SHAREHOLDERS ENTITLED TO VOTE AND SHARES OUTSTANDING

The Board of Directors of the Company fixed the close of business on February 23, 2007 as the record date (the "Record Date") for determining shareholders entitled to notice of and to vote at the Annual Meeting. As of the Record Date, there were 45,000,000 shares of common stock, \$.10 par value (the "Common Stock"), authorized, of which xx,xxx,xxx shares of common stock were outstanding. Each share of Common Stock is entitled to one vote on each matter submitted to a vote of the shareholders of the Company. Votes cast by proxy or in person at the Annual Meeting will be tabulated by the inspectors of election appointed for the Annual Meeting and will be counted as present for purposes of determining whether a quorum is present. A majority of the outstanding shares of Common Stock, present in person or represented by proxy, will constitute a quorum for the transaction of business at the Annual Meeting. Abstentions and broker non-votes will be counted for purposes of determining the presence or absence of a quorum but will not be counted as votes cast on any matter submitted to shareholders. As a result, abstentions and broker non-votes will not have any effect on the voting results with respect to any of the matters scheduled to be submitted to shareholders at the Annual Meeting, except that abstentions and broker non-votes will have the effect of a vote against the amendment to the Company's Restated Articles of Incorporation.

Two directors will be elected at the Annual Meeting this year. Directors are elected by the affirmative vote of a plurality of the shares voted (i.e., the two nominees who receive the most votes will be elected).

Thomas L. Young and R. Scott Trumbull have been nominated to serve as directors of the Company for terms expiring in 2010. Messrs. Young and Trumbull are currently directors of the Company. The nominees have indicated their willingness to serve as a director if elected. If, however, any nominee is unwilling or unable to serve as a director, shares represented by the proxies will be voted for the election of another nominee proposed by the Board of Directors or the Board may reduce the number of directors to be elected at the Annual Meeting.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR THE ELECTION OF EACH NOMINEE.

INFORMATION ABOUT THE BOARD AND ITS COMMITTEES**Director Independence**

The Board of Directors of the Company has determined that each of the current directors, except for R. Scott Trumbull, Chairman of the Board and Chief Executive Officer of the Company, is an “independent director” in compliance with the independence standards set forth in the Company’s Corporate Governance Guidelines and under the applicable rules adopted by The NASDAQ Stock Market (“NASDAQ”). In making its independence determinations, the Board concluded that no director has any relationship with the Company, except as a director and stockholder, and except further that the Company sold a *de minimis* amount (under \$5,000) of products to Graco, Inc., for whom Mr. Roberts serves as President and Chief Executive Officer.

Meetings

The Board held five (5) regularly scheduled meetings and four (4) special meetings during 2006. Each director attended at least 75 percent of the aggregate meetings of the Board and Board committees of which he or she was a member during the period that each served as a director. All directors, who were members of the Board at that time, attended the 2006 Annual Meeting of Shareholders.

Committees

The committees of the Board are: the Audit Committee, the Management Organization and Compensation Committee and the Corporate Governance Committee.

- 9 -

Audit Committee. The current members of the Audit Committee are Jerome D. Brady (Chairman), Diana S. Ferguson, and Thomas L Young. The Board of Directors has determined that each member of the Audit Committee is an “independent director” in compliance with the independence standards set forth in the Company’s Corporate Governance Guidelines and under the applicable NASDAQ rules. The Board of Directors has adopted an Audit Committee charter, a copy of which is available on the Company’s website at www.fele.com under “Corporate Governance,” that sets forth the duties and responsibilities of the Audit Committee. Under its charter, the Audit Committee assists the Board of Directors in fulfilling its oversight responsibilities by reviewing the financial information, which will be provided to shareholders and others, the system of internal control which management has established the Company’s process for monitoring compliance with laws and regulations, and the audit process. It is the general responsibility of the Audit Committee to advise and make recommendations to the Board of Directors in all matters regarding the Company’s accounting methods and internal control procedures. The Audit Committee is also responsible for the review, approval, or ratification of transactions between the Company and “related persons.” The Audit Committee reviews information compiled in response to the Directors’ and Officers’ Questionnaires or otherwise developed by the Company with respect to any transactions with the Company in which any director, executive officer, or any member of his or her immediate family, have a direct or indirect material interest. In 2006, there were no such transactions. The Audit Committee held four (4) meetings in 2006.

Management Organization and Compensation Committee. The current members of the Management Organization and Compensation Committee (the “Compensation Committee”) are Howard B. Witt (Chairman), David A. Roberts and David M. Wathen. The Board of Directors has determined that each member of the Compensation Committee is an “independent director” in compliance with the independence standards set forth in the Company’s Corporate Governance Guidelines and under applicable NASDAQ rules. The Board of Directors has adopted a Compensation Committee charter, a copy of which is available on the Company’s website at www.fele.com under “Corporate Governance,” that sets forth the duties and responsibilities of the Compensation Committee. Under its charter, the Compensation Committee determines and approves the annual salary, bonus and other benefits of the chief executive officer and the other executive officers of the Company; reviews and submits to the Board of Directors recommendations concerning stock plans; periodically reviews the Company’s policies in the area of management benefits; and oversees the Company’s management development and organization structure. The Compensation Committee held three (3) meetings in 2006.

