot be reasonably estimated or when the liability is believed to be only reasonably possible or remote. For contingencies where an unfavorable outcome is reasonably possible and which are significant, the Corporation discloses the nature of the contingency and, where feasible, an estimate of the possible loss. For purposes of our contingency disclosures, "significant" includes material matters as well as other matters which management believes should be disclosed. ExxonMobil will continue to defend itself vigorously in these matters. Based on a consideration of all relevant facts and circumstances, the Corporation does not believe the ultimate outcome of any currently pending lawsuit against ExxonMobil will have a material adverse effect upon the Corporation's operations, financial condition, or financial statements taken as a whole.

Other Contingencies

The Corporation and certain of its consolidated subsidiaries were contingently liable at March 31, 2015, for guarantees relating to notes, loans and performance under contracts. Where guarantees for environmental remediation and other similar matters do not include a stated cap, the amounts reflect management's estimate of the maximum potential exposure. These guarantees are not reasonably likely to have a material effect on the Corporation's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

	As of March 31, 2015		
	Equity Company Obligations (1)	Other Third Party Obligations	Total
	<i>(millions of dollars)</i>		
Guarantees			
Debt-related	88	38	126
Other	3,141	3,733	6,874
Total	3,229	3,771	7,000

(1) ExxonMobil share

Additionally, the Corporation and its affiliates have numerous long-term sales and purchase commitments in their various business activities, all of which are expected to be fulfilled with no adverse consequences material to the Corporation's operations or financial condition. The Corporation's outstanding unconditional purchase obligations at March 31, 2015, were similar to those at the prior year-end period. Unconditional purchase obligations as defined by accounting standards are those long-term commitments that are noncancelable or cancelable only under certain conditions, and that third parties have used to secure financing for the facilities that will provide the contracted goods or services.

The operations and earnings of the Corporation and its affiliates throughout the world have been, and may in the future be, affected from time to time in varying degree by political developments and laws and regulations, such as forced divestiture of assets; restrictions on production, imports and exports; price controls; tax increases and retroactive tax claims; expropriation of property; cancellation of contract rights and environmental regulations. Both the likelihood of such occurrences and their overall effect upon the Corporation vary greatly from country to country and are not predictable.

In accordance with a nationalization decree issued by Venezuela's president in February 2007, by May 1, 2007, a subsidiary of the Venezuelan National Oil Company (PdVSA) assumed the operatorship of the Cerro Negro Heavy Oil Project. This Project had been operated and owned by ExxonMobil affiliates holding a 41.67 percent ownership interest in the Project. The decree also required conversion of the Cerro Negro Project into a "mixed enterprise" and an increase in PdVSA's or one of its affiliate's ownership interest in the Project, with the stipulation that if ExxonMobil refused to accept the terms for the formation of the mixed enterprise within a specified period of time, the government would "directly assume the activities" carried out by the joint venture. ExxonMobil refused to accede to the terms proffered by the government, and on June 27, 2007, the government expropriated ExxonMobil's 41.67 percent interest in the Cerro Negro Project.

On September 6, 2007, affiliates of ExxonMobil filed a Request for Arbitration with the International Centre for Settlement of Investment Disputes (ICSID). The ICSID Tribunal issued a decision on June 10, 2010, finding that it had jurisdiction to proceed on the basis of the Netherlands-Venezuela Bilateral Investment Treaty. On October 9, 2014, the ICSID Tribunal issued its final award finding in favor of the ExxonMobil affiliates and awarding \$1.6 billion as of the date of expropriation, June 27, 2007, and interest from that date at 3.25% compounded annually until the date of payment in full. The Tribunal also noted that one of the Cerro Negro Project agreements provides a mechanism to prevent double recovery between the ICSID award and all or part of an earlier award of \$908 million to an ExxonMobil affiliate, Mobil Cerro Negro, Ltd., against PdVSA and a PdVSA affiliate, PdVSA CN, in an arbitration under the rules of the International Chamber of Commerce (ICC).

Judgment was entered on the ICSID award by the United States District Court for the Southern District of New York on October 10, 2014. The Republic of Venezuela filed a motion to vacate that judgment on procedural grounds on October 14, 2014, and later, a motion to modify the judgment by reducing the rate of interest to be paid on the ICSID award from the entry of the court's judgment, until the date of payment. The court denied the Republic of Venezuela's two motions on February 13, 2015, and March 4, 2015, respectively. The Republic of Venezuela filed a notice of appeal of the court's actions on the two motions on March 9, 2015.