Corporate Governance Committee. The current members of the Governance Committee are Thomas L. Young (Chairman), Diana S. Ferguson, David A. Roberts, and David M. Wathen. The Board of Directors has determined that each member of the Governance Committee is an “independent director” in compliance with the independence standards set forth in the Company’s Corporate Governance Guidelines and under applicable NASDAQ rules. The Board of Directors has adopted a Governance Committee charter, a copy of which is available on the Company’s website at www.fele.com under “Corporate Governance,” that sets forth the duties and responsibilities of the Governance Committee. Under its charter, the Governance Committee reviews the size of the Company’s Board of Directors and committee structure and recommends appointments to the Board and the Board Committees; reviews and recommends to the Board of Directors the compensation of nonemployee directors including grants of awards to nonemployee directors under the Company’s equity based and incentive compensation plans; and develops such corporate governance guidelines deemed necessary for the Company. The Governance Committee held three (3) meetings in 2006.

The Governance Committee is also responsible for identifying and recommending to the Board candidates for director. The Governance Committee seeks to identify as candidates for director persons from various backgrounds and with a variety of life experiences who have a reputation for and a record of integrity and good business judgment. The Governance Committee also considers whether a person has experience in a highly responsible position in a profession or industry relevant to the conduct of the Company's business. The Governance Committee takes into account the current composition of the Board and the extent to which a person's particular expertise, experience and ability and willingness to make an appropriate time commitment will complement the expertise and experience of other directors. Candidates for director should also be free of conflicts of interest or relationships that may interfere with the performance of their duties. Based on its evaluation and consideration, the Governance Committee submits its recommendation for director candidates to the full Board of Directors, which is then responsible for selecting the candidates to be elected by the shareholders.

The Governance Committee will consider as candidates for director persons recommended or nominated by shareholders. Shareholders may recommend candidates for directors by writing to the Secretary of the Company at the address listed below under "Other Corporate Governance Matters." Nominations of directors may be made by any shareholder entitled to vote in the election of directors, provided that written notice of intent to make a nomination is given to the Secretary of the Company not later than ninety (90) days prior to the anniversary date of the immediately preceding annual meeting of shareholders. The notice must set forth: (i) information regarding the proposed nominee as would be required to be included in a proxy statement filed pursuant to the proxy rules of the SEC, and (ii) the consent of such nominee to serve as a director of the Corporation if so elected.

Other Corporate Governance Matters

The Board of Directors has adopted Corporate Governance Guidelines, a copy of which is available on the Company's website at www.fele.com under "Corporate Governance," that provide, among other things, that the Company's independent directors will meet in executive session, outside the presence of the non-independent directors and management, at least twice a year. In 2006, the independent directors met in executive session five (5) times.

Shareholders may contact the Board of Directors, any Board committee, any independent director or any other director by writing to the Secretary of the Company as follows:

Attention: [Board of Directors]
[Board Committee] [Board Member]
c/o Corporate Secretary

Copies of the Company's corporate governance documents, including the Board Committee charters and the Corporate Governance Guidelines are available upon written request to the Secretary of the Company at the address listed above.

In compliance with Section 406 of the Sarbanes-Oxley Act of 2002, the Company has adopted a code of business conduct and ethics for its directors, principal financial officer, controller, principal executive officer, and other employees. The Company has posted its code of ethics on the Company website at <http://www.fele.com>. The Company will disclose any amendments to the Code and any waivers from the Code for directors and executive officers by posting such information on its website.

COMPENSATION DISCUSSION AND ANALYSIS

Management Organization and Compensation Committee

The Management Organization and Compensation Committee of the Board of Directors (the “Committee”), composed entirely of independent directors, has responsibility for establishing, implementing and monitoring adherence with the Company’s compensation program. The role of the Committee is to oversee, on behalf of the Board and for the benefit of the Company and its shareholders, the Company’s compensation and benefit plans and policies, administer its stock plans (including reviewing and approving equity grants to directors and executive officers) and review and approve annually all compensation decisions relating to the Chairman and CEO and the other executive officers of the Company. The Committee meets a minimum of three times annually to review executive compensation programs, approve compensation levels and performance targets, review management performance, and approve final executive bonus distributions.

The Committee operates in accordance with a charter, most recently revised in December 2006, which sets forth its rights and responsibilities. The Committee and the Board annually review the charter.

Compensation Philosophy and Objectives

The Company and the Committee believe that compensation paid to executive officers should be closely aligned with the performance of the Company on both a short-term and long-term basis, and that such compensation should assist the Company in attracting and retaining key executives critical to the Company’s long-term success. Compensation should be structured to ensure that a significant portion of the executive’s compensation opportunities will be directly related to Company stock performance and other factors that directly and indirectly influence shareholder value. The compensation consultant retained by the Committee provides information on compensation packages of companies in the Company’s general industry group to aid in the design of compensation packages for the Company’s executive officers. The consultant adjusts the compensation data for differences in company market capitalization and revenues to assist the Committee in establishing compensation packages it deems appropriate for the Company’s size. The Committee encourages superior short-term performance through the use of annual performance targets for the purpose of determining cash incentives and superior longer-term performance through stock incentive vehicles designed to closely align an executive’s reward to that of the shareholders. For the Company’s most senior executive officers, including the five executive officers named in this proxy statement, the cash incentive compensation is designed to reward Company-wide performance through tying rewards primarily to return on net assets and earnings growth. For other executive officers, the cash incentive compensation is designed to reward the achievement of specific operational goals within areas under their control, although Company-wide performance is also a factor. Equity compensation is in the form of restricted stock, which uses return on invested capital as its performance goal, and stock options. The Company also has retirement benefits available for its executive officers and under certain circumstances described below, change in control benefits.