On October 23, 2014, the Republic of Venezuela filed with ICSID an application to revise the ICSID award such that it requires repayment of the value of the ICC award to PdVSA at the same time as payment is made to the ExxonMobil affiliates for the ICSID award and that provision be made for interest on the amount to be repaid. Thereafter, pursuant to ICSID arbitration rules, the ICSID award was stayed pending further action of the Tribunal. On October 27, 2014, ExxonMobil filed a response with ICSID that contests the application for revision of that award on both factual and jurisdictional grounds. On February 2, 2015, the Republic of Venezuela filed an application to annul the ICSID award. The application alleges that, in issuing the ICSID award, the Tribunal exceeded its powers, failed to state reasons on which the ICSID award was based, and departed from a fundamental rule of procedure. Upon registration of this application with ICSID on February 9, 2015, a further stay of the ICSID award was entered.

The federal court in New York has stayed its judgment until such time as the stays of the ICSID award entered following the Government of Venezuela's filing of its two applications have been lifted. The net impact of these matters on the Corporation's consolidated financial results cannot be reasonably estimated. Regardless, the Corporation does not expect the resolution to have a material effect upon the Corporation's operations or financial condition.

An affiliate of ExxonMobil is one of the Contractors under a Production Sharing Contract (PSC) with the Nigerian National Petroleum Corporation (NNPC) covering the Erha block located in the offshore waters of Nigeria. ExxonMobil's affiliate is the operator of the block and owns a 56.25 percent interest under the PSC. The Contractors are in dispute with NNPC regarding NNPC's lifting of crude oil in excess of its entitlement under the terms of the PSC. In accordance with the terms of the PSC, the Contractors initiated arbitration in Abuja, Nigeria, under the Nigerian Arbitration and Conciliation Act. On October 24, 2011, a three-member arbitral Tribunal issued an award upholding the Contractors' position in all material respects and awarding damages to the Contractors jointly in an amount of approximately \$1.8 billion plus \$234 million in accrued interest. The Contractors petitioned a Nigerian federal court for enforcement of the award, and NNPC petitioned the same court to have the award set aside. On May 22, 2012, the court set aside the award. The Contractors have appealed that judgment. In June 2013, the Contractors filed a lawsuit against NNPC in the Nigerian federal high court in order to preserve their ability to seek enforcement of the PSC in the courts if necessary. In October 2014, the Contractors filed suit in the United States District Court for the Southern District of New York to enforce, if necessary, the arbitration award against NNPC assets residing within that jurisdiction. At this time, the net impact of this matter on the Corporation's consolidated financial results cannot be reasonably estimated. However, regardless of the outcome of enforcement proceedings, the Corporation does not expect the proceedings to have a material effect upon the Corporation's operations or financial condition.

Net benefit cost	165	163

7. Financial Instruments

The fair value of financial instruments is determined by reference to observable market data and other valuation techniques as appropriate. The only category of financial instruments where the difference between fair value and recorded book value is notable is long-term debt. The estimated fair value of total long-term debt, excluding capitalized lease obligations, was \$19,735 million at March 31, 2015, and \$11,660 million at December 31, 2014, as compared to recorded book values of \$19,155 million at March 31, 2015, and \$11,278 million at December 31, 2014. The increase in the estimated fair value and book value of long-term debt reflects the Corporation's issuance of \$8.0 billion of long-term debt in the first quarter of 2015. The \$8.0 billion of long-term debt is comprised of \$500 million of floating-rate notes due in 2018, \$500 million of floating-rate notes due in 2022, \$1,600 million of 1.305% notes due in 2018, \$1,500 million of 1.912% notes due in 2020, \$1,150 million of 2.397% notes due in 2022, \$1,750 million of 2.709% notes due in 2025, and \$1,000 million of 3.567% notes due in 2045.

The fair value of long-term debt by hierarchy level at March 31, 2015, is: Level 1 \$19,226 million; Level 2 \$446 million; and Level 3 \$63 million. Level 1 represents quoted prices in active markets. Level 2 includes debt whose fair value is based upon a publicly available index. Level 3 involves using internal data augmented by relevant market indicators if available.

Earnings per common share <i>(dollars)</i>	1.17	2.10
Earnings per common share - assuming dilution <i>(dollars)</i>	1.17	2.10

References in this discussion to corporate earnings mean net income attributable to ExxonMobil (U.S. GAAP) from the consolidated income statement. Unless otherwise indicated, references to earnings, Upstream, Downstream, Chemical and Corporate and Financing segment earnings, and earnings per share are ExxonMobil's share after excluding amounts attributable to noncontrolling interests.

REVIEW OF FIRST QUARTER 2015 RESULTS

ExxonMobil's first quarter 2015 earnings of \$4.9 billion, or \$1.17 per diluted share, demonstrate the value of the Company's integrated businesses in a lower commodity price environment. Regardless of current market conditions, the Company remains focused on business fundamentals and competitive advantages that create long term shareholder value.

		First Three Months	
		2015	2014
		<i>(millions of dollars)</i>	
<u>Upstream earnings</u>			
	United States	(52)	1,244
	Non-U.S.	2,907	6,539
	Total	2,855	7,783

Upstream earnings were \$2,855 million in the first three months of 2015, down \$4,928 million from the first quarter of 2014. Lower liquids and gas realizations decreased earnings by \$5.5 billion. Higher volumes and mix effects increased earnings by \$340 million, reflecting growth from new developments. All other items, including favorable tax effects, increased earnings by \$250 million.

On an oil equivalent basis, production increased 2.3 percent from the first quarter of 2014. Liquids production totaled 2.3 million barrels per day, up 129,000 barrels per day, while natural gas production was 11.8 billion cubic feet per day, down 188 million cubic feet per day from 2014. Project ramp up and entitlement effects were partly offset by field decline and maintenance activities.

The U.S. Upstream operations recorded a loss of \$52 million, down \$1,296 million from the first quarter of 2014. Non-U.S. Upstream earnings were \$2,907 million, down \$3,632 million from the prior year.

Volumes reconciliation (Oil-equivalent production) (1)		<i>(thousands of barrels daily)</i>
2014		4,151
	Entitlements - Net Interest	(35)
	Entitlements - Price / Spend / Other	176
	Quotas	-
	Divestments	(38)
	Growth / Other	(6)
2015		4,248

(1) Gas converted to oil-equivalent at 6 million cubic feet = 1 thousand barrels.

Listed below are descriptions of ExxonMobil's volumes reconciliation factors which are provided to facilitate understanding of the terms.

Entitlements - Net Interest are changes to ExxonMobil's share of production volumes caused by non-operational changes to volume-determining factors. These factors consist of net interest changes specified in Production Sharing Contracts (PSCs) which typically occur when cumulative investment returns or production volumes achieve defined thresholds, changes in equity upon achieving pay-out in partner investment carry situations, equity redeterminations as specified in venture agreements, or as a result of the termination or expiry of a concession. Once a net interest change has occurred, it typically will not be reversed by subsequent events, such as lower crude oil prices.

Entitlements - Price, Spend and Other are changes to ExxonMobil's share of production volumes resulting from temporary changes to non-operational volume-determining factors. These factors include changes in oil and gas prices or spending levels from one period to another. According to the terms of contractual arrangements or government royalty regimes, price or spending variability can increase or decrease royalty burdens and/or volumes attributable to ExxonMobil. For example, at higher prices, fewer barrels are required for ExxonMobil to recover its costs. These effects generally vary from period to period with field spending patterns or market prices for oil and natural gas. Such factors can also include other temporary changes in net interest as dictated by specific provisions in production agreements.

Quotas are changes in ExxonMobil's allowable production arising from production constraints imposed by countries which are members of the Organization of the Petroleum Exporting Countries (OPEC). Volumes reported in this category would have been readily producible in the absence of the quota.

Divestments are reductions in ExxonMobil's production arising from commercial arrangements to fully or partially reduce equity in a field or asset in exchange for financial or other economic consideration.

Growth and Other factors comprise all other operational and non-operational factors not covered by the above definitions that may affect volumes attributable to ExxonMobil. Such factors include, but are not limited to, production enhancements from project and work program activities, acquisitions including additions from asset exchanges, downtime, market demand, natural field decline, and any fiscal or commercial terms that do not affect entitlements.