Role of Executive Officers and Compensation Consultant

The Committee makes all compensation decisions for the Chairman and CEO and all other executive officers of the Company. The Chairman and CEO annually review the performance of each executive officer. The conclusions reached and recommendations based on these reviews, including with respect to salary adjustments and annual award amounts, are presented to the Committee. The Committee considers the CEO’s recommendation when making its final compensation decision for all executives other than the CEO.

The Committee utilizes the Human Resource Department and also has the authority under its charter to engage the services of outside consultants to assist the Committee. In accordance with this authority, the Committee in 2006 engaged the services of Hewitt Associates, an independent outside global human resources consulting firm, to conduct annual reviews of its total compensation program for the Chairman, CEO and other executive officers, and to provide advice to the Committee in the design and implementation of its executive compensation program.

Setting Executive Compensation

The Company intends to continue its strategy of compensating its executives through programs that emphasize performance-based incentive compensation. The Company has structured annual and long-term cash and non-cash executive compensation to motivate executives to achieve the business goals set by the Company and rewards the executives for achieving such goals. For the executive officers, including the named executive officers in the Summary Compensation Table, the current compensation package includes a base salary, an annual cash incentive, and grants of stock options and/or awards of restricted stock. Base salary is intended to provide a certain level of income commensurate with an executive's position, responsibilities, and contributions to the Company. The Committee believes the combined value of base salary plus annual cash incentive is competitive with the salary and bonus provided to similarly situated executives as reflected in salary and trend data surveys provided by Hewitt Associates for companies in the general manufacturing industry. In allocating compensation among these components the Committee believes that the compensation of the Company's senior most levels of management, the levels of management having the greatest ability to influence the Company's performance, should be predominately performance based, while lower levels of management should receive a greater portion of their compensation as base salary. The total compensation approved by the Committee in 2006 (consisting of base salary, cash incentives, and equity awards) was in the 55th - 60th percentile of the total compensation paid to executives in the comparator group of companies.

Base Salary

Base salary ranges are established using a specific cross section of industrial companies of similar market capitalization and revenue developed by Hewitt Associates as well as other market data. Executive positions are individually benchmarked against these survey sources annually to establish a competitive salary range for each position, which is typically targeted to be at or slightly above the median of the survey results.

The actual base salary of each executive officer relative to the target established above is determined by the executive's performance, which is evaluated annually by the CEO and reviewed and approved by the Committee. In the case of the CEO, the Committee also considers the performance of the Company during the three years during which he has held his position, and the anticipated level of difficulty of replacing the CEO with someone of comparable experience and skill. Based on these factors, the Committee established the CEO's base salary at \$555,000 per year in February 2006. Salaries for the named executive officers are set forth on the Summary Compensation Table.

The Committee adjusted salaries for 2007, effective as of April 1, 2007. The adjusted salaries for the executive officers named in the Summary Compensation Table are: Mr. Trumbull: \$615,000; Mr. Strupp: \$240,240; Mr. Maske: \$342,400; Mr. Sengstack: \$286,520; and Mr. Stone: \$275,525.

Annual Cash Incentive Award

The executive officers of the Company are eligible to participate in the Executive Officer Annual Incentive Cash Bonus Program. Based on market data provided by Hewitt Associates that include compensation of industrial companies of similar capitalization and revenues, the Committee annually establishes a target bonus opportunity, which is typically targeted at the 50th - 60th percentile of the cash incentive opportunity of the comparator group of companies.

Under the program, the Committee approves an annual incentive cash bonus calculation for the executive officers taking into account certain financial performance targets and, for executive officers other than the CEO, the individual's strategic task accomplishments. The Company's financial performance targets in 2006 were pre-tax return on net assets, earnings per share and, for executive officers other than the CEO, individual business unit financial results based on earnings before interest and taxes (EBIT). The maximum bonus possible as a percent of base salary was established at above median market levels (75% of salary for executive officers other than the CEO and 100% for the CEO) with the target bonus levels set at 67.5% of salary for executive officers other than the CEO and 90% of salary for the CEO. Return on net assets for 2006 of 40.8% exceeded the target of 36.9% and earnings per share for 2006 of \$2.43 exceeded the target of \$2.20. In 2006, each executive (other than the CEO, whose incentive is based entirely on Company performance targets) met his business unit EBIT goal and individual goals at a level such that, combined with the corporate performance defined above, payouts exceeding target levels but less than maximum levels were made to all named executive officers. Specifically, the named executive officers other than the CEO received a 2006 cash incentive equal to 69.8% - 73.5% of salary, and the CEO received a cash incentive equal to 99% of salary).

Based on market survey data supplied by Hewitt Associates, and to maintain a competitive level of compensation for executive officers, the maximum bonus levels established for 2007 have been set at 110% of salary for executive officers other than the CEO and 150% for the CEO. The target bonus levels established for 2007 (67.5%) remain at the same level as in 2006 for executive officers other than the CEO. The target bonus level for the CEO increased from 90% of base salary in 2006 to 100% in 2007.