		First Three Months	
		2015	2014
		<i>(millions of dollars)</i>	
<u>Downstream earnings</u>			
United States		567	623
Non-U.S.		1,100	190
	Total	1,667	813

Downstream earnings were \$1,667 million for the first three months of 2015, up \$854 million from the first quarter of 2014. Stronger margins increased earnings by \$1 billion. Volume and mix effects increased earnings by \$70 million. All other items, primarily higher maintenance expense, decreased earnings by \$260 million. Petroleum product sales of 5.8 million barrels per day were flat with the prior year's first quarter.

Earnings from the U.S. Downstream were \$567 million, down \$56 million from the first quarter of 2014. Non-U.S. Downstream earnings of \$1,100 million were \$910 million higher than last year.

Non-U.S.		377	368
	Total	982	1,047

Chemical earnings of \$982 million for the first three months of 2015 were \$65 million lower than the first quarter of 2014. Improved margins increased earnings by \$240 million. Favorable volume mix effects increased earnings by \$30 million. All other items, primarily unfavorable foreign exchange effects, decreased earnings by \$340 million. First quarter prime product sales of 6.1 million metric tons were 59,000 metric tons lower than last year's first quarter.

		First Three Months	
		2015	2014
		<i>(millions of dollars)</i>	
<u>Corporate and financing earnings</u>		(564)	(543)

Corporate and financing expenses were \$564 million for the first three months of 2015, essentially flat with the first quarter of 2014.

LIQUIDITY AND CAPITAL RESOURCES

	First Three Months	
	2015	2014
	<i>(millions of dollars)</i>	
Net cash provided by/(used in)		
Operating activities	7,998	15,103
Investing activities	(6,352)	(6,306)
Financing activities	(854)	(7,816)
Effect of exchange rate changes	(224)	(24)
Increase/(decrease) in cash and cash equivalents	568	957
Cash and cash equivalents (at end of period)	5,184	5,601
Cash and cash equivalents – restricted (at end of period)	43	204
Total cash and cash equivalents (at end of period)	5,227	5,805
Cash flow from operations and asset sales		
Net cash provided by operating activities (U.S. GAAP)	7,998	15,103
Proceeds associated with sales of subsidiaries, property, plant & equipment,		
and sales and returns of investments	484	1,111
Cash flow from operations and asset sales	8,482	16,214

Because of the ongoing nature of our asset management and divestment program, we believe it is useful for investors to consider proceeds associated with asset sales together with cash provided by operating activities when evaluating cash available for investment in the business and financing activities, including shareholder distributions.

Cash provided by operating activities totaled \$8.0 billion for the first three months of 2015, \$7.1 billion lower than 2014. The major source of funds was net income including noncontrolling interests of \$5.1 billion, a decrease of \$4.3 billion from the prior year period. The adjustment for the noncash provision of \$4.3 billion for depreciation and depletion increased by \$0.1 billion. Changes in operational working capital decreased cash flows by \$0.5 billion in 2015, primarily due to lower payables. Changes in operational working capital added \$2.5 billion to cash flow in 2014, primarily due to higher payables. All other items net decreased cash by \$0.9 billion in both periods. For additional details, see the Condensed Consolidated Statement of Cash Flows on page 6.

Investing activities for the first three months of 2015 used net cash of \$6.4 billion, an increase of nearly \$0.1 billion compared to the prior year. Spending for additions to property, plant and equipment of \$6.8 billion was \$0.5 billion lower than 2014. Proceeds from asset sales of \$0.5 billion decreased \$0.6 billion. Additional investment and advances decreased \$0.2 billion to \$0.3 billion. Other investing activities – net decreased \$0.1 billion to \$0.3 billion.

Cash flow from operations and asset sales in the first quarter of 2015 was \$8.5 billion, including asset sales of \$0.5 billion, and decreased \$7.7 billion from the comparable 2014 period primarily due to lower earnings and working capital changes.

During the first quarter of 2015, the Corporation issued \$8.0 billion of long-term debt and used part of the proceeds to reduce short-term debt. Net cash used in financing activities of \$0.9 billion in the first three months of 2015 was \$7.0 billion lower than 2014 reflecting the 2015 debt issuance and a lower level of purchases of shares of ExxonMobil stock in 2015.

During the first quarter of 2015, Exxon Mobil Corporation purchased 20 million shares of its common stock for the treasury at a gross cost of \$1.8 billion. These purchases included \$1 billion to reduce the number of shares outstanding with the balance used to acquire shares in conjunction with the company's benefit plans and programs. Shares outstanding decreased from 4,201 million at year-end to 4,181 million at the end of the first quarter 2015. Purchases may be made in both the open market and through negotiated transactions, and may be increased, decreased or discontinued at any time without prior notice.