Long Term Incentive Compensation

In 2006, the Committee made grants of stock options and restricted stock with performance goals to certain executive officers, including the CEO, under the Company's shareholder-approved stock plans. The purpose of these equity incentives is to encourage stock ownership, offer long-term performance incentive and to more closely align the executive's compensation with the return received by the Company's shareholders. Based on market data provided by Hewitt Associates that includes compensation of industrial companies of similar capitalization and revenues, the Committee annually establishes for each executive (by comparable job position) an amount of compensation to be awarded in the form of equity, which is typically targeted at the 50th - 60th percentile of the equity compensation paid for comparable job positions in the comparator group of companies. Half of the equity compensation is paid in the form of options, and half is paid in restricted stock. In 2006, the Committee made stock option grants ranging from 3,900 shares to 18,500 shares, and awarded restricted stock ranging from 1,400 shares to 6,700 shares, to the executive officers named in the Summary Compensation Table. Grants of stock options and restricted stock are typically made on an annual basis at the Committee's February meeting following the public release of the Company's fiscal year-end results. Stock options have an exercise price equal to 100% of the fair market value of the Company's common stock on the date of grant. Restricted stock vests at the end of four years if certain Company performance goals are met. For additional information about the material terms of these awards, see the narrative disclosure under the Summary Compensation Table.

In February 2007, the Committee approved stock option grants ranging from 3,600 to 14,500 shares, and restricted stock awards ranging from 2,300 to 9,400 shares, to the executive officers named in the Summary Compensation Table.

Stock Ownership Guidelines

In December 2006, the Board of Directors approved stock ownership guidelines for the executives of the Company, pursuant to which executive and non-employee directors are required to maintain ownership in the Company's common stock as follows:

CEO: Direct ownership in Company common stock equal to five times annual base salary.

Senior Vice Presidents: Direct ownership in Company common stock equal to three times annual base salary.

Corporate Vice Presidents: Direct ownership in Company common stock equal to one times annual base salary.

Non-employee Directors: Direct ownership in Company common stock equal to four times the annual retainer.

An individual has five years to comply with these guidelines. All shares held directly or beneficially, including shares of restricted stock, and shares credited under the Company's Direct Investment Salary Plan, Employee Stock Ownership Plan and Nonemployee Directors' Deferred Compensation Plan count toward these targets.

Retirement Plans

The Company has three defined benefit pension plans and two defined contribution retirement plans in which certain of the named executive officers currently participate.

Basic Retirement Plan

The Basic Retirement Plan is a tax-qualified plan that covers most union, hourly, and salaried employees in the U.S. Under the Basic Retirement Plan, a participant retiring at age 65 is eligible to receive a monthly single life annuity equal to his credited service times a flat dollar amount (\$25 for U.S. salaried employees). Participants age 55 or older with 10 years of vesting service may retire prior to age 65 with a reduced benefit. All named executive officers except Mr. Maske currently participate in the Basic Retirement Plan. Mr. Maske, who is a resident of Germany, currently participates in a pension plan sponsored by the Company's German subsidiary.

Cash Balance Pension Plan

The Cash Balance Pension Plan is a tax-qualified plan that covers most salaried employees in the U.S. Under the Cash Balance Pension Plan, a participant is eligible to receive the amount credited to his or her account or a monthly single life annuity based on the amount credited to his or her account. The Plan benefits consist of:

- an opening balance for participants in the Plan at December 31, 1999, equal to the present value of the participant's accrued benefit earned at December 31, 1999 under the applicable prior pension plan;
- pay credits equal to a percentage of eligible compensation based on credited service and transition credits from 200-2004 equal to 6% of eligible compensation for participants with 45 points (age plus service) at December 31, 1999; and
- interest credits based on the 30-year Treasury rate for the November preceding each plan year.

All named executive officers other than Mr. Maske currently participate in the Cash Balance Plan.

Pension Restoration Plan

In order to provide eligible employees, including named executive officers other than Mr. Maske, with the portion of their retirement benefits that cannot be paid under the tax-qualified pension plans, the Company maintains the Pension Restoration Plan. The Plan, which is non-qualified, provides retirement benefits to eligible executives based on all eligible compensation including compensation in excess of Internal Revenue Code limits. The benefit of Mr. Trumbull and Mr. Sengstack is determined applying a formula based on credited service and final average compensation, with an offset for benefits provided by the Basic Retirement Plan, Cash Balance Pension Plan, and Social Security. The benefit of Mr. Stone and Mr. Strupp is determined applying the Cash Balance Pension Plan formula for all eligible compensation, offset for benefits provided by the Cash Balance Pension Plan.

Direct Investment Salary Plan (DISP)

The (DISP) is a tax qualified 401(k) plan that covers all U.S. employees including the named executive officers other than Mr. Maske. An employee can elect to defer 1-50% of his compensation on a pre-tax basis and the Company will contribute up to 3% on the employee's first 5%, (table listed below), taking into consideration Internal Revenue Code compensation limits. (The compensation limit was \$220,000 in 2006.)