The Corporation distributed to shareholders a total of \$3.9 billion in the first quarter of 2015 through dividends and share purchases to reduce shares outstanding.

Total cash and cash equivalents of \$5.2 billion at the end of the first quarter of 2015 compared to \$5.8 billion at the end of the first quarter of 2014.

Total debt of \$32.8 billion compared to \$29.1 billion at year-end 2014. The Corporation's debt to total capital ratio was 15.6 percent at the end of the first quarter of 2015 compared to 13.9 percent at year-end 2014.

The Corporation has access to significant capacity of long-term and short-term liquidity. Internally generated funds are expected to cover the majority of financial requirements, supplemented by long-term and short-term debt.

The Corporation, as part of its ongoing asset management program, continues to evaluate its mix of assets for potential upgrade. Because of the ongoing nature of this program, dispositions will continue to be made from time to time which will result in either gains or losses. Additionally, the Corporation continues to evaluate opportunities to enhance its business portfolio through acquisitions of assets or companies, and enters into such transactions from time to time. Key criteria for evaluating acquisitions include potential for future growth and attractive current valuations. Acquisitions may be made with cash, shares of the Corporation's common stock, or both.

Litigation and other contingencies are discussed in Note 3 to the unaudited condensed consolidated financial statements.

TAXES

	First Three Months	
	2015	2014
	<i>(millions of dollars)</i>	
Income taxes	1,560	5,857
<i>Effective income tax rate</i>	<i>33%</i>	<i>45%</i>
Sales-based taxes	5,530	7,416
All other taxes and duties	7,274	8,857
Total	14,364	22,130

Income, sales-based and all other taxes and duties totaled \$14.4 billion for the first quarter of 2015, a decrease of \$7.8 billion from 2014. Income tax expense decreased by \$4.3 billion to \$1.6 billion reflecting lower pre-tax income and a

lower effective tax rate. The effective income tax rate was 33 percent compared to 45 percent in the prior year period due primarily to a lower share of earnings in higher tax jurisdictions. Sales-based taxes and all other taxes and duties decreased by \$3.5 billion to \$12.8 billion as a result of lower sales realizations.

CAPITAL AND EXPLORATION EXPENDITURES

	First Three Months	
	2015	2014
	<i>(millions of dollars)</i>	
Upstream (including exploration expenses)	6,417	7,264
Downstream	621	540
Chemical	654	630
Other	12	2
Total	7,704	8,436

Capital and exploration expenditures in the first quarter of 2015 were \$7.7 billion, down 9 percent from the first quarter of 2014, in line with plan. The Corporation anticipates an average investment profile of about \$34 billion per year for the next few years. Actual spending could vary depending on the progress of individual projects and property acquisitions.

In 2014, the European Union and United States imposed sanctions relating to the Russian energy sector. ExxonMobil continues to comply with all sanctions and regulatory licenses applicable to its affiliates' investments in the Russian Federation.

RECENTLY ISSUED ACCOUNTING STANDARDS

In May 2014, the Financial Accounting Standards Board issued a new standard, *Revenue from Contracts with Customers*. The standard establishes a single revenue recognition model for all contracts with customers, eliminates industry specific requirements and expands disclosure requirements. The standard is required to be adopted beginning January 1, 2017. ExxonMobil is evaluating the standard and its effect on the Corporation's financial statements.

FORWARD-LOOKING STATEMENTS

Statements relating to future plans, projections, events or conditions are forward-looking statements. Actual results, including project plans, costs, timing, and capacities; capital and exploration expenditures; resource recoveries; and share purchase levels, could differ materially due to factors including: changes in oil or gas prices or other market or economic conditions affecting the oil and gas industry, including the scope and duration of economic recessions; the outcome of exploration and development efforts; changes in law or government regulation, including tax and environmental requirements; the outcome of commercial negotiations; changes in technical or operating conditions; and other factors discussed under the heading "Factors Affecting Future Results" in the "Investors" section of our website and in Item 1A of ExxonMobil's 2014 Form 10-K. We assume no duty to update these statements as of any future date.