Employee Contribution Company Match

1% 1.0%

2% 1.5%

3% 2.0%

4% 2.5%

5% 3.0%

Employee Stock Ownership Plan (ESOP)

The ESOP is a tax qualified retirement plan that covers most U.S. employees. All eligible employees, which include the named executive officers other than Mr. Maske, receive a Company contribution equal to ½% of annual compensation, taking into consideration the Internal Revenue Code compensation limits. The Plan invests all contributions primarily in Company stock.

Perquisites and Other Personal Benefits

The Company does not provide the named executive officers with perquisites or other personal benefits such as Company vehicles, club memberships, financial planning assistance, tax preparation, or other benefits not described above. The only exception is that the Company provides use of a vehicle to Mr. Maske as part of his employment agreement described below. The value of this benefit (\$12,500) is disclosed in the Summary Compensation Table.

Agreements

The Company has employment agreements with Mr. Trumbull, Mr. Strupp, Mr. Sengstack, and Mr. Maske.

The agreements with Messrs. Trumbull, Sengstack, and Strupp are three-year agreements, which automatically extend for an additional year unless either party gives notice not to renew. If the agreement is not renewed by the Company, and the executive terminates his employment, the executive is entitled to a payment equal to 12 months of salary and the bonus paid for the preceding year, a pro-rata portion of the bonus paid for the prior year, continued participation in the Company's benefit plans for 12 months, and immediate vesting of all stock options. If the executive's employment is terminated without cause by the Company or for good reason by the executive (as defined in the agreements), the executive is entitled to these same benefits, except that Messrs. Trumbull and Sengstack are entitled to 18 months plus 1½ times the bonus paid for the preceding year and 18 months of benefits continuation. If the executive's employment is terminated without cause by the Company or for good reason by the executive following a change in control of the Company, the executive is entitled to receive a payment equal to 36 months of continued salary, three times the bonus paid for the preceding year (24 months of salary and two times bonus for Mr. Strupp), a pro-rata portion of the bonus paid for the prior year, continued participation in the Company's benefit plans for 36 months, (24 for Mr. Strupp), and immediate vesting and cashout of outstanding options. In addition, the executive will receive a gross-up to cover any liability arising under Internal Revenue Code Section 280G as a result of the payments. Under his agreement, Mr. Trumbull is deemed to have five years of full-time service with the Company as of January 1, 2003 for purposes of vesting provisions and benefit accruals under certain employee benefits plans of the Company under the agreement.

The employment agreement with Mr. Maske continues until attainment of age 65 (or state pension eligibility if earlier), subject to the earlier termination by either party upon six months prior written notice. If the agreement is terminated, the Company is required to provide continued compensation and health benefits for six months following the termination notice. If termination is effected in connection with a change in control of the Company, the Company is required to provide continued compensation and health benefits for two years from the earlier of the date of termination or the change in control.

Messrs. Trumbull, Sengstack, Stone and Strupp have each signed a confidentiality and non-compete agreement with the Company. Under this agreement, they agree to maintain all confidential information of the Company, and for a period of 18 months after termination of employment from the Company they agree not to, directly or indirectly, participate in the design, development, manufacture, or distribution of electrical submersible motors or related products in competition with the Company.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code limits the deductibility for federal income tax purposes of executive compensation paid to the CEO and the four other most highly compensated officers of a public company to \$1,000,000 per year, but contains an exception for certain performance-based compensation. Base salary, by its nature, does not qualify as performance-based compensation under Section 162(m) and the Company's annual incentive cash bonus payments do not qualify as performance-based compensation under Section 162(m). The Company's grants of stock options and restricted stock under its stock award plans qualify as performance-based compensation under Section 162(m). In 2006, the CEO earned a combined base and incentive cash award that exceeded the Section 162(m) limit by \$96,100. The Board of Directors previously concluded that the adverse tax consequences to the Company of paying compensation in excess of \$1,000,000 was not so significant at the proposed combined compensation level that Section 162(m) needed to be considered in the compensation setting process.

Basic Retirement Plan

The Basic Retirement Plan covers most union, hourly, and salaried employees in the U.S. Under the Basic Retirement Plan, a participant retiring at normal retirement age (age 65) is eligible to receive a monthly single life annuity equal to their credited service times a flat dollar amount based on union negotiations, location, and classification of employee. The flat dollar amount ranges from \$10.00 to \$27.50. All U.S. salaried employees, including the name executive officers, receive a benefit equal to credited service times \$25. Participants age 55 or older with ten years of vesting service may retire prior to age 65 with a reduced benefit.

- 25 -

Cash Balance Pension Plan

The Cash Balance Pension Plan covers most salaried employees in the U.S. Under the Cash Balance Pension Plan, a participant retiring at normal retirement age is eligible to receive the amount credited to his or her cash balance account or a monthly single life annuity determined actuarially based on the amount credited to his or her cash balance account. The cash balance account consists of

- An opening cash balance for participants in the plan at December 31, 1999, equal to the present value, using stated actuarial assumptions, of the participant's accrued benefit earned at December 31, 1999 under the applicable prior pension plan;
 - Pay credits that are equal to a percentage of eligible compensation based on credited service;
 - Interest credits based on the 30-year Treasury rate for the November preceding each plan year; and
- Transition credits equal to 6% of eligible compensation for participants with 45 points (age plus service) at December 31, 1999. The transition credits only apply for plan years 2000-2004.