The term "project" as used in this report can refer to a variety of different activities and does not necessarily have the same meaning as in any government payment transparency reports.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Information about market risks for the three months ended March 31, 2015, does not differ materially from that discussed under Item 7A of the registrant's Annual Report on Form 10-K for 2014.

Item 4. Controls and Procedures

As indicated in the certifications in Exhibit 31 of this report, the Corporation's Chief Executive Officer, Principal Financial Officer and Principal Accounting Officer have evaluated the Corporation's disclosure controls and procedures as of March 31, 2015. Based on that evaluation, these officers have concluded that the Corporation's disclosure controls and procedures are effective in ensuring that information required to be disclosed by the

Corporation in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to them in a manner that allows for timely decisions regarding required disclosures and are effective in ensuring that such information is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. There were no changes during the Corporation's last fiscal quarter that materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Regarding the criminal charges filed against XTO Energy Inc. (XTO) by the Pennsylvania Attorney General's Office pertaining to XTO's Marquardt Well Site in Penn Township, Pennsylvania, reported most recently in the Corporation's 2013 Form 10-K, in pre-trial proceedings on April 14, 2015, the Pennsylvania Court of Common Pleas issued an order denying XTO's motion to dismiss the case.

With respect to the enforcement action filed by the United States, on behalf of the United States Environmental Protection Agency (USEPA), and the State of Arkansas, on behalf of the Arkansas Department of Environmental Quality, against ExxonMobil Pipeline Company (EMPCo) related to the discharge of crude oil from the Pegasus Pipeline in Mayflower, Faulkner County, Arkansas, previously reported in the Corporation's Forms 10-Q for the first, second, and third quarters of 2013, and the first and second quarters of 2014, and in its 2014 Form 10-K, EMPCo has reached an agreement with the United States and the State of Arkansas on a Consent Decree to resolve the matter. The Consent Decree, if approved by the court, would require EMPCo to pay a civil penalty to the United States of \$3.19 million and to pay the State of Arkansas \$1.88 million consisting of a \$1 million civil penalty, \$600,000 towards a supplemental environmental project, and \$280,000 to reimburse expenses of the Arkansas Attorney General's Office. In addition, the Consent Decree would require EMPCo to conduct enhanced training, stage additional spill response equipment, and enhance integrity treatment of the pipeline. The Consent Decree was lodged with the court on April 22, 2015. A 30-day public comment period began on April 28, 2015, when the Consent Decree was published in the Federal Register.

As reported most recently in the Corporation's 2014 Form 10-K, in December 2014, XTO agreed to a settlement with the Department of Justice, USEPA and the West Virginia Department of Environmental Protections (WVDEP) concerning administrative orders alleging Clean Water Act violations issued by the USEPA with regard to eight XTO locations in West Virginia, five of which were voluntarily disclosed by XTO to the USEPA. Pursuant to the settlement, XTO will pay a civil penalty of \$2.3 million and has entered into a Consent Decree with the Department of Justice, USEPA and WVDEP. The Consent Decree requires XTO to prepare and submit restoration plans for approval by USEPA and WVDEP and conduct approximately \$3.0 million in restoration and mitigation activities at the impacted locations or at alternative locations approved by the USEPA and WVDEP. On April 24, 2015, the United States District Court for the Northern District of West Virginia approved the Consent Decree.

Refer to the relevant portions of Note 3 of this Quarterly Report on Form 10-Q for further information on legal proceedings.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**Issuer Purchase of Equity Securities for Quarter Ended March 31, 2015**

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
January 2015	6,510,349	\$90.44	6,510,349	
February 2015	6,184,584	\$90.56	6,184,584	
March 2015	7,411,392	\$85.24	7,411,392	
Total	20,106,325	\$88.56	20,106,325	(See Note 1)

Note 1 - On August 1, 2000, the Corporation announced its intention to resume purchases of shares of its common stock for the treasury both to offset shares issued in conjunction with company benefit plans and programs and to gradually reduce the number of shares outstanding. The announcement did not specify an amount or expiration date. The Corporation has continued to purchase shares since this announcement and to report purchased volumes in its quarterly earnings releases. In its most recent earnings release dated April 30, 2015, the Corporation stated that second quarter 2015 share purchases to reduce shares outstanding are anticipated to equal \$1 billion. Purchases may be made in both the open market and through negotiated transactions, and purchases may be increased, decreased or discontinued at any time without prior notice.