After earning five years of vesting service, upon termination, the employees are eligible to take their cash balance account as a lump sum, an actuarial equivalent annuity, or defer benefit commencement until age 65.

Pension Restoration Plan

To allow retirement benefits to be based on participant's total compensation, Franklin Electric Co., Inc. adopted the Pension Restoration Plan, which is a nonqualified unfunded plan. All benefits provided under this plan are payable out of general corporate assets. The plan provides retirement benefits to eligible executives based on all eligible compensation including compensation in excess of Internal Revenue Code maximums. All named executive officers, except Mr. Maske, participate.

For Mr. Trumbull and Mr. Sengstack, the benefit is determined applying a formula based on credited service, final average compensation, and offset for benefits provided by the Basic Retirement Plan, Cash Balance Pension Plan, and Social Security. For Mr. Stone and Mr. Strupp, the benefit is determined applying the Cash Balance Pension Plan formula for all eligible compensation offset for benefits provided by the Cash Balance Pension Plan.

Present Value of Accumulated Benefit

The assumed retirement age used for these calculations is the age at which the participant is eligible to receive unreduced benefits (age 62 with 25 years of service with respect to Messrs. Sengstack and Stone, and age 65 with respect to Messrs. Trumbull and Strupp). All other assumptions used in determining the present value of benefits are the same assumptions used for financial reporting purposes and can be found in the Company's Annual Report.

Potential Payments upon Termination or Change in Control of the Company

The Company provides benefits to certain of the named executive officers upon certain terminations of employment from the Company. These benefits are in addition to the benefits to which the executives would be entitled upon a termination of employment generally (i.e., vested retirement benefits accrued as of the date of termination, stock awards that are vested as of the date of termination and the right to elect continued health coverage pursuant to COBRA). The incremental benefits payable to the executives are described as follows:

Employment Agreements

The employment agreements of Messrs. Trumbull, Sengstack, and Strupp are three-year agreements, which automatically renew for an additional year unless either party provides advance written notice of an election not to extend the term. The agreements provide the following severance benefits:

- If the executive terminates his employment at any time during the term of the agreement after receipt of notice from the Company of its decision to not extend the term, he is entitled to the following:
 - ~ An immediate payment equal to a prorata portion of the bonus paid for the preceding year.
- ~ An immediate payment equal to 12 months of then current salary and one times the bonus paid for the preceding year.
 - ~ Immediate vesting of all outstanding stock options.
- ~ Continued participation in all of the Company's employee benefit plans for the severance period described in (ii) above.
- If a Change in Control of the Company has not occurred and the executive's employment is terminated by the Company for other than "Cause" or the executive terminates his employment for "Good Reason," he is entitled to the following:
 - ~ An immediate payment equal to a prorata portion of the bonus paid for the preceding year.
- ~ An immediate payment equal to 18 months of then current salary and one-half times the bonus paid for the preceding year (12 months and one times the bonus paid for the preceding year for Mr. Strupp).
 - ~ Immediate vesting of all outstanding stock options.
- ~ Continued participation in all of the Company's employee benefit plans for the severance period described in (ii) above.
 - If following a Change in Control of the Company (as defined in the agreements) the executive's employment is terminated within two years of the Change in Control by the Company for other than Cause or by the executive for Good Reason, or the executive terminates his employment at any time during the 13th month following the Change in Control, he is entitled to the following:
 - ~ An immediate payment equal to a prorata portion of the bonus paid for the preceding year.
- ~ An immediate payment equal to 36 months of then current salary and three times the bonus paid for the preceding year (24 months and two times the bonus paid for the preceding year for Mr. Strupp).

~ Immediate vesting and cash out of all outstanding stock options.

- 27 -

- ~ Continued participation in all of the Company's employee benefit plans for the severance period described in (ii) above.
- ~ A gross-up payment to cover any excise and related income tax liability arising under Section 280G of the Internal Revenue Code as a result of any payment or benefit under the agreement.

For purposes of the employment agreements:

- "Good Cause" means the executive's death or disability, his fraud, misappropriation of, or intentional material damage to, the property or business of the Company, his commission of a felony likely to result in material harm or injury to the Company, or his willful and continued material failure to perform his obligations.
- "Good Reason" exists if (a) there is a change in the executive's title or a significant change in the nature or the scope of his authority, (b) there is a reduction in the executive's salary or retirement benefits or a material reduction in the executive's compensation and benefits in the aggregate, (c) the Company changes the principal location in which the executive is required to perform services to more than fifty miles away, (d) the executive reasonably determines that, as a result of a change in circumstances significantly affecting his position, he is unable to exercise the authority or duties attached to his positions, or (e) any purchaser of substantially all of the assets of the Company declines to assume the obligations under the employment agreement.

The employment agreement of Mr. Maske continues until he attains the age of 65 or is entitled to receive state pension benefits. If Mr. Maske is unable to perform his duties due to illness not caused by him, he is entitled to receive continued salary for six months. In addition, upon his death, his spouse or other beneficiary is entitled to receive Mr. Maske's continued salary for three months. The Company or Mr. Maske can terminate the agreement early, by giving six months prior notice. In such case, the Company will continue to pay the following contractual remuneration to Mr. Maske for six months from the termination notice (or in the event of a termination in connection with a change in control of the Company, for 24 months following the earlier of the termination or change in control):

~ Continuation of his then annual compensation.

~ Continuation of current health benefits.

Pension Restoration Plan

The Pension Restoration Plan, in which all named executive officers other than Mr. Maske participate, provides that upon a Change in Control of the Company (as defined in the Plan), (i) all participants will become 100% vested in their benefits, which will be paid in an immediate lump sum within 60 days, and (ii) active participants will have three years of additional credit for age and service in determining their benefits under the Plan.

Stock Plan

The Company's Stock Plan provides that upon a Change in Control of the Company all outstanding awards become fully vested, all restrictions on any awards terminate or lapse and performance goals applicable to stock awards will be deemed satisfied at the highest level.

The table set forth below quantifies the additional benefits as described above that would be paid to each named executive officer, assuming a Change in Control of the Company (if applicable) occurred and the executives subsequently become eligible for benefits following a termination of employment on December 31, 2006.

The following table sets forth the severance and change in control benefits for each named executive officer under the specifically described scenarios as of December 31, 2006.

(2) Ms. Ferguson and Messrs. Brady, Roberts, Witt, and Young, received 1,371 shares and \$29.57 in cash. Mr. Wathen elected to defer his stock award into the Directors' Deferred Compensation Plan.

(3) Values represent 2006 earnings credited under the Directors' Deferred Compensation Plan.

Retainer and Fees

Nonemployee directors are paid an annual retainer of \$35,000 plus a fee of \$1,500 for each Board and Board committee meeting attended. The Audit Committee chairman receives an additional fee of \$6,000 and the Management Organization & Compensation and the Corporate Governance Committee chairmen receive an additional fee of \$3,500. Directors who are employees of the Company receive no additional compensation for serving on the Board or Board committees.

Stock Awards

Nonemployee directors participate in the Franklin Electric Co., Inc. Stock Plan (the "Stock Plan"). In 2006, the Corporate Governance Committee granted each non-employee director an award of 1,371 shares of the Company's common stock, which vested immediately upon grant and had a market value of \$80,000 on the April 28, 2006 date of grant.

Deferred Compensation

Nonemployee directors may participate in the Nonemployee Directors' Deferred Compensation Plan (the "Deferred Compensation Plan"). Under the Deferred Compensation Plan, each non-employee director may elect to defer, for each calendar year, all of his or her annual retainer, fees and stock award until his or her service on the Board terminates. At the time the director makes the deferral election, he or she must elect to have the deferred retainer and fees either (i) credited with interest on a monthly basis at the rate in effect for the Wells Fargo Stable Return Fund or (ii) converted into stock units, with credits equal to the cash dividends that would have been paid had the units been actual shares of common stock owned by the director. Deferred stock awards will also be converted into stock units and

credited with dividends. If the director does not elect to defer his or her compensation under the Deferred Compensation Plan, the director can elect to have the retainer paid in the form of cash or stock.

Consulting Directors' Plan

The Company maintained a Consulting Directors' Plan for non-employee directors who retire from Board service at age 70 or older. Pursuant to which, each director was eligible to enter into a consulting agreement with the Company; whereas the consulting director agrees to be available for consultation from time to time and is entitled to receive an annual fee for such services equal to the director's fee in effect at retirement. The consulting director can receive this fee up to the same number of years that were served as director. The Company amended the Consulting Directors' Plan to (i) limit future participation to the Company's non-employee directors first elected for service before 2003 (Messrs. Brady and Witt), and (ii) base the consulting fees on the retainer amount in effect as of June 1, 2006 and years of service as a director, as of June 1, 2006.

**APPROVAL OF AMENDMENT TO THE RESTATED ARTICLES OF INCORPORATION TO INCREASE
THE NUMBER OF SHARES OF
AUTHORIZED COMMON STOCK**

At its meeting on December 15, 2006, the Board of Directors unanimously adopted, subject to shareholder approval, an amendment to the Company's Restated Articles of Incorporation (the "Restated Articles of Incorporation") to increase the number of shares of common stock, par value \$.10 per share, authorized for issuance by 20,000,000 from 45,000,000 to 65,000,000 shares. If the amendment is approved by shareholders, ARTICLE VI of the Restated Articles of Incorporation would be amended to provide, in pertinent part, that the shares of authorized capital stock shall be divided into, among others, a class of "65,000,000 shares of Common Stock, par value \$.10 per share."

The Company currently is authorized to issue 45,000,000 shares of common stock. As of February 23, 2007, there were 10,988,572 shares of common stock issued and outstanding, and an additional 2,652,200 shares were reserved for issuance under the Company's benefit plans or upon exercise of options issued under such plans. As a result, as of February 23, 2007, a total of 11,359,228 authorized shares of common stock remained available for future issuance. Adoption of the proposed amendment would increase the number of authorized shares of common stock available for future issuance to 65,000,000 shares.

The additional shares of common stock for which authorization is sought would be part of the existing class of common stock and, if and when issued, would have the same rights and privileges as the currently outstanding shares of common stock. Holders of shares of common stock do not have preemptive rights to subscribe for and purchase any new or additional shares of common stock or securities convertible into shares of common stock.

The purpose of increasing the number of authorized shares of common stock is to provide additional authorized shares of common stock, which may be issued for such corporate purposes as the Board of Directors, may determine in its discretion, including, without limitation, stock splits, stock dividends or other distributions, future financings, acquisitions and benefit plans. The increase in the number of shares of common stock authorized for issuance would enable the Company, as the need may arise, to take timely advantage of market conditions and the availability of favorable opportunities without the delay and expense associated with the holding of a special meeting of its shareholders. Under the provisions of the Indiana Business Corporation Law, a board of directors may issue authorized but unissued shares of common stock without shareholder approval. Upon adoption of the amendment, the Board of Directors would be authorized to issue additional shares of common stock at such time or times, to such persons and for such consideration as it may determine, except as may otherwise be required by law. Although the Company anticipates that it may issue shares of common stock for one or more of the foregoing purposes, the Company has no firm plans, understanding or agreements for the issuance of any additional shares of common stock (other than the shares under its benefit and stock option plans). However, the Company has considered the possibility of a stock split, but any such decision would require Board approval and would only be made after further consideration of the availability of sufficient shares to fund the stock split, the stock price of the Company's Common Stock and then current market conditions.

Except as required by law or as a condition to continued inclusion in the NASDAQ National Market System, or listing on any stock exchange, which the shares of common stock may in the future be listed, it is unlikely that further authorization by vote of shareholders would be sought for any issuance of the shares of common stock. NASDAQ rules currently require shareholder approval as a condition of continued eligibility for designation as a National Market System security in several instances, including issuances of shares in acquisition transactions where the number of outstanding shares of common stock could increase by 20% or more.

The decision of the Board of Directors to propose an amendment increasing the number of shares of common stock authorized for issuance did not result from any effort by any person to accumulate the Company's stock or effect a change in control of the Company. However, one result of an increase may be to help the Board discourage or render more difficult a change in control. The additional shares could be used under certain circumstances to dilute the voting power of, create voting impediments for, or otherwise frustrate the efforts of, persons seeking to affect a takeover or gain control of the Company, whether or not the change of control is favored by a majority of unaffiliated shareholders. For example, such shares could be privately placed with purchasers who might side with the Board in opposing a hostile takeover bid. The issuance of any additional shares of common stock could also have the effect of diluting the equity of existing holders and the earnings per share of existing shares of stock.

The Company's Restated Articles of Incorporation and By-Laws contain certain provisions, which may be viewed as having an antitakeover effect. The Restated Articles of Incorporation and By-Laws classify the Board into three classes; provide that vacancies on the Board are to be filled by a majority vote of directors (except that shareholders may fill vacancies on the Board if a majority of the directors remaining in office are unable to agree on a person to fill a vacancy and, in that event, call a special meeting of shareholders for that purpose), and that directors so chosen shall hold office until the end of the full term of the class in which the vacancy occurred; and provide that directors may only be removed by a vote of the holders of not less than two-thirds of the outstanding voting shares at a meeting of shareholders. Under the Company's By-Laws, a shareholder who wishes to nominate a candidate for election to the Board of Directors or to introduce business to be considered at the annual meeting must give advance notice to the Company. If the election of directors is to take place at an annual meeting of shareholders, notice of a proposed nomination must be given no later than 90 days before the anniversary date of the prior annual meeting. If the election is to be held at a special meeting of shareholders called for that purpose, notice of a proposed nomination must be given not later than the close of business on the seventh day following the earlier of the date on which notice of the special meeting was first given to shareholders or the date on which public disclosure of the special meeting was made. Notice of business to be brought before an annual meeting of shareholders must be given no later than 90 days before the anniversary date of the prior meeting. The By-Laws further provide that special meetings of shareholders may only be called by the Chairman, President or a majority of the Board of Directors. Amendment of the provisions of the Restated Articles of Incorporation relating to the number and classes of directors as fixed by the By-Laws requires the vote of the holders of not less than two-thirds of the outstanding voting shares, whereas the By-Laws may be amended only by the Board of Directors of the Company. All of the foregoing provisions tend to make a change in control of the Board more difficult or time consuming.

In addition, on October 15, 1999, the Company adopted a Rights Agreement ("Rights Agreement") and issued, as a dividend, one right (a "Right") for each outstanding share of common stock. Each share of common stock issued since the date of that dividend also includes one Right. Each Right, when exercisable, entitles the holder to buy one one-hundredth of a share of Series I Junior Participating Preference Stock, without par value, of the Company, at an exercise price of \$300, subject to adjustment. The Rights become exercisable twenty (20) days after the date of a public announcement that a person or group (i) has acquired 15% or more of the voting power of the Company or (ii) has announced a tender or exchange offer, following which it would hold 30% or more of the Company's voting power. Upon the occurrence of certain specified events thereafter, each Right entitles the holder to acquire that number of shares of common stock of the Company (or shares of the acquirer under certain circumstances) having a market value of two times the exercise price of the Right. The Company may redeem the Rights at the price of \$.01 per Right prior to the occurrence of an event that causes the Rights to be exercisable. The Rights will expire on February 28, 2011. The Rights Agreement is designed to protect the value of the shareholders' investment in the Company, while preserving the possibility of a fair acquisition bid.

The affirmative vote of the holders of a majority of the votes entitled to be cast at the Annual Meeting is required to approve the amendment to the Restated Articles of Incorporation.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR APPROVAL OF THE AMENDMENT TO THE RESTATED CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF SHARES OF AUTHORIZED COMMON STOCK FROM 45,000,000 TO 65,000,000.
